

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

Dynamic Global Bond Fund

a sub-fund of T. Rowe Price Funds OEIC
Class C Acc 9 (ISIN: GB00BYZMYG27)
 Authorised Corporate Director: T. Rowe Price UK Limited

Objectives and Investment Policy

Objective To deliver positive returns (after the deduction of costs and charges), comprising of income and growth, over rolling 3-year periods. A positive return is not guaranteed over this or any time period and a capital loss may occur.

Portfolio securities The fund is actively managed and invests mainly in a portfolio of bonds of all types from issuers around the world, including emerging markets.

Specifically, the fund invests at least 70% of total assets in debt securities issued by governments, government agencies, companies and banks. Portfolio debt securities can include fixed and floating rate bonds, convertible bonds, warrants and other transferable debt securities of any type, including high yield securities. The fund may invest more than 20% of assets in asset-backed securities (ABS) and mortgage-backed securities (MBS).

The fund aims to hedge any non-Sterling assets to Sterling. The fund does not invest more than 10% of assets in shares and related securities, 25% of assets in convertible bonds, and 30% of assets in money market securities, with total investment in these categories limited to 30% of assets. However, for temporary defensive purposes, investments in money market securities may exceed 30% of assets.

The fund may use derivatives for hedging, efficient portfolio management and to seek gains. The fund may also use derivatives to create synthetic short positions in currencies, debt securities, credit indices and equities. The fund may use total return swaps (TRS).

Investors should refer to the "Total Return Swaps" section on page 58 for more details on the expected and maximum use of total return swaps by the fund. At any time and for a length of time that the investment manager considers appropriate, the fund may hold up to (but not including) 50% of its assets in cash or other liquid assets. This might occur in circumstances of extremely adverse market conditions and/or upon receipt of significant subscriptions by the fund.

The fund may also invest in other funds to gain exposure to the above assets. These will usually, but not always, be funds that are associated with the ACD.

Investment process The investment manager's approach is to:

- The investment manager's approach is based on proprietary fundamental research and relative value analysis.
- The investment manager seeks to add value primarily through duration management, currency selection, sector allocation and security selection.
- The investment process places a strong emphasis on downside protection,

utilising robust risk management practices and portfolio diversification to manage the overall risk profile.

- Assess environmental, social and governance ("ESG") factors to identify those considered most likely to have a material impact on the performance of the holdings or potential holdings in the fund's portfolio. These ESG factors, which are incorporated into the investment process alongside financials, valuation, macro-economics and other factors, are components of the investment decision. Consequently, ESG factors are not the sole driver of an investment decision but are instead one of several important inputs considered during investment analysis.

Designed for Investors who typically plan to invest for three years or more.

Fund reference currency GBP

Benchmark 3-month GBP SONIA.

Benchmark Use Investors may use the benchmark to compare the fund's performance. The benchmark has been selected because a cash benchmark best represents the fund's objective to seek returns from fixed-income securities independent of any specific country, industry sector or market focus, while providing some protection against rising interest rates and a low correlation with equity markets.

The investment manager is not constrained by any country, sector and/or individual security weightings relative to the benchmark and has complete freedom to invest in securities that do not form part of the benchmark.

Other Information:

Income generated by the fund is reinvested and included in the value of its shares.

Orders to buy, switch and redeem shares are ordinarily processed any day that is a full bank business day in England and Wales except on days when markets, in which a substantial amount of the portfolio is traded, are closed or the day before. Please consult the following link https://www.troweprice.com/literature/public/country/gb/language/en/literature-type/trading-calendar/sub-type/oeic_for_dealing_calendar_and_any_applicable_exceptions.

Orders received and accepted by 12:00 noon on a business day will generally be processed that day.

Risk and Reward Profile

Lower Risk ← Higher Risk
 Typically Lower Rewards ← Typically Higher Rewards

1	2	3	4	5	6	7
---	---	---	---	---	---	---

The value of an investment in the fund can go up and down. When you sell your shares, they may be worth less than what you paid for them. If your currency as an investor is different from the subscription currency of the fund, changes in currency exchange rates could reduce any investment gains or increase any investment losses.

The risk/reward rating above is based on medium-term volatility (actual or estimated variations in the fund's share price over five years) but is not a reliable indicator of future risk reward profile.

The lowest category does not mean a risk-free investment.

The fund is in the category shown because it invests in a segment of the market that is moderately volatile.

The fund's risk level reflects the following:

- As a class, bonds carry higher risks than money market securities and lower risks than equities.

MAIN RISKS TYPICALLY ASSOCIATED WITH ORDINARY MARKET CONDITIONS

The fund's main risks are at least partially reflected in the risk/reward number. The most important of these risks are:

Asset-Backed Securities (ABS) and Mortgage-Backed Securities (MBS) may be subject to greater liquidity, credit, default and interest rate risk compared to other bonds. They are often exposed to extension and prepayment risk.

The China Interbank Bond Market may subject the fund to additional liquidity, volatility, regulatory, settlement procedure and counterparty risks. The fund may incur significant trading and realisation costs.

Country risk Russian and Ukrainian investments may be subject to higher risks associated with custody and counterparties, liquidity, market disruptions, as well as strong or sudden political risks.

Emerging markets are less established than developed markets and therefore involve higher risks.

ESG Risks could have a material negative impact on the value of an investment and performance of the fund.

High Yield Bond High yield debt securities are generally subject to greater risk of issuer debt restructuring or default, higher liquidity risk and greater sensitivity to market conditions.

Investment Fund involves certain risks an investor would not face if investing in markets directly.

MAIN RISKS TYPICALLY ASSOCIATED WITH UNUSUAL MARKET CONDITIONS

Unusual market conditions or large unpredictable events can amplify the fund's main risks. They can also trigger other risks, such as:

Counterparty risk may materialise if an entity with which the fund does business becomes unwilling or unable to meet its obligations to the fund.

Country risk China Chinese investments may be subject to higher levels of risks such as liquidity, currency, regulatory and legal risks due to the structure of the local market.

Derivatives may be used to create leverage which could expose the fund to higher volatility and/or losses that are significantly greater than the cost of the derivative.

Liquidity risk may result in securities becoming hard to value or trade within a desired timeframe at a fair price.

Operational risk may cause losses as a result of incidents caused by people, systems, and/or processes.

A more detailed description of the risks that apply to the fund is set out in the section "Risk Descriptions" in the prospectus.

Charges

The charges you pay are used to pay the costs of running the fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry charge	None
Exit charge	None
This is the maximum that might be taken out of your money before it is invested / before the proceeds of your investment are paid out.	
Charges taken from the fund over a year	
Ongoing charges	0.44%
Charges taken from the fund under certain specific conditions	
Performance fee	None

The **entry** and **exit charges** shown are maximum figures. In some cases you may pay less. You can find this out from your distributor or financial adviser.

The **ongoing charges** figure is based on expenses as at 31st December 2023. This figure may vary from year to year. It excludes portfolio transaction costs, except in the case of an entry/exit charge paid by the fund when buying or selling units/shares in another collective investment undertaking.

For more information about charges, please see the fund's prospectus, which is available at [troweprice.com](https://www.troweprice.com).

Past Performance

The past performance indicated is not a reliable indicator of future performance.

The past performance calculation includes all ongoing charges, but excludes any entry charge applied.

The fund started to issue shares in 2016.
The class started to issue shares in 2017.

Past performance has been calculated in GBP.

When a share class is hedged to a different currency, a hedged version of the benchmark (where available) will be used by the Authorised Corporate Director for the performance comparison.

* Effective 1 August 2021, the fund changed its primary comparator benchmark from the 3-month GBP LIBOR to the 3-month GBP SONIA. Past performance before 1 August 2021 is shown for the previous benchmark of the share class.

Practical Information

The fund's depositary is JP Morgan Europe Limited.

Further information about the fund, copies of its prospectus, latest annual report and any subsequent half-yearly report can be obtained, free of charge, from JP Morgan Europe Limited, or at [troweprice.com](https://www.troweprice.com). These documents are available in English and certain other languages (fully detailed on the website).

The latest share prices can be obtained from JP Morgan Europe Limited.

The tax legislation of the UK, the fund's home Member State, may have an impact on the personal tax position of the investor.

T. Rowe Price UK Limited may be held liable solely on the basis of any statement contained in this document that is misleading, inaccurate or inconsistent with the relevant parts of the prospectus for the fund.

Investors in the fund have the right to exchange their shares in the fund for shares in another sub-fund. Information about how to exercise this right is contained in the section of the prospectus entitled "Conversion of Shares".

This document describes a sub-fund of T. Rowe Price Funds OEIC and the prospectus and periodic reports referenced in this document are prepared for the whole of the T. Rowe Price Funds OEIC. The assets and liabilities of each sub-fund are segregated by law, which means that third party creditors have recourse only to the sub-fund having incurred the liability.

Investors can obtain information about the other classes of the fund in the appendix to the prospectus describing this fund.

The details of the up-to-date remuneration policy statement setting out the key remuneration elements, including, but not limited to, a description of how remuneration and benefits are calculated, the identity of persons responsible for awarding the remuneration and benefits, including the composition of the remuneration committee, are available on the website https://www.troweprice.com/content/dam/trowecorp/Pdfs/TPRUK_Remuneration_Policy.pdf. A paper copy of this information is available free of charge upon request from the Authorised Corporate Director.
