Imran Sattar

- 26 years' investment experience
- Manager of the Trust since February 2024.

Emily Barnard

- 9 years' investment experience
- Deputy manager of the Trust since February 2024.

About Us

Edinburgh Investment Trust plc was established in 1889 and is managed by the Liontrust Global Fundamental team, led by Imran Sattar. Liontrust's total AuMA was £27.8bn as at 31st March 2024.

Objective

The Company aims to invest primarily in UK securities with the long-term objective of achieving an increase of the Net Asset Value per share in excess of the growth in the FTSE All-Share Index and growth in dividends per share in excess of the rate of UK inflation.

Investment Process

The managers, supported by a collegiate team at Liontrust, construct a high conviction portfolio of c.40-50 holdings based on fundamental company research. The team's flexible investment process delivers a differentiated, diversified portfolio of listed equities. Investment decisions are stock-driven and there are no in-built investment style biases. Instead, opportunities are sought across the market: 'growth', 'value' and 'recovery' stocks will all typically be held.

†Based on the Total Asset Value including cash and accrued income.

GLOSSARY

Gross Gearing: This reflects the amount of gross borrowings in use by a company and takes no account of any cash balances. It is based on gross borrowings as a percentage of net assets. Borrowings are at fair value.

Historic dividend per share: Dividends that have gone ex-dividend over the last 12 months (exclusive of special dividends).

Historic share price yield: Historic dividend per share divided by the share price (exclusive of special dividends).

Net Gearing: Net gearing reflects the amount of net borrowings invested, i.e. borrowings less cash and cash equivalents (including investments in money market funds). It is based on net borrowings as a percentage of net assets. Borrowings are at fair value.

Ongoing Charges Ratio (OCR): This is an estimate of the ongoing administrative and investment management costs of operating the Company, expressed as a percentage of net asset value (debt at market value). The calculation incorporates charges allocated to capital in the financial statements as well as those allocated to revenue, but excludes non-recurring costs, transaction costs of investments, finance costs, taxation, and the costs of buying back or issuing shares.

IMPORTANT INFORMATION

Key risks: Past performance is not a guide to future performance. The value of an investment and the income generated from it can fall as well as rise and is not guaranteed. You may get back less than you originally invested. The portfolio may invest in smaller companies. These stocks may be less liquid and the price swings greater than those in, for example, larger companies. The Company borrows money to invest in the stock market within prescribed limits with the aim of enhancing returns. The use of borrowings may increase the volatility of the NAV and may reduce returns when asset values fall. The Company may invest in derivatives. The use of derivatives may create leverage or gearing. A relatively small movement in the value of a derivative's underlying investment may have a larger impact, positive or negative, on the value of a fund than if the underlying investment was held instead. Investments should always be considered as long term.

Disclaimer: This document provides information about the Edinburgh Investment Trust ('the Company') and Liontrust Fund Partners LLP ('the Manager'). Liontrust Fund Partners LLP (2 Savoy Court, London WC2R 0EZ) is authorised and regulated in the UK by the Financial Conduct Authority (FRN 518165) to undertake regulated investment business. This document does not constitute or form part of, and should not be construed as, an invitation to buy or sell units/shares and neither this document nor anything contained or referred to in it shall form the basis of, or be relied on in connection with, any offer or commitment whatsoever. The value of shares and the income generated from them can fall as well as rise and are not guaranteed; investors may not get back the amount originally subscribed. Investments should always be considered as long term. Investors should not purchase shares in the Company except on the basis of information contained in the Company's Articles of Association. We recommend that investors who are not professional investors should contact their professional adviser. The Company's Articles of Association and Key Information Document (KID) are available from [www.edinburgh-investment-trust.co.uk](#) or direct from Liontrust.
