## **Key Investor Information**

This document provides you with key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

### **Objectives and Investment Policy**

- The objective of the Fund is to achieve capital growth and outperform the FTSE All Share ex Investment Trusts Index net of fees (the Target Benchmark) over a rolling 5 year period.
- The Fund invests at least 80% of its assets in shares of companies incorporated, domiciled or carrying out the main part of their economic activity in the UK.
- There is no guarantee that the Fund will achieve its target and an investor may not get back the full amount invested.
- The Fund may use derivatives (complex instruments) to manage the Fund more efficiently, with the aim of reducing risk, reducing costs and/or generating additional capital or income.
- The Fund follows a systematic investment process to produce a portfolio which shares the broad risk characteristics of the Benchmark and aims to outperform the Benchmark with a tracking error target of 1.5%.
- The Fund has an active investment approach that uses a range of factors (earnings momentum, price momentum, quality and value) to evaluate the attractiveness of stocks together with an assessment of their risk.
- The reference to (UK) in the Fund name only relates to the Fund's domicile and is unrelated to the Fund's objectives and investment policy.
- You can buy, sell and switch shares in the Fund on any Dealing Day (as defined in the Prospectus).
- Any income from your investment will be paid bi-annually.
- Recommendation: The Fund may not be appropriate if you plan to withdraw your money within 5 years.

### **Risk and Reward Profile**

- The Share Class is in risk category 6 due to the rises and falls of its price or simulated data in the past.
- As the Share Class' risk category has been calculated using historical data, it may not be a reliable indication of the Share Class' future risk profile.
- The risk category may change in the future and is not guaranteed.
- The lowest category does not mean a risk free investment.

### **Other Risks**

- The value of investments and any income will fluctuate (this may partly be the result of exchange rate fluctuations) and you may not get back the full amount invested. Over time, inflation may erode the value of investments.
- There is no guarantee that the Fund will achieve its target.
- The Fund may use derivatives (complex instruments) in an attempt to reduce the overall risk of its investments, reduce the costs of investing and/or generate additional capital or income, although this may not be achieved. The use of such complex instruments may result in greater fluctuations of the value of the Fund. The Manager, however, will ensure that the use of derivatives within the Fund does not materially alter the overall risk profile of the Fund.
- The Fund is invested in companies primarily domiciled in one country, any unfavourable conditions presented on them through country-specific conditions such as changes in regulation, business or economic policy may have a more negative impact on the Fund's performance than on the performance of a fund that is geographically diversified.
- A more detailed description of risk factors that apply to this Fund is set out in Section 29 of the Prospectus.

- Share Class launch date: 28 July 2016.
- The base currency of the Fund is Sterling.

- Performance figures are calculated inclusive of reinvested income and net of the ongoing charge and portfolio transaction costs.
