Aims

To achieve capital growth over a period of five years or more through investment in markets both in the UK and overseas. The portfolio is broadly diversified across asset classes, with exposure to equities between 0-30% and with volatility of between 3 and 7%.*The volatility range is a target, based on long term actuarial assumptions and the fund is managed to stay within this range most of the time. The volatility range is regularly reviewed and may change from time to time due to changes in these assumptions.

Important Information

- Source of portfolio data: Broadridge. Source of performance data: FE fundinfo. We can't predict the future. Past performance isn't a guide to future performance. The figures shown are intended only to demonstrate performance history of the fund, after allowing for the impact of ongoing charges, but take no account of product charges. Ongoing charges may vary in the future and may be higher than they are now. Fund performance is based upon the movement of the daily price and is shown as total return in GBP with income reinvested. The value of your investment can go down as well as up so you might get back less than you put in.
