Notes to the Financial Statements

For the period ended 30 June 2019 (Expressed in British Pound)

1. Nature of operations

The Latitude Horizon Fund (the "Fund") is a sub-fund of DMS UCITS Platform ICAV (the "ICAV"). The Fund commenced operations on 1 November 2016. The ICAV was registered in Ireland pursuant to the Irish Collective Asset-management Vehicles Act 2015 (the "ICAV Act") on 15 June 2015 and authorised by the Central Bank of Ireland (the "Central Bank") as an Undertaking for Collective Investment in Transferable Securities pursuant to the European Communities (Undertaking for Collective Investment in Transferable Securities) Regulations 2011 (S.I. No 352 of 2011), as amended and the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investments in Transferable Securities) Regulations 2019, as amended (collectively the "UCITS Regulations"). The sole objective of the ICAV is the collective investment of its funds in assets and giving members the benefit of the results of the management of its funds.

The ICAV is organised in the form of an umbrella fund with segregated liability between sub-funds. Each sub-fund will have a distinct portfolio of investments and the investment objective and policy of each sub-fund will be formulated by each sub-fund's respective investment manager. As at 30 June 2019, the following sub-funds were in operation:

Sub-funds

Efficient Capital CTA Index Fund P/E FX Strategy Fund Latitude Horizon Fund Allard Asia UCITS Alkeon UCITS Fund CIFC Global Floating Rate Credit Fund Launch date

22 April 2016 5 May 2016 1 November 2016 3 April 2018 17 December 2018 23 January 2019

The investment objective of the Fund is to achieve long term capital appreciation. The Fund will seek to achieve its investment objective by investing principally in a portfolio of global equities and equity related securities, debt securities, derivatives and currencies.

Latitude Investment Management LLP (the "Investment Manager") were appointed Investment Manager to the Fund pursuant to an investment management agreement dated 1 September 2017.

The registered office of the ICAV is 3rd Floor, 76 Lower Baggot Street, Dublin 2, Ireland. SEI Investments - Global Fund Services Limited (the "Administrator") is the administrator. SEI Investments - Depositary and Custodial Services (Ireland) Limited (the "Depositary") is the depositary. Brown Brothers Harriman Trustee Services Ltd., has been appointed as the sub-custodian (the "Sub-Custodian") in accordance with the requirements of the Central Bank to perform in whole or in part any of the Depositary's duties.

2. Basis of Preparation and Significant Accounting Policies

(a) Statement of compliance

The unaudited semi-annual financial statements are prepared in accordance with IAS 34 'Interim Financial Reporting', the ICAV Act and the UCITS Regulations. This report presents comparative financial statements as at 31 December 2018 on the Statement of Financial Position and related notes; and for the period ended 30 June 2018 on the Statement of Comprehensive Income, Statement of Changes in Net Assets, Statement of Cash Flows and related notes.

Notes to the Financial Statements (continued)

For the period ended 30 June 2019 (Expressed in British Pound)

2. Basis of Preparation and Significant Accounting Policies (continued)

(b) Basis of preparation

The financial statements are presented in Great British Pound sterling (GBP). The financial statements have been prepared under the going concern and under the historical cost convention, as modified by the revaluation of financial assets and financial liabilities at fair value through profit or loss.

The preparation of financial statements in conformity with International Financial Reporting Standards ("IFRS") as adopted by the European Union requires management to make judgements, critical accounting estimates and assumptions that affect the application of policies and the reported amounts of assets and liabilities, income and expense. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis of making the judgements about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period or in the period and future periods if the revision affects both current and future periods.

All references to net assets throughout this document refer to net assets attributable to holders of redeemable participating shares, unless otherwise stated.

(c) Changes in relevant accounting standards

Standards, amendments and interpretations effective 1 January 2019

There are no standards, amendments to standards or interpretations that are effective for annual periods beginning on 1 January 2019 that have a material effect on the financial statements of the Fund.

Standards, amendments and interpretations that are not yet effective and not been early adopted

There are no standards, interpretations or amendments to existing standards that are not yet effective that would be expected to have a significant impact on the Fund.

(d) Significant accounting policies

The principal accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all the periods presented, unless otherwise stated.

i. Foreign currency translation

Functional and presentation currency

Functional currency is the currency of the primary economic environment in which the Fund operates. The functional currency of the Fund is Sterling ("GBP"), being the Fund's base currency. Investor subscriptions and redemptions are received and paid in the currency of the relevant Share Class.

All financial information presented in GBP has been rounded to the nearest GBP.

Notes to the Financial Statements (continued)

For the period ended 30 June 2019 (Expressed in British Pound)

2. Basis of Preparation and Significant Accounting Policies (continued)

(d) Significant accounting policies (continued)

i. Foreign currency translation (continued)

Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions. Foreign currency assets and liabilities are translated into the functional currency using the exchange rate prevailing at the period end date.

Foreign exchange gains and losses arising from translation are included in the Statement of Comprehensive Income within 'Net gain on foreign exchange translation'.

Foreign exchange gains and losses relating to cash and cash equivalents are presented in the Statement of Comprehensive Income within 'Net gain on foreign exchange translation'.

Foreign exchange gains and losses relating to the financial assets and liabilities carried at fair value through profit or loss are presented in the Statement of Comprehensive Income within 'Net gain on financial assets and liabilities at fair value through profit or loss'.

ii. Financial instruments at fair value through profit or loss

Classification

The Fund classifies its investments as financial assets or financial liabilities at fair value through profit or loss.

Recognition, derecognition and measurement

Regular purchases and sales of investments are recognised on the trade date - the date on which Fund commits to purchase or sell the investment. Financial assets and financial liabilities at fair value through profit or loss are initially recognised at fair value. Transaction costs are expensed as incurred in the Statement of Comprehensive Income. Financial assets are derecognised when the rights to receive cash flows from the investments have expired or the Fund has transferred substantially all risks and rewards of ownership in accordance with IFRS 9. The Fund uses the FIFO method to determine realised gains and losses on derecognition. A financial liability is derecognised when the obligation specified in the contract is discharged cancelled or expired.

Subsequent to initial recognition, all financial assets and financial liabilities at fair value through profit or loss are measured at fair value. Realised and unrealised gains and losses arising from changes in the fair value of the 'financial assets or financial liabilities at fair value through profit or loss' category are presented in the Statement of Comprehensive Income within 'Net gains on financial assets and liabilities at fair value through profit or loss'.

Fair value estimation

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value of financial assets and liabilities traded in active markets (such as publicly traded derivatives) are based on quoted market prices at the close of trading on the reporting date. In circumstances where the last traded price is not within the bid-ask spread, management will determine the point within the bid-ask spread that is most representative of fair value.

Notes to the Financial Statements (continued)

For the period ended 30 June 2019 (Expressed in British Pound)

2. Basis of Preparation and Significant Accounting Policies (continued)

(d) Significant accounting policies (continued)

ii. Financial instruments at fair value through profit or loss (continued)

Cash deposits and similar investments shall be valued at their face value together with accrued interest.

Forward foreign exchange contracts shall be valued as at the valuation point for the relevant dealing day by reference to the prevailing market maker quotations, namely, the price at which a new forward contract of the same size and maturity could be undertaken.

As at 30 June 2019 and 31 December 2018, the Fund did not hold any positions which were priced using fair value estimates.

iii. Offsetting financial instruments

Financial assets and liabilities are offset and the net amount reported in the Statement of Financial Position when there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously. Please refer to Note 8(f) "Offsetting and amounts subject to master netting/similar greements" for further details.

iv. Cash and cash equivalents

Cash and cash equivalents includes cash in hand, deposits held at call with banks and other short-term investments in an active market with original maturities of three months or less.

v. Expenses

Expenses are recognised on an accrual basis.

vi. Income

Interest income is recognised on a time-proportionate basis using the effective interest method. It includes interest income from cash and cash equivalents and on debt securities at fair value through profit or loss.

Dividend income is recognised when the right to receive payment is established and it is shown in the Statement of Comprehensive Income. The Fund currently incurs withholding taxes imposed by certain countries on investment income and capital gains. Such income or gains are recorded gross of withholding taxes in the Statement of Comprehensive Income. Withholding taxes are shown as a separate item in the Statement of Comprehensive Income.

Notes to the Financial Statements (continued)

For the period ended 30 June 2019 (Expressed in British Pound)

2. Basis of Preparation and Significant Accounting Policies (continued)

(d) Significant accounting policies (continued)

vii. Redeemable participating shares

Redeemable participating shares ("Participating Shares") are redeemable at the shareholder's option and are classified as financial liabilities. The distribution cost, if any, on these Participating Shares is recognised in the Statement of Comprehensive Income as finance costs.

The Participating Shares can be put back to the Fund with effect from any Valuation Day (the Business Day preceding each Dealing Day (being the day upon which redemptions and subscriptions occur, i.e. each business day; and / or any other day which the Directors have determined, subject to advance notice to all shareholders in the Fund and provided there is at least one Dealing Day per fortnight)) for cash equal to a proportionate share of the Fund's net asset value. The Participating Shares are carried at the redemption amount that is payable at the Statement of Financial Position date if the shareholder exercised its right to put the share back to the Fund.

viii. Critical accounting estimates and judgements in applying accounting policies

The Fund makes estimates and assumptions that affect the reported amounts of assets and liabilities within the next financial period. Estimates are continually evaluated and based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

ix. Cash held in investor money collection accounts

With effect 1 April 2016, the Central Bank introduced the Investor Money Regulations which introduces new regulations and compliance requirements surrounding client assets. The Administrator reviewed the way in which funds arising out of subscriptions and redemptions were being channelled into and out of the Fund and, arising out of this review, established a separate bank account to administer this process accordingly.

Cash held in investor money collection accounts represents cash balances maintained in an independent cash account in the name of the Fund, which relate to pending issuance of shares or payments of redemptions. These cash balances are regarded as assets of the Fund and are therefore recognised on the Statement of Financial Position. As at 30 June 2019, the balances in these accounts was GBP 52,084 (31 December 2018: GBP Nil).

x. Cash collateral

Cash held as collateral includes restricted cash balance held at the Fund's clearing brokers and collateral on derivative transactions. As at 30 June 2019, the Fund had GBP Nil (31 December 2018: GBP 396) residual cash held as collateral with Société Générale..

As at 30 June 2019, all forward foreign exchange contracts were held with Brown Brothers Harriman, who are not currently taking variation margin to cover forward foreign exchange contracts, as to do so would require a CSA to be in place. Instead, Brown Brothers Harriman have a security interest over assets in custody with them, covered under the ISDA they have in place.

.

Notes to the Financial Statements (continued)

For the period ended 30 June 2019 (Expressed in British Pound)

2. Basis of Preparation and Significant Accounting Policies (continued)

(d) Significant accounting policies (continued)

xi. Redemption payable

Redemptions are recognised as liabilities when the amount requested in the redemption notice becomes fixed. This generally may occur either at the time of the receipt of a valid and approved notice, or on the last day of a fiscal period, depending on the nature of the request. As a result, redemptions paid after the end of the period, but based upon period end capital balance are reflected as redemptions payable.

xii. Subscriptions receivable

Subscriptions receivable are reported on the Statement of Financial Position and relate to unsettled subscriptions.

3. Taxation

Under current law and practice the ICAV qualifies as an investment undertaking as defined in Section 739B of the Taxes Consolidation Act 1997, as amended. On that basis, it is not chargeable to Irish tax on its income or gains.

Notwithstanding the above, Irish tax may arise on the happening of a "chargeable event". A chargeable event includes:

- a) Any distribution payments made to shareholders by the ICAV in respect of their shares;
- b) Any encashment, redemption, cancellation or transfer of shares;
- The holding of shares at the end of each eight year period beginning with the acquisition of such shares.

No Irish tax will arise on the ICAV in respect of chargeable events in respect of:

- a) A shareholder who is neither Irish resident nor ordinarily resident in Ireland for tax purposes, at the time of the chargeable event, provided appropriate valid declarations in accordance with Section 739D of the Taxes Consolidation Act, 1997, as amended, are held by the ICAV or the ICAV has been authorised by the Irish Revenue to make gross payments in the absence of appropriate declarations under the ICAV with the necessary signed statutory declarations; and
- b) Certain exempted Irish tax resident shareholders who have provided the ICAV with the necessary signed statutory declarations.

Capital gains, dividends and interest received by the ICAV may be subject to taxes, including withholding taxes in the countries in which the issuers of investments are located, which may be reflected in the Net Asset Value ("NAV") of the ICAV. Such taxes may not be recoverable by the ICAV or its shareholders.

The Fund has evaluated the tax positions and has concluded that there are no significant tax positions requiring recognition, measurement or disclosure in the financial statements. Tax penalties and interest, if any, would be accrued as incurred and would be classified as tax expense in the Statement of Comprehensive Income. During the period ended 30 June 2019, the Fund did not incur any interest or penalties.

Notes to the Financial Statements (continued)

For the period ended 30 June 2019 (Expressed in British Pound)

4. Share capital

The authorised share capital of the ICAV is €300,002 represented by 300,002 subscriber shares of no par value issued at €1.00 each and 500,000,000,000 shares of no par value. The subscriber shares entitle the shareholders holding them to attend and vote at all meetings of the ICAV, but do not entitle the holders to participate in the dividends or net assets of any Fund.

The ICAV offers the Classes of Shares in the Fund as set out below. The ICAV may also create additional Classes of Shares in the Fund in the future with prior notification to, and clearance in advance by, the Central Bank.

USD Acc - Class I	US Dollars	\$20,000,000	Accumulating	Yes

Each of the Shares entitles the Shareholder to participate equally on a pro rata basis in the dividends and net assets of the Fund in respect of which they are issued, save in the case of dividends declared prior to becoming a Shareholder. The Subscriber Shares entitle the shareholders holding them to attend and vote at all meetings of the ICAV, but do not entitle the holders to participate in the dividends or net assets of any Fund.

The Directors also reserve the right to re-designate any Class of Shares from time to time, provided that shareholders in that Class will first have been notified by the ICAV that the Shares will be re-designated and will have been given the opportunity to have their Shares redeemed by the ICAV.

Each of the Shares entitles the holder to attend and vote at meetings of the ICAV and of the Fund represented by those Shares.

4. Share capital (continued)

Redemptions

The Directors may impose a gate, as set out below, the effect of which is to limit the redemption of shares of any class. If redemption applications on any Dealing Day exceed the Gate Amount (i.e., ten percent (10%) of the NAV of the Fund, or such higher percentage as the Directors may determine in their sole discretion in respect of any Dealing Day), the ICAV may (i) reduce all such redemption applications pro rata (in line with the size of the redemption applications so that shares redeemed on such Dealing Day, in aggregate, represent only the Gate Amount) and (ii) defer redemption applications in excess of the Gate Amount to subsequent Dealing Days, subject to any Gate Amount applicable on any such subsequent Dealing Day. Any deferred redemption applications will have priority on any subsequent Dealing Day over other redemption applications received on subsequent Dealing Days from shareholders. Except at the sole discretion of the ICAV, any such deferred redemption application may not be revoked.

Shareholders may request that shares be redeemed on any Dealing Day by completing and submitting a redemption application to the Administrator in accordance with the procedures set out in the Prospectus. Redemption applications will generally not be accepted after the Redemption Cut-off Time (means 2:00 p.m. Dublin time on the Business Day immediately preceding the relevant Dealing Day or such point as the Directors may determine in exceptional circumstances). Redemption applications received after the relevant Redemption Cut-off Time will be held over until the next applicable Dealing Day, unless the Directors determine in their sole discretion, in exceptional circumstances and where such redemption applications are received before the earliest relevant Valuation Point (such time on the Valuation Day which reflects the close of business on the markets), to accept such redemption applications on the relevant Dealing Day.

Shares will be redeemed at the applicable NAV per Share on the Dealing Day as of which the redemption is effected, subject to any applicable fees associated with such redemption.

5. Fees and Expenses (continued)

Platform Fees and Expenses

In respect of its provision of management, administration, depositary, director, audit and other services to the Fund, the Manager will receive a fee (the "Platform Fee") on a sliding scale at a maximum rate of 0.25% of the Net Asset Value of the Fund, subject to a minimum fee of €147,500 for the first year after the launch of the Fund and an annual minimum fee of €170,000 thereafter.

The Platform Fee will accrue at each valuation point and is paid monthly in arrears together with reasonable vouched out of pocket expenses incurred by the Manager.

The Manager is responsible for paying the certain fees and expenses of the Directors, Administrator, Depositary, Auditors, (for the annual audit only) and establishment costs out of the Management Fee. Directors' fees are disclosed in Note 10 "Related Parties".

During the period ended 30 June 2019, the Fund incurred GBP 108,698 (30 June 2018: GBP 74,545) in Platform Fees and as at 30 June 2019, GBP 20,507 (31 December 2018: GBP 27,136) remained payable.

Voluntary Expense Cap

The Investment Manager has voluntarily agreed to waive the necessary portion of its fee and/or reimburse Fund expenses in order to limit the total annual operating expenses (excluding all taxes, interest, portfolio transaction expenses, acquired fund fees and expenses, proxy expenses and extraordinary expenses) of all Share Classes to 1.95% of the Net Asset Value of the Fund attributable to the relevant Share Class (the "Voluntary Cap"). The Expense Cap may be raised, lowered or eliminated at the discretion of the Investment Manager on ten Business Days' notice to shareholders.

The Voluntary Cap for the period ended 30 June 2019 of expenses reimbursed by the Investment Manager was GBP Nil (30 June 2018: GBP Nil), with GBP Nil receivable at 30 June 2019 (31 December 2018: GBP Nil).

Fees in respect of non-audit services

The fees in respect of tax services provided by PricewaterhouseCoopers to the Fund are GBP 4,282 for the period ended 30 June 2019 (30 June 2018: GBP 2,412).

8. Financial risk management

(a) Introduction and overview

The Fund has exposure to the following specific risks from financial instruments:

- market risk (including price risk, currency risk, interest rate risk, and concentration risk);
- liquidity risk; and
- credit risk.

This note presents information about the Fund's exposure to each of the above risks, the Fund's objectives, policies and processes for measuring and managing risk.

Risk management framework

Under the terms and agreement of the management agreement between the Manager and the ICAV, the Manager has the responsibility for the management of the ICAV, comprising the functions of investment management, marketing and administration, with the power to delegate such functions as supervised by the Directors of the ICAV.

The risk monitoring process for the Fund is the responsibility of the Board of Directors of the ICAV (the "Board of the ICAV"), together with the Fund's Investment Manager.

The Investment Manager is required to put in place measures to ensure that each of the specific management functions, including risk management, can be monitored effectively at any time. The Investment Manager has significant expertise and experience in the management, including investment management and administration, of collective investment schemes.

The Investment Manager is responsible for the compliance and monitoring of risk levels with the responsibility for risk management to assess the quality and adequacy of the control environment to manage risk for the Fund on a daily basis.

(b) Market risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market variables such as interest rates, foreign exchange rates and investment prices. The likelihood of these types of adverse changes and the extent to which they affect the business of the Fund cannot always be accurately predicted.

(i) Price Risk

Price risk is the risk that the value of an investment may fluctuate as a result of changes in market prices, whether caused by factors specific to an individual investment or all factors affecting all instruments traded in the market.

The following tables detail the Fund's price risk exposure:

30 June 2019	Exposure	Sensitivity		
	GBP	GBP		
Common Stock	50,088,456	5,008,846		
Exchange Traded Funds	11,833,512	1,183,351		

31 December 2018	Exposure	Sensitivity	
	GBP	GBP	
Common Stock	29,916,545	2,991,655	
Exchange Traded Funds	7,327,323	732,732	

Sensitivity analysis

If the price of the investments increased by 10%, this would have resulted in a movement in net assets as shown in tables above.

A decrease would have resulted in an equal but opposite movement. 10% is deemed by management to be a reasonable estimate in price movements of the portfolio.

The Investment Manager attempts to mitigate this risk by maintaining a diversified portfolio.

(ii) Currency Risk

Currency risk is the risk that the value of a financial instrument will fluctuate due to changes in foreign exchange rates. The Fund invests in securities and other investments that are denominated in currencies other than the functional currency of the Fund. Accordingly, the value of the Fund's assets may be affected favourably or unfavourably by fluctuations in currency rates and therefore the Fund will be subject to foreign exchange risks.

_	47,934,641	15,353	-	(75)	(43,166,354)	4,783,565	239,178

Sensitivity analysis

As at 30 June 2019 and 31 December 2018, had the GBP weakened by 5% in relation to all currencies, with all other variables held constant, the increase in the value of the Fund's investments and other net assets and liabilities including cash and cash equivalents denominated in currencies other than GBP attributable to holders of redeemable participating shares is disclosed above.

A 5% strengthening of the GBP would have resulted in an equal but opposite effect on the above financial statement amounts on the basis that all other variables remain constant.

(iii) Interest Rate Risk

Interest rate risk arises from the possibility that changes in interest rates will affect future cash flows or the fair values of financial instruments.

Exposure to Interest Rate Risk

The Fund is exposed to the risk that the fair value or future cash flows from its financial instruments will fluctuate as a result of changes in market interest rates. The Fund monitors its exposure to market interest rates through its investments and cash balances. A summary of the Fund's interest rate gap positions as at 30 June 2019, categorized by maturity date, is disclosed below:

Limitations of sensitivity analysis

The sensitivity analyses disclosed above are subject to a number of limitations, as follows:

- The methodology is based on historical data and cannot take account of the fact that future market price movements, correlations between markets and levels of market liquidity in conditions of market stress may bear no relation to historical patterns;
- 2. The market price risk information is a relative estimate of risk rather than a precise and accurate number;
- The market price information represents a hypothetical outcome and is not intended to be predictive; and
- 4. Future market conditions could vary significantly from those experienced in the past.

(c) Liquidity risk

This is the risk that a lack of a market in certain portfolio securities could prevent the Fund from liquidating unfavourable positions or prevent the Fund from funding redemption requests from existing shareholders. The following tables illustrate the potential liquidity of financial liabilities at fair value through profit or loss:

8. Financial risk management (continued)

(d) Credit risk

Credit risk is the risk that a counterparty to a financial instrument will fail to discharge an obligation or commitment that it has entered into with the Fund, resulting in a financial loss to the Fund.

The Fund seeks to minimise its liquidity risk through continuous monitoring of the credit rating of the different counterparties and through compliance with the UCITS Regulations in terms of investment restrictions.

The Fund's maximum credit risk exposure at the Statement of Financial Position date is represented by the respective carrying amounts of the financial instruments in the Statement of Financial Position, including cash and cash equivalents, cash collateral and financial derivative instruments held at the period end.

At 30 June 2019, all investments, derivative contracts and cash and cash equivalents were held with Brown Brothers Harriman, which had credit rating of A+ by Fitch Ratings Inc., (31 December 2018: A+).

At 30 June 2019, the Fund held one bond, the United States Treasury Inflation Indexed Bond which had a rating of AAA by Fitch Ratings Inc., and six United Kingdom Treasury Bills which had a rating of AA by Fitch Ratings Inc. At 31 December 2018, the Fund held one bond, the United States Treasury Inflation Indexed Bond which had a rating of AAA by Fitch Ratings Inc., and five United Kingdom Treasury Bills which had a rating of AA by Fitch Ratings Inc.

(e) Fair value measurement

As the Fund's investments are classified as financial assets and financial liabilities at fair value through profit or loss, the carrying value of the Fund's investments is a reasonable approximation of fair value. The Fund's accounting policy on fair value measurements is discussed in Note 2(d). The Fund measures fair values, as defined by IFRS 13 'Fair Value Measurement' ("IFRS 13"), using the following fair value hierarchy that reflects the significance of the inputs used in making the measurements:

- Level 1: Quoted market price (unadjusted) in an active market for an identical instrument.
- Level 2: Valuation techniques based on observable inputs, either directly (i.e. as prices) or indirectly (i.e. derived from prices). This category includes instruments valued using: quoted market prices in active markets for similar instruments; quoted prices for identical or similar instruments in markets that are considered less than active; or other valuation techniques where all significant inputs are directly or indirectly observable from market data.
- Level 3: Valuation techniques using significant unobservable inputs. This category includes all instruments where the valuation technique includes inputs not based on observable data and the unobservable inputs have a significant effect on the instrument's valuation. This category includes instruments that are valued based on quoted prices for similar instruments where significant unobservable adjustments or assumptions are required to reflect differences between the instruments.

Fair values of financial assets and financial liabilities that are traded in active markets are based on quoted market prices or dealer price quotations. For all other financial instruments, the Fund determines fair values using valuation techniques as described in Note 2.

The Fund and its counterparty have elected to settle all transactions on a gross basis, however, each party has the option to settle all open contracts on a net basis in the event of default of the other party. Per the terms of the master netting agreement, an event of default includes the following:

(617,582)

34,405

(583, 177)

failure by a party to make payment when due;

(617,582)

- failure by a party to perform any obligation required by the agreement (other than payment) if such failure is not remedied within 30 days after notice of such failure is given to the party;
- bankruptcy.

Forward Currency Contracts

(g) Efficient portfolio management

The Fund may engage in transactions in financial derivative instruments ("FDI") for the purposes of efficient portfolio management to reduce risk, reduce costs, generating additional capital at an appropriate risk level and/or to protect against exchange rate risks within the conditions and limits laid down by the Central Bank from time to time. The FDIs that the Fund may use for efficient portfolio management are forward foreign currency contracts. The Investment Manager will look to ensure that the techniques and instruments used are economically appropriate in that they will be realised in a cost-effective way.
