

Key Investor Information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

UBS Asian Smaller Companies Fund, class Class C accumulation Shares (ISIN: GB00BNRRDM71), UBS Investment Funds ICVC

This Fund is managed by UBS Asset Management Funds Ltd, a subsidiary of UBS AG

Objectives and investment policy

The UBS Asian Smaller Companies Fund (the "Fund") aims to grow the value of your investment and outperform the MSCI All Country Asia ex Japan Small & Mid Cap Index (the "Benchmark") after charges over the medium to long term (3 to 5 years).

The Fund invests at least 80% in Asian small-cap and mid-cap equities excluding Japanese equities. Smaller companies are defined as small-cap and mid-cap equities. Small-cap companies, at the time of purchase, are generally defined as having a market capitalisation of less than USD 10 billion in terms of the company's full market capitalisation. It is anticipated that at least 50% to 70% of the Fund will usually be invested in small-cap companies. The Fund may also be invested in mid-cap companies which, at the time of purchase, are generally defined as having a market capitalisation range of between USD 10 billion and USD 40 billion in terms of the company's full market capitalisation. The Fund may have exposure to companies with market capitalisations falling outside this range.

Other information:

- The Fund may also invest in other equities, bonds, warrants, money market instruments, deposits, currencies, cash and near cash and other funds, which may be managed by UBS.
- The other funds that the Fund may invest in include funds managed by the Investment Manager or its affiliates.

- The Fund may use derivatives including forward and future contracts, swaps, options and repurchase agreements for efficient portfolio management only. It is expected that the Fund's use of derivatives will be limited.
- The Fund is actively managed in reference to the Benchmark and may hold some or all of the Benchmark constituents. The Fund generally selects equities based on an assessment of quality and long term valuations. The Investment Manager's decision-making process is driven by fundamental primary research with the aim to identify and invest in above-average quality companies that have good growth potential and trade at attractive valuations.

Investors can buy or sell shares every UK working day, except any day on which securities markets in the main countries in which the Fund invests are closed or on which 50% or more of the investments of the Fund cannot be adequately valued.

The income in respect of an accumulation share class is not distributed but is retained in the Fund and reflected in the share price.

The Fund is denominated in GBP (Sterling). As such, investors may be exposed to changes in the exchange rate between the underlying currency of the Fund's assets and GBP which may have a negative or positive impact on the returns.

Important information: This Fund may not be appropriate for investors who plan to withdraw their money within 7 years of investment.

Risk and reward profile

More about this rating

- The risk category is based on return volatility of the Fund over the last five years or, where the fund has existed for less than five years, a combination of the return volatility of the fund and a model portfolio. The method used for this estimation depends on the type of fund.
- Historical data may not be a reliable indication for the future.
- The risk category shown is not guaranteed and may vary over time.
- The lowest category does not mean 'risk free'.

Why is this fund in Category 6?

The fund is in category 6 because the volatility of past returns of the Index has been very high.

No capital guarantee for this Fund exists so investors could lose the whole of their investment. A more detailed list of the risks can be found in the "Risk Factors" section of the prospectus.

The risk indicator may not fully take into account the following risks.

- Equity risk: Equities (also known as shares) can lose value rapidly and typically involve higher risks than bonds.
- Counterparty risk: counterparties on trades may default or not comply with contractual obligations resulting in loss.
- Exchange rate risk: the value of investments may be impacted by changes in the exchange rates of currencies.
- Derivatives risk: derivatives can be highly sensitive to changes in the value of the asset on which they are based which can increase the size of losses and gains.
- Liquidity risk: securities may become more difficult to sell or sell at a desired price during difficult market conditions.
- Emerging market risk: investments in emerging markets can be at greater risk of loss than in developed markets.
- Smaller Companies risk: Investing in smaller companies may be less liquid than the securities of larger companies as a result of inadequate trading volume and restrictions on trading. Trading in such securities may be subject to more abrupt price movements than trading in the securities of larger companies.

Charges

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry charge	0.00%
Exit charge	0.00%
This is the maximum that might be taken out of your money before it is invested / before the proceeds of your investment are paid out.	
Charges taken from the fund over a year	
Ongoing charges	1.10%
Charges taken from the fund under certain specific conditions	
Performance fee	none

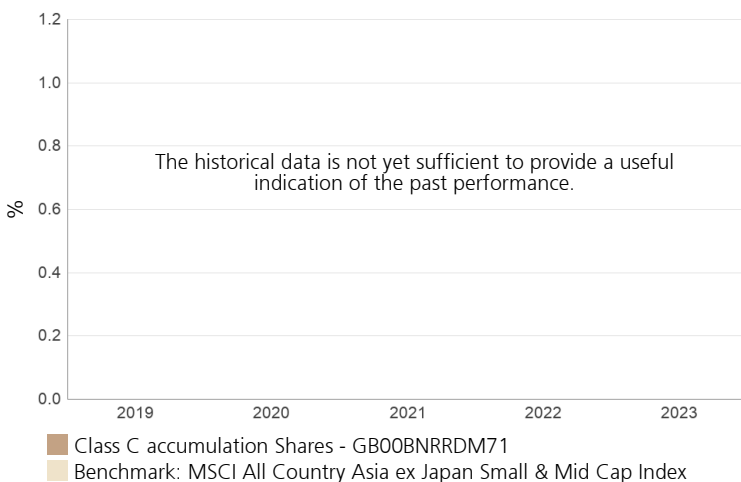

The **entry** and **exit charges** shown are maximum figures. In some cases you might pay less – you can find this out from your financial adviser.

The **ongoing charges** figure is an estimate as sufficient historical data is not yet available. It generally excludes:

- Portfolio transaction costs, except in the case of an entry/exit charge paid by the Fund when buying or selling units in another collective investment undertaking

For more information, please see the charges section of the Fund's prospectus, which is available at www.ubs.com/funds.
