Invesco Dow Jones Islamic Global Developed Markets UCITS ETF (the "Fund")

A sub-fund of Invesco Markets II plc (the "Umbrella Fund")

Acc (ISIN: IE000UOXRAM8) (the "Share Class")

The Fund is managed by Invesco Investment Management Limited, part of the Invesco Group.

Objectives and Investment Policy

- The Fund is a passively-managed Exchange-Traded Fund ("ETF"), which aims to achieve the net total return performance of the Dow Jones Islamic Market Developed Markets Index (the "Index")¹, less fees, expenses and transaction costs.
- To achieve the investment objective, the Fund will employ sampling techniques to select securities in the Index which may include but are not limited to index weighted average duration, industry sectors, country weights, liquidity and credit quality. The use of the sampling approach will result in the Fund holding a smaller number of securities than are in the underlying Index.
- The Fund's shares are listed on one or more Stock Exchange(s). Investors can buy or sell shares daily through an intermediary directly or on Stock Exchange(s) on which the shares are traded. In exceptional circumstances investors will be permitted to redeem their shares directly from Invesco Markets II plc in accordance with the redemption procedures set out in the prospectus, subject to any applicable laws and relevant charges.
- The Fund's base currency is USD.
- **Dividend Policy:** This Share Class does not pay you income, but instead reinvests it to grow your capital, in line with its stated objectives.
- Income and other profits which are accumulated are not subject to purification prior to being reinvested in respect of those shares. For income purification purposes, investors in this Fund may wish to make donations in accordance with the standards issued by the Accounting and Auditing Organisation for Islamic Financial Institutions.
- **Net Asset Value:** This is calculated daily and the Fund is open for subscriptions and redemptions on each day the United States Federal Reserve System is open. Please refer to the prospectus for further information.
- **The Index:** The Index is designed to reflect the performance of stocks traded in developed market countries that pass screens for adherence to Shari'ah investment guidelines based on parameters set out by a Shari'ah supervisory board that has been appointed by the index provider. Security types eligible for inclusion in the Index are common shares or securities that have characteristics of common equities, including Real Estate Investment Trusts ("REITS"), Listed Property Trusts ("LPTs") and American Depositary Receipts ("ADRs"). Screens are applied to exclude certain securities that are involved in business activities that are deemed inconsistent with Shari'ah law. Eligible securities are also excluded if they have unacceptable levels of debt or impure interest income. The Index employs a float-adjusted market capitalisation weighting scheme of remaining securities. The Index rebalances quarterly.

Risk and Reward Profile

- The Share Class is in risk category 6 due to the rises and falls of its price or simulated data in the past.
- As the Share Class' risk category has been calculated using historical data, it may not be a reliable indication of the Share Class' future risk profile.
- The risk category may change in the future and is not guaranteed.
- The lowest category does not mean a risk free investment.

Other Risks

- **Equity Risk:** The value of equities and equity-related securities can be affected by a number of factors including the activities and results of the issuer and general and regional economic and market conditions. This may result in fluctuations in the value of the Fund.
- **Currency Risk:** The Fund's performance may be adversely affected by variations in the exchange rates between the base currency of the Fund and the currencies to which the Fund is exposed.
- **Country Concentration Risk:** The Fund is invested in a particular geographical region, which might result in greater fluctuations in the value of the Fund than for a fund with a broader geographical investment mandate.
- **Investment in Shari'ah Risk:** The application of Shari'ah principles may result in the Fund performing differently from funds with comparable investment objectives that do not seek to adhere to Islamic investment criteria.
