Comments by the President and CEO

Strong performance in the second quarter

Following a very strong start to the year, I am pleased to report continued good sales growth with very strong operating margin improvement in the second quarter despite a weak residential market. Our sales grew organically by 3%, acquired net growth was 6% and currency contributed 8%.

Global Technologies delivered very strong organic sales growth of 20% as we further reduced our order backlog in Physical Access Control and saw very strong growth in Hospitality. Activity levels in the Americas were high and we report good sales growth of 4%. Sales in Entrance Systems were flat despite high comparable and lower residential demand. Asia Pacific sales declined 2% due to lower internal sales and low residential business. Sales in EMEIA declined by 5% due to very low activity levels in residential new construction.

Our quarterly operating profit, excluding items affecting comparability, increased strongly by 25%. The corresponding operating margin, also excluding the acquisition of HHI and divestment of the Emtek/U.S. Smart Residential, was 16.7%. The operating leverage was very strong at 75%, driven by lower direct material costs, operational efficiencies, and pricing. The operating cash flow improved strongly by 76% to a record SEK 6,671 M.

Further cost measures

In light of the lower residential construction levels, we have diligently implemented short term cost measures to protect our profitability. During 2023, we expect to realize around SEK 0.9 bn in short-term cost reductions on top of the manufacturing footprint program. We have also accelerated our MFP-program and now expect SEK 0.8 bn in savings this year. Our decentralized organization and structural agility will enable us to optimize efficiency and ensure financial stability.

Even if there is a short-term deceleration in the market, we are confident that the long-term growth drivers for access control remain. This includes the transition to electromechanical products, whose sales after currency adjustment grew by 16% in the quarter. We are therefore continuing to invest in R&D. It is the enabler for growth and creates new opportunities. Our dedication to innovation will continue to allow us to stay ahead and respond effectively to the evolving and growing overall market.

We are happy to welcome HHI to the Group

After reaching a settlement with the Department of Justice in the U.S., we are happy to welcome HHI into the Group. HHI is an excellent addition to ASSA ABLOY, complementing our existing business in a strong way. The integration process has initiated and I'm excited to start to realize the synergies of USD 100 M into our results.

We would also like to extend our appreciation to the Emtek and Smart Residential teams in the U.S./Canada that were divested in connection with the HHI acquisition.

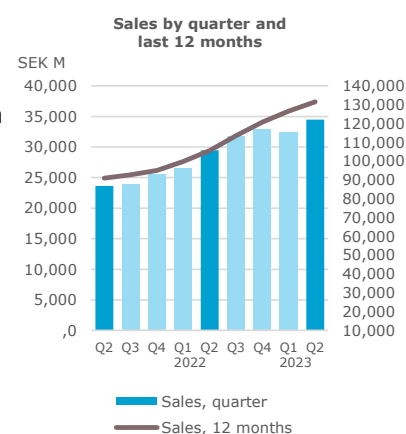

Execution of our overall acquisition strategy will continue with an active pipeline.

Thank you for your continued trust in ASSA ABLOY.

Accounting principles

No new or amended standards with material impact on the Group's financial reports have been applied for the first time in 2023, except for the adoption of IAS 29 "Financial Reporting in Hyperinflationary Economies" for the ASSA ABLOY operations in Türkiye.

From 2023, the income statement and non-monetary items in the balance sheet for all Turkish subsidiaries have therefore been adjusted for the impact of hyperinflation. The index used by ASSA ABLOY for the hyperinflation adjustment of the income statements and non-monetary items in the balance sheet is the consumer price index with base period 2005 from the Turkish statistical institute. The income statements for all Turkish subsidiaries have been recalculated. The net monetary result is recognized in the income statement within financial items. The hyperinflation adjustment related to periods prior to 2023 is recognized in the translation reserve within equity. The hyperinflation impact has been excluded from the statement of cash flows.

This Report was prepared in accordance with IAS 34 'Interim Financial Reporting' and the Annual Accounts Act. The Report for the Parent company was prepared in accordance with the Annual Accounts Act and RFR 2 'Reporting by a Legal Entity'.

ASSA ABLOY makes use of a number of financial performance measures that are not defined in the reporting rules that the company uses – described as 'alternative performance measures'. For definitions of financial performance measures, refer to Page 19 of this Report. Information about how these measures have been calculated is available on the company's website www.assaabloy.com. To check how the financial measurements have been

calculated for current and earlier periods, refer to the tabulated figures in this Quarterly Report and to the company's Annual Report. The Annual Reports for the years 1994 to 2022 appear on the company's website.

Totals quoted in tables and statements may not always be the exact sum of the individual items because of rounding differences. The aim is that each line item should correspond to its source, and rounding differences may therefore arise.

No transactions that significantly affected the company's position and income have taken place between ASSA ABLOY and related parties.

Risks and uncertainty factors

ASSA ABLOY is an international Group with a wide geographical spread, involving exposure to various forms of strategic, operational and financial risks. Strategic risks refer to changes in the business environment with potentially significant effects on ASSA ABLOY's operations and business objectives. Operational risks comprise risks directly attributable to business operations, entailing a potential impact on the Group's financial position and performance. Financial risks mainly comprise financing risk, currency risk, interest-rate risk, credit risk, and risks associated with the Group's pension obligations.

Risk-taking in itself provides opportunities for continued economic growth, but naturally the risks may also have a negative impact on business operations and company goals. It is therefore essential to have a systematic and efficient risk assessment process and an effective risk management program in general. The purpose of risk management at ASSA ABLOY is not to avoid risks, but to take a controlled approach to identifying, managing and minimizing the effects of these risks. This work is based on an assessment of the probability of the risks and their potential impact on the Group. ASSA ABLOY has limited direct business exposure to Russia, Ukraine and Belarus, but indirect business effects continue to be monitored closely.

For a more detailed description of particular risks and risk management, please see the 2022 Annual Report.

Review Report

ASSA ABLOY AB, org.no 556059-3575

Introduction

We have reviewed the condensed interim report for ASSA ABLOY AB as at June 30, 2023 and for the six months period then ended. The Board of Directors and President and CEO are responsible for the preparation and presentation of this interim report in accordance with IAS 34 and the Swedish Annual Accounts Act. Our responsibility is to express a conclusion on this interim report based on our review.

Scope of Review

We conducted our review in accordance with the International Standard on Review Engagements, ISRE 2410 Review of Interim Financial Statements Performed by the Independent Auditor of the Entity. A review consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and other generally accepted auditing standards in Sweden. The procedures performed in a review do not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the interim report is not prepared, in all material respects, in accordance with IAS 34 and the Swedish Annual Accounts Act regarding the Group, and in accordance with the Swedish Annual Accounts Act regarding the Parent Company.
