

2023

Half-Year Report

September

HBM Healthcare
Investments

HBM Healthcare Investments invests in the human medicine, biotechnology, medical technology and diagnostics sectors and related areas. The company holds and actively manages an international portfolio of promising companies.

Many of these companies have their lead products already available on the market or at an advanced stage of development. The portfolio companies are closely tracked and actively guided on their strategic directions. This is what makes HBM Healthcare Investments an interesting alternative to investing in big pharma and biotech companies. HBM Healthcare Investments has an international shareholder base and is listed on SIX Swiss Exchange (ticker: HBMN).

Investments by continents²⁾

Global portfolio.

1) Total consolidated assets as at 30.9.2023: CHF 1 775 million.

2) Total investments as at 30.9.2023: CHF 1 644 million.

Allocation of assets¹⁾

Mainly invested in private companies or in companies originating from the private companies portfolio.

Currency allocation of assets¹⁾

Emphasis on US dollar investments.

Development phase of portfolio companies²⁾

Mainly invested in revenue generating companies or in companies with products at an advanced stage of development.

Therapeutic area of the lead product of portfolio companies²⁾

Broadly diversified areas of activity.

Indexed performance since launch in CHF (12.7.2001 = 100), distributions reinvested

HBM Healthcare Investments posted a loss of CHF 70 million for the first six months of the 2023/2024 financial year. With a 4 percent decline in net asset value (NAV), HBM Healthcare's performance was in line with the general performance of the biotechnology sector. The result is owed mainly to declining valuations of some public companies, which overall led to a loss of CHF –59 million in the quarter ended 30 September. However, the situation is not homogeneous. While the market environment in China remains very challenging, companies in India benefited from good growth prospects. Notwithstanding the current negative market sentiment, many private companies in HBM Healthcare's well-diversified portfolio are growing successfully and thus gradually create value that is not immediately reflected in the Company's net asset value. HBM Healthcare therefore remains confident but proceeds cautiously in line with the current market environment.

Dear Shareholders

HBM Healthcare Investments reports a loss of CHF 59 million for the second quarter of the 2023/2024 financial year as at 30 September. The net asset value per share (NAV) declined by 3.4 percent.

For the first half of the financial year, this adds up to a loss of CHF 70 million, with a 4.0 percent decline in NAV. This is in line with the general performance of the biotechnology sector. In the same period, the Nasdaq Biotechnology Index lost 3.7 percent and the S&P SPDR Biotech declined 4.1 percent. The more broadly based MSCI World Health Care Index was more stable, down 0.1 percent.

Market environment remains challenging

The biotechnology sector continues to be characterised by significant investor restraint and few developments with relevance to valuation. Accordingly, HBM Healthcare's half-year result was mainly influenced by the decline in market valuation of **public companies** to the tune of CHF 58 million.

The picture is not homogeneous though: A few public, formerly private companies depressed the result by a total of CHF 70 million, primarily Cathay Biotech with CHF –44 million and Mineralys Therapeutics with CHF –15 million. The other public companies increased in value by a total of CHF 12 million benefitting also from biopharma companies in India with good local growth prospects.

The market environment in China in particular is challenging. Here, Cathay Biotech's share price gave back some of the gains the company had made following the announcement of the advantageous strategic agreement with China Merchants Group. Nevertheless, after a holding period of more than 15 years and the expiry of the 3-year lock-up period, HBM Healthcare Investments was able to realise its first gains on the investment.

The **funds'** portfolio recorded a slight decline in value of CHF 5 million. In the reporting period, the funds called CHF 6 million from existing investment commitments. This was offset by repayments of CHF 2 million from realisations.

The portfolio of **private companies** burdened the result with CHF 10 million. Of this, CHF 4 million was due to unfavourable currency developments and CHF 6 million net to value adjustments. A positive revaluation was made on the investment in Upstream Bio (CHF +13 million), which was acquired only about one and a half years ago. Value adjustments were made for Farmalatom (CHF –8 million), Adrenomed (CHF –4 million), Valcare (CHF –3 million), Odyssey Therapeutics (CHF –3 million) and other companies (CHF –1 million, net).

Other assets increased by CHF 16 million net, primarily due to the revaluation of milestone and royalty claims from previous company sales. The focus is on an asset of the former private portfolio company Surface Logix. Due to a lack of financing, Kadmon Pharmaceuticals took over the company's rights in 2011, while the shareholders of Surface Logix – including HBM Healthcare – were granted claims to future sales proceeds. In 2021, Kadmon was in turn acquired by Sanofi, and the FDA granted market approval in the USA for the drug Rezurock™ – originally developed by Surface – for the treatment of chronic graft-versus-host disease (GvHD). The successful launch led to the revaluation of the corresponding asset at HBM Healthcare. The first licence payment of CHF 2 million received from these claims underlines the substance of the revaluation.

The financial result amounted to CHF 1 million. Administrative costs decreased to CHF 14 million.

Asset allocation and new investment

In the first six months of the financial year, HBM Healthcare Investments provided CHF 18 million in follow-on financing to existing portfolio companies. In addition, a new investment of USD 4 million was made in the private company ADARx Pharmaceuticals. ADARx has developed a promising siRNA platform designed to generate differentiated clinical data from multiple programmes. For now, the company is focusing on three therapeutic areas: genetic diseases, cardiometabolic diseases and central nervous system diseases. The lead programme, ADX-324 for the treatment of hereditary angioedema (HAE), is in phase I clinical development. HAE is a rare genetic disease that causes painful and potentially life-threatening episodes of swelling.

Following the repayment of the straight bond with a par value of CHF 50 million in July and the cash distribution to shareholders in August, cash and cash equivalents stood at CHF 87 million at the end of September. With the completion of the acquisitions of Horizon Therapeutics and Seagen in the coming months, around CHF 30 million of additional liquidity is to be expected.

The portfolio remains well balanced with public companies accounting for 44 percent of total consolidated assets (24 percent were formerly private companies), 39 percent private companies, 10 percent funds, 5 percent cash and cash equivalents, and 2 percent other assets.

Outlook

The market sentiment towards growth companies in the biotechnology sector is currently characterised by a great deal of pessimism. This is reflected not least in the valuation of our share, which is again trading at a high discount to its net asset value. Regardless of this, however, the value creation of many companies is progressing, which should lead to corresponding added value in the coming years.

Portfolio companies with strong operations such as Cathay Biotech or Swixx BioPharma as well as digital healthcare platforms such as Fangzhou (Jianke), Tata 1mg or ConnectRN are growing successfully and continue to have excellent prospects. We also see progress as planned in many portfolio companies focusing on clinical development such as Upstream Bio, NiKang Therapeutics, Dren Bio or ArriVent Biopharma – to name but a few. They are all gradually creating value potential which, however, is not directly reflected in our net asset value.

Due to expiring patents at large pharmaceutical and biotech companies in the coming years, we also expect takeover activity in the sector to pick up further. The best example of this is the takeover bid of up to USD 5.8 billion made after the balance sheet date by Bristol Myers Squibb for HBM Healthcare's portfolio company Mirati Therapeutics, which is active in cancer research.

Accordingly, we continue to look to the future with confidence, but will act with the necessary caution as befits the current business climate. We are convinced that significant value can be realised from HBM Healthcare Investments' portfolio as soon as market conditions begin to improve.

We thank you, our valued shareholders, for your trust.

General Statements

1. Information about the Company and its business

HBM Healthcare Investments Ltd (HBM Healthcare or Company) is a SIX Swiss Exchange-listed holding company domiciled at Bundesplatz 1, Zug (Switzerland). The purpose of the Company is the acquisition, holding and sale of positions in other companies as well as the management and financing of such positions in the human medicine, biotechnology, medical technology and diagnostics sectors, and related areas.

2. Accounting policies

The condensed interim financial statements have been prepared in accordance with the International Financial Reporting Standards (IFRS) IAS 34 on Interim Financial Reporting, and the provisions of the SIX Swiss Exchange Additional Rules on the Listing of Investment Companies. These interim financial statements should be read in conjunction with the Group Financial Statements for the financial year ended 31 March 2023, as they provide an update to the latest full financial report.

In preparing the interim financial statements, the same accounting policies and methods of computation have been applied as in the preparation of the annual financial statements as at 31 March 2023. The Group Financial Statements comprise HBM Healthcare Investments Ltd and the non-consolidated investment in the HBM Healthcare Investments (Cayman) Ltd. subsidiary (Subsidiary). A summary of the newly applied IFRS/IAS standards and interpretations in the reporting period is provided on pages 64 and 65 of the Group Financial Statements of the 2022/2023 Annual Report.

The newly applied standards and interpretations had no material impact on the Group's accounting policies, overall results or financial position.

Unless indicated otherwise, the values are in thousands of CHF.

The following exchange rates were used in the preparation of the financial statements:

Exchange rates (CHF)	30.9.2023	31.3.2023

1) The tax on capital gain and other taxes which may be owed in China upon the sale of the investment are accrued separately (note 3.5).

2) The company was acquired during the previous financial year. The transaction will be completed after the reporting period.

3) The company was acquired and the transaction completed during the reporting period.

3.2 Financial instruments

The Subsidiary buys and sells derivative financial instruments in the course of its ordinary business

activities and as part of its risk management. The following positions were held as at the balance sheet date:

Holdings of financial instruments (CHF 000)	30.9.2023	31.3.2023
Other financial instruments		
Purchased call and put options	1 872	210
Total financial instruments long	1 872	210

As at the balance sheet date, no foreign currency hedge or general market risk hedge was in place.

The following gains and losses resulted from derivatives transactions conducted during the 6-month period:

Income from financial instruments (CHF 000)	6-month period ended 30.9.2023	6-month period ended 30.9.2022
Gains from other financial instruments	1 687	249
Total gains from financial instruments	1 687	249
Losses from currency hedging transactions	0	-3 266
Losses from other financial instruments	-26	-95
Total losses from financial instruments	-26	-3 361
Net result from financial instruments	1 661	-3 112

3.3 Other financial assets

Other financial assets consist primarily of contractual claims to purchase price payments from earlier trade sales that are contingent on the achievement of defined targets (milestone payments). These claims are recognised at fair value through profit and loss by applying a probability-weighted valuation approach based on the assessment of the likelihood of attaining the underlying targets. These claims are discounted over time at a discount rate of 11.0 percent (previous year: 11.0 percent). The valuation

measures applied refer to commonly used industry statistics as well as own guidelines and estimates.

The total book value as at 30 September 2023, CHF 30.3 million, was carried as other financial assets.

If the companies concerned are successful, these contractual claims could result in future payments which are many times the reported book value.

The following summary shows the value carried in the balance sheet compared with the potential cash flows:

Balance sheet value and potential cash flows (CHF million)	Book value 30.9.2023	Cash flows minimum	Cash flows maximum	Expected period of payment
Surface Logix ¹⁾	12.8	0.0	18.5	2023–2030
Forbius (Formation Biologics)	6.6	0.0	81.1	2025–2028
Corvidia Therapeutics	6.3	0.0	40.3	2025–2028
Vitaeris	4.1	0.0	81.7	2026–2031
Alydia Health	0.3	0.1	1.6	2023–2026
Tandem Life (Cardiac Assist)	0.2	0.0	2.3	2024
Total	30.3	0.1	225.5	

1) The valuation is based on a previous sale of license rights, formerly owned by Surface Logix, to Kadmon Pharmaceuticals, which was acquired by Sanofi. HBM Healthcare is entitled to receive royalty payments on sales.

3.4 Management fee and performance fee

The management fee due to HBM Partners amounts to 0.75 percent per year of the Company's assets plus 0.75 percent per year of its market capitalisation, payable quarterly at the beginning of a quarter. In the 6-month period, HBM Partners was paid CHF 12.1 million (previous year: CHF 14.6 million).

No provision for a performance fee was made during the 6-month period (previous year: none) because net assets as at the balance sheet date did not exceed the highest net assets (high water mark) used as the calculation basis for the last performance fee payment.

The high water mark for all outstanding shares is CHF 298.07 (adjusted for any dividends and capital repayments to shareholders). The cut-off date for the payment of any performance fee is 31 March of a financial year.

3.5 Provision for deferred tax on capital gain and other taxes

A provision in the amount of CHF 24.9 million (as at 31 March 2023: CHF 29.1 million) has been made for any tax on capital gain and other taxes owed in China that may arise on the sale of the investment in Cathay Biotech. The tax on capital gain is calculated on the difference between the relevant tax base and the disclosed fair value or the price realised on the sale of shares up to the reporting date, respectively. In addition, a sales tax may arise, which is calculated on the difference between the potential selling price and the issue price of the shares at the IPO.

3.6 Off-balance-sheet commitments

The Subsidiary had the following investment commitments as at the balance sheet date:

Investment commitments (CHF 000)	30.9.2023	31.3.2023
Other funds	27 029	33 264
Private companies	15 967	11 678
Total investment commitments	42 996	44 942

4. Financial liabilities

The following financial liability was outstanding as at the balance sheet date: one straight bond listed on SIX Swiss Exchange with a par value of CHF 100 million, coupon of 1.125 percent and maturing on 12 July 2027; to be redeemed at 100 percent of par value.

The bond could become due for early repayment, if the outstanding investment commitments to investment funds exceed the amount of CHF 200 million, or the fair value of all investments in public portfolio companies plus cash and cash equivalents is less than two and a half times the amount of the interest-bearing financial liabilities.

The straight bond is carried at amortised cost, subject to the effective interest method. The difference between the net proceeds and the amount repayable when the bond falls due for redemption is amortised over the term of the bond and charged to financial expenses along with the interest that has been paid. The effective interest rate applied is 1.32 percent.

The fair value of the straight bond amounts to CHF 96.7 million (as at 31 March 2023: CHF 92.7 million) with a carrying amount of CHF 99.3 million (as at 31 March 2023: CHF 99.2 million). The bond is recognised under non-current liabilities.

On 10 July 2023, a bond with a par value of CHF 50 million became due for repayment. It was repaid without refinancing.

5. Shareholders' equity

5.1 Share capital and capital reserve

As at the balance sheet date, the Company's share capital stood at CHF 84.22 million, divided into 6960000 registered shares at a par value of CHF 12.10 each.

The Shareholders' Meeting of 19 June 2023 approved a cash distribution of CHF 7.50 per share

by means of a withholding tax exempt par value repayment. The cash payment was made on 7 August 2023 after the expiration of the legal deadlines.

5.2 Treasury shares

The Shareholders' Meeting of 10 June 2022 authorised the Board of Directors to repurchase a maximum of 696000 of the Company's own shares via a second trading line. The aim of this share buy-back programme is to cancel the shares as part of a capital reduction. It will be completed no later than 27 June 2025 ("2022 share buy-back programme").

The Company holds 6570 of its own shares (as at 31 March 2023: 2910) as at the balance sheet date. In the 6-month period, 3660 of the Company's own shares were acquired (previous year: none).

Holdings from second trading line (number of own shares)

Beginning of period 1 April 2023	2910
Acquired via second trading line under share buy-back programme	3660
End of period 30 September 2023	6570

In addition, the subsidiary HBM Healthcare Investments (Cayman) Ltd. holds 67813 treasury shares (as at 31 March 2023: 36580), acquired via the regular trading line. During the 6-month period, the Subsidiary acquired a total of 53452 treasury shares via the regular trading line at an average price of CHF 197.08 per share (previous year: 55535 at CHF 256.39) and sold 22219 treasury shares at an average price of CHF 199.46 (previous year: 34953 at CHF 266.06).
