GBP N AccU

Wellington Emerging Market Development Fund (the "Fund") a Fund of Wellington Management Funds (Ireland) plc (the "Company")

ISIN: IE00BFZ53K54

Management company: Wellington Luxembourg S.à r.l.

OBJECTIVES AND INVESTMENT POLICY

- The Fund seeks long-term total returns.
- The Fund will be actively managed, seeking to outperform the MSCI Emerging Market Index (the "Index"), primarily investing in companies that are domiciled or listed in emerging markets and also, to a lesser extent, developed or frontier market countries (as defined by the Index) and to achieve the objective by investing in companies which are positioned to benefit from themes relating to the structural and economic development of emerging markets.
- The Investment Manager employs an unconstrained approach and seeks to identify investment themes relating to structural and economic development with a bias to small and mid cap stocks. The Investment Manager focuses on identifying themes that are enduring or that the length and duration of which have been underappreciated by the broader market. The Fund may hold concentrated positions within a theme but will generally be well diversified.
- The Fund will invest in shares and other securities with equity characteristics such as preferred stocks, convertible securities or depository receipts. The Fund may invest either directly or via derivatives.
- Derivatives may be used to hedge (manage) risk and for investment purposes (such as gaining exposure to a security).
- The MSCI Emerging Markets Index ("the Index") serves as a reference benchmark for performance comparison purposes. Whilst Fund securities may be components of the Index, the Index is not considered during portfolio construction and the Investment Manager will not manage the extent to which Fund securities differ from the Index.
- The Fund invests in companies the Investment Manager believes are positioned to benefit from themes relating to the structural and economic development of emerging markets. The Investment Manager seeks to identify investment opportunities which both align with the UN Sustainable Development Goals ("UN SDGs") and reflect the following long-term environmental and social themes: Innovation; Sustainability; Inclusion. In line with the Fund's thematic investment approach, the Fund will seek to promote economic sustainability by investing at least 75% of the Fund's net assets in companies that are considered Sustainable Investments.
- The Fund excludes companies that are involved in the mining of thermal coal. The Fund also excludes companies that generate more than 25% of their revenue from thermal coal energy generation.
- During normal market conditions, a minimum of 75% of the Fund's net assets will be aligned to the environmental or social characteristics of the Fund.
- Any income allocated to the Share class from the Fund is reinvested.
- Shares can be bought or sold daily in accordance with the Prospectus. The base currency of the Fund is USD.
- This Fund may not be appropriate for investors who plan to withdraw their money within five years. An investment in the Fund should not constitute a substantial proportion of an investment portfolio and may not be appropriate for all investors.
- The currency of this Share class is different to the base currency of the Fund and so the performance of the Share class will be subject to the impact of the movement of the exchange rate between the currencies.
