General Information

Invesco Markets II plc (the "Company") is an open-ended variable capital company with segregated liability between Funds of the Company (each a "Fund" and collectively the "Funds"). The Company was incorporated on 11 September 2015. It is organised under the laws of Republic of Ireland as a public limited company pursuant to the Companies Act 2014 (as amended) and as an undertaking for collective investment in transferable securities pursuant to the European Communities ("Undertakings for Collective Investment in Transferable Securities") Regulations 2011 (as amended) (the "UCITS Regulations") and the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities Regulations 2019 (the "Central Bank UCITS Regulations").

The Company is structured as an umbrella investment company and comprises separate Funds which may be established from time to time by the Directors with the prior approval of the Central Bank of Ireland (the "Central Bank").

A Fund is defined as a separate portfolio of assets which is invested in accordance with the investment objective and policies set out in the relevant Supplement and to which all liabilities, income and expenditure attributable or allocated to such portfolio shall be applied and charged.

The particulars of each Fund are set out in a separate Supplement. Any such Supplement lists all of the existing Funds. Redeemable Shares/Shares (these terms are used interchangeably throughout the Financial Statements) of more than one Class may be issued in relation to a Fund. Information contained within the Supplements is selective and should be read in conjunction with the Prospectus. On the introduction of any new Class of Shares, the Company prepares and the Directors will issue documentation setting out the relevant details of each such Class of Shares. A separate portfolio of assets is maintained for each Fund and investments are made in accordance with the investment objective applicable to each Fund.

There are 65 active Funds in existence as at 31 December 2023.

Investment Managers Report

Despite tightening central banks and economic slowdown, 2023 was a good year for investors.

A year ago, we were expecting less economic growth but the belief that central banks would stop tightening led to optimism about market outcomes. Though economies slowed and central banks tightened more than expected, assets did well. The best performing global assets in 2023 were equities and high yield. The only asset class to offer negative returns was commodities. The -16.4% USD total return on our Neutral portfolio in 2022 (-12.9% in local currency) was followed by +13.6% in 2023 (+13.3%). The Neutral portfolio is a static mix of global cash, fixed income, equity, real estate and commodity assets.

It is usually the case that bad news sells (many of the most read stories in 2022 were about Russia's invasion of Ukraine). However, we appear to have been less gloomy in our reading in 2023. Views about the Federal Reserve ("the Fed") dominated the start and the end of the year, though there was a fair amount of parochial navel gazing with a lot of interest in news about the finance sector. There was surprisingly little in the most read stories about the situation in Israel/Gaza and the regional banking mini crisis in the US.

The positive market outcomes suggest a willingness to look through the hawkishness of central banks to a time when they will be easing and when economies reaccelerate. There were also a range of idiosyncratic factors that drove various assets (AI, poor real estate fundamentals and geopolitics, for example). Despite a belief that "bonds are back", equities outperformed government bonds by a wide margin in 2023. The obvious exceptions were Emerging Markets and China, with government bonds outperforming stocks.

As is often the case, emerging markets dominated both ends of the spectrum, though Japanese government bonds appear in the bottom three of that category when expressed in US dollars. Argentinian assets were doing reasonably well (in USD) until the new government announced a drastic devaluation of the currency. Otherwise, Hungarian and Polish assets have fared well, despite the proximity to Ukraine, but Turkish government bonds have suffered from the dramatic tightening of central bank policy deemed necessary to curb inflation.

It is not only in Turkey that central banks dominated the thoughts of investors and markets. As the year progressed, we had to adjust to the fact that major central banks (except the Bank of Japan and the People's Bank of China) were going to tighten more than expected at the start of the year.

This caused a dramatic reversal in bond markets, with US 10-year yields approaching 5% in October, causing some commentators to speculate about yields rising to the 6%-7% range. However, we were of the opinion that at 5% those yields were attractive. Nominal and real 10-year treasury yields rose to pre-global financial crisis levels, which we thought presented a reasonable opportunity, especially since the global economy still appeared to be slowing.

The more recent decline in bond yields was aided by the continued decline in inflation (and recent hints from the Fed that rate cuts are now on the agenda).

Investment Objectives and Policies

The Articles provide that the investment objective and policies for each Fund be formulated by the Directors at the time of the creation of the Funds.

The investment objective of each Fund is to seek to provide Redeemable Shareholders/Shareholders (these terms are used interchangeably throughout the Financial Statements) with a Target Performance linked to the performance of a Reference Index or Reference Asset by directly or indirectly purchasing a portfolio of transferable securities that may (but is not obliged to) comprise all or a representative sample of the constituent securities of that Reference Index or Reference Asset.

Each Fund will seek to achieve its objective by pursuing a policy which will seek to track the performance of a Reference Index or Reference Asset and will generally use either a Replication Strategy, Sampling Strategy or Master Feeder Strategy, with the aim of minimising as far as possible the difference in performance between the Funds and the relevant Reference Index or Reference Asset. The Investment Manager determines whether a Replication Strategy, Sampling Strategy or Master Feeder Strategy is most appropriate for a Fund. The Relevant Supplement will specify and describe the strategy the applicable Fund intends to use.

The following is a summary description of each of the Replication Strategy, Sampling Strategy and Master Feeder Strategy.

- Replication Strategy - this strategy seeks to hold all of the securities of a particular Reference Index or Reference Asset, so that the portfolio of the Funds is a near mirror-image of the components of the relevant Reference Index or Reference Asset.
- Sampling Strategy - this strategy seeks to build a representative portfolio that provides a return comparable to that of a Reference Index or Reference Asset. This strategy is used for tracking certain equity or fixed income indices which are too broad to replicate, contains securities which are currently unavailable or difficult to purchase in the open markets or an announcement has been made that certain Securities will shortly be included as components of the Reference Index or Reference Asset. Consequently, a Fund using this strategy will typically hold only a subset of the securities which comprise the relevant Reference Index or Reference Asset.
- Master Feeder Strategy - this strategy seeks to achieve the investment objective of the relevant Fund by investing substantially all (and in any event no less than 85%) of the assets of the relevant Fund in another eligible UCITS CIS in accordance with the requirements of the Central Bank.

A Fund may also on occasion hold securities which were not comprised in the relevant Reference Index or Reference Asset where the Investment Manager believes this to be appropriate in light of the investment objective and investment restrictions of the Funds, or other factors such as market conditions. The potential for any such proposed investment by a Fund will be disclosed in the relevant Supplement.

In limited circumstances and only where disclosed in the Supplement a passively managed fund may also use the Swap Strategy.

- Swap Strategy - this strategy uses financial derivative instruments and transactions and/or OTC derivatives to achieve the Target Performance by exchanging the performance of a basket of global equity securities and equity related securities in return for the performance/return of the Reference Index.

In each case, information in relation to the types of instruments or securities in which the relevant Fund will invest, including details in relation to the exchanges or markets on which the Fund's investments will be listed or traded, will be set out in the Supplement of the relevant Fund.

There is no assurance that the investment objective of any Fund whose performance is linked to the Reference Index or Reference Asset will actually be achieved.

The individual Fund's investment objectives and policies are detailed on pages 11 to 34.

As at 31 December 2023, the Company had 65 active Funds.

Investment Objectives and Policies (continued)

Invesco Preferred Shares UCITS ETF

The investment objective of the Invesco Preferred Shares UCITS ETF (the "Fund") is to achieve the performance of the ICE BofA Diversified Core Plus Fixed Rate Preferred Securities Net Total Return Index (the "Reference Index") less fees, expenses and transaction costs.

The Reference Index is designed to measure the net total return performance of fixed rate US Dollar denominated preferred securities issued in the US domestic market. The index includes preference shares (perpetual preferred securities) stock and senior and subordinated debt issued in USD25, USD50 or USD100 par/liquidation increments. Securities comprising the Reference Index must be rated at least B3 (based on an average of Moody's, S&P and Fitch) and must have an investment grade rated country of risk (based on an average of Moody's, S&P and Fitch foreign currency long-term sovereign debt ratings). The Reference Index is rebalanced monthly. In order to achieve the investment objective, the Fund will employ a replication method that looks to invest predominately in securities that as closely as possible match the constituents of the Reference Index.

Invesco USD IG Corporate Bond ESG UCITS ETF

The investment objective of the Invesco USD IG Corporate Bond ESG UCITS ETF (the "Fund") is to achieve the performance of the Bloomberg MSCI USD Liquid Corporate ESG Weighted SRI Bond Index (the "Reference Index"), less fees, expenses and transaction costs.

The Reference Index is designed to reflect the performance of USD Dollar denominated investment grade, fixed-rate, taxable debt securities issued by US and non-US corporate issuers adjusted based upon certain environmental, social and governance ("ESG") metrics, which seek to increase overall exposure to those issuers demonstrating a robust ESG profile. The Reference Index includes publicly issued securities by industrial, utility and financial institution issuers in global and regional markets.

Sector: Corporate (industrial, utility and financial institutions) issuers only.

Eligible currencies: Principal and interest must be denominated in USD.

Quality: Securities must be rated investment grade (Baa3/BBB-/BBB- or higher) using the middle rating of Moody's, S&P and Fitch; when a rating from only two agencies is available, the lower is used; when only one agency rates a bond, that rating is used.

Amount outstanding: Utilities:

- USD500mn minimum par amount outstanding.
- Industrial: USD1bn minimum par amount outstanding.
- Financial Institutions: USD1bn minimum par amount outstanding.

Coupon:

- Fixed-rate coupon.
- Callable fixed-to-floating rate bonds are eligible during their fixed-rate term only.

Invesco EUR IG Corporate Bond ESG UCITS ETF

The investment objective of the Invesco EUR IG Corporate Bond ESG UCITS ETF (the "Fund") is to achieve the performance of the Bloomberg MSCI Euro Liquid Corporate ESG Weighted SRI Bond Index (the "Reference Index"), less fees, expenses and transaction costs.

The Reference Index is designed to reflect the performance of EUR denominated investment grade, fixed-rate, taxable debt securities issued by corporate issuers adjusted based upon certain environmental, social and governance ("ESG") metrics, which seek to increase overall exposure to those issuers demonstrating a robust ESG profile. The Reference Index includes publicly issued securities by industrial, utility and financial institution issuers in global and regional markets.

Quality: Securities must be rated investment grade (Baa3/BBB-/BBB- or higher) using the middle rating of Moody's, S&P and Fitch; when a rating from only two agencies is available, the lower is used; when only one agency rates a bond, that rating is used. In cases where explicit bond level ratings may not be available, other sources may be used to classify securities by credit quality.

EUR 300mn minimum par amount outstanding.

Invesco EUR Corporate Bond ESG Multi-Factor UCITS ETF

The Investment objective of the Invesco Euro Corporate Bond ESG Multi-Factor UCITS ETF (the "Fund") is to seek total return by investing in an actively managed portfolio of corporate bonds that meets certain environmental, social, and corporate governance ("ESG") criteria.

In order to achieve its investment objective, the Fund will generally invest in a portfolio of fixed rate euro denominated unsecured corporate bonds from global issuers with an investment grade credit rating.

Securities are selected by the Investment Manager based on two criteria:

- compliance with the Fund's ESG policy (the "ESG Policy");
- attractiveness determined in accordance with the Investment Manager's quantitative investment model.

Investment Objectives and Policies (continued)

Invesco EUR Corporate Bond ESG Short Duration Multi-Factor UCITS ETF

The Investment objective of the Invesco Euro Corporate Bond ESG Short Duration Multi-Factor UCITS ETF (the "Fund") is to seek total return by investing in an actively managed portfolio of corporate bonds that meets certain environmental, social, and corporate governance ("ESG") criteria.

In order to achieve its investment objective, the Fund will generally invest in a portfolio of fixed rate euro denominated unsecured corporate bonds from global issuers with an investment grade credit rating and less than or equal to 5 years until maturity.

Securities are selected by the Investment Manager based on two criteria:

- compliance with the Fund's ESG policy (the "ESG Policy");
- attractiveness determined in accordance with the Investment Manager's quantitative investment model.

Invesco Euro Corporate Hybrid Bond UCITS ETF

The investment objective of the Invesco Euro Corporate Hybrid Bond UCITS ETF (the "Fund") is to achieve the total return performance of Bloomberg Euro Universal Corporate ex Financials Hybrid Capital Securities 8% Capped Bond Index (the "Reference Index") less fees, expenses and transaction costs.

The Reference Index is designed to reflect the performance of EUR-denominated, fixed rate, investment-grade and high yield corporate and government related debt securities whilst including only fixed-to-float hybrid capital securities from industrial and utilities sectors.

EUR 500mn minimum par amount outstanding.

Invesco GBP Corporate Bond ESG UCITS ETF

The investment objective of the Invesco GBP Corporate Bond ESG UCITS ETF (the "Fund") is to achieve the total return performance of the Bloomberg MSCI Sterling Liquid Corporate ESG Weighted SRI Bond Index (the "Reference Index") less fees, expenses and transaction costs.

In order to achieve the investment objective, the Company will employ a sampling strategy ("Sampling Strategy"), which includes the use of quantitative analysis, to select securities from the Reference Index using factors such as the index weighted average duration and credit quality.

Where consistent with its investment objective, and in conjunction with the use of a Sampling Strategy the Fund may also hold some securities which are not component securities of the Reference Index, but are of a similar nature to them and whose risk, return and environmental, social and governance ("ESG") characteristics either (a) closely resemble the risk and return and ESG characteristics of constituents of the Reference Index or of the Reference Index as a whole, (b) whose addition improves the quality of the replication of the Reference Index, or (c) whose future inclusion into the Reference Index is anticipated. The level of sampling will vary over the life of the Fund depending on asset levels of the Fund, as certain asset levels may make replication uneconomical or impractical, and the nature of the components of the Reference Index. It is generally expected that the Fund will hold less than the total number of securities in the Reference Index however, the Investment Manager reserves the right to hold as many securities as it believes necessary to achieve the Fund's investment objective.

Further information in relation to how the Fund will seek to track the Reference Index is set out in section 4 "Investment Objective and Policies" of the Prospectus. The Fund may hold ancillary liquid assets and use efficient portfolio management techniques in accordance with the requirements of the Central Bank.

The Reference Index is designed to reflect the performance of sterling-denominated investment grade, fixed-rate, taxable securities issued by corporate issuers adjusted based upon certain environmental, social and governance ("ESG") metrics, which seek to increase overall exposure to those issuers demonstrating a robust ESG profile. The Index includes publicly issued securities by industrial, utility and financial institution issuers.

Invesco GBP Corporate Bond UCITS ETF

The investment objective of the Invesco GBP Corporate Bond UCITS ETF (the "Fund") is to achieve the total return performance of the Bloomberg Sterling Liquid Corporate Bond Index (the "Reference Index") less fees, expenses and transaction costs.

In order to achieve the investment objective, the Company will employ a sampling strategy ("Sampling Strategy"), which includes the use of quantitative analysis, to select securities from the Reference Index using factors such as the index weighted average duration and credit quality. Where consistent with its investment objective, and in conjunction with the use of a Sampling Strategy the Fund may also hold some securities which are not component securities of the Reference Index, but are of a similar nature to them and whose risk and return characteristics either (a) closely resemble the risk and return characteristics of constituents of the Reference Index or of the Reference Index as a whole, (b) whose addition improves the quality of the replication of the Reference Index, or (c) whose future inclusion into the Reference Index is anticipated. The level of sampling will vary over the life of the Fund depending on asset levels of the Fund, as certain asset levels may make replication uneconomical or impractical, and the nature of the components of the Reference Index. It is generally expected that the Fund will hold less than the total number of securities in the Reference Index however, the Investment Manager reserves the right to hold as many securities as it believes necessary to achieve the Fund's investment objective.

Further information in relation to how the Fund will seek to track the Reference Index is set out in section 4 "Investment Objective and Policies" of the Prospectus.

The Reference Index is designed to reflect the performance of GBP-denominated investment grade, fixed-rate, taxable securities issued by corporate issuers. The index includes publicly issued securities by industrial, utility and financial institution issuers.

The Fund may hold ancillary liquid assets and use efficient portfolio management techniques in accordance with the requirements of the Central Bank.

Investment Objectives and Policies (continued)

Invesco Global High Yield Corporate Bond ESG UCITS ETF

The investment objective of the Invesco Global High Yield Corporate Bond ESG UCITS ETF (the "Fund") is to achieve the total return performance of the Bloomberg MSCI Global High Yield Liquid Corporate ESG Weighted SRI Bond Index (the "Reference Index") less fees, expenses and transaction costs.

Further information on the components and selection criteria of the Reference Index is set out below under "General Description of the Reference Index".

In order to achieve the investment objective, the Company will employ a sampling strategy ("Sampling Strategy").

In tracking the Reference Index, the Investment Manager applies the Sampling Strategy, which includes the use of quantitative analysis, to select securities from the Reference Index that use factors such as the index weighted average duration, industry sectors and credit quality.

Where consistent with its investment objective, and in conjunction with the use of a Sampling Strategy, the Fund may also hold some securities which are not component securities of the Reference Index, but are of a similar nature to them and whose risk, return and environmental, social and governance ("ESG") characteristics either (a) closely resemble the risk, return and ESG characteristics of constituents of the Reference Index or of the Reference Index as a whole, (b) whose addition improves the quality of the replication of the Reference Index, or (c) whose future inclusion into the Reference Index is anticipated. The level of sampling will vary over the life of the Fund depending on asset levels of the Fund, as certain asset levels may make replication uneconomical or impractical, and the nature of the components of the Reference Index. It is generally expected that the Fund will hold less than the total number of securities in the Reference Index however, the Investment Manager reserves the right to hold as many securities as it believes necessary to achieve the Fund's investment objective.

Further information in relation to how the Fund will seek to track the Reference Index is set out in section 4 "Investment Objective and Policies" of the Prospectus.

The Fund may hold ancillary liquid assets and use efficient portfolio management techniques in accordance with the requirements of the Central Bank.

The Fund may also engage in transactions in FDIs for hedging and/or efficient portfolio management purposes. The Fund may use the following FDIs listed on a Market or traded OTC, as applicable: options and futures transactions, forward contracts, non-deliverable forwards and spot foreign exchange transactions. Further details on FDIs and how they may be used are contained in the main part of the Prospectus under "Appendix III - Use of Financial Derivative Instruments And Efficient Portfolio Management".

The Fund shall not invest more than 10% of its net assets in other UCITS or other open or closed ended CIS.

With the exception of permitted investment in unlisted securities or in units of open-ended CIS, investment will be limited to the stock exchanges and regulated markets set out in Appendix I of the Prospectus.

Further information relevant to the Fund's investment policy is contained in the main part of the Prospectus under "Investment Objectives & Policies" and under "Investment Restrictions and Permitted Investments".

Invesco Emerging Markets USD Bond UCITS ETF

The investment objective of the Invesco Emerging Markets USD Bond UCITS ETF (the "Fund") is to achieve the performance of the Bloomberg Emerging Markets USD Sovereign Index (the "Reference Index"), less fees, expenses and transaction costs.

The Reference Index is designed to measure fixed and floating-rate US dollar-denominated debt issued by Emerging Markets governments.

Sector: Sovereign issues only.

Amount outstanding: At the security level, USD 500mn minimum par amount outstanding.

Country inclusion: The Index Provider uses a fixed list of emerging market countries that is reviewed annually to define country eligibility in dedicated emerging markets hard currency, local currency, and inflation-linked benchmarks. Criteria for inclusion in the emerging markets country list are rules-based and include:

- Countries that meet one of the following two criteria: World Bank Income group classifications of low/middle income or International Monetary Fund (IMF) classification as a non-advanced country.
- Additional countries that bond investors classify as emerging market due to factors such as investability concerns, the presence of capital controls, and/or geographic considerations may also be included on the list and are also reviewed on an annual basis. As of April 2014, 4 additional markets are included in the Bloomberg EM country list: Czech Republic, Israel, South Korea, and Taiwan.

Issue rating: Investment grade, high yield and unrated securities are permitted. Unrated bonds may use an implied issuer rating when not rated by a credit rating agency (Moody's, S&P, and Fitch).

Invesco AT1 Capital Bond UCITS ETF

The investment objective of the Invesco AT1 Capital Bond UCITS ETF (the "Fund") is to achieve the performance of the iBoxx USD Contingent Convertible Liquid Developed Market AT1 (8% Issuer Cap) Index (the "Reference Index") less fees, expenses and transaction costs.

The Reference Index is designed to reflect the total return performance of USD-denominated contingent convertible bonds issued by banks from developed countries worldwide.

The securities which comprise the Reference Index must be rated by at least one of the three credit rating agencies, Moody's, S&P or Fitch, but there is no minimum rating requirement.

Investment Objectives and Policies (continued)

Invesco AT1 Capital Bond UCITS ETF (continued)

To be included in the Reference Index, securities must have a minimum par amount outstanding of USD 750mn and the issuers must have a minimum notional outstanding of 1bn in their local currency.

Invesco Variable Rate Preferred Shares UCITS ETF

The investment objective of the Invesco Variable Rate Preferred Shares UCITS ETF (the "Fund") is to achieve the net total return performance of the ICE Diversified Variable Rate Preferred & Hybrid Securities Index (the "Reference Index") less fees, expenses and transaction costs.

The Reference Index is designed to track the performance of floating and variable rate investment grade and sub-investment grade U.S. dollar denominated preferred and hybrid securities publicly issued by corporations in the U.S. domestic market.

In order to be included in the Reference Index, qualifying securities must: (i) be publicly issued; (ii) be U.S. registered or exempt from registration; (iii) have at least one day remaining to maturity and at least 18 months to final maturity at the date of issuance; (iv) issued in either USD25 or USD1,000 par increments; and (v) have a floating rate coupon or dividend. Fixed-to-floating rate securities are included in the Reference Index while in their fixed-rate period.

Qualifying securities that are listed on the NYSE or NASDAQ exchanges, and that have average monthly consolidated trading volume over the last six months of at least 100,000 shares, must have at least USD100 million face amount outstanding. Any partial month's trading volume data resulting from a new security at point of issue will be adjusted by multiplying the total number of trading days in the month by the average daily trading volume for the partial period. All other qualifying securities must have at least USD350 million face amount outstanding.

Invesco US Treasury Bond UCITS ETF

The investment objective of the Invesco US Treasury Bond UCITS ETF (the "Fund") is to achieve the performance of the Bloomberg US Treasury Index (the "Reference Index") less fees, expenses and transaction costs.

The Reference Index measures total return performance of US dollar-denominated, fixed-rate, nominal debt issued by the US Treasury.

To be eligible for inclusion in the Reference Index, eligible securities' principal and interest must be denominated in USD. The securities which comprise the Reference Index must be rated investment grade (Baa3/BBB-/BBB- or higher) using the middle rating of Moody's, S&P and Fitch; when a rating from only two agencies is available, the lower is used; when only one agency rates a bond, that rating is used. In cases where explicit bond level ratings may not be available, other sources may be used to classify securities by credit quality. Local currency treasury issues are classified using the middle issuer level rating from each agency for all outstanding bonds, even if bond level ratings are available.

To be eligible for inclusion in the Reference Index, bonds must have USD 300mn minimum par amount outstanding.

Invesco US Treasury Bond 0-1 Year UCITS ETF

The investment objective of the Invesco US Treasury 0-1 Year UCITS ETF (the "Fund") is to achieve the total return performance of the Bloomberg US Treasury Coupons Index (the "Reference Index") less fees, expenses and transaction costs.

In order to achieve the investment objective, the Company will employ a sampling strategy ("Sampling Strategy"). In tracking the Reference Index, the Investment Manager applies the Sampling Strategy which includes the use of quantitative analysis, to select securities from the Reference Index using factors such as the index weighted average duration, industry sectors and credit quality.

Where consistent with its investment objective, and in conjunction with the use of a Sampling Strategy the Fund may also hold some securities which are not component securities of the Reference Index, but are of a similar nature to them and whose risk and return characteristics either (a) closely resemble the risk and return characteristics of constituents of the Reference Index or of the Reference Index as a whole, (b) whose addition improves the quality of the replication of the Reference Index, or (c) whose future inclusion into the Reference Index is anticipated. The level of sampling will vary over the life of the Fund depending on asset levels of the Fund, as certain asset levels may make replication uneconomical or impractical, and the nature of the components of the Reference Index. It is generally expected that the Fund will hold less than the total number of securities in the Reference Index however, the Investment Manager reserves the right to hold as many securities as it believes necessary to achieve the Fund's investment objective.

Further information in relation to how the Fund will seek to track the Reference Index is set out in section 4 "Investment Objective and Policies" of the Prospectus.

The Reference Index measures the total return performance of US dollar-denominated, fixed-rate, nominal debt issued by the US Treasury. To be included in the index, securities must have at least one and up to, but not including, 12 months to maturity.

To be eligible for inclusion in the Reference Index, eligible securities' principal and interest must be denominated in USD. The securities which comprise the Reference Index must be rated investment grade (Baa3/BBB-/BBB- or higher) using the middle rating of Moody's, S&P and Fitch; when a rating from only two agencies is available, the lower is used; when only one agency rates a bond, that rating is used. In cases where explicit bond level ratings may not be available, other sources may be used to classify securities by credit quality. Local currency treasury issues are classified using the middle issuer level rating from each agency for all outstanding bonds, even if bond level ratings are available.

Invesco US Treasury Bond 1-3 Year UCITS ETF

The investment objective of the Invesco US Treasury Bond 1-3 Year UCITS ETF (the "Fund") is to achieve the performance of the Bloomberg US Treasury 1-3 Year Index (the "Reference Index") less fees, expenses and transaction costs.

The Reference Index measures the total return performance of US dollar denominated, fixed-rate, nominal debt issued by the US Treasury. To be included in the Reference Index, securities must have at least one and up to, but not including, three years to maturity.

To be eligible for inclusion in the Reference Index, eligible securities' principal and interest must be denominated in EUR. The securities which comprise the Reference Index must be rated investment grade (Baa3/BBB-/BBB- or higher) using the middle rating of Moody's, S&P and Fitch; when a rating from only two agencies is available, the lower is used; when only one agency rates a bond, that rating is used. In cases where explicit bond level ratings may not be available, other sources may be used to classify securities by credit quality. Local currency treasury issues are classified using the middle issuer level rating from each agency for all outstanding bonds, even if bond level ratings are available.

To be eligible for inclusion in the Reference Index, bonds must have EUR 300mn minimum par amount outstanding.

Investment Objectives and Policies (continued)

Invesco US Treasury Bond 3-7 Year UCITS ETF

The investment objective of the Invesco US Treasury Bond 3-7 Year UCITS ETF (the "Fund") is to achieve the performance of the Bloomberg US Treasury 3-7 Year Index (the "Reference Index") less fees, expenses and transaction costs.

The Reference Index measures the total return performance of US dollar denominated, fixed-rate, nominal debt issued by the US Treasury. To be included in the Reference Index, securities must have between 3 and 7 years remaining to maturity.

To be eligible for inclusion in the Reference Index, eligible securities' principal and interest must be denominated in USD. The securities which comprise the Reference Index must be rated investment grade (Baa3/BBB-/BBB- or higher) using the middle rating of Moody's, S&P and Fitch; when a rating from only two agencies is available, the lower is used; when only one agency rates a bond, that rating is used. In cases where explicit bond level ratings may not be available, other sources may be used to classify securities by credit quality. Local currency treasury issues are classified using the middle issuer level rating from each agency for all outstanding bonds, even if bond level ratings are available.

To be eligible for inclusion in the Reference Index, bonds must have USD 300mn minimum par amount outstanding.

Invesco US Treasury Bond 7-10 Year UCITS ETF

The investment objective of the Invesco US Treasury Bond 7-10 Year UCITS ETF (the "Fund") is to achieve the performance of the Bloomberg US Treasury 7-10 Year Index (the "Reference Index") less fees, expenses and transaction costs.

The Reference Index measures the total return performance of US dollar-denominated, fixed-rate, nominal debt issued by the US Treasury. To be included in the Reference Index, securities must have between 7 and 10 years remaining to maturity.

To be eligible for inclusion in the Reference Index, eligible securities' principal and interest must be denominated in USD. The securities which comprise the Reference Index must be rated investment grade (Baa3/BBB-/BBB- or higher) using the middle rating of Moody's, S&P and Fitch; when a rating from only two agencies is available, the lower is used; when only one agency rates a bond, that rating is used. In cases where explicit bond level ratings may not be available, other sources may be used to classify securities by credit quality. Local currency treasury issues are classified using the middle issuer level rating from each agency for all outstanding bonds, even if bond level ratings are available.

To be eligible for inclusion in the Reference Index, bonds must have USD 300mn minimum par amount outstanding.

Invesco US Treasury Bond 10+ Year UCITS ETF

The investment objective of the Invesco US Treasury Bond 10+ Year UCITS ETF (the "Fund") is to achieve the total return performance of the Bloomberg US Long Treasury Index (the "Reference Index") less fees, expenses and transaction costs.

The Reference Index measures the total return performance of US dollar-denominated, fixed-rate, nominal debt issued by the US Treasury. To be included in the index, securities must have remaining years to maturity greater than 10 years.

To be eligible for inclusion in the Reference Index, eligible securities' principal and interest must be denominated in USD. The securities which comprise the Reference Index must be rated investment grade (Baa3/BBB-/BBB- or higher) using the middle rating of Moody's, S&P and Fitch; when a rating from only two agencies is available, the lower is used; when only one agency rates a bond, that rating is used. In cases where explicit bond level ratings may not be available, other sources may be used to classify securities by credit quality. Local currency treasury issues are classified using the middle issuer level rating from each agency for all outstanding bonds, even if bond level ratings are available.

To be eligible for inclusion in the Reference Index, bonds must have USD 300mn minimum par amount outstanding.

Invesco MSCI Europe ESG Leaders Catholic Principles UCITS ETF

The investment objective of the Invesco MSCI Europe ESG Leaders Catholic Principles UCITS ETF (the "Fund") is to achieve the performance of the MSCI Europe Select Catholic Principles ESG Leaders 10/40 Index (the "Reference Index") less fees, expenses and transaction costs.

The Reference Index is a free float-adjusted market capitalisation index designed to represent the net total return performance of companies with high environmental, social and governance ("ESG") ratings relative to sector peers.

The Reference Index comprises of securities in the form of equities and is constructed from the MSCI Europe Index (the "Parent Index"). At each annual index review, the composition of the index is reassessed in order to target 50% free float-adjusted cumulative market capitalisation of each sector of the Parent Index. The Reference Index aims to target sector weights that reflect the relative sector weights of the Parent Index to limit the systematic risk introduced by the ESG selection process. The Reference Index uses company ratings and research provided by MSCI ESG Research LLC. In particular, the Reference Index uses the following three MSCI ESG research products: MSCI ESG Ratings, MSCI ESG Controversies and MSCI Business Involvement Screening Research.

Existing constituents of the Reference Index are required to have an MSCI ESG rating score above B and a MSCI ESG controversies score above 0 to remain in the Reference Index, while companies that are currently not constituents of the Reference Index are required to have an MSCI ESG rating score above BB and an MSCI ESG controversies score above 3 to be considered eligible for inclusion in the Reference Index.

The Reference Index excludes companies showing involvement in the following activities: extraction of unconventional oil and gas, fossil fuel reserves, controversial weapons, civilian firearms, nuclear weapons, tobacco, alcohol, gambling, genetically modified organisms, nuclear power, and thermal coal.

The Reference Index also excludes companies that are considered to be not in accordance with Catholic principles as evaluated based on their involvement in the following activities: stem cells, adult entertainment, conventional weapons, abortion, contraceptives, animal testing and failing to comply with the United Nations guiding principles for business and human rights.

The remaining securities in the Reference Index are weighted in proportion to their free float-adjusted market capitalisation.

The MSCI 10/40 Index's methodology is applied to the remaining securities such that the weight of any single group entity is capped at 10% and the sum of the weights of all group entities with a weight of more than 5% is capped at a maximum of 40%.

Invesco MDAX® UCITS ETF

The investment objective of the Invesco MDAX® UCITS ETF (the "Fund") is to achieve the performance of the MDAX® Index (the "Reference Index") less fees, expenses and transaction costs.

Investment Objectives and Policies (continued)

Invesco MDAX® UCITS ETF (continued)

The Reference Index is comprised of and measures the net total return of 50 medium-sized German public limited companies and measures the net total return performance from all industries that rank directly below the 40 large-sized companies (based on market capitalisation and order book turnover) which comprise the DAX®. The Reference Index is weighted by free-float market capitalisation, with no company being allowed to account for more than 10 per cent of the Reference Index. Foreign companies primarily active in Germany may also be included in the index.

To be eligible for inclusion in the Reference Index companies must have (i) an existing listing in the prime standard segment of the Deutsche Börse AG, Frankfurter Wertpapierbörsen, (ii) continuous trading on Xetra®, the trading venue operated by the Deutsche Börse AG, Frankfurter Wertpapierbörsen, (iii) a minimum free float of 10%, and (iv) legal headquarters or operating headquarters in Germany.

For foreign companies to be included in the Reference Index such foreign companies must (i) have a registered office in or operating headquarters in Germany, or (ii) have their focus of trading volume on Xetra® (such companies must have at least 33% of total turnover within the EU over the last 12 months) and their legal headquarters in an EU or EFTA country.

Invesco CoinShares Global Blockchain UCITS ETF

The investment objective of the Invesco CoinShares Global Blockchain UCITS ETF (the "Fund") is to achieve the performance of the CoinShares Blockchain Global Equity Index (the "Reference Index") less fees, expenses and transaction costs.

The Reference Index tracks the net total return performance of companies within the index universe who participate in the Blockchain ecosystem.

The index universe is comprised of 26 global markets, from which companies are screened for participation in activities including:

- (a) Mining hardware - companies involved in the manufacture, distribution or assembly of cryptocurrency mining equipment or related components;
- (b) Mining technology - the development of software or techniques used in mining equipment production of the crypto-currency mining process;
- (c) Mining operations - the development of software or techniques used in mining equipment production of the crypto-currency mining process;
- (d) Energy - the ownership or control of energy assets with characteristics suitable for cryptocurrency mining;
- (e) Token investments - companies who hold cryptocurrency related tokens or who have some rights to cryptocurrency tokens or similar instruments such as an investment fund, ETF or derivative contract, which has some link to cryptocurrency-assets;
- (f) Blockchain financial services - companies offering or developing trading, investment, consulting or other blockchain related financial services;
- (g) Blockchain payment systems - operation or development of payments systems which involve blockchain technology;
- (h) Blockchain technology solutions - development or operation of commercial technological solutions related to blockchain; and
- (i) Blockchain consulting or communications services - advising or consulting on blockchain related technologies.

Invesco UK Gilt 1-5 Year UCITS ETF

The investment objective of the Invesco UK Gilt 1-5 Year UCITS ETF (the "Fund") is to achieve the performance of the Bloomberg UK Gilt 1-5 Year Index (the "Reference Index") less fees, expenses and transaction costs.

The Reference Index measures the total return performance of the GBP-denominated, fixed-rate, investment grade public obligations issued by the United Kingdom with years remaining to maturity between 1 and 5 years.

The Reference Index tracks nominal gilt issues only and inflation linked bonds are not eligible for inclusion.

In order to be included in the Reference Index, securities must have between 1 and 5 years remaining to maturity, securities' principal and interest must be denominated in GBP and securities which comprise the Reference Index must be rated investment grade (Baa3/BBB-/BBB- or higher) using the middle rating of Moody's, S&P and Fitch when a rating from only two agencies is available, the lower is used; when only one agency rates a bond, that rating is used. In cases where explicit bond level ratings may not be available, other sources may be used to classify securities by credit quality.

To be eligible for inclusion in the Reference Index, bonds must have GBP 200mn minimum par amount outstanding. Gilts held by the Bank of England are eligible in the Reference Index. Both fixed-rate coupon and original zero-coupon issues are included in the Reference Index.

Invesco UK Gilts UCITS ETF

The investment objective of the Invesco UK Gilts UCITS ETF (the "Fund") is to achieve the performance of the Bloomberg Sterling Gilt Index (the "Reference Index") less fees, expenses and transaction costs.

The Reference Index measures the total return performance of the GBP-denominated, fixed-rate, investment grade public obligations issued by the government of the United Kingdom.

The Reference Index tracks nominal gilt issues only and inflation linked bonds are not eligible for inclusion. The Reference Index is a component of the Sterling Aggregate, Pan-European Aggregate, Global Aggregate and Global Treasury Indices.

In order to be included in the Reference Index, securities must have at least one year to final maturity regardless of optionality, securities' principal and interest must be denominated in GBP and securities which comprise the Reference Index must be rated investment grade (Baa3/BBB-/BBB- or higher) using the middle rating of Moody's, S&P and Fitch; when a rating from only two agencies is available, the lower is used; when only one agency rates a bond, that rating is used. In cases where explicit bond level ratings may not be available, other sources may be used to classify securities by credit quality. Local currency treasury issues are classified using the middle issuer level rating from each agency for all outstanding bonds, even if bond level ratings are available.

To be eligible for inclusion in the Reference Index, bonds must have GBP 200mn minimum par amount outstanding. Gilts held by the Bank of England are eligible in the Reference Index. Both fixed-rate coupon and original zero-coupon issues are included in the Reference Index.

Investment Objectives and Policies (continued)

Invesco MSCI World ESG Universal Screened UCITS ETF

The investment objective of the Invesco MSCI World ESG Universal Screened UCITS ETF (the "Fund") is to achieve the performance of the MSCI World ESG Universal Select Business Screens Index (the "Reference Index") less fees, expenses and transaction costs.

The Reference Index tracks the net total return performance of large and mid-capitalisation companies in developed markets worldwide and aims to represent the performance of an investment strategy that, by adjusting the constituents' free-float market capitalisation weights based upon certain environmental, social and governance ("ESG") metrics, seeks to increase overall exposure to those companies demonstrating both a robust ESG profile as well as a positive trend in improving that profile. MSCI ESG metrics is a tool designed to produce a broad set of standardised ESG data and simple flagged metrics that are comparable across a broad universe of companies and used to assess the ESG profile of a company. ESG metrics cover risk exposure, controversies, performances and practices and take the following areas into account: climate change, natural capital, pollution and waste, environmental opportunities, human capital, product liability, stakeholder opposition and corporate behaviour.

The Reference Index is constructed from the MSCI World Index (the "Parent Index") by excluding from the Parent Index securities that:

- 1) have not been assessed or rated by the Index Provider on the basis of the ESG metrics; 2) have faced very severe controversies pertaining to ESG issues (including UN Global Compact violations) over the last three years; or 3) are involved in any of the following business activities: civilian firearms, recreational, controversial weapons, conventional weapons, nuclear weapons, oil sands, thermal coal, cannabis and tobacco 4) have an MSCI ESG rating of CCC and 5) are categorised as investment trust companies.

Each of the eligible component securities is then assigned a combined ESG score, which reflects the Index Provider's assessment of both the security's current ESG rating, as well as the trend in that rating, defined as the change in the security's ESG rating over time (the "Combined ESG Score"). This Combined ESG Score is then applied to re-weight the eligible securities from their free-float market cap weights in the Parent Index to construct the weighting of the Reference Index.

Invesco MSCI Europe ESG Universal Screened UCITS ETF

The investment objective of the Invesco MSCI Europe ESG Universal Screened UCITS ETF (the "Fund") is to achieve the performance of the MSCI Europe ESG Universal Select Business Screens Index (the "Reference Index") less fees, expenses and transaction costs.

The Reference Index tracks the net total return performance of large- and mid-capitalisation companies in Europe and aims to represent the performance of an investment strategy that, by adjusting the constituents' free-float market capitalisation weights based upon certain environmental, social and governance ("ESG") metrics, seeks to increase overall exposure to those companies demonstrating both a robust ESG profile as well as a positive trend in improving that profile. MSCI ESG metrics is a tool designed to produce a broad set of standardised ESG data and simple flagged metrics that are comparable across a broad universe of companies and used to assess the ESG profile of a company. ESG metrics cover risk exposure, controversies, performances and practices and take the following areas into account: climate change, natural capital, pollution and waste, environmental opportunities, human capital, product liability, stakeholder opposition and corporate behaviour.

The Reference Index is constructed from the MSCI Europe Index (the "Parent Index") by excluding from the Parent Index securities that:

- 1) have not been assessed or rated by the Index Provider on the basis of the ESG metrics; 2) have faced very severe controversies pertaining to ESG issues (including UN Global Compact violations) over the last three years; or 3) are involved in any of the following business activities: controversial weapons, conventional weapons, nuclear weapons, oil sands, thermal coal, and civilian firearms, recreational cannabis and tobacco; 4) have an MSCI ESG rating of CCC and 5) are categorised as investment trust companies.

Each of the eligible component securities is then assigned a combined ESG score, which reflects the Index Provider's assessment of both the security's current ESG rating, as well as the trend in that rating, defined as the change in the security's ESG rating over time (the "Combined ESG Score"). This Combined ESG Score is then applied to re-weight the eligible securities from their free-float market cap weights in the Parent Index to construct the weighting of the Reference Index.

Invesco MSCI USA ESG Universal Screened UCITS ETF

The investment objective of the Invesco MSCI USA ESG Universal Screened UCITS ETF (the "Fund") is to achieve the performance of the MSCI USA ESG Universal Select Business Screens Index (the "Reference Index") less fees, expenses and transaction costs.

The Reference Index tracks the net total return performance of large- and mid-capitalisation companies in the USA and aims to represent the performance of an investment strategy that, by adjusting the constituents' free-float market capitalisation weights based upon certain environmental, social and governance ("ESG") metrics, seeks to increase overall exposure to those companies demonstrating both a robust ESG profile as well as a positive trend in improving that profile. MSCI ESG metrics is a tool designed to produce a broad set of standardised ESG data and simple flagged metrics that are comparable across a broad universe of companies and used to assess the ESG profile of a company. ESG metrics cover risk exposure, controversies, performances and practices and take the following areas into account: climate change, natural capital, pollution and waste, environmental opportunities, human capital, product liability, stakeholder opposition and corporate behaviour.

The Reference Index is constructed from the MSCI USA Index (the "Parent Index") by excluding from the Parent Index securities that: 1) have not been assessed or rated by the Index Provider on the basis of the ESG metrics; 2) have faced very severe controversies pertaining to ESG issues (including UN Global Compact violations) over the last three years; or 3) are involved in any of the following business activities: controversial weapons, conventional weapons, nuclear weapons, oil sands, thermal coal, civilian firearms, recreational cannabis and tobacco; 4) have an MSCI ESG rating of CCC and 5) are categorised as investment trust companies.

Each of the eligible component securities is then assigned a combined ESG score, which reflects the Index Provider's assessment of both the security's current ESG rating, as well as the trend in that rating, defined as the change in the security's ESG rating over time (the "Combined ESG Score"). This Combined ESG Score is then applied to re-weight the eligible securities from their free-float market cap weights in the Parent Index to construct the weighting of the Reference Index.

Invesco MSCI Pacific ex Japan ESG Universal Screened UCITS ETF

The investment objective of the Invesco MSCI Pacific ex Japan ESG Universal Screened UCITS ETF (the "Fund") is to achieve the net total return performance of the MSCI Pacific ex Japan ESG Universal Select Business Screens Index (the "Reference Index") less fees, expenses and transaction costs.

In order to achieve the investment objective, the Fund will employ a replication method that looks to invest as far as possible and practicable in the constituents of the Reference Index. The Fund intends to replicate the Reference Index by holding all of its constituent securities in a similar proportion to their weightings in the Reference Index. In order to replicate the Reference Index, the Fund may invest up to 20% of its Net Asset Value in shares issued by the same body. This limit may be raised to 35% for a single issuer in exceptional market circumstances, for example, market dominance.

Investment Objectives and Policies (continued)

Invesco MSCI Japan ESG Universal Screened UCITS ETF

The investment objective of the Invesco MSCI Japan ESG Universal Screened UCITS ETF (the "Fund") is to achieve the net total return performance of the MSCI Japan ESG Universal Select Business Screens Index (the "Reference Index") less fees, expenses and transaction costs.

Invesco MSCI Japan ESG Universal Screened UCITS ETF (continued)

In order to achieve the investment objective, the Fund will employ a replication method that looks to invest as far as possible and practicable in the constituents of the Reference Index. The Fund intends to replicate the Reference Index by holding all of its constituent securities in a similar proportion to their weightings in the Reference Index. In order to replicate the Reference Index, the Fund may invest up to 20% of its Net Asset Value in shares issued by the same body. This limit may be raised to 35% for a single issuer in exceptional market circumstances, for example, market dominance.

The Reference Index tracks the performance of large- and mid-capitalisation companies across Japan and aims to represent the performance of an investment strategy that, by adjusting the constituents' free-float market capitalisation weights based upon certain environmental, social and governance ("ESG") metrics, seeks to increase overall exposure to those companies demonstrating both a robust ESG profile as well as a positive trend in improving that profile. MSCI ESG metrics is a tool designed to produce a broad set of standardised ESG data and simple flagged metrics that are comparable across a broad universe of companies and used to assess the ESG profile of a company. Invesco MSCI EMU ESG Universal Screened UCITS ETF

The investment objective of the Invesco MSCI EMU ESG Universal Screened UCITS ETF (the "Fund") is to achieve the net total return performance of the MSCI EMU ESG Universal Select Business Screens Index (the "Reference Index") less fees, expenses and transaction costs.

In order to achieve the investment objective, the Fund will employ a replication method that looks to invest as far as possible and practicable in the constituents of the Reference Index. The Fund intends to replicate the Reference Index by holding all of its constituent securities in a similar proportion to their weightings in the Reference Index. In order to replicate the Reference Index, the Fund may invest up to 20% of its Net Asset Value in shares issued by the same body. This limit may be raised to 35% for a single issuer in exceptional market circumstances, for example, market dominance. Market dominance exists where a particular component of the Reference Index has a dominant position in the particular market sector or geographical region in which it operates and as a result accounts for a large proportion of the Reference Index. This means that the Fund may have a high concentration of investment in a particular issuer.

The Fund may hold ancillary liquid assets and use efficient portfolio management techniques in accordance with the requirements of the Central Bank.

The Reference Index tracks the net total return performance of large- and mid-capitalisation companies in Europe and aims to represent the performance of an investment strategy that, by adjusting the constituents' free-float market capitalisation weights based upon certain environmental, social and governance ("ESG") metrics, seeks to increase overall exposure to those companies demonstrating both a robust ESG profile as well as a positive trend in improving that profile. MSCI ESG metrics is a tool designed to produce a broad set of standardised ESG data and simple flagged metrics that are comparable across a broad universe of companies and used to assess the ESG profile of a company. ESG metrics cover risk exposure, controversies, performances and practices and take the following areas into account: climate change, natural capital, pollution and waste, environmental opportunities, human capital, product liability, stakeholder opposition and corporate behavior.

Invesco MSCI Europe ex UK ESG Universal Screened UCITS ETF

The investment objective of the Invesco MSCI Europe ex UK ESG Universal Screened UCITS ETF (the "Fund") is to achieve the net total return performance of the MSCI Europe ex UK ESG Universal Select Business Screens Index (the "Reference Index") less fees, expenses and transaction costs.

In order to achieve the investment objective, the Fund will employ a replication method that looks to invest as far as possible and practicable in the constituents of the Reference Index. The Fund intends to replicate the Reference Index by holding all of its constituent securities in a similar proportion to their weightings in the Reference Index. In order to replicate the Reference Index, the Fund may invest up to 20% of its Net Asset Value in shares issued by the same body. This limit may be raised to 35% for a single issuer in exceptional market circumstances, for example, market dominance. Market dominance exists where a particular component of the Reference Index has a dominant position in the particular market sector or geographical region in which it operates and as a result accounts for a large proportion of the Reference Index. This means that the Fund may have a high concentration of investment in a particular issuer.

The Reference Index tracks the performance of large- and mid-capitalisation companies across 14 Developed Markets in Europe (excluding the UK) and aims to represent the performance of an investment strategy that, by adjusting the constituents' free-float market capitalisation weights based upon certain environmental, social and governance ("ESG") metrics, seeks to increase overall exposure to those companies demonstrating both a robust ESG profile as well as a positive trend in improving that profile. MSCI ESG metrics is a tool designed to produce a broad set of standardised ESG data and simple flagged metrics that are comparable across a broad universe of companies and used to assess the ESG profile of a company. ESG metrics cover risk exposure, controversies, performances and practices and take the following areas into account: climate change, natural capital, pollution and waste, environmental opportunities, human capital, product liability, stakeholder opposition and corporate behaviour.

The Fund may hold ancillary liquid assets and use efficient portfolio management techniques in accordance with the requirements of the Central Bank.

Invesco MSCI Emerging Markets ESG Universal Screened UCITS ETF

The investment objective of the Invesco MSCI Emerging Markets ESG Universal Screened UCITS ETF (the "Fund") is to achieve the net total return performance of the MSCI EM (Emerging Markets) ESG Universal Select Business Screens Index (the "Reference Index") less fees, expenses and transaction costs.

The Reference Index tracks the performance of large- and mid-capitalisation companies across 26 Emerging Market (EM) countries and aims to represent the performance of an investment strategy that, by adjusting the constituents' free-float market capitalisation weights based upon certain environmental, social and governance ("ESG") metrics, seeks to increase overall exposure to those companies demonstrating both a robust ESG profile as well as a positive trend in improving that profile. MSCI ESG metrics is a tool designed to produce a broad set of standardised ESG data and simple flagged metrics that are comparable across a broad universe of companies and used to assess the ESG profile of a company. ESG metrics cover risk exposure, controversies, performances and practices and take the following areas into account: climate change, natural capital, pollution and waste, environmental opportunities, human capital, product liability, stakeholder opposition and corporate behaviour. The Reference Index is rebalanced on a semi-annual basis.

Investment Objectives and Policies (continued)

Invesco MSCI Emerging Markets ESG Universal Screened UCITS ETF (continued)

Where consistent with its investment objective, and in conjunction with the use of a Sampling Strategy the Fund may also hold some securities which are not component securities of the Reference Index, but are of a similar nature to them and whose risk and return characteristics either (a) closely resemble the risk and return characteristics of constituents of the Reference Index or of the Reference Index as a whole, (b) whose addition improves the quality of the replication of the Reference Index, or (c) whose future inclusion into the Reference Index is anticipated. The level of sampling will vary over the life of the Fund depending on asset levels of the Fund, as certain asset levels may make replication uneconomical or impractical, and the nature of the components of the Reference Index. It is generally expected that the Fund will hold less than the total number of securities in the Reference Index however, the Investment Manager reserves the right to hold as many securities as it believes necessary to achieve the Fund's investment objective.

Further information in relation to how the Fund will seek to track the Reference Index is set out in section 4 "Investment Objective and Policies" and section 5 "Investment Restrictions and Permitted Investments" of the Prospectus.

The Fund may hold ancillary liquid assets and use efficient portfolio management techniques in accordance with the requirements of the Central Bank.

Invesco Quantitative Strategies ESG Global Equity Multi-Factor UCITS ETF

The investment objective of the Invesco Quantitative Strategies ESG Global Equity Multi-Factor UCITS ETF (the "Fund") is to achieve a long-term return in excess of the MSCI World Index (the "Benchmark") by investing in an actively-managed portfolio of global equities that meet environmental, social, and corporate governance criteria (the "ESG Criteria").

The Fund invests primarily in a portfolio of equity and equity-related securities of companies from developed markets worldwide. Securities are selected by the Sub-Investment Manager based on 1) compliance with the Funds ESG Criteria, 2) attractiveness determined in accordance with the sub-investment managers quantitative investment model, and 3) consistency between the portfolio's expected risk characteristics and the Funds investment Objectives.

The Reference Index tracks the performance of large and mid-capitalisation companies across developed markets worldwide. Invesco Euro Government Bond UCITS ETF

The investment objective of the Invesco Euro Government Bond UCITS ETF (the "Fund") is to achieve the performance of the Bloomberg Euro Treasury Majors Bond Index (the "Reference Index") less fees, expenses and transaction costs.

The Reference Index is designed to measure the total return performance of EUR-denominated, fixed-rate government debt.

To be eligible for inclusion in the reference index, eligible securities' principal and interest must be denominated in EUR. The securities that comprise the reference index must be rated investment grade (Baa3/BBB-/BBB-) or higher, and to remain the Reference Index securities must be rated B3/B-/B- or higher using the middle rating of Moody's, S & P and Fitch, after dropping the highest and lowest available ratings. Local currency treasury issues are rated using the long-term local currency sovereign rating from Moody's, S&P and Fitch. Expected ratings at issuance may be used when other Reference Index - eligible bonds from the same issuer hold the same actual rating as the expected rating.

To be eligible for inclusion in the reference index, bonds must have EUR 300mn minimum par amount outstanding.

Invesco Euro Government Bond 1-3 Year UCITS ETF

The investment objective of the Invesco Euro Government Bond 1-3 Year UCITS ETF (the "Fund") is to deliver the performance of the Bloomberg Euro Government Select 1-3 Year Index (the 'Reference Index') less fees, expenses and transaction costs.

The Reference Index is designed to measure the total return of EUR-denominated, fixed-rate government debt with remaining time to maturity between 1 and 3 years issued by: France, Germany, Italy, Netherlands, and Spain.

To be eligible for inclusion in the reference index, eligible securities' principal and interest must be denominated in EUR. The securities that comprise the reference index must be rated B3/B-/B- or higher using the middle rating of Moody's, S&P and Fitch after dropping the highest and lowest available ratings. Local currency treasury issues are rated using the long-term local currency sovereign rating from Moody's, S&P and Fitch. Expected ratings at issuance may be used when other Reference Index-eligible bonds from the same issuer hold the same actual rating as the expected rating.

To be eligible for inclusion in the reference index, bonds must have EUR 300mn minimum par amount outstanding.

Investment Objectives and Policies (continued)

Invesco Euro Government Bond 3-5 Year UCITS ETF

The investment objective of the Invesco Euro Government Bond 3-5 Year UCITS ETF (the "Fund") is to achieve the performance of the Bloomberg Euro Government Select 3-5 Year Index (the 'Reference Index') less fees, expenses and transaction costs.

The Reference Index measures the total return performance of the EUR-denominated, fixed-rate, investment-grade government debt with remaining time to maturity between 3-5 years issued by: France, Germany, Italy, Netherlands and Spain.

To be eligible for inclusion in the reference index, eligible securities' principal and interest must be denominated in EUR. The securities that comprise the reference index must be rated B3/B-/B- or higher using the middle rating of Moody's, S&P and Fitch after dropping the highest and lowest available ratings. Local currency treasury issues are rated using the long-term local currency sovereign rating from Moody's, S&P and Fitch. Expected ratings at issuance may be used when other Reference Index-eligible bonds from the same issuer hold the same actual rating as the expected rating.

To be eligible for inclusion in the reference index, bonds must have EUR 300mn minimum par amount outstanding.

Invesco Euro Government Bond 5-7 Year UCITS ETF

The investment objective of the Invesco Euro Government Bond 5-7 Year UCITS ETF (the "Fund") is to achieve the performance of the Bloomberg Euro Government Select 5-7 Year Index (the 'Reference Index') less fees, expenses and transaction costs.

The Reference Index is designed to measure the total return performance of the EUR-denominated, fixed-rate, investment-grade government debt with remaining time to maturity between 5-7 years issued by: France, Germany, Italy, Netherlands and Spain.

To be eligible for inclusion in the reference index, eligible securities' principal and interest must be denominated in EUR. The securities that comprise the reference index must be rated B3/B-/B- or higher using the middle rating of Moody's, S&P and Fitch after dropping the highest and lowest available ratings. Local currency treasury issues are rated using the long-term local currency sovereign rating from Moody's, S&P and Fitch. Expected ratings at issuance may be used when other Reference Index-eligible bonds from the same issuer hold the same actual rating as the expected rating.

To be eligible for inclusion in the reference index, bonds must have EUR 300mn minimum par amount outstanding.

Invesco Euro Government Bond 7-10 Year UCITS ETF

The investment objective of the Invesco Euro Government Bond 7-10 Year UCITS ETF (the "Fund") is to achieve the performance of the Bloomberg Euro Government Select 7-10 Year Index: (the "Reference Index") less fees, expenses and transaction costs.

The Reference Index is designed to measure the total return performance of the EUR-denominated, fixed-rate, investment-grade government debt with remaining time to maturity between 7-10 years issued by: France, Germany, Italy, Netherlands and Spain.

To be eligible for inclusion in the reference index, eligible securities' principal and interest must be denominated in EUR. The securities that comprise the reference index must be rated B3/B-/B- or higher using the middle rating of Moody's, S&P and Fitch after dropping the highest and lowest available ratings. Local currency treasury issues are rated using the long-term local currency sovereign rating from Moody's, S&P and Fitch. Expected ratings at issuance may be used when other Reference Index-eligible bonds from the same issuer hold the same actual rating as the expected rating.

To be eligible for inclusion in the reference index, bonds must have EUR 300mn minimum par amount outstanding.

Invesco EUR Government and Related Green Transition UCITS ETF

The investment objective of the Invesco EUR Government and Related Green Transition UCITS ETF (the "Fund") is to provide the performance of the European government bond market by investing in an actively managed portfolio of government and government-related bonds that also factors certain environmental, social, and corporate governance ("ESG") criteria into the portfolio construction and maximises exposure to Green Bonds subject to exposure and liquidity considerations.

In order to achieve its investment objective, the Fund will generally invest in a portfolio of euro denominated government and government-related bonds predominantly issued by European issuers with an investment grade credit rating.

Securities are selected by the Investment Manager based on three criteria:

- compliance with the Fund's ESG policy (the "ESG Policy");
- maximising exposure to Green Bonds subject to specific exposure and liquidity considerations; and
- the overall ability of the Fund's portfolio to meet the targets set out in the "Benchmark" section of the Supplement to the Prospectus.

To qualify as eligible for investment by the Fund, a bond must be classified as treasury or government related at a Bloomberg BCCLASS Classification Level 1 and must have an investment grade rating by the rating agencies S&P, Fitch or Moody's. Investment grade securities are those rated BBB- or higher by Standard and Poor's or Fitch and Baa3 or higher by Moody's. If the rating for a specific bond is unavailable, the rating of the issuer is to be used instead. Otherwise, unrated securities are eligible if they are determined by the Investment Manager to be of comparable quality to the above based on internal assessment of issuer credit quality. If the ratings of a bond differ between agencies, the middle rating is used to determine a bond's credit quality. If only two agencies rate a bond, the more conservative (lower) rating is used. If only one agency rates a bond, that single rating is used. If the credit rating of any security held by the Fund is downgraded below these respective ratings, the Investment Manager will liquidate this position at the earliest optimal opportunity, within 90 days of the downgrade, taking due account of the interests of its Shareholders.

Fixed and floating rate bonds are eligible for inclusion. The Fund may invest up to 10% of its assets in floating rate bonds.

The Fund will not invest in bonds that are in default at the time of investment. If a bond defaults subsequent to purchase by the Fund, the Investment Manager will determine in its discretion whether to hold or dispose of such security, taking due account of the interests of its Shareholders.

Investment Objectives and Policies (continued)

Invesco EUR Government and Related Green Transition UCITS ETF (continued)

The Fund may invest up to 30% of its assets in bonds denominated in currencies other than euro. Exposure to exchange-rate fluctuations resulting from these investments will be hedged back to euro at the Investment Manager's discretion. The Fund will only invest in bonds from developed market issuers, unless an issuer is from the European Economic Area (EEA) in which case an emerging market issuer is eligible; it is not expected that the Fund would invest more than 10% of its assets in securities from emerging market issuers. The Fund may invest up to 30% of its assets in issuers not from the EEA.

Invesco MSCI China All Shares Stock Connect UCITS ETF

The investment objective of the Invesco MSCI China All Shares Stock Connect UCITS ETF (the "Fund") is to achieve the net total return of the MSCI China All Shares Stock Connect Select Index (the "Reference Index") less fees, expenses and transaction costs.

In order to achieve the investment objective, the Fund will employ a replication method that looks to invest as far as possible and practicable in the constituents of the Reference Index. The Fund intends to replicate the Reference Index by holding all of its constituent securities in a similar proportion to their weightings in the Reference Index. In order to replicate the Reference Index, the Fund may invest up to 20% of its Net Asset Value in shares issued by the same body. This limit may be raised to 35% for a single issuer in exceptional market circumstances, for example, market dominance. Market dominance exists where a particular component of the Reference Index has a dominant position in the particular market sector or geographical region in which it operates and as a result accounts for a large proportion of the Reference Index. This means that the Fund may have a high concentration of investment in a particular issuer.

The Fund may hold ancillary liquid assets and use efficient portfolio management techniques in accordance with the requirements of the Central Bank.

The Reference Index is designed to reflect the performance of large and mid-capitalisation stocks of the Chinese equity market across China A shares, China B shares, China H shares, Red chips, P chips and foreign listings (e.g. American Depository Receipts ("ADRs")). The Reference Index aims to represent the performance of the opportunity set of China share classes listed in Hong Kong, Shanghai, Shenzhen and outside of China. It is based on the concept of the integrated MSCI China equity universe with Stock Connect eligible China A shares included.

Invesco MSCI China Technology All Shares Stock Connect UCITS ETF

The investment objective of the Invesco MSCI China Technology All Shares Stock Connect UCITS ETF (the "Fund") is to achieve the net total return performance of the MSCI China Technology All Shares Stock Connect Select Index (the "Reference Index") less fees, expenses and transaction costs.

In order to achieve the investment objective, the Fund will employ a replication method that looks to invest as far as possible and practicable in the constituents of the Reference Index. The Fund intends to replicate the Reference Index by holding all of its constituent securities in a similar proportion to their weightings in the Reference Index. In order to replicate the Reference Index, the Fund may invest up to 20% of its Net Asset Value in shares issued by the same body.

The Reference Index is designed to reflect the performance of large and mid-capitalisation technology stocks of the Chinese equity market across China A shares, China B shares, China H shares, Red chips, P chips and foreign listings (e.g. American Depository Receipts ("ADRs")). The Reference index aims to represent the performance of a set of companies that are expected to derive significant revenue (as explained below) from the development of new products and services from technology innovations leading to breakthroughs in areas such as internet and digitisation, mobility, autonomous technology, industrial automation and digital healthcare. The Reference Index includes large and mid-cap A shares accessible through the Stock Connect program.

The Fund may hold ancillary liquid assets and use efficient portfolio management techniques in accordance with the requirements of the Central Bank.

Invesco FTSE All-World UCITS ETF

The investment objective of the Invesco FTSE All-World UCITS ETF (the "Fund") is to achieve the net total return of the FTSE All-World Index (the "Reference Index") less fees, expenses and transaction costs.

Further information on the components and selection criteria of the Reference Index is set out under "General Description of the Reference Index" in the Supplement to the Prospectus.

In order to achieve the investment objective, the Company will employ a sampling strategy ("Sampling Strategy"). In tracking the Reference Index, the Investment Manager applies the Sampling Strategy, which includes the use of quantitative analysis, to select securities from the Reference Index that use factors such as the country weights, industry sector weights and liquidity.

Where consistent with its investment objective, and in conjunction with the use of a Sampling Strategy the Fund may also hold some securities which are not component securities of the Reference Index, but are of a similar nature to them and whose risk and return characteristics either (a) closely resemble the risk and return characteristics of constituents of the Reference Index or of the Reference Index as a whole, (b) whose addition improves the quality of the replication of the Reference Index, or (c) whose future inclusion into the Reference Index is anticipated. The level of sampling will vary over the life of the Fund depending on asset levels of the Fund, as certain asset levels may make replication uneconomical or impractical, and the nature of the components of the Reference Index. It is generally expected that the Fund will hold less than the total number of securities in the Reference Index however, the Investment Manager reserves the right to hold as many securities as it believes necessary to achieve the Fund's investment objective.

Further information in relation to how the Fund will seek to track the Reference Index is set out in section 4 "Investment Objective & Policies" and section 5 "Investment Restrictions and Permitted Investments" of the Prospectus. The Fund may hold ancillary liquid assets and use efficient portfolio management techniques in accordance with the requirements of the Central Bank.

The Fund may also engage in transactions in FDIs for hedging and/or efficient portfolio management purposes. The Fund may use the following FDIs listed on a Market or traded OTC, as applicable: options and futures transactions, forward contracts, non-deliverable forwards and spot foreign exchange transactions. Further details on FDIs and how they may be used are contained in the main part of the Prospectus under "Appendix III - Efficient Portfolio Management and Use Of Financial Derivative Instruments".

The Fund shall not invest more than 10% of its net assets in other UCITS or other open or closed ended CIS.

With the exception of permitted investment in unlisted securities or in units of open-ended CIS, investment will be limited to the stock exchanges and regulated markets set out in Appendix I of the Prospectus. The Fund may invest in China A shares via Stock Connect.

Further information relevant to the Fund's investment policy is contained in the main part of the Prospectus under "Investment Objectives & Policies" and under "Investment Restrictions and Permitted Investments".

Investment Objectives and Policies (continued)

Invesco FTSE All-World UCITS ETF (continued)

Information on the Fund's approach to sustainability risks in accordance with Article 6 of SFDR is set out in the Prospectus. The Fund is not classified as an Article 8 or Article 9 fund pursuant to SFDR. The investments underlying the Fund do not take into account the EU criteria for environmentally sustainable economic activities outlined in Regulation (EU) 2020/852 of the European Parliament and of the Council of 18 June 2020 on the establishment of a framework to facilitate sustainable investment. Given the investment strategy of the Fund and its risk profile, the likely impact of sustainability risks on the Fund's returns is expected to be low.

Invesco FTSE All Share ESG Climate UCITS ETF

The investment objective of the Invesco FTSE All Share ESG Climate UCITS ETF (the "Fund") is to achieve the net total return performance of the FTSE All Share ex Investment Trusts ESG Climate Select Index (the "Reference Index") less fees, expenses and transaction costs.

In order to achieve the investment objective, the Fund will employ a replication method that looks to invest as far as possible and practicable in the constituents of the Reference Index. The Fund intends to replicate the Reference Index by holding all of its constituent securities in a similar proportion to their weightings in the Reference Index. In order to replicate the Reference Index, the Fund may invest up to 20% of its Net Asset Value in shares issued by the same body.

Further information in relation to how the Fund will seek to track the Reference Index is set out in section 4 "Investment Objective and Policies" of the Prospectus.

The Reference Index is designed to reflect the performance of large- and mid-capitalisation companies in the UK equity market and, by re-weighting constituents' free-float market capitalisation weights based upon certain environmental, social and governance ("ESG") metrics, seeks to increase exposure to those companies demonstrating a robust ESG profile, those generating an increased percentage of their revenue from green projects, and those that exhibit lower levels of carbon emissions and fossil fuel reserves.

The Fund may hold ancillary liquid assets and use efficient portfolio management techniques in accordance with the requirements of the Central Bank.

Invesco Global Clean Energy UCITS ETF

The investment objective of the Invesco Global Clean Energy UCITS ETF (the "Fund") is to achieve the net total return performance of the WilderHill New Energy Global Innovation Index (the "Reference Index") less fees, expenses and transaction costs.

In order to achieve the investment objective, the Fund will employ a replication method that looks to invest as far as possible and practicable in the constituents of the Reference Index. The Fund intends to replicate the Reference Index by holding all of its constituent securities in a similar proportion to their weightings in the Reference Index.

The Fund may hold ancillary liquid assets and use efficient portfolio management techniques in accordance with the requirements of the Central Bank.

The Reference Index is designed to reflect the performance of global companies whose innovative technologies focus on the generation and use of cleaner energy, conservation, efficiency and the advancement of renewable energy. It is mainly composed of companies focused in wind, solar, biofuels, hydro, wave, tidal, geothermal and other relevant renewable energy businesses, as well as energy conversion, storage, conservation, efficiency, materials relating to those activities, carbon and greenhouse gas reduction, pollution control, emerging hydrogen and fuel cells.

Invesco Wind Energy UCITS ETF

The investment objective of the Invesco Wind Energy UCITS ETF (the "Fund") is to achieve the net total return performance of the WilderHill Wind Energy Index (the "Reference Index") less fees, expenses and transaction costs, thereby taking an approach that seeks to invest in companies whose innovative technologies focus on advancing wind energy and enabling its use, hence facilitating a transition to a lower carbon economy.

In order to achieve the investment objective, the Fund will employ a replication method that looks to invest as far as possible and practicable in the constituents of the Reference Index. The Fund intends to replicate the Reference Index by holding all of its constituent securities in a similar proportion to their weightings in the Reference Index. In order to replicate the Reference Index, the Fund may invest up to 20% of its Net Asset Value in shares issued by the same body.

The Fund may hold ancillary liquid assets and use efficient portfolio management techniques in accordance with the requirements of the Central Bank.

The Reference Index is designed to reflect the performance of global companies whose innovative technologies focus on advancing wind energy and helping to enable its use. The Reference Index comprises companies whose innovative technologies focus on advancing wind energy and enabling its use, facilitating a transition to a lower carbon economy through improving wind turbines and blades, providing materials used in wind energy, modernizing the grid and through innovations facilitating greater wind deployment or expanding its use. The Reference Index also comprises companies involved in onshore and offshore wind energy.

Invesco Hydrogen Economy UCITS ETF

The investment objective of the Invesco Hydrogen Economy UCITS ETF (the "Fund") is to achieve the net total return performance of the WilderHill Hydrogen Economy Index (the "Reference Index") less fees, expenses and transaction costs, thereby taking an approach that seeks to invest in companies whose innovative technologies focus on advancing the use of hydrogen, fuel cells and the potential hydrogen economy, hence facilitating a transition to a lower carbon economy.

In order to achieve the investment objective, the Fund will employ a replication method that looks to invest as far as possible and practicable in the constituents of the Reference Index. The Fund intends to replicate the Reference Index by holding all of its constituent securities in a similar proportion to their weightings in the Reference Index. In order to replicate the Reference Index, the Fund may invest up to 20% of its Net Asset Value in shares issued by the same body.

The Fund may hold ancillary liquid assets and use efficient portfolio management techniques in accordance with the requirements of the Central Bank.

The Reference Index is designed to reflect the performance of global companies whose innovative technologies focus on advancing the use of hydrogen, fuel cells and the potential hydrogen economy. The Reference Index comprises companies involved in renewable green hydrogen activities which includes improvements in hydrogen generation, storage, conversion, uses in transportation, innovation, and advancement of fuel cells.

Invesco US Municipal Bond UCITS ETF

The investment objective of the Invesco US Municipal Bond UCITS ETF (the "Fund") is to achieve the total return performance of the ICE BofA US Taxable Municipal Securities Plus Index (the "Reference Index") less fees, expenses and transaction costs.

Investment Objectives and Policies (continued)

Invesco US Municipal Bond UCITS ETF (continued)

In order to achieve the investment objective, the Company will employ a sampling strategy ("Sampling Strategy").

In tracking the Reference Index, the Investment Manager applies the Sampling Strategy, which includes the use of quantitative analysis, to select securities from the Reference Index with the goal of matching key characteristics of the Reference Index such as the weighted average duration, industry weights, issuer types, regional exposures and credit quality.

Where consistent with its investment objective, and in conjunction with the use of a Sampling Strategy, the Fund may also hold securities which are not component securities of the Reference Index, but are of a similar nature to them and whose risk and return characteristics either (a) closely resemble the risk and return characteristics of constituents of the Reference Index or of the Reference Index as a whole, (b) whose addition is expected to improve the quality of the replication of the Reference Index, or (c) whose future inclusion into the Reference Index is anticipated.

Whilst the level of sampling will vary over the life of the Fund depending on asset levels of the Fund, market structure and other factors, including liquidity, degree of correlation across different subsets of the taxable municipal market, the volume of issuances in the taxable municipal bond market and the diversity of different types of issuing entities, it is generally expected that the Fund will hold a total number of securities that is significantly less than the number in the Reference Index – frequently less than 10% – though this may change and the Investment Manager reserves the right to hold as many securities as it believes necessary to achieve the Fund's investment objective. The Fund will hold municipal securities (being debt securities issued by state and local governments in the United States, which are generally used to finance public projects), corporate bonds and other types of securities that may comprise the Reference Index.

The reason the Investment Manager expects to hold a significantly fewer securities than what is found in the Reference Index is that the issuance of municipal securities is frequently done in multiple, smaller issuances rather than in the less frequent, larger issues that are common in, for example, the investment grade corporate bond markets. As a result, the Reference Index has a very large number of individual securities with highly similar characteristics. It is these characteristics that the Investment Manager looks to replicate with the Sampling Strategy.

In addition, while the Investment Manager expects to manage the majority of inflows and outflows from the fund through purchase and sale of securities in the secondary market, the Investment Manager will participate significantly in the primary market as newly issued securities frequently exhibit attractive pricing and secondary market liquidity. These securities may not yet be included in the Reference Index and there is no guarantee that they will be included.

Further information in relation to how the Fund will seek to track the Reference Index is set out in section 4 "Investment Objective and Policies" of the Prospectus.

The Reference Index is designed to reflect the performance of US dollar denominated taxable municipal debt publicly issued by US states and territories, and their political subdivisions, in the US domestic market.

The Fund may hold ancillary liquid assets and use efficient portfolio management techniques in accordance with the requirements of the Central Bank.

Invesco NASDAQ Next Generation 100 UCITS ETF

The investment objective of the Invesco NASDAQ Next Generation 100 UCITS ETF (the "Fund") is to achieve the net total return performance of the NASDAQ Next Generation 100 Index® (the "Reference Index") less fees, expenses and transaction costs.

In order to achieve the investment objective, the Fund will employ a replication method that looks to invest as far as possible and practicable in the constituents of the Reference Index. The Fund intends to replicate the Reference Index by holding all of its constituent securities in a similar proportion to their weightings in the Reference Index. In order to replicate the Reference Index, the Fund may invest up to 20% of its Net Asset Value in shares issued by the same body.

The Reference Index is designed to reflect the performance of the next generation of Nasdaq-listed non-financial companies; that is, the largest 100 Nasdaq-listed companies outside of the NASDAQ-100 Index® based on market capitalisation.

Invesco NASDAQ-100 Equal Weight UCITS ETF

The investment objective of the Fund is to achieve the net total return performance of the NASDAQ-100 Equal Weighted Index® (the "Reference Index") less fees, expenses and transaction costs.

In order to achieve the investment objective, the Fund will employ a replication method that looks to invest as far as possible and practicable in the constituents of the Reference Index. The Fund intends to replicate the Reference Index by holding all of its constituent securities in a similar proportion to their weightings in the Reference Index. In order to replicate the Reference Index, the Fund may invest up to 20% of its Net Asset Value in shares issued by the same body.

Further information in relation to how the Fund will seek to track the Reference Index is set out in section 4 "Investment Objective and Policies" and section 5 "Investment Restrictions and Permitted Investments" of the Prospectus.

There are a number of circumstances where gaining access to the components of the Reference Index may be prohibited by regulation, may not otherwise be in the Shareholders' interests or may not otherwise be possible or practicable.

The Fund may hold ancillary liquid assets and use efficient portfolio management techniques in accordance with the requirements of the Central Bank.

The Fund may also engage in transactions in FDIs for hedging and/or efficient portfolio management purposes. The Fund may use the following FDIs listed on a Market or traded OTC, as applicable: options and futures transactions, forward contracts, non-deliverable forwards and spot foreign exchange transactions. Further details on FDIs and how they may be used are contained in the main part of the Prospectus under "Appendix III - Efficient Portfolio Management and Use of Financial Derivative Instruments".

The Fund shall not invest more than 10% of its net assets in other UCITS or other open or closed ended CIS.

With the exception of permitted investment in unlisted securities or in units of open-ended CIS, investment will be limited to the stock exchanges and regulated markets set out in Appendix I of the Prospectus.

Further information relevant to the Fund's investment policy is contained in the main part of the Prospectus under "Investment Objectives & Policies" and under "Investment Restrictions and Permitted Investments".

Investment Objectives and Policies (continued)

Invesco S&P 500 Equal Weight UCITS ETF

The investment objective of the Invesco S&P 500 Equal Weight UCITS ETF (the "Fund") is to achieve the net total return performance of the S&P 500 Equal Weight Index (the "Reference Index") less fees, expenses and transaction costs.

In order to achieve the investment objective, the Fund will employ a replication method that looks to invest as far as possible and practicable in the constituents of the Reference Index. The Fund intends to replicate the Reference Index by holding all of its constituent securities in a similar proportion to their weightings in the Reference Index. In order to replicate the Reference Index, the Fund may invest up to 20% of its Net Asset Value in shares issued by the same body.

The Fund may hold ancillary liquid assets and use efficient portfolio management techniques in accordance with the requirements of the Central Bank.

The Reference Index measures the performance of the companies in the S&P 500 index (the "Parent Index") when taking a size neutral approach. The Parent Index is designed to reflect the US large-cap equity market, by including 500 leading companies and covering approximately 80% of the available market capitalisation.

Invesco S&P 500 Low Volatility UCITS ETF

The investment objective of the Invesco S&P 500 Low Volatility UCITS ETF (the "Fund") is to achieve the net total return performance of the S&P 500 Low Volatility Index (the "Reference Index") less fees, expenses and transaction costs.

The Reference Index measures the performance of the 100 least volatile stocks in the S&P 500 index (the "Parent Index"). The Parent Index is designed to reflect the US large-cap equity market, by including 500 leading companies and covering approximately 80% of the available market capitalisation. The Reference Index rebalances quarterly.

In order to achieve the investment objective, the Fund will employ a replication method that looks to invest as far as possible and practicable in the constituents of the Reference Index. The Fund intends to replicate the Reference Index by holding all of its constituent securities in a similar proportion to their weightings in the Reference Index. In order to replicate the Reference Index, the Fund may invest up to 20% of its Net Asset Value in shares issued by the same body. This limit may be raised to 35% for a single issuer in exceptional market circumstances, for example, market dominance. Market dominance exists where a particular component of the Reference Index has a dominant position in the particular market sector or geographical region in which it operates and as a result accounts for a large proportion of the Reference Index. This means that the Fund may have a high concentration of investment in a particular issuer.

Further information in relation to how the Fund will seek to track the Reference Index is set out in section 4 "Investment Objective and Policies" and section 5 "Investment Restrictions and Permitted Investments" of the Prospectus.

The Fund may hold ancillary liquid assets and use efficient portfolio management techniques in accordance with the requirements of the Central Bank.

Invesco USD High Yield Corporate Bond ESG UCITS ETF

The investment objective of the Invesco USD High Yield Corporate Bond ESG UCITS ETF (the "Fund") is to achieve the total return performance of the Bloomberg MSCI USD High Yield Liquid Corporate ESG Weighted SRI Bond Index (the "Reference Index") less fees, expenses and transaction costs.

The Reference Index is designed to reflect the performance of USD-denominated high yield, fixed-rate securities issued by corporate issuers adjusted based upon certain environmental, social and governance ("ESG") metrics, which seek to increase overall exposure to those issuers demonstrating a robust ESG profile. The index includes publicly issued securities by industrial, utility and financial institution issuers in global and regional markets. Bonds issued by emerging markets issuers are excluded. The Reference Index rebalances monthly.

In tracking the Reference Index, the Investment Manager applies the Sampling Strategy, which includes the use of quantitative analysis, to select securities from the Reference Index that use factors such as the index weighted average duration, industry sectors and credit quality.

Where consistent with its investment objective, and in conjunction with the use of a Sampling Strategy the Fund may also hold some securities which are not component securities of the Reference Index, but are of a similar nature to them and whose risk and return characteristics either (a) closely resemble the risk and return characteristics of constituents of the Reference Index or of the Reference Index as a whole, (b) whose addition improves the quality of the replication of the Reference Index, or (c) whose future inclusion into the Reference Index is anticipated. The level of sampling will vary over the life of the Fund depending on asset levels of the Fund, as certain asset levels may make replication uneconomical or impractical, and the nature of the components of the Reference Index. It is generally expected that the Fund will hold less than the total number of securities in the Reference Index however, the Investment Manager reserves the right to hold as many securities as it believes necessary to achieve the Fund's investment objective.

Further information in relation to how the Fund will seek to track the Reference Index is set out in section 4 "Investment Objective and Policies" of the Prospectus.

The Fund may hold ancillary liquid assets and use efficient portfolio management techniques in accordance with the requirements of the Central Bank.

Invesco Solar Energy UCITS ETF

The investment objective of the Invesco Solar Energy UCITS ETF (the "Fund") is to achieve the net total return performance of the MAC Global Solar Energy Index (the "Reference Index") less fees, expenses and transaction costs.

The Reference Index is a thematic index which is designed to reflect the performance of the global solar energy equity sector and includes companies who derive significant revenue from solar business activities. The Reference Index is rebalanced quarterly.

Companies eligible for inclusion in the Reference Index are reviewed quarterly and may be excluded if according to S&P's exclusionary criteria: 1) the company is engaged in (as defined by S&P) the following business activities: Adult Entertainment, Alcohol, Gambling, Tobacco, Anti-Personnel Mines, Biological and Chemical Weapons, Blinding Laser Weapons, Cluster Munitions, Depleted Uranium, Incendiary Weapons, Military Contracting, Nuclear Weapons, Small Arms, Arctic Drilling, Coal, Nuclear Energy, Oil Sands or Tar Sands, Shale Oil and Gas, Ultra Deep Sea Drilling, Fossil Fuel Power Generation and Extraction; or 2) the company has an S&P Governance and Economic Score of less than 5; or 3) the company has no S&P Governance and Economic Score coverage. If the company is not covered from a data availability perspective to test for exclusionary business activities, then the security shall be eligible for inclusion in the Reference Index subject to the below further eligibility criteria.

In order to achieve the investment objective, the Fund will employ a replication method that looks to invest as far as possible and practicable in the constituents of the Reference Index. The Fund intends to replicate the Reference Index by holding all of its constituent securities in a similar proportion to their weightings in the Reference Index. In order to replicate the Reference Index, the Fund may invest up to 20% of its Net Asset Value in shares issued by the same body.

Investment Objectives and Policies (continued)

Invesco Solar Energy UCITS ETF (continued)

Further information in relation to how the Fund will seek to track the Reference Index is set out in section 4 "Investment Objective and Policies" and section 5 "Investment Restrictions and Permitted Investments" of the Prospectus.

The Fund may hold ancillary liquid assets and use efficient portfolio management techniques in accordance with the requirements of the Central Bank.

Invesco NASDAQ-100 ESG UCITS ETF

The investment objective of the Invesco NASDAQ-100 ESG UCITS ETF (the "Fund") is to achieve the net total return performance of the NASDAQ-100® ESG Index (the "Reference Index") less fees, expenses and transaction costs.

The Reference Index is designed to reflect the performance of the companies in the Nasdaq-100 Index® that meet specific ESG criteria. Companies are evaluated and weighted on the basis of their business activities, controversies and ESG Risk Ratings. The Reference Index is reconstituted and rebalanced quarterly.

In order to achieve the investment objective, the Fund will employ a replication method that looks to invest as far as possible and practicable in the constituents of the Reference Index. The Fund intends to replicate the Reference Index by holding all of its constituent securities in a similar proportion to their weightings in the Reference Index. In order to replicate the Reference Index, the Fund may invest up to 20% of its Net Asset Value in shares issued by the same body.

Further information in relation to how the Fund will seek to track the Reference Index is set out in section 4 "Investment Objective and Policies" and section 5 "Investment Restrictions and Permitted Investments" of the Prospectus.

The Fund may hold ancillary liquid assets and use efficient portfolio management techniques in accordance with the requirements of the Central Bank.

Invesco MSCI Europe ESG Climate Paris Aligned UCITS ETF

The investment objective of the Invesco MSCI Europe ESG Climate Paris Aligned UCITS ETF (the "Fund") is to achieve the net total return performance of the MSCI Europe ESG Climate Paris Aligned Benchmark Select Index (the "Reference Index") less fees, expenses and transaction costs, thereby taking an approach that seeks to reduce the Fund's exposure to transition and physical climate risks whilst pursuing opportunities arising from a transition to a lower carbon economy and aligning with the Paris Agreement requirements.

The Reference Index tracks the performance of large and mid-capitalisation companies across developed markets in Europe and aims to reduce exposure to transition and physical climate risks whilst pursuing opportunities arising from the transition to a lower carbon economy while aligning with the Paris Agreement requirements. The Reference Index also provides exposure to companies with high ESG metrics and incorporates the TCFD (Task Force on Climate Related Financial Disclosures) recommendations and is designed to exceed the minimum standards of the EU Paris-Aligned Benchmark. The Reference Index rebalances on a semi-annual basis.

In order to achieve the investment objective, the Fund will employ a replication method that looks to invest as far as possible and practicable in the constituents of the Reference Index. The Fund intends to replicate the Reference Index by holding all of its constituent securities in a similar proportion to their weightings in the Reference Index. In order to replicate the Reference Index, the Fund may invest up to 20% of its Net Asset Value in shares issued by the same body.

Further information in relation to how the Fund will seek to track the Reference Index is set out in section 4 "Investment Objective and Policies" and section 5 "Investment Restrictions and Permitted Investments" of the Prospectus.

The Fund may hold ancillary liquid assets and use efficient portfolio management techniques in accordance with the requirements of the Central Bank.

Invesco MSCI USA ESG Climate Paris Aligned UCITS ETF

The investment objective of the Invesco MSCI USA ESG Climate Paris Aligned UCITS ETF (the "Fund") is to achieve the net total return performance of the MSCI USA ESG Climate Paris Aligned Benchmark Select Index (the "Reference Index") less fees, expenses and transaction costs, thereby taking an approach that seeks to reduce the Fund's exposure to transition and physical climate risks whilst pursuing opportunities arising from a transition to a lower carbon economy and aligning with the Paris Agreement requirements.

The Reference Index tracks the performance of large and mid-capitalisation companies of the US market and aims to reduce exposure to transition and physical climate risks whilst pursuing opportunities arising from the transition to a lower carbon economy while aligning with the Paris Agreement requirements. The Reference Index also provides exposure to companies with high ESG metrics and incorporates the TCFD (Task Force on Climate Related Financial Disclosures) recommendations and is designed to exceed the minimum standards of the EU Paris-Aligned Benchmark. The Reference Index rebalances on a semi-annual basis.

In order to achieve the investment objective, the Fund will employ a replication method that looks to invest as far as possible and practicable in the constituents of the Reference Index. The Fund intends to replicate the Reference Index by holding all of its constituent securities in a similar proportion to their weightings in the Reference Index. In order to replicate the Reference Index, the Fund may invest up to 20% of its Net Asset Value in shares issued by the same body.

Further information in relation to how the Fund will seek to track the Reference Index is set out in section 4 "Investment Objective and Policies" and section 5 "Investment Restrictions and Permitted Investments" of the Prospectus.

The Fund may hold ancillary liquid assets and use efficient portfolio management techniques in accordance with the requirements of the Central Bank.

Investment Objectives and Policies (continued)

Invesco MSCI Japan ESG Climate Paris Aligned UCITS ETF

The investment objective of the Invesco MSCI Japan ESG Climate Paris Aligned UCITS ETF (the "Fund") is to achieve the net total return performance of the MSCI Japan ESG Climate Paris Aligned Benchmark Select Index (the "Reference Index") less fees, expenses and transaction costs, thereby taking an approach that seeks to reduce the Fund's exposure to transition and physical climate risks whilst pursuing opportunities arising from a transition to a lower carbon economy and aligning with the Paris Agreement requirements.

The Reference Index tracks the performance of large and mid-capitalisation companies across Japan and aims to reduce exposure to transition and physical climate risks whilst pursuing opportunities arising from the transition to a lower carbon economy while aligning with the Paris Agreement requirements. The Reference Index also provides exposure to companies with high ESG metrics and incorporates the TCFD (Task Force on Climate Related Financial Disclosures) recommendations and is designed to exceed the minimum standards of the EU Paris-Aligned Benchmark. The Reference Index rebalances on a semi-annual basis.

In order to achieve the investment objective, the Fund will employ a replication method that looks to invest as far as possible and practicable in the constituents of the Reference Index. The Fund intends to replicate the Reference Index by holding all of its constituent securities in a similar proportion to their weightings in the Reference Index. In order to replicate the Reference Index, the Fund may invest up to 20% of its Net Asset Value in shares issued by the same body.

Further information in relation to how the Fund will seek to track the Reference Index is set out in section 4 "Investment Objective and Policies" and section 5 "Investment Restrictions and Permitted Investments" of the Prospectus.

The Fund may hold ancillary liquid assets and use efficient portfolio management techniques in accordance with the requirements of the Central Bank.

Invesco MSCI World ESG Climate Paris Aligned UCITS ETF

The investment objective of the Invesco MSCI World ESG Climate Paris Aligned UCITS ETF (the "Fund") is to achieve the net total return performance of the MSCI World ESG Climate Paris Aligned Benchmark Select Index (the "Reference Index") less fees, expenses and transaction costs, thereby taking an approach that seeks to reduce the Fund's exposure to transition and physical climate risks whilst pursuing opportunities arising from a transition to a lower carbon economy and aligning with the Paris Agreement requirements.

The Reference Index tracks the performance of large and mid-capitalisation companies in developed markets worldwide and aims to reduce exposure to transition and physical climate risks whilst pursuing opportunities arising from the transition to a lower carbon economy while aligning with the Paris Agreement requirements. The Reference Index also provides exposure to companies with high ESG metrics and incorporates the TCFD (Task Force on Climate Related Financial Disclosures) recommendations and is designed to exceed the minimum standards of the EU Paris-Aligned Benchmark. The Reference Index rebalances on a semi-annual basis.

In order to achieve the investment objective, the Fund will employ a replication method that looks to invest as far as possible and practicable in the constituents of the Reference Index. The Fund intends to replicate the Reference Index by holding all of its constituent securities in a similar proportion to their weightings in the Reference Index. In order to replicate the Reference Index, the Fund may invest up to 20% of its Net Asset Value in shares issued by the same body.

Further information in relation to how the Fund will seek to track the Reference Index is set out in section 4 "Investment Objective and Policies" and section 5 "Investment Restrictions and Permitted Investments" of the Prospectus.

The Fund may hold ancillary liquid assets and use efficient portfolio management techniques in accordance with the requirements of the Central Bank.

Invesco MSCI Emerging Markets ESG Climate Paris Aligned UCITS ETF

The investment objective of the Invesco MSCI Emerging Markets ESG Climate Paris Aligned UCITS ETF (the "Fund") is to achieve the net total return performance of the MSCI Emerging Markets ESG Climate Paris Aligned Benchmark Select Index (the "Reference Index") less fees, expenses and transaction costs, thereby taking an approach that seeks to reduce the Fund's exposure to transition and physical climate risks whilst pursuing opportunities arising from a transition to a lower carbon economy and aligning with the Paris Agreement requirements.

In order to achieve the investment objective, the Fund will employ a sampling strategy, which includes the use of quantitative analysis and uses factors such as country weights, industry sector weights, market capitalisation, dividend yield and liquidity to select securities from the Reference Index that results in a portfolio that has an investment profile similar to that of the Reference Index.

Where consistent with its investment objective, and in conjunction with the use of a sampling strategy, the Fund may also hold some securities which are not component securities of the Reference Index, but are of a similar nature to them and whose risk, return and environmental, social and governance ("ESG") characteristics either (a) closely resemble the risk, return and ESG characteristics of constituents of the Reference Index or of the Reference Index as a whole, (b) whose addition improves the quality of the replication of the Reference Index, or (c) whose future inclusion into the Reference Index is anticipated.

The level of sampling will vary over the life of the Fund depending on asset levels of the Fund, as certain asset levels may make replication uneconomical or impractical, and the nature of the components of the Reference Index. It is generally expected that the Fund will hold less than the total number of securities in the Reference Index however, the Investment Manager reserves the right to hold as many securities as it believes necessary to achieve the Fund's investment objective.

Invesco Dow Jones Islamic Global Developed Markets UCITS ETF

The investment objective of the Invesco Dow Jones Islamic Global Developed Markets UCITS ETF (the "Fund") is to achieve the net total return performance of the Dow Jones Islamic Market Developed Markets Index (the "Reference Index") less fees, expenses and transaction costs.

In order to achieve the investment objective, the Company will employ a sampling strategy ("Sampling Strategy"), which includes the use of quantitative analysis and uses factors such as country weights, industry sector weights, market capitalisation, dividend yield and liquidity to select securities from the Reference Index that results in a portfolio that has an investment profile similar to that of the Reference Index. Investments made by the Fund will be compliant with Shari'ah guidelines prescribed by the Index Provider. The Shari'ah committee (the "Shari'ah Committee") appointed by the Investment Manager will be responsible for determining compliance of the Fund's investments with Shari'ah. Further information on the Shari'ah Committee is set out below under the heading "Shari'ah Committee".

Investment Objectives and Policies (continued)

Invesco Dow Jones Islamic Global Developed Markets UCITS ETF (continued)

The Fund shall not hold securities which are not component securities of the Reference Index, unless their future inclusion into the Reference Index is anticipated (which is determined by reference to the Reference Index rebalancing file which may be published by the Index Provider prior to each rebalancing date, as set out under the heading "Index Rebalancing"). The level of sampling will vary over the life of the Fund depending on asset levels of the Fund, as certain asset levels may make replication uneconomical or impractical, and the nature of the components of the Reference Index. It is generally expected that the Fund will hold less than the total number of securities in the Reference Index however, the Investment Manager reserves the right to hold as many securities as it believes necessary to achieve the Fund's investment objective.

Invesco Dow Jones US Insurance UCITS ETF

The investment objective of the Fund is to achieve the net total return of the Dow Jones U.S. Select Insurance Index (the "Reference Index") less fees, expenses and transaction costs.

In order to achieve the investment objective, the Fund will employ a replication method that looks to invest as far as possible and practicable in the constituents of the Reference Index. The Fund intends to replicate the Reference Index by holding all of its constituent securities in a similar proportion to their weightings in the Reference Index. In order to replicate the Reference Index, the Fund may invest up to 20% of its Net Asset Value in shares issued by the same body.

Further information in relation to how the Fund will seek to track the Reference Index is set out in section 4 "Investment Objective and Policies" and section 5 "Investment Restrictions and Permitted Investments" of the Prospectus.

There are a number of circumstances where gaining access to the components of the Reference Index may be prohibited by regulation, may not otherwise be in the Shareholders' interests or may not otherwise be possible or practicable until such time as the circumstances are addressed.

The Fund may hold ancillary liquid assets and use efficient portfolio management techniques in accordance with the requirements of the Central Bank.

The Fund may also engage in transactions in FDIs for hedging and/or efficient portfolio management purposes. The Fund may use the following FDIs listed on a Market or traded OTC, as applicable: options and futures transactions, forward contracts, non-deliverable forwards and spot foreign exchange transactions. Further details on FDIs and how they may be used are contained in the main part of the Prospectus under "Appendix III - Efficient Portfolio Management and Use Of Financial Derivative Instruments".

The Fund shall not invest more than 10% of its net assets in other UCITS or other open or closed ended CIS.

With the exception of permitted investment in unlisted securities or in units of open-ended CIS, investment will be limited to the stock exchanges and regulated markets set out in Appendix I of the Prospectus.

Further information relevant to the Fund's investment policy is contained in the main part of the Prospectus under "Investment Objectives & Policies" and under "Investment Restrictions and Permitted Investments".

Invesco S&P World Energy ESG UCITS ETF

The investment objective of the Invesco S&P World Energy ESG UCITS ETF (the "Fund") is to achieve the net total return of the S&P Developed Ex-Korea LargeMidCap ESG Enhanced Energy Index (the "Reference Index") less fees, expenses and transaction costs.

Further information on the components and selection criteria of the Reference Index is set out under "General Description of the Reference Index" in the Supplement to the Prospectus.

In order to achieve the investment objective, the Fund will employ a replication method that looks to invest as far as possible and practicable in the constituents of the Reference Index. The Fund intends to replicate the Reference Index by holding all of its constituent securities in a similar proportion to their weightings in the Reference Index. In order to replicate the Reference Index, the Fund may invest up to 20% of its Net Asset Value in shares issued by the same body. This limit may be raised to 35% for a single issuer in exceptional market circumstances, for example, market dominance. Market dominance exists where a particular component of the Reference Index has a dominant position in the particular market sector or geographical region in which it operates and as a result accounts for a large proportion of the Reference Index. This means that the Fund may have a high concentration of investment in a particular issuer. Further information in relation to how the Fund will seek to track the Reference Index is set out in section 4 "Investment Objective and Policies" and section 5 "Investment Restrictions and Permitted Investments" of the Prospectus.

There are a number of circumstances where gaining access to the components of the Reference Index may be prohibited by regulation, may not otherwise be in the Shareholders' interests or may not otherwise be possible or practicable.

The Fund may hold ancillary liquid assets and use efficient portfolio management techniques in accordance with the requirements of the Central Bank.

The Fund may also engage in transactions in FDIs for hedging and/or efficient portfolio management purposes. The Fund may use the following FDIs listed on a Market or traded OTC, as applicable: options and futures transactions, forward contracts, non-deliverable forwards and spot foreign exchange transactions. Further details on FDIs and how they may be used are contained in the main part of the Prospectus under "Appendix III - Efficient Portfolio Management and Use Of Financial Derivative Instruments".

The Fund shall not invest more than 10% of its net assets in other UCITS or other open or closed ended CIS.

With the exception of permitted investment in unlisted securities or in units of open-ended CIS, investment will be limited to the stock exchanges and regulated markets set out in Appendix I of the Prospectus.

Further information relevant to the Fund's investment policy is contained in the main part of the Prospectus under "Investment Objectives & Policies" and under "Investment Restrictions and Permitted Investments".

Invesco S&P World Financials ESG UCITS ETF

The investment objective of the Invesco S&P World Financials ESG UCITS ETF (the "Fund") is to achieve the net total return of the S&P Developed Ex-Korea LargeMidCap ESG Enhanced Financials Index (the "Reference Index") less fees, expenses and transaction costs.

Further information on the components and selection criteria of the Reference Index is set out under "General Description of the Reference Index" in the Supplement to the Prospectus.

Investment Objectives and Policies (continued)

Invesco S&P World Financials ESG UCITS ETF (continued)

In order to achieve the investment objective, the Fund will employ a replication method that looks to invest as far as possible and practicable in the constituents of the Reference Index. The Fund intends to replicate the Reference Index by holding all of its constituent securities in a similar proportion to their weightings in the Reference Index. In order to replicate the Reference Index, the Fund may invest up to 20% of its Net Asset Value in shares issued by the same body. This limit may be raised to 35% for a single issuer in exceptional market circumstances, for example, market dominance. Tracking Error Analysis (Unaudited)

Realised tracking error and realised tracking difference are in line with expectations. The tracking difference between the Funds and the benchmark index/strategy is mainly driven by the management fee.

Directors' Report

The Directors present herewith the Annual Report and Audited Financial Statements for the financial year ended 31 December 2023.

Statement of Directors' Responsibilities

The Directors are responsible for preparing the Directors' Report and the audited Financial Statements in accordance with International Financial Reporting Standards ("IFRS") as adopted by the European Union, the Companies Act 2014 (as amended) and the applicable regulations.

Irish company law requires the Directors to prepare Financial Statements for each financial year. Under the law, the Directors have elected to prepare the Company's Financial Statements in accordance with IFRS as adopted by the European Union. Under company law, the Directors must not approve the Financial Statements unless they are satisfied that they give a true and fair view of the assets, liabilities and financial position of the Company as at the financial year end date and of the profit or loss of the company for the financial year and otherwise comply with the Companies Act 2014 (as amended).

In preparing those Financial Statements, the Directors are required to:

- select suitable accounting policies for the Company Financial Statements and then apply them consistently;
- make judgements and estimates that are reasonable and prudent;
- state whether the Financial Statements have been prepared in accordance with applicable accounting standards, identify those standards, and note the effect and the reasons for any material departure from those standards; and
- prepare the Financial Statements on the going concern basis unless it is inappropriate to presume that the Company will continue in business.

The Directors confirm that they have complied with the above requirements in preparing the Financial Statements. These Financial Statements have been prepared on a going concern basis. Please see liquidity risks outlined in note 2(d).

The Directors are responsible for keeping adequate accounting records which correctly explain and record the transactions of the Company, enable at any time the assets, liabilities, financial position and profit or loss of the Company to be determined with reasonable accuracy and which enable them to ensure that the Financial Statements are prepared in accordance with IFRS as adopted by the European Union and comply with the provisions of the Companies Act 2014 (as amended), the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011 (as amended) (the "UCITS Regulations"), the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations 2019 (as amended) (the "Central Bank UCITS Regulations"), the Listing Rules of the various stock exchanges and enable the Financial Statements to be audited. They are also responsible for safeguarding the assets of the Company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

In this regard, BNY Mellon Fund Services (Ireland) Designated Activity Company (the "Administrator") has been appointed for the purpose of maintaining adequate accounting records and The Bank of New York Mellon SA/NV, Dublin Branch (the "Depositary") have been appointed for the purpose of safeguarding the assets of the Company. The accounting records are maintained at the Administrator's registered offices at One Dockland Central, Guild Street, IFSC, Dublin 1, Ireland.

The Financial Statements are published on the etf.invesco.com website. The Directors are responsible for the maintenance and integrity of the financial information included on this website. Legislation in the Republic of Ireland governing the presentation and dissemination of the Financial Statements may differ from legislation in other jurisdictions.

Principal activities

The investment objective of each Fund is to seek to provide Redeemable Shareholders/Shareholders (these terms are used interchangeably throughout the Financial Statements) with a Target Performance linked to the performance of a Reference Index or Reference Asset by directly or indirectly purchasing a portfolio of transferable securities that may (but is not obliged to) comprise all or a representative sample of the constituent securities of that Reference Index or Reference Asset. Please refer to pages 11 to 34 for the Investment Objectives of each Fund.

Results for the financial year

The results of operations for the financial year are set out in the Statement of Comprehensive Income.

Corporate governance statement

The European Communities (Directive 2006/46/EC) Regulations (S.I. 450 of 2009 and S.I. 83 of 2010) (the "Regulations") requires the inclusion of a corporate governance statement in the Directors' Report.

On 8 December 2015, the Board of Directors formally adopted the Corporate Governance Code for Irish Domiciled Collective Investment Schemes as published by Irish Funds ("IF"), as the Company's corporate governance code. This publication is available from the IF website (www.irishfunds.ie).

The Board of Directors has assessed the measures included in the IF Code as being consistent with its corporate governance practices and procedures for the financial year.

Directors' Report (continued)

Corporate governance statement (continued)

As at 31 December 2023, the Company is in compliance with the IF Code. The Company is also subject to corporate governance practices imposed by:

- (i) The Companies Act 2014 (as amended) which is available for inspection at the registered office of the Company and may also be obtained at: www.irishstatutebook.ie;
- (ii) The Constitutional Documents of the Company which are available for inspection at the registered office of the Company at Ground Floor, 2 Cumberland Place, Fenian Street, Dublin 2, Ireland and at the Companies Registration Office in Ireland;
- (iii) The Central Bank of Ireland in the Central Bank UCITS Regulations which can be obtained from the website at: www.centralbank.ie;
- (iv) Deutsche Börse through the trading model of XETRA for shares (including ETFs) which can be obtained from the Deutsche Börse website at: www.deutscheboerse.com; and
- (v) The Irish Stock Exchange ("ISE") trading as Euronext Dublin continuing obligations requirements for open-ended Funds which can be obtained from the ISE website at: www.ise.ie;
- (vi) The Swiss Stock Exchange ("SIX") continuing obligations requirements for investment Funds which can be obtained from the SIX website at: www.six-group.com; and
- (vii) The Italian Stock Exchange ("Euronext Milan") continuing obligations requirements for ETFs which can be obtained from the Euronext Milan website at <https://www.euronext.com/en/markets/milan>.

By virtue of the listing on the ISE, certain Funds are admitted to trading on the London Stock Exchange ("LSE") on a "cross listing" basis. In the context, however, of corporate governance, the Funds are not subject to the listing requirements of the London Stock Exchange but instead comply with those of the ISE. In respect of Funds admitted to trading on Xetra or SIX, the Funds are listed directly with the exchanges and are required to comply with the listing requirements of the local jurisdiction. Please refer to listing details on pages 12 to 13.

Board Diversity

The Board considers that diversity in its membership is beneficial and therefore seeks to ensure that the Board's size, structure and composition, including skills, knowledge, experience and diversity is sufficient for the effective direction and control of the Company. However, as the Board is committed to appointing the most appropriate candidates as Directors of the Company, it has not set any measurable objectives in respect of this policy.

Internal control and risk management systems

The Company is responsible for establishing and maintaining adequate internal control and risk management systems of the Company in relation to the financial reporting process.

The Company has procedures in place to ensure all relevant accounting records are properly maintained and are readily available, including production of annual and semi-annual Financial Statements. The Company has appointed BNY Mellon Fund Services (Ireland) Designated Activity Company (the "Administrator") as its administrator consistent with the regulatory framework applicable to investment Fund companies such as the Company.

The Administrator has functional responsibility for the preparation of the Company's annual and semi-annual Financial Statements and the maintenance of its accounting records. On appointing the Administrator, the Board of Directors (the "Board") noted that it is regulated by the Central Bank of Ireland and, in the Board's opinion, has significant experience as an administrator.

The Board also noted the independence of the Administrator from the Company's Investment Manager. Subject to the supervision of the Board, the appointment of the Administrator is intended to manage rather than eliminate the risk of failure to achieve the Company's financial reporting objectives and can only provide reasonable and not absolute assurance against material misstatement or loss.

The Board evaluates and discusses significant accounting and reporting issues as the need arises. The Board reviews the Financial Statements prior to their approval, though it should be noted that such review does not include verification of information in the Financial Statements to underlying documents. The annual Financial Statements are subject to independent audit by PricewaterhouseCoopers (the "Auditor") and the Board receives and considers a report from the Auditor as to the audit process.

This report includes observations as to the extent to which (i) the annual Financial Statements provide a true and fair view (ii) adjustments were made to the accounting records maintained by the Administrator in order to provide Financial Statements giving a true and fair view and (iii) potential significant control weaknesses identified by the Auditor during the audit process. The Auditor presents this report at the board meeting at which the Financial Statements are presented to the Board for approval. The Board also invites the Auditor to attend the board meeting prior to the commencement of the audit, at which the Auditor presents the audit plan to the Board.

Shareholders' meetings

The convening and conduct of Shareholders' meetings are governed by the constitutional documents of the Company and the Companies Act 2014. Although the Directors may convene an extraordinary general meeting of the Company at any time, the Directors are required to convene an annual general meeting of the Company within fifteen months of the date of the previous annual general meeting.

Shareholders representing not less than one-tenth of the paid up share capital of the Company may also request the Directors to convene a Shareholders' meeting.

Not less than twenty one clear days' notice of every annual general meeting and any meeting convened for the passing of a special resolution must be given to Shareholders and fourteen clear days' notice must be given in the case of any other general meeting unless the Auditors of the Company and all the Shareholders of the Company entitled to attend and vote agree to shorter notice.

Two Shareholders present either in person or by proxy constitutes a quorum at a general meeting. Every holder of shares present in person or by proxy who votes on a show of hands is entitled to one vote and the holders of Subscriber shares shall have one vote in respect of all of the Subscriber shares in issue. On a poll, every holder of shares present in person or by proxy is entitled to one vote in respect of each share held by him.

Directors' Report (continued)

Shareholders' meetings (continued)

The chairman of a general meeting of the Company or at least two Shareholders present in person or by proxy having the right to vote at the meeting or any holder or holders of shares present in person or by proxy representing at least one tenth of the shares in issue having the right to vote at such meeting may demand a poll.

Shareholders may resolve to sanction an ordinary resolution or special resolution at a Shareholders' meeting. An ordinary resolution of the Company or of the Shareholders of a particular Fund or Class requires a simple majority of the votes cast by the Shareholders voting in person or by proxy at the meeting at which the resolution is proposed. A special resolution of the Company or of the Shareholders of a particular Fund or Class requires a majority of not less than 75% of the Shareholders present in person or by proxy and voting in general meeting in order to pass a special resolution including a resolution to amend the constitutional documents of the Company.

Composition of the Board of Directors

Unless otherwise determined by an ordinary resolution of the Company in general meeting, the number of Directors may not be less than two. Currently the Board is composed of four Directors.

The business of the Company is managed by the Directors.

A Director may, and the Company Secretary of the Company on the requisition of a Director will, at any time summon a meeting of the Directors. Questions arising at any meeting of the Directors are determined by a majority of votes. In the case of an equality of votes, the chairman has a casting vote. The quorum necessary for the transaction of business at a meeting of the Directors is two.

The Board has not appointed, nor does it intend to appoint, a Director from the Company's Investment Manager as recommended in section 4.2 of the Corporate Governance Code. This decision is consistent with the Investment Manager's policy not to have a representative on the board of any entities for which it provides Investment Management services and is intended to ensure the independence of each such board.

The Directors of the Company are described below:

Feargal Dempsey – Independent Non-Executive Director

Mr. Dempsey is an independent non-executive director and serves on the boards of several management companies and fund boards. He has held senior positions at Barclays Global Investors/BlackRock including Head of Product Strategy iShares EMEA, Head of Product Structuring iShares EMEA and Head of Product Governance. Previously he has also served as Head of Legal to ETF Securities and as a senior lawyer in Pioneer Investments.

Mr. Dempsey holds a BA(Hons) and an LLB(Hons) from University College Galway and was admitted to the Roll of Solicitors in Ireland in 1996 and to the England and Wales Law Society in 2005. He has served on the legal and regulatory committee of the IFIA and the ETF Working Group at EFAMA.

Gary Buxton – Non-Executive Director

Mr. Gary Buxton, Head of EMEA ETFs for Invesco is responsible for Product and Sales Strategy, Product Implementation and Capital Markets in EMEA, having joined Invesco in August 2017 on its acquisition of Source.

Mr. Buxton joined Source as a founder of the business in 2008 as the Chief Operating Officer and was responsible for Product, Trading, Technology and Risk Management. From 2008 to 2012 and from 2015 to 2017 Mr. Buxton was also the Chief Financial Officer of Source. Prior to starting Source, Mr. Buxton was a director in the Hedge Fund division of Merrill Lynch where his role focused on product development. Mr. Buxton started his career at Deloitte in London and is a qualified Chartered Accountant (FCA). Mr. Buxton is a Director of Invesco Markets plc, Invesco Markets II plc, Invesco Markets III plc, Invesco Liquidity Funds plc, Invesco Investment Management Limited and Invesco UK Services Limited. Mr. Buxton is a British and Irish national.

Sarah (Katy Walton) Jones – Non-Executive Director

Ms. Walton Jones is Head of Legal for Invesco's EMEA ETP business and a director of Invesco UK Services Limited, Invesco Markets plc, Invesco Markets II plc and Invesco Markets III plc. Before joining Invesco Ms. Walton Jones was General Counsel and Head of Compliance for Source ETFs which was bought by Invesco in August 2017. Prior to her role at Source, Ms. Walton Jones was General Counsel and a director of Citco Financial Products (London) Limited. Ms. Walton Jones played a key role in setting up Citco's rated lending platform and was responsible for advising on all legal, regulatory and compliance issues relating to Citco's hedge fund financing, structured products and derivative transactions.

Ms. Walton Jones has a broad range of experience in both corporate, finance and commercial contracts having previously been a corporate associate specialising in private equity and public and private M&A transactions at Weil Gotshal & Manges and Freshfields Bruckhaus Deringer. Ms. Walton Jones has a history degree from Cambridge University and is qualified as a solicitor in England and Wales.

Lisa Martensson – Independent Non-Executive Director

Ms. Lisa Martensson is a Swedish national with residency in Ireland since 2002. Ms. Martensson is an Independent Non-Executive Director and Chairperson with over 30 years' experience in banking, asset management and the financial services industry.

Ms. Martensson left HSBC Securities Services (Ireland) DAC in 2019, where Ms. Martensson was Chairperson of the board and Global Head of Client Experience. Prior to that, Ms. Martensson has held various senior executive positions within HSBC including Head of Business Development for Asset Managers in Europe and the US, and Head of Relationship Management in Ireland. Ms. Martensson studied Economics at Stockholm University in Sweden and holds a Certificate and Diploma (with distinction) in Company Direction from the Institute of Directors (IOD). Ms. Martensson is elected Chair of the Irish Fund Directors Association (IFDA) and Chair of their ESG working group. From 1998 to 2001 Ms. Martensson worked for Bank of New York in Brussels, Belgium and prior to that Ms. Martensson worked ten years for SEB Asset Management in Sweden and Luxembourg.

Details of all related party transactions are contained in Note 5 to the Company Financial Statements.

Directors' and company secretary's interests and transactions

Apart from those noted below, there are no contracts or arrangements of any significance in relation to the business of the Company in which the Directors or Company Secretary had any interest as defined in the Companies Act 2014 (as amended) at any time during the financial year.

The Directors and Company Secretary had no beneficial interest in the Redeemable Shares of the Company at 31 December 2023 or at any time during the financial year (31 December 2022: Nil).

Directors' Report (continued)

Review of business and future developments

A review of market activities and market outlook can be found in the Investment Manager's Report, the Statement of Comprehensive Income and Statement of Financial Position.

The Funds will continue to pursue their investment objectives as set out in the Prospectus and Supplements.

Risk management objectives and policies

The main risks arising from the Company's financial instruments are Market risk, Interest Rate risk, Currency risk, Market price risk, Credit risk and Liquidity risk. A detailed explanation of the risks to which the Company is exposed and the financial instruments utilised is provided in Note 2 to the Financial Statements. The Company is also exposed to non-financial risks such as operational risk, conduct risks, compliance risks and cyber risks, as well as environmental, social and governance ("ESG") factors.

Transactions with connected persons

Any transaction carried out with a UCITS by a management company or depositary to the UCITS, the delegates or sub-delegates of the management company or depositary, and any associated or group of such a management company, depositary, delegate or sub-delegate ("connected persons") must be carried out as if conducted at arm's length. Transactions must be in the best interests of the Shareholders.

The Manager is satisfied that there are arrangements (evidenced by written procedures) in place, to ensure that the obligations set out in Regulation 43(1) of the Central Bank UCITS Regulations are applied to all transactions with connected persons and are satisfied that transactions with connected persons entered into during the year complied with the obligations set out in Regulation 43(1) of the Central Bank UCITS Regulations.

Directors' compliance statement

The Directors acknowledge that they are responsible for securing the Company's compliance with the relevant obligations as set out in section 225 of the Companies Act 2014 (as amended).

The Directors confirm that:

- 1) A compliance policy statement has been drawn up that sets out policies, that in our opinion are appropriate to the Company, respecting compliance by the Company with its relevant obligations;
- 2) Appropriate arrangements or structures are in place that are, in our opinion, designed to secure material compliance with the Company's relevant obligations; and

During the financial year, the arrangements or structures referred to in (2) have been reviewed.

Statement of relevant audit information

The following applies in the case of each person who was a Director of the Company, as disclosed on page 42, at the time this report is approved:

- (a) so far as the Director is aware, there is no relevant audit information of which the Company's statutory auditors are unaware; and
- (b) the Director has taken all the steps that ought to have been taken as a director in order to make himself or herself aware of any relevant audit information and to establish that the Company's statutory auditors are aware of that information.

Audit Committee

The Directors are aware of Section 167 of the Companies Act which require certain companies to establish an audit committee. The Directors have reserved to the Board the functions of an audit committee.

Independent auditors

In accordance with Section 383(2) of the Companies Act 2014 (as amended), PricewaterhouseCoopers, Chartered Accountants and Registered Auditors, will continue in office.

Significant events during the financial year

Please refer to Note 18 Significant events during the Financial Year.

Significant events since the financial year end

Please refer to Note 19 Significant events after the Financial Year End.

On Behalf of the Board of Directors

REPORT FROM THE DEPOSITORY TO THE SHAREHOLDERS

For the period from 1st January 2023 to 31st December 2023 (the “Period”)

The Bank of New York Mellon SA/NV, Dublin Branch (the “Depository” “us”, “we”, or “our”), has enquired into the conduct of Invesco Markets II plc (the “Company”) for the Period, in its capacity as Depository to the Company.

This report including the opinion has been prepared for and solely for the shareholders in the Company, in accordance with our role as Depository to the Company and for no other purpose. We do not, in giving this opinion, accept or assume responsibility for any other purpose or to any other person to whom this report is shown.

Responsibilities of the Depository

Our duties and responsibilities are outlined in Regulation 34 of the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011 (S.I. No 352 of 2011), as amended (the “Regulations”).

Our report shall state whether, in our opinion, the Company has been managed in that period in accordance with the provisions of the Company’s constitutional documentation and the Regulations. It is the overall responsibility of the Company to comply with these provisions. If the Company has not been so managed, we as Depository must state in what respects it has not been so managed and the steps which we have taken in respect thereof.

Basis of Depository Opinion

The Depository conducts such reviews as it, in its reasonable opinion, considers necessary in order to comply with its duties and to ensure that, in all material respects, the Company has been managed (i) in accordance with the limitations imposed on its investment and borrowing powers by the provisions of its constitutional documentation and the appropriate regulations and (ii) otherwise in accordance with the Company’s constitutional documentation and the appropriate regulations.

Opinion

In our opinion, the Company has been managed during the Period, in all material respects:

- (i) in accordance with the limitations imposed on the investment and borrowing powers of the Company by the constitutional documentation and the Regulations; and
- (ii) otherwise in accordance with the provisions of the constitutional documentation and the Regulations.

For and on behalf of The Bank of New York Mellon SA/NV, Dublin Branch,

Dublin 2
Ireland.

Date: 29th April 2024

Registered in Ireland No. 907126, VAT No. IE9578054E

The Bank of New York Mellon SA/NV, trading as The Bank of New York Mellon SA/NV, Dublin Branch is authorised by the National Bank of Belgium.

The Bank of New York Mellon SA/NV, Boulevard Anspachlaan 1, B-1000 Brussels Belgium – Tel. (32) 2 545 81 11, V.A.T. BE 0806.743.159-RPM-RPR Brussels Company No. 0806.743.159. The Bank of New York Mellon SA/NV is a Belgian limited liability company, authorized and regulated as a significant credit institution by the European Central Bank and the National Bank of Belgium under the Single Supervisory Mechanism and by the Belgian Financial Services and Markets Authority.

Independent auditors' report to the members of Invesco Markets II plc

Report on the audit of the financial statements

Opinion

In our opinion, Invesco Markets II plc's financial statements:

- give a true and fair view of the Company's and Funds' assets, liabilities and financial position as at 31 December 2023 and of their results and cash flows for the year then ended;
- have been properly prepared in accordance with International Financial Reporting Standards ("IFRSs") as adopted by the European Union; and
- have been properly prepared in accordance with the requirements of the Companies Act 2014 and the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011 (as amended).

We have audited the financial statements, included within the Annual Report and Audited Financial Statements, which comprise:

- the Statement of Financial Position as at 31 December 2023;
- the Statement of Comprehensive Income for the year then ended;
- the Statement of Cash Flow for the year then ended;
- the Statement of Changes in Net Assets Attributable to Holders of Redeemable Participating Shares for the year then ended;
- the Schedule of Investments for each of the Funds as at 31 December 2023; and
- the notes to the financial statements for the Company and for each of its Funds, which include a description of the significant accounting policies.

Our opinion is consistent with our reporting to the Board of Directors.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (Ireland) ("ISAs (Ireland)") and applicable law.

Our responsibilities under ISAs (Ireland) are further described in the Auditors' responsibilities for the audit of the financial statements section of our report. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence

We remained independent of the Company in accordance with the ethical requirements that are relevant to our audit of the financial statements in Ireland, which includes IAASA's Ethical Standard as applicable to listed public interest entities, and we have fulfilled our other ethical responsibilities in accordance with these requirements.

To the best of our knowledge and belief, we declare that non-audit services prohibited by IAASA's Ethical Standard were not provided to the Company.

Other than those disclosed in note 6, we have provided no non-audit services to the Company in the period from 1 January 2023 to 31 December 2023.

Our audit approach

Overview

	Materiality
	<ul style="list-style-type: none">• Overall materiality: 50 basis points (2022: 50 basis points) of Net Assets Value ("NAV") at 31 December 2023 (2022: 31 December 2022) for each of the Company's Funds.• Performance materiality: 75% of overall materiality.

	<h3>Audit scope</h3> <ul style="list-style-type: none"> The Company is an open-ended investment Company with variable capital and engages Invesco Investment Management Limited (the “Manager”) to manage certain duties and responsibilities with regards to the day-to-day management of the Company. We tailored the scope of our audit taking into account the types of investments within the Funds, the involvement of the third parties referred to overleaf, the accounting processes and controls, and the industry in which the Company operates. We look at each of the Funds at an individual level.
	<h3>Key audit matters</h3> <ul style="list-style-type: none"> Valuation of financial assets and financial liabilities at fair value through profit or loss (material accounting policies - financial assets and financial liabilities at fair value through profit or loss Note 1(c)), (financial risks - fair value information Note 2 (g)). Existence of financial assets and financial liabilities at fair value through profit or loss (material accounting policies - financial assets and financial liabilities at fair value through profit or loss Note 1(c)), (financial risks - fair value information Note 2 (g)).

The scope of our audit

As part of designing our audit, we determined materiality and assessed the risks of material misstatement in the financial statements. In particular, we looked at where the directors made subjective judgements, for example the selection of pricing sources to value the investment portfolio. As in all of our audits, we also addressed the risk of management override of internal controls, including evaluating whether there was evidence of bias by the directors that represented a risk of material misstatement due to fraud.

Key audit matters

Key audit matters are those matters that, in the auditors’ professional judgement, were of most significance in the audit of the financial statements of the current period and include the most significant assessed risks of material misstatement (whether or not due to fraud) identified by the auditors, including those which had the greatest effect on: the overall audit strategy; the allocation of resources in the audit; and directing the efforts of the engagement team. These matters, and any comments we make on the results of our procedures thereon, were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. This is not a complete list of all risks identified by our audit.

Key audit matter	How our audit addressed the key audit matter
<i>Valuation of financial assets and financial liabilities at fair value through profit or loss (material accounting policies - financial assets and financial liabilities at fair value through profit or loss Note 1(c)), (financial risks - fair value information Note 2 (g))</i> The financial assets and financial liabilities at fair value through profit or loss included in the Statement of	We tested the valuation of the financial assets and financial liabilities at fair value through profit or loss by independently obtaining price quotations from third party vendor sources for the investments of each Fund included within the financial statements. For the securities that were valued by the Investment Manager, we considered the appropriateness of Management's assessment by considering the specific circumstances of the investments and by reviewing the relevant documentation.

<p>Financial Position of each Fund at 31 December 2023 are valued at fair value in line with IFRS as adopted by the European Union.</p> <p>This is considered a key audit matter as it represents the principal element of the financial statements.</p>	<p>No material misstatements were identified as a result of the procedures performed</p>
<p><i>Existence of financial assets and financial liabilities at fair value through profit or loss (material accounting policies - financial assets and financial liabilities at fair value through profit or loss Note 1(c)), (financial risks - fair value information Note 2 (g))</i></p> <p>The financial assets and financial liabilities at fair value through profit or loss included in the Statement of Financial Position of each Fund are held in the Fund's name at 31 December 2023.</p> <p>This is considered a key audit matter as it represents the principal element of the financial statements.</p>	<p>We obtained independent confirmation from the Depositary and counterparty for the financial assets and financial liabilities at fair value through profit or loss held as at 31 December 2023. We reconciled those confirmations to the Fund Accounting records and investigated any material differences.</p> <p>No material misstatements were identified as a result of the procedures we performed.</p>

How we tailored the audit scope

We tailored the scope of our audit to ensure that we performed enough work to be able to give an opinion on the financial statements as a whole, taking into account the structure of the Company, the accounting processes and controls, and the industry in which it operates.

As at 31 December 2023 there are 65 Funds operating. The Company's Statement of Financial Position, Statement of Comprehensive Income, Statement of Cash Flow and Statement of Changes in Net Assets Attributable to Holders of Redeemable Participating Shares are an aggregation of the positions and results of the Funds.

The directors control the affairs of the Company and are responsible for the overall investment policy which is determined by them. The Company engages the Manager to manage certain duties and responsibilities with regards to the day to day management of the Company. The Manager has delegated certain responsibilities to Invesco Capital Management LLC (the 'Investment Manager') and to BNY Mellon Fund Services (Ireland) DAC (the 'Administrator'). The financial statements, which remain the responsibility of the directors, are prepared on their behalf by the Administrator. The Company has appointed The Bank of New York Mellon SA/NV, Dublin Branch (the "Depositary") to act as Depositary of the Company's assets. In establishing the overall approach to our audit we assessed the risk of material misstatement at a Fund level, taking into account the nature, likelihood and potential magnitude of any misstatement. As part of our risk assessment, we considered the Company's interaction with the Administrator, and we assessed the control environment in place at the Administrator.

Materiality

The scope of our audit was influenced by our application of materiality. We set certain quantitative thresholds for materiality. These, together with qualitative considerations, helped us to determine the scope of our audit and the nature, timing and extent of our audit procedures on the individual financial statement line items and disclosures and in evaluating the effect of misstatements, both individually and in aggregate on the financial statements as a whole.

Based on our professional judgement, we determined materiality for the financial statements of each of the Company's Funds as follows:

<p>Overall materiality and how we determined it</p>	<p>50 basis points (2022: 50 basis points) of Net Assets Value ("NAV") at 31 December 2023 (2022: 31 December 2022) for each of the Company's Funds.</p>
<p>Rationale for benchmark applied</p>	<p>We have applied this benchmark because the main objective of the Company is to provide investors with a total return at a Fund level, taking account of the capital and income returns.</p>

We use performance materiality to reduce to an appropriately low level the probability that the aggregate of uncorrected and undetected misstatements exceeds overall materiality. Specifically, we use performance materiality in determining the scope of our audit and the nature and extent of our testing of account balances, classes of transactions and disclosures, for example in determining sample sizes. Our performance materiality was 75% of overall materiality.

In determining the performance materiality, we considered a number of factors - the history of misstatements, risk assessment and aggregation risk and the effectiveness of controls - and concluded that an amount at the upper end of our normal range was appropriate.

We agreed with the Board of Directors that we would report to them misstatements identified during our audit above 5 basis points of each Fund's NAV, for NAV per share impacting differences (2022: 5 basis points of each Fund's NAV, for NAV per share impacting differences) as well as misstatements below that amount that, in our view, warranted reporting for qualitative reasons.

Conclusions relating to going concern

Our evaluation of the directors' assessment of the Company's and Funds' ability to continue to adopt the going concern basis of accounting included:

- Obtaining an understanding of the nature of the Company and the Funds;
- Obtaining an understanding of the key indicators that are monitored with response to the going concern assumption and management's future plans for the Company and the Funds over the going concern period (being 12 months from the date of approval of the financial statements);
- Review of available board minutes during the period under audit and those available up to the date of this report;
- Consideration of post period end capital activity as recorded in the underlying accounting records;
- Enquiring of management with respect to any planned significant redemptions of which they have been informed; and
- Considered the liquidity risk management techniques which are available to the Company and its Funds.

Based on the work we have performed, we have not identified any material uncertainties relating to events or conditions that, individually or collectively, may cast significant doubt on the Company's and Funds' ability to continue as a going concern for a period of at least twelve months from the date on which the financial statements are authorised for issue.

In auditing the financial statements, we have concluded that the directors' use of the going concern basis of accounting in the preparation of the financial statements is appropriate.

However, because not all future events or conditions can be predicted, this conclusion is not a guarantee as to the Company's and Funds' ability to continue as a going concern.

Our responsibilities and the responsibilities of the directors with respect to going concern are described in the relevant sections of this report.

Reporting on other information

The other information comprises all of the information in the Annual Report and Audited Financial Statements other than the financial statements and our auditors' report thereon. The directors are responsible for the other information. Our opinion on the financial statements does not cover the other information and, accordingly, we do not express an audit opinion or, except to the extent otherwise explicitly stated in this report, any form of assurance thereon. In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If we identify an apparent material inconsistency or material misstatement, we are required to perform procedures to conclude whether there is a material misstatement of the financial statements or a material misstatement of the other information. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report based on these responsibilities.

With respect to the Directors' Report, we also considered whether the disclosures required by the Companies Act 2014 have been included.

Based on the responsibilities described above and our work undertaken in the course of the audit, ISAs (Ireland) and the Companies Act 2014 require us to also report certain opinions and matters as described below:

Directors' Report

- In our opinion, based on the work undertaken in the course of the audit, the information given in the Directors' Report for the year ended 31 December 2023 is consistent with the financial statements and has been prepared in accordance with applicable legal requirements.
- Based on our knowledge and understanding of the Company and its environment obtained in the course of the audit, we have not identified any material misstatements in the Directors' Report.

Corporate governance statement

- In our opinion, based on the work undertaken in the course of the audit of the financial statements, the description of the main features of the internal control and risk management systems in relation to the financial reporting process included in the Corporate Governance Statement, is consistent with the financial statements and has been prepared in accordance with section 1373(2)(c) of the Companies Act 2014.
- Based on our knowledge and understanding of the Company and its environment obtained in the course of the audit of the financial statements, we have not identified material misstatements in the description of the main features of the internal control and risk management systems in relation to the financial reporting process included in the Corporate Governance Statement.
- In our opinion, based on the work undertaken during the course of the audit of the financial statements, the information required by section 1373(2)(a),(b),(e) and (f) of the Companies Act 2014 and regulation 6 of the European Union (Disclosure of Non-Financial and Diversity Information by certain large undertakings and groups) Regulations 2017 is contained in the Corporate Governance Statement.

Responsibilities for the financial statements and the audit

Responsibilities of the directors for the financial statements

As explained more fully in the Statement of Directors' Responsibilities set out on page 40, the directors are responsible for the preparation of the financial statements in accordance with the applicable framework and for being satisfied that they give a true and fair view.

The directors are also responsible for such internal control as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the directors are responsible for assessing the Company's and Funds' ability to continue as going concerns, disclosing as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Company or to cease operations, or have no realistic alternative but to do so.

Auditors' responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (Ireland) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

Irregularities, including fraud, are instances of non-compliance with laws and regulations. We design procedures in line with our responsibilities, outlined above, to detect material misstatements in respect of irregularities, including fraud. The extent to which our procedures are capable of detecting irregularities, including fraud, is detailed below.

Based on our understanding of the Company and industry, we identified that the principal risks of non-compliance with laws and regulations related to the breaches of the Central Bank of Ireland Regulations applicable to the Company, and we considered the extent to which non-compliance might have a material effect on the financial statements. We also considered those laws and regulations that have a direct impact on the preparation of the financial statements such as the Companies Act 2014 and the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011 (as amended). We evaluated management's incentives and opportunities for fraudulent manipulation of the financial statements (including the risk of override of controls), and determined that the principal risks were related to Risk of Management Override of Control.

Audit procedures performed by the engagement team included:

- Enquiry of management to identify any instances of non-compliance with laws and regulations;

- Identifying and testing journal entries that met our specific risk based criteria;
- Testing material accounting estimates and judgements and considered potential for management bias;
- Designing audit procedures to incorporate unpredictability around the nature, timing or extent of our testing; and
- Reviewing minutes of the meetings of the Board of Directors.

There are inherent limitations in the audit procedures described above. We are less likely to become aware of instances of non-compliance with laws and regulations that are not closely related to events and transactions reflected in the financial statements. Also, the risk of not detecting a material misstatement due to fraud is higher than the risk of not detecting one resulting from error, as fraud may involve deliberate concealment by, for example, forgery or intentional misrepresentations, or through collusion.

Our audit testing might include testing complete populations of certain transactions and balances, possibly using data auditing techniques. However, it typically involves selecting a limited number of items for testing, rather than testing complete populations. We will often seek to target particular items for testing based on their size or risk characteristics. In other cases, we will use audit sampling to enable us to draw a conclusion about the population from which the sample is selected.

A further description of our responsibilities for the audit of the financial statements is located on the IAASA website at:

https://www.iaasa.ie/getmedia/b2389013-1cf6-458b-9b8f-a98202dc9c3a/Description_of_auditors_responsibilities_for_audit.pdf.

This description forms part of our auditors' report.

Use of this report

This report, including the opinions, has been prepared for and only for the Company's members as a body in accordance with section 391 of the Companies Act 2014 and for no other purpose. We do not, in giving these opinions, accept or assume responsibility for any other purpose or to any other person to whom this report is shown or into whose hands it may come save where expressly agreed by our prior consent in writing.

Other required reporting

Companies Act 2014 opinions on other matters

- We have obtained all the information and explanations which we consider necessary for the purposes of our audit.
- In our opinion the accounting records of the Company were sufficient to permit the financial statements to be readily and properly audited.
- The financial statements are in agreement with the accounting records.

Companies Act 2014 exception reporting

Directors' remuneration and transactions

Under the Companies Act 2014 we are required to report to you if, in our opinion, the disclosures of directors' remuneration and transactions specified by sections 305 to 312 of that Act have not been made. We have no exceptions to report arising from this responsibility.

Appointment

We were appointed by the directors on 14 November 2016 to audit the financial statements for the year ended 31 December 2016 and subsequent financial periods. The period of total uninterrupted engagement is 8 years, covering the years ended 31 December 2016 to 31 December 2023.

Notes to the Financial Statements

1. Material Accounting Policies

A) General Information

Invesco Markets II plc (the "Company") is an open-ended variable capital company with segregated liability between Funds of the Company ("Funds"). The Company was incorporated on 11 September 2015. It is organised under the laws of Republic of Ireland as a public limited company pursuant to the Companies Act 2014 (as amended) and as an undertaking for collective investment in transferable securities pursuant to the European Communities ("Undertakings for Collective Investment in Transferable Securities") Regulations 2011 (as amended) (the "UCITS Regulations") and the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities Regulations 2019 (the "Central Bank UCITS Regulations"). Please see page 6 to 9 for General Information on the Umbrella.

Basis of preparation

These Financial Statements have been prepared on a going concern basis. The Financial Statements have been prepared in accordance with International Financial Reporting Standards ("IFRS") endorsed by the European Union (EU), the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011 (as amended) (the "UCITS Regulations") and the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertaking for Collective Investment in Transferable Securities (Amendment) Regulation 2019 (the "Central Bank UCITS Regulations"). The Financial Statements have been prepared under the historical cost convention as modified by the revaluation of financial assets and liabilities held at fair value through profit or loss. The material accounting policies are set out below.

The preparation of Financial Statements in accordance with IFRS, as adopted by the EU, requires the use of certain critical estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the Financial Statements and the reported amounts of revenues and expenses during the reporting period. Although these estimates are based on management's best knowledge of the amount, event or actions, actual results ultimately may differ from those estimates.

The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the Financial Statements are disclosed in Notes 1 c) (iii) and 1 d).

International Financial Reporting Standards

The principal accounting policies adopted in the preparation of these Financial Statements are set out below. These policies have been consistently applied to the periods presented unless otherwise stated.

Standards, amendments and interpretations effective 1 January 2023:

The following are certain new standards, amendments and interpretations to existing standards that were effective for the financial year ended on 31 December 2023:

Standard/interpretations	Content
Amendment to IAS 1, IAS 8, IAS 12, IFRS Practice Statement 2 (effective from 1 January 2023)*	<p>Presentation of Financial Statements and the impact on consolidated statements and improving accounting policy disclosures; The amendments aim to improve accounting policy disclosures and to help users of the financial statements to distinguish between changes in accounting estimates and changes in accounting policies.</p> <p>Non current liabilities with covenants; These amendments clarify how conditions with which an entity must comply within twelve months after the reporting period affect the classification of a liability.</p> <p>Deferred tax related to assets and liabilities arising from a single transaction; These amendments require companies to recognise deferred tax on transactions that, on initial recognition, give rise to equal amounts of taxable and deductible temporary differences.</p>

*Endorsed by the EU on 22 March 2022.

Standards, amendments and interpretations not yet effective:

IFRS S1 - General Requirements for Disclosure of Sustainability-related Financial Information

The objective of IFRS S1 is to require an entity to disclose information about its sustainability-related risks and opportunities that is useful to users of general-purpose financial reports in making decisions relating to providing resources to the entity. IFRS S1 requires an entity to disclose information about all sustainability-related risks and opportunities that could reasonably be expected to affect the entity's cash flows, its access to finance or cost of capital over the short, medium or long term (collectively referred to as 'sustainability-related risks and opportunities that could reasonably be expected to affect the entity's prospects'). IFRS S1 is effective for annual reporting periods beginning on or after 1 January 2024 with earlier application permitted as long as IFRS S2 Climate-related Disclosures is also applied.

IFRS S2 - Climate-related Disclosures

The objective of IFRS S2 is to require an entity to disclose information about its climate-related risks and opportunities that is useful to users of general-purpose financial reports in making decisions relating to providing resources to the entity. IFRS S2 requires an entity to disclose information about climate-related risks and opportunities that could reasonably be expected to affect the entity's cash flows, its access to finance or cost of capital over the short, medium or long term (collectively referred to as 'climate-related risks and opportunities that could reasonably be expected to affect the entity's prospects'). IFRS S2 is effective for annual reporting periods beginning on or after 1 January 2024.

There are no other new IFRSs, new amendments or IFRIC interpretations that are not yet effective that would be expected to have any impact on the Funds.

The Funds will apply these amendments when they become effective.

Certain new accounting standards, amendments to accounting standards and interpretations have been published that are not mandatory for 31 December 2023 reporting periods and have not been early adopted by the Funds. These standards, amendments or interpretations are not expected to have a material impact on the Funds in the current or future reporting periods and on foreseeable future transactions.

B) Functional and presentation currency

The Board of Directors considers the Euro as the currency that most faithfully represents the economic effects of the underlying transactions, events and conditions.

The Financial Statements of the Company are presented in Euro, which is both the functional and presentation currency.

Notes to the Financial Statements (continued)

1. Material Accounting Policies (continued)

B) Functional and presentation currency (continued)

Each individual Fund's functional currency is disclosed on pages 11 and 12.

Transactions and balances

Foreign exchange gains and losses on financial assets and financial liabilities at fair value through profit or loss are recognised together with other changes in the fair value. Net currency gains/(losses) are net foreign exchange gains and losses on monetary financial assets and liabilities other than those classified at fair value through profit or loss.

Assets and liabilities denominated in foreign currencies, other than the functional currency of the Company, have been translated at the rate of exchange ruling at 31 December 2023. Transactions in foreign currencies are translated into Euro at the exchange rate ruling at the date of the transaction. All gains and losses on foreign exchange are recognised in the Statement of Comprehensive Income in net gains/(losses) on financial assets and financial liabilities at fair value through profit or loss in determining the result for the financial period.

C) Financial assets and financial liabilities at fair value through profit or loss

(i) Classification

IFRS 9 sets out three potential categories for financial assets. These are amortised cost, fair value through other comprehensive income, and financial assets at fair value through profit and loss ("FVTPL"). The classification of financial assets under IFRS 9 is generally based on the business model in which a financial asset is managed and its contractual cash flow characteristics.

A debt instrument is measured at fair value through comprehensive income if the objective of the business model is to hold the financial asset both to collect contractual cash flows from SPPI and to sell. All other debt instruments must be recognised at fair value through profit or loss. An entity may however, at initial recognition, irrevocably designate a financial asset as measured at fair value through profit or loss if doing so eliminates or significantly reduces a measurement or recognition inconsistency.

Pursuant to IFRS 9, a portfolio of financial assets that is managed and whose performance is evaluated on a fair value basis is neither held to collect contractual cash flows or held both to collect contractual cash flows and to sell financial assets. The Company is primarily focused on fair value information and uses that information to assess the assets' performance and to make decisions. In addition, a portfolio of financial assets that meets the definition of held for trading is not held to collect contractual cash flows or held both to collect contractual cash flows and to sell financial assets. For such portfolios, the collection of contractual cash flows is only incidental to achieving the business model's objective. Consequently, such portfolios of financial assets must be measured at FVTPL.

The carrying amounts of cash and cash equivalents, accrued interest income from financial assets at fair value through profit or loss, amounts due from/to brokers, accrued management fees and distributions payable is approximate fair value due to the immediate or short term nature of these financial instruments.

The Company's financial assets and liabilities are initially recorded at their transaction price and then measured at fair value subsequent to initial recognition. Gains and losses arising from changes in the fair value of the 'financial assets or financial liabilities at fair value through profit or loss' category are presented in the Statement of Comprehensive Income in the financial year in which they arise.

Financial assets other than financial assets at fair value through profit or loss include cash and cash equivalents, balances due from brokers, dividend income receivable, capital shares receivable, interest from financial assets at fair value through profit and loss receivable and accrued income and other receivables.

Financial liabilities that were not at fair value through profit or loss include bank overdraft, balances due to brokers, capital shares payable, variation margin payable, creditors (amounts falling due within one year) and financial liabilities arising on redeemable shares.

All of the Funds' investments are classified as financial assets and financial liabilities at fair value through profit or loss as at 31 December 2023 and 31 December 2022.

(ii) Recognition, derecognition and measurement

Regular purchases and sales of financial assets are recognised on the trade date. Any gains and losses, arising from changes in fair value of the financial assets or financial liabilities, are recorded from this date.

The Company recognises financial assets and financial liabilities on the date it becomes a party to the contractual provisions of the instrument, and all significant rights and access to the benefits from the assets or liabilities, and the exposure to the risks inherent in those benefits, are transferred to the Company. The Company derecognises financial assets and financial liabilities when all such benefits and risks are transferred from the Company. Investment transactions are recorded on a trade date basis. Realised gains and losses are based on the high cost method for all Funds. Dividends and interest arising on the investments are recognised as income of the Company on an ex-dividend or interest date, and interest arising on deposits of the Company, are recognised on an accrual basis and effective interest basis, respectively.

Subsequent to initial recognition, all financial assets and financial liabilities at fair value through profit or loss are measured at fair value. Gains and losses arising from changes in the fair value of the 'financial assets or financial liabilities at fair value through profit or loss' category are presented in the Statements of Comprehensive Income with other net changes in fair value of financial assets and liabilities at fair value through profit or loss in the financial period in which they arise.

(iii) Valuation of investments

The estimation of fair value, after initial recognition, is determined as follows:

Listed investments

The Company utilises the last traded market price for both financial assets and financial liabilities where the last traded price falls within the bid-ask spread. In circumstances where the last traded price is not within the bid-ask spread, management will determine the point within the bid-ask spread that is most representative of fair value.

Realised gains or losses on disposal of investments during the financial year and unrealised gains and losses on valuation of investments held at the financial year-end are included in the Statement of Comprehensive Income, within net gains/(losses) on financial assets and financial liabilities at fair value through profit or loss.

The fixed income securities on all Funds were priced at Evaluated Bid (with the exception of the Invesco Variable Rate Preferred Shares UCITS ETF and Invesco US Municipal Bond UCITS ETF which were priced at Evaluated Mid during the financial reporting period and bonds classified as "Other transferable" in the Schedule of Investments which have been fair valued by the Directors).

Notes to the Financial Statements (continued)

1. Material Accounting Policies (continued)

C) Financial assets and financial liabilities at fair value through profit or loss (continued)

(iii) Valuation of investments (continued)

The Funds actively trade in debt securities, some of which are variable rate. As at 31 December 2023, the Funds did not hold any variable rate debt investments linked to SOFR. Such investments have the potential to transition to an alternative benchmark prior to being disposed of. The impact of this transition, if any, will be captured in the change in fair value of these investments and is not expected to be material to the Funds.

A forward currency contract involves an obligation to purchase or sell a specific currency at a future date, at a price set at the time the contract is made. Forward currency contracts are valued by reference to the forward price at which a new forward contract at the same size and maturity could be undertaken at the valuation date. The unrealised gain or loss on open forward currency contracts is calculated as the difference between the contract rate and the forward price and is recognised in the Statement of comprehensive income.

Investment funds are valued based upon reference to the latest available net asset value per unit or share of the relevant fund.

(iv) Offsetting Financial Instruments

Financial assets and financial liabilities are offset and the net amount reported in the Statement of Financial Position when there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis, or realise the assets and settle the liability simultaneously. No such offsetting has occurred as at 31 December 2023 or 31 December 2022.

D) Critical accounting estimates and assumptions

Management makes estimates and assumptions concerning the future. The resulting accounting estimates will, by definition, seldom equal the related actual results. There were no estimates and assumptions that had a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities as of the financial year end date.

All of the Funds' financial assets and financial liabilities were held for the purpose of being traded at fair value through profit or loss.

The application of IFRS 9 and the classification of the financial assets at FVTPL is a key judgement applied by management.

Debt Securities

The fair value of debt securities are based on evaluated bid prices at the Statement of Financial Position date. Variable Rate Preferred Shares UCITS ETF and US Municipal Bond UCITS ETF fixed income securities are priced at Evaluated Mid prices. The market prices are obtained from reputable pricing sources. The Company would exercise judgement on the quantity and quality of pricing sources used. Where no market price is available the Company will determine the fair value using valuation techniques. These valuation techniques include the use of comparable recent transactions, reference to other instruments that are substantially the same, discounted cash flow analysis and other valuation techniques used by market participants. There were no debt securities valued using such valuation techniques at current or prior year end.

E) Fees and expenses

In accordance with the Prospectus, the management fees were charged to the Statement of Comprehensive Income on an accruals basis. Other than the management fees, all fees and expenses incurred by the Funds including those payable to the Investment Manager, the Depositary, the Administrator, the Auditor and the Directors were paid by the Manager.

F) Cash and cash equivalents

As at 31 December 2023 and 31 December 2022, cash in all Funds was held on deposit with The Bank of New York Mellon SA/NV, Dublin Branch. Cash and cash equivalents includes cash in hand, deposits held at call with banks and other short-term investments in an active market with original maturities of three months or less and bank overdrafts. Cash and Cash Equivalents are shown in current assets in the statement of financial positions. Bank overdrafts are shown in current liabilities in the statement of financial position. The Funds are allowed to have an overdraft facility in place which is in line with both the Depositary Agreement (under Depositary Duties) and UCITS regulations. Overdrawn balances are continuously monitored. Per the UCITS regulations, overdrafts are permitted within the set out limits. Intraday credit is provided to support the Funds' efficient portfolio management, as the Depositary cannot prevent overdrafts from occurring. The expectation is that the Investment Manager will clear any overdraft balances within 24-48 hours. As at 31 December 2023 and 31 December 2022, Margin cash is held with the broker Bank of America Merrill Lynch International, details of which are disclosed in the Schedule of Investments of the relevant sub-funds.

G) Redeemable shares

Redeemable Shares are redeemable at the Shareholders' option and are classified as financial liabilities. Any distributions on these shares are recognised in the Statement of Comprehensive Income as finance costs.

H) Fair value of net assets attributable to redeemable shareholders

In accordance with the provisions of the Prospectus and Supplements, investments are valued in line with the valuation policy detailed in Note 1 C) (iii) "Valuation of Investments", on the valuation day for the purpose of determining the net asset value per share for subscriptions and redemptions and for various fee calculations.

I) Segment reporting

Operating segments are reported in a manner consistent with the internal reporting used by the Chief Operating Decision Maker ("CODM"). The CODM, who is responsible for allocating resources and assessing the performance of the operating segments has been identified as the Board of Directors. The Board of Directors make the strategic resource allocations on behalf of the Company. The Company is managed as one operating segment which invest in equity instruments, debt instruments and related derivatives.

J) Distribution

The dividend arrangements relating to each Fund will be decided by the Directors at the time of the creation of the relevant Fund and details are set out where applicable in the relevant Supplement.

Under the Articles, the Directors are entitled to declare such dividends on any Class of Shares at such times as they think appropriate and as appear to be justified out of the profits of the relevant Fund, being (i) the accumulated revenue (consisting of all revenue accrued including interest and dividends) less expenses and/or (ii) realised and unrealised capital gains on the disposal/valuation of investments and other Funds less realised and unrealised accumulated capital losses of the relevant Fund and/or the capital of the relevant Fund. Where the dividends will be paid out of the capital of the relevant Fund, this will be disclosed in the relevant Supplement.

Notes to the Financial Statements (continued)

1. Material Accounting Policies (continued)

J) Distribution (continued)

The Company total distributions figure should not be read in isolation, it is merely a consolidation of the Funds. Distributions should be viewed on a Fund level. There has not been an over distribution at Company level.

K) Dividend income

Dividends are credited to the Statement of Comprehensive Income on the dates on which the relevant securities are listed as "ex-dividend". Dividend income is shown gross of any non-reclaimable withholding taxes, which are disclosed separately in the Statement of Comprehensive Income, and net of any tax credits.

L) Transaction costs

Transaction costs are expensed as incurred. They include fees and commissions paid to agents, advisers, brokers or dealers.

M) Interest Income and Interest from financial assets at FVTPL/Interest Income receivable and Interest from financial assets at FVTPL receivable

Interest income is recognised on a time-proportionate basis using the effective interest method. Interest income includes interest from cash and cash equivalents.

Interest from financial assets at FVTPL is accrued on an effective yield basis and recognised in the Statement of Comprehensive Income. Interest on securities includes interest and discount earned (net of premium), which is the difference between the face value and the original cost, including original issue discount.

Interest earned whilst holding investment securities is reported as Interest from financial assets at FVTPL in the Statement of Comprehensive Income, whilst interest due to the Funds is reported as Interest from financial assets at FVTPL receivable in the Statement of Financial Position.

N) Balances due to/from brokers

Amounts due to/from brokers represent payables for securities purchased and receivables for securities sold that have been contracted for but not yet delivered or settled as at period end.

O) Set up costs

The cost of establishing the Company and the Funds (including fees in connection with the incorporation and registration of the Company, listing the Funds on the relevant stock exchanges and registering the Funds for sale in other jurisdictions) will be paid by Invesco Investment Management Limited (the "Manager"). The cost of establishing subsequent Funds will also be paid by the Manager unless otherwise provided in the Supplement for the relevant Fund.

P) Forward foreign currency contracts

A forward agreement is a customised, bilateral agreement to exchange an asset or cash flows at a specified future settlement date at a forward price agreed on the trade date. One party to the forward is the buyer (long), who agrees to pay the forward price on the settlement date; the other is the seller (short), who agrees to receive the forward price. Forward currency contracts could be used to hedge against currency risk that has resulted from assets held by the Funds that are not in the Base Currency. A Fund, may, for example, use forward currency contracts by selling forward a foreign currency against the Base Currency to protect the Funds from foreign exchange rate risk that has risen from holding assets in that currency. Investments in forward currency contracts are classified as Level 2 as they are valued at the close-of-business rates as reported by the pricing vendors utilised by the Administrator of the Fund.

The unrealised gain or loss on open forward foreign currency contracts is calculated as the difference between the contracted rate and the rate to close out the contract and is disclosed in the Statement of Financial Position. Realised gains or losses and changes in unrealised appreciation/depreciation include net results on contracts which have been settled or offset on other contracts and are recorded in the Statement of Comprehensive Income.

Q) Open Exchange Traded Futures contracts

Open exchange traded futures contracts ('futures') are fair valued at the official exchange traded price at the close of business on the valuation day to approximate fair value. The fair value, less purchase price, represents the net unrealised gain or loss attributable to these open positions, and is included in the Statement of Financial Position. The difference in the unrealised gain or loss between the current year and the prior year represents the net change in unrealised gain or loss and is included in the Statement of Comprehensive Income.

Margin Cash in relation to the futures is identified in the Schedules of Investments as Margin Cash and is included as a component of cash and cash equivalents on the Statement of Financial Position. As at 31 December 2023, Margin cash is held with the broker Bank of America Merrill Lynch International for the Invesco EUR IG Corporate Bond ESG UCITS ETF, Invesco EUR Corporate Bond ESG Multi-Factor UCITS ETF, Invesco EUR Corporate Bond ESG Short Duration Multi-Factor UCITS ETF, Invesco Euro Corporate Hybrid Bond UCITS ETF, Invesco GBP Corporate Bond ESG UCITS ETF, Invesco GBP Corporate Bond UCITS ETF, Invesco Global High Yield Corporate Bond ESG UCITS ETF, Invesco Emerging Markets USD Bond UCITS ETF and Invesco USD High Yield Corporate Bond ESG UCITS ETF. As at 31 December 2022, Margin cash is held with the broker Bank of America Merrill Lynch International for the Invesco EUR Corporate Bond ESG Multi-Factor UCITS ETF, Invesco EUR Corporate Bond ESG Short Duration Multi-Factor UCITS ETF, Invesco Euro Corporate Hybrid Bond UCITS ETF, Invesco GBP Corporate Bond ESG UCITS ETF, Invesco GBP Corporate Bond UCITS ETF, Invesco Emerging Markets USD Bond UCITS ETF and Invesco AT1 Capital Bond UCITS ETF.

R) Withholding Tax

The Funds currently incur withholding tax imposed by certain countries on investment income and capital gains. Such income or gains are reported gross of withholding tax and the withholding tax is shown separately in the Statement of Comprehensive Income.

S) Capital shares receivable/Capital shares payable

Capital shares receivable and Capital shares payable redeemed represent amounts that have been contracted for but not yet settled or delivered on the Statement of Financial Position date.

Notes to the Financial Statements (continued)

1. Material Accounting Policies (continued)

T) Securities Lending

A Fund may enter into securities lending agreements if consistent with the investment objective of the Fund and for the purposes of efficient portfolio management, including to generate income or profits in order to increase portfolio returns or to reduce portfolio expenses or risk, in accordance with the requirements and subject to any relevant regulations of the Central Bank. Any Fund that seeks to engage in securities lending should ensure that it is able at any time to recall any security that has been lent out or terminate any securities lending agreement into which it has entered. A Fund may engage in a securities lending programme through the Investment Manager. In order to mitigate the credit risk exposure to the counterparties to any securities lending contract, the lending of a Fund's securities must be covered by high quality and liquid collateral received by a Fund under a title transfer arrangement with a market value at all times at least equivalent to the market value of a Fund's securities lent plus a premium. A Fund's securities can be lent to counterparties over a period of time. The Manager will, at least annually, review and/or confirm the arrangements for securities lending and associated fees invoiced to the relevant Fund, if any. All the revenues arising from efficient portfolio management techniques shall be returned to the relevant Fund following the deduction of any direct and indirect operational costs and fees arising. Such direct and indirect operational costs and fees shall include fees and expenses payable to securities lending agents engaged by the Company. Details of the Funds' revenues arising and attendant direct and indirect operational costs and fees as well as the identity of any specific securities lending agents engaged by the Company are detailed in Note 15 Securities Lending and Collateral. Income earned from securities lending is reported as Securities lending income in the Statement of Comprehensive Income.

U) Capital Gains Tax

In September 2016, Brazil's Department of Federal Revenue updated Ireland's status for Brazilian tax purposes and included Ireland on their list of countries classified as low tax jurisdictions. This resulted in the asset and wealth management industry having to consider whether funds should accrue for potential Brazilian capital gains tax exposures ("CGT") on unrealised gains on their holdings. Two Funds in Invesco Markets II plc had exposure to Brazilian investments as at 31 December 2023 - Invesco MSCI Emerging Markets ESG Universal Screened UCITS ETF and Invesco MSCI Emerging Markets ESG Climate Paris Aligned UCITS ETF. Two Funds in Invesco Markets II plc had exposure to Indian investments as at 31 December 2023 - Invesco MSCI Emerging Markets ESG Universal Screened UCITS ETF and Invesco MSCI Emerging Markets ESG Climate Paris Aligned UCITS ETF. Gains arising from sale of Indian securities are subject to CGT in India. As at 31 December 2023, the Invesco MSCI Emerging Markets ESG Universal Screened UCITS ETF and Invesco MSCI Emerging Markets ESG Climate Paris Aligned UCITS ETF have made a provision of the potential CGT using the applicable tax rates enacted during the financial year. Please refer to the Statement of Comprehensive Income.

One of the Funds in Invesco Markets II plc had exposure to Brazilian investments as at 31 December 2022 - Invesco MSCI Emerging Markets ESG Climate Paris Aligned UCITS ETF. Two Funds in Invesco Markets II plc had exposure to Indian investments as at 31 December 2022 - Invesco MSCI Emerging Markets ESG Universal Screened UCITS ETF and Invesco MSCI Emerging Markets ESG Climate Paris Aligned UCITS ETF. Gains arising from sale of Indian securities are subject to CGT in India. As at 31 December 2022, the Invesco MSCI Emerging Markets ESG Universal Screened UCITS ETF and Invesco MSCI Emerging Markets ESG Climate Paris Aligned UCITS ETF have made a provision of the potential CGT using the applicable tax rates enacted during the financial year. Please refer to the Statement of Comprehensive Income.

2. Financial risks

As defined by IFRS 7 'Financial Instrument Disclosures', risk arising on financial instruments can be separated into the following components: Market Risk, Credit Risk and Liquidity Risk.

Each type of risk is discussed below and both qualitative and quantitative analyses are provided, where relevant, to give the reader an understanding of risk management methods used by the Investment Manager and reviewed by the Directors of the Company.

The main risks arising from the Funds' financial instruments are market risk, credit risk and liquidity risk. The Company's overall risk management policy focuses on the unpredictability of financial markets and seeks to minimise any discrepancy between the performance of the Funds and the performance of the respective benchmarks.

The nature and extent of the financial instruments outstanding at the Statement of Financial Position date and the risk management policies employed by the Company are discussed below:

A) General

The risk monitoring process is the responsibility of the Company which has delegated this responsibility to the Manager and the Investment Manager.

The Company's investment objective is that each Fund will seek to provide shareholders with a target performance linked to the performance of a reference index or reference asset by purchasing a portfolio of transferable securities that may (but is not obliged to) comprise all or a representative sample of the constituent securities of that reference index or reference asset.

The Investment Manager is responsible for the operation of the risk management process, including the measurement of risk of each Fund's portfolio at any given time.

The Investment Manager will report in writing at least monthly to the named Designated Person confirming compliance with the guidelines laid down in the Risk Management Policy document and the Prospectus. The Investment Manager will also report at minimum quarterly to the Board of Directors in respect of same.

The risk management technique applying to the Funds is the Commitment Approach. The commitment is calculated in line with ESMA Guidelines 10 788. This ratio merely reflects the usage of all financial derivative instruments of the relevant Fund and is calculated using the sum of notional of all financial derivative instruments, netting and hedging arrangements being considered to reduce exposure. A sensitivity analysis is presented in Note (iii) Market Price Risk to reflect the Commitment Approach which represents the interest rate risk maturity profile for the Funds. Each Fund's global exposure measured in accordance with the "commitment approach" under the Central Bank Guidance entitled UCITS Financial Derivative Instruments and Efficient Portfolio Management, relating to FDI must not exceed its total net asset value.

B) Market risk

Market risk is the risk that the fair value of a financial instrument will fluctuate because of changes in market prices. Market risk comprises the following type of risk:

- interest rate risk;
- currency risk; and
- market price risk;

Notes to the Financial Statements (continued)

2. Financial risks (continued)

B) Market risk (continued)

(i) Interest rate risk

Interest rate risk arises from the effects of fluctuations in the prevailing levels of market interest rates which would cause the fair value of the assets and liabilities and the future cash flows to fluctuate accordingly. The value of debt securities is likely to decline in times of rising interest rates. Conversely, when rates fall, the value of these investments is likely to rise. The longer the time to maturity the greater are such variations. As the majority of the Funds' assets are interest-bearing, it is exposed to this risk.

As the Company may invest in fixed income securities, any change to the relevant interest rates for particular securities may result in the Investment Manager being unable to secure similar returns on the expiry of contracts or the sale of securities. In addition, changes to prevailing interest rates or changes in expectations of future rates may result in an increase or decrease in the value of the securities held. In general, if interest rates rise, the value of the fixed income securities will decline. A decline in interest rates will, in general, have the opposite effect.

The following tables summarise the exposure to interest rate risk for the financial year ended 31 December 2023. It includes the Funds' assets and trading liabilities at fair values categorised by the earlier of contractual re-pricing or maturity date measured by the carrying value of the assets and liabilities.

A reasonable approximate increase in the net assets attributable to holders of redeemable participating shares due to a 1% (1% is considered to be a reasonable possible change in interest rates) increase/decrease in market interest rates as at 31 December 2023 and 31 December 2022 is also detailed below.

(ii) Currency risk

Currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates.

Foreign currency risk, as defined in IFRS 7, arises as the value of future transactions, recognised monetary assets and monetary liabilities denominated in other currencies fluctuate due to changes in foreign exchange rates. IFRS 7 considers the foreign exchange exposure relating to non-monetary assets and non-monetary liabilities to be a component of market price risk not foreign currency risk.

Monetary items are units of currency held and assets and liabilities to be received or paid in a fixed or determinable number of units of currency. Non-monetary items are any other assets and liabilities other than monetary ones.

The Funds, in line with the securities comprising their underlying indices, are exposed to the currency risk of the respective reference index/strategy. The Investment Manager monitors the Funds' currency risk to ensure that it replicates that of the securities comprising the underlying index.

There was no currency risk on the following Funds as the Funds did not hold assets and liabilities denominated in a currency other than the Functional Currency of each Fund at 31 December 2023:

Invesco EUR Corporate Bond ESG Multi-Factor UCITS ETF, Invesco EUR Corporate Bond ESG Short Duration Multi-Factor UCITS ETF, Invesco Emerging Markets USD Bond UCITS ETF, Invesco Emerging Markets USD Bond UCITS ETF, Invesco Variable Rate Preferred Shares UCITS ETF, Invesco EUR Government and Related Green Transition UCITS ETF, Invesco US Municipal Bond UCITS ETF, Invesco NASDAQ Next Generation 100 UCITS ETF, Invesco NASDAQ-100 Equal Weight UCITS ETF, Invesco S&P 500 Equal Weight UCITS ETF, Invesco S&P 500 Low Volatility UCITS ETF, Invesco NASDAQ-100 ESG UCITS ETF, Invesco MSCI USA ESG Climate Paris Aligned UCITS ETF and Invesco Dow Jones US Insurance UCITS ETF.

Notes to the Financial Statements (continued)

2. Financial risks (continued)

B) Market risk (continued)

(ii) Currency risk (continued)

There was no currency risk on the following Funds as the Funds did not hold assets and liabilities denominated in a currency other than the Functional Currency of each Fund at 31 December 2022:

Invesco EUR IG Corporate Bond ESG UCITS ETF, Invesco EUR Corporate Bond ESG Multi-Factor UCITS ETF, Invesco EUR Corporate Bond ESG Short Duration Multi-Factor UCITS ETF, Invesco Variable Rate Preferred Shares UCITS ETF, Invesco Euro Government Bond UCITS ETF, Invesco US Municipal Bond UCITS ETF, Invesco NASDAQ Next Generation 100 UCITS ETF, Invesco S&P 500 Equal Weight UCITS ETF, Invesco S&P 500 Low Volatility UCITS ETF, Invesco NASDAQ-100 ESG UCITS ETF and Invesco MSCI USA ESG Climate Paris Aligned UCITS ETF.

The foreign currency sensitivity analysis below is based on a change in one variable while holding all other variables constant. In practice this is unlikely to occur, and changes in some of the assumptions may be correlated – for example, changes in interest rates. In addition, as the sensitivity analysis uses historical data as a basis for determining future events, it does not encompass all possible scenarios, particularly those that are of an extreme nature. At 31 December 2023 the sensitivity movement used is 10% (2022: 10%) of all monetary assets held in the exposure currency.

At 31 December 2023, had the Euro/ US Dollar/ Pound Sterling strengthened/ (weakened) by 10% in relation to the major currencies listed in the tables below, assuming no hedging of this position, the net assets attributable to redeemable participating Shareholders and the change in net assets attributable to holders of redeemable participating Shares per the Statement of Comprehensive Income of the Funds would have decreased/(increased) by the amounts shown below.

The currency exposure of the monetary (cash, forward currency contracts, receivables and payables) and non-monetary assets (securities) at 31 December 2023 is as follows:

Invesco Preferred Shares UCITS ETF at 31 December 2023

A Fund can use forward currency contracts by selling forward a foreign currency against the Base Currency to protect a Fund from foreign exchange rate risk that has risen from holding assets in that currency.

As at 31 December 2023 and 31 December 2022, certain funds were exposed to currency risk through the use of forward currency contracts.

As at 31 December 2023 the Funds which held forward currency contracts were Invesco Preferred Shares UCITS ETF, Invesco USD IG Corporate Bond ESG UCITS ETF, Invesco Global High Yield Corporate Bond ESG UCITS ETF, Invesco AT1 Capital Bond UCITS ETF, Invesco US Treasury Bond UCITS ETF, Invesco US Treasury Bond 0-1 Year UCITS ETF, Invesco US Treasury Bond 1-3 Year UCITS ETF, Invesco US Treasury Bond 3-7 Year UCITS ETF, Invesco US Treasury Bond 7-10 Year UCITS ETF, Invesco US Treasury Bond 10+ Year UCITS ETF, Invesco MSCI USA ESG Universal Screened UCITS ETF, Invesco Quantitative Strategies ESG Global Equity Multi-Factor UCITS ETF, Invesco Quantitative Strategies Global Equity Low Volatility Low Carbon UCITS ETF, Invesco FTSE All-World UCITS ETF and Invesco USD High Yield Corporate Bond ESG UCITS ETF, as detailed in the Schedules of Investments.

As at 31 December 2022 the Funds which held forward currency contracts were Invesco Preferred Shares UCITS ETF, Invesco USD IG Corporate Bond ESG UCITS ETF, Invesco AT1 Capital Bond UCITS ETF, Invesco US Treasury Bond UCITS ETF, Invesco US Treasury Bond 0-1 Year UCITS ETF, Invesco US Treasury Bond 1-3 Year UCITS ETF, Invesco US Treasury Bond 3-7 Year UCITS ETF, Invesco US Treasury Bond 7-10 Year UCITS ETF, Invesco US Treasury Bond 10+ Year UCITS ETF, Invesco MSCI USA ESG Universal Screened UCITS ETF, Invesco Quantitative Strategies ESG Global Equity Multi-Factor UCITS ETF, Invesco Quantitative Strategies Global Equity Low Volatility Low Carbon UCITS ETF and Invesco USD High Yield Corporate Bond ESG UCITS ETF.

As at 31 December 2023 the Funds which held future contracts were Invesco EUR IG Corporate Bond ESG UCITS ETF, Invesco EUR Corporate Bond ESG Multi-Factor UCITS ETF, Invesco EUR Corporate Bond ESG Short Duration Multi-Factor UCITS ETF, Invesco Euro Corporate Hybrid Bond UCITS ETF, Invesco GBP Corporate Bond ESG UCITS ETF, Invesco GBP Corporate Bond UCITS ETF, Invesco Global High Yield Corporate Bond ESG UCITS ETF, Invesco Emerging Markets USD Bond UCITS ETF and Invesco USD High Yield Corporate Bond ESG UCITS ETF, as detailed in the Schedules of Investments.

As at 31 December 2022 the Funds which held future contracts were Invesco EUR Corporate Bond ESG Multi-Factor UCITS ETF, Invesco EUR Corporate Bond ESG Short Duration Multi-Factor UCITS ETF, Invesco Euro Corporate Hybrid Bond UCITS ETF, Invesco GBP Corporate Bond ESG UCITS ETF, Invesco GBP Corporate Bond UCITS ETF, Invesco Emerging Markets USD Bond UCITS ETF and Invesco AT1 Capital Bond UCITS ETF.

(iii) Market price risk

Market price risk is the risk that the value of investments will fluctuate as a result of changes in market price (other than those arising from interest rate risk or currency risk), whether caused by factors specific to an individual investment, its issuer or similar financial instruments traded in the market. For each Fund this risk is in line with the risk of the reference index.

The sensitivity analysis for the Funds assumes a change in the market price of the investments while holding all other variables constant. In practice this is unlikely to occur and changes in some of the variables may be correlated. In addition, as the sensitivity analysis uses historical data as a basis for determining future events, it does not encompass all possible scenarios, particularly those that are of an extreme nature. The reasonably possible decrease in the benchmark index is based on the movement over the financial year ended 31 December 2023. These movements may be different from the long term volatility of the index.

Notes to the Financial Statements (continued)

2. Financial risks (continued)

C) Credit risk

Credit risk is the risk that one party to a financial instrument or other obligation will cause a financial loss for the other party by failing to discharge an obligation.

The Investment Manager monitors each Fund's credit position on a daily basis.

All transactions in listed securities are settled/paid for upon delivery using approved brokers. The risk of default is considered minimal, as delivery of securities sold is only made once the broker has received payment. Payment is made on a purchase once the securities have been received by the broker. The trade will fail if either party fails to meet its obligation. In accordance with Fund policy, the Investment Manager monitors each Fund credit position on a daily basis; the Board of Directors reviews it on a quarterly basis.

The Funds' Depositary is The Bank of New York Mellon, SA/NV, Dublin Branch (the "Depositary").

As at 31 December 2023 and 31 December 2022, all of the cash assets are held with The Bank of New York Mellon, SA/NV, Dublin Branch. Please refer to the Statement of Financial Position for cash assets held with The Bank of New York Mellon, SA/NV, Dublin Branch.

As at 31 December 2023 and 31 December 2022, Margin cash is held with the broker Bank of America Merrill Lynch International, details of which are disclosed in the Schedule of Investments of the relevant sub-funds.

Accordingly, in accordance with usual banking practice, the Depositary liability to the Funds in respect of such cash deposits shall be that of debtor and the Funds will rank as a general creditor of BNYM (Bank of New York Mellon).

The financial instruments held in custody are held with the Depositary except for the futures contracts which are held with the Bank of America Merrill Lynch. These assets are held distinct and separately from the proprietary assets of the Depositary. Securities are clearly recorded to ensure they are held on behalf of the Funds. As at 31 December 2023, the Bank of America Merrill Lynch had a long term rating from Standard & Poor's of A+ (31 December 2022: A+).

Both The Bank of New York Mellon SA/NV, Dublin Branch (Ireland) Limited and sub-custodian are wholly owned subsidiaries of BNY Mellon Corporation. As at 31 December 2023 BNY Mellon Corporation had a long term rating from Standard & Poor's of A (31 December 2022: A). For details in relation to the sub-custodian please refer to Appendix V of the Prospectus.

Risk is managed by monitoring the credit quality and financial positions of the Depositary the Funds use.

The Funds are exposed to credit risk through the use of a Depositary or sub-custodian. The bankruptcy or insolvency of any of these parties may cause the Funds' rights with respect to its assets held by these entities to be delayed or limited.

To mitigate the risks the Funds are exposed to from the use of the Counterparty, the Manager employs appropriate procedures to ensure that the counterparties are reputable institutions and that the credit risk is acceptable to the Funds. The Funds only transacts with counterparties that are regulated entities subject to prudential supervision, or with high credit-ratings assigned by international credit rating agencies. In addition, the Funds' non-cash assets are maintained by the Depositary in segregated accounts. Thus, in the event of insolvency or bankruptcy of the Depositary the Funds' non-cash assets are segregated and protected and this further reduces counterparty risk. The Funds will, however, be exposed to the credit risk of the Depositary or counterparty/sub-custodian used by the Depositary, in relation to the Funds' Cash at Bank held by the Depositary. In the event of the insolvency or bankruptcy of the Depositary, the Funds will be treated as a general creditor of the Depositary in relation to cash holdings of the Funds.

D) Liquidity risk

Liquidity risk is the risk that a Fund may not be able to generate sufficient cash resources to settle its obligations in full as they fall due or can only do so on terms that are materially disadvantageous.

The Funds did not withhold any redemptions or did not suspend the NAV during the financial year ended 31 December 2023 or financial year ended 31 December 2022.

Liquidity risk exists when a particular instrument is difficult to purchase or sell.

Liquidity is managed by investing predominantly in UCITS eligible listed securities that are traded in an active market and can be readily disposed. The Fund have therefore limited exposure to liquidity risk.

Redeemable Shares are redeemed on demand at the Shareholder's option.

In accordance with the Funds' policy, the Investment Manager monitors the Funds' liquidity position on a daily basis; the Board of Directors reviews it on a quarterly basis.

The Company has the discretion in circumstances set out in the Prospectus to temporarily suspend the calculation of the Net Asset Value of any Fund and the subscription, redemption or exchange of Shares.

The following tables analyse the Funds' financial liabilities into relevant maturity groupings based on the remaining financial year at the statement of financial position date to the contractual maturity date. The amounts in the tables are the contractual undiscounted cash flows. Balances due within twelve months equal their carrying balances as the impact of discounting is not significant. All amounts are stated in the Funds' currency.

E) Secondary market trading risk

Even though the Shares may be listed on one or more relevant stock exchanges, there can be no certainty that there will be liquidity in the Shares on any relevant stock exchange or that the market price at which the Shares may be traded on a relevant stock exchange will be the same as or approximately equal to the Net Asset Value per Share.

As the Shares may be dealt in by means of subscription and redemption, the Directors consider that large discounts or premiums in the Net Asset Value of a Fund would not be sustainable. There can be no guarantee that once the Shares are listed on a relevant stock exchange they will remain listed or that the conditions of listing will not change. Trading in Shares on a relevant stock exchange may be halted or suspended due to market conditions or for the reason that, in the relevant stock exchange's view, trading in the Shares is inadvisable, or otherwise pursuant to the relevant stock exchange's rules. If trading on a relevant stock exchange is halted, investors may not be able to sell their Shares until trading resumes however such investors should be able to apply to the Funds to redeem Shares in accordance with the provisions set out in the Prospectus.

F) Capital risk management

The capital of the Funds is represented by the net assets attributable to holders of Redeemable Shares. The amount of net assets attributable to holders of Redeemable Shares could change significantly on a daily basis as the Funds are subject to subscriptions and redemptions at the discretion of the Shareholders.

The Funds' individual objectives when managing capital is to safeguard each Fund's ability to continue as a going concern in order to provide returns for Shareholders and to maintain a strong capital base to support the development of the investment activities of the Funds.

G) Fair value information

IFRS 13 Fair Value Measurement requires disclosure relating to the fair value hierarchy in which fair value measurements are categorised for assets and liabilities in the Statement of Financial Position. The disclosures are based on a three-level fair value hierarchy for the inputs used in valuation techniques to measure fair value.

The fair value hierarchy has the following levels:

- Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2: Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices).
- Level 3: Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs).

The level in the fair value hierarchy within which the fair value measurement is categorised in its entirety is determined on the basis of the lowest level input that is significant to the fair value measurement in its entirety. For this purpose the significance of an input is assessed against the fair value measurement in its entirety. If a fair value measurement uses observable inputs that require significant adjustment based on unobservable inputs, that measurement is a Level 3 measurement.

Assessing the significance of a particular input to the fair value measurement in its entirety requires judgement, considering factors specific to the asset or liability.

The Funds consider observable data to be that market data that is readily available, regularly distributed or updated, reliable and verifiable, not proprietary, and provided by independent sources that are actively involved in the relevant market.

The fair value of financial assets and liabilities traded in an active market (such as trading securities) are based on quoted market prices at the close of trading on the financial year-end date.

A financial instrument is regarded as quoted in an active market if the quoted prices are readily and regularly available from an exchange, dealer, broker, industry group, pricing service, or regulatory agency, and those prices represent actual and regularly occurring market transactions.

In the event that market quotes are not readily available for either of these inputs the value of the relevant input will be determined in good faith by the Administrator or another independent service provider, generally based upon recommendations provided by the Investment Manager.

The carrying values of cash and cash equivalents, other receivables and payables are assumed to approximate their fair value.

As at 31 December 2023 and 31 December 2022 such financial assets include cash and cash equivalents, balances due from brokers, dividend income receivable, capital shares receivable, interest from financial assets at fair value through profit and loss receivable and accrued income and other receivables. The financial liabilities include bank overdraft, balances due to brokers, capital shares payable, variation margin payable and creditors (amounts falling due within one year). Level 2 is deemed to be the most appropriate categorisation for such assets and liabilities.

Investments, whose values are based on quoted market prices in active markets and therefore classified within Level 1.

Financial instruments that trade in markets that are not considered to be active but are valued based on quoted market prices, dealer quotations or alternative pricing sources supported by observable inputs are classified within Level 2.

The Schedule of investments shows the investments split by country of origin.

4. Management fees

The Management Fee, a percentage of the Net Asset Value of the relevant Class of Shares, is payable by the Company out of the assets of the Funds to the Manager. The Management Fee accrued on each day and was calculated on each Dealing Day and paid monthly in arrears. The Manager paid out of its fees (and not out of the assets of the Funds) the fees and expenses (where appropriate) of the Investment Manager, the Administrator, the Depositary, the Directors, the Auditors and the ordinary fees, expenses and costs incurred by the Funds that include set up costs and other administrative expenses as described in the Prospectus.

The fees in the following table are expressed as a percentage per annum of the Funds' net asset value.

Investments in Short-Term Investment Funds

For details in relation to the Funds' Investment in short-term investment Funds please refer to "Investment Funds" in the Schedule of Investments.

Investment Manager

Invesco Capital Management LLC is the Investment Manager to the Funds. The Funds paid no fees directly to the Investment Manager and all other expenses were paid by the Manager on behalf of the Funds.

Seed capital

Invesco Capital Management LLC holds the following Redeemable Participating Shares in the below fund:

For the period from 1 January 2023 to 31 December 2023	Opening Balance (USD)	Acquired in the period (USD)	Redeemed in the period (USD)	Mark-to-market (USD)	Closing Balance (USD)	% of Net Assets
Invesco USD High Yield Corporate Bond ESG UCITS ETF	6,118,164	-	(354,772)	344,389	6,107,781	47%

Significant agreements

Authorised Participants

The complete list of Authorised Participants is shown in the General Information section.

Brokerage fees were not paid to the Authorised Participants during the financial year ended 31 December 2023 (31 December 2022 : Nil).

Authorised Participants may purchase and hold Redeemable Shares in the Funds for trading purposes. In addition, the Authorised Participants may hold Redeemable Shares on behalf of clients, on their own account or for the purpose of providing seed capital to the Funds. These holdings may on occasion constitute a large portion of a Fund. From time to time, such holdings may even constitute the majority of assets under management of the Funds. There was no requirement (expressed or implied) on Authorised Participants to maintain positions in a Fund at any time.

6. Auditors' remuneration

As required under Section 322 of the Companies Act 2014 (as amended), the remuneration for all work carried out by the statutory audit firm in respect of the financial year is as follows:

	Year Ended 31 December 2023 EUR	Year Ended 31 December 2022 EUR
Statutory audit of company accounts	427,960	351,120
PwC Ireland non audit services	64,091	57,505
PwC Network non audit services	331,099	221,284
	823,150	629,909

All non audit services relate to Tax services with the exception of €3,291 which relates to Swiss Reporting.

7. Taxation

Under current law and practice, the Company qualifies as an investment undertaking as defined in section 739B of the Taxes Consolidation Act, 1997, as amended. On that basis it is not chargeable to Irish tax on its income or gains. However, Irish tax may arise on the occurrence of a "chargeable event" for certain investors not satisfying one of the criteria outlined below.

A chargeable event includes any distribution payments to Shareholders or any encashment, redemption, cancellation or transfer of Shares and the holding of Shares at the end of each 8 year period beginning with the acquisition of such Shares.

No Irish tax will arise on the Company in respect of chargeable events in respect of:

- a) A Shareholder who is neither Irish resident nor ordinarily resident in Ireland for tax purposes, at the time of the chargeable event, provided appropriate valid declarations in accordance with the provisions of the Taxes Consolidation Act, 1997, as amended, are held by the Company, or the Company has been authorised by the Irish Revenue to make gross payments in the absence of appropriate declarations and the Company is not in possession of any information which would reasonably suggest that the information contained therein is no longer materially correct;
- b) Certain exempted Irish tax resident Shareholders who have provided the Company with the necessary signed statutory declarations; or
- c) Any transaction (which might otherwise be a chargeable event) in relation to Shares held in a recognised clearing system as designated by order of the Irish Revenue Commissioners will not constitute a chargeable event. It is the current intention of the Directors that all the Shares in the Company will be held in recognised clearing systems.

Dividends, interest and capital gains (if any) received on investments made by the Company may be subject to withholding taxes imposed by the country from which the investment income/gains are received and such taxes may not be recoverable by the Company or its Shareholders.

8. Share capital

The authorised share capital of the Company is 2 subscriber shares of €1 each and 1,000,000,000,000 shares of no par value initially designated as unclassified shares and available for issue as shares.

In accordance with the objectives listed in the risk management policies in Note 2, the Company strives to invest the subscriptions of Redeemable Shares in appropriate investments.

10. Soft commission arrangements

It is not currently intended that any soft commission arrangements will be made in respect of the Company.

There were no soft commission arrangements in the current financial year (31 December 2022: none).

11. Segregation of liability

Under the provisions of the Companies Act 2014 (as amended), the Directors shall maintain for each Fund a separate portfolio of assets. As between Shareholders, each portfolio of assets shall be invested for the exclusive benefit of the relevant Fund. The Shareholders shall only be entitled to the assets and profits of that Fund in which they participate. The Company shall be considered one single legal entity. With regard to third parties, in particular towards the Company's creditors, the Company shall be responsible for all liabilities incurred by a Fund exclusively based on the assets of this relevant Fund. Among the Shareholders, the liabilities of each Fund shall only be incurred to the respective Fund.

While the provisions of the Companies Act 2014 (as amended) provide for segregated liability between Funds, these provisions have yet to be tested in foreign courts, in particular, in satisfying local creditors' claims. Accordingly, it is not free from doubt that the assets of any Fund of the Company may not be exposed to the liabilities of other Funds of the Company.

As at the date of the Financial Statements, the Directors are not aware of any existing or contingent liability of any Fund of the Company.

12. Operating Segment

IFRS 8 Operating Segments ("IFRS 8") requires a "management approach" under which segment information is presented on the same basis as that used for internal reporting purposes. The Board of Directors are charged with the overall governance of the Company in accordance with the Prospectus and Constitution. Management have determined the Chief Operating Decision Maker ("CODM") as the Board of Directors for the purposes of IFRS 8.

For Management purposes, the Company is organised into one main operating segment, which invests in equity instruments, debt instruments and related derivatives. All the Company's activities are interrelated and each activity is dependent on the others. Accordingly, all significant operating decisions are based upon analysis of the Company as one segment. The financial results from this segment are equivalent to the financial statements of the Company as a whole.

The Funds have no assets classified as non-current assets.

The Funds have highly diversified portfolios of investments and no single investment accounts for a significant portion of the Company's income.

Products and Services

As of the Company's revenues are derived from one product grouping, namely the portfolio securities and derivative instruments invested in by the Funds in order to track the performance of their respective indices.

Geographical areas

The Company does not separately monitor revenues from different geographical areas. However, by their nature of tracking indices which represent specific markets in specific regions, each Fund's revenue may be considered as being attributed to the region stated in its investment objective.

Major Customers

As the Company is an investment company, its distinct major customers are from institutional investors who make the primary market for the Funds' shares. The investments are allocated across 48 distinct Funds which each have a separate Schedule of Investments.

Notes to the Financial Statements (continued)

13. Transaction Costs

In order to achieve its investment objective, the Company incurs transaction costs in relation to trading activity on its portfolios.

The transaction costs below were incurred by the Funds during the financial year ended 31 December 2023 and are included within the net gains/(losses) on financial assets and financial liabilities at fair value through profit or loss figures in the Statement of Comprehensive Income:

14. Efficient Portfolio Management

The Company may, on behalf of each Fund and subject to the conditions and within the limits laid down, by the Central Bank of Ireland, employ techniques and instruments relating to transferable securities for efficient portfolio management purposes a list of which are set out in the relevant Supplement for each Fund. Transactions for the purposes of efficient portfolio management maybe undertaken with a view to achieving a reduction in risk, a reduction in costs or the generation of additional capital or income for the relevant Fund with an appropriate level of risk, taking into account the risk profile of the Funds as described in this Prospectus and the relevant Supplement and the risk diversification rules set out in the Central Bank Regulations. Subject to the Regulations and to the conditions within the limits laid down by the Central Bank, the Company, on behalf of a Fund may invest in FDIs dealt on a regulated market and/or OTCs which will be used for investment purposes, hedging and/or efficient portfolio management purposes.

The FDIs in which a Fund may invest are spot and forward currency contracts, options on securities, indices and currencies, Swaps, credit default swaps, futures and options on futures and when issued and forward commitment securities further details of which will be set out in the relevant Supplement. Such techniques and instruments will be utilised in accordance with the requirements of the Central Bank of Ireland. New techniques and instruments may be developed which may be suitable for use by the Company and the Company (subject as aforesaid) may employ such techniques and instruments.

The Funds may also enter into securities lending for the purpose of efficient portfolio management and this may reduce the Minimum Equity Ratio of the Funds. However, the qualifying Fund will ensure that they maintain a minimum continuous investment of more than 50% of their net asset value into equities.

For UCITS which have engaged in EPM techniques, certain disclosures are required under Chapter 4 of the Central Bank UCITS Regulations. The Investment Advisers of the Funds have identified all Financial Derivative Instruments (FDIs) which are used for EPM. A UCITS is required to disclose the revenues arising from EPM techniques for the entire reporting period together with the direct and indirect operational costs and fees incurred.

Details of forward foreign exchange contracts and futures transactions are reflected within the Schedule of Investments of each fund where held.

15. Securities Lending and Collateral

A Fund may enter into securities lending, repurchase and/or reverse repurchase agreements if consistent with the investment objective of the Funds and for the purposes of efficient portfolio management, including to generate income or profits in order to increase portfolio returns or to reduce portfolio expenses or risk, in accordance with the requirements and subject to any relevant regulations of the Central Bank. A maximum of 90% of an individual security held by a Fund will be subject to securities lending. The proportion of assets per Fund that may be subject to securities lending will be up to a maximum of 50% for all Government Bond Funds, for all other Fixed Income Funds a maximum of 30% is applied and a maximum of 15% for Equity Funds.

The maximum proportion of a Fund's assets that may be subject to securities lending is 100% and the expected proportion of a Fund's assets that may be subject to securities lending are between 0% and 15% for Equity Funds and between 0% and 30% for Bond Funds.

The securities lending agent appointed pursuant to the Securities Lending Authorisation Deed is The Bank of New York Mellon SA/NV ("Bank").

At 31 December 2023, there was securities lending on Funds listed in the tables overleaf. These tables show the securities lending income earned. This securities lending income earned is net of the lending agent fee.

As per the Securities Lending Authorisation Deed, the Bank is authorised and directed to invest and re-invest all or substantially all of the collateral received in any approved investments as specified to be "No Cash Collateral other than for the purposes set out in Schedule 1" of the Securities Lending Authorisation Deed. All approved investments shall be for the account and risk of the lender. To the extent any loss arising out of approved investments results in a deficiency in the amount of collateral available to return to a borrower, the lender agrees to pay the Bank on demand cash in amount equal to such deficiency. As at 31 December 2023, there was no collateral re-invested.

As at 31 December 2023 and 31 December 2022, there was no cash collateral held by the Funds.

The amount of collateral obtained under a securities lending arrangement must be of at least 100% of the daily marked to market value of the stocks on loan.

As per the Securities Lending Authorisation Deed, the non-cash collateral can consist of Debt obligations and securities issued by a government where such government is a ratified member of the Organization for Economic Co Operation and Development, or by the government of Singapore.

Notes to the Financial Statements (continued)

15. Securities Lending and Collateral (continued)

The value of securities on loan by counterparty and the value and type of collateral held by the Company in respect of those securities as at 31 December 2023 are detailed as follows:

Fund Counterparty	Country of Incorporation	Collateral Type	Aggregate value of securities on loan at 31 December 2023	Aggregate value of collateral held at 31 December 2023	Value of collateral as % of securities on loan at 31 December 2023

Invesco's securities lending programme:

Effective 13 March 2023, the Directors determined that the following changes will be made to Invesco's securities lending programme ("the Programme"):

- 1) Funds which have ESG characteristics will be included in the Programme.
 - a) For the fixed income Funds which have ESG characteristics, the securities lending levels have been updated to show that between 0% and 30% of the Fund's assets may be subject to securities lending;
 - b) For the equity Funds which have ESG characteristics, the securities lending levels have been updated to show that between 0% and 15% of the Fund's assets may be subject to securities lending; and
- 2) For the government bond Funds, the securities lending levels will be updated to show an increase in the Fund's assets which may be subject to securities lending from between 0% and 30%, to between 0% and 50%.

Prospectus update:

An Appendix to the Prospectus was issued on 19 June 2023. The Appendix contains a list of all Funds of Invesco Markets II plc currently approved by the Central Bank.

Credit Suisse AT1 Bonds

As previously advised, following the write down of the Credit Suisse AT1s on 19 March 2023, the Fund and Management Company boards continue to review the fund's position in respect of the write down of its interest in such holding and a claim was filed on behalf of the Fund to preserve its position. Subsequently, a private market for the acquisition of Credit Suisse AT1 claims has emerged that may provide a mechanism for some realisation of value for the legacy Credit Suisse AT1 position being achieved. This market for Credit Suisse AT1 claims is still evolving, but due to its OTC nature and the variation of terms that may be involved in any sale, the likelihood of realising value and corresponding ability to ascribe a valuation to the claim is, at this time, uncertain. Consequently, the boards have determined that, consistent with the approach adopted since [19 March 2023], no value can currently be attributed to the legacy AT1 position for inclusion in the NAV. If this position clarifies such that the ability to realise value becomes more certain, then a value may in the future be attributed and included in the NAV, however, that may not be until such time as a sale of the claim, if any, were to materialise. There can be no guarantee that the fund will be able to realise any value in respect of these claims in future and the board reserves the ability to deal with the claims as it deems appropriate in future, including without limitation, by accessing an OTC market.

Notes to the Financial Statements (continued)

18. Significant events during the financial year (continued)

Gaza conflict

On 7 October 2023 Palestinian militants launched an assault on Israel, leading to an Israeli invasion of Gaza. This conflict has created extensive uncertainty on the political and economic front. The longer term impact on economies, markets, industries and individual issuers continues to evolve. The Directors are monitoring the situation and continue to review during this period of uncertainty to assess any impact the situation may have on any of our funds.

19. Significant events since the financial year end

The CBI requires a schedule of material changes in the composition of the portfolio during the financial period. These are defined as aggregate purchases of a security exceeding one per cent of the total value of purchases for the financial period and aggregate disposals greater than one per cent of the total value of sales. Where the number of purchases/sales transactions exceeding 1% of the total value of purchases/sales for the financial period is less than 20, then a minimum of 20 purchases/sales will be disclosed.

The CBI requires a schedule of material changes in the composition of the portfolio during the financial period. These are defined as aggregate purchases of a security exceeding one per cent of the total value of purchases for the financial period and aggregate disposals greater than one per cent of the total value of sales. Where the number of purchases/sales transactions exceeding 1% of the total value of purchases/sales for the financial period is less than 20, then a minimum of 20 purchases/sales will be disclosed.

The CBI requires a schedule of material changes in the composition of the portfolio during the financial period. These are defined as aggregate purchases of a security exceeding one per cent of the total value of purchases for the financial period and aggregate disposals greater than one per cent of the total value of sales. Where the number of purchases/sales transactions exceeding 1% of the total value of purchases/sales for the financial period is less than 20, then a minimum of 20 purchases/sales will be disclosed.

Statement of Changes in Composition of Portfolio (Unaudited)
for the financial year ended 31 December 2023

The CBI requires a schedule of material changes in the composition of the portfolio during the financial period. These are defined as aggregate purchases of a security exceeding one per cent of the total value of purchases for the financial period and aggregate disposals greater than one per cent of the total value of sales. Where the number of purchases/sales transactions exceeding 1% of the total value of purchases/sales for the financial period is less than 20, then a minimum of 20 purchases/sales will be disclosed.

**Statement of Changes in Composition of Portfolio (Unaudited)
for the financial year ended 31 December 2023**

The CBI requires a schedule of material changes in the composition of the portfolio during the financial period. These are defined as aggregate purchases of a security exceeding one per cent of the total value of purchases for the financial period and aggregate disposals greater than one per cent of the total value of sales. Where the number of purchases/sales transactions exceeding 1% of the total value of purchases/sales for the financial period is less than 20, then a minimum of 20 purchases/sales will be disclosed.

The CBI requires a schedule of material changes in the composition of the portfolio during the financial period. These are defined as aggregate purchases of a security exceeding one per cent of the total value of purchases for the financial period and aggregate disposals greater than one per cent of the total value of sales. Where the number of purchases/sales transactions exceeding 1% of the total value of purchases/sales for the financial period is less than 20, then a minimum of 20 purchases/sales will be disclosed.

Due to trading volumes, the above details all purchase transactions and all sales transactions during the financial year.

The CBI requires a schedule of material changes in the composition of the portfolio during the financial period. These are defined as aggregate purchases of a security exceeding one per cent of the total value of purchases for the financial period and aggregate disposals greater than one per cent of the total value of sales. Where the number of purchases/sales transactions exceeding 1% of the total value of purchases/sales for the financial period is less than 20, then a minimum of 20 purchases/sales will be disclosed.

The CBI requires a schedule of material changes in the composition of the portfolio during the financial period. These are defined as aggregate purchases of a security exceeding one per cent of the total value of purchases for the financial period and aggregate disposals greater than one per cent of the total value of sales. Where the number of purchases/sales transactions exceeding 1% of the total value of purchases/sales for the financial period is less than 20, then a minimum of 20 purchases/sales will be disclosed.

The CBI requires a schedule of material changes in the composition of the portfolio during the financial period. These are defined as aggregate purchases of a security exceeding one per cent of the total value of purchases for the financial period and aggregate disposals greater than one per cent of the total value of sales. Where the number of purchases/sales transactions exceeding 1% of the total value of purchases/sales for the financial period is less than 20, then a minimum of 20 purchases/sales will be disclosed.

The CBI requires a schedule of material changes in the composition of the portfolio during the financial period. These are defined as aggregate purchases of a security exceeding one per cent of the total value of purchases for the financial period and aggregate disposals greater than one per cent of the total value of sales. Where the number of purchases/sales transactions exceeding 1% of the total value of purchases/sales for the financial period is less than 20, then a minimum of 20 purchases/sales will be disclosed.

The CBI requires a schedule of material changes in the composition of the portfolio during the financial period. These are defined as aggregate purchases of a security exceeding one per cent of the total value of purchases for the financial period and aggregate disposals greater than one per cent of the total value of sales. Where the number of purchases/sales transactions exceeding 1% of the total value of purchases/sales for the financial period is less than 20, then a minimum of 20 purchases/sales will be disclosed.

The CBI requires a schedule of material changes in the composition of the portfolio during the financial period. These are defined as aggregate purchases of a security exceeding one per cent of the total value of purchases for the financial period and aggregate disposals greater than one per cent of the total value of sales. Where the number of purchases/sales transactions exceeding 1% of the total value of purchases/sales for the financial period is less than 20, then a minimum of 20 purchases/sales will be disclosed.

The CBI requires a schedule of material changes in the composition of the portfolio during the financial period. These are defined as aggregate purchases of a security exceeding one per cent of the total value of purchases for the financial period and aggregate disposals greater than one per cent of the total value of sales. Where the number of purchases/sales transactions exceeding 1% of the total value of purchases/sales for the financial period is less than 20, then a minimum of 20 purchases/sales will be disclosed.

The CBI requires a schedule of material changes in the composition of the portfolio during the financial period. These are defined as aggregate purchases of a security exceeding one per cent of the total value of purchases for the financial period and aggregate disposals greater than one per cent of the total value of sales. Where the number of purchases/sales transactions exceeding 1% of the total value of purchases/sales for the financial period is less than 20, then a minimum of 20 purchases/sales will be disclosed.

The CBI requires a schedule of material changes in the composition of the portfolio during the financial period. These are defined as aggregate purchases of a security exceeding one per cent of the total value of purchases for the financial period and aggregate disposals greater than one per cent of the total value of sales. Where the number of purchases/sales transactions exceeding 1% of the total value of purchases/sales for the financial period is less than 20, then a minimum of 20 purchases/sales will be disclosed.

*Fund launched on the 12 April 2023.

The CBI requires a schedule of material changes in the composition of the portfolio during the financial period. These are defined as aggregate purchases of a security exceeding one per cent of the total value of purchases for the financial period and aggregate disposals greater than one per cent of the total value of sales. Where the number of purchases/sales transactions exceeding 1% of the total value of purchases/sales for the financial period is less than 20, then a minimum of 20 purchases/sales will be disclosed.

Statement of Changes in Composition of Portfolio (Unaudited)
for the financial year ended 31 December 2023

Remuneration Disclosure (Unaudited) – Invesco Investment Management Limited

Invesco Investment Management Limited (the “Management Company”) has adopted a remuneration policy which is consistent with the principles outlined in the European Securities and Markets Authority (ESMA) Guidelines on sound remuneration policies under the UCITS Directive.

The policy was revised in 2023, to include specificities for some Invesco EU regulated Management Companies. The Management Company was not impacted by the changes.

The purpose of the remuneration policy is to ensure the remuneration of the staff of the Management Company is consistent with and promotes sound and effective risk management, does not encourage risk-taking which is inconsistent with the risk profiles, rules or instruments of incorporation of the Manager and of the UCITS it manages and does not impair the Management Company’s compliance with its duty to act in the best interests of the UCITS it manages. The Management Company’s summary remuneration policy is available on our website (www.invescomanagementcompany.ie). The Management Company’s full remuneration policy is available for free from the registered office (see address page 7) upon request.

The remuneration policy is reviewed annually by the Compliance, Human Resources and Risk Management functions who recommend any adjustments to ensure continued alignment of the policy with sound risk management. The board of directors of the Management Company is responsible for the oversight of remuneration and for ensuring adherence to this policy through the Human Resources function.

The Internal Audit function conducts regular testing of administration of the remuneration policy to assess its ongoing compliance with the Invesco Group’s remuneration policies and procedures.

The aggregate total remuneration for the staff of the Management Company during performance year 2023 (1st January 2023 to 31st December 2023) is EUR 9.85m of which EUR 8.28m is fixed remuneration and EUR 1.57m is variable remuneration. The number of beneficiaries is 64.

The Management Company has identified individuals considered to have a material impact on the risk profile of the Management Company or the UCITS it manages (Identified Staff), who include board members of the Management Company, senior management, heads of control functions, other risk takers and any employees receiving total remuneration that takes them into the same remuneration bracket as senior management and risk takers.

The aggregate total remuneration paid to the Identified Staff of the Management Company for UCITS related activities for the performance year 2023 (1st January 2023 to 31st December 2023) is EUR 4.37m of which EUR 2.70m is paid to Senior Management and EUR 1.67m is paid to other Identified Staff. Please note the total remuneration for Identified Staff of the Management Company for UCITS related activities includes remuneration for staff employed by delegates.

Securities Financing Transactions Regulation

Securities lending

All securities lending transactions entered into by the Funds are subject to a written legal agreement between the Funds and the Securities Lending Agent, The Bank of New York Mellon SA/NV, a related party to the Company, and separately between the Securities Lending Agent and the approved borrowing counterparty.

The following table details the aggregate value of securities on loan by Fund as a proportion of total lendable assets and each Fund's NAV as at 31 December 2023:

Fund	Currency	Aggregate value of securities on loan	Total lendable assets	% of NAV

Securities Financing Transactions Regulation (continued)

The collaterals are held in the name of the Lending Agent Lender to the order of its clients; the actual segregation to underlying client level is done with the Lending Agent's books and records. The collaterals are held on account at the tri-party agent, who acts as a settlement and collection service for securities and collateral between the lender and the borrower. The tri-party agents used but not limited to, The Bank of New York Mellon, London Branch, JPMorgan Chase Bank N.A and Euroclear Bank. For bilateral transactions, the collaterals are held on account at the Agent Lender.

The following tables provide an analysis of the amounts held at each collateral agent as non-cash collateral received in respect of securities lending transactions as at 31 December 2023:

Fund	Collateral agent	Aggregate value of collateral held

Securities Financing Transactions Regulation (continued)

The type and quality of collateral obtained in respect of securities lending transactions are as follows:

(1) Debt obligations and securities issued by a government where such government is a ratified member of the Organization for Economic Co-operation and Development, or by the government of Singapore. Debt obligations and securities issued by agencies and instrumentalities of these same governments are also acceptable. In each case, the issuer of the debt obligation or security shall be rated (i) A or better by Standard & Poor's, or (ii) A or better by Fitch, or (iii) A2 or better by Moody's, or (iv) A or better by DBRS.

(2) Debt obligations issued by the following supranational issuers, where such issuer has a rating of (i) AA or better by Standard & Poor's, or (ii) AA or better by Fitch, or (iii) Aa2 or better by Moody's, or (iv) AA or better by DBRS.**: European Bank for Reconstruction and Development; European Investment Bank; European Union; European Stability Mechanism; Inter-American Development Bank; International Bank for Reconstruction and Development; International Finance Corporation; European Financial Stability Facility; Eurofima; Council of Europe Development Bank; Eutelsat; Organisation for Economic Co-operation and Development; African Development Bank; Asian Development Bank; Bank of International Settlements; Euratom; European Coal and Steel Community; International Development Association; International Monetary Fund; Nordic Investment Bank;

(3) Equity securities from the following indices: AEX 25 (Netherlands), CAC 40 (France), DAX 30 (Germany), Euro 50 (Eurozone), FTSE 100 (United Kingdom), Nikkei 225 (Japan), SMI 20 (Switzerland), S&P 500 (United States of America);

(4) FTSE100 DBV (Class F10) as defined in the Crest Reference Manual; and

(5) Unstripped British Government Stock (Class UBG) as defined in the CREST Reference Manual.

 Invesco S&P World Energy ESG UCITS ETF
 Invesco S&P World Financials ESG UCITS ETF
 Invesco S&P World Health Care ESG UCITS ETF
 Invesco S&P World Information Technology ESG UCITS ETF

The following sub-funds are classified as financial products with a sustainable investment objective as described in Article 9 of SFDR (the "Article 9 Funds" and each, an "Article 9 Fund"):

Invesco Wind Energy UCITS ETF
 Invesco Hydrogen Economy UCITS ETF

Article 11(1) of SFDR requires certain information to be disclosed in the audited financial statements where a sub-fund is classified as an Article 8 Fund or an Article 9 Fund within the meaning of SFDR. This information is required to be presented in the form of the template set out in the SFDR Annexes to the financial statements for Article 8 and Article 9 Funds of Commission Delegated Regulation (EU) 2023/363 of 31 October 2022 amending and correcting the regulatory technical standards laid down in Delegated Regulation (EU) 2022/1288 supplementing SFDR. Further information on the environmental and/or social characteristics promoted by the Article 8 Funds and the sustainable investment objectives of the Article 9 Funds during the year can be found in the annexes to these financial statements.

The data used to complete the disclosures set out in the SFDR Annexes to these financial statements for the Article 8 Funds and Article 9 Funds is provided by the relevant index provider and other third-party sources. The data used is the data available as at the date at which the disclosures were produced and is based on backward-looking analysis. The analysis is dependent on companies disclosing relevant data and the availability of this data can be limited. Data may also be incomplete, inaccurate and/or contain errors that may not be detected by the Manager and the relevant index provider. It has been observed that the availability and accuracy of data, from the relevant index provider, third party data providers and underlying investee companies, continues to be challenging in some respects. Additionally, the regulations are still relatively new and best practice may change over time. The disclosures included in the Annexes to these financial statements should consequently be read and understood in light of these continuing challenges. With the assistance of the Manager and the Investment Manager, the Board continues to monitor the ongoing development and evolution of sustainability-related regulation and associated guidance, market practice and the availability of relevant third party and investee companies' data in this regard.

Annex**Product name:** Invesco USD IG Corporate Bond ESG UCITS ETF**Legal entity identifier:** 63540083DFQPKM6KHS64

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The EU Taxonomy is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

Yes

No

- It made **sustainable investments with an environmental objective:** _____ %
- in economic activities that qualify as environmentally sustainable under the EU Taxonomy
 - in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
- It made **sustainable investments with a social objective:** _____ %

- It **promoted Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of 29.99 % of sustainable investments
- with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
 - with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
 - with a social objective
- It promoted E/S characteristics, but **did not make any sustainable investments**

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The environmental and social characteristics promoted by the Fund were to increase overall exposure to issuers demonstrating a robust ESG profile i.e. issuers with a more favourable ESG rating compared to similar issuers. The fund also reduced its exposure to companies involved in certain business activities and those with involvement in very severe ESG controversies.

The Fund achieved the environmental and social characteristics by tracking the Bloomberg MSCI USD Liquid Corporate ESG Weighted SRI Bond Index ("Reference Index"), which has a methodology that is consistent with attaining the environmental and social characteristics promoted by the Fund.

The extent to which the Fund tracked the Reference Index is reflected by the tracking error figures available in the section "Tracking Error Analysis" of the Annual Report.

How did the sustainability indicators perform?

The Fund used a variety of indicators to measure the attainment of the environmental and social characteristics. The Fund performed as follows as at 31 December 2023, the data is representative of the reference period:

Sustainability Indicator	Indicator Performance
MSCI ESG Score (as defined in the methodology of the Reference Index) of the Fund relative to the Bloomberg US Corporate Bond Index (the "Parent Index")	8.2% improvement
CO2 emissions intensity of the Fund relative to the Parent Index	81.5% reduction
Percentage of the Fund portfolio invested in excluded companies involved in controversial business activities and controversies (as defined in the methodology of the Reference Index)	As at each Reference Index rebalance date, the Fund had 0% exposure to excluded companies

● **...and compared to previous periods?**

Compared to last period the improvement in MSCI ESG Score for the Fund relative to the parent index has improved, whilst the reduction in CO2 emissions intensity is equivalent. The Fund continues to avoid companies excluded by the Reference Index.

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

The sustainable investments made by the fund contributed to environmental objectives such as climate change, water management, pollution prevention, and to social objectives such as good health, well-being and gender equality. The Fund achieved those objectives by investing in constituents of the Reference Index. According to Invesco's sustainable investment framework, a percentage (as disclosed above) of constituents of the Reference Index contributed positively to selected Sustainable Development Goals (SDGs) that related to the above objectives.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

The index methodology of the Reference Index that the Fund tracks takes into account principal adverse impacts (PAI) indicators defined in Table 1 of Annex I of the regulatory technical standards for Regulation 2019/2088 (RTS). Securities that didn't meet certain PAI thresholds were excluded from the Reference Index or had their weightings reduced.

How were the indicators for adverse impacts on sustainability factors taken into account?

Please see above on how the indicators for adverse impacts on sustainability factors have been taken into account.

The index methodology directly excluded a number of companies involved in certain business activities. Through removal of companies involved in thermal coal and oil sands the index reduced its exposure to greenhouse gas emissions. The methodology also excluded companies involved in controversial weapons and those facing very severe ESG controversies, as assessed via MSCI Controversy Scores. Through its exclusions based on MSCI ESG Score, and adjustment of the weighting for those that are above the threshold based on these same scores, the index also addressed a number of other adverse indicators. The index also excluded any companies where data wasn't available to make such assessments.

MSCI ESG Scores consider a number of key issues in their construction, including, but not limited to carbon emissions, product carbon footprint, biodiversity & land use, toxic emissions & waste, opportunities in renewable energy. The scores also take into account areas such as human capital as well as corporate governance, considering ownership & control, pay and the board.

MSCI Controversy Scores consider controversies in a number of different areas, including, but not limited to biodiversity & land use, energy & climate change, toxic emissions & waste, operational waste, discrimination & workforce diversity, and governance structures. Any company that violates the UN Global Compact receives a very severe MSCI Controversy Score.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Alignment with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights is captured in the index methodology of the Fund, with the result that securities were excluded from the investible universe if they were deemed not to be in alignment.

The index methodology excluded companies that weren't compliant with the UN Global Compact, this set of ten principles show significant overlap with both the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights. With regards to OECD, these guidelines and the UNGC both aim to promote corporate responsibility and sustainable business practices, in terms of specific topics, they both cover the areas of human rights, employment relations, environment and anti-corruption. As for the two UN frameworks, whilst they do vary in nature, scope and depth, the two come together in their overriding objective (to achieve a more responsible and accountable business community) as well as some of the key areas they address, namely in the human rights space.

The index methodology excluded companies facing very severe ESG controversies, as assessed via MSCI Controversy Scores. These scores assess controversies that may constitute a breach of selected global norms and conventions, including the United Nations Global Compact, the International Labour Organisation's conventions, and the United Nations Guiding Principles on Business and Human Rights.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the Union criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the Union criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

As noted above, the Fund considered principal adverse impacts on sustainability factors, primarily through a set of exclusion criteria corresponding to the indicators that are defined in Table 1, Annex I of the RTS.

The below table shows the PAI scores for the fund, the data is representative of the reference period.

Adverse sustainability indicator	PAI	Data	Metric
Greenhouse gas emissions	1.GHG Emissions	207.77	Scope 1 fund financed emissions (Tonnes of CO2 equivalent)
		76.49	Scope 2 fund financed emissions (Tonnes of CO2 equivalent)
		3,409.07	Scope 3 fund financed emissions (Tonnes of CO2 equivalent)
		3,693.32	Total Financed emissions (Scope 1 + Scope 2 + Scope 3) (Tonnes of CO2 equivalent)
	2. Carbon footprint	209.49	Fund level Carbon footprint (Scope 1 + Scope 2 + Scope 3) (Per Million EUR Invested)
	3. GHG Intensity of investee companies	805.55	Fund level Total Emission Intensity- Scope 1+2+3 (Per Million EUR Revenue)
	4. Exposure to companies active in the fossil fuel sector	1.25	% of the fund exposed to any fossil fuels revenue
	5. Share of non-renewable energy consumption	62.27	Adjusted Weighted Average of all issuers in the fund's share of non-renewable energy consumption and non-renewable energy production of investee companies from non-renewable energy sources compared to renewable energy sources, expressed as a percentage of total energy sources (%)
	5. Share of non-renewable energy production	19.63	
	6. Energy consumption intensity per high impact climate sector		Adjusted weighted average energy consumption of issuers in the fund in GWh per million EUR of revenue of investee companies, per high impact climate sector
	Agriculture, Forestry & Fishing	0.00	
	Construction	0.00	
	Electricity, Gas, Steam & Air Conditioning Supply	1.79	
	Manufacturing	0.17	
	Mining & Quarrying	1.93	
	Real Estate Activities	0.45	
	Transportation & Storage	2.74	
	Water Supply, Sewerage, Waste Management & Remediation Activities	0.45	
	Wholesale & Retail Trade & Repair of Motor Vehicles & Motorcycles	0.05	
	7. Activites negatively affecting biodiversity-sensitive areas	3.87	Share of investments in the fund of investee companies with sites/operations located in or near to biodiversity-sensitive areas where activities of those investee companies negatively affect those areas
Water	8. Emissions to water	0.00	Adjusted weighted average per issuer in the fund's emissions to water generated by investee companies per million EUR invested (Tonnes)
Waste	9. Hazardous waste and radioactive waste ratio	2.57	Tonnes of hazardous waste and radioactive waste generated by investee companies per million EUR invested, expressed as a weighted average
Social and employee	10. Violations fo UN Global Compact principles and	0.00	Share of investments in investee companies that have been involved in violations of the UNGC principles or OECD

matters	Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises		Guidelines for Multinational Enterprises
	11. Lack of processes and compliance mechanisms to monitor compliance with UN Global Compact principles and OECD Guidelines for Multinational Enterprises	58.60	Share of investments in investee companies without policies to monitor compliance with the UNGC principles or OECD Guidelines for Multinational Enterprises or grievance/complaints handling mechanisms to address violations of the UNGC principles or OECD Guidelines for Multinational Enterprises
	12. Unadjusted gender pay gap	26.67	Weighted Average of all issuers' in the portfolio unadjusted gender pay gap of investee companies
	13. Board gender diversity	34.70	Waited Average of all issuers in the portfolio ratio of female to male board members in investee companies, expressed as a percentage of all board members
	14. Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons)	0.00	Share of investments in investee companies involved in the manufacture or selling of controversial weapons
Optional Indicators	Optional Indicator: 4. Investments in companies without carbon emission reduction initiative	21.91	Share of investments in investee companies without carbon emission reduction initiatives aimed at aligning with the Paris Agreement
	Optional Indicator: 9. Lack of a human rights policy	4.42	Share of investments in entities without a human rights policy

In addition, as part of the Fund's consideration of principal adverse impacts on sustainability factors, the ESG team monitored the investments against PAI indicators. Invesco conducted research into certain issuers in the Fund's portfolio that were deemed to flag against PAI indicators, in order to determine whether any engagement activity was required in accordance with the engagement policy.

What were the top investments of this financial product?

Large Investments	Sector	% Assets	Country
HSBC HOLDINGS	Financials	0.95%	United Kingdom
BANCO SANTANDER	Financials	0.93%	Spain
BARCLAYS PLC	Financials	0.89%	United Kingdom
LLOYDS BK GR PLC	Financials	0.87%	United Kingdom

BMO 3.7 6/7/2025	Financials	0.37%	Canada

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is: From 1st of January 2023 to 31st of December 2023.

What was the proportion of sustainability-related investments?

See below field

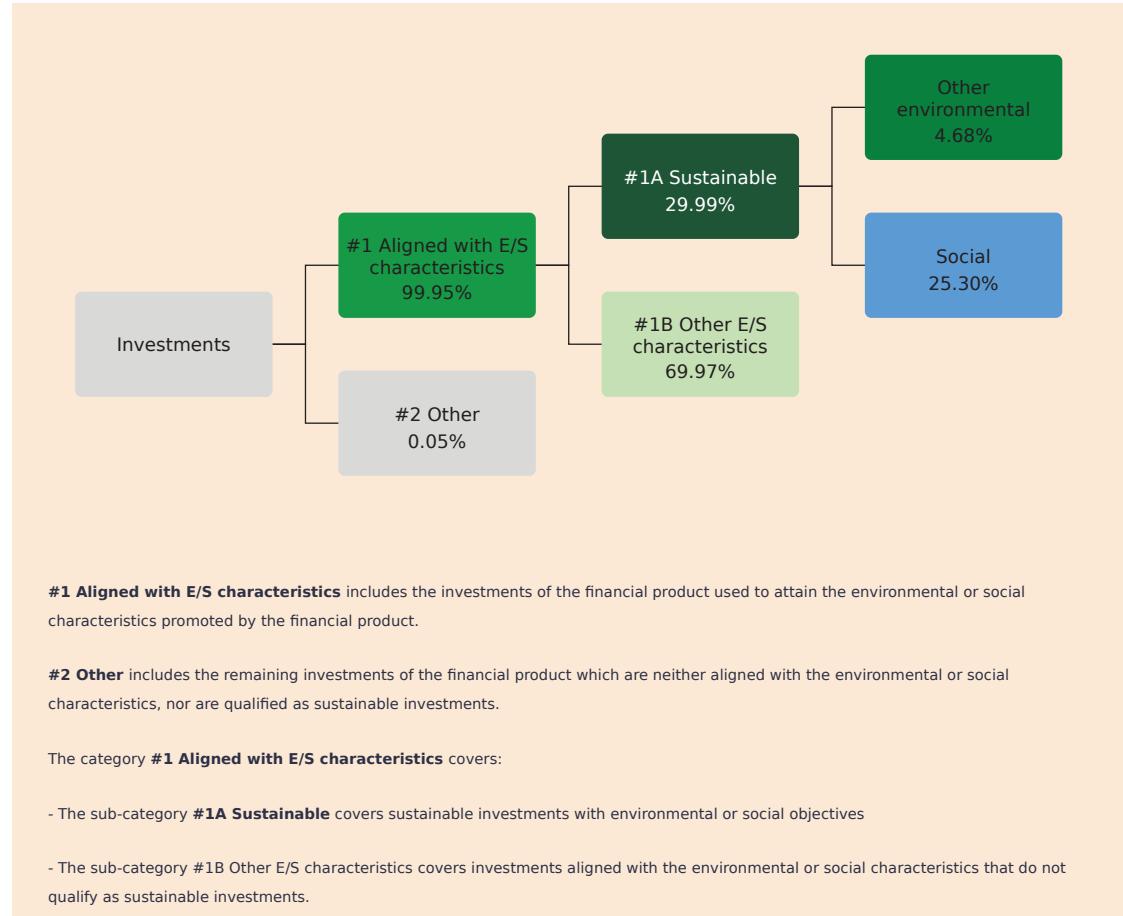

Asset allocation describes the share of investments in specific assets.

What was the asset allocation?

99.95% of the Fund's NAV was invested in investments that aligned with the environmental and social characteristics of the Fund.

0.05% of the Fund's NAV was invested in financial derivative instruments for hedging and/or efficient portfolio management purposes; or was held as cash for ancillary liquidity purposes.

29.99% of the Fund's NAV was invested in sustainable investments.

In which economic sectors were the investments made?

GICS Sector Breakdown - the data is representative of the reference period.

Sector (GICS)	Weight %
Financials	44.70
Communication Services	10.32
Consumer Discretionary	5.34
Information Technology	10.23
Industrials	1.91
Consumer Staples	3.22
Energy	2.68
Real Estate	1.11
Health Care	15.84
Materials	0.79
Utilities	2.45
Cash	0.05
Unclassified	1.36
Total	100.00

GICS Level 4 breakdown for Energy Sector

Sub-Industry Code	Sub-Industry Name	Weight
10101010	Oil & Gas Drilling	0.03
10101020	Oil & Gas Equipment & Services	0.29
10102010	Integrated Oil & Gas	0.00
10102020	Oil & Gas Exploration & Production	0.00
10102030	Oil & Gas Refining & Marketing	0.32
10102040	Oil & Gas Storage & Transportation	1.90
10102050	Coal & Consumable Fuels	0.14
Total		2.68

Although the Fund has exclusions around fossil fuel extraction, there may still have been exposure to fossil fuels as represented in part by exposure to the energy sector as disclosed above.

To comply with the EU Taxonomy, the criteria for fossil gas include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For nuclear energy, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

0% of the Fund's portfolio was aligned with the EU Taxonomy.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

Yes

In fossil gas

In nuclear energy

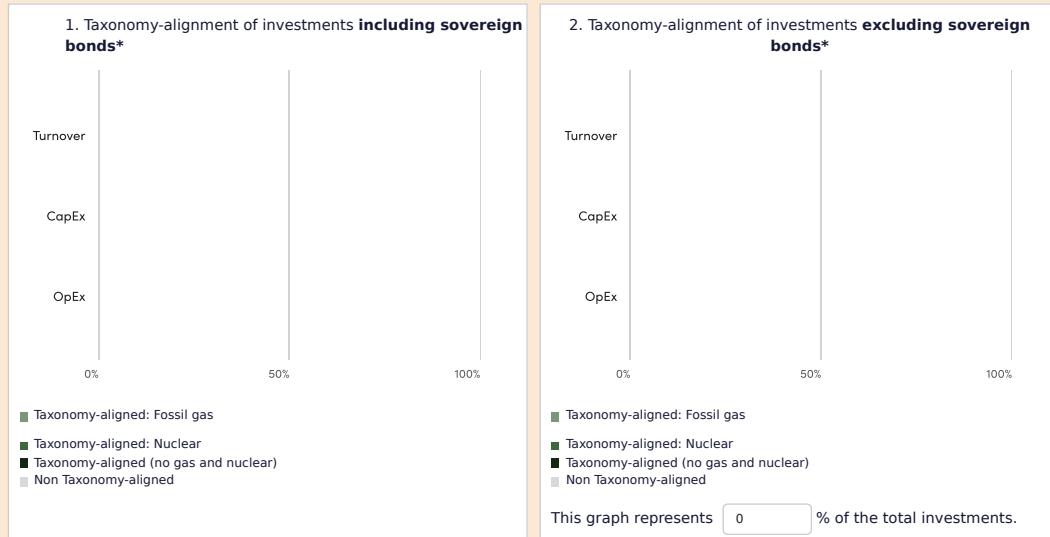

No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:
 - turnover reflecting the share of revenue from green activities of investee companies.
 - capital expenditure (CapEx) shows the green investments made by investee companies, relevant for a transition to a green economy.
 - operational expenditure (OpEx) reflects the green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

*For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

● What was the share of investments made in transitional and enabling activities?

Not Applicable.

● How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

Not Applicable.

 are sustainable investments with an environmental objective that do not take into account the criteria for environmentally sustainable economic activities under the EU Taxonomy.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

As the Fund does not currently intend to be EU Taxonomy aligned, 4.68% of the Fund's NAV was invested in sustainable investments with an environmental objective that was not aligned with the EU Taxonomy. Currently the Fund does not intend to be aligned with the Taxonomy Regulation and the Manager intends to keep the Fund's position in relation to the Taxonomy Regulation under consideration along with the reliability of datasets to determine Taxonomy alignment. To the extent required, the Manager will amend the pre-contractual documentation accordingly.

What was the share of socially sustainable investments?

25.30% of the Fund's NAV.

What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

Investments included under this category are financial derivative instruments for hedging and/or efficient portfolio management purposes and/or for investment purposes and cash for ancillary liquidity. No minimum environmental or social safeguards are applied in relation to these instruments.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Fund achieved the environmental and social characteristics by tracking the Reference Index, which has a methodology that is consistent with attaining the environmental and social characteristics promoted by the Fund.

Please refer to the section "How did the sustainability indicators perform" above for further information.

How did this financial product perform compared to the reference benchmark?

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

See tables completed in below sections.

● How does the reference benchmark differ from a broad market index?

The Reference Index differs from a broad market index because it seeks to increase overall exposure to issuers demonstrating both a robust ESG profile, and issuers that are assigned more favourable ESG scores using MSCI ESG metrics.

● How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

As the Fund aims to replicate the performance of the Reference Index, the sustainability indicators performed similarly for the Fund and Reference Index:

Sustainability Indicator	Fund Indicator Performance	Reference Index Indicator Performance
MSCI ESG Score (as defined in the methodology of the Reference Index)	6.99	7.01
CO2 emissions intensity	45.5	47.0
Percentage of exposure in excluded companies involved in controversial business activities and controversies (as defined in the methodology of the Reference Index)	The Fund had 0% exposure to excluded companies at each Reference Index rebalance date	The Reference Index had 0% exposure to excluded companies at each Reference Index rebalance date

● How did this financial product perform compared with the reference benchmark?

As the Fund achieves the environmental and social characteristics by tracking the Reference Index, which has a methodology that is consistent with attaining the environmental and social characteristics promoted by the Fund, the performance of the Fund is aligned with that of the Reference Benchmark. Please see above for the performance of the sustainability indicators compared with the Reference Benchmark.

● How did this financial product perform compared with the broad market index?

The Parent Index also acts as a relevant broad market index. The sustainability indicators for the Fund and Parent Index differed as below:

Sustainability Indicator	Fund Indicator Performance	Broad Market benchmark (Parent Index) Indicator Performance
MSCI ESG Score (as defined in the methodology of the Reference Index)	6.99	6.46
CO2 emissions intensity	45.5	245.9
Percentage of the Fund portfolio invested in excluded companies involved in controversial business activities and controversies (as defined in the methodology of the Reference Index)	The Reference Index had 0% exposure to excluded companies at each Reference Index rebalance date	The Broad Market benchmark had 42.1% exposure to excluded companies at the latest Reference Index rebalance date

Annex**Product name: Invesco EUR IG Corporate Bond ESG UCITS ETF****Legal entity identifier: 635400LW19MN29H61R85**

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The EU Taxonomy is a classification system laid down in Regulation (EU) 2020/852, establishing a list of environmentally sustainable economic activities. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

Yes

No

It made **sustainable investments with an environmental objective:** _____ %

- in economic activities that qualify as environmentally sustainable under the EU Taxonomy
- in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

It made **sustainable investments with a social objective:** _____ %

It **promoted Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of 42.94 % of sustainable investments

- with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
- with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
- with a social objective

It promoted E/S characteristics, but **did not make any sustainable investments**

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The environmental and social characteristics promoted by the Fund were to increase overall exposure to issuers demonstrating a robust ESG profile i.e. issuers with a more favourable ESG rating compared to similar issuers. The fund also reduced its exposure to companies involved in certain business activities and those with involvement in very severe ESG controversies.

The Fund achieved the environmental and social characteristics by tracking the Bloomberg MSCI Euro Liquid Corporate ESG Weighted SRI Bond Index ("Reference Index"), which has a methodology that is consistent with attaining the environmental and social characteristics promoted by the Fund.

The extent to which the Fund tracked the Reference Index is reflected by the tracking error figures available in the section "Tracking Error Analysis" of the Annual Report

How did the sustainability indicators perform?

The Fund used a variety of indicators to measure the attainment of the environmental and social characteristics. The Fund performed as follows as at 31 December 2023, the data is representative of

the reference period:

Sustainability Indicator	Indicator Performance
MSCI ESG Score (as defined in the methodology of the Reference Index) of the Fund relative to the Bloomberg Euro Aggregate Corporate Index (the " Parent Index ")	10.7% improvement
CO2 emissions intensity of the Fund relative to the Index Parent	29.7% reduction
Percentage of the Fund portfolio invested in excluded companies involved in controversial business activities and controversies (as defined in the methodology of the Reference Index)	As at each Reference Index rebalance date, the Fund had 0% exposure to excluded companies

● **...and compared to previous periods?**

Compared to last period the improvement in MSCI ESG Score for the Fund relative to the parent index has improved, as has the reduction in CO2 emissions intensity. The Fund continues to avoid companies excluded by the Reference Index.

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

The sustainable investments made by the fund contributed to environmental objectives such as climate change, water management, pollution prevention, and to social objectives such as good health, well-being and gender equality. The Fund achieved those objectives by investing in constituents of the Reference Index. According to Invesco's sustainable investment framework, a percentage (as disclosed above) of constituents of the Reference Index contributed positively to selected Sustainable Development Goals (SDGs) that related to the above objectives.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

The index methodology of the Reference Index that the Fund tracks takes into account principal adverse impacts (PAI) indicators defined in Table 1 of Annex I of the regulatory technical standards for Regulation 2019/2088 (RTS). Securities that didn't meet certain PAI thresholds were excluded from the Reference Index or had their weightings reduced.

How were the indicators for adverse impacts on sustainability factors taken into account?

Please see above on how the indicators for adverse impacts on sustainability factors have been taken into account.

The index methodology directly excluded a number of companies involved in certain business activities. Through removal of companies involved in thermal coal and oil sands the Reference Index reduced its exposure to greenhouse gas emissions. The methodology also excluded companies involved in controversial weapons and those facing very severe ESG controversies, as assessed via MSCI Controversy Scores. Through its exclusions based on MSCI ESG Score, and adjustment of the weighting for those that are above the threshold based on these same scores, the Reference Index also addressed a number of other adverse indicators. The Reference Index also excluded any companies where data wasn't available to make such assessments.

MSCI ESG Scores consider a number of key issues in their construction, including, but not limited to carbon emissions, product carbon footprint, biodiversity & land use, toxic emissions & waste, opportunities in renewable energy. The scores also take into account areas such as human capital as well as corporate governance, considering ownership & control, pay and the board.

MSCI Controversy Scores consider controversies in a number of different areas, including, but not limited to biodiversity & land use, energy & climate change, toxic emissions & waste, operational waste, discrimination & workforce diversity, and governance structures. Any company that violates the UN Global Compact receives a very severe MSCI Controversy Score.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Alignment with the OECD Guidelines for Multinational Enterprises (the "OECD Guidelines") and the UN Guiding Principles on Business and Human Rights (the UN Guiding Principles) is captured in the index methodology of the Fund, with the result that securities were excluded from the investible universe if they were deemed not to be in alignment.

The index methodology excluded companies that weren't compliant with the UN Global Compact (the "UNGC"), this set of ten principles show significant overlap with both the OECD Guidelines and the UN Guiding Principles. With regards to OECD Guidelines, these guidelines and the UNGC both aim to promote corporate responsibility and sustainable business practices, in terms of specific topics, they both cover the areas of human rights, employment relations, environment and anti-corruption. As for the two UN frameworks, whilst they do vary in nature, scope and depth, the two come together in their overriding objective (to achieve a more responsible and accountable business community) as well as some of the key areas they address, namely in the human rights space.

The index methodology excluded companies facing very severe ESG controversies, as assessed via MSCI Controversy Scores. These scores assess controversies that may constitute a breach of selected global norms and conventions, including the UNGC, the International Labour Organisation's conventions, and the UN Guiding Principles on Business and Human Rights.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the Union criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the Union criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

As noted above, the index methodology considered principal adverse impacts on sustainability factors, primarily through a set of exclusion criteria corresponding to the indicators that are defined in Table 1, Annex I of the RTS.

The below table shows the PAI scores for the fund, the data is representative of the reference period:

Adverse sustainability indicator	PAI	Data	Metric
Greenhouse gas emissions	1.GHG Emissions	2,424.45 619.74 22,721.31 25,765.49	Scope 1 fund financed emissions (Tonnes of CO2 equivalent) Scope 2 fund financed emissions (Tonnes of CO2 equivalent) Scope 3 fund financed emissions (Tonnes of CO2 equivalent) Total Financed emissions (Scope 1 + Scope 2 + Scope 3) (Tonnes of CO2 equivalent)
	2. Carbon footprint	314.84	Fund level Carbon footprint (Scope 1 + Scope 2 + Scope 3) (Per Million EUR Invested)
	3. GHG Intensity of investee companies	919.66	Fund level Total Emission Intensity- Scope 1+2+3 (Per Million EUR Revenue)
	4. Exposure to companies active in the fossil fuel sector	0.15	% of the fund exposed to any fossil fuels revenue
	5. Share of non-renewable energy consumption	57.67	Adjusted Weighted Average of all issuers in the fund's share of non-renewable energy consumption and non-renewable energy production of investee companies from non-renewable energy sources compared to renewable energy sources, expressed as a percentage of total energy sources (%)
	5. Share of non-renewable energy production	13.64	
	6. Energy consumption intensity per high impact climate sector		Adjusted weighted average energy consumption of issuers in the fund in GWh per million EUR of revenue of investee companies, per high impact climate sector
	Agriculture, Forestry & Fishing	2.86	
	Construction	0.15	
	Electricity, Gas, Steam & Air Conditioning Supply	0.92	
	Manufacturing	0.54	
	Mining & Quarrying	0.44	
	Real Estate Activities	0.62	
	Transportation & Storage	0.60	
	Water Supply, Sewerage, Waste Management & Remediation Activities	0.58	
	Wholesale & Retail Trade & Repair of Motor Vehicles & Motorcycles	0.28	
Biodiversity	7. Activites negatively affecting biodiversity-sensitive areas	2.38	Share of investments in the fund of investee companies with sites/operations located in or near to biodiversity-sensitive areas where activities of those investee companies negatively affect those areas
Water	8. Emissions to water	0.17	Adjusted weighted average per issuer in the fund's emissions to water generated by investee companies per million EUR invested (Tonnes)
Waste	9. Hazardous waste and radioactive waste ratio	0.67	Tonnes of hazardous waste and radioactive waste generated by investee companies per million EUR invested, expressed as a weighted average
Social and employee matters	10. Violations fo UN Global Compact principles and Organisation for Economic Cooperation and	0.46	Share of investments in investee companies that have been involved in violations of the UNGC principles or OECD Guidelines for Multinational Enterprises

	Development (OECD) Guidelines for Multinational Enterprises		
	11. Lack of processes and compliance mechanisms to monitor compliance with UN Global Compact principles and OECD Guidelines for Multinational Enterprises	34.87	Share of investments in investee companies without policies to monitor compliance with the UNGC principles or OECD Guidelines for Multinational Enterprises or grievance/ complaints handling mechanisms to address violations of the UNGC principles or OECD Guidelines for Multinational Enterprises
	12. Unadjusted gender pay gap	21.04	Weighted Average of all issuers' in the portfolio unadjusted gender pay gap of investee companies
	13. Board gender diversity	39.18	Waited Average of all issuers in the portfolio ratio of female to male board members in investee companies, expressed as a percentage of all board members
	14. Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons)	0.00	Share of investments in investee companies involved in the manufacture or selling of controversial weapons
Optional Indicators	Optional Indicator: 4. Investments in companies without carbon emission reduction initiative	26.36	Share of investments in investee companies without carbon emission reduction initiatives aimed at aligning with the Paris Agreement
	Optional Indicator: 9. Lack of a human rights policy	1.08	Share of investments in entities without a human rights policy

In addition, as part of the Fund's consideration of principal adverse impacts on sustainability factors, the ESG team monitored the investments against PAI indicators. Invesco conducted research into certain issuers in the Fund's portfolio that were deemed to flag against PAI indicators, in order to determine whether any engagement activity was required in accordance with the engagement policy.

What were the top investments of this financial product?

Large Investments	Sector	% Assets	Country
CRED AGRICOLE SA	Financials	2.61%	France

What was the proportion of sustainability-related investments?

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is: From 1st of January 2023 to 31st of December 2023. The data is representative of the reference period.

Asset allocation describes
the share of investments
in specific assets.

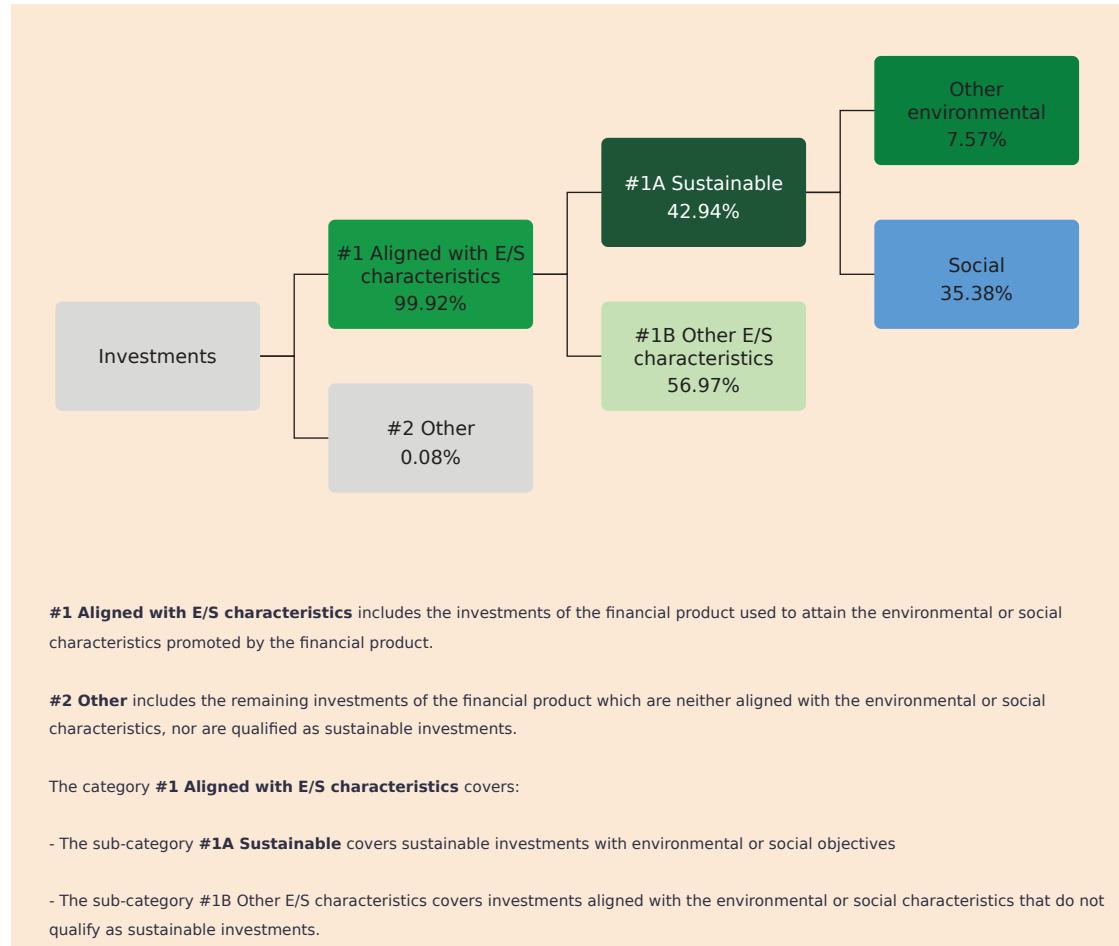

See below field

● What was the asset allocation?

99.92% of the Fund's NAV was invested in investments that aligned with the environmental and social characteristics of the Fund.

0.08% of the Fund's NAV was invested in financial derivative instruments for hedging and/or efficient portfolio management purposes; or was held as cash for ancillary liquidity purposes.

42.94% of the Fund's NAV was invested in sustainable investments.

● In which economic sectors were the investments made?

GICS Sector Breakdown - the data is representative of the reference period.

Sector (GICS)	Weight %
Financials	99.92
Communication Services	0.00
Consumer Discretionary	0.00
Information Technology	0.00
Industrials	0.00
Consumer Staples	0.00
Energy	0.00
Real Estate	0.00
Health Care	0.00
Materials	0.00
Utilities	0.00
Cash	0.08
Total	100.00

GICS Level 4 breakdown for Energy Sector

Sub-Industry Code	Sub-Industry Name	Weight
10101010	Oil & Gas Drilling	0.00
10101020	Oil & Gas Equipment & Services	0.00
10102010	Integrated Oil & Gas	0.00
10102020	Oil & Gas Exploration & Production	0.00
10102030	Oil & Gas Refining & Marketing	0.00
10102040	Oil & Gas Storage & Transportation	0.00
10102050	Coal & Consumable Fuels	0.00
Total		0.00

Although the Fund has exclusions around fossil fuel extraction, there may still have been exposure to fossil fuels as represented in part by exposure to the energy sector as disclosed above.

To comply with the EU Taxonomy, the criteria for fossil gas include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For nuclear energy, the criteria include comprehensive safety and waste management rules.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

0% of the Fund's portfolio was aligned with the EU Taxonomy.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

Yes

In fossil gas

In nuclear energy

No

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

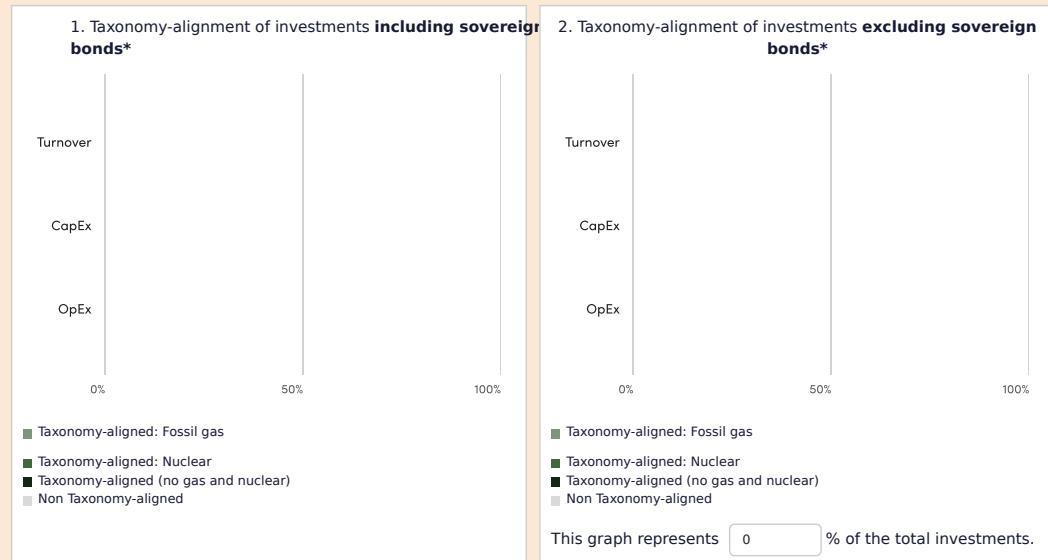

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

- a share of:
- turnover reflecting the share of revenue from green activities of investee companies.
- capital expenditure (CapEx) shows the green investments made by investee companies, relevant for a transition to a green economy.
- operational expenditure (OpEx) reflects the green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

*For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

● What was the share of investments made in transitional and enabling activities?

N/A

● How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

Not Applicable.

are sustainable investments with an environmental objective that do not take into account the criteria for environmentally sustainable economic activities under the EU Taxonomy.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

As the Fund does not currently intend to be EU Taxonomy aligned, 7.57% of the Fund's NAV was invested in sustainable investments with an environmental objective that was not aligned with the EU Taxonomy. The Manager intends to keep the Fund's position in relation to the Taxonomy Regulation under consideration along with the reliability of datasets to determine Taxonomy alignment. To the extent required, the Manager will amend the pre-contractual documentation accordingly.

What was the share of socially sustainable investments?

35.38% of the Fund's NAV.

What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

Investments included under this category are financial derivative instruments for hedging and/or efficient portfolio management purposes and cash for ancillary liquidity. No minimum environmental or social safeguards are applied in relation to these instruments.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Fund achieved the environmental and social characteristics by tracking the Reference Index, which has a methodology that is consistent with attaining the environmental and social characteristics promoted by the Fund.

Please refer to the section "How did the sustainability indicators perform" above for further information.

How did this financial product perform compared to the reference benchmark?

See tables completed in below sections.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

● How does the reference benchmark differ from a broad market index?

The Reference Index differs from a broad market index because it seeks to increase overall exposure to issuers demonstrating both a robust ESG profile, and issuers that are assigned more favourable ESG scores using MSCI ESG metrics.

● How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

As the Fund aims to replicate the performance of the Reference Index, the sustainability indicators performed similarly for the Fund and Reference Index:

Sustainability Indicator	Fund Indicator Performance	Reference Index Indicator Performance
MSCI ESG Score (as defined in the methodology of the Reference Index)	7.71	7.68
CO2 emissions intensity	65.8	72.8
Percentage of exposure in excluded companies involved in controversial business activities and controversies (as defined in the methodology of the Reference Index)	The Fund had 0% exposure to excluded companies at each Reference Index date rebalance	The Reference Index had 0% exposure to excluded companies at each Reference Index rebalance date

● How did this financial product perform compared with the reference benchmark?

As the Fund achieves the environmental and social characteristics by tracking the Reference Index, which has a methodology that is consistent with attaining the environmental and social characteristics promoted by the Fund, the performance of the Fund is aligned with that of the Reference Benchmark. Please see above for the performance of the sustainability indicators compared with the Reference Benchmark.

● How did this financial product perform compared with the broad market index?

The Parent Index also acts as a relevant broad market index. The sustainability indicators for the Fund and Parent Index differed as below:

Sustainability Indicator	Fund Indicator Performance	Broad Market benchmark (Parent Index) Indicator Performance
MSCI ESG Score (as defined in the methodology of the Reference Index)	7.71	6.96
CO2 emissions intensity	65.8	93.7
Percentage of the Fund portfolio invested in excluded companies involved in controversial business activities and controversies (as defined in the methodology of the Reference Index)	The Reference Index had 0% exposure to excluded companies at each Reference Index rebalance date	The Broad Market benchmark had 21.3% exposure to excluded companies at the latest Reference Index rebalance date

Annex

Product name: Invesco EUR Corporate Bond ESG Multi-Factor UCITS ETF **Legal entity identifier:** 549300TSZMM3T873MK60

Environmental and/or social characteristics

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The EU Taxonomy is a classification system laid down in Regulation (EU) 2020/852, establishing a list of environmentally sustainable economic activities. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Did this financial product have a sustainable investment objective?

Yes

No

It made **sustainable investments with an environmental objective:** _____ %

- in economic activities that qualify as environmentally sustainable under the EU Taxonomy
- in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

It made **sustainable investments with a social objective:** _____ %

It promoted **Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of 50.84 % of sustainable investments

- with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
- with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
- with a social objective

It promoted E/S characteristics, but **did not make any sustainable investments**

To what extent were the environmental and/or social characteristics promoted by this financial product met?

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

The environmental and social characteristics promoted by the Fund were to gain exposure to a portfolio of corporate bonds which meet the ESG Policy of the Fund.

The Fund achieved the environmental and social characteristics by excluding certain industries and activities that were considered by the Investment Manager to be inconsistent with ESG outcomes. The Fund also applied a proprietary ESG scoring system to ensure investment was made in "best of class" securities. The Funds also maintained a lower carbon intensity of the portfolio relative to the Bloomberg Euro Corporate Bond Index (the "Benchmark").

The extent to which the environmental and/or social characteristics promoted by the Fund were met is further detailed in the performance of the sustainability indicators (see below).

The Benchmark is not aligned with the environmental objectives which the Fund seeks to promote. The Fund measures its performance against the Benchmark, but does not seek to track the performance of the Benchmark and the Fund does not intend for its performance to match or exceed the Benchmark. The Fund is actively managed and will hold a portfolio of corporate bonds that is not constrained by the Benchmark.

How did the sustainability indicators perform?

The Fund used a variety of indicators to measure the attainment of the environmental and social characteristics. The Fund performed as at 31st of December 2023. The data is representative of the

reference period.

Sustainability Indicator	Indicator Performance
Reduction in the initial investment universe after application of the best-in-class measure based on an overall ESG profile score	26.24% reduction
Reduction in the initial investment universe after application of the exclusions depending on business involvement in controversial activities and controversies including violations of the UN Global Compact, based on third party data and the Investment Manager's proprietary analysis and research	42.27% reduction
Reduction in carbon intensity of the Fund as measured against the Benchmark	38.86% reduction

● **...and compared to previous periods?**

Compared to previous period, the figures slightly decreased.

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

The sustainable investments made by the Fund contributed to environmental objectives (such as climate change, water management, pollution prevention) and to social objectives (such as good health, well-being and gender equality).

The Fund achieved those objectives by investing in: (i) issuers which contributed positively to selected Sustainable Development Goals (SDGs) that related to the above objectives; or (ii) companies which generated a material part of their revenue from environmental impact themes such as energy transition, healthcare and food. The Fund also used a best-in-class approach and selected companies scoring higher, when compared to their peers, utilizing the Investment Manager's proprietary scoring methodology.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

The Fund took into account principal adverse impacts (PAI) indicators defined in Table 1 of Annex I of the regulatory technical standards for Regulation 2019/2088 (RTS). Securities that didn't meet certain PAI thresholds were excluded from the Fund.

How were the indicators for adverse impacts on sustainability factors taken into account?

Please see above on how the indicators for adverse impacts on sustainability factors were taken into account.

The Fund addressed a number of other adverse indicators by excluding companies, sectors or countries from the investment universe if they are assessed to have violated international norms and standards according to the definitions of the International Labour Organisation (ILO), the OECD or the United Nations. All issuers considered for investment were screened for compliance with, and excluded if they do not meet, UN Global Compact principles. By limiting of exposure to thermal coal, shale energy and oil sands the Fund also reduced its exposure to greenhouse gas emissions.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Alignment with the OECD Guidelines for Multinational Enterprises (the "OECD Guidelines") and the UN Guiding Principles on Business and Human Rights (the "UN Guiding Principles") was captured through exclusion of companies from the investible universe if they were deemed not to be in alignment.

The Fund excluded companies that weren't compliant with the UN Global Compact (the "UNGC"), this set of ten principles show significant overlap with both the OECD Guidelines and the UN Guiding Principles. With regards to OECD Guidelines, these guidelines and the UNGC both aim to promote corporate responsibility and sustainable business practices, in terms of specific topics, they both cover the areas of human rights, employment relations, environment and anti-corruption. As for the

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

two UN frameworks, whilst they do vary in nature, scope and depth, the two come together in their overriding objective (to achieve a more responsible and accountable business community) as well as some of the key areas they address, namely in the human rights space.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the Union criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the Union criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

As noted above, the Fund considered principal adverse impacts on sustainability factors, primarily through a set of exclusion criteria corresponding to the indicators that are defined in Table 1, Annex I of the RTS.

The below table shows the PAI scores for the fund from 1st of January 2023 to 31st of December 2023. The data is

representative of the reference period.

Adverse sustainability indicator	PAI	Data	Metric
Greenhouse gas emissions	1.GHG Emissions	629.14	Scope 1 fund financed emissions (Tonnes of CO2 equivalent)
		267.09	Scope 2 fund financed emissions (Tonnes of CO2 equivalent)
		16,041.13	Scope 3 fund financed emissions (Tonnes of CO2 equivalent)
		16,937.35	Total Financed emissions (Scope 1 + Scope 2 + Scope 3) (Tonnes of CO2 equivalent)
	2. Carbon footprint	898.27	Fund level Carbon footprint (Scope 1 + Scope 2 + Scope 3) (Per Million EUR Invested)
	3. GHG Intensity of investee companies	1,100.55	Fund level Total Emission Intensity- Scope 1+2+3 (Per Million EUR Revenue)
	4. Exposure to companies active in the fossil fuel sector	0.00	% of the fund exposed to any fossil fuels revenue
	5. Share of non-renewable energy consumption	52.58	Adjusted Weighted Average of all issuers in the fund's share of non-renewable energy consumption and non-renewable energy production of investee companies from non-renewable energy sources compared to renewable energy sources, expressed as a percentage of total energy sources (%)
	5. Share of non-renewable energy production	6.46	
	6. Energy consumption intensity per high impact climate sector		Adjusted weighted average energy consumption of issuers in the fund in GWh per million EUR of revenue of investee companies, per high impact climate sector
	Agriculture, Forestry & Fishing	0.00	
	Construction	0.01	
	Electricity, Gas, Steam & Air Conditioning Supply	0.72	
	Manufacturing	0.49	
	Mining & Quarrying	0.87	
	Real Estate Activities	0.68	
	Transportation & Storage	0.13	
	Water Supply, Sewerage, Waste Management & Remediation Activities	1.85	
	Wholesale & Retail Trade & Repair of Motor Vehicles & Motorcycles	41.99	
Biodiversity	7. Activites negatively affecting biodiversity-sensitive areas	0.87	Share of investments in the fund of investee companies with sites/operations located in or near to biodiversity-sensitive areas where activities of those investee companies negatively affect those areas

Water	8. Emissions to water	1.52	Adjusted weighted average per issuer in the fund's emissions to water generated by investee companies per million EUR invested (Tonnes)
Waste	9. Hazardous waste and radioactive waste ratio	2.50	Tonnes of hazardous waste and radioactive waste generated by investee companies per million EUR invested, expressed as a weighted average
Social and employee matters	10. Violations fo UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises	0.00	Share of investments in investee companies that have been involved in violations of the UNGC principles or OECD Guidelines for Multinational Enterprises
	11. Lack of proceses and compliance mechanisms to monitor compliance with UN Global Compact principles and OECD Guidelines for Multinational Enterprises	31.32	Share of investments in investee companies without policies to monitor compliance with the UNGC principles or OECD Guidelines for Multinational Enterprises or grievance/ complaints handling mechanisms to address violations of the UNGC principles or OECD Guidelines for Multinational Enterprises
	12. Unadjusted gender pay gap	28.42	Weighted Average of all issuers' in the portfolio unadjusted gender pay gap of investee companies
	13. Board gender diversity	39.58	Waited Average of all issuers in the portfolio ratio of female to male board members in investee companies, expressed as a percentage of all board members
	14. Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons)	0.00	Share of investments in investee companies involved in the manufacture or selling of controversial weapons
Optional Indicators	Optional Indicator: 4. Investments in companies without carbon emission reduction initiative	26.05	Share of investments in investee companies without carbon emission reduction initiatives aimed at aligning with the Paris Agreement
	Optional Indicator: 9. Lack of a human rights policy	0.00	Share of investments in entities without a human rights policy

In addition, as part of the Fund's consideration of principal adverse impacts on sustainability factors, the ESG team monitored the investments against PAI indicators. Invesco conducted research into certain issuers in the Fund's portfolio that were deemed to flag against PAI indicators, in order to determine whether any engagement activity was required in accordance with the engagement policy.

What were the top investments of this financial product?

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is: from 1st of January 2023 to 31st of December 2023

Large Investments	Sector	% Assets	Country

What was the proportion of sustainability-related investments?

See below field

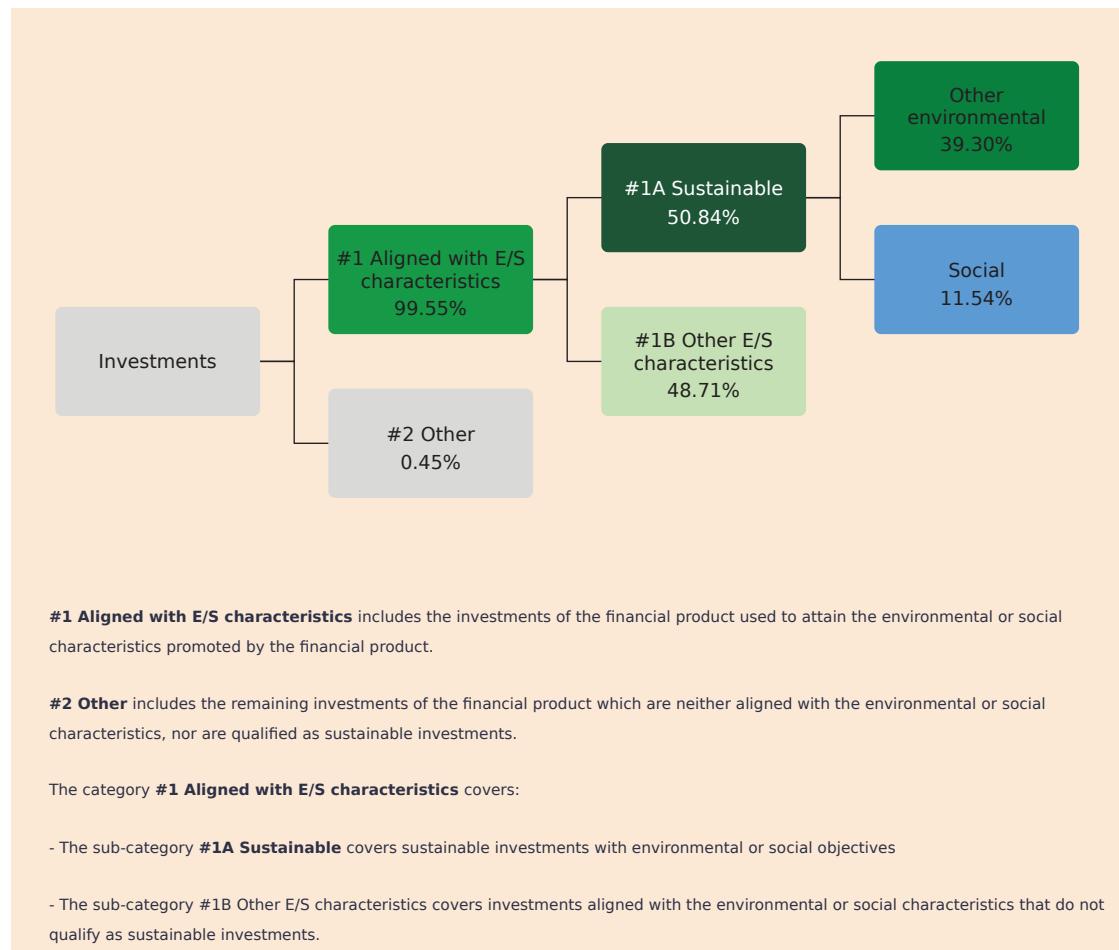

Asset allocation describes the share of investments in specific assets.

● What was the asset allocation?

99.55% of the Fund's NAV was invested in investments that aligned with the environmental and social characteristics of the Fund.

0.45% of the Fund's NAV was invested in financial derivative instruments for hedging and/or efficient portfolio management purposes; or was held as cash for ancillary liquidity purposes.

50.84% of the Fund's NAV was invested in sustainable investments.

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2 Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category **#1 Aligned with E/S characteristics** covers:

- The sub-category **#1A Sustainable** covers sustainable investments with environmental or social objectives
- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

● In which economic sectors were the investments made?

GICS Sector Breakdown - the data is representative of the reference period

Sector (GICS)	Weight %
Financials	50.71
Communication Services	3.47
Consumer Discretionary	8.27
Information Technology	0.74
Industrials	15.54

Materials	2.93
Utilities	2.74
Cash	0.45
Total	100.00

GICS Level 4 breakdown for Energy Sector

Sub-Industry Code	Sub-Industry Name	Weight
10101010	Oil & Gas Drilling	0.00
10101020	Oil & Gas Equipment & Services	0.00
10102010	Integrated Oil & Gas	0.00
10102020	Oil & Gas Exploration & Production	0.00
10102030	Oil & Gas Refining & Marketing	0.00
10102040	Oil & Gas Storage & Transportation	0.00
10102050	Coal & Consumable Fuels	0.00
Total		0.00

To comply with the EU Taxonomy, the criteria for fossil gas include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For nuclear energy, the criteria include comprehensive safety and waste management rules.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

0% of the Fund's portfolio was aligned with the EU Taxonomy.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- turnover reflecting the share of revenue from green activities of investee companies.
- capital expenditure (CapEx) shows the green investments made by investee companies, relevant for a transition to a green economy.
- operational expenditure (OpEx) reflects the green operational activities of investee companies.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

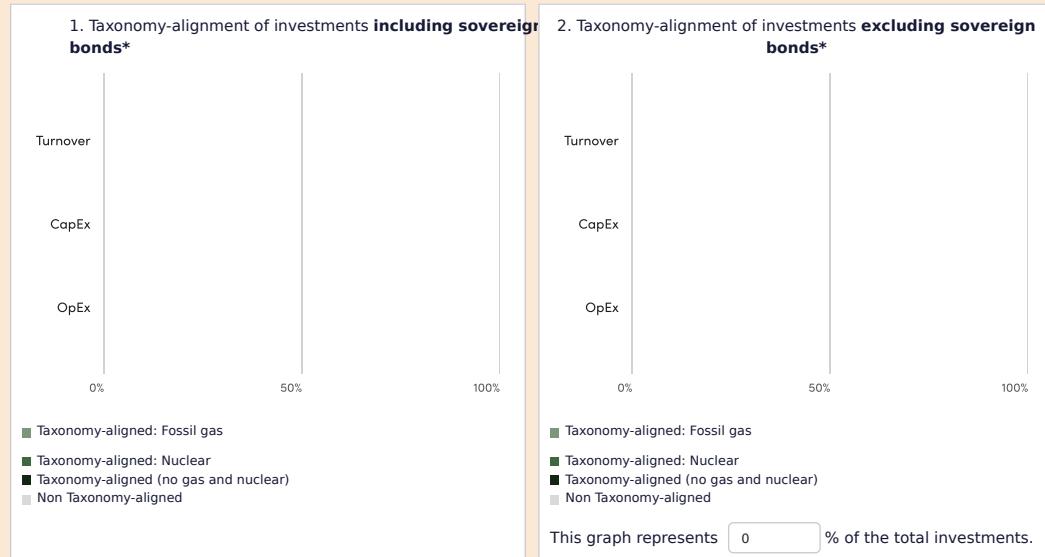

Yes

In fossil gas

In nuclear energy

No

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

*For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

What was the share of investments made in transitional and enabling activities?

Not Applicable.

How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

Not Applicable.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

As the Fund does not currently intend to be EU Taxonomy aligned, 39.30% of the Fund's NAV was invested in sustainable investments with an environmental objective that was not aligned with the EU Taxonomy.

Currently, the Fund does not intend to be aligned with the Taxonomy Regulation and the Manager intends to keep the Fund's position in relation to the Taxonomy Regulation under consideration along with the reliability of datasets to determine Taxonomy alignment. To the extent required, the Manager will amend the pre-contractual documentation accordingly

What was the share of socially sustainable investments?

11.54% of the Fund's NAV.

What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Investments included under this category are financial derivative instruments for hedging and/or efficient portfolio management purposes and/or for investment purposes and cash for ancillary liquidity. No minimum environmental or social safeguards are applied in relation to these instruments.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Fund achieved the environmental characteristics by applying the ESG Policy of the Fund.

Please refer to the section "How did the sustainability indicators perform" above for further information.

In addition, the ESG team monitored the investments against PAI indicators. Invesco conducted research into certain issuers in the Fund's portfolio that were deemed to flag against PAI indicators, in order to determine whether any engagement activity was required in accordance with the engagement policy. Please refer to the section "How did this financial product consider principal adverse impacts on sustainability factors" for examples of researched issuers during the reference period.

How did this financial product perform compared to the reference benchmark?

N/A

● How does the reference benchmark differ from a broad market index?

N/A

Product name: Invesco EUR Corporate Bond ESG Short Duration Multi-Factor Legal entity identifier:
UCITS ETF 5493000AF119LESZHJ98

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

Yes

No

It made **sustainable investments with an environmental objective:** _____ %

- in economic activities that qualify as environmentally sustainable under the EU Taxonomy
- in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

It made **sustainable investments with a social objective:** _____ %

It promoted **Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of 67.31 % of sustainable investments

- with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
- with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
- with a social objective

It promoted E/S characteristics, but **did not make any sustainable investments**

To what extent were the environmental and/or social characteristics promoted by this financial product met?

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

The environmental and social characteristics promoted by the Fund were to gain exposure to a portfolio of corporate bonds which meet the ESG Policy of the Fund.

The Fund achieved the environmental and social characteristics by excluding certain industries and activities that were considered by the Investment Manager to be inconsistent with ESG outcomes. The Fund also applied a proprietary ESG scoring system to ensure investment was made in "best of class" securities. The Funds also maintained a lower carbon intensity of the portfolio relative to the Bloomberg Euro Corporate Bond Index (the "Benchmark").

The extent to which the environmental and/or social characteristics promoted by the Fund were met is further detailed in the performance of the sustainability indicators (see below).

The Benchmark is not aligned with the environmental objectives which the Fund seeks to promote. The Fund measures its performance against the Benchmark, but does not seek to track the performance of the Benchmark and the Fund does not intend for its performance to match or exceed the Benchmark. The Fund is actively managed and will hold a portfolio of corporate bonds that is not constrained by the Benchmark.

How did the sustainability indicators perform?

The Fund used a variety of indicators to measure the attainment of the environmental and social characteristics. The Fund performed as at 31st of December 2023. The data is representative of the

Sustainability Indicator	Indicator Performance
Reduction in the initial investment universe after application of the best-in-class measure based on an overall ESG profile score	44.62% reduction
Reduction in the initial investment universe after application of the exclusions depending on business involvement in controversial activities and controversies including violations of the UN Global Compact, based on third party data and the Investment Manager's proprietary analysis and research	54.77% reduction
Reduction in carbon intensity of the Fund as measured against the Benchmark	39.30% reduction

● ***...and compared to previous periods?***

Compared to previous period, the figures slightly decreased.

● ***What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?***

The sustainable investments made by the Fund contributed to environmental objectives (such as climate change, water management, pollution prevention) and to social objectives (such as good health, well-being and gender equality).

The Fund achieved those objectives by investing in: (i) issuers which contributed positively to selected Sustainable Development Goals (SDGs) that related to the above objectives; or (ii) companies which generated a material part of their revenue from environmental impact themes such as energy transition, healthcare and food. The Fund also used a best-in-class approach and selected companies scoring higher, when compared to their peers, utilizing the investment manager's proprietary scoring methodology.

● ***How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?***

The Fund took into account principal adverse impacts (PAI) indicators defined in Table 1 of Annex I of the regulatory technical standards for Regulation 2019/2088 (RTS). Securities that didn't meet certain PAI thresholds were excluded from the Fund.

How were the indicators for adverse impacts on sustainability factors taken into account?

Please see above on how the indicators for adverse impacts on sustainability factors were taken into account.

The Fund addressed a number of other adverse indicators by excluding companies, sectors or countries from the investment universe if they are assessed to have violated international norms and standards according to the definitions of the International Labour Organisation (ILO), the OECD or the United Nations. All issuers considered for investment were screened for compliance with, and excluded if they do not meet, UN Global Compact principles. By limiting of exposure to thermal coal, shale energy and oil sands the Fund also reduced its exposure to greenhouse gas emissions.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

Alignment with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights was captured through exclusion of companies from the investible universe if they were deemed not to be in alignment.

The Fund excluded companies that weren't compliant with the UN Global Compact, this set of ten principles show significant overlap with both the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights. With regards to OECD, these guidelines and the UNGC both aim to promote corporate responsibility and sustainable business practices, in terms of specific topics, they both cover the areas of human rights, employment relations, environment and anti-corruption. As for the two UN frameworks, whilst they do vary in nature, scope and depth, the two come together in their overriding objective (to achieve a more responsible and accountable business community) as well as some of the key areas they address, namely in the human rights space.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the Union criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the Union criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

As noted above, the index methodology considered principal adverse impacts on sustainability factors, primarily through a set of exclusion criteria corresponding to the indicators that are defined in Table 1, Annex I of the RTS.

Adverse sustainability indicator	PAI	Data	Metric
Greenhouse gas emissions	1.GHG Emissions	2,152.79 665.89 36,393.49 39,212.17	Scope 1 fund financed emissions (Tonnes of CO2 equivalent) Scope 2 fund financed emissions (Tonnes of CO2 equivalent) Scope 3 fund financed emissions (Tonnes of CO2 equivalent) Total Financed emissions (Scope 1 + Scope 2 + Scope 3) (Tonnes of CO2 equivalent)
	2. Carbon footprint	778.40	Fund level Carbon footprint (Scope 1 + Scope 2 + Scope 3) (Per Million EUR Invested)
	3. GHG Intensity of investee companies	999.90	Fund level Total Emission Intensity- Scope 1+2+3 (Per Million EUR Revenue)
	4. Exposure to companies active in the fossil fuel sector	0.04	% of the fund exposed to any fossil fuels revenue
	5. Share of non-renewable energy consumption	53.75	Adjusted Weighted Average of all issuers in the fund's share of non-renewable energy consumption and non-renewable energy production of investee companies from non-renewable energy sources compared to renewable energy sources, expressed as a percentage of total energy sources (%)
	5. Share of non-renewable energy production	11.54	
	6. Energy consumption intensity per high impact climate sector		
	Agriculture, Forestry & Fishing	3.33	
	Construction	0.25	
	Electricity, Gas, Steam & Air Conditioning Supply	0.99	
	Manufacturing	0.76	Adjusted weighted average energy consumption of issuers in the fund in GWh per million EUR of revenue of investee companies, per high impact climate sector
	Mining & Quarrying	0.00	
	Real Estate Activities	0.64	
	Transportation & Storage	0.49	
Biodiversity	Water Supply, Sewerage, Waste Management & Remediation Activities	0.00	
	Wholesale & Retail Trade & Repair of Motor Vehicles & Motorcycles	0.09	
Biodiversity	7. Activites negatively affecting biodiversity-sensitive areas	2.62	Share of investments in the fund of investee companies with sites/operations located in or near to biodiversity-sensitive areas where

			activities of those investee companies negatively affect those areas
Water	8. Emissions to water	0.69	Adjusted weighted average per issuer in the fund's emissions to water generated by investee companies per million EUR invested (Tonnes)
Waste	9. Hazardous waste and radioactive waste ratio	1.32	Tonnes of hazardous waste and radioactive waste generated by investee companies per million EUR invested, expressed as a weighted average
Social and employee matters	10. Violations fo UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises	0.00	Share of investments in investee companies that have been involved in violations of the UNGC principles or OECD Guidelines for Multinational Enterprises
	11. Lack of proceses and compliance mechanisms to monitor compliance with UN Global Compact principles and OECD Guidelines for Multinational Enterprises	29.35	Share of investments in investee companies without policies to monitor compliance with the UNGC principles or OECD Guidelines for Multinational Enterprises or grievance/complaints handling mechanisms to address violations of the UNGC principles or OECD Guidelines for Multinational Enterprises
	12. Unadjusted gender pay gap	25.48	Weighted Average of all issuers' in the portfolio unadjusted gender pay gap of investee companies
	13. Board gender diversity	39.70	Waited Average of all issuers in the portfolio ratio of female to male board members in investee companies, expressed as a percentage of all board members
	14. Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons)	0.00	Share of investments in investee companies involved in the manufacture or selling of controversial weapons
Optional Indicators	Optional Indicator: 4. Investments in companies without carbon emission reduction initiative	27.22	Share of investments in investee companies without carbon emission reduction initiatives aimed at aligning with the Paris Agreement
	Optional Indicator: 9. Lack of a human rights policy	0.62	Share of investments in entities without a human rights policy

In addition, as part of the Fund's consideration of principal adverse impacts on sustainability factors, the ESG team monitored the investments against PAI indicators. Invesco conducted research into certain issuers in the Fund's portfolio that were deemed to flag against PAI indicators, in order to determine whether any engagement activity was required in accordance with the engagement policy.

What were the top investments of this financial product?

The list includes the investments constituting

the greatest proportion of investments of the financial product during the reference period which is: from 1st of January 2023 to 31st of December 2023

Large Investments	Sector	% Assets	Country
SANDVIK AB	Industrials	1.39%	Sweden
MIZUHO FINANCIAL	Financials	1.39%	Japan
ELECTROLUX AB	Consumer Discretionary	1.32%	Sweden
SANTAN 0.5 2/4/2027	Financials	1.25%	Spain
LLOYDS 0.375 25	Financials	1.25%	United Kingdom
FRESENIUS MEDICA	Health Care	1.19%	Germany
ABT 1.5 9/27/2026	Financials	1.04%	United States
BPCE	Financials	0.99%	France
SOCIETE GENERALE	Financials	0.97%	France
INTNED FLT 25	Financials	0.92%	Netherlands

COOPERATIEVE RAB	Financials	0.87%	Netherlands
VEOLIA ENVRNMT	Utilities	0.87%	France

What was the proportion of sustainability-related investments?

See below field

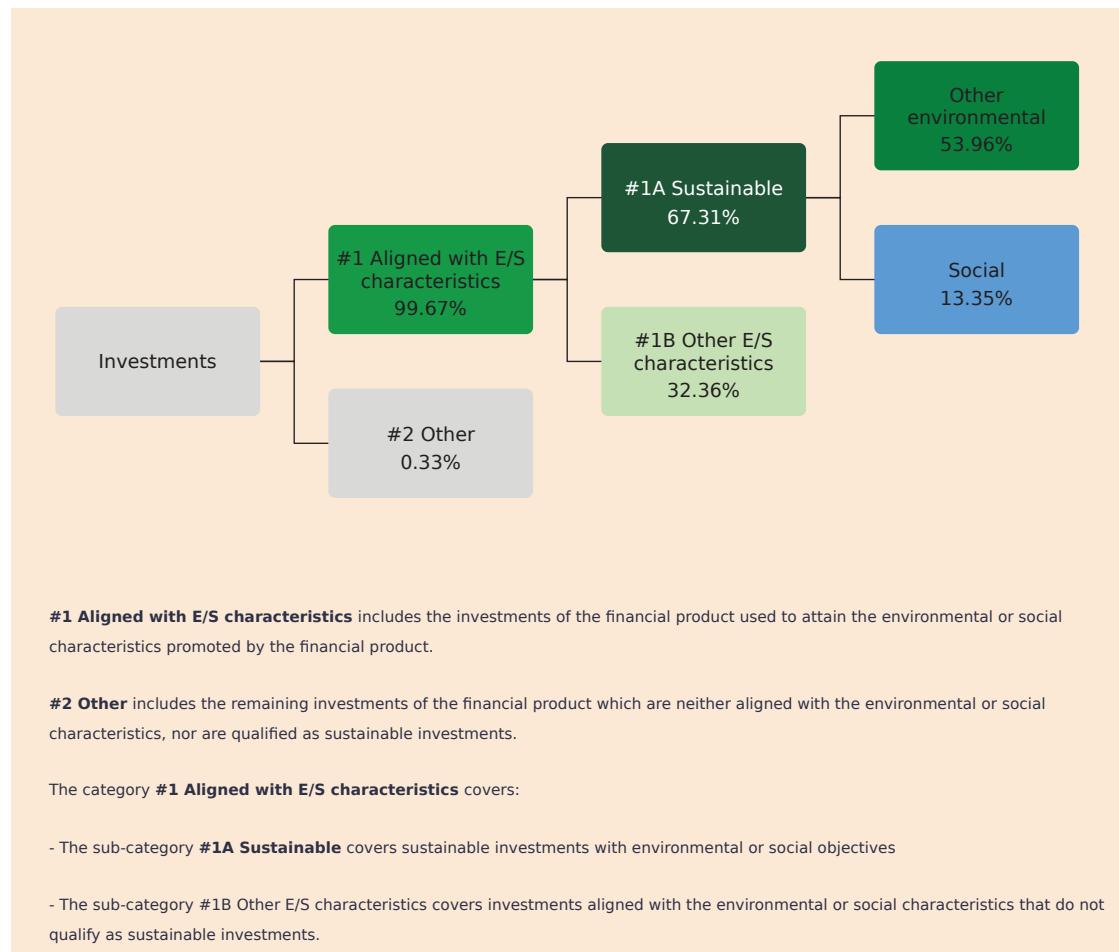

Asset allocation describes the share of investments in specific assets.

● What was the asset allocation?

99.67% of the Fund's NAV was invested in investments that aligned with the environmental and social characteristics of the Fund.

0.33% of the Fund's NAV was invested in financial derivative instruments for hedging and/or efficient portfolio management purposes; or was held as cash for ancillary liquidity purposes.

67.31% of the Fund's NAV was invested in sustainable investments.

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2 Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category **#1 Aligned with E/S characteristics** covers:

- The sub-category **#1A Sustainable** covers sustainable investments with environmental or social objectives
- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

● In which economic sectors were the investments made?

GICS Sector Breakdown - the data is representative of the reference period

Sector (GICS)	Weight %
Financials	54.20
Communication Services	3.49
Consumer Discretionary	6.47

Health Care	3.27
Materials	6.58
Utilities	2.24
Cash	0.33
Total	100.00

GICS Level 4 breakdown for Energy Sector

Sub-Industry Code	Sub-Industry Name	Weight
10101010	Oil & Gas Drilling	0.00
10101020	Oil & Gas Equipment & Services	0.00
10102010	Integrated Oil & Gas	0.00
10102020	Oil & Gas Exploration & Production	0.00
10102030	Oil & Gas Refining & Marketing	0.00
10102040	Oil & Gas Storage & Transportation	0.04
10102050	Coal & Consumable Fuels	0.00
Total		0.04

Although the fund has exclusions around fossil fuel extraction, there may still be exposure to fossil fuels as represented in part by exposure to the energy sector as disclosed above.

To comply with the EU Taxonomy, the criteria for fossil gas include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For nuclear energy, the criteria include comprehensive safety and waste management rules.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

0% of the Fund's portfolio was aligned with the EU Taxonomy.

Enabling activities directly enable other activities to make a substantial

contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- turnover reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) shows the green investments made by investee companies, relevant for a transition to a green economy.
- **operational expenditure** (OpEx) reflects the green operational activities of investee companies.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

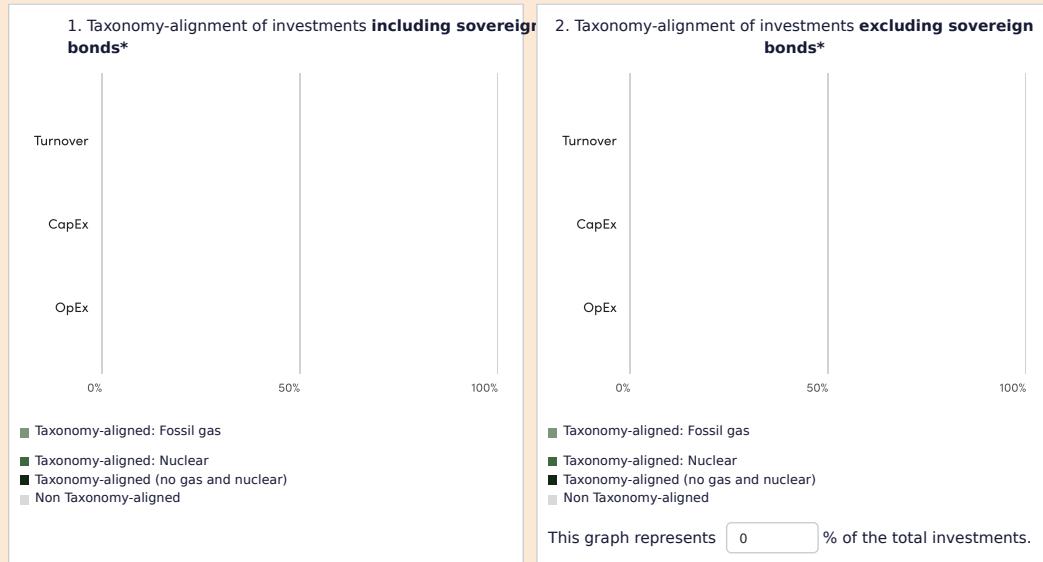

Yes

In fossil gas

In nuclear energy

No

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

*For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

What was the share of investments made in transitional and enabling activities?

Not Applicable.

How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

Not Applicable.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

As the Fund does not currently intend to be EU Taxonomy aligned, 53.96% of the Fund's NAV was invested in sustainable investments with an environmental objective that was not aligned with the EU Taxonomy.

Currently, the Fund does not intend to be aligned with the Taxonomy Regulation and the Manager intends to keep the Fund's position in relation to the Taxonomy Regulation under consideration along with the reliability of datasets to determine Taxonomy alignment. To the extent required, the Manager will amend the pre-contractual documentation accordingly.

What was the share of socially sustainable investments?

13.35% of the Fund's NAV.

What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Investments included under this category are financial derivative instruments for hedging and/or efficient portfolio management purposes and/or for investment purposes and cash for ancillary liquidity. No minimum environmental or social safeguards are applied in relation to these instruments.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Fund achieved the environmental characteristics by applying the ESG Policy of the Fund.

Please refer to the section "How did the sustainability indicators perform" above for further information.

In addition, the ESG team monitored the investments against PAI indicators. Invesco conducted research into certain issuers in the Fund's portfolio that were deemed to flag against PAI indicators, in order to determine whether any engagement activity was required in accordance with the engagement policy. Please refer to the section "How did this financial product consider principal adverse impacts on sustainability factors" for examples of researched issuers during the reference period.

How did this financial product perform compared to the reference benchmark?

N/A

● How does the reference benchmark differ from a broad market index?

N/A

● How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

N/A

● How did this financial product perform compared with the reference benchmark?

N/A

● How did this financial product perform compared with the broad market index?

N/A

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

Annex**Product name:** Invesco GBP Corporate Bond ESG UCITS ETF**Legal entity identifier:** 5493009S5SP0M7KFYI78

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The EU Taxonomy is a classification system laid down in Regulation (EU) 2020/852, establishing a list of environmentally sustainable economic activities. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Environmental and/or social characteristics	
Did this financial product have a sustainable investment objective? <input checked="" type="radio"/> Yes <input type="radio"/> No	
<input type="checkbox"/> It made sustainable investments with an environmental objective: _____ % <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy	<input checked="" type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of <u>36.08</u> % of sustainable investments <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with a social objective
<input type="checkbox"/> It made sustainable investments with a social objective: _____ %	<input type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The environmental and social characteristics promoted by the Fund were to increase overall exposure to issuers demonstrating a robust ESG profile i.e. issuers with a more favourable ESG rating compared to similar issuers. The fund also reduced its exposure to companies involved in certain business activities and those with involvement in very severe ESG controversies.

The Fund achieved the environmental and social characteristics by tracking the Bloomberg MSCI Sterling Liquid Corporate ESG Weighted SRI Bond Index ("Reference Index"), which has a methodology that is consistent with attaining the environmental and social characteristics promoted by the Fund.

The extent to which the Fund tracked the Reference Index is reflected by the tracking error figures available in the section "Tracking Error Analysis" of the Annual Report.

How did the sustainability indicators perform?

The Fund used a variety of indicators to measure the attainment of the environmental and social characteristics. The Fund performed as follows as at 31 December 2023, the data is representative of the reference period:

Sustainability Indicator	Indicator Performance
MSCI ESG Score (as defined in the methodology of the Reference Index) of the Fund relative to the Bloomberg Sterling Corporate Bond Index (the " Parent Index ")	14.1% improvement
CO2 emissions intensity of the Fund relative to the Parent Index	26.8% reduction
Percentage of the Fund portfolio invested in excluded companies involved in controversial business activities and controversies (as defined in the methodology of the Reference Index)	As at each Reference Index rebalance date, the Fund had 0% exposure to excluded companies

...and compared to previous periods?

Compared to last period the improvement in MSCI ESG Score for the Fund relative to the parent index has improved, whilst the reduction in CO2 emissions intensity was slightly lower. The Fund continues to avoid

What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

The sustainable investments made by the fund contributed to environmental objectives such as climate change, water management, pollution prevention, and to social objectives such as good health, well-being and gender equality. The Fund achieved those objectives by investing in constituents of the Reference Index. According to Invesco's sustainable investment framework, a percentage (as disclosed above) of constituents of the Reference Index contributed positively to selected Sustainable Development Goals (SDGs) that related to the above objectives.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

The index methodology of the Reference Index that the Fund tracks takes into account principal adverse impacts (PAI) indicators defined in Table 1 of Annex I of the regulatory technical standards for Regulation 2019/2088 (RTS). Securities that didn't meet certain PAI thresholds were excluded from the Reference Index or had their weightings reduced.

How were the indicators for adverse impacts on sustainability factors taken into account?

Please see above on how the indicators for adverse impacts on sustainability factors have been taken into account.

The index methodology directly excluded a number of companies involved in certain business activities. Through removal of companies involved in thermal coal and oil sands the Reference Index reduced its exposure to greenhouse gas emissions. The methodology also excluded companies involved in controversial weapons and those facing very severe ESG controversies, as assessed via MSCI Controversy Scores. Through its exclusions based on MSCI ESG Score, and adjustment of the weighting for those that are above the threshold based on these same scores, the Reference Index also addressed a number of other adverse indicators. The Reference Index also excluded any companies where data wasn't available to make such assessments.

MSCI ESG Scores consider a number of key issues in their construction, including, but not limited to carbon emissions, product carbon footprint, biodiversity & land use, toxic emissions & waste, opportunities in renewable energy. The scores also take into account areas such as human capital as well as corporate governance, considering ownership & control, pay and the board.

MSCI Controversy Scores consider controversies in a number of different areas, including, but not limited to biodiversity & land use, energy & climate change, toxic emissions & waste, operational waste, discrimination & workforce diversity, and governance structures. Any company that violates the UN Global Compact receives a very severe MSCI Controversy Score.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Alignment with the OECD Guidelines for Multinational Enterprises (the "OECD Guidelines") and the UN Guiding Principles on Business and Human Rights (the UN Guiding Principles) is captured in the index methodology of the Fund, with the result that securities were excluded from the investible universe if they were deemed not to be in alignment.

The index methodology excluded companies that weren't compliant with the UN Global Compact (the "UNGC"), this set of ten principles show significant overlap with both the OECD Guidelines and the UN Guiding Principles. With regards to OECD Guidelines, these guidelines and the UNGC both aim to promote corporate responsibility and sustainable business practices, in terms of specific topics, they both cover the areas of human rights, employment relations, environment and anti-corruption. As for the two UN frameworks, whilst they do vary in nature, scope and depth, the two come together in their overriding objective (to achieve a more responsible and accountable business community) as well as some of the key areas they address, namely in the human rights space.

The index methodology excluded companies facing very severe ESG controversies, as assessed via MSCI Controversy Scores. These scores assess controversies that may constitute a breach of selected global norms and conventions, including the UNGC, the International Labour Organisation's conventions, and the UN Guiding Principles on Business and Human Rights.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the Union criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the Union criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

As noted above, the index methodology considered principal adverse impacts on sustainability factors, primarily through a set of exclusion criteria corresponding to the indicators that are defined in Table 1, Annex I of the RTS.

The below table shows the PAI scores for the fund, the data is representative of the reference period.

Adverse sustainability indicator	PAI	Data	Metric
Greenhouse gas emissions	1.GHG Emissions	171.36	Scope 1 fund financed emissions (Tonnes of CO2 equivalent)
		70.51	Scope 2 fund financed emissions (Tonnes of CO2 equivalent)
		3,614.52	Scope 3 fund financed emissions (Tonnes of CO2 equivalent)
		3,856.38	Total Financed emissions (Scope 1 + Scope 2 + Scope 3) (Tonnes of CO2 equivalent)
	2. Carbon footprint	139.82	Fund level Carbon footprint (Scope 1 + Scope 2 + Scope 3) (Per Million EUR Invested)
	3. GHG Intensity of investee companies	773.30	Fund level Total Emission Intensity- Scope 1+2+3 (Per Million EUR Revenue)
	4. Exposure to companies active in the fossil fuel sector	0.00	% of the fund exposed to any fossil fuels revenue
	5. Share of non-renewable energy consumption	54.48	Adjusted Weighted Average of all issuers in the fund's share of non-renewable energy consumption and non-renewable energy production of investee companies from non-renewable energy sources compared to renewable energy sources, expressed as a percentage of total energy sources (%)
	5. Share of non-renewable energy production	9.94	
	6. Energy consumption intensity per high impact climate sector		Adjusted weighted average energy consumption of issuers in the fund in GWh per million EUR of revenue of investee companies, per high impact climate sector
	Agriculture, Forestry & Fishing	0.00	
	Construction	0.13	
	Electricity, Gas, Steam & Air Conditioning Supply	1.24	
	Manufacturing	0.21	
	Mining & Quarrying	1.02	
	Real Estate Activities	0.76	
	Transportation & Storage	0.11	
	Water Supply, Sewerage, Waste Management & Remediation Activities	0.72	
	Wholesale & Retail Trade & Repair of Motor Vehicles & Motorcycles	0.03	
Biodiversity	7. Activites negatively affecting biodiversity-sensitive areas	2.47	Share of investments in the fund of investee companies with sites/operations located in or near to biodiversity-sensitive areas where activities of those investee companies negatively affect those areas
Water	8. Emissions to water	0.05	Adjusted weighted average per issuer in the fund's emissions to water generated by investee companies per million EUR invested (Tonnes)
Waste	9. Hazardous waste and radioactive waste ratio	0.05	Tonnes of hazardous waste and radioactive waste generated by investee companies per million EUR invested, expressed as a weighted average
Social and employee matters	10. Violations fo UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD)	1.25	Share of investments in investee companies that have been involved in violations of the UNGC principles or OECD Guidelines for Multinational Enterprises

	Guidelines for Multinational Enterprises		
	11. Lack of processes and compliance mechanisms to monitor compliance with UN Global Compact principles and OECD Guidelines for Multinational Enterprises	40.02	Share of investments in investee companies without policies to monitor compliance with the UNGC principles or OECD Guidelines for Multinational Enterprises or grievance/ complaints handling mechanisms to address violations of the UNGC principles or OECD Guidelines for Multinational Enterprises
	12. Unadjusted gender pay gap	23.75	Weighted Average of all issuers' in the portfolio unadjusted gender pay gap of investee companies
	13. Board gender diversity	39.97	Waited Average of all issuers in the portfolio ratio of female to male board members in investee companies, expressed as a percentage of all board members
	14. Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons)	0.00	Share of investments in investee companies involved in the manufacture or selling of controversial weapons
Optional Indicators	Optional Indicator: 4. Investments in companies without carbon emission reduction initiative	16.75	Share of investments in investee companies without carbon emission reduction initiatives aimed at aligning with the Paris Agreement
	Optional Indicator: 9. Lack of a human rights policy	0.69	Share of investments in entities without a human rights policy

In addition, as part of the Fund's consideration of principal adverse impacts on sustainability factors, the ESG team monitored the investments against PAI indicators. Invesco conducted research into certain issuers in the Fund's portfolio that were deemed to flag against PAI indicators, in order to determine whether any engagement activity was required in accordance with the engagement policy.

What was the proportion of sustainability-related investments?

See below field

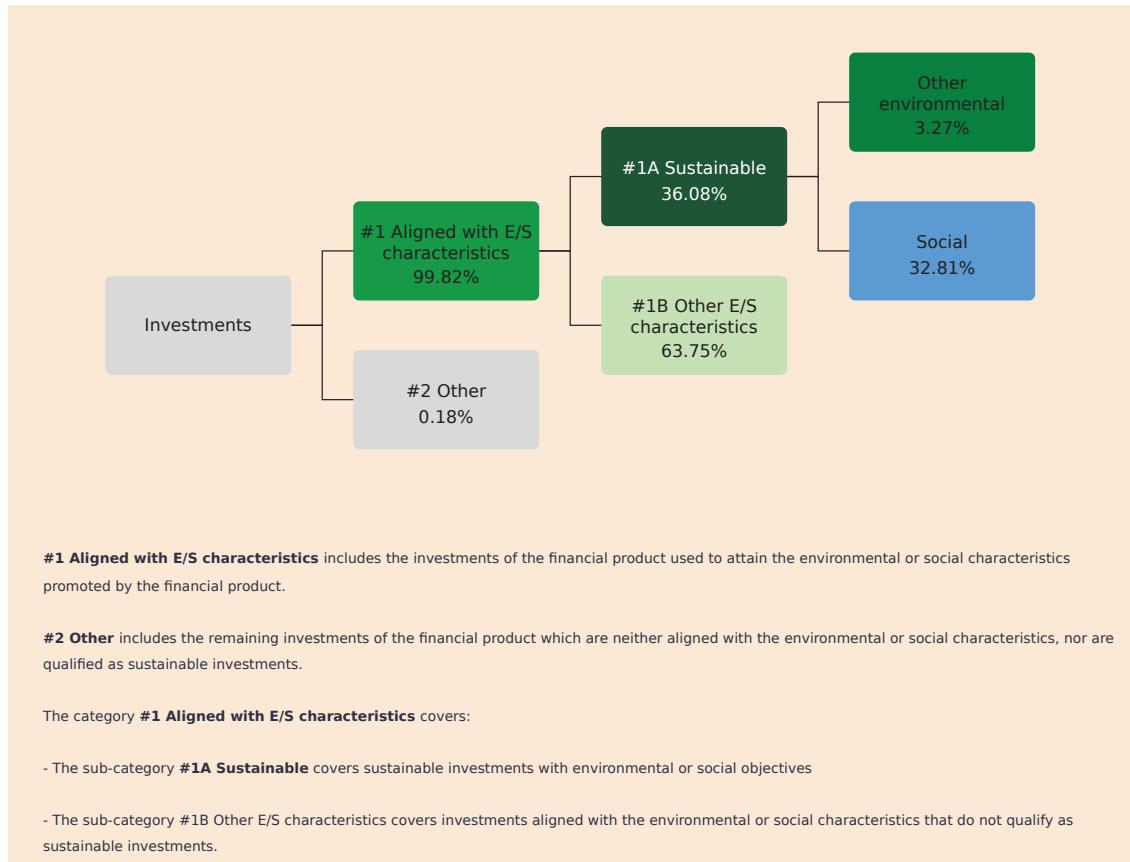

Asset allocation describes the share of investments in specific assets.

What was the asset allocation?

99.82% of the Fund's NAV was invested in investments that aligned with the environmental and social characteristics of the Fund.

0.18% of the Fund's NAV was invested in financial derivative instruments for hedging and/or efficient portfolio management purposes; or was held as cash for ancillary liquidity purposes.

36.08% of the Fund's NAV was invested in sustainable investments.

● **In which economic sectors were the investments made?**

GICS Sector Breakdown - the data is representative of the reference period.

Sector (GICS)	Weight %
Financials	61.15

Total		0.24

Although the Fund has exclusions around fossil fuel extraction, there may still have been exposure to fossil fuels as represented in part by exposure to the energy sector as disclosed above.

To comply with the EU Taxonomy, the criteria for fossil gas include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For nuclear energy, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

0% of the Fund's portfolio was aligned with the EU Taxonomy.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

Yes

In fossil gas

In nuclear energy

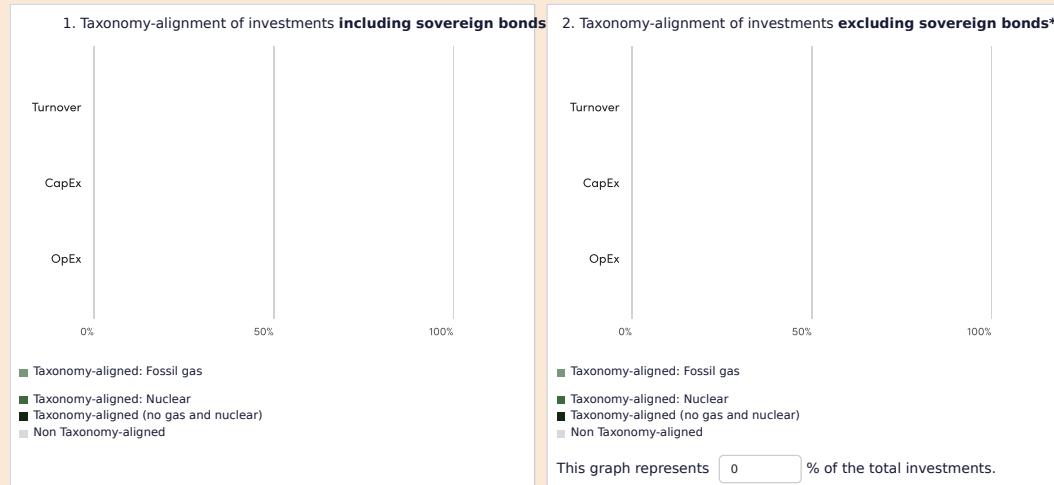

No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:
 - turnover reflecting the share of revenue from green activities of investee companies.
 - capital expenditure (CapEx) shows the green investments made by investee companies, relevant for a transition to a green economy.
 - operational expenditure (OpEx) reflects the green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

*For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

● What was the share of investments made in transitional and enabling activities?

Not Applicable.

● How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

Not Applicable.

are sustainable investments with an environmental objective that do not take into account the criteria for environmentally sustainable economic activities under the EU Taxonomy.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

As the Fund does not currently intend to be EU Taxonomy aligned, 3.27% of the Fund's NAV was invested in sustainable investments with an environmental objective that was not aligned with the EU Taxonomy. Currently the Fund does not intend to be aligned with the Taxonomy Regulation and the Manager intends to keep the Fund's position in relation to the Taxonomy Regulation under consideration along with the reliability of datasets to determine Taxonomy alignment. To the extent required, the Manager will amend the pre-contractual documentation accordingly.

What was the share of socially sustainable investments?

32.81% of the Fund's NAV.

What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

Investments included under this category are financial derivative instruments for hedging and/or efficient portfolio management purposes and cash for ancillary liquidity. No minimum environmental or social safeguards are applied in relation to these instruments.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Fund achieved the environmental and social characteristics by tracking the Reference Index, which has a methodology that is consistent with attaining the environmental and social characteristics promoted by the Fund.

Please refer to the section "How did the sustainability indicators perform" above for further information.

How did this financial product perform compared to the reference benchmark?

See tables completed in below sections.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

How does the reference benchmark differ from a broad market index?

The Reference Index differs from a broad market index because it seeks to increase overall exposure to issuers demonstrating both a robust ESG profile, and issuers that are assigned more favourable ESG scores using MSCI ESG metrics.

How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

As the Fund aims to replicate the performance of the Reference Index, the sustainability indicators performed similarly for the Fund and Reference Index:

Sustainability Indicator	Fund Indicator Performance	Reference Index Indicator Performance
MSCI ESG Score (as defined in the methodology of the Reference Index)	7.64	7.66
CO2 emissions intensity	51.9	54.9
Percentage of exposure in excluded companies involved in controversial business activities and controversies (as defined in the methodology of the Reference Index)	The Fund had 0% exposure to excluded companies at each Reference Index rebalance date	The Reference Index had 0% exposure to excluded companies at each Reference Index rebalance date

How did this financial product perform compared with the reference benchmark?

As the Fund achieves the environmental and social characteristics by tracking the Reference Index, which has a methodology that is consistent with attaining the environmental and social characteristics promoted by the Fund, the performance of the Fund is aligned with that of the Reference Benchmark. Please see above for the performance of the sustainability indicators compared with the Reference Benchmark.

How did this financial product perform compared with the broad market index?

The Parent Index also acts as a relevant broad market index. The sustainability indicators for the Fund and Parent Index differed as below:

Sustainability Indicator	Fund Indicator Performance	Broad Market benchmark (Parent Index) Indicator Performance
MSCI ESG Score (as defined in the methodology of the Reference Index)	7.64	6.69
CO2 emissions intensity	51.9	70.9
Percentage of the Fund portfolio invested in excluded companies involved in controversial business activities and controversies (as defined in the methodology of the Reference Index)	The Reference Index had 0% exposure to excluded companies at each Reference Index rebalance date	The Broad Market benchmark had 17.8% exposure to excluded companies at the latest Reference Index rebalance date

Annex

Product name: Invesco Global High Yield Corporate Bond ESG UCITS
ETF

Legal entity identifier:
549300IOSJ6SE24AU714

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

Yes

No

It made **sustainable investments with an environmental objective:** _____ %

- in economic activities that qualify as environmentally sustainable under the EU Taxonomy
- in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

It made **sustainable investments with a social objective:** _____ %

It promoted **Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of 33.26 % of sustainable investments

- with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
- with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
- with a social objective

It promoted E/S characteristics, but **did not make any sustainable investments**

To what extent were the environmental and/or social characteristics promoted by this financial product met?

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

The environmental and social characteristics promoted by the Fund were to increase overall exposure to issuers demonstrating a robust ESG profile i.e. issuers with a more favourable ESG rating compared to similar issuers. The fund also reduced exposure to companies involved in certain business activities and those with involvement in very severe ESG controversies.

The Fund achieves the environmental and social characteristics by tracking the Bloomberg MSCI Global High Yield Liquid Corporate ESG Weighted SRI Bond Index ("Reference Index"), which has a methodology that is consistent with attaining the environmental and social characteristics promoted by the Fund.

The extent to which the Fund tracked Reference Index is reflected by the tracking error figures available in the section "Tracking Error Analysis" of the Annual Report.

How did the sustainability indicators perform?

The Fund used a variety of indicators to measure the attainment of the environmental and social characteristics. The Fund performed as follows as at 31 December 2023, the data is representative of the reference period:

Sustainability Indicator	Indicator Performance
MSCI ESG Score (as defined in the methodology of the Reference Index) of the Fund relative to the Bloomberg Global High Yield Corporate Index (the "Parent Index")	48.6% improvement
CO2 emissions intensity of the Fund relative to the Parent Index	24.8% reduction
Percentage of the Fund portfolio invested in excluded companies involved in controversial business activities and controversies (as defined in the methodology of the Reference Index)	As at each Reference Index rebalance date, the Fund had 0% exposure to excluded companies

● ***...and compared to previous periods?***

NA

● ***What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?***

The sustainable investments made by the fund contributed to environmental objectives such as climate change, water management, pollution prevention, and to social objectives such as good health, well-being and gender equality. The Fund achieved those objectives by investing in constituents of the Reference Index. According to Invesco's sustainable investment framework, a percentage (as disclosed above) of constituents of the Reference Index contributed positively to selected Sustainable Development Goals (SDGs) that related to the above objectives.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

● ***How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?***

The index methodology of the Reference Index that the Fund tracks takes into account principal adverse impacts (PAI) indicators defined in Table 1 of Annex I of the regulatory technical standards for Regulation 2019/2088 (RTS). Securities that didn't meet certain PAI thresholds were excluded from the Reference Index or had their weightings reduced.

How were the indicators for adverse impacts on sustainability factors taken into account?

Please see above on how the indicators for adverse impacts on sustainability factors have been taken into account.

The index methodology directly excluded a number of companies involved in certain business activities. Through removal of companies involved in thermal coal and oil sands the Reference Index reduced its exposure to greenhouse gas emissions. The methodology also excluded companies involved in controversial weapons and those facing very severe ESG controversies, as assessed via MSCI Controversy Scores. Through its exclusions based on MSCI ESG Score, and adjustment of the weighting for those that are above the threshold based on these same scores, the Reference Index also addressed a number of other adverse indicators. The Reference Index also excluded any companies where data isn't available to make such assessments.

MSCI ESG Scores consider a number of key issues in their construction, including, but not limited to carbon emissions, product carbon footprint, biodiversity & land use, toxic emissions & waste, opportunities in renewable energy. The scores also take into account areas such as human capital as well as corporate governance, considering ownership & control, pay and the board.

MSCI Controversy Scores consider controversies in a number of different areas, including, but not limited to biodiversity & land use, energy & climate change, toxic emissions & waste, operational waste, discrimination & workforce diversity, and governance structures. Any company that violates the UN Global Compact receives a very severe MSCI Controversy Score.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Alignment with the OECD Guidelines for Multinational Enterprises (the "**OECD Guidelines**") and the UN Guiding Principles on Business and Human Rights (the "**UN Guiding Principles**") is captured in the index methodology of the Fund, with the result that securities were excluded from the investible universe if they were deemed not to be in alignment.

The index methodology excluded companies that weren't compliant with the UN Global Compact (the "**UNGC**"), this set of ten principles show significant overlap with both the OECD Guidelines and the UN Guiding Principles. With regards to OECD Guidelines, these guidelines and the UNGC both aim to promote corporate responsibility and sustainable business practices, in terms of specific topics, they both cover the areas of human rights, employment relations, environment and anti-corruption. As for the two UN frameworks, whilst they do vary in nature, scope and depth, the two come together in their overriding objective (to achieve a more responsible and accountable business community) as well as some of the key areas they address, namely in the human rights space.

The index methodology excluded companies facing very severe ESG controversies, as assessed via MSCI Controversy Scores. These scores assess controversies that may constitute a breach of selected global norms and conventions, including the UNGC, the International Labour Organisation's conventions, and the UN Guiding Principles.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the Union criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the Union criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

As noted above, the index methodology considered principal adverse impacts on sustainability factors, primarily through a set of exclusion criteria corresponding to the indicators that are defined in Table 1, Annex I of the RTS.

The below table shows the PAI scores for the fund, the data is representative of the reference period.

Adverse sustainability indicator	PAI	Data	Metric
Greenhouse gas emissions	1.GHG Emissions	35,760.44	Scope 1 fund financed emissions (Tonnes of CO2 equivalent)
		3,566.75	Scope 2 fund financed emissions (Tonnes of CO2 equivalent)
		95,514.22	Scope 3 fund financed emissions (Tonnes of CO2 equivalent)
		134,841.42	Total Financed emissions (Scope 1 + Scope 2 + Scope 3) (Tonnes of CO2 equivalent)
	2. Carbon footprint	1,132.55	Fund level Carbon footprint (Scope 1 + Scope 2 + Scope 3) (Per Million EUR Invested)
	3. GHG Intensity of investee companies	2,655.76	Fund level Total Emission Intensity- Scope 1+2+3 (Per Million EUR Revenue)
	4. Exposure to companies active in the fossil fuel sector	1.83	% of the fund exposed to any fossil fuels revenue
	5. Share of non-renewable energy consumption	73.13	Adjusted Weighted Average of all issuers in the fund's share of non-renewable energy consumption and non-renewable energy production of investee companies from non-renewable energy sources compared to renewable energy sources, expressed as a percentage of total energy sources (%)
	5. Share of non-renewable energy production	23.15	Adjusted weighted average energy consumption of issuers in the fund in GWh per million EUR of revenue of investee companies, per high impact climate sector
	6. Energy consumption intensity per high impact climate sector		
	Agriculture, Forestry & Fishing	1.96	
	Construction	0.16	
	Electricity, Gas, Steam & Air Conditioning Supply	1.88	
	Manufacturing	7.85	
	Mining & Quarrying	1.13	
	Real Estate Activities	0.42	
	Transportation & Storage	5.97	
	Water Supply, Sewerage, Waste Management & Remediation Activities	0.11	
	Wholesale & Retail Trade & Repair of Motor Vehicles & Motorcycles	0.11	
Biodiversity	7. Activites negatively affecting biodiversity-sensitive areas	4.41	Share of investments in the fund of investee companies with sites/operations located in or near to biodiversity-sensitive areas where activities of those investee companies negatively affect those areas
Water	8. Emissions to water	35.96	Adjusted weighted average per issuer in the fund's emissions to water generated by investee companies

			per million EUR invested (Tonnes)
Waste	9. Hazardous waste and radioactive waste ratio	18.88	Tonnes of hazardous waste and radioactive waste generated by investee companies per million EUR invested, expressed as a weighted average
Social and employee matters	10. Violations fo UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises	0.00	Share of investments in investee companies that have been involved in violations of the UNGC principles or OECD Guidelines for Multinational Enterprises
	11. Lack of proceses and compliance mechanisms to monitor compliance with UN Global Compact principles and OECD Guidelines for Multinational Enterprises	52.48	Share of investments in investee companies without policies to monitor compliance with the UNGC principles or OECD Guidelines for Multinational Enterprises or grievance/ complaints handling mechanisms to address violations of the UNGC principles or OECD Guidelines for Multinational Enterprises
	12. Unadjusted gender pay gap	11.09	Weighted Average of all issuers' in the portfolio unadjusted gender pay gap of investee companies
	13. Board gender diversity	31.29	Waited Average of all issuers in the portfolio ratio of female to male board members in investee companies, expressed as a percentage of all board members
	14. Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons)	0.00	Share of investments in investee companies involved in the manufacture or selling of controversial weapons
Optional Indicators	Optional Indicator: 4. Investments in companies without carbon emission reduction initiative	48.96	Share of investments in investee companies without carbon emission reduction initiatives aimed at aligning with the Paris Agreement
	Optional Indicator: 9. Lack of a human rights policy	14.44	Share of investments in entities without a human rights policy

What were the top investments of this financial product?

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is:from 1st of January 2023 to 31st of December 2023. The data is representative of the reference period.

Large Investments	Sector	% Assets	Country
BANK OF COMM	Financials	0.42%	China
UNIT 10.5 2/15/2028	Real Estate	0.39%	United States
DVA 4.625 6/1/2030	Health Care	0.34%	United States

What was the proportion of sustainability-related investments?

See below field

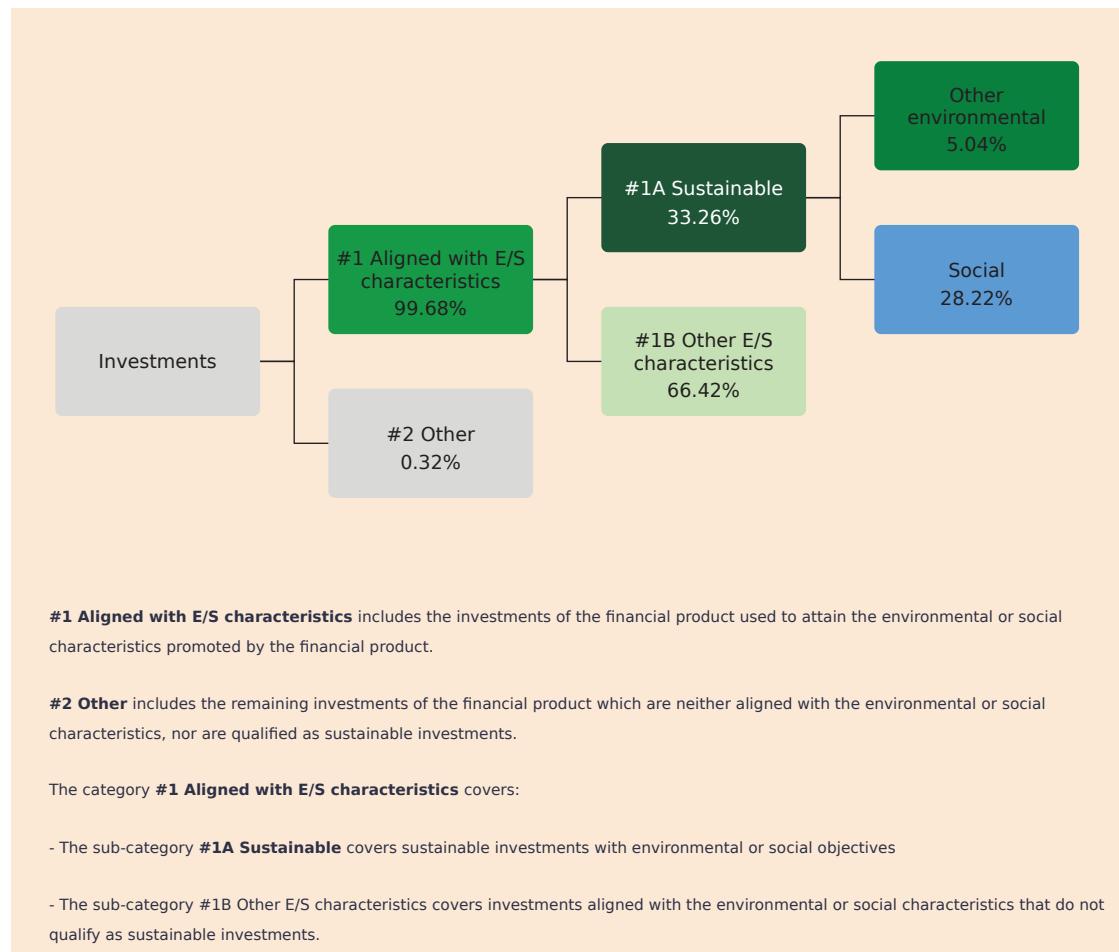

Asset allocation describes the share of investments in specific assets.

● What was the asset allocation?

99.68% of the Fund's NAV was invested in investments that aligned with the environmental and social characteristics of the Fund.

0.32% of the Fund's NAV was invested in financial derivative instruments for hedging and/or efficient portfolio management purposes; or was held as cash for ancillary liquidity purposes.

33.26% of the Fund's NAV was invested in sustainable investments.

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2 Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category **#1 Aligned with E/S characteristics** covers:

- The sub-category **#1A Sustainable** covers sustainable investments with environmental or social objectives
- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

● In which economic sectors were the investments made?

GICS Sector Breakdown as at - The data is representative of the reference period.

Sector (GICS)	Weight %
Financials	13.39
Communication Services	19.84
Consumer Discretionary	14.68
Information Technology	5.05
Industrials	12.16
Consumer Staples	4.13
Energy	5.24
Real Estate	4.51
Health Care	9.52
Materials	8.24
Utilities	2.33
Cash	0.32
Unclassified	0.59
Total	100.00

GICS Level 4 breakdown for Energy Sector

Sub-Industry Code	Sub-Industry Name	Weight
10101010	Oil & Gas Drilling	0.31
10101020	Oil & Gas Equipment & Services	1.21
10102010	Integrated Oil & Gas	0.12
10102020	Oil & Gas Exploration & Production	0.00
10102030	Oil & Gas Refining & Marketing	1.03
10102040	Oil & Gas Storage & Transportation	2.48
10102050	Coal & Consumable Fuels	0.09
Total		5.24

Although the Fund has exclusions around fossil fuel extraction, there may still have been exposure to fossil fuels as represented in part by exposure to the energy sector as disclosed above.

To comply with the EU Taxonomy, the criteria for fossil gas include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For nuclear energy, the criteria include comprehensive safety and waste management rules.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

0% of the Fund's portfolio was aligned with the EU Taxonomy.

Enabling activities directly enable other activities to make a substantial contribution to an

environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- turnover reflecting the share of revenue from green activities of investee companies.
- capital expenditure (CapEx) shows the green investments made by investee companies, relevant for a transition to a green economy.
- operational expenditure (OpEx) reflects the green operational activities of investee companies.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

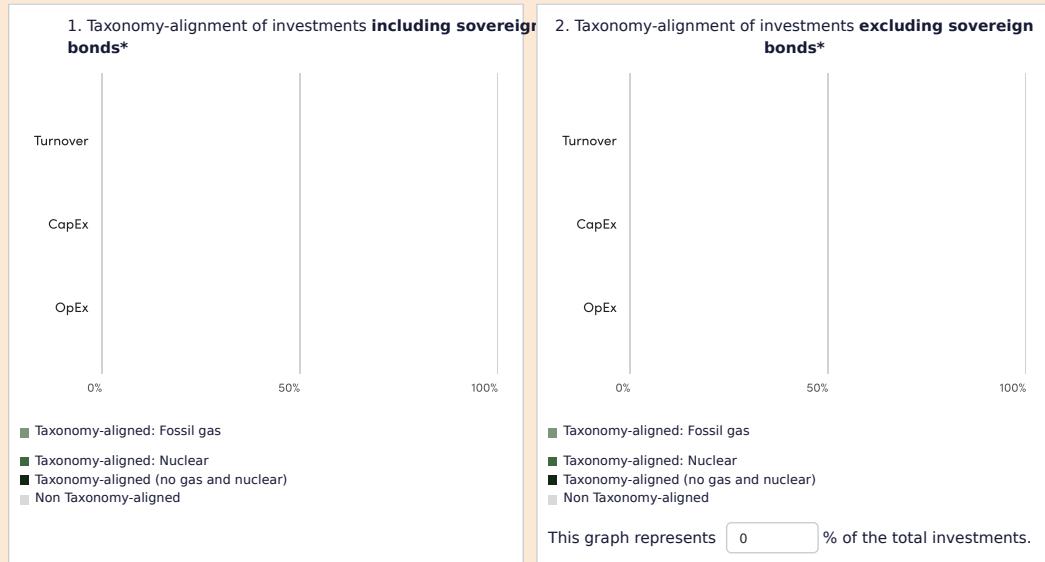

Yes

In fossil gas

In nuclear energy

No

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

*For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

What was the share of investments made in transitional and enabling activities?

N/A

How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

N/A

are sustainable investments with an environmental objective that do not take into account the criteria for environmentally sustainable economic activities under the EU Taxonomy.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

As the Fund does not currently intend to be EU Taxonomy aligned, 5.04% of the Fund's NAV was invested in sustainable investments with an environmental objective that was not aligned with the EU Taxonomy.

Currently, the Fund does not intend to be aligned with the Taxonomy Regulation and the Manager intends to keep the Fund's position in relation to the Taxonomy Regulation under consideration along with the reliability of datasets to determine Taxonomy alignment. To the extent required, the Manager will amend the pre-contractual documentation accordingly.

What was the share of socially sustainable investments?

28.22% of the Fund's NAV.

What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

Investments included under this category are financial derivative instruments for hedging and/or efficient portfolio management purposes and cash for ancillary liquidity. No minimum

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Fund achieved the environmental and social characteristics by tracking the Reference Index, which has a methodology that is consistent with attaining the environmental and social characteristics promoted by the Fund.

Please refer to the section "How did the sustainability indicators perform" above for further information.

How did this financial product perform compared to the reference benchmark?

See table completed in below sections.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

● How does the reference benchmark differ from a broad market index?

The Reference Index differs from a broad market index because it seeks to increase overall exposure to issuers demonstrating both a robust ESG profile, and issuers that are assigned more favourable ESG scores using MSCI ESG metrics.

● How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

As the Fund aims to replicate the performance of the Reference Index, the sustainability indicators performed similarly for the Fund and Reference Index:

Sustainability Indicator	Fund Indicator Performance	Reference Index Indicator Performance
MSCI ESG Score (as defined in the methodology of the Reference Index)	6.28	6.24
CO2 emissions intensity	152.1	153.3
Percentage of exposure in excluded companies involved in controversial business activities and controversies (as defined in the methodology of the Reference Index)	The Fund had 0% exposure to excluded companies at each Reference Index rebalance date	The Reference Index had 0% exposure to excluded companies at each Reference Index rebalance date

● How did this financial product perform compared with the reference benchmark?

As Fund achieves the environmental and social characteristics by tracking the Reference Index, which has a methodology that is consistent with attaining the environmental and social characteristics promoted by the Fund, the performance of the Fund is aligned with that of the Reference Benchmark. Please see above for the performance of the sustainability indicators compared with the Reference Benchmark.

● How did this financial product perform compared with the broad market index?

The Parent Index also acts as a relevant broad market index. The sustainability indicators for the Fund and Parent

Index differed as below:

Sustainability Indicator	Fund Indicator Performance	Broad Market benchmark (Parent Index) Indicator Performance
MSCI ESG Score (as defined in the methodology of the Reference Index)	6.28	4.23
CO2 emissions intensity	152.1	202.2
Percentage of the Fund portfolio invested in excluded companies involved in controversial business activities and controversies (as defined in the methodology of the Reference Index)	The Reference Index had 0% exposure to excluded companies at each Reference Index rebalance date	The Broad Market benchmark had 46.9% exposure to excluded companies at the latest Reference Index rebalance date

Annex**Product name: Invesco AT1 Capital Bond UCITS ETF****Legal entity identifier: 63540079IESLQABALN14**

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The EU Taxonomy is a classification system laid down in Regulation (EU) 2020/852, establishing a list of environmentally sustainable economic activities. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

Yes

- It made **sustainable investments with an environmental objective:** _____ %
 - in economic activities that qualify as environmentally sustainable under the EU Taxonomy
 - in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

- It made **sustainable investments with a social objective:** _____ %

No

- It **promoted Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of _____ % of sustainable investments
 - with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
 - with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
 - with a social objective

- It promoted E/S characteristics, but **did not make any sustainable investments**

To what extent were the environmental and/or social characteristics promoted by this financial product met?

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

The environmental and social characteristics promoted by the Fund were to ensure that the issuers it has exposure to are not involved in controversial and environmentally damaging business activities. The Fund achieved this by tracking the iBoxx USD Contingent Convertible Liquid Developed Market AT1 (8% Issuer Cap) Index ("Reference Index"), which has a methodology that is consistent with attaining the environmental and social characteristics promoted by the Fund.

The extent to which the Fund tracked the Reference Index is reflected by the tracking error figures available in the section "Tracking Error Analysis" of the Annual Report.

The environmental and social characteristics were achieved by applying the Index Provider's exclusion criteria to the eligible securities.

How did the sustainability indicators perform?

The Fund used a variety of indicators to measure the attainment of the environmental and social characteristics. The Fund performed as at 31st of December 2023. The data is representative of the reference period.

Sustainability Indicator	Indicator Performance
CO2 emissions intensity of the Fund	2.9
Percentage of the Fund portfolio invested in excluded companies involved in controversial business activities (as defined in the methodology of the Reference Index)	As at each Reference Index rebalance date, the Fund had 0% exposure to excluded companies

...and compared to previous periods?

Compared to last reference period the CO2 emissions intensity for the Fund has improved slightly. This improvement may not be observed over the next reference period since the Fund does not specifically target improvements for this metric. However, the exclusions incorporated in the methodology of the

Reference Index may impact this metric. The Fund continues to avoid companies excluded by the Reference Index.

• What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

N/A

• How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

N/A

How were the indicators for adverse impacts on sustainability factors taken into account?

N/A

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

N/A

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the Union criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the Union criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The methodology of the Reference Index considered principal adverse impacts on sustainability factors by directly excluding a number of companies involved in certain business activities. Through removal of companies involved in thermal coal and oil sands the Reference Index reduced its exposure to greenhouse gas emissions. The methodology also excluded companies involved in controversial weapons and those that weren't compliant with the UN Global Compact.

The below table shows the PAI scores for the fund, the data is representative of the reference period.:.

Adverse sustainability indicator	PAI	Data	Metric
Greenhouse gas emissions	1.GHG Emissions	75.64	Scope 1 fund financed emissions (Tonnes of CO2 equivalent)
		186.28	Scope 2 fund financed emissions (Tonnes of CO2 equivalent)
		84,285.76	Scope 3 fund financed emissions (Tonnes of CO2 equivalent)
		84,547.67	Total Financed emissions (Scope 1 + Scope 2 + Scope 3) (Tonnes of CO2 equivalent)
	2. Carbon footprint	76.83	Fund level Carbon footprint (Scope 1 + Scope 2 + Scope 3) (Per Million EUR Invested)
	3. GHG Intensity of investee companies	733.68	Fund level Total Emission Intensity- Scope 1+2+3 (Per Million EUR Revenue)
	4. Exposure to companies active in the fossil fuel sector	0.00	% of the fund exposed to any fossil fuels revenue
	5. Share of non-renewable energy consumption	43.26	Adjusted Weighted Average of all issuers in the fund's share of non-renewable energy consumption and non-renewable energy production of investee companies from non-renewable energy sources
	5. Share of non-renewable energy production	0.00	compared to renewable energy sources, expressed as a percentage of total energy sources (%)
	6. Energy consumption intensity per high impact climate sector		Adjusted weighted average energy consumption of issuers in the fund in GWh per million EUR of revenue of investee companies, per high impact climate sector

What was the proportion of sustainability-related investments?

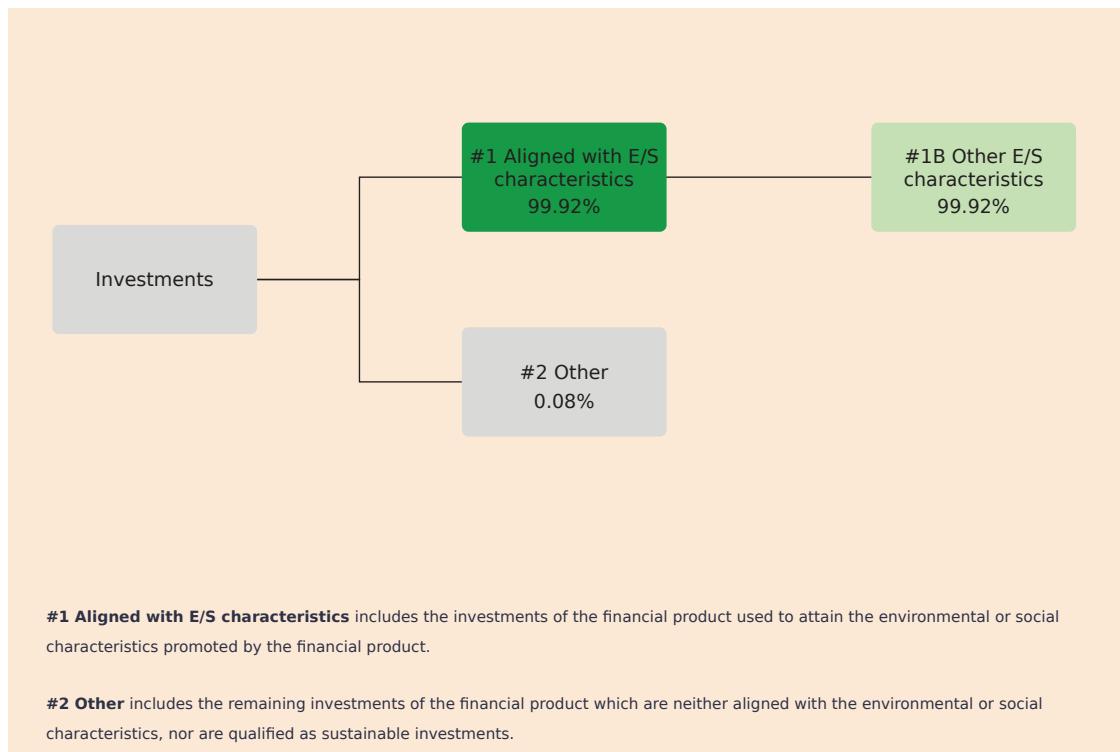

See below field

Asset allocation describes the share of investments in specific assets.

What was the asset allocation?

99.92% of the Fund's NAV was invested in investments that aligned with the environmental and social characteristics of the Fund.

0.08% of the Fund's NAV was invested in financial derivative instruments for hedging and/or efficient portfolio management purposes; or was held as cash for ancillary liquidity purposes.

● **In which economic sectors were the investments made?**

GICS Sector Breakdown as at - the data is representative of the reference period

Sector (GICS)	Weight %

Total		0.00

To comply with the EU Taxonomy, the criteria for fossil gas include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For nuclear energy, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:
 - turnover reflecting the share of revenue from green activities of investee companies.
 - capital expenditure (CapEx) shows the green investments made by investee companies, relevant for a transition to a green economy.
 - operational expenditure (OpEx) reflects the green operational activities of investee companies.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The Fund does not commit to a minimum of sustainable investments aligned with EU Taxonomy, 0% (Turnover) of the Fund's portfolio was aligned with the EU Taxonomy.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

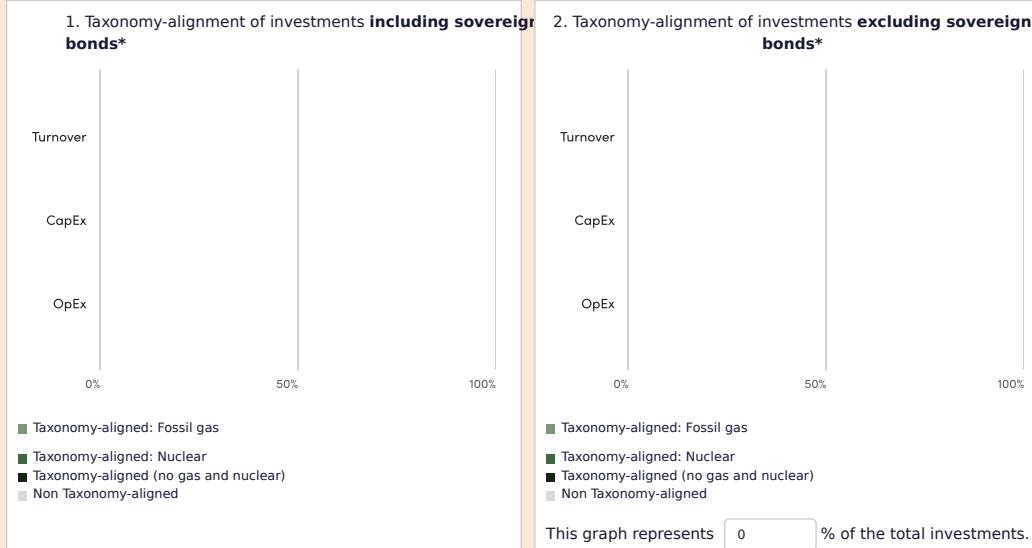

Yes

In fossil gas

In nuclear energy

No

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

*For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

What was the share of investments made in transitional and enabling activities?

N/A

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective – see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

N/A

 are sustainable investments with an environmental objective that do not take into account the criteria for environmentally sustainable economic activities under the EU Taxonomy.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

N/A

What was the share of socially sustainable investments?

N/A

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

Investments included under this category are financial derivative instruments for hedging and/or efficient portfolio management purposes and cash for ancillary liquidity. No minimum environmental or social safeguards are applied in relation to these instruments.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Fund achieved the environmental and social characteristics by tracking the Reference Index, which has a methodology that is consistent with attaining the environmental and social characteristics promoted by the Fund.

Please refer to the section “How did the sustainability indicators perform” above for further information.

How did this financial product perform compared to the reference benchmark?

See below field

How does the reference benchmark differ from a broad market index?

The Reference Index differs from a generic broad market index because it seeks to exclude issuers that are involved in controversial and environmentally damaging business activities.

How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

As the Fund achieves the environmental and social characteristics by tracking the Reference Index, which has a methodology that is consistent with attaining the environmental and social characteristics promoted by the Fund, the performance of the Fund is aligned with that of the Reference Index. Please see below for the performance of the sustainability indicators compared with the Reference Index.

How did this financial product perform compared with the reference benchmark?

As the Fund fully replicates the performance of the Reference Index, the sustainability indicators performed

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

Sustainability Indicator	Fund Indicator performance	Reference Index Indicator performance
CO2 emissions intensity	2.9	2.9
Percentage of exposure in excluded companies involved in controversial business activities and controversies (as defined in the methodology of the Reference Index)	This Fund had 0% exposure to excluded companies as at each Reference Index rebalance date	This Reference Index had 0% exposure to excluded companies as at each Reference Index rebalance date

● ***How did this financial product perform compared with the broad market index?***

Due to the specific nature of the asset class there is not an appropriate broad market index available for such a comparison.

Annex

Product name: Invesco MSCI Europe ESG Leaders Catholic Principles
UCITS ETF

Legal entity identifier:
5493004L1J8DLBP0LZ70

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

Yes

No

It made **sustainable investments with an environmental objective:** _____ %

- in economic activities that qualify as environmentally sustainable under the EU Taxonomy
- in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

It made **sustainable investments with a social objective:** _____ %

It **promoted Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of 66.73 % of sustainable investments

- with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
- with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
- with a social objective

It promoted E/S characteristics, but **did not make any sustainable investments**

To what extent were the environmental and/or social characteristics promoted by this financial product met?

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

The environmental and social characteristics promoted by the Fund were to increase overall exposure to companies with high environment, social and governance ("ESG") ratings, relative to sector peers. The fund also reduced its exposure to companies involved in certain business activities and those with involvement in very severe ESG controversies.

The Fund achieved the environmental and social characteristics by tracking the MSCI Europe Select Catholic Principles ESG Leaders 10/40 Index (the "**Reference Index**"), which has a methodology that is consistent with attaining the environmental and social characteristics promoted by the Fund.

The extent to which the Fund tracked the Reference Index is reflected by the tracking error figures available in the section "Tracking Error Analysis" of the Annual Report.

How did the sustainability indicators perform?

The Fund used a variety of indicators to measure the attainment of the environmental and social characteristics. The Fund performed as follows as at 31st of December 2023. The data is representative

Sustainability Indicator	Indicator Performance
MSCI ESG Score (as defined in the methodology of the Reference Index) of the fund relative to the MSCI Europe Index (the "Parent Index")	9.2% improvement
CO2 emissions intensity of the Fund relative to the Parent Index	2.1% reduction
Percentage of the Fund portfolio invested in excluded companies involved in controversial business activities and controversies (as defined in the methodology of the Reference Index)	As at each Reference Index rebalance date, the Fund had 0% exposure to excluded companies

● **...and compared to previous periods?**

Compared to last period the improvement in MSCI ESG Score for the Fund relative to the parent index is equivalent and the reduction in CO2 emissions intensity was slightly lower. The Fund continues to avoid companies excluded by the Reference Index.

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

The sustainable investments made by the Fund contributed to environmental objectives such as climate change, water management, pollution prevention, and to social objectives such as good health, well-being and gender equality. The Fund achieved those objectives by investing in constituents of the Reference Index. According to Invesco's sustainable investment framework, a percentage (as disclosed above) of constituents of the Reference Index contributed positively to selected Sustainable Development Goals (SDGs) that related to the above objectives.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

The index methodology of the Reference Index that the Fund tracks takes into account principal adverse impacts (PAI) indicators defined in Table 1 of Annex I of the regulatory technical standards for Regulation 2019/2088 (RTS). Securities that didn't meet certain PAI thresholds were excluded from the Reference Index.

How were the indicators for adverse impacts on sustainability factors taken into account?

Please see above on how the indicators for adverse impacts on sustainability factors have been taken into account.

The index methodology directly excluded a number of companies involved in certain business activities. Through removal of companies involved in thermal coal and oil sands the Reference Index reduced its exposure to greenhouse gas emissions. The methodology also excluded companies involved in controversial weapons and those facing very severe ESG controversies, as assessed via MSCI Controversy Scores. Through its exclusions based on MSCI ESG Score, and adjustment of the weighting for those that are above the threshold based on these same scores, the Reference Index also addressed a number of other adverse indicators. The Reference Index also excluded any companies where data wasn't available to make such assessments.

MSCI ESG Scores consider a number of key issues in their construction, including, but not limited to; carbon emissions, product carbon footprint, biodiversity & land use, toxic emissions & waste, opportunities in renewable energy. The scores also take into account areas such as human capital as well as corporate governance, considering ownership & control, pay and the board.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

MSCI Controversy Scores consider controversies in a number of different areas, including, but not limited to; biodiversity & land use, energy & climate change, toxic emissions & waste, operational waste, discrimination & workforce diversity, and governance structures. Any company that violates the UN Global Compact receives a very severe MSCI Controversy Score.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Alignment with the OECD Guidelines for Multinational Enterprises (the "**OECD Guidelines**") and the UN Guiding Principles on Business and Human Rights (the "**UN Guiding Principles**") is captured in the index methodology of the Fund, with the result that securities were excluded from the investible universe if they were deemed not to be in alignment.

The index methodology excluded companies that aren't compliant with the UN Global Compact (the "**UNGC**"), this set of ten principles show significant overlap with both the OECD Guidelines and the UN Guiding Principles . With regards to OECD Guidelines, these guidelines and the UNGC both aim to promote corporate responsibility and sustainable business practices, in terms of specific topics, they both cover the areas of human rights, employment relations, environment and anti-corruption. As for the two UN frameworks, whilst they do vary in nature, scope and depth, the two come together in their overriding objective (to achieve a more responsible and accountable business community) as well as some of the key areas they address, namely in the human rights space.

The index methodology excluded companies facing very severe ESG controversies, as assessed via MSCI Controversy Scores. These scores assess controversies that may constitute a breach of selected global norms and conventions, including the UNGC, the International Labour Organisation's conventions, and the United Nations Guiding Principles.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the Union criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the Union criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

As noted above, the index methodology considered principal adverse impacts on sustainability factors, primarily through a set of exclusion criteria corresponding to the indicators that are defined in Table 1, Annex I of the RTS.

The below table shows the PAI scores for the fund, the data is representative of the reference period.

Adverse sustainability indicator	PAI	Data	Metric
Greenhouse gas emissions	1.GHG Emissions	1,839.11	Scope 1 fund financed emissions (Tonnes of CO2 equivalent)
		307.09	Scope 2 fund financed emissions (Tonnes of CO2 equivalent)
		12,469.55	Scope 3 fund financed emissions (Tonnes of CO2 equivalent)
		14,615.75	Total Financed emissions (Scope 1 + Scope 2 + Scope 3) (Tonnes of CO2 equivalent)
	2. Carbon footprint	473.74	Fund level Carbon footprint (Scope 1 + Scope 2 + Scope 3) (Per Million EUR Invested)
	3. GHG Intensity of investee companies	966.07	Fund level Total Emission Intensity- Scope 1+2+3 (Per Million EUR Revenue)
	4. Exposure to companies active in the fossil fuel sector	0.11	% of the fund exposed to any fossil fuels revenue
	5. Share of non-renewable energy consumption	53.32	Adjusted Weighted Average of all issuers in the fund's share of non-renewable energy consumption and non-renewable energy production of investee companies from non-renewable energy sources compared to renewable energy sources, expressed as a percentage of total energy sources (%)
	5. Share of non-renewable energy production	16.70	
	6. Energy consumption intensity per high impact climate sector		Adjusted weighted average energy consumption of issuers in the fund in GWh per million EUR of revenue of investee companies, per high impact climate sector
	Agriculture, Forestry & Fishing	2.85	
	Construction	0.03	
	Electricity, Gas, Steam & Air Conditioning Supply	0.66	
	Manufacturing	0.45	
	Mining & Quarrying	0.88	
	Real Estate Activities	0.52	
	Transportation & Storage	0.95	
	Water Supply, Sewerage, Waste Management & Remediation Activities	0.66	
	Wholesale & Retail Trade & Repair of Motor Vehicles & Motorcycles	0.09	
Biodiversity	7. Activites negatively affecting biodiversity-sensitive areas	0.50	Share of investments in the fund of investee companies with sites/operations located in or near to biodiversity-sensitive areas where activities of those investee companies negatively affect those areas
Water	8. Emissions to water	0.49	Adjusted weighted average per issuer in the fund's emissions to water generated by investee companies

			per million EUR invested (Tonnes)
Waste	9. Hazardous waste and radioactive waste ratio	2.67	Tonnes of hazardous waste and radioactive waste generated by investee companies per million EUR invested, expressed as a weighted average
Social and employee matters	10. Violations fo UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises	0.00	Share of investments in investee companies that have been involved in violations of the UNGC principles or OECD Guidelines for Multinational Enterprises
	11. Lack of proceses and compliance mechanisms to monitor compliance with UN Global Compact principles and OECD Guidelines for Multinational Enterprises	26.25	Share of investments in investee companies without policies to monitor compliance with the UNGC principles or OECD Guidelines for Multinational Enterprises or grievance/ complaints handling mechanisms to address violations of the UNGC principles or OECD Guidelines for Multinational Enterprises
	12. Unadjusted gender pay gap	18.37	Weighted Average of all issuers' in the portfolio unadjusted gender pay gap of investee companies
	13. Board gender diversity	40.02	Waited Average of all issuers in the portfolio ratio of female to male board members in investee companies, expressed as a percentage of all board members
	14. Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons)	0.00	Share of investments in investee companies involved in the manufacture or selling of controversial weapons
Optional Indicators	Optional Indicator: 4. Investments in companies without carbon emission reduction initiative	18.15	Share of investments in investee companies without carbon emission reduction initiatives aimed at aligning with the Paris Agreement
	Optional Indicator: 9. Lack of a human rights policy	0.97	Share of investments in entities without a human rights policy

In addition, as part of the Fund's consideration of principal adverse impacts on sustainability factors, the ESG team monitored the investments against PAI indicators. Invesco conducted research into certain issuers in the Fund's portfolio that were deemed to flag against PAI indicators, in order to determine whether any engagement activity was required in accordance with the engagement policy.

What were the top investments of this financial product?

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is: From 1st of January 2023 to 31st of December 2023.

Large Investments	Sector	% Assets	Country
ASML HOLDING NV	Information Technology	6.84%	Netherlands
UNILEVER PLC	Consumer Staples	3.16%	United Kingdom
L'OREAL	Consumer Staples	2.72%	France
ALLIANZ SE-REG	Financials	2.42%	Germany
SCHNEIDER ELECTR	Industrials	2.40%	France
ZURICH INSURANCE	Financials	1.79%	Switzerland
RELX PLC	Industrials	1.64%	United Kingdom
HERMES INTL	Consumer Discretionary	1.60%	France
ABB LTD-REG	Industrials	1.51%	Switzerland
AXA	Financials	1.39%	France
ESSILORLUXOTTICA	Health Care	1.35%	France
MUENCHENER RUE-R	Financials	1.31%	Germany
PRX NA COM	Consumer Discretionary	1.30%	Netherlands
ING GROEP NV	Financials	1.21%	Netherlands
NATIONAL GRID PL	Utilities	1.19%	United Kingdom

What was the proportion of sustainability-related investments?

See below field

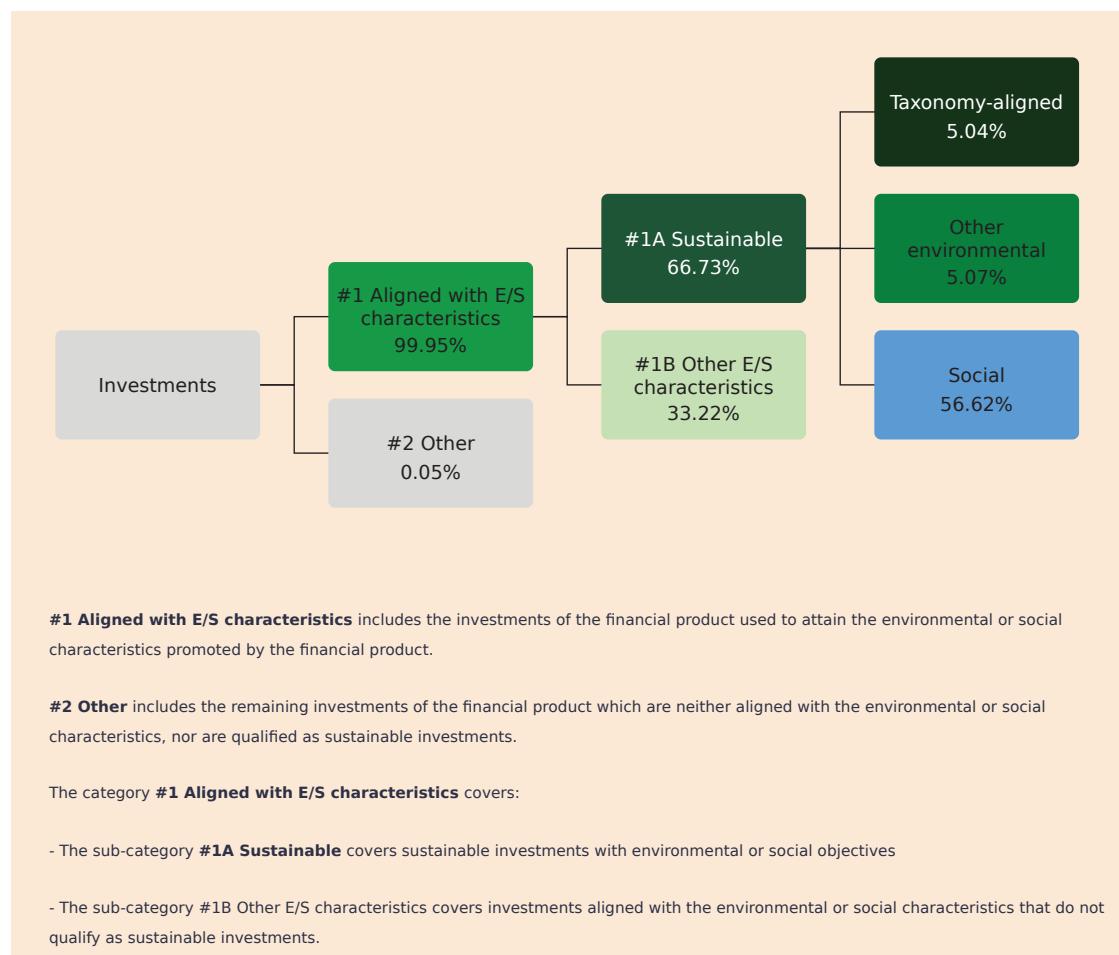

Asset allocation describes the share of investments in specific assets.

● What was the asset allocation?

99.95% of the Fund's NAV was invested in investments that aligned with the environmental and social characteristics of the Fund.

0.05% of the Fund's NAV was invested in financial derivative instruments for hedging and/or efficient portfolio management purposes; or was held as cash for ancillary liquidity purposes.

66.73% of the Fund's NAV was invested in sustainable investments.

● In which economic sectors were the investments made?

GICS Sector Breakdown as the data is representative of the reference period.

Sector (GICS)	Weight %
Financials	21.53
Communication Services	4.35
Consumer Discretionary	13.52
Information Technology	9.78
Industrials	18.93
Consumer Staples	11.27
Energy	0.59
Real Estate	1.12
Health Care	5.71
Materials	8.75
Utilities	4.40
Cash	0.05
Total	100.00

GICS Level 4 breakdown for Energy Sector

Sub-Industry Code	Sub-Industry Name	Weight
10101010	Oil & Gas Drilling	0.00
10101020	Oil & Gas Equipment & Services	0.18
10102010	Integrated Oil & Gas	0.00
10102020	Oil & Gas Exploration & Production	0.00
10102030	Oil & Gas Refining & Marketing	0.41
10102040	Oil & Gas Storage & Transportation	0.00
10102050	Coal & Consumable Fuels	0.00
Total		0.59

Although the Fund has exclusions around fossil fuel extraction, there may still have been exposure to fossil fuels as represented in part by exposure to the energy sector as disclosed above.

To comply with the EU Taxonomy, the criteria for fossil gas include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For nuclear energy, the criteria include comprehensive safety and waste management rules.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

Although the Fund does not commit to a minimum of sustainable investments aligned with the EU Taxonomy the extent to which the Fund as a whole was aligned with the EU Taxonomy was calculated for the reference period. 5.04% (Turnover) of the Fund's portfolio was aligned with the EU Taxonomy. The figures are representative of the reference period.

Enabling activities directly enable other activities to make a substantial

contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- turnover reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) shows the green investments made by investee companies, relevant for a transition to a green economy.
- **operational expenditure** (OpEx) reflects the green operational activities of investee companies.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

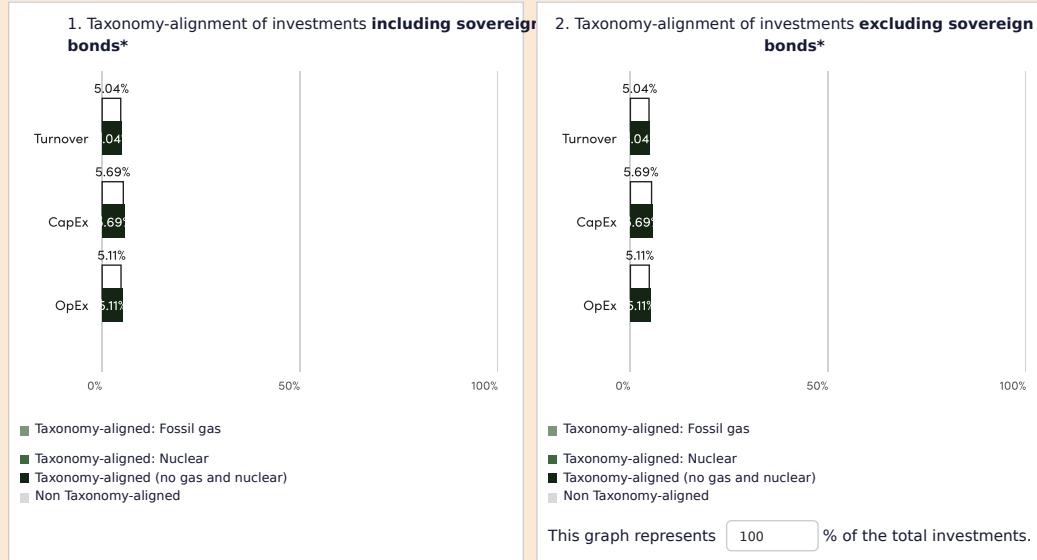

Yes

In fossil gas

In nuclear energy

No

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

*For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

What was the share of investments made in transitional and enabling activities?

The below table shows the share of investments in transitional and enabling activities as the data is representative of the reference period.

	Aligned
Enabling	3.72%
Transition	0.11%

'Aligned' means % of revenues of the investments of the Fund that are aligned to the EU Taxonomy.

How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

The percentage of investments that were aligned with the EU Taxonomy increased compared to the previous reference period.

 are sustainable investments with an environmental objective that do not take into account the criteria for environmentally sustainable economic activities under the EU Taxonomy.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

As the Fund does not currently intend to be EU Taxonomy aligned, 5.07% of the Fund's NAV was invested in sustainable investments with an environmental objective that was not aligned with the EU Taxonomy.

Currently, the Fund does not intend to be aligned with the Taxonomy Regulation and the Manager intends to keep the Fund's position in relation to the Taxonomy Regulation under consideration along with the reliability of datasets to determine Taxonomy alignment. To the extent required, the Manager will amend the pre-contractual documentation accordingly.

What was the share of socially sustainable investments?

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

56.62% of the Fund's NAV.

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

Investments included under this category are financial derivative instruments for hedging and/or efficient portfolio management purposes and cash for ancillary liquidity. No minimum environmental or social safeguards are applied in relation to these instruments.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Fund achieved the environmental and social characteristics by tracking the Reference Index, which has a methodology that is consistent with attaining the environmental and social characteristics promoted by the Fund.

Please refer to the section “How did the sustainability indicators perform” above for further information.

How did this financial product perform compared to the reference benchmark?

See tables completed in below sections.

How does the reference benchmark differ from a broad market index?

The Reference Index differs from a broad market index because it seeks to increase overall exposure to companies with high ESG ratings, relative to sector peers.

How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

As the Fund fully replicates the performance of the Reference Index, the sustainability indicators performed similarly for the Fund and Reference Index:

Sustainability Indicator	Fund Indicator Performance	Reference Index Indicator Performance
MSCI ESG Score (as defined in the methodology of the Reference Index)	8.61	8.61
CO2 emissions intensity	87.0	87.0
Percentage of exposure in excluded companies involved in controversial business activities and controversies (as defined in the methodology of the Reference Index)	The Fund had 0% exposure to excluded companies at each Reference Index rebalance date	The Reference Index had 0% exposure to excluded companies at each Reference Index rebalance date

How did this financial product perform compared with the reference benchmark?

As the Fund achieves the environmental and social characteristics by tracking the Reference Index, which has a methodology that is consistent with attaining the environmental and social characteristics promoted by the Fund, the performance of the Fund is aligned with that of the Reference Benchmark. Please see above for the performance of the sustainability indicators compared with the Reference Benchmark.

How did this financial product perform compared with the broad market index?

The Parent Index also acts as a relevant broad market index. The sustainability indicators for the Fund

Reference benchmarks
are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

and Parent Index differed as below:

Sustainability Indicator	Fund Indicator Performance	Broad Market benchmark (Parent Index) Indicator Performance
MSCI ESG Score (as defined in the methodology of the Reference Index)	8.61	7.88
CO2 emissions intensity	87.0	88.9
Percentage of the fund portfolio invested in excluded companies involved in controversial business activities and controversies (as defined in the methodology of the Reference Index)	The Reference Index had 0% exposure to excluded companies at each Reference Index rebalance date	The Broad Market benchmark had 27.0% exposure to excluded companies at the latest Reference Index rebalance date

Annex

Product name: Invesco MSCI World ESG Universal Screened UCITS ETF

Legal entity identifier: 549300IKZ21UH0RQ7V16

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The EU Taxonomy is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?	
<p><input checked="" type="radio"/> Yes</p> <p><input type="checkbox"/> It made sustainable investments with an environmental objective: _____ %</p> <ul style="list-style-type: none"> <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <p><input type="checkbox"/> It made sustainable investments with a social objective: _____ %</p>	<p><input type="radio"/> No</p> <p><input checked="" type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of <u>49.69</u> % of sustainable investments</p> <ul style="list-style-type: none"> <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with a social objective <p><input type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments</p>

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The environmental and social characteristics promoted by the Fund were to increase overall exposure to large and mid-capitalisation companies in developed markets worldwide demonstrating a robust ESG profile, as well as a positive trend in improving that profile. i.e. issuers with a more favourable or increasingly favourable ESG rating compared to similar issuers. The fund also reduced its exposure to companies involved in certain business activities and those with involvement in very severe ESG controversies.

The Fund achieved the environmental and social characteristics by tracking the MSCI World ESG Universal Select Business Screens Index (the "Reference Index"), which has a methodology that is consistent with attaining the environmental and social characteristics promoted by the Fund.

The extent to which the Fund tracked the Reference Index is reflected by the tracking error figures available in the section "Tracking Error Analysis" of the Annual Report.

How did the sustainability indicators perform?

The Fund used a variety of indicators to measure the attainment of the environmental and social characteristics. The Fund performed as at 31st of December 2023. The data is representative of the reference period.

Sustainability Indicator	Indicator Performance
MSCI ESG Score (as defined in the methodology of the Reference Index) of the Fund relative to the MSCI World Index (the " Parent Index ")	8.0% improvement
CO2 emissions intensity of the Fund relative to the Parent Index	30.5% reduction
Percentage of the Fund portfolio invested in excluded companies involved in controversial business activities and controversies (as defined in the methodology of the Reference Index)	As at each Reference Index rebalance date, the Fund had 0% exposure to excluded companies

...and compared to previous periods?

Compared to last period the improvement in MSCI ESG Score for the Fund relative to the parent index has improved, whilst the reduction in CO2 emissions intensity was slightly lower. The Fund continues to avoid companies excluded by the Reference Index.

What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

The sustainable investments made by the Fund contributed to environmental objectives such as climate change, water management, pollution prevention, and to social objectives such as good health, well-being and gender equality. The Fund achieved those objectives by investing in constituents of the Reference Index. According to Invesco's sustainable investment

framework, a percentage (as disclosed above) of constituents of the Reference Index contributed positively to selected Sustainable Development Goals (SDGs) that related to the above objectives.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

The index methodology of the Reference Index that the Fund tracks takes into account principal adverse impacts (PAI) indicators defined in Table 1 of Annex I of the regulatory technical standards for Regulation 2019/2088 (RTS). Securities that didn't meet certain PAI thresholds were excluded from the Reference Index or had their weightings reduced.

How were the indicators for adverse impacts on sustainability factors taken into account?

Please see above on how the indicators for adverse impacts on sustainability factors have been taken into account.

The index methodology directly excluded a number of companies involved in certain business activities. Through removal of companies involved in thermal coal and oil sands the Reference Index reduced its exposure to greenhouse gas emissions. The methodology also excluded companies involved in controversial weapons and those facing very severe ESG controversies, as assessed via MSCI Controversy Scores. Through its exclusions based on MSCI ESG Score, and adjustment of the weighting for those that are above the threshold based on these same scores, the Reference Index also addressed a number of other adverse indicators. The Reference Index also excluded any companies where data wasn't available to make such assessments.

MSCI ESG Scores consider a number of key issues in their construction, including, but not limited to; carbon emissions, product carbon footprint, biodiversity & land use, toxic emissions & waste, opportunities in renewable energy. The scores also take into account areas such as human capital as well as corporate governance, considering ownership & control, pay and the board.

MSCI Controversy Scores consider controversies in a number of different areas, including, but not limited to; biodiversity & land use, energy & climate change, toxic emissions & waste, operational waste, discrimination & workforce diversity, and governance structures. Any company that violates the UN Global Compact receives a very severe MSCI Controversy Score.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Alignment with the OECD Guidelines for Multinational Enterprises (the "OECD Guidelines") and the UN Guiding Principles on Business and Human Rights (the UN Guiding Principles") is captured in the index methodology of the Fund, with the result that securities were excluded from the investible universe if they were deemed not to be in alignment.

The index methodology excluded companies that aren't compliant with the UN Global Compact (the "UNGC"), this set of ten principles show significant overlap with both the OECD Guidelines and the UN Guiding Principles . With regards to OECD Guidelines, these guidelines and the UNGC both aim to promote corporate responsibility and sustainable business practices, in terms of specific topics, they both cover the areas of human rights, employment relations, environment and anti-corruption. As for the two UN frameworks, whilst they do vary in nature, scope and depth, the two come together in their overriding objective (to achieve a more responsible and accountable business community) as well as some of the key areas they address, namely in the human rights space.

The index methodology excluded companies facing very severe ESG controversies, as assessed via MSCI Controversy Scores. These scores assess controversies that may constitute a breach of selected global norms and conventions, including the UNGC, the International Labour Organisation's conventions, and the United Nations Guiding Principles on Business and Human Rights.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the Union criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the Union criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

As noted above, the index methodology considered principal adverse impacts on sustainability factors, primarily through a set of exclusion criteria corresponding to the indicators that are defined in Table 1, Annex I of the RTS.

The below table shows the PAI scores for the fund- the data is representative of the reference period.

Adverse sustainability indicator	PAI	Data	Metric
Greenhouse gas emissions	1.GHG Emissions	2,737.41	Scope 1 fund financed emissions (Tonnes of CO2 equivalent)
		796.82	Scope 2 fund financed emissions (Tonnes of CO2 equivalent)
		41,455.44	Scope 3 fund financed emissions (Tonnes of CO2 equivalent)
		44,989.68	Total Financed emissions (Scope 1 + Scope 2 + Scope 3) (Tonnes of CO2 equivalent)
	2. Carbon footprint	401.01	Fund level Carbon footprint (Scope 1 + Scope 2 + Scope 3) (Per Million EUR Invested)
	3. GHG Intensity of investee companies	1,116.54	Fund level Total Emission Intensity- Scope 1+2+3 (Per Million EUR Revenue)
	4. Exposure to companies active in the fossil fuel sector	1.55	% of the fund exposed to any fossil fuels revenue
	5. Share of non-renewable energy consumption	58.99	Adjusted Weighted Average of all issuers in the fund's share of non-renewable energy consumption and non-renewable energy production of investee companies from non-renewable energy sources compared to renewable energy sources, expressed as a percentage of total energy sources (%)
	5. Share of non-renewable energy production	16.84	
	6. Energy consumption intensity per high impact climate sector		Adjusted weighted average energy consumption of issuers in the fund in GWh per million EUR of revenue of investee companies, per high impact climate sector
	Agriculture, Forestry & Fishing	3.12	
	Construction	0.12	
	Electricity, Gas, Steam & Air Conditioning Supply	3.94	
	Manufacturing	0.77	
	Mining & Quarrying	21.87	
	Real Estate Activities	0.52	
	Transportation & Storage	1.80	
	Water Supply, Sewerage, Waste Management & Remediation Activities	0.66	
	Wholesale &	0.50	

	Retail Trade & Repair of Motor Vehicles & Motorcycles		
Biodiversity	7. Activites negatively affecting biodiversity-sensitive areas	5.64	Share of investments in the fund of investee companies with sites/operations located in or near to biodiversity-sensitive areas where activities of those investee companies negatively affect those areas
Water	8. Emissions to water	0.55	Adjusted weighted average per issuer in the fund's emissions to water generated by investee companies per million EUR invested (Tonnes)
Waste	9. Hazardous waste and radioactive waste ratio	3.35	Tonnes of hazardous waste and radioactive waste generated by investee companies per million EUR invested, expressed as a weighted average
Social and employee matters	10. Violations fo UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises	0.00	Share of investments in investee companies that have been involved in violations of the UNGC principles or OECD Guidelines for Multinational Enterprises
	11. Lack of processes and compliance mechanisms to monitor compliance with UN Global Compact principles and OECD Guidelines for Multinational Enterprises	52.94	Share of investments in investee companies without policies to monitor compliance with the UNGC principles or OECD Guidelines for Multinational Enterprises or grievance/ complaints handling mechanisms to address violations of the UNGC principles or OECD Guidelines for Multinational Enterprises
	12. Unadjusted gender pay gap	16.00	Weighted Average of all issuers' in the portfolio unadjusted gender pay gap of investee companies
	13. Board gender diversity	34.31	Waited Average of all issuers in the portfolio ratio of female to male board members in investee companies, expressed as a percentage of all board members
	14. Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons)	0.00	Share of investments in investee companies involved in the manufacture or selling of controversial weapons
Optional Indicators	Optional Indicator: 4. Investments in companies without carbon	30.77	Share of investments in investee companies without carbon emission reduction initiatives aimed at aligning with the Paris Agreement

	emission reduction initiative		
	Optional Indicator: 9. Lack of a human rights policy	5.26	Share of investments in entities without a human rights policy

In addition, as part of the Fund's consideration of principal adverse impacts on sustainability factors, the ESG team monitored the investments against PAI indicators. Invesco conducted research into certain issuers in the Fund's portfolio that were deemed to flag against PAI indicators, in order to determine whether any engagement activity was required in accordance with the engagement policy.

What were the top investments of this financial product?

Large Investments	Sector	% Assets	Country
Microsoft Corp	Information Technology	5.12%	United States
Apple Inc	Information Technology	3.34%	United States
NVIDIA CORP	Information Technology	2.70%	United States
Amazon.com Inc	Consumer Discretionary	1.68%	United States

PEPSICO INC	Consumer Staples	0.66%	United States

What was the proportion of sustainability-related investments?

See below field

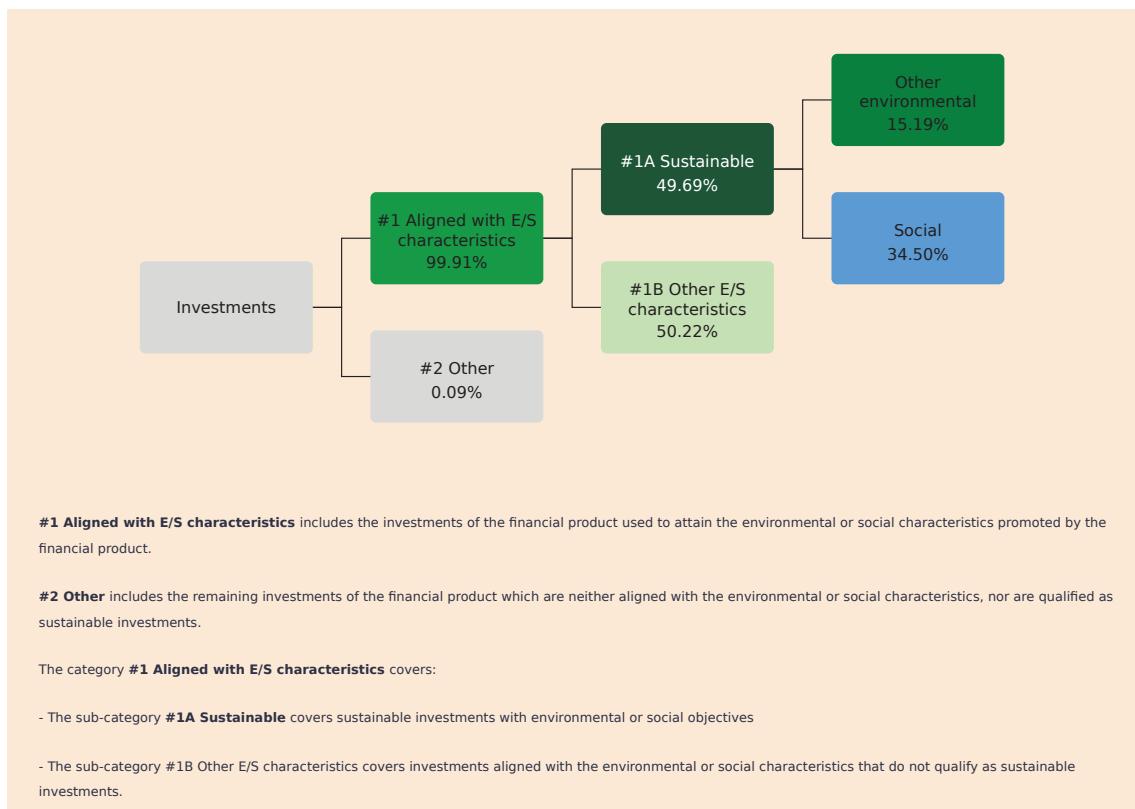

Asset allocation describes the share of investments in specific assets.

What was the asset allocation?

99.91% of the Fund's NAV was invested in investments that aligned with the environmental and social characteristics of the Fund.

0.09% of the Fund's NAV was invested in financial derivative instruments for hedging and/or efficient portfolio management purposes; or was held as cash for ancillary liquidity purposes.

49.69% of the Fund's NAV was invested in sustainable investments.

● **In which economic sectors were the investments made?**

GICS Sector Breakdown - the data is representative of the reference period.

Sector (GICS)	Weight %
Financials	16.09
Communication Services	5.35
Consumer Discretionary	10.53
Information Technology	24.43
Industrials	10.16
Consumer Staples	7.64
Energy	2.46
Real Estate	2.64
Health Care	14.58
Materials	3.87
Utilities	2.16
Cash	0.09
Total	100.00

GICS Level 4 breakdown for Energy Sector

Sub-Industry Code	Sub-Industry Name	Weight
10101010	Oil & Gas Drilling	0.00
10101020	Oil & Gas Equipment & Services	0.34
10102010	Integrated Oil & Gas	0.24
10102020	Oil & Gas Exploration & Production	0.77
10102030	Oil & Gas Refining & Marketing	0.39
10102040	Oil & Gas Storage & Transportation	0.68
10102050	Coal & Consumable Fuels	0.04
Total		2.46

Although the Fund has exclusions around fossil fuel extraction, there may still have been exposure to fossil fuels as represented in part by exposure to the energy sector as disclosed above.

To comply with the EU Taxonomy, the criteria for fossil gas include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For nuclear energy, the criteria include comprehensive safety and waste management rules.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

0% of the Fund's portfolio was aligned with the EU Taxonomy.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

Yes

In fossil gas

In nuclear energy

No

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

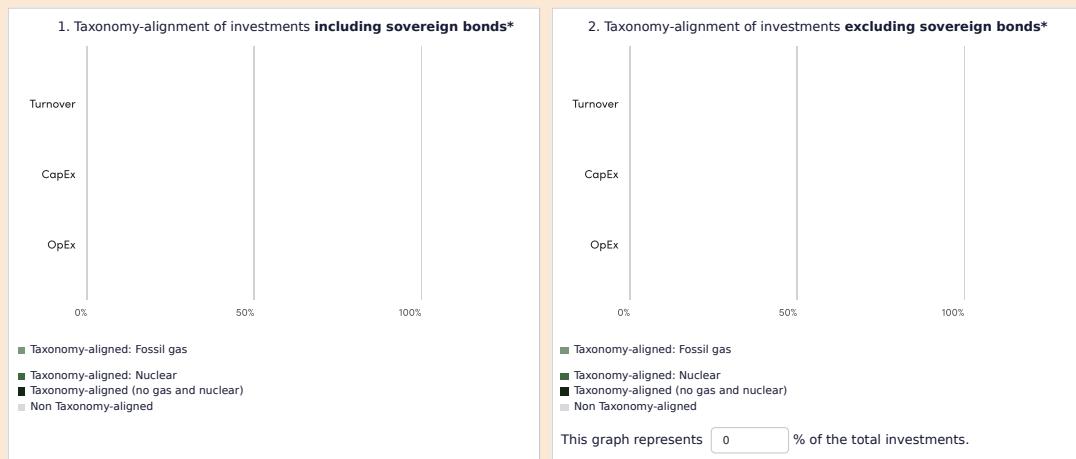

Taxonomy-aligned activities are expressed as a share of:

- turnover reflecting the share of revenue from green activities of investee companies.
- capital expenditure (CapEx) shows the green investments made by investee companies, relevant for a transition to a green economy.
- operational expenditure (OpEx) reflects the green

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

operational activities of
investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

*For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

● What was the share of investments made in transitional and enabling activities?

Not Applicable.

● How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

Not Applicable.

are sustainable investments with an environmental objective that do not take into account the criteria for environmentally sustainable economic activities under the EU Taxonomy.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

As the Fund does not currently intend to be EU Taxonomy aligned, 15.19% of the Fund's NAV was invested in sustainable investments with an environmental objective that was not aligned with the EU Taxonomy. Currently the Fund does not intend to be aligned with the Taxonomy Regulation and the Manager intends to keep the Fund's position in relation to the Taxonomy Regulation under consideration along with the reliability of datasets to determine Taxonomy alignment. To the extent required, the Manager will amend the pre-contractual documentation accordingly.

What was the share of socially sustainable investments?

34.50% of the Fund's NAV.

What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

Investments included under this category are financial derivative instruments for hedging and/or efficient portfolio management purposes and cash for ancillary liquidity. No minimum environmental or social safeguards are applied in relation to these instruments.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Fund achieved the environmental and social characteristics by tracking the Reference Index, which has a methodology that is consistent with attaining the environmental and social characteristics promoted by the Fund.

Please refer to the section "How did the sustainability indicators perform" above for further information.

How did this financial product perform compared to the reference benchmark?

See tables completed in below sections.

● How does the reference benchmark differ from a broad market index?

The Reference Index differs from a broad market index because it seeks to increase overall exposure to issuers demonstrating both a robust ESG profile, and issuers that are assigned more favourable ESG scores using MSCI ESG metrics.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social

characteristics
that they
promote.

● ***How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?***

As the Fund fully replicates the performance of the Reference Index, the sustainability indicators performed similarly for the Fund and Reference Index:

Sustainability Indicator	Fund Indicator Performance	Reference Index Indicator Performance
MSCI ESG Score (as defined in the methodology of the Reference Index) relative to the Parent Index	7.49	7.49
CO2 emissions intensity	71.1	71.1
Percentage of exposure in excluded companies involved in controversial business activities and controversies (as rebalance date defined in the methodology of the Reference Index)	The Fund had 0% exposure to excluded companies at each Reference Index rebalance date	The Reference Index had 0% exposure to excluded companies at each Reference Index rebalance date

● ***How did this financial product perform compared with the reference benchmark?***

As the Fund achieved the environmental and social characteristics by tracking the Reference Index, which has a methodology that is consistent with attaining the environmental and social characteristics promoted by the Fund, the performance of the Fund is aligned with that of the Reference Benchmark. Please see above for the performance of the sustainability indicators compared with the Reference Benchmark.

● ***How did this financial product perform compared with the broad market index?***

The Parent Index also acts as a relevant broad market index. The sustainability indicators for the Fund and Parent Index differed as below:

Sustainability Indicator	Fund Indicator Performance	Broad Market benchmark (Parent Index) Indicator Performance
MSCI ESG Score (as defined in the methodology of the Reference Index)	7.49	6.94
CO2 emissions intensity	71.1	102.3
Percentage of the Fund portfolio invested in excluded companies involved in controversial business activities and controversies (as defined in the methodology of the Reference Index)	The Reference Index had 0% exposure to excluded companies at each Reference Index rebalance date	The Broad Market benchmark had 9.0% exposure to excluded companies at the latest Reference Index rebalance date

Annex

Product name: Invesco MSCI Europe ESG Universal Screened UCITS ETF

Legal entity identifier:
549300NR0JE6T31NQ528

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

Yes

No

It made **sustainable investments with an environmental objective:** _____ %

- in economic activities that qualify as environmentally sustainable under the EU Taxonomy
- in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

It made **sustainable investments with a social objective:** _____ %

It promoted **Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of 57.17 % of sustainable investments

- with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
- with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
- with a social objective

It promoted E/S characteristics, but **did not make any sustainable investments**

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The environmental and social characteristics promoted by the Fund were to increase overall exposure to large- and mid-capitalisation companies in Europe demonstrating a robust ESG profile, as well as a positive trend in improving that profile. i.e. issuers with a more favourable or increasingly favourable ESG rating compared to similar issuers. The fund also reduced its exposure to companies involved in certain business activities and those with involvement in very severe ESG controversies.

The Fund achieved the environmental and social characteristics by tracking the MSCI Europe ESG Universal Select Business Screens Index (the "Reference Index"), which has a methodology that is consistent with attaining the environmental and social characteristics promoted by the Fund.

The extent to which the Fund tracked the Reference Index is reflected by the tracking error figures available in the section "Tracking Error Analysis" of the Annual Report.

How did the sustainability indicators perform?

The Fund used a variety of indicators to measure the attainment of the environmental and social characteristics. The Fund performed as at 31st of December 2023. The data is representative of the

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The EU **Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of environmentally sustainable economic activities. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

Sustainability Indicator	Indicator Performance
MSCI ESG Score (as defined in the methodology of the Reference Index) of the Fund relative to the MSCI Europe Index (the "Parent Index")	5.0% improvement
CO2 emissions intensity of the Fund relative to the Parent Index	17.2% reduction
Percentage of the Fund portfolio invested in excluded companies involved in controversial business activities and controversies (as defined in the methodology of the Reference Index)	As at each Reference Index rebalance date, the Fund had 0% exposure to excluded companies

● ***...and compared to previous periods?***

Compared to last period the improvement in MSCI ESG Score for the Fund relative to the parent index was slightly lower and the reduction in CO2 emissions intensity was also lower. The Fund continues to avoid companies excluded by the Reference Index.

● ***What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?***

The sustainable investments made by the Fund contributed to environmental objectives such as climate change, water management, pollution prevention, and to social objectives such as good health, well-being and gender equality. The Fund achieved those objectives by investing in constituents of the Reference Index. According to Invesco's sustainable investment framework, a percentage (as disclosed above) of constituents of the Reference Index contributed positively to selected Sustainable Development Goals (SDGs) that related to the above objectives.

● ***How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?***

The index methodology of the Reference Index that the Fund tracks takes into account principal adverse impacts (PAI) indicators defined in Table 1 of Annex I of the regulatory technical standards for Regulation 2019/2088 (RTS). Securities that didn't meet certain PAI thresholds were excluded from the Reference Index or had their weightings reduced.

How were the indicators for adverse impacts on sustainability factors taken into account?

Please see above on how the indicators for adverse impacts on sustainability factors have been taken into account.

The index methodology directly excluded a number of companies involved in certain business activities. Through removal of companies involved in thermal coal and oil sands the Reference Index reduced its exposure to greenhouse gas emissions. The methodology also excluded companies involved in controversial weapons and those facing very severe ESG controversies, as assessed via MSCI Controversy Scores. Through its exclusions based on MSCI ESG Score, and adjustment of the weighting for those that are above the threshold based on these same scores, the Reference Index also addressed a number of other adverse indicators. The Reference Index also excluded any companies where data wasn't available to make such assessments.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

MSCI ESG Scores consider a number of key issues in their construction, including, but not limited to; carbon emissions, product carbon footprint, biodiversity & land use, toxic emissions & waste, opportunities in renewable energy. The scores also take into account areas such as human capital as well as corporate governance, considering ownership & control, pay and the board.

MSCI Controversy Scores consider controversies in a number of different areas, including, but not limited to; biodiversity & land use, energy & climate change, toxic emissions & waste, operational waste, discrimination & workforce diversity, and governance structures. Any company that violates the UN Global Compact receives a very severe MSCI Controversy Score.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Alignment with the OECD Guidelines for Multinational Enterprises (the "OECD Guidelines") and the UN Guiding Principles on Business and Human Rights (the UN Guiding Principles") is captured in the index methodology of the Fund, with the result that securities were excluded from the investible universe if they were deemed not to be in alignment.

The index methodology excluded companies that aren't compliant with the UN Global Compact (the "UNGC"), this set of ten principles show significant overlap with both the OECD Guidelines and the UN Guiding Principles . With regards to OECD Guidelines, these guidelines and the UNGC both aim to promote corporate responsibility and sustainable business practices, in terms of specific topics, they both cover the areas of human rights, employment relations, environment and anti-corruption. As for the two UN frameworks, whilst they do vary in nature, scope and depth, the two come together in their overriding objective (to achieve a more responsible and accountable business community) as well as some of the key areas they address, namely in the human rights space.

The index methodology excluded companies facing very severe ESG controversies, as assessed via MSCI Controversy Scores. These scores assess controversies that may constitute a breach of selected global norms and conventions, including the UNGC, the International Labour Organisation's conventions, and the United Nations Guiding Principles on Business and Human Rights.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the Union criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the Union criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

As noted above, the index methodology considered principal adverse impacts on sustainability factors, primarily through a set of exclusion criteria corresponding to the indicators that are defined in Table 1, Annex I of the RTS.

The below table shows the PAI scores for the fund, the data is representative of the reference period.

Adverse sustainability indicator	PAI	Data	Metric
Greenhouse gas emissions	1.GHG Emissions	6,949.40	Scope 1 fund financed emissions (Tonnes of CO2 equivalent)
		1,287.33	Scope 2 fund financed emissions (Tonnes of CO2 equivalent)
		67,014.60	Scope 3 fund financed emissions (Tonnes of CO2 equivalent)
		75,251.33	Total Financed emissions (Scope 1 + Scope 2 + Scope 3) (Tonnes of CO2 equivalent)
	2. Carbon footprint	529.60	Fund level Carbon footprint (Scope 1 + Scope 2 + Scope 3) (Per Million EUR Invested)
	3. GHG Intensity of investee companies	1,018.10	Fund level Total Emission Intensity- Scope 1+2+3 (Per Million EUR Revenue)
	4. Exposure to companies active in the fossil fuel sector	0.47	% of the fund exposed to any fossil fuels revenue
	5. Share of non-renewable energy consumption	56.30	Adjusted Weighted Average of all issuers in the fund's share of non-renewable energy consumption and non-renewable energy production of investee companies from non-renewable energy sources compared to renewable energy sources, expressed as a percentage of total energy sources (%)
	5. Share of non-renewable energy production	32.72	
	6. Energy consumption intensity per high impact climate sector		Adjusted weighted average energy consumption of issuers in the fund in GWh per million EUR of revenue of investee companies, per high impact climate sector
	Agriculture, Forestry & Fishing	2.85	
	Construction	0.11	
	Electricity, Gas, Steam & Air Conditioning Supply	2.22	
	Manufacturing	0.34	
	Mining & Quarrying	1.40	
	Real Estate Activities	0.49	
	Transportation & Storage	0.46	
	Water Supply, Sewerage, Waste Management & Remediation Activities	0.66	
	Wholesale & Retail Trade & Repair of Motor Vehicles & Motorcycles	0.08	
Biodiversity	7. Activites negatively affecting biodiversity-sensitive areas	8.98	Share of investments in the fund of investee companies with sites/operations located in or near to biodiversity-sensitive areas where activities of those investee companies negatively affect those areas
Water	8. Emissions to water	0.17	Adjusted weighted average per issuer in the fund's emissions to water generated by investee companies

			per million EUR invested (Tonnes)
Waste	9. Hazardous waste and radioactive waste ratio	1.74	Tonnes of hazardous waste and radioactive waste generated by investee companies per million EUR invested, expressed as a weighted average
Social and employee matters	10. Violations fo UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises	0.00	Share of investments in investee companies that have been involved in violations of the UNGC principles or OECD Guidelines for Multinational Enterprises
	11. Lack of proceses and compliance mechanisms to monitor compliance with UN Global Compact principles and OECD Guidelines for Multinational Enterprises	27.24	Share of investments in investee companies without policies to monitor compliance with the UNGC principles or OECD Guidelines for Multinational Enterprises or grievance/ complaints handling mechanisms to address violations of the UNGC principles or OECD Guidelines for Multinational Enterprises
	12. Unadjusted gender pay gap	14.79	Weighted Average of all issuers' in the portfolio unadjusted gender pay gap of investee companies
	13. Board gender diversity	40.19	Waited Average of all issuers in the portfolio ratio of female to male board members in investee companies, expressed as a percentage of all board members
	14. Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons)	0.00	Share of investments in investee companies involved in the manufacture or selling of controversial weapons
Optional Indicators	Optional Indicator: 4. Investments in companies without carbon emission reduction initiative	18.88	Share of investments in investee companies without carbon emission reduction initiatives aimed at aligning with the Paris Agreement
	Optional Indicator: 9. Lack of a human rights policy	0.84	Share of investments in entities without a human rights policy

In addition, as part of the Fund's consideration of principal adverse impacts on sustainability factors, the ESG team monitored the investments against PAI indicators. Invesco conducted research into certain issuers in the Fund's portfolio that were deemed to flag against PAI indicators, in order to determine whether any engagement activity was required in accordance with the engagement policy.

What were the top investments of this financial product?

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is: From 1st of January 2023 to 31st of December 2023.

Large Investments	Sector	% Assets	Country
ASML HOLDING NV	Information Technology	3.57%	Netherlands
NESTLE SA-REG	Consumer Staples	3.54%	Switzerland
LVMH MOET HENNE	Consumer Discretionary	3.05%	France
ASTRAZENECA PLC	Health Care	2.76%	United Kingdom

What was the proportion of sustainability-related investments?

See below field

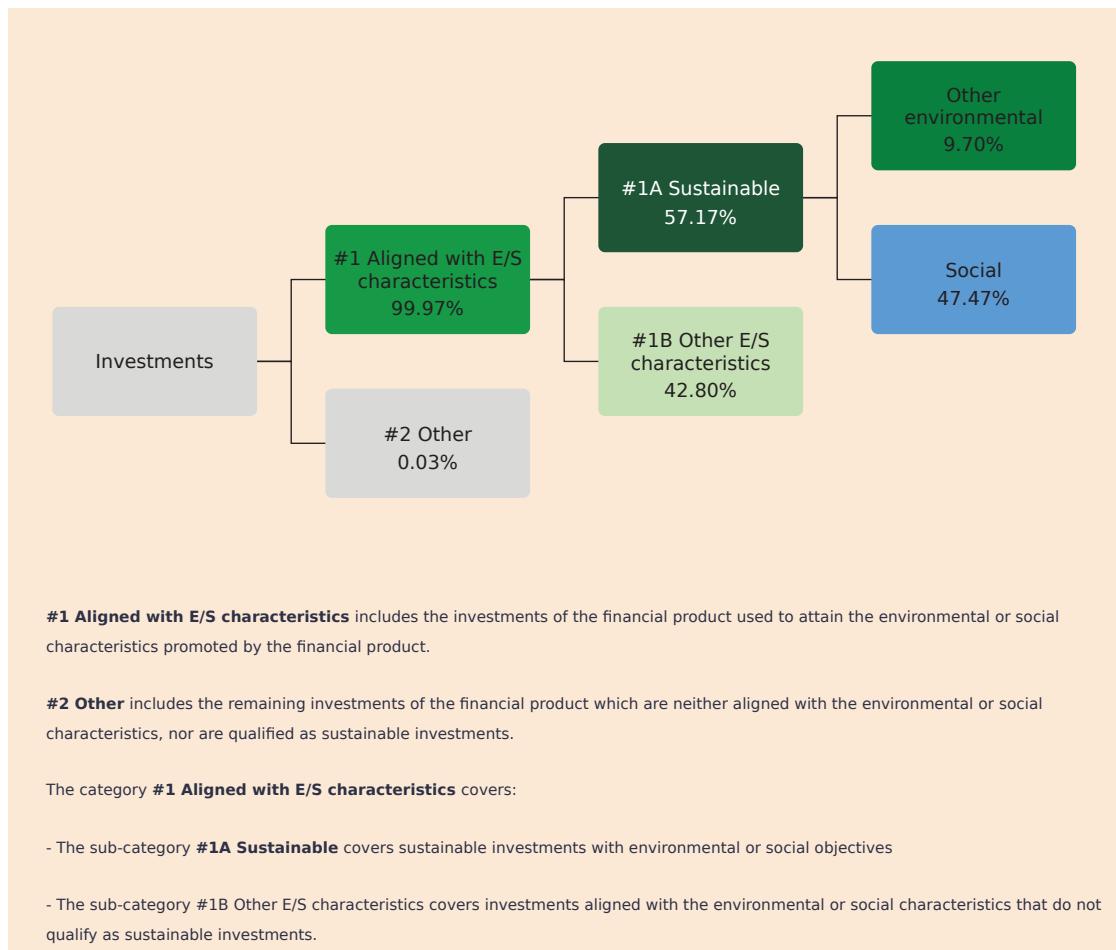

Asset allocation describes the share of investments in specific assets.

● What was the asset allocation?

99.97% of the Fund's NAV was invested in investments that aligned with the environmental and social characteristics of the Fund.

0.03% of the Fund's NAV was invested in financial derivative instruments for hedging and/or efficient portfolio management purposes; or was held as cash for ancillary liquidity purposes.

57.17% of the Fund's NAV was invested in sustainable investments.

● In which economic sectors were the investments made?

GICS Sector Breakdown - the data is representative of the reference period.

Sector (GICS)	Weight %
Financials	20.07
Communication Services	3.05
Consumer Discretionary	10.98
Information Technology	8.42
Industrials	14.89
Consumer Staples	12.83
Energy	1.19
Real Estate	0.88
Health Care	16.39
Materials	6.47
Utilities	4.80
Cash	0.03
Total	100.00

Sub-Industry Code	Sub-Industry Name	Weight
10101010	Oil & Gas Drilling	0.00
10101020	Oil & Gas Equipment & Services	0.05
10102010	Integrated Oil & Gas	0.88

10102030	Oil & Gas Refining & Marketing	0.21
10102040	Oil & Gas Storage & Transportation	0.00
10102050	Coal & Consumable Fuels	0.00
Total		1.19

Although the Fund has exclusions around fossil fuel extraction, there may still have been exposure to fossil fuels as represented in part by exposure to the energy sector as disclosed above.

To comply with the EU Taxonomy, the criteria for fossil gas include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For nuclear energy, the criteria include comprehensive safety and waste management rules.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

0% of the Fund's portfolio was aligned with the EU Taxonomy.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

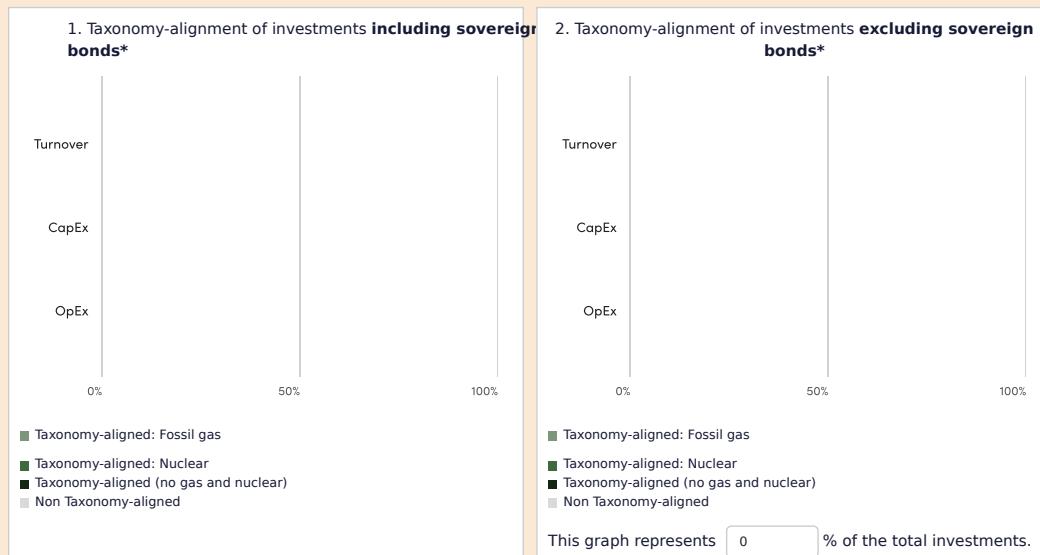

Yes

In fossil gas

In nuclear energy

No

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

*For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

● **What was the share of investments made in transitional and enabling activities?**

Not Applicable.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not Applicable.

 are sustainable investments with an environmental objective that do not take into account the criteria for environmentally sustainable economic activities under the EU Taxonomy.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

As the Fund does not currently intend to be EU Taxonomy aligned, 9.70% of the Fund's NAV was invested in sustainable investments with an environmental objective that was not aligned with the EU Taxonomy. Currently the Fund does not intend to be aligned with the Taxonomy Regulation and the Manager intends to keep the Fund's position in relation to the Taxonomy Regulation under consideration along with the reliability of datasets to determine Taxonomy alignment. To the extent required, the Manager will amend the pre-contractual documentation accordingly.

What was the share of socially sustainable investments?

47.47% of the Fund's NAV.

What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

Investments included under this category are financial derivative instruments for hedging and/or efficient portfolio management purposes and cash for ancillary liquidity. No minimum environmental or social safeguards are applied in relation to these instruments.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Fund achieved the environmental and social characteristics by tracking the Reference Index, which has a methodology that is consistent with attaining the environmental and social characteristics promoted by the Fund.

Please refer to the section "How did the sustainability indicators perform" above for further information.

How did this financial product perform compared to the reference benchmark?

See tables completed in below sections:

● **How does the reference benchmark differ from a broad market index?**

The Reference Index differs from a broad market index because it seeks to increase overall exposure to issuers demonstrating both a robust ESG profile, and issuers that are assigned more favourable ESG scores using MSCI ESG metrics.

● **How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?**

As the Fund aims to fully replicates the performance of the Reference Index , the sustainability

Reference benchmarks
are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

indicators performed similarly for the Fund and Reference Index:

Sustainability Indicator	Fund Indicator performance	Reference Index Indicator performance
MSCI ESG Score (as defined in the methodology Of the Reference Index) relative to the Parent Index	8.28	8.28
CO2 emissions intensity	73.6	73.6
Percentage of exposure in excluded companies involved in controversial business activities and controversies (as defined in the methodology of the Reference Index)	The Fund had 0% exposure to excluded companies at each Reference Index rebalance date	The Reference Index had 0% exposure to excluded companies at each Reference Index rebalance date

● ***How did this financial product perform compared with the reference benchmark?***

As the Fund achieves the environmental and social characteristics by tracking the Reference Index, which has a methodology that is consistent with attaining the environmental and social characteristics promoted by the Fund, the performance of the Fund is aligned with that of the Reference Benchmark. Please see above for the performance of the sustainability indicators compared with the Reference Benchmark.

● ***How did this financial product perform compared with the broad market index?***

The Parent Index also acts as a relevant broad market index. The sustainability indicators for the Fund and Parent Index differed as below:

Sustainability Indicator	Fund Indicator Performance	Broad Market benchmark (Parent Index) Indicator performance
MSCI ESG Score (as defined in the methodology of the Reference Index)	8.28	7.88
CO2 emissions intensity	73.6	88.9
Percentage of the Fund portfolio invested in excluded companies involved in controversial business activities and controversies (as defined in the methodology Of the Reference Index)	The Reference Index had 0% exposure to excluded companies at each Reference Index rebalance date	The Broad Market benchmark had 11.8% exposure to excluded companies at the latest Reference Index rebalance date

Annex

Product name: Invesco MSCI USA ESG Universal Screened UCITS ETF **Legal entity identifier:** 54930050XX7J4D0I5R34

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The EU Taxonomy is a classification system laid down in Regulation (EU) 2020/852, establishing a list of environmentally sustainable economic activities. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

Yes

No

It made **sustainable investments with an environmental objective:** _____ %

- in economic activities that qualify as environmentally sustainable under the EU Taxonomy
- in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

It made **sustainable investments with a social objective:** _____ %

It promoted **Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of 48.55 % of sustainable investments

- with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
- with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
- with a social objective

It promoted E/S characteristics, but **did not make any sustainable investments**

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The environmental and social characteristics promoted by the Fund were to increase overall exposure to large- and mid-capitalisation companies in the USA demonstrating a robust ESG profile, as well as a positive trend in improving that profile. i.e. issuers with a more favourable or increasingly favourable ESG rating compared to similar issuers. The fund also reduced its exposure to companies involved in certain business activities and those with involvement in very severe ESG controversies.

The Fund achieved the environmental and social characteristics by tracking the MSCI USA ESG Universal Select Business Screens Index (the "Reference Index"), which has a methodology that is consistent with attaining the environmental and social characteristics promoted by the Fund.

The extent to which the Fund tracked the Reference Index is reflected by the tracking error figures available in the section "Tracking Error Analysis" of the Annual Report.

How did the sustainability indicators perform?

The Fund used a variety of indicators to measure the attainment of the environmental and social characteristics. The Fund performed as at 31st of December 2023. The data is representative of the

reference period.

Sustainability Indicator	Indicator Performance
MSCI ESG Score (as defined in the methodology of the Reference Index) of the Fund relative to the MSCI USA Index (the "Parent Index")	7.7% improvement
CO2 emissions intensity of the Fund relative to the Parent Index	34.2% reduction
Percentage of the Fund portfolio invested in excluded companies involved in controversial business activities and controversies (as defined in the methodology of the Reference Index)	As at each Reference Index rebalance date, the Fund had 0% exposure to excluded companies

● ***...and compared to previous periods?***

Compared to last period the improvement in MSCI ESG Score for the Fund relative to the parent index has improved, whilst the reduction in CO2 emissions intensity was slightly lower. The Fund continues to avoid companies excluded by the Reference Index.

● ***What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?***

The sustainable investments made by the Fund contributed to environmental objectives such as climate change, water management, pollution prevention, and to social objectives such as good health, well-being and gender equality. The Fund achieved those objectives by investing in constituents of the Reference Index. According to Invesco's sustainable investment framework, a percentage (as disclosed above) of constituents of the Reference Index contributed positively to selected Sustainable Development Goals (SDGs) that related to the above objectives.

● ***How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?***

The index methodology of the Reference Index that the Fund tracks takes into account principal adverse impacts (PAI) indicators defined in Table 1 of Annex I of the regulatory technical standards for Regulation 2019/2088 (RTS). Securities that didn't meet certain PAI thresholds were excluded from the Reference Index or had their weightings reduced.

How were the indicators for adverse impacts on sustainability factors taken into account?

Please see above on how the indicators for adverse impacts on sustainability factors have been taken into account.

The index methodology directly excluded a number of companies involved in certain business activities. Through removal of companies involved in thermal coal and oil sands the Reference Index reduced its exposure to greenhouse gas emissions. The methodology also excluded companies involved in controversial weapons and those facing very severe ESG controversies, as assessed via MSCI Controversy Scores. Through its exclusions based on MSCI ESG Score, and adjustment of the weighting for those that are above the threshold based on these same scores, the Reference Index also addressed a number of other adverse indicators. The Reference Index also excluded any companies where data wasn't available to make such assessments.

MSCI ESG Scores consider a number of key issues in their construction, including, but not limited to; carbon emissions, product carbon footprint, biodiversity & land use, toxic emissions & waste, opportunities in renewable energy. The scores also take into account areas such as human capital as well as corporate governance, considering ownership & control, pay and the board.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

MSCI Controversy Scores consider controversies in a number of different areas, including, but not limited to; biodiversity & land use, energy & climate change, toxic emissions & waste, operational waste, discrimination & workforce diversity, and governance structures. Any company that violates the UN Global Compact receives a very severe MSCI Controversy Score.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Alignment with the OECD Guidelines for Multinational Enterprises (the "OECD Guidelines") and the UN Guiding Principles on Business and Human Rights (the UN Guiding Principles") is captured in the index methodology of the Fund, with the result that securities were excluded from the investible universe if they were deemed not to be in alignment.

The index methodology excluded companies that aren't compliant with the UN Global Compact (the "UNGC"), this set of ten principles show significant overlap with both the OECD Guidelines and the UN Guiding Principles . With regards to OECD Guidelines, these guidelines and the UNGC both aim to promote corporate responsibility and sustainable business practices, in terms of specific topics, they both cover the areas of human rights, employment relations, environment and anti-corruption. As for the two UN frameworks, whilst they do vary in nature, scope and depth, the two come together in their overriding objective (to achieve a more responsible and accountable business community) as well as some of the key areas they address, namely in the human rights space.

The index methodology excluded companies facing very severe ESG controversies, as assessed via MSCI Controversy Scores. These scores assess controversies that may constitute a breach of selected global norms and conventions, including the UNGC, the International Labour Organisation's conventions, and the United Nations Guiding Principles on Business and Human Rights.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the Union criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the Union criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

As noted above, the index methodology considered principal adverse impacts on sustainability factors, primarily through a set of exclusion criteria corresponding to the indicators that are defined in Table 1, Annex I of the RTS.

The below table shows the PAI scores for the fund- the data is representative of the reference period

Adverse sustainability indicator	PAI	Data	Metric
Greenhouse gas emissions	1.GHG Emissions	12,899.61	Scope 1 fund financed emissions (Tonnes of CO2 equivalent)
		4,340.57	Scope 2 fund financed emissions (Tonnes of CO2 equivalent)
		251,923.19	Scope 3 fund financed emissions (Tonnes of CO2 equivalent)
		269,163.36	Total Financed emissions (Scope 1 + Scope 2 + Scope 3) (Tonnes of CO2 equivalent)
	2. Carbon footprint	326.02	Fund level Carbon footprint (Scope 1 + Scope 2 + Scope 3) (Per Million EUR Invested)
	3. GHG Intensity of investee companies	1,111.92	Fund level Total Emission Intensity- Scope 1+2+3 (Per Million EUR Revenue)
	4. Exposure to companies active in the fossil fuel sector	1.84	% of the fund exposed to any fossil fuels revenue
	5. Share of non-renewable energy consumption	59.70	Adjusted Weighted Average of all issuers in the fund's share of non-renewable energy consumption and non-renewable energy production of investee companies from non-renewable energy sources compared to renewable energy sources, expressed as a percentage of total energy sources (%)
	5. Share of non-renewable energy production	15.60	Adjusted weighted average energy consumption of issuers in the fund in GWh per million EUR of revenue of investee companies, per high impact climate sector
	6. Energy consumption intensity per high impact climate sector		
	Agriculture, Forestry & Fishing	2.26	
	Construction	0.23	
	Electricity, Gas, Steam & Air Conditioning Supply	2.02	
	Manufacturing	0.23	
	Mining & Quarrying	1.20	
	Real Estate Activities	0.56	
	Transportation & Storage	1.55	
	Water Supply, Sewerage, Waste Management & Remediation Activities	0.65	
	Wholesale & Retail Trade & Repair of Motor Vehicles & Motorcycles	0.60	
Biodiversity	7. Activites negatively affecting biodiversity-sensitive areas	4.80	Share of investments in the fund of investee companies with sites/operations located in or near to biodiversity-sensitive areas where activities of those investee companies negatively affect those areas
Water	8. Emissions to water	2.27	Adjusted weighted average per issuer in the fund's emissions to water generated by investee companies

			per million EUR invested (Tonnes)
Waste	9. Hazardous waste and radioactive waste ratio	3.09	Tonnes of hazardous waste and radioactive waste generated by investee companies per million EUR invested, expressed as a weighted average
Social and employee matters	10. Violations fo UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises	0.00	Share of investments in investee companies that have been involved in violations of the UNGC principles or OECD Guidelines for Multinational Enterprises
	11. Lack of proceses and compliance mechanisms to monitor compliance with UN Global Compact principles and OECD Guidelines for Multinational Enterprises	63.20	Share of investments in investee companies without policies to monitor compliance with the UNGC principles or OECD Guidelines for Multinational Enterprises or grievance/ complaints handling mechanisms to address violations of the UNGC principles or OECD Guidelines for Multinational Enterprises
	12. Unadjusted gender pay gap	17.46	Weighted Average of all issuers' in the portfolio unadjusted gender pay gap of investee companies
	13. Board gender diversity	33.51	Waited Average of all issuers in the portfolio ratio of female to male board members in investee companies, expressed as a percentage of all board members
	14. Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons)	0.00	Share of investments in investee companies involved in the manufacture or selling of controversial weapons
Optional Indicators	Optional Indicator: 4. Investments in companies without carbon emission reduction initiative	36.47	Share of investments in investee companies without carbon emission reduction initiatives aimed at aligning with the Paris Agreement
	Optional Indicator: 9. Lack of a human rights policy	6.74	Share of investments in entities without a human rights policy

In addition, as part of the Fund's consideration of principal adverse impacts on sustainability factors, the ESG team monitored the investments against PAI indicators. Invesco conducted research into certain issuers in the Fund's portfolio that were deemed to flag against PAI indicators, in order to determine whether any engagement activity was required in accordance with the engagement policy.

What were the top investments of this financial product?

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is: from 1st of January 2023 to 31st of December 2023.

Large Investments	Sector	% Assets	Country
Microsoft Corp	Information Technology	5.09%	United States
Apple Inc	Information Technology	4.78%	United States
NVIDIA CORP	Information Technology	4.20%	United States
Amazon.com Inc	Consumer Discretionary	2.66%	United States
UNITEDHEALTH GRP	Health Care	1.98%	United States
ALPHABET INC-A	Communication Services	1.57%	United States
TESLA INC	Consumer Discretionary	1.45%	United States
ALPHABET INC-C	Communication Services	1.43%	United States
ELI LILLY & CO	Health Care	1.36%	United States

PEPSICO INC	Consumer Staples	1.04%	United States
JOHNSON&JOHNSON	Health Care	1.02%	United States
MERCK & CO	Health Care	1.00%	United States

What was the proportion of sustainability-related investments?

See below field

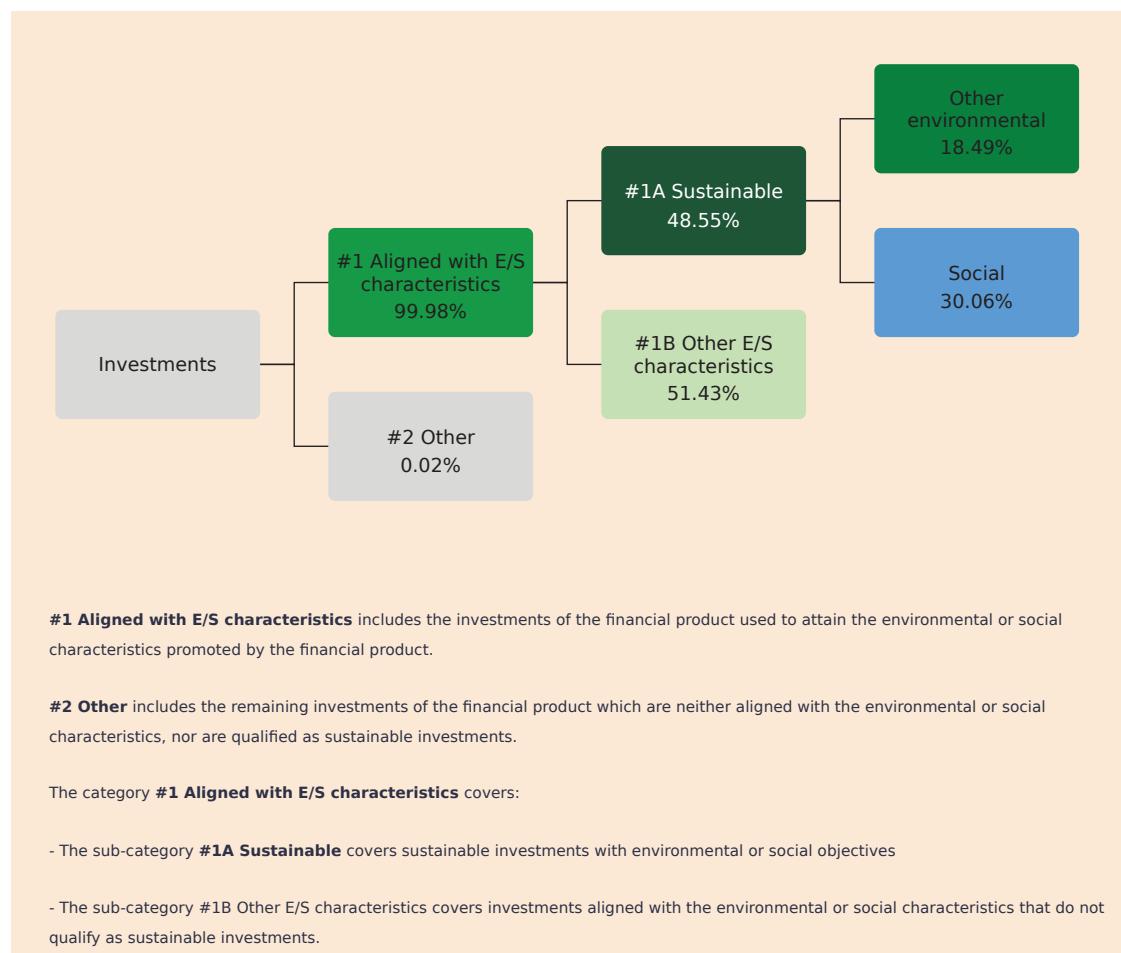

Asset allocation describes the share of investments in specific assets.

● What was the asset allocation?

99.98% of the Fund's NAV was invested in investments that aligned with the environmental and social characteristics of the Fund.

0.02% of the Fund's NAV was invested in financial derivative instruments for hedging and/or efficient portfolio management purposes; or was held as cash for ancillary liquidity purposes.

48.55% of the Fund's NAV was invested in sustainable investments.

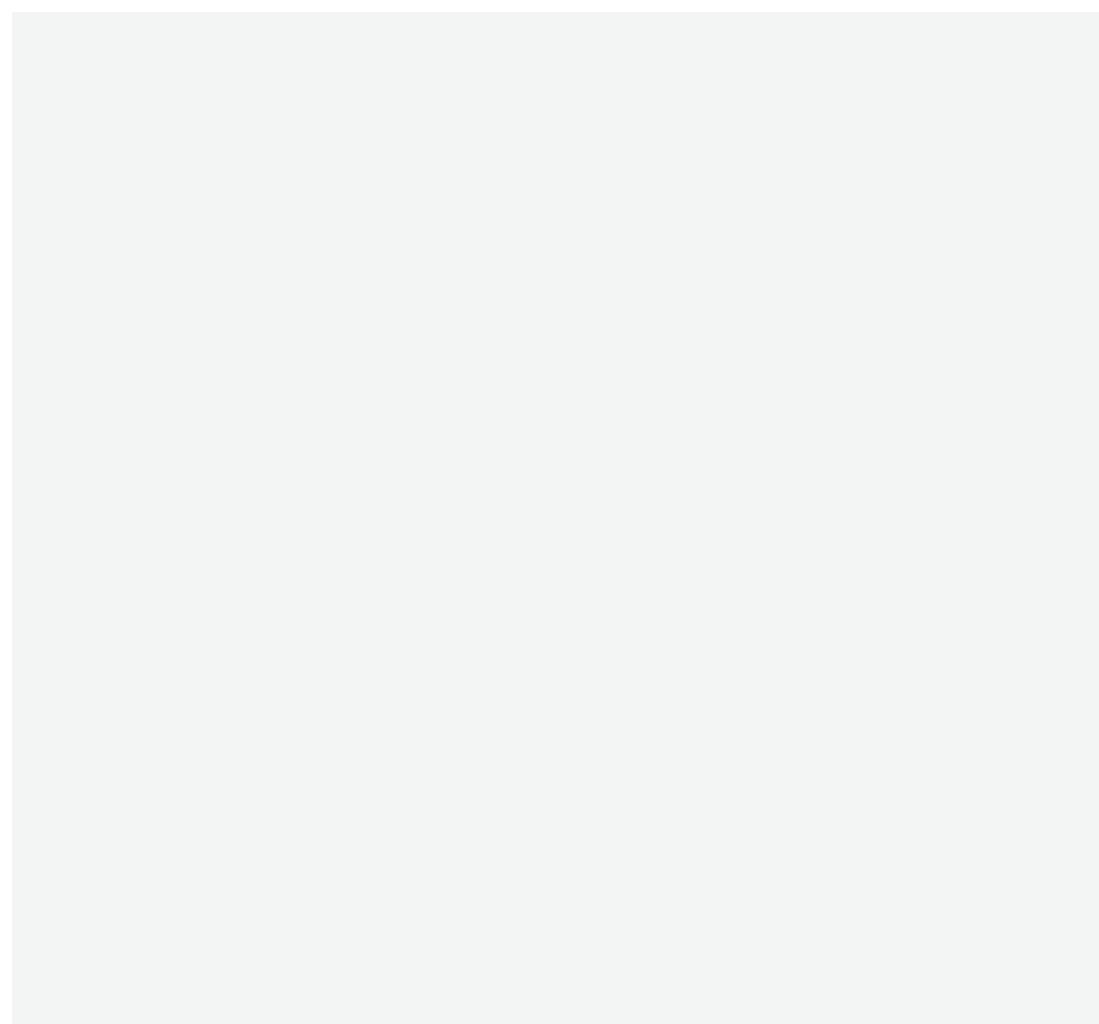

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2 Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category **#1 Aligned with E/S characteristics** covers:

- The sub-category **#1A Sustainable** covers sustainable investments with environmental or social objectives
- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

● In which economic sectors were the investments made?

Sector (GICS)	Weight %
Financials	12.59
Communication Services	6.32
Consumer Discretionary	10.60
Information Technology	30.06
Industrials	7.59
Consumer Staples	7.01
Energy	2.48
Real Estate	2.99
Health Care	16.28
Materials	2.57
Utilities	1.49
Cash	0.02
Total	100.00

GICS Level 4 breakdown for Energy Sector

Sub-Industry Code	Sub-Industry Name	Weight
10101010	Oil & Gas Drilling	0.00
10101020	Oil & Gas Equipment & Services	0.52
10102010	Integrated Oil & Gas	0.08
10102020	Oil & Gas Exploration & Production	0.90
10102030	Oil & Gas Refining & Marketing	0.45
10102040	Oil & Gas Storage & Transportation	0.53
10102050	Coal & Consumable Fuels	0.00
Total		2.49

Although the Fund has exclusions around fossil fuel extraction, there may still have been exposure to fossil fuels as represented in part by exposure to the energy sector as disclosed above.

To comply with the EU Taxonomy, the criteria for fossil gas include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For nuclear energy, the criteria include comprehensive safety and waste management rules.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

0% of the Fund's portfolio was aligned with the EU Taxonomy.

contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- turnover reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) shows the green investments made by investee companies, relevant for a transition to a green economy.
- **operational expenditure** (OpEx) reflects the green operational activities of investee companies.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

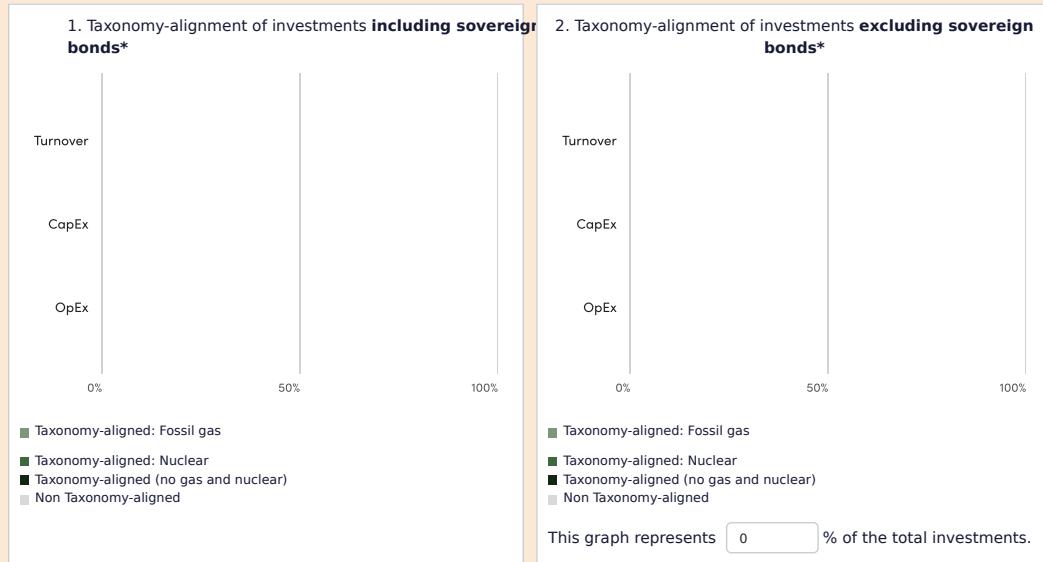

Yes

In fossil gas

In nuclear energy

No

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

*For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

What was the share of investments made in transitional and enabling activities?

Not Applicable.

How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

Not Applicable.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

As the Fund does not currently intend to be EU Taxonomy aligned, 18.49% of the Fund's NAV was invested in sustainable investments with an environmental objective that was not aligned with the EU Taxonomy. Currently the Fund does not intend to be aligned with the Taxonomy Regulation and the Manager intends to keep the Fund's position in relation to the Taxonomy Regulation under consideration along with the reliability of datasets to determine Taxonomy alignment. To the extent required, the Manager will amend the pre-contractual documentation accordingly.

What was the share of socially sustainable investments?

30.06% of the Fund's NAV.

What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

Investments included under this category are financial derivative instruments for hedging and/or efficient portfolio management purposes and cash for ancillary liquidity. No minimum environmental or

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Fund achieved the environmental and social characteristics by tracking the Reference Index, which has a methodology that is consistent with attaining the environmental and social characteristics promoted by the Fund.

Please refer to the section "How did the sustainability indicators perform" above for further information.

How did this financial product perform compared to the reference benchmark?

See tables completed in below sections.

Reference benchmarks
are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

● How does the reference benchmark differ from a broad market index?

The Reference Index differs from a broad market index because it seeks to increase overall exposure to issuers demonstrating both a robust ESG profile, and issuers that are assigned more favourable ESG scores using MSCI ESG metrics.

● How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

As the Fund replicates the performance of the Reference Index, the sustainability indicators performed similarly for the Fund and Reference Index:

Sustainability Indicator	Fund Indicator Performance	Reference Index Indicator Performance
MSCI ESG Score (as defined in the methodology of the Reference Index) relative to the Parent Index	7.12	7.12
CO2 emissions intensity	65.5	65.5
Percentage of exposure in excluded companies involved in controversial business activities and controversies (as defined in the methodology of the Reference Index)	The Fund had 0% exposure to excluded companies at each Reference Index rebalance date	The Reference Index had 0% exposure to excluded companies at each Reference Index rebalance date

● How did this financial product perform compared with the reference benchmark?

As the Fund achieves the environmental and social characteristics by tracking the Reference Index, which has a methodology that is consistent with attaining the environmental and social characteristics promoted by the Fund, the performance of the Fund is aligned with that of the Reference Benchmark. Please see above for the performance of the sustainability indicators compared with the Reference Benchmark.

● How did this financial product perform compared with the broad market index?

The Parent Index also acts as a relevant broad market index. The sustainability indicators for the Fund and Parent Index differed as below:

Sustainability Indicator	Fund Indicator Performance	Broad Market benchmark (Parent Index) Indicator Performance
MSCI ESG Score (as defined in the methodology of the Reference Index)	7.12	6.61
CO2 emissions intensity	65.5	99.6
Percentage of the Fund portfolio invested in excluded companies involved in controversial business activities and controversies (as defined in the methodology of the Reference Index)	The Reference Index had 0% exposure to excluded companies at each Reference Index rebalance date	The Broad Market benchmark had 8.3% exposure to excluded companies at the latest Reference Index rebalance date

Annex

Product name: Invesco MSCI Pacific ex Japan ESG Universal Screened UCITS ETF

Legal entity identifier:
549300T97JTQ2VFQQ072

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

Yes

No

It made **sustainable investments with an environmental objective:** _____ %

- in economic activities that qualify as environmentally sustainable under the EU Taxonomy
- in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

It made **sustainable investments with a social objective:** _____ %

It promoted **Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of 56.76 % of sustainable investments

- with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
- with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
- with a social objective

It promoted E/S characteristics, but **did not make any sustainable investments**

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The environmental and social characteristics promoted by the Fund were to increase overall exposure to large- and mid-capitalisation companies across Australia, Hong Kong, New Zealand and Singapore demonstrating a robust ESG profile, as well as a positive trend in improving that profile. i.e. issuers with a more favourable or increasingly favourable ESG rating compared to similar issuers. The fund also reduced its exposure to companies involved in certain business activities and those with involvement in very severe ESG controversies.

The Fund achieved the environmental and social characteristics by tracking the MSCI Pacific ex Japan ESG Universal Select Business Screens Index (the "Reference Index"), which has a methodology that is consistent with attaining the environmental and social characteristics promoted by the Fund.

The extent to which the Fund tracked the Reference Index is reflected by the tracking error figures available in the section "Tracking Error Analysis" of the Annual Report.

How did the sustainability indicators perform?

The Fund used a variety of indicators to measure the attainment of the environmental and social characteristics. The Fund performed as at 31st of December 2023. The data is representative of the

reference period.

Sustainability Indicator	Indicator Performance
MSCI ESG Score (as defined in the methodology of the Reference Index) of the Fund relative to the MSCI Pacific ex Japan Index (the " Parent Index ")	6.2% improvement
CO2 emissions intensity of the Fund relative to the Index Parent	32.0% reduction
Percentage of the Fund portfolio invested in excluded companies involved in controversial business activities and controversies (as defined in the methodology of the Reference Index)	As at each Reference Index rebalance date, the Fund had 0% exposure to excluded companies

● ***...and compared to previous periods?***

Compared to last period the improvement in MSCI ESG Score for the Fund relative to the parent index has improved, as has the reduction in CO2 emissions intensity. The Fund continues to avoid companies excluded by the Reference Index.

● ***What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?***

The sustainable investments made by the Fund contributed to environmental objectives such as climate change, water management, pollution prevention, and to social objectives such as good health, well-being and gender equality. The Fund achieved those objectives by investing in constituents of the Reference Index. According to Invesco's sustainable investment framework, a percentage (as disclosed above) of constituents of the Reference Index contributed positively to selected Sustainable Development Goals (SDGs) that related to the above objectives.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

● ***How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?***

The index methodology of the Reference Index that the Fund tracks takes into account principal adverse impacts (PAI) indicators defined in Table 1 of Annex I of the regulatory technical standards for Regulation 2019/2088 (RTS). Securities that didn't meet certain PAI thresholds were excluded from the Reference Index or had their weightings reduced.

How were the indicators for adverse impacts on sustainability factors taken into account?

Please see above on how the indicators for adverse impacts on sustainability factors have been taken into account.

The index methodology directly excluded a number of companies involved in certain business activities. Through removal of companies involved in thermal coal and oil sands the Reference Index reduced its exposure to greenhouse gas emissions. The methodology also excluded companies involved in controversial weapons and those facing very severe ESG controversies, as assessed via MSCI Controversy Scores. Through its exclusions based on MSCI ESG Score, and adjustment of the weighting for those that are above the threshold based on these same scores, the Reference Index also addressed a number of other adverse indicators. The Reference Index also excluded any companies where data wasn't available to make such assessments.

MSCI ESG Scores consider a number of key issues in their construction, including, but not limited to; carbon emissions, product carbon footprint, biodiversity & land use, toxic emissions & waste, opportunities in renewable energy. The scores also take into account areas such as human capital as well as corporate governance, considering ownership & control, pay and the board.

MSCI Controversy Scores consider controversies in a number of different areas, including, but not limited to; biodiversity & land use, energy & climate change, toxic emissions & waste, operational waste, discrimination & workforce diversity, and governance structures. Any company that violates the UN Global Compact receives a very severe MSCI Controversy Score.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Alignment with the OECD Guidelines for Multinational Enterprises (the "OECD Guidelines") and the UN Guiding Principles on Business and Human Rights (the UN Guiding Principles") is captured in the index methodology of the Fund, with the result that securities were excluded from the investible universe if they were deemed not to be in alignment.

The index methodology excluded companies that aren't compliant with the UN Global Compact (the "UNGC"), this set of ten principles show significant overlap with both the OECD Guidelines and the UN Guiding Principles . With regards to OECD Guidelines, these guidelines and the UNGC both aim to promote corporate responsibility and sustainable business practices, in terms of specific topics, they both cover the areas of human rights, employment relations, environment and anti-corruption. As for the two UN frameworks, whilst they do vary in nature, scope and depth, the two come together in their overriding objective (to achieve a more responsible and accountable business community) as well as some of the key areas they address, namely in the human rights space.

The index methodology excluded companies facing very severe ESG controversies, as assessed via MSCI Controversy Scores. These scores assess controversies that may constitute a breach of selected global norms and conventions, including the UNGC, the International Labour Organisation's conventions, and the United Nations Guiding Principles on Business and Human Rights.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the Union criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the Union criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

As noted above, the index methodology considered principal adverse impacts on sustainability factors, primarily through a set of exclusion criteria corresponding to the indicators that are defined in Table 1, Annex I of the RTS.

The below table shows the PAI scores for the fund, the data is representative of the reference period

Adverse sustainability indicator	PAI	Data	Metric
Greenhouse gas emissions	1.GHG Emissions	181.36	Scope 1 fund financed emissions (Tonnes of CO2 equivalent)
		73.62	Scope 2 fund financed emissions (Tonnes of CO2 equivalent)
		2,013.18	Scope 3 fund financed emissions (Tonnes of CO2 equivalent)
		2,268.15	Total Financed emissions (Scope 1 + Scope 2 + Scope 3) (Tonnes of CO2 equivalent)
	2. Carbon footprint	343.72	Fund level Carbon footprint (Scope 1 + Scope 2 + Scope 3) (Per Million EUR Invested)
	3. GHG Intensity of investee companies	1,898.44	Fund level Total Emission Intensity- Scope 1+2+3 (Per Million EUR Revenue)
	4. Exposure to companies active in the fossil fuel sector	5.23	% of the fund exposed to any fossil fuels revenue
	5. Share of non-renewable energy consumption	77.80	Adjusted Weighted Average of all issuers in the fund's share of non-renewable energy consumption and non-renewable energy production of investee companies from non-renewable energy sources compared to renewable energy sources, expressed as a percentage of total energy sources (%)
	5. Share of non-renewable energy production	8.77	
	6. Energy consumption intensity per high impact climate sector		Adjusted weighted average energy consumption of issuers in the fund in GWh per million EUR of revenue of investee companies, per high impact climate sector
	Agriculture, Forestry & Fishing	0.00	
	Construction	0.00	
	Electricity, Gas, Steam & Air Conditioning Supply	4.75	
	Manufacturing	55.29	
	Mining & Quarrying	6.18	
	Real Estate Activities	0.22	
	Transportation & Storage	0.70	
	Water Supply, Sewerage, Waste Management & Remediation Activities	0.00	
	Wholesale & Retail Trade & Repair of Motor Vehicles & Motorcycles	0.14	
Biodiversity	7. Activites negatively affecting biodiversity-sensitive areas	7.35	Share of investments in the fund of investee companies with sites/operations located in or near to biodiversity-sensitive areas where activities of those investee companies negatively affect those areas

Water	8. Emissions to water	1.41	Adjusted weighted average per issuer in the fund's emissions to water generated by investee companies per million EUR invested (Tonnes)
Waste	9. Hazardous waste and radioactive waste ratio	35.44	Tonnes of hazardous waste and radioactive waste generated by investee companies per million EUR invested, expressed as a weighted average
Social and employee matters	10. Violations fo UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises	0.00	Share of investments in investee companies that have been involved in violations of the UNGC principles or OECD Guidelines for Multinational Enterprises
	11. Lack of proceses and compliance mechanisms to monitor compliance with UN Global Compact principles and OECD Guidelines for Multinational Enterprises	60.74	Share of investments in investee companies without policies to monitor compliance with the UNGC principles or OECD Guidelines for Multinational Enterprises or grievance/ complaints handling mechanisms to address violations of the UNGC principles or OECD Guidelines for Multinational Enterprises
	12. Unadjusted gender pay gap	1.84	Weighted Average of all issuers' in the portfolio unadjusted gender pay gap of investee companies
	13. Board gender diversity	35.98	Waited Average of all issuers in the portfolio ratio of female to male board members in investee companies, expressed as a percentage of all board members
	14. Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons)	0.00	Share of investments in investee companies involved in the manufacture or selling of controversial weapons
Optional Indicators	Optional Indicator: 4. Investments in companies without carbon emission reduction initiative	19.67	Share of investments in investee companies without carbon emission reduction initiatives aimed at aligning with the Paris Agreement
	Optional Indicator: 9. Lack of a human rights policy	3.28	Share of investments in entities without a human rights policy

In addition, as part of the Fund's consideration of principal adverse impacts on sustainability factors, the ESG team monitored the investments against PAI indicators. Invesco conducted research into certain issuers in the Fund's portfolio that were deemed to flag against PAI indicators, in order to determine whether any engagement activity was required in accordance with the engagement policy.

What were the top investments of this financial product?

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is:from 1st of January 2023 to 31st of December 2023.

Large Investments	Sector	% Assets	Country
AIA	Financials	4.75%	Hong Kong
ANZ GROUP HOLDIN	Financials	4.35%	Australia
CSL LTD	Health Care	4.25%	Australia
COMMONW BK AUSTR	Financials	4.11%	Australia
HKEX	Financials	4.11%	Hong Kong
MACQUARIE GROUP	Financials	3.81%	Australia
WDS COM	Energy	3.79%	Australia
OCBC BANK	Financials	2.82%	Singapore
NATL AUST BANK	Financials	2.64%	Australia
TRANSURBAN GROUP	Industrials	2.49%	Australia
FORTESCUE LTD	Materials	2.36%	Australia
UNITED OVERSEAS	Financials	2.35%	Singapore
WESTPAC BANKING	Financials	2.25%	Australia
GOODMAN GROUP	Real Estate	2.14%	Australia
DBS GROUP HLDGS	Financials	2.09%	Singapore

What was the proportion of sustainability-related investments?

See below field

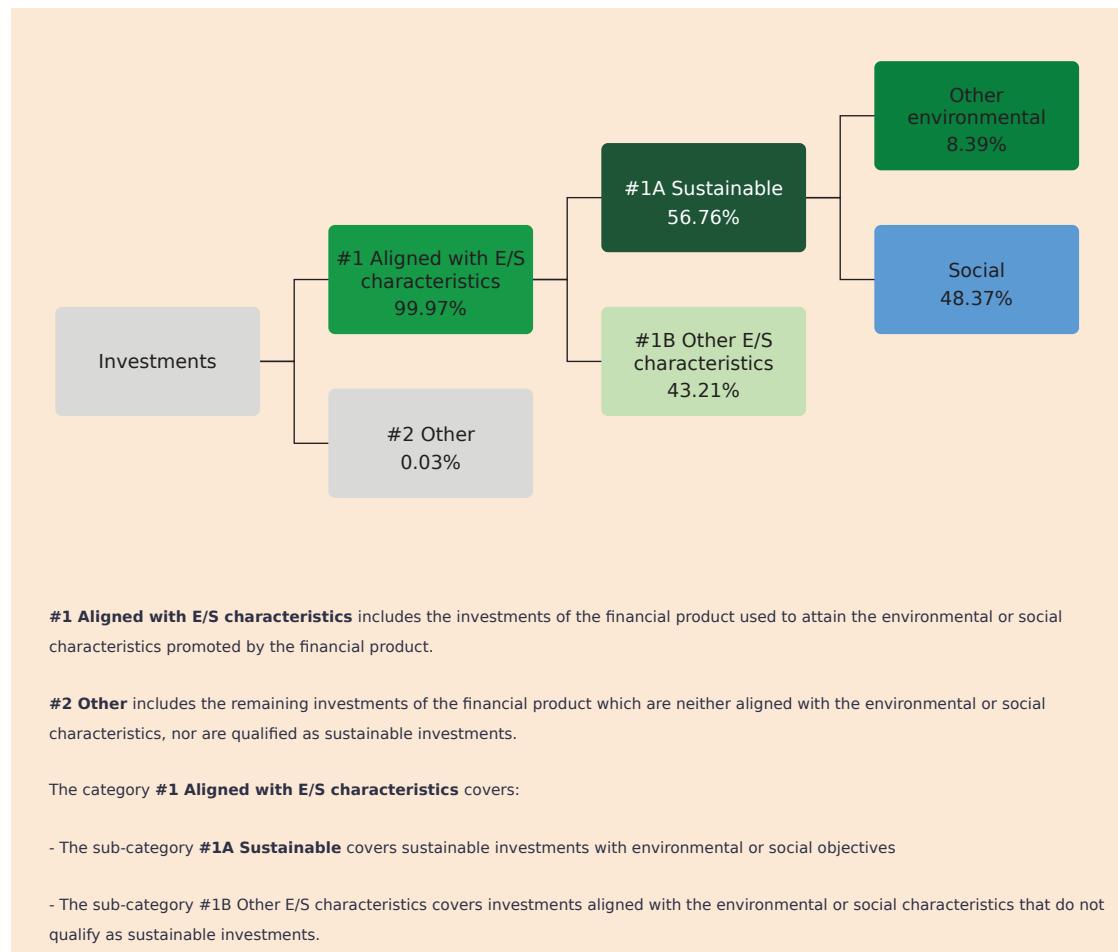

Asset allocation describes the share of investments in specific assets.

● What was the asset allocation?

99.97% of the Fund's NAV was invested in investments that aligned with the environmental and social characteristics of the Fund.

0.03% of the Fund's NAV was invested in financial derivative instruments for hedging and/or efficient portfolio management purposes; or was held as cash for ancillary liquidity purposes.

56.76% of the Fund's NAV was invested in sustainable investments.

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2 Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category **#1 Aligned with E/S characteristics** covers:

- The sub-category **#1A Sustainable** covers sustainable investments with environmental or social objectives
- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

● In which economic sectors were the investments made?

GICS Sector Breakdown - the data is representative of the reference period

Sector (GICS)	Weight %
Financials	39.87
Communication Services	4.02
Consumer Discretionary	5.25
Information Technology	1.43
Industrials	8.61
Consumer Staples	4.34
Energy	5.69
Real Estate	11.88
Health Care	7.25
Materials	9.85
Utilities	1.78
Cash	0.03
Total	100.00

GICS Level 4 breakdown for Energy Sector

Sub-Industry Code	Sub-Industry Name	Weight
10101010	Oil & Gas Drilling	0.00
10101020	Oil & Gas Equipment & Services	0.00
10102010	Integrated Oil & Gas	0.00
10102020	Oil & Gas Exploration & Production	5.23
10102030	Oil & Gas Refining & Marketing	0.46
10102040	Oil & Gas Storage & Transportation	0.00
10102050	Coal & Consumable Fuels	0.00
Total		5.69

Although the Fund has exclusions around fossil fuel extraction, there may still have been exposure to fossil fuels as represented in part by exposure to the energy sector as disclosed above.

To comply with the EU Taxonomy, the criteria for fossil gas include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For nuclear energy, the criteria include comprehensive safety and waste management rules.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

0% of the Fund's portfolio was aligned with the EU Taxonomy.

contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- turnover reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) shows the green investments made by investee companies, relevant for a transition to a green economy.
- **operational expenditure** (OpEx) reflects the green operational activities of investee companies.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

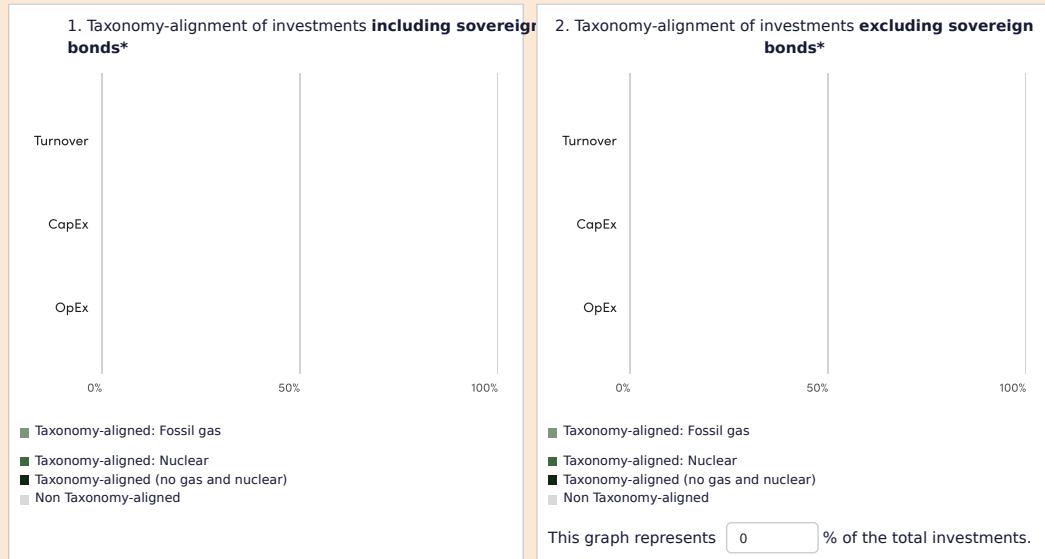

Yes

In fossil gas

In nuclear energy

No

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

*For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

What was the share of investments made in transitional and enabling activities?

Not Applicable.

How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

Not Applicable.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

As the Fund does not currently intend to be EU Taxonomy aligned, 8.39% of the Fund's NAV was invested in sustainable investments with an environmental objective that was not aligned with the EU Taxonomy. Currently the Fund does not intend to be aligned with the Taxonomy Regulation and the Manager intends to keep the Fund's position in relation to the Taxonomy Regulation under consideration along with the reliability of datasets to determine Taxonomy alignment. To the extent required, the Manager will amend the pre-contractual documentation accordingly.

What was the share of socially sustainable investments?

48.37% of the Fund's NAV.

What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

Investments included under this category are financial derivative instruments for hedging and/or efficient portfolio management purposes and cash for ancillary liquidity. No minimum environmental or

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Fund achieved the environmental and social characteristics by tracking the Reference Index, which has a methodology that is consistent with attaining the environmental and social characteristics promoted by the Fund.

Please refer to the section "How did the sustainability indicators perform" above for further information.

How did this financial product perform compared to the reference benchmark?

See tables completed in below sections.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

How does the reference benchmark differ from a broad market index?

The Reference Index differs from a broad market index because it seeks to increase overall exposure to issuers demonstrating both a robust ESG profile, and issuers that are assigned more favourable ESG scores using MSCI ESG metrics.

How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

As the Fund fully replicates the performance of the Reference Index, the sustainability indicators performed similarly for the Fund and Reference Index:

Sustainability Indicator	Fund Indicator Performance	Reference Index Indicator Performance
MSCI ESG Score (as defined in the methodology of the Reference Index) relative to the Parent Index	7.88	7.88
CO2 emissions intensity	108.4	108.4
Percentage of exposure in excluded companies involved in controversial business activities and controversies (as defined in the methodology of the Reference Index)	The Fund had 0% exposure to excluded companies at each Reference Index rebalance date	The Reference Index had 0% exposure to excluded companies at each Reference Index rebalance date

How did this financial product perform compared with the reference benchmark?

As the Fund achieves the environmental and social characteristics by tracking the Reference Index, which has a methodology that is consistent with attaining the environmental and social characteristics promoted by the Fund, the performance of the Fund is aligned with that of the Reference Benchmark. Please see above for the performance of the sustainability indicators compared with the Reference Benchmark.

How did this financial product perform compared with the broad market index?

The Parent Index also acts as a relevant broad market index. The sustainability indicators for the Fund and

Parent Index differed as below:

Sustainability Indicator	Fund Indicator Performance	Broad Market benchmark (Parent Index) Indicator Performance
MSCI ESG Score (as defined in the methodology of the Reference Index)	7.88	7.42
CO2 emissions intensity	108.4	159.5
Percentage of the Fund portfolio invested in excluded companies involved in controversial business activities and controversies (as defined in the methodology of the Reference Index)	The Reference Index had 0% exposure to excluded companies at each Reference Index rebalance date	The Broad Market benchmark had 12.8% exposure to excluded companies at the latest Reference Index rebalance date

Annex

Product name: Invesco MSCI Japan ESG Universal Screened UCITS ETF **Legal entity identifier:** 5493004I5V0ZCKPHLK17

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

Yes

No

It made **sustainable investments with an environmental objective:** _____ %

- in economic activities that qualify as environmentally sustainable under the EU Taxonomy
- in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

It made **sustainable investments with a social objective:** _____ %

It **promoted Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of 50.56 % of sustainable investments

- with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
- with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
- with a social objective

It promoted E/S characteristics, but **did not make any sustainable investments**

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The environmental and social characteristics promoted by the Fund were to increase overall exposure to large- and mid-capitalisation companies across Japan demonstrating a robust ESG profile, as well as a positive trend in improving that profile. i.e. issuers with a more favourable or increasingly favourable ESG rating compared to similar issuers. The fund also reduced its exposure to companies involved in certain business activities and those with involvement in very severe ESG controversies.

The Fund achieved the environmental and social characteristics by tracking the MSCI Japan ESG Universal Select Business Screens Index (the "Reference Index"), which has a methodology that is consistent with attaining the environmental and social characteristics promoted by the Fund.

The extent to which the Fund tracked the Reference Index is reflected by the tracking error figures available in the section "Tracking Error Analysis" of the Annual Report.

How did the sustainability indicators perform?

The Fund used a variety of indicators to measure the attainment of the environmental and social characteristics. The Fund performed as at 31st of December 2023. The data is representative of the

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of environmentally sustainable economic activities. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

Sustainability Indicator	Indicator Performance
MSCI ESG Score (as defined in the methodology of the Reference Index) of the Fund relative to the MSCI Japan Index (the "Parent Index")	6.2% improvement
CO2 emissions intensity of the Fund relative to the Parent Index	16.8% reduction
Percentage of the Fund portfolio invested in excluded companies involved in controversial business activities and controversies (as defined in the methodology of the Reference Index)	As at each Reference Index rebalance date, the Fund had 0% exposure to excluded companies

● ***...and compared to previous periods?***

Compared to last period the improvement in MSCI ESG Score for the Fund relative to the parent index was slightly lower and the reduction in CO2 emissions intensity was also lower. The Fund continues to avoid companies excluded by the Reference Index.

● ***What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?***

The sustainable investments made by the Fund contributed to environmental objectives such as climate change, water management, pollution prevention, and to social objectives such as good health, well-being and gender equality. The Fund achieved those objectives by investing in constituents of the Reference Index. According to Invesco's sustainable investment framework, a percentage (as disclosed above) of constituents of the Reference Index contributed positively to selected Sustainable Development Goals (SDGs) that related to the above objectives.

● ***How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?***

The index methodology of the Reference Index that the Fund tracks takes into account principal adverse impacts (PAI) indicators defined in Table 1 of Annex I of the regulatory technical standards for Regulation 2019/2088 (RTS). Securities that didn't meet certain PAI thresholds were excluded from the Reference Index or had their weightings reduced.

How were the indicators for adverse impacts on sustainability factors taken into account?

Please see above on how the indicators for adverse impacts on sustainability factors have been taken into account.

The index methodology directly excluded a number of companies involved in certain business activities. Through removal of companies involved in thermal coal and oil sands the Reference Index reduced its exposure to greenhouse gas emissions. The methodology also excluded companies involved in controversial weapons and those facing very severe ESG controversies, as assessed via MSCI Controversy Scores. Through its exclusions based on MSCI ESG Score, and adjustment of the weighting for those that are above the threshold based on these same scores, the Reference Index also addressed a number of other adverse indicators. The Reference Index also excluded any companies where data wasn't available to make such assessments.

MSCI ESG Scores consider a number of key issues in their construction, including, but not limited to; carbon emissions, product carbon footprint, biodiversity & land use, toxic emissions & waste, opportunities in renewable energy. The scores also take into account areas such as human capital as well as corporate governance, considering ownership & control, pay and the board.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

MSCI Controversy Scores consider controversies in a number of different areas, including, but not limited to; biodiversity & land use, energy & climate change, toxic emissions & waste, operational waste, discrimination & workforce diversity, and governance structures. Any company that violates the UN Global Compact receives a very severe MSCI Controversy Score.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Alignment with the OECD Guidelines for Multinational Enterprises (the "OECD Guidelines") and the UN Guiding Principles on Business and Human Rights (the UN Guiding Principles") is captured in the index methodology of the Fund, with the result that securities were excluded from the investible universe if they were deemed not to be in alignment.

The index methodology excluded companies that aren't compliant with the UN Global Compact (the "UNGC"), this set of ten principles show significant overlap with both the OECD Guidelines and the UN Guiding Principles . With regards to OECD Guidelines, these guidelines and the UNGC both aim to promote corporate responsibility and sustainable business practices, in terms of specific topics, they both cover the areas of human rights, employment relations, environment and anti-corruption. As for the two UN frameworks, whilst they do vary in nature, scope and depth, the two come together in their overriding objective (to achieve a more responsible and accountable business community) as well as some of the key areas they address, namely in the human rights space.

The index methodology excluded companies facing very severe ESG controversies, as assessed via MSCI Controversy Scores. These scores assess controversies that may constitute a breach of selected global norms and conventions, including the UNGC, the International Labour Organisation's conventions, and the United Nations Guiding Principles on Business and Human Rights.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the Union criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the Union criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

As noted above, the index methodology considered principal adverse impacts on sustainability factors, primarily through a set of exclusion criteria corresponding to the indicators that are defined in Table 1, Annex I of the RTS.

The below table shows the PAI scores for the fund. The data is representative of the reference period:

Adverse sustainability indicator	PAI	Data	Metric
Greenhouse gas emissions	1.GHG Emissions	161.08 75.13 3,446.20 3,682.40	Scope 1 fund financed emissions (Tonnes of CO2 equivalent) Scope 2 fund financed emissions (Tonnes of CO2 equivalent) Scope 3 fund financed emissions (Tonnes of CO2 equivalent) Total Financed emissions (Scope 1 + Scope 2 + Scope 3) (Tonnes of CO2 equivalent)
	2. Carbon footprint	918.80	Fund level Carbon footprint (Scope 1 + Scope 2 + Scope 3) (Per Million EUR Invested)
	3. GHG Intensity of investee companies	1,262.63	Fund level Total Emission Intensity- Scope 1+2+3 (Per Million EUR Revenue)
	4. Exposure to companies active in the fossil fuel sector	0.00	% of the fund exposed to any fossil fuels revenue
	5. Share of non-renewable energy consumption	84.82	Adjusted Weighted Average of all issuers in the fund's share of non-renewable energy consumption and non-renewable energy production of investee companies from non-renewable energy sources compared to renewable energy sources, expressed as a percentage of total energy sources (%)
	5. Share of non-renewable energy production	9.39	Adjusted weighted average energy consumption of issuers in the fund in GWh per million EUR of revenue of investee companies, per high impact climate sector
	6. Energy consumption intensity per high impact climate sector		
	Agriculture, Forestry & Fishing	2.68	
	Construction	0.05	
	Electricity, Gas, Steam & Air Conditioning Supply	82.43	
	Manufacturing	0.42	
	Mining & Quarrying	1.50	
	Real Estate Activities	0.89	
	Transportation & Storage	3.59	
	Water Supply, Sewerage, Waste Management & Remediation Activities	0.00	
	Wholesale & Retail Trade & Repair of Motor Vehicles & Motorcycles	0.30	
Biodiversity	7. Activites negatively affecting biodiversity-sensitive areas	2.81	Share of investments in the fund of investee companies with sites/operations located in or near to biodiversity-sensitive areas where activities of those investee companies negatively affect those areas
Water	8. Emissions to water	0.04	Adjusted weighted average per issuer in the fund's

			emissions to water generated by investee companies per million EUR invested (Tonnes)
Waste	9. Hazardous waste and radioactive waste ratio	0.30	Tonnes of hazardous waste and radioactive waste generated by investee companies per million EUR invested, expressed as a weighted average
Social and employee matters	10. Violations fo UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises	0.00	Share of investments in investee companies that have been involved in violations of the UNGC principles or OECD Guidelines for Multinational Enterprises
	11. Lack of proceses and compliance mechanisms to monitor compliance with UN Global Compact principles and OECD Guidelines for Multinational Enterprises	45.46	Share of investments in investee companies without policies to monitor compliance with the UNGC principles or OECD Guidelines for Multinational Enterprises or grievance/ complaints handling mechanisms to address violations of the UNGC principles or OECD Guidelines for Multinational Enterprises
	12. Unadjusted gender pay gap	0.00	Weighted Average of all issuers' in the portfolio unadjusted gender pay gap of investee companies
	13. Board gender diversity	17.91	Waited Average of all issuers in the portfolio ratio of female to male board members in investee companies, expressed as a percentage of all board members
	14. Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons)	0.00	Share of investments in investee companies involved in the manufacture or selling of controversial weapons
Optional Indicators	Optional Indicator: 4. Investments in companies without carbon emission reduction initiative	23.11	Share of investments in investee companies without carbon emission reduction initiatives aimed at aligning with the Paris Agreement
	Optional Indicator: 9. Lack of a human rights policy	3.22	Share of investments in entities without a human rights policy

In addition, as part of the Fund's consideration of principal adverse impacts on sustainability factors, the ESG team monitored the investments against PAI indicators. Invesco conducted research into certain issuers in the Fund's portfolio that were deemed to flag against PAI indicators, in order to determine whether any engagement activity was required in accordance with the engagement policy.

What were the top investments of this financial product?

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is: From 1st of January 2023 to 31st of December 2023

Large Investments	Sector	% Assets	Country
Sony Group Corp	Consumer Discretionary	4.42%	Japan
TOYOTA MOTOR	Consumer Discretionary	3.65%	Japan
TOKYO ELECTRON	Information Technology	2.57%	Japan
SMFG	Financials	2.29%	Japan
DAIICHI SANKYO	Health Care	2.21%	Japan
HITACHI LTD	Industrials	2.02%	Japan
KDDI CORP	Communication Services	1.86%	Japan
RECRUIT HOLDINGS	Industrials	1.86%	Japan
MITSUBISHI UFJ F	Financials	1.84%	Japan
NINTENDO CO LTD	Communication Services	1.83%	Japan
DAIKIN INDS	Industrials	1.79%	Japan
ITOCHU CORP	Industrials	1.73%	Japan
KEYENCE CORP	Information Technology	1.69%	Japan
HONDA MOTOR CO	Consumer Discretionary	1.69%	Japan
FAST RETAILING	Consumer Discretionary	1.61%	Japan

What was the proportion of sustainability-related investments?

See below field

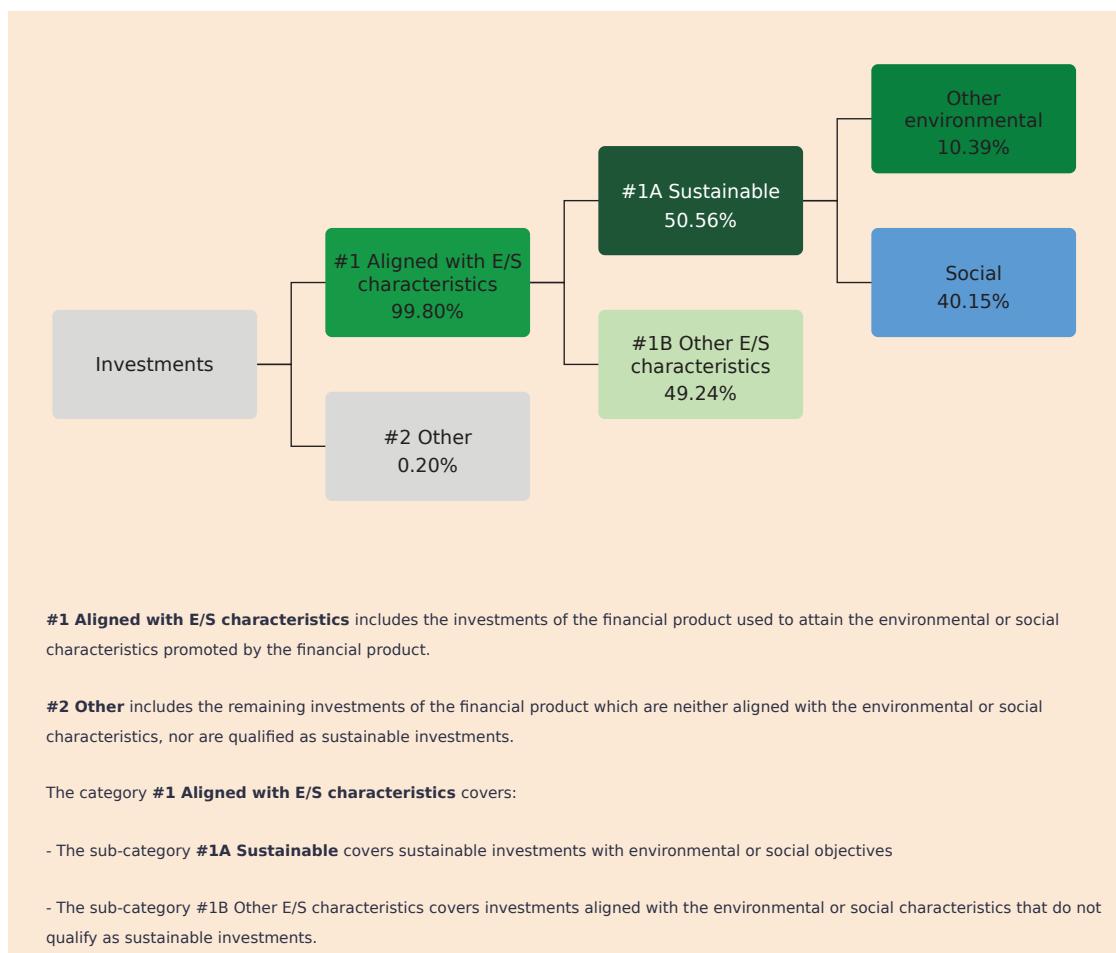

Asset allocation describes the share of investments in specific assets.

● What was the asset allocation?

99.80% of the Fund's NAV was invested in investments that aligned with the environmental and social characteristics of the Fund.

0.20% of the Fund's NAV was invested in financial derivative instruments for hedging and/or efficient portfolio management purposes; or was held as cash for ancillary liquidity purposes.

50.56% of the Fund's NAV was invested in sustainable investments.

● In which economic sectors were the investments made?

GICS Sector Breakdown - the data is representative of the reference period

Sector (GICS)	Weight %
Financials	12.67
Communication Services	8.07
Consumer Discretionary	18.79
Information Technology	13.88
Industrials	23.31
Consumer Staples	4.85
Energy	0.56
Real Estate	2.81
Health Care	9.75
Materials	4.66
Utilities	0.45
Cash	0.20
Total	100.00

Sub-Industry Code	Sub-Industry Name	Weight
10101010	Oil & Gas Drilling	0.00
10101020	Oil & Gas Equipment & Services	0.00
10102010	Integrated Oil & Gas	0.00
10102020	Oil & Gas Exploration & Production	0.00
10102030	Oil & Gas Refining & Marketing	0.56
10102040	Oil & Gas Storage & Transportation	0.00
10102050	Coal & Consumable Fuels	0.00
Total		0.56

Although the Fund has exclusions around fossil fuel extraction, there may still have been exposure to fossil fuels as represented in part by exposure to the energy sector as disclosed above.

To comply with the EU Taxonomy, the criteria for fossil gas include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For nuclear energy, the criteria include comprehensive safety and waste management rules.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

0% of the Fund's portfolio was aligned with the EU Taxonomy.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

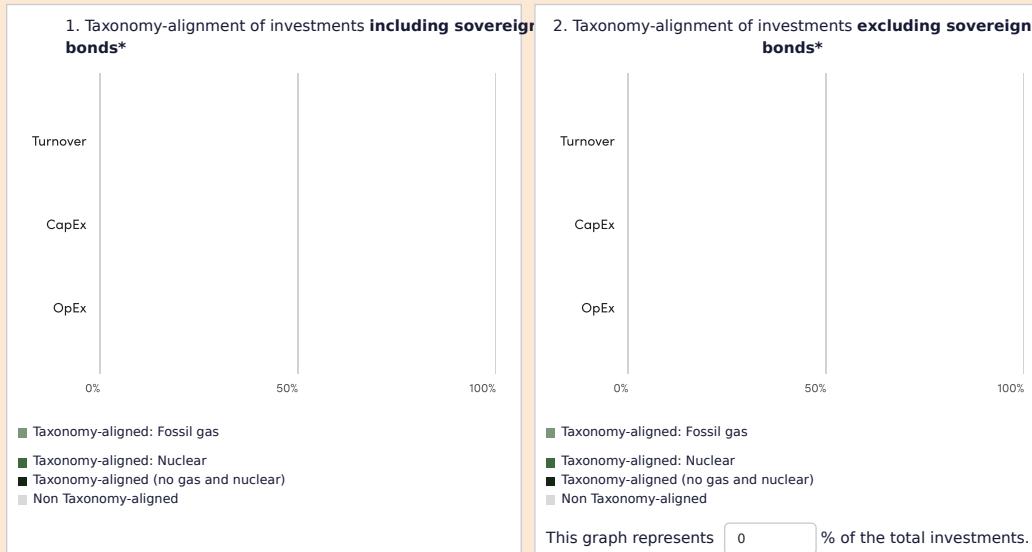

Yes

In fossil gas

In nuclear energy

No

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

*For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

● **What was the share of investments made in transitional and enabling activities?**

Not Applicable.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not Applicable.

 are sustainable investments with an environmental objective that do not take into account the criteria for environmentally sustainable economic activities under the EU Taxonomy.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

As the Fund does not currently intend to be EU Taxonomy aligned, 10.39% of the Fund's NAV was invested in sustainable investments with an environmental objective that was not aligned with the EU Taxonomy. Currently the Fund does not intend to be aligned with the Taxonomy Regulation and the Manager intends to keep the Fund's position in relation to the Taxonomy Regulation under consideration along with the reliability of datasets to determine Taxonomy alignment. To the extent required, the Manager will amend the pre-contractual documentation accordingly.

What was the share of socially sustainable investments?

40.15% of the Fund's NAV.

What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

Investments included under this category are financial derivative instruments for hedging and/or efficient portfolio management purposes and cash for ancillary liquidity. No minimum environmental or social safeguards are applied in relation to these instruments.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Fund achieved the environmental and social characteristics by tracking the Reference Index, which has a methodology that is consistent with attaining the environmental and social characteristics promoted by the Fund.

Please refer to the section "How did the sustainability indicators perform" above for further information.

How did this financial product perform compared to the reference benchmark?

See tables completed in below sections.

● **How does the reference benchmark differ from a broad market index?**

The Reference Index differs from a broad market index because it seeks to increase overall exposure to issuers demonstrating both a robust ESG profile, and issuers that are assigned more favourable ESG scores using MSCI ESG metrics.

● **How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?**

As the Fund fully replicates the performance of the Reference Index, the sustainability indicators

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

performed similarly for the Fund and Reference Index:

Sustainability Indicator	Fund Indicator performance	Reference Index Indicator performance
MSCI ESG score (as defined in the methodology of the Reference Index) relative to the Parent Index	7.77	7.77
CO2 emissions intensity	59.0	59.0
Percentage of exposure in excluded companies involved in controversial business activities and controversies (as defined in the methodology of the Reference Index)	The Fund had 0% exposure to excluded companies at each Reference Index rebalance date	The Reference Index had 0% exposure to excluded companies at each Reference Index rebalance date

● ***How did this financial product perform compared with the reference benchmark?***

As the Fund achieves the environmental and social characteristics by tracking the Reference Index, which has a methodology that is consistent with attaining the environmental and social characteristics promoted by the Fund, the performance of the Fund is aligned with that of the Reference Benchmark. Please see above for the performance of the sustainability indicators compared with the Reference Benchmark.

● ***How did this financial product perform compared with the broad market index?***

The Parent Index also acts as a relevant broad market index. The sustainability indicators for the Fund and Parent Index differed as below:

Sustainability Indicator	Fund Indicator performance	Broad Market benchmark (Parent Index) Indicator Performance
MSCI ESG Score (as defined in the methodology Of the Reference Index)	7.77	7.32
CO2 emissions intensity	59.0	70.9
Percentage of the Fund porffolio invested in excluded companies involved in controversial business activities and controversies (as defined in the methodology of the Reference Index)	The Reference Index had 0% exposure to excluded companies at each Reference Index rebalance date	The Broad Market benchmark had 3.8% exposure to excluded companies at the latest Reference Index rebalance date

Annex**Product name:** Invesco MSCI EMU ESG Universal Screened UCITS ETF**Legal entity identifier:** 5493005A892WKK5VZK37

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The EU Taxonomy is a classification system laid down in Regulation (EU) 2020/852, establishing a list of environmentally sustainable economic activities. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

Yes

No

- It made **sustainable investments with an environmental objective:** _____ %
- in economic activities that qualify as environmentally sustainable under the EU Taxonomy
 - in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
- It made **sustainable investments with a social objective:** _____ %

- It **promoted Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of 54.96 % of sustainable investments
- with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
 - with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
 - with a social objective
- It promoted E/S characteristics, but **did not make any sustainable investments**

To what extent were the environmental and/or social characteristics promoted by this financial product met?

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

The environmental and social characteristics promoted by the Fund were to increase overall exposure to large- and mid-capitalisation companies across the 10 Developed Markets in the EMU (European Economic and Monetary Union) demonstrating a robust ESG profile, as well as a positive trend in improving that profile. i.e. issuers with a more favourable or increasingly favourable ESG rating compared to similar issuers. The fund also reduced its exposure to companies involved in certain business activities and those with involvement in very severe ESG controversies.

The Fund achieved the environmental and social characteristics by tracking the MSCI EMU ESG Universal Select Business Screens Index (the "Reference Index"), which has a methodology that is consistent with attaining the environmental and social characteristics promoted by the Fund.

The extent to which the Fund tracked the Reference Index is reflected by the tracking error figures available in the section "Tracking Error Analysis" of the Annual Report.

● How did the sustainability indicators perform?

The Fund used a variety of indicators to measure the attainment of the environmental and social characteristics. The Fund performed as at 31st of December 2023. The data is representative of the reference period

Sustainability Indicator	Indicator Performance
MSCI ESG Score (as defined in the methodology of the Reference Index) of the fund relative to the MSCI EMU Index (the " Parent Index ")	5.4% improvement
CO2 emissions intensity of the Fund relative to the Parent Index	19.3% reduction
Percentage of the Fund portfolio invested in excluded companies involved in controversial business activities and controversies (as defined in the methodology of the Reference Index)	As at each Reference Index rebalance date, the Fund had 0% exposure to excluded companies

● ...and compared to previous periods?

Compared to last period the improvement in MSCI ESG Score for the Fund relative to the parent index was slightly lower and the reduction in CO2 emissions intensity was also lower. The Fund continues to avoid companies excluded by the Reference Index.

What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

The sustainable investments made by the Fund contributed to environmental objectives such as climate change, water management, pollution prevention, and to social objectives such as good health, well-being and gender equality. The Fund achieved those objectives by investing in constituents of the Reference Index. According to Invesco's sustainable investment framework, a percentage (as disclosed above) of constituents of the Reference Index contributed positively to selected Sustainable Development Goals (SDGs) that related to the above objectives.

Principal adverse impacts
are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

The index methodology of the Reference Index that the Fund tracks takes into account principal adverse impacts (PAI) indicators defined in Table 1 of Annex I of the regulatory technical standards for Regulation 2019/2088 (RTS). Securities that didn't meet certain PAI thresholds were excluded from the Reference Index or had their weightings reduced.

How were the indicators for adverse impacts on sustainability factors taken into account?

Please see above on how the indicators for adverse impacts on sustainability factors have been taken into account.

The index methodology directly excluded a number of companies involved in certain business activities. Through removal of companies involved in thermal coal and oil sands the Reference Index reduced its exposure to greenhouse gas emissions. The methodology also excluded companies involved in controversial weapons and those facing very severe ESG controversies, as assessed via MSCI Controversy Scores. Through its exclusions based on MSCI ESG Score, and adjustment of the weighting for those that are above the threshold based on these same scores, the Reference Index also addressed a number of other adverse indicators. The Reference Index also excluded any companies where data wasn't available to make such assessments.

MSCI ESG Scores consider a number of key issues in their construction, including, but not limited to; carbon emissions, product carbon footprint, biodiversity & land use, toxic emissions & waste, opportunities in renewable energy. The scores also take into account areas such as human capital as well as corporate governance, considering ownership & control, pay and the board.

MSCI Controversy Scores consider controversies in a number of different areas, including, but not limited to; biodiversity & land use, energy & climate change, toxic emissions & waste, operational waste, discrimination & workforce diversity, and governance structures. Any company that violates the UN Global Compact receives a very severe MSCI Controversy Score.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Alignment with the OECD Guidelines for Multinational Enterprises (the "OECD Guidelines") and the UN Guiding Principles on Business and Human Rights (the UN Guiding Principles") is captured in the index methodology of the Fund, with the result that securities were excluded from the investible universe if they were deemed not to be in alignment.

The index methodology excluded companies that aren't compliant with the UN Global Compact (the "UNGC"), this set of ten principles show significant overlap with both the OECD Guidelines and the UN Guiding Principles . With regards to OECD Guidelines, these guidelines and the UNGC both aim to promote corporate responsibility and sustainable business practices, in terms of specific topics, they both cover the areas of human rights, employment relations, environment and anti-corruption. As for the two UN frameworks, whilst they do vary in nature, scope and depth, the two come together in their overriding objective (to achieve a more responsible and accountable business community) as well as some of the key areas they address, namely in the human rights space.

The index methodology excluded companies facing very severe ESG controversies, as assessed via MSCI Controversy Scores. These scores assess controversies that may constitute a breach of selected global norms and conventions, including the UNGC, the International Labour Organisation's conventions, and the United Nations Guiding Principles on Business and Human Rights.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the Union criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the Union criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

As noted above, the index methodology considered principal adverse impacts on sustainability factors, primarily through a set of exclusion criteria corresponding to the indicators that are defined in Table 1, Annex I of the RTS.

The below table shows the PAI scores for the fund, as the data is representative of the reference period.

Adverse sustainability indicator	PAI	Data	Metric
Greenhouse gas emissions	1.GHG Emissions	68.70	Scope 1 fund financed emissions (Tonnes of CO2 equivalent)
		14.31	Scope 2 fund financed emissions (Tonnes of CO2 equivalent)
		723.53	Scope 3 fund financed emissions (Tonnes of CO2 equivalent)
		806.54	Total Financed emissions (Scope 1 + Scope 2 + Scope 3) (Tonnes of CO2 equivalent)
	2. Carbon footprint	656.03	Fund level Carbon footprint (Scope 1 + Scope 2 + Scope 3) (Per Million EUR Invested)
	3. GHG Intensity of investee companies	1,042.15	Fund level Total Emission Intensity- Scope 1+2+3 (Per Million EUR Revenue)
	4. Exposure to companies active in the fossil fuel sector	0.12	% of the fund exposed to any fossil fuels revenue
	5. Share of non-renewable energy consumption	56.87	Adjusted Weighted Average of all issuers in the fund's share of non-renewable energy consumption and non-renewable energy production of investee companies from non-renewable energy sources compared to renewable energy sources, expressed as a percentage of total energy sources (%)
	5. Share of non-renewable energy production	24.42	
	6. Energy consumption intensity per high impact climate sector		Adjusted weighted average energy consumption of issuers in the fund in GWh per million EUR of revenue of investee companies, per high impact climate sector
	Agriculture, Forestry & Fishing	2.90	
	Construction	0.16	
	Electricity, Gas, Steam & Air Conditioning Supply	2.85	
	Manufacturing	0.41	
	Mining & Quarrying	2.12	
	Real Estate Activities	0.70	
	Transportation & Storage	0.35	
	Water Supply, Sewerage, Waste Management & Remediation Activities	0.00	
	Wholesale & Retail Trade & Repair of Motor Vehicles & Motorcycles	0.06	
Biodiversity	7. Activites negatively affecting biodiversity-sensitive areas	8.06	Share of investments in the fund of investee companies with sites/operations located in or near to biodiversity-sensitive areas where activities of those investee companies negatively affect those areas
Water	8. Emissions to water	0.31	Adjusted weighted average per issuer in the fund's emissions to water generated by investee companies per million EUR invested (Tonnes)
Waste	9. Hazardous waste and	0.72	Tonnes of hazardous waste and radioactive waste

	radioactive waste ratio		generated by investee companies per million EUR invested, expressed as a weighted average
Social and employee matters	10. Violations fo UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises	0.00	Share of investments in investee companies that have been involved in violations of the UNGC principles or OECD Guidelines for Multinational Enterprises
	11. Lack of proceses and compliance mechanisms to monitor compliance with UN Global Compact principles and OECD Guidelines for Multinational Enterprises	24.12	Share of investments in investee companies without policies to monitor compliance with the UNGC principles or OECD Guidelines for Multinational Enterprises or grievance/ complaints handling mechanisms to address violations of the UNGC principles or OECD Guidelines for Multinational Enterprises
	12. Unadjusted gender pay gap	14.74	Weighted Average of all issuers' in the portfolio unadjusted gender pay gap of investee companies
	13. Board gender diversity	41.80	Waited Average of all issuers in the portfolio ratio of female to male board members in investee companies, expressed as a percentage of all board members
	14. Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons)	0.00	Share of investments in investee companies involved in the manufacture or selling of controversial weapons
Optional Indicators	Optional Indicator: 4. Investments in companies without carbon emission reduction initiative	23.63	Share of investments in investee companies without carbon emission reduction initiatives aimed at aligning with the Paris Agreement
	Optional Indicator: 9. Lack of a human rights policy	0.59	Share of investments in entities without a human rights policy

In addition, as part of the Fund's consideration of principal adverse impacts on sustainability factors, the ESG team monitored the investments against PAI indicators. Invesco conducted research into certain issuers in the Fund's portfolio that were deemed to flag against PAI indicators, in order to determine whether any engagement activity was required in accordance with the engagement policy.

What were the top investments of this financial product?

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is: From 1st of January 2023 to 31st of December 2023.

Large Investments	Sector	% Assets	Country
ASML HOLDING NV	Information Technology	5.00%	Netherlands
LVMH MOET HENNE	Consumer Discretionary	4.94%	France
SAP SE	Information Technology	3.74%	Germany
SIEMENS AG-REG	Industrials	3.29%	Germany
L'OREAL	Consumer Staples	2.69%	France
SCHNEIDER ELECTR	Industrials	2.55%	France
ALLIANZ SE-REG	Financials	2.08%	Germany
Iberdrola SA	Utilities	1.96%	Spain
BNP PARIBAS	Financials	1.84%	France
SANOFI	Health Care	1.68%	France
BANCO SANTANDER	Financials	1.66%	Spain
HERMES INTL	Consumer Discretionary	1.54%	France
AXA	Financials	1.47%	France
PRX NA COM	Consumer Discretionary	1.43%	Netherlands
ENEL SPA	Utilities	1.41%	Italy

What was the proportion of sustainability-related investments?

See below field

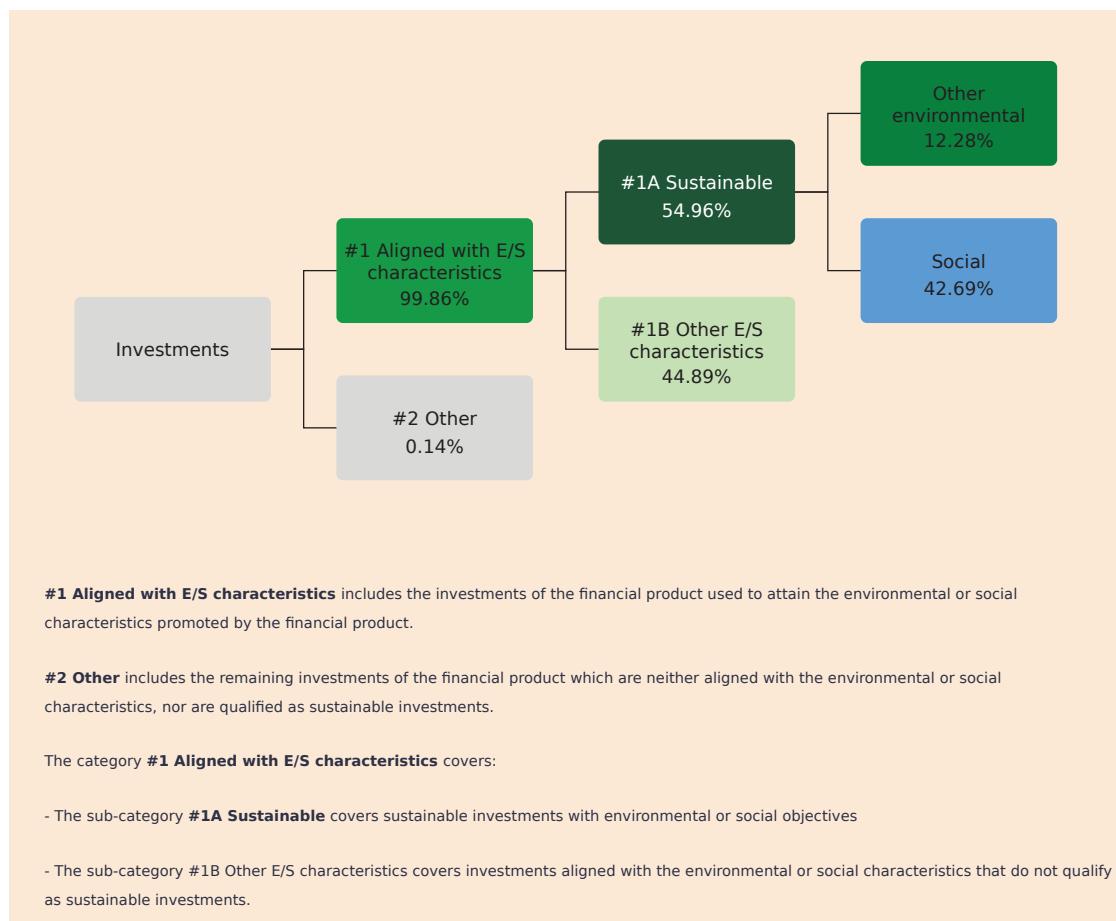

Asset allocation describes the share of investments in specific assets.

What was the asset allocation?

99.86% of the Fund's NAV was invested in investments that aligned with the environmental and social characteristics of the Fund.

0.14% of the Fund's NAV was invested in financial derivative instruments for hedging and/or efficient portfolio management purposes; or was held as cash for ancillary liquidity purposes.

54.96% of the Fund's NAV was invested in sustainable investments.

● In which economic sectors were the investments made?

GICS Sector Breakdown as the data is representative of the reference period.

Sector (GICS)	Weight %
Financials	20.34
Communication Services	3.65
Consumer Discretionary	17.31
Information Technology	13.33
Industrials	14.72
Consumer Staples	9.23
Energy	1.56
Real Estate	1.03
Health Care	6.14
Materials	5.65
Utilities	6.90
Cash	0.14
Total	100.00

GICS Level 4 breakdown for Energy Sector

Sub-Industry Code	Sub-Industry Name	Weight
10101010	Oil & Gas Drilling	0.00
10101020	Oil & Gas Equipment & Services	0.09
10102010	Integrated Oil & Gas	1.03
10102020	Oil & Gas Exploration & Production	0.00
10102030	Oil & Gas Refining & Marketing	0.43
10102040	Oil & Gas Storage & Transportation	0.00
10102050	Coal & Consumable Fuels	0.00
Total		1.56

Although the Fund has exclusions around fossil fuel extraction, there may still have been exposure to fossil fuels as represented in part by exposure to the energy sector as disclosed above.

To comply with the EU Taxonomy, the criteria for fossil gas include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For nuclear energy, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

0% of the Fund's portfolio was aligned with the EU Taxonomy.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy?

Yes

In fossil gas

In nuclear energy

No

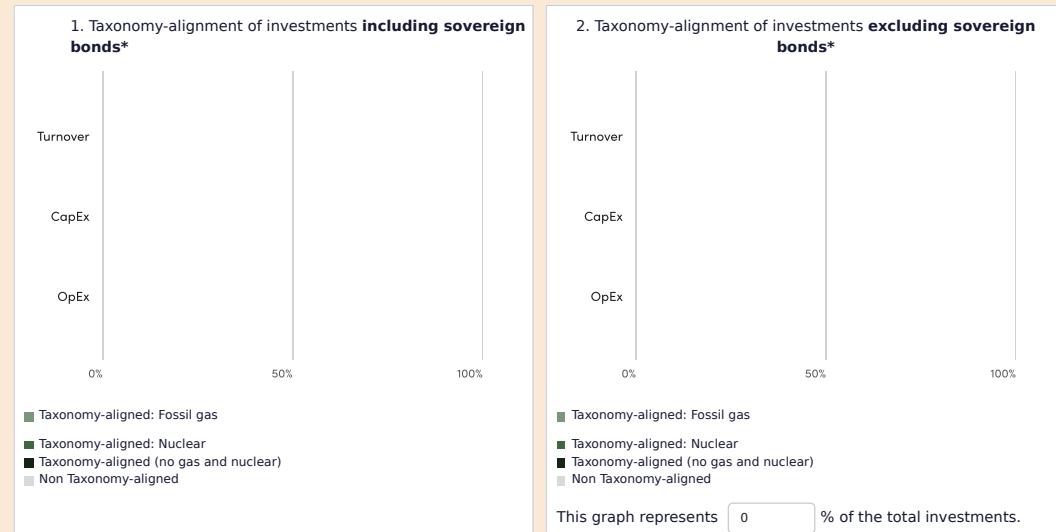

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- turnover reflecting the share of revenue from green activities of investee companies.
- capital expenditure (CapEx) shows the green investments made by investee companies, relevant for a transition to a green economy.
- operational expenditure (OpEx) reflects the green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

*For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

● What was the share of investments made in transitional and enabling activities?

Not Applicable.

● How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

Not Applicable.

are sustainable investments with an environmental objective that do not take into account the criteria for environmentally sustainable economic activities under the EU Taxonomy.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

As the Fund does not currently intend to be EU Taxonomy aligned, 12.28% of the Fund's NAV was invested in sustainable investments with an environmental objective that was not aligned with the EU Taxonomy.

Currently, the Fund does not intend to be aligned with the Taxonomy Regulation and the Manager intends to keep the Fund's position in relation to the Taxonomy Regulation under consideration along with the reliability of datasets to determine Taxonomy alignment. To the extent required, the Manager will amend the pre-contractual documentation accordingly

What was the share of socially sustainable investments?

42.69% of the Fund's NAV.

What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

Investments included under this category are financial derivative instruments for hedging and/or efficient portfolio management purposes and cash for ancillary liquidity. No minimum environmental or social safeguards are applied in relation to these instruments.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Fund achieved the environmental and social characteristics by tracking the Reference Index, which has a methodology that is consistent with attaining the environmental and social characteristics promoted by the Fund.

Please refer to the section "How did the sustainability indicators perform" above for further information.

How did this financial product perform compared to the reference benchmark?

See tables completed in below sections.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

How does the reference benchmark differ from a broad market index?

The Reference Index differs from a broad market index because it seeks to increase overall exposure to issuers demonstrating both a robust ESG profile, and issuers that are assigned more favourable ESG scores using MSCI ESG metrics.

How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

As the Fund fully replicates the performance of the Reference Index, the sustainability indicators performed similarly for the Fund and Reference Index:

Sustainability Indicator	Fund Indicator Performance	Reference Index Indicator Performance
MSCI ESG Score (as defined in the methodology of the Reference Index)	8.27	8.27
CO2 emissions intensity	81.4	81.4
Percentage of exposure in excluded companies involved in controversial business activities and controversies (as defined in the methodology of the Reference Index)	The Fund had 0% exposure to excluded companies at each Reference Index rebalance date	The Reference Index had 0% exposure to excluded companies at each Reference Index rebalance date

How did this financial product perform compared with the reference benchmark?

As the Fund achieves the environmental and social characteristics by tracking the Reference Index, which has a methodology that is consistent with attaining the environmental and social characteristics promoted by the Fund, the performance of the Fund is aligned with that of the Reference Benchmark. Please see above for the performance of the sustainability indicators compared with the Reference Benchmark.

How did this financial product perform compared with the broad market index?

The Parent Index also acts as a relevant broad market index. The sustainability indicators for the Fund and Parent Index differed as below:

Sustainability Indicator	Fund Indicator Performance	Broad Market benchmark (Parent Index) Indicator Performance
MSCI ESG Score (as defined in the methodology of the Reference Index)	8.27	7.84
CO2 emissions intensity	81.4	100.9
Percentage of the fund portfolio invested in excluded companies involved in controversial business activities and controversies (as defined in the methodology of the Reference Index)	The Reference Index had 0% exposure to excluded companies at each Reference Index rebalance date	The Broad Market benchmark had 9.5% exposure to excluded companies at the latest Reference Index rebalance date

Annex

Product name: Invesco MSCI Europe Ex UK ESG Universal Screened UCITS ETF

Legal entity identifier:
549300M2XC8K4G8QB195

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

Yes

No

It made **sustainable investments with an environmental objective:** _____ %

- in economic activities that qualify as environmentally sustainable under the EU Taxonomy
- in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

It made **sustainable investments with a social objective:** _____ %

It promoted **Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of 58.65 % of sustainable investments

- with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
- with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
- with a social objective

It promoted E/S characteristics, but **did not make any sustainable investments**

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The environmental and social characteristics promoted by the Fund were to increase overall exposure to large- and mid-capitalisation companies across 14 Developed Markets in Europe (excluding the UK) demonstrating a robust ESG profile, as well as a positive trend in improving that profile. i.e. issuers with a more favourable or increasingly favourable ESG rating compared to similar issuers. The fund also reduced its exposure to companies involved in certain business activities and those with involvement in very severe ESG controversies.

The Fund achieved the environmental and social characteristics by tracking the MSCI Europe ex UK ESG Universal Select Business Screens Index (the "Reference Index"), which has a methodology that is consistent with attaining the environmental and social characteristics promoted by the Fund.

The extent to which the Fund tracked the Reference Index is reflected by the tracking error figures available in the section "Tracking Error Analysis" of the Annual Report.

How did the sustainability indicators perform?

The Fund used a variety of indicators to measure the attainment of the environmental and social characteristics. The Fund performed as at 31st of December 2023. The data is representative of the

reference period.

Sustainability Indicator	Indicator Performance
MSCI ESG Score (as defined in the methodology Of the Reference Index) Of the Fund relative to the MSCI Europe ex UK Index (the "Parent Index")	5.0% improvement
CO2 emissions intensity of the Fund relative to the Parent Index	14.9% reduction
Percentage of the Fund portfolio invested in excluded companies involved in controversial business activities and controversies (as defined in the methodology of the Reference Index)	As at each Reference Index rebalance date, the Fund had 0% exposure to excluded companies

● ***...and compared to previous periods?***

Compared to last period the improvement in MSCI ESG Score for the Fund relative to the parent index is equivalent and the reduction in CO2 emissions intensity was slightly lower . The Fund continues to avoid companies excluded by the Reference Index.

● ***What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?***

The sustainable investments made by the Fund contributed to environmental objectives such as climate change, water management, pollution prevention, and to social objectives such as good health, well-being and gender equality. The Fund achieved those objectives by investing in constituents of the Reference Index. According to Invesco's sustainable investment framework, a percentage (as disclosed above) of constituents of the Reference Index contributed positively to selected Sustainable Development Goals (SDGs) that related to the above objectives.

● ***How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?***

The index methodology of the Reference Index that the Fund tracks takes into account principal adverse impacts (PAI) indicators defined in Table 1 of Annex I of the regulatory technical standards for Regulation 2019/2088 (RTS). Securities that didn't meet certain PAI thresholds were excluded from the Reference Index or had their weightings reduced.

How were the indicators for adverse impacts on sustainability factors taken into account?

Please see above on how the indicators for adverse impacts on sustainability factors have been taken into account.

The index methodology directly excluded a number of companies involved in certain business activities. Through removal of companies involved in thermal coal and oil sands the Reference Index reduced its exposure to greenhouse gas emissions. The methodology also excluded companies involved in controversial weapons and those facing very severe ESG controversies, as assessed via MSCI Controversy Scores. Through its exclusions based on MSCI ESG Score, and adjustment of the weighting for those that are above the threshold based on these same scores, the Reference Index also addressed a number of other adverse indicators. The Reference Index also excluded any companies where data wasn't available to make such assessments.

MSCI ESG Scores consider a number of key issues in their construction, including, but not limited to; carbon emissions, product carbon footprint, biodiversity & land use, toxic emissions & waste, opportunities in renewable energy. The scores also take into account areas such as human capital as well as corporate governance, considering ownership & control, pay and the board.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

MSCI Controversy Scores consider controversies in a number of different areas, including, but not limited to; biodiversity & land use, energy & climate change, toxic emissions & waste, operational waste, discrimination & workforce diversity, and governance structures. Any company that violates the UN Global Compact receives a very severe MSCI Controversy Score.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Alignment with the OECD Guidelines for Multinational Enterprises (the "OECD Guidelines") and the UN Guiding Principles on Business and Human Rights (the UN Guiding Principles") is captured in the index methodology of the Fund, with the result that securities were excluded from the investible universe if they were deemed not to be in alignment.

The index methodology excluded companies that aren't compliant with the UN Global Compact (the "UNGC"), this set of ten principles show significant overlap with both the OECD Guidelines and the UN Guiding Principles . With regards to OECD Guidelines, these guidelines and the UNGC both aim to promote corporate responsibility and sustainable business practices, in terms of specific topics, they both cover the areas of human rights, employment relations, environment and anti-corruption. As for the two UN frameworks, whilst they do vary in nature, scope and depth, the two come together in their overriding objective (to achieve a more responsible and accountable business community) as well as some of the key areas they address, namely in the human rights space.

The index methodology excluded companies facing very severe ESG controversies, as assessed via MSCI Controversy Scores. These scores assess controversies that may constitute a breach of selected global norms and conventions, including the UNGC, the International Labour Organisation's conventions, and the United Nations Guiding Principles on Business and Human Rights.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the Union criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the Union criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

As noted above, the index methodology considered principal adverse impacts on sustainability factors, primarily through a set of exclusion criteria corresponding to the indicators that are defined in Table 1, Annex I of the RTS.

The below table shows the PAI scores for the fund, the data is representative of the reference period.

Adverse sustainability indicator	PAI	Data	Metric
Greenhouse gas emissions	1.GHG Emissions	252.13	Scope 1 fund financed emissions (Tonnes of CO2 equivalent)
		44.79	Scope 2 fund financed emissions (Tonnes of CO2 equivalent)
		2,369.77	Scope 3 fund financed emissions (Tonnes of CO2 equivalent)
		2,666.68	Total Financed emissions (Scope 1 + Scope 2 + Scope 3) (Tonnes of CO2 equivalent)
	2. Carbon footprint	575.00	Fund level Carbon footprint (Scope 1 + Scope 2 + Scope 3) (Per Million EUR Invested)
	3. GHG Intensity of investee companies	1,023.71	Fund level Total Emission Intensity- Scope 1+2+3 (Per Million EUR Revenue)
	4. Exposure to companies active in the fossil fuel sector	0.60	% of the fund exposed to any fossil fuels revenue
	5. Share of non-renewable energy consumption	55.64	Adjusted Weighted Average of all issuers in the fund's share of non-renewable energy consumption and non-renewable energy production of investee companies from non-renewable energy sources compared to renewable energy sources, expressed as a percentage of total energy sources (%)
	5. Share of non-renewable energy production	26.01	Adjusted weighted average energy consumption of issuers in the fund in GWh per million EUR of revenue of investee companies, per high impact climate sector
	6. Energy consumption intensity per high impact climate sector		
	Agriculture, Forestry & Fishing	2.88	
	Construction	0.15	
	Electricity, Gas, Steam & Air Conditioning Supply	2.82	
	Manufacturing	0.37	
	Mining & Quarrying	1.51	
	Real Estate Activities	0.65	
	Transportation & Storage	0.45	
	Water Supply, Sewerage, Waste Management & Remediation Activities	0.00	
	Wholesale & Retail Trade & Repair of Motor Vehicles & Motorcycles	0.06	
Biodiversity	7. Activites negatively affecting biodiversity-sensitive areas	9.75	Share of investments in the fund of investee companies with sites/operations located in or near to biodiversity-sensitive areas where activities of those investee companies negatively affect those areas
Water	8. Emissions to water	0.23	Adjusted weighted average per issuer in the fund's emissions to water generated by investee companies

			per million EUR invested (Tonnes)
Waste	9. Hazardous waste and radioactive waste ratio	0.67	Tonnes of hazardous waste and radioactive waste generated by investee companies per million EUR invested, expressed as a weighted average
Social and employee matters	10. Violations fo UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises	0.00	Share of investments in investee companies that have been involved in violations of the UNGC principles or OECD Guidelines for Multinational Enterprises
	11. Lack of proceses and compliance mechanisms to monitor compliance with UN Global Compact principles and OECD Guidelines for Multinational Enterprises	27.13	Share of investments in investee companies without policies to monitor compliance with the UNGC principles or OECD Guidelines for Multinational Enterprises or grievance/ complaints handling mechanisms to address violations of the UNGC principles or OECD Guidelines for Multinational Enterprises
	12. Unadjusted gender pay gap	4.55	Weighted Average of all issuers' in the portfolio unadjusted gender pay gap of investee companies
	13. Board gender diversity	39.63	Waited Average of all issuers in the portfolio ratio of female to male board members in investee companies, expressed as a percentage of all board members
	14. Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons)	0.00	Share of investments in investee companies involved in the manufacture or selling of controversial weapons
Optional Indicators	Optional Indicator: 4. Investments in companies without carbon emission reduction initiative	21.25	Share of investments in investee companies without carbon emission reduction initiatives aimed at aligning with the Paris Agreement
	Optional Indicator: 9. Lack of a human rights policy	1.03	Share of investments in entities without a human rights policy

In addition, as part of the Fund's consideration of principal adverse impacts on sustainability factors, the ESG team monitored the investments against PAI indicators. Invesco conducted research into certain issuers in the Fund's portfolio that were deemed to flag against PAI indicators, in order to determine whether any engagement activity was required in accordance with the engagement policy.

What were the top investments of this financial product?

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is: From 1st of January 2023 to 31st of December 2023.

Large Investments	Sector	% Assets	Country
ASML HOLDING NV	Information Technology	4.54%	Netherlands
NESTLE SA-REG	Consumer Staples	4.02%	Switzerland
LVMH MOET HENNE	Consumer Discretionary	3.88%	France
NOVARTIS AG-REG	Health Care	3.37%	Switzerland
COM	Health Care	2.49%	Denmark
SAP SE	Information Technology	2.34%	Germany
NOVO NORDISK-B	Health Care	2.14%	Denmark
SIEMENS AG-REG	Industrials	2.06%	Germany
L'OREAL	Consumer Staples	1.68%	France
ROCHE HLDG-GENUS	Health Care	1.67%	Switzerland
SCHNEIDER ELECTR	Industrials	1.59%	France
ALLIANZ SE-REG	Financials	1.30%	Germany
UBS GROUP AG	Financials	1.29%	Switzerland
IBERDROLA SA	Utilities	1.22%	Spain
ZURICH INSURANCE	Financials	1.19%	Switzerland

What was the proportion of sustainability-related investments?

See below field

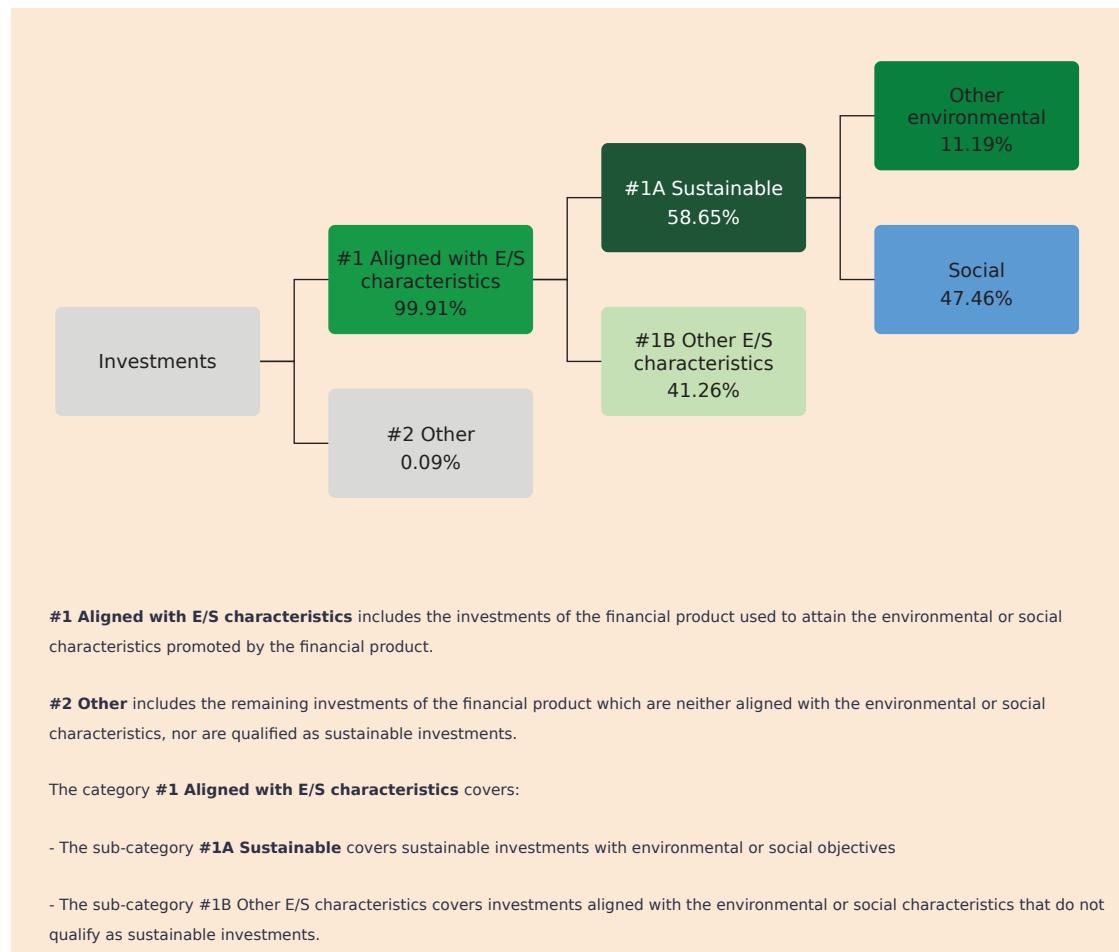

Asset allocation describes the share of investments in specific assets.

● What was the asset allocation?

99.91% of the Fund's NAV was invested in investments that aligned with the environmental and social characteristics of the Fund.

0.09% of the Fund's NAV was invested in financial derivative instruments for hedging and/or efficient portfolio management purposes; or was held as cash for ancillary liquidity purposes.

58.65% of the Fund's NAV was invested in sustainable investments.

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2 Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category **#1 Aligned with E/S characteristics** covers:

- The sub-category **#1A Sustainable** covers sustainable investments with environmental or social objectives
- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

● In which economic sectors were the investments made?

GICS Sector Breakdown - the data is representative of the reference period.

Sector (GICS)	Weight %
Financials	18.64
Communication Services	2.87
Consumer Discretionary	12.27
Information Technology	10.37
Industrials	16.09
Consumer Staples	10.85
Energy	1.52
Real Estate	0.81
Health Care	15.83
Materials	6.13
Utilities	4.53
Cash	0.09
Total	100.00

GICS Level 4 breakdown for Energy Sector

Sub-Industry Code	Sub-Industry Name	Weight
10101010	Oil & Gas Drilling	0.00
10101020	Oil & Gas Equipment & Services	0.06
10102010	Integrated Oil & Gas	1.12
10102020	Oil & Gas Exploration & Production	0.07
10102030	Oil & Gas Refining & Marketing	0.27
10102040	Oil & Gas Storage & Transportation	0.00
10102050	Coal & Consumable Fuels	0.00
Total		1.52

Although the Fund has exclusions around fossil fuel extraction, there may still have been exposure to fossil fuels as represented in part by exposure to the energy sector as disclosed above.

To comply with the EU Taxonomy, the criteria for fossil gas include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For nuclear energy, the criteria include comprehensive safety and waste management rules.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

0% of the Fund's portfolio was aligned with the EU Taxonomy.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- turnover reflecting the share of revenue from green activities of investee companies.
- capital expenditure (CapEx) shows the green investments made by investee companies, relevant for a transition to a green economy.
- operational expenditure (OpEx) reflects the green operational activities of investee companies.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

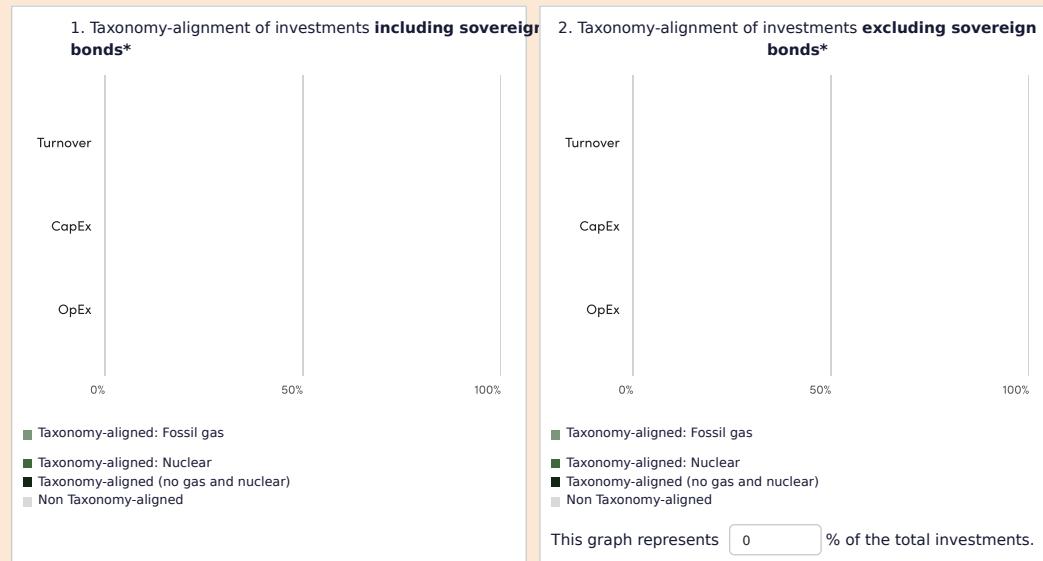

Yes

In fossil gas

In nuclear energy

No

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

*For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

What was the share of investments made in transitional and enabling activities?

Not Applicable.

How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

Not Applicable.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

As the Fund does not currently intend to be EU Taxonomy aligned, 11.19% of the Fund's NAV was invested in sustainable investments with an environmental objective that was not aligned with the EU Taxonomy. Currently the Fund does not intend to be aligned with the Taxonomy Regulation and the Manager intends to keep the Fund's position in relation to the Taxonomy Regulation under consideration along with the reliability of datasets to determine Taxonomy alignment. To the extent required, the Manager will amend the pre-contractual documentation accordingly.

What was the share of socially sustainable investments?

47.46% of the Fund's NAV.

What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

Investments included under this category are financial derivative instruments for hedging and/or efficient portfolio management purposes and cash for ancillary liquidity. No minimum environmental or

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

are sustainable investments with an environmental objective that do not take into account the criteria for environmentally sustainable economic activities under the EU Taxonomy.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Fund achieved the environmental and social characteristics by tracking the Reference Index, which has a methodology that is consistent with attaining the environmental and social characteristics promoted by the Fund.

Please refer to the section "How did the sustainability indicators perform" above for further information.

How did this financial product perform compared to the reference benchmark?

See tables completed in below sections.

Reference benchmarks
are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

● How does the reference benchmark differ from a broad market index?

The Reference Index differs from a broad market index because it seeks to increase overall exposure to issuers demonstrating both a robust ESG profile, and issuers that are assigned more favourable ESG scores using MSCI ESG metrics.

● How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

As the Fund fully replicates the performance of the Reference Index, the sustainability indicators performed similarly for the Fund and Reference Index:

Sustainability Indicator	Fund Indicator Performance	Reference Index Indicator Performance
MSCI ESG score (as defined in the methodology of the Reference Index) relative to the Parent Index	8.28	8.28
CO2 emissions intensity	74.7	74.7
Percentage of exposure in excluded companies involved in controversial business activities and controversies (as defined in the methodology of the Reference Index)	The Fund had 0% exposure to excluded companies at each Reference Index rebalance date	The Reference Index had 0% exposure to excluded companies at each Reference Index rebalance date

● How did this financial product perform compared with the reference benchmark?

As the Fund achieves the environmental and social characteristics by tracking the Reference Index, which has a methodology that is consistent with attaining the environmental and social characteristics promoted by the Fund, the performance of the Fund is aligned with that of the Reference Benchmark. Please see above for the performance of the sustainability indicators compared with the Reference Benchmark.

● How did this financial product perform compared with the broad market index?

The Parent Index also acts as a relevant broad market index. The sustainability indicators for the Fund

and Parent Index differed as below:

Sustainability Indicator	Fund Indicator Performance	Broad Market benchmark (Parent Index) Indicator Performance
MSCI ESG score (as defined in the methodology of the Reference Index)	8.28	7.88
CO2 emissions intensity	74.7	87.7
Percentage of the Fund portfolio invested in excluded companies involved in controversial business activities and controversies (as defined in the methodology of the Reference Index)	The Reference Index had 0% exposure to excluded companies at each Reference Index rebalance date	The Broad Market benchmark had 8.1% exposure to excluded companies at the latest Reference Index rebalance date

Annex

Product name: Invesco MSCI Emerging Markets ESG Universal Screened
UCITS **Legal entity identifier:** 549300JN201KVAIZA857

Environmental and/or social characteristics

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The EU Taxonomy is a classification system laid down in Regulation (EU) 2020/852, establishing a list of environmentally sustainable economic activities. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Did this financial product have a sustainable investment objective?

Yes

No

It made **sustainable investments with an environmental objective:** _____ %

- in economic activities that qualify as environmentally sustainable under the EU Taxonomy
- in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

It made **sustainable investments with a social objective:** _____ %

It promoted **Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of 38.64 % of sustainable investments

- with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
- with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
- with a social objective

It promoted E/S characteristics, but **did not make any sustainable investments**

To what extent were the environmental and/or social characteristics promoted by this financial product met?

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

The environmental and social characteristics promoted by the Fund were to increase overall exposure to large- and mid-capitalisation companies across 26 Emerging Market (EM) countries demonstrating a robust ESG profile, as well as a positive trend in improving that profile. i.e. issuers with a more favourable or increasingly favourable ESG rating compared to similar issuers. The fund also reduced its exposure to companies involved in certain business activities and those with involvement in very severe ESG controversies.

The Fund achieved the environmental and social characteristics by tracking the MSCI EM (Emerging Markets) ESG Universal Select Business Screens Index (the "Reference Index"), which has a methodology that is consistent with attaining the environmental and social characteristics promoted by the Fund.

The extent to which the Fund tracked the Reference Index is reflected by the tracking error figures available in the section "Tracking Error Analysis" of the Annual Report.

● How did the sustainability indicators perform?

The Fund used a variety of indicators to measure the attainment of the environmental and social characteristics. The Fund performed as at 31st of December 2023. The data is representative of the

Sustainability Indicator	Indicator Performance
MSCI ESG Score (as defined in the methodology of the Reference Index) of the fund relative to the MSCI Emerging Markets Index (the "Parent Index")	12.5% improvement
CO2 emissions intensity of the Fund relative to the Parent Index	44.4% reduction
Percentage of the Fund portfolio invested in excluded companies involved in controversial business activities and controversies (as defined in the methodology of the Reference Index)	As at each Reference Index rebalance date, the Fund had 0% exposure to excluded companies

● ***...and compared to previous periods?***

Compared to last period the improvement in MSCI ESG Score for the Fund relative to the parent index has increased slightly and the reduction in CO2 emissions intensity was slightly lower. The Fund continues to avoid companies excluded by the Reference Index.

● ***What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?***

The sustainable investments made by the Fund contributed to environmental objectives such as climate change, water management, pollution prevention, and to social objectives such as good health, well-being and gender equality. The Fund achieved those objectives by investing in constituents of the Reference Index. According to Invesco's sustainable investment framework, a percentage (as disclosed above) of constituents of the Reference Index contributed positively to selected Sustainable Development Goals (SDGs) that related to the above objectives.

● ***How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?***

The index methodology of the Reference Index that the Fund tracks takes into account principal adverse impacts (PAI) indicators defined in Table 1 of Annex I of the regulatory technical standards for Regulation 2019/2088 (RTS). Securities that didn't meet certain PAI thresholds were excluded from the Reference Index or had their weightings reduced.

How were the indicators for adverse impacts on sustainability factors taken into account?

Please see above on how the indicators for adverse impacts on sustainability factors have been taken into account.

The index methodology directly excluded a number of companies involved in certain business activities. Through removal of companies involved in thermal coal and oil sands the Reference Index reduced its exposure to greenhouse gas emissions. The methodology also excluded companies involved in controversial weapons and those facing very severe ESG controversies, as assessed via MSCI Controversy Scores. Through its exclusions based on MSCI ESG Score, and adjustment of the weighting for those that are above the threshold based on these same scores, the Reference Index also addressed a number of other adverse indicators. The Reference Index also excluded any companies where data wasn't available to make such assessments.

MSCI ESG Scores consider a number of key issues in their construction, including, but not limited to; carbon emissions, product carbon footprint, biodiversity & land use, toxic emissions & waste, opportunities in renewable energy. The scores also take into account areas such as human capital as well as corporate governance, considering ownership & control, pay and the board.

MSCI Controversy Scores consider controversies in a number of different areas, including, but not limited to; biodiversity & land use, energy & climate change, toxic emissions & waste, operational waste, discrimination & workforce diversity, and governance structures. Any company that violates the UN Global Compact receives a very severe MSCI Controversy Score.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Alignment with the OECD Guidelines for Multinational Enterprises (the "OECD Guidelines") and the UN Guiding Principles on Business and Human Rights (the UN Guiding Principles") is captured in the Reference Index methodology of the Fund, with the result that securities were excluded from the investible universe if they were deemed not to be in alignment.

The index methodology excluded companies that aren't compliant with the UN Global Compact ("UNGC"), this set of ten principles show significant overlap with both the OECD Guidelines and the UN Guiding Principles. With regards to OECD Guidelines, these guidelines and the UNGC both aim to promote corporate responsibility and sustainable business practices, in terms of specific topics, they both cover the areas of human rights, employment relations, environment and anti-corruption. As for the two UN frameworks, whilst they do vary in nature, scope and depth, the two come together in their overriding objective (to achieve a more responsible and accountable business community) as well as some of the key areas they address, namely in the human rights space.

The index methodology excluded companies facing very severe ESG controversies, as assessed via MSCI Controversy Scores. These scores assess controversies that may constitute a breach of selected global norms and conventions, including the UNGC, the International Labour Organisation's conventions, and the United Nations Guiding Principles on Business and Human Rights.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the Union criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the Union criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

As noted above, the Fund considered principal adverse impacts on sustainability factors, primarily through a set of exclusion criteria corresponding to the indicators that are defined in Table 1, Annex I of the RTS.

The below table shows the PAI scores for the fund, as the data is representative of the reference period.

Adverse sustainability indicator	PAI	Data	Metric
Greenhouse gas emissions	1.GHG Emissions	1,848.72	Scope 1 fund financed emissions (Tonnes of CO2 equivalent)
		606.81	Scope 2 fund financed emissions (Tonnes of CO2 equivalent)
		8,711.61	Scope 3 fund financed emissions (Tonnes of CO2 equivalent)
		11,167.14	Total Financed emissions (Scope 1 + Scope 2 + Scope 3) (Tonnes of CO2 equivalent)
	2. Carbon footprint	462.81	Fund level Carbon footprint (Scope 1 + Scope 2 + Scope 3) (Per Million EUR Invested)
	3. GHG Intensity of investee companies	955.35	Fund level Total Emission Intensity- Scope 1+2+3 (Per Million EUR Revenue)
	4. Exposure to companies active in the fossil fuel sector	0.33	% of the fund exposed to any fossil fuels revenue
	5. Share of non-renewable energy consumption	86.83	Adjusted Weighted Average of all issuers in the fund's share of non-renewable energy consumption and non-renewable energy production of investee companies from non-renewable energy sources compared to renewable energy sources, expressed as a percentage of total energy sources (%)
	5. Share of non-renewable energy production	6.47	
	6. Energy consumption intensity per high impact climate sector		Adjusted weighted average energy consumption of issuers in the fund in GWh per million EUR of revenue of investee companies, per high impact climate sector
	Agriculture, Forestry & Fishing	6.12	
	Construction	0.03	
	Electricity, Gas, Steam & Air Conditioning Supply	2.60	
	Manufacturing	1.22	
	Mining & Quarrying	1.75	
	Real Estate Activities	0.23	
	Transportation & Storage	1.62	
	Water Supply, Sewerage, Waste Management & Remediation Activities	0.75	
	Wholesale & Retail Trade & Repair of Motor Vehicles & Motorcycles	0.10	
Biodiversity	7. Activites negatively affecting biodiversity-sensitive areas	1.85	Share of investments in the fund of investee companies with sites/operations located in or near to biodiversity-sensitive areas where activities of those investee companies negatively affect those areas
Water	8. Emissions to water	0.14	Adjusted weighted average per issuer in the fund's emissions to water generated by investee companies

			per million EUR invested (Tonnes)
Waste	9. Hazardous waste and radioactive waste ratio	21.42	Tonnes of hazardous waste and radioactive waste generated by investee companies per million EUR invested, expressed as a weighted average
Social and employee matters	10. Violations fo UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises	0.00	Share of investments in investee companies that have been involved in violations of the UNGC principles or OECD Guidelines for Multinational Enterprises
	11. Lack of proceses and compliance mechanisms to monitor compliance with UN Global Compact principles and OECD Guidelines for Multinational Enterprises	68.60	Share of investments in investee companies without policies to monitor compliance with the UNGC principles or OECD Guidelines for Multinational Enterprises or grievance/ complaints handling mechanisms to address violations of the UNGC principles or OECD Guidelines for Multinational Enterprises
	12. Unadjusted gender pay gap	3.47	Weighted Average of all issuers' in the portfolio unadjusted gender pay gap of investee companies
	13. Board gender diversity	16.95	Waited Average of all issuers in the portfolio ratio of female to male board members in investee companies, expressed as a percentage of all board members
	14. Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons)	0.00	Share of investments in investee companies involved in the manufacture or selling of controversial weapons
Optional Indicators	Optional Indicator: 4. Investments in companies without carbon emission reduction initiative	57.48	Share of investments in investee companies without carbon emission reduction initiatives aimed at aligning with the Paris Agreement
	Optional Indicator: 9. Lack of a human rights policy	24.20	Share of investments in entities without a human rights policy

In addition, as part of the Fund's consideration of principal adverse impacts on sustainability factors, the ESG team monitored the investments against PAI indicators. Invesco conducted research into certain issuers in the Fund's portfolio that were deemed to flag against PAI indicators, in order to determine whether any engagement activity was required in accordance with the engagement policy.

What were the top investments of this financial product?

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is: From 1st of January 2023 to 31st of December 2023

Large Investments	Sector	% Assets	Country
TSMC	Information Technology	5.10%	Taiwan
SAMSUNG ELECTRON	Information Technology	3.97%	South Korea

What was the proportion of sustainability-related investments?

See below field

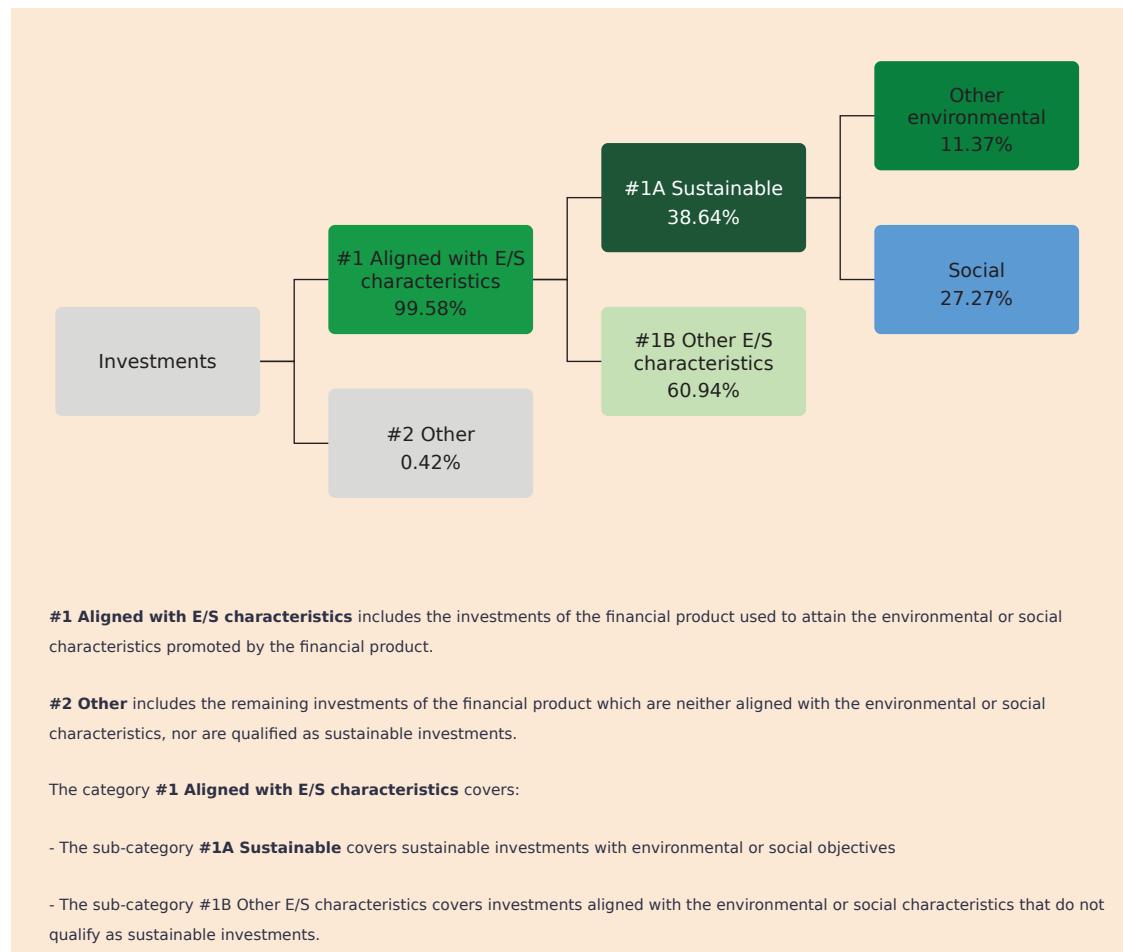

Asset allocation describes the share of investments in specific assets.

● What was the asset allocation?

99.58% of the Fund's NAV was invested in investments that aligned with the environmental and social characteristics of the Fund.

0.42% of the Fund's NAV was invested in financial derivative instruments for hedging and/or efficient portfolio management purposes; or was held as cash for ancillary liquidity purposes.

38.64% of the Fund's NAV was invested in sustainable investments.

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2 Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category **#1 Aligned with E/S characteristics** covers:

- The sub-category **#1A Sustainable** covers sustainable investments with environmental or social objectives
- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

● In which economic sectors were the investments made?

GICS Sector Breakdown as the data is representative of the reference period.

Sector (GICS)	Weight %
Financials	26.56
Communication Services	10.82
Consumer Discretionary	14.01
Information Technology	19.73
Industrials	4.84
Consumer Staples	6.02
Energy	3.37
Real Estate	1.71
Health Care	3.58
Materials	6.28
Utilities	1.83
Unclassified	0.83
Cash	0.42
Total	100.00

GICS Level 4 breakdown for Energy Sector

Sub-Industry Code	Sub-Industry Name	Weight
10101010	Oil & Gas Drilling	0.00
10101020	Oil & Gas Equipment & Services	0.00
10102010	Integrated Oil & Gas	0.56
10102020	Oil & Gas Exploration & Production	0.05
10102030	Oil & Gas Refining & Marketing	2.44
10102040	Oil & Gas Storage & Transportation	0.32
10102050	Coal & Consumable Fuels	0.00
Total		3.37

Although the Fund has exclusions around fossil fuel extraction, there may still have been exposure to fossil fuels as represented in part by exposure to the energy sector as disclosed above.

To comply with the EU Taxonomy, the criteria for fossil gas include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For nuclear energy, the criteria include

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

0% of the Fund's portfolio was aligned with the EU Taxonomy.

comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:
 - turnover reflecting the share of revenue from green activities of investee companies.
 - capital expenditure (CapEx) shows the green investments made by investee companies, relevant for a transition to a green economy.
 - operational expenditure (OpEx) reflects the green operational activities of investee companies.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

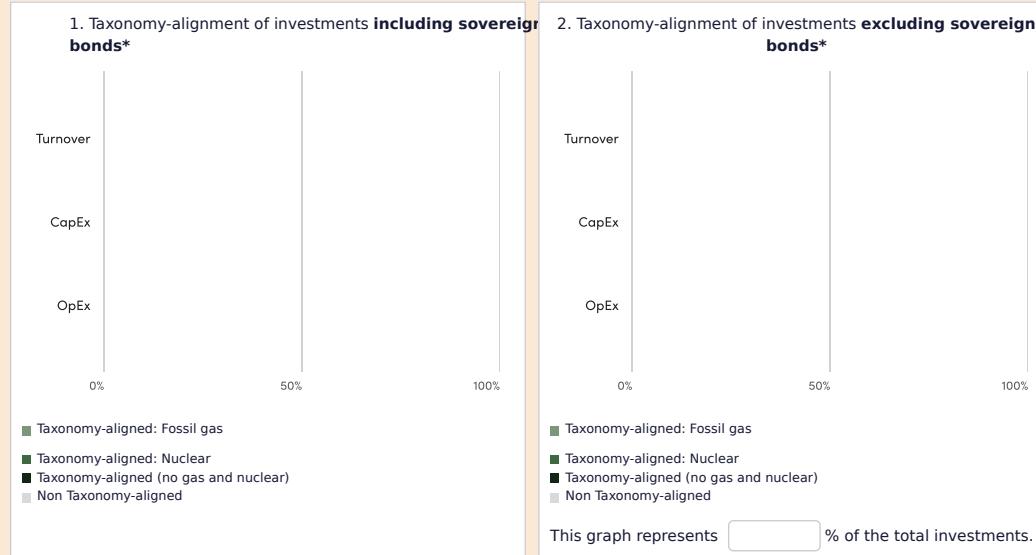

Yes

In fossil gas

In nuclear energy

No

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

*For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

What was the share of investments made in transitional and enabling activities?

Not Applicable.

How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

Not Applicable.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

As the Fund does not currently intend to be EU Taxonomy aligned, 11.37% of the Fund's NAV was invested in sustainable investments with an environmental objective that was not aligned with the EU Taxonomy.

Currently, the Fund does not intend to be aligned with the Taxonomy Regulation and the Manager intends to keep the Fund's position in relation to the Taxonomy Regulation under consideration along with the reliability of datasets to determine Taxonomy alignment. To the extent required, the Manager will amend the pre-contractual documentation accordingly.

What was the share of socially sustainable investments?

27.27% of the Fund's NAV.

What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective – see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Investments included under this category are financial derivative instruments for hedging and/or efficient portfolio management purposes and cash for ancillary liquidity. No minimum environmental or social safeguards are applied in relation to these instruments.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Fund achieved the environmental and social characteristics by tracking the Reference Index, which has a methodology that is consistent with attaining the environmental and social characteristics promoted by the Fund.

Please refer to the section "How did the sustainability indicators perform" above for further information.

How did this financial product perform compared to the reference benchmark?

See tables completed in below sections.

Reference benchmarks
are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

● How does the reference benchmark differ from a broad market index?

The Reference Index differs from a broad market index because it seeks to increase overall exposure to issuers demonstrating both a robust ESG profile, and issuers that are assigned more favourable ESG scores using MSCI ESG metrics.

● How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

As the Fund fully replicates the performance of the Reference Index, the sustainability indicators performed similarly for the Fund and Reference Index:

Sustainability Indicator	Fund Indicator Performance	Reference Index Indicator Performance
MSCI ESG Score (as defined in the methodology of the Reference Index)	6.27	6.27
CO2 emissions intensity	167.1	167.1
Percentage of exposure in excluded companies involved in controversial business activities and controversies (as defined in the methodology of the Reference Index)	The Fund had 0% exposure to excluded companies at each Reference Index rebalance date	The Reference Index had 0% exposure to excluded companies at each Reference Index rebalance date

● How did this financial product perform compared with the reference benchmark?

As the Fund achieves the environmental and social characteristics by tracking the Reference Index, which has a methodology that is consistent with attaining the environmental and social characteristics promoted by the Fund, the performance of the Fund is aligned with that of the Reference Benchmark. Please see above for the performance of the sustainability indicators compared with the Reference Benchmark.

● How did this financial product perform compared with the broad market index?

The Parent Index also acts as a relevant broad market index. The sustainability indicators for the Fund and Parent Index differed as below:

Sustainability Indicator	Fund Indicator Performance	Broad Market benchmark (Parent Index) Indicator Performance
MSCI ESG Score (as defined in the methodology of the Reference Index)	6.27	5.58
CO2 emissions intensity	167.1	300.6
Percentage of the fund portfolio invested in excluded companies involved in controversial business activities and controversies (as defined in the methodology of the Reference Index)	The Reference Index had 0% exposure to excluded companies at each Reference Index rebalance date	The Broad Market benchmark had 9.7% exposure to excluded companies at the latest Reference Index rebalance date

Annex

Product name: Invesco Quantitative Strategies ESG Global Equity Multi-Factor UCITS ETF

Legal entity identifier:
5493003S3W62ZS1AXM25

Environmental and/or social characteristics

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The EU Taxonomy is a classification system laid down in Regulation (EU) 2020/852, establishing a list of environmentally sustainable economic activities. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

<p>Did this financial product have a sustainable investment objective?</p> <p>● ● □ Yes</p> <p><input type="checkbox"/> It made sustainable investments with an environmental objective: _____ %</p> <p><input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy</p> <p><input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy</p> <p><input type="checkbox"/> It made sustainable investments with a social objective: _____ %</p>	<p>● ○ ✗ No</p> <p><input checked="" type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of <u>82.9</u> % of sustainable investments</p> <p><input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy</p> <p><input checked="" type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy</p> <p><input checked="" type="checkbox"/> with a social objective</p> <p><input type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments</p>
--	---

To what extent were the environmental and/or social characteristics promoted by this financial product met?

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

The environmental and social characteristics promoted by the Fund were to gain exposure to a portfolio of equity and equity-related securities of companies which meet the ESG Policy of the Fund.

The Fund achieved the environmental and social characteristics by excluding certain industries and activities that were considered by the Investment Manager to be inconsistent with ESG outcomes. The Fund also applied a proprietary ESG scoring system to ensure investment was made in “best of class” securities. The Fund ensured ongoing compliance with the standards of the Febelfin ecolabel. The Fund also maintained a lower carbon intensity of the portfolio relative to the MSCI World Index (the “Benchmark”).

The extent to which the environmental and/or social characteristics promoted by the Fund was met is further detailed in the performance of the sustainability indicators (see below).

The Benchmark is not aligned with the environmental objectives which the Fund seeks to promote. The Fund does not seek to track the performance of the Benchmark. The Fund holds an actively-managed portfolio of equities and equity-related securities with the aim of delivering superior risk-adjusted returns over the long term when compared with the average performance of global equity markets. Due to the changing volatility and return characteristics of equity markets, the fund does not have an absolute risk or return target. Rather, the Sub-Investment Manager will select the portfolio holdings through an optimisation process that utilises the Benchmark as a reference for risk and return calculations.

How did the sustainability indicators perform?

The Fund used a variety of indicators to measure the attainment of the environmental and social characteristics. The Fund performed as at 31st of December 2023. The data is representative of the

Sustainability Indicator	Indicator Performance
Reduction in the initial investment universe after application of the best-in-class measure based on an overall ESG profile score	59.96% reduction
Reduction in the initial investment universe after application of the exclusions depending on business involvement in controversial activities and controversies including violations of the UN Global Compact, based on third party data and the Investment Manager's proprietary analysis and research	67.26% reduction
Reduction in carbon intensity of the Fund as measured against the Benchmark	47.70% reduction

● ***...and compared to previous periods?***

Compared to previous period, figures are stable. [1](#)

● ***What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?***

The sustainable investments made by the Fund contributed to environmental objectives (such as climate change, water management, pollution prevention) and to social objectives (such as good health, well-being and gender equality).

The Fund achieved those objectives by investing in: (i) issuers which contributed positively to selected Sustainable Development Goals (SDGs) that related to the above objectives; or (ii) companies which generated a material part of their revenue from environmental impact themes such as energy transition, healthcare and food. The Fund also used a best-in-class approach and selected companies scoring higher, when compared to their peers, utilizing the investment manager's proprietary scoring methodology.

● ***How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?***

The Fund took into account principal adverse impacts (PAI) indicators defined in Table 1 of Annex I of the regulatory technical standards for Regulation 2019/2088 (RTS). Securities that didn't meet certain PAI thresholds were excluded from the Fund.

How were the indicators for adverse impacts on sustainability factors taken into account?

Please see above on how the indicators for adverse impacts on sustainability factors were taken into account.

The Fund addressed a number of other adverse indicators by excluding companies, sectors or countries from the investment universe if they are assessed to have violated international norms and standards according to the definitions of the International Labour Organisation (ILO), the OECD or the United Nations. All issuers considered for investment were screened for compliance with, and excluded if they do not meet, UN Global Compact principles. By limiting of exposure to thermal coal, shale energy and oil sands the Fund also reduced its exposure to greenhouse gas emissions.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

Alignment with the OECD Guidelines for Multinational Enterprises (the "OECD Guidelines") and the UN Guiding Principles on Business and Human Rights (the "UN Guiding Principles") was captured through exclusion of companies from the investible universe if they were deemed not to be in alignment.

The Fund excluded companies that weren't compliant with the UN Global Compact (the "UNGC"), this set of ten principles show significant overlap with both the OECD Guidelines and the UN Guiding Principles. With regards to OECD, these guidelines and the UNGC both aim to promote corporate responsibility and sustainable business practices, in terms of specific topics, they both cover the areas of human rights, employment relations, environment and anti-corruption. As for the two UN frameworks, whilst they do vary in nature, scope and depth, the two come together in their overriding objective (to achieve a more responsible and accountable business community) as well as some of the key areas they address, namely in the human rights space.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the Union criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the Union criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

As noted above, the Fund considered principal adverse impacts on sustainability factors, primarily through a set of exclusion criteria corresponding to the indicators that are defined in Table 1, Annex I of the RTS.

The below table shows the PAI scores for the fund from 1st of January 2023 to 31st of December 2023. The data is representative of the reference period.

Adverse sustainability indicator	PAI	Data	Metric
Greenhouse gas emissions	1.GHG Emissions	5,301.76	Scope 1 fund financed emissions (Tonnes of CO2 equivalent)
		2,131.89	Scope 2 fund financed emissions (Tonnes of CO2 equivalent)
		114,411.90	Scope 3 fund financed emissions (Tonnes of CO2 equivalent)
		121,845.55	Total Financed emissions (Scope 1 + Scope 2 + Scope 3) (Tonnes of CO2 equivalent)
	2. Carbon footprint	567.17	Fund level Carbon footprint (Scope 1 + Scope 2 + Scope 3) (Per Million EUR Invested)
	3. GHG Intensity of investee companies	1,257.47	Fund level Total Emission Intensity- Scope 1+2+3 (Per Million EUR Revenue)
	4. Exposure to companies active in the fossil fuel sector	0.40	% of the fund exposed to any fossil fuels revenue
	5. Share of non-renewable energy consumption	69.30	Adjusted Weighted Average of all issuers in the fund's share of non-renewable energy consumption and non-renewable energy production of investee companies from non-renewable energy sources compared to renewable energy sources, expressed as a percentage of total energy sources (%)
	5. Share of non-renewable energy production	5.81	
	6. Energy consumption intensity per high impact climate sector		Adjusted weighted average energy consumption of issuers in the fund in GWh per million EUR of revenue of investee companies, per high impact climate sector
	Agriculture, Forestry & Fishing	1.85	
	Construction	0.04	
	Electricity, Gas, Steam & Air Conditioning Supply	0.00	
	Manufacturing	5.75	
	Mining & Quarrying	0.95	
	Real Estate Activities	0.58	
	Transportation & Storage	1.89	
	Water Supply, Sewerage, Waste Management & Remediation Activities	0.00	
	Wholesale & Retail Trade & Repair of Motor Vehicles & Motorcycles	0.08	
Biodiversity	7. Activites negatively affecting biodiversity-sensitive areas	2.70	Share of investments in the fund of investee companies with sites/operations located in or near to biodiversity-sensitive areas where activities of those investee companies negatively affect those areas

Water	8. Emissions to water	0.21	Adjusted weighted average per issuer in the fund's emissions to water generated by investee companies per million EUR invested (Tonnes)
Waste	9. Hazardous waste and radioactive waste ratio	3.47	Tonnes of hazardous waste and radioactive waste generated by investee companies per million EUR invested, expressed as a weighted average
Social and employee matters	10. Violations fo UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises	0.00	Share of investments in investee companies that have been involved in violations of the UNGC principles or OECD Guidelines for Multinational Enterprises
	11. Lack of proceses and compliance mechanisms to monitor compliance with UN Global Compact principles and OECD Guidelines for Multinational Enterprises	43.90	Share of investments in investee companies without policies to monitor compliance with the UNGC principles or OECD Guidelines for Multinational Enterprises or grievance/ complaints handling mechanisms to address violations of the UNGC principles or OECD Guidelines for Multinational Enterprises
	12. Unadjusted gender pay gap	20.89	Weighted Average of all issuers' in the portfolio unadjusted gender pay gap of investee companies
	13. Board gender diversity	35.40	Waited Average of all issuers in the portfolio ratio of female to male board members in investee companies, expressed as a percentage of all board members
	14. Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons)	0.00	Share of investments in investee companies involved in the manufacture or selling of controversial weapons
Optional Indicators	Optional Indicator: 4. Investments in companies without carbon emission reduction initiative	33.51	Share of investments in investee companies without carbon emission reduction initiatives aimed at aligning with the Paris Agreement
	Optional Indicator: 9. Lack of a human rights policy	1.67	Share of investments in entities without a human rights policy

In addition, as part of the Fund's consideration of principal adverse impacts on sustainability factors, the ESG team monitored the investments against PAI indicators. Invesco conducted research into certain issuers in the Fund's portfolio that were deemed to flag against PAI indicators, in order to determine whether any engagement activity was required in accordance with the engagement policy.

What were the top investments of this financial product?

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is: from 1st of

January 2023 to 31st of
December 2023

Large Investments	Sector	% Assets	Country
MICROSOFT CORP	Information Technology	3.57%	United States
BROADCOM INC	Information Technology	2.15%	United States
CISCO SYSTEMS	Information Technology	2.08%	United States
NVIDIA CORP	Information Technology	2.02%	United States
JPMORGAN CHASE	Financials	1.98%	United States
META PLATFORMS-A	Communication Services	1.77%	United States
MERCK & CO	Health Care	1.51%	United States
PEPSICO INC	Consumer Staples	1.47%	United States
UNITED RENTALS	Industrials	1.37%	United States
CARDINAL HEALTH	Health Care	1.37%	United States
CITIGROUP INC	Financials	1.26%	United States

MASTERCARD INC-A	Financials	1.91%	United States
WALMART INC	Consumer Staples	1.18%	United States
VISA INC-CLASS A	Financials	1.11%	United States

What was the proportion of sustainability-related investments?

See below field

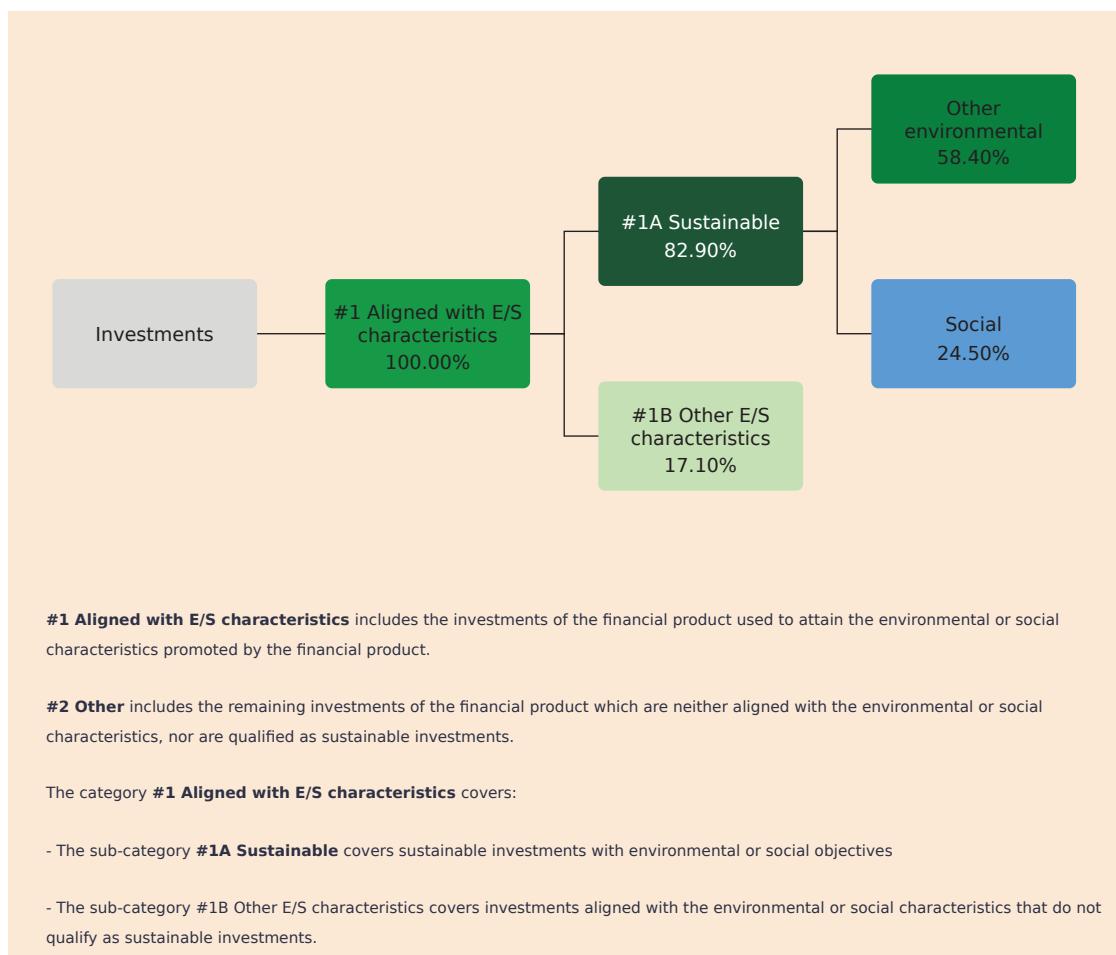

Asset allocation describes the share of investments in specific assets.

● What was the asset allocation?

100.00% of the Fund's NAV was invested in investments environmental and social characteristics of the Fund.

0.00% of the Fund's NAV was invested in financial derivative instruments for hedging and/or efficient portfolio management purposes; or was held as cash for ancillary liquidity purposes.

82.90% of the Fund's NAV was invested in sustainable investments.

● In which economic sectors were the investments made?

GICS Sector Breakdown - the data is representative of the reference period

Sector (GICS)	Weight %
Financials	20.54
Communication Services	4.64
Consumer Discretionary	12.51
Information Technology	22.73
Industrials	14.96
Consumer Staples	6.42
Energy	0.44
Real Estate	0.73
Health Care	10.33
Materials	6.39
Utilities	0.31
Total	100.00

Sub-Industry Code	Sub-Industry Name	Weight
10101010	Oil & Gas Drilling	0.00
10101020	Oil & Gas Equipment & Services	0.44
10102010	Integrated Oil & Gas	0.00
10102020	Oil & Gas Exploration & Production	0.00
10102030	Oil & Gas Refining & Marketing	0.00
10102040	Oil & Gas Storage & Transportation	0.00
10102050	Coal & Consumable Fuels	0.00
Total		0.44

To comply with the EU Taxonomy, the criteria for fossil gas include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For nuclear energy, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:
 - turnover reflecting the share of revenue from green activities of investee companies.
 - capital expenditure (CapEx) shows the green investments made by investee companies, relevant for a transition to a green economy.
 - operational expenditure (OpEx) reflects the green operational activities of investee companies.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

0% of the Fund's portfolio was aligned with the EU Taxonomy.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

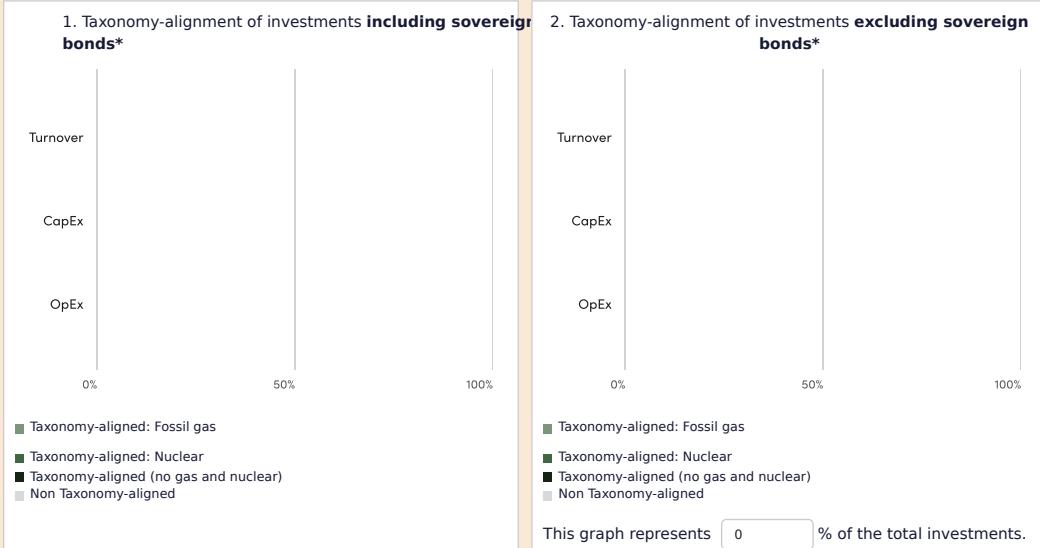

Yes

In fossil gas

In nuclear energy

No

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

*For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

What was the share of investments made in transitional and enabling activities?

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective – see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Not Applicable.

How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

Not Applicable.

 are sustainable investments with an environmental objective that do not take into account the criteria for environmentally sustainable economic activities under the EU Taxonomy.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

As the Fund does not currently intend to be EU Taxonomy aligned, 58.40 % of the Fund's NAV was invested in sustainable investments with an environmental objective that was not aligned with the EU Taxonomy. Currently the Fund does not intend to be aligned with the Taxonomy Regulation and the Manager intends to keep the Fund's position in relation to the Taxonomy Regulation under consideration along with the reliability of datasets to determine Taxonomy alignment. To the extent required, the Manager will amend the pre-contractual documentation accordingly.

What was the share of socially sustainable investments?

24.50 % of the Fund's NAV.

What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

Investments included under this category are financial derivative instruments for hedging and/or efficient portfolio management purposes and cash for ancillary liquidity. No minimum environmental or social safeguards are applied in relation to these instruments.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Fund achieved the environmental characteristics by applying the ESG Policy of the Fund.

Please refer to the section "How did the sustainability indicators perform" above for further information.

In addition, the ESG team monitored the investments against PAI indicators. Invesco conducted research into certain issuers in the Fund's portfolio that were deemed to flag against PAI indicators, in order to determine whether any engagement activity was required in accordance with the engagement policy. Please refer to the section "How did this financial product consider principal adverse impacts on sustainability factors" for examples of researched issuers during the reference period.

How did this financial product perform compared to the reference benchmark?

N/A

How does the reference benchmark differ from a broad market index?

N/A

How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

N/A

How did this financial product perform compared with the reference benchmark?

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The EU Taxonomy is a classification system laid down in Regulation (EU) 2020/852, establishing a list of environmentally sustainable economic activities. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

Yes

No

It made **sustainable investments with an environmental objective:** _____ %

- in economic activities that qualify as environmentally sustainable under the EU Taxonomy
- in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

It made **sustainable investments with a social objective:** _____ %

It **promoted Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of 72.1 % of sustainable investments

- with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
- with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
- with a social objective

It promoted E/S characteristics, but **did not make any sustainable investments**

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The environmental and social characteristics promoted by the Fund were to gain exposure to a portfolio of equity and equity-related securities of companies which meet the ESG Policy of the Fund.

The Fund achieved the environmental and social characteristics by excluding certain industries and activities that were considered by the Investment Manager to be inconsistent with ESG outcomes. The Fund also applied a proprietary ESG scoring system to ensure investment was made in "best of class" securities. The Fund ensured ongoing compliance with the standards of the Towards Sustainability ecolabel. The Fund also maintained a lower carbon intensity of the portfolio relative to the MSCI World Index (the "Benchmark").

The extent to which the environmental and/or social characteristics promoted by the Fund was met is further detailed in the performance of the sustainability indicators (see below).

The Benchmark is not aligned with the environmental objectives which the Fund seeks to promote. The Fund does not seek to track the performance of the Benchmark. The Fund holds an actively-managed portfolio of equities and equity-related securities with the aim of delivering superior risk-adjusted returns over the long term when compared with the average performance of global equity markets. Due to the changing volatility and return characteristics of equity markets, the fund does not have an absolute risk or return target. Rather, the Sub-Investment Manager will select the portfolio holdings through an optimisation process that utilises the Benchmark as a reference for risk and return calculations.

How did the sustainability indicators perform?

The Fund used a variety of indicators to measure the attainment of the environmental and social characteristics.

The Fund performed as at 31st of December 2023. The data is representative of the reference period.

Sustainability Indicator	Indicator Performance
Reduction in the initial investment universe after application of the best-in-class measure based on an overall ESG profile score	44.63% reduction
Reduction in the initial investment universe after application of the exclusions depending on business involvement in controversial activities and controversies including violations of the UN Global Compact, based on third party data and the Investment Manager's proprietary analysis and research	52.69% reduction
Reduction in carbon intensity of the Fund as measured against the Benchmark	49.30% reduction

● **...and compared to previous periods?**

Compared to previous period, figures are stable. [1](#)

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

The sustainable investments made by the Fund contributed to environmental objectives (such as climate change, water management, pollution prevention) and to social objectives (such as good health, well-being and gender equality).

The Fund achieved those objectives by investing in: (i) issuers which contributed positively to selected Sustainable Development Goals (SGDs) that related to the above objectives; or (ii) companies which generated a material part of their revenue from environmental impact themes such as energy transition, healthcare and food. The Fund also used a best-in-class approach and selected companies scoring higher, when compared to their peers, utilizing the investment manager's proprietary scoring methodology.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

The Fund took into account principal adverse impacts (PAI) indicators defined in Table 1 of Annex I of the regulatory technical standards for Regulation 2019/2088 (RTS). Securities that didn't meet certain PAI thresholds were excluded from the Fund.

How were the indicators for adverse impacts on sustainability factors taken into account?

Please see above on how the indicators for adverse impacts on sustainability factors were taken into account.

The Fund addressed a number of other adverse indicators by excluding companies, sectors or countries from the investment universe if they are assessed to have violated international norms and standards according to the definitions of the International Labour Organisation (ILO), the OECD or the United Nations. All issuers considered for investment were screened for compliance with, and excluded if they do not meet, UN Global Compact principles. By limiting of exposure to thermal coal, shale energy and oil sands the Fund also reduced its exposure to greenhouse gas emissions.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Alignment with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights was captured through exclusion of companies from the investible universe if they were deemed not to be in alignment.

The Fund excluded companies that weren't compliant with the UN Global Compact, this set of ten principles show significant overlap with both the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights. With regards to OECD, these guidelines and the UNGC both aim to promote corporate responsibility and sustainable business practices, in terms of specific topics, they both cover the areas of human rights, employment relations, environment and anti-corruption. As for the two UN frameworks, whilst they do vary in nature, scope and depth, the two come together in their overriding objective (to achieve a more responsible and accountable business community) as well as some of the key areas they address, namely in the human rights space.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the Union criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the Union criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

As noted above, the Fund considered principal adverse impacts on sustainability factors, primarily through a set of exclusion criteria corresponding to the indicators that are defined in Table 1, Annex I of the RTS.

The below table shows the PAI scores for the fund, The data is representative of the reference period.:.

Adverse sustainability indicator	PAI	Data	Metric
Greenhouse gas emissions	1.GHG Emissions	930.06	Scope 1 fund financed emissions (Tonnes of CO2 equivalent)
		407.00	Scope 2 fund financed emissions (Tonnes of CO2 equivalent)
		11,990.40	Scope 3 fund financed emissions (Tonnes of CO2 equivalent)
		13,327.46	Total Financed emissions (Scope 1 + Scope 2 + Scope 3) (Tonnes of CO2 equivalent)
	2. Carbon footprint	298.20	Fund level Carbon footprint (Scope 1 + Scope 2 + Scope 3) (Per Million EUR Invested)
	3. GHG Intensity of investee companies	663.35	Fund level Total Emission Intensity- Scope 1+2+3 (Per Million EUR Revenue)
	4. Exposure to companies active in the fossil fuel sector	0.12	% of the fund exposed to any fossil fuels revenue
	5. Share of non-renewable energy consumption	67.22	Adjusted Weighted Average of all issuers in the fund's share of non-renewable energy consumption and non-renewable energy production of investee companies from non-renewable energy sources compared to renewable energy sources, expressed as a percentage of total energy sources (%)
	5. Share of non-renewable energy production	12.17	
	6. Energy consumption intensity per high impact climate sector		Adjusted weighted average energy consumption of issuers in the fund in GWh per million EUR of revenue of investee companies, per high impact climate sector
	Agriculture, Forestry & Fishing	3.49	
	Construction	0.04	
	Electricity, Gas, Steam & Air Conditioning Supply	0.07	
	Manufacturing	0.66	
	Mining & Quarrying	0.94	
	Real Estate Activities	0.33	
	Transportation & Storage	2.64	
	Water Supply, Sewerage, Waste Management & Remediation Activities	0.80	
	Wholesale & Retail Trade & Repair of Motor Vehicles & Motorcycles	1.53	
Biodiversity	7. Activites negatively affecting biodiversity-sensitive areas	3.12	Share of investments in the fund of investee companies with sites/operations located in or near to biodiversity-sensitive areas where activities of those investee companies negatively affect those areas

Water	8. Emissions to water	0.06	Adjusted weighted average per issuer in the fund's emissions to water generated by investee companies per million EUR invested (Tonnes)
Waste	9. Hazardous waste and radioactive waste ratio	0.17	Tonnes of hazardous waste and radioactive waste generated by investee companies per million EUR invested, expressed as a weighted average
Social and employee matters	10. Violations fo UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises	0.00	Share of investments in investee companies that have been involved in violations of the UNGC principles or OECD Guidelines for Multinational Enterprises
	11. Lack of proceses and compliance mechanisms to monitor compliance with UN Global Compact principles and OECD Guidelines for Multinational Enterprises	53.66	Share of investments in investee companies without policies to monitor compliance with the UNGC principles or OECD Guidelines for Multinational Enterprises or grievance/ complaints handling mechanisms to address violations of the UNGC principles or OECD Guidelines for Multinational Enterprises
	12. Unadjusted gender pay gap	10.63	Weighted Average of all issuers' in the portfolio unadjusted gender pay gap of investee companies
	13. Board gender diversity	33.47	Waited Average of all issuers in the portfolio ratio of female to male board members in investee companies, expressed as a percentage of all board members
	14. Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons)	0.00	Share of investments in investee companies involved in the manufacture or selling of controversial weapons
Optional Indicators	Optional Indicator: 4. Investments in companies without carbon emission reduction initiative	31.39	Share of investments in investee companies without carbon emission reduction initiatives aimed at aligning with the Paris Agreement
	Optional Indicator: 9. Lack of a human rights policy	5.06	Share of investments in entities without a human rights policy

In addition, as part of the Fund's consideration of principal adverse impacts on sustainability factors, the ESG team monitored the investments against PAI indicators. Invesco conducted research into certain issuers in the Fund's portfolio that were deemed to flag against PAI indicators, in order to determine whether any engagement activity was required in accordance with the engagement policy.

What were the top investments of this financial product?

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is:from 1st of January 2023 to 31st of December 2023.

Large Investments	Sector	% Assets	Country
Apple Inc	Information Technology	3.11%	United States

What was the proportion of sustainability-related investments?

See below field

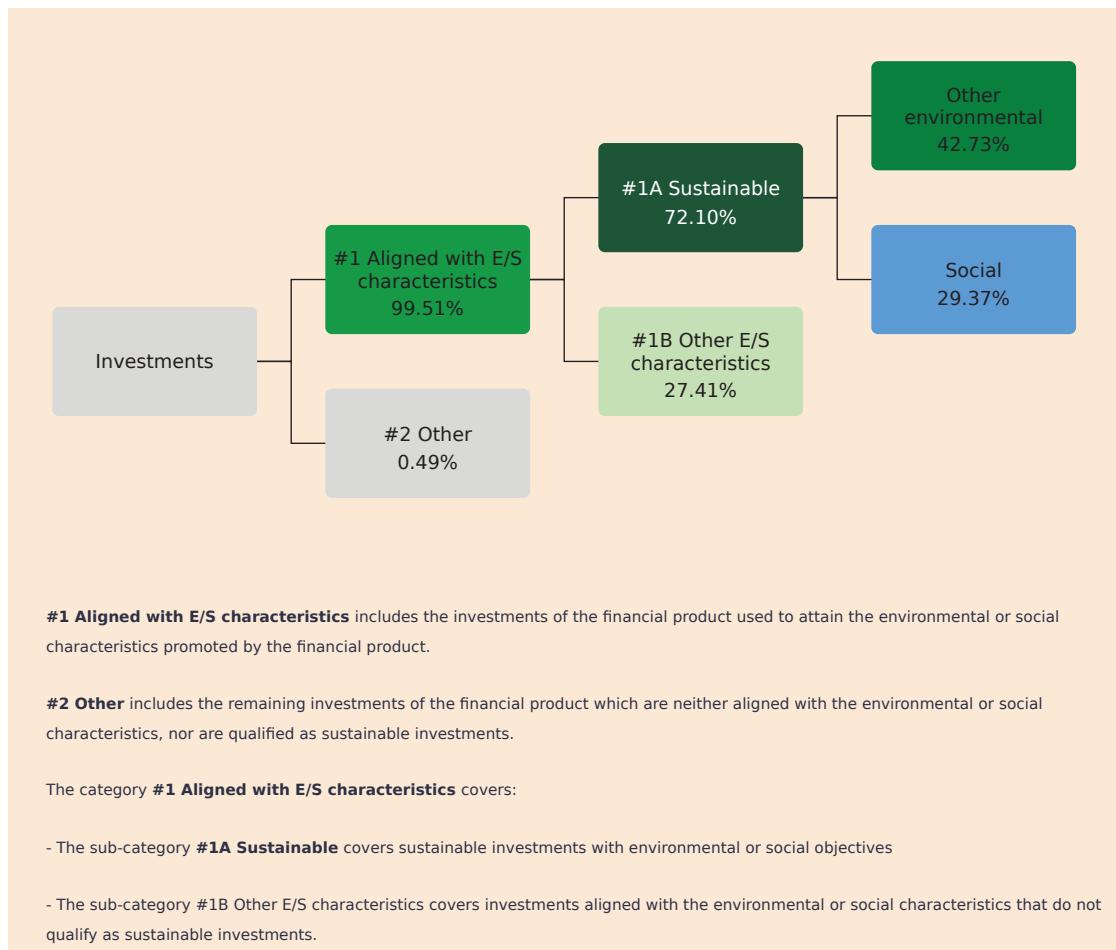

Asset allocation describes the share of investments in specific assets.

● What was the asset allocation?

99.51% of the Fund's NAV was selected according to the binding elements of the investment strategy, on the basis that they aligned with the environmental and social characteristics of the Fund.

0.49% of the Fund's NAV was invested in financial derivative instruments for hedging and/or efficient portfolio management purposes; or was held as cash for ancillary liquidity purposes.

72.10% of the Fund's NAV was invested in sustainable investments.

● In which economic sectors were the investments made?

GICS Sector Breakdown - the data is representative of the reference period.

Sector (GICS)	Weight %
Financials	17.13
Communication Services	11.08
Consumer Discretionary	7.77
Information Technology	17.20
Industrials	9.23
Consumer Staples	12.75
Energy	0.30
Real Estate	1.27
Health Care	18.81
Materials	2.79
Utilities	1.18
Unclassified	0.49
Total	100.00

GICS Level 4 breakdown for Energy Sector

Sub-Industry Code	Sub-Industry Name	Weight
10101010	Oil & Gas Drilling	0.00
10101020	Oil & Gas Equipment & Services	0.20
10102010	Integrated Oil & Gas	0.00
10102020	Oil & Gas Exploration & Production	0.00
10102030	Oil & Gas Refining & Marketing	0.05
10102040	Oil & Gas Storage & Transportation	0.05
10102050	Coal & Consumable Fuels	0.00
Total		0.30

Although the fund has exclusions around fossil fuel extraction, there may still be exposure to fossil fuels as represented in part by exposure to the energy sector as disclosed above.

To comply with the EU Taxonomy, the criteria for fossil gas include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For nuclear energy, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- turnover reflecting the share of revenue from green activities of investee companies.
- capital expenditure (CapEx) shows the green investments made by investee companies, relevant for a transition to a green economy.
- operational expenditure (OpEx) reflects the green operational activities of investee companies.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

0% of the Fund's portfolio was aligned with the EU Taxonomy.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

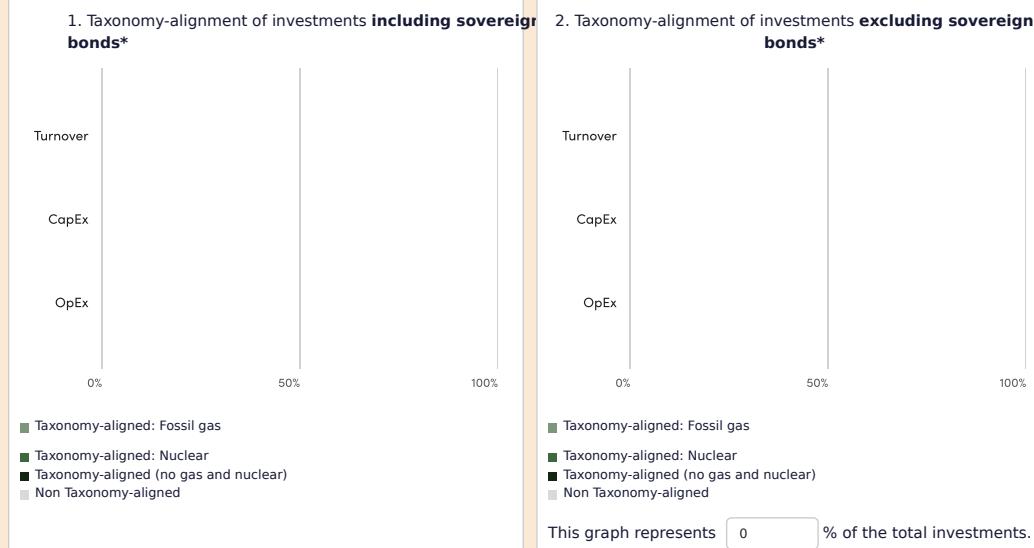

Yes

In fossil gas

In nuclear energy

No

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

*For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

What was the share of investments made in transitional and enabling activities?

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Not Applicable.

How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

Not Applicable.

 are sustainable investments with an environmental objective that do not take into account the criteria for environmentally sustainable economic activities under the EU Taxonomy.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

As the Fund does not currently intend to be EU Taxonomy aligned, 42.73% of the Fund's NAV was invested in sustainable investments with an environmental objective that was not aligned with the EU Taxonomy. Currently the Fund does not intend to be aligned with the Taxonomy Regulation and the Manager intends to keep the Fund's position in relation to the Taxonomy Regulation under consideration along with the reliability of datasets to determine Taxonomy alignment. To the extent required, the Manager will amend the pre-contractual documentation accordingly.

What was the share of socially sustainable investments?

29.37%

What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

Investments included under this category are financial derivative instruments for hedging and/or efficient portfolio management purposes and cash for ancillary liquidity. No minimum environmental or social safeguards are applied in relation to these instruments.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Fund achieved the environmental characteristics by applying the ESG Policy of the Fund.

Please refer to the section "How did the sustainability indicators perform" above for further information.

In addition, the ESG team monitored the investments against PAI indicators. Invesco conducted research into certain issuers in the Fund's portfolio that were deemed to flag against PAI indicators, in order to determine whether any engagement activity was required in accordance with the engagement policy. Please refer to the section "How did this financial product consider principal adverse impacts on sustainability factors" for examples of researched issuers during the reference period.

How did this financial product perform compared to the reference benchmark?

N/A

How does the reference benchmark differ from a broad market index?

N/A

How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

N/A

How did this financial product perform compared with the reference benchmark?

N/A

How did this financial product perform compared with the broad market index?

N/A

Environmental and/or social characteristics

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The EU Taxonomy is a classification system laid down in Regulation (EU) 2020/852, establishing a list of environmentally sustainable economic activities. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

<p>Did this financial product have a sustainable investment objective?</p> <p><input checked="" type="radio"/> Yes <input type="radio"/> No</p> <p><input type="checkbox"/> It made sustainable investments with an environmental objective: _____ %</p> <p><input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy</p> <p><input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy</p> <p><input type="checkbox"/> It made sustainable investments with a social objective: _____ %</p>	<p><input type="radio"/> Yes <input checked="" type="radio"/> No</p> <p><input checked="" type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of <u>37.79</u> % of sustainable investments</p> <p><input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy</p> <p><input checked="" type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy</p> <p><input type="checkbox"/> with a social objective</p> <p><input type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments</p>
---	--

To what extent were the environmental and/or social characteristics promoted by this financial product met?

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

The environmental and social characteristics promoted by the Fund were:

- to maximise exposure to Green Bonds, according to the criteria set out under the heading “What investment strategy does this financial product follow?”;
- to gain exposure to a portfolio of government and government-related bonds issued by countries that had ratified and implemented in equivalent national legislation: a) the eight fundamental conventions identified in the International Labour Organisation’s declaration on Fundamental Rights and Principles at Work; and b) at least half of the 18 core International Human Rights Treaties;
- to exclude securities issued by countries that did not conform with international treaties and assessments by third-party non-profit organisations (e.g. the Paris Agreement, the UN Convention on Biological Diversity, the Nuclear Non-Proliferation Treaty, it had particularly high military budgets, it was considered to be a ‘Jurisdiction with strategic AML/CFT deficiencies’ by FATF, if it had a score of less than 40/100 on the Transparency International Corruption Perception Index, or it was qualified as ‘Not Free’ by the Freedom House ‘Freedom in the World’ survey); and
- to exclude securities issued by Government-owned issuers that are not government guaranteed, if such issuers were involved in controversial business activity or ESG controversies (e.g. involvement in nuclear power, coal, unconventional as well as conventional oil and, controversial weapons, military weapons, civilian firearms, tobacco and activities constituting violations of the UN Human Rights Directive or the International Labour Organisation’s Labour Rights Directive).

How did the sustainability indicators perform?

The Fund used a variety of indicators to measure the attainment of environmental and social characteristics. The Fund performed as follows as at 31 December 2023, the data is representative of the reference period:

- 0% of the Fund’s NAV invested in excluded countries (as defined in the investment policy of the Fund);
- 0% of the Fund’s NAV invested in government-owned issuers that are not government guaranteed involved in controversial business activities and controversies (as defined in the investment policy of the Fund); and

- Proportion of Green Bonds in the portfolio: 44.83% of the Fund's invested assets (excluding cash holdings).

● ...and compared to previous periods?

N/A - the Fund launched on 25th of April 2023.

● What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

The Fund made sustainable investments that contributed to environmental objectives which included renewable energy, energy efficiency, pollution prevention and control, environmentally sustainable management of living natural resources and land use, biodiversity, clean transportation, sustainable water and wastewater management, climate change adaptation, circular economy and green buildings.

The Fund achieved those objectives by investing in Green Bonds, issued under a recognised green bond standard (e.g. ICMA/CBI/EU GS), that aimed to finance or re-finance projects, expenditure or assets that helped to address climate and environmental issues.

● How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

The Fund took into account principal adverse impacts (PAI) indicators defined in Table 1 of Annex I of the regulatory technical standards for Regulation 2019/2088 (RTS). Securities that didn't meet certain PAI thresholds were excluded from the Fund.

How were the indicators for adverse impacts on sustainability factors taken into account?

Please see above on how the indicators for adverse impacts on sustainability factors were taken into account.

In relation to government-owned issuers that are not government guaranteed, the ESG Policy of the Fund addressed a number of other adverse indicators by excluding a number of issuers involved in certain business activities. Through removal of companies involved in thermal coal and oil sands the Fund reduced its exposure to greenhouse gas emissions. The ESG Policy of the Fund also excluded issuers involved in controversial weapons, and those that were deemed non-compliant with the principles of the United Nations Global Compact.

In relation to government issuers, the relevant PAIs were considered through the eligibility and exclusion criteria, e.g. countries that had not ratified the Paris Agreement were excluded, which reduced exposure to greenhouse gas emissions. Additionally, by limiting eligibility to countries that had ratified and implemented in national legislation the eight fundamental conventions identified in the International Labour Organisation's Declaration on Fundamental Rights and Principles at Work, and at least half of the 18 core International Human Rights Treaties, the Fund reduced its exposure to countries exposed to social violations.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Alignment with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights was captured through exclusion of issuers, sectors or countries from the investible universe if they were deemed not to be in alignment. The Fund also excluded issuers that weren't compliant with the UN Global Compact principles.

Principal adverse impacts
are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the Union criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the Union criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

As noted above, the Fund considered principal adverse impacts on sustainability factors, primarily through a set of exclusion criteria corresponding to the indicators that are defined in Table 1, Annex I of the RTS.

The below table shows the PAI data for the Fund. The data is representative of the reference period:

Adverse sustainability indicator	PAI	Data	Metric
Greenhouse gas emissions	1.GHG Emissions	37.03	Scope 1 fund financed emissions (Tonnes of CO2 equivalent)
		0.35	Scope 2 fund financed emissions (Tonnes of CO2 equivalent)
		70.60	Scope 3 fund financed emissions (Tonnes of CO2 equivalent)
		107.98	Total Financed emissions (Scope 1 + Scope 2 + Scope 3) (Tonnes of CO2 equivalent)
	2. Carbon footprint	579.30	Fund level Carbon footprint (Scope 1 + Scope 2 + Scope 3) (Per Million EUR Invested)
	3. GHG Intensity of investee companies	911.09	Fund level Total Emission Intensity- Scope 1+2+3 (Per Million EUR Revenue)
	4. Exposure to companies active in the fossil fuel sector	0.00	% of the fund exposed to any fossil fuels revenue
	5. Share of non-renewable energy consumption	53.51	Adjusted Weighted Average of all issuers in the fund's share of non-renewable energy consumption and non-renewable energy production of investee companies from non-renewable energy sources compared to renewable energy sources, expressed as a percentage of total energy sources (%)
	5. Share of non-renewable energy production	23.50	
	6. Energy consumption intensity per high impact climate sector		Adjusted weighted average energy consumption of issuers in the fund in GWh per million EUR of revenue of investee companies, per high impact climate sector
	Agriculture, Forestry & Fishing	0.00	
	Construction	0.00	
	Electricity, Gas, Steam & Air Conditioning Supply	1.05	
	Manufacturing	0.00	
	Mining & Quarrying	0.00	
	Real Estate Activities	0.00	
	Transportation & Storage	0.00	
	Water Supply, Sewerage, Waste Management & Remediation Activities	0.00	
	Wholesale & Retail Trade & Repair of Motor Vehicles & Motorcycles	0.00	
Biodiversity	7. Activities negatively affecting biodiversity-sensitive areas	0.00	Share of investments in the fund of investee companies with sites/operations located in or near to biodiversity-sensitive areas where activities of those investee companies negatively affect those areas
Water	8. Emissions to water	0.01	Adjusted weighted average per issuer in the fund's emissions to water generated by investee companies

			per million EUR invested (Tonnes)
Waste	9. Hazardous waste and radioactive waste ratio	2.88	Tonnes of hazardous waste and radioactive waste generated by investee companies per million EUR invested, expressed as a weighted average
Social and employee matters	10. Violations fo UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises	0.00	Share of investments in investee companies that have been involved in violations of the UNGC principles or OECD Guidelines for Multinational Enterprises
	11. Lack of proceses and compliance mechanisms to monitor compliance with UN Global Compact principles and OECD Guidelines for Multinational Enterprises	1.17	Share of investments in investee companies without policies to monitor compliance with the UNGC principles or OECD Guidelines for Multinational Enterprises or grievance/ complaints handling mechanisms to address violations of the UNGC principles or OECD Guidelines for Multinational Enterprises
	12. Unadjusted gender pay gap	0.00	Weighted Average of all issuers' in the portfolio unadjusted gender pay gap of investee companies
	13. Board gender diversity	27.40	Waited Average of all issuers in the portfolio ratio of female to male board members in investee companies, expressed as a percentage of all board members
	14. Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons)	0.00	Share of investments in investee companies involved in the manufacture or selling of controversial weapons
Optional Indicators	Optional Indicator: 4. Investments in companies without carbon emission reduction initiative	0.97	Share of investments in investee companies without carbon emission reduction initiatives aimed at aligning with the Paris Agreement
	Optional Indicator: 9. Lack of a human rights policy	0.04	Share of investments in entities without a human rights policy

What were the top investments of this financial product?

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is: From 25th of April 2023 to 31st of December 2023. The data is representative of the reference period.

Large Investments	Sector	% Assets	Country
Bundesobl-120	Sovereign	3.29%	Germany

Spanish Gov'T	Sovereign	1.54%	Spain

What was the proportion of sustainability-related investments?

Please see below fields.

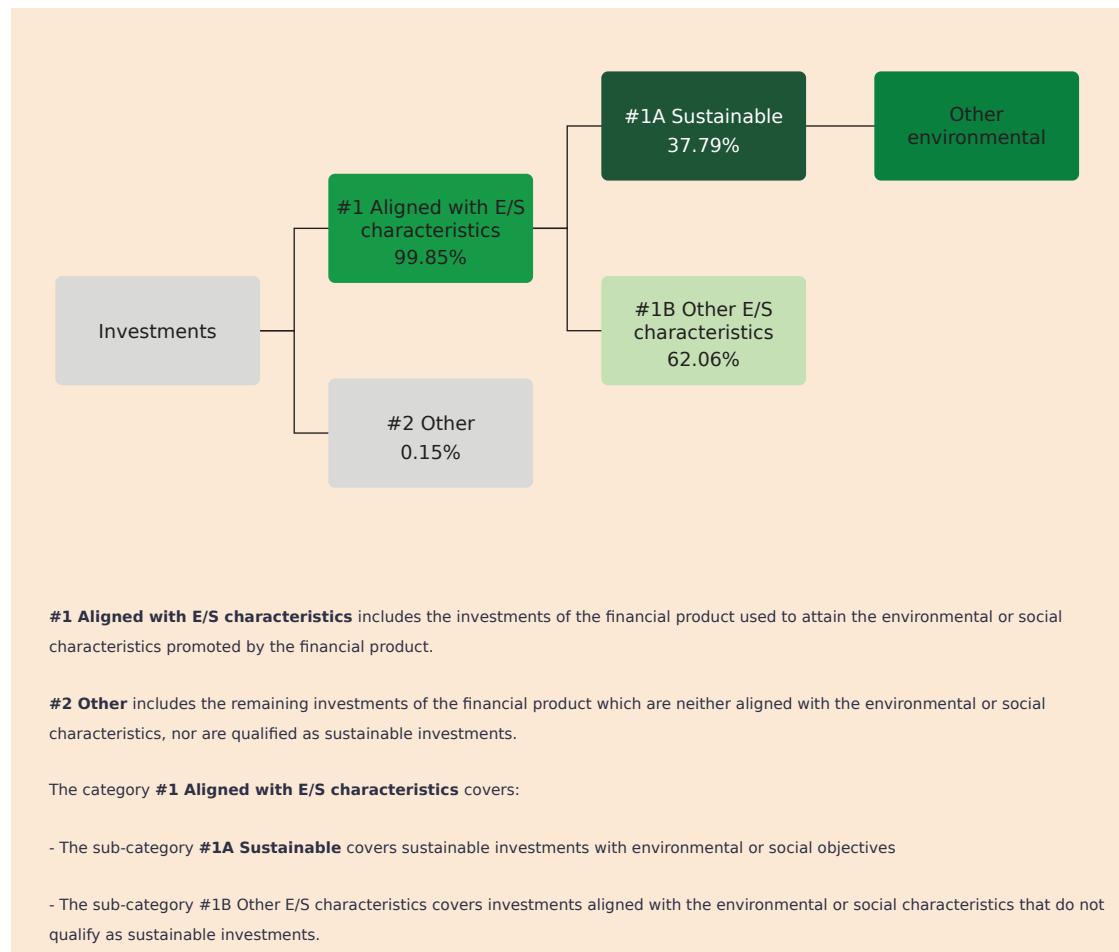

Asset allocation describes the share of investments in specific assets.

● What was the asset allocation?

99.85% of the Fund's NAV was invested in investments that aligned with the environmental and social characteristics of the Fund.

0.15% of the Fund's NAV was invested in financial derivative instruments for hedging and/or efficient portfolio management purposes; or was held as cash for ancillary liquidity purposes.

37.79% of the Fund's NAV was invested in sustainable investments.

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2 Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category **#1 Aligned with E/S characteristics** covers:

- The sub-category **#1A Sustainable** covers sustainable investments with environmental or social objectives
- The sub-category #1B Other E/S characteristics covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

● In which economic sectors were the investments made?

GICS Sector Breakdown - the data is representative of the reference period.

Sector (GICS)	Weight %
Financials	7.08
Communication Services	0.00
Consumer Discretionary	0.00

10101010	Oil & Gas Drilling	0.00
10101020	Oil & Gas Equipment & Services	0.00
10102010	Integrated Oil & Gas	0.00
10102020	Oil & Gas Exploration & Production	0.00
10102030	Oil & Gas Refining & Marketing	0.00
10102040	Oil & Gas Storage & Transportation	0.00
10102050	Coal & Consumable Fuels	0.00
Total		0.00

To comply with the EU Taxonomy, the criteria for fossil gas include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For nuclear energy, the criteria include comprehensive safety and waste management rules.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

0% of the Fund's portfolio was aligned with the EU Taxonomy.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- turnover reflecting the share of revenue from green activities of investee companies.
- capital expenditure (CapEx) shows the green investments made by investee companies, relevant for a transition to a green economy.
- operational expenditure (OpEx) reflects the green operational activities of investee companies.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

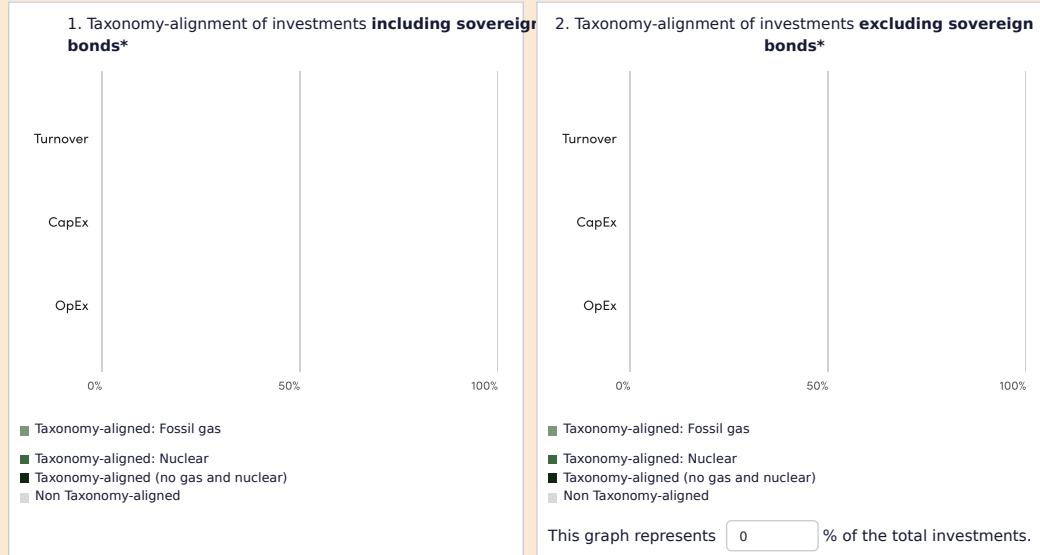

Yes

In fossil gas

In nuclear energy

No

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

*For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

What was the share of investments made in transitional and enabling activities?

N/A

How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

N/A

are sustainable investments with an environmental objective that do not take into account the criteria for environmentally sustainable economic activities under the EU Taxonomy.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

As the Fund does not currently intend to be EU Taxonomy aligned, 37.79% of the Fund's NAV was invested in sustainable investments with an environmental objective that was not aligned with the EU Taxonomy.

Currently, the Fund does not intend to be aligned with the Taxonomy Regulation and the Manager intends to keep the Fund's position in relation to the Taxonomy Regulation under consideration along with the reliability of datasets to determine Taxonomy alignment. To the extent required, the Manager will amend the pre-contractual documentation accordingly.

What was the share of socially sustainable investments?

N/A

What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Investments included under this category were financial derivative instruments for hedging and/or efficient portfolio management purposes and/or for investment purposes and cash for ancillary liquidity. No minimum environmental or social safeguards were applied in relation to these instruments.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Fund achieved the environmental characteristics by applying the ESG Policy of the Fund.

Please refer to the section "How did the sustainability indicators perform" above for further information.

In addition, the ESG team monitored the investments against PAI indicators. Invesco conducted research into certain issuers in the Fund's portfolio that were deemed to flag against PAI indicators, in order to determine whether any engagement activity was required in accordance with the engagement policy. Please refer to the section "How did this financial product consider principal adverse impacts on sustainability factors" for examples of researched issuers during the reference period.

How did this financial product perform compared to the reference benchmark?

NA

● How does the reference benchmark differ from a broad market index?

NA

● How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

NA

● How did this financial product perform compared with the reference benchmark?

NA

● How did this financial product perform compared with the broad market index?

NA

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

Annex**Product name: Invesco FTSE All Share ESG Climate UCITS ETF****Legal entity identifier: 5493007Z6OBJUELALN59**

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The EU Taxonomy is a classification system laid down in Regulation (EU) 2020/852, establishing a list of environmentally sustainable economic activities. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

Yes

No

It made **sustainable investments with an environmental objective:** _____ %

- in economic activities that qualify as environmentally sustainable under the EU Taxonomy
- in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

It made **sustainable investments with a social objective:** _____ %

It **promoted Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of 50.55 % of sustainable investments

- with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
- with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
- with a social objective

It promoted E/S characteristics, but **did not make any sustainable investments**

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The environmental and social characteristics promoted by the Fund were to gain exposure to issuers demonstrating a robust ESG profile, i.e. issuers with limited/no involvement in certain business activities and with no involvement in severe ESG controversies. The Fund also aimed to gain increased exposure to those issuers generating revenue from green projects, and those that exhibit lower levels of carbon emissions and fossil fuel reserves, relative to the companies that comprise the FTSE All-Share ex Investment Trusts Index (the "**Parent Index**").

The Fund achieved the environmental and social characteristics by tracking the FTSE All Share ex Investment Trusts ESG Climate Select Index ("**Reference Index**"), which has a methodology that is consistent with attaining the environmental and social characteristics promoted by the Fund.

The extent to which the Fund tracked the Reference Index is reflected by the tracking error figures available in the section "Tracking Error Analysis" of the Annual Report.

How did the sustainability indicators perform?

The Fund used a variety of indicators to measure the attainment of the environmental and social characteristics. The Fund performed as follows at 31st of December 2023, the data is representative of

the reference period

Sustainability Indicator	Indicator Performance
FTSE ESG Score (as defined in the methodology of the Reference Index) of the Fund relative to the Parent Index	7.6% improvement
CO2 emissions intensity of the Fund relative to the Parent Index	39.5% reduction
Percentage of the Fund portfolio invested in excluded companies involved in controversial business activities and controversies (as defined in the methodology of the Reference Index)	As at each Reference Index rebalance date, the Fund had 0% exposure to excluded companies

● ***...and compared to previous periods?***

The Fund continues to show an improvement against the Parent Index, however, compared to the last reference period the improvement in FTSE ESG Score for the Fund relative to the Parent Index was slightly lower, whilst the reduction in CO2 emissions intensity relative to the Parent Index has slightly improved. The Fund continues to avoid companies excluded by the Reference Index.

● ***What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?***

The sustainable investments made by the Fund contributed to environmental objectives such as climate change, water management, pollution prevention, and to social objectives such as good health, well-being and gender equality. The Fund achieved those objectives by investing in constituents of the Reference Index. According to Invesco's sustainable investment framework, a percentage (as disclosed above) of constituents of the Reference Index contributed positively to selected Sustainable Development Goals (SDGs) that related to the above objectives.

● ***How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?***

The index methodology of the Reference Index that the Fund tracks takes into account principal adverse impacts (PAI) indicators defined in Table 1 of Annex I of the regulatory technical standards for Regulation 2019/2088 (RTS). Securities that didn't meet certain PAI thresholds were excluded from the Reference Index or had their weightings reduced.

How were the indicators for adverse impacts on sustainability factors taken into account?

Please see above on how the indicators for adverse impacts on sustainability factors were taken into account.

The index methodology directly excluded a number of companies involved in certain business activities. Through removal of companies involved in thermal coal and oil sands the Reference Index reduced its exposure to greenhouse gas emissions. The methodology also excluded companies involved in controversial weapons, and those that were deemed non-compliant with the principles of the United Nations Global Compact. Through re-weighting constituents based on FTSE ESG scores, green revenue, carbon emissions and fossil fuel reserves, the index also addressed a number of other adverse indicators.

FTSE ESG Scores consider a number of key issues in their construction, including, but not limited to; GHG emissions and energy reduction, intensity of GHG emission reports, biodiversity, quantified water discharge and resource use, policy and procedures radioactive waste, actions to address labour issues and improve diversity, Policy addressing non-discrimination, and commitment to diversity on the Board.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

Alignment with the OECD Guidelines for Multinational Enterprises (the "**OECD Guidelines**") and the UN Guiding Principles on Business and Human Rights (the "**UN Guiding Principles**") was captured in the index methodology of the Fund, with the result that securities were excluded from the investible universe if they were deemed not to be in alignment.

The index methodology excluded companies that weren't compliant with the UN Global Compact (the "**UNGC**"), this set of ten principles show significant overlap with both the OECD Guidelines and the UN Guiding Principles. With regards to OECD Guidelines, these guidelines and the UNGC both aim to promote corporate responsibility and sustainable business practices, in terms of specific topics, they both cover the areas of human rights, employment relations, environment and anti-corruption. As for the two UN frameworks, whilst they do vary in nature, scope and depth, the two come together in their overriding objective (to achieve a more responsible and accountable business community) as well as some of the key areas they address, namely in the human rights space.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the Union criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the Union criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

As noted above, the index methodology considered principal adverse impacts on sustainability factors, primarily through a set of exclusion criteria corresponding to the indicators that are defined in Table 1, Annex I of the RTS.

The below table shows the PAI scores for the fund- the data is representative of the reference period.

Adverse sustainability indicator	PAI	Data	Metric
Greenhouse gas emissions	1.GHG Emissions	3,942.95	Scope 1 fund financed emissions (Tonnes of CO2 equivalent)
		716.74	Scope 2 fund financed emissions (Tonnes of CO2 equivalent)
		62,063.29	Scope 3 fund financed emissions (Tonnes of CO2 equivalent)
		66,722.98	Total Financed emissions (Scope 1 + Scope 2 + Scope 3) (Tonnes of CO2 equivalent)
	2. Carbon footprint	515.80	Fund level Carbon footprint (Scope 1 + Scope 2 + Scope 3) (Per Million EUR Invested)
	3. GHG Intensity of investee companies	1,341.24	Fund level Total Emission Intensity- Scope 1+2+3 (Per Million EUR Revenue)
	4. Exposure to companies active in the fossil fuel sector	0.00	% of the fund exposed to any fossil fuels revenue
	5. Share of non-renewable energy consumption	56.86	Adjusted Weighted Average of all issuers in the fund's share of non-renewable energy consumption and non-renewable energy production of investee companies from non-renewable energy sources compared to renewable energy sources, expressed as a percentage of total energy sources (%)
	5. Share of non-renewable energy production	49.75	
	6. Energy consumption intensity per high impact climate sector		Adjusted weighted average energy consumption of issuers in the fund in GWh per million EUR of revenue of investee companies, per high impact climate sector
	Agriculture, Forestry & Fishing	2.70	
	Construction	0.03	
	Electricity, Gas, Steam & Air Conditioning Supply	0.10	
	Manufacturing	0.19	
	Mining & Quarrying	0.96	
	Real Estate Activities	0.18	
	Transportation & Storage	0.46	
	Water Supply, Sewerage, Waste Management & Remediation Activities	0.77	
	Wholesale & Retail Trade & Repair of Motor Vehicles & Motorcycles	0.07	
Biodiversity	7. Activites negatively affecting biodiversity-sensitive areas	13.55	Share of investments in the fund of investee companies with sites/operations located in or near to

			biodiversity-sensitive areas where activities of those investee companies negatively affect those areas
Water	8. Emissions to water	0.09	Adjusted weighted average per issuer in the fund's emissions to water generated by investee companies per million EUR invested (Tonnes)
Waste	9. Hazardous waste and radioactive waste ratio	1.10	Tonnes of hazardous waste and radioactive waste generated by investee companies per million EUR invested, expressed as a weighted average
Social and employee matters	10. Violations fo UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises	0.00	Share of investments in investee companies that have been involved in violations of the UNGC principles or OECD Guidelines for Multinational Enterprises
	11. Lack of proceses and compliance mechanisms to monitor compliance with UN Global Compact principles and OECD Guidelines for Multinational Enterprises	23.84	Share of investments in investee companies without policies to monitor compliance with the UNGC principles or OECD Guidelines for Multinational Enterprises or grievance/ complaints handling mechanisms to address violations of the UNGC principles or OECD Guidelines for Multinational Enterprises
	12. Unadjusted gender pay gap	23.54	Weighted Average of all issuers' in the portfolio unadjusted gender pay gap of investee companies
	13. Board gender diversity	43.08	Waited Average of all issuers in the portfolio ratio of female to male board members in investee companies, expressed as a percentage of all board members
	14. Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons)	0.00	Share of investments in investee companies involved in the manufacture or selling of controversial weapons
Optional Indicators	Optional Indicator: 4. Investments in companies without carbon emission reduction initiative	7.06	Share of investments in investee companies without carbon emission reduction initiatives aimed at aligning with the Paris Agreement
	Optional Indicator: 9. Lack of a human rights policy	0.73	Share of investments in entities without a human rights policy

In addition, as part of the Fund's consideration of principal adverse impacts on sustainability factors, the ESG team monitored the investments against PAI indicators. Invesco conducted research into certain issuers in the Fund's portfolio that were deemed to flag against PAI indicators, in order to determine whether any engagement activity was required in accordance with the engagement policy.

What were the top investments of this financial product?

The list includes the investments constituting the greatest proportion of investments of the

financial product during the reference period which is from 1st of January 2023 to 31st of December 2023.

Large Investments	Sector	% Assets	Country
SHEL LN COM	Energy	7.54%	United Kingdom
ASTRAZENECA PLC	Health Care	7.47%	United Kingdom
DIAGEO PLC	Consumer Staples	6.24%	United Kingdom
UNILEVER PLC	Consumer Staples	6.20%	United Kingdom
GSK LN COM	Health Care	5.77%	United Kingdom
RECKITT BENCKISE	Consumer Staples	4.05%	United Kingdom
BARCLAYS PLC	Financials	4.05%	United Kingdom
LONDON STOCK EX	Financials	3.94%	United Kingdom
Experian PLC	Industrials	3.80%	Ireland
HSBC Holdings PLC	Financials	3.40%	United Kingdom
LLOYDS BANKING	Financials	3.27%	United Kingdom
BP PLC	Energy	2.87%	United Kingdom
Vodafone Group PLC	Communication Services	2.42%	United Kingdom
RIO TINTO PLC	Materials	2.03%	United Kingdom
WPP PLC	Communication Services	1.96%	United Kingdom

What was the proportion of sustainability-related investments?

See below field

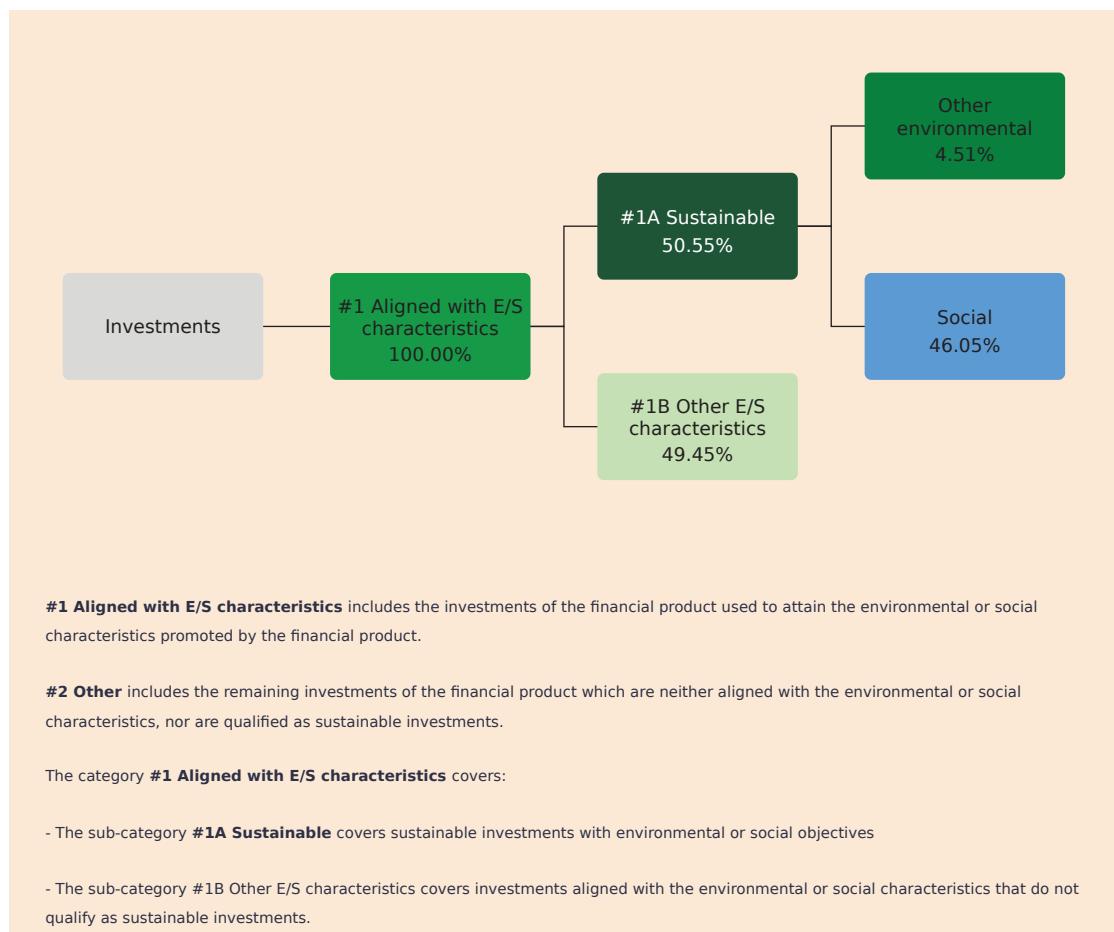

Asset allocation describes the share of investments in specific assets.

What was the asset allocation?

100% of the Fund's NAV was invested in investments that aligned with the environmental and social characteristics of the Fund.

0% of the Fund's NAV was invested in financial derivative instruments for hedging and/or efficient portfolio management purposes; or was held as cash for ancillary liquidity purposes.

50.55% of the Fund's NAV was invested in sustainable investments.

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2 Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category **#1 Aligned with E/S characteristics** covers:

- The sub-category **#1A Sustainable** covers sustainable investments with environmental or social objectives
- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

● In which economic sectors were the investments made?

GICS Sector Breakdown - the data is representative of the reference period.

Sector (GICS)	Weight %
Financials	20.17
Communication Services	6.84
Consumer Discretionary	7.67
Information Technology	2.49
Industrials	10.39
Consumer Staples	18.61
Energy	10.42
Real Estate	1.41
Health Care	13.24
Materials	6.93
Utilities	1.83
Total	100.00

GICS Level 4 breakdown for Energy Sector

Sub-Industry Code	Sub-Industry Name	Weight
10101010	Oil & Gas Drilling	0.00
10101020	Oil & Gas Equipment & Services	0.00
10102010	Integrated Oil & Gas	10.42
10102020	Oil & Gas Exploration & Production	0.00
10102030	Oil & Gas Refining & Marketing	0.00
10102040	Oil & Gas Storage & Transportation	0.00
10102050	Coal & Consumable Fuels	0.00
Total		10.42

Although the Fund has exclusions around fossil fuel extraction, there may still have been exposure to fossil fuels as represented in part by exposure to the energy sector as disclosed above.

To comply with the EU Taxonomy, the criteria for fossil gas include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For nuclear energy, the criteria include comprehensive safety and waste management rules.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

0% of the Fund's portfolio was aligned with the EU Taxonomy.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

Yes

In fossil gas

In nuclear energy

No

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels

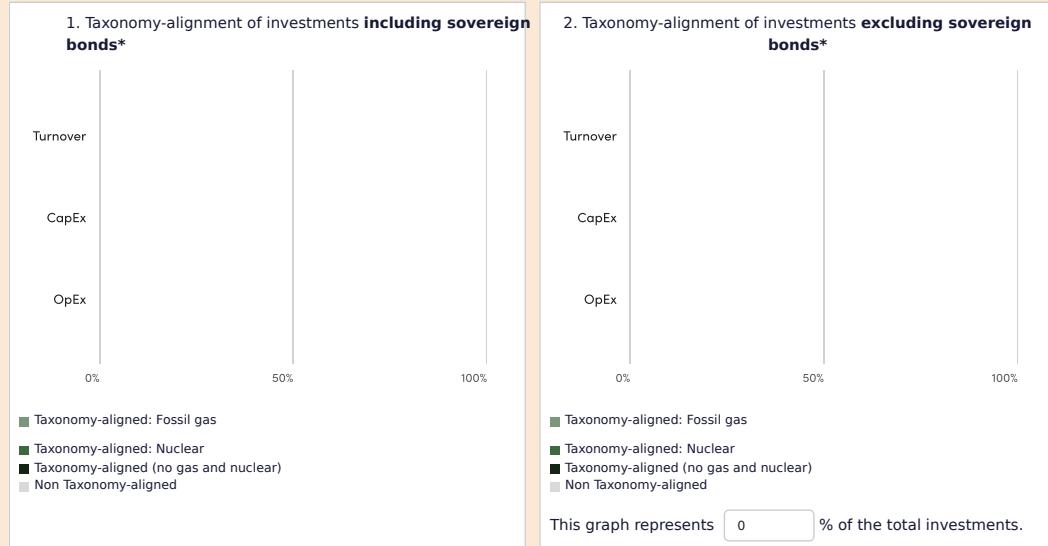

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- turnover reflecting the share of revenue from green activities of investee companies.
- capital expenditure (CapEx) shows the green investments made by investee companies, relevant for a transition to a green economy.
- operational expenditure (OpEx) reflects the green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

*For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

● What was the share of investments made in transitional and enabling activities?

N/A

● How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

N/A

are sustainable investments with an environmental objective that do not take into account the criteria for environmentally sustainable economic activities under the EU Taxonomy.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

As the Fund does not currently intend to be EU Taxonomy aligned, 4.51% of the Fund's NAV was invested in sustainable investments with an environmental objective that was not aligned with the EU Taxonomy.

Currently, the Fund does not intend to be aligned with the Taxonomy Regulation and the Manager intends to keep the Fund's position in relation to the Taxonomy Regulation under consideration along with the reliability of datasets to determine Taxonomy alignment. To the extent required, the Manager will amend the pre-contractual documentation accordingly.

What was the share of socially sustainable investments?

46.05% of the Fund's NAV.

What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

N/A

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Fund achieved the environmental and social characteristics by tracking the Reference Index, which has a methodology that is consistent with attaining the environmental and social characteristics promoted by the Fund.

Please refer to the section "How did the sustainability indicators perform" above for further information.

How did this financial product perform compared to the reference benchmark?

See tables completed in below sections.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

● How does the reference benchmark differ from a broad market index?

The Reference Index differs from a broad market index because it seeks to increase overall exposure to companies demonstrating both a robust ESG (environmental, social and governance) profile as well as a companies generating an increased percentage of their revenue from green projects, and those that exhibit lower levels of carbon emissions and fossil fuel reserves, relative to a broad market index.

● How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

As the Fund fully replicates the performance of the Reference Index, the sustainability indicators performed similarly for the Fund and Reference Index:

Sustainability Indicator	Fund Indicator Performance	Reference Index Indicator Performance
FTSE ESG Score (as defined in the methodology of the Reference Index)	4.15	4.15
CO2 emissions intensity	73.4	73.4
Percentage of exposure in excluded companies involved in controversial business activities and controversies (as defined in the methodology of the Reference Index)	The Fund had 0% exposure to excluded companies at each Reference Index rebalance date	The Reference Index had 0% exposure to excluded companies at each Reference Index rebalance date

● How did this financial product perform compared with the reference benchmark?

As the Fund achieves the environmental and social characteristics by tracking the Reference Index, which has a methodology that is consistent with attaining the environmental and social characteristics promoted by the Fund, the performance of the Fund is aligned with that of the Reference Benchmark. Please see above for the performance of the sustainability indicators compared with the Reference Benchmark.

● How did this financial product perform compared with the broad market index?

The Parent Index also acts as a relevant broad market index. The sustainability indicators for the Fund and Parent Index differed as below:

Sustainability Indicator	Fund Indicator Performance	Broad Market benchmark (Parent Index) Indicator Performance
FTSE ESG Score (as defined in the methodology of the Reference Index)	4.15	3.86
CO2 emissions intensity	73.4	121.2
Percentage of the Fund portfolio invested in excluded companies involved in controversial business activities and controversies (as defined in the methodology of the Reference Index)	The Reference Index had 0% exposure to excluded companies at each Reference Index rebalance date	The Broad Market benchmark had 15.7% exposure to excluded companies at the latest Reference Index rebalance date

Annex**Product name: Invesco Global Clean Energy UCITS ETF****Legal entity identifier: 5493003XRV20QGD58469**

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The EU Taxonomy is a classification system laid down in Regulation (EU) 2020/852, establishing a list of environmentally sustainable economic activities. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

Yes

No

It made **sustainable investments with an environmental objective:** _____ %

- in economic activities that qualify as environmentally sustainable under the EU Taxonomy
- in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

It made **sustainable investments with a social objective:** _____ %

It **promoted Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of 100 % of sustainable investments

- with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
- with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
- with a social objective

It promoted E/S characteristics, but **did not make any sustainable investments**

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The environmental characteristics promoted by the Fund were to gain exposure to global companies whose innovative technologies contributed to the generation and utilisation of cleaner energy, conservation, efficiency and the advancement of renewable energy. The Fund achieved this by tracking the WilderHill New Energy Global Innovation Index ("Reference Index"), which has a methodology that is consistent with attaining the environmental and social characteristics promoted by the Fund.

The extent to which the Fund tracked Reference Index is reflected by the tracking error figures available in the section "Tracking Error Analysis" of the Annual Report.

The environmental characteristics of the Fund were achieved by applying the Index Provider's exclusion criteria and by the Index Provider determining a company's eligibility for inclusion in the Reference Index by assessing whether the primary part of the company's business activities was focused on new energy innovation.

How did the sustainability indicators perform?

The Fund used a variety of indicators to measure the attainment of the environmental and social characteristics. The Fund performed as at 31st of December 2023. The data is representative of the

Sustainability Indicator	Indicator Performance
Percentage of the Fund portfolio invested in companies associated with the clean energy sectors (as more fully described in the supplement)	100%
Sustainalytics Risk Rating (as defined in the methodology of Reference Index) of the fund	21.8
CO2 emissions intensity of the Fund	127.7
Percentage of the Fund portfolio invested in excluded companies involved in controversial business activities and controversies (as defined in the methodology of the Reference Index)	As at each Reference Index rebalance date, the Fund had 0% exposure to excluded companies

● ***...and compared to previous periods?***

The Fund continues to invest solely in companies associated with clean energy and avoid companies excluded by the Reference Index. Compared to last period the Sustainalytics Risk Rating for the Fund has improved and the CO2 emissions intensity was slightly higher. These may revert back next period as the Fund doesn't target specific improvements for these metrics, but it does incorporate exclusions that will impact both.

● ***What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?***

The environmental objectives that the sustainable investments contributed to are the generation and use of cleaner energy, conservation, efficiency and advancement of renewable energy.

The sustainable investments contributed to the environmental objectives as the companies invested in had a meaningful exposure to one of the clean energy Sectors (as defined by the Index Provider).

● ***How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?***

The index methodology of the Reference Index that the Fund tracks takes into account principal adverse impacts (PAI) indicators defined in Table 1 of Annex I of the regulatory technical standards for Regulation 2019/2088 (RTS). Securities that didn't meet certain PAI thresholds were excluded from the Reference Index.

How were the indicators for adverse impacts on sustainability factors taken into account?

Please see above on how the indicators for adverse impacts on sustainability factors were taken into account.

The index methodology directly excluded a number of companies involved in certain business activities. Through the removal of companies involved in thermal coal, shale energy and oil sands the Reference Index reduced its exposure to greenhouse gas emissions. The methodology also excluded companies involved in controversial weapons, those facing severe ESG controversies, as assessed via Sustainalytics Controversy Scores, and those that were deemed non-compliant with the principles of the United Nations Global Compact.

Sustainalytics Controversy Scores consider controversies in a number of different areas, including, but not limited to; discrimination & harassment, land use and biodiversity, energy use and greenhouse gas emissions, discharges and releases (water), degradation & contamination (land), and controversial weapons.

Sustainalytics Risk Ratings consider a number of key issues in their construction, including, but not limited to biodiversity programmes, hazardous waste management, water risk management, GHG risk management, carbon intensity, gender pay equality programme, gender pay disclosure, and

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

board diversity.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Alignment with the OECD Guidelines for Multinational Enterprises (the "OECD Guidelines") and the UN Guiding Principles on Business and Human Rights (the "UN Guiding Principles") is captured in the index methodology of the Fund, with the result that securities were excluded from the investible universe if they were deemed not to be in alignment.

The index methodology excluded companies that weren't compliant with the UN Global Compact (the "UNGCI"). This set of ten principles show significant overlap with both the OECD Guidelines and the UN Guiding Principles. With regards to OECD Guidelines, these guidelines and the UNGC both aim to promote corporate responsibility and sustainable business practices, in terms of specific topics, they both cover the areas of human rights, employment relations, environment and anti-corruption. As for the two UN frameworks, whilst they do vary in nature, scope and depth, the two come together in their overriding objective (to achieve a more responsible and accountable business community) as well as some of the key areas they address, namely in the Human Rights space.

The index methodology excluded companies that faced severe ESG controversies, as assessed via Sustainalytics Controversy Scores. As part of their research Sustainalytics consider global standards screening, in particular specific international norms and standards including both the OECD Guidelines and the UN Guiding Principles.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the Union criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the Union criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

As noted above, the index methodology considered principal adverse impacts on sustainability factors, primarily through a set of exclusion criteria corresponding to the indicators that are defined in Table 1, Annex I of the RTS.

The below table shows the PAI scores for the fund, the data is representative of the reference period.

Adverse sustainability indicator	PAI	Data	Metric
Greenhouse gas emissions	1.GHG Emissions	836.69	Scope 1 fund financed emissions (Tonnes of CO2 equivalent)
		1,030.11	Scope 2 fund financed emissions (Tonnes of CO2 equivalent)
		117,566.26	Scope 3 fund financed emissions (Tonnes of CO2 equivalent)
		119,433.05	Total Financed emissions (Scope 1 + Scope 2 + Scope 3) (Tonnes of CO2 equivalent)
	2. Carbon footprint	2,579.62	Fund level Carbon footprint (Scope 1 + Scope 2 + Scope 3) (Per Million EUR Invested)
	3. GHG Intensity of investee companies	8,552.04	Fund level Total Emission Intensity- Scope 1+2+3 (Per Million EUR Revenue)
	4. Exposure to companies active in the fossil fuel sector	0.00	% of the fund exposed to any fossil fuels revenue
	5. Share of non-renewable energy consumption	74.88	Adjusted Weighted Average of all issuers in the fund's share of non-renewable energy consumption and non-renewable energy production of investee companies from non-renewable energy sources compared to renewable energy sources, expressed as a percentage of total energy sources (%)
	5. Share of non-renewable energy production	9.08	
	6. Energy consumption intensity per high impact climate sector		
	Agriculture, Forestry & Fishing	0.00	
	Construction	0.00	
	Electricity, Gas, Steam & Air Conditioning Supply	0.58	
	Manufacturing	2.27	
	Mining & Quarrying	1.07	
	Real Estate Activities	0.00	
	Transportation & Storage	0.00	
	Water Supply, Sewerage, Waste Management & Remediation Activities	0.00	
	Wholesale & Retail Trade & Repair of Motor Vehicles & Motorcycles	0.04	
Biodiversity	7. Activites negatively affecting biodiversity-sensitive areas	0.93	Share of investments in the fund of investee companies with sites/operations located in or near to biodiversity-sensitive areas where activities of those investee companies negatively affect those areas

Water	8. Emissions to water	0.14	Adjusted weighted average per issuer in the fund's emissions to water generated by investee companies per million EUR invested (Tonnes)
Waste	9. Hazardous waste and radioactive waste ratio	0.51	Tonnes of hazardous waste and radioactive waste generated by investee companies per million EUR invested, expressed as a weighted average
Social and employee matters	10. Violations fo UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises	0.00	Share of investments in investee companies that have been involved in violations of the UNGC principles or OECD Guidelines for Multinational Enterprises
	11. Lack of proceses and compliance mechanisms to monitor compliance with UN Global Compact principles and OECD Guidelines for Multinational Enterprises	66.05	Share of investments in investee companies without policies to monitor compliance with the UNGC principles or OECD Guidelines for Multinational Enterprises or grievance/complaints handling mechanisms to address violations of the UNGC principles or OECD Guidelines for Multinational Enterprises
	12. Unadjusted gender pay gap	6.50	Weighted Average of all issuers' in the portfolio unadjusted gender pay gap of investee companies
	13. Board gender diversity	27.90	Waited Average of all issuers in the portfolio ratio of female to male board members in investee companies, expressed as a percentage of all board members
	14. Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons)	0.00	Share of investments in investee companies involved in the manufacture or selling of controversial weapons
Optional Indicators	Optional Indicator: 4. Investments in companies without carbon emission reduction initiative	69.88	Share of investments in investee companies without carbon emission reduction initiatives aimed at aligning with the Paris Agreement
	Optional Indicator: 9. Lack of a human rights policy	17.31	Share of investments in entities without a human rights policy

In addition, as part of the Fund's consideration of principal adverse impacts on sustainability factors, the ESG team monitored the investments against PAI indicators. Invesco conducted research into certain issuers in the Fund's portfolio that were deemed to flag against PAI indicators, in order to determine whether any engagement activity was required in accordance with the engagement policy.

What were the top investments of this financial product?

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is: from 1st of January 2023 to 31st of December 2023

Large Investments	Sector	% Assets	Country
RIVN US COM	Consumer Discretionary	1.12%	United States
XPEV US ADR	Consumer Discretionary	1.10%	China
NKTA/S	Industrials	1.09%	Denmark
TECO ELEC & MACH	Industrials	1.09%	Taiwan
247540 KS COM	Industrials	1.06%	South Korea

What was the proportion of sustainability-related investments?

See below field

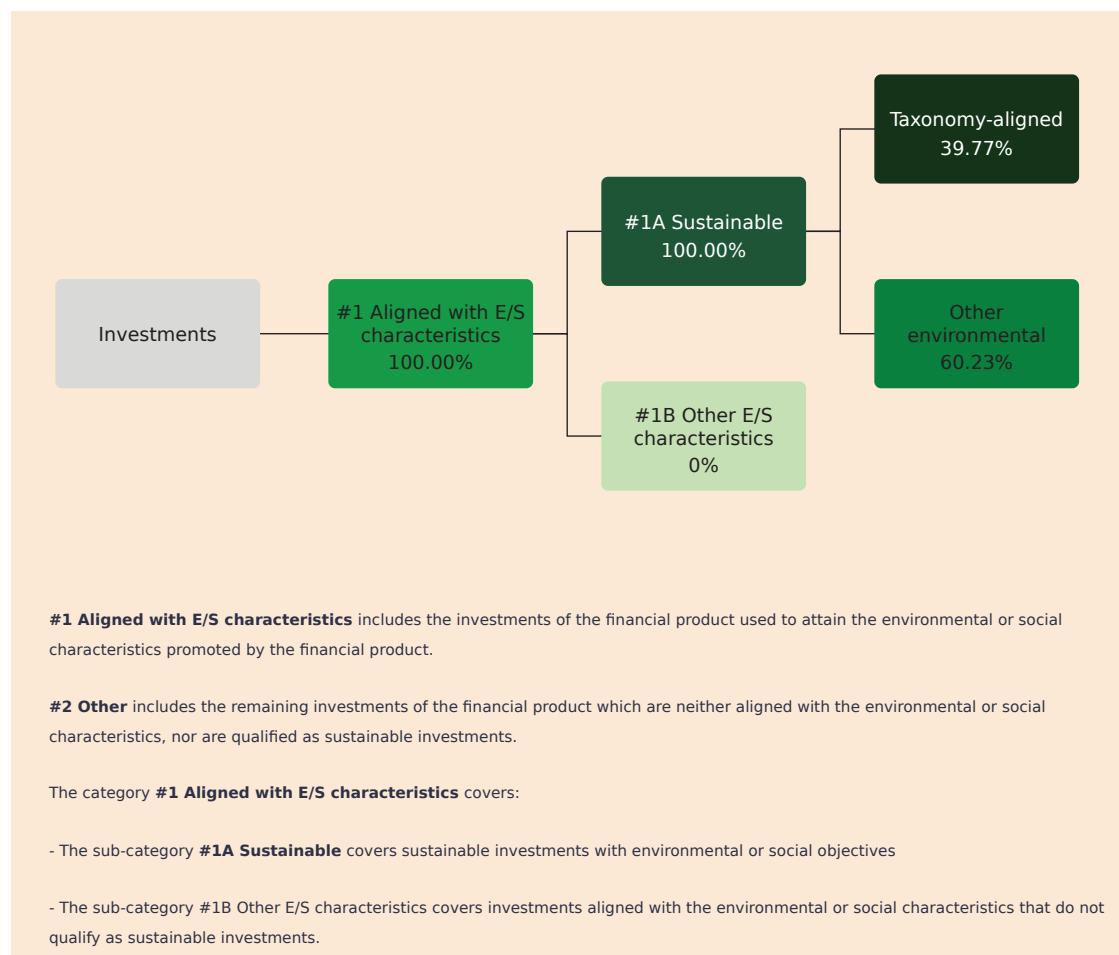

Asset allocation describes the share of investments in specific assets.

● What was the asset allocation?

100.0% of the Fund's NAV was invested in investments that aligned with the environmental and social characteristics of the Fund.

0.0% of the Fund's NAV was invested in financial derivative instruments for hedging and/or efficient portfolio management purposes; or was held as cash for ancillary liquidity purposes.

100.0% of the Fund's NAV was invested in sustainable investments.

● **In which economic sectors were the investments made?**

GICS Sector Breakdown - the data is representative of the reference period.

Sector (GICS)	Weight %
Financials	0.94
Communication Services	0.00
Consumer Discretionary	10.14
Information Technology	18.35
Industrials	42.00
Consumer Staples	0.00
Energy	2.79
Real Estate	0.00
Health Care	0.00
Materials	3.13
Utilities	22.65
Total	100.00

GICS Level 4 breakdown for Energy Sector

Sub-Industry Code	Sub-Industry Name	Weight
10101010	Oil & Gas Drilling	0.00
10101020	Oil & Gas Equipment & Services	0.98
10102010	Integrated Oil & Gas	0.00
10102020	Oil & Gas Exploration & Production	0.00
10102030	Oil & Gas Refining & Marketing	1.81
10102040	Oil & Gas Storage & Transportation	0.00
10102050	Coal & Consumable Fuels	0.00
Total		2.79

Although the Fund has exclusions around fossil fuel extraction, there may still have been exposure to fossil fuels as represented in part by exposure to the energy sector as disclosed above.

To comply with the EU Taxonomy, the criteria for fossil gas include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For nuclear energy, the criteria include comprehensive safety and waste management rules.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

Although the Fund does not commit to a minimum of sustainable investments aligned with the EU Taxonomy the extent to which the Fund as a whole was aligned with the EU Taxonomy was calculated for the reference period. 39.77% (Turnover) of the Fund's portfolio was aligned with the EU Taxonomy. The figures are representative of the reference period.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:
 - turnover reflecting the share of revenue from green activities of investee companies.
 - capital expenditure (CapEx) shows the green investments made by investee companies, relevant for a transition to a green economy.
 - operational expenditure (OpEx) reflects the green operational activities of investee companies.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

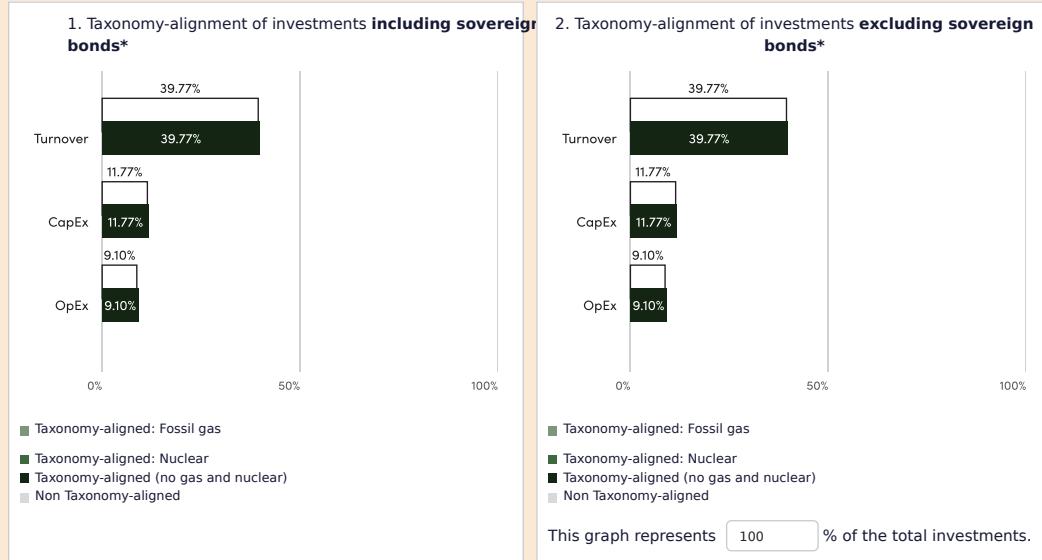

Yes

In fossil gas

In nuclear energy

No

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

*For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

What was the share of investments made in transitional and enabling activities?

The below table shows the share of investments in transitional and enabling activities - the data is representative of the reference period

	Aligned
Enabling	23.59%
Transition	0.03%

'Aligned' means % of revenues of the investments of the Fund that are aligned to the EU Taxonomy.

How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

The percentage of investments that were aligned with the EU Taxonomy increased compared to the previous reference period.

are sustainable investments with an environmental objective that do not take into account the criteria for environmentally sustainable economic activities under the EU Taxonomy.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

As the Fund does not currently intend to be EU Taxonomy aligned, 60.23% of the Fund's NAV was invested in sustainable investments with an environmental objective that was not aligned with the EU Taxonomy. Currently, the Fund does not intend to be aligned with the Taxonomy Regulation and the

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Manager intends to keep the Fund's position in relation to the Taxonomy Regulation under consideration along with the reliability of datasets to determine Taxonomy alignment. To the extent required, the Manager will amend the pre-contractual documentation accordingly.

What was the share of socially sustainable investments?

N/A

What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

0.0% of the Fund's NAV was invested in investments that were not sustainable.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Fund achieved the environmental and social characteristics by tracking the Reference Index, which has a methodology that is consistent with attaining the environmental and social characteristics promoted by the Fund.

Please refer to the section "How did the sustainability indicators perform" above for further information.

How did this financial product perform compared to the reference benchmark?

See tables completed in below sections.

Reference benchmarks
are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

How does the reference benchmark differ from a broad market index?

The Reference Index differs from a broad market index because it comprises only companies with a meaningful exposure to clean energy.

How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

As the Fund fully replicates the performance of the Reference Index, the sustainability indicators performed similarly for the Fund and Reference Index:

Sustainability Indicator	Fund Indicator Performance	Reference Index Indicator Performance
Percentage of exposure in companies associated with the clean energy sectors (as more fully described in the supplement)	100%	100%
Sustainalytics Risk Rating (as defined in the methodology of Reference Index)	21.8	21.8
CO2 emissions intensity	127.7	127.7
Percentage of exposure in excluded companies involved in controversial business activities and controversies (as defined in the methodology of the Reference Index)	The Fund had 0% exposure to excluded companies at each Reference Index rebalance date	The Reference Index had 0% exposure to excluded companies at each Reference Index rebalance date

How did this financial product perform compared with the reference benchmark?

As Fund achieves the environmental and social characteristics by tracking the Reference Index, which has a methodology that is consistent with attaining the environmental and social characteristics promoted by the Fund, the performance of the Fund is aligned with that of the Reference Benchmark. Please see above for the performance of the sustainability indicators compared with the Reference Benchmark.

● How did this financial product perform compared with the broad market index?

Compared to a broad global equity index, the sustainability indicators for the Fund differed as below. The greater CO2 emissions intensity for the fund can be attributed somewhat to its sector breakdown, accounting for this sees the fund offers a reduction in CO2 intensity relative to the broad global equity index:

Sustainability Indicator	Reference Index Indicator Performance	Broad Market benchmark Indicator Performance
Percentage of exposure in companies associated with the clean energy sectors (as more fully described in the supplement)	100%	1.20%
Sustainalytics Risk Rating (as defined in the methodology of Reference Index)	21.8	21.2
CO2 emissions intensity	127.7	102.3
Percentage of exposure in excluded companies involved in controversial business activities and controversies (as defined in the methodology of the Reference Index)	The Reference Index had 0% exposure to excluded companies at each Reference Index rebalance date	The Broad Market benchmark had 10.0% exposure to excluded companies at the latest Reference Index rebalance date

Annex**Product name:** Invesco Wind Energy UCITS ETF**Legal entity identifier:** 549300U3T5CHSUDZNS38

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The EU Taxonomy is a classification system laid down in Regulation (EU) 2020/852 establishing a list of environmentally sustainable economic activities. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Sustainable investment objective

Did this financial product have a sustainable investment objective?

Yes

No

- It made **sustainable investments with an environmental objective:** 99.99 %
 - in economic activities that qualify as environmentally sustainable under the EU Taxonomy
 - in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

- It made **sustainable investments with a social objective:** _____ %

- It promoted **Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of _____ % of sustainable investments
 - with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
 - with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
 - with a social objective

- It promoted E/S characteristics, but **did not make any sustainable investments**

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

To what extent was the sustainable investment objective of this financial product met?

The Fund's sustainable investment objective was to invest in global companies whose innovative technologies focus on advancing wind energy, enabling its use, hence facilitating a transition to a lower carbon economy. The Fund's portfolio was mainly composed of companies focused on improving wind turbines and blades, providing materials used in wind energy, modernising the grid, facilitating greater wind energy deployment or expanding its use and companies involved in onshore and offshore wind energy. The Fund achieved this objective by tracking the WilderHill Wind Energy Index (the "Reference Index"), which has a methodology that is aligned with attaining the sustainable objective of the Fund.

The extent to which the Fund tracked the Reference Index is reflected by the tracking error figures available in the section "Tracking Error Analysis" of the Annual Report.

How did the sustainability indicators perform?

The Fund used a variety of indicators to measure the attainment of the sustainable investment objective. The Fund performed as at 31st of December 2023. The data is representative of the reference period.

Sustainability Indicator	Performance Indicator
Percentage of the Fund portfolio invested in companies associated with the wind energy sectors (as more fully described in the Supplement)	100%
Sustainalytics Risk Rating (as defined in the methodology of the Reference Index) of the Fund	18.4
CO2 emissions intensity for the Fund	71.4
Percentage of the Fund portfolio invested in excluded companies involved in controversial business activities and controversies (as defined in the methodology of the Reference Index)	As at each Reference Index rebalance date, the Fund had 0% exposure to excluded companies

...and compared to previous periods?

The Fund continues to invest solely in companies associated with wind energy and avoid companies excluded by the Reference Index. Compared to last period the Sustainalytics Risk Rating and CO2 emissions intensity for the Fund have both improved. These may revert back next period as the Fund doesn't target specific improvements for these metrics, but it does incorporate exclusions that will impact both.

Principal adverse impacts
are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

● How did the sustainable investments not cause significant harm to any sustainable investment objective?

The index methodology of the Reference Index that the Fund tracks takes into account principal adverse impacts (PAI) indicators defined in Table 1 of Annex I of the regulatory technical standards for Regulation 2019/2088 (RTS). Securities that didn't meet certain PAI thresholds were excluded from the Reference Index.

How were the indicators for adverse impacts on sustainability factors taken into account?

Please see above on how the indicators for adverse impacts on sustainability factors have been taken into account.

The index methodology directly excluded a number of companies involved in certain business activities. Through removal of companies involved in thermal coal and oil sands the Reference Index reduced its exposure to greenhouse gas emissions. The methodology also excluded companies involved in controversial weapons, those facing severe ESG controversies, as assessed via Sustainalytics Controversy Scores, and those that are deemed non-compliant with the principles of the United Nations Global Compact. Additionally, through its exclusions based on Sustainalytics Risk Rating Score the Reference Index also addressed a number of other adverse indicators. Companies were assessed for inclusion based on whether they were deemed to help the world decarbonise and reduce climate risk generally.

Sustainalytics Controversy Scores consider controversies in a number of different areas, including, but not limited to discrimination and harassment, land use and biodiversity, energy use and greenhouse gas emissions, discharges and releases (water), degradation and contamination (land), and controversial weapons.

Sustainalytics Risk Ratings consider a number of key issues in their construction, including, but not limited to biodiversity programmes, hazardous waste management, water risk management, GHG risk management, carbon intensity, gender pay equality programme, gender pay disclosure, and board diversity.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Alignment with the OECD Guidelines for Multinational Enterprises (the "OECD Guidelines") and the UN Guiding Principles on Business and Human Rights (the "UN Guiding Principles") was captured in the index methodology of the Fund, with the result that securities were excluded from the investible universe if they were deemed not to be in alignment.

The index methodology excluded companies that weren't compliant with the UN Global Compact (the "UNGCI"), this set of ten principles show significant overlap with both the OECD Guidelines and the UN Guiding Principles. With regards to OECD Guidelines, these guidelines and the UNGC both aim to promote corporate responsibility and sustainable business practices, in terms of specific topics, they both cover the areas of human rights, employment relations, environment and anti-corruption. As for the two UN frameworks, whilst they do vary in nature, scope and depth, the two come together in their overriding objective (to achieve a more responsible and accountable business community) as well as some of the key areas they address, namely in the human rights space.

The index methodology excluded companies facing severe ESG controversies, as assessed via Sustainalytics Controversy Scores. As part of their research Sustainalytics consider global standards screening, in particular specific international norms and standards including both the OECD Guidelines and the UN Guiding Principles.

How did this financial product consider principal adverse impacts on sustainability factors?

As noted above, the index methodology considered principal adverse impacts on sustainability factors, primarily through a set of exclusion criteria corresponding to the indicators that are defined in Table 1, Annex I of the RTS.

The below table shows the PAI scores for the fund, the data is representative of the reference period.

Adverse sustainability indicator	PAI	Data	Metric
Greenhouse gas emissions	1.GHG Emissions	44.83 48.28 7,403.25 7,496.35	Scope 1 fund financed emissions (Tonnes of CO2 equivalent) Scope 2 fund financed emissions (Tonnes of CO2 equivalent) Scope 3 fund financed emissions (Tonnes of CO2 equivalent) Total Financed emissions (Scope 1 + Scope 2 + Scope 3) (Tonnes of CO2 equivalent)
	2. Carbon footprint	2,985.85	Fund level Carbon footprint (Scope 1 + Scope 2 + Scope 3) (Per Million EUR Invested)
	3. GHG Intensity of investee companies	8,454.79	Fund level Total Emission Intensity- Scope 1+2+3 (Per Million EUR Revenue)
	4. Exposure to companies active in the fossil fuel sector	1.68	% of the fund exposed to any fossil fuels revenue
	5. Share of non-renewable energy consumption	72.38	Adjusted Weighted Average of all issuers in the fund's share of non-renewable energy consumption and non-renewable energy production of investee companies from non-renewable energy sources compared to renewable energy sources, expressed as a percentage of total energy sources (%)
	5. Share of non-renewable energy production	3.33	
	6. Energy consumption intensity per high impact climate sector		Adjusted weighted average energy consumption of issuers in the fund in GWh per million EUR of revenue of investee companies, per high impact climate sector
	Agriculture, Forestry & Fishing	5.73	
	Construction	0.00	
	Electricity, Gas, Steam & Air Conditioning Supply	0.75	
	Manufacturing	0.67	
	Mining & Quarrying	0.00	
	Real Estate Activities	0.00	
	Transportation & Storage	0.00	
Biodiversity	Water Supply, Sewerage, Waste Management & Remediation Activities	0.00	
	Wholesale & Retail Trade & Repair of Motor Vehicles & Motorcycles	0.02	
Water	7. Activites negatively affecting biodiversity-sensitive areas	1.69	Share of investments in the fund of investee companies with sites/operations located in or near to biodiversity-sensitive areas where activities of those investee companies negatively affect those areas
Waste	8. Emissions to water	0.17	Adjusted weighted average per issuer in the fund's emissions to water generated by investee companies per million EUR invested (Tonnes)
Social and employee matters	9. Hazardous waste and radioactive waste ratio	0.70	Tonnes of hazardous waste and radioactive waste generated by investee companies per million EUR invested, expressed as a weighted average
Social and employee matters	10. Violations fo UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises	0.00	Share of investments in investee companies that have been involved in violations of the UNGC principles or OECD Guidelines for Multinational Enterprises
	11. Lack of proceses and compliance mechanisms to monitor compliance with UN Global Compact principles and OECD Guidelines for Multinational Enterprises	44.74	Share of investments in investee companies without policies to monitor compliance with the UNGC principles or OECD Guidelines for Multinational Enterprises or grievance/complaints handling mechanisms to address violations of the UNGC principles or OECD Guidelines for Multinational Enterprises
	12. Unadjusted gender pay gap	0.00	Weighted Average of all issuers' in the portfolio unadjusted gender pay gap of investee companies
	13. Board gender diversity	31.78	Waited Average of all issuers in the portfolio ratio of female to male board members in investee companies, expressed as a percentage of all board members

Optional Indicators	14. Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons)	0.00	Share of investments in investee companies involved in the manufacture or selling of controversial weapons
	Optional Indicator: 4. Investments in companies without carbon emission reduction initiative	50.01	Share of investments in investee companies without carbon emission reduction initiatives aimed at aligning with the Paris Agreement
	Optional Indicator: 9. Lack of a human rights policy	5.36	Share of investments in entities without a human rights policy

In addition, as part of the Fund's consideration of principal adverse impacts on sustainability factors, the ESG team monitored the investments against PAI indicators. Invesco conducted research into certain issuers in the Fund's portfolio that were deemed to flag against PAI indicators, in order to determine whether any engagement activity was required in accordance with the engagement policy.

What were the top investments of this financial product?

Large Investments	Sector	% Assets	Country
NKT A/S	Industrials	1.99%	Denmark
TECO ELEC & MACH	Industrials	1.98%	Taiwan
FLNC COM	Industrials	1.91%	United States
NEOEN FP COM	Utilities	1.91%	France
WESCO INTL	Industrials	1.89%	United States
BELDEN INC	Information Technology	1.89%	United States
PRYSMIAN SPA	Industrials	1.88%	Italy
HUBBELL INC	Industrials	1.87%	United States
CS WIND	Industrials	1.86%	South Korea
SMA SOLAR TECHNO	Information Technology	1.85%	Germany
INFINEON TECH	Information Technology	1.85%	Germany
REXEL SA	Industrials	1.84%	France

WOLF US COM	Information Technology	1.80%	United States
ENLIGHT RENEWABL	Utilities	1.79%	Israel

What was the proportion of sustainability-related investments?

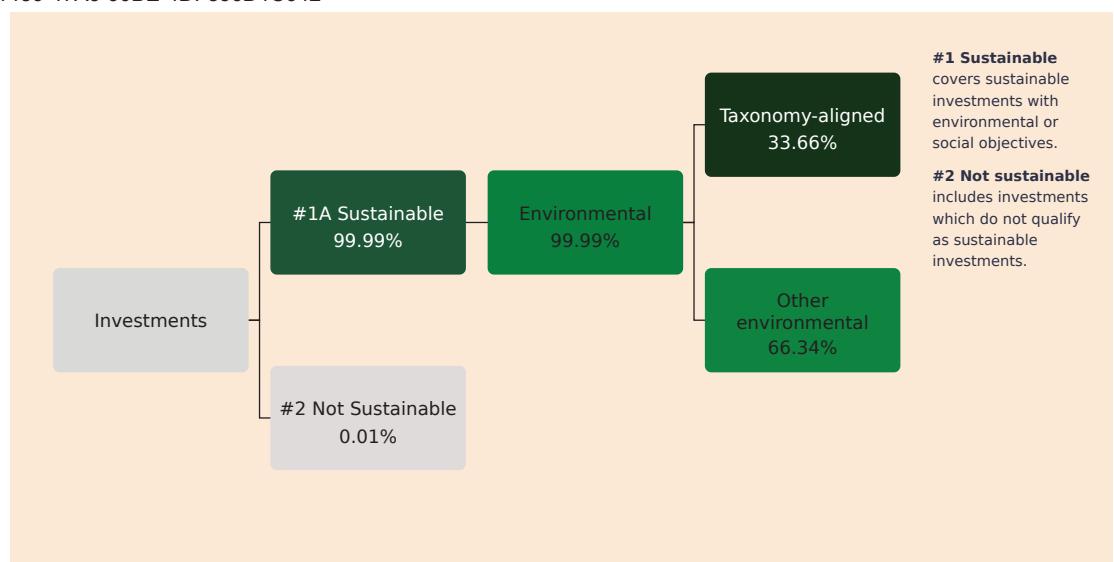

See below field

Asset allocation describes the share of investments in specific assets.

What was the asset allocation?

99.99% of the Fund's NAV was invested in sustainable investments with an environmental objective.

0.01% of the Fund's NAV was invested in financial derivative instruments for hedging and/or efficient portfolio management purposes; or was held as cash for ancillary liquidity purposes.

● In which economic sectors were the investments made?

GICS Sector Breakdown - the data is representative of the reference period.

Sector (GICS)	Weight %
Financials	0.00
Communication Services	0.00
Consumer Discretionary	1.69
Information Technology	13.59
Industrials	47.13
Consumer Staples	0.00
Energy	3.46
Real Estate	0.00
Health Care	0.00
Materials	1.70
Utilities	32.42
Cash	0.01
Total	100.00

GICS Level 4 breakdown for Energy Sector

Sub-Industry Code	Sub-Industry Name	Weight
10101010	Oil & Gas Drilling	0.00
10101020	Oil & Gas Equipment & Services	3.46
10102010	Integrated Oil & Gas	0.00
10102020	Oil & Gas Exploration & Production	0.00
10102030	Oil & Gas Refining & Marketing	0.00
10102040	Oil & Gas Storage & Transportation	0.00
10102050	Coal & Consumable Fuels	0.00
Total		3.46

Although the Fund has exclusions around fossil fuel extraction, there may still have been exposed to fossil fuels as represented in part by exposure to the energy sector as disclosed above.

To comply with the EU Taxonomy, the criteria for fossil gas include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For nuclear energy, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective

Transitional activities are economic activities for which low-carbon alternatives are not yet available and that have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:
 - turnover reflecting the share of revenue from green activities of investee companies
 - capital expenditure(CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
 - operational expenditure(OpEx) reflecting green operational activities of investee companies.

To what extent were sustainable investments with an environmental objective aligned with the EU Taxonomy?

Although the Fund does not commit to a minimum of sustainable investments aligned with the EU Taxonomy, the extent to which the Fund was aligned with the EU Taxonomy was calculated for the reference period. 33.66% (Turnover) of the Fund's portfolio was aligned with the EU Taxonomy. The figures are representative of the reference period.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

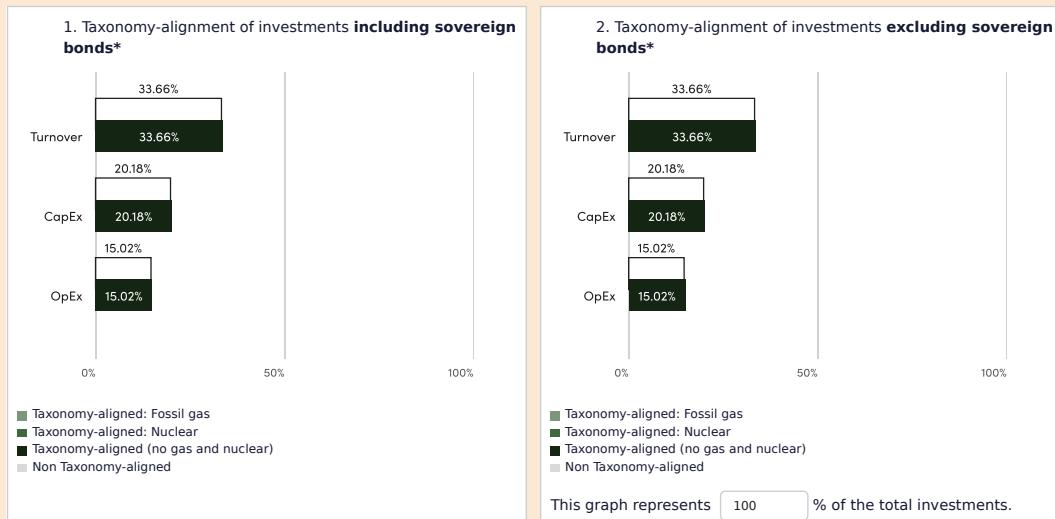

Yes

In fossil gas

In nuclear energy

No

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

*For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

What was the share of investments made in transitional and enabling activities?

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective – see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

The below table shows the share of investments in transitional and enabling activities - data is representative of the reference period.

	Aligned
Enabling	13.55%
Transition	0.05%

'Aligned' means % of revenues of the investments of the Fund that are aligned to the EU Taxonomy.

● **How did the percentage of investments aligned with the EU Taxonomy compare with previous reference periods?**

The percentage of investments that were aligned with the EU Taxonomy increased compared to the previous reference period.

 are sustainable investments with an environmental objective that do not take into account the criteria for environmentally sustainable economic activities under the EU Taxonomy.

What was the share of sustainable investments with an environmental objective that were not aligned with the EU Taxonomy?

As the Fund does not currently intend to be EU Taxonomy aligned, 66.34% of the Fund's NAV was invested in sustainable investments with an environmental objective that was not aligned with the EU Taxonomy. Currently, the Fund does not intend to be aligned with the Taxonomy Regulation and the Manager intends to keep the Fund's position in relation to the Taxonomy Regulation under consideration along with the reliability of datasets to determine Taxonomy alignment. To the extent required, the Manager will amend the pre-contractual documentation accordingly.

What was the share of socially sustainable investments?

N/A

What investments were included under "not sustainable", what was their purpose and were there any minimum environmental or social safeguards?

Investments included under this category are financial derivative instruments for hedging and/or efficient portfolio management purposes and cash for ancillary liquidity. No minimum environmental or social safeguards are applied in relation to these instruments.

What actions have been taken to attain the sustainable investment objective during the reference period?

The Fund achieved the sustainable investment objective by tracking the Reference Index, which has a methodology that is consistent with attaining the sustainable investment objective promoted by the Fund.

Please refer to the section "How did the sustainability indicators perform" above for further information.

How did this financial product perform compared to the reference sustainable benchmark?

See tables completed in below sections:

Reference benchmarks are indexes to measure whether the financial product attains the sustainable objective.

● **How did the reference benchmark differ from a broad market index?**

The Reference Index differs from a broad market index because it comprises only companies with a meaningful exposure to wind energy (a clean alternative energy source).

● **How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the sustainable investment objective?**

As the Fund fully replicates the performance of the Reference Index, the sustainability indicators performed similarly for the Fund and Reference Index:

Sustainability Indicator	Fund Indicator Performance	Reference Index Indicator Performance
Percentage of exposure in companies associated with the wind energy sectors (as more fully described in the Supplement)	100%	100%
Sustainalytics Risk Rating (as defined in the methodology of the Reference Index)	18.4	18.4
CO2 emissions intensity	71.4	71.4
Percentage of exposure in excluded companies involved in controversial business activities and controversies (as defined in the methodology of the Reference Index)	The Fund had 0% exposure to excluded companies at each Reference Index rebalance date	The Reference Index had 0% exposure to excluded companies at each Reference Index rebalance date

● **How did this financial product perform compared with the reference benchmark?**

As the Fund achieved the sustainable investment objective by tracking the Reference Index, which has a methodology that is consistent with attaining the sustainable investment objective of the Fund, the performance of the Fund is aligned with that of the Reference Benchmark. Please see above for the performance of the sustainability indicators compared with the Reference Benchmark.

● **How did this financial product perform compared with the broad market index?**

Compared to a broad global equity index, the sustainability indicators for the Fund differed as below:

Sustainability Indicator	Fund Indicator Performance	Broad Market benchmark Indicator Performance
Percentage of exposure in companies associated with the wind energy sectors (as more fully described in the Supplement)	100%	1.20%
Sustainalytics Risk Rating (as defined in the methodology of the Reference Index)	18.4	21.2
CO2 emissions intensity	71.4	102.3
Percentage of exposure in excluded companies involved in controversial business activities and controversies (as defined in the methodology of the Reference Index)	The Reference Index had 0% exposure to excluded companies at each Reference Index rebalance date	The Broad Market benchmark had 10.0% exposure to excluded companies at the latest Reference Index rebalance date

Annex**Product name:** Invesco Hydrogen Economy UCITS ETF**Legal entity identifier:** 549300WBWH5KRAVXDB80

Sustainable investment objective

Did this financial product have a sustainable investment objective?**● ● ✕ Yes****● ● ✎ No**

- It made **sustainable investments with an environmental objective:** 100 %
- in economic activities that qualify as environmentally sustainable under the EU Taxonomy
 - in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

- It **promoted Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of _____ % of sustainable investments

- with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
- with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
- with a social objective

- It made **sustainable investments with a social objective:** _____ %

- It promoted E/S characteristics, but **did not make any sustainable investments**

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The EU Taxonomy is a classification system laid down in Regulation (EU) 2020/852 establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

To what extent was the sustainable investment objective of this financial product met?

The Fund's sustainable investment objective is to invest in global companies whose innovative technologies focus on advancing the use of hydrogen, fuel cells and the potential hydrogen economy hence facilitating a transition to a lower carbon economy. The Fund's portfolio was mainly composed of companies involved in renewable green hydrogen, improving hydrogen generation, its storage, conversion, uses in transportation, innovation and the advancement of fuel cells. The Fund achieved this objective by tracking the WilderHill Hydrogen Economy Index (the "Reference Index"), which has a methodology that is aligned with attaining the sustainable objective of the Fund.

The extent to which the Fund tracked the Reference Index is reflected by the tracking error figures available in section "Tracking Error Analysis" of the annual report.

● How did the sustainability indicators perform?

The Fund used a variety of indicators to measure the attainment of the sustainable investment objective.

Sustainability Indicator	Indicator Performance
Percentage of the Fund portfolio invested in companies associated with the hydrogen economy sectors (as more fully described in the Supplement)	100%
Sustainalytics Risk Rating (as defined in the methodology of the Reference Index) of the Fund	21.8
CO2 emissions intensity for the Fund	140.0
Percentage of the Fund portfolio invested in excluded companies involved in controversial business activities and controversies (as defined in the methodology of the Reference Index)	As at each Reference Index rebalance date, the Fund had 0% exposure to excluded companies

● **...and compared to previous periods?**

The Fund continues to invest solely in companies associated with the hydrogen economy and avoid companies excluded by the Reference Index. Compared to last period the Sustainalytics Risk Rating and CO2 emissions intensity for the Fund have both improved. These may revert back next period as the Fund doesn't target specific improvements for these metrics, but it does incorporate exclusions that will impact both.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

● **How did the sustainable investments not cause significant harm to any sustainable investment objective?**

The index methodology of the Reference Index that the Fund tracks takes into account principal adverse impacts (PAI) indicators defined in Table 1 of Annex I of the regulatory technical standards for Regulation 2019/2088 (RTS). Securities that didn't meet certain PAI thresholds were excluded from the Reference Index.

How were the indicators for adverse impacts on sustainability factors taken into account?

Please see above on how the indicators for adverse impacts on sustainability factors have been taken into account.

The index methodology directly excluded a number of companies involved in certain business activities. Through removal of companies involved in thermal coal and oil sands the Reference Index reduced its exposure to greenhouse gas emissions. The methodology also excluded companies involved in controversial weapons, those facing severe ESG controversies, as assessed via Sustainalytics Controversy Scores, and those that were deemed non-compliant with the principles of the United Nations Global Compact. Additionally, through its exclusions based on Sustainalytics Risk Rating Score the Reference Index also addressed a number of other adverse indicators. Companies were assessed for inclusion based on whether they were deemed to help the world decarbonise and reduce climate risk generally.

Sustainalytics Controversy Scores consider controversies in a number of different areas, including, but not limited to discrimination and harassment, land use and biodiversity, energy use and greenhouse gas emissions, discharges and releases (water), degradation and contamination (land), and controversial weapons.

Sustainalytics Risk Ratings consider a number of key issues in their construction, including, but not limited to biodiversity programmes, hazardous waste management, water risk management, GHG risk management, carbon intensity, gender pay equality programme, gender pay disclosure, and board diversity.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Alignment with the OECD Guidelines for Multinational Enterprises (the "OECD Guidelines") and the UN Guiding Principles on Business and Human Rights (the "UN Guiding Principles") was captured in the index methodology of the Fund, with the result that securities were excluded from the investible universe if they were deemed not to be in alignment.

The index methodology excluded companies that weren't compliant with the UN Global Compact (the "UNGCI"), this set of ten principles show significant overlap with both the OECD Guidelines and the UN Guiding Principles. With regards to OECD Guidelines, these guidelines and the UNGC both aim to promote corporate responsibility and sustainable business practices, in terms of specific topics, they both cover the areas of human rights, employment relations, environment and anti-corruption. As for the two UN frameworks, whilst they do vary in nature, scope and depth, the two come together in their overriding objective (to achieve a more responsible and accountable business community) as well as some of the key areas they address, namely in the human rights space.

The index methodology excluded companies facing severe ESG controversies, as assessed via Sustainalytics Controversy Scores. As part of their research Sustainalytics considered global standards screening, in particular specific international norms and standards including both the OECD Guidelines and the UN Guiding Principles.

How did this financial product consider principal adverse impacts on sustainability factors?

As noted above, the index methodology considered principal adverse impacts on sustainability factors, primarily through a set of exclusion criteria corresponding to the indicators that are defined in Table 1, Annex I of the RTS.

The below table shows the PAI scores for the fund, the data is representative of the reference period.

Adverse sustainability indicator	PAI	Data	Metric
Greenhouse gas emissions	1.GHG Emissions	144.77	Scope 1 fund financed emissions (Tonnes of CO2 equivalent)
		97.78	Scope 2 fund financed emissions (Tonnes of CO2 equivalent)
		5,603.09	Scope 3 fund financed emissions (Tonnes of CO2 equivalent)
		5,845.64	Total Financed emissions (Scope 1 + Scope 2 + Scope 3) (Tonnes of CO2 equivalent)
	2. Carbon footprint	2,921.64	Fund level Carbon footprint (Scope 1 + Scope 2 + Scope 3) (Per Million EUR Invested)
	3. GHG Intensity of investee companies	12,418.09	Fund level Total Emission Intensity- Scope 1+2+3 (Per Million EUR Revenue)
	4. Exposure to companies active in the fossil fuel sector	0.00	% of the fund exposed to any fossil fuels revenue
	5. Share of non-renewable energy consumption	77.51	Adjusted Weighted Average of all issuers in the fund's share of non-renewable energy consumption and non-renewable energy production of investee companies from non-renewable energy sources compared to renewable energy sources, expressed as a percentage of total energy sources (%)
	5. Share of non-renewable energy production	12.39	
	6. Energy consumption intensity per high impact climate sector		Adjusted weighted average energy consumption of issuers in the fund in GWh per million EUR of revenue of investee companies, per high impact climate sector
	Agriculture, Forestry & Fishing	5.73	
	Construction	0.00	
	Electricity, Gas, Steam & Air Conditioning Supply	0.75	
	Manufacturing	1.29	
	Mining & Quarrying	0.65	
	Real Estate Activities	0.00	
	Transportation & Storage	0.00	
	Water Supply, Sewerage, Waste Management & Remediation Activities	0.00	
	Wholesale & Retail Trade & Repair of Motor Vehicles & Motorcycles	0.00	
Biodiversity	7. Activites negatively affecting biodiversity-sensitive areas	0.00	Share of investments in the fund of investee companies with sites/operations located in or near to biodiversity-sensitive areas where activities of those investee companies negatively affect those areas
Water	8. Emissions to water	0.12	Adjusted weighted average per issuer in the fund's emissions to water generated by investee companies per million EUR invested (Tonnes)
Waste	9. Hazardous waste and	1.25	Tonnes of hazardous waste and radioactive waste

	radioactive waste ratio		generated by investee companies per million EUR invested, expressed as a weighted average
Social and employee matters	10. Violations fo UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises	0.00	Share of investments in investee companies that have been involved in violations of the UNGC principles or OECD Guidelines for Multinational Enterprises
	11. Lack of proceses and compliance mechanisms to monitor compliance with UN Global Compact principles and OECD Guidelines for Multinational Enterprises	52.34	Share of investments in investee companies without policies to monitor compliance with the UNGC principles or OECD Guidelines for Multinational Enterprises or grievance/ complaints handling mechanisms to address violations of the UNGC principles or OECD Guidelines for Multinational Enterprises
	12. Unadjusted gender pay gap	6.50	Weighted Average of all issuers' in the portfolio unadjusted gender pay gap of investee companies
	13. Board gender diversity	29.64	Waited Average of all issuers in the portfolio ratio of female to male board members in investee companies, expressed as a percentage of all board members
	14. Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons)	0.00	Share of investments in investee companies involved in the manufacture or selling of controversial weapons
Optional Indicators	Optional Indicator: 4. Investments in companies without carbon emission reduction initiative	59.17	Share of investments in investee companies without carbon emission reduction initiatives aimed at aligning with the Paris Agreement
	Optional Indicator: 9. Lack of a human rights policy	11.03	Share of investments in entities without a human rights policy

In addition, as part of the Fund's consideration of principal adverse impacts on sustainability factors, the ESG team monitored the investments against PAI indicators. Invesco conducted research into certain issuers in the Fund's portfolio that were deemed to flag against PAI indicators, in order to determine whether any engagement activity was required in accordance with the engagement policy.

What were the top investments of this financial product?

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is The data is representative of the reference period from 1st of January 2023 to 31st of December 2023.

Large Investments	Sector	% Assets	Country
FLNC COM	Industrials	2.02%	United States
CHART INDUSTRIES	Industrials	2.02%	United States

What was the proportion of sustainability-related investments?

See below field

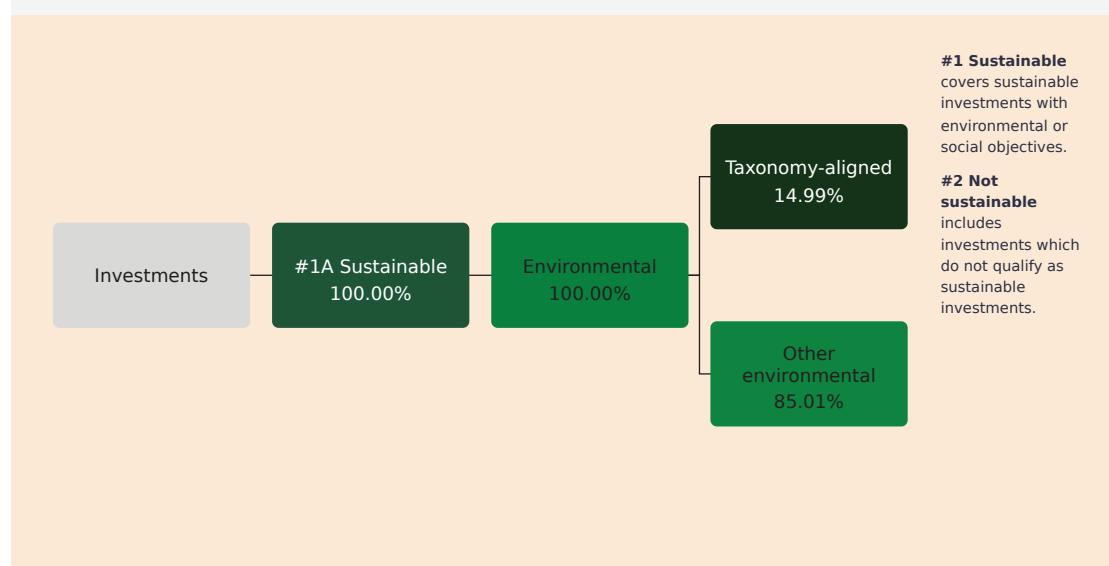

Asset allocation describes the share of investments in specific assets.

What was the asset allocation?

100.0% of the Fund's NAV was invested in sustainable investments with an environmental objective.

0.0% of the Fund's NAV was invested in investments which do not qualify as sustainable investments.

100.0% of the Fund's NAV was invested in sustainable investments.

In which economic sectors were the investments made?

GICS Sector Breakdown - The data is representative of the reference period.

Sector (GICS)	Weight %
Financials	0.00
Communication Services	0.00
Consumer Discretionary	5.62
Information Technology	13.58
Industrials	47.45
Consumer Staples	0.00
Energy	5.22
Real Estate	0.00
Health Care	0.00
Materials	15.09
Utilities	13.04
Total	100.00

GICS Level 4 breakdown for Energy Sector

Sub-Industry Code	Sub-Industry Name	Weight

Total		5.22

Although the Fund has exclusions around fossil fuel extraction, there may still have been exposure to fossil fuels as represented in part by exposure to the energy sector as disclosed above.

To comply with the EU Taxonomy, the criteria for fossil gas include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For nuclear energy, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective

Transitional activities are economic activities for which low-carbon

To what extent were sustainable investments with an environmental objective aligned with the EU Taxonomy?

Although the Fund does not commit to a minimum of sustainable investments aligned with the EU Taxonomy, the extent to which the Fund as a whole was aligned with the EU Taxonomy was calculated for the reference period. 14.99% (Turnover) of the Fund's portfolio was aligned with the EU Taxonomy. The figures are representative of the reference period.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

Yes

In fossil gas

In nuclear energy

No

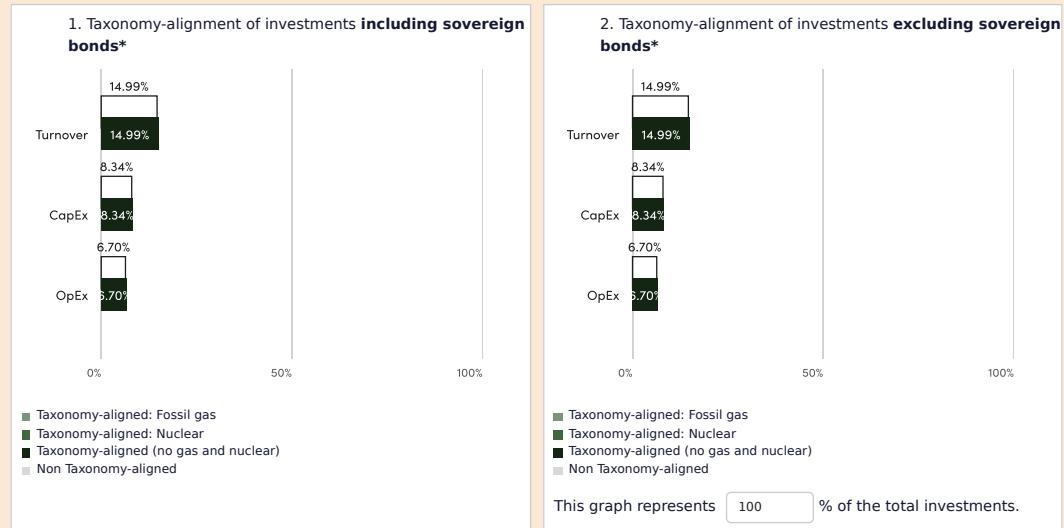

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

alternatives are not yet available and that have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- turnover reflecting the share of revenue from green activities of investee companies
- capital expenditure(CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- operational expenditure(OpEx) reflecting green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

*For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

● What was the share of investments made in transitional and enabling activities?

The below table shows the share of investments in transitional and enabling activities - the data is representative of the reference period

	Aligned
Enabling	4.62%
Transition	0.06%

'Aligned' means % of revenues of the investments of the Fund that are aligned to the EU Taxonomy.

● How did the percentage of investments aligned with the EU Taxonomy compare with previous reference periods?

The percentage of investments that were aligned with the EU Taxonomy decreased compared to the previous reference period.

are sustainable investments with an environmental objective that do not take into account the criteria for environmentally sustainable economic activities under the EU Taxonomy.

What was the share of sustainable investments with an environmental objective that were not aligned with the EU Taxonomy?

As the Fund does not currently intend to be EU Taxonomy aligned, 85.01% of the Fund's NAV was invested in sustainable investments with an environmental objective that was not aligned with the EU Taxonomy. Currently, the Fund does not intend to be aligned with the Taxonomy Regulation and the Manager intends to keep the Fund's position in relation to the Taxonomy Regulation under consideration along with the reliability of datasets to determine Taxonomy alignment. To the extent required, the Manager will amend the pre-contractual documentation accordingly.

What was the share of socially sustainable investments?

N/A

What investments were included under "not sustainable", what was their purpose and were there any minimum environmental or social safeguards?

0.0% of the Fund's NAV was invested in investments that were not sustainable.

What actions have been taken to attain the sustainable investment objective during the reference period?

The Fund attained the sustainable investment objective by tracking the Reference Index, which has a methodology that is consistent with attaining the sustainable investment objective of the Fund.

Please refer to the section "How did the sustainability indicators perform" above for further information.

How did this financial product perform compared to the reference sustainable benchmark?

See tables completed in below sections:

Reference benchmarks are indexes to measure whether the financial product attains the sustainable objective.

● How did the reference benchmark differ from a broad market index?

The Reference Index differs from a broad market index because it comprises only companies with a meaningful exposure to hydrogen (a clean alternative to natural gas).

● How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the sustainable investment objective?

As the Fund fully replicates the performance of the Reference Index , the sustainability indicators performed similarly for the Fund and Reference Index:

Sustainability Indicator	Fund Indicator Performance	Reference Index Indicator Performance
Percentage of exposure in companies associated with the hydrogen economy sectors (as more fully described in the Supplement)	100%	100%
Sustainalytics Risk Rating (as defined in the methodology of the Reference Index)	21.8	21.8
CO2 emissions intensity	140.0	140.0
Percentage of exposure in excluded companies involved in controversial business activities and controversies (as defined in the methodology of the Reference Index)	The Fund had 0% exposure to excluded companies at each Reference Index rebalance date	The Reference Index had 0% exposure to excluded companies at each Reference Index rebalance date

● How did this financial product perform compared with the reference benchmark?

As the Fund achieved the sustainable investment objective by tracking the Reference Index, which has a methodology that is consistent with attaining the sustainable investment objective of the Fund, the performance of the Fund is aligned with that of the Reference Benchmark. Please see above for the performance of the sustainability indicators compared with the Reference Benchmark.

● How did this financial product perform compared with the broad market index?

Compared to a broad global equity index, the sustainability indicators for the Fund differed as below. The greater CO2 emissions intensity for the fund can be attributed somewhat to its sector breakdown, accounting for this sees the Fund offers a reduction in CO2 intensity relative to the broad global equity index:

Sustainability Indicator	Fund Indicator Performance	Broad Market benchmark Indicator Performance
Percentage of exposure in companies associated with the hydrogen economy sectors (as more fully described in the Supplement)	100%	1.20%
Sustainalytics Risk Rating (as defined in the methodology of the Reference Index)	21.8	21.2
CO2 emissions intensity	140.0	102.3
Percentage of exposure in excluded companies involved in controversial business activities and controversies (as defined in the methodology of the Reference Index)	The Reference Index had 0% exposure to excluded companies at each Reference Index rebalance date	The Broad Market benchmark had 10.0% exposure to excluded companies at the latest Reference Index rebalance date

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the invested companies follow good governance practices.

The EU Taxonomy is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

Environmental and/or social characteristics	
<p>Did this financial product have a sustainable investment objective?</p> <p><input checked="" type="radio"/> Yes</p> <p><input type="checkbox"/> It made sustainable investments with an environmental objective: _____ %</p> <ul style="list-style-type: none"> <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <p><input type="checkbox"/> It made sustainable investments with a social objective: _____ %</p>	<p><input checked="" type="radio"/> No</p> <p><input checked="" type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of 27.11 % of sustainable investments</p> <ul style="list-style-type: none"> <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with a social objective <p><input type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments</p>

<p>To what extent were the environmental and/or social characteristics promoted by this financial product met?</p> <p>The environmental and social characteristics promoted by the Fund were to increase overall exposure to issuers demonstrating a robust ESG profile i.e. issuers with a more favourable ESG rating compared to similar issuers. The fund also reduced exposure to companies involved in certain business activities and those with involvement in very severe ESG controversies.</p> <p>The Fund achieves the environmental and social characteristics by tracking the Bloomberg MSCI USD High Yield Liquid Corporate ESG Weighted SRI Bond Index ("Reference Index"), which has a methodology that is consistent with attaining the environmental and social characteristics promoted by the Fund.</p> <p>The extent to which the Fund tracked the Reference Index is reflected by the tracking error figures available in the section "Tracking Error Analysis" of the Annual Report.</p>
--

How did the sustainability indicators perform?	
The Fund used a variety of indicators to measure the attainment of the environmental and social characteristics. The Fund performed as follows as at 31 December 2023, the data is representative of the reference period:	
Sustainability Indicator	Indicator Performance
MSCI ESG Score (as defined in the methodology of the Reference Index) of the Fund relative to the Bloomberg US Corporate High Yield Bond Index (the " Parent Index ")	46.6% improvement
CO2 emissions intensity of the Fund relative to the Parent Index	21.7% reduction
Percentage of the Fund portfolio invested in excluded companies involved in controversial business activities and controversies (as defined in the methodology of the Reference Index)	As at each Reference Index rebalance date, the Fund had 0% exposure to excluded companies

...and compared to previous periods?	
Compared to last period the improvement in MSCI ESG Score for the Fund relative to the parent index has improved, whilst the reduction in CO2 emissions intensity was lower. The Fund continues to avoid companies excluded by the Reference Index.	

What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?	
The sustainable investments made by the fund contributed to environmental objectives such as climate change, water management, pollution prevention, and to social objectives such as good health, well-being and gender equality. The Fund achieved those objectives by investing in constituents of the Reference Index. According to Invesco's sustainable investment framework, a percentage (as disclosed above) of constituents of the Reference Index contributed positively to selected Sustainable Development Goals (SDGs) that related to the above objectives.	

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?	
The index methodology of the Reference Index that the Fund tracks takes into account principal adverse impacts (PAI) indicators defined in Table 1 of Annex I of the regulatory technical standards for Regulation 2019/2088 (RTS). Securities that didn't meet certain PAI thresholds were excluded from the Reference Index or had their weightings reduced.	

How were the indicators for adverse impacts on sustainability factors taken into account?	
Please see above on how the indicators for adverse impacts on sustainability factors have been taken into account.	

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

The index methodology directly excluded a number of companies involved in certain business activities. Through removal of companies involved in thermal coal and oil sands the Reference Index reduced its exposure to greenhouse gas emissions. The methodology also excluded companies involved in controversial weapons and those facing very severe ESG controversies, as assessed via MSCI Controversy Scores. Through its exclusions based on MSCI ESG Score, and adjustment of the weighting for those that are above the threshold based on these same scores, the Reference Index also addressed a number of other adverse indicators. The Reference Index also excluded any companies where data wasn't available to make such assessments.

MSCI ESG Scores consider a number of key issues in their construction, including, but not limited to carbon emissions, product carbon footprint, biodiversity & land use, toxic emissions & waste, opportunities in renewable energy. The scores also take into account areas such as human capital as well as corporate governance, considering ownership & control, pay and the board.

MSCI Controversy Scores consider controversies in a number of different areas, including, but not limited to biodiversity & land use, energy & climate change, toxic emissions & waste, operational waste, discrimination & workforce diversity, and governance structures. Any company that violates the UN Global Compact receives a very severe MSCI Controversy Score.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Alignment with the OECD Guidelines for Multinational Enterprises (the "OECD Guidelines") and the UN Guiding Principles on Business and Human Rights (the UN Guiding Principles) is captured in the index methodology of the Fund, with the result that securities were excluded from the investible universe if they were deemed not to be in alignment.

The index methodology excluded companies that weren't compliant with the UN Global Compact (the "UNGC"), this set of ten principles show significant overlap with both the OECD Guidelines and the UN Guiding Principles. With regards to OECD Guidelines, these guidelines and the UNGC both aim to promote corporate responsibility and sustainable business practices, in terms of specific topics, they both cover the areas of human rights, employment relations, environment and anti-corruption. As for the two UN frameworks, whilst they do vary in nature, scope and depth, the two come together in their overriding objective (to achieve a more responsible and accountable business community) as well as some of the key areas they address, namely in the human rights space.

The index methodology excluded companies facing very severe ESG controversies, as assessed via MSCI Controversy Scores. These scores assess controversies that may constitute a breach of selected global norms and conventions, including the UNGC, the International Labour Organisation's conventions, and the UN Guiding Principles on Business and Human Rights.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the Union criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the Union criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

As noted above, the index methodology considered principal adverse impacts on sustainability factors, primarily through a set of exclusion criteria corresponding to the indicators that are defined in Table 1, Annex I of the RTS.

The below table shows the PAI scores for the fund, the data is representative of the reference period.

Adverse sustainability indicator	PAI	Data	Metric
Greenhouse gas emissions	1.GHG Emissions	3,946.52	Scope 1 fund financed emissions (Tonnes of CO2 equivalent)
		362.95	Scope 2 fund financed emissions (Tonnes of CO2 equivalent)
		9,880.93	Scope 3 fund financed emissions (Tonnes of CO2 equivalent)
		14,190.40	Total Financed emissions (Scope 1 + Scope 2 + Scope 3) (Tonnes of CO2 equivalent)
	2. Carbon footprint	1,517.94	Fund level Carbon footprint (Scope 1 + Scope 2 + Scope 3) (Per Million EUR Invested)
	3. GHG Intensity of investee companies	3,563.29	Fund level Total Emission Intensity- Scope 1+2+3 (Per Million EUR Revenue)
	4. Exposure to companies active in the fossil fuel sector	2.93	% of the fund exposed to any fossil fuels revenue
	5. Share of non-renewable energy consumption	83.43	Adjusted Weighted Average of all issuers in the fund's share of non-renewable energy consumption and non-renewable energy production of investee companies from non-renewable energy sources compared to renewable energy sources, expressed as a percentage of total energy sources (%)
	5. Share of non-renewable energy production	29.17	Adjusted weighted average energy consumption of issuers in the fund in GWh per million EUR of revenue of investee companies, per high impact climate sector
	6. Energy consumption intensity per high impact climate sector		
	Agriculture, Forestry & Fishing	1.96	
	Construction	0.00	
	Electricity, Gas, Steam & Air Conditioning Supply	4.74	
	Manufacturing	11.84	
	Mining & Quarrying	0.88	
	Real Estate Activities	0.43	
	Transportation & Storage	7.07	
	Water Supply, Sewerage, Waste Management & Remediation Activities	0.11	
	Wholesale & Retail Trade & Repair of Motor Vehicles & Motorcycles	0.11	
Biodiversity	7. Activites negatively affecting biodiversity-sensitive areas	4.20	Share of investments in the fund of investee companies with sites/operations located in or near to biodiversity-sensitive areas where activities of those investee companies negatively affect those areas
Water	8. Emissions to water	100.53	Adjusted weighted average per issuer in the fund's emissions to water generated by investee companies per million EUR invested (Tonnes)
Waste	9. Hazardous waste and radioactive waste ratio	0.98	Tonnes of hazardous waste and radioactive waste generated by investee companies per million EUR invested, expressed as a weighted average
Social and employee matters	10. Violations fo UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises	0.00	Share of investments in investee companies that have been involved in violations of the UNGC principles or OECD Guidelines for Multinational Enterprises
	11. Lack of proceses and compliance mechanisms to monitor compliance with UN Global Compact principles and OECD Guidelines for Multinational Enterprises	58.33	Share of investments in investee companies without policies to monitor compliance with the UNGC principles or OECD Guidelines for Multinational Enterprises or grievance/ complaints handling mechanisms to address violations of the UNGC principles or OECD Guidelines for Multinational Enterprises
	12. Unadjusted gender pay gap	9.60	Weighted Average of all issuers' in the portfolio unadjusted gender pay gap of investee companies
	13. Board gender diversity	29.76	Waited Average of all issuers in the portfolio ratio of female to male board members in investee companies, expressed as a percentage of all board members
	14. Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons)	0.00	Share of investments in investee companies involved in the manufacture or selling of controversial weapons
Optional Indicators	Optional Indicator: 4. Investments in companies without carbon emission reduction initiative	59.29	Share of investments in investee companies without carbon emission reduction initiatives aimed at aligning with the Paris Agreement
	Optional Indicator: 9. Lack of a human rights policy	18.87	Share of investments in entities without a human rights policy

In addition, as part of the Fund's consideration of principal adverse impacts on sustainability factors, the ESG team monitored the investments against PAI indicators. Invesco conducted research into certain issuers in the Fund's portfolio that were deemed to flag against PAI indicators, in order to determine whether any engagement activity was required in accordance with the engagement policy.

What were the top investments of this financial product?

Large Investments	Sector	% Assets	Country
INTESA SANPAOLO	Financials	1.20%	Italy

What was the proportion of sustainability-related investments?

See below field

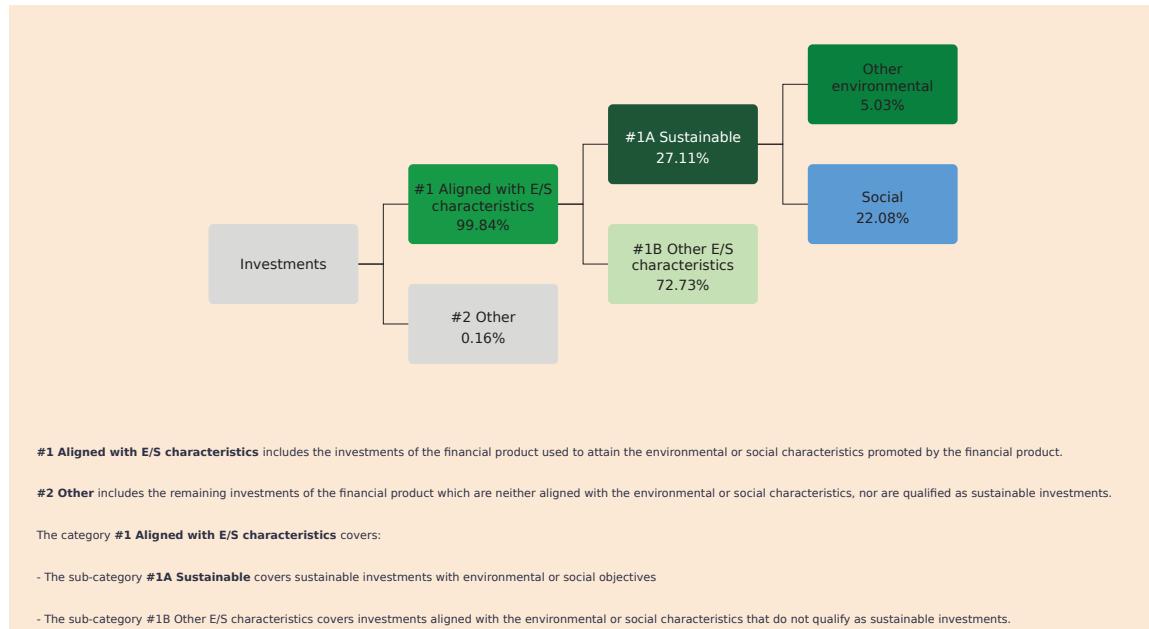

Asset allocation describes the share of investments in specific assets.

What was the asset allocation?

99.84% of the Fund's NAV was invested in investments that aligned with the environmental and social characteristics of the Fund.

0.16% of the Fund's NAV was invested in financial derivative instruments for hedging and/or efficient portfolio management purposes; or was held as cash for ancillary liquidity purposes.

27.11% of the Fund's NAV was invested in sustainable investments.

In which economic sectors were the investments made?

GICS Sector Breakdown - the data is representative of the reference period.

Sector (GICS)	Weight %
Financials	8.48
Communication Services	19.03
Consumer Discretionary	16.17
Information Technology	7.80
Industrials	12.46
Consumer Staples	3.66

Materials	7.44
Utilities	1.87
Cash	0.16
Total	100.00

GICS Level 4 breakdown for Energy Sector

Sub-Industry Code	Sub-Industry Name	Weight
10101010	Oil & Gas Drilling	0.43
10101020	Oil & Gas Equipment & Services	0.72
10102010	Integrated Oil & Gas	0.00
10102020	Oil & Gas Exploration & Production	0.00
10102030	Oil & Gas Refining & Marketing	1.61
10102040	Oil & Gas Storage & Transportation	3.38
10102050	Coal & Consumable Fuels	0.31
Total		6.45

Although the Fund has exclusions around fossil fuel extraction, there may still have been exposure to fossil fuels as represented in part by exposure to the energy sector as disclosed above.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:
 - turnover reflecting the share of revenue from green activities of investee companies.
 - capital expenditure (CapEx) shows the green investments made by investee companies, relevant for a transition to a green economy.
 - operational expenditure (OpEx) reflects the green operational activities of investee companies.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

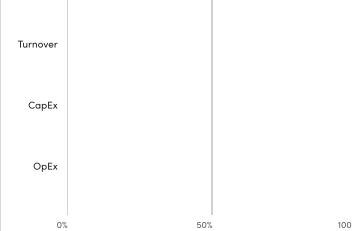

0% of the Fund's portfolio was aligned with the EU Taxonomy.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

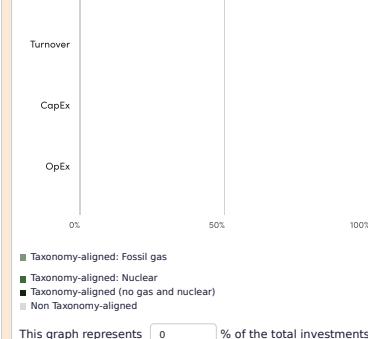

- Yes
 In fossil gas In nuclear energy
 No

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

1. Taxonomy-alignment of investments including sovereign bonds*

2. Taxonomy-alignment of investments excluding sovereign bonds*

*For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

What was the share of investments made in transitional and enabling activities?

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective – see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Not Applicable.

● How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

Not Applicable.

**What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

As the Fund does not currently intend to be EU Taxonomy aligned, 5.03% of the Fund's NAV was invested in sustainable investments with an environmental objective that was not aligned with the EU Taxonomy. Currently the Fund does not intend to be aligned with the Taxonomy Regulation and the Manager intends to keep the Fund's position in relation to the Taxonomy Regulation under consideration along with the reliability of datasets to determine Taxonomy alignment. To the extent required, the Manager will amend the pre-contractual documentation accordingly.

**What was the share of socially sustainable investments?**

22.08 %.

**What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?**

Investments included under this category are financial derivative instruments for hedging and/or efficient portfolio management purposes and cash for ancillary liquidity. No minimum environmental or social safeguards are applied in relation to these instruments.

**What actions have been taken to meet the environmental and/or social characteristics during the reference period?**

The Fund achieved the environmental and social characteristics by tracking the Reference Index, which has a methodology that is consistent with attaining the environmental and social characteristics promoted by the Fund.

Please refer to the section "How did the sustainability indicators perform" above for further information.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

How did this financial product perform compared to the reference benchmark?

See tables completed in below sections.

● How does the reference benchmark differ from a broad market index?

The Reference Index differs from a broad market index because it seeks to increase overall exposure to issuers demonstrating both a robust ESG profile, and issuers that are assigned more favourable ESG scores using MSCI ESG metrics.

● How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

As the Fund aims to replicate the performance of the Reference Index, the sustainability indicators performed similarly for the Fund and Reference Index:

Sustainability Indicator	Fund Indicator Performance	Reference Index Indicator Performance
MSCI ESG Score (as defined in the methodology of the Reference Index)	6.14	6.13
CO2 emissions intensity	151.1	150.3
Percentage of exposure in excluded companies involved in controversial business activities and controversies (as defined in the methodology of the Reference Index)	The Fund had 0% exposure to excluded companies at each Reference Index rebalance date	The Reference Index had 0% exposure to excluded companies at each Reference Index rebalance date

● How did this financial product perform compared with the reference benchmark?

As the Fund achieves the environmental and social characteristics by tracking the Reference Index, which has a methodology that is consistent with attaining the environmental and social characteristics promoted by the Fund, the performance of the Fund is aligned with that of the Reference Benchmark. Please see above for the performance of the sustainability indicators compared with the Reference Benchmark.

● How did this financial product perform compared with the broad market index?

The Parent Index also acts as a relevant broad market index. The sustainability indicators for the Fund and Parent Index differed as below:

Sustainability Indicator	Reference Index Indicator Performance	Broad Market benchmark (Parent Index) Indicator Performance
MSCI ESG Score (as defined in the methodology of the Reference Index)	6.14	4.18
CO2 emissions intensity	151.1	193.0
Percentage of the Fund portfolio Invested in excluded companies involved in controversial business activities and controversies (as defined in the methodology of the Reference Index)	The Reference Index had 0% exposure to excluded companies at each Reference Index rebalance date	The Broad Market benchmark had 41.6% exposure to excluded companies at the latest Reference Index rebalance date

Annex**Product name: Invesco Solar Energy UCITS ETF****Legal entity identifier: 549300F3Y1FVUG9DNW45**

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The EU Taxonomy is a classification system laid down in Regulation (EU) 2020/852, establishing a list of environmentally sustainable economic activities. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Did this financial product have a sustainable investment objective?	
● ● ■ Yes	● ● ✗ No
<input type="checkbox"/> It made sustainable investments with an environmental objective: _____ % <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy	<input checked="" type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of <u>88.07</u> % of sustainable investments <input checked="" type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with a social objective
<input type="checkbox"/> It made sustainable investments with a social objective: _____ %	<input type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The environmental characteristics promoted by the Fund were to gain exposure to the global solar energy equity sector by investing in companies that derived significant revenue from solar business activities. The Fund achieved this by tracking the MAC Global Solar Energy Index ("Reference Index"), which has a methodology that is consistent with attaining the environmental and social characteristics promoted by the Fund.

The extent to which the Fund tracked Reference Index is reflected by the tracking error figures available in the section "Tracking Error Analysis" of the Annual Report.

The environmental characteristics were achieved by applying the Index Provider's exclusion criteria to the index universe and the Index Provider determining a company's eligibility for inclusion in the Reference Index by assessing whether solar power was a significant component of the company's business.

● How did the sustainability indicators perform?

The Fund used a variety of indicators to measure the attainment of the environmental and social characteristics. The Fund performed as at 31st of December 2023. The data is representative of the reference period.

Sustainability Indicator	Indicator Performance
Percentage of the Fund portfolio invested in companies associated with the solar energy sectors (as more fully described in the Supplement)	100%
CO2 emissions intensity of the Fund	275.9
Percentage of the Fund portfolio invested in excluded companies involved in controversial business activities and controversies (as defined in the methodology of the Reference Index)	As at each Reference Index rebalance date, the Fund had 0% exposure to excluded companies

● ...and compared to previous periods?

The Fund continues to invest solely in companies associated with solar energy and avoid companies excluded by the Reference Index. Compared to last period the CO2 emissions intensity for the Fund was slightly higher. This may revert back next period as the Fund doesn't target specific improvements for this metric, but it does incorporate exclusions that will impact it.

● What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

The environmental objectives that the sustainable investments contributed to are the generation and use of solar energy.

The sustainable investments contributed to the objectives as the companies invested in had solar power as a significant component of its business, from which they derived significant revenue (as determined by the Index Provider).

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

The index methodology of the Reference Index that the Fund tracks takes into account principal adverse impacts (PAI) indicators defined in Table 1 of Annex I of the regulatory technical standards for Regulation 2019/2088 (RTS). Securities that didn't meet certain PAI thresholds were excluded from the Reference Index.

How were the indicators for adverse impacts on sustainability factors taken into account?

Please see above on how the indicators for adverse impacts on sustainability factors were taken into account.

The index methodology directly excluded a number of companies involved in certain business activities. Through removal of companies involved in coal and petroleum power generation, as well as those extracting crude petroleum and natural gas, the Reference Index reduced its exposure to greenhouse gas emissions. Index selection is based on revenue derived from solar business activities, as such the index limits its exposure to companies engaged in non-renewable energy production. The methodology also excluded companies that have the lowest S&P Global Governance & Economic Score.

S&P Global Governance & Economic Score consider a number of key issues in their construction, including, but not limited to, board gender diversity.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Alignment with the OECD Guidelines for Multinational Enterprises (the "OECD Guidelines") and the UN Guiding Principles on Business and Human Rights (the "UN Guiding Principles") was captured in the index methodology of the Fund, with the result that securities were excluded from the investible universe if they were deemed not to be in alignment.

The index methodology excluded companies that had the lowest S&P Global Governance & Economic Score. As part of their research S&P consider a number of topics that overlap with the OECD Guidelines, including the areas of corruption & bribery, customer relationship management, marketing practices, energy mix, innovation management, anti-competitive practices and tax strategy.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the Union criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the Union criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

As noted above, the index methodology considered principal adverse impacts on sustainability factors, primarily through a set of exclusion criteria corresponding to the indicators that are defined in Table 1, Annex I of the RTS.

The below table shows the PAI scores for fund, the data is representative of the reference period.

Adverse sustainability indicator	PAI	Data	Metric
Greenhouse gas emissions	1.GHG Emissions	2,742.28 2,239.35 93,289.87 98,271.50	Scope 1 fund financed emissions (Tonnes of CO2 equivalent) Scope 2 fund financed emissions (Tonnes of CO2 equivalent) Scope 3 fund financed emissions (Tonnes of CO2 equivalent) Total Financed emissions (Scope 1 + Scope 2 + Scope 3) (Tonnes of CO2 equivalent)
	2. Carbon footprint	1,266.97	Fund level Carbon footprint (Scope 1 + Scope 2 + Scope 3) (Per Million EUR Invested)
	3. GHG Intensity of investee companies	2,029.92	Fund level Total Emission Intensity- Scope 1+2+3 (Per Million EUR Revenue)
	4. Exposure to companies active in the fossil fuel sector	0.00	% of the fund exposed to any fossil fuels revenue
	5. Share of non-renewable energy consumption	81.28	Adjusted Weighted Average of all issuers in the fund's share of non-renewable energy consumption and non-renewable energy production of investee companies from non-renewable energy sources compared to renewable energy sources, expressed as a percentage of total energy sources (%)
	5. Share of non-renewable energy production	5.63	
	6. Energy consumption intensity per high impact climate sector		
	Agriculture, Forestry & Fishing	0.00	
	Construction	0.00	
	Electricity, Gas, Steam & Air Conditioning Supply	1.27	
	Manufacturing	2.49	
	Mining & Quarrying	1.22	
	Real Estate Activities	0.00	
	Transportation & Storage	0.00	
	Water Supply, Sewerage, Waste Management & Remediation Activities	0.00	
	Wholesale & Retail Trade & Repair of Motor Vehicles & Motorcycles	0.04	
Biodiversity	7. Activites negatively affecting biodiversity-sensitive areas	0.00	Share of investments in the fund of investee companies with sites/operations located in or near to biodiversity-sensitive areas where activities of those investee companies negatively affect those areas
Water	8. Emissions to water	0.02	Adjusted weighted average per issuer in the fund's emissions to water generated by investee companies per million EUR invested (Tonnes)
Waste	9. Hazardous waste and radioactive waste ratio	0.56	Tonnes of hazardous waste and radioactive waste generated by investee companies per million EUR invested, expressed as a weighted average
Social and employee matters	10. Violations fo UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises	0.00	Share of investments in investee companies that have been involved in violations of the UNGC principles or OECD Guidelines for Multinational Enterprises
	11. Lack of proceses and compliance mechanisms to monitor compliance with UN Global Compact principles and OECD Guidelines for Multinational Enterprises	66.79	Share of investments in investee companies without policies to monitor compliance with the UNGC principles or OECD Guidelines for Multinational Enterprises or grievance/ complaints handling mechanisms to address violations of the UNGC principles or OECD Guidelines for Multinational Enterprises

Optional Indicators	12. Unadjusted gender pay gap	0.00	Weighted Average of all issuers' in the portfolio unadjusted gender pay gap of investee companies
	13. Board gender diversity	22.82	Waited Average of all issuers in the portfolio ratio of female to male board members in investee companies, expressed as a percentage of all board members
	14. Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons)	0.00	Share of investments in investee companies involved in the manufacture or selling of controversial weapons
	Optional Indicator: 4. Investments in companies without carbon emission reduction initiative	74.02	Share of investments in investee companies without carbon emission reduction initiatives aimed at aligning with the Paris Agreement
	Optional Indicator: 9. Lack of a human rights policy	15.75	Share of investments in entities without a human rights policy

In addition, as part of the Fund's consideration of principal adverse impacts on sustainability factors, the ESG team monitored the investments against PAI indicators. Invesco conducted research into certain issuers in the Fund's portfolio that were deemed to flag against PAI indicators, in order to determine whether any engagement activity was required in accordance with the engagement policy.

What were the top investments of this financial product?

Large Investments	Sector	% Assets	Country
ENPHASE ENERGY	Information Technology	10.20%	United States
FIRST SOLAR INC	Information Technology	9.80%	United States
SOLAREDGE TECHNO	Information Technology	9.04%	Israel
SUNRUN INC	Industrials	5.31%	United States
GCL TECHNOLOGY H	Information Technology	5.26%	Hong Kong
XINYI SOLAR HLDS	Information Technology	5.17%	China
SHOALS TECHNOL-A	Industrials	4.54%	United States
ARRY US COM	Industrials	4.10%	United States

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is: From 1st of January 2023 to 31st of December 2023.

What was the proportion of sustainability-related investments?

See below field

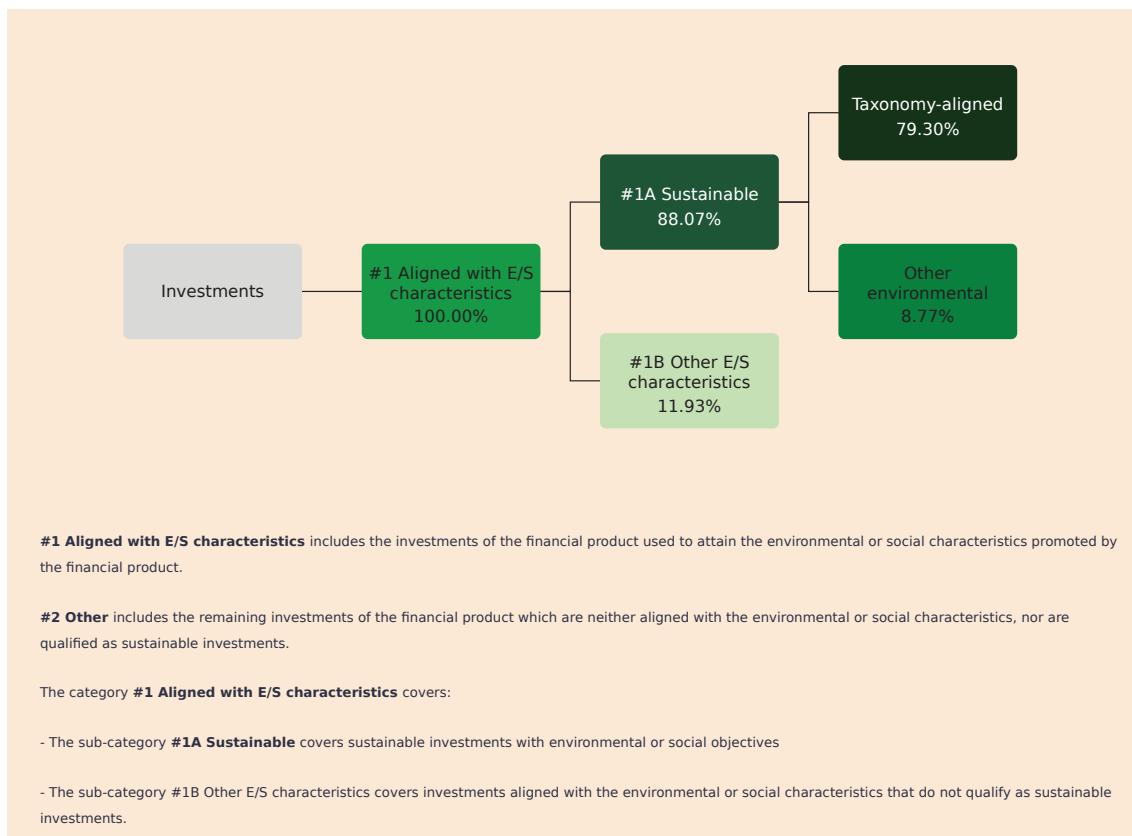

Asset allocation describes the share of investments in specific assets.

● What was the asset allocation?

100.0% of the Fund's NAV was invested in investments that aligned with the environmental and social characteristics of the Fund.

0.0% of the Fund's NAV was invested in financial derivative instruments for hedging and/or efficient portfolio management purposes; or was held as cash for ancillary liquidity purposes.

88.07% of the Fund's NAV was invested in sustainable investments.

● In which economic sectors were the investments made?

GICS Sector Breakdown - the data is representative of the reference period.

Sector (GICS)	Weight %
Information Technology	57.78
Utilities	19.77
Industrials	16.60
Financials	3.30
Materials	2.52
Consumer Discretionary	0.03
Communication Services	0.00
Consumer Staples	0.00
Energy	0.00
Real Estate	0.00
Health Care	0.00
Total	100.00

Sub-Industry Code	Sub-Industry Name	Weight
10101010	Oil & Gas Drilling	0.00
10101020	Oil & Gas Equipment & Services	0.00
10102010	Integrated Oil & Gas	0.00
10102020	Oil & Gas Exploration & Production	0.00
10102030	Oil & Gas Refining & Marketing	0.00
10102040	Oil & Gas Storage & Transportation	0.00
10102050	Coal & Consumable Fuels	0.00
Total		0.00

To comply with the EU Taxonomy, the criteria for fossil gas include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For nuclear energy, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:
 - turnover reflecting the share of revenue from green activities of investee companies.
 - capital expenditure (CapEx) shows the green investments made by investee companies, relevant for a transition to a green economy.
 - operational expenditure (OpEx) reflects the green operational activities of investee companies.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

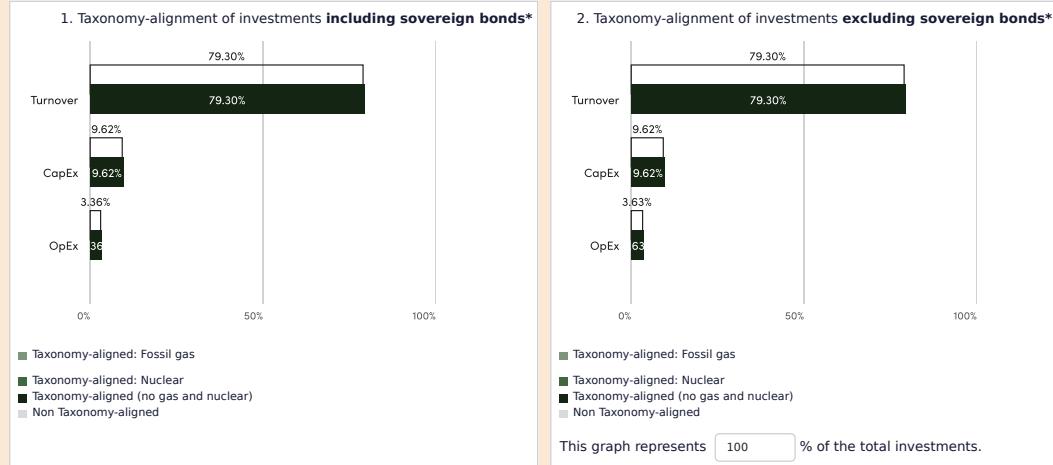

Although the Fund does not commit to a minimum of sustainable investments aligned with the EU Taxonomy the extent to which the Fund as a whole was aligned with the EU Taxonomy was calculated for the reference period. 79.30% (Turnover) of the Fund's portfolio was aligned with the EU Taxonomy. The figures are representative of the reference period.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

- Yes
 In fossil gas In nuclear energy

- No

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

*For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

What was the share of investments made in transitional and enabling activities?

The below table shows the share of investments in transitional and enabling activities - the data is representative of the reference period

	Aligned
Enabling	61.74%
Transition	0.00%

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

'Aligned' means % of revenues of the investments of the Fund that are aligned to the EU Taxonomy.

How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

The percentage of investments that were aligned with the EU Taxonomy increased compared to the previous reference period.

 are sustainable investments with an environmental objective that do not take into account the criteria for environmentally sustainable economic activities under the EU Taxonomy.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

As the Fund does not currently intend to be EU Taxonomy aligned, 8.77% of the Fund's NAV was invested in sustainable investments with an environmental objective that was not aligned with the EU Taxonomy. Currently, the Fund does not intend to be aligned with the Taxonomy Regulation and the Manager intends to keep the Fund's position in relation to the Taxonomy Regulation under consideration along with the reliability of datasets to determine Taxonomy alignment. To the extent required, the Manager will amend the pre-contractual documentation accordingly.

What was the share of socially sustainable investments?

NA

What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

Investments included under this category are financial derivative instruments for hedging and/or efficient portfolio management purposes and cash for ancillary liquidity. No minimum environmental or social safeguards are applied in relation to these instruments.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Fund achieved the environmental and social characteristics by tracking the Reference Index, which has a methodology that is consistent with attaining the environmental and social characteristics promoted by the Fund.

Please refer to the section "How did the sustainability indicators perform" above for further information.

How did this financial product perform compared to the reference benchmark?

See tables completed in below sections.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

How does the reference benchmark differ from a broad market index?

The Reference Index differs from a broad market index because it comprises only companies that derive significant revenue from solar business activities.

How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

As the Fund fully replicates the performance of the Reference Index, the sustainability indicators performed similarly for the Fund and Reference Index:

Sustainability Indicator	Fund Indicator Performance	Reference Index Indicator Performance
Percentage of exposure in companies associated with the solar energy sectors (as more fully described in the Supplement)	100%	100%
CO2 emissions intensity	275.9	275.9
Percentage of exposure in excluded companies involved in controversial business activities and controversies (as defined in the methodology of the Reference Index)	The Fund had 0% exposure to excluded companies at each Reference Index rebalance date	The Reference Index had 0% exposure to excluded companies at each Reference Index rebalance date

● ***How did this financial product perform compared with the reference benchmark?***

As the Fund achieves the environmental and social characteristics by tracking the Reference Index, which has a methodology that is consistent with attaining the environmental and social characteristics promoted by the Fund, the performance of the Fund is aligned with that of the Reference Benchmark. Please see above for the performance of the sustainability indicators compared with the Reference Benchmark.

● ***How did this financial product perform compared with the broad market index?***

Compared to a broad global equity index, the sustainability indicators for the Fund differed as below. The greater CO2 emissions intensity for the Fund can be attributed somewhat to its sector breakdown, accounting for this sees the fund offers a reduction in CO2 intensity relative to the broad global equity index:

Sustainability Indicator	Fund Indicator Performance	Broad Market Benchmark Indicator Performance
Percentage of exposure in companies associated with the solar energy sectors (as more fully described in the Supplement)	100%	0.09%
CO2 emissions intensity	275.9	102.3
Percentage of exposure in excluded companies involved in controversial business activities and controversies (as defined in the methodology of the Reference Index)	The Reference Index had 0% exposure to excluded companies at each Reference Index rebalance date	The Broad Market benchmark had 9.9% exposure to excluded companies at the latest Reference Index rebalance date

Annex**Product name:** Invesco NASDAQ-100 ESG UCITS ETF**Legal entity identifier:** 54930070QYLC2UME7Q60

Sustainable investment
means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The EU Taxonomy is a classification system laid down in Regulation (EU) 2020/852, establishing a list of environmentally sustainable economic activities. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Sustainability indicators
measure how the environmental or social characteristics promoted by the financial product are attained.

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

●● □ Yes

● ○ × No

- It made **sustainable investments with an environmental objective:** _____ %
 in economic activities that qualify as environmentally sustainable under the EU Taxonomy
 in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
- It made **sustainable investments with a social objective:** _____ %

- It **promoted Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of 55.49 % of sustainable investments
 with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
 with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
 with a social objective
- It promoted E/S characteristics, but **did not make any sustainable investments**

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The environmental and social characteristics promoted by the Fund were to gain exposure to companies that meet certain specific ESG criteria i.e. issuers with limited/no involvement in certain business activities, with a more favourable ESG rating compared to similar issuers and with no involvement in severe ESG controversies. The Fund achieved this by tracking the NASDAQ100® ESG Index (the "**Reference Index**"), which has a methodology that is consistent with attaining the environmental and social characteristics promoted by the Fund.

The extent to which the Fund tracked the Reference Index is reflected by the tracking error figures available in the section "Tracking Error Analysis" of the Annual Report.

The environmental and social characteristics were achieved by applying the Index Provider's exclusion criteria to the Nasdaq 100® Index (the "**Parent Index**") and by evaluating and weighting the companies on the basis of their business activities, controversies and ESG Risk Ratings.

How did the sustainability indicators perform?

The Fund used a variety of indicators to measure the attainment of the environmental and social characteristics. The Fund performed as follows as at 31st of December 2023, the data is representative of the reference period.

Sustainability Indicator	Indicator Performance
Sustainalytics Risk Rating (as defined in the methodology of the Reference Index) of the Fund relative to the Parent Index	8.4% improvement
CO2 emissions intensity of the Fund relative to the Parent Index	40.4% reduction
Percentage of the Fund portfolio invested in excluded companies involved in controversial business activities and controversies (as defined in the methodology of the Reference Index)	As at each Reference Index rebalance date, the Fund had 0% exposure to excluded companies

...and compared to previous periods?

The Fund continues to show an improvement against the Parent Index, however, compared to last reference period the improvement in Sustainalytics Risk Rating for the Fund relative to the Parent Index was slightly lower and the reduction in CO2 emissions intensity relative to the Parent Index was also slightly lower. The Fund continues to avoid companies excluded by the Reference Index.

What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

The sustainable investments made by the Fund contributed to environmental objectives such as climate change, water management, pollution prevention, and to social objectives such as good health, well-being and gender equality. The Fund achieved those objectives by investing in constituents of the Reference Index. According to Invesco's sustainable investment framework, a percentage (as disclosed above) of constituents of the Reference Index contributed positively to selected Sustainable Development Goals (SDGs) that related to the above objectives.

Principal adverse impacts
are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

The index methodology of the Reference Index that the Fund tracks takes into account principal adverse impacts (PAI) indicators defined in Table 1 of Annex I of the regulatory technical standards for Regulation 2019/2088 (RTS). Securities that didn't meet certain PAI thresholds were excluded from the Reference Index or had their weightings reduced.

How were the indicators for adverse impacts on sustainability factors taken into account?

Please see above on how the indicators for adverse impacts on sustainability factors were taken into account.

The index methodology directly excluded a number of companies involved in certain business activities. Through removal of companies involved in thermal coal, shale energy and oil sands the Reference Index reduced its exposure to greenhouse gas emissions. The methodology also excluded companies involved in controversial weapons, those that faced severe ESG controversies, as assessed via Sustainalytics Controversy Scores, and those that were deemed non-compliant with the principles of the United Nations Global Compact. Additionally, through its exclusions based on Sustainalytics Risk Rating Score, and adjustment of the weighting for those that are below the threshold based on these same scores, the Reference Index also addressed a number of other adverse indicators. The Reference Index also excluded any companies where data wasn't available to make such assessments.

Sustainalytics Risk Rating consider a number of key issues in their construction, including, but not limited to; biodiversity programmes, hazardous waste management, water risk management, GHG risk management, carbon intensity, gender pay equality programme, gender pay disclosure, and board diversity.

Sustainalytics Controversy Scores consider controversies in a number of different areas, including, but not limited to; discrimination & harassment, land use and biodiversity, energy use and greenhouse gas emissions, discharges and releases (water), degradation & contamination (land), and controversial weapons.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Alignment with the OECD Guidelines for Multinational Enterprises (the "**OECD Guidelines**") and the UN Guiding Principles on Business and Human Rights (the "**UN Guiding Principles**") was captured through exclusion of companies from the investible universe if they were deemed not to be in alignment.

The Fund excluded companies that weren't compliant with the UN Global Compact (the "**UNGC**"), this set of ten principles show significant overlap with both the OECD Guidelines and the UN Guiding Principles. With regards to OECD Guidelines, these guidelines and the UNGC both aim to promote corporate responsibility and sustainable business practices, in terms of specific topics, they both cover the areas of human rights, employment relations, environment and anti-corruption. As for the two UN frameworks, whilst they do vary in nature, scope and depth, the two come together in their overriding objective (to achieve a more responsible and accountable business community) as well as some of the key areas they address, namely in the human rights space.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the Union criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the Union criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

As noted above, the Fund considered principal adverse impacts on sustainability factors, primarily through a set of exclusion criteria corresponding to the indicators that are defined in Table 1, Annex I of the RTS.

The below table shows the PAI scores for the fund, the data is representative of the reference period.

Adverse sustainability indicator	PAI	Data	Metric
Greenhouse gas emissions	1.GHG Emissions	1,309.83 1,140.62 24,164.64 26,615.08	Scope 1 fund financed emissions (Tonnes of CO2 equivalent) Scope 2 fund financed emissions (Tonnes of CO2 equivalent) Scope 3 fund financed emissions (Tonnes of CO2 equivalent) Total Financed emissions (Scope 1 + Scope 2 + Scope 3) (Tonnes of CO2 equivalent)
	2. Carbon footprint	50.07	Fund level Carbon footprint (Scope 1 + Scope 2 + Scope 3) (Per Million EUR Invested)
	3. GHG Intensity of investee companies	290.24	Fund level Total Emission Intensity- Scope 1+2+3 (Per Million EUR Revenue)
	4. Exposure to companies active in the fossil fuel sector	0.00	% of the fund exposed to any fossil fuels revenue
	5. Share of non-renewable energy consumption	38.17	Adjusted Weighted Average of all issuers in the fund's share of non-renewable energy consumption and non-renewable energy production of investee companies from non-renewable energy sources compared to renewable energy sources, expressed as a percentage of total energy sources (%)
	5. Share of non-renewable energy production	8.04	
	6. Energy consumption intensity per high impact climate sector		Adjusted weighted average energy consumption of issuers in the fund in GWh per million EUR of revenue of investee companies, per high impact climate sector
	Agriculture, Forestry & Fishing	0.00	
	Construction	0.00	
	Electricity, Gas, Steam & Air Conditioning Supply	0.43	
	Manufacturing	0.09	
	Mining & Quarrying	0.00	
	Real Estate Activities	0.00	
	Transportation & Storage	1.64	
	Water Supply, Sewerage, Waste Management & Remediation Activities	0.00	
	Wholesale & Retail Trade & Repair of Motor Vehicles & Motorcycles	0.04	
Biodiversity	7. Activites negatively affecting biodiversity-sensitive areas	2.81	Share of investments in the fund of investee companies with sites/operations located in or near to biodiversity-sensitive areas where activities of those investee companies negatively affect those areas
Water	8. Emissions to water	0.00	Adjusted weighted average per issuer in the fund's emissions to water generated by investee companies per million EUR invested (Tonnes)
Waste	9. Hazardous waste and radioactive waste ratio	0.05	Tonnes of hazardous waste and radioactive waste generated by investee companies per million EUR invested, expressed as a weighted average

Social and employee matters	10. Violations fo UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises	0.00	Share of investments in investee companies that have been involved in violations of the UNGC principles or OECD Guidelines for Multinational Enterprises
	11. Lack of proceses and compliance mechanisms to monitor compliance with UN Global Compact principles and OECD Guidelines for Multinational Enterprises	61.78	Share of investments in investee companies without policies to monitor compliance with the UNGC principles or OECD Guidelines for Multinational Enterprises or grievance/ complaints handling mechanisms to address violations of the UNGC principles or OECD Guidelines for Multinational Enterprises
	12. Unadjusted gender pay gap	16.76	Weighted Average of all issuers' in the portfolio unadjusted gender pay gap of investee companies
	13. Board gender diversity	32.95	Waited Average of all issuers in the portfolio ratio of female to male board members in investee companies, expressed as a percentage of all board members
	14. Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons)	0.00	Share of investments in investee companies involved in the manufacture or selling of controversial weapons
Optional Indicators	Optional Indicator: 4. Investments in companies without carbon emission reduction initiative	35.50	Share of investments in investee companies without carbon emission reduction initiatives aimed at aligning with the Paris Agreement
	Optional Indicator: 9. Lack of a human rights policy	6.73	Share of investments in entities without a human rights policy

In addition, as part of the Fund's consideration of principal adverse impacts on sustainability factors, the ESG team monitored the investments against PAI indicators. Invesco conducted research into certain issuers in the Fund's portfolio that were deemed to flag against PAI indicators, in order to determine whether any engagement activity was required in accordance with the engagement policy.

What were the top investments of this financial product?

Large Investments	Sector	% Assets	Country
APPLE INC	Information Technology	12.75%	United States
MICROSOFT CORP	Information Technology	12.59%	United States
NVIDIA CORP	Information Technology	6.90%	United States
AMAZON.COM INC	Consumer Discretionary	2.94%	United States
BROADCOM INC	Information Technology	2.82%	United States
TESLA INC	Consumer Discretionary	2.81%	United States
ALPHABET INC-A	Communication Services	2.75%	United States
ALPHABET INC-C	Communication Services	2.73%	United States
ADOBE INC	Information Technology	2.53%	United States
CISCO SYSTEMS	Information Technology	2.43%	United States

What was the proportion of sustainability-related investments?

See below field

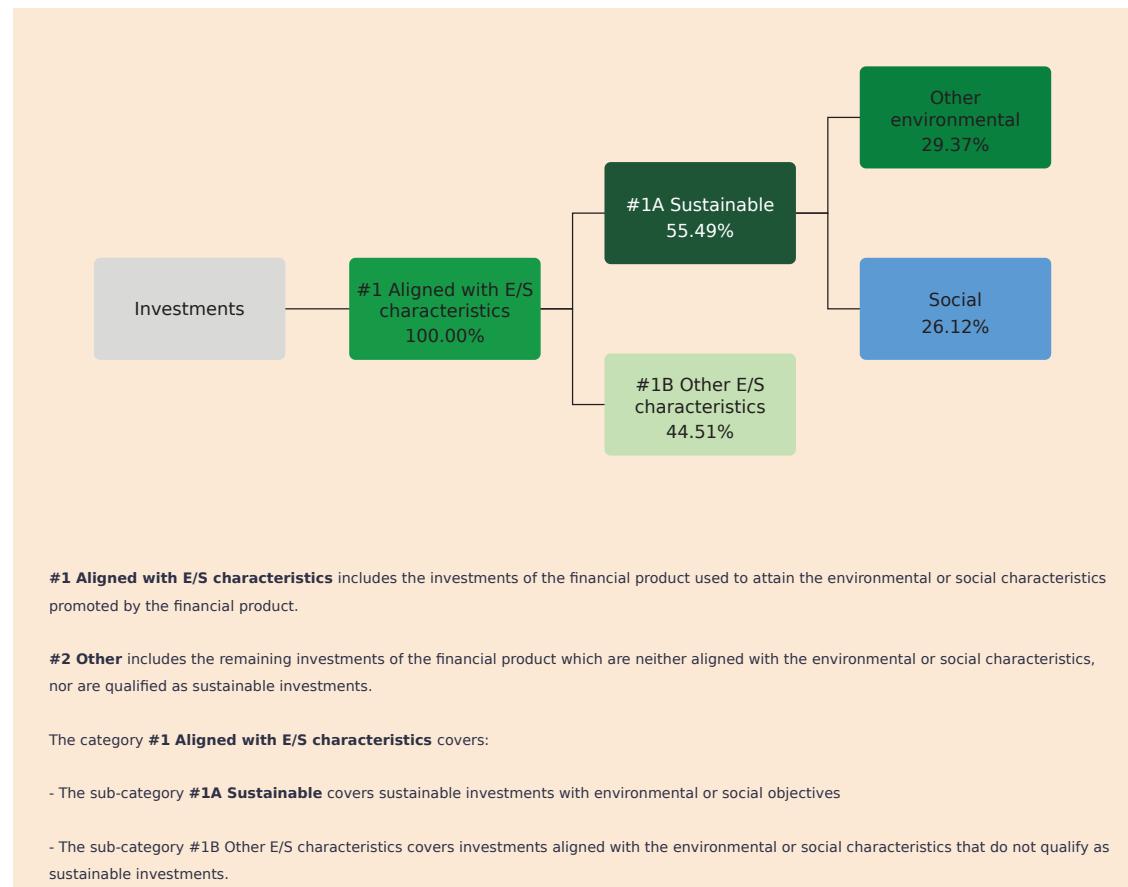

Asset allocation describes the share of investments in specific assets.

What was the asset allocation?

100.00% of the Fund's NAV was invested in investments that aligned with the environmental and social characteristics of the Fund.

0.0% of the Fund's NAV was invested in financial derivative instruments for hedging and/or efficient portfolio management purposes; or was held as cash for ancillary liquidity purposes.

55.49% of the Fund's NAV was invested in sustainable investments.

● In which economic sectors were the investments made?

10102030	Oil & Gas Refining & Marketing	0.00
10102040	Oil & Gas Storage & Transportation	0.00
10102050	Coal & Consumable Fuels	0.00
Total		0.00

Although the Fund has exclusions around fossil fuel extraction, there may still have been exposure to fossil fuels as represented in part by exposure to the energy sector as disclosed above.

To comply with the EU Taxonomy, the criteria for fossil gas include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For nuclear energy, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

0% of the Fund's portfolio was aligned with the EU Taxonomy.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

Yes

In fossil gas In nuclear energy

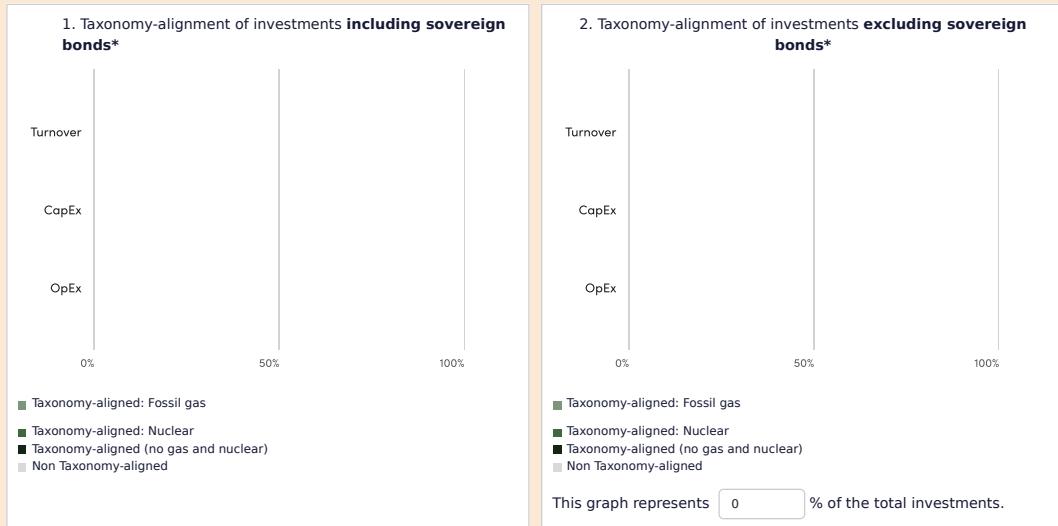

No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Taxonomy-aligned activities are expressed as a share of:

- turnover reflecting the share of revenue from green activities of investee companies.
- capital expenditure (CapEx) shows the green investments made by investee companies, relevant for a transition to a green economy.
- operational expenditure (OpEx) reflects the green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

*For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

● What was the share of investments made in transitional and enabling activities?

Not Applicable.

● How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

Not Applicable.

are sustainable investments with an environmental objective that do not take into account the criteria for environmentally sustainable economic activities under the EU Taxonomy.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

As the Fund does not currently intend to be EU Taxonomy aligned, 29.37% of the Fund's NAV was invested in sustainable investments with an environmental objective that was not aligned with the EU Taxonomy. Currently the Fund does not intend to be aligned with the Taxonomy Regulation and the Manager intends to keep the Fund's position in relation to the Taxonomy Regulation under consideration along with the reliability of datasets to determine Taxonomy alignment. To the extent required, the Manager will amend the pre-contractual documentation accordingly.

What was the share of socially sustainable investments?

26.12% of the Fund's NAV.

What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

Investments included under this category are financial derivative instruments for hedging and/or efficient portfolio management purposes and/or for investment purposes and cash for ancillary liquidity. No minimum environmental or social safeguards are applied in relation to these instruments.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Fund achieved the environmental and social characteristics by applying the ESG policy.

Please refer to the section "How did the sustainability indicators perform" above for further information.

How did this financial product perform compared to the reference benchmark?

See tables completed in below sections.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

● How does the reference benchmark differ from a broad market index?

The Reference Index differs from a broad market index because it seeks to increase overall exposure to companies demonstrating both a robust ESG profile and companies with a lower ESG risk rating relative to a broad market index.

● How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

As the Fund fully replicates the performance of the Reference Index, the sustainability indicators performed similarly for the Fund and Reference Index:

Sustainability Indicator	Fund Indicator Performance	Reference Index Indicator Performance
Sustainalytics Risk Rating (as defined in the methodology of the Reference Index)	18.56	18.56
CO2 emissions intensity	25.6	25.6
Percentage of exposure in excluded companies involved in controversial business activities and controversies (as rebalance date defined in the methodology of the Reference Index)	The Fund had 0% exposure to excluded companies at each Reference Index rebalance date	The Reference Index had 0% exposure to excluded companies at each Reference Index rebalance date

● How did this financial product perform compared with the reference benchmark?

As Fund achieves the environmental and social characteristics by tracking the Reference Index, which has a methodology that is consistent with attaining the environmental and social characteristics promoted by the Fund, the performance of the Fund is aligned with that of the Reference Benchmark. Please see above for the performance of the sustainability indicators compared with the Reference Benchmark.

● How did this financial product perform compared with the broad market index?

The Parent Index also acts as a relevant broad market index. The sustainability indicators for the Fund and Parent Index differed as below:

Sustainability Indicator	Fund Indicator Performance	Broad Market benchmark (Parent Index) Indicator Performance
Sustainalytics Risk Rating (as defined in the methodology of the Reference Index)	18.56	20.27
CO2 emissions intensity	25.6	43.0
Percentage of the Fund portfolio invested in excluded companies involved in controversial business activities and controversies (as defined in the methodology of the Reference Index)	The Reference Index had 0% exposure to excluded companies at each Reference Index rebalance date	The Broad Market benchmark had 3.1% exposure to excluded companies at the latest Reference Index rebalance date

Product name: Invesco MSCI Europe ESG Climate Paris Aligned UCITS ETF **Legal entity identifier:** 549300DO2A2ZT6S92H22

Environmental and/or social characteristics

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The EU Taxonomy is a classification system laid down in Regulation (EU) 2020/852, establishing a list of environmentally sustainable economic activities. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

<p>Did this financial product have a sustainable investment objective?</p> <p><input checked="" type="radio"/> Yes <input type="radio"/> No</p> <p><input type="checkbox"/> It made sustainable investments with an environmental objective: _____ %</p> <p><input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy</p> <p><input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy</p> <p><input type="checkbox"/> It made sustainable investments with a social objective: _____ %</p>	<p><input type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of <u>98.39</u> % of sustainable investments</p> <p><input checked="" type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy</p> <p><input checked="" type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy</p> <p><input type="checkbox"/> with a social objective</p> <p><input type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments</p>
--	---

To what extent were the environmental and/or social characteristics promoted by this financial product met?

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

The environmental and/or social characteristics of the Fund were to reduce exposure to transition and physical climate risks whilst pursuing opportunities arising from the transition to a lower carbon economy and aligning with the Paris Agreement requirements. The Fund achieved the environmental and/or social characteristics by tracking the MSCI Europe ESG Climate Paris Aligned Benchmark Select Index (the "Reference Index"), which has a methodology that is consistent with attaining the environmental and social characteristics promoted by the Fund.

The Reference Index qualifies as an EU Paris-aligned Benchmark under Title III, Chapter 3a, of Regulation (EU) 2016/1011.

The extent to which the Fund tracked the Reference Index is reflected by the tracking error figures available in the section "Tracking Error Analysis" of the Annual Report.

How did the sustainability indicators perform?

The Fund used a variety of indicators to measure the attainment of the environmental and social characteristics. The Fund performed as at 31st of December 2023. The data is representative of the reference period.

Sustainability Indicator	Indicator Performance
MSCI ESG Score (as defined in the methodology of the Reference Index) of the fund relative to the MSCI Europe Index (the "Parent Index")	7.1% improvement
CO2 emissions intensity of the Fund relative to the Parent Index	67.0% reduction
Percentage of the Fund portfolio invested in excluded companies involved in controversial business activities and controversies (as defined in the methodology of the Reference Index)	As at each Reference Index rebalance date, the Fund had 0% exposure to excluded companies

● ***...and compared to previous periods?***

Compared to last period the improvement in MSCI ESG Score for the Fund relative to the parent index was slightly lower. The reduction in CO2 emissions intensity has improved, though this is partly due to the incorporation of Scope 3 emissions into this calculation. The Fund continues to avoid companies excluded by the Reference Index.

● ***What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?***

The sustainable investments contributed to the objective of reducing carbon emissions in alignment with the Paris Agreement requirements.

The sustainable investments contributed to the objective as they were selected based on the criteria of the Reference Index, which is constructed to meet the minimum requirements of an EU Paris-Aligned Benchmark in accordance with the Delegated Regulation (EU) 2020/1818 for the methodology of benchmark indices that would be aligned with the objectives of the Paris Agreement.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

● ***How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?***

The index methodology of the Reference Index that the Fund tracks takes into account principal adverse impacts (PAI) indicators defined in Table 1 of Annex I of the regulatory technical standards for Regulation 2019/2088 (RTS). Securities that didn't meet certain PAI thresholds were excluded from the Reference Index or had their weightings reduced.

How were the indicators for adverse impacts on sustainability factors taken into account?

Please see above on how the indicators for adverse impacts on sustainability factors have been taken into account.

The Reference Index reduced exposure to greenhouse gas emissions by specifying a minimum reduction in relation to the Parent Index, as well as a minimum year on year reduction from a given base date. Additionally, the index methodology directly excluded a number of companies involved in certain business activities, and through the removal of companies involved in thermal coal and the oil & gas industry the Reference Index further reduced its exposure to greenhouse gas emissions. The methodology also excluded companies involved in controversial weapons and those facing severe, or very severe ESG controversies, as assessed via MSCI Controversy Scores. Through its exclusions based on MSCI ESG Score the Reference Index also addressed a number of other adverse indicators. The Reference Index also excluded any companies where data wasn't available to make such assessments.

MSCI ESG Scores consider a number of key issues in their construction, including, but not limited to; carbon emissions, product carbon footprint, biodiversity & land use, toxic emissions & waste, opportunities in renewable energy. The scores also take into account areas such as human capital as

well as corporate governance, considering ownership & control, pay and the board.

MSCI Controversy Scores consider controversies in a number of different areas, including, but not limited to, biodiversity & land use, energy & climate change, toxic emissions & waste, operational waste, discrimination & workforce diversity, and governance structures. Any company that violates the UN Global Compact receives a very severe MSCI Controversy Score.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Alignment with the OECD Guidelines for Multinational Enterprises (the "OECD Guidelines") and the UN Guiding Principles on Business and Human Rights (the "UN Guiding Principle") is captured in the index methodology of the Fund, with the result that securities were excluded from the investible universe if they were deemed not to be in alignment.

The index methodology excluded companies that weren't compliant with the UN Global Compact (the UNGC"), this set of ten principles show significant overlap with both the OECD Guidelines and the UN Guiding Principles. With regards to OECD Guidelines, these guidelines and the UNGC both aim to promote corporate responsibility and sustainable business practices, in terms of specific topics, they both cover the areas of human rights, employment relations, environment and anti-corruption. As for the two UN frameworks, whilst they do vary in nature, scope and depth, the two come together in their overriding objective (to achieve a more responsible and accountable business community) as well as some of the key areas they address, namely in the human rights space.

The index methodology excluded companies facing very severe ESG controversies, as assessed via MSCI Controversy Scores. These scores assess controversies that may constitute a breach of selected global norms and conventions, including the UNGC, the International Labour Organisation's conventions, and the United Nations Guiding Principles on Business and Human Rights.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the Union criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the Union criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

As noted above, the index methodology considered principal adverse impacts on sustainability factors, primarily through a set of exclusion criteria corresponding to the indicators that are defined in Table 1, Annex I of the RTS.

The below table shows the PAI scores for the fund, as the data is representative of the reference period.

Adverse sustainability indicator	PAI	Data	Metric
Greenhouse gas emissions	1.GHG Emissions	188.19	Scope 1 fund financed emissions (Tonnes of CO2 equivalent)
		248.12	Scope 2 fund financed emissions (Tonnes of CO2 equivalent)
		10,794.73	Scope 3 fund financed emissions (Tonnes of CO2 equivalent)
		11,231.04	Total Financed emissions (Scope 1 + Scope 2 + Scope 3) (Tonnes of CO2 equivalent)
	2. Carbon footprint	310.65	Fund level Carbon footprint (Scope 1 + Scope 2 + Scope 3) (Per Million EUR Invested)
	3. GHG Intensity of investee companies	696.16	Fund level Total Emission Intensity- Scope 1+2+3 (Per Million EUR Revenue)
	4. Exposure to companies active in the fossil fuel sector	0.00	% of the fund exposed to any fossil fuels revenue
	5. Share of non-renewable energy consumption	55.55	Adjusted Weighted Average of all issuers in the fund's share of non-renewable energy consumption and non-renewable energy production of investee companies from non-renewable energy sources compared to renewable energy sources, expressed as a percentage of total energy sources (%)
	5. Share of non-renewable energy production	20.58	
	6. Energy consumption intensity per high impact climate sector		Adjusted weighted average energy consumption of issuers in the fund in GWh per million EUR of revenue of investee companies, per high impact climate sector
	Agriculture, Forestry & Fishing	3.00	
	Construction	0.05	
	Electricity, Gas, Steam & Air Conditioning Supply	0.19	
	Manufacturing	0.20	
	Mining & Quarrying	1.05	
	Real Estate Activities	0.38	
	Transportation & Storage	0.30	
	Water Supply, Sewerage, Waste Management & Remediation Activities	0.00	
	Wholesale & Retail Trade & Repair of Motor Vehicles & Motorcycles	0.09	
Biodiversity	7. Activites negatively affecting biodiversity-sensitive areas	1.43	Share of investments in the fund of investee companies with sites/operations located in or near to biodiversity-sensitive areas where activities of those investee companies negatively affect those areas
Water	8. Emissions to water	0.10	Adjusted weighted average per issuer in the fund's emissions to water generated by investee companies

			per million EUR invested (Tonnes)
Waste	9. Hazardous waste and radioactive waste ratio	0.62	Tonnes of hazardous waste and radioactive waste generated by investee companies per million EUR invested, expressed as a weighted average
Social and employee matters	10. Violations fo UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises	0.00	Share of investments in investee companies that have been involved in violations of the UNGC principles or OECD Guidelines for Multinational Enterprises
	11. Lack of proceses and compliance mechanisms to monitor compliance with UN Global Compact principles and OECD Guidelines for Multinational Enterprises	33.34	Share of investments in investee companies without policies to monitor compliance with the UNGC principles or OECD Guidelines for Multinational Enterprises or grievance/ complaints handling mechanisms to address violations of the UNGC principles or OECD Guidelines for Multinational Enterprises
	12. Unadjusted gender pay gap	18.25	Weighted Average of all issuers' in the portfolio unadjusted gender pay gap of investee companies
	13. Board gender diversity	40.14	Waited Average of all issuers in the portfolio ratio of female to male board members in investee companies, expressed as a percentage of all board members
	14. Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons)	0.00	Share of investments in investee companies involved in the manufacture or selling of controversial weapons
Optional Indicators	Optional Indicator: 4. Investments in companies without carbon emission reduction initiative	22.32	Share of investments in investee companies without carbon emission reduction initiatives aimed at aligning with the Paris Agreement
	Optional Indicator: 9. Lack of a human rights policy	1.84	Share of investments in entities without a human rights policy

In addition, as part of the Fund's consideration of principal adverse impacts on sustainability factors, the ESG team monitored the investments against PAI indicators. Invesco conducted research into certain issuers in the Fund's portfolio that were deemed to flag against PAI indicators, in order to determine whether any engagement activity was required in accordance with the engagement policy.

What were the top investments of this financial product?

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is: From 1st of January 2023 to 31st of December 2023. The data is representative of the reference period.

Large Investments	Sector	% Assets	Country
ASML HOLDING NV	Information Technology	3.25%	Netherlands
NOVARTIS AG-REG	Health Care	2.31%	Switzerland
COM	Health Care	1.98%	Denmark
NOVO NORDISK-B	Health Care	1.76%	Denmark
TERNA-RETE ELETT	Utilities	1.69%	Italy
ASTRAZENECA PLC	Health Care	1.69%	United Kingdom
SAP SE	Information Technology	1.66%	Germany
GEBERIT AG-REG	Industrials	1.65%	Switzerland
RELX PLC	Industrials	1.51%	United Kingdom
HERMES INTL	Consumer Discretionary	1.34%	France
ZURICH INSURANCE	Financials	1.29%	Switzerland
REDEIA CORP	Utilities	1.25%	Spain
LEGRAND SA	Industrials	1.22%	France
AKZA NA COM	Materials	1.18%	Netherlands
SWISSCOM AG-REG	Communication Services	1.15%	Switzerland

What was the proportion of sustainability-related investments?

See below field

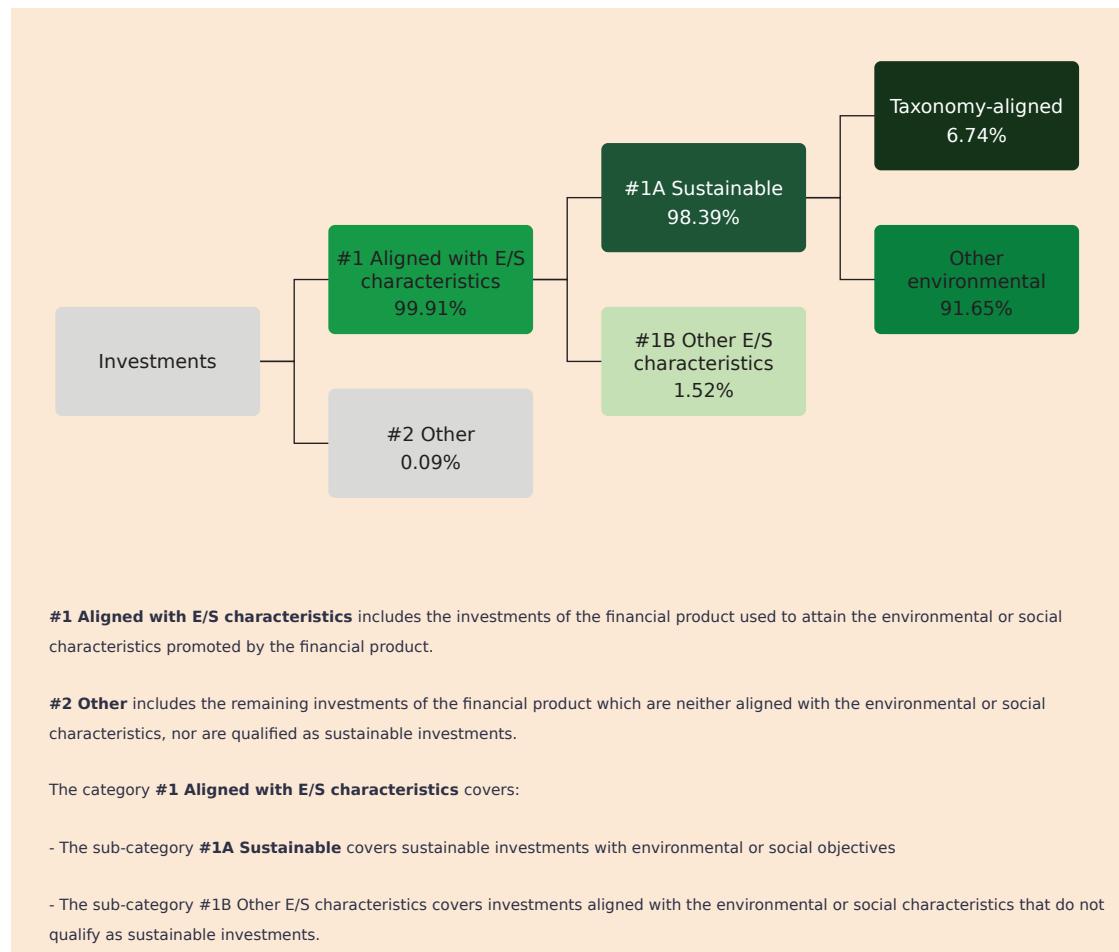

Asset allocation describes the share of investments in specific assets.

● What was the asset allocation?

99.91% of the Fund's NAV was invested in investments that aligned with the environmental and social characteristics of the Fund.

0.09% of the Fund's NAV was invested in financial derivative instruments for hedging and/or efficient portfolio management purposes; or was held as cash for ancillary liquidity purposes.

98.39% of the Fund's NAV was invested in sustainable investments.

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2 Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category **#1 Aligned with E/S characteristics** covers:

- The sub-category **#1A Sustainable** covers sustainable investments with environmental or social objectives
- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

● In which economic sectors were the investments made?

GICS Sector Breakdown as the data is representative of the reference period.

Sector (GICS)	Weight %
Financials	17.06
Communication Services	3.21
Consumer Discretionary	9.88
Information Technology	9.70
Industrials	19.30
Consumer Staples	7.77
Energy	0.00
Real Estate	3.91
Health Care	15.79
Materials	7.55
Utilities	5.74
Cash	0.09
Total	100.00

GICS Level 4 breakdown for Energy Sector

Sub-Industry Code	Sub-Industry Name	Weight
10101010	Oil & Gas Drilling	0.00
10101020	Oil & Gas Equipment & Services	0.00
10102010	Integrated Oil & Gas	0.00
10102020	Oil & Gas Exploration & Production	0.00
10102030	Oil & Gas Refining & Marketing	0.00
10102040	Oil & Gas Storage & Transportation	0.00
10102050	Coal & Consumable Fuels	0.00
Total		0.00

To comply with the EU Taxonomy, the criteria for fossil gas include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For nuclear energy, the criteria include comprehensive safety and waste management rules.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

Although the Fund does not commit to a minimum of sustainable investments aligned with the EU Taxonomy the extent to which the Fund as a whole was aligned with the EU Taxonomy was calculated for the reference period. 6.74% (Turnover) of the Fund's portfolio was aligned with the EU Taxonomy. The figures are representative of the reference period.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are

activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- turnover reflecting the share of revenue from green activities of investee companies.
- capital expenditure (CapEx) shows the green investments made by investee companies, relevant for a transition to a green economy.
- operational expenditure (OpEx) reflects the green operational activities of investee companies.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

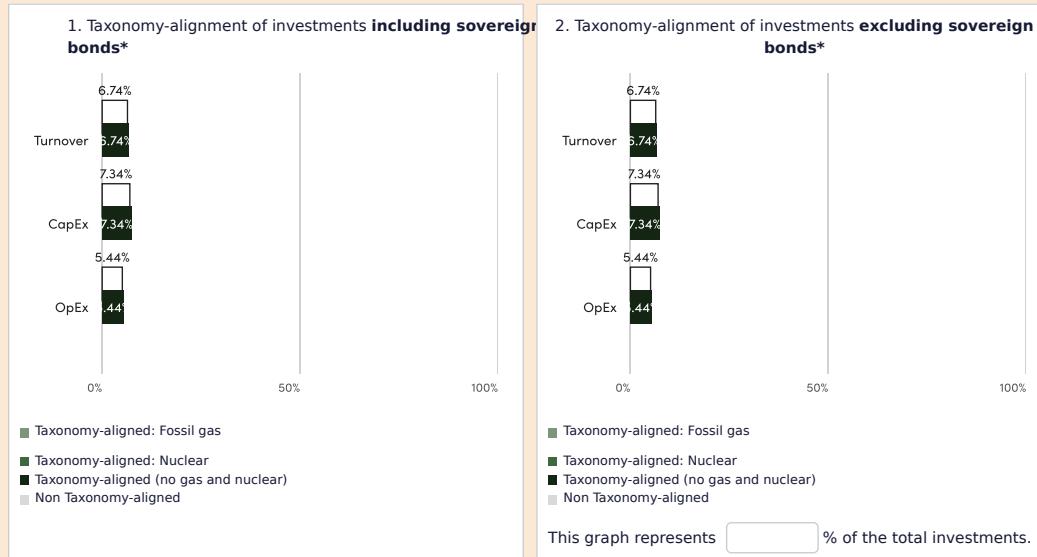

Yes

In fossil gas

In nuclear energy

No

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

*For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

What was the share of investments made in transitional and enabling activities?

N/A

How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

The percentage of investments that were aligned with the EU Taxonomy increased compared to the previous reference period.

are sustainable investments with an environmental objective that do not take into account the criteria for environmentally sustainable economic activities under the EU Taxonomy.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

As the Fund does not currently intend to be EU Taxonomy aligned, 91.65% of the Fund's NAV was invested in sustainable investments with an environmental objective that was not aligned with the EU Taxonomy. Currently the Fund does not intend to be aligned with the Taxonomy Regulation and the Manager intends to keep the Fund's position in relation to the Taxonomy Regulation under consideration along with the reliability of datasets to determine Taxonomy alignment. To the extent required, the Manager will amend the pre-contractual documentation accordingly.

What was the share of socially sustainable investments?

N/A

What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Investments included under this category are financial derivative instruments for hedging and/or efficient portfolio management purposes and cash for ancillary liquidity. No minimum environmental or social safeguards are applied in relation to these instruments.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Fund achieved the environmental and social characteristics by tracking the Reference Index, which has a methodology that is consistent with attaining the environmental and social characteristics promoted by the Fund.

Please refer to the section "How did the sustainability indicators perform" above for further information.

How did this financial product perform compared to the reference benchmark?

See tables completed in below sections.

Reference benchmarks
are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

How does the reference benchmark differ from a broad market index?

The Reference Index differs from a broad market index because it comprises only companies with high ESG scores and incorporates the TCFD (Task Force on Climate Related Financial Disclosures) recommendations and is designed to exceed the minimum standards of the EU Paris-Aligned Benchmark.

How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

As the Fund fully replicates the performance of the Reference Index, the sustainability indicators performed similarly for the Fund and Reference Index:

Sustainability Indicator	Fund Indicator Performance	Reference Index Indicator Performance
MSCI ESG Score (as defined in the methodology of the Reference Index)	8.44	8.44
CO2 emissions intensity	189.7	189.7
Percentage of exposure in excluded companies involved in controversial business activities and controversies (as defined in the methodology of the Reference Index)	The Fund had 0% exposure to excluded companies at each Reference Index rebalance date	The Reference Index had 0% exposure to excluded companies at each Reference Index rebalance date

How did this financial product perform compared with the reference benchmark?

As the Fund achieves the environmental and social characteristics by tracking the Reference Index, which has a methodology that is consistent with attaining the environmental and social characteristics promoted by the Fund, the performance of the Fund is aligned with that of the Reference Benchmark. Please see above for the performance of the sustainability indicators compared with the Reference Benchmark.

How did this financial product perform compared with the broad market index?

The Parent Index also acts as a relevant broad market index. The sustainability indicators for the Fund and Parent Index differed as below:

Sustainability Indicator	Reference Index Indicator Performance	Broad Market benchmark (Parent Index) Indicator Performance
MSCI ESG Score (as defined in the methodology of the Reference Index)	8.44	7.88
CO2 emissions intensity	189.7	574.9
Percentage of the fund portfolio invested in excluded companies involved in controversial business activities and controversies (as defined in the methodology of the Reference Index)	The Reference Index had 0% exposure to excluded companies at each Reference Index rebalance date	The Broad Market benchmark had 57.4% exposure to excluded companies at the latest Reference Index rebalance date

Annex

Product name: Invesco MSCI USA ESG Climate Paris Aligned UCITS ETF

Legal entity identifier:
549300R7QHZBWJYX2D55

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

Yes

No

It made **sustainable investments with an environmental objective:** _____ %

- in economic activities that qualify as environmentally sustainable under the EU Taxonomy
- in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

It made **sustainable investments with a social objective:** _____ %

It promoted **Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of 99.78 % of sustainable investments

- with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
- with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
- with a social objective

It promoted E/S characteristics, but **did not make any sustainable investments**

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The environmental and/or social characteristics of the Fund were to reduce exposure to transition and physical climate risks whilst pursuing opportunities arising from the transition to a lower carbon economy and aligning with the Paris Agreement requirements. The Fund achieved the environmental and/or social characteristics by tracking the MSCI USA ESG Climate Paris Aligned Benchmark Select Index (the "Reference Index"), which has a methodology that is consistent with attaining the environmental and social characteristics promoted by the Fund.

The Reference Index qualifies as an EU Paris-aligned Benchmark under Title III, Chapter 3a, of Regulation (EU) 2016/1011.

The extent to which the Fund tracked the Reference Index is reflected by the tracking error figures available in the section "Tracking Error Analysis" of the Annual Report.

How did the sustainability indicators perform?

The Fund used a variety of indicators to measure the attainment of the environmental and social characteristics. The Fund performed as at 31st of December 2023. The data is representative of the

reference period.

Sustainability Indicator	Indicator Performance
MSCI ESG Score (as defined in the methodology of the Reference Index) of the Fund relative to the MSCI USA Index (the "Parent Index")	12.2% improvement
CO2 emissions intensity of the Fund relative to the Index Parent	71.0% reduction
Percentage of the Fund portfolio invested in excluded companies involved in controversial business activities and controversies (as defined in the methodology of the Reference Index)	As at each Reference Index rebalance date, the Fund had 0% exposure to excluded companies

● ***...and compared to previous periods?***

Compared to last period the improvement in MSCI ESG Score for the Fund relative to the parent index was slightly lower. The reduction in CO2 emissions intensity has improved, though this is partly due to the incorporation of Scope 3 emissions into this calculation. The Fund continues to avoid companies excluded by the Reference Index.

● ***What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?***

The sustainable investments contributed to the objective of reducing carbon emissions in alignment with the Paris Agreement requirements.

The sustainable investments contributed to the objective as they were selected based on the criteria of the Reference Index, which is constructed to meet the minimum requirements of an EU Paris-Aligned Benchmark in accordance with the Delegated Regulation (EU) 2020/1818 for the methodology of benchmark indices that would be aligned with the objectives of the Paris Agreement.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

● ***How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?***

The index methodology of the Reference Index that the Fund tracks takes into account principal adverse impacts (PAI) indicators defined in Table 1 of Annex I of the regulatory technical standards for Regulation 2019/2088 (RTS). Securities that didn't meet certain PAI thresholds were excluded from the Reference Index or had their weightings reduced.

How were the indicators for adverse impacts on sustainability factors taken into account?

Please see above on how the indicators for adverse impacts on sustainability factors have been taken into account.

The Reference Index reduced exposure to greenhouse gas emissions by specifying a minimum reduction in relation to the Parent Index, as well as a minimum year on year reduction from a given base date. Additionally, the index methodology directly excluded a number of companies involved in certain business activities, and through the removal of companies involved in thermal coal and the oil & gas industry the Reference Index further reduced its exposure to greenhouse gas emissions. The methodology also excluded companies involved in controversial weapons and those facing severe, or very severe ESG controversies, as assessed via MSCI Controversy Scores. Through its exclusions based on MSCI ESG Score the Reference Index also addressed a number of other adverse indicators. The Reference Index also excluded any companies where data wasn't available to make such assessments.

MSCI ESG Scores consider a number of key issues in their construction, including, but not limited to; carbon emissions, product carbon footprint, biodiversity & land use, toxic emissions & waste, opportunities in renewable energy. The scores also take into account areas such as human capital as

well as corporate governance, considering ownership & control, pay and the board.

MSCI Controversy Scores consider controversies in a number of different areas, including, but not limited to, biodiversity & land use, energy & climate change, toxic emissions & waste, operational waste, discrimination & workforce diversity, and governance structures. Any company that violates the UN Global Compact receives a very severe MSCI Controversy Score.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Alignment with the OECD Guidelines for Multinational Enterprises (the "OECD Guidelines") and the UN Guiding Principles on Business and Human Rights (the "UN Guiding Principle") is captured in the index methodology of the Fund, with the result that securities were excluded from the investible universe if they were deemed not to be in alignment.

The index methodology excluded companies that weren't compliant with the UN Global Compact (the UNGC"), this set of ten principles show significant overlap with both the OECD Guidelines and the UN Guiding Principles. With regards to OECD Guidelines, these guidelines and the UNGC both aim to promote corporate responsibility and sustainable business practices, in terms of specific topics, they both cover the areas of human rights, employment relations, environment and anti-corruption. As for the two UN frameworks, whilst they do vary in nature, scope and depth, the two come together in their overriding objective (to achieve a more responsible and accountable business community) as well as some of the key areas they address, namely in the human rights space.

The index methodology excluded companies facing very severe ESG controversies, as assessed via MSCI Controversy Scores. These scores assess controversies that may constitute a breach of selected global norms and conventions, including the UNGC, the International Labour Organisation's conventions, and the United Nations Guiding Principles on Business and Human Rights.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the Union criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the Union criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

As noted above, the index methodology considered principal adverse impacts on sustainability factors, primarily through a set of exclusion criteria corresponding to the indicators that are defined in Table 1, Annex I of the RTS.

The below table shows the PAI scores for the fund- the data is representative of the reference period

Adverse sustainability indicator	PAI	Data	Metric
Greenouse gas emissions	1.GHG Emissions	737.13	Scope 1 fund financed emissions (Tonnes of CO2 equivalent)
		974.73	Scope 2 fund financed emissions (Tonnes of CO2 equivalent)
		45,440.98	Scope 3 fund financed emissions (Tonnes of CO2 equivalent)
		47,152.84	Total Financed emissions (Scope 1 + Scope 2 + Scope 3) (Tonnes of CO2 quivalent)
	2. Carbon footprint	155.06	Fund level Carbon footprint (Scope 1 + Scope 2 + Scope 3) (Per Million EUR Invested)
	3. GHG Intensity of investee companies	857.64	Fund level Total Emission Intensity- Scope 1+2+3 (Per Million EUR Revenue)
	4. Exposure to companies active in the fossil fuel sector	0.00	% of the fund exposed to any fossil fuels revenue
	5. Share of non-renewable energy consumption	62.23	Adjusted Weighted Average of all issuers in the fund's share of non-renewable energy consumption and non-renewable energy production of investee companies from non-renewable energy sources compared to renewable energy sources, expressed as a percentage of total energy sources (%)
	5. Share of non-renewable energy production	10.19	Adjusted weighted average energy consumption of issuers in the fund in GWh per million EUR of revenue of investee companies, per high impact climate sector
	6. Energy consumption intensity per high impact climate sector		
	Agriculture, Forestry & Fishing	0.00	
	Construction	0.23	
	Electricity, Gas, Steam & Air Conditioning Supply	0.00	
	Manufacturing	0.13	
	Mining & Quarrying	0.79	
	Real Estate Activities	0.91	
	Transportation & Storage	0.29	
	Water Supply, Sewerage, Waste Management & Remediation Activities	0.32	
	Wholesale & Retail Trade & Repair of Motor Vehicles & Motorcycles	0.05	
Biodiversity	7. Activites negatively affecting biodiversity-sensitive areas	0.00	Share of investments in the fund of investee companies with sites/operations located in or near to biodiversity-sensitive areas where activities of those investee companies negatively affect those areas

Water	8. Emissions to water	0.00	Adjusted weighted average per issuer in the fund's emissions to water generated by investee companies per million EUR invested (Tonnes)
Waste	9. Hazardous waste and radioactive waste ratio	2.72	Tonnes of hazardous waste and radioactive waste generated by investee companies per million EUR invested, expressed as a weighted average
Social and employee matters	10. Violations fo UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises	0.00	Share of investments in investee companies that have been involved in violations of the UNGC principles or OECD Guidelines for Multinational Enterprises
	11. Lack of proceses and compliance mechanisms to monitor compliance with UN Global Compact principles and OECD Guidelines for Multinational Enterprises	66.07	Share of investments in investee companies without policies to monitor compliance with the UNGC principles or OECD Guidelines for Multinational Enterprises or grievance/complaints handling mechanisms to address violations of the UNGC principles or OECD Guidelines for Multinational Enterprises
	12. Unadjusted gender pay gap	4.43	Weighted Average of all issuers' in the portfolio unadjusted gender pay gap of investee companies
	13. Board gender diversity	32.03	Waited Average of all issuers in the portfolio ratio of female to male board members in investee companies, expressed as a percentage of all board members
	14. Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons)	0.00	Share of investments in investee companies involved in the manufacture or selling of controversial weapons
Optional Indicators	Optional Indicator: 4. Investments in companies without carbon emission reduction initiative	44.62	Share of investments in investee companies without carbon emission reduction initiatives aimed at aligning with the Paris Agreement
	Optional Indicator: 9. Lack of a human rights policy	10.12	Share of investments in entities without a human rights policy

In addition, as part of the Fund's consideration of principal adverse impacts on sustainability factors, the ESG team monitored the investments against PAI indicators. Invesco conducted research into certain issuers in the Fund's portfolio that were deemed to flag against PAI indicators, in order to determine whether any engagement activity was required in accordance with the engagement policy.

What were the top investments of this financial product?

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is: from 1st of January 2023 to 31st of December 2023.

Large Investments	Sector	% Assets	Country
Microsoft Corp	Information Technology	6.10%	United States
NVIDIA CORP	Information Technology	3.96%	United States

SERVICENOW INC	Information Technology	1.30%	United States
BROADCOM INC	Information Technology	1.30%	United States

What was the proportion of sustainability-related investments?

See below field

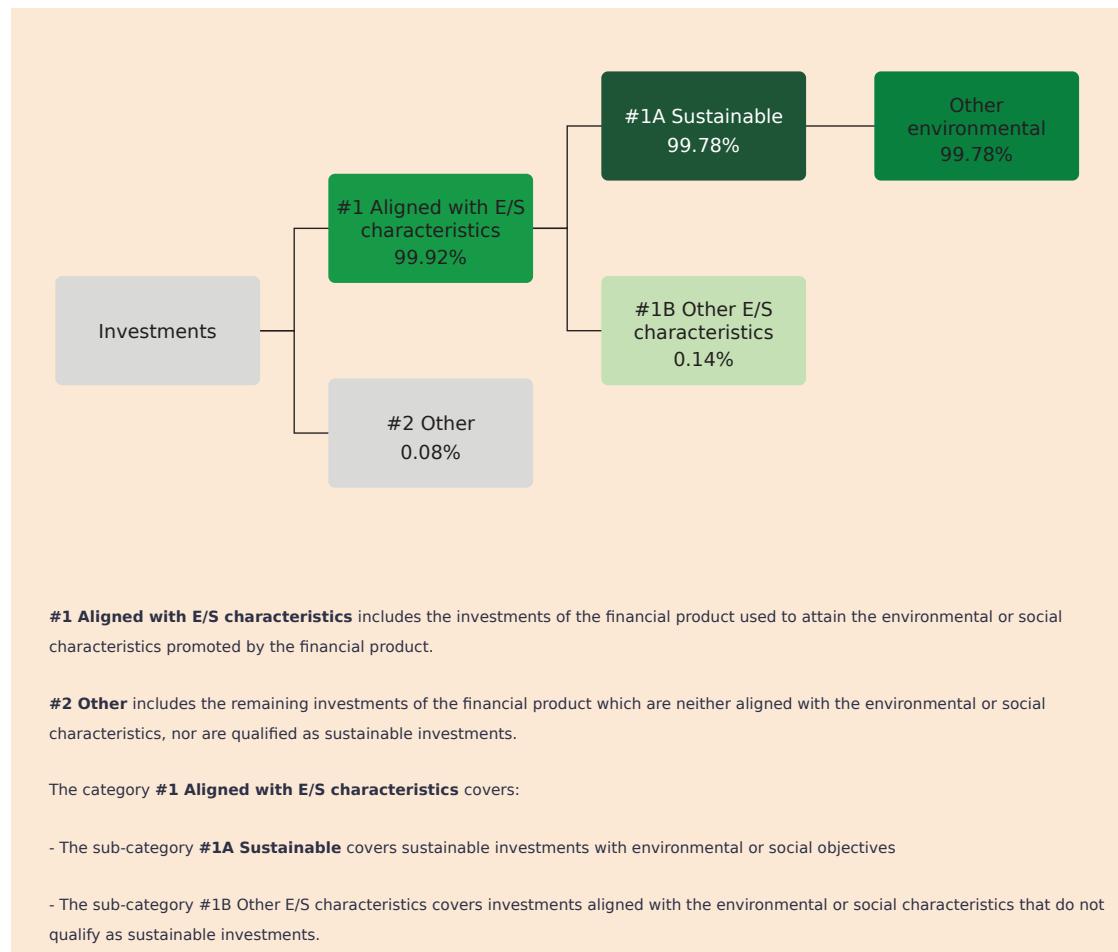

Asset allocation describes the share of investments in specific assets.

● What was the asset allocation?

99.92% of the Fund's NAV was invested in investments that aligned with the environmental and social characteristics of the Fund.

0.08% of the Fund's NAV was invested in financial derivative instruments for hedging and/or efficient portfolio management purposes; or was held as cash for ancillary liquidity purposes.

99.78% of the Fund's NAV was invested in sustainable investments.

● **In which economic sectors were the investments made?**

GICS Sector Breakdown - the data is representative of the reference period.

Sector (GICS)	Weight %
Financials	16.62
Communication Services	3.55
Consumer Discretionary	5.73
Information Technology	32.25
Industrials	13.25
Consumer Staples	2.95
Energy	0.00
Real Estate	7.45
Health Care	14.58
Materials	2.94
Utilities	0.60
Cash	0.08
Total	100.00

GICS Level 4 breakdown for Energy Sector

Sub-Industry Code	Sub-Industry Name	Weight
10101010	Oil & Gas Drilling	0.00
10101020	Oil & Gas Equipment & Services	0.00
10102010	Integrated Oil & Gas	0.00
10102020	Oil & Gas Exploration & Production	0.00
10102030	Oil & Gas Refining & Marketing	0.00
10102040	Oil & Gas Storage & Transportation	0.00
10102050	Coal & Consumable Fuels	0.00
Total		0.00

To comply with the EU Taxonomy, the criteria for fossil gas include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For nuclear energy, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

0% of the Fund's portfolio was aligned with the EU Taxonomy.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

Yes

In fossil gas

In nuclear energy

No

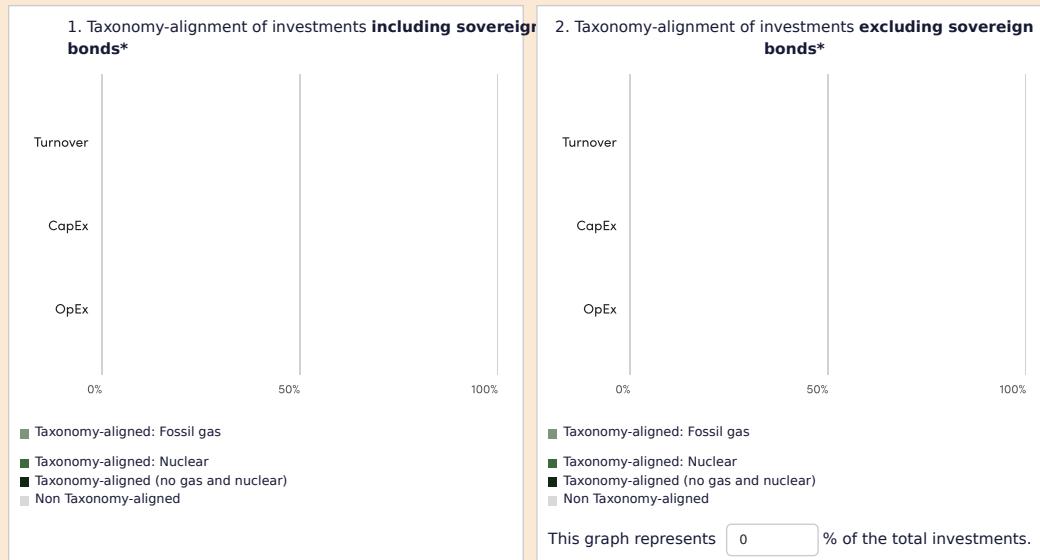

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- turnover reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) shows the green investments made by investee companies, relevant for a transition to a green economy.
- **operational expenditure** (OpEx) reflects the green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

*For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

● What was the share of investments made in transitional and enabling activities?

N/A

● How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

Not Applicable.

 are sustainable investments with an environmental objective that do not take into account the criteria for environmentally sustainable economic activities under the EU Taxonomy.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

As the Fund does not currently intend to be EU Taxonomy aligned, 99.78% of the Fund's NAV was invested in sustainable investments with an environmental objective that was not aligned with the EU Taxonomy. Currently the Fund does not intend to be aligned with the Taxonomy Regulation and the Manager intends to keep the Fund's position in relation to the Taxonomy Regulation under consideration along with the reliability of datasets to determine Taxonomy alignment. To the extent required, the Manager will amend the pre-contractual documentation accordingly.

What was the share of socially sustainable investments?

N/A

What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

Investments included under this category are financial derivative instruments for hedging and/or efficient portfolio management purposes and cash for ancillary liquidity. No minimum environmental or social safeguards are applied in relation to these instruments.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Fund achieved the environmental and social characteristics by tracking the Reference Index, which has a methodology that is consistent with attaining the environmental and social characteristics promoted by the Fund.

Please refer to the section "How did the sustainability indicators perform" above for further information.

How did this financial product perform compared to the reference benchmark?

See tables completed in below sections.

Reference benchmarks
are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

● How does the reference benchmark differ from a broad market index?

The Reference Index differs from a broad market index because it comprises only companies with high ESG scores and incorporates the TCFD (Task Force on Climate Related Financial Disclosures) recommendations and is designed to exceed the minimum standards of the EU Paris-Aligned Benchmark.

● How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

As the Fund fully replicates the performance of the Reference Index, the sustainability indicators performed similarly for the Fund and Reference Index:

Sustainability Indicator	Fund Indicator Performance	Reference Index Indicator Performance
MSCI ESG Score (as defined in the methodology of the Reference Index) relative to the Parent Index	7.42	7.42
CO2 emissions intensity	78.3	78.3
Percentage of exposure in excluded companies involved in controversial business activities and controversies (as defined in the methodology of the Reference Index)	The Fund had 0% exposure to excluded companies at each Reference Index rebalance date	The Reference Index had 0% exposure to excluded companies at each Reference Index rebalance date

● How did this financial product perform compared with the reference benchmark?

As the Fund achieves the environmental and social characteristics by tracking the Reference Index, which has a methodology that is consistent with attaining the environmental and social characteristics promoted by the Fund, the performance of the Fund is aligned with that of the Reference Index. Please see below for the performance of the sustainability indicators compared with the Reference Index. Please see above for the performance of the sustainability indicators compared with the Reference Benchmark.

● How did this financial product perform compared with the broad market index?

The Parent Index also acts as a relevant broad market index. The sustainability indicators for the Fund and Parent Index differed as below:

Sustainability Indicator	Reference Index Indicator Performance	Broad Market benchmark (Parent Index) Indicator Performance
MSCI ESG Score (as defined in the methodology of the Reference Index)	7.42	6.61
CO2 emissions intensity	78.3	269.7
Percentage of the Fund portfolio invested in excluded companies involved in controversial business activities and controversies (as defined in the methodology of the Reference Index)	The Reference Index had 0% exposure to excluded companies at each Reference Index rebalance date	The Broad Market benchmark had 63.1% exposure to excluded companies at the latest Reference Index rebalance date

Annex

Product name: Invesco MSCI Japan ESG Climate Paris Aligned UCITS ETF **Legal entity identifier:** 5493005TOQBBWPY66A96

Environmental and/or social characteristics

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The EU Taxonomy is a classification system laid down in Regulation (EU) 2020/852, establishing a list of environmentally sustainable economic activities. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

<p>Did this financial product have a sustainable investment objective?</p> <p><input checked="" type="radio"/> Yes <input type="radio"/> No</p> <p><input type="checkbox"/> It made sustainable investments with an environmental objective: _____ %</p> <p><input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy</p> <p><input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy</p> <p><input type="checkbox"/> It made sustainable investments with a social objective: _____ %</p>	<p><input type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of <u>99.03</u> % of sustainable investments</p> <p><input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy</p> <p><input checked="" type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy</p> <p><input type="checkbox"/> with a social objective</p> <p><input type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments</p>
--	--

To what extent were the environmental and/or social characteristics promoted by this financial product met?

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

The environmental and/or social characteristics of the Fund were to reduce exposure to transition and physical climate risks whilst pursuing opportunities arising from the transition to a lower carbon economy and aligning with the Paris Agreement requirements. The Fund achieved the environmental and/or social characteristics by tracking the MSCI Japan ESG Climate Paris Aligned Benchmark Select Index (the "Reference Index"), which has a methodology that is consistent with attaining the environmental and social characteristics promoted by the Fund.

The Reference Index qualifies as an EU Paris-aligned Benchmark under Title III, Chapter 3a, of Regulation (EU) 2016/1011.

The extent to which the Fund tracked the Reference Index is reflected by the tracking error figures available in the section "Tracking Error Analysis" of the Annual Report.

How did the sustainability indicators perform?

The Fund used a variety of indicators to measure the attainment of the environmental and social characteristics. The Fund performed as at 31st of December 2023. The data is representative of the reference period.

Sustainability Indicator	Indicator Performance
MSCI ESG Score (as defined in the methodology Of the Reference Index) of the Fund relative to the MSCI Japan Index (the "Parent Index")	3.7% improvement
CO2 emissions intensity of the Fund relative to the Parent Index	72.0% reduction
Percentage of the Fund portfolio invested in excluded companies involved in controversial business activities and controversies (as defined in the methodology of the Reference Index)	As at each Reference Index rebalance date, the Fund had 0% exposure to excluded companies

● ***...and compared to previous periods?***

Compared to last period the improvement in MSCI ESG Score for the Fund relative to the parent index has increased slightly. The reduction in CO2 emissions intensity has also improved, though this is partly due to the incorporation of Scope 3 emissions into this calculation. The Fund continues to avoid companies excluded by the Reference Index.

● ***What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?***

The sustainable investments contributed to the objective of reducing carbon emissions in alignment with the Paris Agreement requirements.

The sustainable investments contributed to the objective as they were selected based on the criteria of the Reference Index, which is constructed to meet the minimum requirements of an EU Paris-Aligned Benchmark in accordance with the Delegated Regulation (EU) 2020/1818 for the methodology of benchmark indices that would be aligned with the objectives of the Paris Agreement.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

● ***How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?***

The index methodology of the Reference Index that the Fund tracks takes into account principal adverse impacts (PAI) indicators defined in Table 1 of Annex I of the regulatory technical standards for Regulation 2019/2088 (RTS). Securities that didn't meet certain PAI thresholds were excluded from the Reference Index or had their weightings reduced.

How were the indicators for adverse impacts on sustainability factors taken into account?

Please see above on how the indicators for adverse impacts on sustainability factors have been taken into account.

The Reference Index reduced exposure to greenhouse gas emissions by specifying a minimum reduction in relation to the Parent Index, as well as a minimum year on year reduction from a given base date. Additionally, the index methodology directly excluded a number of companies involved in certain business activities, and through the removal of companies involved in thermal coal and the oil & gas industry the Reference Index further reduced its exposure to greenhouse gas emissions. The methodology also excluded companies involved in controversial weapons and those facing severe, or very severe ESG controversies, as assessed via MSCI Controversy Scores. Through its exclusions based on MSCI ESG Score the Reference Index also addressed a number of other adverse indicators. The Reference Index also excluded any companies where data wasn't available to make such assessments.

MSCI ESG Scores consider a number of key issues in their construction, including, but not limited to; carbon emissions, product carbon footprint, biodiversity & land use, toxic emissions & waste, opportunities in renewable energy. The scores also take into account areas such as human capital as

well as corporate governance, considering ownership & control, pay and the board.

MSCI Controversy Scores consider controversies in a number of different areas, including, but not limited to, biodiversity & land use, energy & climate change, toxic emissions & waste, operational waste, discrimination & workforce diversity, and governance structures. Any company that violates the UN Global Compact receives a very severe MSCI Controversy Score.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Alignment with the OECD Guidelines for Multinational Enterprises (the "OECD Guidelines") and the UN Guiding Principles on Business and Human Rights (the "UN Guiding Principle") is captured in the index methodology of the Fund, with the result that securities were excluded from the investible universe if they were deemed not to be in alignment.

The index methodology excluded companies that weren't compliant with the UN Global Compact (the UNGC"), this set of ten principles show significant overlap with both the OECD Guidelines and the UN Guiding Principles. With regards to OECD Guidelines, these guidelines and the UNGC both aim to promote corporate responsibility and sustainable business practices, in terms of specific topics, they both cover the areas of human rights, employment relations, environment and anti-corruption. As for the two UN frameworks, whilst they do vary in nature, scope and depth, the two come together in their overriding objective (to achieve a more responsible and accountable business community) as well as some of the key areas they address, namely in the human rights space.

The index methodology excluded companies facing very severe ESG controversies, as assessed via MSCI Controversy Scores. These scores assess controversies that may constitute a breach of selected global norms and conventions, including the UNGC, the International Labour Organisation's conventions, and the United Nations Guiding Principles on Business and Human Rights.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the Union criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the Union criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

As noted above, the index methodology considered principal adverse impacts on sustainability factors, primarily through a set of exclusion criteria corresponding to the indicators that are defined in Table 1, Annex I of the RTS.

The below table shows the PAI scores for the fund, the data is representative of the reference period.

Adverse sustainability indicator	PAI	Data	Metric
Greenhouse gas emissions	1.GHG Emissions	1,561.32	Scope 1 fund financed emissions (Tonnes of CO2 equivalent)
		3,286.51	Scope 2 fund financed emissions (Tonnes of CO2 equivalent)
		116,500.30	Scope 3 fund financed emissions (Tonnes of CO2 equivalent)
		121,348.13	Total Financed emissions (Scope 1 + Scope 2 + Scope 3) (Tonnes of CO2 equivalent)
	2. Carbon footprint	398.06	Fund level Carbon footprint (Scope 1 + Scope 2 + Scope 3) (Per Million EUR Invested)
	3. GHG Intensity of investee companies	1,087.83	Fund level Total Emission Intensity- Scope 1+2+3 (Per Million EUR Revenue)
	4. Exposure to companies active in the fossil fuel sector	0.00	% of the fund exposed to any fossil fuels revenue
	5. Share of non-renewable energy consumption	80.23	Adjusted Weighted Average of all issuers in the fund's share of non-renewable energy consumption and non-renewable energy production of investee companies from non-renewable energy sources compared to renewable energy sources, expressed as a percentage of total energy sources (%)
	5. Share of non-renewable energy production	18.35	Adjusted weighted average energy consumption of issuers in the fund in GWh per million EUR of revenue of investee companies, per high impact climate sector
	6. Energy consumption intensity per high impact climate sector		
	Agriculture, Forestry & Fishing	0.00	
	Construction	0.01	
	Electricity, Gas, Steam & Air Conditioning Supply	0.00	
	Manufacturing	0.48	
	Mining & Quarrying	0.46	
	Real Estate Activities	0.64	
	Transportation & Storage	1.01	
	Water Supply, Sewerage, Waste Management & Remediation Activities	0.00	
	Wholesale & Retail Trade & Repair of Motor Vehicles & Motorcycles	0.17	
Biodiversity	7. Activites negatively affecting biodiversity-sensitive areas	0.00	Share of investments in the fund of investee companies with sites/operations located in or near to biodiversity-sensitive areas where activities of those investee companies negatively affect those areas
Water	8. Emissions to water	0.03	Adjusted weighted average per issuer in the fund's emissions to water generated by investee companies

			per million EUR invested (Tonnes)
Waste	9. Hazardous waste and radioactive waste ratio	0.17	Tonnes of hazardous waste and radioactive waste generated by investee companies per million EUR invested, expressed as a weighted average
Social and employee matters	10. Violations fo UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises	0.00	Share of investments in investee companies that have been involved in violations of the UNGC principles or OECD Guidelines for Multinational Enterprises
	11. Lack of proceses and compliance mechanisms to monitor compliance with UN Global Compact principles and OECD Guidelines for Multinational Enterprises	62.59	Share of investments in investee companies without policies to monitor compliance with the UNGC principles or OECD Guidelines for Multinational Enterprises or grievance/ complaints handling mechanisms to address violations of the UNGC principles or OECD Guidelines for Multinational Enterprises
	12. Unadjusted gender pay gap	0.00	Weighted Average of all issuers' in the portfolio unadjusted gender pay gap of investee companies
	13. Board gender diversity	17.77	Waited Average of all issuers in the portfolio ratio of female to male board members in investee companies, expressed as a percentage of all board members
	14. Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons)	0.00	Share of investments in investee companies involved in the manufacture or selling of controversial weapons
Optional Indicators	Optional Indicator: 4. Investments in companies without carbon emission reduction initiative	33.58	Share of investments in investee companies without carbon emission reduction initiatives aimed at aligning with the Paris Agreement
	Optional Indicator: 9. Lack of a human rights policy	7.52	Share of investments in entities without a human rights policy

In addition, as part of the Fund's consideration of principal adverse impacts on sustainability factors, the ESG team monitored the investments against PAI indicators. Invesco conducted research into certain issuers in the Fund's portfolio that were deemed to flag against PAI indicators, in order to determine whether any engagement activity was required in accordance with the engagement policy.

What were the top investments of this financial product?

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is: From 1st of January 2023 to 31st of December 2023.

Large Investments	Sector	% Assets	Country
SONY GROUP CORP	Consumer Discretionary	4.54%	Japan
KEYENCE CORP	Information Technology	3.32%	Japan
TOKYO ELECTRON	Information Technology	2.64%	Japan

To comply with the EU Taxonomy, the criteria for fossil gas include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For nuclear energy, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:
 - turnover reflecting the share of revenue from green activities of investee companies.
 - capital expenditure (CapEx) shows the green investments made by investee companies, relevant for a transition to a green economy.
 - operational expenditure (OpEx) reflects the green operational activities of investee companies.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

0% of the Fund's portfolio was aligned with the EU Taxonomy.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

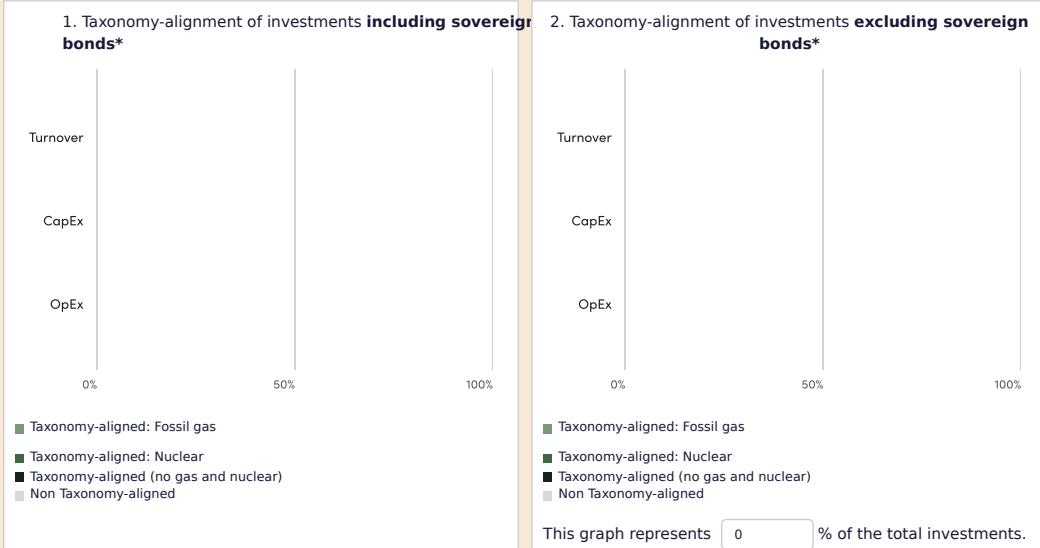

Yes

In fossil gas

In nuclear energy

No

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

*For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

What was the share of investments made in transitional and enabling activities?

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective – see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

N/A

 **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not Applicable.

 are sustainable investments with an environmental objective that do not take into account the criteria for environmentally sustainable economic activities under the EU Taxonomy.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

As the Fund does not currently intend to be EU Taxonomy aligned, 99.0% of the Fund's NAV was invested in sustainable investments with an environmental objective that was not aligned with the EU Taxonomy. Currently the Fund does not intend to be aligned with the Taxonomy Regulation and the Manager intends to keep the Fund's position in relation to the Taxonomy Regulation under consideration along with the reliability of datasets to determine Taxonomy alignment. To the extent required, the Manager will amend the pre-contractual documentation accordingly.

What was the share of socially sustainable investments?

N/A

What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

Investments included under this category are financial derivative instruments for hedging and/or efficient portfolio management purposes and cash for ancillary liquidity. No minimum environmental or social safeguards are applied in relation to these instruments.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Fund achieved the environmental and social characteristics by tracking the Reference Index, which has a methodology that is consistent with attaining the environmental and social characteristics promoted by the Fund.

Please refer to the section "How did the sustainability indicators perform" above for further information.

How did this financial product perform compared to the reference benchmark?

See tables completed in below sections.

 **How does the reference benchmark differ from a broad market index?**

The Reference Index differs from a broad market index because it comprises only companies with high ESG scores and incorporates the TCFD (Task Force on Climate Related Financial Disclosures) recommendations and is designed to exceed the minimum standards of the EU Paris-Aligned Benchmark.

 **How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?**

As the Fund fully replicates the performance of the Reference Index, the sustainability indicators performed similarly for the Fund and Reference Index:

Reference benchmarks
are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

Sustainability Indicator	Fund Indicator Performance	Reference Index Indicator Performance
MSCI ESG Score (as defined in the methodology Of the Reference Index) relative to the Parent Index	7.59	7.59
CO2 emissions intensity	177.9	177.9
Percentage of exposure in excluded companies involved in controversial business activities and controversies (as defined in the methodology of the Reference Index)	The Fund had 0% exposure to excluded companies at each Reference Index rebalance date	The Reference Index had 0% exposure to excluded companies at each Reference Index rebalance date

● ***How did this financial product perform compared with the reference benchmark?***

As the Fund achieves the environmental and social characteristics by tracking the Reference Index, which has a methodology that is consistent with attaining the environmental and social characteristics promoted by the Fund, the performance of the Fund is aligned with that of the Reference Benchmark. Please see above for the performance of the sustainability indicators compared with the Reference Benchmark.

● ***How did this financial product perform compared with the broad market index?***

The Parent Index also acts as a relevant broad market index. The sustainability indicators for the Fund and Parent Index differed as below:

Sustainability Indicator	Fund Indicator Performance	Broad Market benchmark (Parent Index) Indicator performance
MSCI ESG Score (as defined in the methodology of the Reference Index)	7.59	7.32
CO2 emissions intensity	177.9	635.7
Percentage Of the Fund portfolio invested in excluded companies involved in controversial business activities and controversies (as defined in the methodology Of the Reference Index)	The Reference Index had 0% exposure to excluded companies at each Reference Index rebalance date	The Broad Market benchmark had 45.4% exposure to excluded companies at the latest Reference Index rebalance date

Annex**Product name: Invesco MSCI World ESG Climate Paris Aligned UCITS ETF****Legal entity identifier:
549300WITWZPKXMN2F56****Environmental and/or social characteristics****Did this financial product have a sustainable investment objective?****● ● ○ Yes****● ○ X No**

It made **sustainable investments with an environmental objective:** _____ %

- in economic activities that qualify as environmentally sustainable under the EU Taxonomy
- in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

It made **sustainable investments with a social objective:** _____ %

It **promoted Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of 99.35 % of sustainable investments

- with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
- with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
- with a social objective

It promoted E/S characteristics, but **did not make any sustainable investments**

**To what extent were the environmental and/or social characteristics promoted by this financial product met?**

The environmental and/or social characteristics of the Fund were to reduce exposure to transition and physical climate risks whilst pursuing opportunities arising from the transition to a lower carbon economy and aligning with the Paris Agreement requirements. The Fund achieved the environmental and/or social characteristics by tracking the MSCI World ESG Climate Paris Aligned Benchmark Select Index (the "Reference Index"), which has a methodology that is consistent with attaining the environmental and social characteristics promoted by the Fund.

The Reference Index qualifies as an EU Paris-aligned Benchmark under Title III, Chapter 3a, of Regulation (EU) 2016/1011.

The extent to which the Fund tracked the Reference Index is reflected by the tracking error figures available in the section "Tracking Error Analysis" of the Annual Report.

● How did the sustainability indicators perform?

The Fund used a variety of indicators to measure the attainment of the environmental and social characteristics. The Fund performed as at 31st of December 2023. The data is representative of the

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The EU Taxonomy is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

reference period.

Sustainability Indicator	Indicator Performance
MSCI ESG Score (as defined in the methodology of the Reference Index) of the Fund relative to the MSCI World Index (the "Parent Index")	9.8% improvement
CO2 emissions intensity of the Fund relative to the Parent Index	70.0% reduction
Percentage of the Fund portfolio invested in excluded companies involved in controversial business activities and controversies (as defined in the methodology of the Reference Index)	As at each Reference Index rebalance date, the Fund had 0% exposure to excluded companies

● ***...and compared to previous periods?***

Compared to last period the improvement in MSCI ESG Score for the Fund relative to the parent index was slightly lower. The reduction in CO2 emissions intensity has improved, though this is partly due to the incorporation of Scope 3 emissions into this calculation. The Fund continues to avoid companies excluded by the Reference Index.

● ***What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?***

The sustainable investments contributed to the objective of reducing carbon emissions in alignment with the Paris Agreement requirements.

The sustainable investments contributed to the objective as they were selected based on the criteria of the Reference Index, which is constructed to meet the minimum requirements of an EU Paris-Aligned Benchmark in accordance with the Delegated Regulation (EU) 2020/1818 for the methodology of benchmark indices that would be aligned with the objectives of the Paris Agreement.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

● ***How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?***

The index methodology of the Reference Index that the Fund tracks takes into account principal adverse impacts (PAI) indicators defined in Table 1 of Annex I of the regulatory technical standards for Regulation 2019/2088 (RTS). Securities that didn't meet certain PAI thresholds were excluded from the Reference Index or had their weightings reduced.

How were the indicators for adverse impacts on sustainability factors taken into account?

Please see above on how the indicators for adverse impacts on sustainability factors have been taken into account.

The Reference Index reduced exposure to greenhouse gas emissions by specifying a minimum reduction in relation to the Parent Index, as well as a minimum year on year reduction from a given base date. Additionally, the index methodology directly excluded a number of companies involved in certain business activities, and through the removal of companies involved in thermal coal and the oil & gas industry the Reference Index further reduced its exposure to greenhouse gas emissions. The methodology also excluded companies involved in controversial weapons and those facing severe, or very severe ESG controversies, as assessed via MSCI Controversy Scores. Through its exclusions based on MSCI ESG Score the Reference Index also addressed a number of other adverse indicators. The Reference Index also excluded any companies where data wasn't available to make such assessments.

MSCI ESG Scores consider a number of key issues in their construction, including, but not limited to; carbon emissions, product carbon footprint, biodiversity & land use, toxic emissions & waste, opportunities in renewable energy. The scores also take into account areas such as human capital as

well as corporate governance, considering ownership & control, pay and the board.

MSCI Controversy Scores consider controversies in a number of different areas, including, but not limited to, biodiversity & land use, energy & climate change, toxic emissions & waste, operational waste, discrimination & workforce diversity, and governance structures. Any company that violates the UN Global Compact receives a very severe MSCI Controversy Score.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Alignment with the OECD Guidelines for Multinational Enterprises (the "OECD Guidelines") and the UN Guiding Principles on Business and Human Rights (the "UN Guiding Principle") is captured in the index methodology of the Fund, with the result that securities were excluded from the investible universe if they were deemed not to be in alignment.

The index methodology excluded companies that weren't compliant with the UN Global Compact (the UNGC"), this set of ten principles show significant overlap with both the OECD Guidelines and the UN Guiding Principles. With regards to OECD Guidelines, these guidelines and the UNGC both aim to promote corporate responsibility and sustainable business practices, in terms of specific topics, they both cover the areas of human rights, employment relations, environment and anti-corruption. As for the two UN frameworks, whilst they do vary in nature, scope and depth, the two come together in their overriding objective (to achieve a more responsible and accountable business community) as well as some of the key areas they address, namely in the human rights space.

The index methodology excluded companies facing very severe ESG controversies, as assessed via MSCI Controversy Scores. These scores assess controversies that may constitute a breach of selected global norms and conventions, including the UNGC, the International Labour Organisation's conventions, and the United Nations Guiding Principles on Business and Human Rights.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the Union criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the Union criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

As noted above, the index methodology considered principal adverse impacts on sustainability factors, primarily through a set of exclusion criteria corresponding to the indicators that are defined in Table 1, Annex I of the RTS.

The below table shows the PAI scores for the fund, The data is representative of the reference period.

Adverse sustainability indicator	PAI	Data	Metric
Greenhouse gas emissions	1.GHG Emissions	15.44	Scope 1 fund financed emissions (Tonnes of CO2 equivalent)
		14.53	Scope 2 fund financed emissions (Tonnes of CO2 equivalent)
		516.92	Scope 3 fund financed emissions (Tonnes of CO2 equivalent)
		546.88	Total Financed emissions (Scope 1 + Scope 2 + Scope 3) (Tonnes of CO2 equivalent)
	2. Carbon footprint	208.16	Fund level Carbon footprint (Scope 1 + Scope 2 + Scope 3) (Per Million EUR Invested)
	3. GHG Intensity of investee companies	882.51	Fund level Total Emission Intensity- Scope 1+2+3 (Per Million EUR Revenue)
	4. Exposure to companies active in the fossil fuel sector	0.00	% of the fund exposed to any fossil fuels revenue
	5. Share of non-renewable energy consumption	63.42	Adjusted Weighted Average of all issuers in the fund's share of non-renewable energy consumption and non-renewable energy production of investee companies from non-renewable energy sources compared to renewable energy sources, expressed as a percentage of total energy sources (%)
	5. Share of non-renewable energy production	15.60	
	6. Energy consumption intensity per high impact climate sector		Adjusted weighted average energy consumption of issuers in the fund in GWh per million EUR of revenue of investee companies, per high impact climate sector
	Agriculture, Forestry & Fishing	3.54	
	Construction	0.10	
	Electricity, Gas, Steam & Air Conditioning Supply	0.21	
	Manufacturing	0.23	
	Mining & Quarrying	1.38	
	Real Estate Activities	0.53	

	Transportation & Storage	0.78	
	Water Supply, Sewerage, Waste Management & Remediation Activities	0.46	
	Wholesale & Retail Trade & Repair of Motor Vehicles & Motorcycles	0.46	
Biodiversity	7. Activites negatively affecting biodiversity-sensitive areas	0.38	Share of investments in the fund of investee companies with sites/operations located in or near to biodiversity-sensitive areas where activities of those investee companies negatively affect those areas
Water	8. Emissions to water	0.14	Adjusted weighted average per issuer in the fund's emissions to water generated by investee companies per million EUR invested (Tonnes)
Waste	9. Hazardous waste and radioactive waste ratio	5.75	Tonnes of hazardous waste and radioactive waste generated by investee companies per million EUR invested, expressed as a weighted average
Social and employee matters	10. Violations fo UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises	0.00	Share of investments in investee companies that have been involved in violations of the UNGC principles or OECD Guidelines for Multinational Enterprises
	11. Lack of proceses and	58.11	Share of investments in investee companies without policies to monitor compliance with the UNGC

	compliance mechanisms to monitor compliance with UN Global Compact principles and OECD Guidelines for Multinational Enterprises		principles or OECD Guidelines for Multinational Enterprises or grievance/ complaints handling mechanisms to address violations of the UNGC principles or OECD Guidelines for Multinational Enterprises
	12. Unadjusted gender pay gap	16.44	Weighted Average of all issuers' in the portfolio unadjusted gender pay gap of investee companies
	13. Board gender diversity	33.14	Waited Average of all issuers in the portfolio ratio of female to male board members in investee companies, expressed as a percentage of all board members
	14. Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons)	0.00	Share of investments in investee companies involved in the manufacture or selling of controversial weapons
Optional Indicators	Optional Indicator: 4. Investments in companies without carbon emission reduction initiative	38.29	Share of investments in investee companies without carbon emission reduction initiatives aimed at aligning with the Paris Agreement
	Optional Indicator: 9. Lack of a human rights policy	8.09	Share of investments in entities without a human rights policy

In addition, as part of the Fund's consideration of principal adverse impacts on sustainability factors, the ESG team monitored the investments against PAI indicators. Invesco conducted research into certain issuers in the Fund's portfolio that were deemed to flag against PAI indicators, in order to determine whether any engagement activity was required in accordance with the engagement policy.

What were the top investments of this financial product?

To comply with the EU Taxonomy, the criteria for fossil gas include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For nuclear energy, the criteria include comprehensive safety and waste management rules.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

0% of the Fund's portfolio was aligned with the EU Taxonomy.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

Yes

In fossil gas

In nuclear energy

No

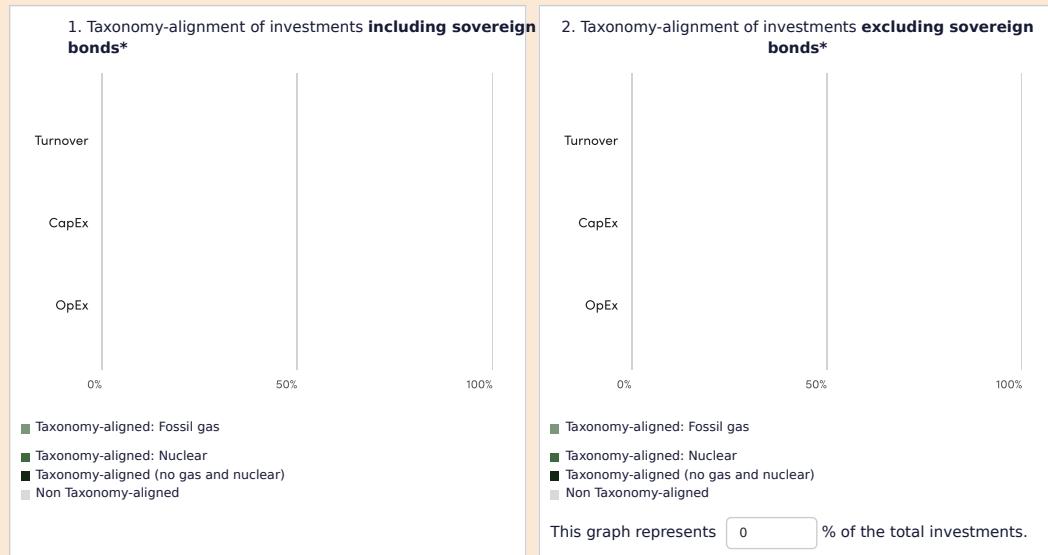

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- turnover reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) shows the green investments made by investee companies, relevant for a transition to a green economy.
- **operational expenditure** (OpEx) reflects the green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

*For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

● What was the share of investments made in transitional and enabling activities?

N/A

● How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

Not Applicable.

are sustainable investments with an environmental objective that do not take into account the criteria for environmentally sustainable economic activities under the EU Taxonomy.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

As the Fund does not currently intend to be EU Taxonomy aligned, 99.35% of the Fund's NAV was invested in sustainable investments with an environmental objective that was not aligned with the EU Taxonomy. Currently the Fund does not intend to be aligned with the Taxonomy Regulation and the Manager intends to keep the Fund's position in relation to the Taxonomy Regulation under consideration along with the reliability of datasets to determine Taxonomy alignment. To the extent required, the Manager will amend the pre-contractual documentation accordingly.

What was the share of socially sustainable investments?

N/A

What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

Investments included under this category are financial derivative instruments for hedging and/or efficient portfolio management purposes and cash for ancillary liquidity. No minimum environmental or social safeguards are applied in relation to these instruments.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Fund achieved the environmental and social characteristics by tracking the Reference Index, which has a methodology that is consistent with attaining the environmental and social characteristics promoted by the Fund.

How did this financial product perform compared to the reference benchmark?

See tables completed in below sections.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

● How does the reference benchmark differ from a broad market index?

The Reference Index differs from a broad market index because it comprises only companies with high ESG scores and incorporates the TCFD (Task Force on Climate Related Financial Disclosures) recommendations and is designed to exceed the minimum standards of the EU Paris-Aligned Benchmark.

● How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

As the Fund aims to replicates the performance of the Reference Index, the sustainability indicators performed similarly for the Fund and Reference Index:

Sustainability Indicator	Fund Indicator Performance	Reference Index Indicator Performance
MSCI ESG Score (as defined in the methodology of the Reference Index) relative to the Parent Index	7.62	7.62
CO2 emissions intensity	109.6	109.6
Percentage of exposure in excluded companies involved in controversial business activities and controversies (as rebalance date defined in the methodology of the Reference Index)	The Fund had 0% exposure to excluded companies at each Reference Index rebalance date	The Reference Index had 0% exposure to excluded companies at each Reference Index rebalance date

● How did this financial product perform compared with the reference benchmark?

As the Fund achieves the environmental and social characteristics by tracking the Reference Index, which has a methodology that is consistent with attaining the environmental and social characteristics promoted by the Fund, the performance of the Fund is aligned with that of the Reference Benchmark. Please see above for the performance of the sustainability indicators compared with the Reference Benchmark.

● How did this financial product perform compared with the broad market index?

The Parent Index also acts as a relevant broad market index. The sustainability indicators for the Fund and Parent Index differed as below:

Sustainability Indicator	Reference Index Indicator Performance	Broad Market benchmark (Parent Index) Indicator Performance
MSCI ESG Score (as defined in the methodology of the Reference Index) relative to the Parent Index	7.62	6.94
CO2 emissions intensity	109.6	365.4
Percentage of fund portfolio invested in excluded companies involved in controversial business activities and controversies (as defined in the methodology of the Reference Index)	the Reference Index had 0% exposure to excluded companies at each Reference index rebalance date	The Broad Market benchmark had 57.8% exposure to excluded companies at the latest Reference Index rebalance date

---	---

To what extent were the environmental and/or social characteristics promoted by this financial product met?

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

The environmental and/or social characteristics of the Fund were to reduce exposure to transition and physical climate risks whilst pursuing opportunities arising from the transition to a lower carbon economy and aligning with the Paris Agreement requirements. The Fund achieves the environmental and/or social characteristics by tracking the MSCI Emerging Markets ESG Climate Paris Aligned Benchmark Select Index (the "Reference Index"), which has a methodology that is aligned with attaining the sustainable investment objective of the Fund.

The Reference Index qualifies as an EU Paris-aligned Benchmark under Title III, Chapter 3a, of Regulation (EU) 2016/1011.

The extent to which the Fund tracked the Reference Index is reflected by the tracking error figures available in the section "Tracking Error Analysis" of the Annual Report.

How did the sustainability indicators perform?

The Fund used a variety of indicators to measure the attainment of the environmental and social characteristics. The Fund performed as at 31st of December 2023. The data is representative of the

reference period.

Sustainability Indicator	Indicator Performance
MSCI ESG Score (as defined in the methodology of the Reference Index) of the fund relative to the MSCI Emerging Markets Index (the "Parent Index")	9.5% improvement
CO2 emissions intensity of the Fund relative to the Parent Index	77.8% reduction
Percentage of the Fund portfolio invested in excluded companies involved in controversial business activities and controversies (as defined in the methodology of the Reference Index)	As at each Reference Index rebalance date, the Fund had 0% exposure to excluded companies

● ***...and compared to previous periods?***

Compared to last period the improvement in MSCI ESG Score for the Fund relative to the parent index has increased slightly. The reduction in CO2 emissions intensity has also improved, though this is partly due to the incorporation of Scope 3 emissions into this calculation. The Fund continues to avoid companies excluded by the Reference Index.

● ***What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?***

The sustainable investments contributed to the objective of reducing carbon emissions in alignment with the Paris Agreement requirements.

The sustainable investments contributed to the objective as they were selected based on the criteria of the Reference Index, which is constructed to meet the minimum requirements of an EU Paris-Aligned Benchmark in accordance with the Delegated Regulation (EU) 2020/1818 for the methodology of benchmark indices that would be aligned with the objectives of the Paris Agreement.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

● ***How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?***

The index methodology of the Reference Index that the Fund tracks takes into account principal adverse impacts (PAI) indicators defined in Table 1 of Annex I of the regulatory technical standards for Regulation 2019/2088 (RTS). Securities that didn't meet certain PAI thresholds were excluded from the Reference Index or had their weightings reduced.

How were the indicators for adverse impacts on sustainability factors taken into account?

Please see above on how the indicators for adverse impacts on sustainability factors have been taken into account.

The Reference Index reduced exposure to greenhouse gas emissions by specifying a minimum reduction in relation to the Parent Index, as well as a minimum year on year reduction from a given base date. Additionally, the index methodology directly excluded a number of companies involved in certain business activities, and through the removal of companies involved in thermal coal and the oil & gas industry the Reference Index further reduced its exposure to greenhouse gas emissions. The methodology also excluded companies involved in controversial weapons and those facing severe, or very severe ESG controversies, as assessed via MSCI Controversy Scores. Through its exclusions based on MSCI ESG Score the Reference Index also addressed a number of other adverse indicators. The Reference Index also excluded any companies where data wasn't available to make such assessments.

MSCI ESG Scores consider a number of key issues in their construction, including, but not limited to; carbon emissions, product carbon footprint, biodiversity & land use, toxic emissions & waste, opportunities in renewable energy. The scores also take into account areas such as human capital as well as corporate governance, considering ownership & control, pay and the board.

MSCI Controversy Scores consider controversies in a number of different areas, including, but not limited to, biodiversity & land use, energy & climate change, toxic emissions & waste, operational waste, discrimination & workforce diversity, and governance structures. Any company that violates the UN Global Compact receives a very severe MSCI Controversy Score.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Alignment with the OECD Guidelines for Multinational Enterprises (the "OECD Guidelines") and the UN Guiding Principles on Business and Human Rights (the "UN Guiding Principle") is captured in the Reference Index methodology of the Fund, with the result that securities were excluded from the investible universe if they were deemed not to be in alignment.

The index methodology excluded companies that weren't compliant with the UN Global Compact ("UNGC"), this set of ten principles show significant overlap with both the OECD Guidelines and the UN Guiding Principles. With regards to OECD Guidelines, these guidelines and the UNGC both aim to promote corporate responsibility and sustainable business practices, in terms of specific topics, they both cover the areas of human rights, employment relations, environment and anti-corruption. As for the two UN frameworks, whilst they do vary in nature, scope and depth, the two come together in their overriding objective (to achieve a more responsible and accountable business community) as well as some of the key areas they address, namely in the human rights space.

The index methodology excluded companies facing very severe ESG controversies, as assessed via MSCI Controversy Scores. These scores assess controversies that may constitute a breach of selected global norms and conventions, including the UNGC, the International Labour Organisation's conventions, and the United Nations Guiding Principles on Business and Human Rights.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the Union criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the Union criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

As noted above, the index methodology considered principal adverse impacts on sustainability factors, primarily through a set of exclusion criteria corresponding to the indicators that are defined in Table 1, Annex I of the RTS.

The below table shows the PAI scores for the fund, the data is representative of the reference period.

Adverse sustainability indicator	PAI	Data	Metric
Greenhouse gas emissions	1.GHG Emissions	638.77	Scope 1 fund financed emissions (Tonnes of CO2 equivalent)
		959.39	Scope 2 fund financed emissions (Tonnes of CO2 equivalent)
		13,044.29	Scope 3 fund financed emissions (Tonnes of CO2 equivalent)
		14,642.46	Total Financed emissions (Scope 1 + Scope 2 + Scope 3) (Tonnes of CO2 equivalent)
	2. Carbon footprint	201.00	Fund level Carbon footprint (Scope 1 + Scope 2 + Scope 3) (Per Million EUR Invested)
	3. GHG Intensity of investee companies	937.43	Fund level Total Emission Intensity- Scope 1+2+3 (Per Million EUR Revenue)
	4. Exposure to companies active in the fossil fuel sector	0.00	% of the fund exposed to any fossil fuels revenue
	5. Share of non-renewable energy consumption	83.85	Adjusted Weighted Average of all issuers in the fund's share of non-renewable energy consumption and non-renewable energy production of investee companies from non-renewable energy sources compared to renewable energy sources, expressed as a percentage of total energy sources (%)
	5. Share of non-renewable energy production	1.72	
	6. Energy consumption intensity per high impact climate sector		Adjusted weighted average energy consumption of issuers in the fund in GWh per million EUR of revenue of investee companies, per high impact climate sector
	Agriculture, Forestry & Fishing	0.00	
	Construction	0.01	
	Electricity, Gas, Steam & Air Conditioning Supply	0.12	
	Manufacturing	0.84	
	Mining & Quarrying	1,611.14	
	Real Estate Activities	0.69	
	Transportation & Storage	0.29	
	Water Supply, Sewerage, Waste Management & Remediation Activities	0.71	
	Wholesale & Retail Trade & Repair of Motor Vehicles & Motorcycles	0.08	
Biodiversity	7. Activites negatively affecting biodiversity-sensitive areas	0.13	Share of investments in the fund of investee companies with sites/operations located in or near to biodiversity-sensitive areas where activities of those investee companies negatively affect those areas
Water	8. Emissions to water	1.48	Adjusted weighted average per issuer in the fund's emissions to water generated by investee companies

			per million EUR invested (Tonnes)
Waste	9. Hazardous waste and radioactive waste ratio	0.67	Tonnes of hazardous waste and radioactive waste generated by investee companies per million EUR invested, expressed as a weighted average
Social and employee matters	10. Violations fo UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises	0.00	Share of investments in investee companies that have been involved in violations of the UNGC principles or OECD Guidelines for Multinational Enterprises
	11. Lack of proceses and compliance mechanisms to monitor compliance with UN Global Compact principles and OECD Guidelines for Multinational Enterprises	78.18	Share of investments in investee companies without policies to monitor compliance with the UNGC principles or OECD Guidelines for Multinational Enterprises or grievance/ complaints handling mechanisms to address violations of the UNGC principles or OECD Guidelines for Multinational Enterprises
	12. Unadjusted gender pay gap	1.91	Weighted Average of all issuers' in the portfolio unadjusted gender pay gap of investee companies
	13. Board gender diversity	16.10	Waited Average of all issuers in the portfolio ratio of female to male board members in investee companies, expressed as a percentage of all board members
	14. Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons)	0.00	Share of investments in investee companies involved in the manufacture or selling of controversial weapons
Optional Indicators	Optional Indicator: 4. Investments in companies without carbon emission reduction initiative	66.69	Share of investments in investee companies without carbon emission reduction initiatives aimed at aligning with the Paris Agreement
	Optional Indicator: 9. Lack of a human rights policy	22.08	Share of investments in entities without a human rights policy

In addition, as part of the Fund's consideration of principal adverse impacts on sustainability factors, the ESG team monitored the investments against PAI indicators. Invesco conducted research into certain issuers in the Fund's portfolio that were deemed to flag against PAI indicators, in order to determine whether any engagement activity was required in accordance with the engagement policy.

What were the top investments of this financial product?

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is: From 1st of January 2023 to 31st of December 2023. The data is representative of the reference period.

Large Investments	Sector	% Assets	Country
TSMC	Information Technology	8.29%	Taiwan
BABA-SW	Consumer Discretionary	3.07%	China
DELTA ELEC	Information Technology	2.30%	Taiwan
AERO DEL PACIF-B	Industrials	1.70%	Mexico
REALTEK SEMI	Information Technology	1.63%	Taiwan
AL RAJHI BANK	Financials	1.37%	Saudi Arabia

SK HYNIX INC	Information Technology	1.12%	South Korea
MEDIATEK	Information Technology	1.10%	Taiwan

What was the proportion of sustainability-related investments?

See below field

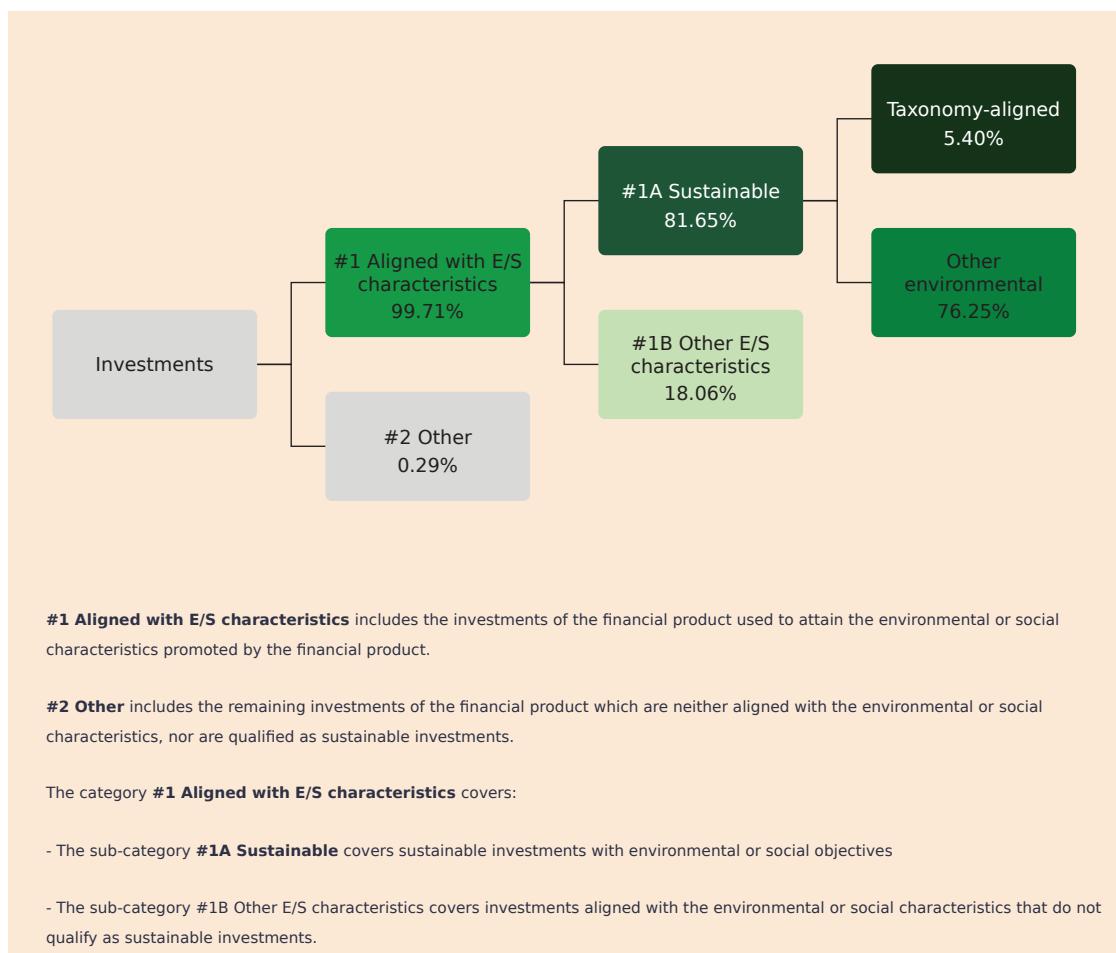

Asset allocation describes the share of investments in specific assets.

● What was the asset allocation?

99.71% of the Fund's NAV was invested in investments that aligned with the environmental and social characteristics of the Fund.

0.29% of the Fund's NAV was invested in financial derivative instruments for hedging and/or efficient portfolio management purposes; or was held as cash for ancillary liquidity purposes.

81.65% of the Fund's NAV was invested in sustainable investments.

● In which economic sectors were the investments made?

GICS Sector Breakdown the data is representative of the reference period.

Sector (GICS)	Weight %
Financials	19.96
Communication Services	5.61
Consumer Discretionary	13.67
Information Technology	26.64
Industrials	11.62
Consumer Staples	4.62
Energy	0.00
Real Estate	3.50
Health Care	7.60
Materials	3.29
Utilities	2.96

10102020	Oil & Gas Exploration & Production	0.00
10102030	Oil & Gas Refining & Marketing	0.00
10102040	Oil & Gas Storage & Transportation	0.00
10102050	Coal & Consumable Fuels	0.00
Total		0.00

To comply with the EU Taxonomy, the criteria for fossil gas include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For nuclear energy, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:
 - turnover reflecting the share of revenue from green activities of investee companies.
 - capital expenditure (CapEx) shows the green investments made by investee companies, relevant for a transition to a green economy.
 - operational expenditure (OpEx) reflects the green operational activities of investee companies.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

Although the Fund does not commit to a minimum of sustainable investments aligned with the EU Taxonomy the extent to which the Fund as a whole was aligned with the EU Taxonomy was calculated for the reference period. 5.40% (Turnover) of the Fund's portfolio was aligned with the EU Taxonomy. The figures are representative of the reference period.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

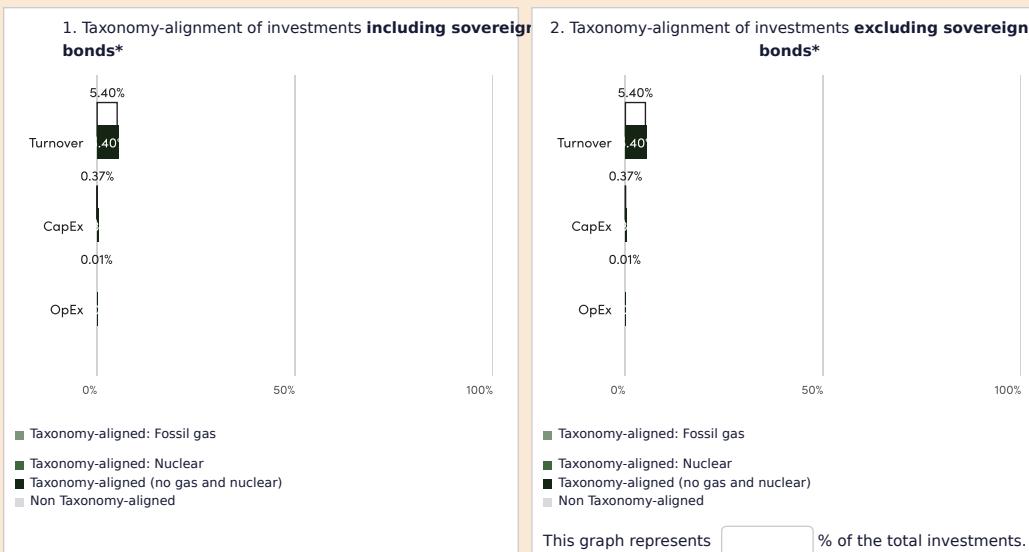

Yes

In fossil gas

In nuclear energy

No

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

*For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective – see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

● **What was the share of investments made in transitional and enabling activities?**

The below table shows the share of investments in transitional and enabling activities as the data is representative of the reference period.

	Aligned
Enabling	3.40%
Transition	0.42%

'Aligned' means % of revenues of the investments of the Fund that are aligned to the EU Taxonomy.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

The percentage of investments that were aligned with the EU Taxonomy decreased compared to the previous reference period.

 are sustainable investments with an environmental objective that do not take into account the criteria for environmentally sustainable economic activities under the EU Taxonomy.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

As the Fund does not currently intend to be EU Taxonomy aligned, 76.25% of the Fund's NAV was invested in sustainable investments with an environmental objective that was not aligned with the EU Taxonomy. Currently the Fund does not intend to be aligned with the Taxonomy Regulation and the Manager intends to keep the Fund's position in relation to the Taxonomy Regulation under consideration along with the reliability of datasets to determine Taxonomy alignment. To the extent required, the Manager will amend the pre-contractual documentation accordingly.

What was the share of socially sustainable investments?

N/A

What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

Investments included under this category are financial derivative instruments for hedging and/or efficient portfolio management purposes and cash for ancillary liquidity. No minimum environmental or social safeguards are applied in relation to these instruments.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Fund achieved the environmental and social characteristics by tracking the Reference Index, which has a methodology that is consistent with attaining the environmental and social characteristics promoted by the Fund.

Please refer to the section "How did the sustainability indicators perform" above for further information.

How did this financial product perform compared to the reference benchmark?

See tables completed in below sections.

● **How does the reference benchmark differ from a broad market index?**

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social

characteristics that they promote.

The Reference Index differs from a broad market index because it comprises only companies with high ESG scores and incorporates the TCFD (Task Force on Climate Related Financial Disclosures) recommendations and is designed to exceed the minimum standards of the EU Paris-Aligned Benchmark.

● *How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?*

As the Fund aims to replicates the performance of the Reference Index , the sustainability indicators performed similarly for the Fund and Reference Index:

Sustainability Indicator	Fund Indicator Performance	Reference Index Indicator Performance
MSCI ESG Score (as defined in the methodology of the Reference Index)	6.11	6.11
CO2 emissions intensity	148.4	148.4
Percentage of exposure in excluded companies involved in controversial business activities and controversies (as defined in the methodology of the Reference Index)	The Fund had 0% exposure to excluded companies at each Reference Index rebalance date	The Reference Index had 0% exposure to excluded companies at each Reference Index rebalance date

● *How did this financial product perform compared with the reference benchmark?*

As the Fund achieves the environmental and social characteristics by tracking the Reference Index, which has a methodology that is consistent with attaining the environmental and social characteristics promoted by the Fund, the performance of the Fund is aligned with that of the Reference Benchmark. Please see above for the performance of the sustainability indicators compared with the Reference Benchmark.

● *How did this financial product perform compared with the broad market index?*

The Parent Index also acts as a relevant broad market index. The sustainability indicators for the Fund and Parent Index differed as below:

Sustainability Indicator	Fund Indicator Performance	Broad Market benchmark (Parent Index) Indicator Performance
MSCI ESG Score (as defined in the methodology of the Reference Index)	6.11	5.58
CO2 emissions intensity	148.4	667.2
Percentage of the fund portfolio invested in excluded companies involved in controversial business activities and controversies (as defined in the methodology of the Reference Index)	The Reference Index had 0% exposure to excluded companies at each Reference Index rebalance date	The Broad Market benchmark had 65.7% exposure to excluded companies at the latest Reference Index rebalance date

Annex**Product name:** Invesco S&P World Energy ESG UCITS ETF**Legal entity identifier:** 5493007P6I7WEHMCJD97

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The EU Taxonomy is a classification system laid down in Regulation (EU) 2020/852, establishing a list of environmentally sustainable economic activities. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

Yes

- It made **sustainable investments with an environmental objective:** _____ %
- in economic activities that qualify as environmentally sustainable under the EU Taxonomy
 - in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
- It made **sustainable investments with a social objective:** _____ %

No

- It **promoted Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of _____ % of sustainable investments
- with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
 - with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
 - with a social objective
- It promoted E/S characteristics, but **did not make any sustainable investments**

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The environmental and social characteristics promoted by the Fund were to provide exposure to the risk and return profile of the S&P World ESG Enhanced Energy Index (formerly S&P Developed Ex-Korea LargeMidCap Energy Index) (the "**Parent Index**"), gaining exposure to corresponding sectors whilst improving the ESG characteristics and reducing carbon emissions of the Fund relative to the Parent Index. The Fund achieved this by tracking the S&P World ESG Enhanced Energy Index (formerly S&P Developed Ex-Korea LargeMidCap ESG Enhanced Energy Index) (the "**Reference Index**"), which has a methodology that is consistent with attaining the environmental and social characteristics promoted by the Fund.

The environmental and social characteristics were achieved by applying the Index Provider's exclusion criteria to the eligible securities and by using an optimisation approach to achieve an uplift in the weighted average S&P DJI ESG score and a decrease in the weighted average carbon intensity relative to the Parent Index.

How did the sustainability indicators perform?

The Fund used a variety of indicators to measure the attainment of environmental and social characteristics. The Fund performed as follows as at 31 December 2023, the data is representative of the reference period:

Sustainability Indicator	Indicator Performance
S&P DJI ESG Score (as defined in the methodology of the Reference Index) of the Fund relative to the Parent Index	23.1% improvement
CO2 emissions intensity of the Fund relative to the Parent Index	31.9% reduction
Percentage of the Fund portfolio invested in excluded companies involved in controversial business activities and controversies (as defined in the methodology of the Reference Index)	As at each Reference Index rebalance date, the Fund had 0% exposure to excluded companies

...and compared to previous periods?

NA

What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

NA

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

NA

How were the indicators for adverse impacts on sustainability factors taken into account?

NA

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

NA

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the Union criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the Union criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The index methodology of the Reference Index that the Fund tracks took into account principal adverse impacts (PAI) indicators defined in Table 1 of Annex I of the regulatory technical standards for Regulation 2019/2088 (RTS). Securities that don't meet certain PAI thresholds were excluded from the Reference Index or had their weightings reduced. The Fund also relied on the qualitative research and/or engagement of Invesco's ESG team to take into account the RTS PAI indicators.

The below table shows the PAI scores for the fund- the data is representative of the reference period:

Adverse sustainability indicator	PAI	Data	Metric
Greenhouse gas emissions	1.GHG Emissions	336.25 47.29 4,021.04 4,404.57	Scope 1 fund financed emissions (Tonnes of CO2 equivalent) Scope 2 fund financed emissions (Tonnes of CO2 equivalent) Scope 3 fund financed emissions (Tonnes of CO2 equivalent) Total Financed emissions (Scope 1 + Scope 2 + Scope 3) (Tonnes of CO2 equivalent)
	2. Carbon footprint	2,003.93	Fund level Carbon footprint (Scope 1 + Scope 2 + Scope 3) (Per Million EUR Invested)
	3. GHG Intensity of investee companies	5,268.17	Fund level Total Emission Intensity- Scope 1+2+3 (Per Million EUR Revenue)
	4. Exposure to companies active in the fossil fuel sector	52.79	% of the fund exposed to any fossil fuels revenue
	5. Share of non-renewable energy consumption	95.44	Adjusted Weighted Average of all issuers in the fund's share of non-renewable energy consumption and non-renewable energy production of investee companies from non-renewable energy sources compared to renewable energy sources, expressed as a percentage of total energy sources (%)
	5. Share of non-renewable energy production	64.25	
	6. Energy consumption intensity per high impact climate sector		Adjusted weighted average energy consumption of issuers in the fund in GWh per million EUR of revenue of investee companies, per high impact climate sector
	Agriculture, Forestry & Fishing	0.00	
	Construction	0.00	
	Electricity, Gas, Steam & Air Conditioning Supply	0.00	
Biodiversity	Manufacturing	0.54	
	Mining & Quarrying	1.52	
Water	Real Estate Activities	0.00	
	Transportation & Storage	2.73	
	Water Supply, Sewerage, Waste Management & Remediation Activities	0.00	
	Wholesale & Retail Trade & Repair of Motor Vehicles & Motorcycles	0.00	
	7. Activites negatively affecting biodiversity-sensitive areas	46.24	Share of investments in the fund of investee companies with sites/operations located in or near to biodiversity-sensitive areas where activities of those investee companies negatively affect those areas
Water	8. Emissions to water	0.00	Adjusted weighted average per issuer in the fund's emissions to water generated by investee companies per million EUR invested (Tonnes)

Waste	9. Hazardous waste and radioactive waste ratio	0.69	Tonnes of hazardous waste and radioactive waste generated by investee companies per million EUR invested, expressed as a weighted average
Social and employee matters	10. Violations fo UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises	0.00	Share of investments in investee companies that have been involved in violations of the UNGC principles or OECD Guidelines for Multinational Enterprises
	11. Lack of proceses and compliance mechanisms to monitor compliance with UN Global Compact principles and OECD Guidelines for Multinational Enterprises	29.34	Share of investments in investee companies without policies to monitor compliance with the UNGC principles or OECD Guidelines for Multinational Enterprises or grievance/ complaints handling mechanisms to address violations of the UNGC principles or OECD Guidelines for Multinational Enterprises
	12. Unadjusted gender pay gap	0.00	Weighted Average of all issuers' in the portfolio unadjusted gender pay gap of investee companies
	13. Board gender diversity	33.30	Waited Average of all issuers in the portfolio ratio of female to male board members in investee companies, expressed as a percentage of all board members
	14. Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons)	0.00	Share of investments in investee companies involved in the manufacture or selling of controversial weapons
Optional Indicators	Optional Indicator: 4. Investments in companies without carbon emission reduction initiative	31.80	Share of investments in investee companies without carbon emission reduction initiatives aimed at aligning with the Paris Agreement
	Optional Indicator: 9. Lack of a human rights policy	0.48	Share of investments in entities without a human rights policy

What were the top investments of this financial product?

Large Investments	Sector	% Assets	Country
CONOCOPHILLIPS	Energy	10.05%	United States
SCHLUMBERGER LTD	Energy	7.61%	United States
BP PLC	Energy	7.23%	United Kingdom
ENBRIDGE INC	Energy	7.17%	Canada
TOTALENERGIES SE	Energy	6.72%	France
CHEVRON CORP	Energy	4.85%	United States
CHENIERE ENERGY	Energy	4.60%	United States
WILLIAMS COS INC	Energy	4.57%	United States

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is:from the 1st of January 2023 to the 31st of December 2023. The data is representative of the reference period.

What was the proportion of sustainability-related investments?

NA

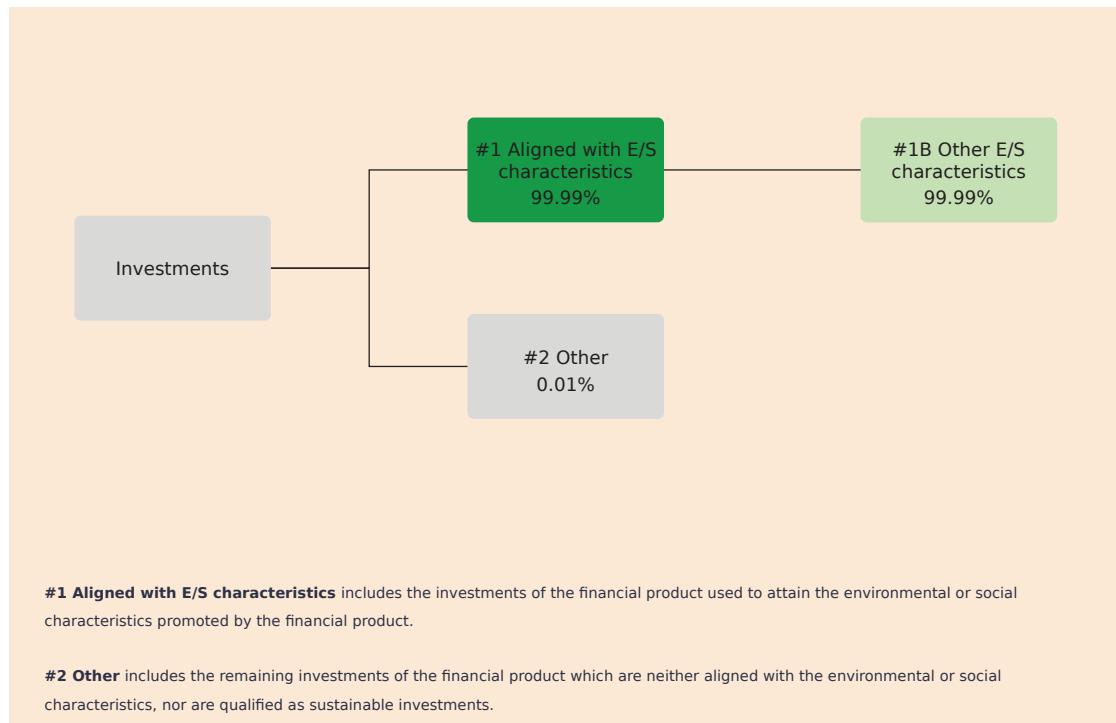

Asset allocation describes the share of investments in specific assets.

What was the asset allocation?

99.99% of the Fund's NAV was selected according to the binding elements of the investment strategy, on the basis that they aligned with the environmental and social characteristics of the Fund.

0.01% of the Fund's NAV was invested in financial derivative instruments for hedging and/or efficient portfolio management purposes; or was held as cash for ancillary liquidity purposes.

The asset allocation data is representative of the reference period.

● **In which economic sectors were the investments made?**

To comply with the EU Taxonomy, the criteria for fossil gas include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For nuclear energy, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

0% of the Fund's portfolio was aligned with the EU Taxonomy.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy?

Yes

In fossil gas

In nuclear energy

No

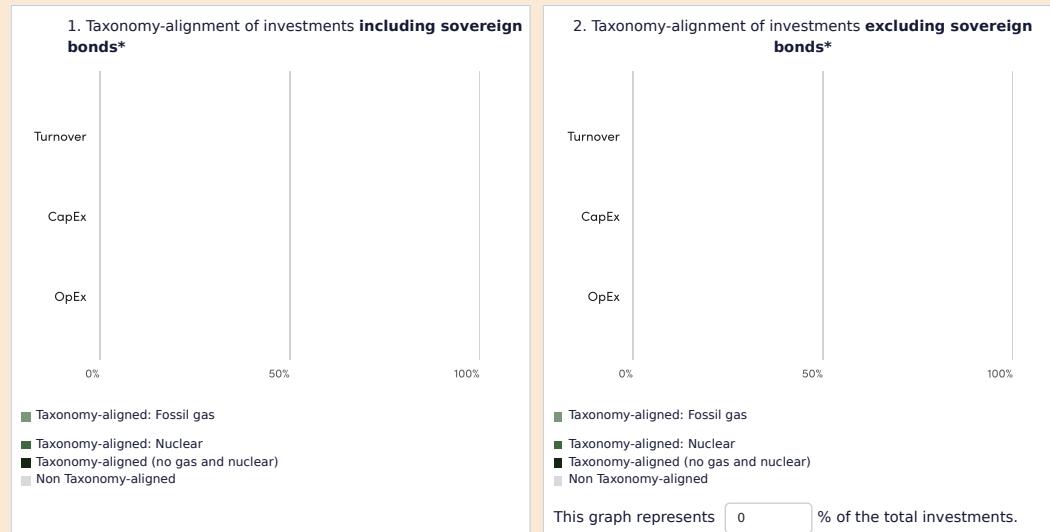

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- turnover reflecting the share of revenue from green activities of investee companies.
- capital expenditure (CapEx) shows the green investments made by investee companies, relevant for a transition to a green economy.
- operational expenditure (OpEx) reflects the green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

*For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

● What was the share of investments made in transitional and enabling activities?

N/A

● How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

N/A

are sustainable investments with an environmental objective that do not take into account the criteria for environmentally sustainable economic activities under the EU Taxonomy.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

N/A

What was the share of socially sustainable investments?

N/A

What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

Investments included under this category were financial derivative instruments for hedging and/or efficient portfolio management purposes and cash for ancillary liquidity. No minimum environmental or social safeguards were applied in relation to these instruments.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Fund achieved the environmental and social characteristics by tracking the Reference Index, which has a methodology that is consistent with attaining the environmental and social characteristics promoted by the Fund.

Please refer to the section "How did the sustainability indicators perform" above for further information.

How did this financial product perform compared to the reference benchmark?

See tables completed in below sections.

Reference benchmarks are

indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

● ***How does the reference benchmark differ from a broad market index?***

The Reference Index differs from a broad market index because it seeks to achieve an uplift in the weighted average S&P DJI ESG score and a decrease in the weighted average carbon intensity relative to the Parent Index (a subset of the S&P World Index, formerly S&P Developed Ex-Korea LargeMidCap Index, a relevant broad market index) which includes companies in the energy sector.

● ***How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?***

As the Fund replicates the performance of the Reference Index, the sustainability indicators performed similarly for the Fund and Reference Index:

Sustainability Indicator	Fund Indicator Performance	Reference Index Indicator Performance
S&P DJI ESG Score (as defined in the methodology of the Reference Index)	73.9	73.9
CO2 emissions intensity	1602.2	1602.2
Percentage of exposure in excluded companies involved in controversial business activities and controversies (as defined in the methodology of the Reference Index)	The Fund had 0% exposure to excluded companies at each Reference Index rebalance date	The Reference Index had 0% exposure to excluded companies at each Reference Index rebalance date

● ***How did this financial product perform compared with the reference benchmark?***

As the Fund achieves the environmental and social characteristics by tracking the Reference Index, which has a methodology that is consistent with attaining the environmental and social characteristics promoted by the Fund, the performance of the Fund is aligned with that of the Reference Benchmark. Please see above for the performance of the sustainability indicators compared with the Reference Benchmark.

● ***How did this financial product perform compared with the broad market index?***

The sustainability indicators for the Fund and Parent Index differed as below:

Sustainability Indicator	Fund Indicator Performance	Broad Market benchmark (Parent Index) Indicator Performance
S&P DJI ESG Score (as defined in the methodology of the Reference Index)	73.9	60.0
CO2 emissions intensity	1602.2	2352.9
Percentage of the Fund portfolio invested in excluded companies involved in controversial business activities and controversies (as defined in the methodology of the Reference Index)	The Reference Index had 0% exposure to excluded companies at each Reference Index rebalance date	The Broad Market benchmark had 45.2% exposure to excluded companies at the latest Reference Index rebalance date

Annex**Product name: Invesco S&P World Financials ESG UCITS ETF****Legal entity identifier: 549300JXBX1AUYXYGX60**

Sustainable investment
means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The EU Taxonomy is a classification system laid down in Regulation (EU) 2020/852, establishing a list of environmentally sustainable economic activities. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Environmental and/or social characteristics	
<p>Did this financial product have a sustainable investment objective?</p> <p><input checked="" type="radio"/> Yes <input type="radio"/> No</p> <p><input type="checkbox"/> It made sustainable investments with an environmental objective: _____ %</p> <ul style="list-style-type: none"> <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <p><input type="checkbox"/> It made sustainable investments with a social objective: _____ %</p>	<p><input checked="" type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of <u>29.95</u> % of sustainable investments</p> <ul style="list-style-type: none"> <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with a social objective <p><input type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments</p>

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The environmental and social characteristics promoted by the Fund were to provide exposure to the risk and return profile of the S&P World Financials Index (formerly S&P Developed Ex-Korea LargeMidCap Financials Index) (the "Parent Index"), gaining exposure to corresponding sectors whilst improving the ESG characteristics and reducing carbon emissions of the Fund relative to the Parent Index. The Fund achieved this by tracking the S&P World ESG Enhanced Financials Index (formerly S&P Developed Ex-Korea LargeMidCap ESG Enhanced Financials Index) (the "Reference Index"), which has a methodology that is consistent with attaining the environmental and social characteristics promoted by the Fund.

The environmental and social characteristics were achieved by applying the Index Provider's exclusion criteria to the eligible securities and by using an optimisation approach to achieve an uplift in the weighted average S&P DJI ESG score and a decrease in the weighted average carbon intensity relative to the Parent Index.

● **How did the sustainability indicators perform?**

The Fund used a variety of indicators to measure the attainment of environmental and social characteristics. The Fund performed as follows as at 31 December 2023, the data is representative of the reference period:

Sustainability Indicator	Indicator Performance
S&P DJI ESG Score (as defined in the methodology of the Reference Index) of the Fund relative to the Parent Index	17.8% improvement
CO2 emissions intensity of the Fund relative to the Parent Index	47.2% reduction
Percentage of the Fund portfolio invested in excluded companies involved in controversial business activities and controversies (as defined in the methodology of the Reference Index)	As at each Reference Index rebalance date, the Fund had 0% exposure to excluded companies

● **...and compared to previous periods?**

NA

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

The sustainable investments made by the fund contributed to environmental objectives such as climate change, water management, pollution prevention, and to social objectives such as good health, well-being and gender equality. The Fund achieved those objectives by investing in constituents of the Reference Index. According to Invesco's sustainable investment framework, a percentage (as disclosed above) of constituents of the Reference Index contributed positively to selected Sustainable Development Goals (SDGs) that related to the above objectives.

Principal adverse impacts
are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

The index methodology of the Reference Index that the Fund tracks takes into account principal adverse impacts (PAI) indicators defined in Table 1 of Annex I of the regulatory technical standards for Regulation 2019/2088 (RTS). Securities that didn't meet certain PAI thresholds were excluded from the Reference Index or had their weightings reduced.

How were the indicators for adverse impacts on sustainability factors taken into account?

Please see above on how the indicators for adverse impacts on sustainability factors were taken into account.

The methodology of the Reference Index directly excluded a number of companies involved in certain business activities. Through the removal of companies involved in thermal coal and oil sands the Reference Index reduced its exposure to greenhouse gas emissions. The methodology also excluded companies involved in controversial weapons, those facing severe ESG controversies, as assessed via Sustainalytics Controversy Scores, and those that were deemed non-compliant with the principles of the United Nations Global Compact. Additionally, through its exclusions based on Sustainalytics Risk Rating Score the index also addressed a number of other adverse indicators. Companies were assessed for inclusion based on whether they were deemed to help the world decarbonise and reduce climate risk generally.

Sustainalytics Controversy Scores consider controversies in a number of different areas, including, but not limited to discrimination and harassment, land use and biodiversity, energy use and greenhouse gas emissions, discharges and releases (water), degradation and contamination (land), and controversial weapons.

Sustainalytics Risk Ratings consider a number of key issues in their construction, including, but not limited to biodiversity programmes, hazardous waste management, water risk management, GHG risk management, carbon intensity, gender pay equality programme, gender pay disclosure, and board diversity.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Alignment with the OECD Guidelines for Multinational Enterprises (the "**OECD Guidelines**") and the UN Guiding Principles on Business and Human Rights (the "**UN Guiding Principles**") was captured in the methodology of the Reference Index tracked by the Fund, with the result that securities were excluded from the investible universe if they were deemed not to be in alignment.

The methodology of the Reference Index excluded companies that were deemed not to be compliant with the UN Global Compact (the "**UNGC**"). This set of ten principles show significant overlap with both the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles. With regards to OECD, these guidelines and the UNGC both aim to promote corporate responsibility and sustainable business practices, in terms of specific topics, they both cover the areas of human rights, employment relations, environment and anti-corruption. As for the two UN frameworks, whilst they do vary in nature, scope and depth, the two come together in their overriding objective (to achieve a more responsible and accountable business community) as well as some of the key areas they address, namely in the human rights space.

The methodology of the Reference Index excluded companies facing severe ESG controversies, as assessed via Sustainalytics Controversy Scores. As part of their research Sustainalytics consider global standards screening, in particular specific international norms and standards including both the OECD Guidelines and the UN Guiding Principles.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the Union criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the Union criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

As noted above, the index methodology considered principal adverse impacts on sustainability factors, primarily through a set of exclusion criteria corresponding to the indicators that are defined in Table 1, Annex I of the RTS.

The below table shows the PAI scores for the fund- the data is representative of the reference period:

Adverse sustainability indicator	PAI	Data	Metric
Greenhouse gas emissions	1.GHG Emissions	0.33	Scope 1 fund financed emissions (Tonnes of CO2 equivalent)
		0.55	Scope 2 fund financed emissions (Tonnes of CO2 equivalent)
		107.89	Scope 3 fund financed emissions (Tonnes of CO2 equivalent)
		108.77	Total Financed emissions (Scope 1 + Scope 2 + Scope 3) (Tonnes of CO2 equivalent)
	2. Carbon footprint	58.29	Fund level Carbon footprint (Scope 1 + Scope 2 + Scope 3) (Per Million EUR Invested)
	3. GHG Intensity of investee companies	337.00	Fund level Total Emission Intensity- Scope 1+2+3 (Per Million EUR Revenue)
	4. Exposure to companies active in the fossil fuel sector	0.00	% of the fund exposed to any fossil fuels revenue
	5. Share of non-renewable energy consumption	50.94	Adjusted Weighted Average of all issuers in the fund's share of non-renewable energy consumption and non-renewable energy production of investee companies from non-renewable energy sources compared to renewable energy sources, expressed as a percentage of total energy sources (%)
	5. Share of non-renewable energy production	10.00	
	6. Energy consumption intensity per high impact climate sector		Adjusted weighted average energy consumption of issuers in the fund in GWh per million EUR of revenue of investee companies, per high impact climate sector
	Agriculture, Forestry & Fishing	0.00	
	Construction	0.00	
	Electricity, Gas, Steam & Air Conditioning Supply	0.00	
	Manufacturing	0.00	
	Mining & Quarrying	0.00	
	Real Estate Activities	0.00	
	Transportation & Storage	0.04	
	Water Supply, Sewerage, Waste Management & Remediation Activities	0.00	
	Wholesale & Retail Trade & Repair of Motor Vehicles & Motorcycles	0.33	
Biodiversity	7. Activites negatively affecting biodiversity-sensitive areas	0.00	Share of investments in the fund of investee companies with sites/operations located in or near to biodiversity-sensitive areas where activities of those investee companies negatively affect those areas
Water	8. Emissions to water	0.00	Adjusted weighted average per issuer in the fund's emissions to water generated by investee companies per million EUR invested (Tonnes)
Waste	9. Hazardous waste and radioactive waste ratio	0.00	Tonnes of hazardous waste and radioactive waste generated by investee companies per million EUR invested, expressed as a weighted average
Social and employee matters	10. Violations fo UN Global Compact principles and Organisation for Economic Cooperation and Development	0.00	Share of investments in investee companies that have been involved in violations of the UNGC principles or OECD Guidelines for Multinational Enterprises

	(OECD) Guidelines for Multinational Enterprises		
	11. Lack of processes and compliance mechanisms to monitor compliance with UN Global Compact principles and OECD Guidelines for Multinational Enterprises	55.34	Share of investments in investee companies without policies to monitor compliance with the UNGC principles or OECD Guidelines for Multinational Enterprises or grievance/complaints handling mechanisms to address violations of the UNGC principles or OECD Guidelines for Multinational Enterprises
	12. Unadjusted gender pay gap	27.91	Weighted Average of all issuers' in the portfolio unadjusted gender pay gap of investee companies
	13. Board gender diversity	36.19	Waited Average of all issuers in the portfolio ratio of female to male board members in investee companies, expressed as a percentage of all board members
	14. Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons)	0.00	Share of investments in investee companies involved in the manufacture or selling of controversial weapons
Optional Indicators	Optional Indicator: 4. Investments in companies without carbon emission reduction initiative	22.39	Share of investments in investee companies without carbon emission reduction initiatives aimed at aligning with the Paris Agreement
	Optional Indicator: 9. Lack of a human rights policy	3.36	Share of investments in entities without a human rights policy

What were the top investments of this financial product?

Large Investments	Sector	% Assets	Country
VISA INC-CLASS A	Financials	7.58%	United States

What was the proportion of sustainability-related investments?

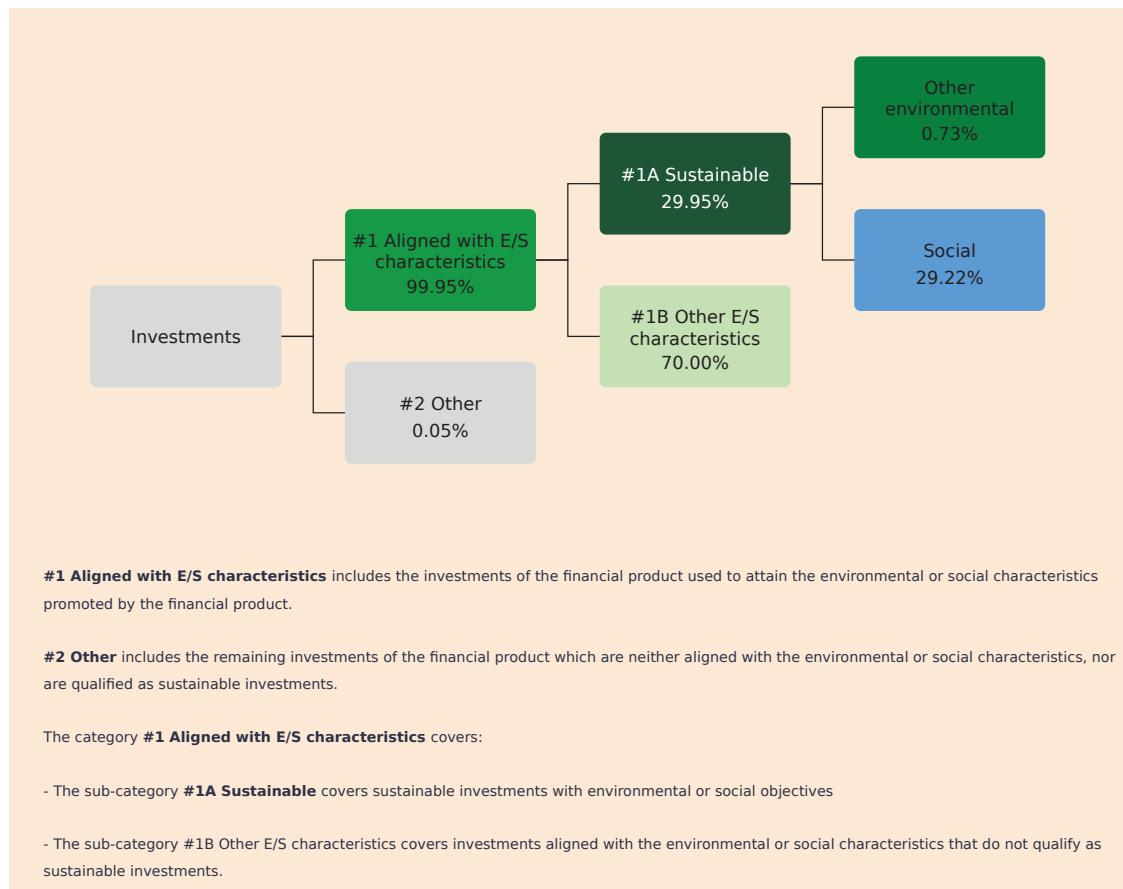

See below

Asset allocation describes the share of investments in specific assets.

What was the asset allocation?

99.95% of the Fund's NAV was selected according to the binding elements of the investment strategy, on the basis that they aligned with the environmental and social characteristics of the Fund.

0.05% of the Fund's NAV was invested in financial derivative instruments for hedging and/or efficient portfolio management purposes; and

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2 Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category **#1 Aligned with E/S characteristics** covers:

- The sub-category **#1A Sustainable** covers sustainable investments with environmental or social objectives
- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

● **In which economic sectors were the investments made?**

GICS Sector Breakdown as at - The data is representative of the reference period.

Sector (GICS)	Weight %
Financials	99.95
Communication Services	0.00
Consumer Discretionary	0.00
Information Technology	0.00
Industrials	0.00
Consumer Staples	0.00
Energy	0.00
Real Estate	0.00
Health Care	0.00
Materials	0.00
Utilities	0.00
Cash	0.05
Total	100.00

GICS Level 4 breakdown for Energy Sector

Sub-Industry Code	Sub-Industry Name	Weight
10101010	Oil & Gas Drilling	0.00
10101020	Oil & Gas Equipment & Services	0.00
10102010	Integrated Oil & Gas	0.00
10102020	Oil & Gas Exploration & Production	0.00
10102030	Oil & Gas Refining & Marketing	0.00
10102040	Oil & Gas Storage & Transportation	0.00
10102050	Coal & Consumable Fuels	0.00
Total		0.00

Although the Fund has exclusions around fossil fuel extraction, there may still have been exposure to fossil fuels as represented in part by exposure to the energy sector as disclosed above.

To comply with the EU Taxonomy, the criteria for fossil gas include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For nuclear energy, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

0% of the Fund's portfolio was aligned with the EU Taxonomy.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

Yes

In fossil gas

In nuclear energy

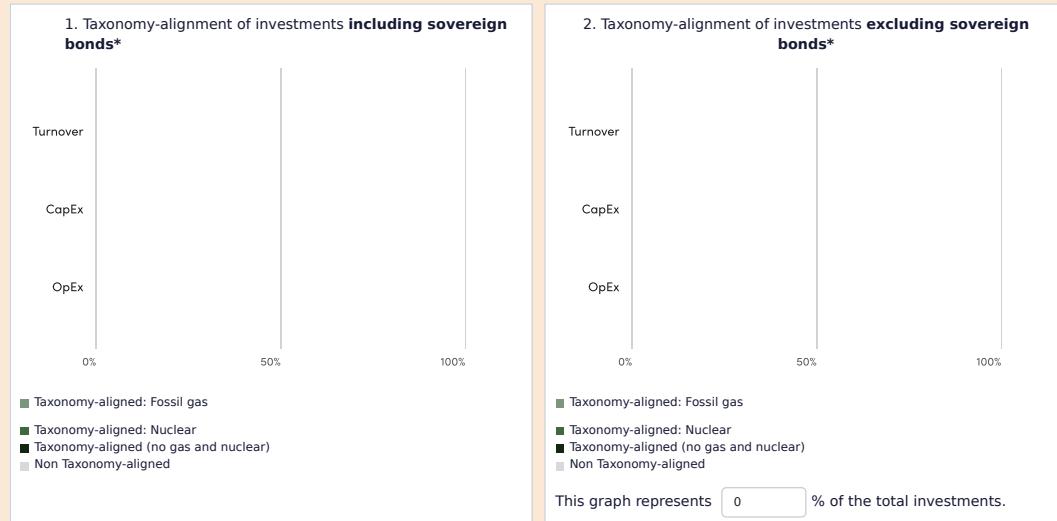

No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Taxonomy-aligned activities are expressed as a share of:

- turnover reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) shows the green investments made by investee companies, relevant for a transition to a green economy.
- **operational expenditure** (OpEx) reflects the green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

*For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

● What was the share of investments made in transitional and enabling activities?

N/A

● How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

Not Applicable.

are sustainable investments with an environmental objective that do not take into account the criteria for environmentally sustainable economic activities under the EU Taxonomy.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

As the Fund does not currently intend to be EU Taxonomy aligned, 0.73% of the Fund's NAV was invested in sustainable investments with an environmental objective that was not aligned with the EU Taxonomy. Currently the Fund does not intend to be aligned with the Taxonomy Regulation and the Manager intends to keep the Fund's position in relation to the Taxonomy Regulation under consideration along with the reliability of datasets to determine Taxonomy alignment. To the extent required, the Manager will amend the pre-contractual documentation accordingly.

What was the share of socially sustainable investments?

29.22% of the Fund's NAV.

What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

Investments included under this category were financial derivative instruments for hedging and/or efficient portfolio management purposes and cash for ancillary liquidity. No minimum environmental or social safeguards were applied in relation to these instruments.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Fund achieved the environmental and social characteristics by tracking the Reference Index, which has a methodology that is consistent with attaining the environmental and social characteristics promoted by the Fund.

Please refer to the section "How did the sustainability indicators perform" above for further information.

How did this financial product perform compared to the reference benchmark?

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

See below.

● How does the reference benchmark differ from a broad market index?

The Reference Index differs from a broad market index because it seeks to achieve an uplift in the weighted average S&P DJI ESG score and a decrease in the weighted average carbon intensity relative to the Parent Index (a subset of the S&P World Index, formerly S&P Developed Ex-Korea LargeMidCap Index, a relevant broad market index) which includes companies in the finance sector.

● How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

As the Fund replicates the performance of the Reference Index, the sustainability indicators performed similarly for the Fund and Reference Index:

Sustainability Indicator	Fund Indicator Performance	Reference Index Indicator Performance
S&P DJI ESG Score (as defined in the methodology of the Reference Index)	79.8	79.8
CO2 emissions intensity	32.2	32.2
Percentage of exposure in excluded companies involved in controversial business activities and controversies (as defined in the methodology of the Reference Index)	The Fund had 0% exposure to excluded companies at each Reference Index rebalance date	The Reference Index had 0% exposure to excluded companies at each Reference Index rebalance date

● How did this financial product perform compared with the reference benchmark?

As the Fund achieves the environmental and social characteristics by tracking the Reference Index, which has a methodology that is consistent with attaining the environmental and social characteristics promoted by the Fund, the performance of the Fund is aligned with that of the Reference Benchmark. Please see above for the performance of the sustainability indicators compared with the Reference Benchmark.

● How did this financial product perform compared with the broad market index?

The sustainability indicators for the Fund and Parent Index differed as below:

Sustainability Indicator	Fund Indicator Performance	Broad Market benchmark (Parent Index) Indicator Performance
S&P DJI ESG Score (as defined in the methodology of the Reference Index)	79.8	67.7
CO2 emissions intensity	32.2	61.0
Percentage of the Fund portfolio invested in excluded companies involved in controversial business activities and controversies (as defined in the methodology of the Reference Index)	The Reference Index had 0% exposure to excluded companies at each Reference Index rebalance date	The Broad Market benchmark had 19.8% exposure to excluded companies at the latest Reference Index rebalance date

Annex**Product name: Invesco S&P World Health Care ESG UCITS ETF****Legal entity identifier: 549300SL8I1ZSRGCHI36**

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The EU Taxonomy is a classification system laid down in Regulation (EU) 2020/852, establishing a list of environmentally sustainable economic activities. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

Yes

No

It made **sustainable investments with an environmental objective:** _____ %

- in economic activities that qualify as environmentally sustainable under the EU Taxonomy
- in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

It made **sustainable investments with a social objective:** _____ %

It promoted **Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of 64.46 % of sustainable investments

- with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
- with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
- with a social objective

It promoted E/S characteristics, but **did not make any sustainable investments**

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The environmental and social characteristics promoted by the Fund were to provide exposure to the risk and return profile of the S&P World ESG Health Care Index (formerly S&P Developed Ex-Korea LargeMidCap Health Care Index) (the "**Parent Index**"), gaining exposure to corresponding sectors whilst improving the ESG characteristics and reducing carbon emissions of the Fund relative to the Parent Index. The Fund achieved this by tracking the S&P World ESG Enhanced Health Care Index (formerly S&P Developed Ex-Korea LargeMidCap ESG Enhanced Health Care Index) (the "**Reference Index**"), which has a methodology that is consistent with attaining the environmental and social characteristics promoted by the Fund.

The environmental and social characteristics were achieved by applying the Index Provider's exclusion criteria to the eligible securities and by using an optimisation approach to achieve an uplift in the weighted average S&P DJI ESG score and a decrease in the weighted average carbon intensity relative to the Parent Index.

How did the sustainability indicators perform?

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

The Fund used a variety of indicators to measure the attainment of environmental and social characteristics. The Fund performed as follows as at 31 December 2023, the data is representative of the reference period:

Sustainability Indicator	Indicator Performance
S&P DJI ESG Score (as defined in the methodology of the Reference Index) of the Fund relative to the Parent Index	10.0% improvement
CO2 emissions intensity of the Fund relative to the Parent Index	28.7% reduction
Percentage of the Fund portfolio invested in excluded companies involved in controversial business activities and controversies (as defined in the methodology of the Reference Index)	As at each Reference Index rebalance date, the Fund had 0% exposure to excluded companies

● ***...and compared to previous periods?***

NA

● ***What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?***

The sustainable investments made by the fund contributed to environmental objectives such as climate change, water management, pollution prevention, and to social objectives such as good health, well-being and gender equality. The Fund achieved those objectives by investing in constituents of the Reference Index. According to Invesco's sustainable investment framework, a percentage (as disclosed above) of constituents of the Reference Index contributed positively to selected Sustainable Development Goals (SDGs) that related to the above objectives.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

● ***How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?***

The index methodology of the Reference Index that the Fund tracks takes into account principal adverse impacts (PAI) indicators defined in Table 1 of Annex I of the regulatory technical standards for Regulation 2019/2088 (RTS). Securities that didn't meet certain PAI thresholds were excluded from the Reference Index or had their weightings reduced.

How were the indicators for adverse impacts on sustainability factors taken into account?

Please see above on how the indicators for adverse impacts on sustainability factors were taken into account.

The methodology of the Reference Index directly excluded a number of companies involved in certain business activities. Through the removal of companies involved in thermal coal and oil sands the Reference Index reduced its exposure to greenhouse gas emissions. The methodology also excluded companies involved in controversial weapons, those facing severe ESG controversies, as assessed via Sustainalytics Controversy Scores, and those that were deemed non-compliant with the principles of the United Nations Global Compact. Additionally, through its exclusions based on Sustainalytics Risk Rating Score the index also addressed a number of other adverse indicators. Companies were assessed for inclusion based on whether they were deemed to help the world decarbonise and reduce climate risk generally.

Sustainalytics Controversy Scores consider controversies in a number of different areas, including, but not limited to discrimination and harassment, land use and biodiversity, energy use and greenhouse gas emissions, discharges and releases (water), degradation and contamination (land), and controversial weapons.

Sustainalytics Risk Ratings consider a number of key issues in their construction, including, but not limited to biodiversity programmes, hazardous waste management, water risk management, GHG risk management, carbon intensity, gender pay equality programme, gender pay disclosure, and board diversity.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Alignment with the OECD Guidelines for Multinational Enterprises (the "**OECD Guidelines**") and the UN Guiding Principles on Business and Human Rights (the "**UN Guiding Principles**") was captured in the methodology of the Reference Index tracked by the Fund, with the result that securities were excluded from the investible universe if they were deemed not to be in alignment.

The methodology of the Reference Index excluded companies that were deemed not to be compliant with the UN Global Compact (the "**UNGC**"). This set of ten principles show significant overlap with both the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles. With regards to OECD, these guidelines and the UNGC both aim to promote corporate responsibility and sustainable business practices, in terms of specific topics, they both cover the areas of human rights, employment relations, environment and anti-corruption. As for the two UN frameworks, whilst they do vary in nature, scope and depth, the two come together in their overriding objective (to achieve a more responsible and accountable business community) as well as some of the key areas they address, namely in the human rights space.

The methodology of the Reference Index excluded companies facing severe ESG controversies, as assessed via Sustainalytics Controversy Scores. As part of their research Sustainalytics consider global standards screening, in particular specific international norms and standards including both the OECD Guidelines and the UN Guiding Principles.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the Union criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the Union criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

As noted above, the index methodology considered principal adverse impacts on sustainability factors, primarily through a set of exclusion criteria corresponding to the indicators that are defined in Table 1, Annex I of the RTS.

The below table shows the PAI scores for the fund- the data is representative of the reference period:

Adverse sustainability indicator	PAI	Data	Metric
Greenhouse gas emissions	1.GHG Emissions	2.41	Scope 1 fund financed emissions (Tonnes of CO2 equivalent)
		2.25	Scope 2 fund financed emissions (Tonnes of CO2 equivalent)
		122.93	Scope 3 fund financed emissions (Tonnes of CO2 equivalent)
		127.59	Total Financed emissions (Scope 1 + Scope 2 + Scope 3) (Tonnes of CO2 equivalent)
	2. Carbon footprint	67.80	Fund level Carbon footprint (Scope 1 + Scope 2 + Scope 3) (Per Million EUR Invested)
	3. GHG Intensity of investee companies	248.63	Fund level Total Emission Intensity- Scope 1+2+3 (Per Million EUR Revenue)
	4. Exposure to companies active in the fossil fuel sector	0.00	% of the fund exposed to any fossil fuels revenue
	5. Share of non-renewable energy consumption	82.33	Adjusted Weighted Average of all issuers in the fund's share of non-renewable energy consumption and non-renewable energy production of investee companies from non-renewable energy sources compared to renewable energy sources, expressed as a percentage of total energy sources (%)
	5. Share of non-renewable energy production	34.95	Adjusted weighted average energy consumption of issuers in the fund in GWh per million EUR of revenue of investee companies, per high impact climate sector
	6. Energy consumption intensity per high impact climate sector		
	Agriculture, Forestry & Fishing	0.00	
	Construction	0.00	
	Electricity, Gas, Steam & Air Conditioning Supply	0.00	
	Manufacturing	0.06	
	Mining & Quarrying	0.00	
	Real Estate Activities	0.00	
	Transportation & Storage	0.00	
	Water Supply, Sewerage, Waste Management & Remediation Activities	0.00	
	Wholesale & Retail Trade & Repair of Motor Vehicles & Motorcycles	0.02	
Biodiversity	7. Activites negatively affecting biodiversity-sensitive areas	18.95	Share of investments in the fund of investee companies with sites/operations located in or near to biodiversity-sensitive areas where activities of those investee companies negatively affect those areas
Water	8. Emissions to water	0.01	Adjusted weighted average per issuer in the fund's emissions to water generated by investee companies

			per million EUR invested (Tonnes)
Waste	9. Hazardous waste and radioactive waste ratio	0.08	Tonnes of hazardous waste and radioactive waste generated by investee companies per million EUR invested, expressed as a weighted average
Social and employee matters	10. Violations fo UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises	0.00	Share of investments in investee companies that have been involved in violations of the UNGC principles or OECD Guidelines for Multinational Enterprises
	11. Lack of proceses and compliance mechanisms to monitor compliance with UN Global Compact principles and OECD Guidelines for Multinational Enterprises	59.52	Share of investments in investee companies without policies to monitor compliance with the UNGC principles or OECD Guidelines for Multinational Enterprises or grievance/ complaints handling mechanisms to address violations of the UNGC principles or OECD Guidelines for Multinational Enterprises
	12. Unadjusted gender pay gap	3.59	Weighted Average of all issuers' in the portfolio unadjusted gender pay gap of investee companies
	13. Board gender diversity	33.52	Waited Average of all issuers in the portfolio ratio of female to male board members in investee companies, expressed as a percentage of all board members
	14. Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons)	0.00	Share of investments in investee companies involved in the manufacture or selling of controversial weapons
Optional Indicators	Optional Indicator: 4. Investments in companies without carbon emission reduction initiative	32.64	Share of investments in investee companies without carbon emission reduction initiatives aimed at aligning with the Paris Agreement
	Optional Indicator: 9. Lack of a human rights policy	1.68	Share of investments in entities without a human rights policy

What were the top investments of this financial product?

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is:from 1st of January 2023 to 31st of December 2023. The data is representative of the reference period.

Large Investments	Sector	% Assets	Country
UNITEDHEALTH GRP	Health Care	10.68%	United States
ELI LILLY & CO	Health Care	6.54%	United States
ABBVIE INC	Health Care	6.33%	United States
MERCK & CO	Health Care	4.22%	United States
NOVARTIS AG-REG	Health Care	4.00%	Switzerland
ASTRAZENECA PLC	Health Care	3.86%	United Kingdom
THERMO FISHER	Health Care	3.85%	United States
ROCHE HLDG-GENUS	Health Care	3.62%	Switzerland
COM	Health Care	3.22%	Denmark
AMGEN INC	Health Care	3.18%	United States

What was the proportion of sustainability-related investments?

Asset allocation describes
the share of investments
in specific assets.

See below field

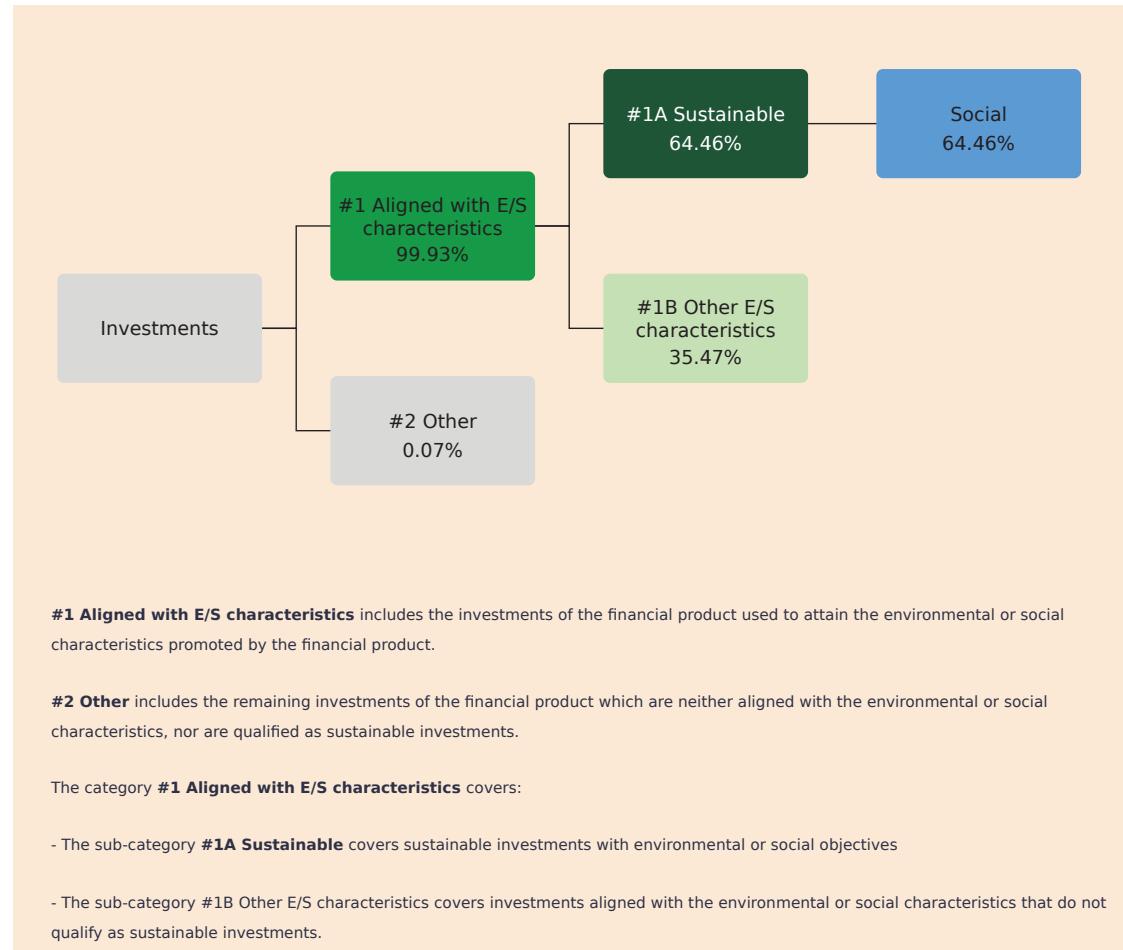

● What was the asset allocation?

99.93% of the Fund's NAV was selected according to the binding elements of the investment strategy, on the basis that they aligned with the environmental and social characteristics of the Fund.

0.07% of the Fund's NAV was invested in financial derivative instruments for hedging and/or efficient portfolio management purposes; and

64.46% of the Fund's NAV was invested in sustainable investments.

The asset allocation data is representative of the reference period.

● In which economic sectors were the investments made?

GICS Sector Breakdown as at - The data is representative of the reference period.

Sector (GICS)	Weight %
Financials	0.00
Communication Services	0.00
Consumer Discretionary	0.00
Information Technology	0.00
Industrials	0.00

GICS Level 4 breakdown for Energy Sector

Sub-Industry Code	Sub-Industry Name	Weight
10101010	Oil & Gas Drilling	0.00
10101020	Oil & Gas Equipment & Services	0.00
10102010	Integrated Oil & Gas	0.00
10102020	Oil & Gas Exploration & Production	0.00
10102030	Oil & Gas Refining & Marketing	0.00
10102040	Oil & Gas Storage & Transportation	0.00
10102050	Coal & Consumable Fuels	0.00
Total		0.00

Although the Fund has exclusions around fossil fuel extraction, there may still have been exposure to fossil fuels as represented in part by exposure to the energy sector as disclosed above.

To comply with the EU Taxonomy, the criteria for fossil gas include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For nuclear energy, the criteria include comprehensive safety and waste management rules.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

0% of the Fund's portfolio was aligned with the EU Taxonomy.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- turnover reflecting the share of revenue from green activities of investee companies.
- capital expenditure (CapEx) shows the green investments made by investee companies, relevant for a transition to a green economy.
- operational expenditure (OpEx) reflects the green operational activities of investee companies.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

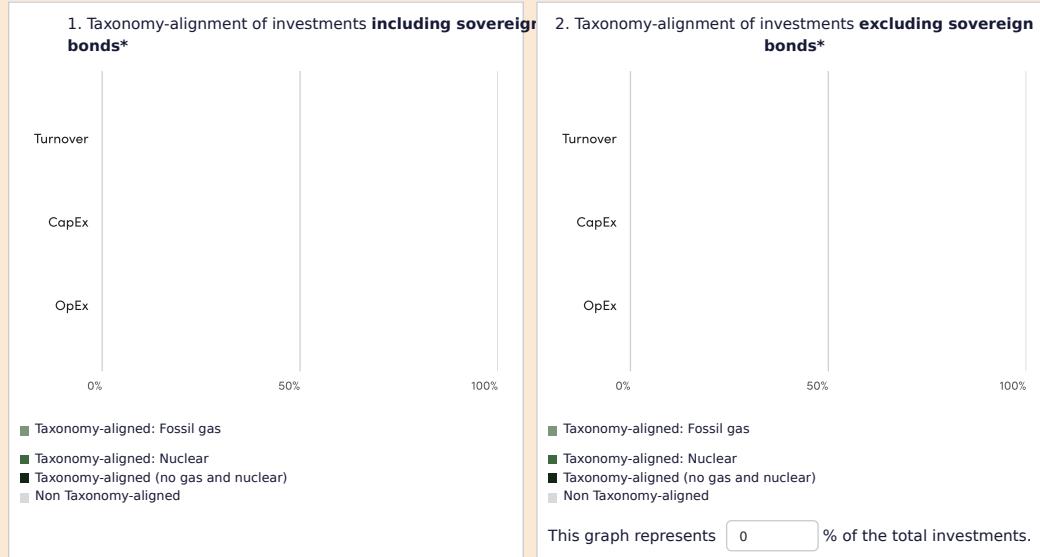

Yes

In fossil gas

In nuclear energy

No

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

*For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

What was the share of investments made in transitional and enabling activities?

N/A

How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

N/A

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

N/A

What was the share of socially sustainable investments?

64.46% of the Fund's NAV.

What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

Investments included under this category were financial derivative instruments for hedging and/or efficient portfolio management purposes and cash for ancillary liquidity. No minimum environmental or social safeguards were applied in relation to these instruments.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

The Fund achieved the environmental and social characteristics by tracking the Reference Index, which has a methodology that is consistent with attaining the environmental and social characteristics promoted by the Fund.

Please refer to the section "How did the sustainability indicators perform" above for further information.

How did this financial product perform compared to the reference benchmark?

See below

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

● How does the reference benchmark differ from a broad market index?

The Reference Index differs from a broad market index because it seeks to achieve an uplift in the weighted average S&P DJI ESG score and a decrease in the weighted average carbon intensity relative to the Parent Index (a subset of the S&P World Index, formerly S&P Developed Ex-Korea LargeMidCap Index, a relevant broad market index) which includes companies in the health care sector.

● How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

As the Fund replicates the performance of the Reference Index, the sustainability indicators performed similarly for the Fund and Reference Index:

Sustainability Indicator	Fund Indicator Performance	Reference Index Indicator Performance
S&P DJI ESG Score (as defined in the methodology of the Reference Index)	90.9	90.9
CO2 emissions intensity	24.3	24.3
Percentage of exposure in excluded companies involved in controversial business activities and controversies (as defined in the methodology of the Reference Index)	The Fund had 0% exposure to excluded companies at each Reference Index rebalance date	The Reference Index had 0% exposure to excluded companies at each Reference Index rebalance date

● How did this financial product perform compared with the reference benchmark?

As the Fund achieves the environmental and social characteristics by tracking the Reference Index, which has a methodology that is consistent with attaining the environmental and social characteristics promoted by the Fund, the performance of the Fund is aligned with that of the Reference Benchmark. Please see above for the performance of the sustainability indicators compared with the Reference Benchmark.

● How did this financial product perform compared with the broad market index?

The sustainability indicators for the Fund and Parent Index differed as below:

Sustainability Indicator	Fund Indicator Performance	Broad Market benchmark (Parent Index) Indicator Performance
S&P DJI ESG Score (as defined in the methodology of the Reference Index)	90.9	82.6
CO2 emissions intensity	24.3	34.1
Percentage of the Fund portfolio invested in excluded companies involved in controversial business activities and controversies (as defined in the methodology of the Reference Index)	The Reference Index had 0% exposure to excluded companies at each Reference Index rebalance date	The Broad Market benchmark had 15.9% exposure to excluded companies at the latest Reference Index rebalance date

Annex

Product name: Invesco S&P World Information Technology ESG UCITS ETF **Legal entity identifier:** 549300VIQWDUCLYSV364

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

Yes

No

It made **sustainable investments with an environmental objective:** _____ %

- in economic activities that qualify as environmentally sustainable under the EU Taxonomy
- in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

It made **sustainable investments with a social objective:** _____ %

It promoted **Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of 64.72 % of sustainable investments

- with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
- with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
- with a social objective

It promoted E/S characteristics, but **did not make any sustainable investments**

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The environmental and social characteristics promoted by the Fund were to provide exposure to the risk and return profile of the S&P World Information Technology Index (formerly S&P Developed Ex-Korea LargeMidCap Information Technology Index) (the "**Parent Index**"), gaining exposure to corresponding sectors whilst improving the ESG characteristics and reducing carbon emissions of the Fund relative to the Parent Index. The Fund achieved this by tracking the S&P World ESG Enhanced Information Technology Index (formerly S&P Developed Ex-Korea LargeMidCap ESG Enhanced Information Technology Index) (the "**Reference Index**"), which has a methodology that is consistent with attaining the environmental and social characteristics promoted by the Fund.

The environmental and social characteristics were achieved by applying the Index Provider's exclusion criteria to the eligible securities and by using an optimisation approach to achieve an uplift in the weighted average S&P DJI ESG score and a decrease in the weighted average carbon intensity relative to the Parent Index.

How did the sustainability indicators perform?

The Fund used a variety of indicators to measure the attainment of environmental and social characteristics. The Fund performed as follows as at 31 December 2023, the data is representative of the reference period:

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The EU Taxonomy is a classification system laid down in Regulation (EU) 2020/852, establishing a list of environmentally sustainable economic activities. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

Sustainability Indicator	Indicator Performance
S&P DJI ESG Score (as defined in the methodology of the Reference Index) of the Fund relative to the Parent Index	10.0% improvement
CO2 emissions intensity of the Fund relative to the Parent Index	28.7% reduction
Percentage of the Fund portfolio invested in excluded companies involved in controversial business activities and controversies (as defined in the methodology of the Reference Index)	As at each Reference Index rebalance date, the Fund had 0% exposure to excluded companies

● ***...and compared to previous periods?***

NA

● ***What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?***

The sustainable investments made by the fund contributed to environmental objectives such as climate change, water management, pollution prevention, and to social objectives such as good health, well-being and gender equality. The Fund achieved those objectives by investing in constituents of the Reference Index. According to Invesco's sustainable investment framework, a percentage (as disclosed above) of constituents of the Reference Index contributed positively to selected Sustainable Development Goals (SDGs) that related to the above objectives.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

● ***How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?***

The index methodology of the Reference Index that the Fund tracks takes into account principal adverse impacts (PAI) indicators defined in Table 1 of Annex I of the regulatory technical standards for Regulation 2019/2088 (RTS). Securities that didn't meet certain PAI thresholds were excluded from the Reference Index or had their weightings reduced.

How were the indicators for adverse impacts on sustainability factors taken into account?

Please see above on how the indicators for adverse impacts on sustainability factors were taken into account.

The methodology of the Reference Index directly excluded a number of companies involved in certain business activities. Through the removal of companies involved in thermal coal and oil sands the Reference Index reduced its exposure to greenhouse gas emissions. The methodology also excluded companies involved in controversial weapons, those facing severe ESG controversies, as assessed via Sustainalytics Controversy Scores, and those that were deemed non-compliant with the principles of the United Nations Global Compact. Additionally, through its exclusions based on Sustainalytics Risk Rating Score the index also addressed a number of other adverse indicators. Companies were assessed for inclusion based on whether they were deemed to help the world decarbonise and reduce climate risk generally.

Sustainalytics Controversy Scores consider controversies in a number of different areas, including, but not limited to discrimination and harassment, land use and biodiversity, energy use and greenhouse gas emissions, discharges and releases (water), degradation and contamination (land), and controversial weapons.

Sustainalytics Risk Ratings consider a number of key issues in their construction, including, but not limited to biodiversity programmes, hazardous waste management, water risk management, GHG risk management, carbon intensity, gender pay equality programme, gender pay disclosure, and board diversity.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Alignment with the OECD Guidelines for Multinational Enterprises (the "**OECD Guidelines**") and the UN Guiding Principles on Business and Human Rights (the "**UN Guiding Principles**") was captured in the methodology of the Reference Index tracked by the Fund, with the result that securities were excluded from the investible universe if they were deemed not to be in alignment.

The methodology of the Reference Index excluded companies that were deemed not to be compliant with the UN Global Compact (the "**UNGC**"). This set of ten principles show significant overlap with both the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles. With regards to OECD, these guidelines and the UNGC both aim to promote corporate responsibility and sustainable business practices, in terms of specific topics, they both cover the areas of human rights, employment relations, environment and anti-corruption. As for the two UN frameworks, whilst they do vary in nature, scope and depth, the two come together in their overriding objective (to achieve a more responsible and accountable business community) as well as some of the key areas they address, namely in the human rights space.

The methodology of the Reference Index excluded companies facing severe ESG controversies, as assessed via Sustainalytics Controversy Scores. As part of their research Sustainalytics consider global standards screening, in particular specific international norms and standards including both the OECD Guidelines and the UN Guiding Principles.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the Union criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the Union criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

As noted above, the index methodology considered principal adverse impacts on sustainability factors, primarily through a set of exclusion criteria corresponding to the indicators that are defined in Table 1, Annex I of the RTS.

The below table shows the PAI scores for the fund- the data is representative of the reference period:

Adverse sustainability indicator	PAI	Data	Metric
Greenhouse gas emissions	1.GHG Emissions	1.82 2.81 57.86 62.50	Scope 1 fund financed emissions (Tonnes of CO2 equivalent) Scope 2 fund financed emissions (Tonnes of CO2 equivalent) Scope 3 fund financed emissions (Tonnes of CO2 equivalent) Total Financed emissions (Scope 1 + Scope 2 + Scope 3) (Tonnes of CO2 equivalent)
	2. Carbon footprint	28.30	Fund level Carbon footprint (Scope 1 + Scope 2 + Scope 3) (Per Million EUR Invested)
	3. GHG Intensity of investee companies	207.58	Fund level Total Emission Intensity- Scope 1+2+3 (Per Million EUR Revenue)
	4. Exposure to companies active in the fossil fuel sector	0.00	% of the fund exposed to any fossil fuels revenue
	5. Share of non-renewable energy consumption	31.11	Adjusted Weighted Average of all issuers in the fund's share of non-renewable energy consumption and non-renewable energy production of investee companies from non-renewable energy sources compared to renewable energy sources, expressed as a percentage of total energy sources (%)
	5. Share of non-renewable energy production	3.64	
	6. Energy consumption intensity per high impact climate sector		Adjusted weighted average energy consumption of issuers in the fund in GWh per million EUR of revenue of investee companies, per high impact climate sector
	Agriculture, Forestry & Fishing	0.00	
	Construction	0.00	
	Electricity, Gas, Steam & Air Conditioning Supply	0.00	
	Manufacturing	0.05	
	Mining & Quarrying	0.00	
	Real Estate Activities	2.27	
	Transportation & Storage	0.00	
	Water Supply, Sewerage, Waste Management & Remediation Activities	0.00	
	Wholesale & Retail Trade & Repair of Motor Vehicles & Motorcycles	0.22	
Biodiversity	7. Activites negatively affecting biodiversity-sensitive areas	0.00	Share of investments in the fund of investee companies with sites/operations located in or near to biodiversity-sensitive areas where activities of those investee companies negatively affect those areas

Water	8. Emissions to water	0.01	Adjusted weighted average per issuer in the fund's emissions to water generated by investee companies per million EUR invested (Tonnes)
Waste	9. Hazardous waste and radioactive waste ratio	0.03	Tonnes of hazardous waste and radioactive waste generated by investee companies per million EUR invested, expressed as a weighted average
Social and employee matters	10. Violations fo UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises	0.00	Share of investments in investee companies that have been involved in violations of the UNGC principles or OECD Guidelines for Multinational Enterprises
	11. Lack of proceses and compliance mechanisms to monitor compliance with UN Global Compact principles and OECD Guidelines for Multinational Enterprises	40.36	Share of investments in investee companies without policies to monitor compliance with the UNGC principles or OECD Guidelines for Multinational Enterprises or grievance/ complaints handling mechanisms to address violations of the UNGC principles or OECD Guidelines for Multinational Enterprises
	12. Unadjusted gender pay gap	0.00	Weighted Average of all issuers' in the portfolio unadjusted gender pay gap of investee companies
	13. Board gender diversity	34.12	Waited Average of all issuers in the portfolio ratio of female to male board members in investee companies, expressed as a percentage of all board members
	14. Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons)	0.00	Share of investments in investee companies involved in the manufacture or selling of controversial weapons
Optional Indicators	Optional Indicator: 4. Investments in companies without carbon emission reduction initiative	23.28	Share of investments in investee companies without carbon emission reduction initiatives aimed at aligning with the Paris Agreement
	Optional Indicator: 9. Lack of a human rights policy	2.10	Share of investments in entities without a human rights policy

What were the top investments of this financial product?

Large Investments	Sector	% Assets	Country
MICROSOFT CORP	Information Technology	24.69%	United States
APPLE INC	Information Technology	15.53%	United States
NVIDIA CORP	Information Technology	14.41%	United States

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is: From 1st of January 2023 to 31st of December 2023. The data is representative of the reference period.

Asset allocation describes the share of investments in specific assets.

What was the proportion of sustainability-related investments?

Please see below.

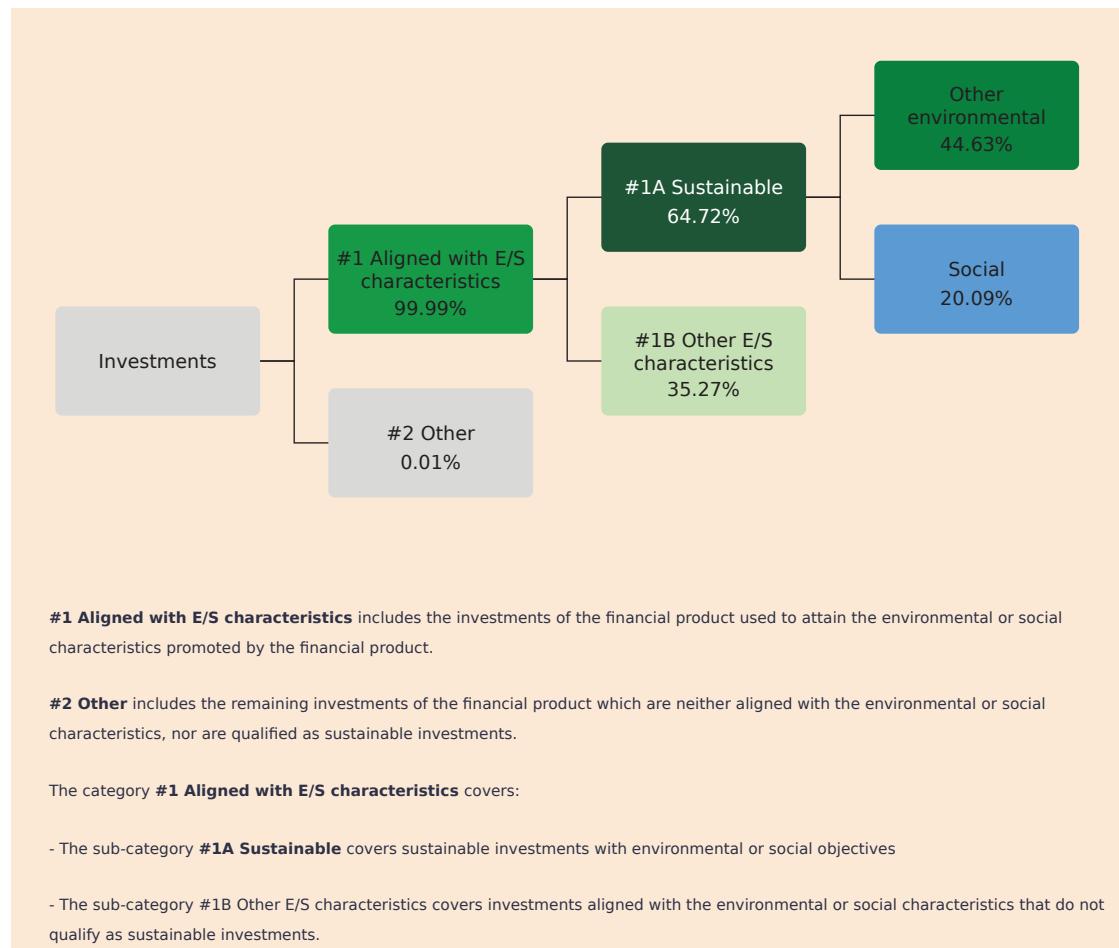

● What was the asset allocation?

99.99% of the Fund's NAV was selected according to the binding elements of the investment strategy, on the basis that they aligned with the environmental and social characteristics of the Fund.

0.01% of the Fund's NAV was invested in financial derivative instruments for hedging and/or efficient portfolio management purposes, or was held as cash for ancillary liquidity purposes.

64.72% of the Fund's NAV was invested in sustainable investments.

The asset allocation data is representative of the reference period.

● In which economic sectors were the investments made?

GICS Sector Breakdown - the data is representative of the reference period.

Sector (GICS)	Weight %
Financials	0.00
Communication Services	0.00
Consumer Discretionary	0.00
Information Technology	99.99
Industrials	0.00
Consumer Staples	0.00
Energy	0.00
Real Estate	0.00
Health Care	0.00
Materials	0.00
Utilities	0.00
Cash	0.01
Total	100.00

GICS Level 4 breakdown for Energy Sector

Sub-Industry Code	Sub-Industry Name	Weight
10101010	Oil & Gas Drilling	0.00
10101020	Oil & Gas Equipment & Services	0.00
10102010	Integrated Oil & Gas	0.00
10102020	Oil & Gas Exploration & Production	0.00
10102030	Oil & Gas Refining & Marketing	0.00
10102040	Oil & Gas Storage & Transportation	0.00
10102050	Coal & Consumable Fuels	0.00
Total		0.00

To comply with the EU Taxonomy, the criteria for fossil gas include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For nuclear energy, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

0% of the Fund's portfolio was aligned with the EU Taxonomy.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

Yes

In fossil gas

In nuclear energy

No

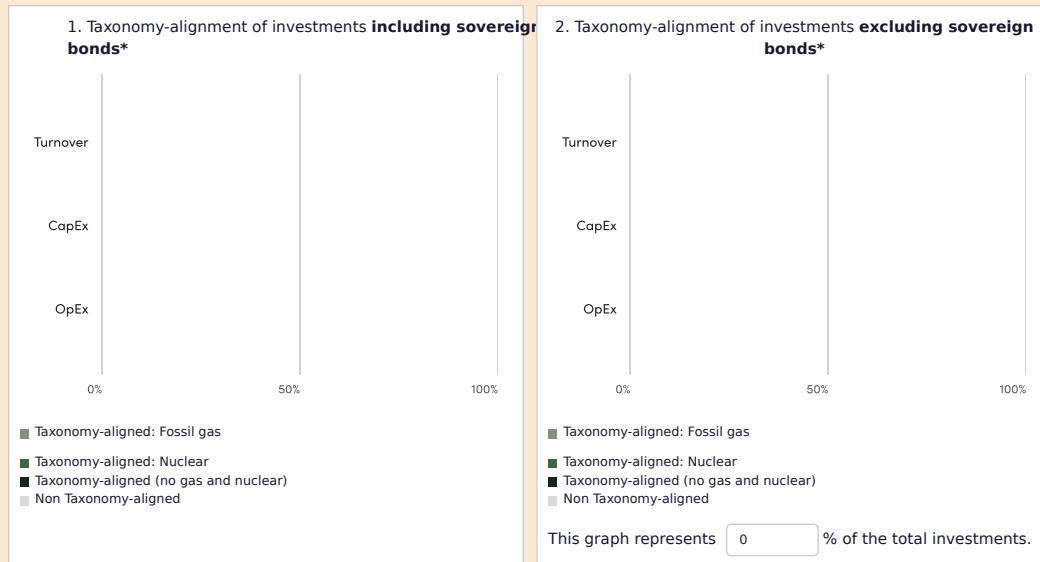

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- turnover reflecting the share of revenue from green activities of investee companies.
- capital expenditure (CapEx) shows the green investments made by investee companies, relevant for a transition to a green economy.
- operational expenditure (OpEx) reflects the green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

*For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

● What was the share of investments made in transitional and enabling activities?

N/A

● How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

N/A

are sustainable investments with an environmental objective that do not take into account the criteria for environmentally sustainable economic activities under the EU Taxonomy.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

As the Fund does not currently intend to be EU Taxonomy aligned, 44.63% of the Fund's NAV was invested in sustainable investments with an environmental objective that was not aligned with the EU Taxonomy.

Currently, the Fund does not intend to be aligned with the Taxonomy Regulation and the Manager intends to keep the Fund's position in relation to the Taxonomy Regulation under consideration along with the reliability of datasets to determine Taxonomy alignment. To the extent required, the Manager will amend the pre-contractual documentation accordingly.

What was the share of socially sustainable investments?

20.09% of the Fund's NAV.

What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

Investments included under this category were financial derivative instruments for hedging and/or efficient portfolio management purposes and cash for ancillary liquidity. No minimum environmental or social safeguards were applied in relation to these instruments.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Fund achieved the environmental and social characteristics by tracking the Reference Index, which has a methodology that is consistent with attaining the environmental and social characteristics promoted by the Fund.

Please refer to the section “How did the sustainability indicators perform” above for further information.

How did this financial product perform compared to the reference benchmark?

See tables completed in below sections.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

● How does the reference benchmark differ from a broad market index?

The Reference Index differs from a broad market index because it seeks to achieve an uplift in the weighted average S&P DJI ESG score and a decrease in the weighted average carbon intensity relative to the Parent Index (a subset of the S&P World Index, formerly S&P Developed Ex-Korea LargeMidCap Index, a relevant broad market index) which includes companies in the information technology sector.

● How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

As the Fund replicates the performance of the Reference Index, the sustainability indicators performed similarly for the Fund and Reference Index:

Sustainability Indicator	Fund Indicator Performance	Reference Index Indicator Performance
S&P DJI ESG Score (as defined in the methodology of the Reference Index)	83.0	83.0
CO2 emissions intensity	23.2	23.2
Percentage of exposure in excluded companies involved in controversial business activities and controversies (as defined in the methodology of the Reference Index)	The Fund had 0% exposure to excluded companies at each Reference Index rebalance date	The Reference Index had 0% exposure to excluded companies at each Reference Index rebalance date

● How did this financial product perform compared with the reference benchmark?

As the Fund achieves the environmental and social characteristics by tracking the Reference Index, which has a methodology that is consistent with attaining the environmental and social characteristics promoted by the Fund, the performance of the Fund is aligned with that of the Reference Benchmark. Please see above for the performance of the sustainability indicators compared with the Reference Benchmark.

● How did this financial product perform compared with the broad market index?

The sustainability indicators for the Fund and Parent Index differed as below:

Sustainability Indicator	Fund Indicator Performance	Broad Market benchmark (Parent Index) Indicator Performance
S&P DJI ESG Score (as defined in the methodology of the Reference Index)	83.0	74.3
CO2 emissions intensity	23.2	50.0
Percentage of the Fund portfolio invested in excluded companies involved in controversial business activities and controversies (as defined in the methodology of the Reference Index)	The Reference Index had 0% exposure to excluded companies at each Reference Index rebalance date	The Broad Market benchmark had 11.8% exposure to excluded companies at the latest Reference Index rebalance date
