Interim Results for the 6 months ended 31 March 2023

Directors' Interim Report

FIRST HALF

The Group is rising to challenges presented by the new inflationary environment in all our major markets. We are pleased to report improved results with increased profit before tax and revenue figures for the first half of the current financial year, but lower margins on sales. Overall, Group revenue increased by 12% to £30.4 million (2022: £27.1 million) and operating profit increased 4% to £4.0 million (2022: £3.8 million), while profit before tax increased 8% to £4.0 million (2022: £3.7 million) and earnings per share improved to 32.1p (2022: 28.4p). First half currency movements increased Group revenue and profit by 4%.

Lift Division sales grew in most regions, led by a strong performance in Canada and the USA, but the lull in major projects in Sydney continued through the first half. There was a further modest recovery in Keypad sales, but these continue to be quite volatile and unpredictable from month to month. Overall Transport sales were fairly similar to the previous year, but rail infrastructure spending was down offset by a strong performance on highways products.

The Group balance sheet remains strong with cash at the period end of £22.6 million (2022: £19.9 million).

OUTLOOK

In North America the underlying market remains strong, although there are signs that the second half of this financial year may be impacted by a slowing of orders and customer approvals to proceed. Orders in Australia are reasonable, but we are still expecting it will take time for these orders to filter through to sales as continuing customer labour constraints are leading to some project delays. The UK has remained surprisingly steady given the economic backdrop, but may tail off later in the year as the impact of interest rate rises start to bite on the economy. We have better control this year on dealing with cost increases and all companies are focussed on trying to mitigate their impact. However, we are not able to pass all increases on to customers, so we are continuing to see margins squeezed. Recruitment challenges have eased a little in most of our markets and material availability has improved. As a result we have been able to reduce our abnormally high stock holdings, without a detrimental effect on service levels.

DIVIDENDS

The Directors have declared an increased interim dividend of 4.75p per ordinary share (2022: 4.50p) which amounts to £384,000 (2022: £364,000). The interim dividend is payable on 15 August 2023 and will be posted on 10 August 2023 to shareholders appearing in the Register on 7 July 2023 (ex-dividend date being 6 July 2023).

A final 2022 dividend of 10.25p (2021: 9.75p) which amounted to £828,000 (2021: £788,000) was approved at the AGM held on 14 February 2023 and was paid on 22 February 2023 to members on the register at 20 January 2023.
