Aims

The fund's investment objective is to achieve a total return over the medium term (3–5 years) by investing at least 80% in UK government bonds, also known as gilts. The fund's performance target is to outperform, after the deduction of charges, the FTSE Actuaries UK Conventional Gilts (All Stocks) Total Return GBP Index (the "Index") over rolling 5-year periods. For further information on the fund's index, please refer to the Prospectus.

Important Information

- Source of portfolio data: Broadridge. Source of performance data: FE fundinfo. We can't predict the future. Past performance isn't a guide to future performance. The figures shown are intended only to demonstrate performance history of the fund, after allowing for the impact of ongoing charges, but take no account of product charges. Ongoing charges may vary in the future and may be higher than they are now. Fund performance is based upon the movement of the daily price and is shown as total return in GBP with income reinvested. The value of your client's investment can go down as well as up and the amount your client gets back may be less than they put in.
