Schroder Islamic Global Equity Fund

a sub-fund of Schroder Investment Fund Company

Class Z Accumulation GBP (GB00BF780Y53)

This fund is managed by Schroder Unit Trusts Limited, which is a member of the Schroders Group.

Objectives and investment policy

Objectives

The fund aims to provide capital growth in excess of the Dow Jones Islamic Market World (Net Total Return) Index (after fees have been deducted) over a three to five year period by investing in equity and equity-related securities of companies worldwide.

Investment Policy

The fund is actively managed and invests its assets in equity and equity-related securities of Shariah compliant companies worldwide. The fund also focuses on a range of equity factors (also commonly known as investment styles). Companies will be simultaneously assessed on all targeted equity factors using a fully integrated systematic, bottom-up investment approach.

The Fund will focus on a range of equity factors (also commonly known as investment styles) that may include the following:

- Low volatility – involves evaluating indicators such as share price movement and historical performance to determine those securities that the investment adviser believes will experience smaller price movements than the global equity markets on average.
- Momentum – involves evaluating trends in stocks, sectors or countries within the relevant equity market.
- Quality – involves evaluating indicators such as a company's profitability, stability and financial strength.
- Value – involves evaluating indicators such as cash flows, dividends and earnings to identify securities that the investment adviser believes have been undervalued by the market.

- Small cap – involves investing in small-sized companies being companies that, at the time of purchase, are considered to be in the bottom 30% by market capitalisation of the global equity market and exhibit attractive characteristics based on the styles described above.

The Fund may also hold cash.

The fund may also hold warrants acquired as a result of corporate actions performed by the issuers of the fund's equity holdings. The fund will not otherwise invest in warrants.

The fund will not use derivatives.

The Fund is limited to investing in accordance with the composition of the benchmark but has the discretion to vary the weightings in the benchmark's securities.

Benchmark

The fund's performance should be assessed against its constraining benchmark being the Dow Jones Islamic Market World (Net Total Return) Index and compared against the the Investment Association Global sector average return. The investment adviser is limited to investing in accordance with the composition of the benchmark but has the discretion to vary the weightings in the benchmark's securities.

Dealing Frequency

You may redeem your investment upon demand. This fund deals daily.

Distribution Policy

This share class accumulates income received from the fund's investments, meaning it is kept in the fund and its value is reflected in the price of the share class.

Risk and reward profile

The risk and reward indicator

The risk category was calculated using simulated historical performance data and may not be a reliable indicator of the fund's future risk profile.

The fund's risk category is not guaranteed to remain fixed and may change over time.

A fund in the lowest category does not mean a risk-free investment.

The fund is in this category because it can take higher risks in search of higher rewards and its price may rise and fall accordingly.

Risk factors

Sharia Compliance Risk: Where the Fund receives income, or investments

become non-compliant with Sharia Investment Guidelines, it may need to make payments to charities to ensure ongoing Shariah compliance. This will reduce returns for investors. Please read the Prospectus for further details.

Performance risk: Investment objectives express an intended result but there is no guarantee that such a result will be achieved. Depending on market conditions and the macro economic environment, investment objectives may become more difficult to achieve.

Currency risk: The fund may lose value as a result of movements in foreign exchange rates, otherwise known as currency rates.

Liquidity risk: In difficult market conditions, the fund may not be able to sell a security for full value or at all. This could affect performance and could cause the fund to defer or suspend redemptions of its shares, meaning investors may not be able to have immediate access to their holdings.

Operational risk: Operational processes, including those related to the safekeeping of assets, may fail. This may result in losses to the fund.

Charges

One-off charges taken before or after you invest

Entry charge None

Exit charge None

This is the maximum that might be taken out of your money before it is invested or before the proceeds of your investment are paid out.

Charges taken from the fund over a year

Ongoing charges 0.55%

Charges taken from the fund under certain specific conditions

Performance fee

None

The charges you pay are used to pay the costs of running the fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

The entry and exit charges shown are maximum figures and in some cases you might pay less. You can find out the actual entry and exit charges from your financial advisor.

The ongoing charges figure is based on the last year's expenses for the year ending December 2023 and may vary from year to year.

Please see the prospectus for more details about the charges.

Past performance

Past performance is not a guide to future performance and may not be repeated. The value of investments may go down as well as up and you may not get back the amount you originally invested.

The chart shows performance in British pound after the ongoing charges and the portfolio transaction costs have been paid.

The fund was launched on 10/11/2020.
