JPMorgan ETFs (Ireland) ICAV

ISIN: IE000IZS2303

JPM EUR Corporate Bond Research Enhanced Index (ESG) UCITS ETF - GBP Hedged (acc)

a Share Class of JPMorgan ETFs (Ireland) ICAV – EUR Corporate Bond Research Enhanced Index (ESG) UCITS ETF. The management company is JPMorgan Asset Management (Europe) S.à r.l.

Objectives and Investment Policy

Investment Objective: The Sub-Fund aims to achieve a long-term return in excess of Bloomberg Euro Corporate Index (the "Benchmark") by actively investing primarily in a portfolio of investment grade Euro denominated corporate debt securities.

Investment Policy: The Sub-Fund pursues an actively-managed investment strategy.

The Sub-Fund aims to invest at least 67% of its assets (excluding assets held for ancillary liquidity purposes) in investment grade Euro denominated corporate debt securities. Issuers of these securities may be located in any country, including emerging markets.

The Sub-Fund systematically includes environmental, social and governance ("ESG") analysis in its investment decisions on at least 90% of securities purchased. Pursuant to the Sub-Fund's ESG analysis, at least 51% of the Sub-Fund's assets are invested in issuers with positive environmental and/or social characteristics that follow good governance practices, as measured through the Investment Manager's proprietary ESG scoring methodology and/or third party data. The Sub-Fund promotes environmental and/or social characteristics.

The Sub-Fund invests at least 10% of assets excluding cash, cash equivalents, money market funds and derivatives for efficient portfolio management, in Sustainable Investments, as defined under SFDR, contributing to environmental or social objectives.

The Investment Manager evaluates and applies values and norms based screening to implement exclusions on certain industries and issuers based on specific ESG criteria and/or minimum standards of business practice based on international norms. To support this screening, the Investment Manager relies on third party provider(s) who identify an issuer's participation in or the revenue which they derive from activities that are inconsistent with the values and norms based screens. The list of screens applied that may result in exclusions can be found on the Website (www.jpmorganassetmanagement.ie).

The risk characteristics of the portfolio of securities held by the Sub-Fund, such as volatility levels and duration, will be broadly equivalent to the risk characteristics of the Benchmark while offering potential for excess returns.

The Investment Manager aims to outperform the Benchmark over the long-term. The Benchmark consists of investment grade, fixed rate debt securities of varying maturity, issued by issuers globally ("Benchmark

Securities"). The Benchmark has been included as a point of reference against which the performance of the Sub-Fund may be measured. The Sub-Fund will bear a close resemblance to its Benchmark.

The Sub-Fund will not seek to track the performance of or replicate the Benchmark, rather the Sub-Fund will hold a portfolio of fixed income securities (which may include but will not be limited to Benchmark Securities) which are actively selected and managed with the aim of delivering an investment performance which exceeds that of the Benchmark over the long-term. In order to seek to achieve this, the Investment Manager may overweight the securities which it considers to have the highest potential to outperform the Benchmark and underweight or not invest at all in securities which the Investment Manager considers most overvalued.

The Sub-Fund seeks to assess the impact of ESG factors on the cash flows or risk profiles of many issuers in which it may invest, to identify issuers that it believes will be negatively impacted by such factors relative to other issuers. The Investment Manager focuses on key risk factors, including, accounting and tax policies, disclosure and investor communications, shareholder rights, remuneration and social and environmental factors, seeking to identify such negative outliers.

The Sub-Fund may, for efficient portfolio management purposes, use financial derivative instruments.

EUR is the base currency of the Sub-Fund.

This Share Class seeks to minimise the effect of currency fluctuations between the Reference Currency of the Sub-Fund (EUR) and the Reference Currency of this Share Class (GBP).

Redemption and Dealing: Shares of the Sub-Fund are traded on one or more stock exchanges. Certain market makers and brokers may subscribe and redeem Shares directly with JPMorgan ETFs (Ireland) ICAV, and are referred to as "Authorised Participants". Other investors who are not Authorised Participants can purchase and sell Shares daily on a recognised stock exchange or over-the-counter.

Benchmark: Bloomberg Euro Corporate Index.

Distribution Policy: This Share Class will not pay dividends.

Risk and Reward Profile

The above rating is based on the historic volatility of the simulated Net Asset Value of this Share Class over the last five years and may not be a reliable indication of the future risk profile of this Share Class.

The risk and reward category shown above is not guaranteed to remain unchanged and may change over time.

A Share Class with the lowest risk rating does not mean a risk-free investment.

Why is this Share Class in this category? This Share Class is classified in category 4 because its simulated Net Asset Value has shown medium fluctuations historically.

OTHER MATERIAL RISKS

- The value of your investment may fall as well as rise and you may get back less than you originally invested.
- The value of debt securities may change significantly depending on economic and interest rate conditions as well as the credit worthiness of the issuer. Issuers of debt securities may fail to meet payment obligations or the credit rating of debt securities may be downgraded. These risks are typically increased for below investment grade debt securities which may also be subject to higher volatility and lower liquidity than investment grade debt securities. The credit worthiness of unrated debt securities is not measured by reference to an independent credit rating agency.
- Exclusion of issuers that do not meet certain ESG criteria from the Sub-Fund's investment universe may cause the Sub-Fund to perform differently compared to similar funds that do not have such a policy.
- The Sub-Fund seeks to provide a return above the Benchmark; however the Sub-Fund may underperform its Benchmark.
- Movements in currency exchange rates can adversely affect the return of your investment. The currency hedging used to minimise the effect of currency fluctuations may not always be successful. Investors may have exposure to currencies other than the currency of their Share Class.
- Further information about risks can be found in the "Risk Information" section of the Prospectus.
