

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

Neuberger Berman US Large Cap Value Fund (the "Fund")

a sub-fund of Neuberger Berman Investment Funds plc

GBP P Accumulating Class - Unhedged, IE0004QFE496

This Fund is managed by Neuberger Berman Asset Management Ireland Limited.

OBJECTIVES AND INVESTMENT POLICY

The Fund aims to increase the value of your shares over the long-term by investing primarily in equity securities (shares) issued by US companies, across a wide range of large-capitalisation companies and industry or sectors. These companies are listed or traded on Recognised Markets, and conduct most of their business in the US or are headquartered in the US. There can be no guarantee that the Fund will ultimately achieve its investment objective and capital invested is at risk.

Companies are considered to be large-capitalisation if they are within the market capitalisation range of companies in the benchmark at the time of initial purchase. The Fund may continue to hold or add to a position in corporations even after their market capitalisations have grown outside of the range of the benchmark.

The Fund aims to identify companies that are undervalued by the market but are financially secure and are led by strong management teams with a track record of success. To identify such companies, an analysis of expected returns is undertaken using a company's earnings that omit the effects of non-recurrent events, or for cyclical companies, removes economic cycles and helps identify attractive entry-points. The investment process also includes identifying companies with catalysts that have the potential to improve the company's earnings. Such catalysts may include management team changes, restructuring, new products, new services or new markets. The Fund will consider selling shares in a company if:

- Its stock price appears over-valued; or
- Its share price has reached a target price.

The Fund is actively managed and does not intend to track the benchmark, the Russell

1000 Value Index (Total Return, Net of Tax, USD) which is used for performance comparison purposes and used as a universe from which to select securities. The Fund may not hold all or many of the benchmark's components.

The Fund promotes environmental and social characteristics within the meaning of Article 8 of SFDR.

This Fund may not be appropriate for short-term investment and is more suitable as part of a diversified portfolio.

You may sell your shares on any day when the financial markets in London and New York are open for business.

As your shares are in British Pounds and the Fund is in US Dollars, fluctuating currency exchange rates may affect the value of your investment.

Your shares do not pay you income, but returns are reinvested to grow capital.

Transaction costs will reduce the Fund's return.

RISK AND REWARD PROFILE

This Fund is in category 6 due to its level of historical volatility. As the share class has less than 5 years of returns history, the historical volatility includes benchmark/representative portfolio returns. The Fund invests in a variety of investments, some of which can vary significantly in price from day to day due to a number of factors.

The main risks facing the Fund are:

- Market Risk: The risk of a change in the value of a position as a result of underlying market factors, including the overall performance of companies and the market perception of the global economy.
- Liquidity Risk: The risk that the Fund may be unable to sell an investment readily at its fair market value. This may affect the value of the Fund and in extreme market conditions its ability to meet redemption requests upon demand. To counter this risk the Fund actively monitors the liquidity of its investments.
- Counterparty Risk: The risk that a counterparty will not fulfil its payment obligation for a trade, contract or other transaction, on the due date. The insolvency of any institution providing services such as the safekeeping of assets or acting as counterparty in respect of derivatives or other instruments may expose the Fund to financial loss.
- Derivatives Risk: The Fund is permitted to use certain types of derivative instruments to seek to protect its assets against some of the risks outlined in this section. Their use will create leverage, an investment technique which gives an investor a larger exposure to an asset than the amount it invested. The Fund's use of leverage may result in greater variations (both positive and negative) in the value of your shares. However, leverage is limited to 100% of the Fund's assets and the Sub-Investment Managers (or the Manager where applicable) will ensure that the Fund's use of derivatives does not materially alter the overall risk profile of the Fund. Please refer to the Prospectus for a full list of the types of derivative that the Fund may utilise.
- Operational Risk: The risk of direct or indirect loss resulting from inadequate or failed processes, people and systems including those relating to the safekeeping of assets or from external events.
- Currency Risk: Investors who subscribe in a currency other than the base currency of the Fund are exposed to currency risk. Fluctuations in exchange rates may affect the return on investment. If the currency of this share class is different from your local currency, then you should be aware that due to exchange rate fluctuations the

performance shown may increase or decrease if converted into your local currency.

For a more detailed explanation of risks, please refer to the "Investment Restrictions" and "Investment Risks" section of the Prospectus.

A category 1 fund is not a risk free investment - the risk of losing money is smaller than that of a category 7 fund, but the likelihood of making gains is also lower. The seven category scale is complex: for example, a category 2 fund is not twice as risky as a category 1 fund.

The category is calculated using past data, which cannot be used as a prediction for the future. Therefore the risk classification may change over time.

CHARGES

| One-off charges taken before or after you invest | |
|---|-------|
| Entry Charge | 5.00% |
| Exit Charge | None |
| This is the maximum that might be taken out of your money before it is invested or before the proceeds of your investment are paid out. | |
| Charges taken from the fund over a year | |
| Ongoing Charges | 0.75% |
| Charges taken from the fund under certain specific conditions | |
| Performance Fee | None |

These charges are used to pay the costs of running the Fund, including the costs of marketing and distributing it.

These charges reduce the potential growth of your investment.

The one-off charges shown are the maximum figures. In some cases they may be less. You can find out your actual charges from your financial adviser.

The ongoing charges figure is based on the expenses for the period ending 31 December 2024. This figure may vary from year to year.

You can find more details on these charges in the "Fees and Expenses" section of the Prospectus.

PAST PERFORMANCE

Past performance is not a reliable indicator of future results.

The past performance takes account of all charges and costs.

The value of this class is calculated in British Pounds.

The Fund launched on 20 December 2021.

This class started to issue shares on 8 June 2022.

The performance is compared against Russell 1000 Value Index (Total Return, Net of Tax, USD) converted into the relevant currency of the share class.

PRACTICAL INFORMATION

Depository: Brown Brothers Harriman Trustee Services (Ireland) Limited.

Further information: Copies of the Prospectus, latest annual and half-yearly reports, and the Fund Supplement may be obtained free of charge in English, German, French, Italian and Spanish from www.nb.com/europe/literature, from local paying agents, a list of which can be found in Annex III of the Prospectus, or by writing to Neuberger Berman Investment Funds plc, c/o Brown Brothers Harriman Fund Administration Services (Ireland) Ltd, 30 Herbert Street, Dublin 2, Ireland, D02 W329.
