## Aims

The Fund aims to achieve a total return (the combination of income and capital growth), by outperforming the annual rate of the UK Consumer Price Index (CPI) by 3%, net of charges, over rolling five year periods. Although the Fund aims to achieve a positive return over rolling five year periods, capital invested is, in fact, at risk and there is no guarantee that a positive return will be generated over that time period or any other time period.

## Important Information

- Source of portfolio data: Broadridge. Source of performance data: FE fundinfo. We can't predict the future. Past performance isn't a guide to future performance. The figures shown are intended only to demonstrate performance history of the fund, after allowing for the impact of ongoing charges, but take no account of product charges. Ongoing charges may vary in the future and may be higher than they are now. Fund performance is based upon the movement of the daily price and is shown as total return in GBP with income reinvested. The value of your client's investment can go down as well as up and the amount your client gets back may be less than they put in.
