

KEY INVESTOR INFORMATION

HARGREAVES
LANSDOWN

This document provides you with key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

HL Select UK Growth Shares

A Sub-Fund Of HL Select Umbrella Trust

CLASS A ACCUMULATION (GB00BD5M6140) AND CLASS A INCOME (GB00BD5M6033)

This fund is managed by Hargreaves Lansdown Fund Managers, part of Hargreaves Lansdown PLC.

OBJECTIVES AND INVESTMENT POLICY

The objective of the Fund is to provide long term capital growth. This fund is actively managed.

The Fund will invest principally in a concentrated portfolio of UK equities. The Fund may also invest in exchange traded funds and international equities, and cash.

The Fund may infrequently use derivative instruments and forward transactions for the limited purposes of efficient portfolio management, including hedging.

Further information on the Fund's investment objectives and policy can be found in the Prospectus (Schedule 1).

The Fund Managers have discretion to make their own investment decisions and are not constrained by any benchmark. However, the manager compares fund performance to the FTSE All Share Index Total Return Index and the IA UK All Companies sector.

If you invest in income units, income from investment in the Fund will be paid out to you. If you invest in accumulation units, income will be reinvested into the value of your unit.

Investors are able to buy and sell units during any business day, with a cut-off point of 11am for dealing that day. If dealing through a platform there may be an earlier cut-off.

Recommendation: The Fund may not be appropriate for investors who plan to withdraw their money within 5 years.

RISK/REWARD PROFILE

The Risk and Reward Indicator above shows how the Fund rates in terms of its potential risk and reward. The higher the number, the greater the potential reward, but the greater the risk of losing money.

The Fund is rated 6 because funds of this type have experienced high rises and falls in value in the past.

The rating is based on simulated past data, may change over time and may not be a reliable indication of the future risk profile of the Fund.

Please note even the lowest risk rating does not mean a risk-free investment.

Other Material Risks

The value of the Fund, and any income from it, can go down as well as up and you may get back less than originally invested.

The Fund principally invests in a single market – the UK – and so may be more volatile than more broadly diversified funds.

The Fund intentionally holds a small number of investments, and so may therefore be more volatile than more broadly diversified funds.

The Fund may infrequently use derivatives (complex instruments) in an attempt to reduce the overall risk of its investments or reduce the costs of investing, although this may not be achieved.

A full list of risks applicable to the Fund can be found in the Prospectus (Section 11: Risk Factors).

CHARGES

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential return from your investment.

One-off charges taken before or after you invest	
Entry charge	3.00%
Exit charge	None

These are the maximum charges that we might take out of your money before it is invested and before we pay out the sale proceeds of your investment. You might pay less – check with your platform provider or financial adviser about this.

Charges taken from the Fund over a year	
Fixed charges figure	0.60%

Charges taken from the Fund under specific conditions	
Performance Fee	None

The ongoing charges have been fixed at 0.6%. Any additional costs will be met by Hargreaves Lansdown Fund Managers. This fixed charges figure does however exclude the costs of buying or selling assets for the Fund.

The Funds are single-priced. A dilution adjustment may be applied when you buy or sell units. This may increase the price you pay when you buy units, or decrease the price you receive when you sell units, in the fund. Further information about charges can be found in the Prospectus.
