

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

Global Sustainable Food and Water

a sub-fund of Schroder International Selection Fund SICAV

Class C Distribution GBP Hedged (LU2380234083)

This fund is managed by Schroder Investment Management (Europe) S.A., which is a member of the Schroders Group.

Objectives and investment policy

Objectives

The fund aims to provide capital growth by investing in equities of companies worldwide which help the transition towards the sustainable provision of food and water and which the investment manager deems to be sustainable investments.

Investment policy

The fund is actively managed and invests its assets in (i) sustainable investments, which are investments that the investment manager expects to contribute towards the provision of sustainable food and water including water management, agricultural equipment, agricultural inputs, food production, processing, packaging and distribution, food and water retail and recycling, and (ii) investments that the investment manager deems to be neutral under its sustainability criteria.

The fund does not directly invest in certain activities, industries or groups of issuers above the limits listed under "Sustainability-Related Disclosure" on the fund's webpage

<https://www.schroders.com/en/lu/private-investor/gfc>

The fund invests in companies that do not cause significant environmental or social harm and have good governance practices, as determined by the investment manager's rating criteria.

The investment manager may also engage with companies held by the fund to challenge identified areas of weakness on sustainability issues. More details on the investment manager's approach to sustainability and its engagement with companies are available on the webpage

<https://www.schroders.com/en/lu/private-investor/strategiccapabilities/sustainability/disclosures>

The fund invests at least two-thirds of its assets in a concentrated range of equities of companies worldwide.

The fund typically holds 35 – 60 companies.

The fund may also invest up to one-third of its assets directly or indirectly in other securities (including other asset classes), countries, regions, industries or currencies, investment funds, warrants and money market investments, and hold cash.

The fund may use derivatives with the aim of reducing risk or managing the fund more efficiently.

Benchmark

The fund does not have a target benchmark. The fund's performance should be compared against the MSCI AC World (Net TR) Index. The comparator benchmark is only included for performance comparison purposes and does not determine how the investment manager invests the fund's assets. The fund's investment universe is expected to overlap materially with the components of the comparator benchmark. The investment manager invests on a discretionary basis and there are no restrictions on the extent to which the fund's portfolio and performance may deviate from the comparator benchmark. The benchmark(s) does/do not take into account the environmental and social characteristics or sustainable objective (as relevant) of the fund. Please see appendix III of the fund's prospectus for further details. The performance of this share class is compared against the performance of the equivalent unhedged currency share class.

Dealing frequency

You may redeem your investment upon demand. This fund deals daily.

Distribution policy

This share class pays a semi-annual distribution at a variable rate based on gross investment income.

Risk and reward profile

The risk and reward indicator

The risk category was calculated using simulated historical performance data and may not be a reliable indicator of the fund's future risk profile

The fund's risk category is not guaranteed to remain fixed and may change over time.

A fund in the lowest category does not mean a risk-free investment.

The fund is in this category because it can take higher risks in search of higher rewards and its price may rise and fall accordingly.

Risk factors

Concentration risk: The fund may be concentrated in a limited number of geographical regions, industry sectors, markets and/or individual positions. This may result in large changes in the value of the fund, both up or down.

Performance risk: Investment objectives express an intended result but there is no guarantee that such a result will be achieved. Depending on market conditions and the macro economic environment, investment objectives may become more difficult to achieve.

Climate change risk: The fund's investments may be impacted by physical changes to the environment as a result of climate change, or indirectly from the transition to a low carbon economy.

Sustainability risk: The fund has the objective of sustainable investment. This means it may have limited exposure to some companies, industries or sectors and may forego certain investment opportunities, or dispose of certain holdings, that do not align with its sustainability criteria chosen by the investment manager. The fund may invest in companies that do not reflect the beliefs and values of any particular investor.

Currency risk: The fund may lose value as a result of movements in foreign exchange rates, otherwise known as currency rates.

Currency risk / hedged share class: The currency hedging of the share class may not be fully effective and residual currency exposure may remain. The cost associated with hedging may impact performance and potential gains may be more limited than for unhedged share classes.

Derivatives risk: Derivatives, which are financial instruments deriving their value from an underlying asset, may be used to manage the portfolio efficiently. The fund may also materially invest in derivatives including using short selling and leverage techniques with the aim of making a return. A derivative may not perform as expected, may create losses greater than the cost of the derivative and may result in losses to the fund.

Liquidity risk: In difficult market conditions, the fund may not be able to sell a security for full value or at all. This could affect performance and could cause the fund to defer or suspend redemptions of its shares, meaning investors may not be able to have immediate access to their holdings.

Operational risk: Operational processes, including those related to the safekeeping of assets, may fail. This may result in losses to the fund.

Charges

One-off charges taken before or after you invest

Entry charge 1.00%

Exit charge None

This is the maximum that might be taken out of your money before it is invested or before the proceeds of your investment are paid out.

Charges taken from the fund over a year

Ongoing charges 1.06%

Charges taken from the fund under certain specific conditions

Performance fee

None

The charges you pay are used to pay the costs of running the fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

The entry and exit charges shown are maximum figures and in some cases you might pay less. You can find out the actual entry and exit charges from your financial advisor.

The ongoing charges figure is based on the last year's expenses for the year ending December 2023 and may vary from year to year.

You can find more information about the charges in Section 3 of the fund's prospectus.

Past performance

Past performance is not a guide to future performance and may not be repeated. The value of investments may go down as well as up and you may not get back the amount you originally invested.

The chart shows performance in British pound after the ongoing charges and the portfolio transaction costs have been paid. Entry charges are excluded from calculations of past performance. The Benchmark performance is shown in the base currency of the fund.

The fund was launched on 05/10/2021.

The shareclass was launched on 05/10/2021.
