Benchmark MSCI All Country World Index (Total Return Net)

Benchmark uses and resemblance

- The Fund is actively managed. The Benchmark is a Performance Comparator and the Fund may bear little resemblance to its Benchmark. The Benchmark has been chosen as it reflects the main investment universe and strategy for the Fund. The Benchmark will not apply values and norms based screening to implement exclusions that the Investment Manager applies to this Fund.

POLICIES

Main investment exposure At least 80% of assets invested in equities that the Investment Manager believes to be attractively valued and to have significant profit growth or earnings recovery potential. Companies may be located anywhere in the world, including emerging markets and the Fund may be concentrated in a limited number of securities, sectors or countries from time to time.

The Fund may invest in China A-Shares through the China-Hong Kong Stock Connect Programmes. The Fund may also invest in Real Estate Investment Trusts ("REITs").

The Investment Manager evaluates and applies values and norms based screening policies to implement exclusions. These policies set limits or

full exclusions on certain industries and companies based on specific ESG criteria and/or minimum standards of business practice based on international norms. In particular, the Investment Manager applies full exclusions on companies in respect of controversial weapons and certain nuclear weapons programmes. The Investment Manager generally applies maximum percentage thresholds typically based on revenue from production and/or distribution in respect of fossil fuels, power generation from thermal coal, conventional weapons and tobacco production. The Fund also excludes companies that are deemed to have failed in respect of established norms such as those referenced in the Principles of the UN Global Compact, the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles for Business and Human Rights. To support this screening, it relies on third party provider(s) who identify an issuer's participation in or the revenue which they derive from activities that are inconsistent with the values and norms based screens. Third party data may be subject to limitations in respect of its accuracy and/or completeness. The exclusion policy for the Fund is available at <https://am.jpmorgan.com/content/dam/jpm-am-aem/emea/regional/en/policies/exclusion-policy/jpm-global-focus-fund-exclusion-policy-ce-en.pdf>.
