Company Investment Objectives and Policy

The principal investment objective of the Company is to achieve capital growth from an actively managed portfolio principally comprising securities listed on the Japanese stock markets, with the aim of achieving growth in excess of the TSE First Section Total Return Index in sterling over the longer term.

Above is the Investment Objective of the fund. For details on the fund's Investment Policy please see the KID.

The latest Annual Report includes the investment policy which you should read in conjunction with the KID before investing, these are available on our Schroders website. Relevant risk as associated with this Company are shown overleaf and should be carefully considered before making any investment. Past Performance is not a guide to future performance and may not be repeated. The value of investments and the income from them may go down as well as up and investors may not get back the amounts originally invested. Exchange rate changes may cause the value of investments to fall as well as rise. Performance data does not take into account any commissions and costs, if any, charged when units or shares of any fund, as applicable, are issued and redeemed.

Risk considerations

The Company can be exposed to different currencies. Changes in foreign exchange rates could create losses. The Company may be concentrated in a limited number of geographical regions, industry sectors, markets and/or individual positions. This may result in large changes in the value of the company, both up or down, which may adversely impact the performance of the company. The Company may borrow money to invest in further investments, this is known as gearing. Gearing will increase returns if the value of the investments purchased increase in value by more than the cost of borrowing, or reduce returns if they fail to do so. **Gearing risk:** - The company may borrow money to make further investments, this is known as gearing. Gearing will increase returns if the value of the investments purchased increase by more than the cost of borrowing, or reduce returns if they fail to do so. In falling markets, the whole of the value in that investment could be lost, which would result in losses to the fund.
