

# Key Investor Information

This document provides you with key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

## Jupiter European Smaller Companies Fund I-Class

I-Class Income Units, ISIN: GB00BKYBZ588

The Manager is Jupiter Unit Trust Managers Limited.

### Objectives and investment policy

#### Objective

The Fund objective is to provide a return, net of fees, higher than that provided by the MSCI Europe ex UK Small Cap Index with net dividends reinvested over the long term (rolling five year periods).

#### Policy

At least 70% of the Fund is invested in shares of smaller companies based in Europe (excluding the UK) and securities related to such shares (including preference shares, warrants, participation notes and depositary receipts). Smaller companies are defined as companies that, at the time of initial investment, are smaller by market capitalisation, than the 225th company in the FTSE World Europe (ex UK) Index.

Up to 30% of the Fund may be invested in other transferable securities (including shares of companies of any size, based anywhere in the world), open-ended funds (equity or money market funds including funds managed by Jupiter and its associates), cash, near cash, money market instruments and deposits.

The Fund may use derivatives (i.e. financial contracts whose value is linked to the expected price movements of an underlying investment) with the aim of reducing the overall costs and/or risks of the Fund.

#### Strategy

The fund manager aims to invest in high-quality companies, which he believes have significant and sustainable growth potential over the medium to long term. The fund manager believes the shares of the best businesses are often mispriced, which can be identified through diligent analysis.

#### Benchmarks

Target benchmark – MSCI Europe ex UK Small Cap Index with net dividends reinvested

The MSCI Europe ex UK Small Cap Index with net dividends reinvested is an industry standard index and is one of the leading representations of smaller companies within Europe (ex UK) stock markets. It is easily accessible and provides a fair reflection of the Fund Manager's investment universe and a good relative measure to assess

performance outcomes.

Comparator benchmark - IA European Smaller Companies Sector

Many funds sold in the UK are grouped into sectors by the Investment Association (the trade body that represents UK investment managers), to help investors to compare funds with broadly similar characteristics. This Fund is classified in the IA European Smaller Companies Sector.

#### Active Management

The Fund is actively managed. This means the fund manager is taking investment decisions with the intention of achieving the Fund's investment objective; this may include decisions regarding asset selection, regional allocation, sector views and overall level of exposure to the market. The fund manager is not in any way constrained by the benchmark in their portfolio positioning, and will not hold all, or indeed may not hold any, of the benchmark constituents.

Any income arising in relation to this unit class will be distributed to investors on a regular basis.

Investors are able to buy and sell units during any business day between 9am and 5.30pm. If you tell us to buy or sell units before 12pm on any business day we will make the transaction on the same day. If you tell us to buy or sell units after 12pm we will make the transaction on the following business day.

#### Recommendation

This fund may not be suitable for investors who plan to withdraw their capital within 5 years.

### Risk and reward profile

The Risk and Reward Indicator table demonstrates where the Fund ranks in terms of its potential risk and reward. The higher the rank the greater the potential reward but the greater the risk of losing money. It is based on past data, may change over time and may not be a reliable indication of the future risk profile of the Fund. The shaded area in the table below shows the Fund's ranking on the Risk and Reward Indicator.

Typically lower rewards,  
lower risk

Typically higher rewards,  
higher risk

- The lowest category does not mean 'no risk'.
- The Fund is in this category due to the nature of its investments and previous levels of volatility (how much the value of the Fund rises and falls).
- Currency (FX) Risk** - The Fund can be exposed to different currencies and movements in foreign exchange rates can cause the value of investments to fall as well as rise.
- Pricing Risk** - Price movements in financial assets mean the value of assets can fall as well as rise, with this risk typically amplified in more volatile market conditions.
- Market Concentration Risk (Geographical Region/Country)** - Investing in a particular country or geographic region can cause the value of this investment to rise or fall more relative to investments whose focus is spread more globally in nature.
- Derivative risk** - the Fund may use derivatives to reduce costs and/or the overall risk of the Fund (this is also known as Efficient Portfolio Management or "EPM"). Derivatives involve a level of risk, however, for EPM they should not increase the overall riskiness of the Fund.
- Liquidity Risk (less liquid securities)** - some investments may be hard to value or sell at a desired time and price. In extreme circumstances this may affect the Fund's ability to meet redemption requests upon demand.

- Counterparty Risk** - the risk of losses due to the default of a counterparty e.g. on a derivatives contract or a custodian that is safeguarding the Fund's assets.
- Smaller Companies** - The Fund invests in smaller companies, which can be less liquid than investments in larger companies and can have fewer resources than larger companies to cope with unexpected adverse events. In less favourable market conditions these companies may therefore under-perform larger companies and the Fund may under-perform funds that invest predominantly in larger companies.
- For a more detailed explanation of risk factors, please refer to the "Risk Factors" section of the Scheme Particulars.

## Charges

### One-off charges taken before or after you invest

Entry charge	0.00%
Exit charge	0.00%

This is the maximum that might be taken out of your money before it is invested and before the proceeds of your investment are paid out. In some cases, you might pay less and you can find out the actual entry and exit charges from your financial adviser or distributor.

### Charges taken from the Fund over a year

Ongoing charges	0.99%
-----------------	-------

### Charges taken from the Fund under specific conditions

Performance fee	NONE
-----------------	------

- The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.
- The ongoing charges figure is based on the fixed annual charge as detailed in the Scheme Particulars. With effect from 23/02/24 the fixed annual charge may be subject to a discount based on the value of the Fund's scheme property. The current discount rate, if applicable, can be found at [www.jupiteram.com/tiered-pricing](http://www.jupiteram.com/tiered-pricing). Where the Fund invests in other underlying funds, which may include closed-ended funds such as investment trusts, the ongoing charges figure will include the ongoing charges for those funds, and will therefore vary from year to year. The ongoing charges figure excludes portfolio transaction costs, except in the case of an entry/exit charge paid by the Fund when buying or selling shares in another collective investment undertaking.
- Further information about charges is available in sections 18 and 19 of the Scheme Particulars which are available from Jupiter on request.

## Past performance

- Past performance is not a guide to future performance.
- Fund launch date: 26/02/2020
- Share/unit class launch date: 26/02/2020
- Performance is calculated in GBP.
- Target benchmark – Prior to 30/06/2023 EMIX Smaller European Companies Ex UK Index, from 01/07/2023 - Present MSCI Europe ex UK Small Cap Index with net dividends reinvested.
- Comparator benchmark - IA European Smaller Companies Sector

## Practical information

- The Trustee and Depositary of the Fund is Northern Trust Investor Services Limited (“NTISL”). NTISL has delegated custody services to The Northern Trust Company, London Branch.
- Further information can be found by requesting the Scheme Particulars or annual and half-yearly report and accounts which are available from Jupiter on request by contacting our Customer Services Team on 0800 561 4000. These documents are available in English and are free of charge.
- Jupiter operates a Group-wide remuneration policy, overseen by an independent Remuneration Committee. Details of this policy, including an overview of remuneration elements and associated governance processes, are set out on our website <https://www.jupiteram.com/remuneration-policy/>. A paper copy of these Remuneration Disclosures is available free of charge, upon request.
- Unit prices can be found by visiting the Jupiter website, [www.jupiteram.com](http://www.jupiteram.com).
- Tax law may have an impact on your own tax position. We advise you to take tax advice where necessary.
- Jupiter Unit Trust Managers Limited may be held liable solely on the basis of any statement contained in this document that is misleading, inaccurate or inconsistent with the relevant parts of the Scheme Particulars of the Fund.
- Other unit classes are available. Further information is available from Jupiter on request.
