## Background to the Company

SSGA SPDR ETFs Europe II plc (the “Company”) was incorporated on 12 March 2013 under registration number 525004 and operates in Ireland as a public limited company under the Companies Act 2014 (the “Companies Act”). It was authorised by the Central Bank of Ireland (the “Central Bank”) on 12 March 2013.

The Company is an open-ended investment company with variable capital which is authorised by the Central Bank, under the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011, as amended and is authorised and regulated by the Central Bank, under the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations 2019 (the “UCITS Regulations”).

The Company is an umbrella investment company and has segregated liability between its sub-funds (each a “Fund”, collectively the “Funds”) and accordingly any liability incurred on behalf of or attributable to any Fund shall be discharged solely out of the assets of that Fund. The Company currently has fifty two live constituent Funds and various classes of shares.

Net Assets under management for the Company at 31 March 2023 amounted to USD 15,002,476,908 (31 March 2022: USD 16,928,083,143 and 31 March 2021: USD 14,380,725,985). The Net Assets under management for each Fund is detailed below, the published Net asset value per share is disclosed on the Statement of Financial Position of each Fund.

Fund	Launch date of Active Funds	Functional Currency	Net Assets 2023	Net Assets 2022	Net Assets 2021

## Background to the Company (*continued*)

### Russia/Ukraine conflict

The conflict that started on 24 February 2022 between Russia and Ukraine has resulted in extensive restrictions and disruptions relating to the Russian securities and markets. The effects of those restrictions have and may continue to adversely affect the funds that have exposure to the Russian markets. Sanctions threatened or already imposed against Russia, Russian entities or Russian individuals may result in disruption of the Russian economy, cause volatility in other regional and global markets and negatively impact the performance of various sectors and industries, as well as companies in other countries, which could have a negative effect on the performance of a fund, even if a fund does not have direct exposure to securities of Russian issuers. As a collective result of the imposition of sanctions, Russian government countermeasures and the impact that they have had on the trading markets for Russian securities, certain funds used, fair valuation procedures approved by the board of the Company to value certain Russian securities, which resulted in such securities being deemed to have a zero value. The funds hold insignificant positions in Russian securities. Sanctions, or the threat of new or modified sanctions, could also impair the ability of a fund to buy, sell, hold, receive, deliver or otherwise transact in certain affected securities or other investment instruments. As of 31 March 2023, Fund SPDR Morningstar Multi-Asset Global Infrastructure UCITS ETF held Russian securities and was impacted by the fair value decision taken.

### INVESTMENT OBJECTIVE

#### **SPDR Bloomberg 0-5 Year Sterling Corporate Bond UCITS ETF**

The investment objective of the Fund is to track the performance of the shortdated, fixed-rate, investment grade sterling-denominated corporate bond market. The investment policy of the Fund is to track the performance of the Bloomberg 0-5 Year Sterling Corporate Bond Index (or any other index determined by the Directors from time to time to track substantially the same market as the Bloomberg 0-5 Year Sterling Corporate Bond Index and which is considered by the Directors to be an appropriate index for the Fund to track, in accordance with the Prospectus) (the "Index") as closely as possible, while seeking to minimise as far as possible the tracking difference between the Fund's performance and that of the Index.

#### **SPDR Bloomberg 3-5 Year Euro Government Bond UCITS ETF**

The investment objective of the Fund is to track the performance of Eurozone government bonds, with a remaining maturity between 3 and 5 years. The investment policy of the Fund is to track the performance of the Bloomberg 3-5 Year Euro Treasury Bond Index (or any other index determined by the Directors from time to time to track substantially the same market as the Bloomberg 3-5 Year Euro Treasury Bond Index and which is considered by the Directors to be an appropriate index for the Fund to track, in accordance with the Prospectus) (the "Index") as closely as possible, while seeking to minimise as far as possible the tracking difference between the Fund's performance and that of the Index.

#### **SPDR ICE BofA 0-5 Year EM USD Government Bond UCITS ETF**

The investment objective of the Fund is to track the performance of the short maturity (0-5 year) USD - issued emerging market government bond market. #### **SPDR Refinitiv Global Convertible Bond UCITS ETF**

The investment objective of the Fund is to track the performance of the global convertible bond market. The investment policy of the Fund is to track the performance of the Refinitiv Qualified Global Convertible Index (or any other index determined by the Directors from time to time to track substantially the same market as the Refinitiv Qualified Global Convertible Index and which is considered by the Directors to be an appropriate index for the Fund to track, in accordance with the Prospectus) (the "Index") as closely as possible, while seeking to minimise as far as possible the tracking difference between the Fund's performance and that of the Index.

## Directors' Report

The Directors present herewith their annual report and Financial Statements for the financial year ended 31 March 2023.

### Statement of Directors' Responsibilities

The Directors are responsible for preparing the Directors' Report and the financial statements in accordance with Irish law.

Irish law requires the Directors to prepare financial statements giving a true and fair view of the Company's assets, liabilities and financial position at the end of the financial year and the profit or loss of the Company for the financial year. Under that law the Directors have prepared the financial statements in accordance with International Financial Reporting Standards ("IFRS") as adopted by the European Union ("EU").

Under Irish law the Directors shall not approve the financial statements unless they are satisfied that they give a true and fair view of the Company's assets, liabilities and financial position as at the end of the financial year and of the profit or loss of the Company for the financial year.

In preparing these financial statements, the Directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and estimates that are reasonable and prudent;
- state whether the financial statements have been prepared in accordance with IFRS and ensure that they contain the additional information required by the Companies Act 2014; and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the Company will continue in business.

The Directors confirm that they have complied with the above requirements in preparing the financial statements.

The financial statements have been prepared on a going concern basis as the Directors are of the view that the Company can continue in operational existence for period of at least twelve months from the date of approval of these financial statements (the period of assessment). The Directors anticipate the financial assets will continue to generate enough cash flows on an ongoing basis to meet the Company's liabilities as they fall due. In making this assessment, the Directors considered the potential impact of the Russia/Ukraine conflict on the Company's business over the period of assessment.

The Directors are responsible for keeping adequate accounting records that are sufficient to:

- correctly record and explain the transactions of the Company;
- enable, at any time, the assets, liabilities, financial position and profit or loss of the Company to be determined with reasonable accuracy; and

- enable the Directors to ensure that the financial statements and Directors' report comply with the Companies Act 2014 and enable those financial statements to be audited.

The Directors are responsible for safeguarding the assets of the Company. In this regard they have entrusted the assets of the Company to State Street Custodial Services (Ireland) Limited ("the Depository") who has been appointed as Depository to the Company pursuant to the terms of a Depository Agreement. The Directors have a general responsibility for taking such steps as are reasonably open to them to prevent and detect fraud and other irregularities.

The financial statements are published on the [ssga.com](https://www.ssga.com) website. The Directors, together with the Investment Manager are responsible for the maintenance and integrity of the financial information included on this website. Legislation in the Republic of Ireland governing the preparation and dissemination of financial statements may differ from legislation in other jurisdictions.

This Annual Report and Audited Financial Statements (the "Reports and Accounts") may be translated into other languages. Any such translation shall only contain the same information and have the same meaning as the English language Report and Accounts. To the extent that there is any inconsistency between the English language Report and Accounts and the Report and Accounts in another language, the English language Report and Accounts will prevail, except to the extent (and only to the extent) that it is required by law of any jurisdiction where the shares are sold, that in an action based upon disclosure in a Report and Accounts in a language other than English, the language of the Report and Accounts on which such action is based shall prevail. Any disputes as to the terms of the Report and Accounts, regardless of the language of the Report and Accounts, shall be governed by and construed in accordance with the laws of Ireland.

### Relevant Audit Information

Insofar as the Directors are aware, there is no relevant audit information of which the Company's auditors are unaware and the Directors have taken all the steps that should have been taken as Directors in order to make themselves aware of any relevant audit information and to establish that the Company's auditors are aware of that information.

### Accounting Records

The Directors ensure compliance with the Company's obligation to maintain adequate accounting records by appointing competent persons to be responsible for them. The accounting records are kept by State Street Fund Services (Ireland) Limited, at 78 Sir John Rogerson's Quay, Dublin D02 HD32, Ireland.

### Review of Business and Future Developments

The Company is an open-ended investment company with variable capital which has been authorised by the Central Bank under the UCITS Regulations. The principal activities and investment objectives of the Funds are outlined in the Background to the Company. A market summary and Fund performance are included under the Investment Managers' Reports.

## Directors' Report (continued)

### Accounting Records (continued)

#### Review of Business and Future Developments (continued)

Details of Net Asset Value and Net Asset Value per share are set out in each Fund's Statement of Financial Position and the Total Expense Ratio is set out in Note 3.

There was no change in the nature of the Company's business during the financial year.

#### Risk Management Objectives and Policies

The main risks arising from the Company's financial instruments are market risk, interest risk, liquidity risk and credit risk. Non financial risks would include management risk, market disruption/geopolitical risk, commodities risk, concentration risk, conflicts of interest risk and the Russia/Ukraine conflict. For further information on risk management objectives and policies, please see Note 11 of these financial statements and the Prospectus and Supplements of the Company. For the impact of the Russian/Ukraine conflict please see the Background to the Company section of these financial statements and Note 17.

### Corporate Governance Statement

#### General Principles

The Company is subject to the requirements of the Companies Act 2014 and the UCITS Regulations as applicable to the Company.

The European Communities (Directive 2006/46/EC) Regulations (S.I. 450 of 2009 and S.I. 83 of 2010) (the "Regulations") requires the inclusion of a corporate governance statement in the Directors' Report.

Although there is no specific statutory corporate governance code applicable to Irish collective investment schemes whose shares are admitted to trading on an exchange, the Company is subject to corporate governance practices imposed by:

- (i) The Companies Act 2014 which are available for inspection at the registered office of the Company; and may also be obtained at <http://www.irishstatutebook.ie/>;
- (ii) The Articles of Association of the Company which are available for inspection at the registered office of the Company and at the Companies Registration Office in Ireland; and
- (iii) The Central Bank in their UCITS Notices and Guidance Notes which can be obtained from the Central Bank's website at: <https://www.centralbank.ie/regulation/industry-market-sectors/funds/ucits> and are available for inspection at the registered office of the Company.

On 14 December 2011, Irish Funds ("IF"), published a corporate governance code (the "IF Code") that may be adopted on a voluntary basis by Irish authorised collective investment schemes. The Board of Directors (the "Board") voluntarily agreed to adopt the IF Code on 25 July 2013, and was effective from that date. It should be noted that the IF Code reflects existing corporate governance practices imposed on Irish authorised collective

investment schemes, as noted above. If the IF Code is adopted on a voluntary basis, it can be referred to in the disclosures made in the Directors' Report in compliance with the provisions of the European Communities (Directive 2006/46/EC) Regulations (i.e. S.I. 450 of 2009 and S.I. 83 of 2010).

#### Internal Control and Risk Management Systems in Relation to Financial Reporting

The Board is responsible for establishing and maintaining adequate internal control and risk management systems of the Company in relation to the financial reporting process. Such systems are designed to manage rather than eliminate the risk of error or fraud in achieving the Company's financial reporting objectives and can only provide reasonable and not absolute assurance against material misstatement or loss.

The Board has procedures in place to ensure that all relevant accounting records are properly maintained and are readily available, including production of annual and half yearly financial statements. The Management Company has appointed State Street Fund Services (Ireland) Limited (the "Administrator") on the Company's behalf to maintain the books and records of the Company. The Administrator is authorised and regulated by the Central Bank and must comply with the rules imposed by the Central Bank. From time to time, the Management Company examines and evaluates the Administrator's financial accounting and reporting routines. The annual financial statements of the Company are produced by the Administrator and reviewed by the Investment Manager. They are required to be approved by the Board, and the annual and half yearly financial statements of the Company are required to be filed with the Central Bank.

During the financial year of these financial statements, the Board was responsible for the review and approval of the financial statements as set out in the Statement of Directors' Responsibilities. The statutory financial statements are required to be audited by independent auditors who report annually to the Board on their findings. The Board monitors and evaluates the independent auditors' performance, qualifications and independence. As part of its review procedures, the Board receives presentations from relevant parties including consideration of IFRS accounting standards and their impact on the annual financial statements, and presentations and reports on the audit process. The Board evaluates and discusses significant accounting and reporting issues as the need arises.

#### Dealings with Shareholders

The convening and conduct of Shareholders' meetings are governed by the Articles of Association of the Company and the Companies Act 2014. Although the Directors may convene an extraordinary general meeting of the Company at any time, the Directors were required to convene the first annual general meeting ("AGM") of the Company within eighteen months of incorporation and fifteen months of the date of the previous AGM thereafter, provided that an AGM is held within six months of the end of each financial year of the Company.

## Directors' Report (*continued*)

### Dealings with Shareholders (*continued*)

At least twenty-one clear day's notice of every AGM and any meeting convened for the passing of a special resolution must be given to Shareholders and fourteen days notice must be given in the case of any other general meeting, unless the auditors and all the Shareholders of the Company entitled to attend and vote, agree to shorter notice. Two Shareholders present either in person or by proxy, constitutes a quorum at a general meeting. The share capital of the Company is divided into different classes of shares. The rights attached to any Class or Fund (unless otherwise provided by the terms of issue of the Shares of that Class or Fund or unless otherwise provided herein) may, whether or not the Company is being wound up, be varied with the consent in writing of the holders of three-fourths of the issued Shares of that Class or Fund, or with the sanction of an Extraordinary Resolution passed at a separate general meeting of the holders of the Shares of that Class or Fund, to which the provisions of the Articles relating to general meetings shall mutatis mutandis apply, save that, where a Class or Fund has only one Shareholder holding voting Shares, the quorum at any such general meeting shall be one Shareholder holding voting Shares in such Class or Fund or one Subscriber Shareholder, present either in person or by proxy. Notwithstanding anything to the contrary contained in the Articles, a Subscriber Shareholder shall be entitled to receive notice, in accordance with the provision of article 19 of the Articles, of any general meeting of a Class or Fund. However, the Subscriber Shareholders shall only be entitled to vote at an adjourned general meeting of a Class or Fund which has been adjourned in accordance with the provisions of the Articles.

Every holder of participating shares or non-participating shares present, in person or by proxy, who votes on a show of hands is entitled to one vote. On a poll, every holder of participating shares present, in person or by proxy, is entitled to one vote in respect of each share held by him, and every holder of non-participating shares is entitled to one vote in respect of all non-participating shares held by him. At any general meeting, a resolution put to the vote of the meeting shall be decided on a show of hands unless a poll is (before or on the declaration of the result of the show of hands) demanded by the Chairperson or by any Shareholder present in person or by proxy.

Shareholders may resolve to sanction an ordinary resolution or special resolution at a Shareholders' meeting. Alternatively, a resolution in writing signed by all of the Shareholders and holders of non-participating shares for the time being entitled to attend and vote on such resolution at a general meeting of the Company, will be valid and effective for all purposes as if the resolution had been passed at a general meeting of the Company, duly convened and held.

An ordinary resolution of the Company (or of the Shareholders of a particular Fund or class of shares) requires a simple majority of the votes cast by the Shareholders voting, in person or by proxy, at the meeting at which the resolution is proposed. A special resolution of the Company (or of the Shareholders of a particular Fund or class of shares) requires a majority of not

less than 75% of Shareholders present, in person or by proxy, and voting in a general meeting in order to pass a special resolution including a resolution to amend the Articles of Association of the Company.

### Board Composition and Activities

In accordance with the Companies Act 2014 and the Articles of Association, unless otherwise determined by an ordinary resolution of the Company in a general meeting, the number of Directors may not be less than two or more than twelve. As at 31 March 2023, the Board is comprised of four non-executive Directors of whom two are independent. Details of the current Directors are set out below, under the heading "Directors".

The business of the Company is managed by the Directors, who exercise all such powers of the Company as set out by the Companies Act 2014 or by the Articles of Association of the Company required to be exercised by the Company in a general meeting.

The Board is responsible for the Company's overall direction and strategy, and to this end it reserves the decision making power on issues such as the determination of medium and long term goals, review of managerial performance, organisational structure and capital needs and commitments to achieve the Company's strategic goals. To achieve these responsibilities, the Board meets four times a year to review the operations of the Company, address matters of strategic importance and to receive reports from the Management Company, Administrator and Depositary. However, a Director may, and the Company Secretary on the request of a Director will, at any time summon a meeting of the Directors and ad hoc meetings in addition to the four meetings as required.

Questions arising at any meetings of the Directors shall be decided by a majority of votes. In the case of an equality of votes, the Chairperson of the meeting at which the show of hands takes place or at which the poll is demanded shall be entitled to a second or casting vote. The quorum necessary for the transaction of business at a meeting of the Directors is two.

The board meetings have been well attended during the financial year ended 31 March 2023.

### Diversity Report

With respect to diversity, the Company has no employees and the only individuals engaged directly by it are its Directors. When there is a vacancy on the Company's Board of Directors, the objective is to ensure that the Board is diversified with an appropriate mix as regards age, gender and educational/professional backgrounds, while achieving compliance by all individuals with regulatory requirements and an overall composition with the requisite experience and skills. The implementation of the Board's diversity policy includes reviews of the balance of skills, knowledge, experience and diversity on the Board as detailed in the Board's Succession Plan. Selection decisions taken by the Board in the period have been based on merit and followed a recruitment process that was fair and non-discriminatory.

## Directors' Report (*continued*)

### Directors' Compliance Statement

In accordance with Section 225 of the Companies Act 2014, the Directors:

- acknowledge that they are responsible for securing the Company's compliance with its relevant obligations; and
- confirm that:
  - A compliance policy statement has been prepared setting out the Company's policies (that, in the Directors' opinion, are appropriate to the Company) for ensuring compliance by the Company with its relevant obligations;
  - An adequate structure is in place, that in the Directors' opinion, is designed to secure material compliance with the Company's relevant obligations; and
  - An annual review procedure has been put in place to review the Company's relevant obligations and ensure a structure is in place to comply with these obligations.

### Results and Dividends

The results and dividends for the financial year are set out in the Statement of Comprehensive Income.

### Events During the Financial Year

Please refer to Note 17 for significant events during the financial year.

### Events Since the Financial Year End

Please refer to Note 18 for significant events since the financial year end.

### Directors

The names of the persons who were Directors at any time during the financial year ended 31 March 2023 are set out below.

Tom Finlay\* (Irish) (resigned on 16 March 2023)  
Patrick J. Riley\* (U.S.) (resigned on 16 March 2023)  
Barbara Healy\* (Irish)  
Kathleen Gallagher (Australian)  
Ellen Needham (U.S.) (resigned on 1 May 2023)  
Ms. Jennifer Fox\* (Irish) (appointed on 16 March 2023)

\* Independent Directors. All other Directors are non-independent Directors.

All the Directors are non-executive Directors.

The Directors' fees for the independent Directors during the financial year was USD 128,510 (31 March 2022: USD 142,496), the amount payable to the Directors at financial year end was USD 11,679 (31 March 2022: USD Nil).

### Directors' and Secretary's Interests

The Board is not aware of any shareholding in the Company by any Director or Secretary during the financial years ended 31 March 2023 and 31 March 2022 or at the date of appointment.

### Independent Auditors

Ernst & Young was appointed as external auditors on 23 September 2021.

Ernst & Young have indicated their willingness to remain in office in accordance with Section 383 (2) of the Companies Act 2014 (as amended).

### Political donations

There were no political donations made during the financial year ended 31 March 2023 or 31 March 2022.

### Audit Committee

SSGA SPDR ETFs Europe II plc has formed an Audit committee. Tom Finlay, Patrick J. Riley (up until their resignation on 16 March 2023), Barbara Healy and Jennifer Fox (appointed on 16 March 2023) sit on the Audit Committee and have been given oversight for financial reporting, external auditors and reporting responsibilities. The audit committee meets at least once a year at appropriate times in the reporting and audit cycle.

### Dealings with Connected Persons

Regulation 43(1) of the UCITS Regulations "Restrictions of transactions with connected persons" states that "A responsible person shall ensure that any transaction between a UCITS and a connected person is conducted a) at arm's length; and b) in the best interest of the shareholders of the UCITS".

As required under UCITS Regulation 81.4, the Directors, as responsible persons are satisfied that there are in place arrangements, evidenced by written procedures, to ensure that the obligations that are prescribed by Regulation 43(1) are applied to all transactions with a connected persons; and all transactions with connected persons that were entered into during the financial year to which the report relates complied with the obligations that are prescribed by Regulation 43(1).

### On behalf of the Board:

Director Barbara Healy

Director Jennifer Fox

24 July 2023

## Report of the Depositary to the Shareholders

We have enquired into the conduct of State Street Global Advisors Europe Limited as the Manager of the SSGA SPDR ETFs Europe II plc ('the Company') and into the conduct of the Company itself for the financial year ended 31 March 2023, in our capacity as Depositary to the Company.

This report including the opinion has been prepared for and solely for the shareholders in the Company as a body, in accordance with Regulation 34, (1), (3) and (4) in Part 5 of the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011, as amended, ('the UCITS Regulations'), and for no other purpose. We do not, in giving this opinion, accept or assume responsibility for any other purpose or to any other person to whom this report is shown.

### Responsibilities of the Depositary

Our duties and responsibilities are outlined in Regulation 34, (1), (3) and (4) in Part 5 of the UCITS Regulations. One of those duties is to enquire into the conduct of the Company in each annual accounting period and report thereon to the Shareholders.

Our report shall state whether, in our opinion, the Company has been managed in that period in accordance with the provisions of the Company's Memorandum and Articles of Association and the UCITS Regulations. It is the overall responsibility of the Company to comply with these provisions. If the Company has not so complied, we as Depositary must state why this is the case and outline the steps which we have taken to rectify the situation.

### Basis of Depositary Opinion

The Depositary conducts such reviews as it, in its reasonable opinion, considers necessary in order to comply with its duties as outlined in Regulation 34, (1), (3) and (4) in Part 5 of the UCITS Regulations and to ensure that, in all material respects, the Company has been managed (i) in accordance with the limitations imposed on its investment and borrowing powers by the provisions of the Company's Memorandum and Articles of Association and the UCITS Regulations and (ii) otherwise in accordance with the Company's constitutional documentation and the appropriate regulations.

### Opinion

In our opinion, the Company has been managed during the financial year, in all material respects:

- (i) in accordance with the limitations imposed on the investment and borrowing powers of the Company by the Constitution, the UCITS Regulations and the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations 2019 ('the Central Bank UCITS Regulations'); and
- (ii) otherwise in accordance with the provisions of the Constitution, the UCITS Regulations and the Central Bank UCITS Regulations.

## Investment Managers' Reports

### Passive Fixed Income, Passive Equity and Passive Multi Asset Funds

#### Market Review

The global bond market sell-off that commenced at the beginning of 2022 continued throughout most of the first half of the reporting period (April to September 2022). Yields marched higher in the second quarter of 2022 due to the elevated inflation backdrop globally with policy makers playing catch-up with interest rate increases. It wasn't until the fourth quarter of 2022 after multiple rate increases that bond markets began to stabilise as inflation had turned and the terminal level for rates began to peak. Central banks reiterated their resolve to bringing inflation down which remained elevated despite the improvements from its peak.

Bond yields staged a recovery at the start of 2023 driven initially by growth concerns and then sparked further by the turmoil in the US regional banking sector. Despite considerable fluctuations in asset prices, the strong reopening of the Chinese economy and declining commodity prices helped to stabilise the macro outlook somewhat. While headline inflation had cooled, pockets of core inflation remained a concern for investors and policy makers. The global tightening cycle of major central banks was now quite advanced, however central banks remained keen to keep interest rates high and financial conditions tight, to ensure that inflation continued to decline. During the last six months of the period under review, the US Federal Reserve raised US policy rates by a total of 1.75%, while the ECB raised their key policy rate by 2.25% to 3.5%.

The collapse of Silicon Valley Bank and forced takeover of Credit Suisse by its Swiss rival UBS, demonstrated how fragile investor confidence had become and this resulted in significant market turbulence. However, despite these events, financial sector contagion was relatively contained in Europe, primarily due to the far stricter regulatory environment in which European banks operate, from both a liquidity and capital reserves perspective. Investor sentiment stabilised and broader contagion did not materialise. In China, manufacturing activity rebounded and both the services sector and the housing market also recovered strongly.

Despite this challenging backdrop into 2023, bond returns remained quite resilient, as investors anticipated the potential ending of the tightening cycle. Yields also benefitted from safe-haven buying of government bonds in March, as the regional banking crisis began to unfold in the US. The 10-year US Treasury Note ended the period at a yield of 3.47%, increasing from 2.34% at the start of the period. Meanwhile in Europe, inflation declined to a one year low in March 2023, but core inflation continued to rise. European Government bond yields also began to decline from their highs in early March 2023. The United Kingdom saw a shorter bond rally at the end of the reporting period with yields for the 10 year Government bonds settling at 3.49%.

In Emerging Markets, returns for the 12 months ending March 2023 were negative for both local and hard currency debt. During the reporting period, Emerging Market (EM) local currency debt returned -0.72% (in USD terms), as measured by the JP Morgan GBI-EM Global Diversified Index. EM hard currency sovereign debt returned -6.92% (in USD terms), as measured by the JP

Morgan EMBI Global Diversified Index. EM inflation also showed signs of peaking and yields started to decline with markets pricing in the potential for monetary easing later in 2023.

#### Fund Performance

##### Passive Fixed Income Funds

Overall the SSGA SPDR ETFs Europe II Plc Fixed Income funds performed reasonably in line with their respective benchmark indices (all within +/- 15 bps), over the period with the exception of SPDR Bloomberg 0-5 Year Sterling Corporate Bond UCITS ETF and SPDR ICE BofA 0-5 Year EM USD Government Bond UCITS ETF.

SPDR Bloomberg 0-5 Year Sterling Corporate Bond UCITS ETF had a tracking difference of -16 bps against the benchmark. This was predominantly due to detractions from yield curve effects (-9.6 bps). Total detractions from sampling (not buying all the bonds) was around -4.9 bps. Transaction costs are typically quite high on this portfolio due to the fact that many of the bonds that drop below 5 years to maturity are smaller and less liquid as they were often issued 5-10 plus years ago. To help reduce transaction costs, opportunities were taken mid-month to buy bonds that will be entering the index. This increased the active duration at certain points last year and given the extreme interest rate movements, led to some underperformance.

SPDR ICE BofA 0-5 Year EM USD Government Bond UCITS ETF had a tracking difference of +17 bps against the benchmark. A significant portion of its index is rated sub-investment grade, hence the price movements are volatile and even a small mis-match between the portfolio and index weights in individual securities can lead to material tracking errors. Thus, managing the fund is always a trade-off between keeping transaction costs at a reasonable level while at the same time ensuring the fund continues to closely track the index. The tracking difference was driven by transaction costs and by small mis-matches between the portfolio and index holdings that arise from a stratified sampling (not buying all the bonds) approach.

##### Passive Equity Funds

There were two new ETFs launched over the period: the SPDR MSCI Emerging Markets Climate Paris Aligned UCITS ETF – USD Unhedged (Acc) and SPDR MSCI ACWI Climate Paris Aligned UCITS ETF – USD Unhedged (Acc).

Most of the Equity Sub-Funds were within the anticipated deviation bands of their respective indices, on an annual and since inception basis.

All the Funds were within the anticipated 1 year annual ex-post tracking error number. However, it should be noted that 1-year ex-post tracking error is a short period to understand whether a fund is within acceptable tolerance, a 3-year figure is more in line with industry standards.

## Investment Managers' Reports (*continued*)

### Passive Fixed Income, Passive Equity and Passive Multi Asset Funds (*continued*)

#### Passive Equity Funds (*continued*)

Additional information is provided on Funds where the tracking difference was +/- 0.10% on a gross-of-fees basis or where the one-year tracking error may be perceived to be high. Over the reporting period:

The SPDR MSCI Europe Consumer Discretionary UCITS ETF's outperformance (0.34%) was mainly attributed to withholding tax.

The SPDR MSCI Europe Energy UCITS ETF's outperformance (0.74%) was mainly attributed to withholding tax.

The SPDR MSCI Europe Financials UCITS ETF's outperformance (0.61%) was mainly attributed to withholding tax.

The SPDR MSCI Europe Health Care UCITS ETF's outperformance (0.12%) was mainly attributed to withholding tax.

The SPDR MSCI Europe Industrials UCITS ETF's outperformance (0.37%) was mainly attributed to withholding tax.

The SPDR MSCI World Communication Services UCITS ETF's outperformance (0.12%) was mainly attributed to withholding tax.

The SPDR MSCI World Utilities UCITS ETF's outperformance (0.49%) was mainly attributed to withholding tax.

The SPDR STOXX Europe 600 ESG Screened UCITS ETF's outperformance (0.33%) was mainly attributed to withholding tax.

The SPDR MSCI World Value UCITS ETF's outperformance (0.27%) was mainly attributed to withholding tax.

#### Passive Multi Asset Fund

The SPDR Morningstar Multi-Asset Global Infrastructure Fund (the "Fund") seeks to track the performance of the global infrastructure market represented by publicly traded infrastructure related equity and bonds.

The Fund's benchmark is the Morningstar Global Multi-Asset Infrastructure Index (the "Index").

For the period, the total return for the Fund was -8.10%, gross of fees, and the Index return was -7.75%. The fixed income component returned -8.40% over the period, lower than the return of its underlying index return of -8.18%. The equity component returned -7.89% over the period, lower than the return of its underlying index of -7.62%.

## **INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF SSGA SPDR ETFs EUROPE II PLC**

### ***Report on the audit of the financial statements***

#### **Opinion**

We have audited the financial statements of SSGA SPDR ETFs Europe II plc ('the Company') for the year ended 31 March 2023, which comprise the Company Statement of Financial Position, Company Statement of Comprehensive Income, Company Statement of Changes in Net Assets Attributable to Holders of Redeemable Participating Shares, Company Statement of Cashflows and notes to the financial statements, including the summary of significant accounting policies set out in note 1. The financial reporting framework that has been applied in their preparation is Irish Law and International Financial Reporting Standards (IFRS) as adopted by the European Union.

In our opinion the financial statements:

- give a true and fair view of the assets, liabilities and financial position of the Company as at 31 March 2023 and of its loss for the year then ended;
- have been properly prepared in accordance with IFRS as adopted by the European Union; and
- have been properly prepared in accordance with the requirements of the Companies Act 2014, the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations, 2011, and the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations 2019.

#### **Basis for opinion**

We conducted our audit in accordance with International Standards on Auditing (Ireland) (ISAs (Ireland)) and applicable law. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with ethical requirements that are relevant to our audit of financial statements in Ireland, including the Ethical Standard as applied to public interest entities issued by the Irish Auditing and Accounting Supervisory Authority (IAASA), and we have fulfilled our other ethical responsibilities in accordance with these requirements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

#### **Conclusions relating to going concern**

In auditing the financial statements, we have concluded that the directors' use of the going concern basis of accounting in the preparation of the financial statements is appropriate. Our evaluation of the directors' assessment of the Company's ability to continue to adopt the going concern basis of accounting included:

- Confirming our understanding of management's Going Concern assessment process and also engaged with management to understand the key factors which were considered in their assessment;
- Obtaining management's going concern assessment, which covers a year from the date of approval of the financial statements;

**Building a better  
working world**

#### **INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF SSGA SPDR ETFS EUROPE II PLC (CONTINUED)**

- Reviewing and evaluating the reasonability of the key factors considered by management in making their assessment of going concern including consideration of the availability of liquid assets to meet ongoing operational costs and known future capital activity in the Company. In assessing these, we obtained and reviewed the liquidity terms which the Company offers to investors together with reviewing post year-end capital activity and corroborated through enquiry of management as to whether there are any subsequent events, including Company performance, that might give rise to conditions which could lead management to discontinue the operations of the Company.
- Reviewing the Company's going concern disclosures included in the annual report in order to assess that the disclosures were appropriate and in conformity with the reporting standards.

#### **Conclusion**

Based on the work we have performed, we have not identified any material uncertainties relating to events or conditions that, individually or collectively, may cast significant doubt on the Company's ability to continue as a going concern for a period of at least twelve months from when the financial statements are authorised for issue.

Our responsibilities and the responsibilities of the directors with respect to going concern are described in the relevant sections of this report. However, because not all future events or conditions can be predicted, this statement is not a guarantee as to the Company's ability to continue as a going concern.

**INDEPENDENT AUDITOR’S REPORT TO THE MEMBERS OF SSGA SPDR ETFS EUROPE II PLC (CONTINUED)**

**Key audit matters**

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period and include the most significant assessed risks of material misstatement (whether or not due to fraud) that we identified, including those which had the greatest effect on: the overall audit strategy, the allocation of resources in the audit; and directing the efforts of the engagement team. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

<b>Risk</b>	<b>Our response to the risk</b>	<b>Key observations communicated to the Audit Committee</b>

## **INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF SSGA SPDR ETFS EUROPE II PLC (CONTINUED)**

### **Our application of materiality**

We apply the concept of materiality in planning and performing the audit, in evaluating the effect of identified misstatements on the audit and in forming our audit opinion.

#### **Materiality**

The magnitude of an omission or misstatement that, individually or in the aggregate, could reasonably be expected to influence the economic decisions of the users of the financial statements. Materiality provides a basis for determining the nature and extent of our audit procedures.

We determined materiality for the Company to be 0.5% (2022: 0.5%) of each of the Company's fund's Net Asset Value. We believe that Net Asset Value provides us with appropriate measurement basis since the users of the financial statements may focus more on this than on earnings.

During the course of our audit, we reassessed initial materiality and made no changes to it.

#### **Performance materiality**

The application of materiality at the individual account or balance level. It is set at an amount to reduce to an appropriately low level the probability that the aggregate of uncorrected and undetected misstatements exceeds materiality.

On the basis of our risk assessments, together with our assessment of the Company's overall control environment, our judgement was that performance materiality was 75% (2022: 50%) of our planning materiality. We have set performance materiality at this percentage based on our assessment of the risk of misstatements, both corrected and uncorrected. Due to the completion of the first-year financial statement audit and our knowledge of the Company's operations and control environment in the current year, we have re-assessed the level we have set our performance materiality. We have set performance materiality at this percentage due to no longer being a first-year audit and our knowledge of the company's industry.

#### **Reporting threshold**

An amount below which identified misstatements are considered as being clearly trivial.

We agreed with the Board of Directors that we would report to them all uncorrected audit differences in excess of 5% of our defined materiality, as well as differences below that threshold that, in our view, warranted reporting on qualitative grounds.

We evaluate any uncorrected misstatements against both the quantitative measures of materiality discussed above and in light of other relevant qualitative considerations in forming our opinion.

### **An overview of the scope of our audit report**

#### **Tailoring the scope**

Our assessment of audit risk, our evaluation of materiality and our allocation of performance materiality determine our audit scope for the Company. This enables us to form an opinion on the financial statements. We take into account size, risk profile, the organisation of the Company and effectiveness of controls, including controls and changes in the business environment when assessing the level of work to be performed. All audit work was performed directly by the audit engagement team.

**Building a better  
working world**

## **INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF SSGA SPDR ETFS EUROPE II PLC (CONTINUED)**

### ***Other information***

The directors are responsible for the other information. The other information comprises the information included in the annual report other than the financial statements and our auditor's report thereon. Our opinion on the financial statements does not cover the other information and, except to the extent otherwise explicitly stated in our report, we do not express any form of assurance conclusion thereon.

Our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If we identify such material inconsistencies or apparent material misstatements, we are required to determine whether there is a material misstatement in the financial statements or a material misstatement of the other information. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact.

We have nothing to report in this regard.

### ***Opinions on other matters prescribed by the Companies Act 2014***

In our opinion, based solely on the work undertaken in the course of the audit, we report that:

- the information given in the directors' report for the financial year ended for which the financial statements are prepared is consistent with the financial statements; and
- the directors' report has been prepared in accordance with applicable legal requirements.

We have obtained all the information and explanations which, to the best of our knowledge and belief, are necessary for the purposes of our audit.

In our opinion the accounting records of the Company were sufficient to permit the financial statements to be readily and properly audited and the financial statements are in agreement with the accounting records.

### ***Matters on which we are required to report by exception***

Based on the knowledge and understanding of the Company and its environment obtained in the course of the audit, we have not identified material misstatements in the directors' report.

The Companies Act 2014 requires us to report to you if, in our opinion, the disclosures required by sections 305 to 312 of the Act, which relate to disclosures of directors' remuneration and transactions are not complied with by the Company. We have nothing to report in this regard.

Building a better  
working world

## INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF SSGA SPDR ETFS EUROPE II PLC (CONTINUED)

### *Respective responsibilities*

#### ***Responsibilities of directors for the financial statements***

As explained more fully in the directors' responsibilities statement set out on page 15, the directors are responsible for the preparation of the financial statements in accordance with the applicable financial reporting framework that give a true and fair view, and for such internal control as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the directors are responsible for assessing the Company's ability to continue as going concerns, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

#### ***Auditor's responsibilities for the audit of the financial statements***

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (Ireland) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

#### ***Explanation to what extent the audit was considered capable of detecting irregularities, including fraud***

Irregularities, including fraud, are instances of non-compliance with laws and regulations. We design procedures in line with our responsibilities, outlined above, to detect irregularities, including fraud, that could reasonably be expected to have a material effect on the financial statements. The risk of not detecting a material misstatement due to fraud is higher than the risk of not detecting one resulting from error, as fraud may involve deliberate concealment by, for example, forgery or intentional misrepresentations, or through collusion. In addition, the further removed any non-compliance is from the events and transactions reflected in the financial statements, the less likely it is that our procedures will identify such non-compliance. The extent to which our procedures are capable of detecting irregularities, including fraud is detailed below. However, the primary responsibility for the prevention and detection of fraud rests with both those charged with governance of the Company and management.

Our approach was as follows:

We obtained an understanding of the legal and regulatory frameworks that are applicable to the Company and determined that the most significant are the Companies Act 2014, the Undertaking for Collective Investment in Transferable Securities pursuant to the provisions of the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011 and the Central Bank (Supervision And Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations 2019.

We understood how the Company is complying with those frameworks by updating our understanding of the adequate system of internal control in place. We also considered the existence of independent service providers, proper segregation of duties and the regulated environment in which the Company operates, which may reduce opportunities for fraud to take place.

We assessed the susceptibility of the Company's financial statements to material misstatement, including how fraud might occur by management override of controls.

**Building a better  
working world**

## **INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF SSGA SPDR ETFS EUROPE II PLC (CONTINUED)**

Based on this understanding we designed our audit procedures to identify non-compliance with such laws and regulations. Our procedures involved inquiries to those charged with governance into possible instances of non-compliance with laws and regulations, review of board meeting minutes during the year and obtaining representation from the management.

A further description of our responsibilities for the audit of the financial statements is located on the IAASA's website at: [http://www.iaasa.ie/getmedia/b2389013-1cf6-458b-9b8f-a98202dc9c3a/Description\\_of\\_auditors\\_responsibilities\\_for\\_audit.pdf](http://www.iaasa.ie/getmedia/b2389013-1cf6-458b-9b8f-a98202dc9c3a/Description_of_auditors_responsibilities_for_audit.pdf).

This description forms part of our auditor's report.

### ***Other matters which we are required to address***

We were appointed by the Directors on 23 September 2021 to audit the financial statements for the year ended 31 March 2022 and subsequent financial periods. The period of total uninterrupted engagement including previous renewals and reappointments of the firm is 2 years.

The non-audit services prohibited by IAASA's Ethical Standard were not provided to the Company and we remain independent of the Company in conducting our audit.

Our audit opinion is consistent with the additional report to the Board of Directors.

### ***The purpose of our audit work and to whom we owe our responsibilities***

Our report is made solely to the Company's members, as a body, in accordance with section 391 of the Companies Act 2014. Our audit work has been undertaken so that we might state to the Company's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Company and the Company's members, as a body, for our audit work, for this report, or for the opinions we have formed.

## Notes to the Financial Statements for the financial year ended 31 March 2023

### 1. SIGNIFICANT ACCOUNTING POLICIES

SSGA SPDR ETFs Europe II plc (the “Company”) was incorporated on 12 March 2013 under registration number 525004 and operates in Ireland as a public limited company under the Companies Act 2014 (the “Companies Act”). It was authorised by the Central Bank of Ireland (the “Central Bank”) on 12 March 2013. The registered office of the Company is 78 Sir John Rogerson’s Quay, Dublin D02 HD32, Ireland.

The principal accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied throughout the periods.

#### (a) Basis of preparation

The financial statements have been prepared in accordance with International Financial Reporting Standards (“IFRS”) as adopted by the European Union (“EU”), the interpretations adopted by International Accounting Standard Board (“IASB”) and Irish statute comprising the Companies Act 2014 and the UCITS Regulations.

The financial statements have been prepared on a going concern basis as the Directors are of the view that the Company can continue in operational existence for a period of at least twelve months from the date of approval of these financial statements (the period of assessment) and under the historical cost convention as modified by the revaluation of certain financial assets and financial liabilities (including derivative financial instruments) held at fair value through profit and loss.

The Directors anticipate the financial assets will continue to generate enough cash flows on an ongoing basis to meet the Company’s liabilities as they fall due. In making this assessment, the Directors considered the potential impact of the Russia/Ukraine conflict on the Company’s business over the period of assessment.

Changes to significant accounting policies are described below.

#### (b) New standards, amendments and interpretations

##### **New standards, amendments and interpretations issued and effective for the financial year beginning 1 April 2022**

There are no new standards, interpretations or amendments to existing standards that are issued and effective that would be expected to have a significant impact on any of the Company’s financial statements.

##### **New standards, amendments and interpretations issued but not effective for the financial year beginning 1 April 2022**

The following new and amended standards and interpretations are not expected to have a significant impact on the Company’s financial statements:

IAS 1 Presentation of Financial Statements and IFRS Practice Statement 2 Making Materiality Judgements. The amendment amended IAS 1 to replace the requirement for entities to disclose their significant accounting policies with the requirement to disclose

their material accounting policy information. The amendments are effective for annual reporting periods beginning on or after 1 January 2023.

Amendments to IAS 8 - Definition of Accounting Estimates. The amendments clarify how companies distinguish changes in accounting policies from changes in accounting estimates, with a primary focus on the definition of and clarifications on accounting estimates. The amendments are effective for annual reporting periods beginning on or after 1 January 2023.

Amendments to IAS 12 - Deferred Tax Related to Assets and Liabilities Arising from a Single Transaction. The amendments introduce an exception to the initial recognition exemption in IAS 12 and also apply to taxable and deductible temporary differences associated with right-of-use assets and lease liabilities, and decommissioning obligations and corresponding amounts recognised as assets at the beginning of the earliest comparative period presented. The amendments are effective for annual reporting periods beginning on or after 1 January 2023.

Amendments to IAS 1 - Classification of Liabilities as Current or Non-Current – Deferral of Effective Date provides a more general approach to the classification of liabilities under IAS 1 Presentation of Financial Statements based on the contractual arrangements in place at the reporting date. The amendments are effective for annual reporting periods beginning on or after 1 January 2024.

Amendments to IAS 7 Statement of Cash Flows and IFRS 7 Financial Instruments: Disclosures: Supplier Finance Arrangements. The amendments seek to add disclosure requirements, and ‘signposts’ within existing disclosure requirements, that ask entities to provide qualitative and quantitative information about supplier finance arrangements. The amendments are effective for reporting periods beginning on or after 1 January 2024.

There are no other new standards, interpretations or amendments to existing standards that are not yet effective that would be expected to have a significant impact on any of the Company’s financial statements.

#### (c) Foreign currency translation

##### *Functional and presentation currency*

The Company operates a number of Funds, each with its separately determined functional currency as stated on the Statement of Financial Position.

## Notes to the Financial Statements for the financial year ended 31 March 2023 (continued)

### 1. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

#### (c) Foreign currency translation (continued)

##### *Functional and presentation currency (continued)*

Items included in the Company's financial statements are measured using the currency of the primary economic environment in which each of the Funds operate. The Company has also adopted these currencies as the presentation currency of the individual Funds. Company totals are presented in U.S. Dollars (which is also the "functional currency").

##### *Transactions and balances*

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions. Foreign currency assets and liabilities are translated into the functional currency using the exchange rate prevailing at the Statement of Financial Position date. Foreign exchange gains or losses arising from translation are included in the Statement of Comprehensive Income.

For the purposes of producing the Company Statement of Financial Position, the Statements of Financial Position of the individual Funds which are not kept in the presentation currency are translated to U.S. Dollar using the exchange rates as at 31 March 2023 and 31 March 2022 and accumulated in the preparation of the Company Statement of Financial Position. For the purpose of producing the Company Statement of Comprehensive Income, the Company Statement of Changes in Net Assets Attributable to Holders of Redeemable Participating Shares and the Company Statement of Cash Flows from the accounts of the individual Funds, average exchange rates for the financial year are used. The combination of average and year end exchange rates in the different statements gives rise to a notional currency translation gain or loss in the Company Statement of Changes in Net Assets Attributable to Holders of Redeemable Shares and the Company Statement of Cash Flows. This relates to the Company position only and has no impact on the Net Asset Value ("NAV") attributable to holders of redeemable participating shares.

#### (d) Significant accounting judgements and estimates

The preparation of the Company's financial statements requires management to make judgements, estimates and assumptions that affect the amounts recognised in the financial statements. However, uncertainty about these assumptions and estimates could result in outcomes that could require a material adjustment to the carrying amount of the asset or liability affected in the future.

##### *Going concern*

As disclosed in Note 1 (a) and based on an assessment by the Directors, the financial statements have been prepared on a going concern basis.

##### *Fair value measurement of financial derivative instruments ("FDIs") and securities not quoted in active market*

The Funds hold financial instruments that are not quoted in active markets, including FDIs. Fair value of such instruments is determined using valuation techniques and may be determined using reputable pricing sources (such as pricing agencies) or indicative prices from market makers. Broker quotes as obtained from the pricing sources may be indicative and not executable or binding. Where no market data is available, the Company may value positions using its own models, which are usually based on valuation methods and techniques generally recognised as standard within the industry. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgement is required in establishing fair values. The judgements include considerations of liquidity and model inputs such as credit risk (both own and counterparty's), correlation and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments. The models used to determine fair values are validated and periodically reviewed by experienced personnel of the Investment Manager, independent of the party that created them.

Models use observable data, to the extent practicable. However, areas such as credit risk (both own and counterparty), volatilities and correlations require the Investment Manager to make estimates. Changes in assumptions about these factors could affect the reported fair values of financial instruments. The Funds consider observable data to be market data that is readily available, regularly distributed and updated, reliable and verifiable, not proprietary, and provided by independent sources that are actively involved in the relevant market. Refer to Note 1 (e) (iii) for further information about the fair value measurement of the Funds' financial instruments.

#### (e) Financial instruments

##### (i) Classification

The Company classifies its investments based on both the Company's business model for managing those financial assets and the contractual cash flow characteristics of the financial assets. The portfolio of financial assets is managed and performance is evaluated on a fair value basis. The Company is primarily focused on fair value information and uses that information to assess the assets' performance and to make decisions. The Company has not taken the option to irrevocably designate any equity securities as fair value through other comprehensive income. The contractual cash flows of the Company's debt securities are solely principal and interest, however, these securities are neither held for the purpose of collecting contractual cash flows nor held both for collecting contractual cash flows and for sale. The collection of contractual cash flows is only incidental to achieving the Company's business model's objective. Consequently, all investments are measured at fair value through profit or loss.

## Notes to the Financial Statements for the financial year ended 31 March 2023 (continued)

### 1. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

#### (e) Financial instruments (continued)

##### (ii) Recognition, derecognition and measurement

Regular purchases and sales of investments are recognised on trade date - the date on which the Fund commits to purchase or sell the investment. Financial assets and financial liabilities at fair value through profit or loss are initially recognised at fair value. Transaction costs are expensed as incurred in the Statement of Comprehensive Income, please see Note 1 (l) for further details. Financial assets are derecognised when the rights to receive cash flows from the investments have expired or the Fund has transferred substantially all risks and rewards of ownership. Financial liabilities are derecognised when the obligations to pay cash flows from the investments have been discharged, cancelled or expired.

Subsequent to initial recognition, all financial assets and financial liabilities at fair value through profit or loss are measured at fair value. Gains and losses arising from changes in the fair value of the 'financial assets or financial liabilities at fair value through profit or loss' category are presented in the Statement of Comprehensive Income, within net changes in fair value of financial assets and financial liabilities at fair value through profit or loss in the period in which they arise.

Dividend income from financial assets at fair value through profit or loss is recognised in the Statement of Comprehensive Income within dividend income when the Fund's right to receive payments is established. Interest on debt securities at fair value through profit or loss is recognised in the Statement of Comprehensive Income within Income from financial assets at fair value based on the effective interest rate.

##### (iii) Fair value estimation

IFRS 13 Fair value measurement ("IFRS 13") improves consistency and reduces complexity by providing a precise definition of fair value. Funds' valuation inputs for listed financial assets and liabilities are consistent with the inputs prescribed in the Funds' offering document.

The fair value of financial assets and liabilities traded in active markets (such as publicly traded derivatives and trading securities) are based on quoted market prices at the close of trading on the reporting date. In respect of debt securities, the quoted market price used for financial assets held by the Fund is the current bid price; the appropriate quoted market price for financial liabilities is the current asking price. In respect of equity securities, the quoted market price used is the last traded price.

When the fair value of financial assets and financial liabilities recorded in the Statement of Financial Position cannot be derived from active markets, they will be valued at its probable realisation value estimated with care and in good faith by the Directors in consultation with the Administrator or by a competent person,

firm or corporation appointed by the Directors and approved for such purpose by the Depositary. These values are determined using a variety of valuation techniques that include the use of mathematical models. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgement is required in establishing fair values. The judgements include considerations of liquidity and model inputs such as credit risk (both the Company's and counterparty's), correlation and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments. The models are calibrated regularly and tested for validity using prices from any observable current market transactions in the same instrument (without modification or repackaging) or based on any available observable market data. The classification of fair value measurements at the year end is set out in Note 12 under "Fair valuation hierarchy". All equity investment instruments held by the Funds are exchange traded and valued in the same manner as equities described above.

The Company has determined that it has two business models:

- Hold to collect business model: this includes the Company's cash and receivables, where these financial assets are held to collect contractual cash flows;
- Other business model: this includes the Company's investments in fixed income securities, where these financial assets are managed, measured and valued on a fair value basis, with frequent sales taking place.

The Company's investments, such as fixed income securities, are neither held for the purpose of collecting contractual cash flows nor held both for collecting contractual cash flows and for sale, and therefore do not meet the business model test under IFRS 9 Financial Instruments ("IFRS 9"). As such, the Company classifies the investment as a financial asset at fair value through profit or loss. Cash and receivables are held at amortised cost with a simplified expected credit loss model as they do not contain a financing component.

IFRS 9 requires an impairment assessment to be carried out on its financial assets. The Directors have assessed that impairment does not apply to financial assets classified as fair value through profit or loss. In relation to assets held at amortised cost, the Directors consider the probability of default to be close to zero, as these instruments have a low risk of default and the counterparties have a strong capacity to meet their contractual obligations in the near term. As a result, no loss allowance on financial assets at amortised cost has been recognised in the financial statements based on lifetime expected credit loss as any such impairment would be wholly insignificant to the Company.

## Notes to the Financial Statements for the financial year ended 31 March 2023 (continued)

### 1. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

#### (e) Financial instruments (continued)

##### (iv) Specific Instruments

###### *Forward and Spot Foreign Currency Exchange Contracts*

The fair value of open forward foreign currency exchange contracts and open spot foreign currency exchange contracts is calculated as the difference between the contracted rate and the current forward rate that would close out the contract on the Statement of Financial Position date. For each relevant Fund, gains or losses on open spot foreign currency exchange contracts are included in cash and cash equivalents in the Statement of Financial Position and gains or losses on open forward foreign currency exchange contracts are included in financial assets (or financial liabilities) at fair value through profit or loss, as appropriate, in the Statement of Financial Position and are shown in the Schedule of Investments of each relevant Fund. Any changes in fair value are recognised in the Statement of Comprehensive Income.

###### *Futures Contracts*

Initial margin deposits are made upon entering into futures contracts and are generally made in cash or cash equivalents. The fair value of futures contracts is based upon their quoted daily settlement prices. Changes in the value of open futures contracts are recognised as unrealised gains or losses on futures contracts until the contracts are terminated, at which time realised gains and losses are recognised in the Statement of Comprehensive Income.

Gains or losses on open futures contracts are shown in the Schedule of Investments of each relevant Fund and in the Statement of Financial Position as financial assets or financial liabilities at fair value through profit or loss, as appropriate.

#### (f) Cash and cash equivalents

Cash comprises cash in hand, demand deposits and bank overdraft. Cash equivalents are short term, highly liquid investments that are readily convertible to known amounts of cash and which are subject to insignificant changes in value, and are held for the purpose of meeting short-term cash commitments rather than for investments or other purposes.

Cash in hand or on deposit and bank overdrafts shall be valued at face value, together with accrued interest where applicable. Cash accounts are maintained at umbrella level in respect of subscription and redemption money received from or due to investors in the Funds of the Company. These accounts are operated in accordance with the Central Bank guidance "Umbrella funds—cash accounts holding subscription, redemption and dividend monies". Such cash accounts are deemed to be assets of the Company and therefore any material balances have been reflected in the Statement of Financial Position as at 31 March 2023 and 31 March 2022.

#### (g) Cash held with/due to brokers and counterparties for open FDIs

##### *Cash held as collateral with brokers*

Cash collateral provided by the Funds is identified in the Statement of Financial Position at fair value as cash held as collateral with broker and is not included as a component of cash and cash equivalents. For collateral other than cash, if the party to whom the collateral is provided has the right by contract or custom to sell or re-pledge the collateral, a Fund classifies that asset in its Statement of Financial Position separately from other assets and identifies the asset as pledged collateral. Where the party to whom the collateral is provided does not have the right to sell or re-pledge, a disclosure of the collateral provided is made in the notes to the financial statements.

##### *Cash due from/to broker*

Cash due from/to broker is margin cash which is held by or due to brokers for open futures contracts or derivatives and represents the exchange traded futures contracts' margin deposits held with brokers. This amount is the minimum deemed by the brokers and counterparties for collateral requirements and is as such restricted and is reported separately to the unrestricted cash on the Fund's Statement of Financial Position.

These amounts are recognised initially at fair value and subsequently measured at amortised cost. At each reporting date, the Fund shall measure the loss allowance on amounts due from broker at an amount equal to the lifetime expected credit losses if the credit risk has increased significantly since initial recognition. If, at the reporting date, the credit risk has not increased significantly since initial recognition, the Fund shall measure the loss allowance at an amount equal to 12-month expected credit losses.

Significant financial difficulties of the broker, probability that the broker will enter bankruptcy or financial reorganisation, and default in payments are all considered indicators that a loss allowance may be required. If the credit risk increases to the point that it is considered to be credit impaired, interest income will be calculated based on the gross carrying amount adjusted for the loss allowance. A significant increase in credit risk is defined by management as any contractual payment which is more than 30 days past due. Any contractual payment which is more than 90 days past due is considered credit impaired.

#### (h) Redeemable participating shares

Redeemable participating shares are redeemable at the Shareholder's option and are classified as financial liabilities, in accordance with IAS 32 Financial Instruments: Presentation ("IAS 32").

## Notes to the Financial Statements for the financial year ended 31 March 2023 (continued)

### 1. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

#### (h) Redeemable participating shares (continued)

For the purpose of calculating the net assets attributable to Shareholders in accordance with a Fund's redemption requirements, each Fund's assets and liabilities are valued on the basis of the relevant Fund's Index method of valuation (the "dealing prices"). The Funds issue shares at the NAV of the existing shares on the basis of dealing prices.

In accordance with the Prospectus the holders of participating shares can redeem them for cash equal to a proportionate share of the relevant Fund's NAV (calculated in accordance with redemption requirements) on the relevant dealing day.

Each Fund's NAV per share is calculated by dividing the net assets attributable to holders of redeemable participating shares (calculated in accordance with redemption requirements) by the number of shares in issue.

#### (i) Unrealised and realised gain/(loss) on investments

In respect of each instrument type classified as financial instruments at fair value through profit or loss, the change in unrealised gains/(losses) and realised gains/(losses) are included in net changes in fair value of financial assets and financial liabilities at fair value through profit or loss in the Statement of Comprehensive Income for each Fund.

Realised gains and losses on disposals of financial instruments classified as 'at fair value through profit or loss' are calculated using the average cost method. They represent the difference between an instrument's initial carrying amount and disposal amount, or cash payments or receipts made on derivative contracts (excluding payments or receipts on collateral margin accounts for such instruments).

#### (j) Dividend income

Dividend income is credited to the Statement of Comprehensive Income on the dates on which the relevant securities are listed as "ex-dividend". Dividend income is shown gross of any non-recoverable withholding taxes, which are disclosed separately in the Statement of Comprehensive Income, and net of any tax credits.

Dividend income from financial assets at fair value through profit or loss is recognised in the Statement of Comprehensive Income within dividend income when the Funds' right to receive payment is established.

#### (k) Income from financial assets at fair value and interest expense

Income from financial assets at fair value and interest expense are recognised in the Statement of Comprehensive Income for all interest bearing instruments using the effective interest rate method. Interest on debt securities at fair value through profit

or loss is recognised in the Statement of Comprehensive Income within Income from financial assets at fair value based on the effective interest rate.

The effective interest method is a method of calculating the amortised cost of a financial asset or financial liability and of allocating the interest income or interest expense over the relevant period.

The effective interest rate is the rate that exactly discounts estimated future cash payments or receipts throughout the expected life of the financial instrument, or, when appropriate, a shorter financial period, to the net carrying amount of the financial asset or financial liability.

Negative yield on financial assets relating to interest from a negative effective interest rate on a financial asset is accreted daily and is recognised in the Statement of Comprehensive Income over the life of the underlying instrument.

When calculating the effective interest rate, the Fund estimates cash flows considering all contractual terms of the financial instrument, but does not consider future credit losses. The calculation includes all fees and points paid or received between parties to the contract that are an integral part of the effective interest rate, transaction costs and all other premiums or discounts.

#### (l) Expenses

Expenses are charged to the Statement of Comprehensive Income. Transaction costs incurred on the acquisition of an investment, which are included within the cost of that investment cannot be separately identifiable and are included within net changes in the fair value of financial assets and financial liabilities at fair value through profit or loss in the Statement of Comprehensive Income. Expenses arising in the disposal of investments are deducted from the disposal proceeds and are included within net changes in the fair value of financial assets and financial liabilities at fair value through profit or loss in the Statement of Comprehensive Income.

Transaction costs are incremental costs that are directly attributable to the acquisition, issue or disposal of a financial asset or liability. An incremental cost is one that would not have been incurred if the entity had not acquired, issued or disposed of the financial instrument. When a financial asset or liability is recognised initially, an entity shall measure it at its fair value through profit or loss, plus transaction costs that are directly attributable to the acquisition or issue of the financial asset or financial liability.

Transaction costs on the purchases and sales of bonds, TBAs and forward foreign currency exchange contracts are included in the purchase and sale price of the investment, and are not separately identifiable. Transaction costs on purchases and sales of equities, rights, warrants and futures are included in net changes in the fair value of financial assets and financial liabilities at

## Notes to the Financial Statements for the financial year ended 31 March 2023 (continued)

### 1. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

#### (l) Expenses (continued)

fair value through profit or loss in the Statement of Comprehensive Income, and disclosed in Note 4. Purchases and sales transaction costs include identifiable brokerage charges, commissions, transaction related taxes and other market charges.

Custody transaction costs include transaction costs paid to the Depository and form part of the TER percentages as disclosed in Note 3.

#### (m) Receivables

Receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market.

Receivables are recognised initially at fair value plus transaction costs that are directly attributable to their acquisition/origination. They are subsequently measured at amortised cost using the effective interest yield method, less provision for impairment.

#### (n) Payables

Payables are recognised initially at fair value and subsequently stated at amortised cost. The difference between the proceeds and the amount payable is recognised over the financial period of the payable using the effective interest method.

Trade and other creditors are payable at various dates in the next three months in accordance with the suppliers' usual and customary credit terms.

#### (o) Distributions

Distributions with an ex-date during the financial year under review are included as a finance cost in the Statement of Comprehensive Income. The reinvestment of distributions if applicable, being the portion of the total distribution reinvested, are included as a share transaction in the Statement of Changes in Net Assets Attributable to Holders of Redeemable Participating Shares.

#### (p) Taxation

Capital gains, dividends and interest received may be subject to capital gains tax and withholding tax imposed by the country of origin and such taxes may not be recoverable by the Company or its Shareholders. These taxes are included in the Statement of Comprehensive Income.

#### (q) Segment reporting

Operating segments are reported in a manner consistent with the internal reporting used by the chief operating decision maker. The chief operating decision maker, who is responsible for allocating resources and assessing performance of the operating segments, has been identified ultimately as the Directors.

#### (r) Offsetting

Financial assets and liabilities are offset and the net amount presented in the Statement of Financial Position when and only when there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis, or realise the assets and settle the liability simultaneously.

#### (s) Income Equalisation

The Directors may determine that the Company, on behalf of any of the distributing share classes of the Funds, uses an accounting technique known as income equalisation to prevent dilution of current Shareholders' earnings. This is accomplished by applying a portion of the proceeds from shares issued and redeemed, equivalent on a per share basis to the amount of undistributed net investment income on the date of the transaction. Apportioned amounts are credited or charged to undistributed income. As a result distributions of the share classes will be protected from the potential distortions caused by issues or redemptions of shares. Income equalisation is recognised in the financial statements in the statement of comprehensive income. Income equalisation is applicable on distributing share classes of all Funds.

#### (t) Securities lending income

Securities lending income is earned from lending securities owned by the Fund to a number of third-party borrowers. Securities lending income is accounted for when earned. Securities Lending income earned during the financial year is disclosed in Note 13.

### 2. TAXATION

The Company qualifies as an investment undertaking as defined in Section 739B of the Taxes Consolidation Act 1997, as amended. Under current Irish law and practice, the Company is not liable to Irish tax in respect of its income and gains, other than on the occurrence of a chargeable event. Generally a chargeable event arises on any distribution, redemption, repurchase, cancellation, transfer of shares or on the ending of a "Relevant Period". A "Relevant Period" being an eight year period beginning with the acquisition of the shares by the Shareholder and each subsequent period of eight years beginning immediately after the preceding Relevant Period.

A chargeable event does not include:

- i) Any transactions in relation to shares held in a recognised clearing system as designated by order of the Revenue Commissioners of Ireland; or
- ii) An exchange of shares representing one Fund for another Fund of the Company; or
- iii) An exchange of shares arising on a qualifying amalgamation or reconstruction of the Company with another Fund; or
- iv) Certain exchanges of shares between spouses and former spouses.

## Notes to the Financial Statements for the financial year ended 31 March 2023 (continued)

### 2. TAXATION (CONTINUED)

No tax will arise on the Company in respect of chargeable events relating to:

- i) A Shareholder who is neither Irish resident nor ordinarily resident in Ireland for tax purposes, at the time of the chargeable event, provided appropriate valid declarations in accordance with Taxes Consolidation Act, 1997, as amended, are held by the Company;
- ii) Certain exempted Irish tax resident Shareholders who have provided the Company with the necessary signed statutory declarations; or
- iii) Any transaction (which might otherwise be a chargeable event) in relation to capitalisation shares held in a recognised clearing system as designated by order of the Irish Revenue Commissioners.

Dividend income, interest and capital gains (if any) received on investments made by the Company may be subject to withholding taxes imposed by the country from which the investments income/gains are received and such taxes may not be recoverable by the Company or its Shareholders.

### 3. FEES & EXPENSES

All of the fees and expenses payable in respect of a Fund are paid as one single fee. This is referred to as the "Total Expense Ratio" or "TER". The TER does not include extraordinary costs and expenses, or certain transaction costs.

After deduction and payment of Directors' fees and expenses and the Auditors' fees and expenses, (which are included in the TER), the balance of the TER is paid to the Investment Manager, and the Investment Manager is then responsible for the payment of all operational expenses of the Company. This includes, but is not limited to, fees and expenses of the Investment Manager, Depositary, Administrator, Transfer Agency and Company Secretary. The Investment Manager may pay part or all of its fees to any person that invests in or provides services to the Company or in respect of any Fund.

The Investment Manager will also be responsible for the payment of the following fees and expenses:

- i) the cost of listing and maintaining a listing of shares on any Listing Stock Exchange;
- ii) the cost of convening and holding Directors' and Shareholders' meetings;
- iii) professional fees and expenses for legal and other consulting services;
- iv) the costs and expenses of preparing, printing, publishing and distributing Prospectuses, Supplements, annual and semi-annual reports and other documents to current and prospective Shareholders;
- v) the costs and expenses arising from any licensing or other fees payable to any Index Provider or other licensor of intellectual property, trademarks or service marks used by the Company;
- vi) the costs and expenses of any investment adviser appointed by the Investment Manager; and
- vii) such other costs and expenses (excluding non-recurring and extraordinary costs and expenses) as may arise from time to time and which have been approved by the Directors as necessary or appropriate for the continued operation of the Company or of any Fund.

The TER is calculated and accrued daily in the NAV of each Fund and payable monthly in arrears. The annual TER of each Fund of the Company is as listed in the table below and overleaf. If a Fund's expenses exceed the TER outlined below and overleaf in relation to operating the Funds, the Investment Manager will cover any shortfall from its own assets.

The audit fees for the financial year ended 31 March 2023 (including expenses) are EUR 291,200 (31 March 2022: EUR 280,000) which is net of VAT. These are paid from the TER disclosed below. There were no fees for other assurance services, tax assurance services or other non-audit services paid to Ernst & Young for the financial year ended 31 March 2023 and 31 March 2022.

The Directors' fees for the financial year ended 31 March 2023 are USD 128,510 (31 March 2022: USD 142,496), the amount payable to the Directors at financial year end was USD 11,679 (31 March 2022: USD Nil) and this is paid from the TER disclosed below and overleaf. Directors fees relate to the aggregate amounts of emoluments paid to or receivable by directors in respect of qualifying services.

### 4. TRANSACTION COSTS

As disclosed in Note 1, transaction costs are incremental costs that are directly attributable to the acquisition, issue or disposal of a financial asset or liability.

Purchases and sales transaction costs include identifiable brokerage charges, commissions, transaction related taxes and other market charges. Included in these purchases and sales transaction costs are the transaction costs on the purchase and sales of equities, equity investment instruments and futures. Custody transaction costs include transaction costs paid to the Depositary and Sub-Custodians, and form part of the TER disclosed in Note 3.

Disclosed below are the Funds that incurred purchases and sales transaction costs during the financial year ended 31 March 2023 and 31 March 2022:

\* The Fund launched on 20 April 2022.

\*\* The Fund launched on 18 July 2022.

### 5. SHARE CAPITAL

The authorised share capital of the Company is 500,000,000,002 (five hundred billion and two) shares of no par value divided into two subscriber shares of no par value and 500,000,000,000 (five hundred billion) shares of no par value. The Directors are empowered to issue up to all of the shares of the Company on such terms as they think fit.

The subscriber shares entitle the holders to attend and vote at general meetings of the Company but do not entitle the holders to participate in the profits or assets of the Company, except for a return of capital on winding-up. The subscriber shares do not form part of the net assets of the Funds or the Company and are disclosed by way of this note only.

## Notes to the Financial Statements for the financial year ended 31 March 2023 (continued)

### 5. SHARE CAPITAL (CONTINUED)

The Shares (other than the subscriber shares) entitle the holders to attend and vote at general meetings of the Company and to participate equally (subject to any differences between fees, charges and expenses applicable to different Classes) in the profits and assets of the Fund to which the Shares relate.

### 6. RELATED PARTIES

Parties are considered to be related if one party has the ability to control the other party or is able to exercise significant influence over the other party, in making financial or operational decisions.

#### Entities with joint control

In the opinion of the Directors, the Management Company, the Investment Manager, Global Distributor, Sub-Distributor, the Sub-Investment Managers, Administrator, Transfer Agent and Registrar, Directors of the Management Company, Depositary and Securities Lending Agent are all related parties to the Company. Please refer to Note 3, Fees and Expenses, for an explanation of the fee structure of the Company and to Note 13, for Security Lending. All transactions were entered into in the normal course of business.

#### Directors

The Directors are entitled to receive fees and expenses, which form part of the TER rates as set out in Note 3. Total Directors' fees for the financial year amounted to USD 128,510 (31 March 2022: USD 142,496) of which USD 11,679 (31 March 2022: USD Nil) was payable at the financial year end.

Ms. Kathleen Gallagher and Ms. Ellen Needham did not receive any Director fees for the financial year ended 31 March 2023 and 31 March 2022.

The interests of the Directors in related parties are as follows:

Mr. Patrick J. Riley, up until his resignation on 16 March 2023, was a non-executive member of the Board of Trustees of SSGA mutual funds complex in the United States.

Ms. Kathleen Gallagher is a Managing Director at State Street Global Advisors and is Head of Australia and Head of ETF Model Portfolios in EMEA and APAC for the SPDR business.

Ms. Ellen Needham, up until her resignation on 1 May 2023, was a Senior Managing Director of State Street Global Advisors; Head of Global Funds Management and President of SSGA Funds Management, Inc.

The interests of the Directors of the Management Company in related parties are as follows:

Ann Prendergast is also a Senior Managing Director and Head of State Street Global Advisors Europe Limited.

Eric Linnane is also a Managing Director and Head of State Street Global Advisors Europe Limited Investment Operations.

Ulla Pitha, up until her resignation on 30 June 2022, was the Head of Strategy for State Street Global Advisors EMEA.

Marie-Anne Heeren (appointed on 7 September 2022) is a Senior Managing Director and Head of the SSGA Institutional client group for Europe. Ms. Heeren is also Branch Manager for State Street Global Advisors Europe Limited's Belgian Branch.

As of 1 August 2021 the Company appointed State Street Global Advisors Europe Limited (the "Management Company") to be responsible for the day-to-day management of its affairs subject to the overall supervision of the Board. The Management Company is responsible for the investment management of the assets of the Company and replaced State Street Global Advisors Limited as the headline Investment Manager. State Street Global Advisors Limited, State Street Global Advisors Trust Company and State Street Global Advisors Singapore Limited are Sub-Investment Managers for the Company following the appointment. In addition, SSGA Europe has established a Polish branch through which it may also provide these services.

The Management Company is also responsible for the administration of the Company and the implementation of the Company's and Funds' distribution and marketing policy.

#### Related Parties Transactions

At 31 March 2023 the below Funds held shares in State Street Corporation which is the ultimate parent company of the Management Company:

Fund	Shares	Fair Value
SPDR MSCI World Financials UCITS ETF	15,271	1,155,862

## Notes to the Financial Statements for the financial year ended 31 March 2023 (continued)

### 10. EFFICIENT PORTFOLIO MANAGEMENT

The Funds may, for the purpose of efficient portfolio management and in accordance with the conditions and limits imposed by the Central Bank, use financial derivative instruments ("FDIs") including warrants, futures and forward foreign currency exchange contracts including non-deliverable forwards ("NDFs"). Efficient portfolio management means investment decisions involving transactions that are entered into for one or more of the following specific aims: the reduction of risk, the reduction of cost or the generation of additional capital or income for a Fund with an appropriate level of risk, taking into account the risk profile of

## Notes to the Financial Statements for the financial year ended 31 March 2023 (continued)

### 10. EFFICIENT PORTFOLIO MANAGEMENT (CONTINUED)

the Fund. In particular, FDIs may be used for the purpose of minimising tracking error, i.e., the risk that the Fund return varies from the Index return.

To the extent that the Investment Manager, on behalf of a Fund, uses FDIs, there may be a risk that the volatility of the Fund may increase. It is expected that the volatility level of each Fund will be closely correlated with the volatility of the Index. Investors should note that there can be no assurance that the historical volatility levels of the Index will continue to be observed in the future or that the Fund will have a similar volatility level, and that therefore there is a risk that the Fund volatility may be relatively high when compared to other investments and may change significantly over time and an investment in the Fund may not be appropriate for all investors. That notwithstanding, each Fund is not expected to have an above average risk profile as a result of its use of or investment in FDIs. FDIs will be used within the limits stipulated by the Central Bank and positions taken for hedging purposes will not be allowed to exceed materially the value of the assets that they seek to offset. Accordingly, although FDIs will be inherently leveraged, the primary purpose of the use of FDIs is to reduce tracking error, and while the Fund will be leveraged as a result of its investments in FDIs, such leverage will not exceed 100% of the Fund's total NAV. The Fund's leverage is measured in accordance with the commitment approach.

The Fund, subject to the restrictions imposed on the use of FDIs described above and by the UCITS Regulations, may buy and sell futures contracts to either create exposure or reduce exposure to various securities included in the Index or to reduce certain aspects of risk inherent in specific trades. Futures contracts are agreements to buy or sell a fixed amount of an index, equity, bond or currency at a fixed date in the future. Futures contracts are exchange-traded instruments and their dealing is subject to the rules of the exchanges on which they are dealt. Forward foreign currency exchange contracts may be used for efficient portfolio management purposes. For example, forward foreign currency exchange contracts may be used to manage currency exposures represented in the Index. Nondeliverable forward foreign currency exchange contracts may be used for the same reasons. They differ from standard forward foreign currency exchange contracts in that at least one of the currencies in the transaction is not permitted to be delivered in settlement of any profit or loss resulting from the transaction. Typically, profit or loss in this case will be delivered in U.S. Dollars or Euros.

The Funds enter into futures contracts, forward foreign currency exchange contracts and securities lending for efficient portfolio management purposes. The gains/(losses) associated with each financial derivative instrument are included within net changes in fair value of financial assets and liabilities at fair value through profit and loss in the Statement of Comprehensive Income. The counterparties to the FDIs are identified on the relevant Schedule of Investments.

Please refer to Note 13 for further details on securities lending.

### 11. FINANCIAL RISKS

As an investment company, the management of financial instruments is fundamental to the management of the Company's business. The Investment Manager is responsible, subject to the overall supervision and control of the Board, for managing the assets and investments of the Funds of the Company in accordance with the investment objectives and guidelines approved by the Board and policies set forth in the Prospectus and Supplements.

The Company's risk management function is carried out by the Management Company, ultimately represented by the Board, and is supported by the Risk Management Team ("RMT") who manage risk on a day to day basis under the leadership and supervision of the Designated Person of the Management Company, subject to on-going monitoring by the Designated Persons of the Management Company and members of the Management Committee. The Board reviews at least annually the risk management policy and procedures in place and the Designated Persons monitor on an ongoing basis the reports prepared by RMT. The Board and the Designated Persons may issue risk guidelines which will be binding on the Investment Managers. Currently the guidelines include monitoring and highlighting any deviation from the investment objective and policy of each Fund and ensuring that each Fund's global exposure from the use of FDIs, and the counterparty exposure to any counterparty, is maintained within the parameters set out by the Central Bank. RMT monitors these guidelines and the Investment Managers also perform such reviews through their oversight and portfolio management functions.

The Company's activities expose it to a variety of financial risks: market risk (including market price risk, foreign exchange risk and interest rate risk), liquidity risk and credit risk.

There have been no changes in the investment management process for the Funds since the prior financial year end.

More specifically, the ability of any Fund to achieve significant correlation between the performance of the Fund and the index it tracks may be affected by changes in securities markets, changes in the composition of the index, cash flows into and out of the Fund and fees and expenses of the Fund. Each Fund will seek to track index returns regardless of the current or projected performance of the index or of securities comprising the index. As a result, each Fund's performance may be less favourable than that of a portfolio managed using an active investment strategy. The structure and composition of the index will affect the performance, volatility and risk of the index (in absolute terms and by comparison with other indices), and consequently, the performance, volatility, and risk of the Fund. As the Funds seek to replicate index returns regardless of current or projected performance, financial risks are not actively managed.

## Notes to the Financial Statements for the financial year ended 31 March 2023 (continued)

### 11. FINANCIAL RISKS (CONTINUED)

The following information is not intended to be a comprehensive summary of all risks and investors should refer to the prospectus and supplements for a more detailed discussion of the risks inherent in investing in the Company.

#### Market risk

##### Market Price risk

The Funds are exposed to equity and fixed income securities price risk and derivative price risk. This arises from investments held by the Funds for which prices in the future are uncertain. The investments of a Fund are subject to general economic conditions, normal market fluctuations and the risks inherent in investment in international securities markets.

The Funds' exposure to market price risk is the total value of financial assets and financial liabilities at fair value through profit or loss as set out in each Statement of Financial Position.

The sensitivity of the Funds to fluctuations in market prices is set out in the following table:

31 March 2023	Market Price		Estimated NAV Increase

\* The Fund launched on 4 March 2022.

#### Foreign exchange risk

The Funds operate internationally and may hold both monetary and non-monetary assets denominated in currencies other than their respective functional currencies. Foreign currency risk arises as the value of future transactions, recognised monetary assets and monetary liabilities denominated in other currencies fluctuate due to changes in foreign exchange rates.

A Fund may, but will not necessarily, invest in currency exchange contracts to help reduce exposure to different currencies, however there is no guarantee that these contracts will successfully do so. Also, these contracts may reduce or eliminate some or all of the benefit that a Fund may experience from favorable currency fluctuations.

The information is a relative estimate of risk and is not intended to be a precise and accurate number because they cannot predict whether these balances will vary by more or less than 5%.

As at 31 March 2023 and 31 March 2022, except for the Funds listed above, no other Funds had exposure to currencies other than their functional currency.

##### Interest rate risk

Interest rate risk arises from the effects of fluctuations in the prevailing levels of markets interest rates on the fair value of financial assets, financial liabilities and future cash flows. The Funds analysed below hold fixed interest securities that expose those Funds to fair value interest rate risk.

As interest rates rise, the values of debt securities or other income-producing investments are likely to fall. This risk is generally greater for obligations with longer maturities.

Cash holdings and bank overdrafts of the Funds are not subject to significant interest rate risk.

The exposure of each Fund to fluctuations in interest rates is set out in the following tables, categorised by reference to maturity date:

As at 31 March 2022, the remaining Funds held financial assets and liabilities, with the exception of cash, bank balances and overdrafts that were not exposed to material interest rate risk. The Funds also had indirect exposure to interest rate risk through the investments into futures contracts, whereby the value of the underlying asset may fluctuate as a result of a change in interest rates.

The below interest rate sensitivity analysis shows the effect on the NAV of the Funds of a 1% change in interest rates.

The information is a relative estimate of risk and is not intended to be a precise and accurate number. The calculations are based on historical data. Future price movements and correlations between securities could vary significantly from those experienced in the past.

#### Credit risk

The Funds are exposed to credit risk, which is the risk that one party to a financial instrument will cause a financial loss for the other party by failing to discharge an obligation.

The main concentration to which the Funds are exposed arises from investments in debt securities and counterparty credit risk on trading derivative products, cash and cash equivalents, amounts due from brokers and other receivable balances, as set out in the Statements of Financial Position.

The Company engages in security lending activities which expose the Funds to counterparty credit risk. The maximum exposure to each Fund is equal to the value of the securities loaned as disclosed in Note 13. The Funds receive collateral equal to a percentage in excess of the value of securities sold.

It is possible that the ability of an issuer to meet its obligations will decline substantially during the financial year or that the issuer will default on its obligations. An actual or perceived deterioration of the ability of an issuer to meet its obligations will likely have an adverse effect on the value of the issuer's securities.

The Funds are subject to credit risk from investments in debt securities. Such credit risk is managed by the permanent risk management function of the Company as required by the investment objectives for the Funds.

The Funds securities and cash are held within the depositary's network as of 31 March 2023 and 31 March 2022. Details of the credit risk relating to assets held with the Depositary are disclosed under Depositary risk.

#### Depositary risk

The Funds' Depositary is State Street Custodial Services (Ireland) Limited (the "Depositary"). Substantially all of the assets and cash of the Funds are held within the depositary's network. Bankruptcy or insolvency of the Depositary or of its parent company State Street Corporation may cause the Funds' rights with respect to its investments in securities held by the Depositary to be delayed. The maximum exposure to this risk at 31 March 2023 is the total value of investments disclosed in the Schedule of Investments, excluding financial derivatives and including the value of cash as detailed in the Statement of Financial Position.

## Notes to the Financial Statements for the financial year ended 31 March 2023 (continued)

### 11. FINANCIAL RISKS (CONTINUED)

#### Credit risk (continued)

##### Depository risk (continued)

In accordance with the requirements of the Companies Act 2014 and the UCITS Regulations, the Funds' securities are maintained within the custodial network in segregated accounts with ownership rights remaining with the Funds. The Depository will ensure that any agents it appoints to assist in safekeeping the assets of the Funds will segregate the assets of the Funds, with the exception of cash. Cash cannot be registered in the name of, or identified as beneficially owned by a client, nor can it practically be held in physical segregation. Thus in the event of insolvency or bankruptcy of the Depository, the Funds' assets (excluding cash) are segregated and protected and this further reduces counterparty risk. The Funds will, however, be exposed to the risk of the Depository/Sub-Custodian or certain depositories used by the Depository, in relation to the Funds' cash held by the Depository. In the event of the insolvency or bankruptcy of the Depository, the Fund will be treated as a general creditor of the Depository in relation to cash holdings of the Funds.

At 31 March 2023, State Street Corporation had a credit rating of A by Standard & Poor's (31 March 2022: A).

##### Counterparty risk

The Funds are subject to credit risk with respect to the counterparties with whom the Company, on behalf of the Funds, enters into derivative contracts. The exposure to each of the counterparties is the unrealised value of the derivative contracts as disclosed in the relevant Funds' Schedule of Investments, plus the value of the margin cash held by the counterparty, if any. If a counterparty becomes insolvent or otherwise fails to perform its obligations, a Fund may experience significant delays in obtaining any recovery in an insolvency, bankruptcy, or other reorganisation proceeding and may obtain only a limited recovery or may obtain no recovery. In the event of insolvency, collateral held with the counterparty will be available to offset against the net position of the Fund.

At 31 March 2023, the counterparties to the various derivative contracts and their associated credit rating were as follows:

Barclays Bank PLC (A) (31 March 2022: A), Barclays Capital (A) (31 March 2022: A), BNP Paribas SA (A+) (31 March 2022: A+), Citibank NA (A+) (31 March 2022: A+), Goldman Sachs International (A+) (31 March 2022: A+), HSBC Bank PLC (A+) (31 March 2022: A+), Merrill Lynch International (A+) (31 March 2022: A+), Royal Bank of Canada (AA-) (31 March 2022: AA-), UBS AG (A+) (31 March 2022: A+) and Westpac Banking Corporation (AA-) (31 March 2022: AA-).

The permanent risk management function of the Company shall monitor compliance with the UCITS risk limit system, including counterparty risk (i.e. the risk related to transactions entered with another counterparty and performance by that counterparty of its obligations, particularly in relation to over-the counter derivatives and stock lending agreements and repurchase agreements) in accordance with UCITS Regulations.

Financial assets and liabilities are offset and the net amount reported in the Statement of Financial Position when there is a legally enforceable right to set off the recognised amounts and there is an intention to settle on a net basis, or realise the asset and settle the liability simultaneously. IFRS 7 Financial Instruments: Disclosure ("IFRS 7") requires disclosure of financial derivative instruments that have been offset in the Statement of Financial Position, or that have not been offset in the Statement of Financial Position but are subject to an enforceable master netting arrangement or similar agreement. At 31 March 2023 and 31 March 2022, there were no financial derivative instruments offset in the Statement of Financial Position. The financial derivative instruments held by the Funds are forward foreign currency exchange contracts and futures contracts. The amounts shown for these contracts in the Statement of Financial Position are disclosed on a gross basis.

There was no securities collateral received in relation to OTC financial derivative instruments during the financial years ended 31 March 2023 and 31 March 2022. There was securities collateral received in relation to efficient portfolio management during the financial years ended 31 March 2023 and 31 March 2022. Please refer to Note 13 for further details on securities lending.

The following tables present, at a Fund level, the Funds' financial assets and liabilities subject to offsetting, enforceable master netting arrangements and similar agreements as at 31 March 2023. While the terms and conditions of these agreements may vary, all transactions under any such agreement constitute a single contractual relationship between each Fund and each counterparty, severally and not jointly. Each Funds' obligation to make any payments, deliveries or other transfers in respect of any transaction under such an agreement may be netted against the counterparty's obligations under such agreement. A default by either party in performance with respect to one transaction under such an agreement would give the other party the right to terminate all transactions under such agreement and calculate one net amount owed from one party to the other. Further information on the Funds exposure to the counterparties of the various derivative contracts is provided in the relevant Funds' Schedule of Investments.

Investment grade securities are those issued by an entity with a minimum investment grade credit rating from at least one globally recognised credit rating agency; Standard & Poor's or Moody's.

In the following tables, investments that are rated as BBB- and above are included within Investment Grade and all investments below BBB- are included in Non Investment Grade.

As at 31 March 2023 and 31 March 2022, the remaining Funds do not hold material securities which would require credit rating disclosures.

## Notes to the Financial Statements for the financial year ended 31 March 2023 (continued)

### 11. FINANCIAL RISKS (CONTINUED)

#### Liquidity risk

Liquidity risk is the risk that a Fund may not be able to generate sufficient cash resources to settle its obligations in full as they fall due or can only do so on terms that are materially disadvantageous. Any Fund may be exposed to the daily settlement of margin calls on derivatives and to daily cash redemptions of redeemable shares.

The Funds have the ability to borrow in the short term to ensure settlement. Each Fund may borrow money from a bank up to a limit of 10% of its NAV, but only on temporary basis. The facility bears interest at Fed Funds Rate plus 200 basis points.

Certain investments and types of investments are subject to restrictions on resale, may trade in the over-the-counter market or in limited volume, or may not have an active trading market. Illiquid securities may trade at a discount from comparable, more liquid investments and may be subject to wide fluctuations in market value. It may be difficult for a Fund to value illiquid securities accurately. Also, a Fund may not be able to dispose of illiquid securities or execute or close out a derivatives transaction readily at a favorable time or price or at prices approximating those at which the Fund currently values them.

#### Redemption Limits

If redemption requests received in respect of Shares of a particular Fund on any Dealing Day total, in aggregate, more than 10% of all of the issued Shares of that Fund on that Dealing Day, the Management Company shall be entitled, at its absolute discretion, to refuse to redeem such number of Shares of that Fund on that Dealing Day, in excess of 10% of the issued Shares of the Fund, in respect of which redemption requests have been received, as the Management Company shall determine. If the Management Company refuses to redeem Shares for this reason, the requests for redemption on such date shall be reduced rateably and the Shares to which each request relates which are not redeemed shall be redeemed on each subsequent Dealing Day (but shall not receive priority on such subsequent Dealing Day), provided that the Company shall not be obliged to redeem more than 10% of the number of Shares of a particular Fund outstanding on any Dealing Day, until all the Shares of the Fund to which the original request related have been redeemed.

#### Redemption of Shares In-Kind

Each Fund will allow Shareholders to redeem Shares in-kind on each Dealing Day, unless specified otherwise in the Relevant Supplement. In this context, "in-kind" means that, with the consent of the Shareholder, rather than delivering cash proceeds in respect of a redemption, the Management Company will deliver securities or a combination of cash and securities, provided that the asset allocation is subject to the approval of the Depositary. Redemption requests must be received by the Administrator before the dealing deadline on the relevant Dealing Day. Where a Shareholder requests redemption of Shares in a Fund representing 5% or more of the NAV, the Company may determine in its sole discretion

to provide the redemption in-kind. The assets to be transferred shall be selected at the discretion of the Management Company, subject to the approval of the Depositary and taken at their value used in determining the redemption price of the Shares being so repurchased. In this event the Management Company will, if requested, sell the assets on behalf of the Shareholder at the Shareholder's expense and give the Shareholder cash. Such distributions will not materially prejudice the interests of the remaining Shareholders. The costs of any such disposal shall be borne by the redeeming Shareholder.

#### Temporary Suspension of Dealings

The Directors may at any time, with prior notification to the Depositary, temporarily suspend the issue, valuation, sale, purchase, redemption or conversion of Shares of any Fund, or the payment of redemption proceeds, during:

- a) any period when any Recognised Market on which a substantial portion of the investments for the time being comprised in the Company are quoted, listed or dealt in is closed (otherwise than for ordinary holidays) or suspended;
- b) any period when, as a result of political, military, economic or monetary events or other circumstances beyond the control, responsibility and power of the Directors the disposal or valuation of investments be affected;
- c) any breakdown in the means of communication normally employed in determining the value of any investments be promptly or accurately ascertained;
- d) any period when the Company is unable to repatriate funds for the purposes of making redemption payments or during which the realisation of investments be effected at normal prices or normal rates of exchange;
- e) any period when, as a result of adverse market conditions, the payment of redemption proceeds may, in the opinion of the Directors, have an adverse impact on the Company or the remaining Shareholders in the Company; and
- f) any period when the Directors determine that it is in the best interests of the Shareholders to do so.

Each Fund's financial liabilities comprise unrealised losses on financial derivative instruments, payables for investments purchased, payable for fund shares redeemed, distributions payable, bank overdrafts, net assets attributable to holders of redeemable participating shares and accrued expenses. All have a maturity of not greater than six months at 31 March 2023 and 31 March 2022.

## Notes to the Financial Statements for the financial year ended 31 March 2023 (continued)

### 11. FINANCIAL RISKS (CONTINUED)

#### Liquidity risk (continued)

##### Temporary Suspension of Dealings (continued)

##### Global Exposure

Per the UCITS Regulations, and as part of the risk management and reporting requirements, the global exposure of the Funds must be monitored and measured in accordance with the regulatory requirements. In accordance with the regulatory requirements, global exposure can be calculated in two ways, either:

- i) the Commitment Approach that calculates the incremental exposure generated by the instruments held in the Funds; or
- ii) Value at Risk ("VaR"), where complex investment strategies are used. The VaR measure estimates the potential loss of the portfolio over a pre-defined period of time given a specified confidence level. The VaR methodology is a statistical measurement that produces a single aggregate result for the overall portfolio, taking into consideration the market volatilities of all the markets and assets as well as their correlations allowing for offsetting across different assets and markets.

The Funds use the commitment approach to measure global exposure.

### 12. FAIR VALUATION HIERARCHY

#### Fair valuation hierarchy

IFRS 7 requires the Company to classify fair value measurements using a fair value hierarchy that reflects the significance of the inputs used in making the measurements.

The fair value hierarchy has the following levels as defined under IFRS 7:

Level 1 - Quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2 - Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (as prices) or indirectly (derived from prices).

Level 3 - Inputs for the asset or liability that are not based on observable market data (unobservable inputs).

Furthermore, for those instruments which have significant unobservable inputs (Level 3), IFRS 13 requires disclosures on the transfers into and out of Level 3, a reconciliation of the opening and closing balances, total gains and losses for the financial year recognised in the Statement of Comprehensive Income, purchases, sales, issues and settlements, and a sensitivity analysis of assumptions used in determining the fair value of Level 3 positions.

The level in the fair value hierarchy within which the fair value measurement is categorised in its entirety is determined on the basis of the lowest level input that is significant to the fair value measurement in its entirety. For this purpose, the significance of an input is assessed against the fair value measurement in its entirety. If a fair value measurement uses observable inputs that require significant adjustment based on unobservable inputs, that measurement is a Level 3 measurement. Assessing the significance of a particular input to the fair value measurement in its entirety requires judgement, considering factors specific to the asset or liability.

The determination of what constitutes 'observable' requires significant judgement by the Company. The Company considers observable data to be that market data that is readily available, regularly distributed or updated, reliable and verifiable, not proprietary, and provided by independent sources that are actively involved in the relevant market.

For each class of assets and liabilities not measured at fair value in the Statement of Financial Position but for which fair value is disclosed, IFRS 13 requires the Company to disclose the level within the fair value hierarchy which the fair value measurement would be categorised and a description of the valuation technique and inputs used in the technique. Assets and liabilities not carried at fair value are carried at amortised cost; their carrying values are a reasonable approximation of fair value.

Cash and cash equivalents and cash held as collateral with brokers are categorised as Level 1.

All receivable and payable balances are categorised as Level 2.

The following tables analyse within the fair value hierarchy the Company's financial assets and liabilities measured at fair value at 31 March 2023 and 31 March 2022.

Level 3 securities are generally equity securities that have been fair valued using the market approach. The unobservable input is typically a discount to the last available price, with a discount range of 0% to 100%. The Company considers that these valuations were valid and that an assessment of reasonably possible alternatives would not materially differ.

Investments whose values are based on quoted market prices in active markets, and therefore classified within Level 1, include active listed equities, rights, warrants and exchange traded derivatives. The Company does not adjust the quoted price for these instruments.

#### 31 March 2023

Level Change	Fund	Securities
1 to 2	SPDR MSCI Europe Small Cap Value Weighted UCITS ETF	Home Reit PLC
	SPDR MSCI Europe Small Cap UCITS ETF	Home Reit PLC

2 to 3	SPDR MSCI Europe Small Cap Value Weighted UCITS ETF	Abengoa SA

#### 31 March 2022

Level Change	Fund	Securities
1 to 2	SPDR Morningstar Multi-Asset Global Infrastructure UCITS ETF	Evergrande Health Industry Group

Financial instruments that trade in markets that are not considered to be active but are valued based on quoted market prices, dealer quotations or alternative pricing sources supported by observable inputs are classified within Level 2. These include, bonds and over the counter derivatives. As Level 2 investments include positions that are not traded in active markets and/or are subject to transfer restrictions, valuations may be adjusted to reflect liquidity and/or non-transferability, which are generally based on available market information.

Investments classified within Level 3 have significant unobservable inputs, as they trade infrequently.

Transfers between levels of the fair value hierarchy are deemed to have occurred at the end of the financial year. There were transfers between levels during the reporting period as detailed in the table below.

The transfers between level 1, level 2 and level 3 were primarily due to the availability of quoted market prices, dealer quotations or alternative pricing sources supported by observable inputs. There were no other transfers of securities between the levels in the fair value hierarchy.

## Notes to the Financial Statements for the financial year ended 31 March 2023 (continued)

### 12. FAIR VALUATION HIERARCHY (CONTINUED)

#### Level 3 Reconciliation (continued)

Level Change	Fund	Securities
1 to 3	SPDR Morningstar Multi-Asset Global Infrastructure UCITS ETF	RusHydro

#### Sensitivity of Level 3 asset measured at fair value to changes in assumptions

The results of using reasonably possible alternative assumptions for valuing the Level 3 assets may result in the fair value estimate and recoverability of the assets being subject to uncertainty and a range of possible outcomes are likely. Such differences, if any, may have a material effect on the overall portfolio as at 31 March 2023 or as at 31 March 2022.

If the value of level 3 securities increased/(decreased) by 5%, the effect on the NAV as at 31 March 2023 would be as follows:

- For SPDR MSCI World Small Cap UCITS ETF: USD 7,221 (31 March 2022: USD 16)

- For SPDR Russell 2000 U.S. Small Cap UCITS ETF: USD 55 (31 March 2022: USD 1,474)

- For SPDR Morningstar Multi-Asset Global Infrastructure UCITS ETF: USD 8,376 (31 March 2022: USD Nil)

- For SPDR MSCI USA Small Cap Value Weighted UCITS ETF: USD 26 (31 March 2022: USD Nil)

For the rest of the Funds with values on Level 3, the effect on the NAV is immaterial.

### 13. SECURITIES LENDING

During the financial year some of the Funds engaged in securities lending, subject to the conditions and within the limits from time to time laid down by the Central Bank and the Prospectus pursuant to the securities lending agreement dated 8 December 2014 between the Investment Manager and State Street Bank GmbH, (the "Securities Lending Agent").

The agreement was amended on 8 October 2020 as the maximum lending thresholds for the Funds was reduced to 40% from 70%.

The Securities Lending Agent has been appointed for the purposes of lending securities to brokers, dealers and other financial institutions. In lending their securities, the Funds will receive income while retaining the securities' potential for capital appreciation and depreciation. The securities lending income was split between the Funds and the Securities Lending Agent in a ratio of 70:30 in favour of the Funds from 1 April 2019 to 30 June 2019. The split ratio was 75:25 in favour of the Funds from 1 July 2019.

The Company receives securities as non-cash collateral, for a value in excess of the market value of the securities loaned.

The Securities Lending Agent monitors the value of the securities loaned and additional non-cash collateral is obtained, if necessary.

As at 31 March 2023 and 31 March 2022 the income earned, by the Funds, for securities on loan, the total value of outstanding securities on loan and the value of non-cash collateral received by the relevant Funds is disclosed separately below.

### 14. SEGMENT INFORMATION

IFRS 8 Operating Segments ("IFRS 8") requires a "management approach", under which segment information is presented on the same basis as that used for internal reporting purposes.

The Management Company is charged with the overall governance of the Company in accordance with the Prospectus. The Directors have appointed State Street Global Advisors Europe Limited as the Management Company. State Street Global Advisors Europe Limited is considered the Chief Operating Decision Maker ("CODM") for the purposes of IFRS 8.

The Management Company makes the strategic resource allocations on behalf of the Funds. The Management Company is responsible for each Fund's entire portfolio and considers each Fund to be a single operating segment. The Management Company's asset allocation decisions are based on a single, integrated investment strategy, to deliver the performance of the relevant Reference Index of each Fund, and each Fund's performance is evaluated by reference to the relevant Reference Index.

The Funds have no assets classified as non-current assets. Each Fund's investments expose it to the performance of the relevant Reference Index.

The Funds have highly diversified portfolios of investments, and no single investment accounts for a significant portion of the Company's income.

#### *Products and services*

All of the Company's revenues are derived from one product grouping, namely the portfolio securities and derivative instruments invested in by the Funds in order to track the performance of their respective indices.

#### *Geographical areas*

The Company does not separately monitor revenues from different geographical areas. However, by their nature of tracking indices which represent specific markets in specific regions, each Fund's revenue may be considered as being attributed to the region stated in its investment objective.

#### *Major customers*

As the Company is an investment company, its distinct major customers are the institutional investors who make the primary market for the Funds' shares.

The investments are allocated across fifty two distinct Funds which each have a separate Schedule of Investments.

The financial result and financial position of each segment are equivalent to the financial statements of each Fund.

## Notes to the Financial Statements for the financial year ended 31 March 2023 (continued)

### 16. COMPARATIVE YEAR

The comparative amounts in these financial statement are for the financial year ended 31 March 2022.

### 17. SIGNIFICANT EVENTS DURING THE FINANCIAL YEAR

In-kind dealing was removed from a subset of funds effective from 6 April 2022. The list of Funds impacted by this change was set out in a shareholder notice published on 23 March 2022.

A Prospectus addendum was noted by the CBI on 11 April 2022. The addendum was to advise shareholders that as the geopolitical situation involving Ukraine and Russia continued to escalate, an additional risk disclosure pertaining to sanctions being placed against Russia was being included in the Prospectus.

The SPDR MSCI ACWI Climate Paris Aligned UCITS ETF launched on 20 April 2022.

Ulla Pitha resigned as a Director of the Management Company with effect from 30 June 2022.

## Notes to the Financial Statements for the financial year ended 31 March 2023 (continued)

### 17. SIGNIFICANT EVENTS DURING THE FINANCIAL YEAR (CONTINUED)

The SPDR MSCI Emerging Markets Climate Paris Aligned UCITS ETF launched on 18 July 2022.

Marie-Anne Heeren was appointed as a Director of the Management Company with effect from 7 September 2022.

Prospectus and supplements, filed with the CBI, were updated on 31 August 2022. Various updates were included in the prospectus filing including updated Asset Stewardship, PAI and Taxonomy wording. The updates in the supplements included a change of the index tracking strategy for a number of Funds and the inclusion of investment limit derogation language in the supplements of other Funds.

The updated supplement of SPDR MSCI Europe Communication Services UCITS ETF Sub-Fund in respect of updated investment diversification language was noted by the CBI on 6 October 2022.

The updated Prospectus and supplements filed on 31 August 2022 were noted by the CBI on 28 October 2022.

The fast-track filing of SFDR Annex II disclosures for the entity's Article 8 SPDR Funds was made on 1 December 2022.

Patrick J. Riley and Tom Finlay resigned as Directors of the Company with effect from 16 March 2023.

Jennifer Fox was appointed as a Director of the Company with effect from 16 March 2023.

#### Russia/Ukraine conflict

The conflict that started on 24 February 2022 between Russia and Ukraine has resulted in extensive restrictions and disruptions relating to the Russian securities and markets. The effects of those restrictions have and may continue to adversely affect the Funds that have exposure to the Russian markets. Sanctions threatened or already imposed against Russia, Russian entities or Russian individuals may result in disruption of the Russian economy, cause volatility in other regional and global markets and negatively impact the performance of various sectors and industries, as well as companies in other countries, which could have a negative effect on the performance of a fund, even if a fund does not have direct exposure to securities of Russian issuers. As a collective result of the imposition of sanctions, Russian government countermeasures and the impact that they have had on the trading markets for Russian securities, certain funds used, fair valuation procedures approved by the board of the Company to value certain Russian securities, which resulted in such securities being deemed to have a zero value. The funds hold insignificant positions in Russian securities. Sanctions, or the threat of new or modified sanctions, could also impair the ability of a fund to buy, sell, hold, receive, deliver or otherwise transact in certain affected securities or other investment instruments. As of 31 March

2023, Fund SPDR Morningstar Multi-Asset Global Infrastructure UCITS ETF held Russian securities and was impacted by the fair value decision taken.

There have been no other significant events affecting the Company during the financial year.

### 18. SIGNIFICANT EVENTS SINCE THE FINANCIAL YEAR END

Ellen Needham resigned as a Director of the Company with effect from 1 May 2023.

Tom Coghlan was appointed as a Director of the Company with effect from 25 July 2023.

There have been no other significant events affecting the Company since the financial year end.

### 19. APPROVAL OF ACCOUNTS

The financial statements were approved by the Board of Directors on 24 July 2023.

## Appendix I

### Securities Financing Transactions Regulations (unaudited)

#### Securities Lending

The following table details the value of securities on loan as a proportion of the Funds' total lendable assets and NAV as at 31 March 2023. Total lendable assets represents the aggregate value of assets forming part of the Funds' securities lending programme. This excludes any assets held by the Funds that are not considered lendable due to any market, regulatory, investment or other restriction.

Fund	Fund Currency	NAV	% of NAV	Market Value	% of Lendable Assets

## Appendix I

### Securities Financing Transactions Regulations (unaudited) (continued)

#### Securities Lending (continued)

The total income earned from securities lending transactions is split between the relevant Fund and the Securities Lending Agent, details of which can be found in Note 13 to the financial statements. Income earned by the Funds during the financial period from securities lending transactions is disclosed in Note 13 to the financial statements.

For all Funds, the maturity tenor of securities on loan is open, as these are equity positions and are not subject to a contractual maturity date.

The following table details the value of securities on loan and associated non-cash collateral received, analysed by borrowing counterparty, as at 31 March 2023.

No cash is received as collateral in relation to securities lending activities.

Counterparty	Counterparty's country of incorporation	Securities on loan EUR	Non-Cash Collateral received EUR

### Securities Financing Transactions Regulations (unaudited) (continued)

#### Collateral (continued)

The following table provides an analysis of the maturity tenor of cash and non-cash collateral received by way of title transfer collateral arrangement by the Funds in respect of securities lending transactions as at 31 March 2023.

All collateral with a maturity tenor are bond holdings with an investment grade rating. The open transactions are equity holdings and no credit ratings apply.

The Company has collateral both bilaterally (State Street Bank and Trust) and via tri-party agents (Bank of New York and JP Morgan Chase Bank). In the case of Bank of New York and JP Morgan Chase Bank agents, State Street Bank and Trust delegates some collateral management duties to these tri-party agents. In all cases the Depositary has delegated collateral management duties to State Street Bank and Trust. State Street Bank and Trust is then permitted to further delegate responsibilities to triparty agents if they see fit.

## Appendix II Remuneration Policy (unaudited)

### Remuneration

State Street Corporation (“SSC”), and its direct and indirect subsidiaries (together with the State Street Corporation hereafter referred to as “State Street”) operate a group-wide compensation strategy including a remuneration policy that applies to all State Street entities globally State Street Global Advisors Europe Limited (“SSGAEL”) is the Management Company, Investment Manager and Global Distributor of SPDR ETFs Europe II Plc and delegates certain activities in respect of the investment management and risk management to SSGA Limited, SSGA Singapore and SSGA Trust Company (“Investment Managers”). As State Street subsidiaries, the Investment Managers are fully integrated into State Street’s group-wide compensation strategy and subject to the global and regional governing body structure of State Street to provide appropriate and effective control of the remuneration arrangements (incl. compliance with the relevant remuneration regulations) across the State Street group of affiliated entities. Under its publicly available charter, the Human Resources Committee (“HRC”) of SSC oversees all of State Street’s compensation plans, policies, and programs in which senior executives participate and incentive, retirement, welfare and equity plans in which certain other employees of SSC participate. It also oversees the alignment of the incentive compensation arrangements with the State Street’s financial safety and soundness consistent with applicable related regulatory rules and guidance. The HRC approves the overall allocation of the Incentive Compensation (“IC”) Plan pool. The CEO allocates IC pools to business units and corporate functions based upon a variety of factors, which may include budget performance, achievement of key goals and other considerations. The final expenditure and overall allocation between current and deferred awards is then reviewed by the HRC prior to payment.

State Street also has separate UK and SSGAEL Remuneration Committees in place with the primary duties to:

- review the remuneration policy applicable to employees, management and Identified Staff of the Investment Managers and oversee its implementation;
- oversee compliance with any applicable remuneration regulations; and
- review and endorse remuneration decisions related to Identified Staff and consider recommendations for ex-post risk adjustment of Identified Staff.

State Street operates an annually reviewed global remuneration policy document (supplemented by any relevant addenda by jurisdiction or regulatory regime), which documents State Street’s existing remuneration framework. This policy is intended to comply with applicable remuneration regulatory requirements including, but not limited to, those contained in the CRD, UCITS V and AIFMD, and will be interpreted and administered accordingly. State Street’s remuneration policies and practices apply on a global basis to all employees of the State Street group (incl. the Investment Managers). The key principles that align State Street’s remuneration system with the business strategy are as follows:

- We emphasize total rewards;
- We target the aggregate annual value of our Total Rewards Program to be competitive with our business peers;
- We unequivocally support equal pay for work of equal value;
- Funding for our Total Rewards Program is subject to affordability and is designed to be flexible based on corporate performance;
- We differentiate pay based on performance;
- We align employees’ interests with shareholders’ interests; and
- Our compensation plans are designed to comply with applicable regulations and related guidance, including prohibiting incentives to take excessive risks.

Given our process of structured discretion in determining incentive pool funding and individual award decisions, the deferral of incentive compensation, and the availability of ex-ante and ex-post adjustments, such as forfeitures and clawbacks, our compensation system is appropriately risk-sensitive and links current decisions and actions to future risk outcomes.

State Street operates a fully flexible, discretionary bonus policy (i.e. the amount of individual variable pay may fluctuate significantly from one year to the next, depending on performance and the other factors described below, and even could be reduced to zero for any given year). The discretionary bonus policy is structured so as to achieve a balance between fixed and variable components, but also includes specific maximum pay ratios where required by local regulations. A number of employees in sales participate in Structured Incentive Plans, which aim to bring the variable compensation granted to plan participants into line with the revenues they generate as well as taking into account non-financial qualitative performance indicators. All such participants receive sufficiently high fixed compensation. Variable compensation is assigned on an individual basis by way of a review of both quantitative and qualitative factors.

### Total amount of remuneration paid by the Investment Manager for the financial year ended 31 March 2023<sup>1</sup>

Fixed remuneration (in \$ k)	183,233
Variable remuneration (in \$ k)	178,775
Total Remuneration (in \$ k)	362,008
Number of beneficiaries	1,406
Performance fee paid directly by the UCITS	n/a

### Aggregate amount of remuneration (in \$ k)

Senior Management of SSGAEL <sup>2</sup>	226
Identified Staff	213,296

## Appendix II Remuneration Policy (unaudited) (*continued*)

### Remuneration (*continued*)

<sup>1</sup> Disclosure is based on the remuneration of the entire staff of the legal entity of the investment managers, indicating the number of beneficiaries.

<sup>2</sup> Represents remuneration paid to independent directors (Directors of SSGAEL and SSGA SPDR ETFs Europe II Plc who are also employees of the Investment Manager do not receive remuneration in their capacity as board members).

More details regarding State Street's remuneration approach including (but not limited to) information on the decision-making process to determine the remuneration policy, its basic characteristics and the linkage between pay and performance, are published separately in State Street's Proxy Statement at [www.statestreet.com](http://www.statestreet.com) and the remuneration section of the Investment Manager's UK Pillar 3 disclosure at <https://www.ssga.com/library-content/pdfs/global/ssgal-pillar-3-disclosure-2023.pdf.pdf>. In light of State Street's group-wide compensation strategy, the qualitative remuneration information included in the UK Pillar 3 disclosure equally apply to State Street employees outside the UK and the Investment Managers' employees.

## Appendix III - Schedule of Significant Portfolio Changes (unaudited)

Listed below are the largest cumulative investment purchases and sales during the financial year ended 31 March 2023 in excess of 1% of total purchases and in excess of 1% of total sales. At a minimum the largest 20 purchases and 20 sales must be given or all purchases and sales if less than 20.

## Appendix IV SFDR and Taxonomy Regulation Disclosures (unaudited)

The new Sustainable Finance Disclosure Regulation (SFDR) introduced various disclosure-related requirements for financial market participants and financial advisors at entity, service and product level. It aims to provide more transparency on sustainability within the financial markets in a standardized way, thus preventing greenwashing and ensuring comparability. The updated Prospectus and Supplements were noted by the CBI dated 9 March 2021 to reflect changes required relating to SFDR. On 22 October 2021, the European Supervisory Authorities (ESAs) jointly published a final report with Regulatory Technical Standards (RTS) for SFDR in relation to taxonomy related disclosures including a draft consolidated RTS in relation to SFDR and the Taxonomy. The date of the application of this draft RTS is expected to be 1 July 2022. Product level taxonomy disclosure obligations from Level 1 are due from 1 January 2022 and are reflected in the Company prospectus.

### Funds that are SFDR Article 6 financial products

With respect to the Funds included in the table below the investments underlying each of these Funds do not take into account the EU criteria for environmentally sustainable economic activities.

SPDR Bloomberg 0-5 Year Sterling Corporate Bond UCITS ETF  
SPDR Bloomberg 3-5 Year Euro Government Bond UCITS ETF  
SPDR ICE BofA 0-5 Year EM USD Government Bond UCITS ETF  
SPDR EURO STOXX Low Volatility UCITS ETF  
SPDR Morningstar Multi-Asset Global Infrastructure UCITS ETF  
SPDR MSCI Europe UCITS ETF  
SPDR MSCI Europe Consumer Discretionary UCITS ETF  
SPDR MSCI Europe Consumer Staples UCITS ETF  
SPDR MSCI Europe Energy UCITS ETF  
SPDR MSCI Europe Financials UCITS ETF  
SPDR MSCI Europe Health Care UCITS ETF  
SPDR MSCI Europe Industrials UCITS ETF

SPDR S&P U.S. Technology Select Sector UCITS ETF  
SPDR S&P U.S. Utilities Select Sector UCITS ETF  
SPDR Refinitiv Global Convertible Bond UCITS ETF

### Funds that are SFDR Article 8 financial products

With respect to the Funds included in the table below, these Funds follow the requirements of Article 8 of SFDR as they promote, among other characteristics, environmental or social characteristics, or a combination of those characteristics and the companies in which the Fund invests in exhibit good governance.

SPDR MSCI ACWI Climate Paris Aligned UCITS ETF  
SPDR MSCI Europe Climate Paris Aligned UCITS ETF  
SPDR MSCI Emerging Markets Climate Paris Aligned UCITS ETF  
SPDR MSCI Japan Climate Paris Aligned UCITS ETF  
SPDR MSCI USA Climate Paris Aligned UCITS ETF  
SPDR MSCI World Climate Paris Aligned UCITS ETF  
SPDR STOXX Europe 600 SRI UCITS ETF

**Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852**

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

**Product name:** SPDR MSCI ACWI Climate Paris Aligned UCITS ETF (the "Fund") **Legal entity identifier:** 549300B4UT29U73NOW48

## Environmental and/or social characteristics

**Did this financial product have a sustainable investment objective?**

<input checked="" type="radio"/>	<input type="checkbox"/>	<b>Yes</b>	<input checked="" type="radio"/>	<input type="radio"/>	<input checked="" type="checkbox"/>	<b>No</b>
<input type="checkbox"/>	It made <b>sustainable investments with an environmental objective</b> : ____%		<input type="checkbox"/>	It <b>promoted Environmental/Social (E/S) characteristics</b> and while it did not have as its objective a sustainable investment, it had a proportion of ____% of sustainable investments		
	<input type="checkbox"/>	in economic activities that qualify as environmentally sustainable under the EU Taxonomy	<input type="checkbox"/>	with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy		
	<input type="checkbox"/>	in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy	<input type="checkbox"/>	with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy		
<input type="checkbox"/>	It made <b>sustainable investments with a social objective</b> : ____%		<input checked="" type="checkbox"/>	It promoted E/S characteristics, but <b>did not make any sustainable investments</b>		
			<input type="checkbox"/>	with a social objective		

### **Sustainability indicators**

measure how the environmental or social characteristics promoted by the financial product are attained.

## **To what extent were the environmental and/or social characteristics promoted by this financial product met?**

The environmental and/or social characteristics promoted by the Fund are those promoted by the MSCI ACWI Climate Paris Aligned Index (the "Index") which the Fund tracks. The Index aims to reflect the performance of a sub-set of equity securities of companies within the MSCI ACWI Index (the "Parent Index"), to reduce exposure to transition and physical climate risks while pursuing opportunities arising from the transition to a lower-carbon economy and seeks to align with the Paris Agreement adopted under the United Nations Framework Convention on Climate Change requirements (the "Paris Agreement").

The Fund seeks to track the Index with a potential variation of up to 1% annually under normal market conditions. The fund is in operation for less than one year.

### **● How did the sustainability indicators perform?**

Attainment of the relevant characteristics is evaluated using the indicators described below. The Index aims are:

- A reduction of overall greenhouse gas (GHG) intensity compared with the Parent Index;
- A minimum decarbonisation rate of GHG intensity reduction per year
- Exposure to sectors with a high impact on climate change at least equivalent to the Parent Index to align with the objectives of the Paris Agreement to include exposure to sectors that should actively reduce GHG emissions.

The index takes into account:

- Increased exposure to companies that publish emissions reduction targets, publish their annual emissions and reduce their GHG intensity;
- Contribution to reduced weighted average potential emissions intensity compared with the Parent Index;
- Contribution to increased overall low carbon transition (LCT) score compared with the Parent Index (i.e., lower overall exposure to companies facing risks from LCT and / or higher overall exposure to companies which may have opportunities from LCT), as determined by the index provider;
- Reduction in exposure to physical risk arising from extreme weather events compared with the Parent Index
- Contribution to increased overall exposure to companies with a minimum green-to-brown revenue ratio compared with the Parent Index with green revenues being those which reflect company revenues from products and services that have the potential to contribute to the low carbon transition versus brown revenues which have the potential to harm the environment and worsen the low carbon transition (for further information on the meaning of green and brown revenue and how they are calculated please refer to the index methodology);
- Contribution to increased overall green revenue compared with the Parent Index; and
- Constituent-level liquidity and diversification caps.

### **● ...and compared to previous periods?**

N/A – first reporting period. No comparison available.

### **● What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

The Fund does not commit to making sustainable investments within the meaning of the SFDR or the Taxonomy Regulation.

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

The Fund does not commit to investing in sustainable investments.

— *How were the indicators for adverse impacts on sustainability factors taken into account?*

N/A

— *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:*

N/A

*The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.*

*The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.*

*Any other sustainable investments must also not significantly harm any environmental or social objectives.*

**How did this financial product consider principal adverse impacts on sustainability factors?**

The Fund pursued a reduction of negative externalities caused by the underlying investments and in that context considered Principal Adverse Impacts (“PAI”) on sustainability factors in the application of the Index exclusions. Specifically, the Index considered

- Violations of UN Global Compact Principles
- Exposure to controversial weapons

Further information on the PAIs will be found in the Periodic Reports for the Fund.

### What were the top investments of this financial product?

Largest investments	Sector	% Assets	Country
APPLE INC	INFORMATION TECHNOLOGY	4.48	UNITED STATES OF AMERICA (THE)

### What was the proportion of sustainability-related investments?

See below – The Fund does not commit to making sustainable investments within the meaning of the SFDR or the Taxonomy Regulation.

**Asset allocation** describes the share of investments in specific assets.

#### ● What was the asset allocation?

99% of the Fund’s assets were invested in securities which are #1 Aligned with the environmental and social characteristics as outlined in the table below. 1% of the assets, consisting of cash as well as cash equivalents were classified under #2 Other in the below table and will not be aligned with the promoted environmental and social characteristics.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste arrangement rules.

#### ● In which economic sectors were the investments made?

Sector / Sub-sector	% Allocation
<b>INFORMATION TECHNOLOGY</b>	<b>22.42</b>
COMMUNICATIONS EQUIPMENT	1.05

**Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective.

**Transitional activities** are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

**To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?**

The Fund does not currently commit to investing in any “environmentally sustainable investment” within the meaning of the Taxonomy Regulation.

● **Did the financial product invest in fossil gas and/or nuclear energy related activities that comply with the EU Taxonomy<sup>1</sup>**

**Yes:**

In fossil gas

In nuclear energy

**No**

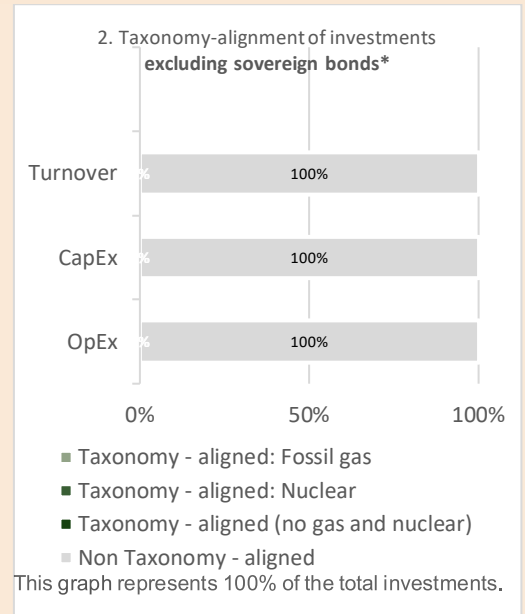

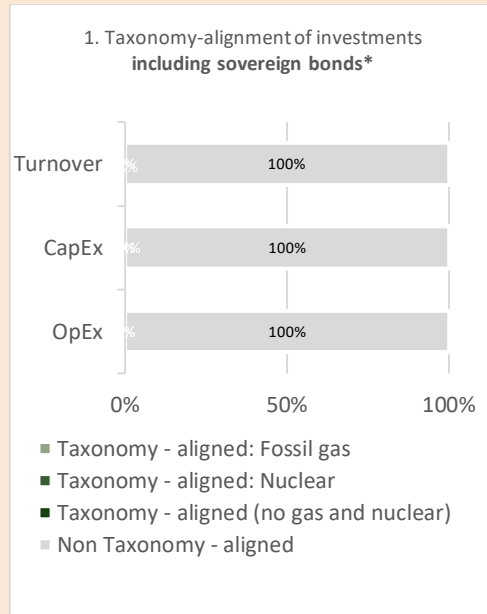

Taxonomy-aligned activities are expressed as a share of:

-**turnover** reflecting the share of revenue from green activities of investee companies.

-**capital expenditure (CapEx)** showing the green investments made by investee companies, e.g. for a transition to a green economy.

-**operational expenditure (OpEx)** reflecting the green operational activities of investee companies.

**The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.**

\*For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

● **What was the share of investments made in transitional and enabling activities?**

As the Fund does not commit to invest any "environmentally sustainable investment" within the meaning of the Taxonomy Regulation, the minimum share of investments in transitional and enabling activities within the meaning of the Taxonomy Regulation is therefore also set at 0%.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

 are sustainable investments with an environmental objective that **do not take into account the criteria**

<sup>1</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective – see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

for environmentally sustainable economic activities under Regulation (EU) 2020/852.

N/A – first reporting period. No comparison available.

**What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

The Fund promotes environmental and social characteristics but does not commit to making any environmentally sustainable investments. As a consequence, the Fund does not commit to a minimum share of sustainable investments with an environmental objective that are not aligned with the EU Taxonomy.

**What was the share of socially sustainable investments?**

N/A

**What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?**

The Fund held 1% of its assets in cash or cash equivalents, including financial derivative instruments employed for efficient portfolio management, hedging or liquidity management purposes, at the Investment Manager’s discretion, which would be classified under #2 Other in the above table. Given the nature of cash or cash equivalents or including financial derivative instruments employed for efficient portfolio management, hedging or liquidity management purposes, such assets will not be aligned with environmental and social characteristics nor will there be any environmental or social safeguards in place.

**What actions have been taken to meet the environmental and/or social characteristics during the reference period?**

The Fund is an index fund tracking the performance of the Index. The Index aims to reflect the performance of a sub-set of equity securities of companies within the Parent Index, to reduce exposure to transition and physical climate risks while pursuing opportunities arising from the transition to a lower-carbon economy and seeks to align with the Paris Agreement adopted under the United Nations Framework Convention on Climate Change requirements (the “Paris Agreement”).

The investment policy of the Fund is to track the performance of the Index. At least 90% of the Fund’s assets are invested in securities that are constituents of the Index, while the Index provider applies ESG ratings on all the Index constituents. The Index excludes certain companies based on their involvement in the following controversial business activities: controversial weapons, tobacco, oil and gas, and thermal coal mining and power generation, with further detail on how the Index provider defines what constitutes “involvement” outlined in the Index methodology. The Index also excludes companies which are identified by the Index provider as being involved in controversies that have a negative ESG impact on their operations and/or products and services based on an MSCI ESG controversy score (“MSCI ESG Controversy Score”).

The Index methodology provides for ongoing review and semi-annual rebalance at which time the Parent Index Universe is screened for the ESG exclusions criteria outlined above.

Companies deemed not in violation by the Index provider of the UNGC principles are considered to exhibit good governance. For information on the methodologies used in the construction of the Index and further information on

the exclusion criteria and data sources, please refer to MSCI's index methodology description which can be found at the following link:  
[https://www.msci.com/eqb/methodology/meth\\_docs/MSCI\\_Climate\\_Paris\\_Aligned\\_Indexes.pdf](https://www.msci.com/eqb/methodology/meth_docs/MSCI_Climate_Paris_Aligned_Indexes.pdf)

## How did this financial product perform compared to the reference benchmark?

The objective of the Fund is to track the equity market performance of developed and emerging markets. The investment policy of the Fund is to track the performance of the Index as closely as possible while seeking to minimise as far as possible the tracking difference between the Fund's performance and that of the Index.

The fund is in operation for less than one year.

For information on the methodologies used in the construction of the Index and further information on the exclusion criteria and data sources, please refer to MSCI's index methodology description which can be found at the following link:

[https://www.msci.com/eqb/methodology/meth\\_docs/MSCI\\_Climate\\_Paris\\_Aligned\\_Indexes.pdf](https://www.msci.com/eqb/methodology/meth_docs/MSCI_Climate_Paris_Aligned_Indexes.pdf)

### ● **How does the reference benchmark differ from a broad market index?**

The Index is based on the Parent Index which measures the performance of large and mid capitalisation stocks across developed market and emerging market countries.

The Fund's reference benchmark (i.e., MSCI ACWI Climate Paris Aligned Index) aims to reflect the performance of a sub-set of equity securities of companies within the Parent Index while aiming to reduce exposure to transition and physical climate risks, pursuing opportunities arising from the transition to a lower-carbon economy and seeking to align the Fund's portfolio with the Paris Agreement adopted under the United Nations Framework Convention on Climate Change requirements (the "Paris Agreement").

### ● **How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?**

The Index methodology provides for ongoing review and semi-annual rebalance at which time the Parent Index Universe is screened for the ESG exclusions criteria outlined above.

The investment policy of the Fund is to track the performance of the Index. At least 90% of the Fund's assets are invested in securities that are constituents of the Index, while the Index provider applies ESG ratings on all the Index constituents. The Index excludes certain companies based on their involvement in the following controversial business activities: controversial weapons, tobacco, oil and gas, and thermal coal mining and power generation, with further detail on how the Index provider defines what constitutes "involvement" outlined in the Index methodology. The Index also excludes companies which are identified by the Index provider as being involved in controversies that have a negative ESG impact on their operations and/or products and services based on an MSCI ESG controversy score ("MSCI ESG Controversy Score").

**Reference benchmarks** are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

- ***How did this financial product perform compared with the broad market index?***

The fund is in operation for less than one year.

**Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852**

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

**Product name:** SPDR MSCI Europe Climate Paris Aligned UCITS ETF (the "Fund")  
**Legal entity identifier:** 549300P6VW2EPP0OXG41

## Environmental and/or social characteristics

**Did this financial product have a sustainable investment objective?**

<input checked="" type="radio"/>	<input type="checkbox"/>	<b>Yes</b>	<input checked="" type="radio"/>	<input type="radio"/>	<input checked="" type="checkbox"/>	<b>No</b>
<input type="checkbox"/>	It made <b>sustainable investments with an environmental objective</b> : ____%		<input type="checkbox"/>	It <b>promoted Environmental/Social (E/S) characteristics</b> and while it did not have as its objective a sustainable investment, it had a proportion of ____% of sustainable investments		
	<input type="checkbox"/>	in economic activities that qualify as environmentally sustainable under the EU Taxonomy	<input type="checkbox"/>	with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy		
	<input type="checkbox"/>	in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy	<input type="checkbox"/>	with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy		
<input type="checkbox"/>	It made <b>sustainable investments with a social objective</b> : ____%		<input checked="" type="checkbox"/>	It promoted E/S characteristics, but <b>did not make any sustainable investments</b>		
			<input type="checkbox"/>	with a social objective		

### **Sustainability indicators**

measure how the environmental or social characteristics promoted by the financial product are attained.

## **To what extent were the environmental and/or social characteristics promoted by this financial product met?**

The environmental and/or social characteristics promoted by the Fund are those promoted by the MSCI Europe Climate Paris Aligned Index (the "Index") which the Fund tracks. The Index aims to reflect the performance of a sub-set of equity securities of companies within the MSCI Europe Index (the "Parent Index"), to reduce exposure to transition and physical climate risks while pursuing opportunities arising from the transition to a lower-carbon economy and seeks to align with the Paris Agreement adopted under the United Nations Framework Convention on Climate Change requirements (the "Paris Agreement").

The Fund seeks to track the Index with a potential variation of up to 1% annually under normal market conditions.

### **● How did the sustainability indicators perform?**

Attainment of the relevant characteristics is evaluated using the indicators described below. The Index aims are:

- A reduction of overall greenhouse gas (GHG) intensity compared with the Parent Index;
- A minimum decarbonisation rate of GHG intensity reduction per year
- Exposure to sectors with a high impact on climate change at least equivalent to the Parent Index to align with the objectives of the Paris Agreement to include exposure to sectors that should actively reduce GHG emissions.

The index takes into account:

- Increased exposure to companies that publish emissions reduction targets, publish their annual emissions and reduce their GHG intensity;
- Contribution to reduced weighted average potential emissions intensity compared with the Parent Index;
- Contribution to increased overall low carbon transition (LCT) score compared with the Parent Index (i.e., lower overall exposure to companies facing risks from LCT and / or higher overall exposure to companies which may have opportunities from LCT), as determined by the index provider;
- Reduction in exposure to physical risk arising from extreme weather events compared with the Parent Index
- Contribution to increased overall exposure to companies with a minimum green-to-brown revenue ratio compared with the Parent Index with green revenues being those which reflect company revenues from products and services that have the potential to contribute to the low carbon transition versus brown revenues which have the potential to harm the environment and worsen the low carbon transition (for further information on the meaning of green and brown revenue and how they are calculated please refer to the index methodology);
- Contribution to increased overall green revenue compared with the Parent Index; and
- Constituent-level liquidity and diversification caps.

### **● ...and compared to previous periods?**

N/A – first reporting period. No comparison available.

### **● What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

The Fund does not commit to making sustainable investments within the meaning of the SFDR or the Taxonomy Regulation.

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

The Fund does not commit to investing in sustainable investments.

— *How were the indicators for adverse impacts on sustainability factors taken into account?*

N/A

— *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:*

N/A

*The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.*

*The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.*

*Any other sustainable investments must also not significantly harm any environmental or social objectives.*

**How did this financial product consider principal adverse impacts on sustainability factors?**

The Fund pursued a reduction of negative externalities caused by the underlying investments and in that context considered Principal Adverse Impacts (“PAI”) on sustainability factors in the application of the Index exclusions. Specifically, the Index considered

- Violations of UN Global Compact Principles
- Exposure to controversial weapons

Further information on the PAIs will be found in the Periodic Reports for the Fund.

**What was the proportion of sustainability-related investments?**

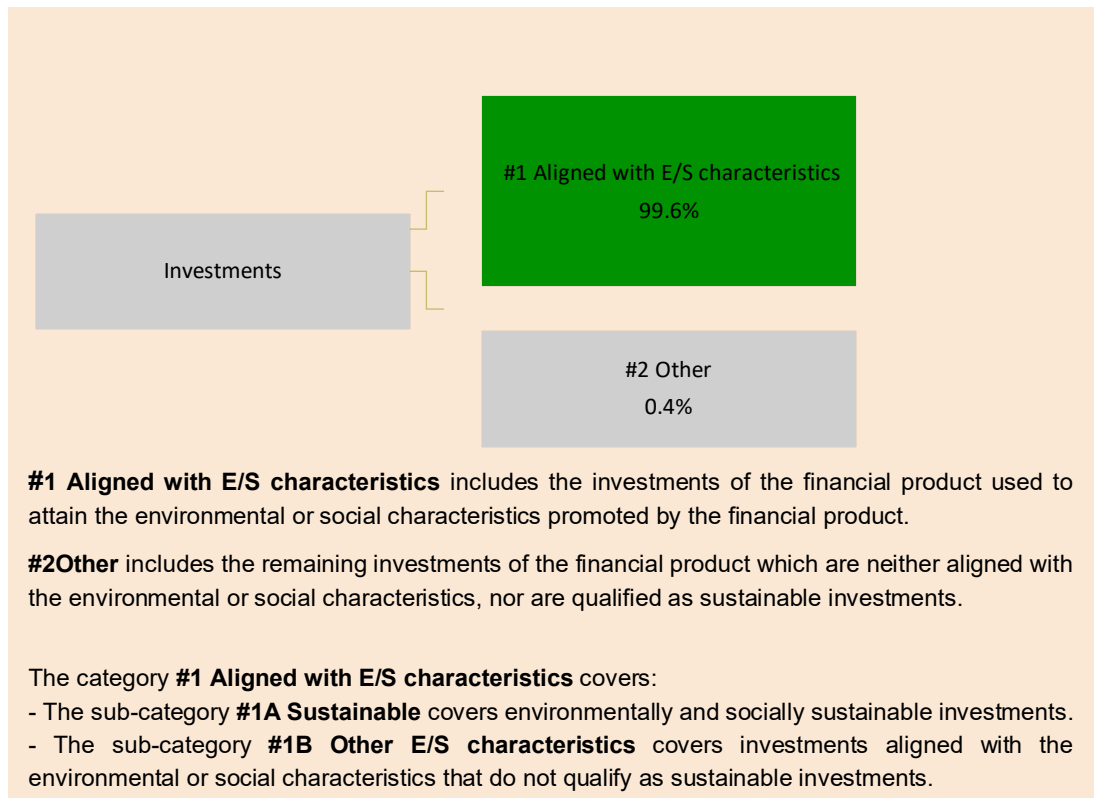

See below – The Fund does not commit to making sustainable investments within the meaning of the SFDR or the Taxonomy Regulation.

**Asset allocation**

describes the share of investments in specific assets.

● **What was the asset allocation?**

99.6% of the Fund’s assets were invested in securities which are #1 Aligned with the environmental and social characteristics as outlined in the table below. 0.4% of the assets, consisting of cash as well as cash equivalents were classified under #2 Other in the below table and will not be aligned with the promoted environmental and social characteristics.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste arrangement rules.

**Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective.

**Transitional activities are** activities for which low-carbon alternatives are not yet available and

**To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?**

The Fund does not currently commit to investing in any 'environmentally sustainable investment' within the meaning of the Taxonomy Regulation.

**Did the financial product invest in fossil gas and/or nuclear energy related activities that comply with the EU Taxonomy<sup>1</sup>**

**Yes:**

In fossil gas

In nuclear energy

**No**

Taxonomy-aligned activities are expressed as a share of:

**-turnover** reflecting the share of revenue from green activities of investee companies.

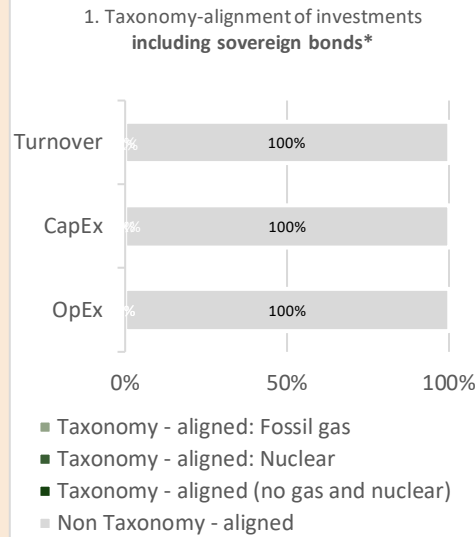

**-capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.

**-operational expenditure** (OpEx) reflecting the green operational activities of

*The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

<sup>1</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective – see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

investee companies.

\*For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

 are sustainable investments with an environmental objective that do not take into account the criteria for environmentally sustainable economic activities under Regulation (EU) 2020/852.

● **What was the share of investments made in transitional and enabling activities?**

As the Fund does not commit to invest any “environmentally sustainable investment” within the meaning of the Taxonomy Regulation, the minimum share of investments in transitional and enabling activities within the meaning of the Taxonomy Regulation is therefore also set at 0%.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

N/A – first reporting period. No comparison available.

● **What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

The Fund promotes environmental and social characteristics but does not commit to making any environmentally sustainable investments. As a consequence, the Fund does not commit to a minimum share of sustainable investments with an environmental objective that are not aligned with the EU Taxonomy.

● **What was the share of socially sustainable investments?**

N/A

● **What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?**

The Fund held 0.4% of its assets in cash or cash equivalents, including financial derivative instruments employed for efficient portfolio management, hedging or liquidity management purposes, at the Investment Manager’s discretion, which would be classified under #2 Other in the above table. Given the nature of cash or cash equivalents or including financial derivative instruments employed for efficient portfolio management, hedging or liquidity management purposes, such assets will

not be aligned with environmental and social characteristics nor will there be any environmental or social safeguards in place.

### **What actions have been taken to meet the environmental and/or social characteristics during the reference period?**

The Fund is an index fund tracking the performance of the Index. The Index aims to reflect the performance of a sub-set of equity securities of companies within the Parent Index, to reduce exposure to transition and physical climate risks while pursuing opportunities arising from the transition to a lower-carbon economy and seeks to align with the Paris Agreement adopted under the United Nations Framework Convention on Climate Change requirements (the “Paris Agreement”).

The investment policy of the Fund is to track the performance of the Index. At least 90% of the Fund’s assets are invested in securities that are constituents of the Index, while the Index provider applies ESG ratings on all the Index constituents. The Index excludes certain companies based on their involvement in the following controversial business activities: controversial weapons, tobacco, oil and gas, and thermal coal mining and power generation, with further detail on how the Index provider defines what constitutes “involvement” outlined in the Index methodology. The Index also excludes companies which are identified by the Index provider as being involved in controversies that have a negative ESG impact on their operations and/or products and services based on an MSCI ESG controversy score (“MSCI ESG Controversy Score”).

The Index methodology provides for ongoing review and semi-annual rebalance at which time the Parent Index Universe is screened for the ESG exclusions criteria outlined above.

Companies deemed not in violation by the Index provider of the UNGC principles are considered to exhibit good governance. For information on the methodologies used in the construction of the Index and further information on the exclusion criteria and data sources, please refer to MSCI’s index methodology description which can be found at the following link:  
[https://www.msci.com/eqb/methodology/meth\\_docs/MSCI\\_Climate\\_Paris\\_Aligned\\_Indexes.pdf](https://www.msci.com/eqb/methodology/meth_docs/MSCI_Climate_Paris_Aligned_Indexes.pdf)

### **How did this financial product perform compared to the reference benchmark?**

The objective of the Fund is to track the performance of European large and mid-sized companies. The investment policy of the Fund is to track the performance of the Index as closely as possible while seeking to minimise as far as possible the tracking difference between the Fund’s performance and that of the Index.

During the one year period ending 31 March 2023, the Fund’s performance was in line with expectations. The Fund returned 1.93% on a gross of fees basis, outperforming the benchmark return of 1.7% by 23 basis points (bps). The Fund returned 1.78% on a net of fees basis during the Reporting Period.

For information on the methodologies used in the construction of the Index and further information on the exclusion criteria and data sources, please refer to MSCI’s index methodology description which can be found at the following link:

[https://www.msci.com/eqb/methodology/meth\\_docs/MSCI\\_Climate\\_Paris\\_Aligned\\_Indexes.pdf](https://www.msci.com/eqb/methodology/meth_docs/MSCI_Climate_Paris_Aligned_Indexes.pdf)

**Reference benchmarks** are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

● ***How does the reference benchmark differ from a broad market index?***

The Index is based on the Parent Index which captures equity market performance of large and mid capitalisation stocks across developed market countries in Europe.

The Fund's reference benchmark (i.e., MSCI Europe Climate Paris Aligned Index) aims to reflect the performance of a sub-set of equity securities of companies within the Parent Index while aiming to reduce exposure to transition and physical climate risks, pursuing opportunities arising from the transition to a lower-carbon economy and seeking to align the Fund's portfolio with the Paris Agreement adopted under the United Nations Framework Convention on Climate Change requirements (the "Paris Agreement").

● ***How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?***

The Index methodology provides for ongoing review and semi-annual rebalance at which time the Parent Index Universe is screened for the ESG exclusions criteria outlined above.

The investment policy of the Fund is to track the performance of the Index. At least 90% of the Fund's assets are invested in securities that are constituents of the Index, while the Index provider applies ESG ratings on all the Index constituents. The Index excludes certain companies based on their involvement in the following controversial business activities: controversial weapons, tobacco, oil and gas, and thermal coal mining and power generation, with further detail on how the Index provider defines what constitutes "involvement" outlined in the Index methodology. The Index also excludes companies which are identified by the Index provider as being involved in controversies that have a negative ESG impact on their operations and/or products and services based on an MSCI ESG controversy score ("MSCI ESG Controversy Score").

● ***How did this financial product perform compared with the broad market index?***

The Fund returned 1.93% on a gross of fees basis, underperforming the broad market index performance of 3.82% by 1.89%. The Fund returned 1.78% on a net of fees basis during the Reporting Period. The investment policy of the Fund is to track the performance of the Index as closely as possible while seeking to minimise as far as possible the tracking difference between the Sub-Fund's performance and that of the Index. It is not expected that the Fund will track the broad market index.

**Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852**

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

**Product name:** SPDR MSCI Emerging Markets Climate Paris Aligned UCITS ETF (the "Fund")  
**Legal entity identifier:** 549300RU01UQ4QFCP934

## Environmental and/or social characteristics

**Did this financial product have a sustainable investment objective?**

<input checked="" type="radio"/> <input type="checkbox"/> <b>Yes</b>	<input checked="" type="radio"/> <input type="radio"/> <input checked="" type="checkbox"/> <b>No</b>
<input type="checkbox"/> It made <b>sustainable investments with an environmental objective</b> : ____% <ul style="list-style-type: none"> <li><input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy</li> <li><input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy</li> </ul>	<input type="checkbox"/> It <b>promoted Environmental/Social (E/S) characteristics</b> and while it did not have as its objective a sustainable investment, it had a proportion of ____% of sustainable investments <ul style="list-style-type: none"> <li><input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy</li> <li><input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy</li> <li><input type="checkbox"/> with a social objective</li> </ul>
<input type="checkbox"/> It made <b>sustainable investments with a social objective</b> : ____%	<input checked="" type="checkbox"/> It promoted E/S characteristics, but <b>did not make any sustainable investments</b>

### **Sustainability indicators**

measure how the environmental or social characteristics promoted by the financial product are attained.

## **To what extent were the environmental and/or social characteristics promoted by this financial product met?**

The environmental and/or social characteristics promoted by the Fund are those promoted by the MSCI Emerging Markets Climate Paris Aligned Index (the "Index") which the Fund tracks. The Index aims to reflect the performance of a sub-set of equity securities of companies within the MSCI Emerging Markets Index (the "Parent Index"), to reduce exposure to transition and physical climate risks while pursuing opportunities arising from the transition to a lower-carbon economy and seeks to align with the Paris Agreement adopted under the United Nations Framework Convention on Climate Change requirements (the "Paris Agreement").

The Fund seeks to track the Index with a potential variation of up to 2% annually under normal market conditions. The fund is in operation for less than one year.

### **● How did the sustainability indicators perform?**

Attainment of the relevant characteristics is evaluated using the indicators described below. The Index aims are:

- A reduction of overall greenhouse gas (GHG) intensity compared with the Parent Index;
- A minimum decarbonisation rate of GHG intensity reduction per year
- Exposure to sectors with a high impact on climate change at least equivalent to the Parent Index to align with the objectives of the Paris Agreement to include exposure to sectors that should actively reduce GHG emissions.

The index takes into account:

- Increased exposure to companies that publish emissions reduction targets, publish their annual emissions and reduce their GHG intensity;
- Contribution to reduced weighted average potential emissions intensity compared with the Parent Index;
- Contribution to increased overall low carbon transition (LCT) score compared with the Parent Index (i.e., lower overall exposure to companies facing risks from LCT and / or higher overall exposure to companies which may have opportunities from LCT), as determined by the index provider;
- Reduction in exposure to physical risk arising from extreme weather events compared with the Parent Index
- Contribution to increased overall exposure to companies with a minimum green-to-brown revenue ratio compared with the Parent Index with green revenues being those which reflect company revenues from products and services that have the potential to contribute to the low carbon transition versus brown revenues which have the potential to harm the environment and worsen the low carbon transition (for further information on the meaning of green and brown revenue and how they are calculated please refer to the index methodology);
- Contribution to increased overall green revenue compared with the Parent Index; and
- Constituent-level liquidity and diversification caps.

### **● ...and compared to previous periods?**

N/A – first reporting period. No comparison available.

### **● What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

The Fund does not commit to making sustainable investments within the meaning of the SFDR or the Taxonomy Regulation.

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

The Fund does not commit to investing in sustainable investments.

— *How were the indicators for adverse impacts on sustainability factors taken into account?*

N/A

— *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:*

N/A

*The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.*

*The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.*

*Any other sustainable investments must also not significantly harm any environmental or social objectives.*

**How did this financial product consider principal adverse impacts on sustainability factors?**

The Fund pursued a reduction of negative externalities caused by the underlying investments and in that context considered Principal Adverse Impacts (“PAI”) on sustainability factors in the application of the Index exclusions. Specifically, the Index considered

- Violations of UN Global Compact Principles
- Exposure to controversial weapons

Further information on the PAIs will be found in the Periodic Reports for the Fund.

### What were the top investments of this financial product?

## What was the proportion of sustainability-related investments?

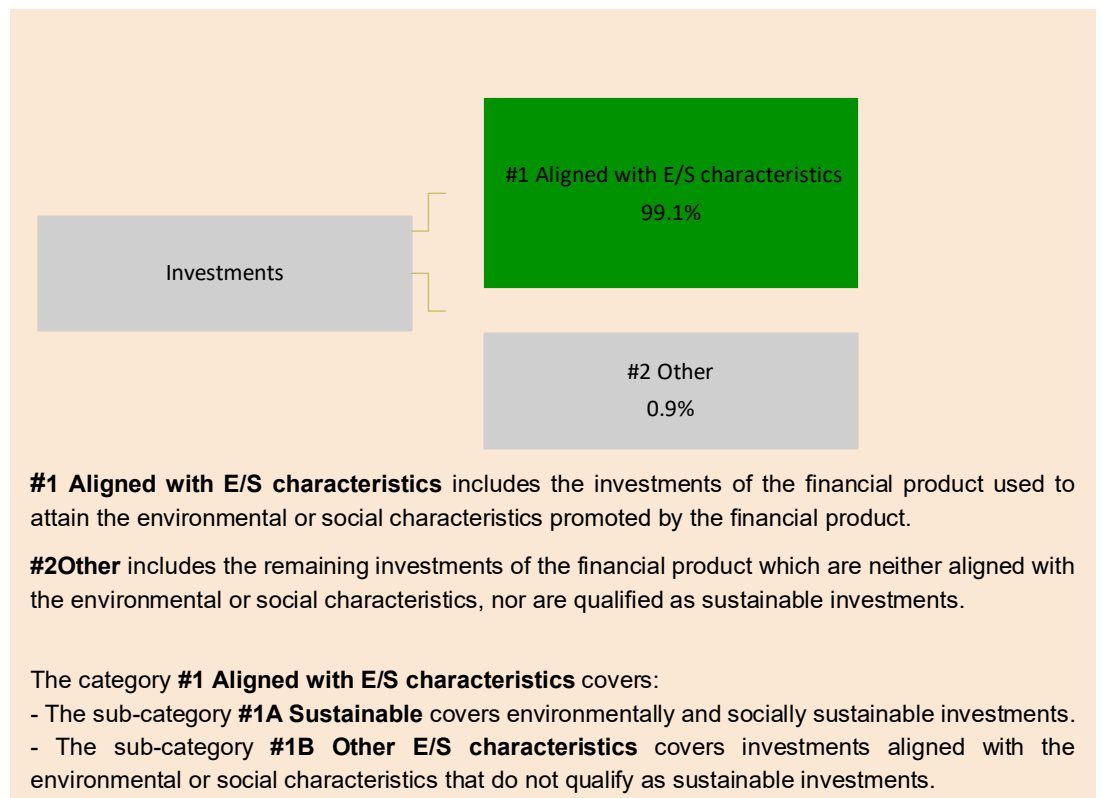

See below – The Fund does not commit to making sustainable investments within the meaning of the SFDR or the Taxonomy Regulation.

### Asset allocation

describes the share of investments in specific assets.

### ● What was the asset allocation?

99.1% of the Fund's assets were invested in securities which are #1 Aligned with the environmental and social characteristics as outlined in the table below. 0.9% of the assets, consisting of cash as well as cash equivalents were classified under #2 Other in the below table and will not be aligned with the promoted environmental and social characteristics.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste arrangement rules.

**Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective.

**Transitional activities** are activities for which low-carbon alternatives are not

### To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The Fund does not currently commit to investing in any “environmentally sustainable investment” within the meaning of the Taxonomy Regulation.

### Did the financial product invest in fossil gas and/or nuclear energy related activities that comply with the EU Taxonomy<sup>1</sup>

Yes:

In fossil gas

In nuclear energy

No

Taxonomy-aligned activities are expressed as a share of:

**-turnover** reflecting the share of revenue from green activities of investee companies.

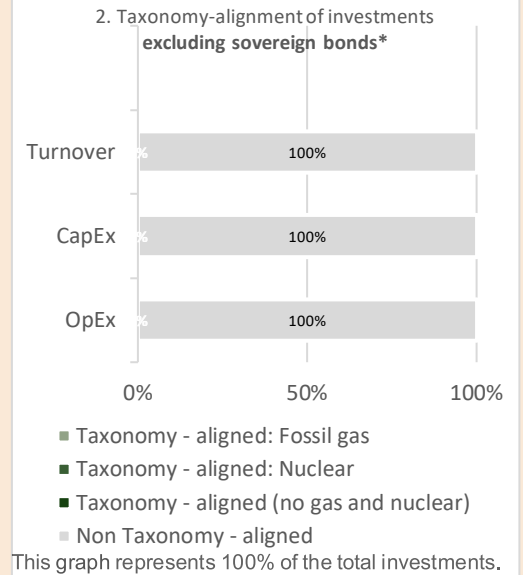

**-capital expenditure (CapEx)** showing the green investments made by investee companies, e.g. for a transition to a green economy.

**-operational expenditure**

*The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

<sup>1</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective – see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

(OpEx) reflecting the green operational activities of investee companies.

\*For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

are sustainable investments with an environmental objective that do not take into account the criteria for environmentally sustainable economic activities under Regulation (EU) 2020/852.

● **What was the share of investments made in transitional and enabling activities?**

As the Fund does not commit to invest any “environmentally sustainable investment” within the meaning of the Taxonomy Regulation, the minimum share of investments in transitional and enabling activities within the meaning of the Taxonomy Regulation is therefore also set at 0%.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

N/A – first reporting period. No comparison available.

● **What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

The Fund promotes environmental and social characteristics but does not commit to making any environmentally sustainable investments. As a consequence, the Fund does not commit to a minimum share of sustainable investments with an environmental objective that are not aligned with the EU Taxonomy.

● **What was the share of socially sustainable investments?**

N/A

● **What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?**

The Fund held 0.9% of its assets in cash or cash equivalents, including financial derivative instruments employed for efficient portfolio management, hedging or liquidity management purposes, at the Investment Manager’s discretion, which would be classified under #2 Other in the above table. Given the nature of cash or cash equivalents or including financial derivative instruments employed for efficient portfolio management, hedging or liquidity management purposes, such assets will

not be aligned with environmental and social characteristics nor will there be any environmental or social safeguards in place.

### **What actions have been taken to meet the environmental and/or social characteristics during the reference period?**

The Fund is an index fund tracking the performance of the Index. The Index aims to reflect the performance of a sub-set of equity securities of companies within the Parent Index, to reduce exposure to transition and physical climate risks while pursuing opportunities arising from the transition to a lower-carbon economy and seeks to align with the Paris Agreement adopted under the United Nations Framework Convention on Climate Change requirements (the “Paris Agreement”).

The investment policy of the Fund is to track the performance of the Index. At least 90% of the Fund’s assets are invested in securities that are constituents of the Index, while the Index provider applies ESG ratings on all the Index constituents. The Index excludes certain companies based on their involvement in the following controversial business activities: controversial weapons, tobacco, oil and gas, and thermal coal mining and power generation, with further detail on how the Index provider defines what constitutes “involvement” outlined in the Index methodology. The Index also excludes companies which are identified by the Index provider as being involved in controversies that have a negative ESG impact on their operations and/or products and services based on an MSCI ESG controversy score (“MSCI ESG Controversy Score”).

The Index methodology provides for ongoing review and semi-annual rebalance at which time the Parent Index Universe is screened for the ESG exclusions criteria outlined above.

Companies deemed not in violation by the Index provider of the UNGC principles are considered to exhibit good governance. For information on the methodologies used in the construction of the Index and further information on the exclusion criteria and data sources, please refer to MSCI’s index methodology description which can be found at the following link:  
[https://www.msci.com/eqb/methodology/meth\\_docs/MSCI\\_Climate\\_Paris\\_Aligned\\_Indexes.pdf](https://www.msci.com/eqb/methodology/meth_docs/MSCI_Climate_Paris_Aligned_Indexes.pdf)

### **How did this financial product perform compared to the reference benchmark?**

The objective of the Fund is to track the equity market performance of emerging markets. The investment policy of the Fund is to track the performance of the Index as closely as possible while seeking to minimise as far as possible the tracking difference between the Fund’s performance and that of the Index.

The fund is in operation for less than one year.

For information on the methodologies used in the construction of the Index and further information on the exclusion criteria and data sources, please refer to MSCI’s index methodology description which can be found at the following link:

[https://www.msci.com/eqb/methodology/meth\\_docs/MSCI\\_Climate\\_Paris\\_Aligned\\_Indexes.pdf](https://www.msci.com/eqb/methodology/meth_docs/MSCI_Climate_Paris_Aligned_Indexes.pdf)

### **● How does the reference benchmark differ from a broad market index?**

The Index is based on the Parent Index which measures the performance of large and mid capitalisation stocks across emerging market countries.

The Fund's reference benchmark (i.e., MSCI Emerging Markets Climate Paris Aligned Index) aims to reflect the performance of a sub-set of equity securities of companies within the Parent Index while aiming to reduce exposure to transition and physical climate risks, pursuing opportunities arising from the transition to a lower-carbon economy and seeking to align the Fund's portfolio with the Paris Agreement adopted under the United Nations Framework Convention on Climate Change requirements (the "Paris Agreement").

● ***How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?***

The Index methodology provides for ongoing review and semi-annual rebalance at which time the Parent Index Universe is screened for the ESG exclusions criteria outlined above.

The investment policy of the Fund is to track the performance of the Index. At least 90% of the Fund's assets are invested in securities that are constituents of the Index, while the Index provider applies ESG ratings on all the Index constituents. The Index excludes certain companies based on their involvement in the following controversial business activities: controversial weapons, tobacco, oil and gas, and thermal coal mining and power generation, with further detail on how the Index provider defines what constitutes "involvement" outlined in the Index methodology. The Index also excludes companies which are identified by the Index provider as being involved in controversies that have a negative ESG impact on their operations and/or products and services based on an MSCI ESG controversy score ("MSCI ESG Controversy Score").

● ***How did this financial product perform compared with the broad market index?***

The fund is in operation for less than one year.

**Reference benchmarks** are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

**Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852**

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

**Product name:** SPDR MSCI Japan Climate Paris Aligned UCITS ETF (the "Fund")      **Legal entity identifier:** 549300TRZ4IOIH8REJ98

			<input type="checkbox"/>	with a social objective		

### **Sustainability indicators**

measure how the environmental or social characteristics promoted by the financial product are attained.

## **To what extent were the environmental and/or social characteristics promoted by this financial product met?**

The environmental and/or social characteristics promoted by the Fund are those promoted by the MSCI Japan Climate Paris Aligned Index (the "Index") which the Fund tracks. The Index aims to reflect the performance of a sub-set of equity securities of companies within the MSCI Japan Index (the "Parent Index"), to reduce exposure to transition and physical climate risks while pursuing opportunities arising from the transition to a lower-carbon economy and seeks to align with the Paris Agreement adopted under the United Nations Framework Convention on Climate Change requirements (the "Paris Agreement").

The Fund seeks to track the Index with a potential variation of up to 1% annually under normal market conditions.

### **● How did the sustainability indicators perform?**

Attainment of the relevant characteristics is evaluated using the indicators described below. The Index aims are:

- A reduction of overall greenhouse gas (GHG) intensity compared with the Parent Index;
- A minimum decarbonisation rate of GHG intensity reduction per year
- Exposure to sectors with a high impact on climate change at least equivalent to the Parent Index to align with the objectives of the Paris Agreement to include exposure to sectors that should actively reduce GHG emissions.

The index takes into account:

- Increased exposure to companies that publish emissions reduction targets, publish their annual emissions and reduce their GHG intensity;
- Contribution to reduced weighted average potential emissions intensity compared with the Parent Index;
- Contribution to increased overall low carbon transition (LCT) score compared with the Parent Index (i.e., lower overall exposure to companies facing risks from LCT and / or higher overall exposure to companies which may have opportunities from LCT), as determined by the index provider;
- Reduction in exposure to physical risk arising from extreme weather events compared with the Parent Index
- Contribution to increased overall exposure to companies with a minimum green-to-brown revenue ratio compared with the Parent Index with green revenues being those which reflect company revenues from products and services that have the potential to contribute to the low carbon transition versus brown revenues which have the potential to harm the environment and worsen the low carbon transition (for further information on the meaning of green and brown revenue and how they are calculated please refer to the index methodology);
- Contribution to increased overall green revenue compared with the Parent Index; and
- Constituent-level liquidity and diversification caps.

### **● ...and compared to previous periods?**

N/A – first reporting period. No comparison available.

### **● What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

The Fund does not commit to making sustainable investments within the meaning of the SFDR or the Taxonomy Regulation.

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

The Fund does not commit to investing in sustainable investments.

— *How were the indicators for adverse impacts on sustainability factors taken into account?*

N/A

— *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:*

N/A

*The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.*

*The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.*

*Any other sustainable investments must also not significantly harm any environmental or social objectives.*

**How did this financial product consider principal adverse impacts on sustainability factors?**

The Fund pursued a reduction of negative externalities caused by the underlying investments and in that context considered Principal Adverse Impacts (“PAI”) on sustainability factors in the application of the Index exclusions. Specifically, the Index considered

- Violations of UN Global Compact Principles
- Exposure to controversial weapons

Further information on the PAIs will be found in the Periodic Reports for the Fund.

### What were the top investments of this financial product?

### What was the proportion of sustainability-related investments?

See below – The Fund does not commit to making sustainable investments within the meaning of the SFDR or the Taxonomy Regulation.

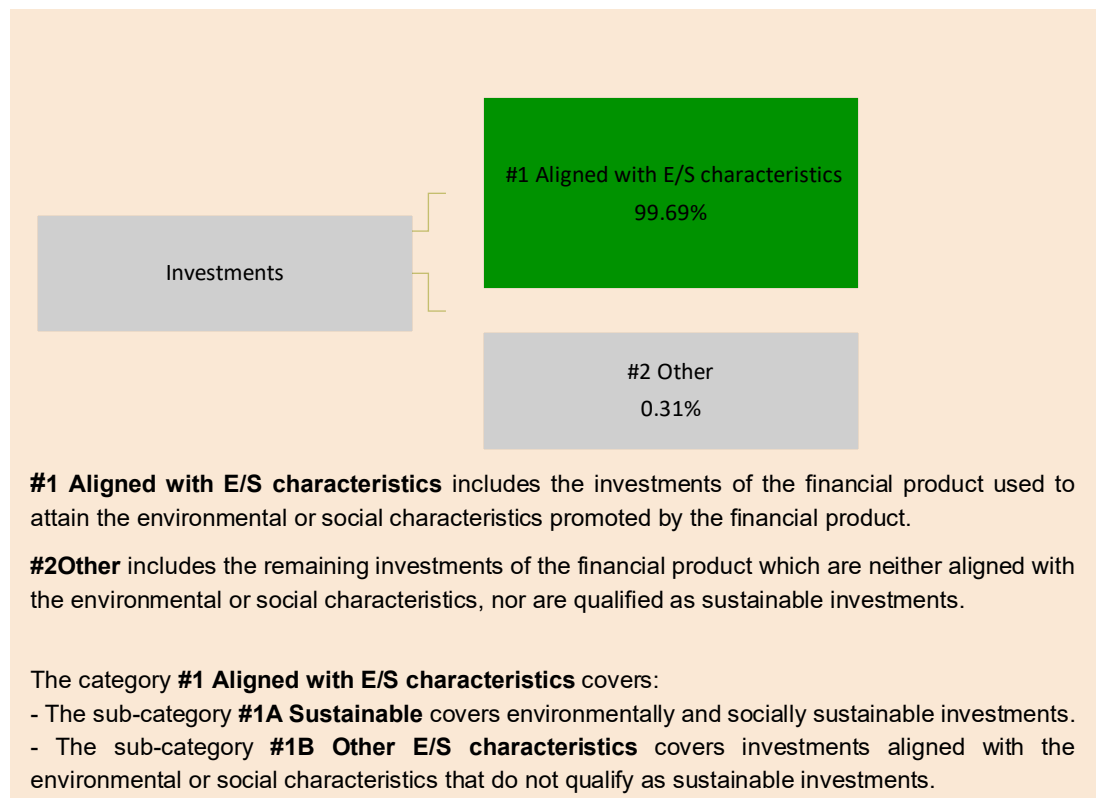

## ● What was the asset allocation?

### Asset allocation

describes the share of investments in specific assets.

99.69% of the Fund's assets were invested in securities which are #1 Aligned with the environmental and social characteristics as outlined in the table below. 0.31% of the assets, consisting of cash as well as cash equivalents were classified under #2 Other in the below table and will not be aligned with the promoted environmental and social characteristics.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste arrangement rules.

### Enabling activities

directly enable other activities to make a substantial contribution to an environmental objective.

### Transitional activities are

activities for which low-carbon alternatives are not yet available and

### To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The Fund does not currently commit to investing in any “environmentally sustainable investment” within the meaning of the Taxonomy Regulation.

#### ● Did the financial product invest in fossil gas and/or nuclear energy related activities that comply with the EU Taxonomy<sup>1</sup>

Yes:

In fossil gas

In nuclear energy

No

Taxonomy-aligned activities are expressed as a share of:

**-turnover** reflecting the share of revenue from green activities of investee companies.

**-capital expenditure (CapEx)** showing the green investments made by investee companies, e.g. for a transition to a green economy.

**-operational expenditure (OpEx)** reflecting the green operational activities of investee companies.

*The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

\*For the purpose of these graphs, ‘sovereign bonds’ consist of all sovereign exposures

#### ● What was the share of investments made in transitional and enabling activities?

As the Fund does not commit to invest any “environmentally sustainable investment” within the meaning of the Taxonomy Regulation, the minimum share of investments

<sup>1</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do not significantly harm any EU Taxonomy objective – see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

in transitional and enabling activities within the meaning of the Taxonomy Regulation is therefore also set at 0%.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

N/A – first reporting period. No comparison available.

**What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

The Fund promotes environmental and social characteristics but does not commit to making any environmentally sustainable investments. As a consequence, the Fund does not commit to a minimum share of sustainable investments with an environmental objective that are not aligned with the EU Taxonomy.

**What was the share of socially sustainable investments?**

N/A

**What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?**

The Fund held 0.31% of its assets in cash or cash equivalents, including financial derivative instruments employed for efficient portfolio management, hedging or liquidity management purposes, at the Investment Manager’s discretion, which would be classified under #2 Other in the above table. Given the nature of cash or cash equivalents or including financial derivative instruments employed for efficient portfolio management, hedging or liquidity management purposes, such assets will not be aligned with environmental and social characteristics nor will there be any environmental or social safeguards in place.

**What actions have been taken to meet the environmental and/or social characteristics during the reference period?**

The Fund is an index fund tracking the performance of the Index. The Index aims to reflect the performance of a sub-set of equity securities of companies within the Parent Index, to reduce exposure to transition and physical climate risks while pursuing opportunities arising from the transition to a lower-carbon economy and seeks to align with the Paris Agreement adopted under the United Nations Framework Convention on Climate Change requirements (the “Paris Agreement”).

The investment policy of the Fund is to track the performance of the Index. At least 90% of the Fund’s assets are invested in securities that are constituents of the Index, while the Index provider applies ESG ratings on all the Index constituents. The Index excludes certain companies based on their involvement in the following controversial business activities: controversial weapons, tobacco, oil and gas, and thermal coal mining and power generation, with further detail on how the Index provider defines what constitutes “involvement” outlined in the Index methodology. The Index also excludes companies which are identified by the Index provider as being involved in controversies that have a negative ESG impact on their operations and/or products and services based on an MSCI ESG controversy score (“MSCI ESG Controversy Score”).

The Index methodology provides for ongoing review and semi-annual rebalance at which time the Parent Index Universe is screened for the ESG exclusions criteria outlined above.

Companies deemed not in violation by the Index provider of the UNGC principles are considered to exhibit good governance. For information on the methodologies used in the construction of the Index and further information on the exclusion criteria and data sources, please refer to MSCI's index methodology description which can be found at the following link: [https://www.msci.com/eqb/methodology/meth\\_docs/MSCI\\_Climate\\_Paris\\_Aligned\\_Indexes.pdf](https://www.msci.com/eqb/methodology/meth_docs/MSCI_Climate_Paris_Aligned_Indexes.pdf)

## How did this financial product perform compared to the reference benchmark?

The objective of the Fund is to track the equity market performance of the large and mid cap segments of the Japanese equity market. The investment policy of the Fund is to track the performance of the Index as closely as possible while seeking to minimise as far as possible the tracking difference between the Fund's performance and that of the Index.

During the one year period ending 31 March 2023, the Fund's performance was in line with expectations. The Fund returned 1.25% on a gross of fees basis, underperforming the benchmark return of 1.33% by 8 basis points (bps). The Fund returned 1.13% on a net of fees basis during the Reporting Period.

For information on the methodologies used in the construction of the Index and further information on the exclusion criteria and data sources, please refer to MSCI's index methodology description which can be found at the following link:

[https://www.msci.com/eqb/methodology/meth\\_docs/MSCI\\_Climate\\_Paris\\_Aligned\\_Indexes.pdf](https://www.msci.com/eqb/methodology/meth_docs/MSCI_Climate_Paris_Aligned_Indexes.pdf)

### ● **How does the reference benchmark differ from a broad market index?**

The Index is based on the Parent Index which measures the performance of large and mid capitalisation stocks of the Japanese equity markets.

The Fund's reference benchmark (i.e., MSCI Japan Climate Paris Aligned Index) aims to reflect the performance of a sub-set of equity securities of companies within the Parent Index while aiming to reduce exposure to transition and physical climate risks, pursuing opportunities arising from the transition to a lower-carbon economy and seeking to align the Fund's portfolio with the Paris Agreement adopted under the United Nations Framework Convention on Climate Change requirements (the "Paris Agreement").

### ● **How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?**

The Index methodology provides for ongoing review and semi-annual rebalance at which time the Parent Index Universe is screened for the ESG exclusions criteria outlined above.

The investment policy of the Fund is to track the performance of the Index. At least 90% of the Fund's assets are invested in securities that are constituents of the Index, while the Index provider applies ESG ratings on all the Index constituents. The Index excludes certain companies based on their involvement in the following controversial business activities: controversial weapons, tobacco, oil and gas, and thermal coal mining and

**Reference benchmarks** are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

power generation, with further detail on how the Index provider defines what constitutes “involvement” outlined in the Index methodology. The Index also excludes companies which are identified by the Index provider as being involved in controversies that have a negative ESG impact on their operations and/or products and services based on an MSCI ESG controversy score (“MSCI ESG Controversy Score”).

● ***How did this financial product perform compared with the broad market index?***

The Fund returned 1.25% on a gross of fees basis, underperforming the broad market index performance of 3.92% by 2.67%. The Fund returned 1.13% on a net of fees basis during the Reporting Period. The investment policy of the Fund is to track the performance of the Index as closely as possible while seeking to minimise as far as possible the tracking difference between the Sub-Fund’s performance and that of the Index. It is not expected that the Fund will track the broad market index.

**Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852**

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

**Product name:** SPDR MSCI USA Climate Paris Aligned UCITS ETF (the "Fund") **Legal entity identifier:** 549300IJ5L61XP62HR84

## Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?	
<input checked="" type="radio"/> <input type="checkbox"/> <b>Yes</b>	<input checked="" type="radio"/> <input type="radio"/> <input checked="" type="checkbox"/> <b>No</b>
<input type="checkbox"/> It made <b>sustainable investments with an environmental objective:</b> ____% <ul style="list-style-type: none"> <li><input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy</li> <li><input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy</li> </ul>	<input type="checkbox"/> It <b>promoted Environmental/Social (E/S) characteristics</b> and while it did not have as its objective a sustainable investment, it had a proportion of ____% of sustainable investments <ul style="list-style-type: none"> <li><input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy</li> <li><input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy</li> <li><input type="checkbox"/> with a social objective</li> </ul>
<input type="checkbox"/> It made <b>sustainable investments with a social objective:</b> ____%	<input checked="" type="checkbox"/> It promoted E/S characteristics, but <b>did not make any sustainable investments</b>

### **Sustainability indicators**

measure how the environmental or social characteristics promoted by the financial product are attained.

## **To what extent were the environmental and/or social characteristics promoted by this financial product met?**

The environmental and/or social characteristics promoted by the Fund are those promoted by the MSCI USA Climate Paris Aligned Index (the "Index") which the Fund tracks. The Index aims to reflect the performance of a sub-set of equity securities of companies within the MSCI USA Index (the "Parent Index"), to reduce exposure to transition and physical climate risks while pursuing opportunities arising from the transition to a lower-carbon economy and seeks to align with the Paris Agreement adopted under the United Nations Framework Convention on Climate Change requirements (the "Paris Agreement").

The Fund seeks to track the Index with a potential variation of up to 1% annually under normal market conditions.

### **● How did the sustainability indicators perform?**

Attainment of the relevant characteristics is evaluated using the indicators described below. The Index aims are:

- A reduction of overall greenhouse gas (GHG) intensity compared with the Parent Index;
- A minimum decarbonisation rate of GHG intensity reduction per year
- Exposure to sectors with a high impact on climate change at least equivalent to the Parent Index to align with the objectives of the Paris Agreement to include exposure to sectors that should actively reduce GHG emissions.

The index takes into account:

- Increased exposure to companies that publish emissions reduction targets, publish their annual emissions and reduce their GHG intensity;
- Contribution to reduced weighted average potential emissions intensity compared with the Parent Index;
- Contribution to increased overall low carbon transition (LCT) score compared with the Parent Index (i.e., lower overall exposure to companies facing risks from LCT and / or higher overall exposure to companies which may have opportunities from LCT), as determined by the index provider;
- Reduction in exposure to physical risk arising from extreme weather events compared with the Parent Index
- Contribution to increased overall exposure to companies with a minimum green-to-brown revenue ratio compared with the Parent Index with green revenues being those which reflect company revenues from products and services that have the potential to contribute to the low carbon transition versus brown revenues which have the potential to harm the environment and worsen the low carbon transition (for further information on the meaning of green and brown revenue and how they are calculated please refer to the index methodology);
- Contribution to increased overall green revenue compared with the Parent Index; and
- Constituent-level liquidity and diversification caps.

### **● ...and compared to previous periods?**

N/A – first reporting period. No comparison available.

### **● What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

The Fund does not commit to making sustainable investments within the meaning of the SFDR or the Taxonomy Regulation.

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

The Fund does not commit to investing in sustainable investments.

— *How were the indicators for adverse impacts on sustainability factors taken into account?*

N/A

— *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:*

N/A

*The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.*

*The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.*

*Any other sustainable investments must also not significantly harm any environmental or social objectives.*

**How did this financial product consider principal adverse impacts on sustainability factors?**

The Fund pursued a reduction of negative externalities caused by the underlying investments and in that context considered Principal Adverse Impacts (“PAI”) on sustainability factors in the application of the Index exclusions. Specifically, the Index considered

- Violations of UN Global Compact Principles
- Exposure to controversial weapons

Further information on the PAIs will be found in the Periodic Reports for the Fund.

**Asset allocation** describes the share of investments in specific assets.

### What was the proportion of sustainability-related investments?

See below – The Fund does not commit to making sustainable investments within the meaning of the SFDR or the Taxonomy Regulation.

#### ● What was the asset allocation?

99.76% of the Fund's assets were invested in securities which are #1 Aligned with the environmental and social characteristics as outlined in the table below. 0.24% of the assets, consisting of cash as well as cash equivalents were classified under #2 Other in the below table and will not be aligned with the promoted environmental and social characteristics.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste arrangement rules.

#### ● In which economic sectors were the investments made?

**To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?**

The Fund does not currently commit to investing in any “environmentally sustainable investment” within the meaning of the Taxonomy Regulation.

**Did the financial product invest in fossil gas and/or nuclear energy related activities that comply with the EU Taxonomy<sup>1</sup>**

**Yes:**

In fossil gas

In nuclear energy

**No**

<sup>1</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective – see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Taxonomy-aligned activities are expressed as a share of:

**-turnover** reflecting the share of revenue from green activities of investee companies.

**-capital expenditure (CapEx)** showing the green investments made by investee companies, e.g. for a transition to a green economy.

**-operational expenditure (OpEx)** reflecting the green operational activities of investee companies.

**The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.**

\*For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

● **What was the share of investments made in transitional and enabling activities?**

As the Fund does not commit to invest any “environmentally sustainable investment” within the meaning of the Taxonomy Regulation, the minimum share of investments in transitional and enabling activities within the meaning of the Taxonomy Regulation is therefore also set at 0%.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

N/A – first reporting period. No comparison available.

● **What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

The Fund promotes environmental and social characteristics but does not commit to making any environmentally sustainable investments. As a consequence, the Fund does not commit to a minimum share of sustainable investments with an environmental objective that are not aligned with the EU Taxonomy.

● **What was the share of socially sustainable investments?**

N/A

● **What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?**

The Fund held 0.24% of its assets in cash or cash equivalents, including financial derivative instruments employed for efficient portfolio management, hedging or

liquidity management purposes, at the Investment Manager's discretion, which would be classified under #2 Other in the above table. Given the nature of cash or cash equivalents or including financial derivative instruments employed for efficient portfolio management, hedging or liquidity management purposes, such assets will not be aligned with environmental and social characteristics nor will there be any environmental or social safeguards in place.

### **What actions have been taken to meet the environmental and/or social characteristics during the reference period?**

The Fund is an index fund tracking the performance of the Index. The Index aims to reflect the performance of a sub-set of equity securities of companies within the Parent Index, to reduce exposure to transition and physical climate risks while pursuing opportunities arising from the transition to a lower-carbon economy and seeks to align with the Paris Agreement adopted under the United Nations Framework Convention on Climate Change requirements (the "Paris Agreement").

The investment policy of the Fund is to track the performance of the Index. At least 90% of the Fund's assets are invested in securities that are constituents of the Index, while the Index provider applies ESG ratings on all the Index constituents. The Index excludes certain companies based on their involvement in the following controversial business activities: controversial weapons, tobacco, oil and gas, and thermal coal mining and power generation, with further detail on how the Index provider defines what constitutes "involvement" outlined in the Index methodology. The Index also excludes companies which are identified by the Index provider as being involved in controversies that have a negative ESG impact on their operations and/or products and services based on an MSCI ESG controversy score ("MSCI ESG Controversy Score").

The Index methodology provides for ongoing review and semi-annual rebalance at which time the Parent Index Universe is screened for the ESG exclusions criteria outlined above.

Companies deemed not in violation by the Index provider of the UNGC principles are considered to exhibit good governance. For information on the methodologies used in the construction of the Index and further information on the exclusion criteria and data sources, please refer to MSCI's index methodology description which can be found at the following link: [https://www.msci.com/eqb/methodology/meth\\_docs/MSCI\\_Climate\\_Paris\\_Aligned\\_Indexes.pdf](https://www.msci.com/eqb/methodology/meth_docs/MSCI_Climate_Paris_Aligned_Indexes.pdf)

### **How did this financial product perform compared to the reference benchmark?**

The objective of the Fund is to track the performance of large and mid-sized equities in the U.S. The investment policy of the Fund is to track the performance of the Index as closely as possible while seeking to minimise as far as possible the tracking difference between the Fund's performance and that of the Index.

During the one year period ending 31 March 2023, the Fund's performance was in line with expectations. The Fund returned -9.18% on a gross of fees basis, outperforming the benchmark return of -9.41% by 23 basis points (bps). The Fund returned -9.29% on a net of fees basis during the Reporting Period.

For information on the methodologies used in the construction of the Index and further information on the exclusion criteria and data sources, please refer to MSCI's index methodology description which can be found at the following link:

**Reference benchmarks** are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

● ***How does the reference benchmark differ from a broad market index?***

The Index is based on the Parent Index which measures the performance of large and mid capitalisation stocks of the U.S. equity markets.

The Fund's reference benchmark (i.e., MSCI USA Climate Paris Aligned Index) aims to reflect the performance of a sub-set of equity securities of companies within the Parent Index while aiming to reduce exposure to transition and physical climate risks, pursuing opportunities arising from the transition to a lower-carbon economy and seeking to align the Fund's portfolio with the Paris Agreement adopted under the United Nations Framework Convention on Climate Change requirements (the "Paris Agreement").

● ***How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?***

The Index methodology provides for ongoing review and semi-annual rebalance at which time the Parent Index Universe is screened for the ESG exclusions criteria outlined above.

The investment policy of the Fund is to track the performance of the Index. At least 90% of the Fund's assets are invested in securities that are constituents of the Index, while the Index provider applies ESG ratings on all the Index constituents. The Index excludes certain companies based on their involvement in the following controversial business activities: controversial weapons, tobacco, oil and gas, and thermal coal mining and power generation, with further detail on how the Index provider defines what constitutes "involvement" outlined in the Index methodology. The Index also excludes companies which are identified by the Index provider as being involved in controversies that have a negative ESG impact on their operations and/or products and services based on an MSCI ESG controversy score ("MSCI ESG Controversy Score").

● ***How did this financial product perform compared with the broad market index?***

The Fund returned -9.18% on a gross of fees basis, outperforming the broad market index performance of -10.34% by 1.16%. The Fund returned -9.29% on a net of fees basis during the Reporting Period. The investment policy of the Fund is to track the performance of the MSCI USA Climate Paris Aligned Index as closely as possible while seeking to minimise as far as possible the tracking difference between the Sub-Fund's performance and that of the Index. It is not expected that the Fund will track the broad market index.

**Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852**

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

**Product name:** SPDR MSCI World Climate Paris Aligned UCITS ETF (the "Fund") **Legal entity identifier:** 549300063DNOPV2XR115

## Environmental and/or social characteristics

**Did this financial product have a sustainable investment objective?**

**Yes**
   **No**

<input type="checkbox"/> It made <b>sustainable investments with an environmental objective</b> : ____%	<input type="checkbox"/> It <b>promoted Environmental/Social (E/S) characteristics</b> and while it did not have as its objective a sustainable investment, it had a proportion of ____% of sustainable investments
<input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy	<input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
<input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy	<input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
<input type="checkbox"/> It made <b>sustainable investments with a social objective</b> : ____%	<input type="checkbox"/> with a social objective
<input type="checkbox"/>	<input checked="" type="checkbox"/> It promoted E/S characteristics, but <b>did not make any sustainable investments</b>

### **Sustainability indicators**

measure how the environmental or social characteristics promoted by the financial product are attained.

## **To what extent were the environmental and/or social characteristics promoted by this financial product met?**

The environmental and/or social characteristics promoted by the Fund are those promoted by the MSCI World Climate Paris Aligned Index (the "Index") which the Fund tracks. The Index aims to reflect the performance of a sub-set of equity securities of companies within the MSCI World Index (the "Parent Index"), to reduce exposure to transition and physical climate risks while pursuing opportunities arising from the transition to a lower-carbon economy and seeks to align with the Paris Agreement adopted under the United Nations Framework Convention on Climate Change requirements (the "Paris Agreement").

The Fund seeks to track the Index with a potential variation of up to 1% annually under normal market conditions.

### **● How did the sustainability indicators perform?**

Attainment of the relevant characteristics is evaluated using the indicators described below. The Index aims are:

- A reduction of overall greenhouse gas (GHG) intensity compared with the Parent Index;
- A minimum decarbonisation rate of GHG intensity reduction per year
- Exposure to sectors with a high impact on climate change at least equivalent to the Parent Index to align with the objectives of the Paris Agreement to include exposure to sectors that should actively reduce GHG emissions.

The index takes into account:

- Increased exposure to companies that publish emissions reduction targets, publish their annual emissions and reduce their GHG intensity;
- Contribution to reduced weighted average potential emissions intensity compared with the Parent Index;
- Contribution to increased overall low carbon transition (LCT) score compared with the Parent Index (i.e., lower overall exposure to companies facing risks from LCT and / or higher overall exposure to companies which may have opportunities from LCT), as determined by the index provider;
- Reduction in exposure to physical risk arising from extreme weather events compared with the Parent Index
- Contribution to increased overall exposure to companies with a minimum green-to-brown revenue ratio compared with the Parent Index with green revenues being those which reflect company revenues from products and services that have the potential to contribute to the low carbon transition versus brown revenues which have the potential to harm the environment and worsen the low carbon transition (for further information on the meaning of green and brown revenue and how they are calculated please refer to the index methodology);
- Contribution to increased overall green revenue compared with the Parent Index; and
- Constituent-level liquidity and diversification caps.

### **● ...and compared to previous periods?**

N/A – first reporting period. No comparison available.

### **● What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

The Fund does not commit to making sustainable investments within the meaning of the SFDR or the Taxonomy Regulation.

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

The Fund does not commit to investing in sustainable investments.

— *How were the indicators for adverse impacts on sustainability factors taken into account?*

N/A

— *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:*

N/A

*The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.*

*The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.*

*Any other sustainable investments must also not significantly harm any environmental or social objectives.*

**How did this financial product consider principal adverse impacts on sustainability factors?**

The Fund pursued a reduction of negative externalities caused by the underlying investments and in that context considered Principal Adverse Impacts (“PAI”) on sustainability factors in the application of the Index exclusions. Specifically, the Index considered

- Violations of UN Global Compact Principles
- Exposure to controversial weapons

Further information on the PAIs will be found in the Periodic Reports for the Fund.

## What was the proportion of sustainability-related investments?

See below – The Fund does not commit to making sustainable investments within the meaning of the SFDR or the Taxonomy Regulation.

**Asset allocation** describes the share of investments in specific assets.

### ● What was the asset allocation?

99.55% of the Fund's assets were invested in securities which are #1 Aligned with the environmental and social characteristics as outlined in the table below. 0.45% of the assets, consisting of cash as well as cash equivalents were classified under #2 Other in the below table and will not be aligned with the promoted environmental and social characteristics.

**#1 Aligned with E/S characteristics** includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

**#2 Other** includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category **#1 Aligned with E/S characteristics** covers:

- The sub-category **#1A Sustainable** covers environmentally and socially sustainable investments.
- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste arrangement rules.

**Enabling activities** directly enable other activities to make a substantial

**To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?**

The Fund does not currently commit to investing in any “environmentally sustainable investment” within the meaning of the Taxonomy Regulation.

**Did the financial product invest in fossil gas and/or nuclear energy related activities that comply with the EU Taxonomy<sup>1</sup>**

**Yes:**

In fossil gas

In nuclear energy

<sup>1</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do not significantly harm any EU Taxonomy objective – see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

X No

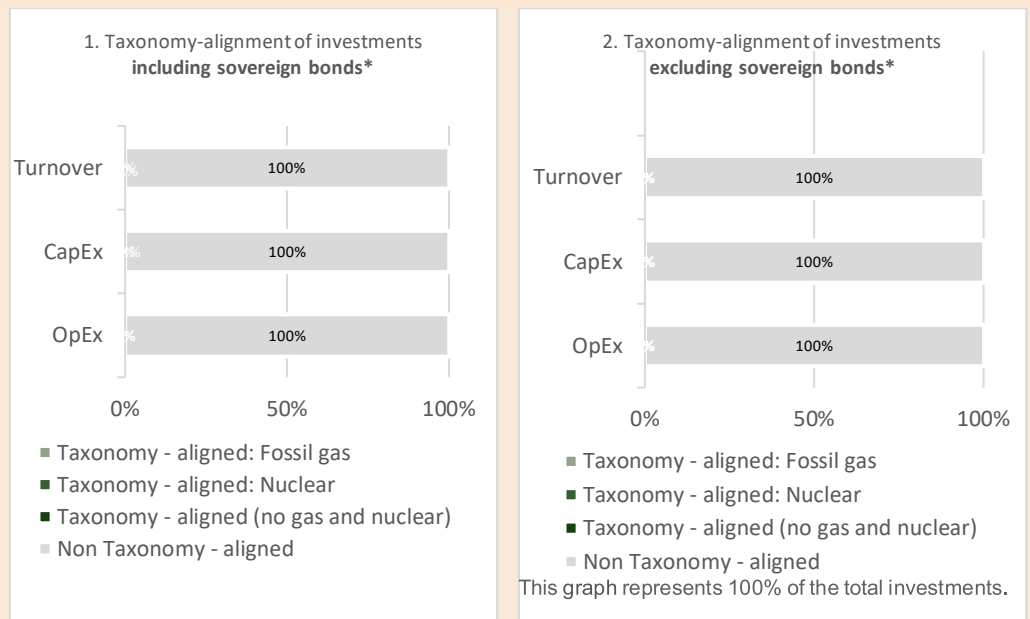

Taxonomy-aligned activities are expressed as a share of:

**-turnover** reflecting the share of revenue from green activities of investee companies.

**-capital expenditure (CapEx)** showing the green investments made by investee companies, e.g. for a transition to a green economy.

**-operational expenditure (OpEx)** reflecting the green operational activities of investee companies.

**The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.**

\*For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

 are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

● **What was the share of investments made in transitional and enabling activities?**

As the Fund does not commit to invest any "environmentally sustainable investment" within the meaning of the Taxonomy Regulation, the minimum share of investments in transitional and enabling activities within the meaning of the Taxonomy Regulation is therefore also set at 0%.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

N/A – first reporting period. No comparison available.

**What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

The Fund promotes environmental and social characteristics but does not commit to making any environmentally sustainable investments. As a consequence, the Fund does not commit to a minimum share of sustainable investments with an environmental objective that are not aligned with the EU Taxonomy.

### What was the share of socially sustainable investments?

N/A

### What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

The Fund held 0.45% of its assets in cash or cash equivalents, including financial derivative instruments employed for efficient portfolio management, hedging or liquidity management purposes, at the Investment Manager’s discretion, which would be classified under #2 Other in the above table. Given the nature of cash or cash equivalents or including financial derivative instruments employed for efficient portfolio management, hedging or liquidity management purposes, such assets will not be aligned with environmental and social characteristics nor will there be any environmental or social safeguards in place.

### What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Fund is an index fund tracking the performance of the Index. The Index aims to reflect the performance of a sub-set of equity securities of companies within the Parent Index, to reduce exposure to transition and physical climate risks while pursuing opportunities arising from the transition to a lower-carbon economy and seeks to align with the Paris Agreement adopted under the United Nations Framework Convention on Climate Change requirements (the “Paris Agreement”).

The investment policy of the Fund is to track the performance of the Index. At least 90% of the Fund’s assets are invested in securities that are constituents of the Index, while the Index provider applies ESG ratings on all the Index constituents. The Index excludes certain companies based on their involvement in the following controversial business activities: controversial weapons, tobacco, oil and gas, and thermal coal mining and power generation, with further detail on how the Index provider defines what constitutes “involvement” outlined in the Index methodology. The Index also excludes companies which are identified by the Index provider as being involved in controversies that have a negative ESG impact on their operations and/or products and services based on an MSCI ESG controversy score (“MSCI ESG Controversy Score”).

The Index methodology provides for ongoing review and semi-annual rebalance at which time the Parent Index Universe is screened for the ESG exclusions criteria outlined above.

Companies deemed not in violation by the Index provider of the UNGC principles are considered to exhibit good governance. For information on the methodologies used in the construction of the Index and further information on the exclusion criteria and data sources, please refer to MSCI’s index methodology description which can be found at the following link: [https://www.msci.com/eqb/methodology/meth\\_docs/MSCI\\_Climate\\_Paris\\_Aligned\\_Indexes.pdf](https://www.msci.com/eqb/methodology/meth_docs/MSCI_Climate_Paris_Aligned_Indexes.pdf)

### How did this financial product perform compared to the reference benchmark?

The objective of the Fund is to track the performance of large and mid-sized equities in developed markets globally. The investment policy of the Fund is to track the performance of the Index as closely as possible while seeking to minimise as far as possible the tracking difference between the Fund's performance and that of the Index.

During the one year period ending 31 March 2023, the Fund's performance was in line with expectations. The Fund returned -8.39% on a gross of fees basis, outperforming the benchmark return of -8.49% by 10 basis points (bps). The Fund returned -8.53% on a net of fees basis during the Reporting Period.

For information on the methodologies used in the construction of the Index and further information on the exclusion criteria and data sources, please refer to MSCI's index methodology description which can be found at the following link:

[https://www.msci.com/eqb/methodology/meth\\_docs/MSCI\\_Climate\\_Paris\\_Aligned\\_Indexes.pdf](https://www.msci.com/eqb/methodology/meth_docs/MSCI_Climate_Paris_Aligned_Indexes.pdf)

● ***How does the reference benchmark differ from a broad market index?***

The Index is based on the MSCI World Index, its Parent Index which measures the performance of large and mid capitalisation stocks across developed market countries.

The Fund's reference benchmark (i.e., MSCI World Climate Paris Aligned Index) aims to reflect the performance of a sub-set of equity securities of companies within the Parent Index while aiming to reduce exposure to transition and physical climate risks, pursuing opportunities arising from the transition to a lower-carbon economy and seeking to align the Fund's portfolio with the Paris Agreement adopted under the United Nations Framework Convention on Climate Change requirements (the "Paris Agreement").

● ***How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?***

The Index methodology provides for ongoing review and semi-annual rebalance at which time the Parent Index Universe is screened for the ESG exclusions criteria outlined above.

The investment policy of the Fund is to track the performance of the Index. At least 90% of the Fund's assets are invested in securities that are constituents of the Index, while the Index provider applies ESG ratings on all the Index constituents. The Index excludes certain companies based on their involvement in the following controversial business activities: controversial weapons, tobacco, oil and gas, and thermal coal mining and power generation, with further detail on how the Index provider defines what constitutes "involvement" outlined in the Index methodology. The Index also excludes companies which are identified by the Index provider as being involved in controversies that have a negative ESG impact on their operations and/or products and services based on an MSCI ESG controversy score ("MSCI ESG Controversy Score").

● ***How did this financial product perform compared with the broad market index?***

The Fund returned -8.39% on a gross of fees basis, underperforming the broad market index performance of -7.02% by 1.37%. The Fund returned -8.53% on a net of fees basis during the Reporting Period. The investment policy of the Fund is to track the performance of the Index as closely as possible while seeking to minimise as far as possible the tracking difference

**Reference benchmarks** are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

between the Sub-Fund's performance and that of the Index. It is not expected that the Fund will track the broad market index.

**Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852**

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

**Product name:** SPDR STOXX Europe 600 SRI UCITS ETF (the "Fund") **Legal entity identifier:** 549300M568T087T6HH03

## Environmental and/or social characteristics

**Did this financial product have a sustainable investment objective?**

<input checked="" type="radio"/>	<input type="checkbox"/>	<b>Yes</b>	<input checked="" type="radio"/>	<input type="radio"/>	<input checked="" type="checkbox"/>	<b>No</b>
<input type="checkbox"/>	It made <b>sustainable investments with an environmental objective</b> : ____%		<input type="checkbox"/>	It <b>promoted Environmental/Social (E/S) characteristics</b> and while it did not have as its objective a sustainable investment, it had a proportion of ____% of sustainable investments

			<input type="checkbox"/>	with a social objective		

### Sustainability indicators

measure how the environmental or social characteristics promoted by the financial product are attained.

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

## To what extent were the environmental and/or social characteristics promoted by this financial product met?

The environmental and social factors promoted by the Fund are those which contribute to the Sustainalytics' (the ESG research, ratings and data firm utilised by the Index provider) ESG Ratings, which are a function of an assessment and rating by Sustainalytics of various environmental, social and governance characteristics for companies in the index universe.

The investment policy of the Fund is to track the performance of the STOXX Europe 600 SRI (the "Index").

For more information on Sustainalytics' ESG Ratings scores, please refer to the Overview of Sustainalytics' ESG Risk Ratings:

[https://connect.sustainalytics.com/hubfs/SFS/Sustainalytics%20ESG%20Risk%20Ratings\\_Issuer%20Backgrounder.pdf](https://connect.sustainalytics.com/hubfs/SFS/Sustainalytics%20ESG%20Risk%20Ratings_Issuer%20Backgrounder.pdf). In addition, the Index excludes securities based on their ESG characteristics, considering both their ESG rating and their involvement in certain controversial business activities and based on the level of their emission intensities as outlined in the Index methodology.

The Fund seeks to track the Index with a potential variation of up to 1% annually under normal market conditions. The 1 year tracking error as of 31 March 2023 was 0.18%. The Fund's tracking error is in line with expectations.

### ● **How did the sustainability indicators perform?**

The sustainability indicators used to measure the attainment of each of the environmental or social characteristics promoted by the Fund is the ESG rating that is constituted by data collected from investee companies and based on ESG scoring undertaken by Sustainalytics.

### ● **...and compared to previous periods?**

N/A – first reporting period. No comparison available.

### ● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

The Fund does not commit to making sustainable investments within the meaning of the SFDR or the Taxonomy Regulation.

### ● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

The Fund does not commit to investing in sustainable investments.

— *How were the indicators for adverse impacts on sustainability factors taken into account?*

N/A

— *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:*

N/A

*The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.*

*The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.*

*Any other sustainable investments must also not significantly harm any environmental or social objectives.*

## How did this financial product consider principal adverse impacts on sustainability factors?

The Fund pursued a reduction of negative externalities caused by the underlying investments and in that context considered Principal Adverse Impacts (“PAI”) on sustainability factors in the application of the Index exclusions. Specifically, the Index considered

- Violations of UN Global Compact Principles
- Exposure to controversial weapons

Further information on the PAIs will be found in the Periodic Reports for the Fund.

### What were the top investments of this financial product?

### What was the proportion of sustainability-related investments?

See below – The Fund does not commit to making sustainable investments within the meaning of the SFDR or the Taxonomy Regulation.

**Asset allocation**  
describes the  
share of

### ● What was the asset allocation?

investments in specific assets.

99.79% of the Fund's assets were invested in securities which are #1 Aligned with the environmental and social characteristics as outlined in the table below. 0.21% of the assets, consisting of cash as well as cash equivalents were classified under #2 Other in the below table and will not be aligned with the promoted environmental and social characteristics.

**#1 Aligned with E/S characteristics** includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

**#2 Other** includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category **#1 Aligned with E/S characteristics** covers:

- The sub-category **#1A Sustainable** covers environmentally and socially sustainable investments.
- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste arrangement rules.

**Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective.

**Transitional activities** are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels

**In which economic sectors were the investments made?**

**To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?**

The Fund does not currently commit to investing in any 'environmentally sustainable investment' within the meaning of the Taxonomy Regulation.

**Did the financial product invest in fossil gas and/or nuclear energy related activities that comply with the EU Taxonomy<sup>1</sup>**

**Yes:**

In fossil gas

In nuclear energy

**No**

Taxonomy-aligned activities are expressed as a share of:

**-turnover** reflecting the share of revenue from green activities of investee companies.

**-capital expenditure (CapEx)** showing the green investments made by investee companies, e.g. for a transition to a green economy.

**-operational expenditure (OpEx)** reflecting the green operational activities of investee companies.

*The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

\*For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

<sup>1</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective – see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

● **What was the share of investments made in transitional and enabling activities?**

As the Fund does not commit to invest any “environmentally sustainable investment” within the meaning of the Taxonomy Regulation, the minimum share of investments in transitional and enabling activities within the meaning of the Taxonomy Regulation is therefore also set at 0%.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

N/A – first reporting period. No comparison available.

● **What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

The Fund promotes environmental and social characteristics but does not commit to making any environmentally sustainable investments. As a consequence, the Fund does not commit to a minimum share of sustainable investments with an environmental objective that are not aligned with the EU Taxonomy.

● **What was the share of socially sustainable investments?**

N/A

● **What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?**

The Fund held 0.21% of its assets in cash or cash equivalents, including financial derivative instruments employed for efficient portfolio management, hedging or liquidity management purposes, at the Investment Manager’s discretion, which would be classified under #2 Other in the above table. Given the nature of cash or cash equivalents or including financial derivative instruments employed for efficient portfolio management, hedging or liquidity management purposes, such assets will not be aligned with environmental and social characteristics nor will there be any environmental or social safeguards in place.

● **What actions have been taken to meet the environmental and/or social characteristics during the reference period?**

The environmental and social factors promoted by the Fund are those which contribute to the Sustainalytics’ (the ESG research, ratings and data firm utilised by the Index provider) ESG Ratings, which are a function of an assessment and rating by Sustainalytics of various environmental, social and governance characteristics for companies in the Index universe.

For more information on Sustainalytics’ ESG Ratings scores, please refer to the Overview of Sustainalytics’ ESG Risk Ratings:

[https://connect.sustainalytics.com/hubfs/SFS/Sustainalytics%20ESG%20Risk%20Ratings\\_Issuer%20Backgrounder.pdf](https://connect.sustainalytics.com/hubfs/SFS/Sustainalytics%20ESG%20Risk%20Ratings_Issuer%20Backgrounder.pdf).

In addition, the index excludes securities based on their ESG characteristics, considering both their ESG rating and their involvement in certain controversial business activities and based on the level of their emission intensities as outlined in the Index methodology.

The Fund seeks to track the Index with a potential variation of up to 1% annually under normal market conditions.

The investment policy of the Fund is to track the performance of the Index. At least 90% of the Fund's assets are invested in securities that are constituents of the Index, while the Index provider applies ESG ratings on all the Index constituents. The Index excludes securities based on their ESG characteristics, considering both their ESG rating and their involvement in certain controversial business activities and based on the level of their emission intensities as outlined in the Index methodology.

The Index methodology provides for ongoing review and a quarterly rebalance, at which time the Standard Index universe is screened for the ESG exclusions criteria outlined above.

Companies deemed by the Index provider to adhere to international norms and principles are considered to exhibit good governance.

For more information, please refer to the ESG Reporting section of Benchmark Statement:

[https://www.stoxx.com/document/Indices/otherinformation/esgreporting/ESG\\_regulatory\\_methodology\\_SXXPSRI.pdf](https://www.stoxx.com/document/Indices/otherinformation/esgreporting/ESG_regulatory_methodology_SXXPSRI.pdf)

### How did this financial product perform compared to the reference benchmark?

The objective of the Fund is to track the performance of European equities. The investment policy of the Fund is to track the performance of the Index as closely as possible while seeking to minimise as far as possible the tracking difference between the Fund's performance and that of the Index.

During the one year period ending 31 March 2023, the Fund's performance was in line with expectations. The Fund returned 4.24% on a gross of fees basis, outperforming the benchmark return of 3.91% by 33 basis points (bps). The Fund returned 4.12% on a net of fees basis during the Reporting Period.

For information on the methodologies used in the construction of the Index please refer to the STOXX® index methodology description.

#### ● **How does the reference benchmark differ from a broad market index?**

The Index is based on the STOXX Europe 600 Index, its parent index which captures equity market performance of eligible European companies.

The Fund's reference benchmark (i.e., STOXX Europe 600 SRI) aims to reflect the performance of a sub-set of equity securities of companies within the parent index while excluding securities based on their ESG characteristics, considering both their ESG rating and their involvement in certain controversial business activities, and based on the level of their emission intensities as outlined in the Index methodology.

#### ● **How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?**

The Index methodology provides for ongoing review and a quarterly rebalance, at which time the Standard Index universe is screened for the ESG exclusions criteria outlined above.

The investment policy of the Fund is to track the performance of the Index. At least 90% of the Fund's assets are invested in securities that are constituents of the Index, while the Index provider applies ESG ratings on all the Index constituents. The Index excludes securities based on their ESG characteristics, considering both their ESG rating and their involvement in certain controversial business activities and based on the level of their emission intensities as outlined in the Index methodology.

**Reference benchmarks** are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

● ***How did this financial product perform compared with the broad market index?***

The Fund returned 4.24% on a gross of fees basis, outperforming the broad market index performance of 2.50% by 1.74%. The Fund returned 4.12% on a net of fees basis during the Reporting Period. The investment policy of the Fund is to track the performance of the STOXX Europe 600 SRI as closely as possible while seeking to minimise as far as possible the tracking difference between the Sub-Fund's performance and that of the Index. It is not expected that the Fund will track the broad market index.
