GENERAL INFORMATION

The following information is derived from and should be read in conjunction with the full text and definitions section of the Prospectus.

Brown Advisory Funds plc (the “Company”), was incorporated in Ireland on 11th October, 2005 and is an umbrella fund established as an open-ended investment company with segregated liability between sub-funds and with variable capital under the laws of Ireland as a public limited company pursuant to the Companies Act 2014. It operates pursuant to the European Communities (Undertaking for Collective Investment in Transferable Securities) Regulations, 2011 (as amended) (the “UCITS Regulations”).

The Company has appointed Brown Advisory (Ireland) Limited (the “Manager”) to act as manager and distributor to the Company and each Fund with power to delegate one or more of its functions subject to the overall supervision and control of the Manager.

At 31st October, 2022 the Company comprised fourteen separate portfolios of investments (“Funds”), each of which is represented by a separate series of Redeemable Participating Shares. These Funds are the Brown Advisory US Smaller Companies Fund which commenced operations on 9th November, 2007, the Brown Advisory US Equity Growth Fund which commenced operations on 2nd November, 2009, the Brown Advisory US Small Cap Blend Fund which commenced operations on 8th July, 2013, the Brown Advisory US Flexible Equity Fund which commenced operations on 7th March, 2014, the Brown Advisory Global Leaders Fund which commenced operations on 1st April, 2015, the Brown Advisory US Mid-Cap Growth Fund, which commenced operations on 3rd April, 2017, the Brown Advisory US Sustainable Growth Fund, which commenced operations on 3rd April, 2017, the Brown Advisory Latin American Fund which commenced operations on 30th April, 2018, merging from the Findlay Park Latin American Fund, the Brown Advisory US All Cap SRI Fund which commenced operations on 28th August, 2018, the BA Metropolis Global Value Fund which commenced operations on 30th September, 2019, the Brown Advisory Global Leaders Sustainable Fund which commenced operations on 1st November, 2019, the BA Beutel Goodman US Value Fund which commenced operations on 30th November, 2020, the Brown Advisory Global Sustainable Total Return Bond Fund (GBP) which commenced operations on 31st January, 2022 and the Brown Advisory Global Sustainable Total Return Bond Fund (USD) which commenced operations on 31st March, 2022.

On 20th October, 2021 the Manager notified the Central Bank that the Board of Directors have formally made the decision to terminate the Brown Advisory Latin American Fund. The closure of the Fund took place on 29th October, 2021 and is pending application to the Central Bank to revoke the Fund’s registration.

The Company has segregated liability between its Funds and accordingly any liability incurred on behalf of or attributable to any Fund shall be discharged solely out of the assets of that Fund.

The Company offered the following Share Classes in each of the Funds at 31st October, 2022 being the financial year end (referred to herein as the “year end” or “year ended”):

Brown Advisory US Smaller Companies Fund

The investment objective of the Brown Advisory US Smaller Companies Fund (the “Fund”) is to achieve capital appreciation by investing primarily in US equities.

The Fund invests at least 80% of its net assets in equity securities of small US companies. The Fund seeks to invest primarily in small companies with sustainable above average growth prospects and which are listed or traded on the US markets and exchanges listed in Appendix I of the Prospectus. Small companies are companies whose market capitalisations are equal to or less than \$6 billion at the time the Fund purchases the issuer’s securities (“Market Capitalisation Range”). The Fund may invest in US Rule 144A Securities, American and Global Depository Receipts, US treasury bills, fixed and/or floating rate US government securities and ancillary liquid assets subject to the limits set out in the Prospectus.

The Fund’s investments are concentrated in US equity securities and accordingly the Fund is more vulnerable to economic, political, regulatory or other developments in the US than a more internationally diversified portfolio would be.

GENERAL INFORMATION (continued)

Brown Advisory US Equity Growth Fund

The investment objective of the Brown Advisory US Equity Growth Fund (the “Fund”) is to achieve capital appreciation by investing primarily in US equities.

The Fund aims to achieve its investment objective by investing in medium- and large-sized companies that have high, sustainable earnings prospects along with attractive valuations and which are listed or traded on the US markets and exchanges listed in Appendix I of the Prospectus. The Fund may also invest in US Rule 144A Securities, American and Global Depository Receipts, US treasury bills, fixed and/or floating rate US government securities and ancillary liquid assets subject to the limits set out in the Prospectus.

The Fund invests primarily in US based companies that have exhibited an above-average rate of earnings growth over the past few years and that have prospects for above-average, sustainable growth in the future. The Fund may also invest in companies that do not exhibit particularly strong earnings histories but have other attributes that may contribute to accelerated growth in the foreseeable future. Other important attributes are a strong competitive position, a history of innovation, excellent management and the financial resources to support long-term growth.

The Fund will invest primarily in medium and large-market capitalisation companies characterised by market capitalisation of \$2 billion and greater at the time of purchase.

The Fund seeks to purchase securities at what the Investment Manager considers attractive valuations in the context of the strong fundamental position of each underlying company.

The Fund’s investments are concentrated in US equity securities and accordingly the Fund is more vulnerable to economic, political, regulatory or other developments in the US than a more internationally diversified portfolio would be.

Brown Advisory US Small Cap Blend Fund

The investment objective of the Brown Advisory US Small Cap Blend Fund (the “Fund”) is to achieve capital appreciation by investing primarily in US equities.

The Fund invests at least 80% of its net assets in equity securities of small US companies. The Fund seeks to invest primarily in small companies with sustainable above average growth prospects which are listed or traded on the US markets and exchanges listed in Appendix I of the Prospectus. Small companies are companies whose market capitalisations are equal to or less than \$6 billion at the time the Fund purchases the issuer’s securities (“Market Capitalisation Range”). The Fund may invest in US Rule 144A Securities, American and Global Depository Receipts, US treasury bills, fixed and/or floating rate US government securities and ancillary liquid assets subject to the limits set out in the Prospectus.

The Fund’s investments are concentrated in US equity securities and accordingly the Fund is more vulnerable to economic, political, regulatory or other developments in the US than a more internationally diversified portfolio would be.

Brown Advisory US Flexible Equity Fund

The investment objective of the Brown Advisory US Flexible Equity Fund (the “Fund”) is to achieve capital appreciation by investing primarily in US equities.

The Fund aims to achieve its investment objective by investing at least 80% of its net assets in equity securities of mid-size and large companies generally with market capitalisations above \$2 billion at the time of purchase that the Investment Manager believes have strong, or improving, long-term business characteristics and share prices that do not reflect these favourable fundamental attributes, and which are listed or traded on the US markets and exchanges listed in Appendix I of the Prospectus.

The Fund may also invest in non-US securities, convertible bonds including US Rule 144A Securities, American and Global Depository Receipts, US treasury bills, fixed and/or floating rate US government securities, real estate investment trusts and unlisted securities, subject to the limits set out in the Prospectus.

GENERAL INFORMATION (continued)

Brown Advisory US Flexible Equity Fund (continued)

The Fund's exposure to non-US securities (including securities of issuers in Emerging Market Countries) will not exceed 15% of its Net Asset Value and its exposure to below Investment Grade debt securities will not exceed 10% of its Net Asset Value.

The Fund's investments are concentrated in US equity securities and accordingly the Fund is more vulnerable to economic, political, regulatory or other developments in the US than a more internationally diversified portfolio would be.

Brown Advisory Global Leaders Fund

The investment objective of the Brown Advisory Global Leaders Fund (the "Fund") is to achieve capital appreciation by investing primarily in global equities.

The Fund aims to achieve its investment objective by investing at least 80% of its net assets in global equity securities. The Fund will under normal market conditions: (1) invest at least 40% of its net assets outside the United States (including Emerging Market Countries) which may be reduced to 30% if market conditions are not favourable, and (2) hold securities of issuers located in at least three countries. The equity securities in which the Fund may invest include common stock, preferred stock, American Depositary Receipts ("ADRs") and Global Depositary Receipts ("GDRs") and the Fund may also invest in CIS (including, exchange traded funds ("ETFs")) subject to the limits set out in the Prospectus. The equity securities in which the Fund may invest will be issued by mid- and large- capitalisation companies generally with market capitalisations above \$2 billion at the time of purchase that the Fund's Investment Manager believes have strong, or improving, long-term business characteristics and share prices that do not reflect these favourable fundamental attributes.

In addition, the equity securities in which the Fund may invest will include the equity securities of companies that the Investment Manager believes are leaders within their industry or country as demonstrated by an ability to deliver high and sustainable returns on invested capital over time. This typically can be attributable to, among other things, a strong competitive position and a defensible barrier to entry.

The Fund may invest in participatory notes (P-Notes) in order to gain exposure to securities and markets which may not be efficiently accessed through direct investment. The Fund may use put options on equity indices in order to seek to enhance returns, to attempt to hedge some of its investment risk, to manage portfolio duration or as a substitute position for holding the underlying asset on which the put option is based. The Fund may also use forward foreign exchange contracts to hedge currency foreign exchange risks arising from Hedged Share Classes.

In addition, the Fund may also invest in US treasury bills, fixed and/or floating rate US government securities and unlisted securities, subject to the limits set out in the Prospectus.

The Fund's exposure to below Investment Grade debt securities will not exceed 10% of its Net Asset Value.

Brown Advisory US Mid-Cap Growth Fund

The investment objective of the Brown Advisory US Mid-Cap Growth Fund (the "Fund") is to achieve capital appreciation by investing primarily in US equities.

The Fund invests at least 80% of its net assets in equity securities of mid-cap US companies. The Fund seeks to invest primarily in mid-size companies with sustainable and above average growth prospects and which are listed or traded on the US markets and exchanges listed in Appendix I of the Prospectus. Mid-cap companies are companies whose market capitalisations are equal to or more than \$1.5 billion at the time the Fund purchases the issuer's securities ("Market Capitalisation Range"). The Fund may invest in US Rule 144A Securities, American and Global Depositary Receipts, US treasury bills, fixed and/or floating rate US government securities and ancillary liquid assets subject to the limits set out in the Prospectus. With the exception of permitted investment in unlisted securities, investment by the Fund is restricted to the markets and exchanges listed in Appendix I of the Prospectus.

The Fund's investments are concentrated in US securities and accordingly the Fund is more vulnerable to economic, political, regulatory or other developments in the US than a more internationally diversified portfolio would be.

GENERAL INFORMATION (continued)

Brown Advisory US Sustainable Growth Fund

The investment objective of the Brown Advisory US Sustainable Growth Fund (the “Fund”) is to achieve capital appreciation by investing primarily in US equities.

The Fund aims to achieve its investment objective by investing at least 80% of its net assets in equity securities of US companies that the Investment Manager considers have sound fundamentals and business models which are sustainable over the long-term. The Fund invests primarily in the securities of medium and large capitalisation companies that the Investment Manager considers (1) have prospects for above average earnings growth in the future, and (2) effectively implement sustainable business strategies that drive earnings growth. The equity securities in which the Fund principally invests are common stocks. The Fund may also invest in non-US securities, American and Global Depositary Receipts, corporate debt securities, US treasury bills, fixed and/or floating rate US government securities, real estate investment trusts and unlisted securities in a manner that is consistent with and complements the investment policies and the Investment Manager’s investment process, subject to the limits set out in the Prospectus. With the exception of permitted investment in unlisted securities, investment by the Fund is restricted to the markets and exchanges listed in Appendix I of the Prospectus.

Medium and large capitalisation companies are, according to the Investment Manager, those companies with market capitalisations generally greater than \$2 billion at the time of purchase. The Fund may also invest a portion of the portfolio in equity securities of small market capitalisation companies.

The Fund’s exposure to non-US securities (including securities of issuers in Emerging Market Countries) will not exceed 15% of its Net Asset Value and its exposure to below Investment Grade debt securities will not exceed 10% of its Net Asset Value.

The Fund’s investments are concentrated in US securities and accordingly the Fund is more vulnerable to economic, political, regulatory or other developments in the US than a more internationally diversified portfolio would be.

Brown Advisory Latin American Fund

The investment objective of the Brown Advisory Latin American Fund (the “Fund”) was to achieve capital growth by investing primarily in shares of Latin American companies. The Fund aims to achieve as high a return as possible in absolute terms over the long term, while attempting to minimise the overall level of risk in the portfolio over the same period.

The investment policy of the Fund is to invest in equity securities of Latin American companies listed or traded on Regulated Markets in Latin America, the Caribbean, North America and the EU. The equity securities in which the Fund may invest include common stock, preferred stock, American Depositary Receipts and Global Depositary Receipts. In addition, the Fund may also invest in equity related securities such as warrants.

The investments of the Fund are not constrained in terms of market capitalisation, industry or sector and the Fund will generally invest in companies that have the following characteristics: are typically leaders in industries that have capacity for growth in excess of gross domestic product growth; demonstrate the ability to generate a strong combination of growth and free cash flow, have strong franchises and balance sheets; generate high returns on invested capital facilitating growth without the need to increase debt or raise equity; allocate capital successfully; and where management incentives are clearly aligned to minority shareholders. These are companies that the Investment Manager expects will be able to grow their business in almost all environments. The Fund will not usually invest in companies where state entities are majority owners or companies that make most of their profits from selling commodities.

Investment may also be made in equity securities which are not listed or traded on a Regulated Market; although it is not the current intention of the Investment Manager that such investment will be made. Not more than 10% of the net assets of the Fund may be invested in such equity securities.

Latin American companies are considered by the Directors to include: (i) companies established in any Latin American country, Caribbean country or Mexico; (ii) companies which have a significant proportion of their assets in Latin America, the Caribbean or Mexico; or (iii) derive a significant proportion of their revenues, cash flow and/or profits from Latin America, the Caribbean or Mexico.

GENERAL INFORMATION (continued)

Brown Advisory Latin American Fund (continued)

The Fund may use index futures or put options on equity indices in order to seek to enhance returns, to attempt to hedge some of its investment risk, to manage portfolio duration or as a substitute position for holding the underlying asset. The Fund may also use forward foreign exchange contracts to hedge currency foreign exchange risks arising for Hedged Share Classes.

In addition, the Fund may invest in CIS (including exchange traded funds) subject to the limits set out in the Prospectus and this Supplement.

It is the policy of the Fund that the portfolio will remain predominantly fully invested although the Investment Manager is permitted the flexibility to increase the percentage of the portfolio held in (i) cash and money market instruments for ancillary purposes and (ii) debt securities of corporate or government (including local and public authorities) issuers such as U.S. Treasury stock and local Latin American money and bond market instruments, where this is required for the efficient operation of the Fund or is considered to be in the best interests of the Fund; for example, during periods of market uncertainty or where such investment is deemed appropriate for defensive purposes. The debt securities may have fixed or floating interest rates and may be of any credit quality or rating.

Brown Advisory US All Cap SRI Fund

The investment objective of the Brown Advisory US All Cap SRI Fund (the “Fund”) is to achieve capital appreciation by investing primarily in US equities.

The Fund aims to achieve its investment objective by investing at least 80% of its net assets in equity securities of US companies that the Investment Manager considers have sound fundamentals and business models. The Fund invests primarily in the securities of small, medium and large capitalisation companies, integrating socially responsible investment screens and risk-based analysis into the portfolio construction process. The equity securities in which the Fund principally invests are common stocks. The Fund may also invest in non-US equity securities, American and Global Depositary Receipts, corporate debt securities (such as investment grade and high yield bonds and asset backed and mortgage backed securities), US treasury bills, fixed and/or floating rate US government securities (such as municipal bonds and collateralised mortgage obligations), real estate investment trusts and unlisted equity securities in a manner that is consistent with and complements the investment policies and the Investment Manager’s investment process, subject to the limits set out in the Prospectus. With the exception of permitted investment in unlisted equity securities, investment by the Fund is restricted to the markets and exchanges listed in Appendix I of the Prospectus.

Small, medium and large capitalisation companies are, according to the Investment Manager, those companies with market capitalisations generally greater than \$500 million at the time of initial purchase.

The Fund’s exposure to non-US securities (including securities of issuers in Emerging Market Countries) will not exceed 15% of its Net Asset Value and its exposure to below Investment Grade debt securities will not exceed 10% of its Net Asset Value.

The Fund’s investments are concentrated in US securities and accordingly the Fund is more vulnerable to economic, political, regulatory or other developments in the US than a more internationally diversified portfolio would be.

BA Metropolis Global Value Fund

The investment objective of the Fund is to achieve long term capital growth mainly through investment in a concentrated portfolio of securities in listed companies.

The Fund aims to achieve its investment objective by investing at least 80% of its net assets in global corporate equities. All securities and exchange-traded Financial Derivative Instruments (FDI) invested in will be listed or traded on the Regulated Markets listed in Appendix 1 of the Prospectus. In pursuing the investment objective and policies, the Fund will seek to identify investment companies which it considers to have some or all of the following characteristics: a history of strong cash flow generation, a strong balance sheet, a strong competitive position in a market with high barriers to entry and security of future revenue streams (through, for example, longterm contracts, a unique brand, infrastructure which is difficult to replicate, patents or licenses). In addition, the Fund will only invest in such companies when it considers them to be undervalued by the market, following a valuation based on an assessment by the Sub-Investment Manager of the likely cash flows of that company.

GENERAL INFORMATION (continued)

BA Metropolis Global Value Fund (continued)

The Fund will aim to maintain a concentrated portfolio, typically consisting of up to 25 companies at one time. However, the Fund reserves the right to a less concentrated portfolio should they regard it as in the interests of Shareholders.

The Fund may also hold corporate debt securities (principally as a result of corporate actions or restructuring) such as bonds, debentures and promissory notes which will typically be rated investment grade. They may be of any maturity or duration and may be denominated in a variety of currencies and issued with either fixed or floating rates. The Fund may also invest in Money Market Instruments, government debt securities, deposits, cash and regulated collective investment schemes, in accordance with the limits set out under the heading FUNDS - Investment Restrictions in the Prospectus. The Fund may invest in new issues but is unlikely to invest in new issues to any significant extent.

Brown Advisory Global Leaders Sustainable Fund

The objective of the Fund is to achieve capital appreciation by investing primarily in global equities.

The Fund aims to achieve its investment objective by investing at least 80% of its net assets in global equity securities. The Fund also will, under normal market conditions: (1) invest at least 40% of its net assets outside the United States (including Emerging Market Countries) which may be reduced to 30% if market conditions are not favourable, and (2) hold securities of issuers located in at least three countries. The Fund determines whether a company is considered to be located outside the United States by considering whether: (i) it is organised under the laws of, or maintains its principal office in, a country located outside the United States; (ii) its securities are principally traded on trading markets in countries located outside the United States; (iii) it derives at least 50% of its total revenue or profits from either goods produced or services performed or sales made in countries located outside the United States; or (iv) it has at least 50% of its assets in countries located outside the United States. The Fund integrates socially responsible investment screens and risk-based analysis into the portfolio construction process. The equity securities in which the Fund may invest include common stock, preferred stock, American Depositary Receipts (“ADRs”) and Global Depositary Receipts (“GDRs”) and the Fund may also invest in CIS (including, exchange traded funds (“ETFs”)) subject to the limits set out in the Prospectus. The equity securities in which the Fund may invest will be issued by mid- and large capitalisation companies generally with market capitalizations above \$2 billion at the time of purchase that the Fund’s Sub-Investment Manager believes have strong, or improving, long-term business characteristics and share prices that do not reflect these favorable fundamental attributes.

In addition, the equity securities in which the Fund may invest will include the equity securities of companies that the Sub-Investment Manager believes are leaders within their industry or country as demonstrated by an ability to deliver high relative return on invested capital over time. This typically can be attributable to, among other things, a strong competitive position and a defensible barrier to entry (such as high start-up costs or other obstacles that prevent competitors from easily entering an industry).

The Fund may invest in participatory notes (“P-Notes”) in order to gain exposure to securities and markets in India which may not be efficiently accessed through direct investment. The Fund may also use forward foreign exchange contracts to hedge currency foreign exchange risks arising from Hedged Share Classes. In addition, the Fund may also invest in US treasury bills, fixed and/or floating rate US government securities, subject to the limits set out in the Prospectus.

The Fund’s exposure to below Investment Grade debt securities will not exceed 10% of its Net Asset Value.

All securities invested in will be listed or traded on the markets and exchanges listed in Appendix 1 of the Prospectus.

BA Beutel Goodman US Value Fund

The objective of the Fund is to achieve capital appreciation by investing primarily in US equities.

The Fund aims to achieve its investment objective by investing at least 80% of its net assets in equity securities of US mid-cap and large-cap companies, which the Sub-Investment Manager considers to be those with market capitalisations greater than \$5 billion at the time of purchase. All securities invested in will be listed or traded on the Regulated Markets listed in Appendix 1 of the Prospectus.

GENERAL INFORMATION (continued)

BA Beutel Goodman US Value Fund (continued)

The Fund may invest a significant portion of its assets in the securities of a single issuer or small number of issuers.

Equity securities in which the Fund may invest include common and preferred stock, American Depositary Receipts (“ADRs”) and real estate investment trusts (REITs). The Fund may invest in CIS (including exchange traded funds (“ETFs”) but excluding US ETFs) that have an investment objective similar to the Fund’s or that otherwise are permitted investments with the Fund’s investment policies described herein. ADRs are equity securities traded on US securities exchanges, which are generally issued by banks or trust companies to evidence ownership of foreign equity securities. The Fund may invest up to 20% of its net assets in non-US securities.

The Fund may also invest in Money Market Instruments, government debt securities (such as bonds, debentures and promissory notes), deposits, cash and regulated CIS, in accordance with the limits set out under the heading FUNDS - Investment Restrictions in the Prospectus. The Fund may invest up to 10% of its net assets in new issues but is unlikely to invest in new issues to any significant extent.

Brown Advisory Global Sustainable Total Return Bond Fund (GBP)

The investment objective of the Brown Advisory Global Sustainable Total Return Bond Fund (GBP) (the “Fund”) is to target a positive total return (comprising current income and capital gains) above the Bank of England’s SONIA Compounded Index (the “Target Benchmark”) over a full economic cycle, by investing in a broad range of global fixed-income securities and associated FDIs and currencies. The Fund is not constrained by any benchmark.

The Fund promotes environmental and social characteristics, as described under “ESG and Sustainable Investments Promotion and Integration of Sustainability Risks” section of the Prospectus, by investing directly or through the use of FDIs, in a variety of corporate and/or sovereign issued fixed-income securities and FDIs in order to achieve the Fund’s investment objective. The Fund may invest in securities of any credit rating quality, including Non-Investment Grade securities. The Fund’s investments will be comprised principally of In-Scope ESG Investments, a substantial portion of which will be Sustainable Investments.

The Fund is primarily invested in global fixed-income securities denominated in Pounds Sterling or hedged back to Pounds Sterling. The Fund may enter into to be announced (“TBA”) transactions to purchase mortgage-related securities (MBS and CMBS) for a fixed price at a future date.

The Fund may invest substantially in deposits with credit institutions during periods of high market volatility.

The Fund may use FDIs with the aim of making investment gains in line with the Fund’s objective, to reduce risk or to manage the Fund more efficiently. The Fund may employ short positions in interest rate FDIs, currency FDIs and credit FDIs either to hedge other long exposures in the portfolio or as part of a ‘relative value’ trade whereby there would be a similar long position. There will be no outright short positions.

Brown Advisory Global Sustainable Total Return Bond Fund (USD)

The investment objective of the Brown Advisory Global Sustainable Total Return Bond Fund (USD) (the “Fund”) is to target a positive total return (comprising current income and capital gains) above the Federal Reserve Bank of New York Secured Overnight Financing Rate (SOFR) Index (the “Target Benchmark”) over a full economic cycle, by investing in a broad range of global fixed-income securities and associated FDIs and currencies. The Fund is not constrained by any benchmark.

The Fund promotes environmental and social characteristics, as described under “ESG and Sustainable Investments Promotion and Integration of Sustainability Risks” section of the Prospectus, by investing directly or through the use of FDIs, in a variety of corporate and/or sovereign issued fixed-income securities and FDIs in order to achieve the Fund’s investment objective. The Fund may invest in securities of any credit rating quality, including Non-Investment Grade securities. The Fund’s investments will be comprised principally of In-Scope ESG Investments, a substantial portion of which will be Sustainable Investments.

The Fund is primarily invested in global fixed-income securities denominated in U.S. Dollars or hedged back to U.S. Dollars. The Fund may enter into to be announced (“TBA”) transactions to purchase mortgage-related securities (MBS and CMBS) for a fixed price at a future date.

The Fund may invest substantially in deposits with credit institutions during periods of high market volatility.

GENERAL INFORMATION (continued)

Brown Advisory Global Sustainable Total Return Bond Fund (USD) (continued)

The Fund may use FDIs with the aim of making investment gains in line with the Fund's objective, to reduce risk or to manage the Fund more efficiently. The Fund may employ short positions in interest rate FDIs, currency FDIs and credit FDIs either to hedge other long exposures in the portfolio or as part of a 'relative value' trade whereby there would be a similar long position. There will be no outright short positions.

Dividend Policy

The Constitution empowers the Directors to declare dividends out of the profits of the relevant Fund being: (i) the accumulated revenue (consisting of all revenue accrued including interest and dividends) less expenses and/or (ii) realised and unrealised capital gains on the disposal/valuation of investments and other funds less realised and unrealised accumulated capital losses of the relevant Fund. The Directors may satisfy any dividend due to Shareholders in whole or in part by distributing to them in specie any of the assets of the relevant Fund.

A Shareholder may require the Company instead of transferring any assets in specie to him, to arrange for a sale of the assets and for payment to the Shareholder of the net proceeds of same.

For UK taxpayers to benefit from capital gains tax treatment on the disposal of their holdings of Shares, that share class must be certified as a "reporting fund". Very broadly, a share class must report all its income to investors each year in order to continue to be certified as a "reporting fund".

Each share class is an "offshore fund" for the purposes of the UK Offshore Funds (Tax) Regulations 2009 (SI 2009/3001). Under these regulations, the basic position is that any gain arising on the sale, redemption or other disposal of shares in an offshore fund held by persons who are resident or ordinarily resident in the UK for tax purposes will be taxed at the time of that sale, disposal or redemption as income and not as a capital gain. This income tax treatment does not apply, however, where a share class is certified by HMRC as a "reporting fund" (and, where relevant, a "distributing fund" (the predecessor to the reporting fund regime)) throughout the period during which the investor holds the shares. The following share classes have been granted "reporting fund" status by the HMRC with effect from the following dates:

Each of the share classes listed above will maintain reporting fund status without a requirement to apply for further certification by HMRC for so long as it continues to satisfy the conditions to be a “reporting fund”.

DIRECTORS' REPORT

The Directors have pleasure in submitting their seventeenth annual report together with the audited financial statements for Brown Advisory Funds plc (the "Company") for the year ended 31st October, 2022 and comparatives for the year ended 31st October, 2021.

The Company is organised in the form of an umbrella fund with segregated liability between each of the fourteen sub-funds listed on page 4 (the "Funds") available for investment.

Statement of Directors' Responsibilities

The Directors are responsible for preparing the annual report and the financial statements in accordance with applicable Irish Law and Generally Accepted Accounting Practice in Ireland including the accounting standards issued by the Financial Reporting Council and published by the Institute of Chartered Accountants in Ireland.

Under Irish law, the Directors shall not approve the financial statements unless they are satisfied that they give a true and fair view of the Company's assets, liabilities and financial position as at the end of the financial year and the profit or loss of the Company for the financial year.

In preparing these financial statements, the Directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and estimates that are reasonable and prudent;
- state whether the financial statements have been prepared in accordance with applicable accounting standards and identify the standards in question, subject to any material departures from those standards being disclosed and explained in the notes to the financial statements; and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the Company will continue in business.

The Directors are responsible for keeping adequate accounting records that are sufficient to:

- correctly record and explain the transactions of the Company;
- enable, at any time, the assets, liabilities, financial position and profit or loss of the Company to be determined with reasonable accuracy; and
- enable the Directors to ensure that the financial statements comply with the Companies Act 2014 and enable those financial statements to be audited.

The Directors are also responsible for safeguarding the assets of the Company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

The Directors are responsible for the maintenance and integrity of the corporate and financial information included on the Investment Managers' website. Legislation in Ireland governing the preparation and dissemination of financial statements may differ from legislation in other jurisdictions.

Directors' Compliance Statement

The Company is required to comply with its relevant obligations (as defined in the Companies Act 2014). As required by Section 225(2) of the Companies Act 2014, the Directors acknowledge that they are responsible for securing the Company's compliance with the relevant obligations. The Directors have drawn up a compliance policy statement as defined in Section 225(3)(a) of the Companies Act 2014 and a compliance policy which refers to the arrangements and structures that are in place and which are, in the Directors' opinion, designed to secure material compliance with the Company's relevant obligations. In discharging their responsibilities under Section 225, the Directors relied upon, among other things, the services provided, advice and/or representations from third parties whom the Directors believe have the requisite knowledge and experience in order to secure material compliance with the Company's relevant obligations.

Accounting records

To ensure that adequate accounting records are kept in accordance with Section 281 of the Companies Act 2014, the Directors of the Company have employed a service organisation, Brown Brothers Harriman Fund Administration Services (Ireland) Limited (the "Administrator"). The accounting records are located at the offices of the Administrator as stated within Management and Administration section of this document.

DIRECTORS' REPORT (continued)

Directors

The names of the persons who served as Directors at any time during the year ended 31st October, 2022 are set out below:

Paul McNaughton (Chairman, Irish Resident)*,**
David M. Churchill (US Resident)
Brett D. Rogers (US Resident)
Robert Alexander Hammond-Chambers (UK Resident)*,***
Mary Canning (Irish Resident)*

*Independent Non-Executive Directors
**Directorship ceased on 6th November, 2022
***Resigned as Director on 18th November, 2022

Directors' and Company Secretary's Interests

None of the Directors, the Company Secretary, or their families hold or held any beneficial interests in the Company at 31st October, 2022, other than those stated in Note 16 (2021: US\$Nil).

Transactions Involving Directors

There are no contracts or arrangements of any significance in relation to the business of the Company, other than those stated in Note 13 and Note 16 to the financial statements, in which the Directors or Company Secretary had any interest as defined in the Companies Act 2014 at any time during the year ended 31st October, 2022.

Results, Activities and Future Developments

A review of the principal activities is included in the Investment Manager's Report.

Details of the assets, liabilities and financial position of the Company and results for the year ended 31st October, 2022 are set out on pages 134 to 154. The Net Assets of the Company Attributable to Holders of Redeemable Participating Shares (at last traded prices) as at 31st October, 2022 were US\$9,302,870,765 (31st October, 2021: US\$12,444,136,237).

The Company will continue to pursue its investment objectives as set out in the Prospectus.

Risk Management Objectives and Policies

The main risks arising from the Company's financial instruments are market risk (including market price risk, currency risk and interest rate risk), credit risk and liquidity risk, as set out in Note 15 on pages 213 to 236.

Dividends

A distribution of GBP£0.007 per share on the Sterling Class C Dis H Shares and US\$0.009 per share on the Dollar Class C Dis Shares of the Brown Advisory US Small Cap Blend Fund was declared on 1st November, 2022 and paid on 14th November, 2022.

A distribution of GBP£0.060 per share on the Sterling Class M Dis Shares, GBP£0.050 per share on the Sterling Class M Dis H Shares, GBP£0.019 per share on the Sterling Class B Dis Shares, GBP£0.036 per share on the Sterling Class SI Dis Shares, GBP£0.027 per share on the Sterling Class SI Dis H Shares, US\$0.033 per share on the Dollar Class SI Dis Shares, US\$0.051 per share on the Dollar Class M Dis Shares and US\$0.128 per share on the Dollar Class M Enhanced Income Shares of the Brown Advisory Global Leaders Fund was declared on 1st November, 2022 and paid on 14th November, 2022.

A distribution of US\$0.007 per share on the Dollar Class B Dis Shares of the Brown Advisory US All Cap SRI Fund was declared on 1st November, 2022 and paid on 14th November, 2022.

DIRECTORS' REPORT (continued)

Dividends (continued)

A distribution of GBP£0.182 per share on the Sterling Class C Dis Shares and US\$0.173 per share on the Dollar Class C Dis Shares of the BA Metropolis Global Value Fund was declared on 1st November, 2022 and paid on 14th November, 2022.

A distribution of GBP£0.162 per share on the Sterling Class C Enhanced Income H Shares and GBP£0.025 per share on the Sterling Class SI Dis Shares of the Brown Advisory Global Leaders Sustainable Fund was declared on 1st November, 2022 and paid on 14th November, 2022.

A distribution of GBP£0.123 per share on the Sterling Class C Dis H Shares, GBP£0.149 per share on the Sterling Class C Dis Shares, US\$0.067 per share on the Dollar Class SI Dis Shares, EUR€0.088 per share on the Euro Class C Dis Shares, US\$0.147 per share on the Dollar Class M Dis Shares, GBP£0.170 per share on the Sterling Class M Dis Shares, GBP£0.155 per share on the Sterling Class M Dis H Shares and GBP£0.111 per share on the Sterling Class SI Dis Shares of the BA Beutel Goodman US Value Fund was declared on 1st November, 2022 and paid on 14th November, 2022.

A distribution of GBP£0.085 per share on the Sterling Class B Dis Shares, GBP£0.107 per share on the Sterling Class C Dis Shares and GBP£0.115 per share on the Sterling Class M Dis Shares of the Brown Advisory Global Sustainable Total Return Bond Fund (GBP) was declared on 1st November, 2022 and paid on 14th November, 2022.

A distribution of US\$0.039 per share on the Dollar Class C Dis Shares, US\$0.092 per share on the Dollar Class M Dis Shares and EUR€0.021 per share on the Euro Class C Dis H Shares of the Brown Advisory Global Sustainable Total Return Bond Fund (USD) was declared on 1st November, 2022 and paid on 14th November, 2022.

There were no dividends paid on the Brown Advisory US Smaller Companies Fund, the Brown Advisory US Equity Growth Fund, the Brown Advisory US Flexible Equity Fund, the Brown Advisory US Mid-Cap Growth Fund and the Brown Advisory US Sustainable Growth Fund.

Connected Persons

The UCITS Regulations states that, inter alia, any transaction carried out with a UCITS by the management company or depositary, by the delegates or sub-delegates of such a management company or depositary (excluding any non-group company sub-custodians appointed by a depositary) and by any associated or group company of these ("connected persons") must be carried out as if negotiated at arm's length. Transactions must be in the best interests of the shareholders of the Company.

The Directors of the Manager are satisfied that:

- (i) there are arrangements (evidenced by written procedures) in place, to ensure that the obligations set out in the UCITS Regulation are applied to all transactions with connected persons; and
- (ii) transactions with connected persons entered into during the period complied with the obligations set out in the UCITS Regulation.

Significant Events During the Year

Significant events during the year are set out in Note 23.

Events Since the Year End

Events since the year end are set out in Note 24.

DIRECTORS' REPORT (continued)

Corporate Governance Statement

The Irish Funds Industry Association (“Irish Funds”) in association with the Central Bank of Ireland (the “Central Bank”) has published a corporate governance code (the “Irish Funds Code”) that may be adopted on a voluntary basis by Irish authorised collective investment schemes. The Board of Directors has voluntarily adopted the Irish Funds Code as the Company’s corporate governance code. The Company has been in compliance with the Irish Funds Code since its adoption.

Internal Control and Risk Management Systems in Relation to Financial Reporting

The Board of Directors is responsible for establishing and maintaining adequate internal control and risk management systems of the Company in relation to the financial reporting process. Such systems are designed to manage rather than eliminate the risk of error or fraud in achieving the Company’s financial reporting objectives and can only provide reasonable and not absolute assurance against material misstatement or loss.

The Board of Directors has procedures in place to ensure all relevant accounting records are properly maintained and are readily available, including production of annual and half-yearly financial statements. The annual financial statements of the Company are required to be approved by the Board of Directors of the Company and the annual and half yearly financial statements of the Company are required to be filed with the Central Bank.

The statutory financial statements are required to be audited by independent auditors who report annually to the Board of Directors on their findings.

The Administrator maintains the books and records of the Company. The Administrator is authorised and regulated by the Central Bank and must comply with the rules imposed by the Central Bank. From time to time the Board of Directors also examines and evaluates the Administrator’s financial accounting and reporting routines and monitors and evaluates the external auditors’ performance, qualifications and independence. The Board of Directors evaluates and discusses significant accounting and reporting issues as the need arises.

Dealing with Shareholders

The convening and conduct of shareholders’ meetings are governed by the Constitution of the Company. Although the Directors may convene an extraordinary general meeting of the Company at any time, the Directors are required to convene an annual general meeting of the Company within eighteen months of incorporation and fifteen months of the date of the previous annual general meeting thereafter.

Shareholders representing not less than one-tenth of the paid up share capital of the Company may also request the Directors to convene a shareholders’ meeting.

Not less than twenty one days’ notice of every annual general meeting and any meeting convened for the passing of a special resolution must be given to Shareholders and fourteen days notice must be given in the case of any other general meeting unless the auditors of the Company and all the Shareholders of the Company entitled to attend and vote agree to shorter notice.

Two members present either in person or by proxy constitute a quorum at a general meeting provided that the quorum for a general meeting convened to consider any alteration to the class rights of shares is two Shareholders holding or representing by proxy at least one third of the issued shares of the relevant Sub-Fund or class.

Every holder of shares present in person or by proxy who votes on a show of hands is entitled to one vote. On a poll, every holder of shares present in person or by proxy is entitled to one vote in respect of each share held by him/her. The chairperson of a general meeting of the Company or at least two members present in person or by proxy or any holder or holders of shares present in person or by proxy representing at least one tenth of the shares in issue having the right to vote at such meeting may demand a poll.

Shareholders may resolve to sanction an ordinary resolution or special resolution at a shareholders’ meeting. An ordinary resolution of the Company or of the Shareholders of a particular Sub-Fund or class requires a simple majority of the votes cast by the Shareholders voting in person or by proxy at the meeting at which the resolution is proposed. A special resolution of the Company or of the Shareholders of a particular Sub-Fund or class requires a majority of not less than 75% of the Shareholders present in person or by proxy and voting in general meeting in order to pass a special resolution including a resolution to amend the Constitution.

DIRECTORS' REPORT (continued)

Board Composition and Activities

Unless otherwise determined by an ordinary resolution of the Company in general meeting, the number of Directors may not be less than two. As at 31st October, 2022, the Board of Directors of the Company composed of five Directors, being those listed on page 22.

Since 31st October, 2022 there have been changes at Board level, details of which can be found in note 24.

The business of the Company is managed by the Directors, who exercise all such powers of the Company as are not by the Companies Act or by the Constitution of the Company required to be exercised by the Company in general meeting. The Board of Directors delegated the general management and administration of the Company's affairs to the Manager.

A Director may, and the Company Secretary of the Company on the requisition of a Director will, at any time summon a meeting of the Directors. Questions arising at any meeting of the Directors are determined by a majority of votes. In the case of an equality of votes, the chairman has a second or casting vote. The quorum necessary for the transaction of business at a meeting of the Directors is two.

Relevant Audit Information

The Directors in office at the date of this report have each confirmed that:

- as far as he/she is aware, there is no relevant audit information of which the Company's auditors are unaware; and
- he/she has taken all the steps that he/she ought to have taken as a director in order to make himself/herself aware of any relevant audit information and to establish that the Company's auditors are aware of that information.

Remuneration

In line with the requirements of the UCITS Regulations, the Company has adopted a remuneration policy which is consistent with the principles outlined in the ESMA guidelines on sound remuneration policies under the UCITS Directive and the related questions and answers guidance (the "Remuneration Guidelines"). The remuneration policy is appropriate to the Company's size, internal organisation and the nature, scope and complexity of its activities.

The Company's remuneration policy applies to certain identified staff whose professional activities have a material impact on the risk profile of the Company. As at 31st October, 2022, the Company did not have any employees and the Company's remuneration policy applies only to members of the Company's management body (i.e. the Board of Directors). The Directors not affiliated with the Investment Manager receive a fixed annual fee which is in line with the fees paid by other Irish funds and compensates these Directors for their tasks, expertise and responsibilities. Directors that are employees of the Investment Manager (or an affiliate) are not paid any fees for their services as Directors.

The director fees for the financial year are set out in Note 8.

Quantitative remuneration disclosures as required by paragraphs (a) and (b) of Regulation 89(3A) of the UCITS Regulations are included in the financial statements for the year ending 31st October, 2022. The disclosures required by paragraphs (c) and (d) of Regulation 24(B) of the UCITS Regulations will also be made at this time following the first annual review of the remuneration policy.

The remuneration policy was amended to take account of the issue of the Remuneration Guidelines and in particular the requirements in relation to delegated management functions, but no other material changes have been made to the remuneration policy since its adoption.

DIRECTORS' REPORT (continued)

Independent Auditors

The Independent Auditors, PricewaterhouseCoopers, Chartered Accountants and Statutory Audit Firm have indicated their willingness to continue in office in accordance with section 383(2) of the Companies Act 2014.

REPORT OF THE DEPOSITARY TO THE SHAREHOLDERS

We have enquired into the conduct of Brown Advisory Funds plc (the “Company”) for the financial year ended 31st October, 2022, in our capacity as Depositary to the Company.

This report including the opinion has been prepared for and solely for the shareholders in the Company as a body, in accordance with Part 5 of the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011, as amended, (‘the UCITS Regulations’), and for no other purpose. We do not, in giving this opinion, accept or assume responsibility for any other purpose or to any other person to whom this report is shown.

Responsibilities of the Depositary

Our duties and responsibilities are outlined in Part 5 of the UCITS Regulations. One of those duties is to enquire into the conduct of the Company in each annual accounting period and report thereon to the shareholders.

Our report shall state whether, in our opinion, the Company has been managed in that period in accordance with the provisions of the Company’s Constitution and the UCITS Regulations. It is the overall responsibility of the Company to comply with these provisions. If the Company has not so complied, we as Depositary must state why this is the case and outline the steps which we have taken to rectify the situation.

Basis of Depositary Opinion

The Depositary conducts such reviews as it, in its reasonable opinion, considers necessary in order to comply with its duties as outlined in Part 5 of the UCITS Regulations and to ensure that, in all material respects, the Company has been managed:

- (i) in accordance with the limitations imposed on its investment and borrowing powers by the provisions of the constitutional documentation and the appropriate regulations; and
- (ii) otherwise in accordance with the provisions of the Constitution and the UCITS Regulations.

Opinion

In our opinion, the Company has been managed during the year, in all material respects:

- (i) in accordance with the limitations imposed on the investment and borrowing powers of the Company by the Constitution, the UCITS Regulations and the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations 2019 (‘the Central Bank UCITS Regulations’); and
- (ii) otherwise in accordance with the provisions of the Constitution the UCITS Regulations and the Central Bank UCITS Regulations.

INVESTMENT MANAGER'S REPORT
Brown Advisory US Smaller Companies Fund
For the year ended 31st October, 2022

The objective of the Brown Advisory U.S. Smaller Companies Fund is capital appreciation over the long-term. The net asset value of the Dollar Class B Acc shares has returned the following cumulative performance:

- Over the last year: -23.0% (against that of its benchmark, the Russell 2000 Growth Net Index, of -26.2%)
- Over the last five years: 47.7% (vs. benchmark of 27.5%)
- Since inception: 236.4% (vs. benchmark of 193.3%)

Under present portfolio management, we have sought to achieve our objective by being balanced in our investment approach. Our focus on risk-adjusted returns has served us well over the long term and during this reporting period. Our team strives to drive returns through security selection while mitigating downside risk through a portfolio architecture supported by asset quality, diversification and a valuation discipline.

For the trailing twelve months, solid investment process execution drove positive relative comparisons versus our primary benchmark, but absolute returns were disappointing. Equity markets have been profoundly impacted by the U.S. Federal Reserve's shift from extremely dovish to exceptionally hawkish monetary policy, driven by a rapid and persistent rise in inflation. Chairman Powell understands the lesson from the 1970s quite well: one simply can't declare victory over inflation too soon because, in doing so, the risk of it becoming intractable rises substantially. Thus, the prospect of higher for longer interest (or discount) rates and its negative impact on economic growth has moved equity prices meaningfully lower over the past year.

The good news coming out of this difficult period, as it relates to U.S. smaller capitalisation equities, is that valuations are much improved (lower), expectations have declined, and earnings estimates have started to re-base lower. If history is any guide, this is a much more fruitful environment to commit capital to equities relative to the dramatically overvalued, overstimulated and overhyped equity market of 12-24 months ago. We will do our best in the months ahead to leverage our collective knowledge of our investment universe to thoughtfully put capital to work on behalf of our shareholders.

At 100,000 feet, the construction of the portfolio has not changed dramatically over the past twelve months. However, we have made a number of substantial changes to some of the bottom-up weightings in the portfolio as our relative opportunity set has evolved. These underlying changes have been made in an attempt to continue to drive the positive stock selection attribution attained over the past couple of years. Fortunately, solid stock picking overwhelmed our negative "allocation" effect during the period, of which nearly all could be attributed to our underweight in Energy. As a reminder, we do our best to uncover ideas across the equity market based on our "3G" – durable growth, sound governance and scalable go-to-market strategies – selection criteria. For example, in Energy, our absolute and relative weight has moved dramatically based upon the bottom-up and top-down opportunity set afforded us. On the positive side of the ledger, Information Technology and Financials were solid contributors.

Our strategy tends to be dominated by stock selection over the long term, so it might be informative to highlight the top positive and negative contributors for the period. EVO Payments (EVOP), Casey's General Stores (CASY) and ChampionX Corp. (CHX) all posted very strong positive returns. EVOP is in the process of being acquired by Global Payments. CASY, a rural convenience store operator, continues to benefit from a resilient business model and strong fuel margins. CHX, an oil field service company, finally witnessed a positive inflection in margin trends, boding well for the future. These bright spots were partially offset by weaknesses in NeoGenomics (NEO), Bright Horizons (BFAM) and Workiva (WK). NEO has suffered through a failed CEO transition, and we believe the company now has the right leadership to drive shareholder value from here. BFAM, an early childhood care operator, has had a sluggish post-COVID rebound due to labor constraints. And, Workiva, a SaaS platform for transparent reporting, has suffered from multiple compression in the software space.

We acknowledge that we are operating in a fluid environment. While we believe our opportunity set is much more attractive today than in the recent past, we are mindful that a decade of monetary distortion may make this economic and market cycle different from the recent past. Therefore, we are proceeding, but with caution, leaning hard into our security selection discipline during these uncertain times.

Brown Advisory LLC
December, 2022

INVESTMENT MANAGER'S REPORT
Brown Advisory US Equity Growth Fund
For the year ended 31st October, 2022

The objective of the Brown Advisory U.S. Equity Growth Fund is capital appreciation over the long-term. The net asset value of the Dollar Class B Dis shares has returned the following cumulative performance:

- Over the last year: -34.6% (against that of its benchmark, the Russell 1000 Growth Net Index, of -24.8%)
- Over the last five years: 59.0% (vs. benchmark of 78.1%)
- Since inception: 339.7% (vs. benchmark of 450.8%)

In the period from 1st November, 2021 to 31st October, 2022, the U.S. Equity Growth Fund Class B USD returned -34.6% vs -24.8% for the Russell 1000 Growth Net index. In recent quarters, U.S. markets and the global economy have been affected by numerous macro factors: heightened inflation, rising interest rates, supply-chain constraints and China's COVID-Zero policy. Rising interest rates have significantly impacted large-cap growth stock valuations, particularly for companies that have dominant market positions and meaningful growth opportunities. While it is unclear when some of these global economic challenges will subside, our focus remains on the long-term fundamentals and growth prospects of the companies in the fund.

The information technology and health care sectors were the biggest performance detractors on a relative basis during the period, despite our companies, generally, continuing to perform well fundamentally. Shopify was negatively impacted after the company announced meaningful multi-year investments in growth initiatives (including fulfilment centres) that are expected to limit free cash flow generation in the near term. We believe that Shopify is uniquely positioned to make these investments given its scale and position in the market, and they should strengthen the company's long-term competitive moat. As for health care, Edwards Lifesciences has seen Transcatheter Aortic Valve Replacement (TAVR) procedures slow, primarily due to the ongoing hospital staffing issues in the United States. Longer-term, the company's TAVR continues to be mission-critical, and we feel the growth opportunity is still well intact.

The industrials and consumer discretionary sectors were the biggest contributors to performance on a relative basis during the period. All four industrial holdings in the portfolio have been strong performers during the period - even in a challenging macroeconomic environment. L3Harris Technologies, the aerospace and defence company, has performed well in response to the ongoing global unrest and increased military budget-spend across NATO member countries. IDEX Corporation, a diversified growth industrial company, is navigating this challenging macroeconomic environment well and continues reporting strong financial results and outlook. The company is doing what we would expect -executing well, generating good cash flow, and investing to drive future growth organically and through M&A.

This year's volatility presented us with opportunities to add several business models to the portfolio during the period: Align Technology, NVIDIA Corporation, S&P Global, Atlassian and Generac. Generac is the leading provider of home standby generators that attach to homes and automatically kick in to provide backup electricity during power outages. Currently, only 6% of U.S. households own the equipment, and we see this potentially doubling or tripling over the next decade. Increased severity of weather events and instability in the electric grid will be significant growth drivers for the company. In addition, to exiting PayPal and Pinterest during the period, Coupa was recently swapped out of the portfolio for Atlassian. Atlassian is a leading provider of software developer collaboration tools and has a larger total addressable market than Coupa.

Considering the contraction in valuations seen across the U.S. large-cap growth market due to rising interest rates, we are pleased to see the continued long-term fundamental strength and multi-year growth opportunities for the companies in the portfolio.

Brown Advisory LLC
December, 2022

INVESTMENT MANAGER'S REPORT
Brown Advisory US Small Cap Blend Fund
For the year ended 31st October, 2022

The objective of the Brown Advisory U.S. Small-Cap Blend Fund is capital appreciation over the long-term. The net asset value of the Dollar Class B Acc shares has returned the following cumulative performance:

- Over the last year: -14.8% (against that of its benchmark, the Russell 2000 Net Index, of -18.9%)
- Over the last five years: 33.8% (vs. benchmark of 28.7%)
- Since inception: 111.6% (vs. benchmark of 99.7%)

Small-Cap Growth (50%)

Under present portfolio management, we have sought to achieve our objective by being balanced in our investment approach. Our focus on risk-adjusted returns has served us well over the long term and during this reporting period. Our team strives to drive returns through security selection while mitigating downside risk through a portfolio architecture supported by asset quality, diversification and a valuation discipline.

For the trailing twelve months, solid investment process execution drove positive relative comparisons versus our primary benchmark, but absolute returns were disappointing. Equity markets have been profoundly impacted by the U.S. Federal Reserve's shift from extremely dovish to exceptionally hawkish monetary policy, driven by a rapid and persistent rise in inflation. Chairman Powell understands the lesson from the 1970s quite well: one simply can't declare victory over inflation too soon because, in doing so, the risk of it becoming intractable rises substantially. Thus, the prospect of higher for longer interest (or discount) rates and its negative impact on economic growth has moved equity prices meaningfully lower over the past year.

The good news coming out of this difficult period, as it relates to U.S. smaller capitalisation equities, is that valuations are much improved (lower), expectations have declined, and earnings estimates have started to re-base lower. If history is any guide, this is a much more fruitful environment to commit capital to equities relative to the dramatically overvalued, overstimulated and overhyped equity market of 12-24 months ago. We will do our best in the months ahead to leverage our collective knowledge of our investment universe to thoughtfully put capital to work on behalf of our shareholders.

At 100,000 feet, the construction of the portfolio has not changed dramatically over the past twelve months. However, we have made a number of substantial changes to some of the bottom-up weightings in the portfolio as our relative opportunity set has evolved. These underlying changes have been made in an attempt to continue to drive the positive stock selection attribution attained over the past couple of years. Therefore, we are proceeding, but with caution, leaning hard into our security selection discipline during these uncertain times.

INVESTMENT MANAGER'S REPORT
Brown Advisory US Small Cap Blend Fund (continued)
For the year ended 31st October, 2022

Small-Cap Fundamental Value (50%)

During the last twelve months, the strategy outperformed its benchmark, the Russell 2000® Value Index. At the start of the year, we underperformed relative to the benchmark; however, we found our turnaround during April and June when the index was down meaningfully. We finished the year strong by continuing to outperform, specifically when higher-leverage firms were underperforming, after an extended period where leverage did not hurt them in the market.

The combination of persistent inflation and the strong (and debatably late) response from the Federal Reserve served to broadly pressure both equity and fixed income markets. Uncertainty about the extent and willingness of the Fed's resolve translated into significant volatility and price movement. There are growing signs that the economic environment, already impacted by inflation, may be further challenged by higher interest rates. Early signs are already visible in such key sectors like housing. Companies with higher leverage are also facing, in some cases, the dual impacts of both lower core profitability and higher interest charges.

During the past year, we invested in nine new businesses and exited from eight. The new holdings included three in Financials, one in Energy, one in Consumer Staples, one in Materials, one in Information Technology, one in Industrials, and one in Health Care. The sales included one in Consumer Discretionary, two in Information Technology, one in Energy, one in Industrials, and three in Financials.

As an example, we invested in Amalgamated Financial, which strives to be "America's socially responsible bank," empowering organizations such as philanthropies, nonprofits, unions, political organizations, etc. The company's strong brand allows it to maintain what we view as a very sticky and inexpensive core deposit franchise. With this funding source, Amalgamated has operated profitably while limiting risk with a relatively conservative credit profile, and we believe it has been trading at a discounted valuation.

Murphy USA, Inc. was the strategy's largest contributor to performance during the year. During this timeframe, Murphy USA reported strong earnings on the back of fuel and merchandise sales growth and margins, driven by strong demand for value-priced fuel. The industry has experienced higher required break-even fuel margins given higher operating costs, and the company was uniquely positioned as the every day, low-priced offering in this environment.

As always, we believe that our process and philosophy have enabled us to assemble a portfolio of investments that are positioned to deliver attractive risk-adjusted returns to our investors. As we head into the end of the year, we remain very focused on the impacts of changes in the broader economy on our investments. However, the volatility we have seen during the past six months, especially in September, has rapidly increased our pipeline of investment opportunities.

Brown Advisory LLC
December, 2022

INVESTMENT MANAGER'S REPORT
Brown Advisory US Flexible Equity Fund
For the year ended 31st October, 2022

The objective of the Brown Advisory U.S. Flexible Equity Fund is capital appreciation over the long-term. The net asset value of the Dollar Class B Acc shares has returned the following cumulative performance:

- Over the last year: - 20.8% (against that of its benchmark, the S&P 500 Net Index, of - 15.0%)
- Over the last five years: 58.6% (vs. benchmark of 60.0%)
- Since inception: 118.8% (vs. benchmark of 131.3%)

In recent years, the COVID pandemic has created meaningful economic and social distortions around the world, and this year the Russia-Ukraine war is adding to those distortions. We can add global central banks to that list, as fiscal authorities worldwide continue to face high inflation on one flank and the threat of recession on the other.

According to Strategas Research, historically, the Federal Reserve only stopped tightening after the Fed Funds rate exceeded the prevailing rate of inflation. The Fed is currently fighting 8% inflation with interest rates well below that, so we believe there is at least some reason to expect the tighter monetary conditions to continue for some time.

Investor expectations shifted dramatically from fears of untamed inflation to fears of a recession. Whether or not companies have lowered guidance in anticipation of a slower growth period, investors are behaving as if a recession is upon us, taking down the multiples of all cyclical sectors as well as those companies that benefited from the stay-at-home conditions that prevailed for much of the past two years.

A second factor impacting equity prices is the rising cost of capital. Over the past 13 years through early 2022, equity valuations expanded as interest rates remained low. Once real interest rates broke below zero, virtually any business was financeable—and many unworthy ones were backed by flimsy, pie-in-the-sky growth forecasts. The investment community, en masse, shifted its valuations from earnings metrics to revenue metrics, largely because many of these companies had no earnings. That equity investors ignored the unsustainability of that environment will be the legacy of this era in our view. Now that interest rates are approaching more “normal” levels; equity valuations are becoming more reasonable. Against the backdrop of still-high inflation and a slowing economy, we believe that the key issue for investors over the next several quarters is: what will be the trajectory of earnings?

With the decline in the equity markets, the number of companies that fit our criteria has widened. We are more actively looking at new ideas than we have been in the past few years. Of course, any new idea must also hurdle over existing names for inclusion.

Sector allocation has been more impactful to the portfolio's return than our security selection.

In the twelve-month period, financials, information technology and real estate were our best-performing sectors relative to the S&P 500 Index. Financials and information technology had a higher weight than the index but declined less. Real estate had a lower weighting and also declined less than the sector in the index. Microsoft in information technology was among the biggest detractors to the portfolio's return in the period.

Consumer staples and energy were our worst-performing sectors compared to the S & P 500 Index. Energy had a lower weighting and, while positive, a lower return than the sector in the index. Schlumberger in energy was the top contributor to the portfolio's return over the past year. Consumer staples had a lower weighting, and our only holding in the sector fell while the sector in the S & P 500 Index rose.

Two additional holdings to mention that impacted return are UnitedHealth and Meta Platforms.

UnitedHealth (UNH) had strong stock performance primarily due to ongoing favourable trends in care utilization. With COVID-based care costs waning, the rebound in volume and cost trends of non-COVID care had a smaller impact than expected, leading to lower overall care costs for the insurers. UNH also benefitted from being a largely US-centric and relatively defensive business within the backdrop of increasing global- and macro-level pressures, where the impact to ongoing healthcare coverage and care utilization are expected to be minimal and more manageable.

INVESTMENT MANAGER'S REPORT
Brown Advisory US Flexible Equity Fund (continued)
For the year ended 31st October, 2022

Meta Platform's (formerly Facebook) stock declined in value when it reported a sharp margin decline in an environment where revenue growth is slowing. Meta's expenses grew faster than revenue, and the management signalled even higher spending on capex and on their money losing division, Reality Labs. This surprised the investment community as, previously, Meta's CEO, Mark Zuckerberg, had publicly indicated more disciplined spending.

We added four new investments and three were eliminated since our semi-annual report to shareholders.

Adobe is a leading software franchise in the digital content creation and delivery markets. In our view, the economy still has plenty of runway for transitioning to digital products and digitally led selling. Adobe's leadership in each of these markets positions the company for continued secular growth, while maintaining strong profitability (> 40% operating margin). Recently, Adobe announced the acquisition of Figma at a hefty price tag, leading to a sell-off in the stock as investors worried about competitive forces and slowing growth. We believe that Figma is a strategic asset allowing Adobe to expand its offering in the web-enabled world. The current sell-off has created a potential "bargain" opportunity, and we like the risk/reward.

We eliminated Stericycle to purchase Adobe, a more compelling opportunity. Stericycle's business has been in a protracted turnaround mode, which has proven challenging.

We initiated a new investment in Netflix, funded by the sale of Alibaba Group Holding Ltd. We like Netflix's prospects better than Alibaba's. Netflix's stock has sold off substantially as some gains achieved during COVID have reversed. In the past, our primary concern with Netflix was their inability to generate free cash flow; however, that is changing with management coming into action by instilling more discipline around content cost, opening their minds to an advertising-based model, and focusing on pricing their offering based on the value their customers are deriving.

Charles Schwab is a leader in the discount brokerage and wealth management industry and is well-positioned to benefit from a rising interest rate environment. We believe that it can weather a potential market downturn fairly well. A majority of Schwab's earnings generally come from its "spread income" (the difference between what it earns on client cash balances vs. the interest it pays clients on those balances). Rising rates are likely to widen this spread, and we expect net interest income to increase. The caveat is that as interest rates rise, some clients are likely to deploy this cash in money market funds. Additionally, in a market downturn, the company is expected to experience a decline in client assets resulting in lower fee income. Given these crosscurrents, investors have become concerned over Schwab's near-term earnings growth. This concern has caused a 35% decline in Schwab's stock price and a 10-point contraction in Schwab's earnings multiple, providing us with what we consider to be a 'bargain moment' opportunity in one of the strongest franchises in financial services.

We eliminated JP Morgan Chase & Co. in favour of adding to Charles Schwab, which we believe has better return potential. JP Morgan had been a long-term holding, purchased when interest rates were low, and investors were dismissive of greater earnings power from higher rates. While we have no major concerns with JP Morgan, our excitement about the stock's potential performance has diminished.

We invested in Schlumberger (SLB), a global technology leader in the oilfield services industry. SLB has a leading market share in products and services serving all stages of the oil and gas production cycle. We think Schlumberger is in a favourable position to benefit from rising spending and activity levels globally in the energy sector. We view the company as a key enabler of the oil and gas sector's carbon reduction targets with its portfolio of emissions reduction technology.

The Flexible Equity team searches for investment bargains among attractive long-term businesses with shareholder-oriented managers – those with productive assets and productive managers. These businesses should have or develop competitive advantages that result in good business economics, managers who allocate capital well, capacity to adjust to changes in the world and the ability to grow business value over time. Bargains in these types of stocks can arise for various reasons but are often due to short-term investor perceptions.

INVESTMENT MANAGER'S REPORT
Brown Advisory US Flexible Equity Fund (continued)
For the year ended 31st October, 2022

These temporary business challenges will improve company or industry changes for the better or as-yet-unrecognized potential for long-term growth and development. Despite the occasional stretches when the general stock market is unrewarding, we are optimistic about the long-term outlook for equities of good businesses purchased at reasonable prices and our ability to find them.

INVESTMENT MANAGER'S REPORT

**Brown Advisory Global Leaders Fund
For the year ended 31st October, 2022**

The objective of the Brown Advisory Global Leaders Fund is capital appreciation over the long-term. The net asset value of the Dollar Class C Acc shares has returned the following cumulative performance:

- Over the last year: -22.4% (against that of its benchmark, the MSCI All Country World Index, of -20.0%)
- Over the last five years: 44.8% (vs. benchmark of 29.1%)
- Since inception: 85.3% (vs. benchmark of 53.9%)

Over the last 12 months, markets and economies experienced the impact of geopolitical unrest in Europe that quickly translated into higher energy costs combined with already tight supply chains and a rapidly deteriorating economic outlook. Central banks reacted by raising interest rates which had a chilling effect on capital markets. In such an environment, it is important to remember that we are bottom-up stock-pickers and invest in companies and management teams, not countries, economies or macro factors. The strategy's bottom-up, valuation-conscious investment approach in quality companies mildly underperformed the benchmark in this environment. The main driver of this underperformance was not being invested in the energy sector. The energy sector returned 28.5% over the 12-month trailing, which positioned it as the best relative performer in the benchmark and the only sector with absolute positive performance. More than two-thirds of the strategy's underperformance can be explained by not having a direct investment in the energy sector. The lack of capital or technology barriers, high prices attracting competition, and lack of product differentiation make commodities and energy challenging places for us to find a superior customer outcome, a sustainable business advantage (SBA) or a durable 20+% RoIC.

Consequently, we have not had a direct energy or straight commodity investment since we launched the strategy. The main positive performance contributor was the Financials sector. We hold Financials with secular growth trends such as life insurance or micro-lending in emerging markets and essential financial infrastructure such as securities exchanges. Particularly the securities exchanges in the strategy, Deutsche Boerse and B3 benefitted from the acceleration in contract volumes traded. Deutsche Boerse also benefitted from having diversified into assets such as the EEX Group, a market platform for energy and commodities products which we believe, especially in the current environment, is solving for a significant problem its clients face: the de-risking of energy contracts.

The team looks at bouts of volatility and uncertainty as moments of opportunity for active investors and leverages the strategy's investment process to focus on fundamental research and capital allocation decisions to help position the portfolio for future value generation. We invested in five new companies during the reporting period, U.S. industrial company Allegion, semiconductor company ASML, the rating and data analytics company Moody's Corporation, escalator and elevator company Otis and medical device manufacturer Coloplast. All these investments are high-quality companies which we have looked to invest in – at the right price – for a very long time. What is also important is that all these new investments diversify the business model mix and bring differentiated, idiosyncratic risks to the portfolio. We believe that this diversification across business models and, therefore, the focus on idiosyncratic risk as the main performance driver is one of several important ways to maintain a robust portfolio. During the last 12 months, we have exited four investments: U.S. materials company Ecolab, video games publisher Electronic Arts, U.S. credit scoring company FICO and escalator and elevator company Schindler. We exited these positions to allocate to new investments which we believed to offer more attractive long-term returns. Since its inception, we believe the portfolio today has probably the highest quality businesses within it.

Since day one of the Global Leaders strategy, we have looked for high-quality companies with superior customer outcomes that we believe are able to pass on prices and generate high levels of recurring revenue while requiring low leverage. We believe that by investing in those companies and having their economics compound over long periods of time, we can generate attractive returns for our investors.

Brown Advisory Limited
December, 2022

INVESTMENT MANAGER'S REPORT

**Brown Advisory US Mid-Cap Growth Fund
For the year ended 31st October, 2022**

The objective of the Brown Advisory U.S. Mid-Cap Growth Fund is capital appreciation over the long-term. The net asset value of the Dollar Class C Acc shares has returned the following cumulative performance:

- Over the last year: -31.5% (against that of its benchmark, the Russell Mid-Cap Growth Net Index, of -29.1%)
- Over the last five years: 42.1% (vs. benchmark of 49.8%)
- Since inception: 59.4% (vs. benchmark of 69.7%)

U.S. equities were weak the last twelve months following a year and a half of strong gains. In general, larger market-cap and value-tilted indices held up better than smaller-caps and growth-oriented benchmarks. Early signals of decelerating economic growth or even weakness in specific sectors (Consumer Discretionary, for instance), inflation, and rising rates (the 10-year U.S. Treasury yield climbed over 250 basis points to 4.07%) caused an abrupt change to the tone of the market following the stimulus-fuelled pandemic upsurge that prevailed for the 18 months prior to this twelve-month period. Thanks to the shock caused by Russia's invasion of Ukraine and other economic pressures captioned above, Energy (+65%) and Utilities (+13%) were the only sectors in the Russell Midcap Growth benchmark to post positive gains in the last twelve months. Communication Services, Consumer discretionary, and Information Technology each lost more than 35%.

The Fund underperformed its benchmark due to its lack of exposure to energy, financials, and heavy cyclicals, coupled with its overweight to the healthcare sector. Since we focus on durable growers with competitive advantages (not commodity-oriented business models), we view this shortfall as stylistic.

Top contributors during the period included Dexcom (DXCM), CoStar Group (CSGP), and Casey's General Stores (CASY). Dexcom's results continue to impress, even before the U.S. launch of its new continuous glucose monitoring (CGM) system in 2023. Growth in CoStar's two main commercial real estate data businesses continues to inflect positively. Casey's General Stores is benefiting from the pandemic re-opening, a trade-down effect (thanks to inflationary pressures on consumer budgets), and beneficial fuel spreads (gross profit earned on retail gasoline sales).

Top detractors during the period included Match Group (MTCH), Okta (OKTA), and Bright Horizons Family Solutions (BFAM). Match Group's valuation has been cut significantly due to slowing growth at Tinder. We believe execution issues and general consumer weakness have hurt results; we expect growth to pick up next year, thanks to recent management changes. Okta's growth is slowing for perhaps numerous reasons, including a pandemic pull forward, channel friction, and competition. We exited the position during the period. Bright Horizons is still battling lingering issues caused by the pandemic and the government's response. At first (in 2020), its childcare centres were closed. Now, the company is combating labour shortages with price & wage hikes that we believe will help results inflect next year.

During the period, the Fund added fifteen investments and exited nineteen positions. Changes spanned most sectors. Generally, we took advantage of heightened volatility and lower valuations to boost the quality and (what we believe to be) the portfolio's three-year return potential. The Fund's dollar turnover measured 42% over the last twelve months, above our long-term annual average but within historical norms, especially during volatile periods. Given our 3- to 5-year investment time horizon, we expect turnover to range between 20% and 50% annually, depending on market conditions, portfolio needs, and opportunities.

As always, we remain committed to achieving attractive risk-adjusted returns over a full market cycle by owning a diversified portfolio of companies, each of which we believe could one day grow much larger. We thank you for your support and interest and look forward to updating you on our progress in six months.

Brown Advisory LLC
December, 2022

INVESTMENT MANAGER'S REPORT

**Brown Advisory US Sustainable Growth Fund
For the year ended 31st October, 2022**

The objective of the Brown Advisory U.S. Sustainable Growth Fund is capital appreciation over the long-term. The net asset value of the Dollar Class C Acc shares has returned the following cumulative performance:

- Over the last year: -31% (against its benchmark, the Russell 1000 Growth Index, of -24.6%)
- Over the last five years: 84.9% (vs. benchmark of 78.1%)
- Since inception: 114.7% (vs. benchmark of 104.9%)

The strategy was down 31% over the last twelve months and trailed the benchmark, the Russell 1000® Growth Index, which was down 24.6% over the same period. As bottom-up, fundamental managers, the strategy's performance is typically driven by stock selection. This period was no different, as the strategy's underperformance was primarily attributable to detractive stock selection, particularly in information technology, health care, and consumer discretionary. In a risk-off environment that generally favored more defensive, value-oriented stocks, our lack of exposure to the consumer staples and energy sectors was also a drag on relative performance. Robust gains from the strategy's top contributors, Enphase and UnitedHealth, were not enough to offset the negative impact of our worst performing holdings, including Block (formerly Square) and NVIDIA.

More broadly, the market environment over the last twelve months was defined by several significant macroeconomic and geopolitical risks, including: persistent concerns about COVID-19, widespread supply chain disruptions, labor shortages, the escalation of the Russian invasion of Ukraine, a global energy crisis, heightened inflation, and rising interest rates. This unique confluence of macro factors contributed to an environment of extreme volatility and, ultimately, a pronounced decline across equity markets during the period. Acknowledging our inability to predict the duration or scale of these macro factors, we maintain our focus on the strength of a company's business model, the durability of their competitive advantages, and their growth potential over a multi-year horizon. This approach helps us separate short-term macro-related headwinds/tailwinds from our underlying long-term fundamental theses. As active managers, we also seek to be strategic and opportunistic during down markets and periods of volatility, as these conditions can create opportunities for us to "upgrade" the portfolio with companies that might be trading at steep discounts relative to our view of their fundamental strengths and long-term growth potential.

Put into practice, our trading activity over the past year reflects this opportunistic approach. Throughout the year, we trimmed back several of our top-performing names in order to take advantage of significant drawdowns in a number of our other existing holdings, where we believed the valuations were particularly favorable on a forward-looking basis, including Nike, NVIDIA, Adobe, Home Depot, and Amazon, among others. We also added three new names to the portfolio that we regard as having high-quality business models, entrenched market leadership in their respective segments, and compelling upside potential relative to the valuations at which we initiated our positions, namely: Blackstone, Chipotle, and Atlassian. For example, the Mexican restaurant chain, Chipotle, continues to benefit from strong consumer demand for its fast-casual meal options that emphasize healthy, fresh, and organic ingredients at affordable prices. With ambitious goals to more than double their store footprint from 3,000 to 7,000 locations and expand into Europe in the coming years, we believe the company has a strong growth runway ahead of it. To make room for these new positions, we exited ACN, CHGG, SBUX, and ETSY. Together, we believe these trades represent upgrades to the portfolio with companies that are better positioned to deliver durable long-term growth.

Reflecting on this challenging period, we are grateful for our clients' trust in us to find the best investments in our universe at the intersection of strong fundamentals, sustainable business advantages, and attractive valuations. We remain fully invested and disciplined in our process. This philosophy has served us well over the past twelve and a half years, and we believe it will continue to do so in the years ahead.

Brown Advisory LLC
December, 2022

INVESTMENT MANAGER'S REPORT

**Brown Advisory US All Cap SRI Fund
For the year ended 31st October, 2022**

The objective of the Brown Advisory U.S. All-Cap SRI Fund is capital appreciation over the long-term. The net asset value of the Dollar Class B Dis shares has returned the following cumulative performance:

- Over the last year: -22.2% (against that of its benchmark, the Russell 3000 Net Index, of -16.9%)
- Over the last 3 years: 19.2% (vs. benchmark of 30.5%)
- Since inception: 30.7% (vs. benchmark of 36.8%)

In pursuing strong investment returns, while maintaining alignment with our investor's values, the All-Cap SRI portfolio's construction process excludes companies with controversial business involvement and, through objective portfolio analysis, attempts to isolate stock selection as a key driver of performance.

We began a volatile 12-month period, with increasing concerns around COVID-19 variants (Delta, Omicron) meeting inflationary pressures and supply chain issues—all of which led to increased suggestions from the Fed around raising interest rates. As we entered 2022, the intersection of various macro issues, such as the pandemic, geopolitical instability, inflation, and rising interest rates, created an extremely complex market environment. Companies began to show some caution in their outlooks, and subsequently, we witnessed earnings being revised downwards in anticipation of a more challenging economic picture in the months to come. Many of these themes persisted into the end of the 12-month period.

Our process attempts to drive outperformance against the market, driven principally by security selection. During the 12 months in review, underperformance was driven primarily by our stock selection in the healthcare sector, coupled with the strategy's lack of energy exposure due to the Fund's back-end screens. Strong stock selection in information technology and financials contributed positively to performance.

The portfolio's largest contributors to return included Enphase Energy, TreeHouse Foods, Sprouts Farmers Market, HealthEquity, and Nexstar Media Group. Enphase's stock was bolstered by the signing of the Inflation Reduction Act in August and the delay of NEM3.0 in CA. TreeHouse Foods continues to beat estimates on better than anticipated organic growth driven by price realization and improvement in private label share performance as consumers increasingly seek more affordable food products. Sprouts Farmers Market eased key concerns around the company's positioning in a post-COVID, inflationary environment as traffic remains positive and comparable sales improve. Lastly, HealthEquity has been a beneficiary of rising interest rates and Nexstar has been a beneficiary of a strong political advertising spending cycle.

The portfolio's largest detractors included Microsoft, Alphabet, Bright Horizons Family Solutions, Angi Inc, and Zoetis. Microsoft continues to see solid demand overall, but there are pockets of consumer-related and PC-related demand, which has been impacted by the macroeconomic environment, driving near-term fluctuations in profitability. Alphabet is down along with many other digital advertising stocks; while macro is driving price action in the sector, we believe the stock price is already partially discounting cuts to 2023 estimates and that Alphabet remains the leader in the sector. Bright Horizons has been persistently challenged by the COVID-19 pandemic as labor and enrollment are taking longer than expected to resolve. Angi Inc. stock has been pressured by supply constraints and brand-transition skepticism over what has been a fairly dramatic transformation in the last several quarters. Lastly, Zoetis, which had a strong FY2021, is largely trading down with other high-quality, high-multiple stocks.

During the quarter, we initiated a position in six new companies.

AvidXchange offers a cloud-based software and payments platform that digitizes the accounts payable workflow; by digitizing this process, AvidXchange enables customers to reduce environmental impacts primarily from paper and mitigate fraud risk.

MSCI is a data analytics provider to the investment industry and is considered by many as a first mover in ESG data, research and indexes. Similarly, S&P Global is a leading provider of credit ratings, benchmarks and analytics in the global capital and commodity markets, offering deep data and insights on critical business factors, including ESG, which is a promising growth opportunity for the company.

INVESTMENT MANAGER'S REPORT

Brown Advisory US All Cap SRI Fund (continued)
For the year ended 31st October, 2022

Target is a leading and dominant retailer in the United States, with retail locations ten miles from every doorstep. A huge cost and operational advantage lies in leveraging that proximity, as Target has recently begun transforming back rooms into local fulfillment centers for digital orders. Furthermore, the company has been expanding its grocery business, where Target sees high growth and higher margin from its private label categories. We believe Target will continue to improve margins with its operational improvements and gain share.

WEX is a financial technology company with a leading presence in fleet, travel solutions and health & employee benefits. The company offers us attractive growth at a reasonable valuation, but importantly, the company's sensitivity to changes in fuel prices gives the fund indirect exposure to energy, where we are underweight relative to the benchmark for structural reasons.

Zurn Water Solutions is a stand-alone pure-play water management business, an underappreciated water asset previously embedded within Rexnord, with meaningful exposure to secular drivers of climate change, water scarcity, and hygiene.

During the quarter, we exited five companies. Most were the result of allocating capital to higher conviction ideas (Chegg, Oak Street Health, Vimeo, Fortive). In one case, the exit was due to an acquisition of the company (Acceleron).

Brown Advisory LLC
December, 2022

INVESTMENT MANAGER'S REPORT

BA Metropolis Global Value Fund

For the year ended 31st October, 2022

The objective of the BA Metropolis Global Value Fund is to achieve long term capital growth mainly through investment in a concentrated portfolio of securities in listed companies. The net asset value of the CGA shares has returned the following cumulative performance:

- Over the last year: -14.5% (against that of its benchmark, the CPI +6%, of 14.69%)
- Over the last 3 years: 7.68% (vs. benchmark of 10.53%)
- Since inception: 21.60% (vs. benchmark of 35.91%)

Trading volume in the first quarter of this reporting period was a little higher than normal levels as we experienced a greater dispersion of returns between different positions in the portfolio. This enabled us to rotate away from positions performing well and into names with a larger margin of safety. We continued to build up some of our most recent additions to the portfolio and took advantage of price weakness to add to Adidas, Visa, Booking, Kubota, Comcast and Texas Instruments. The share price of State Street, Ashtead, Cisco and Oracle appreciated during the quarter taking them close to our assessment of intrinsic value, so these positions were the main sources of cash.

In the first quarter of 2022 we experienced greater market volatility. Dispersion of potential returns between different positions in the portfolio continued to appear. We exited Sanofi and American Express and added Paramount Global. We also added to our positions in Adidas, Admiral, Alphabet, Ashtead, Booking, Cisco, Comcast, Kubota, Howden Joinery, Oracle, and Texas Instruments – all of these had sold off at some point during the quarter. In the case of State Street, the share price hit a four-year peak in January following robust results, so we trimmed the position. We then had an opportunity to buy back some of these shares at prices 20% lower (despite there being no negative news on the companies). The share price of Berkshire Hathaway and The Progressive Corp appreciated during the quarter taking them close to our assessment of intrinsic value, so the reduction of these positions was the main source of cash in addition to our exits.

With volatility continuing into the second quarter of 2022, trading was once more at elevated levels. We exited our positions in Qurate Retail and we also sold down The Progressive Corp which had performed well this year and was trading close to intrinsic value. Berkshire Hathaway, which had held up well during the first four months of the year, continued to be a source of cash. We took advantage of low prices to increase our positions in Ashtead, Admiral, Adidas, Alphabet, Cisco, Comcast, Kubota, Howden Joinery, Oracle, Hargreaves Lansdown and State Street. In June, Microsoft traded at a price c.30% below its peak of December 2021. We took the opportunity to initiate a position. This is not the first time we have invested in this high-quality company.

In the third quarter of 2022, the margin of safety of most positions in the portfolio was at uniformly high levels. As such, there have been limited opportunities for trades which could materially improve the overall intrinsic value of the portfolio. This resulted in lower trading activity than normal. We exited Morgan Advanced and were able to redeploy this cash to build our position further in Microsoft. We also took advantage of lower prices to increase our positions in Admiral, Adidas, Booking, News Corp and Howden Joinery. The main other sources of cash were Oracle, Visa, and The Progressive Corp.

The performance of the fundamentals of the positions in the portfolio have been strong over the reporting period. This, coupled with our trading activity, has led to a considerable increase in the portfolio's intrinsic value year on year. Indicative of this progress is the growth of look-through earnings. Consensus forward look-through earnings per share of the portfolio grew by 27% in the twelve months.

**INVESTMENT MANAGER'S REPORT
BA Metropolis Global Value Fund (continued)
For the year ended 31st October, 2022**

With the NAV lower by 28.7% in USD in the financial year, a significant gap has opened with our assessment of intrinsic value. In percentage terms, we have not seen a gap this wide in the 11+ years of managing the fund. The last time the fund had a similarly high margin of safety was in late 2018, following which there were three years of strong returns. We cannot be sure that something similar will happen in the next three years.

Share Class	29/10/2021	31/10/2022	Change
BA Metropolis Global Value Fund C Class Distribution (Net Asset Value, pence)	14.09	11.96	-15.1%
BA Metropolis Global Value Fund C Class Accumulation (Net Asset Value, pence)	14.22	12.16	-14.5%
BA Metropolis Global Value Fund C Class Distribution (Net Asset Value, cents)	15.89	11.33	-28.7%

December, 2022

INVESTMENT MANAGER'S REPORT

**Brown Advisory Global Leaders Sustainable Fund
For the year ended 31st October, 2022**

The objective of the Brown Advisory Global Leaders Sustainable Fund is capital appreciation over the long-term. The net asset value of the Dollar Class C Acc shares has returned the following cumulative performance:

- Over the last year -22.7% (against that of its benchmark, the MSCI All Country World Index of -20.0%)
- Since inception: 13.0% (vs. benchmark of 14.3%)

Over the last 12 months, markets and economies experienced the impact of geopolitical unrest in Europe that quickly translated into higher energy costs combined with already tight supply chains and a rapidly deteriorating economic outlook. Central banks reacted by raising interest rates which had a chilling effect on capital markets. In such an environment, it is important to remember that we are bottom-up stock-pickers and invest in companies and management teams, not countries, economies or macro factors. The strategy's bottom-up, valuation-conscious investment approach in quality companies mildly underperformed the benchmark in this environment. The main driver of this underperformance was not being invested in the energy sector. The energy sector returned 28.5% over the 12-month trailing, which positioned it as the best relative performer in the benchmark and the only sector with absolute positive performance. More than two-thirds of the strategy's underperformance can be explained by not having a direct investment in the energy sector. The lack of capital or technology barriers, high prices attracting competition, and lack of product differentiation make commodities and energy challenging places for us to find a superior customer outcome, a sustainable business advantage (SBA) or a durable 20+% RoIC.

Consequently, we have not had a direct energy or straight commodity investment since we launched the strategy. The main positive performance contributor was the Financials sector. We hold Financials with secular growth trends such as life insurance or micro-lending in emerging markets and essential financial infrastructure such as securities exchanges. Particularly the securities exchanges in the strategy, Deutsche Boerse and B3 benefitted from the acceleration in contract volumes traded. Deutsche Boerse also benefitted from having diversified into assets such as the EEX Group, a market platform for energy and commodities products which we believe, especially in the current environment, is solving for a significant problem its clients face: the de-risking of energy contracts.

The team looks at bouts of volatility and uncertainty as moments of opportunity for active investors and leverages the strategy's investment process to focus on fundamental research and capital allocation decisions to help position the portfolio for future value generation. We invested in five new companies during the reporting period, U.S. industrial company Allegion, semiconductor company ASML, the rating and data analytics company Moody's Corporation, escalator and elevator company Otis and medical device manufacturer Coloplast. All these investments are high-quality companies which we have looked to invest in – at the right price – for a very long time. What is also important is that all these new investments diversify the business model mix and bring differentiated, idiosyncratic risks to the portfolio. We believe that this diversification across business models and, therefore, the focus on idiosyncratic risk as the main performance driver is one of several important ways to maintain a robust portfolio. During the last 12 months, we have exited four investments: U.S. materials company Ecolab, video games publisher Electronic Arts, U.S. credit scoring company FICO and escalator and elevator company Schindler. We exited these positions to allocate to new investments which we believed to offer more attractive long-term returns. Since its inception, we believe the portfolio today has probably the highest quality businesses within it.

Since day one of the Global Leaders strategy, we have looked for high-quality companies with superior customer outcomes that we believe are able to pass on prices and generate high levels of recurring revenue while requiring low leverage. We believe that by investing in those companies and having their economics compound over long periods of time, we can generate attractive returns for our investors.

Brown Advisory Limited
December, 2022

INVESTMENT MANAGER'S REPORT
BA Beutel Goodman US Value Fund
For the year ended 31st October, 2022

The objective of the BA Beutel Goodman US Value Fund (the "Fund") is capital appreciation over the long-term.

This report spans the 12-month period from 1st November, 2021 through to 31st October, 2022 (the "period").

Results of Operations

Over the period, the Fund's Class M USD shares outperformed the Russell 1000 Value Index (the "benchmark"):

- 1-year Return: -0.90% (vs. the benchmark of -7.00%)

Volatility returned in a major way to equity markets during the reporting period. In the first half of 2022, investors grappled with various crises, including the war in Ukraine. That conflict has contributed to persistently high inflation worldwide, forcing central banks into a series of aggressive rate hikes, bringing a wave of indiscriminate selling in equity markets later in the period. Pockets of valuation deratings earlier in the period have now become much more widespread. In our view, this heightened volatility is a clear sign that fundamentals are coming back into vogue after a long period of investors focusing on growth.

Against this backdrop, the Fund outperformed its benchmark. From a relative perspective, key contributors to Fund performance included stock selection in Health Care; an overweight and stock selection in Consumer Staples; and stock selection in Information Technology.

The largest detractor during the period on a relative basis was the Fund not having any exposure to the outperforming Energy sector. An overweight in Consumer Discretionary and no exposure to Utilities also detracted from relative performance.

All sectors held in the Fund recorded negative absolute performance over the period, with the exceptions of Health Care and Consumer Staples. The Fund had no exposure to the Energy, Utilities and Real Estate Sectors.

Over the period, the largest individual contributors to Fund performance on an absolute basis included: Amgen Inc., Campbell Soup Company, Kellogg Company, Merck & Co. and AmerisourceBergen Corp.

The largest individual detractors from Fund performance included: eBay Inc., MillerKnoll Inc., Comcast Corp., Gentex Corp. and SEI Investments Company.

Portfolio Activity

The sub-investment manager's portfolio management team (the "Team") employs a stock-selection process that is based on identifying securities trading at significant discounts to their business value. The Fund's sector and stock weights are outcomes of the Team's investment decisions based on bottom-up fundamentals and business quality. As a byproduct of the Team's bottom-up investment process, market performance and general management activity, the following changes occurred in the Fund's portfolio during the period:

- The Fund's Information Technology and Financials sector weightings increased because of relative performance and the team's buy/sell activities
- The Fund's Consumer Discretionary, Consumer Staples, Industrials, Communication Services, Health Care and Materials sector weightings decreased because of relative performance and the team's buy/sell activities
- Outside of the positions initiated at launch, the team has added new positions in Interpublic Group of Companies Inc., BlackRock Inc., Tempur Sealy International Inc., Masco Corp., Carlyle Group Inc. and Qualcomm Inc.
- The team has exited the Fund's positions in Oracle Corp., Ingersoll Rand Inc., Verizon Communications Inc. and AutoZone Inc.

INVESTMENT MANAGER'S REPORT
BA Beutel Goodman US Value Fund (continued)
For the year ended 31st October, 2022

Manager Outlook

The market has seen many crises over the years: the inflation and commodity shocks of the 1970s; the currency-driven emerging markets crisis of the late 1990s; the Tech Wreck in 2000; the hidden leverage (real estate) issues that led to the Great Financial Crisis in 2008, to name just a few. The difference between each of those events and the situation today is that we are starting to see parallels for all of them, happening at the same time. After more than a decade of growth in equities, the market was unprepared for one surprise, let alone many.

We don't profess to know how any of this will play out; the correlation between making a macro call and a stock call is fraught with risk. We have been watching, though, as valuations have derated, starting at the beginning of the year with just a handful of tech companies, and then spreading to a much more broad-based derating by the end of Q3. Many investors appear to be learning what we've always practiced through our investment process: that while growth is important, what you pay for that growth may be more so. What gives us confidence at times like these is that our portfolios are not the market. As bottom-up investors, we seek to buy strong franchises when they are trading at a minimum of a 1/3 discount to our calculation of intrinsic value. We believe this process can help provide downside protection for our clients. Further, the signs of indiscriminate selling that we're seeing are, in our opinion, very positive signals for the long term. In their rush to exit equity markets, panicked investors aren't paying attention to the fundamentals, and the prices they're selling good businesses at. Thus, while the market frets about recession risks, we are taking the opportunity pick up what we believe are high quality businesses at attractive valuations.

While there is still room for disappointment with respect to earnings and valuation multiples in the months ahead, the businesses we own in the portfolios (such as Amgen, Campbell Soup Company and Amdocs) tend to be less economically sensitive, and valuations are attractive. In fact, we are seeing dominant franchises that are involved in sales of almost any type of capital goods (especially within our Industrials and Consumer Discretionary holdings) already reflect deep recession scenarios into their earnings outlooks and valuations. We expect volatility in these segments of the market to remain high, but in our view, with valuations and expectations for earnings already very low, our ultimate downside should be limited relative to significant upside capture potential.

Market Risk 2023

The 2020s has largely been a case of out of the frying pan and into the fire for many investors. The decade opened with the COVID-19 pandemic, a problem that is still with us, although certainly not as much as a concern as this time last year. Inflation and the risk of a recession have replaced the Coronavirus as the major threat facing both the global economy and equity markets.

Having originally stated that inflation was a knock-on effect from COVID-19 lockdowns, and as such was transitory, central banks changed tack in 2022 in a big way, hiking interest rates aggressively. Bringing down inflation levels not seen since the early 1980s is now the primary objective of both the U.S. Federal Reserve (Fed) and its global peers regardless of the impact on the economy.

The war in Ukraine will soon be approaching its first anniversary. With no end in sight, the conflict will continue to disrupt the region, as well as the global economy and securities markets. The sub-investment manager is actively monitoring the situation.

Given the various macro headwinds, many economists are predicting an economic contraction in the first half of 2023, which could spur central banks into cutting rates later in the year. There is a lot of uncertainty right now regarding the impact of this tightening cycle on the economy, so it's likely the volatility that characterized equity markets in 2022 will continue into next year too. This disruption brings both risks and opportunities for investors, which we hope to capitalize on with this strategy.

Beutel, Goodman & Company Ltd.
December, 2022

INVESTMENT MANAGER'S REPORT

**Brown Advisory Global Sustainable Total Return Bond Fund (GBP)*
For the period ended 31st October, 2022**

The objective of the Global Sustainable Total Return Bond Fund (GBP) is to target a positive total return (comprising current income and capital gains) above the Bank of England's SONIA Compounded Index (the "Target Benchmark") over a full economic cycle, by investing in a broad range of global fixed-income securities and associated FDIs and currencies. The Fund is not constrained by any benchmark.

The net asset value of the Sterling Class B Dis Shares has returned the following cumulative performance:

- Over the last 3 months: -4.0% (against that of its benchmark, SONIA Overnight, of 0.5%)
- Over the last 6 months: -3.6% (vs. benchmark of 0.7%)
- Since inception on 31st January, 2022: - 5.9% (vs. benchmark of 0.9%)

As we look back on the ten months that have passed so far in 2022, we feel a sense of relief that this unprecedented year is drawing towards an end. But also have a sense of gratitude that we have been able to launch a new strategy and produce strong relative returns in such a challenging environment. One of the key tenets of our investment philosophy is to be laser focused on capital preservation when markets are challenged, and we believe we have delivered on this in 2022.

2022 so far has been the worst year for global fixed income in a generation – in fact; it has been the worst year, in terms of capital loss, since the advent of the Global Aggregate index in 1990. The US Aggregate index goes back to 1976, and it has never seen a year even close to resembling the pain across bond markets, as central banks have grappled with double-digit inflation levels and have been forced to hike policy rates at an unprecedented scale and pace. The Global Aggregate index is down -12.39% through the end of October, while the US Aggregate index is down -15.72% over the same period. This compares to a maximum historical one-year loss for the former of -3.58% and -2.92% for the latter, both in 1994.

The fund is down -5.9% from inception (31st January, 2022) through the end of October - versus its primary benchmark, SONIA - but outperforming its secondary benchmark, the Bloomberg Global Aggregate 1-10yr (GBP Hedged), by 2.63% over that time period. The fund has also outperformed its peer group median, as calculated by Morningstar, by 5.26% over that same time period. An out-of-consensus view on the path of interest rates, low levels of corporate credit risk, and a flexible and dynamic approach to monetising opportunities in rates and currencies throughout the course of a volatile year have been the largest contributors to this outperformance.

Although this past year has been undeniably challenging for the market, we believe there is tremendous value creation underway in fixed income assets. Sovereign yields are as attractive as they have been in more than a decade. Credit spreads in Europe are beginning to price in recessionary risk and valuations are compelling. We expect US credit spreads to weaken in the coming months, thus providing additional investment opportunity. We anticipate extending the duration of the portfolio as inflation rates peak and central banks slow the pace of their hikes. We will also likely increase exposure to corporate credit, first in Europe, followed by the U.S. We believe the U.S. dollar has peaked after experiencing an incredible rally against most global currencies this year, but dispersion in global growth and inflation and commensurate monetary policy will continue to present a fertile hunting ground for alpha generation in currencies in 2023.

INVESTMENT MANAGER'S REPORT

**Brown Advisory Global Sustainable Total Return Bond Fund (USD)*
For the period ended 31st October, 2022**

The objective of the Global Sustainable Total Return Bond Fund (USD) is to target a positive total return (comprising current income and capital gains) above the Federal Reserve Bank of New York Secured Overnight Financing Rate (SOFR) Index (the "Target Benchmark") over a full economic cycle, by investing in a broad range of global fixed income securities and associated FDIs and currencies. The Fund is not constrained by any benchmark.

The net asset value of the Dollar Class B Acc Shares has returned the following cumulative performance:

- Over the last 3 months: -3.6% (against that of its benchmark, NYFR SOFR, of 0.7%)
- Over the last 6 months: -3.2% (vs. benchmark of 1.0%)
- Since inception on 31st March, 2022: - 4.6% (vs. benchmark of 1.0%)

As we look back on the ten months that have passed so far in 2022, we feel a sense of relief that this unprecedented year is drawing towards an end. But also have a sense of gratitude that we have been able to launch a new strategy and produce strong relative returns in such a challenging environment. One of the key tenets of our investment philosophy is to be laser focused on capital preservation when markets are challenged, and we believe we have delivered on this in 2022.

2022 so far has been the worst year for global fixed income in a generation – in fact; it has been the worst year, in terms of capital loss, since the advent of the Global Aggregate index in 1990. The US Aggregate index goes back to 1976, and it has never seen a year even close to resembling the pain across bond markets, as central banks have grappled with double-digit inflation levels and have been forced to hike policy rates at an unprecedented scale and pace. The Global Aggregate index is down -12.39% through the end of October, while the US Aggregate index is down -15.72% over the same period. This compares to a maximum historical one-year loss for the former of -3.58% and -2.92% for the latter, both in 1994.

The fund is down -4.6% from inception (31st March, 2022) through the end of October - versus its primary benchmark, SOFR - but outperforming its secondary benchmark, the Bloomberg Global Aggregate 1-10yr (USD Hedged), by 0.41% over that time period. The fund has also outperformed its peer group median, as calculated by Morningstar, by 3.12% over that same time period. An out-of-consensus view on the path of interest rates, low levels of corporate credit risk, and a flexible and dynamic approach to monetising opportunities in rates and currencies throughout the course of a volatile year have been the largest contributors to this outperformance.

Although this past year has been undeniably challenging for the market, we believe there is tremendous value creation underway in fixed income assets. Independent auditors' report to the members of Brown Advisory Funds plc

Report on the audit of the financial statements

Opinion

In our opinion, Brown Advisory Funds plc's financial statements:

- give a true and fair view of the Company's and funds' assets, liabilities and financial position as at 31 October 2022 and of their results for the year then ended;
- have been properly prepared in accordance with Generally Accepted Accounting Practice in Ireland (accounting standards issued by the Financial Reporting Council of the UK, including Financial Reporting Standard 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland" and Irish law); and
- have been properly prepared in accordance with the requirements of the Companies Act 2014 and the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011 (as amended).

We have audited the financial statements, included within the Annual Report and Audited Financial Statements, which comprise:

- the Statement of Financial Position as at 31 October 2022;
- the Statement of Comprehensive Income for the year then ended;
- the Statement of Changes in Net Assets Attributable to Holders of Redeemable Participating Shares for the year then ended;
- the Statement of Investments for each of the funds as at 31 October 2022; and
- the notes to the financial statements for the Company and for each of its funds, which include a description of the significant accounting policies.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (Ireland) ("ISAs (Ireland)") and applicable law.

Our responsibilities under ISAs (Ireland) are further described in the Auditors' responsibilities for the audit of the financial statements section of our report. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence

We remained independent of the Company in accordance with the ethical requirements that are relevant to our audit of the financial statements in Ireland, which includes IAASA's Ethical Standard, and we have fulfilled our other ethical responsibilities in accordance with these requirements.

Emphasis of matter - financial statements prepared on a basis other than going concern

In forming our opinion on the financial statements, which is not modified, we draw attention to note 1 to the financial statements which describes the reasons why the financial statements of Brown Advisory Latin American Fund have been prepared on a basis other than going concern.

Conclusions relating to going concern

With the exception of Brown Advisory Latin American Fund where a basis of accounting other than going concern has been adopted as set out in the Emphasis of matter - financial statements prepared on a basis other than going concern above, based on the work we have performed, we have not identified any material uncertainties relating to events or conditions that, individually or collectively, may cast significant doubt on the Company's and funds' ability to continue as a going concern for a period of at least twelve months from the date on which the financial statements are authorised for issue.

With the exception of Brown Advisory Latin American Fund where a basis of accounting other than going concern has been adopted as set out in the Emphasis of matter - financial statements prepared on a basis other than going concern above, in auditing the financial statements, we have concluded that the directors' use of the going concern basis of accounting in the preparation of the financial statements is appropriate.

However, because not all future events or conditions can be predicted, this conclusion is not a guarantee as to the Company's and funds' ability to continue as a going concern.

Our responsibilities and the responsibilities of the directors with respect to going concern are described in the relevant sections of this report.

Reporting on other information

The other information comprises all of the information in the Annual Report and Audited Financial Statements other than the financial statements and our auditors' report thereon. The directors are responsible for the other information. Our opinion on the financial statements does not cover the other information and, accordingly, we do not express an audit opinion or, except to the extent otherwise explicitly stated in this report, any form of assurance thereon. In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If we identify an apparent material inconsistency or material misstatement, we are required to perform procedures to conclude whether there is a material misstatement of the financial statements or a material misstatement of the other information. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report based on these responsibilities.

With respect to the Directors' Report, we also considered whether the disclosures required by the Companies Act 2014 have been included.

Based on the responsibilities described above and our work undertaken in the course of the audit, ISAs (Ireland) and the Companies Act 2014 require us to also report certain opinions and matters as described below:

- In our opinion, based on the work undertaken in the course of the audit, the information given in the Directors' Report for the year ended 31 October 2022 is consistent with the financial statements and has been prepared in accordance with applicable legal requirements.
- Based on our knowledge and understanding of the Company and its environment obtained in the course of the audit, we have not identified any material misstatements in the Directors' Report.

Responsibilities for the financial statements and the audit

Responsibilities of the directors for the financial statements

As explained more fully in the Statement of Directors' Responsibilities set out on page 21, the directors are responsible for the preparation of the financial statements in accordance with the applicable framework and for being satisfied that they give a true and fair view.

The directors are also responsible for such internal control as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the directors are responsible for assessing the Company's and funds' ability to continue as going concerns, disclosing as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Company or to cease operations, or have no realistic alternative but to do so.

Auditors' responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (Ireland) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

Our audit testing might include testing complete populations of certain transactions and balances, possibly using data auditing techniques. However, it typically involves selecting a limited number of items for testing, rather than testing complete populations. We will often seek to target particular items for testing based on their size or risk characteristics. In

other cases, we will use audit sampling to enable us to draw a conclusion about the population from which the sample is selected.

A further description of our responsibilities for the audit of the financial statements is located on the IAASA website at:

https://www.iaasa.ie/getmedia/b2389013-1cf6-458b-9b8f-a98202dc9c3a/Description_of_auditors_responsibilities_for_audit.pdf.

This description forms part of our auditors' report.

Use of this report

This report, including the opinions, has been prepared for and only for the Company's members as a body in accordance with section 391 of the Companies Act 2014 and for no other purpose. We do not, in giving these opinions, accept or assume responsibility for any other purpose or to any other person to whom this report is shown or into whose hands it may come save where expressly agreed by our prior consent in writing.

Other required reporting

Companies Act 2014 opinions on other matters

- We have obtained all the information and explanations which we consider necessary for the purposes of our audit.
- In our opinion the accounting records of the Company were sufficient to permit the financial statements to be readily and properly audited.
- The financial statements are in agreement with the accounting records.

Companies Act 2014 exception reporting

Directors' remuneration and transactions

Under the Companies Act 2014 we are required to report to you if, in our opinion, the disclosures of directors' remuneration and transactions specified by sections 305 to 312 of that Act have not been made. We have no exceptions to report arising from this responsibility.

² Brown Advisory Global Sustainable Total Return Bond Fund (USD) launched on 31st March, 2022.

STATEMENT OF CHANGES IN THE PORTFOLIO (UNAUDITED)**Brown Advisory US Smaller Companies Fund
For the year ended 31st October, 2022**

In accordance with the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations, 2011 (as amended), a statement of changes in the composition of the Statement of Investments during the reporting period is provided to ensure that Shareholders can identify changes in the investments held by the Company. These statements present the aggregate purchases and sales of transferable securities exceeding 1% of the total value of purchases and sales for the year. At a minimum the largest 20 purchases and sales must be given.

Aggregate purchases greater than 1% of the total value of purchases

NOTES TO THE FINANCIAL STATEMENTS

For the year ended 31st October, 2022

1 Statement of Accounting Policies

The significant accounting policies adopted by Brown Advisory Funds plc (the “Company”), consisting of the fourteen sub-funds listed on page 4 (the “Funds”), are as follows:

a) Basis of Preparation of Financial Statements

The financial statements have been prepared in accordance with accounting standards generally accepted in Ireland and Irish statute comprising the Companies Act 2014, the European Communities (Undertaking for Collective Investment in Transferable Securities) Regulations 2011, (as amended) (the “UCITS Regulations”). Accounting standards generally accepted in Ireland in preparing financial statements giving a true and fair view are those published by the Institute of Chartered Accountants in Ireland and issued by the Financial Reporting Council (“FRC”).

These financial statements have been prepared in accordance with the standard “The Financial Reporting Standard applicable in the United Kingdom and Republic of Ireland” (“FRS 102”). For the audited financial statements for the year ended 31st October, 2022, securities were quoted, listed or traded on an exchange were valued at last traded price for financial reporting purposes.

The financial statements are prepared under the historical cost convention as modified by the revaluation of financial assets and financial liabilities at fair value through profit or loss. Valuation time is 10 p.m. (GMT), on the relevant dealing day. The financial statements are prepared on a going concern basis, except for Brown Advisory Latin American Fund which terminated on 29th October, 2021 and its financial statements are prepared on a non-going concern basis.

The format and certain wording of the financial statements have been adapted from those contained in the Companies Act 2014 and FRS 102. The information required to be included in the statement of total recognised gains and losses and reconciliation of movements in shareholders funds, is, in the opinion of the Directors contained in the Statement of Comprehensive Income and the Statement of Changes in Net Assets attributable to Holders of Redeemable Participating Shares. The Company has availed of the exemption available to investment funds under FRS 102 not to prepare a cash flow statement.

b) Valuation of Financial Assets and Financial Liabilities at Fair Value through Profit or Loss

In accordance with FRS 102, the Company has classified its investments as financial assets or financial liabilities at fair value through profit or loss.

Initial Measurement

Purchases and sales of financial instruments are accounted for at trade date for financial statement purposes. Realised gains and losses on disposals of financial instruments are calculated using the first in first out (FIFO) method for all sub-funds except for the Brown Advisory US Smaller Companies Fund which calculates realised gains and losses on disposals of financial instruments using the average cost method. Financial instruments categorised at fair value through profit or loss, are measured initially at fair value, with transaction costs for such instruments being recognised directly in the Statement of Comprehensive Income.

Subsequent Measurement

After initial measurement, the Company measures financial instruments which are classified at fair value through profit or loss, at their fair values. Fair value is the amount for which an asset could be exchanged, or a liability settled, between knowledgeable, willing parties in an arm's length transaction.

The fair value of financial instruments is based on their official quoted market prices on a recognised exchange or sourced from a reputable broker/counterparty in the case of non-exchange traded instruments, at the Statement of Financial Position date without any deduction for estimated future selling costs. Financial Assets are valued at their last quoted market price for pricing purposes and for financial reporting purposes.

NOTES TO THE FINANCIAL STATEMENTS (continued)
For the year ended 31st October, 2022

1 Statement of Accounting Policies (continued)

b) Valuation of Financial Assets and Financial Liabilities at Fair Value through Profit or Loss (continued)

Subsequent Measurement (continued)

If a quoted official market price is not available on a recognised stock exchange or from a broker/counterparty, the fair value of the financial instrument may be estimated by the Directors using valuation techniques, including use of recent arm's length market transactions, reference to the current fair value of another instrument that is substantially the same, discounted cash flow techniques or any other technique that provides a reliable estimate of prices obtained in actual market transactions. There were no investments valued in this manner as at 31st October, 2022.

Subsequent changes in the fair value of financial instruments at fair value through profit or loss are recognised in the Statement of Comprehensive Income.

c) Forward Foreign Currency Contracts

The Company may enter into forward foreign currency contracts. The fair value of open forward foreign currency contracts is calculated as the difference between the contractual rate and the current forward rate that would close out the contract on the valuation date. Net gains or losses on contracts which have been settled are included in the Statement of Comprehensive Income. Gains or losses on open forward foreign currency exchange contracts are reported as Financial Assets or Liabilities at Fair Value through Profit or Loss as appropriate in the Statement of Financial Position. Gains or losses on forward currency contracts are recognised in the Statement of Comprehensive Income.

During the year ended 31st October, 2022, the Brown Advisory US Smaller Companies Fund, the Brown Advisory US Equity Growth Fund, the Brown Advisory US Small Cap Blend Fund, the Brown Advisory US Flexible Equity Fund, the Brown Advisory Global Leaders Fund, the Brown Advisory US Mid-Cap Growth Fund, the Brown Advisory US Sustainable Growth Fund, the Brown Advisory Global Leaders Sustainable Fund, the BA Beutel Goodman US Value Fund, the Brown Advisory Global Sustainable Total Return Bond Fund (GBP) and the Brown Advisory Global Sustainable Total Return Bond Fund (USD) utilised forward foreign currency contracts for share class hedging purposes.

d) Futures Contracts

Futures contracts may include certain options on exchange-traded futures contracts. Initial margin deposits are made upon entering into futures contracts and are generally made in cash and cash equivalents. The fair value of futures contracts is based upon their quoted daily settlement prices. Changes in the value of open futures contracts are recognised as unrealised gains or losses on futures contracts until the contracts are terminated, at which time realised gains and losses are recognised. Gains or losses on open futures contracts are reported as Financial Assets or Liabilities at Fair Value through Profit or Loss as appropriate in the Statement of Financial Position. Gains or losses on futures contracts are recognised in the Statement of Comprehensive Income.

e) Cash and Other Liquid Assets

Cash and other liquid assets will be valued at their face value together with accrued interest, where applicable, to the valuation point on the relevant dealing day unless, in the opinion of the Directors (in "consultation with" the Investment Manager and the Administrator), any adjustment should be made to reflect the true value thereof.

An umbrella cash collection account is maintained with Brown Brothers Harriman Trustee Services (Ireland) Limited, which has credit ratings of F1, as rated by Fitch, the balance in this account as of 31st October, 2022 is US\$560,706 (31st October, 2021: US\$937,877).

NOTES TO THE FINANCIAL STATEMENTS (continued)
For the year ended 31st October, 2022

1 Statement of Accounting Policies (continued)

e) Cash and Other Liquid Assets (continued)

Sub-Fund	As at 31st October, 2022 US\$	As at 31st October, 2021 US\$
Brown Advisory US Smaller Companies Fund	(225)	(2,318)
Brown Advisory US Equity Growth Fund	-	(10,517)
Brown Advisory US Flexible Equity Fund	(3,751)	(16,315)

Brown Advisory Global Sustainable Total Return Bond Fund (USD)	(17,087)	-
Total	(560,706)	(937,877)

f) Income and Expense Recognition

Dividend income is recognised in the Statement of Comprehensive Income on the date upon which the relevant security is listed as “ex-dividend” to the extent that information thereon is reasonably available to the Fund. Dividend and interest income is shown gross of any non-recoverable withholding taxes, which are disclosed separately in the Statement of Comprehensive Income, and net of any tax credits. Bank deposit interest and other income and expenses are accounted for on an accruals basis.

g) Receivable for investments sold/Payable for investments purchased

Receivable for investments sold/Payable for investments purchased represent payables for securities purchased and receivables for securities sold that have been contracted for but not yet delivered on the Statement of Financial Position date.

h) Taxation

Under current law and practice, the Company qualifies as an investment undertaking as defined in Section 739B (1) of the Taxes Consolidation Act 1997, as amended. It is not chargeable to Irish tax on its income or capital gains. However, Irish tax can arise on the happening of a “chargeable event”. A chargeable event includes any distribution payments to Shareholders or any encashment, redemption, cancellation or transfer of shares or on the eighth anniversary of a Shareholder acquiring Shares and every subsequent eighth anniversary. Any tax arising on a chargeable event is a liability of the Shareholder, albeit it is paid by the Company (although if the Company fails to deduct the tax or the correct amount of tax it becomes ultimately a liability of the Company).

No tax will arise on the Company in respect of chargeable events in respect of a Shareholder who is:

- (i) an Exempt Irish Investor (as defined in Section 739D of the Taxes Consolidation Act 1997, as amended) who has provided the Company with the necessary signed statutory declarations; or
- (ii) who is neither Irish resident nor ordinarily resident in Ireland for tax purposes at the time of the chargeable event, provided that the necessary signed declarations are held by the Company.

Dividends, interest and capital gains (if any) received on investments made by the Company may be subject to withholding taxes imposed by the country from which the investment income/gains are received and such taxes may not be recoverable by the Company or its Shareholders.

NOTES TO THE FINANCIAL STATEMENTS (continued)
For the year ended 31st October, 2022

1 Statement of Accounting Policies (continued)

i) Foreign Exchange Translation

Functional and Presentation Currency

The functional and presentation currency of the Brown Advisory Global Sustainable Total Return Bond Fund (GBP) is Pound Sterling and for all other Funds is US Dollar. These are considered to be the currencies of the primary economic environments of each respective Fund. The presentation currency of the aggregated financial statements is US Dollar.

Transactions and Balances

Assets and liabilities denominated in currencies other than the functional currency of the Fund are translated into the functional currency at the exchange rates ruling at the Statement of Financial Position date. Transactions in currencies other than the functional currency of the Fund are translated into the functional currency at the exchange rates ruling at the dates of the transactions. Gains and losses on foreign exchange transactions are recognised in the Statement of Comprehensive Income in determining the results for the year. Proceeds from subscriptions and amounts paid for redemptions in currencies other than the functional currency are translated into the functional currency at the exchange rates prevailing at the dates of the transactions.

j) Dividend Policy

The Constitution empower the Directors to declare dividends out of the profits of the relevant Fund being: (i) the accumulated revenue (consisting of all revenue accrued including interest and dividends) less expenses and/or (ii) realised and unrealised capital gains on the disposal/valuation of investments and other funds less realised and unrealised accumulated capital losses of the relevant Fund. The Directors may satisfy any dividend due to Shareholders in whole or in part by distributing to them in specie any of the assets of the relevant fund. A Shareholder may require the Company instead of transferring any assets in specie to him, to arrange for a sale of the assets and for payment to the Shareholder of the net proceeds of same.

The distributions on the distributing shares are recognised in the Statement of Comprehensive Income as finance costs when they are declared by the Board of Directors.

k) Transaction Costs

Transaction costs are the costs incurred in the acquisition, issue or disposal of financial assets and liabilities. Transaction costs include fees and commissions paid to agents, advisers, brokers and dealers, levies by regulatory agencies and securities exchanges, and transfer taxes and duties. Transaction costs do not include debt premiums or discounts, financing costs or internal administrative or holding costs. Transaction costs are recognised on the Statement of Comprehensive Income under "Expenses". Transaction costs on trades charged by the Depositary are recognised on the Statement of Comprehensive Income under "Expenses".

l) Redeemable Participating Shares

Redeemable Participating Shares provide the Shareholders with the right to redeem their shares for cash equal to their proportionate share of the Net Asset Value of the Company and, accordingly, are classified as liabilities. The liability to Shareholders is presented in the Statement of Financial Position as "Net Assets Attributable to Holders of Redeemable Participating Shares" and is based on the residual assets of the Company after deducting all other liabilities.

m) Withholding Taxes

Dividends, interest and capital gains (if any) received on investments made by the Company may be subject to withholding taxes imposed by the country from which the investment income/gains are received and such taxes may not be recoverable by the Company or its Shareholders.

Dividend and interest income is shown gross of any non-recoverable withholding taxes, which are disclosed separately in the Statement of Comprehensive Income, net of any tax credits.

15 Financial Risk Management

Strategy in Using Financial Instruments

As an investment company, Brown Advisory Funds plc invests in equities and other investments so as to achieve its investment objectives.

The objective of the Funds, except for the Brown Advisory Global Leaders Fund, Brown Advisory Global Leaders Sustainable Fund, Brown Advisory Global Sustainable Total Return Bond Fund (GBP), Brown Advisory Global Sustainable Total Return Bond Fund (USD), and the Brown Advisory Latin American Fund, is to achieve capital appreciation by investing primarily in US equities. The objective of the Brown Advisory Global Leaders Fund and Brown Advisory Global Leaders Sustainable Fund is to achieve capital appreciation by investing primarily in global equities. The objective of the Brown Advisory Global Sustainable Total Return Bond Fund (GBP) is to target a positive total return (comprising current income and capital gains) above the Bank of England's SONIA Compounded Index) over a full economic cycle, by investing in a broad range of global fixed-income securities and associated FDIs and currencies. The objective of the Brown Advisory Global Sustainable Total Return Bond Fund (USD) is to target a positive total return (comprising current income and capital gains) above the Federal Reserve Bank of New York Secured Overnight Financing Rate (SOFR) Index over a full economic cycle, by investing in a broad range of global fixed-income securities and associated FDIs and currencies. The objective of Brown Advisory Latin American Fund was to achieve capital growth by investing primarily in shares of Latin American companies. In pursuing its investment objectives, the Company is exposed to a variety of financial risks: market risk (including market price risk, currency risk and interest rate risk), credit risk and liquidity risk that could result in a reduction in the Company's net assets.

NOTES TO THE FINANCIAL STATEMENTS (continued)
For the year ended 31st October, 2022

15 Financial Risk Management (continued)

Strategy in Using Financial Instruments (continued)

The Company's overall risk management programme focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the Funds' financial performance.

The risks and the Directors' approach to the management of the risks are as follows:

Market Risk

The fair value or future cash flows of a financial instrument held by the Company may fluctuate because of changes in market prices. This market risk comprises three elements: market price risk, currency risk and interest rate risk. The Board of Directors reviews and agrees policies for managing these risks. The policies have remained substantially unchanged from those applying at the prior year end. The Company's Investment Manager assesses the exposure to market risk when making each investment decision, and monitors the overall level of market risk on the whole of the investment portfolios on an ongoing basis.

The Company calculates its global risk exposure by using the commitment approach. Currency forwards will be used for hedging purposes only. Due to foreign exchange rate changes, changes to market values of underlying cash securities, or portfolio subscriptions/redemptions modest levels of inadvertent exposure may arise from time to time. In this case, the global exposures will be measured using the commitment approach based on the market value of the underlying assets i.e. the notional value of the currency leg(s). Exposures will be monitored on spreadsheets as at each valuation point.

Market Price Risk

Market price risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices.

The Company's assets consist principally of quoted equities, the values of which are determined by market forces. All security investments present a risk of loss of capital. The Investment Manager moderates this risk through a careful selection of securities within specified limits. The maximum risk resulting from financial instruments is determined by the fair value of the financial instruments.

The Board of Directors manages the market price risks inherent in the investment portfolios by ensuring full and timely access to relevant information from the Investment Manager. The Board of Directors meets regularly and at each meeting reviews investment performance and overall market positions. They monitor the Investment Manager's compliance with the Company's objectives.

An analysis of each Fund's investment portfolios is shown in the Statement of Investments. This shows the majority of the investments' value is in equity securities of US companies. Accordingly, there is a concentration of exposure to that country, though it is recognised that an investment's country of domicile or of listing does not necessarily equate to its exposure to the economic conditions in that country.

If prices of equity securities at 31st October, 2022 and at 31st October, 2021 had increased by 5%, with all other variables remaining constant, the increase in Net Assets Attributable to Holders of Redeemable Participating Shares is shown in the table below. Conversely, if prices had decreased by 5%, this would have resulted in an equal but opposite effect on Net Assets Attributable to Holders of Redeemable Participating Shares, on the basis that all other variables remain constant.

	NAV Impact US\$ 31st October, 2022	NAV Impact US\$ 31st October, 2021

Total	870,971,550	37,987,590	46,073,286

In accordance with Company policy, the Investment Manager monitors the Company's currency position on a daily basis. The Board of Directors relies upon the Investment Manager to keep it informed of any material events.

Interest Rate Risk

The majority of the Funds financial assets and liabilities are non-interest bearing. As a result, the Company is not subject to significant amounts of risk due to fluctuations in the prevailing levels of market interest rates. Any excess cash and cash equivalents are invested at short-term market interest rates.

In accordance with Company policy, the Investment Manager monitors the Funds' overall interest sensitivity on a daily basis. The Board of Directors relies upon the Investment Manager to keep it informed of any material events.

NOTES TO THE FINANCIAL STATEMENTS (continued)
For the year ended 31st October, 2022

15 Financial Risk Management (continued)

Credit Risk

The Company takes on exposure to credit risk, which is the risk that a counterparty or issuer will be unable to pay amounts in full when due.

The Brown Advisory Global Sustainable Total Return Bond Fund (GBP) and Brown Advisory Global Sustainable Total Return Bond Fund (USD) invest in debt instruments that may receive a credit rating from a well-known rating agency. The credit ratings in the tables below are calculated as a percentage of fixed income securities, where there is a significant proportion of that Fund held as fixed income. A debt instrument is considered Investment Grade by Standard & Poor's and Fitch if its credit rating is BBB- or higher and by Moody's if its credit rating is Baa3 or higher. The majority of the other Funds' financial assets are non-interest bearing equity securities. As a result, they are not subject to significant amounts of credit risk.

As at 31st October, 2022 the exposures by credit rating for each applicable Fund were as follows:

Brown Advisory Global Sustainable Total Return Bond Fund (GBP)

	31 October 2022
Investments:	GBP £
Asset Backed Securities	2,431,855
Corporate Bonds	56,824,829
Government Bonds	118,135,681
Mortgage Backed Securities	3,571,089
Derivatives	(749,636)

Brown Advisory Global Sustainable Total Return Bond Fund (USD)

	31 October 2022
Investments:	US\$
Asset Backed Securities	377,298
Corporate Bonds	11,875,006
Government Bonds	21,374,631
Mortgage Backed Securities	1,092,046
Derivatives	169,280
Cash & Cash Equivalents	3,849,559
Bank Overdraft	(9,664)

Credit Ratings of Debt Instruments:

	31 October 2022
Portfolio By Rating	%
Investment Grade	99.41
Non-Investment Grade	0.59
Total	100.00

Credit risk is managed, in part, by the Funds' investment restrictions, including that, subject to other provisions set forth in the Prospectus:

- (a) each Fund may not invest more than 10% of Net Assets in transferable securities or money market instruments issued by the same body provided that;
- (b) the total value of transferable securities and money market instruments held in the issuing bodies in each of which it invests more than 5%, is less than 40%.

All transactions in listed securities are settled in a timely manner. The risk of default is considered minimal.

For cash accounts, funds deposited are liabilities of the banks, creating a debtor-creditor relationship between the bank and the Company. Cash accounts opened on the books of Brown Brothers Harriman & Co. are obligations of Brown Brothers Harriman & Co., while cash accounts opened on the books of a sub-custodian (agency accounts)

NOTES TO THE FINANCIAL STATEMENTS (continued)
For the year ended 31st October, 2022

15 Financial Risk Management (continued)

Credit risk (continued)

are obligations of the sub-custodian. Accordingly, while Brown Brothers Harriman & Co. is responsible for exercising reasonable care in the administration of agency cash accounts, it is not liable for their repayment in the event the sub-custodian, by reason of its bankruptcy, insolvency or otherwise, fails to make repayment.

All cash at bank balances at the year end are held with Brown Brothers Harriman & Co., or with third party institutions approved by the Company on overnight deposit, or directly with a sub-custodian.

The short-term credit rating for Brown Brothers Harriman & Co. is F1, this indicates the strongest intrinsic capacity for timely payment of financial commitments, as rated by Fitch.

The short-term credit ratings for those institutions where cash was held at the year end are outlined in the table overleaf:

	Standard and Poor's 31st October, 2022	Standard and Poor's 31st October, 2021
Citibank	A-1	A-1
HSBC	A-2	-
JP Morgan Chase	A-2	A-2
SEB	A-1	A-1
Royal Bank of Canada	A-1+	A-1+

A short-term obligation rated "A-1" is rated in the highest category by Standard & Poor's. The obligor's capacity to meet its financial commitment on the obligation is strong. Within this category, certain obligations are designated with a plus sign (+). This indicates that the obligor's capacity to meet its financial commitment on these obligations is extremely strong.

There is no cash held with those institutions marked as "n/a" for the year ends noted.

A short-term obligation rated 'A-2' is somewhat more susceptible to the adverse effects of changes in circumstances and economic conditions than obligations in higher rating categories. However, the obligor's capacity to meet its financial commitment on the obligation is satisfactory.

Brown Brothers Harriman & Co. performs both initial and ongoing due diligence on the sub-custodians in its global depository network. Such reviews include an assessment of the sub-custodian's financial strength and general reputation and standing and, at a minimum, meet the due diligence requirements established by applicable law. The financial analysis is focused on the sub-custodian bank's capital adequacy, asset quality, financial flexibility and strength, management expertise, earnings, and liquidity as key indicators of its financial standing in the market. These reviews are not audits.

In accordance with Company policy, the Investment Manager monitors the Funds' credit position on a daily basis. The Board of Directors relies upon the Investment Manager to keep it informed of any material event. There were no material changes to the Company's policies and processes for managing credit risk and the methods used to measure risk since the year end.

Liquidity Risk

Liquidity risk is the risk that an entity will encounter difficulty in meeting obligations associated with financial liabilities.

The Funds are exposed to daily cash redemptions of Redeemable Participating Shares. Redeemable Participating Shares are redeemed on demand at the holder's option based on the relevant Fund's Net Asset Value per Share at the time of redemption. The Funds invest the majority of their assets in equities that are traded in an active market and can be readily disposed of. The Funds' listed securities are considered readily realisable as they are listed on a recognised stock exchange.

The Company may not repurchase Shares of any Fund during any period when the calculation of the Net Asset Value of the relevant Fund is suspended in the manner described under "Suspension of Calculation of Net Asset

NOTES TO THE FINANCIAL STATEMENTS (continued)
For the year ended 31st October, 2022

15 Financial Risk Management (continued)

Liquidity Risk (continued)

Value” in the Prospectus. Applicants for repurchases of Shares will be notified of such postponement and, unless withdrawn, their applications will be considered as at the next Dealing Day following the ending of such suspension.

The Directors are entitled to limit the number of Shares in a Fund repurchased on any Dealing Day to Shares representing 10% of the total Net Asset Value of that Fund on that Dealing Day. In this event, the limitation will apply pro rata so that all Shareholders wishing to have Shares of that Fund repurchased on that Dealing Day realise the same proportion of such Shares. Shares not repurchased, but which would otherwise have been repurchased, will be carried forward for repurchase on the next Dealing Day and will be dealt with on a pro rata basis with repurchase requests received subsequently. If requests for repurchase are so carried forward, the Administrator will inform the Shareholders affected.

The Constitution contains special provisions where a repurchase request received from a Shareholder would result in Shares representing more than 5% of the Net Asset Value of any Fund being repurchased by the Company on any Dealing Day. In such a case, the Company may satisfy the repurchase request by a distribution of investments of the relevant Fund in specie having consulted with the Depositary, and provided that such a distribution would not be prejudicial to the interests of the remaining Shareholders of that Fund. Where the Shareholder requesting such repurchase receives notice of the Company’s intention to elect to satisfy the repurchase request by such a distribution of assets that Shareholder may require the Company, instead of transferring those assets, to arrange for their sale and the payment of the proceeds of sale to that Shareholder less any costs incurred in connection with such sale.

The Constitution provides that the Company cannot effect a repurchase of Shares, if after payment of any amount in connection with such repurchase, the Net Asset Value of the issued share capital of the Company would be equal to or less than Euro 300,000 or its foreign currency equivalent. This will not apply to a repurchase request accepted by the Directors in contemplation of the dissolution of the Company.

In calculating the issue or repurchase price, the Directors may on any Dealing Day where there are net subscriptions and/or redemptions, adjust the issue or redemption price by adding or deducting an anti-dilution levy to cover dealing costs and to preserve the value of the underlying assets of the Fund. Further details of the anti-dilution levy are set out in the relevant Supplement.

In accordance with Company policy, the Investment Manager monitors the Funds’ liquidity position on a daily basis. The Board of Directors relies upon the Investment Manager to keep it informed of any material events. There were no material changes to the Company’s policies and processes for managing liquidity risk and the methods used to measure risk since the year end.

The following tables split the Funds’ financial liabilities into relevant maturity groupings based on the remaining period at the Statement of Financial Position date to the contractual maturity date. The amounts in the table are the contractual undiscounted cash flows. Balances due within twelve months equal their carrying balances as the impact of discounting is not significant.

Fair Value Estimation

FRS 102 on “Fair Value Disclosure” requires disclosure relating to the fair value hierarchy in which fair value measurements are categorised for assets and liabilities. The disclosures are based on a three-level fair value hierarchy for the inputs used in valuation techniques to measure fair value. Amendments were made to this FRS, revising the disclosure requirements for financial institutions. An entity shall apply these amendments for accounting periods beginning on or after 1st January, 2017.

The Company has classified fair value measurements using a fair value hierarchy that reflects the significance of the inputs used in making the measurements.

The fair value hierarchy has the following levels:

- (i) Level 1: Investments, whose values are based on quoted market prices in active markets, and therefore are classified within level 1, include active listed equities. Quoted prices for these instruments are not adjusted.

NOTES TO THE FINANCIAL STATEMENTS (continued)
For the year ended 31st October, 2022

15 Financial Risk Management (continued)

Fair Value Estimation (continued)

- (ii) Level 2: Financial instruments that trade in markets that are not considered to be active but are valued based on quoted market prices, dealer quotations or alternative pricing sources supported by observable inputs are classified within level 2. These include over-the-counter traded derivatives. As level 2 investments include positions that are not traded in active markets and/or are subject to transfer

restrictions, valuations may be adjusted to reflect illiquidity and/or non-transferability, which are generally based on available market information.

- (iii) Level 3: Investments classified within level 3 have significant unobservable inputs, as they trade infrequently. Pricing inputs are unobservable for the investment and includes situations where there is little, if any, market activity for the instrument. The inputs into the determination of fair value require significant management judgement or estimation. As observable prices are not available for these securities, a Fund would use valuation techniques to derive the fair value. The level in the fair value hierarchy within which the fair value measurement is categorised in its entirety is determined on the basis of the lowest level input that is significant to the fair value measurement in its entirety. For this purpose, the significance of an input is assessed against the fair value measurement in its entirety. If a fair value measurement uses observable inputs that require significant adjustment based on unobservable inputs, that measurement is a level 3 measurement. Assessing the significance of a particular input to the fair value measurement in its entirety requires judgement, considering factors specific to the financial asset or liability.

The determination of what constitutes ‘observable’ requires significant judgement by the Directors in consultation with the Investment Adviser. The Directors consider observable data to be that market data that is readily available, regularly distributed or updated, reliable and verifiable, not proprietary, and provided by independent sources that are actively involved in the relevant market.

The following tables provide an analysis within the fair value hierarchy of the Funds’ financial assets and liabilities measured at fair value at 31st October, 2022 and 31st October, 2021:

At 31st October, 2022 there were no securities valued as level 3 (at 31st October, 2021: nil).

There were no transfers between levels during the years ended 31st October, 2022 or 31st October, 2021.

16 Related Parties Transactions

Under FRS 102: “Related Party Disclosure”, parties are related if any party has the ability to control the other party or exercise significant influence over the other party in making financial or operational decisions.

The Company has appointed the Manager to act as manager and distributor to the Company and each Fund with power to delegate one or more of its functions subject to the overall supervision and control of the Manager. As disclosed in Notes 5, 8 and 10, the Manager earned a fee of US\$1,928,954 for the year ended 31st October, 2022 (31st October, 2021: US\$2,008,689), of which US\$334,301 (31st October, 2021: US\$354,931) was outstanding at 31st October, 2022. Mr. Paul McNaughton, Mr. David M. Churchill, Ms. Mary Canning and Mr. Brett D. Rogers are Directors of the Company and are also the Directors of the Manager.

Mr. David M. Churchill is the Chief Operating Officer and Chief Financial Officer of the Investment Manager. Mr. Brett D. Rogers is General Counsel and Chief Compliance Officer of the Investment Manager. As disclosed in Notes 5, 8 and 9, the Investment Manager earned a fee of US\$70,812,923 for the year ended 31st October, 2022 (31st October, 2021: US\$70,328,987), of which US\$4,847,189 (31st October, 2021: US\$7,083,512) was outstanding at 31st October, 2022. As disclosed in Notes 4, 8 and 9, the Investment Manager has agreed to reimburse US\$69,833 (31st October, 2021: US\$98,930), of which US\$41,853 (31st October, 2021: US\$5,896) was outstanding at 31st October, 2022. For the year ended 31st October, 2022, Mr. David M. Churchill and Mr. Brett D. Rogers are not entitled to a fee as Directors of Brown Advisory Funds Plc.

NOTES TO THE FINANCIAL STATEMENTS (continued)
For the year ended 31st October, 2022

16 Related Parties Transactions (continued)

The following Directors, who are connected with the Investment Manager, namely Mr. David M. Churchill and Mr. Brett D. Rogers, are not entitled to fees for their services as Directors for the years ended 31st October, 2022 and 31st October, 2021.

Mr. David M. Churchill is Director of Brown Advisory Limited. Brown Advisory Limited provides consultancy services to the Company. Fees earned by Brown Advisory Limited for the year ended 31st October, 2022 amounted to EUR€Nil (31st October, 2021: EUR€Nil).

Brown Advisory Limited acts as UK Facilities Agent and is contractually entitled to receive a fee for this service. For the year ended 31st October, 2022, this fee was waived by Brown Advisory Limited.

The Investment Manager of the Funds is Brown Advisory LLC. However, the Investment Manager has delegated the day-to-day portfolio management of certain Funds to Sub-Investment Managers, as set out below:

Fund	Sub-Investment Manager
Brown Advisory Global Leaders Fund	Brown Advisory Limited

NOTES TO THE FINANCIAL STATEMENTS (continued)
For the year ended 31st October, 2022

18 Net Asset Value per Redeemable Participating Share

The Net Asset Value per Redeemable Participating Share is calculated by dividing the total Net Assets of each Fund attributable to a class by the number of Redeemable Participating Shares of that class in issue.

In accordance with FRS 102, the Company has classified all its investments at fair value through profit or loss.

In accordance with the provisions of the Company's Prospectus, investment positions are valued based on the last price at the valuation point on the relevant valuation date for the purposes of determining the Net Asset Value per Redeemable Participating Share for shareholder dealing and for various fee calculations.

Recalculation of Net Asset Value for Pricing Purposes

For financial statement purposes, establishment expenses totalling US\$455,380 including fees paid to the professional advisors of the Company, were entirely written off in the period 11th October, 2005 to 31st October, 2022 in accordance with FRS 102. For the purpose of calculating the shareholder dealing NAV, establishment expenses are being amortised over the first five financial years of the lifetime of the sub-fund. US\$140,255 was amortised for the year ended 31st October, 2022 (31st October, 2021: US\$3,330). For Brown Advisory US Mid-Cap Growth Fund US\$325 was amortized for the year ended 31st October, 2022 (31st October, 2021: US\$3,834), for Brown Advisory US Sustainable Growth Fund US\$3,255 was amortized for the year ended 31st October, 2022 (31st October, 2021: US\$2,959), for Brown Advisory US All Cap SRI Fund US\$4,439 was amortized for the year ended 31st October, 2022 (31st October, 2021: US\$4,348), for BA Metropolis Global Value Fund US\$8,993 was amortized for the year ended 31st October, 2022 (31st October, 2021: US\$9,275), for Brown Advisory Global Leaders Sustainable Fund US\$21,659 was amortized for the year ended 31st October, 2022 (31st October, 2021: US\$11,696), for BA Beutel Goodman US Value Fund US\$9,448 was amortized for the period ended 31st October, 2022 (31st October, 2021: US\$39,797 was paid), for Brown Advisory Global Sustainable Total Return Bond Fund (GBP)* GBP74,625 was paid for the period ended 31st October, 2022, for Brown Advisory Global Sustainable Total Return Bond Fund (USD)** US\$95,949 was paid for the period ended 31st October, 2022.

* Brown Advisory Global Sustainable Total Return Bond Fund (GBP) launched on 31st January, 2022.

** Brown Advisory Global Sustainable Total Return Bond Fund (USD) launched on 31st March, 2022.

19 Efficient Portfolio Management

The Company may employ techniques and instruments relating to transferable securities and/or other financial instruments in which it invests for investment purposes or hedging.

Where a Fund invests in financial derivative instruments for such purposes, a risk management process will be submitted to the Central Bank by the Company, prior to the Fund engaging in such transactions in accordance with the Central Bank's requirements and UCITS Regulations. The Company on behalf of the Funds, will on request, provide supplementary information to Shareholders relating to the risk management methods employed, including the quantitative limits that are applied and any recent developments in the risk and yield characteristics of the main categories of investments.

During the year ended 31st October, 2022, the Company engaged in currency class hedging to hedge against movements in the values of Hedged Share Classes as a result of changes in the exchange rates against the functional currency of the Fund of the respective currencies. The currency class hedging involves utilising forward foreign exchange contracts to provide a return hedged against fluctuations. This currency hedging policy will seek to limit Shareholders' risk of loss arising from an appreciation in the value of the currency of the Hedged Share Class relative to the value of the functional currency of the Fund.

The counterparties and the details of all open forward foreign currency contracts as at 31st October, 2021 are disclosed in the Statement of Investments.

NOTES TO THE FINANCIAL STATEMENTS (continued)
For the year ended 31st October, 2022

20 Soft Commissions

During the year ended 31st October, 2022, the Investment Manager entered into soft commission arrangements with brokers/dealers whereby certain goods and services used by the Investment Manager are paid for by the commissions generated from trades executed under these arrangements. The goods and services are directly relevant and are used to assist in the provision to clients of investment management services or for valuation or performance measurement of portfolios.

These arrangements do not affect a broker's duty to provide best execution.

- Effective 19th October, 2022 the Brown Advisory Global Sustainable Total Return Bond Fund (USD) Euro Class B Acc H Shares was launched.

Other

Russia's invasion of Ukraine, and corresponding events in late February 2022, have had, and could continue to have, severe adverse effects on regional and global economic markets for securities and commodities. Following Russia's actions, various governments, including those within the European Union, EEA and United Kingdom, have issued broad-ranging economic sanctions against Russia. The current events have, and could continue to have, an adverse effect on global markets performance and liquidity, thereby negatively affecting the value of a Fund's investments beyond any direct exposure to Russian or Ukrainian issuers. The duration of ongoing hostilities and the vast array of sanctions and related events cannot be predicted. Those events present material uncertainty and risk with respect to markets globally and the performance of a Fund and its investments or operations could be negatively impacted. None of the Funds had direct exposure to Russian issuers.

There have been no other significant events affecting the Company during the year.

24 Events since the Year End

On 1st November, 2022 dividends were declared and distributed on 14th November, 2022. Details are presented in Note 17.

Paul McNaughton ceased being a director on 6th November, 2022.

Robert Alexander Hammond-Chambers resigned as a Director on 18th November, 2022.

Adrian Waters and Barbara Healy have been appointed as directors on 19th January, 2023.

There have been no other significant events affecting the Company since the year end.

25 Approval of Financial Statements

The Board of Directors approved the report and audited financial statements on 3rd February, 2023.

APPENDIX 1 - TOTAL EXPENSE RATIOS (UNAUDITED)

The total expense ratios (TERs) for the year are set out in the table below.

The annualised TER calculation includes all annual operating costs including performance fees (where applicable) and excludes bank interest, FX and dealing costs, and withdrawn taxes on dividends and interest in compliance with the guidelines set out by the Swiss Funds Association (SFA). The TERs are not required to be included in this Report by the Central Bank of Ireland. They are provided for information purpose only and are unaudited. Only Swiss registered Funds are presented in the table below.

For the year ended 31st October, 2022 and 31st October, 2021:

APPENDIX 2 – REMUNERATION POLICY (UNAUDITED)

Overview

Brown Advisory (Ireland) Limited (the “**Manager**”) (as the manager of the Company) of the adopts the following remuneration policy (“**Remuneration Policy**”) for persons determined “*Identified Staff*” below.

The Board is directly responsible for the operating and organisational requirements of the UCITS Regulations, as well as ensuring that the Manager meets the requirements of the Central Bank UCITS Regulations.

In addition to the requirements of the UCITS Regulations, this Remuneration Policy also takes into consideration ESMA’s Guidelines on Sound Remuneration Policies under the UCITS Directive issued on 14 October 2016 (the “**ESMA Guidelines**”) and together with the UCITS Regulations the (“**Remuneration Requirements**”).

Proportionality

In preparing this Remuneration Policy, the Manager has made an assessment of the nature, scale and complexity of its business in line with the Remuneration Requirements and has determined that overall, its business activity is relatively low risk when compared against other entities with similar fund structures under management. The Remuneration Policy complies with the principles set out below in a manner which is proportionate to the size of the Manager, its internal organisation and the nature, scope, complexity of its activities.

Principles of the Remuneration Policy

The Remuneration Policy is consistent with and promotes sound and effective risk management and does not encourage risk-taking that exceeds the level of tolerated risk of the relevant Funds.

The Remuneration Policy is in line with the business strategy, objectives, values and interests of the Company and the Funds and includes measures to avoid conflicts of interest.

The Board is responsible for the implementation of the Remuneration Policy and will review it at least once per year.

Staff engaged in control functions are compensated in accordance with the achievement of the objective linked to their functions, independent of the performance of the business areas they control.

The Remuneration Policy assesses the performance in a multi-year framework appropriate to the life-cycle of the Funds.

The Remuneration Policy excludes guaranteed variable remuneration except for the first year of appointment.

Determination of the components of the Remuneration

The total annual remuneration of each member of Identified Staff comprises fixed remuneration under the form of a directorship fee, a salary or any other type of remuneration (“**Fixed Remuneration**”).

Determination of Identified Staff of the Manager

The following persons fall into the scope of the Remuneration Policy and consequently are “*Identified Staff*” for the purposes of the Remuneration Policy:

- Any member of the Board;
- Any employee of the Manager whose professional activities have a material impact on the risk profile of the Manager and/or the Company; and
- Any employee of the Manager who is receiving total remuneration that falls within the remuneration bracket of senior management.

APPENDIX 2 – REMUNERATION POLICY (UNAUDITED) (CONTINUED)

The following persons are excluded from the scope of the Remuneration Policy and consequently not Identified Staff in the meaning of the Remuneration Policy:

- Any person whose Remuneration is exclusively based on Fixed Remuneration.
- Designated Persons. The agreement between the Manager and Bridge Consulting Limited (“**Bridge Consulting**”) provides that Bridge Consulting will remain responsible for employing the Designated Persons and for their salary and other remuneration and that the Designated Persons will devote such of their time to the Manager and the Company as may be required to carry out their duties on behalf of the Manager and the Company. The remuneration of the Designated Persons is therefore not within the scope of this policy.

Determination of Identified Staff of the Investment Manager

The Remuneration Requirements also apply to all categories of staff of the Investment Manager whose professional activities have a material impact on the risk profile of the Company, at either the Company or Fund level.

The ESMA Guidelines provide that when assessing the materiality of influence on a management company’s risk profile or on a UCITS it manages (whether as a management company or delegate), an entity should define what constitutes materiality within the context of their management company and the UCITS they manage. At a minimum, any Identified Staff of the Investment Manager that have a significant impact on the Manager’s results and/or balance sheet and/or on the performance of the Funds they manage are considered to have material impact.

The ESMA Guidelines clarify that staff members such as administrative or logistical support staff that, given the nature of their job functions, clearly do not have any connection with the risk profile of the Manager or the UCITS, should not be considered risk takers. However, such exclusion only applies to support staff whereas staff heading the administration should be considered for inclusion as Identified Staff.

ESMA Q&A guidance states that remuneration-related disclosure requirements under Article 69(3)(a) of the UCITS Directive also apply to the staff of the delegate of a UCITS manager to whom investment management functions (including risk management) have been delegated (i.e., the Investment Manager). In line with the approach followed under the ESMA Guidelines, UCITS managers can ensure compliance in one of the following two ways:

- where the delegate is subject to regulatory requirements on remuneration disclosure for its staff to whom investment management (including risk management) activities have been delegated that are equally as effective as those under Article 69(3)(a) of UCITS Directive, the Manager should use the information disclosed by the delegate for the purposes of fulfilling its obligations under Article 69(3)(a) of the UCITS Directive; or
- in other cases, appropriate contractual arrangements should be put in place with the delegate allowing the Manager to receive (and disclose in the annual report for the relevant UCITS that it manages) at least information on the total amount of remuneration for the financial year, split into fixed and variable remuneration, paid by the Manager, the Company and, where relevant the UCITS (i.e. a sub-fund of the Company) itself to the identified staff of the delegate – and number of beneficiaries, and, where relevant, performance fee – which is linked to the delegated portfolio. This means that the disclosure should be done on a pro-rated basis for the part of the UCITS’ assets which are managed by the Identified Staff within the delegate.

In both situations set out above, the disclosure may be provided on an aggregate basis (i.e., by means of a total amount for all the delegates of the Manager in relation to the relevant UCITS).

APPENDIX 2 – REMUNERATION POLICY (UNAUDITED) (CONTINUED)

Sustainability Risk

The European Union published in December 2019 the Sustainable Finance Disclosure Regulation^[1] (“SFDR”) which applies from March 10, 2021. SFDR requires financial market participants and financial advisers to include in their remuneration policies details of how the policies are consistent with the integration of ‘sustainability risks’. Therefore, starting from January 1, 2021, individual and collective objectives will include elements related to the adherence to the sustainability risk framework to be embedded in investment processes. The compensation of Identified Staff will be determined considering the completion of these objectives.

Remuneration of the Board and Control Functions

The Board and Designated Persons will not receive any additional fixed or variable remuneration in connection with their work as Board members. Additionally, the MLRO and Company Secretary will not receive any additional fixed or performance-related remuneration in connection with the carrying out of control functions.

Pensions policy

The Manager does not make contributions towards pensions.

Payments related to the early termination of a contract

There is no policy currently in effect which relates to the early termination of a contract. In the case of early termination of a contract or departure of a member of Identified Staff prior to the performance-related remuneration date, no payments will be due to the member of Identified Staff.

Any payments related to the early termination of a contract of a member of Identified Staff shall reflect performance achieved over time and are designed in a way that they do not reward failure.

Personal hedging

Identified Staff will be prohibited from employing personal hedging strategies or insurance to undermine the risk alignment effects embedded in their remuneration arrangements. This prohibition will apply to deferred and retained performance-related remuneration.

Similarly, the Manager will ensure that performance-related remuneration is not paid through vehicles or methods are employed which aim at artificially evading the provisions of UCITS V Directive^[2].

Delegation

Guidance in relation to the extent to which the remuneration requirements of the UCITS V Directive apply to delegates of the Manager, including the Investment Manager, has been set out in the ESMA Guidelines. Further guidance on this issue has been prepared by the Remuneration Group within Irish Funds (the “IF Guidance”)

In accordance with the ESMA Guidelines and the IF Guidance, the Manager notes its obligation to ensure that the Investment Manager is either:

- subject to regulatory requirements on remuneration that are “equally as effective” as those applicable under the ESMA Guidelines; or
- that appropriate contractual agreements are in place to ensure that the delegation arrangements do not circumvent the remuneration requirements contained in the UCITS V Directive.

^[1] “Sustainable Finance Disclosure Regulation” means Regulation (EU) 2019/2088 of the European Parliament and of the Council of 27 November 2019 on sustainability-related disclosures in the financial services sector.

^[2] “UCITS V Directive” means Directive 2014/91/EU of the European Parliament and of the Council of 23 July 2014 amending Directive 2009/65/EC on the coordination of laws, regulations and administrative provisions relating to undertakings for collective investment in transferable securities (UCITS) as regards depositary functions, remuneration policies and sanctions.

APPENDIX 2 – REMUNERATION POLICY (UNAUDITED) (CONTINUED)

It further notes that:

- the Investment Manager may determine to disapply the remuneration principles of the UCITS V Directive on the grounds of proportionality - based on the proportionality criteria outlined in the ESMA Guidelines on (i) size, (ii) internal organisation and (iii) nature, scope and complexity of the relevant delegate's business; and
- partnership structures which provide dividends or similar distributions to partners as the owners of the particular entity are not covered by the ESMA Guidelines.

In this case, the Investment Manager is established as a limited liability company in the US and regulated by the local regulatory authority there, the Securities and Exchange Commission (“SEC”). As such it is not deemed subject to regulatory requirements on remuneration that are “*equally as effective*” as those applicable under the ESMA Guidelines.

The Investment Manager has confirmed to the Manager that: (i) it has reviewed this Remuneration Policy; and (ii) where the remuneration rules under this Remuneration Policy would otherwise be circumvented by the Investment Manager, it shall confirm to the Manager in writing on an annual basis that (a) it is subject to regulatory requirements on remuneration under its home jurisdiction that are equally as effective as the Remuneration Requirements; or (b) its staff who are “*Identified Staff*” for the purpose of the ESMA Guidelines are either exempt from or subject to remuneration rules that comply with the Remuneration Policy in order to ensure that there is no circumvention of the Remuneration Requirements as interpreted for delegates of the Manager from time to time, including with respect to any payments made to the Investment Manager's identified staff as compensation for the performance of investment management activities on behalf of a Fund.

It is noted that as of the date of this Remuneration Policy the Investment Manager has confirmed that it has carried out an analysis of the remuneration rules pursuant to the Remuneration Policy determined to disapply the remuneration principles of the UCITS V Directive for it and its Identified Staff on the grounds of proportionality.

Review and amendments of the Remuneration Policy

The Remuneration Policy is reviewed by the Board at least once per year.

In reviewing the Remuneration Policy, the Board will consider whether the overall remuneration system:

- operates as intended (in particular, that all agreed plans/programmes are being covered; that the remuneration pay-outs are appropriate and that the risk profile, long-term objectives and goals of the Company are adequately reflected); and
- is compliant with national and international regulations, principles and standards.

Any amendment of the Remuneration Policy requires:

- first, an assessment of the amendment by the Designated Person responsible for Capital and Financial Management in light of the Principles of the Remuneration Policy; and
- Secondly, approval of the Board taking by a simple majority of those Directors present or represented at the relevant meeting.

Disclosure

The Manager discloses, without prejudice to confidentiality and data protection provisions, relevant information on the Remuneration Policy in its annual report, Prospectus and Key Investor Information Documentation.

The Remuneration Policy will be available to the Identified Staff of the Manager and the information disclosed to the Identified Staff should be at least that which is disclosed externally as part of the annual report.

APPENDIX 2 – REMUNERATION POLICY (UNAUDITED) (CONTINUED)

Guidelines on payment basis

The fixed component of the remuneration collected by the Manager out of the net assets of a Fund will not be used to pay any performance-related remuneration to any Identified Staff member.

Award Process

In determining individual remuneration awards, the Manager will consider the full range of current and potential risks associated with the activities undertaken.

ANNEX IV

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Product name: Brown Advisory Funds plc – Brown Advisory Global Leaders Fund
Legal entity identifier: 635400WHXWLZELLOYF49

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?	
<p><input checked="" type="radio"/> <input checked="" type="radio"/> <input type="checkbox"/> Yes</p> <p><input type="checkbox"/> It made sustainable investments with an environmental objective: ___%</p> <ul style="list-style-type: none"> <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <p><input type="checkbox"/> It made sustainable investments with a social objective: ___%</p>	<p><input checked="" type="radio"/> <input type="radio"/> <input checked="" type="checkbox"/> No</p> <p><input checked="" type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of 91.83% of sustainable investments</p> <ul style="list-style-type: none"> <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with a social objective <p><input type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments</p>

To what extent were the environmental and/or social characteristics promoted by this financial product met?

Brown Advisory Limited (the “Sub-Investment Manager”) systematically integrated ESG research into its fundamental company research. Environmental and social characteristics were promoted by the Fund’s emphasis on what it believes are leading companies with strong ESG practices. When assessing the sustainability profile of a company, the Sub-Investment Manager sought companies with sustainable opportunities, defined as companies that use sustainability to improve their financial position. One way that companies may improve their financial position is through what the

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

Sub-Investment Manager deems to be internal sustainability strategies that lead to one or more Sustainable Business Advantages or SBAs.

The companies held in the Fund that had a demonstrable SBA had a positive impact on a variety of environmental and social outcomes including, though not limited to, the promotion of the following:

- Diversity, Inclusion, & Equality
- Economic Mobility & Community Development
- Efficient Production & Conservation
- Health & Wellness
- Sustainable Agriculture & Natural Resource Management
- Sustainable Technology Innovation

● ***How did the sustainability indicators perform?***

To the extent data was available and reliable, relevant ESG characteristics were reviewed and analysed for all companies in the Fund. The investment approach for the strategy is based on the bottom-up analysis of multiple ESG characteristics, and no specific quantitative performance thresholds are set. Overall, the ESG analysis performed indicated that the companies had, in the view of the Fund Manager, adequate ESG risk management practices and many also possessed a Sustainable Business Advantage.

● ***...and compared to previous periods?***

NA

● ***What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?***

The sustainable investments that the Fund made are those that demonstrate at least one of the following:

1. a primary product/service or range of products/services that solve for environmental or social challenges, and/or
2. operations, capital discipline, policies or programs that drive improved efficiency and/or conserve resources resulting in positive environmental or social outcomes, and/or
3. a franchise whose value is clearly enhanced by its positive environmental or social characteristics

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

All sustainable investments have been determined to, in the view of the Sub-Investment Manager, avoid severe negative impacts on society or the environment.

How were the indicators for adverse impacts on sustainability factors taken into account?

The Fund considers principal adverse impacts of its investment decisions on sustainability factors as part of its investment due diligence process and procedures as set out in the Manager's Principal Adverse Impact Due Diligence Policy found https://www.brownadvisory.com/sites/default/files/Principal_Adverse_Impact_Due_Diligence_Policy_Brown_Advisory_Ireland_Limited.pdf.

During the reference period, the Fund did not have access to a reliable data source that would allow for the systematic assessment of the all of the Principal Adverse Indicators (PAI) outlined in Annex 1 of SFDR. Beginning in 2023, certain of these PAI metrics will be considered in the investment approach and used to contribute to the overall assessment of how sustainability factors may be negatively impacted.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

During the reference period, the Fund did not systematically assess alignment with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights. Beginning in 2023, an assessment of alignment with these principles will be systematically integrated into the ESG analysis.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the Union criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the Union criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

How did this financial product consider principal adverse impacts on sustainability factors?

The Fund considers principal adverse impacts of its investment decisions on sustainability factors as part of its investment due diligence process and procedures as set out in the Manager's Principal Adverse Impact Due Diligence Policy found https://www.brownadvisory.com/sites/default/files/Principal_Adverse_Impact_Due_Diligence_Policy_Brown_Advisory_Ireland_Limited.pdf.

During the reference period the Fund did not have access to a reliable data source that would allow for the systematic assessment of the all of the Principal Adverse Indicators (PAI) outlined in Annex 1 of SFDR. Beginning in 2023, certain of these PAI metrics will be considered in the investment approach and used to contribute to the overall assessment of how sustainability factors may be negatively impacted.

What were the top investments of this financial product?

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is: The financial year end of the company, October 31st 2022

Largest investments	Sector	% Assets	Country
Microsoft Corp	InformationTechnology	7.45	US
Visa Inc Class A	InformationTechnology	5.17	US
Mastercard Inc Class A	InformationTechnology	4.52	US
Alphabet Inc Class C	Communication Services	4.48	US
Unilever PLC	Consumer Staples	4.46	UK
Deutsche Boerse AG	Financials	4.11	DE
Charles Schwab Corp	Financials	4.02	US
Safran SA	Industrials	3.85	FR
Roche Holding AG	Health Care	3.61	CH

HDFC Bank Ltd	Financials	3.47	IN
TJX Companies Inc	Consumer Discretionary	3.41	US
Intuit Inc	Information Technology	3.18	US
Bank Rakyat Indonesia	Financials	3.15	ID
Moody's Corp	Financials	2.70	US

What was the proportion of sustainability-related investments?

91.83% of the Fund's investments were in Sustainable Investments.

Asset allocation describes the share of investments in specific assets.

Enabling activities

directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are

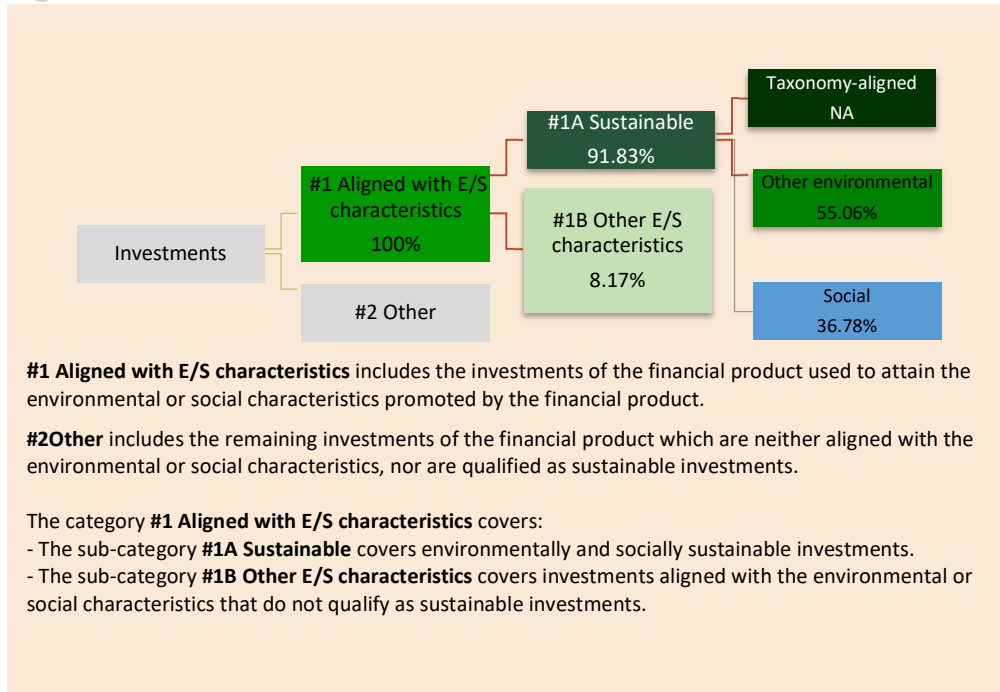

activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

 are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflects the “greenness” of investee companies today.
- **capital expenditure** (CapEx) shows the green investments made by investee companies, relevant for a transition to a green economy.
- **operational expenditure** (OpEx) reflects the green operational activities of investee companies.

● **What was the asset allocation?**

● **In which economic sectors were the investments made?**

Sector	% Assets
Communication Services	7.58
Consumer Discretionary	4.99
Consumer Staples	6.45
Financials	22.6
Health Care	7.36
Industrials	13.49
Information Technology	31.83
Materials	2.42

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

NA

● **What was the share of investments made in transitional and enabling activities?**

NA

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

NA

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

55.06% of the Fund’s investments were Sustainable Investments with a primary non-financial outcome associated with an “environmental” theme, as determined by the Sub-Investment Manager

What was the share of socially sustainable investments?

36.78% of the Fund’s investments were Sustainable Investments with a primary non-financial outcome associated with a “social” theme, as determined by the Sub-Investment Manager.

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

No investments were actively allocated to the “other” category. However, please note that the Fund did hold cash which was used for liquidity purposes.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

Throughout the reference period, the Fund integrated ESG research into its investment due diligence and decision-making process. The ESG analysis conducted included an assessment of sustainable opportunities, ESG risks and good governance.

The Fund also engaged with many companies in the Fund, conducting direct engagements with companies in addition to engagements with other experts. Furthermore, the Fund participated in a number of collaborative engagement initiatives throughout the period and remains committed to collaborating with the industry to promote positive and material environmental and social outcomes.

How did this financial product perform compared to the reference benchmark?

The Fund does not use a reference benchmark to determine whether the financial product is aligned with the environmental and/or social characteristics that it promotes.

- **How does the reference benchmark differ from a broad market index?**

NA

- **How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?**

NA

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

- ***How did this financial product perform compared with the reference benchmark?***

NA

- ***How did this financial product perform compared with the broad market index?***

NA

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: Brown Advisory Funds plc – Brown Advisory US Sustainable Growth Fund
Legal entity identifier: 635400YQDOEVKMPDS494

Environmental and/or social characteristics

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Did this financial product have a sustainable investment objective?

Yes

It made **sustainable investments with an environmental objective: ___%**

- in economic activities that qualify as environmentally sustainable under the EU Taxonomy
- in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

It made **sustainable investments with a social objective: ___%**

No

It **promoted Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of 94.15% of sustainable investments

- with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
- with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
- with a social objective

It promoted E/S characteristics, but **did not make any sustainable investments**

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The environmental and social characteristics of the Fund were promoted by investing in fundamentally strong companies that the Investment Manager assessed to have adequate ESG risk management practices and strong sustainable opportunities. All of the investments in the Fund had at least one identifiable Sustainable Business Advantage.

Through their Sustainable Business Advantages, the companies held in the Fund had a positive impact on a variety of environmental and social outcomes including, though not necessarily limited to, the promotion of the following:

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

- Clean Water & Sanitation
- Economic Mobility & Community Development
- Efficient Production & Conservation
- Health & Wellness
- Sustainable Agriculture & Natural Resource Management
- Sustainable Technology Innovation

● ***How did the sustainability indicators perform?***

To the extent data was available and reliable, relevant ESG characteristics were reviewed and analysed for all companies in the Fund. The investment approach for the strategy is based on the bottom-up analysis of multiple ESG characteristics, and no specific quantitative performance thresholds are set. Overall, the ESG analysis performed indicated that the companies had, in the view of the Fund, adequate ESG risk management practices and at least one identifiable Sustainable Business Advantage.

● ***...and compared to previous periods?***

NA

● ***What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?***

The sustainable investments that the Fund made were those that demonstrate at least one of the following:

1. a primary product/service or range of products/services that solve for environmental or social challenges, and/or
2. operations, capital discipline, policies or programs that drive improved efficiency and/or conserve resources resulting in positive environmental or social outcomes, and/or
3. a franchise whose value is clearly enhanced by its positive environmental or social characteristics

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

All sustainable investments have been determined to, in the view of the Investment Manager, avoid severe negative impacts on society or the environment. Additionally, continued compliance monitoring confirmed that all companies in the Fund abided by the Fund's exclusionary screen.

How were the indicators for adverse impacts on sustainability factors taken into account?

The Fund considers principal adverse impacts of its investment decisions on sustainability factors as part of its investment due diligence process and procedures as set out in the Manager's Principal Adverse Impact Due Diligence Policy found https://www.brownadvisory.com/sites/default/files/Principal_Adverse_Impact_Due_Diligence_Policy_Brown_Advisory_Ireland_Limited.pdf.

During the reference period, the Fund did not have access to a reliable data source that would allow for the systematic assessment of the all of the Principal Adverse Indicators (PAI) outlined in Annex 1 of SFDR. Beginning in 2023, certain of these PAI metrics will be considered in the investment approach and used to contribute to the overall assessment of how sustainability factors may be negatively impacted.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

During the reference period, the Fund did not systematically assess alignment with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights. Beginning in 2023, an assessment of alignment with these principles will be systematically integrated into the ESG analysis.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the Union criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the Union criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The Fund considers principal adverse impacts of its investment decisions on sustainability factors as part of its investment due diligence process and procedures as set out in the Manager's Principal Adverse Impact Due Diligence Policy found https://www.brownadvisory.com/sites/default/files/Principal_Adverse_Impact_Due_Diligence_Policy_Brown_Advisory_Ireland_Limited.pdf.

64.08% of the Fund's investments were Sustainable Investments with a primary non-financial outcome associated with an "environmental" theme, as determined by the Investment Manager.

What was the share of socially sustainable investments

30.07% of the Fund's investments were Sustainable Investments with a primary non-financial outcome associated with a "social" theme, as determined by the Investment Manager.

What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

No investments were actively allocated to the "other" category. However, please note that the Fund did hold cash which was used for liquidity purposes.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

Throughout the reference period, the Fund integrated ESG research into its investment due diligence and decision-making process. The ESG analysis conducted included an assessment of sustainable opportunities, ESG risks and good governance.

During the period, periodic screening was completed to confirm that the companies in the Fund abided by the Fund's stated exclusions that are designed to avoid certain harmful and/or controversial business activities.

The Fund also engaged with many companies in the Fund, conducting direct engagements with Fund holdings in addition to engagements with other stakeholders. Furthermore, the Fund participated in a number of collaborative engagement initiatives throughout the period and remains committed to collaborating with the industry to promote positive and material environmental and social outcomes.

How did this financial product perform compared to the reference benchmark?

The Fund does not use a reference benchmark to determine whether the financial product is aligned with the environmental and/or social characteristics that it promotes.

- ***How does the reference benchmark differ from a broad market index?***

NA

- ***How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?***

NA

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

ANNEX IV

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Product name: Brown Advisory Funds plc – Brown Advisory Global Leaders Sustainable Fund

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?	
<input checked="" type="radio"/> <input checked="" type="radio"/> <input type="checkbox"/> Yes	<input checked="" type="radio"/> <input type="radio"/> <input checked="" type="checkbox"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective: ___% <ul style="list-style-type: none"> <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy 	<input checked="" type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of 91.50% of sustainable investments <ul style="list-style-type: none"> <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with a social objective
<input type="checkbox"/> It made sustainable investments with a social objective: ___%	<input type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

To what extent were the environmental and/or social characteristics promoted by this financial product met?

Brown Advisory Limited (the “Sub-Investment Manager”) systematically integrated ESG research into its fundamental company research. Environmental and social characteristics were promoted by the Fund’s emphasis on what it believes are leading companies with strong ESG practices. When assessing the sustainability profile of a company, the Sub-Investment Manager sought companies with sustainable opportunities, defined as companies that use sustainability to improve their financial position. One way that companies may improve their financial position is

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

through what the Sub-Investment Manager deems to be internal sustainability strategies that lead to one or more Sustainable Business Advantages or SBAs.

The companies held in the Fund that had a demonstrable SBA had a positive impact on a variety of environmental and social outcomes including, though not limited to, the promotion of the following:

- Diversity, Inclusion, & Equality
- Economic Mobility & Community Development
- Efficient Production & Conservation
- Health & Wellness
- Sustainable Agriculture & Natural Resource Management
- Sustainable Technology Innovation

● ***How did the sustainability indicators perform?***

The Fund considers principal adverse impacts of its investment decisions on sustainability factors as part of its investment due diligence process and procedures as set out in the Manager's Principal Adverse Impact Due Diligence Policy found https://www.brownadvisory.com/sites/default/files/Principal_Adverse_Impact_Due_Diligence_Policy_Brown_Advisory_Ireland_Limited.pdf.

To the extent data was available and reliable, relevant ESG characteristics were reviewed and analysed for all companies in the Fund. The investment approach for the strategy is based on the bottom-up analysis of multiple ESG characteristics, and no specific quantitative performance thresholds are set. Overall, the ESG analysis performed indicated that the companies had, in the view of the Fund Manager, adequate ESG risk management practices and many also possessed a Sustainable Business Advantage.

● ***...and compared to previous periods?***

NA

● ***What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?***

The sustainable investments that the Fund made are those that demonstrate at least one of the following:

1. a primary product/service or range of products/services that solve for environmental or social challenges, and/or
2. operations, capital discipline, policies or programs that drive improved efficiency and/or conserve resources resulting in positive environmental or social outcomes, and/or
3. a franchise whose value is clearly enhanced by its positive environmental or social characteristics

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

All sustainable investments have been determined to, in the view of the Sub-Investment Manager, avoid severe negative impacts on society or the environment. Additionally, continued compliance monitoring confirmed that all companies in the Fund abided by the Fund's exclusionary screen.

How were the indicators for adverse impacts on sustainability factors taken into account?

The Fund considers principal adverse impacts of its investment decisions on sustainability factors as part of its investment due diligence process and procedures as set out in the Manager's Principal Adverse Impact Due Diligence Policy found https://www.brownadvisory.com/sites/default/files/Principal_Adverse_Impact_Due_Diligence_Policy_Brown_Advisory_Ireland_Limited.pdf.

During the reference period, the Fund did not have access to a reliable data source that would allow for the systematic assessment of all of the Principal Adverse Indicators (PAI) outlined in Annex 1 of SFDR. Beginning in 2023, certain of these PAI metrics will be considered in the investment approach and used to contribute to the overall assessment of how sustainability factors may be negatively impacted.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

During the reference period, the Fund did not systematically assess alignment with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights. Beginning in 2023, an assessment of alignment with these principles will be systematically integrated into the ESG analysis.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the Union criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the Union criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

How did this financial product consider principal adverse impacts on sustainability factors?

The Fund considers principal adverse impacts of its investment decisions on sustainability factors as part of its investment due diligence process and procedures as set out in the Manager's Principal Adverse Impact Due Diligence Policy found

https://www.brownadvisory.com/sites/default/files/Principal_Adverse_Impact_Due_Diligence_Policy_Brown_Advisory_Ireland_Limited.pdf.

During the reference period the Fund did not have access to a reliable data source that would allow for the systematic assessment of the all of the Principal Adverse Indicators (PAI) outlined in Annex 1 of SFDR. Beginning in 2023, certain of these PAI metrics will be considered in the investment approach and used to contribute to the overall assessment of how sustainability factors may be negatively impacted.

What were the top investments of this financial product?

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is: The financial year end of the company, October 31st 2022

Largest investments	Sector	% Assets	Country
Microsoft Corp	Information Technology	7.78	US

What was the proportion of sustainability-related investments?

91.5% of the Fund's investments were in Sustainable Investments.

Asset allocation describes the share of investments in specific assets.

Enabling activities

directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are

activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

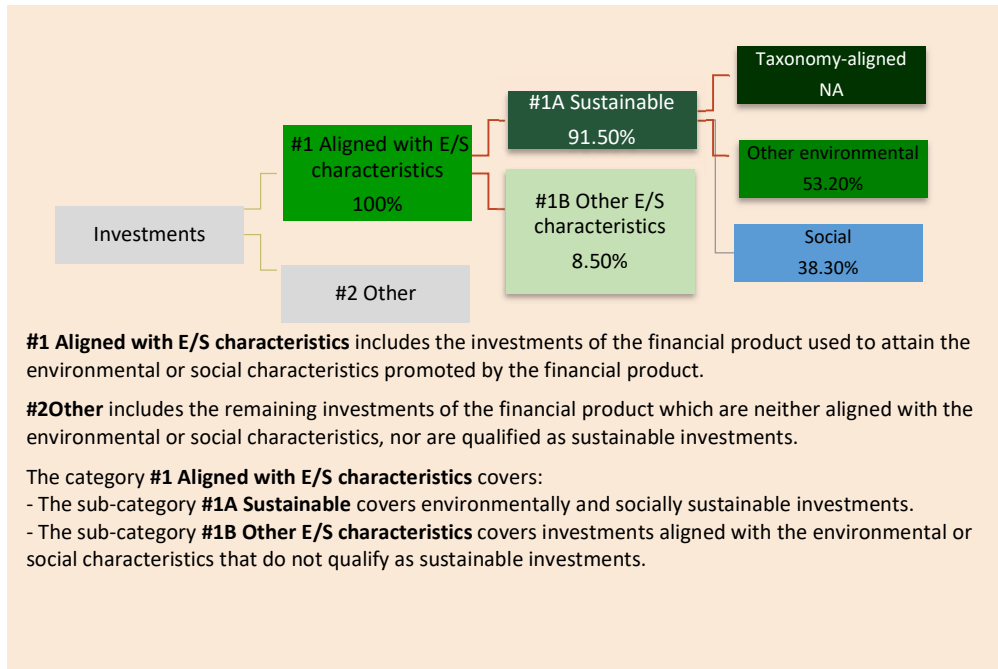

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflects the “greenness” of investee companies today.
- **capital expenditure** (CapEx) shows the green investments made by investee companies, relevant for a transition to a green economy.
- **operational expenditure** (OpEx) reflects the green operational activities of investee companies.

● **What was the asset allocation?**

● **In which economic sectors were the investments made?**

Sector	% Assets
Communication Services	7.90
Consumer Discretionary	5.20
Consumer Staples	6.72
Financials	23.55
Health Care	7.66
Industrials	10.05
Information Technology	33.20
Materials	2.51

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

NA

● **What was the share of investments made in transitional and enabling activities?**

NA

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

NA

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

53.20% of the Fund’s investments were Sustainable Investments with a primary non-financial outcome associated with an “environmental” theme, as determined by the Sub-Investment Manager.

What was the share of socially sustainable investments?

38.30% of the Fund’s investments were Sustainable Investments with a primary non-financial outcome associated with a “social” theme, as determined by the Sub-Investment Manager.

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

No investments were actively allocated to the “other” category. However, please note that the Fund did hold cash which was used for liquidity purposes.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

Throughout the reference period, the Fund integrated ESG research into its investment due diligence and decision-making process. The ESG analysis conducted included an assessment of sustainable opportunities, ESG risks and good governance.

During the period, periodic screening was completed to confirm that the companies in the Fund abided by the Fund’s stated exclusions that are designed to avoid certain harmful and/or controversial business activities. The Fund also engaged with many companies in the Fund, conducting direct engagements with companies in addition to engagements with other experts. Furthermore, the Fund participated in a number of collaborative engagement initiatives throughout the period and remains committed to collaborating with the industry to promote positive and material environmental and social outcomes.

How did this financial product perform compared to the reference benchmark?

The Fund does not use a reference benchmark to determine whether the financial product is aligned with the environmental and/or social characteristics that it promotes.

Did this financial product have a sustainable investment objective?	
<input checked="" type="radio"/> <input checked="" type="radio"/> <input type="checkbox"/> Yes	<input checked="" type="radio"/> <input type="radio"/> <input checked="" type="checkbox"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective: ___% <ul style="list-style-type: none"> <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy 	<input checked="" type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of 94.15% of sustainable investments <ul style="list-style-type: none"> <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with a social objective
<input type="checkbox"/> It made sustainable investments with a social objective: ___%	<input type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The environmental and social characteristics promoted by the Fund were:

Environmental: The Fund sought to exclude companies that are responsible for significant carbon emissions (e.g., extractive energy companies), without meaningful plans for strategic decarbonisation. The generation of excessive carbon pollution may be a contributing factor to the exclusion of an investee company as determined through this selection process.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

Social: The Fund preferred companies showcasing leadership in human capital management, and/or have strategic oversight of supply chains and the labour force as to limit controversies. Poor working conditions and high employee turnover within a company may be contributing factors that lead to the exclusion of an investee company as determined through this selection process.

Governance: The Fund preferred quality and established management teams that have sound governance structures and capital allocation practices. The Fund engaged, through proxy voting and other mechanisms, to vocalise the importance of appropriate incentives, such as compensation and board quality, to enable long term performance. Inappropriate governance structures, such as a lack of alignment with long-term stakeholders, that are determined by the Sub-investment Manager, may be a contributing factor that leads to the exclusion of an investee company through this selection process.

The environmental and social characteristics of the Fund were promoted by:

- Taking sustainability risks into account during the due diligence process
- Taking material principal adverse impacts on sustainability factors into account in the context of each portfolio company
- Positively considering investment assets with high potential to improve their ESG performance
- Supporting investment assets in improving sustainability factors material to their ESG performance through:
 - o regular engagement with the management, boards and senior executives of portfolio companies;
 - o openness to collaboration with other investors to identify and implement targeted initiatives; and
 - o exercising our voting rights.

When applicable, proxy voting guidelines aided decisions that considered the following:

- A diverse and majority independent Board of Directors;
- A Board of Directors with oversight of ESG issues;
- Compensation programs promoting the inclusion of ESG metrics where appropriate; and
- Thoughtful, realistic progress on climate strategies aligned with the Paris Agreement and ambitions on DE&I initiatives at all levels

The Fund sought to exclude holdings the Sub-Investment Manager deemed inconsistent with applicable ESG characteristics described above. Beutel Goodman policies for this Fund avoid investing in companies that derive significant revenue (typically in excess of 10% of total revenue on an annual basis, or as may otherwise be determined by the Sub-Investment Manager from time-to-time) from:

- Tobacco;
- Adult entertainment;
- Civilian firearms;
- Thermal coal;
- Companies that produce controversial weapons (0% total revenue); and
- Companies the Sub-Investment Manager is aware have been delisted by the United Nations from participation in the UN Global Compact framework.

In determining whether to invest, the Sub-Investment Manager used screening tools from vendors that it believes to be reliable. These third-party ESG data providers (MSCI and Bloomberg) were utilised to complement the Sub-Investment Manager's internal ESG assessments as an additional

reference measure for the Fund's sustainability profile. These ESG data providers, along with internal and publicly available information, were able to provide data that can be used to gain insights and track the performance of sustainability indicators for companies.

● ***How did the sustainability indicators perform?***

Beutel Goodman obtained sustainability information from external data providers, such as MSCI and Bloomberg. The following indicators were evaluated:

- Principal adverse impact indicators (PAIs)
- ESG/sustainability risk evaluation (internal qualitative and / or quantitative assessment)
- ESG performance evaluation (internal qualitative and / or quantitative assessment)
- Specific environmental sustainability indicators (e.g. carbon footprint)
- Specific social sustainability indicators (e.g. diversity metrics)

Performance data from Bloomberg and MSCI are not available for 2022 sustainability indicators as the year is not yet complete but are expected to be available in 2023 for reporting. Available data was gathered from Bloomberg, MSCI, publicly available data, and internal data to provide the below insights for 2021. When 2021 data was not available, MSCI 2020 data was used as a supplement.

For the calendar year 2021, there were 32 investee companies in the Fund; 3 were acquired during the year. Not all companies reported data for each indicator. From the most recent data available (2021 with gaps filled in using 2018, 2019, and 2020 data), 94% of companies in the portfolio reported on their scope 1, 2, and 3 greenhouse gas (GHG) emissions. 26 companies reported on scope 1 and 2 emissions in 2021 and 6 reported in 2020. 25 companies reported on scope 3 emissions in 2021 and 5 reported in 2020. 2 companies did not report on scope 3 emissions. 31 of 32 companies reported consuming renewable energy (using data from 2018, 2019, and 2021) and 3 companies used more than 50% renewable energy in their operations. All companies reported "N/A" for renewable energy produced, so it was assumed that no company produced their own renewable energy. 32 companies reported on their total energy consumption (using data from 2018, 2019, and 2021). No companies reported on emissions to water and 12 companies reported on hazardous or radioactive waste produced. No companies operated in biodiversity sensitive areas and only one company gained revenue from fossil fuels. Of the 28 companies that reported, 93% of companies had a carbon reduction initiative and 57% had an initiative that aligned with the Paris Agreement (based on 2020 MSCI data). 29 of 32 companies reported having policies indicating they monitor UNGC principles and OECD Guidelines for Multinational Enterprises. 2 companies reported not having such policies in place, and 1 company did not report on this indicator. MSCI assessed the severity and wide-spread nature of controversies across human rights, corruption, environment, and labor. Based on 2020 MSCI data, for the companies that reported (28), 21 all had passing compliance and 7 did not disclose the data. There were 3 companies that had a violation of the UNGC principles or OECD Guidelines for Multinational Enterprises, based on 2021 Bloomberg data. These violations did not contradict Beutel Goodman's guidelines, and necessary engagement with the companies has occurred. 32 companies reported on board diversity and 1 company reported having a female board ratio of at least 50%. Only 7 companies reported on their gender pay gap (4 in 2021 and 3 in 2019). No companies manufacture or sell controversial weapons, aligning with the Fund's exclusion policy. 78% of companies (25) reported having accident prevention policies in place (based on 2020 MSCI data). 7 companies did not report on this indicator.

Based on the data available, it can be noted that most companies do not report on the gender pay gap. Most companies also lack in purchasing renewable energy and most energy consumption is from non-renewable sources. It can also be noted that no companies reported renewable energy

production as being applicable to their operations. It was assumed if data relating to operations in biodiversity sensitive areas was not reported, then the criteria was not relevant to the company.

The PAI statement located on the company's website (Responsible Investing – Beutel, Goodman & Company Ltd. (beutelgoodman.com) provides additional information on this portfolio.

● ***...and compared to previous periods?***

Performance data is not available for 2022 sustainability indicators as the year has not ended but is expected to be available in 2023 for reporting. 2021 will be the baseline year for 2022 reporting. When 2022 data is available, it will be compared to the 2021 indicator performance described in the above section.

● ***What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?***

Making sustainable investments is not an objective of the Fund and the Fund is not committed to making sustainable investments.

● ***How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?***

Making sustainable investments is not an objective of the Fund and the Fund is not committed to making sustainable investments.

— ***How were the indicators for adverse impacts on sustainability factors taken into account?***

The Fund does not have making sustainable investments as its objective and it is not committed to making sustainable investments.

— ***Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:***

The Fund does not have making sustainable investments as its objective and it is not committed to making sustainable investments.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the Union criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the Union criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The Sub-Investment Manager considered principal adverse impacts of investment decisions on environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters (“Sustainability Factors”). The Sub-investment Manager leveraged third-party data providers (MSCI and Bloomberg) to monitor the principal adverse impacts of the Fund’s investments.

The most material factors to each investment were identified through a combination of internal research, data from third-party ESG data providers, and meetings with company management. Using a bottom-up, disciplined, value-investing approach, each research report or update the Sub-Investment Manager prepared incorporated ESG considerations. The principal adverse impacts identified in the valuation assessments also formed a basis for identifying potentially productive avenues for engaging in active ownership. The Sub-Investment Manager believes that specific interventions, whether achieved through direct engagement with the management team, proxy voting or collaborating with other investors, are most effective when they are targeted at the negative impacts most material to an asset’s long-term value.

The Sub-Investment Manager adopted a Principal Adverse Sustainability Impacts Statement. The Principal Adverse Sustainability Impacts Statement and other information related to the firm’s responsibilities under the Regulation (EU) 2019/2088 of the European Parliament and of the Council of 27 November 2019 on sustainability-related disclosures in the financial services sector (the “Regulation”), and the firm’s approach to ESG (Environmental, Social, and Governance factors) and responsible investment in general, can be found on the firm’s website.

The Fund applied the draft regulatory technical standards (the “RTS”) developed with respect to climate and other environment-related adverse impacts, and with respect to social and employee matters, respect for human rights, anti-corruption and anti-bribery matters and applied any changes in the RTS upon adoption by the European Commission.

Due to the geographical focus of the Fund and the minority positions that the Fund takes in target assets, the Fund had difficulty collecting complete sets of quantitative information directly from the assets, or relevant financial market participants. Specifically, in regard to the geographical focus, assets located in the United States were not subject to the non-financial reporting initiatives of the European Union and did not collect or report the information in the specificity, format, or reporting period required under the Regulation. Specifically, in regard to the minority positions in investment assets,

the Fund's ability to directly collect information is subject to investment assets' responsiveness to requests for information.

When direct information was not available, the Fund utilized a combination of qualitative descriptions, internally or externally produced estimates, partial information, and a description of the efforts it took to gather the data to produce its reporting, as permitted under the Regulation.

More information on these principal adverse impacts, the Sub-Investment Manager's policies to identify and prioritise them, and engagement policies to address them, can be found in the Principal Adverse Impact Statement and the Sub-Investment Manager's Responsible Investment Policy located in the "Sustainability-related disclosures" section of the Sub-Investment Manager's website.

What were the top investments of this financial product?

Largest investments	Sector	% Assets	Country
Amgen Inc	Health Care	5.47	US
Amdocs Ltd	Information Technology	4.73	US
Harley-Davidson Inc	Consumer Discretionary	4.66	US
Omnicom Group Inc	Industry	4.63	US
Merck & Co Inc	Health Care	4.53	US

Polaris Inc	Consumer Discretionary	3.17	US
SEI Investments Co	Financials	3.15	US

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is: January 1st 2022 to the financial year end of the company, October 31st 2022

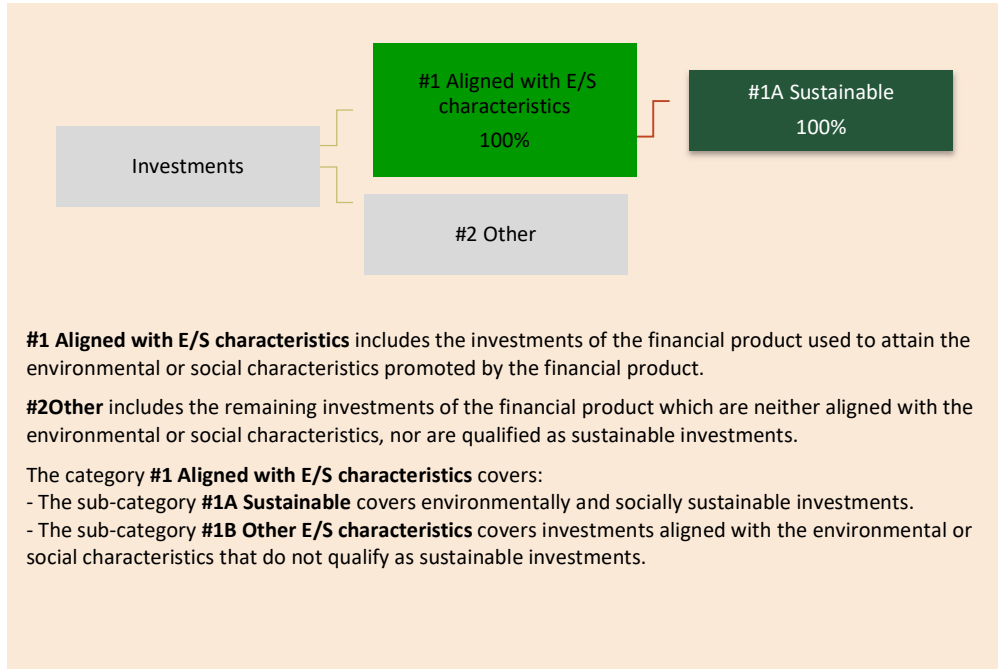

What was the proportion of sustainability-related investments?

The Fund made no sustainability-related investments.

Asset allocation describes the share of investments in specific assets.

● **What was the asset allocation?**

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflects the “greenness” of investee companies today.
- **capital expenditure** (CapEx) shows the green investments made by investee companies, relevant for a transition to a green economy.
- **operational expenditure** (OpEx) reflects the green operational activities of investee companies.

● **In which economic sectors were the investments made?**

Sector	% Assets
Communication Services	9.96
Consumer Discretionary	14.27
Financials	12.83
Health Care	15.78
Industrials	16.15
Information Technology	14.89
Materials	13.31
Real Estate	0.66

Based on holding data from 31 October 2022, the fund was allocated accordingly

Based on data from 30 November 2022, the fund was most invested in the industrial (6 companies), consumer discretionary (5), and financials (5) sectors. The Fund also had additional investments in the healthcare (4), information technology (4), communication services (3), consumer staples (3), and materials (1) sectors. Based on the available data, between 1 January 2022 and 30 November 2022, the Fund divested four companies and invested in six. On 30 November 2022, the portfolio had two more investments in financials, one more in information technology sector, and one less investment in the communications sector when compared to 31 December 2021.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

Enabling activities

directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are

activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

The Fund may make investments that qualify as “sustainable investments” that may or may not be aligned with the EU Taxonomy, but the Fund is not committed to making sustainable investments, with or without any minimum EU Taxonomy alignment.

● **What was the share of investments made in transitional and enabling activities?**

The Fund did not allocate any fixed minimum proportion of its assets to EU Taxonomy transitional or enabling economic activities.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

The Fund did not allocate any fixed minimum proportion of its assets to sustainable investments that are aligned with the EU Taxonomy.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

The Fund did not allocate any fixed minimum proportion of its assets to sustainable investments with an environmental objective that are not aligned with the EU Taxonomy.

What was the share of socially sustainable investments

The Fund did not allocate any fixed minimum proportion of its assets to socially sustainable investments.

What investments were included under “not sustainable”, what was their purpose and were there any minimum environmental or social safeguards?

100 % of the investments are included as “not sustainable” as per the 2(17) definitions. The purpose of these investments was to promote environmental and social characteristics through Beutel Goodman’s policies and investment strategies for the Fund. The sub-Investment Manager runs an MSCI ESG screen for each new investment and then on a quarterly basis thereafter. When evaluating an investment opportunity, the selection process evaluates a variety of factors and material themes. No one factor may exclude an investment but considering these factors comprehensively may lead to an exclusion.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Fund promoted environmental and social characteristics through the investment selection process and engagement with investors and companies. Companies were excluded when the energy transition risk was too difficult to assess, providing too much uncertainty for the long-term cash flows and viability of the company. The due diligence process allowed for a selection of companies that had limited carbon emissions, meaningful plans for strategic decarbonisation, limited supply chain and labor controversies and that had low employee turnover. When applicable, the Fund also promoted E&S characteristics through exercising its voting rights that aided decisions that considered companies with long-term climate strategies and that exhibited ambitions on DE&I initiatives at all levels.

How did this financial product perform compared to the reference benchmark?

The Fund will not refer to a reference benchmark for the purpose of attaining the environmental or social characteristics promoted by the Fund.

- ***How does the reference benchmark differ from a broad market index?***

This is not applicable as the Fund did not allocate any fixed minimum proportion of its assets to sustainable investments.

- ***How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?***

This is not applicable as the Fund did not allocate any fixed minimum proportion of its assets to sustainable investments.

- ***How did this financial product perform compared with the reference benchmark?***

This is not applicable as the Fund did not allocate any fixed minimum proportion of its assets to sustainable investments.

- ***How did this financial product perform compared with the broad market index?***

This is not applicable as the Fund did not allocate any fixed minimum proportion of its assets to sustainable investments.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Product name: Brown Advisory Funds plc – Brown Advisory Global Sustainable Total Return Bond Fund (GBP)
Legal entity identifier: 635400MBK8KJBCLIFV28

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?	
<p>●● <input type="checkbox"/> Yes</p> <p><input type="checkbox"/> It made sustainable investments with an environmental objective: ___%</p> <ul style="list-style-type: none"> <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <p><input type="checkbox"/> It made sustainable investments with a social objective: ___%</p>	<p>● <input checked="" type="checkbox"/> No</p> <p><input checked="" type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of 91.11% of sustainable investments</p> <ul style="list-style-type: none"> <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with a social objective <p><input type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments</p>

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The Fund promoted environmental and social characteristics by investing primarily in bonds, the companies of which all followed Good Governance principals, and generated impact in one of three ways: “Labelled Bond”, “Targeted Use of Proceeds” and “Impactful Issuer”. Through the issuer’s identified sustainable opportunities, the issuers held in the Fund had a positive impact on a variety of environmental and social outcomes including, though not necessarily limited to, the promotion of the following:

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

- Clean Energy
- Economic Mobility & Community Development
- Efficient Production & Conservation
- Health & Wellness
- Sustainable Technology Innovation

● ***How did the sustainability indicators perform?***

To the extent data was available and reliable, relevant ESG characteristics were reviewed and analysed for all holdings of the Fund for which sufficient data was available to conduct analysis (i.e. all holdings except for cash). The investment approach for the Fund is based on thorough analysis of multiple ESG characteristics, and no specific quantitative performance thresholds are set. Overall, the ESG analysis performed indicated that the Fund primarily consisted of issuers that, in the view of the Fund, had adequate ESG risk management practices and assessed to either be a “Labelled Bond”, “Targeted Use of Proceeds” and “Impactful Issuer”.

● ***...and compared to previous periods?***

NA

● ***What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?***

The sustainable investments that the Fund made were those that demonstrate at least one of the following:

1. a primary product/service or range of products/services that solve for environmental or social challenges, and/or
2. operations, capital discipline, policies or programs that drive improved efficiency and/or conserve resources resulting in positive environmental or social outcomes, and/or
3. a franchise whose value is clearly enhanced by its positive environmental or social characteristics

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

All sustainable investments have been determined to, in the view of the Investment Manager and Sub-Investment Manager, avoid severe negative impacts on society or the environment. Additionally, continued compliance monitoring confirmed that all corporate bonds in the Fund abided by the Fund's exclusionary screen.

How were the indicators for adverse impacts on sustainability factors taken into account?

The Fund considers principal adverse impacts of its investment decisions on sustainability factors as part of its investment due diligence process and procedures as set out in the Manager's Principal Adverse Impact Due Diligence Policy found https://www.brownadvisory.com/sites/default/files/Principal_Adverse_Impact_Due_Diligence_Policy_Brown_Advisory_Ireland_Limited.pdf.

During the reference period, the Fund did not have access to a reliable data source that would allow for the systematic assessment of the all of the Principal Adverse Indicators (PAI) outlined in Annex 1 of SFDR. Beginning in 2023, certain of these PAI metrics will be considered in the investment approach and used to contribute to the overall assessment of how sustainability factors may be negatively impacted.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

During the reference period, the Fund did not systematically assess alignment with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights. Beginning in 2023, an assessment of alignment with these principles will be systematically integrated into the ESG analysis.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the Union criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the Union criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The Fund considers principal adverse impacts of its investment decisions on sustainability factors as part of its investment due diligence process and procedures as set out in the Manager's Principal Adverse Impact Due Diligence Policy found https://www.brownadvisory.com/sites/default/files/Principal_Adverse_Impact_Due_Diligence_Policy_Brown_Advisory_Ireland_Limited.pdf.

During the reference period the Fund did not have access to a reliable data source that would allow for the systematic assessment of the all of the Principal Adverse Indicators (PAI) outlined in Annex 1 of SFDR. Asset allocation describes the share of investments in specific assets.

Bloomberg Industry Sector

What was the proportion of sustainability-related investments?

91.11% of the Fund's investments were in Sustainable Investments.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

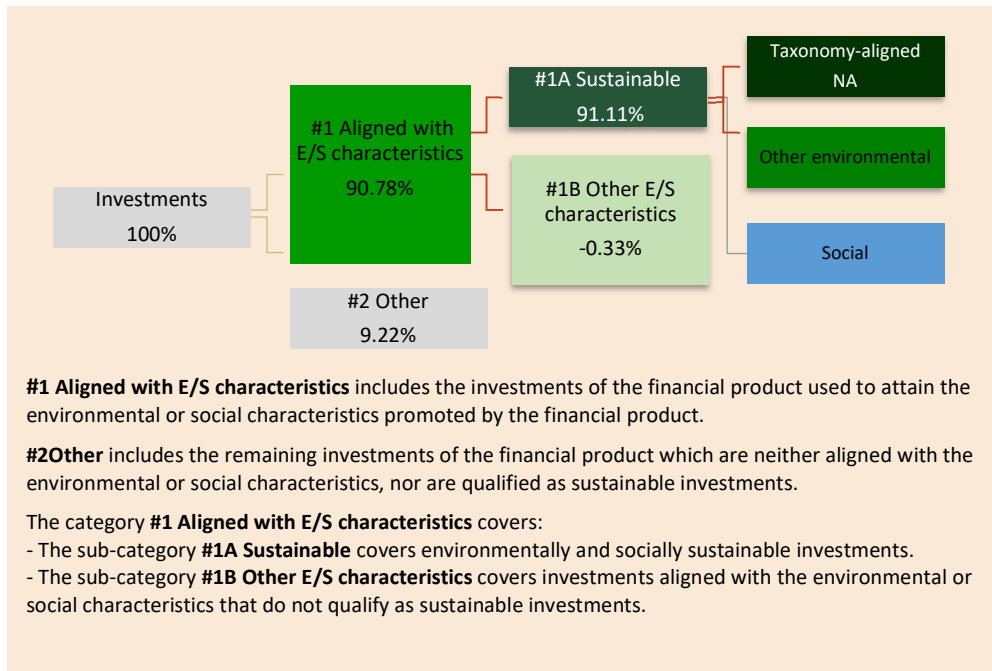

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflects the “greenness” of investee companies today.
- **capital expenditure** (CapEx) shows the green investments made by investee companies, relevant for a transition to a green economy.
- **operational expenditure** (OpEx) reflects the green operational activities of investee companies.

● **What was the asset allocation?**

6.44% of the investments were Sustainable Investments with a primary non-financial outcome associated with an “environmental” theme. 4.00% of the investments were Sustainable Investments with a primary non-financial outcome associated with a “social” theme. 80.67% of the investments were Sustainable Investments with non-financial outcomes associated with a both environmental and social themes.

● **In which economic sectors were the investments made?**

Sector	% Assets
Communication Services	1.92
Consumer Discretionary	0.49
Consumer Staples	2.12

Bloomberg Industry Sector.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

NA

- **What was the share of investments made in transitional and enabling activities?**

NA

- **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

NA

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

6.44% of the Fund's investments were Sustainable Investments with a primary non-financial outcome associated with an "environmental" theme, as determined by the Investment Manager and Sub-Investment Manager. Additionally, 80.67% of the investments were Sustainable Investments with non-financial outcomes associated with a both environmental and social themes, as determined by the Investment Manager and Sub-Investment Manager.

What was the share of socially sustainable investments?

4.00% of the Fund's investments were Sustainable Investments with a primary non-financial outcome associated with a "social" theme, as determined by the Investment Manager and Sub-Investment Manager. Additionally, 80.67% of the investments were Sustainable Investments with non-financial outcomes associated with a both environmental and social themes, as determined by the Investment Manager and Sub-Investment Manager.

What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

Cash securities that were not actively allocated. In these cases, the currency was determined by the investor investing in the Fund and therefore no analysis was undertaken to determine what currency the position was in.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

Throughout the reference period, the Fund integrated ESG research into its investment due diligence and decision-making process. The Investment Manager and Sub-Investment Manager conducted ESG analysis at the sector, company or security level for every in-scope ESG investment made in the Fund, including an ESG Risk Assessment, Sustainable Opportunity Assessment, Use of Proceeds Assessment and Good Governance Assessment.

During the period, periodic screening was completed to confirm that the corporate issuers in the Fund abided by the Fund's stated exclusions that are designed to avoid certain harmful and/or controversial business activities.

The Fund also engaged with certain issuers in the Fund, conducting direct engagements with Fund holdings in addition to engagements with other stakeholders. Furthermore, the Fund participated in a

number of collaborative engagement initiatives throughout the period and remains committed to collaborating with the industry to promote positive and material environmental and social outcomes.

How did this financial product perform compared to the reference benchmark?

The Fund does not use a reference benchmark to determine whether the financial product is aligned with the environmental and/or social characteristics that it promotes.

- ***How does the reference benchmark differ from a broad market index?***

NA

- ***How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?***
