INVESTMENT MANAGEMENT

# BNY Mellon Long Gilt Fund

**INSTITUTIONAL SHARES W (ACCUMULATION) (ISIN: GB00BNNMCY10)**

a sub-fund of BNY Mellon Investment Funds. This Fund is managed by BNY Mellon Fund Managers Limited

## Objectives and Investment Policy

### OBJECTIVE AND POLICY

To achieve income together with the potential for capital growth over the medium term (3-5 years).

#### The Fund will:

- invest in fixed income securities (bonds) issued or guaranteed by the UK Government or the Governments of foreign countries or corporate bodies.

#### The Fund may:

- invest in money market instruments, deposits, cash and near cash;
- invest more than 35% of its assets in government and public securities issued or guaranteed by a single state, local authority or public international body;
- use derivatives (financial instruments whose value is derived from other assets) with the aim of risk or cost reduction or to generate additional capital or income; and
- invest up to 10% in other collective investment schemes.

**Benchmark:** The Fund will measure its performance against the FTSE Actuaries UK Conventional Gilts Over 15 Years Index (the "Benchmark"). The Fund will use the Benchmark as an appropriate

comparator because it includes a broad representation of the asset class, credit quality, sectors and geographical area in which the Fund predominantly invests.

The Fund is actively managed, which means the Investment Manager has absolute discretion to invest outside the Benchmark subject to the investment objective and policies disclosed in the Prospectus. While the majority of the Fund's holdings are expected to be constituents of, and have similar weightings to, the Benchmark, the investment strategy does not restrict the extent to which the Investment Manager may deviate from the Benchmark.

### OTHER INFORMATION

**Treatment of income:** net income generated will be retained within the Fund and reflected in the value of your shares.

**Dealing:** you can buy and sell your shares in the Fund between 9:00 and 17:00 (UK time) on each business day in England and Wales. Instructions received before 12:00 will receive the price quoted on that day. The minimum initial investment for this share class is GBP 500,000.

## Risk and Reward Profile

We have calculated the risk and reward indicator, as shown above. As this Fund has less than 5 years performance data available, it is based on simulated volatility. It is not a guide to the future risk and reward rating of the Fund. The rating shown is not a target or guarantee and may shift over time. Even the lowest rating of 1 does not mean a risk-free investment.

This Fund is rated 6 because its simulated historical value has shown relatively high volatility. With a Fund rating of 6, you have a relatively high risk of losing money but your chance for gains is also relatively high.

### THE FOLLOWING RISKS MAY NOT BE FULLY CAPTURED BY THE RISK AND REWARD INDICATOR:

**Objective/Performance Risk:** There is no guarantee that the Fund will achieve its objectives.

**Currency Risk:** This Fund invests in international markets which means it is exposed to changes in currency rates which could affect the value of the Fund.

**Derivatives Risk:** Derivatives are highly sensitive to changes in the value of the asset from which their value is derived. A small movement in the value of the underlying asset can cause a large movement in the value of the derivative. This can increase the sizes of losses and gains, causing the value of your investment to fluctuate. When using derivatives, the Fund can lose significantly more than the amount it has invested in derivatives.

**Changes in Interest Rates & Inflation Risk:** Investments in bonds/money market securities are affected by interest rates and inflation trends which may negatively affect the value of the Fund.

**Credit Risk:** The issuer of a security held by the Fund may not pay income or repay capital to the Fund when due.

**CoCo's Risk:** Contingent Convertible Securities (CoCo's) convert from debt to equity when the issuer's capital drops below a pre-defined level. This may result in the security converting into equities at a discounted share price, the value of the security being written down, temporarily or permanently, and/or coupon payments ceasing or being deferred.

**Counterparty Risk:** The insolvency of any institutions providing services such as custody of assets or acting as a counterparty to derivatives or other contractual arrangements, may expose the Fund to financial loss.

**Geographic Concentration Risk:** Where the Fund invests significantly in a single market, this may have a material impact on the value of the Fund.

A complete description of risk factors is set out in the Prospectus in the section entitled "Risk Factors".

# Charges

The charges cover the costs of running the Fund, including the costs of marketing and selling. These charges reduce the potential growth of your investment.

## ONE-OFF CHARGES TAKEN BEFORE OR AFTER YOU INVEST

Entry charge	0.00%
Exit charge	None

*This is the maximum that might be taken out of your money before it is invested and before the proceeds of your investment are paid out.*

## CHARGES TAKEN FROM THE FUND OVER A YEAR
