VT AI-FUNDS TACTICAL HIGH YIELD BOND (THE "FUND")

a sub-fund of VT AI-FUNDS ICVC (the "Company")

CLASS S ACCUMULATION SHARES (ISIN: GB00BKRSF562)

The authorised corporate director of the Fund is Valu-Trac Investment Management Limited

OBJECTIVES AND INVESTMENT POLICY

The Fund is seeking to consistently deliver positive average total returns of c. 6-9% per annum (net of fees) over a three year business cycle. Capital is in fact at risk and there is no guarantee that a positive return will be achieved over a three year, or any, period.

This multi-manager Fund will seek to achieve its objective by using active systematic rules to invest almost exclusively (90%+) in a portfolio of high yielding fixed income collective investment schemes (CIS) [(which may include funds managed and/or operated by the ACD)] selected from a global marketplace.

It is expected that CIS which the Fund will invest will be very large (>\$1 billion) high yield fixed income funds. To reduce potential volatility from currency exposure the Fund may invest (where available) in hedged share classes in a CIS which will mean currency exposures are hedged back to sterling.

If, in the opinion of the Investment Manager, market conditions deteriorate and become uncertain the Fund's asset allocation may be tactically adjusted to increase the exposure to a range of money market and short dated bond CIS funds. If the conditions deteriorate even further, exposure may be made up to 30% into longer dated sovereign CIS funds.

The Fund may also invest in transferable securities, fixed income, money market instruments, deposits, cash and near cash.

The Fund will be actively managed.

Save as noted above, the Fund will not have any particular geographic, industry or economic sector focus and as such weightings in these may vary as required.

Derivatives (that is sophisticated investment instruments linked to the rise and fall of the price of other assets) may be used for efficient portfolio management purposes.

The Fund targets a total return of 6-9% per annum over a three year period. The performance of the Fund can be measured by considering if the returns fall within this range.

You can buy and sell shares in the Fund on any business day.

Income from the Fund will be re-invested to add to the value of your investment.

For full investment objectives and policy details please refer to the prospectus.

RISK AND REWARD PROFILE

The Risk and Reward Indicator table demonstrates where the Fund ranks in terms of its potential risk and reward. The higher the rank the greater the potential reward but the greater the risk of losing money. It is based on past data, may change over time and may not be a reliable indication of the future risk profile of the Fund. The shaded area of the table below shows where the Fund ranks in terms of its potential risk and reward based on historical data.

Historical data may not be a reliable indicator of the Fund's future risk profile. The risk category shown is not guaranteed and may change over time. The lowest category does not mean "risk free".

The Fund is ranked 4 because monthly historical performance data indicates that average rises and falls in market prices would have occurred historically.

The following risks are material in addition to the risks captured by the indicator above:

- **Counterparty risk:** The Fund can conclude various transactions with contractual partners. If a contractual partner becomes insolvent, it can no longer or can only partly settle unpaid debts owed to the Fund.
- **Market Risk:** External factors can cause an entire asset class to decline in value which would result in a decrease in the value of investments.
- **Currency Risk:** As the Fund may invest in overseas securities, movements in exchange rates may, when not hedged, cause the value of your investment to increase or decrease.
- **Liquidity Risk:** adverse market conditions may affect the ability to sell certain assets when necessary. Reduced liquidity may have a negative impact on the price of assets.
- **Derivatives risk:** use of derivatives may result in gains or losses that are greater than the original amount invested

For full details of the Fund's risks, please see the prospectus which may be obtained from the address in 'Practical Information' overleaf.
