

This document provides you with key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

MyMap 4 Select Income Fund

A sub-fund of BlackRock Investment Funds

Class D Accumulating GBP

ISIN: GB00BN08ZB07

Manager: BlackRock Fund Managers Limited

Objectives and Investment Policy

- ▶ The Fund is a fund in a series of MyMap funds and the number “4” does not directly relate to the level of risk or return within the Fund and is used simply to differentiate the Fund from the other MyMap branded funds in the BlackRock Investment Funds umbrella.
- ▶ The aim of the Fund is to provide, over five year periods, a return on your investment (generated through an increase in the value of the assets held by the Fund and/or income received from those assets) through an actively managed portfolio, whilst also maintaining a risk profile (i.e. an evaluation of the risks (e.g. risk of losses) associated with the portfolio) for the Fund’s portfolio of 6%-9%. The Fund also aims to achieve an appropriate level of income, taking into account the Fund’s risk profile. The risk profile of the Fund’s portfolio, for this purpose, is measured as the volatility (i.e. the degree of fluctuation) of the Fund’s returns converted into an annual rate, over a five year period. Generally, the higher the volatility, the riskier the investment. There is no guarantee that the Fund will achieve its income objective. The Fund’s risk profile may at times fall outside the stated range. There can be no guarantee that the Fund will maintain the target level of risk, especially during periods of unusually high or low volatility in the equity and fixed income markets. The Fund’s potential gains and losses are likely to be constrained by the aim to stay within the predefined risk profile.
- ▶ The level of income which the Fund aims to achieve, is above the income (gross of fees) produced by a 50/50 blend of the global bond and equity markets (as represented by the Bloomberg Global Aggregate Bond Index and MSCI All Country World Index respectively) (i.e. a level of income which exceeds that produced by the constituents of the indices).
- ▶ The Fund will seek to achieve its investment exposure by investing predominantly (more than 80% of the Fund’s net asset value) in units of other funds giving indirect exposure to a variety of asset classes globally (including funds managed by an affiliate of the BlackRock Group). At any one time, a substantial amount, or even all of the Fund’s assets may be held in units of other funds. The Fund may hold up to 15% of the Fund’s net asset value indirectly in alternative asset classes (such as, but not limited to real estate and commodities (i.e. precious metals)).
- ▶ The Fund will seek to stay within the stated risk profile by varying its asset allocations (i.e. mix of assets) in different market conditions. The Fund’s aim to achieve an appropriate level of income is secondary to the Fund’s aim to maintain its risk profile.
- ▶ Given the risk profile of the Fund, under normal market conditions the Fund will seek a greater exposure to fixed income securities (which are generally considered to be less risky compared to equity securities), compared to a fund with a higher risk profile which would seek to have a greater exposure to equity securities (which are generally considered to be more risky compared to fixed income securities).
- ▶ The Fund may also invest directly in financial derivative instruments (i.e. investments the prices of which are based on one or more underlying assets) cash, near cash instruments, and forward transactions, for investment purposes and for the purposes of efficient portfolio management, including to hedge currency exposure to enable the Fund to profit from changes in currency exchange rates against the base currency of the Fund.
- ▶ The Fund is actively managed and the investment manager (IM) has discretion to select the Fund’s investments. In so doing the IM will use a blend of 50% Bloomberg Global Aggregate Bond Index and 50% MSCI All Country World Index to assess the level of income provided by the Fund. This benchmark has been chosen because the two components form part of the investment objective of the Fund and should be used by unitholders to compare the income returns delivered by the Fund. The Fund’s overall performance may be assessed by considering the extent to which the return of the Fund is achieved within the predefined risk profile, measured as the volatility of the Fund’s returns converted into an annual rate, over a five-year period. The Fund’s returns and volatility (converted into an annual rate) will be published on the product pages of the BlackRock website. (the “Index”) when constructing the Fund’s portfolio, and also for risk management purposes to ensure that the active risk (i.e. degree of deviation from the index) taken by the Fund remains appropriate given the Fund’s investment objective and policy. The IM is not bound by the components or weighting of the indices when selecting investments.
- ▶ Recommendation: This Fund may not be appropriate for short-term investment.
- ▶ Your units will be accumulating units (i.e. dividend income will be included in their value).
- ▶ Your units will be denominated in Sterling, the Fund’s base currency.
- ▶ You can buy and sell your units daily. The minimum initial investment for this unit class is £100,000.

For more information on the Fund, share/unit classes, risks and charges, please see the Fund’s prospectus, available on the product pages at www.blackrock.com

Risk and Reward Profile

- ▶ The risk indicator was calculated incorporating simulated historical data and may not be a reliable indication of the future risk profile of the Fund.
 - ▶ The risk category shown is not guaranteed and may change over time.
 - ▶ The lowest category does not mean risk free.
 - ▶ The Fund is rated four due to the nature of its investments which include the risks listed below. These factors may impact the value of the Fund’s investments or expose the Fund to losses.
- Credit risk, changes to interest rates and/or issuer defaults will have a significant impact on the performance of fixed income securities. Potential or actual credit rating downgrades may increase the level of risk.
 - Currency Risk: The Fund invests in other currencies. Changes in exchange rates will therefore affect the value of the investment.
 - The value of equities and equity-related securities can be affected by daily stock market movements. Other influential factors include political, economic news, company earnings and significant corporate events.
 - ▶ Particular risks not adequately captured by the risk indicator include:
 - Counterparty Risk: The insolvency of any institutions providing services such as safekeeping of assets or acting as counterparty to derivatives or other instruments, may expose the Fund to financial loss.
 - Credit Risk: The issuer of a financial asset held within the Fund may not pay income or repay capital to the Fund when due.
 - Liquidity Risk: Lower liquidity means there are insufficient buyers or sellers to allow the Fund to sell or buy investments readily.

Charges

The charges are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

The entry and exit charges shown are maximum figures. In some cases you might pay less. Please refer to your financial advisor or the distributor for the actual entry and exit charges.

*Subject to a charge of up to 2% paid into the Fund where the Manager suspects excessive trading by an investor.

The ongoing charges figure is based on expenses for the twelve month period ending 31 December 2023. This figure may vary from year to year. It excludes portfolio trade-related costs, except costs paid to the custodian and any entry/exit charge paid to an underlying collective investment scheme (if any).

** To the extent the Fund undertakes securities lending to reduce costs, the Fund will receive 62.5% of the associated revenue generated and the remaining 37.5% will be received by BlackRock as the securities lending agent. As securities lending revenue sharing does not increase the costs of running the Fund, this has been excluded from the ongoing charges.

One-off charges taken before or after you invest	
Entry Charge	None
Exit Charge	None*

This is the maximum that might be taken out of your money before it is invested or before proceeds of your investments are paid out.

Charges taken from the Fund over each year	
Ongoing Charges	0.28%**
Charges taken from the Fund under certain conditions	
Performance Fee	None

Past Performance

Past performance is not a guide to future performance.

The chart shows the Fund's annual performance in GBP for each full calendar year over the period displayed in the chart. It is expressed as a percentage change of the Fund's net asset value at each year-end. The Fund was launched in 2021. The unit class was launched in 2021.

Performance is shown after deduction of ongoing charges. Any entry/exit charges are excluded from the calculation.

†¹MSCI World Index (50%), Bloomberg Global Aggregate Bond Index USD Hedged (50%) (GBP)

Historic performance to 31 December 2023

Practical Information

- ▶ The trustee and depositary of the Fund is The Bank of New York Mellon (International) Limited, which also acts as custodian.
- ▶ Further information about the Fund can be obtained from the latest annual report and half-yearly reports of the Fund. These documents are available free of charge in English. These can be found, along with other information, such as unit prices, on the BlackRock website at www.blackrock.com or by calling Investor Services on 0800 44 55 22.
- ▶ Investors should note that the tax legislation that applies to the Fund may have an impact on the personal tax position of your investment in the Fund.
- ▶ The Fund is a sub-fund of BIF, an umbrella structure comprising different sub-funds. This document is specific to the Fund and unit class stated at the beginning of this document. However, the Fund's prospectus, annual and half-yearly reports are prepared for the BIF umbrella.
- ▶ BlackRock Fund Managers Limited may be held liable solely on the basis of any statement contained in this document that is misleading, inaccurate or inconsistent with the relevant parts of the Fund's prospectus.
- ▶ Under UK law, BIF has segregated liability between its sub-funds (i.e. the Fund's assets will not be used to discharge the liabilities of other sub-funds within BIF). In addition, the Fund's assets are held separately from the assets of other sub-funds.
- ▶ Investors may switch their units in the Fund for units in another sub-fund within BIF, subject to meeting certain conditions as set out in the prospectus.
- ▶ The Remuneration Policy of the Management Company, which describes how remuneration and benefits are determined and awarded, and the associated governance arrangements, is available at www.blackrock.com/Remunerationpolicy or on request from the registered office of the Management Company.
