

### Benchmark

NONE - The performance of the Fund can be assessed by comparing its total return to funds with similar return and/or risk objectives. The IA (Investment Association) provides the median performance of funds with similar characteristics (IA sectors).  
 Benchmark The Fund is assigned to the Mixed Investment 0-35% Shares IA sector. Other providers also provide peer groups, based on asset allocation or historical volatility, of which the Fund may be assigned, these may be a useful guide to assess performance.

### Aims

The investment objective of the VT AJ Bell Passive Cautious is to achieve long-term capital growth with a high level of exposure to lower risk assets such as cash and fixed income and a low level of exposure to higher risk assets such as equities. The Fund will seek to achieve its objective by investing primarily in listed securities (ETFs, futures, fixed income securities, money market instruments and equities), but also, particularly in the early stages of the Fund's growth, in other collective investment schemes. The Fund will invest, wherever practically possible, in 'passive' investments, which are instruments and investment strategies that aim to track the performance of various financial indices. The Fund will not have any particular geographic, industry or economic sector focus and as such weightings in these may vary as required. The Fund may have exposure to emerging markets through its investments in e.g. collective investment schemes or futures. Derivatives (that is sophisticated investment instruments linked to the rise and fall of the price of other assets) are held only for efficient portfolio management purposes.
