

## Templeton Asian Smaller Companies Fund

**Class W (acc) USD • ISIN LU0871812516** • A sub-fund of Franklin Templeton Investment Funds

The management company is Franklin Templeton International Services S.à r.l.

### Objectives and Investment Policy

Templeton Asian Smaller Companies Fund (the “Fund”) aims to increase the value of its investments over the medium to long term.

The Fund pursues an actively managed investment strategy and invests mainly in:

- equity securities issued by smaller companies (i.e. with a market capitalisation within the range of the market capitalisations of companies included in the MSCI AC Asia ex-Japan Small Cap Index) located in, or doing significant business in, Asia (excluding Japan)

The Fund can invest to a lesser extent in:

- equity, equity-related (such as participatory notes) or debt securities issued by companies of any size located in any country, including any other emerging markets

The investment team uses global research expertise with a focus on identifying companies in Asian countries, including emerging markets, that it believes to be overlooked by other investors and to offer an opportunity for increased value over the long term.

The benchmark of the Fund is the MSCI AC Asia ex-Japan Small Cap Index-NR. The Fund uses a benchmark index to define small caps as the range of acceptable market caps at initial purchase and also as a reference for

Investors to compare against the Funds' performance. The Fund is not obliged to hold any of the benchmark constituents and may indeed invest up to 100% of its net assets outside the benchmark.

You may request the sale of your shares on any Dealing Day (as defined in the current prospectus of the Fund).

The income received from the Fund's investments is accumulated with the result of increasing the value of the shares.

For further information on the Objectives and Investment Policy of the Fund, please refer to the section “Fund Information, Objectives and Investment Policies” of the current prospectus of Franklin Templeton Investment Funds.

### Terms to Understand

**Debt securities:** Securities representing the issuer's obligation to repay a loan at a specified date and to pay interest.

**Emerging markets:** Countries whose economy, stock market, political situation and regulatory framework are not fully developed.

**Equity securities:** Securities that represent an ownership stake in a company.

### Risk and Reward Profile

#### What does this indicator mean and what are its limits?

This indicator is designed to provide you with a measure of the price movement of this share class based on historical behavior.

Historical data may not be a reliable indication of the future risk profile of the Fund. The category shown is not guaranteed to remain unchanged and may shift over time.

The lowest category does not mean risk free.

#### Why is the Fund in this specific category?

The Fund invests mainly in equity securities of smaller companies located in or doing significant business in Asia. Emerging markets have historically been subject to significant price movements, frequently to a greater extent than equity markets globally. As a result, the performance of the Fund can

fluctuate significantly over relatively short time periods.

#### Risks materially relevant not adequately captured by the indicator:

**Chinese Market risk:** In addition to typical risks linked to Emerging Markets, investments in China are subject to economic, political, tax and operational risks specific to the Chinese Market. Please also refer to the prospectus for China QFII risk, Bond Connect risk and Shanghai-Hong Kong Stock Connect and Shenzhen-Hong Kong Stock Connect risk.

**Emerging markets risk:** the risk related to investing in countries that have less developed political, economic, legal and regulatory systems, and that may be impacted by political/economic instability, lack of liquidity or transparency, or safekeeping issues.

**Foreign Currency risk:** the risk of loss arising from exchange-rate fluctuations or due to exchange control regulations.

**Liquidity risk:** the risk that arises when adverse market conditions affect the ability to sell assets when necessary. Such risk may be triggered by (but not limited to) unexpected events such as environmental disasters or pandemics. Reduced liquidity may have a negative impact on the price of the assets.

For a full discussion of all the risks applicable to this Fund, please refer to the “Risk Considerations” section of the current prospectus of Franklin Templeton Investment Funds.
