

### Key Investor Information for Investors in the United Kingdom

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

## Xtrackers MSCI North America High Dividend Yield UCITS ETF

**Share class: 1C, ISIN: IE00BH361H73, Security code: A1W9VB, Currency: USD**

a sub-fund of Xtrackers (IE) plc. The management company is DWS Investment S.A., a member of the DWS Group.

### Objectives and investment policy

The fund is passively managed. **INVESTMENT OBJECTIVE:** The aim is for your investment to track the performance, before fees and expenses, of the MSCI North America High Dividend Yield index (index). The index is based on the MSCI North American index (Parent index), which is designed to reflect the performance of large and medium sized US and Canadian companies. **DESCRIPTION OF INDEX:** The index includes only securities that offer a higher than average dividend return relative to the parent index and that pass dividend sustainability screens: (a) securities included in the index must have a dividend rate which is at least 30% higher than the dividend yield of the Parent index; and (b) securities included in the index must have sustainable dividend returns, meaning that securities are not considered for inclusion if they have a dividend payout that is either (i) extremely high (defined to be the top 5% of securities within the universe of securities with positive payout), (ii) zero or (iii) negative, and therefore future dividend payments might be in jeopardy. **INDEX REBALANCING, CALCULATION AND ADMINISTRATION:** The index is calculated on a total return net basis. This means that all dividends and distributions by the companies are reinvested in the shares after tax. The index is

reviewed and rebalanced on a quarterly basis and may also be rebalanced at other times in order to reflect corporate activity such as mergers and acquisitions. The index is calculated in US Dollars on a daily basis. **INVESTMENT POLICY:** To achieve the aim, the fund will attempt to replicate the index, before fees and expenses, by buying all or a substantial number of the securities in the index. The fund may employ techniques and instruments in order to manage risk, reduce costs and improve results. These techniques and instruments may include the use of financial contracts (derivatives). **FURTHER INFORMATION:** Certain information (including the latest share prices of the fund, indicative net asset values, full disclosure on the composition of the fund's portfolio and information on the index constituents) are available on your local DWS website or at [www.Xtrackers.com](http://www.Xtrackers.com). Transaction costs and taxes, unexpected fund costs and market conditions such as volatility or liquidity issues may affect the ability of the fund to track the index. The anticipated level of tracking error in normal market conditions is 1 per cent. The currency of the fund is USD. Returns and gains are not distributed but are reinvested in the fund. You may request the redemption of shares generally on a daily basis.

### Risk and reward profile

The calculation of the risk and reward profile is based on historical data that cannot be used as a reliable indicator for the future risk profile. This risk indicator is subject to changes; the classification of the fund may change over time and cannot be guaranteed. Even a fund that is classified in the lowest category (category 1) does not represent a completely risk-free investment. The fund is classified in category 6 because its share price may fluctuate strongly and the likelihood of both losses and gains may therefore be high. The following risks could be of particular significance for the fund: The value of your investment may go down as well as up and past performance does not predict future returns. Investor capital may be at risk up to a total loss. The Fund is exposed to the currency markets which may be highly volatile. Large price swings can occur in such markets within very short periods and may result in your investment suffering a loss. The value of an investment in shares will depend on a number of factors including, but not limited to, market and economic conditions, sector, geographical region and political events. The Fund is exposed to market movements in a single country or region which may be adversely affected by political or economic developments, government action or natural events that do not affect a fund investing in broader markets. The Fund follows a rules-based strategy which will deviate from the overall market or parent index. Your investment is likely to be less diversified and there is no guarantee that the index's 'rules-based' strategy will be achieved. The fund will attempt to replicate the performance of the index less costs, but your investment is not

expected to match the performance of the index precisely. **EXCEPTIONAL CIRCUMSTANCES RISK:** Exceptional circumstances may arise, such as, but not limited to, disruptive market conditions, additional costs/taxes or extremely volatile markets, which may cause the fund's performance to be substantially different from the performance of the index. **CONFLICTS OF INTEREST RISK:** DWS entities and related companies may act in several roles in relation to the fund such as distributor and management company which may involve conflicts of interest. **NO GUARANTEE RISK:** The fund is not guaranteed and your investment is at risk. The value of your investment may go down as well as up. **REGION CONCENTRATION RISK:** The fund is exposed to market movements in a single country or region which may be adversely affected by political or economic developments, government action or natural events that do not affect a fund investing in broader markets. **RULES BASED INDEX RISK:** The index is rules-based and is not capable of being adjusted to take into account changing market circumstances. As a result you may be negatively affected by, or may not benefit from, the lack of such adjustments in changing market circumstances. **DISRUPTIONS/ADJUSTMENT EVENTS RISK:** The index may also be subject to disruption or adjustment events which may prevent its calculation or lead to adjustments to the rules of the index which may cause your investment to suffer losses. **DERIVATIVES RISK:** The fund may use derivatives to try to manage its investments more efficiently. This may not always be successful and may result in greater fluctuations in the value of the fund. This may negatively affect the value of the fund and your investment.

A more detailed description of risks and other general information can be found in the risk section(s) of the prospectus.

### Charges

The charges you pay are used to pay the costs of running the fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

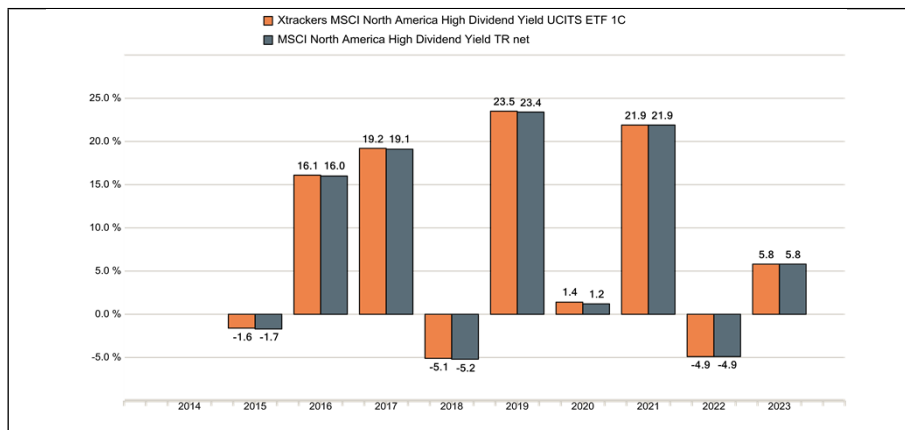

| One-off charges taken before or after you invest  |        |
|---|--------|
| <b>Entry charge</b>   | None   |
| <b>Exit charge</b>  | None   |
| This is the maximum that might be taken out of your money before it is invested (entry charge) and before the proceeds of your investment are paid out (exit charge). |        |
| Charges taken from the fund over a year   |        |
| <b>Ongoing charges</b>  | 0.39 % |
| Charges taken from the fund under certain specific conditions   |        |
| <b>Performance fee</b>  | None   |

Secondary market investors (those who buy or sell shares on a stock exchange) may be charged certain fees by their stock broker. These charges, if any, can be obtained from such stock broker. Authorised participants dealing directly with the fund will pay the transaction costs related to their subscriptions and redemptions.

The ongoing charges figure is based on expenses for the fiscal year ending 31.12.2023. It may vary from year to year. It excludes portfolio transaction costs and performance fees, if any.

Additional information on costs can be found in the cost section(s) of the prospectus.

## Past performance

Past performance is not a reliable indicator of future performance. All costs and fees that were withdrawn from the 1C share class of Xtrackers MSCI North America High Dividend Yield UCITS ETF were deducted during the calculation. The 1C share class of Xtrackers MSCI North America High Dividend Yield UCITS ETF was launched in 2014.

## Practical information

The depositary is State Street Custodial Services (Ireland) Limited, Ireland. Copies of the prospectus and the periodic reports are available free of charge in the language of this document. The documents as well as other information (including the latest share prices as well as the indicative net asset values) are available free of charge.
