General Information

Description

Invesco Markets plc (the "Company") is an open-ended variable capital company with segregated liability between sub-funds of the Company ("Funds"). The Company was incorporated on 16 October 2008. It is organised under the laws of Ireland as a public limited company pursuant to the Companies Act 2014 (as amended) and as an undertaking for collective investment in transferable securities pursuant to the European Communities ("Undertakings for Collective Investment in Transferable Securities") Regulations 2011 (as amended) (the "UCITS Regulations") and the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations 2019 (the "Central Bank UCITS Regulations").

The Company is structured as an umbrella investment company, and comprises separate Funds which may be established from time to time by the Directors with the prior approval of the Central Bank of Ireland (the "Central Bank").

A Fund is defined as a separate portfolio of assets which is invested in accordance with the investment objective and policies set out in the relevant Supplement and to which all liabilities, income and expenditure attributable or allocated to such portfolio shall be applied and charged.

The particulars of each Fund will be set out in a separate Supplement. Any such Supplement shall list all of the existing Funds. Redeemable Shares/Shares (these terms are used interchangeably throughout the Financial Statements) of more than one Class may be issued in relation to a Fund. Information contained within the Supplements is selective and should be read in conjunction with the Prospectus. On the introduction of any new Class of Shares, the Company prepares and the Directors will issue documentation setting out the relevant details of each such Class of Shares. Except where otherwise stated or the context requires, capitalised terms have the meaning given to them in the Prospectus of the Company dated 30 November 2022.

There are 64 Funds in existence as at 30 November 2023 (30 November 2022: 63):

Investment Objectives and Policies

The Articles provide that the investment objective and policies for each Fund be formulated by the Directors at the time of the creation of the Fund.

The investment objective of each Fund is to seek to provide Shareholders/Redeemable Shareholders (these terms are used interchangeably throughout the Financial Statements) with a Target Performance linked to the performance of a Reference Index or Reference Asset by purchasing a portfolio of transferable securities that may (but is not obliged to) comprise all or a representative sample of the constituent securities of that Reference Index or Reference Asset. All Funds use financial derivative instruments and transactions and/or Over-The-Counter ("OTC") derivatives to achieve the Target Performance.

In such Funds, the return that the Shareholder will receive is dependent on the performance of the transferable securities, financial derivative instruments including OTC derivatives and the performance of any techniques used to link the transferable securities, financial derivative instruments and OTC derivatives to the Reference Index or Reference Asset. Thus the return Shareholders receive may not wholly correspond to the performance of the Reference Index or Reference Asset, depending on the structure of the relevant Fund as set out in the relevant Supplement. There is no assurance that the investment objective of any Fund whose performance is linked to the Reference Index or Reference Asset will actually be achieved.

The Company on behalf of the Funds intends to invest all or substantially all of the net proceeds of any issue of Shares in global equities and equity related securities (including but not limited to common stocks and other securities with equity characteristics, including but not limited to preferred stocks, warrants, forward foreign exchange contracts, rights (which are issued by a company to allow holders to subscribe for additional securities issued by that Company) and convertible securities, as well as depository receipts, for such securities all of which are traded on markets) financial derivative instruments, US treasury bills (the Commodity Funds only), units of other UCITS and swaps.

The swaps are an agreement between the Fund and the approved counterparty to exchange one stream of cash flows against another stream pursuant to a master agreement in accordance with the requirements of the international swaps and derivatives association, and such swaps may be funded, unfunded, total return or outperformance in nature.

Each approved counterparty to the swaps and the Company on behalf of the Fund have entered into a master agreement (including any supporting agreements) and will enter into confirmations for each swap transaction. Such confirmations may be entered into before or after the relevant transaction and may be in electronic form. The Authorised Participants may be counterparties to the swaps.

All Funds are Exchange Traded Funds ("ETFs"), which provide the flexibility of a share with the diversification of a Fund. They can be bought and sold like any other shares listed on a stock exchange. Any change in the investment objective or any material change to the investment policies of a Fund may only be made with the approval of the Directors, the relevant supervisory authority and by ordinary resolution of the Redeemable Shareholders of the Fund. Subject and without prejudice to the preceding sentence of this paragraph, in the event of a change of investment objective and/or policies of a Fund, a reasonable notification period must be given to each Redeemable Shareholder of the Fund to enable a Redeemable Shareholder to have its Redeemable Shares repurchased prior to the implementation of such change.

As at 30 November 2023 (30 November 2022: 62), the Company had 57 active Funds:

Investment Objectives and Policies (continued)

Invesco EURO STOXX 50 UCITS ETF

The investment objective of the Fund is to achieve the net total return performance of the EURO STOXX 50 Index (the "Reference Index") less fees, expenses and transaction costs. Dividends may be payable in respect of Class B shares only.

The Reference Index is a leading blue-chip index which provides a representation of STOXX Limited super sector leaders within the Eurozone. The Reference Index is comprised of 50 stocks from the Eurozone. It captures approximately 50% of the free float market capitalisation of the DJ Euro Stoxx Total Market Index, which in turn covers approximately 95% of the free float market capitalisation of the represented countries. The Reference Index has a free float market capitalisation subject to a 10% weighting cap.

The Fund shall not invest more than 10% of its net assets in other UCITS or other open or closed ended Collective Investment Schemes ("CIS"). The functional currency of the Fund is Euro and the Fund is presented in Euro.

Invesco MSCI Europe UCITS ETF

The investment objective of the Fund is to achieve the net total return performance of the MSCI Europe Index (the "Reference Index") less fees, expenses and transaction costs. The Fund does not intend to make dividend payments.

The Reference Index is a free float adjusted market capitalisation index that is designed to measure the equity performance of the developed markets in Europe.

The Fund shall not invest more than 10% of its net assets in other UCITS or other open or closed ended CIS. The functional currency of the Fund is Euro and the Fund is presented in Euro.

Invesco STOXX Europe Mid 200 UCITS ETF

The investment objective of the Fund is to achieve the net total return performance of the STOXX Europe Mid 200 Index (the "Reference Index") less fees, expenses and transaction costs. The Fund does not intend to make dividend payments.

The Reference Index is designed to provide a representation of mid-capitalisation companies in Austria, Belgium, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxembourg, the Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and the United Kingdom.

The Fund shall not invest more than 10% of its net assets in other UCITS or other open or closed ended CIS. The functional currency of the Fund is Euro and the Fund is presented in Euro. The Fund terminated on 3 May 2023.

Invesco STOXX Europe Small 200 UCITS ETF

The investment objective of the Fund is to achieve the net total return performance of the STOXX Europe Small 200 Index (the "Reference Index") less fees, expenses and transaction costs. The Fund does not intend to make dividend payments.

The Reference Index is designed to provide a representation of small capitalisation companies in Austria, Belgium, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxembourg, the Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and the United Kingdom.

The Fund shall not invest more than 10% of its net assets in other UCITS or other open or closed ended CIS. The functional currency of the Fund is Euro and the Fund is presented in Euro. The Fund terminated on 3 May 2023.

Invesco FTSE 100 UCITS ETF

The investment objective of the Fund is to achieve the performance of the FTSE 100 Index (the "Reference Index") less fees, expenses and transaction costs. The Fund does not intend to make dividend payments.

The Reference Index is a market-capitalisation weighted index representing the performance of the 100 largest UK-domiciled blue chip companies listed on the London Stock Exchange.

The Fund shall not invest more than 10% of its net assets in other UCITS or other open or closed ended CIS. The functional currency of the Fund is Sterling and the Fund is presented in Sterling.

Invesco FTSE 250 UCITS ETF

The investment objective of the Fund is to achieve the net total return performance of the FTSE 250 Index (the "Reference Index") less fees, expenses and transaction costs. The Fund does not intend to make dividend payments.

The Reference Index is a capitalisation-weighted index of the 250 mid-capitalised companies traded on the London Stock Exchange. The Reference Index is designed to measure the performance of the mid-cap capital and industry segments of the UK market not covered by the large cap FTSE 100. To qualify, companies must have a full listing on the London Stock Exchange with a Sterling or Euro dominated price on SETS or SETSm, or a firm quotation on SEAQ or SEATS, subject to eligibility screens. The Reference Index represents approximately 14% of the UK market capitalisation.

The Fund shall not invest more than 10% of its net assets in other UCITS or other open or closed ended CIS. The functional currency of the Fund is Sterling and the Fund is presented in Sterling.

Investment Objectives and Policies (continued)

Invesco MSCI USA UCITS ETF

The investment objective of the Fund is to achieve the net total return performance of the MSCI USA Index (the "Reference Index") less fees, expenses and transaction costs. Dividends may be payable in respect of Class Distributing Shares only.

The Reference Index is a free float-adjusted, market capitalisation-weighted Index designed to measure equity market performance in the US. The Reference Index provides a representation of 10 industry sectors with 612 constituents.

The Fund shall not invest more than 10% of its net assets in other UCITS or other open or closed ended CIS. The functional currency of the Fund is US Dollar and the Fund is presented in US Dollar.

Invesco Russell 2000 UCITS ETF

The investment objective of the Fund is to achieve the net total return performance of the Russell 2000 Index (the "Reference Index") less fees, expenses and transaction costs. The Fund does not intend to make dividend payments.

The Reference Index is a subset of the Russell 3000[®], representing approximately 10% of the market capitalisation of that index. The Reference Index is comprised of approximately the 2000 companies with the lowest market capitalisation of the Russell 3000[®] and therefore provides a representation of the performance of the US small cap sector.

The Fund shall not invest more than 10% of its net assets in other UCITS or other open or closed ended CIS. The functional currency of the Fund is US Dollar and the Fund is presented in US Dollar.

Invesco STOXX Europe 600 UCITS ETF

The investment objective of the Fund is to achieve the net total return performance of the STOXX Europe 600 Index (the "Reference Index") less fees, expenses and transaction costs. The Fund does not intend to make dividend payments.

The Reference Index is derived from the STOXX Total Market Index (TMI) and a subset of the STOXX Global 1800 Index. With a fixed number of 600 components, the Reference Index represents large, mid and small capitalisation companies across 18 countries of the European region: Austria, Belgium, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxembourg, the Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and the United Kingdom. The Reference Index has a free float market capitalisation subject to a 20% weighting cap.

The Fund shall not invest more than 10% of its net assets in other UCITS or other open or closed ended CIS. The functional currency of the Fund is Euro and the Fund is presented in Euro.

Invesco MSCI Japan UCITS ETF

The investment objective of the Fund is to achieve the net total return performance of the MSCI Japan Index (the "Reference Index") less fees, expenses and transaction costs. The Fund does not intend to make dividend payments.

The Reference Index is an equity Reference Index of securities listed on Japanese stock exchanges. Securities listed on the Tokyo, Osaka, Fukuoka, Nagoya, Sapporo, JASDAQ and NASDAQ JP exchanges are eligible for inclusion. The Reference Index represents Japanese companies that are available to investors worldwide and provides a representation of 10 industry sectors with 348 constituents.

The Fund shall not invest more than 10% of its net assets in other UCITS or other open or closed ended CIS. The functional currency of the Fund is US Dollar and the Fund is presented in US Dollar.

Invesco MSCI World UCITS ETF

The investment objective of the Fund is to achieve the net total return performance of the MSCI World Index (the "Reference Index") less fees, expenses and transaction costs. The Fund does not intend to make dividend payments.

The Reference Index is a free float adjusted market capitalisation weighted Reference Index that is designed to measure the performance of the global equities market.

The Fund shall not invest more than 10% of its net assets in other UCITS or other open or closed ended CIS. The functional currency of the Fund is US Dollar and the Fund is presented in US Dollar.

Invesco STOXX Europe 600 Optimised Media UCITS ETF

The investment objective of the Fund is to achieve the net total return performance of the STOXX Europe 600 Optimised Media Index (the "Reference Index") less fees, expenses and transaction costs. The Fund does not intend to make dividend payments.

The Reference Index is derived from the STOXX Europe 600 Supersector Media Index. The Reference Index provides a representation of STOXX Limited sector leaders based on the Industry Classification Benchmark (ICB). The Reference Index captures equal or improved liquidity and country diversification of the STOXX Europe 600 Index. The Reference Index applies a sector dependent liquidity cap that reduces the weighting of only those constituents whose average daily turnover, as a fraction of its free float market cap is below the sector average. This hybrid market cap with the liquidity weighting methodology optimises the tradability of the Reference Index while retaining the free float market capitalisation weighting across the larger and more liquid constituents. The Reference Index is weighted by free float market capitalisation and the composition and free float weights are reviewed quarterly.

The Fund shall not invest more than 10% of its net assets in other UCITS or other open or closed ended CIS. The functional currency of the Fund is Euro and the Fund is presented in Euro.

Investment Objectives and Policies (continued)

Invesco STOXX Europe 600 Optimised Personal & Household Goods UCITS ETF

The investment objective of the Fund is to achieve the net total return performance of the STOXX Europe 600 Optimised Personal & Household Goods Index (the "Reference Index") less fees, expenses and transaction costs. The Fund does not intend to make dividend payments.

The Reference Index is derived from the STOXX Europe 600 Supersector Personal & Household Goods Index. The Reference Index provides a representation of STOXX Limited sector leaders based on the Industry Classification Benchmark (ICB). The Reference Index captures equal or improved liquidity and country diversification of the STOXX Europe 600 Index.

The Reference Index applies a sector dependent liquidity cap that reduces the weighting of only those constituents whose average daily turnover, as a fraction of its free float market cap is below the sector average. This hybrid market cap with the liquidity weighting methodology optimises the tradability of the Reference Index while retaining the free float market capitalisation weighting across the larger and more liquid constituents. The Reference Index is weighted by free float market capitalisation and the composition and free float weights are reviewed quarterly.

The Fund shall not invest more than 10% of its net assets in other UCITS or other open or closed ended CIS. The functional currency of the Fund is Euro and the Fund is presented in Euro.

Invesco STOXX Europe 600 Optimised Banks UCITS ETF

The investment objective of the Fund is to achieve the net total return performance of the STOXX Europe 600 Optimised Banks Index (the "Reference Index") less fees, expenses and transaction costs. The Fund does not intend to make dividend payments.

The Reference Index is derived from the STOXX Europe 600 Supersector Banks Index. The Reference Index provides a representation of STOXX Limited sector leaders based on the Industry Classification Benchmark (ICB). The Reference Index captures equal or improved liquidity and country diversification of the STOXX Europe 600 Index.

The Reference Index applies a sector dependent liquidity cap that reduces the weighting of only those constituents whose average daily turnover, as a fraction of its free float market cap is below the sector average. This hybrid market cap with the liquidity weighting methodology optimises the tradability of the Reference Index while retaining the free float market capitalisation weighting across the larger and more liquid constituents. The Reference Index is weighted by free float market capitalisation and the composition and free float weights are reviewed quarterly.

The Fund shall not invest more than 10% of its net assets in other UCITS or other open or closed ended CIS. The functional currency of the Fund is Euro and the Fund is presented in Euro.

Invesco STOXX Europe 600 Optimised Chemicals UCITS ETF

The investment objective of the Fund is to achieve the net total return performance of the STOXX Europe 600 Optimised Chemicals Index (the "Reference Index") less fees, expenses and transaction costs. The Fund does not intend to make dividend payments.

The Reference Index is derived from the STOXX Europe 600 Supersector Chemicals Index. The Reference Index provides a representation of STOXX Limited sector leaders based on the Industry Classification Benchmark (ICB). The Reference Index captures equal or improved liquidity and country diversification of the STOXX Europe 600 Index. The Reference Index applies a sector dependent liquidity cap that reduces the weighting of only those constituents whose average daily turnover, as a fraction of its free float market cap is below the sector average.

This hybrid market cap with the liquidity weighting methodology optimises the tradability of the Reference Index while retaining the free float market capitalisation weighting across the larger and more liquid constituents. The Reference Index is weighted by free float market capitalisation and the composition and free float weights are reviewed quarterly.

The Fund shall not invest more than 10% of its net assets in other UCITS or other open or closed ended CIS. The functional currency of the Fund is Euro and the Fund is presented in Euro.

Invesco STOXX Europe 600 Optimised Construction & Materials UCITS ETF

The investment objective of the Fund is to achieve the net total return performance of the STOXX Europe 600 Optimised Construction & Materials Index (the "Reference Index") less fees, expenses and transaction costs. The Fund does not intend to make dividend payments.

The Reference Index is derived from the STOXX Europe 600 Supersector Construction & Materials Index. The Reference Index provides a representation of STOXX Limited sector leaders based on the Industry Classification Benchmark (ICB). The Reference Index captures equal or improved liquidity and country diversification of the STOXX Europe 600 Index.

The Reference Index applies a sector dependent liquidity cap that reduces the weighting of only those constituents whose average daily turnover, as a fraction of its free float market cap is below the sector average. This hybrid market cap with the liquidity weighting methodology optimises the tradability of the Reference Index while retaining the free float market capitalisation weighting across the larger and more liquid constituents. The Reference Index is weighted by free float market capitalisation and the composition and free float weights are reviewed quarterly.

The Fund shall not invest more than 10% of its net assets in other UCITS or other open or closed ended CIS. The functional currency of the Fund is Euro and the Fund is presented in Euro.

Investment Objectives and Policies (continued)

Invesco STOXX Europe 600 Optimised Financial Services UCITS ETF

The investment objective of the Fund is to achieve the net total return performance of the STOXX Europe 600 Optimised Financial Services Index (the "Reference Index") less fees, expenses and transaction costs. The Fund does not intend to make dividend payments.

The Reference Index is derived from the STOXX Europe 600 Supersector Financial Services Index. The Reference Index provides a representation of STOXX Limited sector leaders based on the Industry Classification Benchmark (ICB). The Reference Index captures equal or improved liquidity and country diversification of the STOXX Europe 600 Index. The Reference Index applies a sector dependent liquidity cap that reduces the weighting of only those constituents whose average daily turnover, as a fraction of its free float market cap is below the sector average. This hybrid market cap with the liquidity weighting methodology optimises the tradability of the Reference Index while retaining the free float market capitalisation weighting across the larger and more liquid constituents. The Reference Index is weighted by free float market capitalisation and the composition and free float weights are reviewed quarterly.

The Fund shall not invest more than 10% of its net assets in other UCITS or other open or closed ended CIS. The functional currency of the Fund is Euro and the Fund is presented in Euro.

Invesco STOXX Europe 600 Optimised Food & Beverage UCITS ETF

The investment objective of the Fund is to achieve the net total return performance of the STOXX Europe 600 Optimised Food & Beverage Index (the "Reference Index") less fees, expenses and transaction costs. The Fund does not intend to make dividend payments.

The Reference Index is derived from the STOXX Europe 600 Supersector Food & Beverage Index. The Reference Index provides a representation of STOXX Limited sector leaders based on the Industry Classification Benchmark (ICB). The Reference Index captures equal or improved liquidity and country diversification of the STOXX Europe 600 Index. The Reference Index captures equal or improved liquidity and country diversification of the STOXX Europe 600 Index. The Reference Index applies a sector dependent liquidity cap that reduces the weighting of only those constituents whose average daily turnover, as a fraction of its free float market cap is below the sector average. This hybrid market cap with the liquidity weighting methodology optimises the tradability of the Reference Index while retaining the free float market capitalisation weighting across the larger and more liquid constituents. The Reference Index is weighted by free float market capitalisation and the composition and free float weights are reviewed quarterly.

The Fund shall not invest more than 10% of its net assets in other UCITS or other open or closed ended CIS. The functional currency of the Fund is Euro and the Fund is presented in Euro.

Invesco STOXX Europe 600 Optimised Telecommunications UCITS ETF

The investment objective of the Fund is to achieve the net total return performance of the STOXX Europe 600 Optimised Telecommunications Index (the "Reference Index") less fees, expenses and transaction costs. The Fund does not intend to make dividend payments.

The Reference Index is derived from the STOXX Europe 600 Supersector Telecommunications Index. The Reference Index provides a representation of STOXX Limited sector leaders based on the Industry Classification Benchmark (ICB). The Reference Index captures equal or improved liquidity and country diversification of the STOXX Europe 600 Index. The Reference Index applies a sector dependent liquidity cap that reduces the weighting of only those constituents whose average daily turnover, as a fraction of its free float market cap is below the sector average. This hybrid market cap coupled with the liquidity weighting methodology optimises the tradability of the Reference Index while retaining the free float market capitalisation weighting across the larger and more liquid constituents. The Reference Index is weighted by free float market capitalisation and the composition and free float weights are reviewed quarterly.

The Fund shall not invest more than 10% of its net assets in other UCITS or other open or closed ended CIS. The functional currency of the Fund is Euro and the Fund is presented in Euro.

Investment Objectives and Policies (continued)

Invesco STOXX Europe 600 Optimised Utilities UCITS ETF

The investment objective of the Fund is to achieve the net total return performance of the STOXX Europe 600 Optimised Utilities Index (the "Reference Index") less fees, expenses and transaction costs. The Fund does not intend to make dividend payments.

The Reference Index is derived from the STOXX Europe 600 Supersector Utilities Index. The Reference Index provides a representation of STOXX Limited sector leaders based on the Industry Classification Benchmark (ICB). The Reference Index captures equal or improved liquidity and country diversification of the STOXX Europe 600 Index.

The Reference Index applies a sector dependent liquidity cap that reduces the weighting of only those constituents whose average daily turnover, as a fraction of its free float market cap is below the sector average. The Fund shall not invest more than 10% of its net assets in other UCITS or other open or closed ended CIS. The functional currency of the Fund is US Dollar and the Fund is presented in US Dollar.

Investment Objectives and Policies (continued)

Invesco S&P 500 UCITS ETF

The investment objective of the Fund is to achieve the net total return performance of the S&P 500 Index (the "Reference Index") (less fees, expenses and transaction costs). Dividends may be payable in respect of Class B shares only.

The Reference Index is an index of listed equities which focuses on the Large cap segment of the US market. It includes 500 US companies with a market capitalisation greater than USD 5 billion and listed on the NYSE or one of the NASDAQ exchanges. Reference Index constituents are selected by the Reference Index committee using a series of rules as guidelines.

On 8 December 2014, the Fund launched a Euro Hedged share class. The Reference Index is the S&P 500 Euro Daily Hedged Total Return (Net) Index ("Hedged Currency Version").

On 29 June 2020, the Fund launched a GBP Hedged share class. The Reference Index is the S&P 500 GBP Daily Hedged Total Return (Net) Index ("Hedged Currency Version").

Each share class may have a different equity basket and each share class tracks a different Reference Index.

The Fund shall not invest more than 10% of its net assets in other UCITS or other open or closed ended CIS. The functional currencies of Invesco S&P 500 UCITS ETF EUR Hedged, Invesco S&P 500 UCITS ETF B – Distributing and Invesco S&P 500 UCITS ETF GBP Hedged are Euro, US Dollar and Great British Pound, respectively. The functional currency of the Fund is US Dollar and the Fund is presented in US Dollar.

Invesco EURO STOXX Optimised Banks UCITS ETF

The investment objective of the Fund is to achieve the net total return performance of the EURO STOXX[®] Optimised Banks Index (Net Return) (the "Reference Index") less fees, expenses and transaction costs. The Fund does not intend to make dividend payments.

The Reference Index is a free float market cap weighted Index. It is a subset of the EURO STOXX[®] Banks Index which comprises the Eurozone subset of the STOXX[®] Europe 600 Banks Index. The EURO STOXX[®] Optimised Banks Index comprises financial services companies which are selected from the STOXX[®] Europe 600 Index by applying certain filters including a liquidity factor and a capping of 20%, 15% or 10% depending on the number of components in the Reference Index. The free float market capitalisation, liquidity factors (to ensure relevant components have a sufficiently liquid trading market) and cap factors (ensuring no component constitutes part of the Reference Index above a pre-determined percentage level) are reviewed quarterly. The Reference Index is comprised of certain financial services components of the STOXX[®] Europe 600 Index which contains the stocks traded on the major exchanges of 18 European countries: Austria, Belgium, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxembourg, the Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and the United Kingdom.

The Fund shall not invest more than 10% of its net assets in other UCITS or other open or closed ended CIS. The functional currency of the Fund is Euro, and the Fund is presented in Euro.

Invesco Commodity Composite UCITS ETF

The investment objective of the Fund is to seek to achieve the price return performance of the Solactive Commodity Composite Index (the "Reference Index") less fees, expenses and transaction costs. The Fund does not intend to make dividend payments.

The Reference Index is an index of sub-indices. The Index is designed to represent the collective performance of a wide range of commodities by providing an investible benchmark consisting of selected indices from leading global index sponsors and proprietary index providers. In order to ensure counterparty diversification, the Index includes sub-indices accessed via a minimum of three counterparties. The Reference Index is re-balanced on a quarterly basis back to equal weights on the third Wednesday of the last month of every quarter (March, June, September and December). The sub-indices are weighted equally within the Reference Index and are re-balanced back to equal weightings on a quarterly basis. As of the date of this Supplement, the Reference Index tracks the performance of the following four indices: MSCY Radar Dynamic Roll (Total Return) Index, Credit Suisse Custom 66-01E Total Return Index, Citi CUBES (DJ-UBSCI Weighted) Index Total Return and DBLCl Optimum Yield Balanced Index (each a "Sub-Index" and collectively the "Sub-Indices").

The eligible Sub-Indices are defined in the index methodology as set out by Solactive AG (the "Index Provider") and are chosen on the basis of, changes in market environment, the relevant Sub-Index's compliance with the requirements for UCITS eligibility; availability of performance history; and coverage of the investible range of commodities. The Reference Index universe is updated annually.

The Fund shall not invest more than 10% of its net assets in other UCITS or other open or closed ended CIS. The functional currency of the Fund is US Dollar, and the Fund is presented in US Dollar.

Investment Objectives and Policies (continued)

Invesco MSCI Europe Value UCITS ETF

The investment objective of the Fund is to achieve the net total return performance of the MSCI Europe Value Index (Bloomberg ticker: MSVEUNTR) (the "Reference Index"). The Fund does not intend to make dividend payments.

The Reference Index is a total return Index that aims to provide an alternative exposure to the traditional MSCI Europe Index. The Reference Index reweights the constituents of the MSCI Europe Index based on four fundamental accounting variables: sales, earnings, cash earnings and book value. The resultant Reference Index maintains all the constituents of the broad based parent Reference Index but effectively tilts the investment exposure toward Reference Index constituents with relatively lower valuations, hence displaying value characteristics. The Reference Index is comprised of 513 stocks from the following countries: Austria, Belgium, Switzerland, Germany, Denmark, Spain, Finland, France, Greece, Ireland, Italy, Norway, Portugal, Sweden, the Netherlands and the United Kingdom.

The Fund shall not invest more than 10% of its net assets in other UCITS or other open or closed ended CIS. The functional currency of the Fund is Euro, and the Fund is presented in Euro. The Fund terminated on 3 May 2023.

Invesco Morningstar US Energy Infrastructure MLP UCITS ETF

The investment objective of the Fund is to achieve the total performance of the Morningstar MLP Composite Index (the "Reference Index") less fees, expenses and transaction costs. There are no dividend entitlements for the Class Acc Shares. With respect to Class Dist Shares only and at the discretion of the Board of Directors, the Fund aims to pay quarterly dividends.

The Reference Index is a diversified, distribution-dollar weighted Index that targets the top 97% of publicly trading energy master limited partnerships in the United States by market capitalisation.

The Fund shall not invest more than 10% of its net assets in other UCITS or other open or closed ended CIS. The functional currency of the Fund is US Dollar and the Fund is presented in US Dollar.

Invesco Goldman Sachs Equity Factor Index World UCITS ETF

The investment objective of the Fund is to achieve the total performance of the Goldman Sachs Equity Factor Index World Net Total Return USD (the "Reference Index") less fees, expenses and transaction costs. The Fund does not intend to make dividend payments.

The Reference Index is a long-only index and the components of the Reference Index are selected in accordance with the Reference Index calculation methodology and are designed to represent the performance of a portfolio of global equities reflective of the five investment factors detailed below. The portfolio of global equities is drawn from a universe of stocks of approximately 11,500 securities in 85 markets around the world. There is no geographical or market focus within the Reference Index. On each monthly rebalancing day the Reference Index will draw its component stocks in accordance with the rules based methodology by reference to the following five investment factors: Quality Factor, Value Factor, Low Beta Factor, Momentum Factor and Size Factor.

The Fund shall not invest more than 10% of its net assets in other UCITS or other open or closed ended CIS. The functional currency of the Fund is US Dollar and the Fund is presented in US Dollar. The Fund terminated on 3 May 2023.

Invesco JPX-Nikkei 400 UCITS ETF

The investment objective of the Fund is to achieve the performance of the JPX-Nikkei 400 Net Total Return Index (the "Reference Index") less fees, expenses and transaction costs. The Fund does not intend to make dividend payments.

The Reference Index is a stock Reference Index of the top 400 stocks selected from among ordinary shares listed on the Tokyo Stock Exchange's ("TSE") 1st Section, 2nd Section, Mothers and JASDAQ markets.

On 11 March 2015, the Fund launched a EUR Hedged share class and a USD Hedged share class. The Reference Index for the EUR and USD Hedged share classes is the JPX-Nikkei 400 Net TR EUR Hedged Net Total Return Index and JPX-Nikkei 400 Net TR USD Hedged Net Total Return Index ("Hedged Currency Version") respectively.

Each share class may have a different equity basket and each share class tracks a different Reference Index.

The Fund shall not invest more than 10% of its net assets in other UCITS or other open or closed ended CIS. The functional currencies of Invesco JPX-Nikkei 400 UCITS ETF EUR Hedged and Invesco JPX-Nikkei 400 UCITS ETF USD Hedged are Euro and US Dollar, respectively. The functional currency of the Fund is Japanese Yen and the Fund is presented in Japanese Yen.

Invesco NASDAQ Biotech UCITS ETF

The investment objective of the Fund is to achieve the total return performance of the NASDAQ Biotechnology Index (the "Reference Index") less fees, expenses and transaction costs. The Fund does not intend to make dividend payments.

The Reference Index is designed to represent the performance of biotechnology and pharmaceutical securities on the NASDAQ Stock Market®.

The Fund shall not invest more than 10% of its net assets in other UCITS or other open or closed ended CIS. The functional currency of the Fund is US Dollar and the Fund is presented in US Dollar.

Investment Objectives and Policies (continued)

Invesco Goldman Sachs Equity Factor Index Europe UCITS ETF

The investment objective of the Fund is to achieve the total performance of the Goldman Sachs Equity Factor Index Europe Net Total Return EUR (the "Reference Index") less fees, expenses and transaction costs. The Fund does not intend to make dividend payments.

The components of the Reference Index are selected in accordance with the Reference Index calculation methodology and are designed to represent the performance of a portfolio of European equities reflective of the five investment factors (Quality Factor, Value Factor, Low Beta Factor, Momentum Factor and Size Factor). The portfolio of European equities is drawn from a universe of stocks of approximately 2,500 securities in 36 European markets.

The Fund shall not invest more than 10% of its net assets in other UCITS or other open or closed ended CIS. The functional currency of the Fund is Euro and the Fund is presented in Euro. The Fund terminated on 3 May 2023.

Invesco Real Estate S&P US Select Sector UCITS ETF

The investment objective of the Fund is to achieve the net total return performance of the S&P Select Sector Capped 20% Real Estate TR Index (the "Reference Index") less fees, expenses and transaction costs. The Fund did not intend to make dividend payments.

The Reference Index is the S&P Select Sector Capped 20% Real Estate TR (Net) Index represents the real estate sector of the S&P 500 Index excluding mortgage REITs. All constituent securities are classified according to the Global Industry Classification Standard (GICS®) and maintain the same classification as that found in the parent S&P 500. The Reference Index follows a modified market capitalisation weight methodology. The weight of each stock is based on its float adjusted market cap but is modified such that no stock has a weight over 19% of the Reference Index as of each quarterly rebalancing.

The Fund shall not invest more than 10% of its net assets in other UCITS or other open or closed ended CIS. The functional currency of the Fund is US Dollar and the Fund is presented in US Dollar.

Invesco Bloomberg Commodity UCITS ETF

The investment objective of the Fund is to seek to achieve the total return performance of the Bloomberg Commodity Index (the "Reference Index") less fees, expenses and transaction costs. The Fund does not intend to make dividend payments.

The Reference Index is designed to be a highly liquid and diversified benchmark for commodities. 24 commodities in six groups (grains, energy, industrial metals, precious metals, livestock & softs) are currently eligible for inclusion and constituents are selected based on four main principles: economic significance, diversification, continuity and liquidity.

The Fund shall not invest more than 10% of its net assets in other UCITS or other open or closed ended CIS. The functional currency of Invesco Bloomberg Commodity UCITS ETF EUR Hedged is Euro. The functional currency of the Fund is US Dollar and the Fund is presented in US Dollar.

Invesco KBW NASDAQ FinTech UCITS ETF

The investment objective of the Fund is to achieve the net total return performance of the KBW NASDAQ Financial Technology Net Total Return Index (the "Reference Index") less fees, expenses and transaction costs. The Fund does not intend to make dividend payments.

The Reference Index provides exposure to companies that leverage technology to deliver financial products and services. Eligible companies must distribute products and services nearly exclusively electronically, and their revenue mix must be mostly fee-based.

The Fund shall not invest more than 10% of its net assets in other UCITS or other open or closed ended CIS. The functional currency of the Fund is US Dollar and the Fund is presented in US Dollar.

Invesco Bloomberg Commodity Ex-Agriculture UCITS ETF

The investment objective of the Fund is to seek to achieve the total return performance of the Bloomberg ex-Agriculture and Livestock 20/30 Capped Index (the "Reference Index") less fees, expenses and transaction costs. The Fund does not intend to make dividend payments.

The Reference Index is based on the Bloomberg Commodity Index (the "Parent Reference Index"). The Parent Reference Index is designed to be a highly liquid and diversified benchmark for commodities. 24 commodities in six groups (grains, energy, industrial metals, precious metals, livestock & softs) are currently eligible for inclusion in the Parent Reference Index and constituents are selected based on four main principles: economic significance, diversification, continuity and liquidity. The composition of the Reference Index is derived from the Parent Reference Index; however, three of the above groups are not eligible for inclusion in the Reference Index, namely: grains, livestock and softs. The Reference Index contains 11 commodities in three groups, namely energy, industrial metals, and precious metals.

The Fund shall not invest more than 10% of its net assets in other UCITS or other open or closed ended CIS. The functional currency of the Fund is US Dollar and the Fund is presented in US Dollar.

Invesco MSCI Europe ex-UK UCITS ETF

The investment objective of the Fund is to achieve the net total return performance of the MSCI Europe ex-UK Index (the "Reference Index") less fees, expenses and transaction costs. The Fund does not intend to make dividend payments.

The Reference Index is a free float adjusted market capitalisation Index that is designed to measure the equity performance of the developed markets in Europe excluding the United Kingdom.

The Fund shall not invest more than 10% of its net assets in other UCITS or other open or closed ended CIS. The functional currency of the Fund is Euro and the Fund is presented in Euro.

Investment Objectives and Policies (continued)

Invesco MSCI Saudi Arabia UCITS ETF

The investment objective of the Fund is to achieve the performance of the MSCI Saudi Arabia 20/35 Index (the "Reference Index") less fees, expenses and transaction costs. The Fund does not intend to make dividend payments.

The Reference Index is a free float adjusted market capitalisation index that is designed to measure the large and mid-cap segments of the Saudi Arabian market.

The Fund shall not invest more than 10% of its net assets in other UCITS or other open or closed ended CIS. The functional currency of the Fund is US Dollar and the Fund is presented in US Dollar.

Invesco Goldman Sachs Equity Factor Index Emerging Markets UCITS ETF

The investment objective of the Fund is to achieve the performance of the Goldman Sachs Equity Factor Index Emerging Markets Net Total Return USD (the "Reference Index") less fees, expenses and transaction costs. The Fund does not intend to make dividend payments.

The components of the Reference Index are selected in accordance with the Reference Index calculation methodology and are designed to represent the performance of a portfolio of emerging market equities reflective of the five investment factors. The portfolio of emerging market equities is drawn from a universe of stocks of approximately 850 securities in 24 markets around the world.

The Fund shall not invest more than 10% of its net assets in other UCITS or other open or closed ended CIS. The functional currency of the Fund is US Dollar and the Fund is presented in US Dollar. The Fund terminated on 3 May 2023.

Invesco Communications S&P US Select Sector UCITS ETF

The investment objective of the Fund is to achieve the net total return performance of the S&P Select Sector Capped 20% Communications Services Index (the "Reference Index") less fees, expenses and transaction costs. The Fund does not intend to make dividend payments.

The S&P Select Sector Capped 20% Communications Services Index represents the communications sector of the S&P 500 Index. All constituent securities are classified according to the Global Industry Classification Standard (GICS[®], the standard recognised by market participants worldwide for global sector and industry classifications) and maintain the same classification as that found in the parent S&P 500.

The Fund shall not invest more than 10% of its net assets in other UCITS or other open or closed ended CIS. The functional currency of the Fund is US Dollar and the Fund is presented in US Dollar.

Invesco S&P SmallCap 600 UCITS ETF

The investment objective of the Fund is to achieve the performance of the S&P SmallCap 600 Index (the "Reference Index") less fees, expenses and transaction costs. The Fund does not intend to make dividend payments.

The Reference Index tracks the performance of the small cap firms in the US market, consisting of US companies with unadjusted cap of USD450 million to USD 2.1 billion. The Reference Index contains the smallest 600 companies from the S&P 1500 composite index, which is the largest 1500 companies in the US market based on market capitalisation. The Reference Index is weighted by float-adjusted market capitalisation. For eligible firms, a primary listing on one of the following exchanges is required: NYSE, NASDAQ, Investors Exchange or CBOE, and at least 50% of shares outstanding must be available for trading. The Reference Index rebalances quarterly.

The Fund shall not invest more than 10% of its net assets in other UCITS or other open or closed ended CIS. The functional currency of the Fund is US Dollar and the Fund is presented in US Dollar.

Invesco MSCI Kuwait UCITS ETF

The investment objective of the Fund is to achieve the performance of the MSCI Kuwait 20/35 Index (the "Reference Index") less fees, expenses and transaction costs. The Fund does not intend to make dividend payments.

The Reference Index is a free float adjusted market-capitalisation index that is designed to measure the large and mid-cap segments of the Kuwaiti market. The Reference Index draws its constituents primarily from the financials, materials, communication services, real estate, and industrials sectors. The Reference Index is comprised of 9 constituents, and covers approximately 85% of the free float-adjusted market capitalisation in Kuwait. It has a total market capitalisation of €30 billion. Due to the market dominance of certain constituents in this market, it is necessary when replicating the Reference Index for the Fund to avail of the increased diversification limits permitted under the UCITS Regulations (which allow the Fund exposure to the shares and/or debt securities of one issuing body to be up to a maximum of 35%). The Reference Index is rebalanced quarterly.

The Fund shall not invest more than 10% of its net assets in other UCITS or other open or closed ended CIS. The functional currency of the Fund is US Dollar and the Fund is presented in US Dollar.

Investment Objectives and Policies (continued)

Invesco S&P 500 ESG UCITS ETF

The investment objective of the Fund is to achieve the net total return performance of the S&P 500 ESG Index (the "Reference Index") less fees, expenses and transaction costs. The Fund does not intend to make dividend payments.

The Reference Index is a broad-based, market-cap-weighted index that is designed to measure the performance of securities meeting sustainability criteria, while maintaining similar overall industry group weights as the S&P 500 Index (the "Parent Index"). The Reference index has been constructed to provide a risk and return profile similar to that of the Parent Index, while improving ESG characteristics.

The Reference Index is constructed from the Parent Index by excluding from the Parent Index securities that: 1) are involved (as defined by the Index Provider) in business activities in tobacco, controversial weapons, oil sands, small arms, military contracting and thermal coal (extraction and power generation); 2) are classified as Non-Compliant according to the United Nations Global Compact (UNGC) principles are excluded; 3.) have a S&P Down Jones Index ("DJI") ESG Score that falls within the worst 25% of ESG scores from each Global Industry Classification Standard ("GICS®") industry group. The S&P DJI ESG Scores employ data gathered through SAM's Corporate Sustainability Assessment (CSA), which SAM has developed and administered over 20 years.

The Fund shall not invest more than 10% of its net assets in other UCITS or other open or closed ended CIS. The functional currency of Invesco S&P 500 ESG UCITS EUR Hedged is Euro. The functional currency of the Fund is US Dollar and the Fund is presented in US Dollar.

Invesco NASDAQ-100 Swap UCITS ETF

The investment objective of the Fund is to achieve the net total return performance of the NASDAQ-100 Notional Net Total Return Index (the "Reference Index") less fees, expenses and transaction costs. Dividends may be payable in respect of Class B shares only.

The Reference Index is designed to reflect the performance of 100 of the largest NASDAQ-listed non-financial companies based on market capitalisation.

The Fund shall not invest more than 10% of its net assets in other UCITS or other open or closed ended CIS. The functional currency of the Fund is US Dollar and the Fund is valued in US Dollar.

Invesco S&P China A 300 Swap UCITS ETF

The investment objective of the Fund is to achieve the net total return performance of the S&P China A 300 Swap Index (the "Reference Index") less fees, expenses and transaction costs. The Fund does not intend to make dividend payments.

The Reference Index is designed to measure the performance of the 300 largest and most liquid stocks, as measured by total market capitalisation, in the China A-Shares market, while representing the sector balance of the broad market, subject to liquidity and Earnings per Share ("EPS") screens.

The Fund shall not invest more than 10% of its net assets in other UCITS or other open or closed ended CIS. The functional currency of the Fund is US Dollar and the Fund is valued in US Dollar.

Invesco S&P China A MidCap 500 Swap UCITS ETF

The investment objective of the Fund is to achieve the net total return performance of the S&P China A MidCap 500 Swap Index (the "Reference Index") less fees, expenses and transaction costs. The Fund does not intend to make dividend payments.

The Reference Index is designed to measure the performance of the mid-cap segment of the China A-Shares market. It comprises the 500 largest stocks by total market capitalisation in the S&P China A 1800 Index, after excluding stocks in the S&P China A 300 Index.

The Fund shall not invest more than 10% of its net assets in other UCITS or other open or closed ended CIS. The functional currency of the Fund is US Dollar and the Fund is valued in US Dollar.

Invesco Bloomberg Commodity Carbon Tilted UCITS ETF*

The investment objective of the Fund is to achieve the total return performance of the Bloomberg Commodity Carbon Tilted Index (the "Reference Index") less fees, expenses and transaction costs. The Fund does not intend to make dividend payments.

The Reference Index is based on the Bloomberg Commodity Index (the "Parent Reference Index"). The Parent Reference Index is designed to be a highly liquid and diversified benchmark for commodities and is composed of futures contracts on physical commodities. Commodities are classified into six groups (grains, energy, industrial metals, precious metals, livestock & softs) currently eligible for inclusion in the Parent Reference Index and constituents are selected based on four main principles: economic significance, diversification, continuity and liquidity.

The Fund shall not invest more than 10% of its net assets in other UCITS or other open or closed ended CIS. The functional currency of the Fund is US Dollar and the Fund is presented in US Dollar.

**The Fund launched on 26 July 2023.*

Investment Manager's Report

Fund review

The Funds of the Company aim to track the total return of a reference index or a strategy by investing in liquid and listed equities and use derivatives techniques such as index swap agreement negotiated with defined Swap Counterparts (OTC swap transaction) to achieve the index or strategy performance.

These swap-backed ETFs own securities that are not necessarily the ones in the index or strategy that the ETF is replicating as the index or strategy performance is obtained through the OTC swap transaction.

The specific investment objectives and policies for each Fund will be formulated by the Directors and set out in the Company's Prospectus and Fund Supplements. In particular, the reference index or strategy of each Fund is described in detail in the relevant Fund Supplement.

For individual Funds performance please refer to pages 29 to 31.

For Funds launched after 30 November 2022, the return, the tracking difference and tracking error are calculated from the launch date.

**The Fund terminated on 3 May 2023.

Investment Manager's Report (continued)

Performance Analysis (continued)

Market overview

Global equities

During the period from the end of November 2022 to the end of November 2023, the global capital markets reflected a period of recovery, contrasting with the previous year's dominant themes of the Russo-Ukrainian War, rising inflation rates, and contractionary monetary policies. The MSCI World index witnessed a significant rebound, posting a 13% increase, indicating a recovery in investor confidence and market stability. This recovery could be attributed to the easing inflation and the impact of monetary and fiscal policies that began to stabilise economic conditions. However, global economic growth occurred at a rate of only 3% according to an estimate of the IMF, which was lower than last year and continued to be uneven. Emerging markets generally fared better than advanced economies, with Europe lagging behind North America and major Asian economies.

Emerging Markets equities

During the period, emerging markets encountered a volatile phase, reflected in the modest 4.2% increase in the MSCI EM Index. This segment faced significant headwinds, primarily influenced by external economic forces and internal challenges. A stronger US dollar and rising US yields exerted considerable pressure on emerging markets, especially those heavily reliant on foreign investment and dollar-denominated debt.

China's economic difficulties, notably in its real estate sector, played a substantial role in shaping the emerging market landscape. China's struggles had far-reaching impacts, given its significant influence on other emerging market countries. This situation was exacerbated by an increase in global market volatility, partly due to concerns over China's property crisis and a spike in US Treasury yields. The Federal Reserve's policies significantly influenced emerging markets. The realization of higher US interest rates led to currency devaluations against the US dollar in several emerging economies in the second and third quarter of the year. Countries that had begun to reduce borrowing costs, like Chile and Hungary, experienced notable currency declines.

The performance of emerging markets was not uniformly negative. Some regions showed resilience, adapting to the changing economic conditions. For instance, the Indian economy expanded by 7% on a year-over-year basis in the third quarter of 2023, surpassing the growth rates of the previous year. However, the overall sentiment remained cautious, given the uncertainties surrounding China's economic weakness.

China equities

The MSCI China Index experienced a 4.3% decrease, reflecting specific challenges within the Chinese market. This decline was partly linked to ongoing issues in the real estate sector, characterised by reduced investment and persistent financial difficulties. These sectoral challenges have had a ripple effect, dampening consumer spending and employment prospects, thereby restraining domestic consumption growth. Additionally, China's export sector has been affected by the global economic slowdown, further impacting the market.

China's economy is poised for a modest recovery after a weak 2022, with GDP growth forecasted at 5% for 2023, but expected to decelerate to 4.2% and 4.1% in the following two years, distinctly below the official growth target of 5%. The country's monetary policy was supportive, with the potential for additional reductions in interest rates and reserve requirements to stimulate economic activity. However, challenges such as capital outflows and the depreciation of the Chinese currency arose due to increasing interest rate differentials with other major economies. Fiscal policy played a more supportive role, particularly in infrastructure development and urban village reconstruction, initiatives that are expected to invigorate local economies. These measures are part of the government's broader strategy to stabilise the housing market and implement structural reforms to enhance long-term economic growth.

US equities

During the review period, the MSCI USA Index witnessed a surge of 13.7%. This growth primarily stemmed from the robustness of the US economy, which demonstrated significant resilience. Key drivers included sustained expansion in private consumption and investment, albeit against the backdrop of tighter monetary and financial policies. The US economy's strength was particularly evident in the third quarter of 2023, where it achieved an annualised growth rate of 5.2%.

A pivotal factor influencing the equity market was the Federal Reserve's monetary policy. Initially stringent to address inflation concerns, there was an expectation of an earlier policy relaxation from mid-2024 onwards. This shift, coupled with a downward trend in inflation, fostered a positive market sentiment. Employment growth, although decelerating, supported the economic momentum without significantly triggering wage-induced inflation. US equities also benefited from favourable international trade dynamics in the first half of 2023. A noteworthy development was the surge in petroleum exports, reaching record highs, positively impacting the GDP growth. This occurred despite the prevailing strength of the US dollar. Despite the overall positive outlook, certain challenges remained. The US continued to grapple with a sizeable budget deficit and escalating long-term fiscal pressures. Additionally, the banking sector encountered early stresses in 2023, and the bond market showed signs of volatility, posing potential risks to the financial landscape.

European equities

In the European equity market, the period from late 2022 to late 2023 presented a notable contrast between economic challenges and market resilience. Despite facing sluggish GDP growth, with projections showing only a 0.7% increase in 2023, gradually improving to 1.2% in 2024, the Euro Stoxx 50 Index recorded a significant growth of 13.4%. This growth occurred amidst a backdrop of stringent monetary policies by the European Central Bank (ECB) to combat persistent core inflation. The ECB raised the deposit rate to 4% and the main refinancing rate to 4.5%, both reaching historical highs. These measures were part of broader efforts to stabilise prices and spur economic growth in the face of rising inflation.

Investment Manager's Report (continued)

Performance Analysis (continued)

Market overview (continued)

European equities (continued)

The Euro area's resilience, reflected in the performance of its equity markets, could be attributed to several factors. Strategic policy measures were crucial in navigating economic and geopolitical challenges, such as the region's response to the energy crisis and maintaining fiscal stability. The coordinated policies to counteract global geopolitical tensions, including the management of the fallout from the war between Russia and Ukraine, played a significant role. European firms showed fortitude during the energy crisis, benefiting from reduced energy demand and an expanded liquefied natural gas import capacity. Furthermore, the EU's cohesive response, which included the allocation of substantial funds for member states, contributed to regional stability, positively influencing investor sentiment.

Japanese equities

During the reporting period, Japanese equities, tracked by the Nikkei 225 index, surged by 22.5% outperforming the other indices. This growth occurred despite economic challenges, including a 0.5% contraction in GDP in the third quarter of 2023, influenced by inflation and subdued private consumption and investment. However, Japan's economy demonstrated resilience, supported by decreasing energy prices, government subsidies, and upward trends in nominal wages. The Japanese government's initiatives, particularly in green and digital investment, alongside high corporate profits, played a key role in bolstering business investment and domestic demand. The Bank of Japan maintained a flexible monetary policy, keeping the short-term policy interest rate at -0.1% and adjusting its yield curve control measures.

Commodities

During the reporting period, the commodity market experienced a notable downturn. The Bloomberg Commodity index (BCOM) decreased by 7.7%. The transition from a phase of rapid post-pandemic economic recovery to more normalised growth rates lowered the demand for commodities significantly. This shift particularly affected industrial commodities and energy products, as the global economic slowdown led to reduced consumption and investment in these areas. In the energy sector, initial price surges due to conflicts and supply constraints eventually gave way to a decline. This was a result of several factors, including increased production in certain regions, a partly relaxation of geopolitical tensions, and strategic releases from global reserves, which collectively contributed to stabilising and then lowering energy prices. The gas price, as indicated by the IMF gas price index, fell by nearly 50%, whereas the price of oil saw a decline of 8.2%. Additionally, agricultural commodities experienced a drop in prices, which can be attributed to enhanced supply conditions resulting from favourable weather and improved yields. On average, the prices of food and beverages decreased by 2%. Conversely, gold and other precious metals, often used as a hedge against inflation, saw an increase in value. The price of gold surged by almost 15%, and silver prices rose by 11.4%.

Assenagon Asset Management S.A.

Date: December 2023

Directors' Report

The Directors present herewith the Annual Report and Audited Financial Statements for the financial year ended 30 November 2023.

Statement of Directors' Responsibilities

The Directors are responsible for preparing the Directors' Report and the audited financial statements in accordance with the Companies Act 2014 (as amended) and the applicable regulations.

Irish company law requires the Directors to prepare financial statements for each financial year. Under the law, the Directors have elected to prepare the Company's financial statements in accordance with International Financial Reporting Standards as adopted by the European Union (IFRS). Under company law, the Directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the assets, liabilities and financial position of the company as at the financial year end date and of the profit or loss of the company for the financial year and otherwise comply with the Companies Act 2014 (as amended).

In preparing those Financial Statements, the Directors are required to:

- select suitable accounting policies for the Company Financial Statements and then apply them consistently;
- make judgements and estimates that are reasonable and prudent;
- state whether the Financial Statements have been prepared in accordance with applicable accounting standards, identify those standards, and note the effect and the reasons for any material departure from those standards; and
- prepare the Financial Statements on the going concern basis unless it is inappropriate to presume that the Company will continue in business.

The Directors confirm that they have complied with the above requirements in preparing the financial statements. These Financial Statements have been prepared on a going concern basis. Please see liquidity risks outlined in Note 2(D).

The Directors are responsible for keeping adequate accounting records which correctly explain and record the transactions of the Company, enable at any time the assets, liabilities, financial position and profit or loss of the Company to be determined with reasonable accuracy and which enable them to ensure that the financial statements are prepared in accordance with IFRS and comply with the provisions of the Companies Act 2014 (as amended), the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011 (as amended) (the "UCITS Regulations"), the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations 2019 (the "Central Bank UCITS Regulations"), the Listing Rules of the various stock exchanges and enable the financial statements to be audited. They are also responsible for safeguarding the assets of the Company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

In this regard, Northern Trust International Fund Administration Services (Ireland) Limited (the "Administrator") has been appointed for the purpose of maintaining adequate accounting records and Northern Trust Fiduciary Services (Ireland) Limited (the "Depositary") have been appointed for the purpose of safeguarding the assets of the Company.

The accounting records are maintained at the Administrator's registered offices at George's Court, 54–62 Townsend Street, Dublin 2, D02 R156, Ireland.

The Financial Statements are published on the etf.invesco.com website. The Directors and Invesco UK Services Limited are responsible for the maintenance and integrity of the financial information included on this website. Legislation in the Republic of Ireland governing the presentation and dissemination of the Financial Statements may differ from legislation in other jurisdictions.

Principal activities

The investment objective of the Company for each Fund is to seek to provide Shareholders with a Target Performance linked to the performance of a Reference Index or Reference Asset by purchasing a portfolio of transferable securities that may (but is not obliged to) comprise all or a representative sample of the constituent securities of that Reference Index or Reference Asset. Each Fund may also use financial derivative instruments and transactions and/or OTC derivatives to achieve the Target Performance.

Results for the financial year

The results of operations for the financial year are set out in the Statement of Comprehensive Income on page 439.

Directors' Report (continued)

Corporate governance statement

The European Communities (Directive 2006/46/EC) Regulations (S.I. 450 of 2009 and S.I. 83 of 2010) (the "Regulations") requires the inclusion of a corporate governance statement in the Directors' Report.

On 25 October 2012, the Board of Directors formally adopted the Corporate Governance Code for Irish Domiciled Collective Investment Schemes as published by Irish Funds ("IF"), as the Company's corporate governance code. This publication is available from the IF website (www.irishfunds.ie).

The Board of Directors has assessed the measures included in the IF Code as being consistent with its corporate governance practices and procedures for the financial year.

As at 30 November 2023, the Company is in compliance with the IF Code.

The Company is also subject to corporate governance practices imposed by:

- (i) The Companies Act 2014 (as amended) which is available for inspection at the registered office of the Company and may also be obtained at: www.irishstatutebook.ie;
- (ii) The Constitutional Documents of the Company which are available for inspection at the registered office of the Company at Ground Floor, 2 Cumberland Place, Fenian Street, D02 H0V5, Dublin 2, Ireland and at the Companies Registration Office in Ireland;
- (iii) The Central Bank of Ireland in the Central Bank UCITS Regulations which can be obtained from the website at: www.centralbank.ie;

The Directors confirm that they have complied with the above requirements in preparing the financial statements.

- (iv) Deutsche Börse through the trading model of XETRA for shares (including ETFs) which can be obtained from the Deutsche Börse website at: www.deutscheboerse.com;
- (v) The Irish Stock Exchange ("ISE") trading as Euronext Dublin continuing obligations requirements for open ended Funds which can be obtained from the ISE website at: www.ise.ie;
- (vi) The Swiss Stock Exchange (SIX) continuing obligations requirements for investment Funds which can be obtained from the SIX website at: www.six-swiss-exchange.com;
- (vii) The Italian Stock Exchange (Euronext Milan) continuing obligations requirements for ETFs which can be obtained from the Euronext Milan website at www.euronext.com/en/markets/milan;
- (viii) The Euronext Amsterdam continuing obligations requirements for ETFs which can be obtained from the Euronext Amsterdam website at www.euronext.com;
- (ix) The Tel Aviv Stock Exchange continuing obligations requirements for ETFs which can be obtained from the Tel Aviv Stock Exchange website at www.tase.co.il; and
- (x) The Mexican Stock Exchange (Mexica Bolsa) continuing obligations requirements for ETFs which can be obtained from the Mexican Bolsa website at www.bmv.mx.

By virtue of the listing on the ISE, certain Funds are admitted to trading on the London Stock Exchange ("LSE") on a "cross listing" basis. In the context, however, of corporate governance, the Funds are not subject to the listing requirements of the London Stock Exchange but instead comply with those of the ISE. In respect of Funds admitted to trading on Xetra, SIX, Euronext Milan, Euronext Amsterdam and Tel Aviv, the Funds are listed directly with the exchanges and are required to comply with the listing requirements of the local jurisdiction. Please refer to listing details on pages 12 and 13.

Board Diversity

The Board considers that diversity in its membership is beneficial and therefore seeks to ensure that the Board's size, structure and composition, including skills, knowledge, experience and diversity is sufficient for the effective direction and control of the Company. However, as the Board is committed to appointing the most appropriate candidates as Directors of the Company, it has not set any measurable objectives in respect of this policy.

Internal control and risk management systems

The Company is responsible for establishing and maintaining adequate internal control and risk management systems of the Company in relation to the financial reporting process.

The Company has procedures in place to ensure all relevant accounting records are properly maintained and are readily available, including production of annual and semi-annual Financial Statements. The Company has appointed Northern Trust International Fund Administration Services (Ireland) Limited (the "Administrator") as its administrator consistent with the regulatory framework applicable to investment fund companies such as the Company.

The Administrator has functional responsibility for the preparation of the Company's annual and semi-annual Financial Statements and the maintenance of its accounting records. On appointing the Administrator the Board of Directors (the "Board") noted that it is regulated by the Central Bank of Ireland and, in the Board's opinion, has significant experience as an administrator.

The Board also noted the independence of the Administrator from the Company's Investment Manager and Sub Investment Manager. Subject to the supervision of the Board, the appointment of the Administrator is intended to manage rather than eliminate the risk of failure to achieve the Company's financial reporting objectives and can only provide reasonable and not absolute assurance against material misstatement or loss.

The annual and semi-annual Financial Statements of the Company are required to be approved by the Board and filed with the Central Bank of Ireland and the relevant Stock Exchange within the relevant respective time periods. The statutory Financial Statements are required to be audited by independent auditors who report annually to the Board on their findings.

Directors' Report (continued)

Internal control and risk management systems (continued)

The Board evaluates and discusses significant accounting and reporting issues as the need arises. The Board reviews the Financial Statements prior to their approval. The annual Financial Statements are subject to independent audit by KPMG (the "Auditor") and the Board receives and considers a report from the Auditor as to the audit process.

This report includes observations as to the extent to which (i) the annual Financial Statements provide a true and fair view (ii) adjustments were made to the accounting records maintained by the Administrator in order to provide Financial Statements giving a true and fair view and (iii) potential significant control weaknesses identified by the Auditor during the audit process. The Auditor presents this report at the board meeting at which the Financial Statements are presented to the Board for approval. The Board also invites the Auditor to attend the board meeting prior to the commencement of the audit, at which the Auditor presents the audit plan to the Board.

Shareholders' meetings

The convening and conduct of Shareholders' meetings are governed by the Constitutional Documents of the Company and the Companies Act 2014 (as amended). Although the Directors may convene an extraordinary general meeting of the Company at any time, the Directors are required to convene an annual general meeting of the Company within fifteen months of the date of the previous annual general meeting.

Shareholders representing not less than one-tenth of the paid up share capital of the Company may also request the Directors to convene a Shareholders' meeting.

Not less than twenty one clear days' notice of every annual general meeting and any meeting convened for the passing of a special resolution must be given to Shareholders and fourteen clear days' notice must be given in the case of any other general meeting unless the Auditors of the Company and all the Shareholders of the Company entitled to attend and vote agree to shorter notice.

Two Shareholders present either in person or by proxy constitutes a quorum at a general meeting. Every holder of shares present in person or by proxy who votes on a show of hands is entitled to one vote and the holders of Subscriber shares shall have one vote in respect of all of the Subscriber shares in issue. On a poll, every holder of shares present in person or by proxy is entitled to one vote in respect of each share held by him.

The chairman of a general meeting of the Company or at least two Shareholders present in person or by proxy having the right to vote at the meeting or any holder or holders of shares present in person or by proxy representing at least one tenth of the shares in issue having the right to vote at such meeting may demand a poll.

Shareholders may resolve to sanction an ordinary resolution or special resolution at a Shareholders' meeting. An ordinary resolution of the Company or of the Shareholders of a particular Fund or Class requires a simple majority of the votes cast by the Shareholders voting in person or by proxy at the meeting at which the resolution is proposed. A special resolution of the Company or of the Shareholders of a particular Fund or Class requires a majority of not less than 75% of the Shareholders present in person or by proxy and voting in general meeting in order to pass a special resolution including a resolution to amend the Constitutional Documents of the Company.

Composition of the board of directors

Unless otherwise determined by an ordinary resolution of the Company in general meeting, the number of Directors may not be less than two. Currently the Board is composed of four Directors.

The business of the Company is managed by the Directors, who exercise all such powers of the Company as are not by the Companies Act 2014 (as amended) or by the Constitutional Documents of the Company required to be exercised by the Company in a general meeting.

A Director may, and the Company Secretary of the Company on the requisition of a Director will, at any time summon a meeting of the Directors. Questions arising at any meeting of the Directors are determined by a majority of votes. In the case of an equality of votes, the chairman has a casting vote. The quorum necessary for the transaction of business at a meeting of the Directors is two.

The Directors who held office during the financial year are:

Feargal Dempsey (Irish) was appointed on 5 December 2012 as a Director and appointed as a Chairman on 21 January 2020.

Feargal Dempsey (Irish): Mr. Dempsey is an independent director and consultant to the ETF industry and serves on the boards of several management company and fund boards. He has held senior positions at Barclays Global Investors/BlackRock including Head of Product Strategy iShares EMEA, Head of Product Structuring iShares EMEA and Head of Product Governance. Previously he has also served as Head of Legal to ETF Securities and as a senior lawyer in Pioneer Investments. Mr. Dempsey holds a BA (Hons) and an LLB (Hons) from University College Galway and was admitted to the Roll of Solicitors in Ireland in 1996 and to the England and Wales Law Society in 2005. He has served on the legal and regulatory committee of IF and the ETF Working Group at EFAMA.

Gary Buxton (British/Irish) was appointed on 13 April 2015.

Gary Buxton (British/Irish): Head of EMEA ETFs for Invesco is responsible for Product and Sales Strategy, Product Implementation and Capital Markets in EMEA, having joined Invesco in August 2017 on its acquisition of Source. He joined Invesco as a founder of the business in 2008 as the Chief Operating Officer and was responsible for Product, Trading, Technology and Risk Management. From 2008 to 2012 and from 2015 to 2017 Mr. Buxton was also the Chief Financial Officer of Source. Prior to starting Source, Mr. Buxton was a director in the Hedge Fund division of Merrill Lynch where his role focused on product development. Mr. Buxton started his career at Deloitte in London and is a qualified Chartered Accountant (FCA). Mr. Buxton is a Director of Invesco Markets plc, Invesco Markets II plc, Invesco Markets III plc, Short-Term Investments Company (Global Series) plc, Invesco Investment Management Limited and Invesco UK Services Limited. Mr. Buxton is a British and Irish national.

Directors' Report (continued)

Composition of the board of directors (continued)

Sarah (Katy Walton) Jones (British) was appointed on 6 September 2021.

Sarah (Katy Walton) Jones (British) is the Head of Legal for Invesco's EMEA ETP business and a director of Invesco UK Services Limited, Invesco Markets plc, Invesco Markets II plc and Invesco Markets III plc. Before joining Invesco, Ms. Jones was General Counsel and Head of Compliance for Source ETFs which was bought by Invesco in August 2017. Prior to her role at Source, Ms. Jones was General Counsel and a director of Citco Financial Products (London) Limited. She played a key role in setting up Citco's rated lending platform and was responsible for advising on all legal, regulatory and compliance issues relating to Citco's hedge fund financing, structured products and derivative transactions. Ms. Jones has a broad range of experience in both corporate, finance and commercial contracts having previously been a corporate associate specialising in private equity and public and private M&A transactions at Weil Gotshall & Manges and Freshfields Bruckhaus Deringer. Ms. Jones has a history degree from Cambridge University and is qualified as a solicitor in England and Wales.

Lisa Martensson (Swedish) was appointed on 1 August 2022.

Lisa Martensson is a Swedish national with residency in Ireland since 2002. Ms. Martensson is an Independent Non-Executive Director and Chairperson with over 30 years' experience in banking, asset management and the financial services industry. Ms. Martensson left HSBC Securities Services (Ireland) DAC in 2019, where she was Chairperson of the board and Global Head of Client Experience. Prior to that, Ms. Martensson has held various senior executive positions within HSBC including Head of Business Development for Asset Managers in Europe and the US, and Head of Relationship Management in Ireland. She studied Economics at Stockholm University in Sweden and holds a Certificate and Diploma (with distinction) in Company Direction from the Institute of Directors (IOD). She is elected Chair of the Irish Fund Directors Association (IFDA) and Chair of their ESG working group. From 1998 to 2001, Ms. Martensson worked for Bank of New York in Brussels, Belgium and prior to that she worked ten years for SEB Asset Management in Sweden and Luxembourg.

Directors' and company secretary's interests and transactions

Apart from those noted below, there are no contracts or arrangements of any significance in relation to the business of the Company in which the Directors or Company Secretary had any interest as defined in the Companies Act 2014 (as amended) at any time during the financial year. No Director has any interest, direct or indirect, in any assets which have been or are proposed to be acquired or disposed of by, or issued to, the Company and except as disclosed below no Director is materially interested in any contract or arrangement subsisting at the date hereof which is unusual in its nature and conditions or significant in relation to the business of the Company.

The Directors and Company Secretary had no beneficial interest in the Redeemable Shares of the Company at 30 November 2023 or at any time during the financial year (30 November 2022: Nil).

Gary Buxton is a Director of the Company, the Manager and the Chief Operating Officer of Invesco UK Services Limited. Feargal Dempsey is a Director of the Company and also a Director of the Manager. Katy Walton Jones is a Director of the Company and Head of Legal for Invesco's EMEA ETP business. Lisa Martensson is a Director of the Company and also a Director of the Manager.

Details of all related party transactions are contained in Note 13 to the Company Financial Statements.

Distributions

Distributions declared for the financial year are as set out in Note 7.

Review of business and future developments

A review of market activities can be found in the Investment Manager's Report on pages 27 to 33.

The Funds will continue to pursue their investment objectives as set out in the Prospectus and Supplements.

Principal Risks and Uncertainties

The main risks arising from the Company's financial instruments are as described in Note 2 to the Financial Statements.

Transactions with connected persons

Any transaction carried out with a UCITS by a management company or depositary to the UCITS, the delegates or sub-delegates of the management company or depositary, and any associated or group of such a management company, depositary, delegate or sub-delegate ("connected persons") must be carried out as if negotiated at arm's length. Transactions must be in the best interests of the Shareholders.

The Manager is satisfied that there are arrangements (evidenced by written procedures) in place, to ensure that the obligations set out in Regulation 43(1) of the Central Bank UCITS Regulations are applied to all transactions with connected persons, and is satisfied that transactions with connected persons entered into during the financial year complied with the obligations set out in Regulation 43(1) of the Central Bank UCITS Regulations.

Directors' Report (continued)

Directors' compliance statement

The Directors acknowledge that they are responsible for securing the Company's compliance with the relevant obligations as set out in section 225 of the Companies Act 2014 (as amended).

The Directors confirm that:

- 1) A compliance policy statement has been drawn up that sets out policies, that in our opinion are appropriate to the Company, respecting compliance by the Company with its relevant obligations;
- 2) appropriate arrangements or structures are in place that are, in our opinion, designed to secure material compliance with the Company's relevant obligations; and
- 3) during the financial year, the arrangements or structures referred to in (2) have been reviewed.

Independent Auditors

KPMG, Chartered Accountants, were appointed statutory auditor on 3 June 2020 and have expressed their willingness to continue in office pursuant to section 383(2).

Statement of relevant audit information

The following applies in the case of each person who was a Director of the Company, as disclosed on page 8, at the time this report is approved:

- (a) so far as the Director is aware, there is no relevant audit information of which the Company's statutory auditors are unaware; and
- (b) the Director has taken all the steps that he ought to have taken as a director in order to make himself aware of any relevant audit information and to establish that the Company's statutory auditors are aware of that information.

Sustainable Finance Disclosure Regulation ("SFDR")

Invesco S&P 500 ESG UCITS ETF and Invesco Bloomberg Commodity Carbon Tilted UCITS ETF are the only Article 8 Funds within the meaning of Article 8 of Regulation (EU) 2019/2088 on sustainability disclosures in the financial services sector.

Except for Invesco S&P 500 ESG UCITS ETF and Invesco Bloomberg Commodity Carbon Tilted UCITS ETF, the investments underlying the Funds do not take into account the EU criteria for environmentally sustainable economic activities.

Significant events during the financial year

For details on significant events during the financial year, please refer to Note 23 of the financial statements.

Significant events since the financial year end

A new Prospectus was issued on 18 December 2023 replacing the Prospectus from 30 November 2022.

Post year end NAV movements

The Net Asset Value ("NAV") at the balance sheet date and the latest practicable date prior to the publication of the report has been shown in the table below. Movement in the NAV of the funds relate to capital movement, none of the funds underlying index has dropped significantly since the balance sheet date.

Fund Name	AUM 30 November 2023 EUR	AUM 19 March 2024 EUR	% move since Balance Sheet date
Invesco MSCI Japan UCITS ETF	4,208,360	5,910,086	40.44%
Invesco STOXX Europe 600 Optimised Media UCITS ETF	5,776,034	6,149,069	6.46%

Directors' Report (continued)

Significant events since the financial year end (continued)

There were no significant events since the financial year end.

Going Concern

Having assessed the principal risks and the other matters included in connection with the Financial Statements, the Directors consider it appropriate to adopt the going concern basis in preparing the Financial Statements. This assessment of going concern covers the 12 month period after the signing of these Financial Statements. The Directors have arrived at this opinion by considering, among other matters:

- the portfolio of investments held by the Company materially consists of liquid investments; and
- the Company has no material borrowings.

On Behalf of the Board of Directors

Director: Lisa Martensson

Director: Feargal Dempsey

Date: 27 March 2024

Depository Report to the Shareholders

We, Northern Trust Fiduciary Services (Ireland) Limited, appointed Depository to Invesco Markets plc (the "Company") provide this report solely in favour of the shareholders of the Company for the financial year ended 30 November 2023 (the "Annual Accounting Period"). This report is provided in accordance with the UCITS Regulations – European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011, as amended, which implemented Directive 2009/65/EU into Irish Law (the "Regulations"). We do not, in the provision of this report, accept nor assume responsibility for any other purpose or person to whom this report is shown.

In accordance with our Depository obligation as provided for under the Regulations, we have enquired into the conduct of the Company for the Annual Accounting Period and we hereby report thereon to the shareholders of the Company as follows;

We are of the opinion that the Company has been managed during the Annual Accounting Period, in all material respects:

- (i) in accordance with the limitations imposed on the investment and borrowing powers of the Company by the constitutional documents and by the Regulations; and
- (ii) otherwise in accordance with the provisions of the constitutional document and the Regulations.

For and on behalf of

Northern Trust Fiduciary Services
(Ireland) Limited

Date: 27 March 2024

Independent Auditors' Report to the Members of Invesco Markets plc

Report on the audit of the financial statements

Opinion

We have audited the financial statements of Invesco Markets plc (the "Company") for the year ended 30 November 2023 set out on pages 45 to 628, which comprise the Schedule of Investments, the Statement of Financial Position, the Statement of Comprehensive Income, the Statement of Changes in Net Assets Attributable to Holders of Redeemable Shares, the Statement of Cash Flows and related notes, including the summary of significant accounting policies set out in Note 1.

The financial reporting framework that has been applied in their preparation is Irish Law and International Financial Reporting Standards (IFRS) as adopted by the European Union.

In our opinion:

- the financial statements give a true and fair view of the assets, liabilities and financial position of the Company as at 30 November 2023 and of its increase in net assets attributable to holders of redeemable shares for the year then ended;
- the financial statements have been properly prepared in accordance with IFRS as adopted by the European Union; and
- the financial statements have been properly prepared in accordance with the requirements of the Companies Act 2014, the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011 and the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations 2019.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (Ireland) (ISAs (Ireland)) and applicable law. Our responsibilities under those standards are further described in the Auditor's Responsibilities section of our report. We believe that the audit evidence we have obtained is a sufficient and appropriate basis for our opinion. Our audit opinion is consistent with our report to the Board of Directors.

We were appointed as auditor by the directors on 3 June 2020. The period of total uninterrupted engagement is the four years ended 30 November 2023. We have fulfilled our ethical responsibilities under, and we remained independent of the Company in accordance with, ethical requirements applicable in Ireland, including the Ethical Standard issued by the Irish Auditing and Accounting Supervisory Authority (IAASA) as applied to listed public interest entities. No non-audit services prohibited by that standard were provided.

Conclusions relating to going concern

In auditing the financial statements, we have concluded that the director's use of the going concern basis of accounting in the preparation of the financial statements is appropriate. Our evaluation of the director's assessment of the entity's ability to continue to adopt the going concern basis of accounting included considering the inherent risks to the Company's business model and analysis of how those risks might affect the Company's financial resources or ability to continue operations over the going concern period. The risks we considered most likely to adversely affect the Company's available financial resources over this period was the availability of capital to meet operating costs and other financial commitments (liquidity risk) and the valuation of investments at fair value as a result of market performance (price risk). In the director's assessment it was noted that the Company held, and continues to hold, a large number of shares through different sub-funds, and the composition of the sub-funds' portfolios reduces the going concern risk resulting from market performance of the investments. The director's assessment is consistent with our understanding of the Company.

Based on the work we have performed, we have not identified any material uncertainties relating to events or conditions that, individually or collectively, may cast significant doubt on the Company's ability to continue as a going concern for a period of at least twelve months from the date when the financial statements are authorised for issue.

Our responsibilities and the responsibilities of the directors with respect to going concern are described in the relevant sections of this report.

Detecting irregularities including fraud

We identified the areas of laws and regulations that could reasonably be expected to have a material effect on the financial statements and risks of material misstatement due to fraud, using our understanding of the entity's industry, regulatory environment and other external factors and inquiry with the directors. In addition, our risk assessment procedures included:

- Inquiring with the directors and other management as to the Company's policies and procedures regarding compliance with laws and regulations, identifying, evaluating and accounting for litigation and claims, as well as whether they have knowledge of non-compliance or instances of litigation or claims;
- Inquiring of directors as to the Company's high-level policies and procedures to prevent and detect fraud, as well as whether they have knowledge of any actual, suspected or alleged fraud;
- Inquiring of directors regarding their assessment of the risk that the financial statements may be materially misstated due to irregularities, including fraud;
- Inspecting the Company's regulatory and legal correspondence;
- Reading Board minutes; and
- Performing planning analytical procedures to identify any usual or unexpected relationships.

We discussed identified laws and regulations, fraud risk factors and the need to remain alert among the audit team.

Firstly, the Company is subject to laws and regulations that directly affect the financial statements including companies and financial reporting legislation. We assessed the extent of compliance with these laws and regulations as part of our procedures on the related financial statement items, including assessing the financial statement disclosures and agreeing them to supporting documentation when necessary.

Independent Auditors' Report to the Members of Invesco Markets plc (continued)

Detecting irregularities including fraud (continued)

Secondly, the Company is subject to many other laws and regulations where the consequences of non-compliance could have a material effect on amounts or disclosures in the financial statements, for instance through the imposition of fines or litigation. We identified the following areas as those most likely to have such an effect: certain aspects of company legislation recognising the financial and regulated nature of the Company's activities and its legal form.

Auditing standards limit the required audit procedures to identify non-compliance with these non-direct laws and regulations to inquiry of the directors and inspection of regulatory and legal correspondence, if any. These limited procedures did not identify actual or suspected non-compliance.

We assessed events or conditions that could indicate an incentive or pressure to commit fraud or provide an opportunity to commit fraud. As required by auditing standards, we performed procedures to address the risk of management override of controls and the risk of fraudulent revenue recognition. On this audit we do not believe there is a fraud risk related to revenue recognition. We did not identify any additional fraud risks.

Key audit matters: our assessment of risks of material misstatement

Key audit matters are those matters that, in our professional judgment, were of most significance in the audit of the financial statements and include the most significant assessed risks of material misstatement (whether or not due to fraud) identified by us, including those which had the greatest effect on: the overall audit strategy; the allocation of resources in the audit; and directing the efforts of the engagement team. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

In arriving at our audit opinion above, we determined that there was one key audit matter in the financial statements of the Company, as follows (unchanged from 2022):

Accuracy, Valuation and Ownership of financial assets at fair value through profit or loss EUR 36,136,861,392 (2022: EUR 30,542,564,869) and financial liabilities at fair value through profit or loss EUR 99,642,610 (2022: EUR 232,627,496)

Refer to pages 495 to 497 (Note 1C-accounting policy) and pages 531 to 561 (Note 2G-fair value information)

The key audit matter

The Company's financial assets and financial liabilities at fair value through profit or loss (collectively "investments") make up 99.89% of the net assets value ("NAV") of the Company, and are considered to be the key driver for the Company's results.

While the nature of the Company's investments do not require significant levels of judgement, they are identified as a significant area of audit focus due to their significance in the context of the financial statements as a whole.

Investments held by the Company include outperformance swaps, total return swaps, forward currency contracts, equities and US treasury bills.

The Company's investments have the greatest impact on our overall audit strategy and allocation of resources throughout our audit.

How the matter was addressed in our audit

Our procedures included:

- We obtained an understanding of the process in place to record investment transactions and to value the portfolio of investments;
- We engaged our valuation specialists to assist us in independently repricing and valuing 99.9% of investments held at 30 November 2023;
- We obtained independent external confirmation of all positions held in the investment portfolio from the Depository and derivative counterparties, reconciling them to the Company's records; and
- We assessed the adequacy of the disclosures of investments in accordance with the fair value hierarchy set out in IFRS 13.

Based on evidence obtained, we found no material misstatements as a result of the procedures performed.

Our application of materiality and an overview of the scope of our audit

Materiality for the financial statements as a whole was set at EUR 362.23 million (2022: EUR 303.44 million), determined with reference to a benchmark of the Company's net asset value ("NAV") of which it represents 100 basis points as at 30 November 2023.

In applying our judgment in determining the most appropriate benchmark, the factors, which had the most significant impact were:

- our understanding/view that one of the principal considerations for investors in assessing the financial performance is Company NAV; and
- the stability of the Company, resulting from its nature, where the Company is in its life cycle and the industry and economic activity in which the Company operates.

In applying our judgment in determining the percentage to be applied to the benchmark, the following qualitative factors, had the most significant impact, increasing our assessment of materiality:

- the Company's ownership structure and the way in which the entity is financed;
- the limited amount of external debt on the Company's balance sheet; and
- the stability of the business environment in which it operates.

Independent Auditors' Report to the Members of Invesco Markets plc (continued)

Our application of materiality and an overview of the scope of our audit (continued)

We applied Company materiality to assist us determine the overall audit strategy.

Performance materiality for the Company was set at 75% (2022: 75%) of materiality for the financial statements as a whole, which equates to EUR 271.67 million (2022: EUR 227.58 million). We applied this percentage in our determination of performance materiality because we did not identify any factors indicating an elevated level of risk.

In applying our judgement in determining performance materiality, the following factors were considered to have the most significant impact on our assessment of performance materiality:

- entity level control deficiencies, such as in the control environment;
- the number and severity of deficiencies in control activities, including those that may be pervasive;
- turnover of senior management or key financial reporting personnel;
- the number and/or value of detected misstatements;
- the value of uncorrected misstatements, including the cumulative current period effect of immaterial prior period uncorrected misstatements; and
- management's attitude towards correcting misstatements.

We applied Company performance materiality to assist us determine what risks were significant risks for the Company.

We report to the Board of Directors any corrected or uncorrected identified misstatements exceeding 5 basis points of the Company's net asset value, in addition to other audit misstatements below that threshold that we believe warranted reporting on qualitative grounds. With specific regard to the valuation of the Company's financial assets and liabilities at fair value through profit or loss, we also report to the Board of Directors all corrected and uncorrected misstatements we have identified through our audit with a value in excess of 50 basis points of each sub-fund's NAV.

In planning the audit, we applied materiality to assist us in determining audit scoping and risk assessment. Our audit was undertaken to the materiality and performance materiality level specified above and was all performed by a single engagement team in Dublin.

Other information

The directors are responsible for the other information presented in the Annual Report together with the financial statements. The other information comprises the information included in the Directors' Report, the information included in the General Information, the Investment Objectives and Policies, the Investment Manager's Report, the Depositary's Report to the Shareholders, the Statement of Changes in Composition of Portfolio (Unaudited), Remuneration Disclosure (Unaudited), Securities Financing Transactions Regulations (Unaudited) and Sustainable Finance Disclosure Regulation (Unaudited).

The financial statements and our auditor's report thereon do not comprise part of the other information. Our opinion on the financial statements does not cover the other information and, accordingly, we do not express an audit opinion or, except as explicitly stated below, any form of assurance conclusion thereon.

Our responsibility is to read the other information and, in doing so, consider whether, based on our financial statements audit work, the information therein is materially misstated or inconsistent with the financial statements or our audit knowledge. Based solely on that work we have not identified material misstatements in the other information.

Based solely on our work on the other information undertaken during the course of the audit, we report that:

- we have not identified material misstatements in the Directors' Report;
- in our opinion, the information given in the Directors' Report is consistent with the financial statements; and
- in our opinion, the Directors' Report has been prepared in accordance with the Companies Act 2014.

Corporate governance disclosures

In addition we report, in relation to information given in the Corporate Governance Statement on page 35, that:

- based on knowledge and understanding of the Company and its environment obtained in the course of our audit, no material misstatements in the information identified above have come to our attention; and
- based on the work undertaken in the course of our audit, in our opinion:
 - the description of the main features of the internal control and risk management systems in relation to the process for preparing the financial statements is consistent with the financial statements and has been prepared in accordance with the Companies Act 2014;
 - the Corporate Governance Statement contains the information required by the Companies Act 2014; and
 - the Corporate Governance Statement contains the information required by the European Union (Disclosure of Non-Financial and Diversity Information by certain large undertakings and groups) Regulations 2017.

Our opinions on other matters prescribed the Companies Act 2014 are unmodified

We have obtained all the information and explanations which we consider necessary for the purpose of our audit.

In our opinion, the accounting records of the Company were sufficient to permit the financial statements to be readily and properly audited and the Company's financial statements are in agreement with the accounting records.

Independent Auditors' Report to the Members of Invesco Markets plc (continued)

Our application of materiality and an overview of the scope of our audit (continued)

We have nothing to report on other matters on which we are required to report by exception

The Companies Act 2014 requires us to report to you if, in our opinion, the disclosures of directors' remuneration and transactions required by Sections 305 to 312 of the Act are not made. We have nothing to report in this regard.

Respective responsibilities and restrictions on use

Responsibilities of directors for the financial statements

As explained more fully in the directors' responsibilities statement set out on page 34, the directors are responsible for: the preparation of the financial statements including being satisfied that they give a true and fair view; such internal control as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error; assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern; and using the going concern basis of accounting unless they either intend to liquidate the Company or to cease operations, or have no realistic alternative but to do so.

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (Ireland) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the financial statements.

A fuller description of our responsibilities is provided on IAASA's website at <https://iaasa.ie/publications/description-of-the-auditors-responsibilities-for-the-audit-of-the-financial-statements/>.

The purpose of our audit work and to whom we owe our responsibilities

Our report is made solely to the Company's members, as a body, in accordance with Section 391 of the Companies Act 2014. Our audit work has been undertaken so that we might state to the Company's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Company and the Company's members, as a body, for our audit work, for our report, or for the opinions we have formed.

The accompanying notes form an integral part of the financial statements.

Notes to the Financial Statements

1. Significant Accounting Policies

A) General Information

Basis of preparation

These Financial Statements have been prepared in accordance with International Financial Reporting Standards as adopted by European Union ("IFRS") and the International Financial Reporting Interpretations Committee ("IFRIC") interpretations endorsed by the European Union ("EU") and with those parts of the Companies Act 2014 (as amended) applicable to companies reporting under IFRS and the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011 (as amended) (the "UCITS Regulations") and the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations 2019 (the "Central Bank UCITS Regulations"). The Financial Statements have been prepared under the historical cost convention as modified by the fair value measurement of financial assets and liabilities held at fair value through profit or loss. The significant accounting policies are set out below.

The preparation of Financial Statements in conformity with IFRS requires the use of certain critical estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the Financial Statements and the reported amounts of revenues and expenses during the reporting financial period. Although these estimates are based on management's best knowledge of the amount, event or actions, actual results ultimately may differ from those estimates.

The financial statements of the Company have been prepared on a going concern basis.

In preparing these financial statements, the Directors made judgements and estimates that affect the application of the Company's accounting policies and the reported amounts of assets and liabilities, income and expense. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised prospectively.

Information about judgements made by management in the application of IFRS that have the most significant effect on the Financial Statements and estimates with a significant risk of material adjustment in the next period are disclosed in Note 1(C) and 1(D).

With the exception of the below, the same accounting policies and methods of computation are followed in these annual report and audited financial statements as compared with the year ended 30 November 2022 audited set of financial statements prepared under IFRS and IFRIC interpretations endorsed by the EU.

International Financial Reporting Standards

These financial statements have been prepared to existing standards and amendments to existing standards effective 1 December 2022.

Standards available for early adoption and which were not early adopted: Conceptual framework, IFRS 3 definition of a business, Definition of material, IFRS 9 IBOR reform and COVID-19-related rent concessions.

(i) New accounting pronouncements effective from 1 December 2022

The following new and amended standards and interpretations are not expected to have a significant impact on the financial statements of the Company.

- IFRS 17 Insurance Contracts.
- Disclosure of Accounting Policies (Amendments to IAS 1 and IFRS Practice Statement 2).
- Definition of Accounting Estimates (Amendments to IAS 8).
- Deferred Tax related to Assets and Liabilities arising from a Single Transaction (Amendments to IAS 12).
- International Tax Reform – Pillar Two Model Rules (Amendments to IAS 12).

(ii) New accounting pronouncements not yet adopted

The following new and amended standards and interpretations are not yet adopted in preparing the financial statements of the Company.

- Non-current Liabilities with Covenants (Amendments to IAS 1).
- Classification of Liabilities in a Sale and Leaseback (Amendments to IFRS 16).
- Supplier Finance Arrangements (Amendments to IAS 7 and IFRS 7).
- Lack of Exchangeability (Amendments to IAS 21).
- Sale or Contribution of Assets between an Investor and its Associate or Joint Venture (Amendments to IFRS 10 and IAS 28).

There are no other standards, interpretations or amendments to existing standards that are not yet effective that would be expected to have a significant impact on the Company.

B) Functional and presentation currency

The Board of Directors considers the Euro as the currency that most faithfully represents the economic effects of the underlying transactions, events and conditions.

The Financial Statements of the Company are presented in Euro, which is both the functional and presentation currency.

Each individual Fund's functional currency is disclosed on pages 11 to 12.

Notes to the Financial Statements (continued)

1. Significant Accounting Policies (continued)

B) Functional and presentation currency (continued)

Transactions and balances

Foreign exchange gains and losses on financial assets and financial liabilities at fair value through profit and loss are recognised together with other changes in the fair value. Net currency gains/(losses) are net foreign exchange gains and losses on monetary financial assets and liabilities other than those classified at fair value through profit or loss.

Assets and liabilities denominated in foreign currencies, other than the functional currency, have been translated at the rate of exchange ruling at 30 November 2023. Transactions in foreign currencies are translated into Euro at the exchange rate ruling at the date of the transaction. All gains/(losses) on foreign exchange are recognised in the Statements of Comprehensive Income in determining the result for the financial year.

Notional foreign currency gains/(losses) are included in the foreign exchange adjustment. The notional foreign exchange adjustment arises from the translation of opening net assets translated at financial year end 30 November 2022 rates, the Statement of Comprehensive Income, subscriptions and redemptions at average rates; with closing assets and liabilities translated at the rates of exchange ruling at 30 November 2023.

The following exchange rates were used to convert investments, assets and liabilities to the functional currency of the Company:

The average exchange rates used to convert the Company totals to Euro ("EUR") were 0.870275 (30 November 2022: 0.850768) for Sterling ("GBP"), 1.078303 (30 November 2022: 1.057023) for US Dollar ("USD") and 150.375086 (30 November 2022: 136.556296) for Japanese Yen ("JPY").

The average exchange rate used to convert the Invesco JPX-Nikkei 400 UCITS ETF USD Hedged Share Class totals to USD was 139.776178 (30 November 2022: 129.648425) for JPY.

The following table provides the average exchange rate used to convert the corresponding Fund to Euro from US Dollars. The average exchange rate listed below will be different to the average exchange rate for the totals as the average is calculated over a shorter year, as the share classes launched during the financial year.

Fund	Average Exchange Rate EUR
Invesco Bloomberg Commodity Carbon Tilted UCITS ETF*	1.074963

*The Fund launched on 26 July 2023.

C) Financial assets and financial liabilities at fair value through profit or loss

(i) Classification

Purchases and sales of financial assets at fair value through profit or loss are recognised on trade date – the date on which the Company commits to purchase or sell the financial instrument. Financial assets at fair value through profit or loss are derecognised when the rights to receive cash flows from the financial assets at fair value through profit or loss have expired or the Company has transferred substantially all risks and rewards of ownership. Realised fair value gains and losses on disposals of financial instruments are calculated using the Average Cost method - the cost of financial asset/liability calculated using weighted average unit costs.

Financial Assets

IFRS 9 contains three principal classification categories for financial assets: measured at amortised cost, Fair Value Through Other Comprehensive Income ("FVTOCI") and Fair Value Through Profit or Loss ("FVTPL"). The classification of financial assets under IFRS 9 is generally based on the business model in which a financial asset is managed and its contractual cash flow characteristics. Under IFRS 9, derivatives embedded in contracts where the host is a financial asset in the scope of the standard are never separated. Instead, the hybrid financial instrument as a whole is assessed for classification.

A financial asset is measured at amortised cost if it meets both of the following conditions and is not designated as at FVTPL:

- The asset is held within a business model whose objective is to hold assets to collect contractual cashflows; and
- The contractual cash terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

A debt instrument is measured at FVTOCI only if it meets both of the following conditions and is not designated as at FVTPL:

- The asset is held within a business model whose objective is achieved by both collecting contractual cashflows and selling financial assets; and
- The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Notes to the Financial Statements (continued)

1. Significant Accounting Policies (continued)

C) Financial assets and financial liabilities at fair value through profit or loss (continued)

(i) Classification (continued)

Financial Assets (continued)

(a) Financial Assets at Fair Value

On initial recognition, the Company will irrevocably designate a financial asset that otherwise meets the requirements to be measured at amortised cost or at FVTOCI as at FVTPL if doing so eliminates or significantly reduces an accounting mismatch that would otherwise arise.

All Company's financial assets are classified as measured at FVTPL. This includes all equity securities, US Treasury Bills and derivative financial assets.

The Company invests in Transferable Securities at a fair value of EUR 36,083,399,881 at 30 November 2023 (30 November 2022: EUR 30,517,099,021) which are mandatorily classified as FVTPL.

(b) Financial Assets at Amortised Cost

Included in financial assets at amortised cost are receivables for securities sold which are held for collection, other receivables, cash and cash equivalents and cash collateral. Recognition is initially at fair value and subsequently measured at amortised cost using the effective interest rate, less provision for impairment. At each reporting date, the Company shall measure the loss allowance on cash collateral at an amount equal to the lifetime expected credit losses if the credit risk has increased significantly since initial recognition. If, at the reporting date, the credit risk has not increased significantly since initial recognition, the Company shall measure the loss allowance at an amount equal to 12-month expected credit losses, or shorter if the receivable is expected to settle in less than 12 months. All financial assets are short term and always lifetime losses are booked.

Significant increase in credit risk is defined by the Board of Directors as any contractual payment which is more than 30 days past due.

(c) Financial Liabilities and forward foreign currency contracts

Financial liabilities are classified as measured at amortised cost or FVTPL.

A financial liability is classified as FVTPL if it is classified held-for-trading, it is a derivative or it is designated as such on initial recognition. Financial liabilities at FVTPL are measured at fair value and net gains and losses, including any interest expense, are recognised in profit or loss. Redeemable Shares are redeemable at the Shareholders' option and are classified as financial liabilities at amortised cost and are measured at present value of the redemption amount.

Other financial liabilities are subsequently measured at amortised cost using the effective interest method. Interest expense and foreign exchange gains and losses are recognised in profit or loss. Any gain or loss on derecognition is also recognised in profit or loss.

Financial liabilities at FVTPL:

- Held for trading: derivative financial instruments.

Financial liabilities at amortised cost:

- This includes fees payables, securities purchased payables and redemptions payables.

Subsequent to initial recognition, all financial assets and financial liabilities at fair value through profit or loss are measured at fair value. Gains and losses arising from changes in the fair value of the 'financial assets or financial liabilities at fair value through profit or loss' category are presented in the Statement of Comprehensive Income within other net losses on financial assets and liabilities at fair value through profit or loss in the year in which they arise.

(ii) Valuation of investments

The estimation of fair value, after initial recognition, is determined as follows:

Listed investments

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value of investments (Equities and US Treasury Bills) which are quoted, listed, traded or dealt with on a market or exchange are based on quoted prices which, for the purpose of the Financial Statements, is the last traded market price for financial assets and financial liabilities as at the Statement of Financial Position date. Forward foreign exchange contracts are valued at market settlement price.

Realised gains or losses on disposal of investments during the financial year/year and unrealised gains and losses on valuation of investments held at the financial year end are included in the Statements of comprehensive income, within net gains/(losses) on financial assets and financial liabilities at fair value through profit and loss.

Notes to the Financial Statements (continued)

1. Significant Accounting Policies (continued)

C) Financial assets and financial liabilities at fair value through profit or loss (continued)

(ii) Valuation of investments (continued)

Unlisted investments

In the case of investments (outperformance swaps and total return swaps) which are not quoted, listed or dealt with on a recognised market, the fair value of such investments shall be calculated in accordance with the valuation technique, comprising of observable data which tracks the performance of the relevant underlying Reference Index/strategy against the performance of the underlying equity basket (in the case of outperformance swaps) or a financing component (in the case of total return swaps) used in the Invesco Commodity Composite UCITS ETF, the Invesco Bloomberg Commodity UCITS ETF, the Invesco Bloomberg Commodity Ex-Agriculture UCITS ETF and the Invesco Bloomberg Commodity Carbon Tilted UCITS ETF (collectively the "Commodity Funds") respectively.

In the case of the valuation of the Reference Index/strategy leg of the swap, the observable inputs are the initial Reference Index/strategy value and the current Reference Index/strategy value. For the equity leg of the outperformance swap, the value is that of the underlying equity basket. The components of the financing leg of the total return swap are interest and fees.

The swaps in these Funds are contracts between the Fund and the counterparties. In the case of outperformance swaps, the Fund agrees to exchange with the counterparties the gains/(losses) arising on the equity basket in the Fund for the total return on the relevant Reference Index/strategy on a daily basis.

In the case of a total return swap, the Fund receives positive performance on the underlying Reference Index from the counterparty and pays negative performance on the underlying Reference Index, fees and interest to the counterparty.

Any change in the fair value of these outperformance or total return swaps is included in the Statements of comprehensive income, within net gains/(losses) on financial assets and financial liabilities at fair value through profit or loss.

Realised gains and losses are recognised when the contract is closed out and are included in the Statements of comprehensive income, within net gains/(losses) on financial assets and financial liabilities at fair value through profit or loss.

The net asset or liability under the outperformance or total return swap contracts are included as fair value through profit or loss in the Statements of financial position.

A forward currency contract involves an obligation to purchase or sell a specific currency at a future date, at a price set at the time the contract is made. Forward currency contracts are valued by reference to the forward price at which a new forward contract at the same size and maturity could be undertaken at the valuation date. The unrealised gain or loss on open forward currency contracts is calculated as the difference between the contract rate and the forward price, and is recognised in the Statement of Comprehensive Income.

(iii) Impairment

Financial assets subject to IFRS 9's impairment requirements:

The Company measures credit risk and Expected Credit Loss ("ECL"), using probability of default, exposure at default, and loss given default. The Company considers both historical analysis and forward-looking information in determining any ECL. At 30 November 2023 and 30 November 2022, all amounts due from brokers and receivables are held with counterparties with a credit rating of A2 or higher. Management consider the probability of default to be close to zero as these instruments have a low risk of default and the counterparties have a strong capacity to meet their contractual obligations in the near term. As a result, no loss allowance has been recognised based on lifetime ECL as any such impairment would be wholly insignificant to the Company.

Credit ratings are disclosed in Note 2(C).

Financial assets not subject to IFRS 9's impairment requirements:

The Company is exposed to credit risk on debt securities and derivative assets. These classes of financial assets are not subject to IFRS 9's impairment requirements as they are measured at FVTPL. The carrying value of these assets, under IFRS 9 represent the Company's maximum exposure to credit risk on financial instruments not subject to the IFRS 9 impairment requirements on the respective reporting dates. Hence, no separate maximum exposure to credit risk disclosure is provided for these instruments.

(iv) Offsetting Financial Instruments

Financial assets and financial liabilities are offset and the net amount reported in the Statements of financial position when there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis, or realise the assets and settle the liability simultaneously.

D) Critical accounting estimates and assumptions

Management makes estimates and assumptions concerning the future. Actual results may differ from these estimates. The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities are outlined above and/or below.

All of the Funds' financial assets and financial liabilities classified as financial assets and financial liabilities at fair value through profit or loss as at 30 November 2023 and 30 November 2022.

Notes to the Financial Statements (continued)

1. Significant Accounting Policies (continued)

E) Fees and expenses

In accordance with the Prospectus the Management fees are charged to the Statement of Comprehensive Income on an accruals basis. Other than the Management fees, all fees and expenses incurred by the Funds including those payable to the Investment Managers, the Sub-Investment Manager, the Depositary, the Administrator, the Auditor and the Directors are paid by the Manager.

F) Cash and cash equivalents

Cash balances represent residual cash subsequent to trading and is minimal on most Funds. As at 30 November 2023 and 30 November 2022, cash in all Funds was held on deposit with The Northern Trust Company, details of which are disclosed in Note 8.

Cash is held in the name of the Company and proportionally allocated between the Funds, please refer to Note 2(C). Funds have segregated securities accounts at sub custody level for each market however the unsegregated Company cash accounts are utilised to settle trades and hold any cash balances.

G) Redeemable shares

Redeemable Shares are redeemable at the Shareholders' option and are classified as financial liabilities at amortised cost and are measured at present value of the redemption amount, the carrying amount of redeemable shares approximates fair value. Any distributions on these shares are recognised in the Statements of comprehensive Income as finance costs.

H) Segment reporting

Operating Segments are reported in a manner consistent with the internal reporting used by the Chief Operating Decision Maker ("CODM"). The CODM, who is responsible for allocation of resources and assessing the performance of the operating segment has been identified as the Board of Directors. The Board of Directors make the strategic resource allocations on behalf of the Company. Each Fund is managed as one operating segment.

I) Valuation point

The valuation point used for the purposes of the Financial Statements is that of 30 November 2023, the last Business Day of the financial year. The valuation point for the comparative financial year used for the purposes of the Financial Statements is that of 30 November 2022 for the Statement of Comprehensive Income, Statement of Changes in Net Assets Attributable to Holders of Redeemable Shares, Statement of Cash Flows and related notes, the last Business Day of that financial year.

J) Distributions

The dividend arrangements relating to each Fund will be decided by the Directors at the time of the creation of the relevant Fund and details are set out where applicable in the relevant Supplement.

Under the Articles, the Directors are entitled to declare such dividends on any Class of Shares at such times as they think appropriate and as appear to be justified out of the profits of the relevant Fund, being (i) the accumulated revenue (consisting of all revenue accrued including interest and dividends) less expenses and/or (ii) realised and unrealised capital gains on the disposal/valuation of investments and other funds less realised and unrealised accumulated capital losses of the relevant Fund and/or the capital of the relevant Fund. Where the dividends will be paid out of the capital of the relevant Fund, this will be disclosed in the relevant Supplement. The Company total distributions figure should not be read in isolation, it is merely a consolidation of the Funds. Distributions should be viewed on a Fund level. Details of Distributions are disclosed in Note 7.

K) Swap income policy

In relation to the Invesco RDX UCITS ETF which terminated on 21 June 2022, swap income was receivable based on the embedded dividends within the underlying Reference Index. These stocks were not held by the Fund on ex or record date, therefore the Fund did not receive any dividend income directly. Income reflective of dividends paid by equities on the Reference Index (net of withholding) was paid to the Fund by the relevant derivative counterparties. Therefore, the income was derived as a direct result of the swap itself and had been included in net gains/losses on financial assets and financial liabilities at FVTPL.

L) Dividend income

In the financial year ended 30 November 2023, dividend income of EUR 24 was received by the Company (30 November 2022: Nil).

M) Finance costs

Finance costs comprises of distributions and interest expense. Please refer to Note 1(J) for further details on distributions. Interest expense is recognised on a time-proportionate basis using the effective interest method. It includes interest expense on debt securities at fair value through profit or loss. The interest expense paid during the financial year was in relation to the Commodity Funds.

N) Transaction costs

Transaction costs are costs incurred to acquire financial assets or liabilities at fair value through profit or loss. They include fees and commissions paid to agents, advisers, brokers or dealers. Transaction costs, when incurred, are included as part of the cost of such purchases.

Transaction costs on treasury bills, total return/outperformance swaps and forward currency contracts could not be separately identified. Transaction costs on these are included in the purchase and sales price of the investment and cannot be separately verified or disclosed. Transaction costs on equities investments are embedded in the cost of the investment and included in net gains/(losses) on financial assets at fair value through profit or loss within the Statement of Comprehensive Income of each Fund.

Swap expenses are paid to the swap counterparties under normal terms of business and are included in realised gain/(loss) on outperformance swaps or total return swaps in the Statements of Comprehensive Income. For further details, refer to Note 4 and Note 12.

Notes to the Financial Statements (continued)

1. Significant Accounting Policies (continued)

N) Transaction costs (continued)

Sector transaction fees are payable by the Authorised Participants to the Manager. Please refer to Note 13 for further information.

O) Interest Income

Interest income is recognised on a time-proportionate basis using the effective interest method. It includes interest income on debt securities at fair value through profit or loss. The interest income earned during the financial year was in relation to the Commodity Funds.

P) Collateral

The Commodity Funds and the counterparties review the value of the daily mark to market values of the total return swaps and agree a daily collateral call based on the value of the daily mark to market values of the total return swaps. The collateral received by the Commodity Funds may be USD cash, securities or comprise both USD cash and securities. The collateral pledged by the Commodity Funds can only be US Treasury Bills. Cash collateral received by the Commodity Funds is included gross in the Statement of Financial Position as cash collateral payable to counterparty.

The Commodity Funds may pledge or receive collateral other than cash i.e. securities being US Treasury Bills to or from the counterparty and Forward foreign exchange contracts. If the Funds have to pledge collateral to the counterparty they will deliver the Commodity Funds' underlying securities which comprise US Treasury Bills to the counterparty's depository. If the Fund receives collateral other than cash then the counterparty will deliver the securities to the Commodity Funds through physical deposit with the Commodity Funds' Depository.

It is not the policy of the Fund to reinvest or re-pledge collateral received. If the collateral is in the form of securities they are held in the custody of Northern Trust Fiduciary Services (Ireland) Limited and similarly if cash is received it is held by the Depository on behalf of the Fund.

In the context of the European Market Infrastructure Regulation (EMIR) – Variation Margin Rules which came into force on 1 March 2017, all Funds with the exception of the Commodity Funds have implemented a collateral model that allows pledging collateral to Swap Counterparties in the form of equities. Three Swap Counterparties are affected by this model: Citigroup Global Markets, J.P. Morgan Securities and Goldman Sachs.

This collateral model is unilateral and involves Segregated Collateral Accounts which have been set up for each Fund.

Collateral posted to a counterparty by or on behalf of a Fund must be taken into account when calculating counterparty risk exposure. Collateral posted to a counterparty and collateral received by such counterparty may be taken into account on a net basis provided the Fund is able to legally enforce netting arrangements with the counterparty.

Equities pledged as collateral are marked with an asterisk in each respective Schedule of investments.

Non-cash collateral pledged is not derecognised from the Statement of financial position unless the Company defaults on its obligations under the relevant agreement, and therefore continues to be recognised on the Statement of Financial Position within the appropriate asset classification.

Q) Net Gain/Loss from Financial Instruments at Fair Value through Profit or Loss

Net gain/loss from financial instruments at fair value through profit or loss includes all realised and unrealised fair value changes and foreign exchange differences.

Net realised gain from financial instruments at fair value through profit or loss is calculated using Average Cost method and recognised in Net (losses)/gains on financial assets at fair value through profit or loss in the Statement of Comprehensive Income.

2. Financial risks

As defined by IFRS 7 'Financial Instruments: Disclosures', risk arising on financial instruments can be separated into the following components: Market Risk, Credit Risk and Liquidity Risk.

Invesco Capital Management LLC is the Investment Manager to the Commodity Funds. Assenagon Asset Management S.A. is the Sub-Investment Manager to the Commodity Funds. Assenagon Asset Management S.A. is also the Investment Manager to all other Funds of the Company with the exception of the Commodity Funds.

Operationally, the day-to-day management of the Commodity Funds has been delegated to the Sub-Investment Manager. Moreover, the risk management for the Commodity Funds has been outsourced to the Sub-Investment Manager. Therefore, for purposes of Note 2 Financial risks, the term 'Investment Manager' is assimilated to Assenagon Asset Management S.A.

Each type of risk is discussed below and both qualitative and quantitative analyses are provided, where relevant, to give the reader an understanding of risk management methods used by the Investment Manager and reviewed by the Directors of the Company.

The main risks arising from the Funds' financial instruments and derivatives are market risk, liquidity risk and credit risk.

The Company's overall risk management policy focuses on the unpredictability of financial markets and seeks to minimise any discrepancy between the performance of the Funds and the performance of the respective references.

The nature and extent of the financial instruments outstanding at the Statement of Financial Position date and the risk management policies employed by the Company are discussed overleaf.

Notes to the Financial Statements (continued)

2. Financial risks (continued)

A) General

The risk monitoring process is the responsibility of the Company which has delegated this responsibility to the Manager and the Investment Manager.

The Company's investment objective is that each Fund will seek to provide Shareholders with a target performance linked to the performance of a Reference Index or reference asset by purchasing a portfolio of transferable securities that may (but is not obliged to) comprise all or a representative sample of the constituent securities of that Reference Index or reference asset. Each Fund shall also use exchange-traded financial derivative instruments and transactions and/or Over-the-Counter ("OTC") derivatives to achieve the target performance.

The Investment Manager is responsible for the operation of the risk management process, including the measurement of risk of each Fund's portfolio at any given time.

Each Fund is managed by a portfolio manager. Each portfolio manager has authority to undertake derivative transactions on behalf of the Fund he/she manages, subject to the restrictions applicable to each Fund.

The portfolio manager is supported by a trade order management system ("TOMS"), which is designed to manage the implementation of the portfolio manager's strategy and assist in the process of managing the Funds.

These systems generate exception reports highlighting any inconsistency between the Funds' investment objectives and restrictions, and the Funds' portfolios.

The risk management team is a unit of the Investment Manager and is independent of the portfolio managers. It is responsible for the day to day risk monitoring process in respect of the Investment Manager's duties. Global exposure, position and counterparty exposure are monitored by the risk management team. The risk management process is supported by the Investment Manager's internal systems which are designed to assess the Fund's risk and exposures on a daily basis.

The Investment Manager will report in writing confirming compliance with the guidelines laid down in the Risk Management Policy document and the Prospectus, at least monthly to the named Designated Person, and will report to the Board of Directors at least quarterly.

B) Market risk

Market risk is the risk that the fair value of a financial instrument will fluctuate because of changes in market prices. Market risk comprises the following type of risk:

- interest rate risk;
- currency risk; and
- other price risk.

As the Funds' strategy is to passively track the respective Reference Indices or Reference Strategies, the Investment Manager aims to verify and ensure that the individual market risks to which the Funds are exposed are in line with the risks of the relevant Reference Index or Reference Strategy.

The Commitment Approach is used for all Funds.

Commitment Approach

Under the Commitment Approach technique, the positions on derivative financial instruments must be converted into equivalent positions on the underlying assets. The method used to convert the derivative financial instruments into equivalent positions on the underlying assets must be adapted to the type of instrument involved.

The Funds' total commitment to derivative instruments, limited to 100% of the Funds' total net asset value, is then quantified as a sum, as an absolute value, of the individual commitments, after consideration of possible effects of netting and coverage. When calculating the measure of global exposure in accordance with the Commitment Approach, the global exposure will be the incremental market exposure the Fund assumes as a result of entering into transactions.

The Funds' total exposure to the Reference Strategies/Indices is limited to 100% of Net Asset Value.

(i) Interest rate risk

As at 30 November 2023 and 30 November 2022, the interest rate risk arises at Fund level.

Interest rate risk arises from the effects of fluctuations in the prevailing levels of market interest rates on the fair value of financial assets and liabilities and the future cash flows.

The Funds' financial assets other than cash, currency contracts and Treasury Bills are non-interest bearing, and consequently the Company and Funds' exposure to interest rate risk is minimal. The actual duration of the Treasury Bill portfolios as at 30 November 2023 of the Invesco Commodity Composite UCITS ETF, the Invesco Bloomberg Commodity UCITS ETF, the Invesco Bloomberg Commodity Ex-Agriculture UCITS ETF and the Invesco Bloomberg Commodity Carbon Tilted UCITS ETF was 93 days, 95 days, 90 days and 88 days respectively (30 November 2022: 92 days, 91 days, 108 days and Nil days respectively), so interest rate risk is low.

Cash balances are maintained at a minimum in all Funds, and therefore the exposure to interest rate risk is not significant.

Notes to the Financial Statements (continued)

2. Financial risks (continued)

B) Market risk (continued)

(i) Interest rate risk (continued)

There were no large cash balances held at the financial year end, with the exception of the Invesco MSCI World UCITS ETF, Invesco STOXX Europe 600 Optimised Oil & Gas UCITS ETF, Invesco Consumer Discretionary S&P US Select Sector UCITS ETF, Invesco S&P 500 UCITS ETF, Invesco JPX-Nikkei 400 UCITS ETF, Invesco Real Estate S&P US Select Sector UCITS ETF and the Commodity Funds (30 November 2022: Invesco MSCI World UCITS ETF, Invesco STOXX Europe 600 Optimised Automobiles & Parts UCITS ETF, Invesco STOXX Europe 600 Optimised Chemicals UCITS ETF, Invesco STOXX Europe 600 Optimised Industrial Goods & Services UCITS ETF, Invesco Technology S&P US Select Sector UCITS ETF, Invesco S&P 500 UCITS ETF and the Commodity Funds). The exposure to interest rate risk is not significant at the financial year end.

(ii) Currency risk

Currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates.

As at 30 November 2023 and 30 November 2022, the currency risk arises at Fund level.

Foreign currency risk, as defined in IFRS 7, arises as the value of future transactions, recognised monetary assets and monetary liabilities denominated in other currencies fluctuate due to changes in foreign exchange rates. IFRS 7 considers the foreign exchange exposure relating to non-monetary assets and non-monetary liabilities to be a component of other price risk and not foreign currency risk.

Monetary items are units of currency held and assets and liabilities to be received or paid in a fixed or determinable number of units of currency. Non-monetary items are any other assets and liabilities other than monetary ones.

Since the foreign cash balances held by the Depositary are minimal apart from the Funds listed above, the currency risk in relation to monetary assets is insignificant for the Company and its Funds. The Funds, in line with the securities comprising their underlying indices, are exposed to the currency risk of the respective Reference Index/strategy. The Investment Manager monitors the Funds' currency risk to ensure that it replicates that of the securities comprising the underlying Reference Index/strategy. The Funds are not exposed to significant currency risk as all the swaps settle in the base currency of the Fund.

(iii) Other price risk

As at 30 November 2023 and 30 November 2022, the price risk arises at Fund level. For each Fund this risk is in line with the risk of the Reference Index/Strategy.

Other price risk is the risk that the value of investments will fluctuate as a result of changes in market price (other than those arising from interest rate risk or currency risk), whether caused by factors specific to an individual investment, its issuer or similar financial instruments traded in the market.

Other price risk – sensitivity analysis

The sensitivity analysis for the Fund assumes a change in the market price of the investments while holding all other variables constant. In practice this is unlikely to occur and changes in some of the variables may be correlated.

As at 30 November 2023

Fund	Reference Index	Number of Reference Index units as 30 November 2023	Reference Index close at 30 November 2023	Reference Index close assuming a 1% downward movement	Monetary Impact of a 1% downward movement of the Reference Index	Currency

C) Credit risk

The Company and its Funds are exposed to credit risk, which is the risk that one party to a financial instrument or other obligation will cause a financial loss for the other party by failing to discharge an obligation.

Notes to the Financial Statements (continued)

2. Financial risks (continued)

C) Credit risk (continued)

The Company on behalf of a Fund may enter into derivative transactions in OTC markets, which will expose the Fund to the credit risk of its counterparties and their ability to satisfy the terms of such contracts. For example, the Company on behalf of the Fund may enter into repurchase agreements, forward contracts, options and swap arrangements or other derivative techniques, each of which exposes the Fund to the risk that the counterparty may default on its obligations to perform under the relevant contract.

In addition the Commodity Funds are exposed to counterparty risk on parties with whom they trade and will bear the risk of settlement default. The Commodity Funds may enter into transactions with counterparties whereby collateral is posted or received by the Commodity Funds to or from the counterparty. There were US Treasury Bills pledged by the Commodity Funds as at 30 November 2023 and as at 30 November 2022. Full details of the US Treasury Bills pledged by the Commodity Funds are detailed in Note 18. The Commodity Funds pledged securities as collateral to the counterparties. When cash or securities are received as collateral from the counterparties, the Depositary on behalf of the Commodity Funds takes physical receipt of the cash and securities. The cash and securities are held by the Depositary on behalf of the Commodity Funds and the credit risk exposure of the Commodity Funds is therefore considered minimal as all securities deposited with the Depositary will be clearly identified as being assets of the Funds. If the Commodity Funds are required to pledge cash or securities as collateral the Depositary will deliver the required collateral to the counterparties on behalf of the Commodity Funds.

All other Funds with the exception of the Commodity Funds may also pledge collateral in the form of equity securities. Securities pledged by the Funds are held by the Depositary and the credit risk exposure of the Funds is therefore considered minimal.

Please refer to the Schedule of Investments of the individual Fund's for concentration of credit risk by market and industry.

In the event of the bankruptcy or insolvency of a counterparty, the Fund could experience delays in liquidating the position and significant losses. These losses could include declines in the value of its investment during the financial year in which the Company seeks to enforce its rights, an inability to realise any gains on the Company's investment during such financial year and fees and expenses incurred in enforcing its rights.

There is also a possibility that the above agreements and derivative techniques are terminated due, for instance, to bankruptcy, supervening illegality or change in the tax or accounting laws relative to those at the time the agreement was originated. In such circumstances, investors may be unable to recover any losses incurred. Derivative contracts such as swaps entered into by the Company on behalf of a Fund on the advice of the Investment Manager involve credit risk that could result in a loss to the relevant Fund.

The Funds trade with approved counterparties having a minimum credit rating of A2/P2 or equivalent, or is deemed by the Company to have an implied rating of A2/P2. Alternatively, an unrated counterparty will be acceptable where each Fund is indemnified against losses suffered as a result of a failure by the counterparty, by an entity which has and maintains a rating of A2/P2.

All credit ratings of the counterparties at 30 November 2023 are as follows: Société Générale A/A-1 (30 November 2022: A/A-1), Goldman Sachs International A+/A-1 (30 November 2022: A+/A-1), Morgan Stanley & Co. International plc A+/A-1 (30 November 2022: A+/A-1), J.P. Morgan Securities plc A+/A-1 (30 November 2022: A+/A-1), Citigroup Global Markets Limited A+/A-1 (30 November 2022: A+/A-1), UBS AG A+/A-1 (30 November 2022: A+/A-1), JPMorgan Chase Bank A+/A-1 (30 November 2022: A+/A-1), Deutsche Bank AG, London Branch A/A-1 (30 November 2022: A-/A-2), Merrill Lynch International A+/A-1 (30 November 2022: A+/A-1), Morgan Stanley Capital Services LLC A+/A-1 (30 November 2022: A+/A-1), Barclays Capital Securities Limited A+/A-1 (30 November 2022: A/A-1), Citibank, N.A. London Branch A+/A-1 (30 November 2022: A+/A-1) and Credit Suisse Securities LLC A+/A-1 (30 November 2022: A-/A-2).

The S&P rating of the issuer of all US Treasury Bills held by the Commodity Funds at 30 November 2023 was AA+/A-1+ (30 November 2022: AA+/A-1+).

The Investment Manager uses a mark to market approach to quantify, monitor and manage the credit risk exposure to derivative counterparties.

The Investment Manager imposes a credit exposure limit of 0.20% of Net Asset Value subject to a minimum value of EUR 100,000. In case the swap mark to market value exceeds this 0.20% limit the Investment Manager intends to trigger a swap reset, except for the Commodity Funds where a collateral call is made in case exposure exceeds the Minimum Transfer Amount agreed between the Funds and each swap counterparty. Additionally, the Investment Manager intends to impose a swap reset in case credit exposure to a swap counterparty exceeds EUR 400,000. Exposure can be higher than 0.20%. These resets or collateral calls can occur on a daily basis.

The swaps are also reset at a minimum on a 30 day basis and may also be reset to pay operating expenses. In addition, the swaps are reset every time there is a change in the notional amount of a swap as a result of subscriptions or redemptions, except for the Commodity Funds where resets occur on a weekly basis.

Finally, the Investment Manager follows detailed procedures for the construction of equity baskets and Treasury Bills portfolios designed to reduce potential credit exposure and enhance Fund liquidity.

As at 30 November 2023 and 30 November 2022, the unrealised gains/(losses) on the open swap positions are disclosed in the Schedule of Investments of each Fund.

Please refer to the Schedule of Investments of the Invesco Bloomberg Commodity UCITS ETF on pages 349 to 350 for information on Notional amounts of forward currency transactions.

The Company's Depositary is Northern Trust Fiduciary Services (Ireland) Limited (the "Depositary").

Northern Trust Fiduciary Services (Ireland) Limited ("NTFSIL") is the appointed Depositary of the Company, responsible for the safe-keeping of assets. NTFSIL has appointed The Northern Trust Company ("TNTC") as its global sub-custodian. Both NTFSIL and TNTC are wholly owned subsidiaries of Northern Trust Corporation ("NTC"). As at financial year-end date 30 November 2023, NTC had a long term credit rating from Standard & Poor's of A+ (30 November 2022: A+).

Notes to the Financial Statements (continued)

2. Financial risks (continued)

C) Credit risk (continued)

TNTC (as global sub-custodian of NTFSIL) does not appoint external sub-custodians within the U.S., the U.K., Ireland, Canada, Belgium, France, Germany, Netherlands and Saudi Arabia. However, in all other markets, TNTC appoints local external sub-custodians. Where relevant, also note the following currencies, Jordanian Dinar, Saudi Riyal, cash in the onshore China market (principally, the currency of Chinese Yuan Renminbi and any other currencies remitted into accounts in the onshore China market), are no longer held on the Balance Sheet of TNTC. For these off-book currencies, clients' cash exposure is directly to the relevant local sub-custodian/financial institution in the market.

NTFSIL, in the discharge of its depository duties, verifies the Company's ownership of Other Assets, (as defined under Other Assets, Art 22(5) of UCITS V Directive 2014/91/EU) by assessing whether the Company holds the ownership based on information or documents provided by the Company or where available, on external evidence.

TNTC, in the discharge of its delegated depository duties, holds in custody (i) all financial instruments that may be registered in a financial instruments account opened on the books of TNTC and (ii) all financial instruments that can be physically delivered to TNTC. TNTC ensures all financial instruments (held in a financial instruments account on the books of TNTC) are held in segregated accounts in the name of the Company, clearly identifiable as belonging to the Company, and distinct and separately from the proprietary assets of TNTC, NTFSIL and NTC.

In addition TNTC, as banker, holds cash of the Company on deposit. Such cash is held on the Statement of Financial Position of TNTC. In the event of insolvency of TNTC, in accordance with standard banking practice, the Company will rank as an unsecured creditor of TNTC in respect of any cash deposits.

Insolvency of NTFSIL and or one of its agents or affiliates may cause the Company's rights with respect to its assets to be delayed.

The Responsible Party manages risk by monitoring the credit quality and financial position of the Depository and such risk is further managed by the Depository monitoring the credit quality and financial positions of sub-custodian appointments.

Northern Trust Corporation has provided a guarantee to Invesco Markets plc in relation to the payment of any obligations owing by Northern Trust Fiduciary Services (Ireland) Limited to Invesco Markets plc under the Depository Agreement upon written demand after 30 days of any non-payment.

Northern Trust Corporation has the right under the guarantee to assert any such defences available to the Northern Trust Fiduciary Services (Ireland) Limited in relation to any such payments.

The Company is also exposed to credit risk through collateral held on the Commodity Funds with The Northern Trust Company which has a credit rating at the financial year end of AA-/A-1+ (30 November 2022: AA-/A-1+).

The total return swaps and outperformance swaps are unfunded.

D) Liquidity risk

As at 30 November 2023 and 30 November 2022, the liquidity risk arises at Fund level.

Liquidity risk is the risk that a Fund may not be able to generate sufficient cash resources to settle its obligations in full as they fall due or can only do so on terms that are materially disadvantageous.

Liquidity risk exists when a particular instrument is difficult to purchase or sell. If a derivative transaction is particularly large or if the relevant market is illiquid as is the case with many privately negotiated derivatives, it may not be possible to negotiate or liquidate a position at an advantageous price, or at all. The Investment Manager is satisfied that the approved counterparties will close out their swaps at any time at fair value.

Liquidity is managed by investing predominantly in UCITS eligible listed securities that are traded in an active market and can be readily disposed. The liquidity of these equities can be utilised in responding to changes in the notional value of the swaps of the Funds.

The Investment Manager monitors the 10 days average daily trading volume of the underlying equity stocks for the OTC derivatives (swaps) to ensure that sufficient liquidity remains in the market for these securities.

Redeemable Shares are redeemed on demand at the Shareholder's option.

Even though the Shares may be listed on one or more relevant stock exchanges, there can be no certainty that there will be liquidity in the Shares on any relevant stock exchange or that the market price at which the Shares may be traded on a relevant stock exchange will be the same as or approximately equal to the Net Asset Value per Share.

As the Shares may be dealt in by means of subscription and redemption, the Directors consider that large discounts or premiums in the Net Asset Value of a Fund would not be sustainable. There can be no guarantee that once the Shares are listed on a relevant stock exchange they will remain listed or that the conditions of listing will not change.

Trading in Shares on a relevant stock exchange may be halted or suspended due to market conditions or for the reason that, in the relevant stock exchange's view, trading in the Shares is inadvisable, or otherwise pursuant to the relevant stock exchange's rules. If trading on a relevant stock exchange is halted, investors may not be able to sell their Shares until trading resumes however such investors should be able to apply to the Company to redeem Shares in accordance with the provisions set out in the Prospectus.

The Company has the discretion in circumstances set out in the Prospectus to temporarily suspend the calculation of the Net Asset Value of any Fund and the subscription, redemption or exchange of Shares.

Notes to the Financial Statements (continued)

2. Financial risks (continued)

D) Liquidity risk (continued)

The tables below analyse the Fund's financial liabilities into relevant maturity groupings based on the length of time remaining between the Statement of Financial Position date and the contractual maturity date. The amounts in the tables are the contractual undiscounted cash flows. Balances due within twelve months equal their carrying balances as the impact of discounting is not significant. All amounts are stated in sub-fund currency.

*The Fund launched on 5 May 2022.

All of the Fund's derivative financial instruments in a loss position are all due within 7 days to 1 month.

Please refer to the Schedule of Investments of the Invesco Bloomberg Commodity UCITS ETF on pages 349 to 350 for information on Notional amounts of forward currency transactions.

The swaps are reset at a minimum on a 30 day basis and may also be reset to pay operating expenses. In addition, the swaps are reset every time there is a change in the notional amount of a swap as a result of subscriptions or redemptions, except for the Commodity Funds where resets occur on a weekly basis.

E) Specific instruments

Forward foreign exchange contracts

The Funds may enter into forward foreign exchange contracts.

The fair value of the forward foreign exchange contracts is determined using quoted forward exchange rates at the reporting date and present value calculations. Details of the unrealised gains/(losses) on each open forward foreign exchange contracts can be found in the Schedules of Investments of each Fund.

Swap agreements

The Funds of the Company enter into swap agreements. Swap agreements are privately negotiated agreements between the Fund and a counterparty to exchange or swap investment cash flows, assets, foreign currencies or market-linked returns at specified, future intervals.

The Funds except for the Commodity Funds enter into outperformance swaps where the Fund exchanges the performance of the equity securities it owns for the target performance as described in the relevant supplement. The outperformance swaps are a cost efficient method of achieving the target performance.

The Commodity Funds enter into total return swaps which exchange an interest payment for the target performance.

Notes to the Financial Statements (continued)

2. Financial risks (continued)

E) Specific instruments (continued)

Swap agreements (continued)

The Investment Manager monitors the liquidity of the underlying equities and counterparty credit quality.

Details of the unrealised gains/(losses) on each open swap position can be found in the Funds' Schedules of Investments.

F) Capital risk management

The capital of the Funds is represented by the net assets attributable to holders of Redeemable Shares. The amount of net assets attributable to holders of Redeemable Shares can change significantly on a daily basis as the Funds are subject to subscriptions and redemptions at the discretion of the Shareholders.

Please refer to Note 7 for dividends strategy.

The Funds' individual objectives when managing capital is to safeguard each Fund's ability to continue as a going concern in order to provide returns for Shareholders and to maintain a strong capital base to support the development of the investment activities of the Funds.

G) Fair value information

IFRS 13 'Fair Value Measurement' requires disclosure relating to the fair value hierarchy in which fair value measurements are categorised for assets and liabilities in the Statements of Financial Position. The disclosures are based on a three-level fair value hierarchy for the inputs used in valuation techniques to measure fair value.

The fair value hierarchy has the following levels:

Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2: Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices).

Level 3: Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs).

Investments whose values are based on quoted market prices in active markets and therefore classified within Level 1, include active listed equities. The Company does not adjust the quoted price for these instruments.

Financial instruments that trade in markets that are not considered to be active but are valued based on quoted market prices, dealer quotations or alternative pricing sources supported by observable inputs are classified within Level 2.

The Level 2 amounts above represent outperformance/Total Return swap. These are priced using a valuation comprising of observable data which tracks the performance of the Reference Index against the performance of the Fund's underlying equity basket.

The Schedule of Investments shows the equities split by level, country of origin and industry group. The derivatives are outperformance/total return swaps and forwards. All equities and treasury bills are classified as Level 1 and all outperformance/total swaps and forwards as Level 2.

The level in the fair value hierarchy within which the fair value measurement is categorised in its entirety is determined on the basis of the lowest level input that is significant to the fair value measurement in its entirety. For this purpose the significance of an input is assessed against the fair value measurement in its entirety. If a fair value measurement uses observable inputs that require significant adjustment based on unobservable inputs, that measurement is a Level 3 measurement.

The Funds do not have any investments, and have not entered into any transactions, requiring this type of valuation during the financial year. Assessing the significance of a particular input to the fair value measurement in its entirety requires judgement, considering factors specific to the asset or liability.

Notes to the Financial Statements (continued)

2. Financial risks (continued)

G) Fair value information (continued)

The following tables below analyse within the fair value hierarchy the Fund's financial assets and liabilities (by class) measured at fair value. Amounts are stated in US Dollars, Euro, Sterling and Japanese Yen.

*The Fund launched on 5 May 2022.

Level 3 reconciliation

There were no level 3 assets held during the financial years ended 30 November 2023 and 30 November 2022.

The Company considers observable data to be that market data that is readily available, regularly distributed or updated, reliable and verifiable, not proprietary, and provided by independent sources that are actively involved in the relevant market.

The fair value of financial assets and liabilities traded in an active market (such as trading securities) are based on quoted market prices at the close of trading on the financial year end date. The fair value of the outperformance swaps and total return swaps held by the Funds is arrived at using a valuation technique comprising of observable data. Forward foreign exchange contracts are valued at market settlement price.

Notes to the Financial Statements (continued)

2. Financial risks (continued)

G) Fair value information (continued)

Level 3 reconciliation (continued)

A financial instrument is regarded as quoted in an active market if the quoted prices are readily and regularly available from an exchange, dealer, broker, industry group, pricing service, or regulatory agency, and those prices represent actual and regularly occurring market transactions on an arm's length basis.

Outperformance and total return swaps are marked to market daily in line with the valuation technique which uses values from third party vendors and the change in value, if any, is recorded as an unrealised gain or loss on the Statements of Financial Position. The values used in the swap mark to market calculation are the prices of the basket of equities (outperformance swaps) or Treasury Bills (total return swaps) held by the Fund and the price of the underlying Reference Index/strategy of the Fund, which represent the opposing sides of the swap.

In the event that market quotes are not readily available for either of these inputs the value of the relevant input will be determined in good faith by the Administrator or another independent service provider, generally based upon recommendations provided by the Investment Manager.

The carrying values of other receivables and payables are assumed to approximate their fair value.

Financial assets and liabilities not measured at fair value

The financial assets and liabilities not measured at fair value through profit or loss are short-term financial assets and financial liabilities whose carrying amounts approximate fair value. They are categorised as Level 2 in the fair value hierarchy.

H) Offsetting Financial Instruments

The Company has not offset any financial assets and financial liabilities in the Statement of Financial Position. Financial liabilities includes collateral pledged, please refer to Note 18 for further detail of the collateral pledged by the Company as at 30 November 2023. Financial assets and financial liabilities which are subject to enforceable master netting arrangements or similar agreements such as derivative clearing agreements are detailed for 30 November 2023 and 30 November 2022 in the tables below and overleaf:

30 November 2023	Currency	Gross amounts of recognized financial assets	Gross amounts of recognised financial liabilities offset in the Statement of Financial Position	Net amounts of financial assets presented in the Statement of Financial Position	Related amounts not offset in the Statement of Financial Position			Net Amount

Notes to the Financial Statements (continued)

6. Management fees

The Management fees, a percentage of the Net Asset Value of the relevant Class of Shares, is payable by the Company out of the assets of the Fund to the Manager. The Management fee accrues on each day and is calculated on each Dealing Day and paid monthly (or more often) in arrears. The Manager pays out of its fees (and not out of the assets of the Fund) the fees and expenses (where appropriate) of the Investment Managers, the Sub-Investment Manager, the Administrator, the Depositary, the Directors, the Auditors and the ordinary fees, expenses and costs incurred by the Fund that include setting up costs and other administrative expenses as described in the Prospectus. Operating expenses are disclosed in the Statement of Comprehensive Income and in Note 5.

The fees in the following table are expressed as a percentage per annum of the Fund's net asset value.

11. Segment reporting

IFRS 8 requires disclosures in respect of the Chief Operating Decision Maker (“CODM”) and certain disclosures in respect of the country of origin of income. Management have determined the CODM is the Board of Directors.

All revenues are derived from financial assets and are attributable to a country based on the domicile of the issuer of the instrument. The tables below show a breakdown of the interest income. The Schedule of Investments discloses the investments of the Fund at their fair value by their respective country of origin.

Invesco Commodity Composite UCITS ETF

Financial year ended 30 November 2022	Country	Currency	Amount
Interest from financial assets at fair value through profit or loss	USA	USD	6,823,751

Notes to the Financial Statements (continued)

12. Use of financial derivative instruments and efficient portfolio management

Subject to the UCITS Regulations and to the conditions within the limits laid down by the Central Bank of Ireland, the Company, on behalf of a Fund, may invest in Financial Derivative Instruments ("FDIs") dealt on a regulated market and/or OTCs which can be used for investment purposes, hedging and/or efficient portfolio management purposes. During the financial year ended 30 November 2023 and the financial year ended 30 November 2022, the Company did not use FDIs for the purpose of efficient portfolio management.

The FDIs in which a Fund may invest are repurchase agreements, spot and forward currency contracts, options on securities, indices and currencies, swaps, credit default swaps, futures and options on futures and when issued, forward commitment securities, further details of which will be set out in the relevant Supplement.

As at 30 November 2023 and 30 November 2022, the only FDIs held by the Funds except for the Commodity Funds were outperformance swaps; where the performance of the equity baskets are netted against the performance of the Reference Index or Reference Asset, if the Reference Index/strategy outperforms the equity basket, the swap Counterparty pays the difference to the Fund; and vice versa.

As at 30 November 2023 and 30 November 2022, the only FDIs held by the Commodity Funds were total return swaps and forward currency contracts, which exchange an interest payment for the target performance.

The Company will, on request, provide supplementary information to Shareholders relating to the risk management methods employed, including the quantitative limits that are applied and any recent developments in the risk and yield characteristics of the main categories of investments in respect of the relevant Fund.

For further information on the exposure obtained through the use of FDIs and the identity of the counterparties, please refer to the Fund's Schedule of Investments. For details on the collateral pledged, please refer to the Funds' Schedule of Investments and Note 18.

13. Related and connected parties transactions

Parties are considered to be related if one party has the ability to control the other party or exercise significant influence over the other party in making financial or operational decisions.

Related Parties

Directors

The amount paid to Directors in the financial year to 30 November 2023 and the financial year to 30 November 2022 by the Manager and the amounts outstanding on 30 November 2023 and 30 November 2022 are disclosed in Note 5 (Operating Expenses) and Note 10 (Payables) respectively. The Directors who are also employees of the Invesco Group are not entitled to receive Directors' fees.

Gary Buxton is a Director of the Company, the Manager and the Chief Operating Officer of the Invesco UK Services Limited. Sarah (Katy Walton) Jones is a Director of the Company and Head of Legal for Invesco's EMEA ETP business. Feargal Dempsey is a Director of the Company and also a Director of the Manager. Lisa Martensson is a Director of the Company and also a Director of the Manager.

Connected Parties

Investment Managers

Invesco Capital Management LLC is a connected party and the Investment Manager to the Commodity Funds. Assenagon Asset Management S.A. is a connected party and the Sub-Investment Manager to the Commodity Funds. Assenagon Asset Management S.A. is also the Investment Manager to all other Funds of the Company. The Funds paid no fees directly to the Investment Managers/Sub-Investment Manager and fees paid by Manager on behalf of the Funds. As outlined in Note 5 of these Financial Statements, all other expenses are paid by the Manager on behalf of the Funds.

Manager

The Company has appointed Invesco Investment Management Limited to act as Manager to the Company and each Fund. The Manager forms part of the Invesco group of companies, the parent of which is Invesco Limited, a US publicly traded company listed on the New York Stock Exchange with ticker IVZ. The management fee charged for the financial year was EUR 32,668,518 (30 November 2022: EUR 37,228,217), of which EUR 1,134,185 was outstanding at 30 November 2023 (30 November 2022: EUR 1,123,628).

Significant agreements

Authorised Participants

The Authorised Participants are significant agreements by virtue of their direct shareholding in the Fund or through a shareholding of one of their respective group companies. The complete list of Authorised Participants is shown in the Organisation section on pages 9 to 10.

There were no brokerage fees paid to the Authorised Participants during the financial year ended 30 November 2023 (30 November 2022: Nil).

Authorised Participants may purchase and hold Redeemable Shares in the Funds for trading purposes. In addition, the Authorised Participants may hold Redeemable Shares on behalf of clients, on their own account or for the purpose of providing seed capital to the Funds. These holdings may on occasion constitute a large portion of a Fund. From time to time, such holdings may even constitute the majority of assets under management of the Fund but are not significant at financial year end. There is no requirement (expressed or implied) on Authorised Participants to maintain positions in a Fund at any time.

Notes to the Financial Statements (continued)

14. Auditors' remuneration

As required under Section 322 of the Companies Act 2014 (as amended), the remuneration for all work carried out by the statutory audit firm in respect of the financial year is as follows:

	Financial year ended 30 November 2023 EUR	Financial year ended 30 November 2022 EUR
Statutory audit of company accounts	374,895	368,400
Other assurance services	29,150	27,500
	404,045	395,900

EUR 404,045 was outstanding at the financial year end (30 November 2022: EUR 395,900). The above fees are presented exclusive of VAT and are paid by the Manager.

15. Taxation

Under current law and practice, the Company qualifies as an investment undertaking as defined in section 739B of the Taxes Consolidation Act, 1997, as amended. On that basis it is not chargeable to Irish tax on its income or gains. However, Irish tax may arise on the occurrence of a "chargeable event" for certain investors not satisfying one of the criteria outlined below.

A chargeable event includes any distribution payments to Shareholders or any encashment, redemption, cancellation or transfer of Shares and the holding of Shares at the end of each 8 year beginning with the acquisition of such Shares.

No Irish tax will arise on the Company in respect of chargeable events in respect of:

- Shareholder who is neither Irish resident nor ordinarily resident in Ireland for tax purposes, at the time of the chargeable event, provided appropriate valid declarations in accordance with the provisions of the Taxes Consolidation Act, 1997, as amended, are held by the Company, or the Company has been authorised by the Irish Revenue to make gross payments in the absence of appropriate declarations;
- certain exempted Irish tax resident Shareholders who have provided the Company with the necessary signed statutory declarations; and
- any transaction (which might otherwise be a chargeable event) in relation to Shares held in a recognised clearing system as designated by order of the Irish Revenue Commissioners will not constitute a chargeable event. It is the current intention of the Directors that all the Shares in the Company will be held in recognised clearing systems.

Dividends, interest and capital gains (if any) received on investments made by the Company may be subject to withholding taxes imposed by the country from which the investment income/gains are received and such taxes may not be recoverable by the Company or its Shareholders.

Funds which purchase derivatives after 1 January 2017, on the net total return versions* of indices deemed to be non-qualifying under Section 871(m) of the U.S. Internal Revenue Code, receive a cash dividend amount from each derivative counterparty. The derivative counterparty will withhold and pay such amount to the IRS in satisfaction of the Funds' tax liability under this code. The cash dividend amount is based on the number of Reference Index units the Fund holds and the weight of the Reference Index component on each ex-date multiplied by the applicable withholding tax rate. Derivative positions detailed in the relevant Funds' Schedule of Investments may comprise of two positions with both Goldman Sachs and Morgan Stanley: one traded prior to the 1 January 2017 which is grandfathered and not liable for withholding tax and a position traded after 1 January 2017 which is liable. On 9 December 2021, (one day before maturity date) all Morgan Stanley swaps were extended by 5 years (new maturity date (10 December 2026)). Due to that extensions the previously grandfathered swaps lost their 871m grandfather status. One week later swaps that were previously split between different MS accounts in ETF Manager ("ETFM") were merged.

There are currently 7 Funds in scope, namely: Invesco Consumer Discretionary S&P US Select Sector UCITS ETF, Invesco Consumer Staples S&P US Select Sector UCITS ETF, Invesco Energy S&P US Select Sector UCITS ETF, Invesco Financials S&P US Select Sector UCITS ETF, Invesco Health Care S&P US Select Sector UCITS ETF, Invesco Industrials S&P US Select Sector UCITS ETF and Invesco Technology S&P US Select Sector UCITS ETF.

The tax element applicable to each of the Funds listed above is rolled up into the realised and unrealised gains/(losses) on outperformance swaps.

During the financial year ended 30 November 2023 and 30 November 2022, the derivative counterparties withheld and paid respective amounts to IRS in satisfaction of the Funds' tax liability under this code. The amounts paid, which is rolled up into the realised and unrealised gains/(losses) on outperformance swaps and does not affect Funds NAV, amount paid in respect of all funds is immaterial.

**The Invesco Morningstar US Energy Infrastructure MLP UCITS ETF, trades the Gross Return Reference Index. US master limited partnerships ("MLPs") are structured so that distributions are generally treated as capital rather than income. However some MLPs own securities that distribute income to the MLP, which means the MLP's own distribution would include income and could be subject to withholding tax. Invesco has agreed with its derivative counterparties that any tax which may arise will not be charged to the Fund and thus will not affect the Funds' performance.*

Notes to the Financial Statements (continued)

16. Share capital

The authorised share capital of the Company is 2 subscriber shares of €1 each and 1,000,000,000,000 shares of no par value initially designated as unclassified shares and available for issue as shares.

In accordance with the objectives listed in the risk management policies in Note 2, the Company strives to invest the subscriptions of Redeemable Shares in appropriate investments.

Details of the number of shares issued and redeemed during the financial year per Fund are contained below:

For the financial year ended 30 November 2023:

Share class	Currency	Balance at beginning of financial year	Issued during the financial year	Redeemed during the financial year	Total number of Redeemable shares in issue at the end of the financial year

**The Fund launched on 26 July 2023.

18. Collateral

The collateral for the Commodity Funds is bilateral. The Funds have entered into an International Swaps and Derivative Agreement (“ISDA”) with each Counterparty being Citigroup Global Markets, Deutsche Bank London, Morgan Stanley & Co LLC, Goldman Sachs International, J.P. Morgan Securities plc, these ISDA were in place throughout the financial year ending 30 November 2023. Based on the value of the daily mark to market values of the total return swap, Assenagon Asset Management S.A. (the “Sub-Investment Manager”) on behalf of the Commodity Funds agrees a daily collateral call with the counterparties. If the Funds are required to pledge collateral they will deliver securities which comprise US Treasury Bills as collateral. If the Funds are to receive collateral from the counterparty they will receive USD cash or UK Gilts, US Treasury Bills or Bonds or German Bonds. If the Funds receive collateral, the collateral will not impact the Fund’s net assets. If the Funds are required to pledge collateral, then the Funds will deliver securities being the US Treasury Bills to the counterparty. Based on the value, the Investment Manager agrees a daily collateral call with the counterparties. Collateral calls are made in line with the timings, minimum transfer amounts and other parameters defined in the Credit Support Annex to the ISDA with the respective counterparty.

US Treasury Bills pledged by the Commodity Funds as at 30 November 2023 and 30 November 2022 are detailed below.

Invesco Commodity Composite UCITS ETF as at 30 November 2023

19. Soft commission arrangements

It is not currently intended that any soft commission arrangements will be made in respect of the Company.

There were no soft commission arrangements in the current or prior financial year.

20. Segregation of liability

Under the provisions of the Companies Act 2014 (as amended) the Directors shall maintain for each Fund a separate portfolio of assets. As between Shareholders, each portfolio of assets shall be invested for the exclusive benefit of the relevant Fund. The Shareholders shall only be entitled to the assets and profits of that Fund in which they participate. The Company shall be considered one single legal entity. With regard to third parties, in particular towards the Company's creditors, the Company shall be responsible for all liabilities incurred by a Fund exclusively based on the assets of this relevant Fund. Among the Shareholders, the liabilities of each Fund shall only be incurred to the respective Fund. While the provisions of the Companies Act 2014 (as amended) provide for segregated liability between Funds, these provisions have yet to be tested in foreign courts, in particular, in satisfying local creditors' claims. Accordingly, it is not free from doubt that the assets of any Fund of the Company may not be exposed to the liabilities of other Funds of the Company.

As at the date of the Financial Statements, the Directors are not aware of any existing or contingent liability of any Fund of the Company.

21. Operating Segment

IFRS 8 requires disclosure in respect of the Chief Operating Decision Maker ("CODM") and certain disclosures in respect of the country of origin of income, which may consist of interest and dividends. Management have determined that the CODM is the Board of Directors.

The Funds except for the Commodity Funds trade a portfolio of equities and outperformance swaps with the objective of providing Shareholders with a Target Performance linked to the performance of a Reference Index or Reference Asset.

The Commodity Funds trade a portfolio of US Treasury Bills and total return swaps with the objective of providing Shareholders with a Target Performance linked to the performance of a Reference Index.

Notes to the Financial Statements (continued)

21. Operating Segment (continued)

The segment information provided to the Investment Manager and Sub Investment Manager is the same as that disclosed as at 30 November 2023, in the Statements of Comprehensive Income, in the Statement of Financial Position, in Statement of Changes in Net Assets Attributable to Holders of Participating Redeemable Preference Shares, in the Statement of Cash Flows and Schedule of Investments for each Fund.

The internal reporting provided to the Board of Directors for the Company assets and liabilities and performance is prepared on a consistent basis with the measurement and recognition of IFRS.

Each Fund is operating as a single operating segment.

There were no changes in the reportable segments during the financial year. The Funds have no assets classified as non-current assets.

In respect of the Funds which operate hedged share classes, these hedged share classes do not represent separate operating segments from their respective Funds.

22. Comparative figures

The Fund below has no comparatives as it launched after 30 November 2022.

	Launch Date
Invesco Bloomberg Commodity Carbon Tilted UCITS ETF	26 July 2023

23. Significant events during the financial year

On 3 May 2023, Invesco STOXX Europe Small 200 UCITS ETF, Invesco STOXX Europe Mid 200 UCITS ETF, Invesco MSCI Europe Value UCITS ETF, Invesco Goldman Sachs Equity Factor Index Europe UCITS ETF, Invesco Goldman Sachs Equity Factor Index Emerging Markets UCITS ETF and Invesco Goldman Sachs Equity Factor Index World UCITS ETF terminated.

On 26 July 2023, Invesco Bloomberg Commodity Carbon Tilted UCITS ETF launched.

Silicon Valley Bank, Signature Bank and Credit Suisse

Following the closure of Silicon Valley Bank ("SVB"), the possession of Signature Bank and the recent economic turmoil involving Credit Suisse, Invesco have evaluated the impact to the Company and the aggregate exposure of the funds that are tied to SVB, Signature Bank and Credit Suisse is immaterial to the overall assets under management of the Company.

The investment teams overseeing these Funds are monitoring the situation and are making decisions with the best interests of clients in mind.

Conflict in Gaza

On 7 October 2023, Palestinian militants launched an assault on Israel, leading to an Israeli invasion of Gaza. This conflict has created extensive uncertainty on the political and economic front. The long term impact on economies, markets, industries and individual issuers continue to evolve. The Directors are monitoring the situation and are continuing to review during this period of uncertainty to assess any impact the situation may have on any of the Funds.

There were no other significant events during the financial year end.

24. Significant events since the financial year end

A new Prospectus was issued on 18 December 2023 replacing the Prospectus from 30 November 2022.

Post year end NAV Movements

The Net Asset Value ("NAV") at the balance sheet date and the latest practicable date prior to the publication of the report has been shown in the table below. Movement in the NAV of the funds relate to capital movement, none of the funds underlying index has dropped significantly since the balance sheet date.

The CBI requires a schedule of material changes in the composition of the portfolio during the financial year. These are defined as aggregate purchases of a security exceeding one per cent of the total value of purchases for the financial year and aggregate disposals greater than one per cent of the total value of sales. Where the number of purchases/sales transactions exceeding 1% of the total value of purchases/sales for the financial year is less than 20, then a minimum of 20 purchases/sales will be disclosed.

The CBI requires a schedule of material changes in the composition of the portfolio during the financial year. These are defined as aggregate purchases of a security exceeding one per cent of the total value of purchases for the financial year and aggregate disposals greater than one per cent of the total value of sales. Where the number of purchases/sales transactions exceeding 1% of the total value of purchases/sales for the financial year is less than 20, then a minimum of 20 purchases/sales will be disclosed.

The CBI requires a schedule of material changes in the composition of the portfolio during the financial year. These are defined as aggregate purchases of a security exceeding one per cent of the total value of purchases for the financial year and aggregate disposals greater than one per cent of the total value of sales. Where the number of purchases/sales transactions exceeding 1% of the total value of purchases/sales for the financial year is less than 20, then a minimum of 20 purchases/sales will be disclosed.

The CBI requires a schedule of material changes in the composition of the portfolio during the financial year. These are defined as aggregate purchases of a security exceeding one per cent of the total value of purchases for the financial year and aggregate disposals greater than one per cent of the total value of sales. Where the number of purchases/sales transactions exceeding 1% of the total value of purchases/sales for the financial year is less than 20, then a minimum of 20 purchases/sales will be disclosed.

The CBI requires a schedule of material changes in the composition of the portfolio during the financial year. These are defined as aggregate purchases of a security exceeding one per cent of the total value of purchases for the financial year and aggregate disposals greater than one per cent of the total value of sales. Where the number of purchases/sales transactions exceeding 1% of the total value of purchases/sales for the financial year is less than 20, then a minimum of 20 purchases/sales will be disclosed.

**Statement of Changes in Composition of Portfolio (Unaudited)

The CBI requires a schedule of material changes in the composition of the portfolio during the financial year. These are defined as aggregate purchases of a security exceeding one per cent of the total value of purchases for the financial year and aggregate disposals greater than one per cent of the total value of sales. Where the number of purchases/sales transactions exceeding 1% of the total value of purchases/sales for the financial year is less than 20, then a minimum of 20 purchases/sales will be disclosed.

Statement of Changes in Composition of Portfolio (Unaudited)

The CBI requires a schedule of material changes in the composition of the portfolio during the financial year. These are defined as aggregate purchases of a security exceeding one per cent of the total value of purchases for the financial year and aggregate disposals greater than one per cent of the total value of sales. Where the number of purchases/sales transactions exceeding 1% of the total value of purchases/sales for the financial year is less than 20, then a minimum of 20 purchases/sales will be disclosed.

The CBI requires a schedule of material changes in the composition of the portfolio during the financial year. These are defined as aggregate purchases of a security exceeding one per cent of the total value of purchases for the financial year and aggregate disposals greater than one per cent of the total value of sales. Where the number of purchases/sales transactions exceeding 1% of the total value of purchases/sales for the financial year is less than 20, then a minimum of 20 purchases/sales will be disclosed.

The CBI requires a schedule of material changes in the composition of the portfolio during the financial year. These are defined as aggregate purchases of a security exceeding one per cent of the total value of purchases for the financial year and aggregate disposals greater than one per cent of the total value of sales. Where the number of purchases/sales transactions exceeding 1% of the total value of purchases/sales for the financial year is less than 20, then a minimum of 20 purchases/sales will be disclosed.

*The Fund terminated on 3 May 2023.

The CBI requires a schedule of material changes in the composition of the portfolio during the financial year. These are defined as aggregate purchases of a security exceeding one per cent of the total value of purchases for the financial year and aggregate disposals greater than one per cent of the total value of sales. Where the number of purchases/sales transactions exceeding 1% of the total value of purchases/sales for the financial year is less than 20, then a minimum of 20 purchases/sales will be disclosed.

Statement of Changes in Composition of Portfolio (Unaudited)
For the financial year ended 30 November 2023

The CBI requires a schedule of material changes in the composition of the portfolio during the financial year. These are defined as aggregate purchases of a security exceeding one per cent of the total value of purchases for the financial year and aggregate disposals greater than one per cent of the total value of sales. Where the number of purchases/sales transactions exceeding 1% of the total value of purchases/sales for the financial year is less than 20, then a minimum of 20 purchases/sales will be disclosed.

Supplemental Information (Unaudited) Remuneration Disclosure

Remuneration policy

Invesco Investment Management Limited (the "Management Company") has adopted a remuneration policy which is consistent with the principles outlined in the European Securities and Markets Authority (ESMA) Guidelines on sound remuneration policies under the UCITS Directive.

The policy was revised in 2023, to include specificities for some Invesco EU regulated Management Companies. The Management Company was not impacted by the changes.

The purpose of the remuneration policy is to ensure the remuneration of the staff of the Management Company is consistent with and promotes sound and effective risk management, does not encourage risk-taking which is inconsistent with the risk profiles, rules or instruments of incorporation of the Manager and of the UCITS it manages and does not impair the Management Company's compliance with its duty to act in the best interests of the UCITS it manages. The Management Company's summary remuneration policy is available on our website (www.invescomanagementcompany.ie). The Management Company's full remuneration policy is available for free from the registered office (see address page 8) upon request.

The remuneration policy is reviewed annually by the Compliance, Human Resources and Risk Management functions who recommend any adjustments to ensure continued alignment of the policy with sound risk management. The board of directors of the Management Company is responsible for the oversight of remuneration and for ensuring adherence to this policy through the Human Resources function.

The Internal Audit function conducts regular testing of administration of the remuneration policy to assess its ongoing compliance with the Invesco Group's remuneration policies and procedures.

The aggregate total remuneration for the staff of the Management Company during performance year 2023 (1 January 2023 to 31 December 2023) is EUR 9.85m of which EUR 8.28m is fixed remuneration and EUR 1.57m is variable remuneration. The number of beneficiaries is 64.

The Management Company has identified individuals considered to have a material impact on the risk profile of the Management Company or the UCITS it manages (Identified Staff), who include board members of the Management Company, senior management, heads of control functions, other risk takers and any employees receiving total remuneration that takes them into the same remuneration bracket as senior management and risk takers.

The aggregate total remuneration paid to the Identified Staff of the Management Company for UCITS related activities for the performance year 2023 (1 January 2023 to 31 December 2023) is EUR 4.37m of which EUR 2.70m is paid to Senior Management and EUR 1.67m is paid to other Identified Staff. Please note the total remuneration for Identified Staff of the Management Company for UCITS related activities includes remuneration for staff employed by delegates.

Supplemental Information (Unaudited)

Securities Financing Transactions Regulations

The following information is presented with regard to Securities Financing Transactions Regulation (EU) 2015/2365 ("SFTR") on transparency of securities financing and of reuse. The Board of Directors considers the outperformance swaps held by the Funds to meet the definition of total return swaps ("TRSs") within those regulations. The Authorised Participants listed on pages 9 and 10 of the financial statements may also be counterparties to the Swaps.

Re-use of Collateral

Collateral is not re-used.

Safekeeping – Collateral Received

All collateral received/payable is held on behalf of the Funds by Northern Trust Company. Cash of EUR 5,205,754 was payable as collateral to Citigroup Global Markets Ltd, Deutsche Bank AG, New York, Goldman Sachs International and J.P. Morgan Securities plc at 30 November 2023 (30 November 2022: Nil).

Return & Cost

Returns and costs for total return swaps are received/borne 100% by each Fund and netted with realised gain/(losses) on outperformance swaps. The monetary amounts are disclosed in Note 4 Net gains/(losses) on financial assets and liabilities at fair value through profit or loss to each Fund as Realised gains/(losses) and Net change in unrealised appreciation/(depreciation) on outperformance swaps and total return swaps.

Supplemental Information (Unaudited) Sustainable Finance Disclosure Regulation

The following Funds are classified as financial products which promote environmental and/or social characteristics as described in Article 8 (the "Article 8 Funds" and each, an "Article 8 Fund") of Regulation (EU) 2019/2088 of the European Parliament and of the Council of 27 November 2019 on sustainability-related disclosures in the financial services sector ("SFDR"):

- Invesco S&P 500 ESG UCITS ETF
- Invesco Bloomberg Commodity Carbon Tilted UCITS ETF

Article 11(1) of SFDR requires certain information to be disclosed in the audited financial statements where a Fund is classified as an Article 8 Fund within the meaning of SFDR. This information is required to be presented in the form of the template set out in the SFDR Annexes to the financial statements for Article 8 Funds of Commission Delegated Regulation (EU) 2023/363 of 31 October 2022 amending and correcting the regulatory technical standards laid down in Delegated Regulation (EU) 2022/1288 supplementing SFDR. Further information on the environmental and/or social characteristics promoted by the Article 8 Funds during the year can be found in the annexes to these financial statements.

The data used to complete the disclosures set out in the SFDR Annexes to these financial statements for the Article 8 Funds is provided by the relevant index provider and other third-party sources. The data used is the data available as at the date at which the disclosures were produced and is based on backward-looking analysis. The analysis is dependent on companies disclosing relevant data and the availability of this data can be limited. Data may also be incomplete, inaccurate and/or contain errors that may not be detected by the Manager and the relevant index provider. It has been observed that the availability and accuracy of data, from the relevant index provider, third party data providers and underlying investee companies, continues to be challenging in some respects. Additionally, there may be further regulatory guidance of relevance to the content of the disclosures that is still to be issued. The disclosures included in the Annexes to these financial statements should consequently be read and understood in light of these continuing challenges. With the assistance of the Manager and the Investment Manager, the Board continues to monitor the ongoing development and evolution of sustainability-related regulation and associated guidance and the availability of relevant third party and investee companies' data in this regard.

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

Yes

- It made **sustainable investments with an environmental objective**: _____%
- in economic activities that qualify as environmentally sustainable under the EU Taxonomy
 - in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

- It made **sustainable investments with a social objective**: _____%

No

- It **promoted Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of _____% of sustainable investments
- with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
 - with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
 - with a social objective
- It promoted E/S characteristics, but **did not make any sustainable investments**

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

The environmental and social characteristics promoted by the Fund were to provide indirect exposure to the S&P 500 ESG Index ("**Reference Index**"), thereby gaining exposure to similar overall industry group weights as the S&P 500 Index ("**Parent Index**") whilst improving the Fund's ESG characteristics. The Fund achieved this by tracking the Reference Index, which has a methodology consistent with attaining the environmental and/or social characteristics promoted by the Fund. The extent to which the Fund tracked Reference Index is reflected by the tracking error figures available in the annual report.

The environmental and/or social characteristics were achieved by excluding from the Parent Index issuers involved in certain business activities deemed by the Index Provider to be inconsistent with ESG outcomes, issuers that are involved in severe ESG controversies, and issuers that fall within 25% of the worst scoring in each Global Industry Classification Standard (GICS®) industry group according to S&P Dow Jones Index ESG scores.

The Investment Manager also applied substantially similar business involvement and controversy exclusion criteria of the Index Provider to the underlying Basket.

● How did the sustainability indicators perform?

The Fund used a variety of indicators to measure the attainment of the environmental and social

characteristics. Against these indicators, the fund offered the following:

Sustainability Indicator	Indicator performance
S&P DJI ESG Score (as defined in the methodology of the Reference Index) of the Fund relative to the Parent Index	12.2% improvement
CO2 emissions intensity of the Fund relative to the Parent Index	26.7% reduction
Percentage of the Fund portfolio invested in excluded companies involved in controversial business activities and controversies (as defined in the methodology of the Reference Index)	As at each Reference Index rebalance date, the Fund had 0% exposure to excluded companies

● **...and compared to previous periods?**

The Fund displayed a consistent improvement in S&P DJI ESG Score through the period, slightly below the same improvement reported this time last year (12.5%). Similarly, the reduction in CO2 emissions intensity has dropped slightly since last reporting period (28.9%). However, the Fund continues to offer 0% exposure to companies excluded by the methodology of the Reference Index.

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

NA

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

NA

How were the indicators for adverse impacts on sustainability factors taken into account?

NA

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

NA

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the Union criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the Union criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

How did this financial product consider principal adverse impacts on sustainability factors?

The net economic exposure of the Fund was to the constituent securities in the Reference Index. This exposure was achieved indirectly, through Swaps. Through the application of the various exclusionary criteria in the methodology of the Reference Index, the companies in the Reference Index considered principal adverse impacts on sustainability factors.

The index methodology directly excluded a number of companies involved in certain business activities. Through removal of companies involved in Thermal Coal and Oil Sands the Reference Index reduced its exposure to greenhouse gas emissions. The methodology also excluded companies involved in Controversial Weapons, and those that were deemed non-compliant with the principles of the United Nations Global Compact. Through selection of constituents based on S&P DJI ESG Scores, the Reference Index also addressed a number of other adverse indicators. The Reference Index also excluded any companies where data wasn't available to make such assessments.

S&P DJI ESG Scores consider a number of key issues in their construction, including, but not limited to; Greenhouse Gas Emissions, Energy Consumption, Hazardous Waste, Board Gender Diversity, and Gender Pay Gap. The scores also took into account if there had been recent controversies in the area of Water Operations.

The exclusion criteria that the Investment Manager applied to the Basket did not consider principal adverse impacts on sustainability factors (as disclosed in the pre-contractual annex of the Fund). However, the Basket operated with similar exclusions, removing companies involved in Thermal Coal, Oil Sands, Controversial Weapons, and those that were deemed non-compliant with the principles of the United Nations Global Compact. The Basket also excluded any companies where data wasn't available to make such assessments.

The below table shows the PAI scores for the fund:

Adverse sustainability indicator	PAI	Data	Metric
Greenhouse gas emissions	1. GHG Emissions	46,487.26	Scope 1 fund financed emissions (Tonnes of CO2 equivalent)
		12,942.69	Scope 2 fund financed emissions (Tonnes of CO2 equivalent)
		808,240.32	Scope 3 fund financed emissions (Tonnes of CO2 equivalent)
		867,670.27	Total Financed emissions (Scope 1 + Scope 2 + Scope 3) (Tonnes of CO2 equivalent)
	2. Carbon footprint	365.04	Fund level Carbon footprint (Scope 1 + Scope 2 + Scope 3) (Per Million EUR Invested)
	3. GHG Intensity of investee companies	1,084.65	Fund level Total Emission Intensity- Scope 1+2+3 (Per Million EUR Revenue)
	4. Exposure to companies active in the fossil fuel sector	2.21	% of the fund exposed to any fossil fuels revenue
	5. Share of non-renewable energy consumption	55.90	Adjusted Weighted Average of all issuers in the fund's share of non-renewable energy consumption and non-renewable energy production of investee companies from non-renewable energy sources compared to renewable energy sources, expressed as a percentage of total energy sources (%)
	5. Share of non-renewable energy production	15.68	
	6. Energy consumption intensity per high impact climate sector		Adjusted weighted average energy consumption of issuers in the fund in GWh per million EUR of revenue of investee companies, per high impact climate sector
	Agriculture, Forestry & Fishing	2.43	
	Construction	0.11	
	Electricity, Gas, Steam & Air Conditioning Supply	3.70	
	Manufacturing	0.23	
Mining & Quarrying	1.91		
Real Estate Activities	0.47		
Transportation & Storage	1.76		
Water Supply, Sewerage, Waste Management & Remediation Activities	0.67		
Wholesale & Retail Trade & Repair of Motor Vehicles & Motorcycles	0.09		
Biodiversity	7. Activities negatively affecting biodiversity-sensitive areas	7.79	Share of investments in the fund of investee companies with sites/operations located in or near to biodiversity-sensitive areas where activities of those investee companies negatively affect those areas
Water	8. Emissions to water	0.02	Adjusted weighted average per issuer in the fund's emissions to water generated by investee companies per million EUR invested (Tonnes)
Waste	9. Hazardous waste and radioactive waste ratio	2.66	Tonnes of hazardous waste and radioactive waste generated by investee companies per million EUR invested, expressed as a weighted average
Social and employee matters	10. Violations fo UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises	0.00	Share of investments in investee companies that have been involved in violations of the UNGC principles or OECD Guidelines for Multinational Enterprises
	11. Lack of proceses and compliance mechanisms to	49.42	Share of investments in investee companies without policies to monitor compliance with the UNGC principles

	monitor compliance with UN Global Compact principles and OECD Guidelines for Multinational Enterprises		or OECD Guidelines for Multinational Enterprises or grievance/ complaints handling mechanisms to address violations of the UNGC principles or OECD Guidelines for Multinational Enterprises
	12. Unadjusted gender pay gap	17.32	Weighted Average of all issuers' in the portfolio unadjusted gender pay gap of investee companies
	13. Board gender diversity	34.43	Weighted Average of all issuers in the portfolio ratio of female to male board members in investee companies, expressed as a percentage of all board members
	14. Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons)	0.00	Share of investments in investee companies involved in the manufacture or selling of controversial weapons
Optional Indicators	Optional Indicator: 4. Investments in companies without carbon emission reduction initiative	33.44	Share of investments in investee companies without carbon emission reduction initiatives aimed at aligning with the Paris Agreement
	Optional Indicator: 9. Lack of a human rights policy	3.38	Share of investments in entities without a human rights policy

What were the top investments of this financial product?

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is: from 1st of December 2022 to 30th of November 2023. The data is representative of the reference period.

Large Investments	Sector	% Assets	Country
APPLE INC	Information Technology	9.49%	United States
MSFT SW COM	Information Technology	8.49%	United States
AMAZON.COM INC	Consumer Discretionary	3.99%	United States
NVIDIA CORP	Information Technology	3.29%	United States

VISA INC-CLASS A	Financials	1.46%	United States
PROCTER & GAMBLE	Consumer Staples	1.32%	United States
ELI LILLY & CO	Health Care	1.31%	United States
MASTERCARD INC-A	Financials	1.24%	United States
TESLA INC	Consumer Discretionary	1.19%	United States
MERCK & CO	Health Care	1.03%	United States
ABBVIE INC	Health Care	1.02%	United States

What was the proportion of sustainability-related investments?

Please see below.

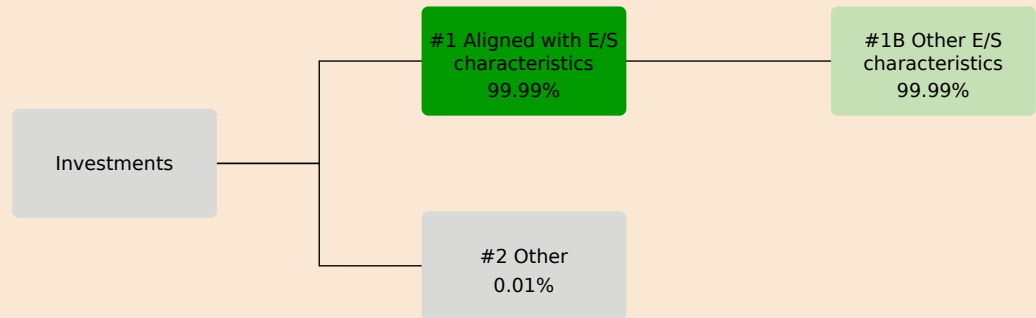

Asset allocation describes the share of investments in specific assets.

● What was the asset allocation?

100% of the Fund's portfolio (except for a residual cash holding, which was less than 0.01% of the Fund's portfolio) was aligned with the environmental and or social characteristics.

The Fund invested all or substantially all of the net proceeds of any issue of Shares in a Basket of global equity and equity-related securities. The Fund entered into unfunded swap contracts with Approved Counterparties through which it paid away the performance/return of the Basket of

securities and received in return the performance of either the Reference Index, or of a currency-hedged variant thereof, as required to produce the necessary returns for any currency-hedged share classes of the Fund.

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2 Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

● In which economic sectors were the investments made?

GICS Sector Breakdown - the data is representative of the reference period.

Sector (GICS)	Weight %
Financials	13.41
Communication Services	8.11
Consumer Discretionary	10.18
Information Technology	29.46
Industrials	6.76
Consumer Staples	6.72
Energy	4.47
Real Estate	2.55
Health Care	14.24
Materials	2.55
Utilities	1.50
Unclassified	0.04
Cash & Other/Derivatives	0.01
Total	100.00

Sub-Industry Code	Sub-Industry Name	Weight
10101010	Oil & Gas Drilling	0.00
10101020	Oil & Gas Equipment & Services	0.55
10102010	Integrated Oil & Gas	1.51
10102020	Oil & Gas Exploration & Production	1.39
10102030	Oil & Gas Refining & Marketing	0.61
10102040	Oil & Gas Storage & Transportation	0.41
10102050	Coal & Consumable Fuels	0.00

To comply with the EU Taxonomy, the criteria for fossil gas include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For nuclear energy, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- turnover reflecting the share of revenue from green activities of investee companies.
- capital expenditure (CapEx) shows the green investments made by investee companies, relevant for a transition to a green economy.
- operational expenditure (OpEx) reflects the green operational activities of investee companies.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The Fund does not intend to make any Sustainable Investments and gains exposure to the Reference Index via derivatives, hence it doesn't report any exposure to environmentally sustainable economic activities. However, 1.69% (Turnover) of the components of the Reference Index was aligned with the EU Taxonomy. The data is representative of the reference period.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

- Yes
- In fossil gas In nuclear energy
- No

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

*For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

What was the share of investments made in transitional and enabling activities?

The below table shows the share of investments in transitional and enabling activities and the data is representative of the reference period.

	Aligned
Enabling	1.24%
Transition	0.04%

'Aligned' means % of revenues of the investments of the Funds that are aligned to the EU Taxonomy.

How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

N/A

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective – see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

are sustainable investments with an environmental objective that do not take into account the criteria for environmentally sustainable economic activities under the EU Taxonomy.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

0%

What was the share of socially sustainable investments?

0%

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

Residual cash holdings, which was less than 0.01% of the Fund's portfolio.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Fund achieved the environmental and social characteristics by tracking the Reference Index, which has a methodology that is consistent with attaining the environmental and social characteristics promoted by the Fund.

Please refer to the section “How did the sustainability indicators perform” above for further information.

How did this financial product perform compared to the reference benchmark?

See tables completed in below sections.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

● **How does the reference benchmark differ from a broad market index?**

The Reference Index differs from a broad market index because it excluded issuers that were involved in certain business activities deemed by the Index Provider to be inconsistent with ESG outcomes, issuers that are involved in severe ESG controversies, and issuers that fall within the worst 25% from each GICS® industry group, according to S&P Dow Jones Index ESG scores.

● **How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?**

As the Fund achieved the environmental and social characteristics by tracking the Reference Index, which has a methodology that is consistent with attaining the environmental and social characteristics promoted by the Fund, the performance of the Fund was aligned with that of the Reference Index.

● **How did this financial product perform compared with the reference benchmark?**

As the Fund synthetically replicates the performance of the Reference Index (by receiving the return of the Reference Index through unfunded Swaps), the sustainability indicators performed equivalently for the Fund

and Reference Index, both offered:

Sustainability Indicator	Fund Indicator Performance	Reference Index Indicator Performance
S&P DJI ESG Score (as defined in the methodology of the Reference Index)	68.5	68.5
CO2 emissions intensity	78.9	78.9
Percentage of the portfolio invested in excluded companies involved in controversial business activities and controversies (as defined in the methodology of the Reference Index)	The Fund had 0% exposure to excluded companies at each Reference Index rebalance date	The Reference Index had 0% exposure to excluded companies at each Reference Index rebalance date

● **How did this financial product perform compared with the broad market index?**

The Parent Index also acts as a relevant broad market index. The sustainability indicators for the Fund and Parent Index differed as below, with the fund offering:

Sustainability Indicator	Fund Indicator Performance	Broad Market benchmark (Parent Index) Indicator Performance
S&P DJI ESG Score (as defined in the methodology of the Reference Index)	68.5	61.1
CO2 emissions intensity	78.9	107.7
Percentage of the portfolio invested in excluded companies involved in controversial business activities and controversies (as defined in the methodology of the Reference Index)	The Fund had 0% exposure to excluded companies at each Reference Index rebalance date	The Broad Market benchmark had 10.0% exposure to excluded companies at the latest Reference Index rebalance date

Product name: Invesco Bloomberg Commodity Carbon Tilted UCITS
ETF

Legal entity identifier:
5493000ETHIL8GWACY91

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

Yes

- It made **sustainable investments with an environmental objective**: _____%
- in economic activities that qualify as environmentally sustainable under the EU Taxonomy
 - in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

- It made **sustainable investments with a social objective**: _____%

No

- It **promoted Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of _____% of sustainable investments
- with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
 - with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
 - with a social objective
- It promoted E/S characteristics, but **did not make any sustainable investments**

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

The environmental characteristics promoted by the Fund were to provide indirect exposure to an index of commodity futures with the same constituent commodities as the Bloomberg Commodity Index (the “**Parent Index**”), whose weights were tilted to take into account the Greenhouse Gas emissions (“**GHG Emissions**”) associated with the production of the underlying commodity referenced by the futures contracts. The tilting was applied in such a way that within each of the following groups of commodities in the Reference Index (industrial metals, agriculture derived, agriculture ex-derived, livestock, precious metals, primary energy and distillates), lower GHG emitting commodities relative to their commodity group were overweighted, and higher GHG emitting commodities were underweighted, when compared to the Parent Index. The Fund achieved this by tracking the Reference Index, which has a methodology consistent with attaining the environmental and/or social characteristics promoted by the Fund. The extent to which the Fund tracked the Reference Index is reflected by the tracking error figures available in the annual report.

As a result of applying the tilting to the underlying futures contracts, the net environmental benefit was that greater relative funding support was provided to producers of less GHG emitting commodities, and reduced relative funding support was provided to producers of more GHG emitting commodities, when compared to the Parent Index.

The differential in funding support between the Reference Index and the Parent Index was assessed via the Aggregated Emissions Difference per Unit of Production, which is effectively the total reduction in weighted GHG Emissions per unit of production across all the underlying commodities referenced by the futures contracts of the Reference Index when compared to the Parent Index. The Reference Index tilt factors targeted an Aggregated Emission Difference Per Unit of Production of 20%.

● How did the sustainability indicators perform?

The Fund used a single indicator to measure the attainment of the environmental and social

characteristics. Against this indicator, the fund offered the following:

Sustainability Indicator	Indicator performance
Level of GHG Emissions reduction on a per unit of production basis relative to the Parent Index	20.4% reduction

● **...and compared to previous periods?**

N/A

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

N/A

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

N/A

How were the indicators for adverse impacts on sustainability factors taken into account?

N/A

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

N/A

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the Union criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the Union criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

How did this financial product consider principal adverse impacts on sustainability factors?

N/A

What were the top investments of this financial product?

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is from 1st of December 2022 to 30th of November 2023. The data is representative of the reference period.

Intercontinental Exchange Europe Low Sulphur Gasoil Energy Future	N/A	3.06%	United Kingdom
LME London Metal Exchange Lead Monthly Pit Commodity Future	N/A	2.87%	United Kingdom
CBT Chicago Board of Trade Hard Red Winter Wheat Composite Commodity Future	N/A	2.85%	United States

Asset allocation describes the share of investments in specific assets.

What was the proportion of sustainability-related investments?

Please see below.

● What was the asset allocation?

100% of the Fund's portfolio (except for a residual cash holding, which was less than 0.5% of the Fund's portfolio) was aligned with the environmental characteristics.

The Fund invested all or substantially all of the net proceeds of any issue of Shares in a portfolio of US Treasury Bills. The Fund entered into Swap contracts with Approved Counterparties through which it exchanged an agreed rate of return reflective of market rates of US Treasury Bills and received in return the performance of the Reference Index.

● **In which economic sectors were the investments made?**

N/A

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

N/A

● **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?**

Yes

In fossil gas

In nuclear energy

No

To comply with the EU Taxonomy, the criteria for fossil gas include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For nuclear energy, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- turnover reflecting the share of revenue from green activities of investee companies.
- capital expenditure (CapEx) shows the green investments made by investee companies, relevant for a transition to a green economy.

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective – see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

- operational expenditure (OpEx) reflects the green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

*For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

● What was the share of investments made in transitional and enabling activities?

N/A

● How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

N/A

are sustainable investments with an environmental objective that do not take into account the criteria for environmentally sustainable economic activities under the EU Taxonomy.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

N/A

What was the share of socially sustainable investments?

N/A

What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

Residual cash holdings, which was less than 0.5% of the Fund's portfolio.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Fund achieved the environmental and social characteristics by tracking the Reference Index, which has a methodology that is consistent with attaining the environmental and social characteristics promoted by the Fund.

Please refer to the section "How did the sustainability indicators perform" above for further information.

How did this financial product perform compared to the reference benchmark?

See tables completed in below sections:

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

● **How does the reference benchmark differ from a broad market index?**

The Reference Index differs from a broad market index (the Parent Index) because it applies tilting such that within each commodity group, lower GHG emitting commodities relative to the group are overweighted, and higher GHG emitting commodities are underweighted.

● **How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?**

As the Fund achieved the environmental and social characteristics by tracking the Reference Index, which has a methodology that is consistent with attaining the environmental and social characteristics promoted by the Fund, the performance of the Fund was aligned with that of the Reference Index.

● **How did this financial product perform compared with the reference benchmark?**

As the Fund synthetically replicates the performance of the Reference Index (by receiving the return of the Reference Index through unfunded Swaps), the sustainability indicator performed equivalently for the Fund and Reference Index, both offered:

Sustainability Indicator	Fund Indicator Performance	Reference Index Indicator Performance
Level of GHG Emissions reduction on a per unit of production basis relative to the Parent Index	20.4% reduction	20.4% reduction

● **How did this financial product perform compared with the broad market index?**

The Parent Index also acts as a relevant broad market index. As the sustainability indicator for the Fund is defined relative to the Parent Index, the Fund offers the same reduction relative to the broad market index:

Sustainability Indicator	Fund Indicator Performance	Broad Market benchmark (Parent Index) Indicator Performance
Level of GHG Emissions reduction on a per unit of production basis relative to the Parent Index	20.4% reduction	0.0% reduction
