

Non-UCITS Retail Scheme Key investor information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

M G T S

MGTS SIIION Cautious Fund A Acc (GB00BMZQ3W95)

The Sub-fund is managed by Margetts Fund Management Limited.

Objective and Investment Policy

Investment Objective

The objective of the Sub-fund is to provide capital growth, with the potential for income, over any 3-year period.

How will the objective be achieved?

A cautious asset allocation will provide exposure to a range of asset classes across any geographic area with exposure to shares that can vary between 30% and 50%.

The Sub-fund may also provide some exposure to alternative asset classes, such as property and commodities, which are intended to improve the overall risk reward profile of the Sub-fund. Exposure to alternative asset classes will be limited to 20%.

The balance of exposure will be to bonds (which may include government, corporate, sub-investment grade and inflation linked) and cash.

Exposure to cash will vary depending upon prevailing circumstances and although it would normally not exceed 10% of the total value of the Sub-fund, there may be times when a higher level of liquidity may be maintained and, if considered prudent, the exposure to cash or near cash instruments held would be increased. Unless market conditions were deemed unusually risky, the increased exposure and period would not be expected to exceed 30% and six months respectively.

To provide the above exposure, a minimum of 70% of the Sub-fund will be invested in active and/or passively managed collective investment schemes. The Sub-fund may also invest directly (maximum of 30%) in transferable securities, such as shares, bonds, investment trusts or structured products.

Management Style

The Sub-fund is actively managed, meaning that the manager selects investments, rather than tracking a stock exchange or index.

Derivative Use

The use of derivatives and/or hedging transactions are permitted in connection with efficient portfolio management (managing the Fund in a way that is designed to reduce risk or cost and/or generate extra income or growth or both). The Sub-fund may hold assets which embed derivatives that are used for investment purposes and efficient portfolio management, although this would not materially affect the risk exposure of the Sub-fund.

General

Shares in the Sub-fund can be bought and sold daily (every Business Day of the Sub-fund). If you invest in income shares, income from investments in the Sub-fund will be paid out to you. If you invest in accumulation shares, income will be retained in the value of your shares.

Recommendation: this Sub-fund may not be appropriate for investors who plan to withdraw their money within 3 years.

Risk and Reward Profile

The risk and reward score is not guaranteed and may change over time. The lowest category does not mean risk free.

The Sub-fund is in this category due to the nature of its investments and previous levels of volatility (how much the value of the Sub-fund rises and falls). The risk and reward score is based on past performance and calculated in accordance with European legislation. It may not be a reliable indication of the future risk profile.

The following risk factors are relevant to the overall risk profile of the Sub-fund. A full description of risk warnings is provided in the prospectus, which is available on our website, or by requesting a copy.

Investments in collective investment schemes may provide a higher level of diversification but may also increase costs. The underlying collective investment schemes may also experience operational or credit issues which could impact liquidity (the ability to sell) or capital value.

Exposure to various asset classes may include some assets that are considered to carry more risk. This means that the rise and fall in value could be greater than for lower risk investments, or that they may take longer to sell. In addition, the way in which these assets interact with each other may change through time causing higher or lower fluctuations of value.

There may be a significant exposure to cash or money markets. If investment markets generally rose during this period, against expectation, then returns would be reduced.

Structured products may have features that alter the returns from an underlying basket of assets (typically equity indices – e.g. FTSE 100), with the objective of delivering returns within a defined range as a result of foregoing higher growth and protecting from falls in value. It is important that investors are aware that at times this range may not be achieved, in which case the structure may provide a loss that will be similar to investing directly in the underlying asset. The value may also be affected by the issuer credit rating and they may be less liquid than other investments.

The objective, policy and strategy set out above should align with the objectives of the investors and their minimum timeframe for investment.

Charges

The charges you pay are used to pay the costs of running the Sub-fund, including the costs of marketing and distribution. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest		The entry and exit charges shown are the maximum figures. In some cases you might pay less – you can find this out from your financial adviser.
Entry Charge	0.00%	
Exit Charge	0.00%	
Charges taken from the Sub-fund over a year		The ongoing charges figure is based on the last year's expenses (or reasonable estimate where Sub-fund has not been operating for a full calendar year), for the year to 13 Mar 2023 and this figure may vary, year to year. It excludes portfolio transaction costs.
Ongoing Charges	0.76%	
Performance Fee	0.00%	For further details on the calculation of the charges please refer to the Sub-fund's prospectus.

Past Performance

This Sub-fund launched after the start of the previous year and therefore there is insufficient data to provide a useful indication of past performance. The Sub-fund was launched on 13 Mar 2023. The share class was launched on 13 Mar 2023.
