

HSBC Investment Funds

Monthly Income Fund

Monthly report 31 May 2024 | Share class Acc C

Investment objective

The Fund aims to provide a monthly income together with growth in the long term, which is a period of five years or more.

Investment strategy

To achieve its objective the Fund will invest at least 80% of its value in a combination of shares (equities) of UK companies and bonds issued by UK companies. UK companies are those that are based in the UK or earn at least 80% of their revenue from the UK. Under normal market conditions, the asset allocation of the Fund is 70% in shares of companies and 30% in bonds. These percentages will fluctuate based upon market movement. The Fund is managed with reference to the FTSE All-Share Index and Markit iBoxx GBP Corporates Index. The FTSE All-Share Index and Markit iBoxx GBP Corporates Index are considered as part of our investment risk monitoring process, to check that the overall level of risk taken by the fund manager is not inconsistent with the UK equities market and sterling corporate bond market. The performance of the Fund is therefore shown against the performance of a combined benchmark consisting of a weighting of 70% FTSE All-Share Index and 30% Markit iBoxx GBP Corporates Index.

Main risks

- The value of investments and any income from them can go down as well as up and you may not get back the amount originally invested.
- Where overseas investments are held the rate of currency exchange may cause the value of such investments to go down as well as up.
- The Fund invests in bonds whose value generally falls when interest rates rise. This risk is generally greater the longer the maturity of a bond investment and the higher its credit quality. The issuers of certain bonds, could become unwilling or unable to make payments on their bonds and default. Bonds that are in default may become hard to sell or worthless. The value of investible securities can change over time due to a wide variety of factors, including but not limited to: political and economic news, government policy, changes in demographics, cultures and populations, natural or human-caused disasters etc.
