This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so that you can make an informed decision about whether to invest.

**PGIM Jennison U.S. Growth Fund (the "Fund")  
a Sub-Fund of PGIM Funds plc (the "Company")  
GBP I Distribution (Q) Class (IE00BYWYQQ52) (the "Class")**

The Company is managed by PGIM Investments (Ireland) Limited, part of the PGIM group of companies.

## Objectives and Investment Policy

The Fund seeks long-term growth of capital. The Fund will seek to achieve its investment objective by investing primarily in U.S. equity and equity-related securities of companies that exceed \$1 billion in market capitalisation and that have the potential to grow faster than other companies in terms of sales, earnings or higher returns on equity and assets.

The benchmark of the Fund is the Russell 1000 Growth Index (the "Benchmark"), however, the Sub-Investment Manager has discretion over the investments of the Fund. The Fund will be actively managed and does not intend to track the Benchmark. The Benchmark is being used by the Fund for performance comparison purposes only.

In determining which securities to buy and sell, the Sub-Investment Manager analyses individual companies that have liquidity, capitalisation and fundamental characteristics that it believes will contribute to longer-term performance, such as: attractive long-term earnings growth; high levels of unit, revenue and cash flow growth; improving sales momentum; high or improving profitability; and a strong competitive market position.

The Fund promotes sustainability characteristics through its incorporation of environmental, social and governance ("ESG") factors into its investment process and is therefore classified under Article 8 of the Sustainable Finance Disclosures Regulation ("SFDR"). The Fund seeks to maintain a weighted average carbon intensity that is at least 50% lower than that of the Russell 1000 Index.

The Fund can invest up to 25% of its portfolio in non-U.S. equity and equity-related securities traded or listed on Recognised Markets globally in both developed and emerging market countries.

The Fund may also hold cash, on an ancillary basis, and invest in money market instruments, which may comprise fixed term deposits, investment grade fixed and floating rate instruments including (but not limited to) certificates of deposit, banker acceptances, freely transferable promissory notes, commercial paper, floating rate notes, debentures, asset-backed commercial paper, government bonds, corporate bonds, asset-backed securities and money market funds. The Fund may not be leveraged in excess of 100% of its net asset value, through the use of derivatives.

The Fund does not invest in companies listed on certain exclusion lists published by third parties and based on ESG considerations, as detailed in the Supplement.

All net investment income, if any, will be declared as dividends. Net realised gains attributable to the distribution class shares are expected to be retained by the Fund.

Portfolio transaction costs, which are paid by the Fund in addition to the costs set out under "Charges" below, may have a material impact on the performance of the Fund.

Investors can buy and sell their shares on each business day of the Fund.

The Fund may not be appropriate for investors who plan to sell their shares within the short term.

The shares are denominated in British Pounds. The base currency of the Fund is the US Dollar.

**Market Risk:** Investments are subject to normal market fluctuations and the risks inherent in investment in international securities markets.

**Socially Responsible Investment Risk:** The Fund may achieve lower returns than an equivalent fund which does not pursue a socially responsible mandate.
