***Management Company was appointed on 16 December 2022

PGIM Funds Plc

Directors' Report and Statement of Directors' Responsibilities for the financial year ended 30 June 2023

The Directors present to the Shareholders their annual report together with the audited financial statements (the "Financial Statements") of PGIM Funds Plc (the "Company") for the financial year ended 30 June 2023.

The Company is incorporated as an Irish open-ended umbrella investment company with segregated liability between sub-funds (the "Sub-Funds"). The Company is authorised by the Central Bank of Ireland (the "Central Bank") as a UCITS (Undertaking for Collective Investment in Transferable Securities) pursuant to the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations, 2011 (as amended) and Central Bank (Supervision and Enforcement) Act, 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations 2019 (the "Central Bank UCITS Regulations"). The registered office of the Company is Second Floor, 5 Earlsfort Terrace, Dublin D02 CK83, Ireland.

The Articles of Association of the Company (the "Articles of Association") provides that the Company, with the prior approval of the Central Bank, may offer separate Sub-Funds, the investment policies and objectives for which shall be outlined in the relevant Supplement, together with details of the initial offer period, the initial subscription price for each share and such other relevant information. Each Sub-Fund will have a distinct portfolio of investments. The Company has obtained the approval of the Central Bank for the establishment of the following Sub-Funds:

Sub-Fund

PGIM US Corporate Bond Fund
PGIM Emerging Market Corporate ESG Bond Fund
PGIM European High Yield Bond Fund
PGIM Emerging Market Local Currency Debt Fund
PGIM Global Total Return Bond Fund
PGIM Jennison Global Equity Opportunities Fund

PGIM Funds Plc

Directors' Report and Statement of Directors' Responsibilities for the financial year ended 30 June 2023 (continued)

All active share classes of the active Sub-Funds are listed on the Global Exchange Market of the Irish Stock Exchange, which operates under the business name Euronext Dublin, except for the PGIM Emerging Market Hard Currency ESG Debt Fund and USD II Accumulation Class of the PGIM Jennison Global Equity Opportunities Fund. Further, since the commencement of the Russia/Ukraine conflict in early 2022, the Company has not been in a position to list new active share classes of those active Sub-Funds that have the ability to invest in Russia.

Prospectus

The Prospectus was originally issued on 27 November 2013. The Supplement for each of the Sub-Funds ("Fund Supplements") form part of and should be read in conjunction with the main body of the Prospectus. The current Prospectus is dated 16 December 2022.

Investment objectives

The investment activity of the Sub-Funds is managed by PGIM, Inc. ("PGIM, Inc." or the "Investment Manager"). The Investment Manager has delegated some of its functions and obligations with respect to certain Sub-Funds to PGIM Limited, PGIM Quantitative Solutions LLC, Jennison Associates LLC and PGIM Wadhvani LLP. PGIM Limited, PGIM Quantitative Solutions LLC, Jennison Associates LLC and PGIM Wadhvani LLP are referred to as the "Sub-Investment Manager". The investment objectives of each Sub-Fund are laid out in the relevant supplement to the Prospectus.

Administrator

The administration of the Company is delegated to State Street Fund Services (Ireland) Limited (the "Administrator").

Business review, results and future developments

The business of the Company is reviewed in detail in the Investment Manager's Report. The results for the financial year are stated in the Statement of Comprehensive Income. The net assets of the Company attributable to holders of redeemable shares as at 30 June 2023 were US\$7,376,871,338 (30 June 2022: US\$7,508,780,004).

The Company will continue to act as an investment vehicle as set out in its Prospectus. The Company's key performance indicators are performance returns as contained in the Investment Manager's Report and assets under management as contained in the Statement of Financial Position.

Principal activities of the Company

The principal activity of the Company is the collective investment of its Sub-Funds in assets with the aim of spreading investment risk and affording the shareholders of the Company the benefit of the results of the management of its assets.

Accounting records

The Directors ensure compliance with the Company's obligation to maintain adequate accounting records by appointing competent persons to be responsible for them. The accounting records are kept by State Street Fund Services (Ireland) Limited, at 78 Sir John Rogerson's Quay, Dublin 2, Ireland.

This is in compliance with the requirements of sections 281 to 285 of the Irish Companies Act, 2014.

Directors

The Directors who held office during the financial year and served for the full year, unless otherwise stated are detailed below:

Denis Chatterton (British) (Chairman)
Vincent Dodd (Irish)
Éilish Finan (Irish)
Frank Connolly (Irish)
Stacie Mintz (American)
Kenneth Moore (American)
Paul Parseghian (American)
Elizabeth Samson (American)

Please refer to Note 11 in these Financial Statements for Directors fees and out of pocket expenses.

Directors' and Secretary's interests

Denis Chatterton is a Director of the Company and acts as Chairman of the Board of Directors.

Denis Chatterton, Vincent Dodd and Éilish Finan are independent non-executive Directors. Denis Chatterton acts as a Director of PGIM Investments (Ireland) Limited, the Company's Management Company. Éilish Finan resigned as a Director of PGIM Investments (Ireland) Limited on 5 May 2023.

Frank Connolly is a Director and employee of PGIM Investments (Ireland) Limited, the Company's Management Company.

Kenneth Moore is an Executive Vice President and the Chief Operating Officer of Jennison Associates LLC, a Sub-Investment Manager of the Company.

Elizabeth Samson is Vice President, Head of Product and Governance for PGIM Investments. She is a Director of PGIM Limited, which is a Sub-Investment Manager and Distributor of the Company. She is also a Non-Executive Director of PGIM Investments (Ireland) Limited, the Company's Management Company.

Paul Parseghian is Chief Operating Officer of PGIM Fixed Income.

Stacie Mintz is a Managing Director, Co-Head of the Quantitative Equity team and Portfolio Manager for PGIM Quantitative Solutions LLC, a Sub-Investment Manager of the Company.

At any time during the financial year ended 30 June 2023 or 30 June 2022, the Directors or Secretary had no interest in the shares of the Company.

PGIM Funds Plc

Directors' Report and Statement of Directors' Responsibilities for the financial year ended 30 June 2023 (continued)

Employees

There were no employees of the Company during the financial year under review or during the prior financial year.

Connected Persons

Regulation 43 of the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations 2019 ("Central Bank UCITS Regulations") states that "a responsible person shall ensure that any transaction between a UCITS and a connected person is conducted a) at arm's length; and b) in the best interest of the Shareholders of the UCITS".

As required under Regulation 42 of the Central Bank UCITS Regulations, the Directors are satisfied that there are in place arrangements, evidenced by written procedures, to ensure that the obligations that are prescribed by Regulation 43(1) are applied to all transactions with a connected person; and all transactions with connected persons that were entered into during the period to which the report relates complied with the obligations that are prescribed by Regulation 43(1).

Corporate governance statement

The Company is subject to compliance with the requirements of the Irish Companies Act, 2014 (the "Irish Companies Act"), the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations, 2011 (as amended) (the "UCITS Regulations") and the Central Bank UCITS notices and guidance notes, as applicable to the Company.

Although there is no specific statutory corporate governance code applicable to Irish investment funds whose shares are admitted to trading on the Global Exchange Market, the Company is subject to corporate governance practices imposed by:

- (i) the Irish Companies Act which is available for inspection at the registered office of the Company; and may also be obtained at <http://www.irishstatutebook.ie>;
- (ii) the Articles of Association of the Company which are available for inspection at the registered office of the Company at Second Floor, 5 Earlsfort Terrace, Dublin D02 CK83, Ireland and at the Companies Registration Office in Ireland;
- (iii) the Central Bank in their UCITS notices and guidance notes which can be obtained from the Central Bank website at <https://www.centralbank.ie/regulation/industry-market-sectors/funds> and are available for inspection at the registered office of the Company; and
- (iv) the Global Exchange Market through the GEM Rules for Investment Funds which can be obtained from the Irish Stock Exchange website at <https://www.euronext.com/sites/default/files/2019-07/Euronext%20GEM%20Rules%20for%20Investment%20Funds%20-%20Release%206.pdf>.

The Company has assessed the measures included in the voluntary Corporate Governance Code for Investment Schemes and Management Companies as published by Irish Funds in December 2011 (the "Code"). The Board has reviewed and assessed the measures included in the Code and considers its corporate governance practices and procedures for the financial year ended 30 June 2023 as consistent therewith.

Internal control and risk management systems in relation to financial reporting

The Board is responsible for establishing and maintaining adequate internal control and risk management systems of the Company in relation to the financial reporting process. Such systems are designed to manage rather than eliminate the risk of error or fraud in achieving the Company's financial reporting objectives and can only provide reasonable and not absolute assurance against material misstatement or loss.

The Board has procedures in place to ensure that all relevant accounting records are properly maintained and are readily available, including production of annual Financial Statements of the Company. The Board has appointed State Street Fund Services (Ireland) Limited, as Administrator to maintain the accounting records of the Company. The Administrator is authorised and regulated by the Central Bank and must comply with the rules imposed by the Central Bank.

From time to time, the Board examines and evaluates the Administrator's financial accounting and reporting routines. The annual Financial Statements of the Company are produced by the Administrator. They are required to be approved by the Board and filed with the Central Bank and the GEM.

The Financial Statements are prepared by the Administrator in compliance with International Financial Reporting Standards as adopted by the European Union ("IFRS") and by the Company and the Administrator uses various internal controls and checklists to ensure that the Financial Statements include complete and appropriate disclosures required under IFRS and relevant legislation.

The Board is responsible for the review and approval of the annual Financial Statements as set out in the Directors' Responsibilities Statement. The statutory Financial Statements are required to be audited by independent auditors who report annually to the Board on their findings. The Board monitors and evaluates the independent auditors' performance, qualifications and independence. As part of its review procedures, the Board receives presentations from relevant parties including consideration of IFRS and their impact on the annual Financial Statements, and presentations and reports on the audit process. The Board evaluates and discusses significant accounting and reporting issues as the need arises.

Dealings with Shareholders

The convening and conduct of Shareholders' meetings are governed by the Articles of Association of the Company and the Irish Companies Act. Although the Directors may convene an extraordinary general meeting of the Company at any time, the Company is required to hold an annual general meeting ("AGM") within fifteen months of the date of the previous annual general meeting, provided that an annual general meeting is held once in each financial year.

All general meetings of the Company shall be held in Ireland. In each financial year the Company shall hold an annual general meeting, at least 21 days clear notice (excluding the day of posting and the day of the meeting) shall be given to Shareholders in respect of each general meeting and any meeting convened for the passing of a special resolution of the Company. The notice shall specify the venue and time of the meeting and the business to be transacted at the meeting. A proxy may attend on behalf of any Shareholder.

PGIM Funds Plc

Directors' Report and Statement of Directors' Responsibilities for the financial year ended 30 June 2023 (continued)

Dealings with Shareholders (continued)

The requirements for quorum and majorities at all general meetings are set out in the Articles of Association of the Company. Two members present in person or by proxy shall constitute a quorum, save in the case of a meeting of any one Fund or Class of shares where the quorum shall be at least two Shareholders who hold at least one third of the shares of the relevant Fund or Class of shares and in either case if a quorum is not present and the meeting is adjourned, one member may constitute the quorum. Under Irish law an Ordinary Resolution is a resolution passed by a simple majority of votes cast and a special resolution is a resolution passed by a majority of 75% or more of the votes cast. Under Irish law, the Articles of Association can be amended only with the agreement of the Shareholders by special resolution.

Board composition and activities

In accordance with the Irish Companies Act and the Articles of Association, unless otherwise determined by an ordinary resolution of the Company in general meeting, the number of Directors may not be less than two. Currently the Board is comprised of eight non-executive Directors, three of whom are independent. Details of the current Directors are under the heading "Directors".

The Company has delegated day to day management of the Company and the Sub-Funds to the Management Company but the Directors retain responsibility for making general policy decisions and reviewing the actions of the Management Company, the Investment Manager, Depositary, Administrator and any other service providers appointed by the Company and the Management Company from time to time.

The Directors are responsible for managing the business affairs of the Company in accordance with the Articles of Association. The Directors may delegate certain functions to the Administrator, the Investment Manager and other parties, subject to the supervision and direction by the Directors, and subject to the approval of the Central Bank. The Directors delegated these functions to the Management Company. The Company is managed by the Management Company and governed in Ireland.

On 16 December 2022 the Company appointed PGIM Investments (Ireland) Limited (the "Management Company") as its UCITS Management Company. The Company and the Management Company have delegated the day to day administration of the Company to the Administrator, an Irish tax resident company, and the acquisition, management and disposal of its assets to the Investment Manager. The Board has two sub-committees: (i) Transfer in Kind / Redemption Gates Committee; and (ii) Outsourcing Oversight Committee.

Statement of Directors' Responsibilities

The Directors are responsible for preparing the Directors' Report and the Financial Statements in accordance with applicable law and regulations.

Irish company law requires the Directors to prepare the Financial Statements for the Company for each financial year which give a true and fair view of the assets, liabilities, financial position and profit or loss of the Company and of the total comprehensive income for that financial year.

In preparing the Financial Statements, the Directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and estimates that are reasonable and prudent;
- prepare the Financial Statements on the going concern basis unless it is inappropriate to presume that the Company will continue in business; and
- state whether the Financial Statements have been prepared in accordance with IFRS as adopted by the European Union and ensure that they contain the additional information required by the Irish Companies Act.

The Directors are responsible for keeping adequate accounting records that are sufficient to:

- correctly record and explain the transactions of the Company;
- enable, at any time, the assets, liabilities, financial position and profit or loss of the Company to be determined with reasonable accuracy; and
- enable the Directors to ensure that the Financial Statements comply with the Irish Companies Act, UCITS Regulations and GEM Regulations and enable those Financial Statements to be audited.

The Directors believe that they have complied with the requirement to maintain adequate accounting records by employing an experienced administrator, State Street Fund Services (Ireland) Limited. The Directors are responsible for safeguarding the assets of the Company. In this regard they have entrusted the assets of the Company to the Depositary, who has been appointed as Depositary to the Company pursuant to the terms of a Depositary Agreement. The Directors have a general responsibility for taking such steps as are reasonably open to them to prevent and detect fraud and other irregularities. The accounting records are kept at 78 Sir John Rogerson's Quay, Dublin 2, Ireland by the Administrator.

The Directors are also responsible for preparing a Directors' Report that complies with the requirements of the Irish Companies Act.

The Investment Manager and its affiliates are responsible for the maintenance and integrity of the corporate and financial information included on the PGIM website. Legislation in the Republic of Ireland governing the preparation and dissemination of Financial Statements may differ from legislation in other jurisdictions.

As at the date this Directors' Report was approved and signed, each Director is satisfied that:

- (a) in so far as they are aware there is no relevant audit information of which the Company's statutory auditors are unaware; and
- (b) s/he has taken all the steps that he or she ought to have taken as a Director in order to make herself or himself aware of any relevant audit information and to establish that the Company's statutory auditors are aware of that information; and
- (c) where "relevant audit information" means information needed by the Company's statutory auditors in connection with preparing its report.

PGIM Funds Plc

Directors' Report and Statement of Directors' Responsibilities for the financial year ended 30 June 2023 (continued)

Statement of compliance

In accordance with Section 225 of the Irish Companies Act, the Directors:

- (a) acknowledge that they are responsible for securing the Company's compliance with its relevant obligations; and
- (b) confirm that:
 - i) a compliance policy statement has been prepared setting out the Company's policies (that, in the Directors opinion, are appropriate to the Company) for ensuring compliance by the Company with its relevant obligations;
 - ii) an adequate structure is in place, that in the Directors opinion, is designed to secure material compliance with the Company's relevant obligations; and
 - iii) an annual review procedure has been put in place to review the Companies relevant obligation and ensure a structure is in place to comply with these obligations.

Dividends

Certain Sub-Funds declared distributions during the financial year ended 30 June 2023 totalling US\$27,888,977 (30 Jun 2022: US\$37,568,890). For further details please refer to the Statement of Comprehensive Income.

Political Donations

There were no political donations made by the Company during the financial year ended 30 June 2023 (30 June 2022: Nil).

Risk management objectives and policies, principal risks and uncertainties

The main risks arising from the Company's financial instruments are interest rate risk, market risk, currency risk, liquidity risk (including cash flow risk) and credit risk.

Details of the Company's principal risks and uncertainties, risk management objectives and policies and how these are managed are set out in Note 13 to the Financial Statements. Please refer to the Investment Manager's Reports for further information.

Potential implications of war in Ukraine are identified in Note 22.

Significant events during the financial year

Please refer to Note 22 of these Financial Statements for the significant events during the financial year.

Significant events since the financial year end

Please refer to Note 23 of these Financial Statements for the significant events since the financial year end.

Audit committee

The Board has considered the formation of an audit committee and decided not to form one on the basis that there are three Independent Directors on the Board. As noted above, the Company has appointed a Management Company and together they have delegated the primary activities of the Company to a number of service providers in respect of each there is a due diligence procedure in place.

Independent Auditors

The Independent Auditor has signified its willingness to continue in office in accordance with Section 383(2) of the Companies Act, 2014.

PGIM Funds Plc

Depository's Report to the Shareholders of PGIM Funds Plc for the financial year ended 30 June 2023

Report of the Depository to the Shareholders

We have enquired into the conduct of PGIM Funds Plc for the financial year ended 30 June 2023, in our capacity as Depository to the Company.

This report including the opinion has been prepared for and solely for the shareholders in the Company in accordance with Regulation 34(1), (3) and (4) in Part 5 of the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011, as amended, ('the UCITS Regulations'), and for no other purpose. We do not, in giving this opinion, accept or assume responsibility for any other purpose or to any other person to whom this report is shown.

Responsibilities of the Depository

Our duties and responsibilities are outlined in Regulation 34, (1), (3) and (4) in Part 5 of the UCITS Regulations. One of those duties is to enquire into the conduct of the Company in each annual accounting period and report thereon to the shareholders.

Our report shall state whether, in our opinion, the Company has been managed in that financial year in accordance with the provisions of the Company's constitution (the "Constitution") and the UCITS Regulations. It is the overall responsibility of the Company to comply with these provisions. If the Company has not so complied, we as Depository must state why this is the case and outline the steps which we have taken to rectify the situation.

Basis of Depository opinion

The Depository conducts such reviews as it, in its reasonable opinion, considers necessary in order to comply with its duties as outlined in Regulation 34, (1), (3) and (4) in Part 5 of the UCITS Regulations and to ensure that, in all material respects, the Company has been managed:

- (i) in accordance with the limitations imposed on its investment and borrowing powers by the provisions of the Constitution and the UCITS Regulations; and
- (ii) otherwise in accordance with the Company's constitutional documentation and the appropriate regulations.

Opinion

In our opinion, the Company has been managed during the financial year, in all material respects:

- (i) in accordance with the limitations imposed on the investment and borrowing powers of the Company by the Memorandum & Constitution of the Company, the UCITS Regulations and the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations 2019 ('the Central Bank UCITS Regulations'); and
- (ii) otherwise in accordance with the provisions of the Constitution, the UCITS Regulations and the Central Bank UCITS Regulations.

Date: 18 October 2023

PGIM Funds Plc

Investment Manager's Report for the financial year ended 30 June 2023

Market Review

Risk assets rebounded in the 12-month period ending June 2023 as global inflationary pressures began to ease, economic growth proved more resilient than expected, and central banks moved closer to the end of the rate hike cycle. This led to increased optimism that aggressive policy tightening by central banks may not tip the global economy into a recession as was widely feared.

Global Equities

Against this backdrop global equities, as measured by the MSCI All Country World (ACWI) Index, rallied 16.5%. Growth stocks were the clear winners relative to their value counterparts, with the MSCI ACWI Growth Index gaining 23.1% compared to the more muted 9.95% return of the MSCI ACWI Value. Growth stocks were supported by optimism over peak central bank hawkishness and the growth potential of AI.

From a regional perspective, US equities outperformed the broad global equity market, with the S&P 500 Index gaining 19.6%. A pickup in soft-landing optimism was a key tailwind, as economic data proved more resilient than feared and disinflation traction gained momentum.

In Europe, the European Central Bank continued to raise rates to combat elevated inflation. While growth was sluggish, immediate recession concerns were dialed back. The MSCI Europe ex UK Index gained a solid 24.6% over the period. Equity returns in the UK were more muted with the MSCI UK Index rising 13.2%. Unlike other developed markets, core inflation continued to push higher, prompting the Bank of England to take more aggressive policy action.

Emerging Market equities continued to struggle relative to the developed world with the MCSI Emerging Markets Index up only 1.8%. One headwind facing the asset class was ongoing rate hikes by global central banks. In addition, optimism about the reopening of China's economy from Covid restrictions ultimately gave way to growth concerns.

Global Fixed Income

It was a difficult year for global investment grade bonds with the Bloomberg Global Aggregate Bond Index declining 1.3%. The negative return was driven by the government bond sector as ongoing central bank rate hikes helped put upward pressure on bond yields, leading to a 2.6% loss for the Bloomberg Global Treasury Index. Investment grade corporates performed better as concerns over an eminent recession dissipated with resilient economic data, pushing credit spreads tighter and the Bloomberg Global Credit Index to a 2.95% gain. This dynamic was especially supportive of riskier high yield corporate bonds, as the Bloomberg Global High Yield Index advanced 10.5%.

Outlook

Financial markets continue to face a tremendous amount of macro uncertainty. On one hand, economic data has been more resilient than expected in the face of aggressive monetary policy tightening. On the other hand, the full effects of higher rates have yet to reverberate through the global economy. And, while inflation is set to continue easing over the coming months, it's still at elevated levels likely keeping developed central banks hawkish for the time being. All told, there seems to be reasonable pathways to either a soft-landing or a recession over the next year. Despite the uncertainty ahead, there should be ample opportunities for skilled active managers to deliver alpha for clients.

Past performance is no guarantee of future results. An investor could lose some or all of its investment in the relevant sub-fund. Returns may increase or decrease as a result of currency fluctuations. Net returns reflect the deduction of investment advisory fees and other expenses. Fund performance is as of the last Business Day of the month as defined in the Fund Supplement which may differ from the month end. Presented performance returns since inception are annualised.

Date: August 2023

Independent auditors' report to the members of PGIM Funds Plc

Report on the audit of the financial statements

Opinion

In our opinion, PGIM Funds Plc's financial statements:

- give a true and fair view of the Company's and Sub-Funds' assets, liabilities and financial position as at 30 June 2023 and of their results and cash flows for the year then ended;
- have been properly prepared in accordance with International Financial Reporting Standards ("IFRSs") as adopted by the European Union; and
- have been properly prepared in accordance with the requirements of the Companies Act 2014 and the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011 (as amended).

We have audited the financial statements, included within the Annual Report and Audited Financial Statements, which comprise:

- the Statement of Financial Position as at 30 June 2023;
- the Statement of Comprehensive Income for the year then ended;
- the Statement of Cash Flows for the year then ended;
- the Statement of Changes In Net Assets Attributable to Holders of Redeemable Participating Shares for the year then ended;
- the Schedule of Investments for each of the Sub-Funds as at 30 June 2023; and
- the notes to the financial statements for the Company and for each of its Sub-Funds, which include a description of the significant accounting policies.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (Ireland) ("ISAs (Ireland)") and applicable law.

Our responsibilities under ISAs (Ireland) are further described in the Auditors' responsibilities for the audit of the financial statements section of our report. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence

We remained independent of the Company in accordance with the ethical requirements that are relevant to our audit of the financial statements in Ireland, which includes IAASA's Ethical Standard as applicable to listed entities, and we have fulfilled our other ethical responsibilities in accordance with these requirements.

Our audit approach

Overview

Materiality

- Overall materiality: 50 basis points (2022: 50 basis points) of Net Assets Value ("NAV") for each equity and alternative Sub-Fund (as defined on pages 2 to 6) and 100 basis points (2022: 100 basis points) of NAV for each fixed income Sub-Fund (as defined on pages 2 to 6) at 30 June 2023 for each of the Company's Sub-Funds.
- Performance materiality: 75% of overall materiality.

Audit scope

- The Company is an open-ended investment management Company with variable capital and engages PGIM, Inc. (the "Investment Manager") to manage certain duties and responsibilities with regards to the day-to-day management of the Company. We tailored the scope of our audit taking into account the types of investments within the Sub-Funds, the involvement of the third parties referred to below, the accounting processes and controls, and the industry in which the Company operates. We look at each of the Sub-Funds at an individual level.

Key audit matters

- Valuation of financial assets and financial liabilities at fair value through profit or loss.
- Existence of financial assets and financial liabilities at fair value through profit or loss.

The scope of our audit

As part of designing our audit, we determined materiality and assessed the risks of material misstatement in the financial statements. In particular, we looked at where the directors made subjective judgements, for example the selection of pricing sources to value the investment portfolio. As in all of our audits, we also addressed the risk of management override of internal controls, including evaluating whether there was evidence of bias by the directors that represented a risk of material misstatement due to fraud.

Key audit matters

Key audit matters are those matters that, in the auditors' professional judgement, were of most significance in the audit of the financial statements of the current period and include the most significant assessed risks of material misstatement (whether or not due to fraud) identified by the auditors, including those which had the greatest effect on: the overall audit strategy; the allocation of resources in the audit; and directing the efforts of the engagement team. These matters, and any comments we make on the results of our procedures thereon, were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. This is not a complete list of all risks identified by our audit.

<i>Key audit matter</i>	<i>How our audit addressed the key audit matter</i>
<p><i>Valuation of financial assets and financial liabilities at fair value through profit or loss</i></p> <p>Refer to the Schedule of Investments for each of the Sub-Funds, the accounting policies set out in note 2, and note 12 'Fair value hierarchy'. The financial assets and financial liabilities at fair value through profit or loss included in the Statement of Financial Position of each Sub-Fund as at 30 June 2023 are valued at fair value in line with IFRS as adopted by the EU. The financial assets and liabilities comprise of equities, fixed income positions, money market instruments, loans, futures contracts, forward foreign exchange contracts, interest rate swaps, credit default swaps, currency swaps, options, swaptions, and total return swaps. This is considered a key audit matter as it represents the principal element of the financial statements.</p>	<p>We tested the valuation of equities, fixed income positions, money market instruments, loans, forward foreign exchange contracts, and futures contracts by independently repricing the positions using third party vendor sources. We tested the valuation of interest rate swaps, credit default swaps, currency swaps, options, swaptions, and total return swaps by repricing the positions using independently obtained counterparty confirmations. For a sample of these positions, our internal valuation experts also independently valued the positions using independent models and market information. No material matters were identified from the performance of these procedures.</p>
<p><i>Existence of financial assets and financial liabilities at fair value through profit or loss</i></p> <p>Refer to the Schedule of Investments for each of the Sub-Funds, the accounting policies set out in note 2, and note 12 'Fair value hierarchy'. The financial assets and financial liabilities at fair value through profit or loss included in the Statement of Financial Position of each Sub-Fund are held in each Sub-Fund's name at 30 June 2023. This is considered a key audit matter as it represents the principal element of the financial statements.</p>	<p>We obtained independent confirmation from the Depositary, counterparties, or agent banks for the investment portfolios (except for forward foreign exchange contracts) held at 30 June 2023, and reconciled the amounts confirmed to the accounting records. For forward foreign exchange contracts we liquidated to bank statements on a sample basis, using a risk-based approach which included a quantitative threshold. For positions where we were unable to obtain confirmations from the Depositary, counterparties, or agent banks, where material, we performed alternative audit procedures which included obtaining supporting documentation, such as trade tickets and loan agreements, for the existence of the positions at 30 June 2023. No material matters were identified from the performance of these procedures.</p>

How we tailored the audit scope

We tailored the scope of our audit to ensure that we performed enough work to be able to give an opinion on the financial statements as a whole, taking into account the structure of the Company, the accounting processes and controls, and the industry in which it operates.

As at 30 June 2023 there are 29 Sub-Funds operating. The Company's Statement of Financial Position, Statement of Comprehensive Income, Statement of Cash Flows and Statement of Changes in Net Assets Attributable to Holders of Redeemable Participating Shares are an aggregation of the positions and results of the Sub-Funds.

The directors control the affairs of the Company and are responsible for the overall investment policy which is determined by them. The Company engages PGIM, Inc. (the 'Investment Manager') to manage certain duties and responsibilities with regards to the day-to-day management of the Company. The Investment Manager has delegated certain responsibilities to

PGIM Limited, PGIM Quantitative Solutions LLC, PGIM Wadhvani LLP, and Jennison Associates LLC (the “Sub-Investment Managers”) and to State Street Fund Services (Ireland) Limited (the ‘Administrator’). The financial statements, which remain the responsibility of the directors, are prepared on their behalf by the Administrator. The Company has appointed State Street Custodial Services (Ireland) Limited (the “Depository”) to act as Depository of the Company’s assets. In establishing the overall approach to our audit we assessed the risk of material misstatement at a Sub-Fund level, taking into account the nature, likelihood and potential magnitude of any misstatement. As part of our risk assessment, we considered the Company’s interaction with the Administrator, and we assessed the control environment in place at the Administrator.

Materiality

The scope of our audit was influenced by our application of materiality. We set certain quantitative thresholds for materiality. These, together with qualitative considerations, helped us to determine the scope of our audit and the nature, timing and extent of our audit procedures on the individual financial statement line items and disclosures and in evaluating the effect of misstatements, both individually and in aggregate on the financial statements as a whole.

Based on our professional judgement, we determined materiality for the financial statements of each of the Company’s Sub-Funds as follows:

Overall materiality and how we determined it	50 basis points (2022: 50 basis points) of NAV for each equity and alternative Sub-Fund (as defined on pages 2 to 6), and 100 basis points of NAV for each fixed income Sub-Fund (as defined on pages 2 to 6)) (2021: 50 basis points of NAV for each equity Sub-Fund, and 100 basis points of NAV for each fixed income Sub-Fund) at 30 June 2023 for each of the Company’s Sub-Funds.
Rationale for benchmark applied	We have applied this benchmark because the main objective of the Company is to provide investors with a total return at a Sub-Fund level, taking account of the capital and income returns.

We use performance materiality to reduce to an appropriately low level the probability that the aggregate of uncorrected and undetected misstatements exceeds overall materiality. Specifically, we use performance materiality in determining the scope of our audit and the nature and extent of our testing of account balances, classes of transactions and disclosures, for example in determining sample sizes. Our performance materiality was 75% of overall materiality.

In determining the performance materiality, we considered a number of factors - the history of misstatements, risk assessment and aggregation risk and the effectiveness of controls - and concluded that an amount at the upper end of our normal range was appropriate.

We agreed with the Board of Directors that we would report to them misstatements identified during our audit above 5 basis points of each Sub-Fund’s NAV, for NAV per share impacting misstatements (2022: 5 basis points of each Sub-Fund’s NAV, for NAV per share impacting misstatements) and 50 basis points for non-NAV per share impacting misstatements (2022: 50 basis points of each Sub-Fund’s NAV) for non-NAV per share impacting misstatements for each equity and alternative Sub-Fund (as defined on pages 2 to 6) and 10 basis points of each Sub-Fund’s NAV for NAV per share impacting misstatements (2022: 10 basis points of each Sub-Fund’s NAV), for NAV per share impacting misstatements, and 100 basis points of NAV for non-NAV per share impacting misstatements (2022: 100 basis points of each Sub-Fund’s NAV) for each fixed income Sub-Fund (as defined on pages 2 to 6) as well as misstatements below that amount that, in our view, warranted reporting for qualitative reasons.

Conclusions relating to going concern

Our evaluation of the directors’ assessment of the Company’s and Sub-Funds’ ability to continue to adopt the going concern basis of accounting included:

- Obtaining an understanding of the key indicators that are monitored with respect to the going concern assumption and management’s future plans for the Sub-Funds over the going concern period (being 12 months from the date of approval of the financial statements);
- Reviewing available board minutes during the period under audit and those available up to the date of this report;
- Considering post year end subscriptions and redemptions as recorded in the underlying accounting records;
- Making enquiries of management with respect to any planned significant redemptions of which they have been informed of; and
- Considering the adequacy of the disclosures in the financial statements in respect of liquidity risk management techniques which are available to the Company.

Based on the work we have performed, we have not identified any material uncertainties relating to events or conditions that, individually or collectively, may cast significant doubt on the Company’s and Sub-Funds’ ability to continue as a

going concern for a period of at least twelve months from the date on which the financial statements are authorised for issue.

In auditing the financial statements, we have concluded that the directors' use of the going concern basis of accounting in the preparation of the financial statements is appropriate.

However, because not all future events or conditions can be predicted, this conclusion is not a guarantee as to the Company's and Sub-Funds' ability to continue as a going concern.

Our responsibilities and the responsibilities of the directors with respect to going concern are described in the relevant sections of this report.

Reporting on other information

The other information comprises all of the information in the Annual Report and Audited Financial Statements other than the financial statements and our auditors' report thereon. The directors are responsible for the other information. Our opinion on the financial statements does not cover the other information and, accordingly, we do not express an audit opinion or, except to the extent otherwise explicitly stated in this report, any form of assurance thereon. In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If we identify an apparent material inconsistency or material misstatement, we are required to perform procedures to conclude whether there is a material misstatement of the financial statements or a material misstatement of the other information. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report based on these responsibilities.

With respect to the Directors' Report, we also considered whether the disclosures required by the Companies Act 2014 have been included.

Based on the responsibilities described above and our work undertaken in the course of the audit, ISAs (Ireland) and the Companies Act 2014 require us to also report certain opinions and matters as described below:

- In our opinion, based on the work undertaken in the course of the audit, the information given in the Directors' Report for the year ended 30 June 2023 is consistent with the financial statements and has been prepared in accordance with applicable legal requirements.
- Based on our knowledge and understanding of the Company and its environment obtained in the course of the audit, we have not identified any material misstatements in the Directors' Report.

Responsibilities for the financial statements and the audit

Responsibilities of the directors for the financial statements

As explained more fully in the Statement of Directors' Responsibilities set out on page 9, the directors are responsible for the preparation of the financial statements in accordance with the applicable framework and for being satisfied that they give a true and fair view.

The directors are also responsible for such internal control as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the directors are responsible for assessing the Company's and Sub-Funds' ability to continue as going concerns, disclosing as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Company or to cease operations, or have no realistic alternative but to do so.

Auditors' responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (Ireland) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

Irregularities, including fraud, are instances of non-compliance with laws and regulations. We design procedures in line with our responsibilities, outlined above, to detect material misstatements in respect of irregularities, including fraud. The extent to which our procedures are capable of detecting irregularities, including fraud, is detailed below.

Based on our understanding of the Company and industry, we identified that the principal risks of non-compliance with laws and regulations related to breaches of Irish Company Law applicable to the Company, and we considered the extent

to which non-compliance might have a material effect on the financial statements. We also considered those laws and regulations that have a direct impact on the preparation of the financial statements such as the Companies Act 2014 and the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011 (as amended). We evaluated management's incentives and opportunities for fraudulent manipulation of the financial statements (including the risk of override of controls), and determined that the principal risks were related to the risk of management override of controls.

Audit procedures performed by the engagement team included:

- Enquiry of management to identify any instances of non-compliance with laws and regulations;
- Identifying and testing journal entries, where any such journal entries, that met our specific risk based criteria, were identified;
- Testing accounting estimates and judgements and considered potential for management bias;
- Designing audit procedures to incorporate unpredictability; and
- Reviewing minutes of the meetings of the board of directors

There are inherent limitations in the audit procedures described above. We are less likely to become aware of instances of non-compliance with laws and regulations that are not closely related to events and transactions reflected in the financial statements. Also, the risk of not detecting a material misstatement due to fraud is higher than the risk of not detecting one resulting from error, as fraud may involve deliberate concealment by, for example, forgery or intentional misrepresentations, or through collusion.

Our audit testing might include testing complete populations of certain transactions and balances, possibly using data auditing techniques. However, it typically involves selecting a limited number of items for testing, rather than testing complete populations. We will often seek to target particular items for testing based on their size or risk characteristics. In other cases, we will use audit sampling to enable us to draw a conclusion about the population from which the sample is selected.

A further description of our responsibilities for the audit of the financial statements is located on the IAASA website at:

https://www.iaasa.ie/getmedia/b2389013-1cf6-458b-9b8f-a98202dc9c3a/Description_of_auditors_responsibilities_for_audit.pdf.

This description forms part of our auditors' report.

Use of this report

This report, including the opinions, has been prepared for and only for the Company's members as a body in accordance with section 391 of the Companies Act 2014 and for no other purpose. We do not, in giving these opinions, accept or assume responsibility for any other purpose or to any other person to whom this report is shown or into whose hands it may come save where expressly agreed by our prior consent in writing.

Other required reporting

Companies Act 2014 opinions on other matters

- We have obtained all the information and explanations which we consider necessary for the purposes of our audit.
- In our opinion the accounting records of the Company were sufficient to permit the financial statements to be readily and properly audited.
- The financial statements are in agreement with the accounting records.

Companies Act 2014 exception reporting

Directors' remuneration and transactions

Under the Companies Act 2014 we are required to report to you if, in our opinion, the disclosures of directors' remuneration and transactions specified by sections 305 to 312 of that Act have not been made. We have no exceptions to report arising from this responsibility.

Other matter

As explained in note 1 to the financial statements, in addition to our responsibility to audit and express an opinion on the financial statements in accordance with Irish law and ISAs (Ireland), we have been requested by the directors to express an opinion on the financial statements in accordance with generally accepted auditing standards in the United States of America as issued by the AICPA, in order to meet the requirements of Rule 206(4)-2 under the Investment Advisers Act (the “Custody Rule”). We have reported separately in this respect on page 24.

Report of Independent Auditors

To the Board of Directors of PGIM Funds Plc

Opinion

We have audited the accompanying financial statements of PGIM Funds plc (the “Company”) and each of its Sub-Funds, which comprise the Statement of Financial Position for the Company and Sub-Funds, including the Schedules of Investments for each of the Sub-Funds as of 30 June 2023 and 30 June 2022, and the related Statements of Comprehensive Income, Statements of Changes in Net Assets Attributable to Holders of Redeemable Participating Shares, and Statements of Cash Flows for the Company and each of its Sub-Funds including the related notes for the years then ended (collectively referred to as the “financial statements”).

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Company and each of the Sub-Funds as of 30 June 2023 and 30 June 2022, and the results of their operations, changes in their net assets, and their cash flows for the years then ended in accordance with International Financial Reporting Standards (“IFRSs”) as adopted by the European Union.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (US GAAS). Our responsibilities under those standards are further described in the Auditors’ Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Company and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with Irish law and IFRSs as adopted by the European Union, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Company and/or Sub-Fund’s ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Auditors’ Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors’ report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with US GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with US GAAS, we:

- Exercise professional judgement and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company and each of its Sub-Funds' internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgement, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Company's and Sub-Funds' ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Information

Our audit was conducted for the purpose of forming an opinion on the financial statements taken as a whole. Significant Changes in Portfolio Composition (unaudited), Appendix I – Remuneration disclosures (Unaudited), Appendix II - SRD II Disclosure (unaudited), Appendix III – Securities Financing Transactions (unaudited) and Appendix IV – Sustainable Finance Disclosures Regulation (unaudited) are presented for purposes of additional analysis and are not a required part of the financial statements. Such information has not been subjected to the auditing procedures applied in the audit of the financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

Other Information

Management is responsible for the other information included in the Annual Report and Audited Financial Statements (the “annual report”). The other information comprises the information included in the annual report, but does not include the financial statements and our auditor's reports thereon. Our opinion on the financial statements does not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the financial statements or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

Restriction of Use

This report, including the opinion, has been prepared for and only for the directors in relation to the requirements of Rule 206(4)-2 of the Investment Advisers Act of 1940 (the “Custody Rule”) as it applies to the Company and for no other purpose. We do not, in giving this opinion, accept or assume responsibility for any other purpose or to any other person to whom this report is shown or into whose hands it may come save where expressly agreed by our prior consent in writing.

Cash and cash equivalents at the beginning of the financial year	269,712,922
Effect of exchange rate fluctuations on cash and cash equivalents	(1,956,648)
Cash and cash equivalents at the end of the financial year	359,204,315
<u>Supplemental information:</u>	
Dividend received	20,993,123
Interest received	304,952,477
Interest paid	(1,807,615)

The accompanying notes are an integral part of these Financial Statements.

PGIM Funds Plc

Notes to the Financial Statements for the financial year ended 30 June 2023

1. General information

The Company is incorporated as an Irish open-ended umbrella investment company with segregated liability between Sub-Funds (the “Sub-Funds”). The Company is authorised by the Central Bank of Ireland (the “Central Bank”) as a UCITS (Undertaking for Collective Investment in Transferable Securities) pursuant to the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations, 2011 (as amended) and Central Bank (Supervision and Enforcement) Act, 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations, 2019 (the “Central Bank UCITS Regulations”). The registered office of the Company is Second Floor, 5 Earlsfort Terrace, Dublin 2, Ireland.

The Company was established and incorporated on 18 July 2013 and authorised by the Central Bank on 27 November 2013.

PGIM Investments (Ireland) Limited, (the “Management Company”) was appointed on 16 December 2022 as the Company’s UCITS Management Company. The Management Company is authorised and regulated by the Central Bank.

The Articles of Association of the Company provide that the Company may offer separate Sub-Funds. Each Sub-Fund will have a distinct portfolio of investments.

The Company, with the prior approval of the Central Bank, may from time to time create additional Sub-Funds, the investment policies and objectives for which shall be outlined in the relevant Supplement, together with details of the initial offer period, the initial subscription price for each share and such other relevant information in relation to the additional funds as the Directors may deem appropriate, or the Central Bank requires, to be included. The Company has obtained the approval of the Central Bank for the establishment of the following Sub-Funds:

Sub-Fund

PGIM US Corporate Bond Fund
PGIM Emerging Market Corporate ESG Bond Fund
PGIM European High Yield Bond Fund
PGIM Emerging Market Local Currency Debt Fund
PGIM Global Total Return Bond Fund
PGIM Jennison Global Equity Opportunities Fund
PGIM Global Select Real Estate Securities Fund
PGIM Global Corporate Bond Fund
PGIM Broad Market U.S. High Yield Bond Fund
PGIM Global High Yield ESG Bond Fund
PGIM European High Yield ESG Bond Fund
PGIM Multi Asset Credit Fund
PGIM Jennison U.S. Growth Fund
PGIM Emerging Market Hard Currency Debt Fund
PGIM Intermediate Duration US Corporate Bond Fund
PGIM Jennison Emerging Markets Equity Fund
PGIM Quant Solutions Emerging Markets All-Cap Equity Fund
PGIM Absolute Return Fund
PGIM Emerging Market Blend Debt Fund
PGIM Quant Solutions Global Core Equity ESG Fund
PGIM European Corporate ESG Bond Fund
PGIM Quant Solutions Global Equity Opportunities Fund*
PGIM Emerging Market Total Return Bond Fund
PGIM Global High Yield Bond Fund
PGIM Wadhvani Keynes Systematic Absolute Return Fund
PGIM Global Corporate ESG Bond Fund
PGIM Global Total Return ESG Bond Fund
PGIM Jennison NextGeneration Opportunities Fund
PGIM Emerging Market Hard Currency ESG Debt Fund
PGIM Strategic Income ESG Fund

*PGIM Quant Solutions Global Equity Opportunities Fund terminated on 15 June 2023.

A number of the Sub-Funds have been categorised as Article 8 financial products (each an “Article 8 Fund”) for the purposes of the European Union’s Sustainable Finance Disclosure Regulation (Regulation EU/2019/2088 (“SFDR”). Information relating to the environmental and/or social characteristics promoted by the Article 8 Funds is set out in Appendix IV – Sustainable Finance Disclosure Regulation (unaudited).

All active share classes of the active Sub-Funds are listed on the Global Exchange Market of the Irish Stock Exchange, which operates under the business name Euronext Dublin, except for the PGIM Emerging Market Hard Currency ESG Debt Fund and USD II Accumulation Class of the PGIM Jennison Global Equity Opportunities Fund. Further, since the commencement of the Russia/Ukraine conflict in early 2022, the Company has not been in a position to list new active share classes of those active Sub-Funds that have the ability to invest in Russia.

The Financial Statements are prepared in accordance with International Financial Reporting Standards as adopted by the European Union (“IFRS”). Additional information has been provided in Note 16 to facilitate the Investment Manager (as defined in Prospectus) to make use of the audit exemption as prescribed in Rule 206 (4)-2 of the US Investment Advisers Act, 1940. The Financial Statements have been audited in accordance with International Standards on Auditing (Ireland) and auditing standards generally accepted in the United States of America.

PGIM Funds Plc

Notes to the Financial Statements for the financial year ended 30 June 2023 (continued)

2. Significant accounting policies

Statement of compliance and basis of preparation

The Financial Statements for the financial year have been prepared in accordance with IFRS and interpretations adopted by the International Accounting Standards Board ("IASB") and the Irish Companies Act and the UCITS Regulations together with the listing rules of the ISE as applicable to companies reporting under IFRS.

The Financial Statements of each Sub-Fund are presented in its base currency, which is either U.S. Dollar or Euro depending on the Sub-Fund (the "Presentation Currency") rounded to the nearest U.S. Dollar or Euro, as applicable. The combined totals shown in the Financial Statements are presented in U.S. Dollar.

The Company's Directors have made an assessment of the Company's ability to continue as a going concern and are satisfied that the Company has the resources to continue its business for the foreseeable future. Furthermore the Company's Directors are not aware of any material uncertainties that may cast significant doubt upon the Company's ability to continue as a going concern. Therefore, the Financial Statements continue to be prepared on the going concern basis.

The accounting policies have been applied consistently by the Company throughout the financial year.

New standards, amendments and interpretations issued and effective for the financial year beginning on or after 1 July 2022

- Onerous Contracts - Cost of Fulfilling a Contract (Amendments to IAS 37).
- Property, Plant and Equipment: Proceeds before Intended Use (Amendments to IAS 16).
- Reference to the Conceptual Framework (Amendments to IFRS 3).
- Annual Improvements to IFRS Standards 2018-2020.

The new standards are not expected to impact the financial statements.

There are no other new standards, amendments or interpretations issued and effective for the financial year beginning 1 July 2022 that have a significant impact on the Company's financial position, performance or disclosures in its Financial Statements.

New standards, amendments and interpretations issued but not effective for the financial year beginning 1 July 2022 and not early adopted

The following new amended standards and interpretations are not expected to have a significant impact on the Company's Financial Statements.

- Disclosure of Accounting Policies (Amendments to IAS 1 and IFRS Practice Statement 2).
- IFRS 17 Insurance Contracts.
- Definition of Accounting Estimates (Amendments to IAS 8).
- Deferred Tax related to Assets and Liabilities arising from a Single Transaction (Amendments to IAS 12).
- Classification of Liabilities as Current or Non-Current (Amendments to IAS 1)- Lease Liability in a Sale and Leaseback (Amendments to IFRS 16).

There are no other new standards, interpretations or amendments to existing standards that are not yet effective that would be expected to have a significant impact on the Company.

Foreign currency transactions

Functional and presentation currency

The functional currency and presentation currency of each Sub-Fund is the currency noted in its Supplement to the Prospectus and is relevant to the stated investment strategy and profit of each Sub-Fund. Items included in the individual Sub-Funds' Financial Statements are measured using the currency of the primary economic environment in which it operates (the "Functional Currency"). Each Sub-Fund has adopted its functional currency as the presentation currency. The functional currency of all the Sub-Funds is U.S. Dollar, with the exception of PGIM European High Yield Bond Fund, PGIM European High Yield ESG Bond Fund and PGIM European Corporate ESG Bond Fund whose functional currency is Euro.

Transactions and balances

Transactions in currencies other than the functional currency are recorded at the rates of exchange prevailing on the dates of the transactions. Foreign exchange gain and loss resulting from the settlement of such transactions and from the translation of financial year end monetary items and non-monetary assets and liabilities that are denominated in foreign currencies are recognised in the Statement of Comprehensive Income in the financial year in which they arise. Foreign exchange gain and loss on financial assets and liabilities at fair value through profit or loss are recognised together with other changes in fair value. Net foreign exchange gain/(loss) on non-monetary and monetary financial assets and liabilities other than those classified as at fair value through profit or loss are included in the line item net gain/(loss) on financial assets and financial liabilities at fair value through profit or loss.

PGIM Funds Plc

Notes to the Financial Statements for the financial year ended 30 June 2023 (continued)

2. Significant accounting policies (continued)

Combined totals shown in the Financial Statements of the Company

The Financial Statements of the Company are measured in the currency of the primary economic operating environment in which the Company operates. The Company has adopted the U.S. Dollar as the presentation currency of the combined totals shown in the Financial Statements. For the purpose of producing the combined totals in the Company Statement of Financial Position, the Statement of Financial Position of each of the individual Sub-Funds are translated to U.S. Dollar using the exchange rates as at 30 June 2023. For the purpose of producing the combined totals in the Company Statement of Comprehensive Income and the combined totals in the Company Statement of Changes in Net Assets Attributable to Holders of Redeemable Participating Shares from the accounts of the individual Sub-Funds, average exchange rates are used. A translation adjustment arises in the combined totals due to this methodology. This adjustment does not have any impact on the Net Asset Value ("NAV") of any individual Sub-Fund. For the financial year ended 30 June 2023 this adjustment amounted to US\$8,704,320 (30 June 2022: US\$27,108,747). For the purpose of producing the combined totals in the Company Statement of Cash Flows, the prior financial year closing exchange rate is used to convert the Company Statement of Financial Position balances as at 30 June 2022, the average exchange rate is used to convert the Company Statement of Comprehensive Income amounts for the financial year ended 30 June 2023 and the closing exchange rate is used to convert the Company Statement of Financial Position balances as at 30 June 2023. A translation adjustment arises in the combined totals due to this methodology. This adjustment does not have any impact on the cash flows of any individual Sub-Fund. For the financial year ended 30 June 2023 the adjustment amounted to US\$260,661 (30 June 2022: US\$1,956,644).

Financial instruments at fair value through profit or loss

(i) Investments

Financial assets and liabilities are recognised in the Company's Statement of Financial Position when the Company becomes a party to the contractual provisions of the instrument.

Classification

The Company classifies its investments as financial assets or financial liabilities at fair value through profit or loss in accordance with IFRS 9. A financial asset would be measured at amortised cost if it is held within a business model whose objective is to hold assets in order to collect contractual cash flows, and the asset's contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal outstanding. All other financial assets would be measured at fair value.

The Directors have determined that in order for the Financial Statements to give a true and fair view it is necessary to fair value all financial instruments through profit or loss as permitted by IFRS 9, since all financial instruments are managed on a fair value basis.

IFRS 9 contains three principal classification categories for financial assets: measured at amortised cost, fair value through other comprehensive income, and fair value through profit or loss.

Under IFRS 9, derivatives embedded in contracts where the host is a financial asset in the scope of the standard are never separated. Instead, the hybrid financial instrument as a whole is assessed for classification.

Financial assets and liabilities designated at fair value through profit or loss at inception

Financial assets and financial liabilities designated at fair value through profit or loss at inception are those that are managed, and their performance is evaluated on a fair value basis in accordance with the Company's documented investment strategy.

The Company's policy requires the Investment Manager and the Directors to evaluate the information about these financial assets and liabilities on a fair value basis together with other related financial information.

Recognition

Regular purchases and sales of investments are recognised on the trade date, the date on which the relevant Sub-Fund commits to purchase or sell the investment. Financial assets and financial liabilities at fair value through profit or loss are initially recognised at fair value. Transaction costs are expensed as incurred in the Statement of Comprehensive Income.

Subsequent to initial recognition, all financial assets and financial liabilities at fair value through profit or loss are measured at fair value. Gains and losses arising from changes in the fair value of the financial assets or financial liabilities at fair value through profit or loss category are presented in the Statement of Comprehensive Income within "net gain/(loss) on investments at fair value through profit or loss" in the financial period in which they arise.

Measurement

Financial instruments are measured initially at fair value (transaction price) plus transaction costs that are directly attributable to the acquisition or issue of the financial asset or financial liability.

Receivables are recognised initially at fair value plus transaction costs that are directly attributable to their acquisition/origination. They are subsequently measured at amortised cost using the effective interest yield method, less provision for impairment. Financial liabilities, other than those at fair value through profit or loss, are measured at amortised cost.

Financial assets and liabilities are priced at last traded prices with the exception of bonds which are priced at the 30 June evaluated bid price and loans which are priced at consensus bid price (alternative secondary and tertiary vendors may apply evaluated pricing). Where available, the fair value of financial instruments is based on their quoted market prices at the Statement of Financial Position date without any deduction for estimated future selling costs. If a quoted market price is not available on a recognised stock exchange or from a broker/dealer for non-exchange traded financial instruments, the fair value of the instrument is estimated using valuation techniques, including use of recent arm's length market transactions, reference to the current fair value of another instrument that is substantially the same, discounted cash flow techniques, option pricing models or any other valuation technique that provides a reliable estimate of prices obtained in actual market transactions.

PGIM Funds Plc

Notes to the Financial Statements for the financial year ended 30 June 2023 (continued)

2. Significant accounting policies (continued)

Financial instruments at fair value through profit or loss (continued)

(i) Investments (continued)

Measurement (continued)

Where discounted cash flow techniques are used, estimated future cash flows are based on the Investment Manager's best estimates and the discount rate used is a market rate at the Statement of Financial Position date applicable for an instrument with similar terms and conditions. Where other pricing models are used, inputs are based on market data at the Statement of Financial Position date.

The fair value of derivatives that are not exchange traded is estimated at the amount that would be received or paid to terminate the contract at the Statement of Financial Position date taking into account current market conditions (volatility, appropriate yield curve) and the current creditworthiness of the counterparties.

Derecognition

Financial assets are derecognised when the rights to receive cash flows from the investments have expired or the Company has transferred substantially all risks and rewards of ownership. A financial liability is derecognised when the obligation specified in the contract is discharged, cancelled or expired.

(ii) Forward foreign exchange contracts

Forward foreign exchange contracts are recognised at fair value on the date on which a forward foreign exchange contract is entered into and are subsequently re-measured at their fair value. The fair value of open forward foreign exchange contracts is calculated as the difference between the contracted rate and the current forward rate that would close out the contract on the Statement of Financial Position date. All forward foreign exchange contracts are carried as assets when fair value is positive and as liabilities when fair value is negative.

The best evidence of fair value of a forward foreign exchange contract at initial recognition is the transaction price. Subsequent changes in the fair value of any forward foreign exchange contract are recognised immediately in the Statement of Comprehensive Income, if any.

(iii) Swap contracts

The fair value of swaps is the estimated amount that would be received or paid to terminate the swap at the financial year end date, taking into account current interest rates and the current creditworthiness of the swap counterparties. Gain and loss on swap contracts are recognised in the Statement of Comprehensive Income. Certain Sub-Funds may enter into interest rate, total return, credit default and currency swap contracts.

Interest rate swap contracts involve the exchange by a Sub-Fund with another party of their respective commitments to pay or receive interest, e.g. an exchange of floating rate payments for fixed rate payments with respect to a notional amount of principal.

Total return swap contracts involve a commitment by one party in the contracts to pay interest in exchange for a market-linked return, both based on notional amounts. To the extent that the total return of the security or index underlying the transaction exceeds or falls short of the offsetting interest rate obligation, the relevant Sub-Fund will receive a payment from or make a payment to the counterparty, respectively.

In a credit default swap contract, one party makes payments to another party in exchange for the right to receive a specified return (or to put a security) if a credit event (e.g. default or a similar event) occurs with respect to a reference entity or entities. Certain Sub-Funds may use credit default swap contracts to provide a measure of protection against defaults of sovereign or corporate issuers (i.e. to reduce risk where the Sub-Fund owns or has exposure to the issuer) or to take an active long or short position with respect to the likelihood of a particular issuer's default. The maximum exposure the Company has in selling credit protection is equal to the notional amount of such credit default swap contracts.

For credit default swap contracts on asset-backed securities, a credit event may be triggered by various occurrences, which may include an issuer's failure to pay principal, maturity extension, rating downgrade or write-down. For credit default swap contracts on corporate or sovereign issuers, a credit event may be triggered by occurrences such as an issuer's bankruptcy, failure to pay interest or principal, repudiation/moratorium and/or restructuring. The gains or losses are recognised in the Statement of Comprehensive Income, if any.

A currency swap is an interest rate swap in which the cash flows are in different currencies. Upon initiation of a currency swap, the counterparties make an initial exchange of notional principals in the two currencies. During the life of the swap, each party pays interest (in the currency of the principal received) to the other. At the maturity of the swap, the parties make a final exchange of the initial principal amounts, reversing the initial exchange at the same spot rate.

(iv) Options

The premium on purchased put options exercised is subtracted from the proceeds of the sale of the underlying security or foreign currency in determining the realised gain or loss. The premium on purchased call options exercised is included in determining initial fair value of the securities or foreign currency purchased. Premiums paid from the purchase of options which expire unexercised are treated as realised loss.

The premium on written call options exercised is added to the proceeds from the sale of the underlying security or foreign currency in determining the realised gain or loss. The premium on written put options exercised is included in determining initial fair value of securities or foreign currencies purchased. Premiums received from written options which expire unexercised are treated as realised gain.

Options that traded on a recognised market are valued at the last traded price on that market on the valuation date. For options that are not traded on a recognised market, the value is determined by reference to a price from a counterparty or broker on a given valuation date.

(v) Swaptions

A swaption is an option that grants the right, with no obligation, to enter into an underlying swap on pre-agreed terms. A payer swaption gives the owner of the swaption the right to enter into a swap where they pay the fixed leg and receive the floating leg. A receiver swaption gives the owner of the swaption the right to enter into a swap where they pay the floating leg and receive the fixed leg.

PGIM Funds Plc

Notes to the Financial Statements for the financial year ended 30 June 2023 (continued)

2. Significant accounting policies (continued)

Financial instruments at fair value through profit or loss (continued)

(v) Swaptions (continued)

Premiums paid for the purchase of swaptions which expire unexercised are treated on the expiration date as realised losses. If a purchased payer swaption is exercised, the premium is subtracted from the proceeds of the underlying swap in determining whether the relevant Sub-Fund has realised a gain or a loss. If a purchased receiver swaption is exercised, the premium is added to the cost basis of the floating rate investment that has been 'swapped'.

When a swaption is written, an amount equal to the premium received by the relevant Sub-Fund is recorded as a liability and is subsequently adjusted to the current market value of the swaption written. Premiums received from written swaptions that expire unexercised are treated by the relevant Sub-Fund on the expiration date as realised gains. If a written swaption is exercised, the premium is added to the proceeds of the underlying swap in determining whether the relevant Sub-Fund has realised a gain or a loss.

(vi) Futures contracts

A futures contract is an agreement between two parties to buy and sell a security or currency at a specific price or rate at a future date. The daily change in contract value is recorded as an unrealised gain or loss and is recognised as a realised gain or loss when the contract is closed. Gain and loss on futures contracts are recognised in the Statement of Comprehensive Income.

Futures contracts are generally valued at the settlement price established at the close of business each day by the board of trade or exchange on which they are traded.

(vii) Exchange traded investments

Equity securities, including common stocks, listed preferred stock, exchange-traded funds, and financial derivative instruments such as futures contracts and option contracts, that are traded on a regulated market are valued at the last reported sales price and official settlement price, as applicable. To the extent these securities and financial derivative instruments are actively traded they are categorised as Level 1 within the fair value hierarchy.

(viii) Time deposits

Time deposits with maturity dates of three months or less are disclosed in the Statement of Financial Position as deposits with credit institutions.

Cash and cash equivalents

Cash comprises current deposits and bank overdrafts with banks. Cash equivalents are short-term highly liquid investments that are readily convertible to known amounts of cash and are subject to an insignificant risk of change in value. These amounts are held for the purpose of meeting short-term cash commitments rather than for investment or other purposes.

Cash and cash equivalents are carried at amortised cost. Bank overdrafts are presented separately in the Statement of Financial Position where applicable.

Cash held with/(due to) brokers

Amounts due to and from brokers represent margin cash on open futures contracts.

Cash held with/(due to) brokers as collateral

Certain Sub-Funds engage in activities which may require collateral to be paid to counterparty ("Pledged Collateral") or may hold collateral received ("Inbound Collateral") from a counterparty. Inbound collateral is received from a counterparty to reduce the credit risk associated with any trading activity in which the Sub-Fund has engaged. Collateral held or pledged is in the form of cash. Collateral will be held or pledged subject to the terms of the bilateral agreement the Sub-Fund has with its counterparty. The holding or pledging of collateral depends on the Sub-Fund's or the counterparty's exposure.

Cash pledged by the Sub-Funds as collateral is disclosed in the Statement of Financial Position within due from broker section.

The International Swaps and Derivatives Association ("ISDA") Agreements in place permit rehypothecation, with the exception of accounts that use triparty agreements. During the financial year ended 30 June 2023, there was no rehypothecation (30 June 2022: None).

Interest income and expense

Interest income, which relates to interest income from cash and cash equivalents, is recognised on a time proportionate basis using the effective interest method.

Interest expense relates to a bank overdraft which is repayable on demand.

Interest income and expense is recognised in the Statement of Comprehensive Income as it accrues, using the original effective interest rate of the instrument calculated at the acquisition or origination date.

Interest income from financial assets and liabilities at fair value through profit or loss is included within net gain/(loss) from financial assets and liabilities at fair value through profit or loss in the Statement of Comprehensive Income.

Interest income includes the amortisation of any discount or premium, transaction costs or other differences between the initial carrying amount of an interest-bearing instrument and its amount at maturity calculated on an effective interest rate basis. Interest income includes interest income from financial assets at fair value through profit and loss which is calculated using the effective interest method.

PGIM Funds Plc

Notes to the Financial Statements for the financial year ended 30 June 2023 (continued)

2. Significant accounting policies (continued)

Redeemable participating shares

All redeemable participating shares issued by the Sub-Funds provide the investors with the right to require redemption for cash at the value proportionate to the investor's share in the Sub-Funds' net assets at the redemption date. Such instruments give rise to a financial liability for the present value of the redemption amount.

Expenses

All expenses, including management fees, administration fees and depositary fees, are recognised in the Statement of Comprehensive Income on an accrual basis.

Dividend income

Dividend income is recognised on an ex-dividend basis and relates to dividend income earned on investments held during the financial year.

Distributions

Distributions proposed and approved by the Board of Directors subsequent to the financial year end are not recognised as a liability at the financial year end date. Distributions are recognised in the financial year that they are approved and paid by the Board of Directors.

There were twenty distributions totalling US\$27,888,977 paid from Sub-Funds during the financial year ended 30 June 2023 (30 June 2022: twenty distributions totalling US\$37,568,890 paid from Sub-Funds).

Taxes

Uncertainties exist with respect to the interpretation of complex tax regulations and changes in tax laws on foreign withholding tax. Given the wide range of international investments, differences arising between the actual investment income and the assumptions made, or future changes to such assumptions, could necessitate future adjustments to the tax expense already recorded. The Sub-Funds may establish provisions, based on reasonable estimates, for possible consequences of audits by the tax authorities of the respective countries in which they invest. The amounts of such provisions are based on various factors, such as experience of previous tax reviews and differing interpretations of tax regulations by the taxable entity and the responsible tax authority.

Such differences of interpretation may arise on a wide variety of issues depending on the conditions prevailing in the respective investment's domicile. As the Sub-Funds assess the probability for litigation and subsequent cash outflow with respect to taxes as remote, no contingent liability has been recognised.

Capital gains (if any) received on investments made by the Company may be subject to taxes imposed by the country from which the investments income/gains are received, and such taxes may not be recoverable by the Company and its Shareholders. Where capital gains taxes are certain to apply, the Funds will generally aim to accrue an estimated amount for the expected tax against the unrealised gains.

Transaction costs

Transaction costs are incremental costs that are directly attributable to the acquisition, issue or disposal of a financial asset or financial liability. An incremental cost is one that would not have been incurred if the entity had not acquired, issued or disposed of the financial instrument. When a financial asset or financial liability is recognised initially, an entity shall measure it at its fair value through profit or loss plus transaction costs that are directly attributable to the acquisition or issue of the financial asset or financial liability.

Transaction costs on the purchase and sale of bonds and forward foreign currency exchange contracts are included in the purchase and sale price of the investment.

Transaction costs on purchases and sales of equities and futures contracts are included in net gain/(loss) on investment activities in the Statement of Comprehensive Income. Depositary transaction costs are included in Depositary fees. These costs are separately indefinable transaction costs and the total costs incurred by the Sub-Funds during the financial year are disclosed in Note 10.

Depositary transaction costs include transaction costs paid to State Street Bank and Trust Company. Purchase and sales transaction costs include identifiable brokerage charges, commissions, transaction related taxes and other market charges.

Swing Pricing

The actual costs of purchasing investments may be higher or lower than the value used in calculating the NAV. These costs may include dealing charges, commission and transaction charges and the dealing spread and may have a materially disadvantageous effect on a Shareholder's interest in the Sub-Fund. To prevent this effect, known as "dilution", the Directors may determine, at their discretion, to adjust ("swing") the NAV per share of the Sub-Fund, in the circumstances set out in the following paragraph.

On any dealing day, where the Directors so determine, the Administrator will calculate the NAV for the Sub-Fund, as described in the "Administration of the Company" section of the Prospectus, and then swing the NAV by a pre-determined amount. The direction of the swing will depend on whether there are net subscriptions or redemptions in the Sub-Fund which exceed a pre-determined threshold on the relevant dealing day, while the magnitude of the swing will be based on pre-determined estimates of the average trading costs in the relevant asset class(es) in which the Sub-Fund is invested. For example, if the Sub-Fund is experiencing net inflows, its NAV will swing upwards, so that the incoming Shareholders are effectively bearing the costs of the dealing that their subscriptions generate by paying a higher NAV per Share than they would otherwise be charged. Conversely, where there are net redemptions in the Sub-Fund, the NAV will swing downwards, so that the outgoing Shareholders are effectively bearing the costs of the dealing that their redemptions generate by receiving a lower NAV per Share than they would otherwise receive. These swings are intended to protect non-dealing Shareholders from the impact of trading costs triggered by dealing Shareholders.

The determination to swing the NAV in respect of the Sub-Fund will be made following a consideration of the dealing activity (i.e. level of subscriptions and redemptions) in the Sub-Fund on a dealing day, in accordance with criteria set by the Directors from time to time. These criteria will include whether the costs of investing or divesting the net inflows into or outflows from the Sub-Fund on a dealing day will create, in the Directors' opinion, a material dilutive impact. Swing pricing will only be exercised for the purpose of reducing dilution in the interests of the Shareholders in the Sub-Fund as a whole and will be applied consistently in respect of the Sub-Fund and in respect of all assets of the Sub-Fund.

PGIM Funds Plc

Notes to the Financial Statements for the financial year ended 30 June 2023 (continued)

3. Taxation

Under current law and practice the Company and its Sub-Funds qualify as an investment undertaking as defined in Section 739B of the Taxes Consolidation Act, 1997, as amended. On that basis, the Company and its Sub-Funds are not chargeable to Irish tax on their income and gains.

However, Irish tax may arise on the happening of a "chargeable event". A chargeable event includes any distribution payments to Shareholders or any encashment, redemption, cancellation or transfer of shares, or the holding of shares at the end of each eight year period beginning with the acquisition of such shares. No Irish tax will arise on the Company and its Sub-Funds in respect of chargeable events in respect of:

- 1) A shareholder who is neither Irish resident nor ordinarily resident in Ireland for tax purposes, at the time of the chargeable event, provided appropriate valid declarations in accordance with the provisions of the Taxes Consolidation Act, 1997, as amended, are held by the Company/Sub-Fund, or the Company/Sub-Fund has been authorised by the Irish Revenue to make gross payments in the absence of appropriate declarations; and
- 2) Certain exempted Irish tax resident Shareholders who have provided the Company/Sub-Fund with the necessary signed statutory declarations.

Dividends, interest and capital gains (if any) received on investments made by the Company may be subject to taxes imposed by the country from which the investments income/gains are received, and such taxes may not be recoverable by the Company and its Shareholders.

The positive capital gains tax amounts reflected in the statement of comprehensive income are not amounts due to the Sub-Funds, these are amounts resulting from the difference in accruals between this financial year and the prior financial year.

4. Cash held with/(due to) brokers as collateral

The following table represents cash held as collateral on relevant Sub-Funds as at 30 June 2023:

PGIM Funds Plc

Notes to the Financial Statements for the financial year ended 30 June 2023 (continued)

7. Subscriber and redeemable participating shares

Authorised

The authorised share capital of the Company is €300,002 represented by 300,002 Subscriber Shares of no par value issued at €1 each and 500,000,000,000 shares of no par value.

Subscriber shares

Subscriber shares issued amount to €2, being 2 subscriber shares of €1 each. These subscriber shares were issued for the purposes of the incorporation of the Company, with one subscriber share each being legally and beneficially owned by PGIM Limited and PGIM Financial Limited. The subscriber shares entitle the Shareholders holding them to attend and vote at all meetings of the Company but they are not entitled to participate in the dividends or net assets of any of the Sub-Funds. The subscriber shares do not form part of the NAV of the Company.

Redeemable participating shares

The Company's capital is represented by the redeemable participating shares outstanding. The Company has an externally imposed capital requirement as it is required to maintain a minimum capital of €300,000.

The issued redeemable participating share capital is at all times equal to the NAV of the Sub-Funds. Redeemable participating shares are redeemable at the Shareholders' option and are classified as financial liabilities. Swing pricing is now in place, please refer to Note 2.

Redeemable participating shares' rights

The rights attaching to the redeemable participating shares are as follows:

- Redeemable participating shares may be redeemed on any dealing day.
- Each of the shares entitles the holder to attend and vote at meetings of the Company and of the Sub-Fund represented by those shares. Each of the shares entitles the shareholder to participate equally on a pro-rata basis in the dividends and net assets of the Sub-Fund.

Limitations on repurchases

The Company, in its discretion and subject to the terms of the Prospectus, may temporarily suspend, in part or in whole, the issue, valuation, sale, purchase and/or redemption of shares in any Sub-Fund. The Company shall notify all affected Shareholders of any temporary suspension.

The Company may not repurchase shares of any Sub-Fund during any period when the calculation of the NAV of the Sub-Fund is suspended. Shareholders who have requested an issue or redemption of shares will have their subscription or redemption request dealt with on the first dealing day after the suspension has been lifted unless applications or redemption requests have been withdrawn prior to the lifting of the suspension, but will not have priority over other Shareholders who requested an issue or redemption of shares. Shares shall be held by the shareholder during the period of suspension as if no redemption request had been made. The Company will take all reasonable steps to bring any period of suspension or postponement to an end as soon as possible. For the avoidance of doubt, no dividends will be paid at times when the redemption of shares or the calculation of NAV per share is suspended.

The Directors are able, by the provisions in the Prospectus, to defer settlement of redemptions of significant size to facilitate an orderly disposition of securities as in the interest of the remaining Shareholders.

If redemption applications with respect to any dealing day exceed 10% of the NAV of the relevant Sub-Fund, the Company may redeem rateably the portion of the shares for which redemption has been requested up to 10%, and in its sole discretion, either redeem rateably all or any portion of the shares in excess of 10% to subsequent dealing day. Swing pricing is now in place, please refer to Note 2.

Redeemable participating shares reconciliation

The following tables represent the movement in the number and value of redeemable participating shares during the financial year ended 30 June 2023:

	Opening	Shares issued	Shares redeemed	Closing	Subscriptions	Redemptions
PGIM US Corporate Bond Fund						
EUR-Hedged A Accumulation	523	16,265	(8,458)	8,330	US\$ 1,641,565	US\$ (862,957)

transfer taxes, along with any interest and penalties thereon or other additions to such taxes (xxii) other expenses related to the purchase, sale, monitoring or transmittal of the Sub-Fund's or Company's assets as will be determined by the Board of Directors in its sole discretion and (xxiii) the cost of hedging a share class.

Audit fees

Audit fees (excluding VAT) charged by the independent auditor, PricewaterhouseCoopers, for services rendered during the financial year ended 30 June 2023 amounted to €412,360 (US\$431,839) (30 June 2022: €376,277 (US\$393,379)).

Tax Services

Tax fees (excluding VAT) charged by the independent auditor for services rendered during the financial year ended 30 June 2023 amounted to €Nil (US\$Nil) (30 June 2022: €Nil (US\$Nil)).

Transaction fees

As disclosed in Note 2, transaction fees are incremental costs that are directly attributable to the acquisition, issue or disposal of the financial asset or financial liability.

Under purchase and sales transaction fees detailed below are the transaction fees on the purchases and sales of equities and Investment Funds. Due to operational challenges in extracting the transaction costs on the purchase and sale of forward foreign exchange currency contracts, transaction costs on these instruments cannot be separately identified. They are included in the purchase and sales price of the investment, and therefore not disclosed separately in this note.

For the financial year ended 30 June 2023, the Sub-Fund incurred transaction fees as follows:

Authorised

The authorised share capital of the Company is €300,002 represented by 300,002 Subscriber Shares of no par value issued at €1 each and 500,000,000,000 shares of no par value.

Subscriber shares

Subscriber shares issued amount to €2, being 2 subscriber shares of €1 each. These subscriber shares were issued for the purposes of the incorporation of the Company, with one subscriber share each being legally and beneficially owned by PGIM Limited and PGIM Financial Limited. The subscriber shares entitle the Shareholders holding them to attend and vote at all meetings of the Company but they are not entitled to participate in the dividends or net assets of any of the Sub-Funds. The subscriber shares do not form part of the NAV of the Company and are thus disclosed in the Financial Statements by way of this note only.

Management Company

The Management Company was authorised by the Central Bank of Ireland on 14 December 2022 pursuant to the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011, as amended as a UCITS management company. Effective 16 December 2022, it was appointed by the Company as its UCITS management company. The Management Company is a wholly owned subsidiary of PGIM Financial Limited and of its indirect parent, Prudential Financial Inc.

Prior to the appointment of the Management Company, investment management fees were paid directly to the Investment Manager by the Fund. From the date of the appointment of the Management Company, the Fund now pays the fees to the Management Company, which in turn pays the Investment Manager after deducting its own fees. The total fees (including those paid directly to the Investment Manager until 15 December 2023, and those paid to the Management Company from 16 December 2023 onwards) for the financial year ended 30 Jun 2023 was US\$34,465,003 (30 June 2022: US\$44,305,888) of which US\$2,681,717 (30 June 2022: US\$2,626,167) was payable at the financial year end.

Investment Manager

The Company appointed PGIM, Inc. (the Investment Manager), a corporation formed under the laws of the U.S. State of New Jersey to implement the investment strategies as specified in the Prospectus and the Supplement. The Investment Manager acts as the Investment Manager of the Company through its public fixed income unit known as PGIM Fixed Income and PGIM Real Estate. The Investment Manager is a registered investment adviser with the United States Securities and Exchange Commission (the SEC) and is also registered with the U.S. Commodity Futures Trading Commission as a commodity trading advisor and a commodity pool operator and is a member of the National Futures Association.

PGIM, Inc. is the principal asset management business of Prudential Financial, Inc. of the United States ("PGIM Financial"). PGIM Financial and its affiliates provide insurance and financial services throughout the world. Prudential Financial, Inc. of the United States is not affiliated in any manner with Prudential plc, incorporated in the United Kingdom, or with Prudential Assurance Company, a subsidiary of M&G plc, incorporated in the United Kingdom.

PGIM Limited, an affiliate of the Investment Manager, has been appointed as a Sub-Investment Manager with respect to PGIM Emerging Market Corporate ESG Bond Fund, PGIM European High Yield Bond Fund, PGIM Emerging Market Local Currency Debt Fund, PGIM Global Total Return Bond Fund, PGIM Global Corporate Bond Fund, PGIM Broad Market U.S. High Yield Bond Fund, PGIM Global High Yield ESG Bond Fund, PGIM European High Yield ESG Bond Fund, PGIM Multi Asset Credit Fund, PGIM Emerging Market Hard Currency Debt Fund, PGIM Absolute Return Fund, PGIM Emerging Market Blend Debt Fund, PGIM European Corporate ESG Bond Fund, PGIM Emerging Market Total Return Bond Fund, PGIM Global High Yield Bond Fund, PGIM Global Corporate ESG Bond Fund, PGIM US Corporate Bond Fund, PGIM Intermediate Duration US Corporate Bond Fund, PGIM Global Total Return ESG Bond Fund, PGIM Emerging Market Hard Currency ESG Debt Fund and PGIM Strategic Income ESG Fund. PGIM Limited is registered with the SEC and is also authorised and regulated by the FCA (Financial Conduct Authority of the United Kingdom).

PGIM Funds Plc

*Effective 12 June 2023 the Investment Management fee rate changed from 1.25%.

**PGIM Quant Solutions Global Equity Opportunities Fund terminated on 15 June 2023.

The Investment Manager may elect to waive a portion of its fees with respect to any Sub-Fund of the Company without notice to Shareholders. The Investment Manager did not waive any fees during the financial year under review or during the financial year ended 30 June 2022.

The Investment Manager may, at its discretion, contribute directly towards the expenses attributable to the operations of the Sub-Funds and/or the marketing, distribution and/or sale of shares and the Investment Manager may from time to time at its sole discretion waive part of its investment management fees in respect of any particular payment period.

The Investment Manager has currently undertaken to reimburse the Sub-Funds so that total expenses posted to each class of the Sub-Funds (excluding investment management fees) in the financial year do not exceed the specified percentage of average daily NAV of each class as detailed in the table below.

*PGIM Quant Solutions Global Equity Opportunities Fund terminated on 15 June 2023.

For the financial year ended 30 June 2023, the amount of reimbursed expenses was US\$2,578,472 (30 June 2022: US\$3,406,009).

In respect of PGIM Absolute Return Fund, the Investment Manager was entitled to receive a Performance Fee based on the performance of the Sub-Fund until 15 May 2022. Details on how Performance Fee was calculated may be found in the Sub-Fund's Supplement to the Prospectus. There was no Performance fee paid or payable during the financial year ended 30 June 2023 or as at 30 June 2023, respectively. Performance Fee paid during the financial year ended 30 June 2022 amounted to US\$3,713 of which US\$Nil was payable at the financial year ended 30 June 2022. The percentage of the performance fees based on the share class NAV as at 30 June 2022 was 0.00%.

PGIM Financial Limited, the parent of PGIM Limited, may from time to time pay costs on behalf of Sub-Funds or share classes of the Company which have not yet launched. These are recoverable costs which are paid back to PGIM Financial Limited upon launch of the relevant Sub-Fund or share class. The costs are in line with the Fees and Expenses section of the relevant Sub-Fund Supplement to the Prospectus.

Distributors

PGIM Limited, PGIM (Singapore) PTE. Limited and Prudential Investment Management Services LLC, are affiliates of the Investment Manager.

Directors' fees

Vincent Dodd is entitled to an annual fee of €47,500 (30 June 2022: €47,500) for his services. Denis Chatterton is entitled to an annual fee of €55,000 (30 June 2022: €55,000) for his services. Éilish Finan is entitled to an annual fee of €45,000 for her services (30 June 2022: €35,000). These annual fees are settled quarterly. During the financial year ended 30 June 2023 US\$169,058 (30 June 2022: US\$173,955) was paid and US\$8,689 was owing as at 30 June 2023 (30 June 2022: US\$4,846). The other Directors did not earn any fees during the financial year, with the exception of covering any costs that arose from attending meetings of the Company.

Directors will be reimbursed for out of pocket expenses.

Directors' interests

Denis Chatterton is a Director of the Company and acts as Chairman of the Board of Directors. Denis Chatterton, Vincent Dodd and Éilish Finan are independent non-executive Directors. Denis Chatterton acts as a Director of PGIM Investments (Ireland) Limited, the Company's Management Company. Éilish Finan resigned as a Director of PGIM Investments (Ireland) Limited on 5 May 2023.

Frank Connolly is a Director and employee of PGIM Investments (Ireland) Limited, the Company's Management Company.

Kenneth Moore is an Executive Vice President and the Chief Operating Officer of Jennison Associates LLC, a Sub-Investment Manager of the Company.

Elizabeth Samson is Vice President, Head of Product and Governance for PGIM Investments. She is a Director of PGIM Limited, which is a Sub-Investment Manager and Distributor of the Company. She is also a Non-Executive Director of PGIM Investments (Ireland) Limited, the Company's Management Company.

Paul Parseghian is Chief Operating Officer of PGIM Fixed Income.

Stacie Mintz is a Managing Director, Co-Head of the Quantitative Equity team and Portfolio Manager for PGIM Quantitative Solutions LLC, a Sub-Investment Manager of the Company.

Connected Persons

Regulation 43 of the Central Bank UCITS Regulations states that "a responsible person shall ensure that any transaction between a UCITS and a connected person is conducted a) at arm's length; and b) in the best interest of the Shareholders of the UCITS".

As required under Regulation 42 of the Central Bank UCITS Regulations, the Directors are satisfied that there are in place arrangements, evidenced by written procedures, to ensure that the obligations that are prescribed by Regulation 43(1) are applied to all transactions with a

PGIM Funds Plc

Connected Persons (continued)

connected person; and all transactions with connected persons that were entered into during the period to which the report relates complied with the obligations that are prescribed by Regulation 43(1).

12. Fair value hierarchy

The Company measures fair values using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

Level 1	Quoted market price in an active market for an identical instrument.
Level 2	Valuation techniques based on observable inputs. This category includes instruments valued using: quoted market prices in active markets for similar instruments; quoted prices for similar instruments in markets that are considered less than active; or other valuation techniques where all significant inputs are directly or indirectly observable from market data.
Level 3	Valuation techniques using significant unobservable inputs. This category includes all instruments where the valuation technique includes inputs not based on observable data and the unobservable inputs could have a significant impact on the instrument's valuation. This category includes instruments that are valued based on quoted prices for similar instruments where significant unobservable adjustments or assumptions are required to reflect differences between the instruments.

The level in the fair value hierarchy within which the fair value measurement is categorised in its entirety is determined on the basis of the lowest level input that is significant to the fair value measurement in its entirety. For this purpose, the significance of an input is assessed against the fair value measurement in its entirety. If a fair value measurement uses observable inputs that require significant adjustment based on unobservable inputs, that measurement is a Level 3 measurement. Assessing the significance of a particular input to the fair value measurement in its entirety requires judgement, considering factors specific to the asset or liability.

The determination of what constitutes "observable" requires significant judgement by the Company. The Company considers observable data to be that market data that is readily available, regularly distributed or updated, reliable and verifiable, not proprietary and provided by independent sources that are actively involved in the relevant market. Vendor quotes are classified as Level 2 holdings because the inputs into the price supplied by the vendors are observable for example, rate, yield, industry classification and credit rating. The Investment Manager reviews the prices independently recorded as vendor quotes and ensures that they are in line with expectations.

For each class of assets and liabilities not measured at fair value in the Statement of Financial Position but for which fair value is disclosed, the Company discloses the Level within the fair value hierarchy which the fair value measurement would be categorised and a description of the valuation technique and inputs used in the technique.

Assets and liabilities not carried at fair value are carried at amortised cost, their carrying values being reasonable approximations of fair value.

Cash and cash equivalents and cash held at broker include deposits held with banks and other short-term investments in an active market and are categorised as Level 1.

Receivable for investments sold and other receivables include the contractual amounts for settlement of trades and other obligations due to the Sub-Funds. Payable for investments sold and other payables represent the contractual amounts and obligations due by the Sub-Funds for settlement of trades and other obligations due by the Sub-Funds for settlement of trades and expenses. All of the receivable and payable balances are categorised as Level 2.

Transfers between levels in the fair value hierarchy are deemed to have occurred if the pricing source has changed at the financial year end. Transfers to and out of Level 3 that occurred in the financial years ended 30 June 2023 and 30 June 2022 are detailed under the below tables.

The financial instruments held as at 30 June 2023 are classified into the following Levels:

PGIM US Corporate Bond Fund

	Level 1 US\$	Level 2 US\$	Level 3 US\$	Total US\$
Financial assets at fair value through profit or loss:				
Fixed income	-	550,265,504	-	550,265,504

PGIM Emerging Market Corporate ESG Bond Fund has one position held at level 3 as at 30 June 2022; fair valued due to Russia/Ukraine conflict.

PGIM European High Yield Bond Fund has one position held at level 3 as at 30 June 2022; Codere New Topco SA; this security is fair valued at zero.

PGIM Emerging Market Local Currency Debt Fund has one position held at level 3 as at 30 June 2022; fair valued due to Russia/Ukraine conflict.

PGIM Broad Market U.S. High Yield Bond Fund has nine positions held at level 3 as at 30 June 2022:

Escrow Intelsat Jackson Holdings SA, Intelsat Jackson Holdings SA Rights Class A, Intelsat Jackson Holdings SA Rights Class B; These escrow securities represent potential value (for the pre-petition Jackson unsecured noteholders) that was held back during bankruptcy proceedings for litigation claims that remain unresolved; distribution of the value depends on the outcome of the SES/Liontree litigation, which is to say there could still be value. The expectation is that this litigation is resolved sometime in 2022. These securities are not tradable in the market, and were only created for future distributions (in the event there are any). Holders may receive incremental distributions pursuant to the plan depending on the

PGIM Funds Plc

outcome of the SES or Liontree claims litigation, which could come in the form of cash and/or securities (CVRs/New Intelsat Common Shares). Given the uncertainty/unlikelihood of receiving distributions following the outcome of the aforementioned litigation, these securities were assigned Fair Values of \$0.01 each.

Escrow Alta Mesa Holdings LP; this security is priced to \$0.68 based on recent tradeable quotes.

Escrow Genon Energy D05, Escrow RRI Energy Inc; these securities are fair valued at zero.

Ferrellgas Partners LP; Ferrellgas B units were borne out of restructuring of the company through a complex pre-packaged filing in mid-2020 and emergence in March 2021. At a high level the holding company bonds were converted to a bespoke class of equity securities (B units) and the operating company debt was refinanced in conjunction with a \$700mn preferred stock raise and new high yield bonds. The existing equity was converted to a junior class of equity that had little-to-no equity value at conclusion of the transaction but can grow over time as the company pays off the B units and the enterprise value inflates. The B units are bond-like instrument in that they were initially struck at the par value amount equal to that of the existing bonds par value, and then grow in value over time at 15.85% per year over 5 years if redeemed. As detailed below, the Investment Manager's current FV estimate of the FGP B Units is now \$262.1 post the \$50mm distribution (\$38.46 per B Unit) announced on 22 June 2022. To arrive at a FV estimate of \$264 for the B units under the 5-year redemption scenario (75% weighting) the Investment Manager assume a required yield of 14%. This discount rate is 175bps above the preferred return, appropriate for the additional turn of leverage. At the Investment Manager blended FV estimate of \$262.1, the B Units are pricing in a 14.04% return to a 30 March 2026 redemption.

TPC Group Inc; TPC Group recently filed for Chapter 11 bankruptcy protection. As a result, the broker who provided a daily price, JPM, will no longer provide pricing. As a result, the security is fair valued at zero.

TPC Group Inc USD 2022 New Money DIP Term Loan; TPC Group recently restructured and PGIM Fixed Income received the following security as a result. Currently, no vendor or broker can provide a price. The security is fair valued at 100.

PGIM Global High Yield ESG Bond Fund has three positions held at level 3 as at 30 June 2022:

Escrow Intelsat Jackson Holdings SA, Intelsat Jackson Holdings SA Rights Class A, Intelsat Jackson Holdings SA Rights Class B; These escrow securities represent potential value (for the pre-petition Jackson unsecured noteholders) that was held back during bankruptcy proceedings for litigation claims that remain unresolved; distribution of the value depends on the outcome of the SES/Liontree litigation, which is to say there could still be value. The expectation is that this litigation is resolved sometime in 2022. These securities are not tradable in the market, and were only created for future distributions (in the event there are any). Holders may receive incremental distributions pursuant to the plan depending on the outcome of the SES or Liontree claims litigation, which could come in the form of cash and/or securities (CVRs/New Intelsat Common Shares). Given the uncertainty/unlikelihood of receiving distributions following the outcome of the aforementioned litigation, these securities were assigned Fair Values of \$0.01 each.

PGIM Multi Asset Credit Fund has six positions held at level 3 as at 30 June 2022:

Escrow Intelsat Jackson Holdings SA, Intelsat Jackson Holdings SA Rights Class A, Intelsat Jackson Holdings SA Rights Class B; These escrow securities represent potential value (for the pre-petition Jackson unsecured noteholders) that was held back during bankruptcy proceedings for litigation claims that remain unresolved; distribution of the value depends on the outcome of the SES/Liontree litigation, which is to say there could still be value. The expectation is that this litigation is resolved sometime in 2022. These securities are not tradable in the market, and were only created for future distributions (in the event there are any). Holders may receive incremental distributions pursuant to the plan depending on the outcome of the SES or Liontree claims litigation, which could come in the form of cash and/or securities (CVRs/New Intelsat Common Shares). Given the uncertainty/unlikelihood of receiving distributions following the outcome of the aforementioned litigation, these securities were assigned Fair Values of \$0.01 each.

VTB Bank OJSC Via VTB Capital SA; fair valued due to Russia/Ukraine conflict.

Codere New Topco SA; this security is fair valued at zero.

Ferrellgas Partners LP; Ferrellgas B units were borne out of restructuring of the company through a complex pre-packaged filing in mid-2020 and emergence in March 2021. At a high level the holding company bonds were converted to a bespoke class of equity securities (B units) and the operating company debt was refinanced in conjunction with a \$700mn preferred stock raise and new high yield bonds. The existing equity was converted to a junior class of equity that had little-to-no equity value at conclusion of the transaction but can grow over time as the company pays off the B units and the enterprise value inflates. The B units are bond-like instrument in that they were initially struck at the par value amount equal to that of the existing bonds par value, and then grow in value over time at 15.85% per year over 5 years if redeemed. As detailed below, the Investment Manager's current FV estimate of the FGP B Units is now \$262.1 post the \$50mm distribution (\$38.46 per B Unit) announced on 22 June 2022. To arrive at a FV estimate of \$264 for the B units under the 5-year redemption scenario (75% weighting) the Investment Manager assume a required yield of 14%. This discount rate is 175bps above the preferred return, appropriate for the additional turn of leverage. At the Investment Manager blended FV estimate of \$262.1, the B Units are pricing in a 14.04% return to a 30 March 2026 redemption.

PGIM Emerging Market Hard Currency Debt Fund has one position held at level 3 as at 30 June 2022; fair valued due to Russia/Ukraine conflict.

PGIM Quant Solutions Emerging Markets All-Cap Equity Fund has eleven positions held at level 3 as at 30 June 2022:

Ten Russian securities fair valued at zero due to Russia/Ukraine conflict.

The other single level 3 position on this Sub-Fund is Sunac China Holdings Ltd which is single source pricing, illiquid and not fair valued position.

PGIM Absolute Return Fund has eight positions held at level 3 as at 30 June 2022:

PGIM Funds Plc

Notes to the Financial Statements for the financial year ended 30 June 2023 (continued)

12. Fair value hierarchy (continued)

Level 3 holding as at 30 June 2022 (continued)

Escrow Intelsat Jackson Holdings SA, Intelsat Jackson Holdings SA Rights Class A, Intelsat Jackson Holdings SA Rights Class B; These escrow securities represent potential value (for the pre-petition Jackson unsecured noteholders) that was held back during bankruptcy proceedings for litigation claims that remain unresolved; distribution of the value depends on the outcome of the SES/Liontree litigation, which is to say there could still be value. 13. Financial instruments and associated risks

The Sub-Funds of the Company are exposed to market risk (including market price risk, interest rate risk and currency risk), credit risk and liquidity risk arising from the financial instruments it holds. Each type of risk is discussed in turn and qualitative and quantitative analyses are provided where relevant to give the user an understanding of the risk management methods used by the Investment Manager and the Board.

Risk management

The Investment Manager's approach to risk management includes both analytical and judgmental elements.

Market risk

Market risk embodies the potential for both losses and gains and includes currency risk, interest rate risk and market price risk.

PGIM Funds Plc

Notes to the Financial Statements for the financial year ended 30 June 2023 (continued)

13. Financial instruments and associated risks (continued)

Market risk (continued)

The Sub-Funds' exposure to market risk is that the market value of assets will generally fluctuate with, among other things, general economic conditions, the condition of certain financial markets, international political events, developments or trends in any particular industry and the financial condition of the issuers of the securities that the Sub-Funds invests in.

The Sub-Funds' market risk is managed on a daily basis by the Investment Manager in accordance with policies and procedures in place.

Details of the nature of the Sub-Funds' investment portfolio and derivative financial instruments at the financial year end date are disclosed in the Schedule of Investments of each Sub-Fund. The Investment Manager periodically reviews the positions which have historically not received traded/broker dealer prices to ensure traded prices can be applied whenever possible.

Market price risk arises mainly from uncertainty about future prices of financial instruments held. It represents the potential loss the Sub-Funds might suffer through holding market positions in the face of price movements caused by factors specific to the individual investment or factors affecting all instruments traded in the market.

The financial instruments held by the Sub-Funds are carried at fair value through profit or loss with changes in fair value and any resultant gain or loss being recognised directly in the Statement of Comprehensive Income, therefore, all changes in market conditions will also directly impact the NAV.

Sensitivity analysis

As at 30 June 2023, a 5% increase in investment prices of equities, corporate bonds, government bonds and exchange traded funds (only these items are included in the analysis below) with all other inputs remaining constant, would have increased the net assets attributable to holders of redeemable participating shares and the change in net assets attributable to holders of redeemable participating shares as presented in the below table.

Fund	Currency	30 June 2023	30 June 2022
PGIM US Corporate Bond Fund	US\$	27,513,275	31,045,203

Managing Interest Rate Benchmark Reform and associated risks

With respect to the Fixed Income Sub-Funds, to the extent PGIM Fixed Income has determined appropriate, it has taken the following steps to address the transition away from LIBOR:

PGIM Funds Plc

Notes to the Financial Statements for the financial year ended 30 June 2023 (continued)

13. Financial instruments and associated risks (continued)

Managing Interest Rate Benchmark Reform and associated risks (continued)

- required new issue LIBOR transactions to incorporate fallback provisions recommended by the Alternative Reference Rates Committee (“ARRC”); and
- transitioned LIBOR swaps into Fed Fund and/or Secured Overnight Financing Rate (“SOFR”) Overnight Index Swaps.”

For the avoidance of doubt, with respect to certain asset classes where PGIM Fixed Income has determined that it is beneficial to the portfolios in scope, PGIM Fixed Income has sought to delay the transition from LIBOR.

Currency risk

The Company's accounts are denominated in the functional currency of each Sub-Fund while investments are also likely to be made and realised in other currencies. Changes in rates of exchange may have an adverse effect on the value, price or income of the investments of the Company. The Sub-Funds may utilise different financial instruments to seek to hedge against declines in the value of the Sub-Funds' positions as a result of changes in currency exchange rates.

The following tables set out the Sub-Funds' total exposure to foreign currency risk in relation to share classes and monetary assets/liabilities together with their net exposure to foreign currencies as at 30 June 2023:

PGIM US Corporate Bond Fund

Credit risk

Credit risk is the risk that a counterparty to a financial instrument will fail to discharge an obligation or commitment that it has entered into with the Sub-Funds. The Sub-Funds may invest in investments such as equities, loans, corporate bonds, government bonds, commercial mortgage backed securities, municipal bonds and derivatives including currency rate swaps, interest rate swaps, credit default swaps, options purchased, options written, swaptions written forward foreign exchange contracts and futures contracts.

The main concentration to which the Sub-Funds are exposed to relate to counterparty risk on trading derivative products, cash at broker and cash amounts/investments held with the Depository. The Company does have a concentration of credit risk with State Street Custodial Services (Ireland) Limited, being the Depository to the Company and to the following counterparties to the derivative financial instruments held by the Sub-Funds. State Street Corporation, the parent of the Depository had a credit rating of A as at 30 June 2023 (30 June 2022: A).

The Sub-Funds held derivative financial instruments with the following counterparties:

	30 June 2023 Rating (Moody's)	30 June 2022 Rating (Moody's)
Bank of America	Aa1	Aa2
Barclays Bank plc	A1	A1
BNP Paribas	Aa3	Aa3
BNY Mellon	Aa2	-
Citibank	Aa3	Aa3
Citigroup	A3	A3
Credit Suisse	-	A1
Deutsche Bank	A1	A2
Goldman Sachs	A1	A1
HSBC	Aa3	Aa3
J.P. Morgan	Aa3	A2
Morgan Stanley	A1	A1
Standard Chartered Bank	A1	A1
State Street Bank	Aa2	-
Toronto Dominion	Aa1	Aa1
UBS	Aa2	Aa2

The carrying amounts of financial assets best represent the maximum credit risk exposure at the financial year end date.

As at 30 June 2023, PGIM European High Yield Bond Fund, PGIM Emerging Market Local Currency Debt Fund, PGIM Global Total Return Bond Fund, PGIM Global Corporate Bond Fund, PGIM Broad Market U.S. High Yield Bond Fund, PGIM Global High Yield ESG Bond Fund, PGIM Multi Asset Credit Fund, PGIM Emerging Market Hard Currency Debt Fund, PGIM Quant Solutions Emerging Markets All-Cap Equity Fund, PGIM Absolute Return Fund, PGIM Quant Solutions Global Core Equity ESG Fund, PGIM Emerging Market Total Return Bond Fund, PGIM Global High Yield Bond Fund, PGIM Global Total Return ESG Bond Fund and PGIM Strategic Income ESG Fund held pledged stock collateral of US\$32,817,182 with BNP Paribas, Citibank, Citigroup, Goldman Sachs, HSBC, J. P. Morgan, Morgan Stanley and UBS for fixed income positions.

PGIM Funds Plc

Notes to the Financial Statements for the financial year ended 30 June 2023 (continued)

13. Financial instruments and associated risks (continued)

Credit risk (continued)

As at 30 June 2022, stock collateral of US\$49,900 was received by PGIM Emerging Market Local Currency Debt Fund from Barclays.

In-house research is used to identify asset allocation opportunities amongst various fixed income asset classes and to take advantage of episodes of market mis-pricing. Segments and themes that are likely to be profitable are subjected to rigorous analysis, and risk is allocated to these opportunities consistent with investment objectives. The Investment Manager has a large credit research team as a buy-side investor and has relevant sector wide expertise and experience. All transactions involve credit research analysts having relevant sector experience. The analysis involves developing a full understanding of the business and associated risk of the issuer and a full analysis of the financial risk, which leads to an overall assessment of credit risk.

The Sub-Funds' market risk is managed on a daily basis by the Investment Manager in accordance with policies and procedures in place. The Investment Manager also has a credit committee process for all illiquid securities, which results in an internal rating and recommendation to fund managers as to the value of the security.

The Sub-Funds may utilise different financial instruments to seek to hedge against declines in the value of the Sub-Funds positions as a result of changes in currency exchange rates. The Sub-Funds are exposed to credit risk associated with forward foreign exchange contracts, futures contracts, swaps and options counterparties with whom they trade and will also bear the risk of settlement default. The value of debt securities may decline as interest rates increase. The Company could lose money if the issuer of a fixed income security is unable to pay interest or repay principal when it is due. The Sub-Funds seek to minimise concentrations of credit risk by undertaking transactions with large well capitalised counterparties. The forward foreign exchange contracts, futures contracts, swaps and options are listed in the Schedule of Investments of each Sub-Fund, if any.

*PGIM Emerging Market Hard Currency ESG Debt Fund launched on 15 December 2021.

**PGIM Strategic Income ESG Fund launched on 16 December 2021.

The Sub-Funds will be exposed to the credit risk of the counterparties with which, or the brokers, dealers and exchanges through which, Sub-Funds deal, whether they engage in exchange-traded or off-exchange transactions. The Sub-Funds may be subject to risk of loss of their assets on deposit with a broker in the event of the broker's bankruptcy, the bankruptcy of any clearing broker through which the broker executes and clears transactions on behalf of the Sub-Funds, or the bankruptcy of an exchange clearing house. In the case of bankruptcy of the counterparties with which, or the brokers, dealers and exchanges through which the Sub-Funds deal, the Sub-Funds might not be able to recover any of their assets held, and, to the extent such assets are recoverable, the Sub-Funds might only be able to recover a portion of such assets.

Except for derivative financial instruments, all of the assets (including cash) held by the Company are held by the Depository, State Street Custodial Services (Ireland) Limited, with the exception of cash at broker (Cash at broker includes cash held with brokers and counterparties for open financial derivative instruments, it also includes cash held with broker as collateral). Bankruptcy or insolvency of the Depository may cause the Company's rights with respect to the securities and cash held by the Depository to be delayed or limited. The Company monitors its risk by monitoring the credit quality and financial positions of the Depository the Company uses.

The Company's assets (except for cash) are maintained within the Depository custodial network in segregated accounts. The Depository will ensure that any agent it appoints to assist in safekeeping the assets (except for cash) of the Company will segregate these assets. Thus in the event of insolvency or bankruptcy of the Depository, the Company's assets (except for cash) are segregated and protected and this further reduces counterparty risk. The Depository of the Company is State Street Custodial Services (Ireland) Limited. State Street Corporation, the parent of the Depository had a credit rating of A as at 30 June 2023 (30 June 2022: A).

The Company's cash balances are held by the Depository in its account together with its own cash balances and with those cash balances that are held on behalf of other clients. The Company's cash balances are separately identifiable within the records of the Depository.

The Company's Investment Manager analyses credit concentration based on the counterparty, industry and geographical location of the financial assets that the Company holds. The following table categorises the bonds held by the Sub-Funds as at 30 June 2023 and 30 June 2022 by industry classification

PGIM Funds Plc

*PGIM Emerging Market Hard Currency ESG Debt Fund launched on 15 December 2021.

**PGIM Strategic Income ESG Fund launched on 16 December 2021.

Certain Sub-Funds are a party to various master netting agreements with counterparties. While the terms and conditions of these agreements may vary, all transactions under any such agreement constitute a single contractual relationship between each Sub-Fund and each counterparty, severally and not jointly. Each Sub-Funds' obligation to make any payments, deliveries or other transfers in respect of any transaction under such an agreement may be netted against the counterparty's obligations under such agreement. A default by either party in performance with respect to one transaction under such an agreement would give the other party the right to terminate all transactions under such agreement and calculate one net amount owed from one party to the other.

As at 30 June 2023, the Company's derivative assets and liabilities are as follows:

PGIM US Corporate Bond Fund

Counterparty	Gross Asset amounts presented in the Statement of Financial Position US\$	Gross Liability Available for Offset US\$	Net Amounts after Offset US\$	Related amounts not set-off in the Statement of Financial Position:

***PGIM Strategic Income ESG Fund launched on 16 December 2021.

Expected Credit Losses

Management consider both historical analysis and forward looking information in determining any expected credit loss. As at 30 June 2023 and 30 June 2022, cash and other receivables are held with well capitalised counterparties with credit ratings from A to A+. Management consider the probability of default to be close to zero, as these instruments have a low risk and the counterparties have a strong capacity to meet their contractual obligations in the near term.

Liquidity risk

Liquidity risk (including cash flow risk) is the risk that the Sub-Funds may not be able to, or cannot easily unwind or offset a particular position at or near the previous market price, because of inadequate market depth or because of disruptions in the market place or the Sub-Funds will not be able to meet future financial obligations resulting from any derivative exposure.

The main financial liability of the Sub-Funds is the redemption of redeemable participating shares. Substantial redemption requests in a concentrated period of time could require the Sub-Funds to liquidate certain investments more rapidly than might otherwise be desirable in order to raise cash to fund the redemptions.

The Investment Manager monitors the Sub-Funds' liquidity positions and cash flow on a continuous basis. Also the Directors are able, by the provisions in the Prospectus, to defer settlement of redemptions of significant size to facilitate an orderly disposition of securities as in the interest

Liquidity risk (continued)

of the remaining Shareholders. Where a Shareholder requests the redemption of shares equal to 10% or more of the NAV of a Sub-Fund on any dealing day, the Company may do so at its absolute discretion.

All assets classified as Level 3 are illiquid and the rationale for these can be located on page 141 (Note 12).

As at 30 June 2023, all of the derivative liabilities of the Sub-Funds are due as follows, all other liabilities of the Funds are due to mature within 1-3 months.

Global Exposure

The Investment Manager (or relevant Sub-Investment Manager) employs a risk management process in respect of a Sub-Fund in accordance with the requirements of the Central Bank to enable it to accurately monitor, measure and manage, the global exposure from financial derivative

PGIM Funds Plc

Notes to the Financial Statements for the financial year ended 30 June 2023 (continued)

13. Financial instruments and associated risks (continued)

Global Exposure (continued)

instruments ("FDI's") ("Global Exposure") which each Sub-Fund gains. Unless otherwise specified in the relevant Supplement, the Investment Manager will use the commitment approach, with the exception of PGIM Emerging Market Local Currency Debt Fund, PGIM Global Total Return Bond Fund, PGIM Multi Asset Credit Fund, PGIM Absolute Return Fund, PGIM Emerging Market Blend Debt Fund, PGIM Emerging Market Total Return Bond Fund, PGIM Global Total Return ESG Bond Fund, PGIM Strategic Income ESG Fund and PGIM Wadhvani Keynes Systematic Absolute Return Fund, which use Value at Risk ("VaR") to calculate their global exposure. The Company will, on request, provide supplemental information to Shareholders relating to the risk management methods employed, including the quantitative limits that are applied and any recent developments in the risk and yield characteristics of the main categories of investment.

The conditions and limits for the use of such techniques and instruments in relation to each Sub-Fund are as follows:

1. In no circumstances will the global exposure of a Sub-Fund exceed 100% of its Net Asset Value (where commitment approach is used to calculate global exposure).
2. Position exposure to the underlying assets of FDIs, including embedded FDIs in transferable securities or money market instruments, when combined where relevant with positions resulting from direct investments, may not exceed the investment limits set out in the UCITS Regulations (this provision does not apply in the case of index based FDIs provided the underlying index is one which meets with the criteria set out in the UCITS Regulations).
3. A Sub-Fund may invest in FDIs dealt in OTC provided that the counterparties to OTCs are institutions subject to prudential supervision and belonging to categories approved by the Central Bank
4. Investment in FDIs are subject to the conditions and limits laid down by the Central Bank.

A VaR methodology is used for the PGIM Emerging Market Local Currency Debt Fund, PGIM Global Total Return Bond Fund, PGIM Multi Asset Credit Fund, PGIM Absolute Return Fund, PGIM Emerging Market Blend Debt Fund, PGIM Emerging Market Total Return Bond Fund, PGIM Global Total Return ESG Bond Fund, PGIM Strategic Income ESG Fund and PGIM Wadhvani Keynes Systematic Absolute Return Fund to measure global exposure in the portfolio and the additional risk associated with the use of financial derivative instruments. The tables below indicate the absolute VaR for the Sub-Funds as at 30 June 2023 and as at 30 June 2022:

PGIM Emerging Market Local Currency Debt Fund

	Holding Period (1 July 2022-30 June 2023)	Mean	Maximum	Minimum	Std. Dev.	Confidence
Fund VaR	237 days	(8,197,509)	(10,475,967)	(6,181,936)	1,103,332	99%

PGIM Funds Plc

Notes to the Financial Statements for the financial year ended 30 June 2023 (continued)

13. Financial instruments and associated risks (continued)

Global Exposure (continued)

PGIM Strategic Income ESG Fund

	Holding Period (1 July 2022-30 June 2023)	Mean	Maximum	Minimum	Std. Dev.	Confidence
Fund VaR	237 days	(875,603)	(1,094,144)	(580,732)	109,425	99%

	Holding Period (1 July 2021-30 June 2022)	Mean	Maximum	Minimum	Std. Dev.	Confidence
Fund VaR	123 days	(759,267)	(1,097,916)	(575,788)	134,122	99%

The VaR measure estimates the potential loss over a given holding period for a specified confidence level. The VaR methodology is a statistically defined, probability based approach that takes into account market volatilities as well as risk diversification by recognising offsetting positions and correlations between products and markets. Risks can be measured consistently across all markets and products, and risk measures can be aggregated to arrive at a single risk number. VaR methodology employed to calculate daily risk numbers includes historical approach. The Sub-Funds apply a back-testing methodology to regularly assess the performance of the VaR model. During the year, periods of exceptional market volatility resulted in a higher number of model exceptions. PGIM Fixed Income believes its VaR model remains a reasonable basis for assessing market risk within the Sub-Funds but PGIM Fixed Income will continue to assess its performance and make adjustments when necessary.

A Sub-Fund may only enter into OTC derivatives, repurchase/reverse repurchase agreements and securities lending arrangements with counterparties in accordance with the requirements of the UCITS Regulations where a credit assessment has been undertaken. Where the counterparty is subject to a credit rating by any agency registered and supervised by ESMA, that rating shall be taken into account in the credit assessment. Where a counterparty is downgraded to A2 or below (or comparable rating) by such a credit rating agency, a new credit assessment in respect of the counterparty will be undertaken without delay.

14. Published NAV per redeemable share

The NAV per redeemable share for each Sub-Fund as at 30 June 2023 is as follows:

	NAV	No. of shares in issue	NAV per redeemable participating share

15. Swing pricing

Swing pricing is applied to a Sub-Fund once net subscriptions or redemptions for a Sub-Fund relating to a Sub-Fund's Net Asset Value for a given dealing day is determined by the Administrator to exceed certain predetermined percentage thresholds. In calculating the swing pricing, the Net Asset Value of a Sub-Fund is swung by a "swing factor" on the following basis:

Net subscriptions - the price used to process all transactions is adjusted upwards by the swing factor.

Net redemptions - the price used to process all transactions is adjusted downwards by the swing factor.

If the Net Asset Value of a Sub-Fund is swung on a specific dealing day the official price for a Sub-Fund will be the derived swing price. In addition, all dealing activity for this dealing day will be dealt at the swing price. Swing pricing applied to a Sub-Fund during the financial year is recognised within the share transactions figure on the Statement of Changes in Net Assets Attributable to Redeemable Shareholders.

As at 30 June 2023 swing pricing occurred only on PGIM Global Corporate Bond Fund. The table below show the reconciliation between swung and unswung NAV per redeemable share for this Sub-Fund:

	Unswung NAV	Swing Adjustment Value per Share	Swung NAV
PGIM Global Corporate Bond Fund			
CHF-Hedged I Accumulation	953.042	1.429	954.471

*PGIM Jennison NextGeneration Opportunities Fund launched on 31 August 2021.

**PGIM Emerging Market Hard Currency ESG Debt Fund launched on 15 December 2021.

***PGIM Strategic Income ESG Fund launched on 16 December 2021.

International Financial Reporting Standards as adopted by the European Union vary in some respects from accounting principles generally accepted in the United States of America (US GAAP). There is an adjustment on distributions for the year ended 30 June 2023 and 30 June 2022 to convert from IFRS basis to US GAAP basis. Amounts presented in the below tables are calculated based on the total Company basis.

PGIM Funds Plc

Notes to the Financial Statements for the financial year ended 30 June 2023 (continued)

16. Financial Highlights (continued)

30 June 2023	Profit USD	Shareholder's equity USD

a) Fair Value adjustment	-	-
b) Taxation	-	-
d) Distributions	27,888,977	-
US GAAP basis	325,762,640	7,376,871,338
<hr/>		
30 June 2022	Profit USD	Shareholder's equity USD
IFRS basis	(2,091,230,351)	7,508,780,004
Differences between IFRS basis and US GAAP basis of Accounting:		
a) Fair Value adjustment	-	-
b) Taxation	-	-
d) Distributions	37,568,890	-
US GAAP basis	2,053,661,461	7,508,780,004

Fair value adjustment

IFRS 13, "Fair value measurement", has been applied by the Company. In accordance with US GAAP (ASC 820, "Fair value measurement"), the investment portfolio should be priced at the most appropriate point on the bid/ask spread that is most representative of fair value. In accordance with IFRS, if an asset or a liability measured at fair value has a bid price and an ask price, the standard requires valuation to be based on a price within the bid/ask spread that is most representative of fair value and allows the use of mid-market pricing or other pricing conventions that are used by market participants as a practical expedient for fair value measurement within a bid/ask spread. On application of IFRS 13, the Company's valuation is aligned with ASC 820 and no adjustments are required.

Uncertain tax positions

ASC 740 "Accounting for Uncertainty in Income Taxes" ("ASC 740") clarifies the accounting for uncertainty in income taxes recognised in the Company's financial statements. ASC 740 prescribes a recognition threshold and measurement attribute for the Financial Statement recognition and measurement of a tax position taken or expected to be taken in a tax return. ASC 740 requires that the Company determines whether it is more likely than not that a tax position will be sustained upon examination including resolution of any related appeals or litigation processes based on the technical merit of the position. In evaluating whether a tax position has met the more likely than not recognition threshold, the Company should presume that the position will be examined by the appropriate taxing authority that has full knowledge of all relevant information.

A tax position that meets the more-likely-than-not recognition threshold is measured to determine the amount of benefit to recognise in the Financial Statements. The tax position is measured at the largest amount of benefit that is greater than 50 per cent likely of being realised upon settlement. The Company reviews and evaluates their tax positions in its major jurisdictions where the Company is organised and where the Sub-Funds make investments. Management has concluded there are no provisions for uncertain tax positions required to be recorded as a result.

Redemptions

ASC 480 requires that shares or interests to be redeemed due to an irrevocable redemption request made prior to the reporting period end for a redemption effective immediately after the period end and to be paid after the period end either for a fixed amount or at an amount determined based on the NAV at the period end are considered financial liabilities and classified as redemptions payable. The Company had no such redemption request as at 30 June 2023 (30 June 2022: None), therefore there was no difference between Shareholder's equity of Profit under IFRS and US GAAP basis for that financial year. The Company did not have any redemption request as at 30 June 2023 that would be considered material and consequently resulted in a reduction in the 30 June 2023 net assets (30 June 2022: None).

17. Exchange rates

The following exchange rates were used to translate assets and liabilities into Euro as at 30 June 2023 and 30 June 2022:

19. Efficient portfolio management

The Investment Manager or relevant Sub-Investment Manager may, on behalf of the Company and subject to the conditions and limits set out in the UCITS Regulations, employ techniques and instruments relating to transferable securities for hedging purposes (to protect an asset of a Sub-Fund against, or minimise liability from, fluctuations in market value or foreign currency exposures) or for efficient portfolio management purposes (with a view to achieving a reduction in risk, a reduction in costs or an increase in capital or income returns to the Sub-Fund provided such transactions are not speculative in nature). Investment in FDI which give exposure to foreign exchange will only be used for hedging purposes. Such techniques and instruments may include investments in exchange-traded or over-the-counter ("OTC") FDI, such as futures and currency forwards (which may be used to manage market and currency risk respectively), options (including call and put options which may be used to achieve cost efficiencies) and swaps, including credit default swaps (which may be used to manage interest rate and credit risk respectively). A Sub-Fund may also invest in the FDI as part of its investment strategy where such intention is disclosed in the Sub-Fund's investment policy and provided that the counterparties to such transactions are institutions subject to prudential supervision and, in relation to OTC transactions, belong to categories approved by the Central Bank.

The Investment Manager or relevant Sub-Investment Manager employs a risk management process in respect of a Sub-Fund in accordance with the requirements of the Central Bank to enable it to accurately monitor, measure and manage the global exposure from FDIs ("global exposure") which each Sub-Fund gains. The Investment Manager will use the commitment approach to calculate its global exposure on all Sub-Funds except for the PGIM Absolute Return Fund, PGIM Emerging Market Local Currency Debt Fund, PGIM Emerging Market Blend Debt Fund, PGIM Emerging Market Total Return Bond Fund, PGIM Global Total Return ESG Bond Fund, PGIM Global Total Return Bond Fund, PGIM Multi Asset Credit Fund, PGIM Strategic Income ESG Fund and PGIM Wadhvani Keynes Systematic Absolute Return Fund where it may use Value at Risk ("VAR"). The Company will, on request, provide supplemental information to Shareholders relating to the risk management methods employed, including the quantitative limits that are applied and any recent developments in the risk and yield characteristics of the main categories of investment.

In addition to the investments in FDIs noted above, the Company may employ other techniques and instruments relating to transferable securities and money market instruments subject to the conditions imposed by the Central Bank, such as repurchase / reverse repurchase agreements, ("Repo Contracts") and securities lending only for efficient portfolio management. Techniques and instruments which relate to transferable securities or money market instruments and which are used for the purpose of efficient portfolio management, including FDIs which are not used for direct investment purposes, will be understood as a reference to techniques and instruments which fulfil the following criteria:

- (a) they are economically appropriate in that they are realised in a cost-effective way;
- (b) they are entered into for one or more of the following specific aims:
 - reduction of risk;
 - reduction of cost;
 - generation of additional capital or income for the Sub-Fund with a level of risk which is consistent with the risk profile of the Sub-Fund and the risk diversification rules set out in the Notices;
- (c) their risks are adequately captured by the risk management process of the Company (in the case of FDIs only); and
- (d) they cannot result in a change to the Sub-Fund's declared investment objective or add substantial supplementary risks in comparison to the general risk policy as described in the sales documents.

During the financial year, the Company entered into futures contracts and forward foreign exchange contracts for the purpose of hedging currency risk on investment and cash holdings.

20. Portfolio changes

Copies of all portfolio changes are available, free of charge, from the Administrator.

Please refer to the section entitled Significant Changes in Portfolio Composition within this Report.

PGIM Funds Plc

Notes to the Financial Statements for the financial year ended 30 June 2023 (continued)

21. Soft commissions

During the financial year ended 30 June 2023 and financial year ended 30 June 2022, Jennison Associates LLC, as a Sub-Investment Manager of the Company, entered into soft commission arrangements with brokers in respect of which certain goods and services used to support the investment decision process were received. Jennison Associates LLC ensured that any such arrangements provide for best execution.

There were no other soft commission arrangements during the financial year ended 30 June 2023, financial year ended 30 June 2022.

22. Significant events during the financial year

Ukrainian-Russian War

The military conflict between Russia and Ukraine has caused significant disruption to global financial systems, trade and transport, among other things. In response, multiple countries and organisations (including the European Union council) have put in place global sanctions and other severe restrictions or prohibitions on the activities of individuals and businesses connected to Russia. This includes the European Union restriction on the sale of shares in collective investment schemes to Russian nationals and Russian entities. Other sanctions imposed have directly targeted transactions in Russian securities, impairing the ability of the Company to buy, sell, receive and deliver such securities.

Any sanctions, the threat of additional sanctions, and other actions that may be taken by any nations or international organisations against Russia and Russian issuers of securities in the future, as well as potential retaliatory actions that could be taken by Russia, may further adversely impact the Russian economy and the pricing and liquidity of Russian securities. In addition, further political or military actions by Russia, such as an increase on the price of government-controlled exports (e.g., natural gas exports), could have an adverse impact on the economies and debt of other emerging market countries as well as on the broader global economy. These events could have a negative effect on the performance of the Company. The ultimate impact of the Russia-Ukraine conflict and its effect on global economic and commercial activity and conditions, and on the operations, financial condition and performance of the Company, and the duration and severity of those effects, remain impossible to predict, but may include reductions in revenue and growth, unexpected operational losses and liabilities and reductions in the availability of capital. The Directors and the Investment Manager monitor for any changes regarding the Russian related sanctions so that the Company's investment portfolio remains adherent. In addition the Investment Manager and Sub-Investment Managers, on behalf of the Directors, continue to monitor the valuation and liquidity of all Russian and Ukrainian securities held. The Administrator monitors the shareholder register and prospective investors in an effort to prevent persons subject to Russian sanctions from investing in the Sub-Funds.

More information on the valuation of Russian and Ukrainian securities held as at 30 June 2023 is available under Note 12 above.

Other

On 3 October 2022, the Fund Supplement for the PGIM Emerging Market Hard Currency Debt Fund was revised, to provide for limitations on the liability of Shareholders in the Fund.

On 4 November 2022, the Fund Supplement for the PGIM Quant Solutions Global Core Equity ESG Fund was revised, to include a new share class and provide additional detail on the ESG elements of the Sub-Fund's investment policy.

On 1 December 2022, the Fund Supplement for the PGIM Broad Market U.S. High Yield Bond Fund was revised.

On 16 December 2022, the Prospectus, Global Supplement and all supplements for each of the Sub-Funds were revised to reflect, amongst other items, the appointment of the Management Company. Shareholders were issued with a shareholder notice in respect of the changes made to the offering documents.

PGIM Investments (Ireland) Limited was authorised by the Central Bank of Ireland on 14 December 2022 pursuant to the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011, as amended as a UCITS management company. Effective 16 December 2022, PGIM Investments (Ireland) Limited was appointed by the Company as its UCITS management company.

The Company's Key Information Documents as prescribed under the packaged retail and insurance-based investment products (PRIIPs) regulation were published on 16 December 2022.

The UK Key Investor Information Documents were updated and filed on 30 January 2023.

On 15 February 2023, the Fund Supplement for the PGIM Quant Solutions Global Core Equity ESG Fund was revised to add a new W Share Class. On 12 June 2023, the Fund Supplements for the PGIM Absolute Return Fund, PGIM Broad Market U.S. High Yield Bond Fund, PGIM European High Yield Bond Fund, PGIM Emerging Market Total Return Bond Fund, PGIM Emerging Market Local Currency Debt Fund, PGIM Global Corporate Bond Fund, PGIM Global High Yield Bond Fund, PGIM Intermediate Duration US Corporate Bond Fund, PGIM Multi Asset Credit Fund, PGIM US Corporate Bond Fund and PGIM Global Select Real Estate Securities Fund were revised to reflect each Fund's reclassification as an Article 8 Fund under the European Union's Sustainable Finance Disclosure Regulation (Regulation EU/2019/2088 ("SFDR")).

SVB, Signature Bank and Credit Suisse Exposure

During the financial year ended 30 June 2023, the collapse of Silicon Valley Bank, followed by the failure of Signature Bank and the emergency takeover of Credit Suisse by sale to UBS shortly thereafter, has led to significant turmoil in global financial markets. The Company's direct exposure to these, and similar assets, was immaterial, however the knock-on effects of these events are still evolving and at this stage it is difficult to predict the broader impact on the banking system and financial marketplace. The Directors and the Investment Manager continue to monitor the situation and assess the implications on the operations of the Company.

PGIM Funds Plc

Notes to the Financial Statements for the financial year ended 30 June 2023 (continued)

22. Significant events during the financial year (continued)

The following share classes launched during the financial year ended 30 June 2023:

Significant Changes in Portfolio Composition
as at 30 June 2023 (Unaudited)

In accordance with the Central Bank (Supervision & Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations, 2019 a statement of the largest changes in the composition of the Schedule of Investments during the reporting period is provided to ensure that shareholders can identify changes in the investments held by the Sub-Fund. These statements present the aggregate purchases and sales of an investment exceeding 1.00% of the total value of purchases and sales for the financial year or at least the top 20 purchases and sales.

Appendix I – Remuneration Disclosures (unaudited)

The Directors of the Company have put in place a remuneration policy, which became effective as of 1 January 2017.

The remuneration policy is designed to be consistent with the requirements of European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011, as amended by the European Union (Undertakings for Collective Investment in Transferable Securities) Regulations 2016 and the European Securities and Markets Authority Guidelines on Sound Remuneration policies under the UCITS Directive (ESMA/2016/575) (the “ESMA Guidelines”). The remuneration policy is reviewed by the Directors at least once per year. In reviewing the remuneration policy, the Directors consider whether the overall remuneration system operates as intended and is compliant with the obligations on remuneration as set out in the ESMA Guidelines, having regard to the nature, scale and complexity of the Company and its activities. The independent Directors of the Company are entitled to receive remuneration for their service; the Company has no employees.

The Company has delegated certain management activities to the Management Company, which in turn has delegated to the Investment Manager the investment management and risk management activities for the Sub-Funds.

The Company does not remunerate the staff of the Management Company or Investment Manager. Instead, the Company pays management fees to the Management Company and the Investment Manager, as disclosed in Note 11 of the Financial Statements. The Company has contractually required the Management Company and the Investment Manager to put in place measures regarding the remuneration of their identified staff in order to comply with the applicable requirements of the ESMA Guidelines.

Appendix II - SRD II Disclosure (unaudited)

**PGIM Funds plc (the “Company”)
Annual Confirmation of Compliance and Voting Behaviour for sub-funds that are deemed in-scope of
Directive (EU) 2017/828 of the European Parliament and of the Council of 17 May 2017 (Shareholder Rights
Directive II or SRD II)**

Investment/Sub-Investment Manager	Confirmations
PGIM Real Estate	<ul style="list-style-type: none"> (i) PGIM Real Estate exercises voting rights in a manner that PGIM Real Estate believes is in the best interests of the Company and each relevant sub-fund and has done so in accordance with PGIM Real Estate’s “Proxy Voting Policies and Procedures”. (ii) A structure is in place to ensure that proxy voting is conducted in an appropriate manner, consistent with the relevant sub-fund’s best interest, and within the framework of PGIM Real Estate’s policy. (iii) PGIM Real Estate will vote proxies in the best long-term economic interest of each relevant sub-fund. (iv) Significant votes include those that are on special measures, executive compensation packages and severance changes, votes to remove board members for various reasons, and other resolutions that may be deemed material to the corporation. (v) Proxy voting is coordinated by PGIM Real Estate’s Operations unit, PGIM Quantitative Solutions. PGIM Real Estate currently utilizes a third-party vendor as its proxy voting facilitator and administrator (Voting Agent).
Jennison Associates LLC (“Jennison”)	<ul style="list-style-type: none"> (i) Jennison exercises voting rights in a manner that Jennison believes is in the best interests of the Company and each relevant sub-fund and has done so in accordance with Jennison’s “Proxy Voting Policy and Procedures”. (ii) A structure is in place to ensure that proxy voting is conducted in an appropriate manner, consistent with the relevant sub-fund’s best interest, and within the framework of Jennison’s policy. <p>Jennison’s portfolio managers and analysts (“Investment Professionals”) vote in the best interest of Jennison’s clients without regard to the interests of Jennison or other related parties. Jennison’s voting is based on recommendations as determined by pre-established proxy voting guidelines (“Guidelines”) either adopted by Jennison or provided by the client. Jennison recognizes that the nature of ballot issues, including environmental and social issues (“ESG”), can vary widely depending on the company, industry practices, the company’s operations and geographic footprint, to name a few, and will consider relevant issues, including ESG issues, in a manner consistent with Jennison’s fiduciary duties and the goal of maximizing shareholder value. For purposes of Jennison’s policy, the “best interests of clients” shall mean, unless otherwise specified by the client, the clients’ best economic interests over the long-term, i.e., the common interest that all clients share in seeing the value of a common investment increase over time.</p> <p>The Guidelines are reviewed annually and as necessary by the Proxy Team. Proposed revisions to the Guidelines are reviewed and approved by the Jennison’s Proxy Voting Committee and Investment Professionals when a change is appropriate. These Guidelines are intended to convey Jennison’s general approach to voting decisions on certain issues. Nevertheless, Investment Professionals are responsible for reviewing all proposals related to fundamental strategies individually and making final decisions based on the merits of each proposal</p> <p>If an Investment Professional believes that Jennison should vote in a way that is different from the Guidelines, Jennison’s Proxy Team is notified. The Proxy Team is responsible for maintaining the Investment Professional’s reasons for deviating from Guidelines.</p>

**PGIM Funds plc (the “Company”)
Annual Confirmation of Compliance and Voting Behaviour for sub-funds that are deemed in-scope of
Directive (EU) 2017/828 of the European Parliament and of the Council of 17 May 2017 (Shareholder Rights
Directive II or SRD II) (continued)**

Investment/Sub-Investment Manager	Confirmations
Jennison Associates LLC ("Jennison") (continued)	<p>(iii) Jennison would determine a vote to be significant when there has been considerable news flow about a proposal or shareholder meeting, or when Jennison opposes management's recommendation and hold a significant economic interest in the company. By way of example, the following votes are considered significant:</p> <p>Jennison chose to vote against management at the Apple Inc. (AAPL) annual meeting on 3/4/2022. The vote related to a shareholder proposal urging Apple's Board of Directors to oversee a third-party audit analysing the adverse impact of Apple's policies and practices on the civil rights of company stakeholders, above and beyond legal and regulatory matters, and to provide recommendations for improving the company's civil rights impact. Input from civil rights organizations, employees, and customers should be considered in determining the specific matters to be analysed. Apple already provides a significant amount of information concerning diversity and inclusion in its ESG reports and the company has been a proactive leader in championing and delivering on these causes. However, a proactive third-party audit has the potential to identify potential areas of concern that might be harder to unearth within a company of Apple's scale.</p> <p>Jennison chose to vote against management at the Amazon.com Inc. (AMZN) annual meeting on 5/25/2022. The vote related to a shareholder proposal requesting that the Board of Directors commission an independent audit and report of the working conditions and treatment that Amazon warehouse workers face, including the impact of its policies, management, performance metrics, and targets. Amazon is a labor-intensive company and has faced considerable controversy over warehouse workplace conditions in recent years. Jennison believes qualitative information disclosed on causes of workplace injuries, workplace complaints and other risks will expand Amazon's social reporting beyond the quantitative disclosure available on workforce incident rates and safety policies. Jennison would like to see in-depth workplace assessment/remediation policies for uncompliant Amazon-operated warehouses. Amazon's sustainability reporting emphasizes audit and remediation practices for Tier 1 Suppliers, but due to lack of disclosure, Amazon may not do the same for its own warehouses to mitigate sizable Social risk. An audit would help Amazon mitigate negative reputational risk over their Social policies; should the audit identify systemic issues, investors would be able to hold Amazon accountable to rectify them.</p>

PGIM Funds Plc

Appendix II - SRD II Disclosure (unaudited) (continued)

**PGIM Funds plc (the “Company”)
Annual Confirmation of Compliance and Voting Behaviour for sub-funds that are deemed in-scope of
Directive (EU) 2017/828 of the European Parliament and of the Council of 17 May 2017 (Shareholder Rights
Directive II or SRD II) (continued)**

Investment/Sub-Investment Manager	Confirmations
<p>Jennison Associates LLC ("Jennison") (continued)</p>	<p>Jennison chose to vote against management at the Meta Platforms Inc. (FB) annual meeting on 5/25/2022. The vote related to a shareholder proposal requesting the board of directors of Meta Platforms Inc. to publish an independent third-party Human Rights Impact Assessment (HRIA), examining the actual and potential human rights impacts of Facebook’s targeted advertising policies and practices throughout its business operations. FB’s profitability is majority tied to advertising, and in 2019 FB faced a \$5B fine for privacy violations from the FTC. In FB’s response, it states the company will undertake a firm-wide “salient risk assessment” to make sure the team is identifying and scaling risks per the United Nations Guiding Principles on Business and Human Rights. While this response gets at the heart of the issue, Jennison would prefer externally verified results, which this proposal calls for. Furthermore, Management’s own “salient risk assessment” may produce a prioritized list of company human rights, but passing the shareholder proposal would reliably provide additional disclosure on this risk.</p> <p>Jennison chose to vote against management at the Meta Platforms Inc. (FB) annual meeting on 5/25/2022. The vote related to a shareholder proposal requesting the Board of Directors issue a report by February 2023 assessing the risk of increased sexual exploitation of children as the company develops and offers additional privacy tools such as end-to-end encryption. Jennison believes FB’s proxy statement response is insufficient as it does not specifically disclose content moderation strategies for end-to-end messaging, or any other emerging technologies. The nature of end-to-end encryption means that in theory, content moderators cannot see suspicious materials sent in messages, unless the user who receives the message chooses to flag and enable moderators to read it. While FB points out that the firm has banned child exploitation content, and has tools to flag suspicious messages, shareholders would benefit from learning how well these strategies work when end-to-end encryption is on. This content oversight risk will grow if/when FB grows its end-to-end encryption (or similar technology) offering.</p> <p>Jennison chose to vote against management at the Alphabet Inc. (GOOGL) annual meeting on 6/1/2022. The vote related to a shareholder proposal requesting the Board of Directors commission a report assessing the siting of Google Cloud Data Centers in countries of significant human rights concern, and the Company’s strategies for mitigating the related impacts. Alphabet has disclosed multiple reports and joined groups to support human rights risk monitoring/protection across its global footprint. Shareholders can publicly view the Google Human Rights Policy, Google Transparency Report and other disclosures. Jennison also note that the company holds itself accountable to external evaluation through its membership in the Global Network Initiative, and signed Trusted Cloud Principles alongside major peers like MSFT and AMZN which addresses government risk monitoring. These initiatives have been sufficient to manage human rights risk in the past; however, given Alphabet’s new policy in response to the Russia-Ukraine war of banning Russian media propaganda outlets from generating ad revenue on Google services, the company can clarify what the criteria are for suspending and/or terminating access to business in select markets. The proponent of this proposal mentions that Alphabet conducted a human rights assessment prior to finalizing its decision to add a data center in Saudi Arabia. Jennison believes disclosing insights from this assessment, without including any proprietary secrets or confidential information, would help shareholders evaluate Alphabet’s human rights risk monitoring process. Jennison chose to vote against management at the TJX Companies, Inc. (TJX) annual meeting on 6/7/2022. The vote related to a shareholder proposal requesting the Board of Directors to oversee a third-party assessment and report to shareholders, at reasonable cost and omitting proprietary information, assessing the effectiveness of current company due diligence in preventing forced, child, and prison labor in TJX’s supply chain. Jennison believes that additional information regarding the processes the company uses to assess human rights impacts in its operations and supply chain would be helpful to shareholders. While it is not industry standard for retailers to conduct or require audits of factories beyond the producers of its private label products, the company does not disclose a Tier 1 factory list for its private label products, nor does it disclose audit findings and progress related to remediation. Jennison also agrees that the company can provide greater disclosure regarding responsible sourcing standards, or sustainable product attributes, for the products from the brands that it re-sells.</p>

PGIM Funds Plc

Appendix II - SRD II Disclosure (unaudited) (continued)

**PGIM Funds plc (the “Company”)
Annual Confirmation of Compliance and Voting Behaviour for sub-funds that are deemed in-scope of
Directive (EU) 2017/828 of the European Parliament and of the Council of 17 May 2017 (Shareholder Rights
Directive II or SRD II) (continued)**

Investment/Sub-Investment Manager	Confirmations
Jennison Associates LLC ("Jennison") (continued)	(iv) Jennison has engaged an independent third-party proxy voting vendor, Glass Lewis, to provide research analytic services, operational implementation and recordkeeping and reporting services. Jennison has adopted proxy voting guidelines with respect to certain recurring issues. The third-party vendor casts votes in accordance with Jennison's Guidelines, unless instructed otherwise by Jennison's Investment Professionals. Notwithstanding the Guidelines, Investment Professionals for fundamental strategies are responsible for reviewing the facts and circumstances related to each proposal in order to make all final voting decisions. Additionally, Jennison subscribes to ESG focused proxy voting research from a third-party service provider – Institutional Shareholder Services' Socially Responsible Investing voting research. For case-by-case resolutions and in situations when third-party voting recommendations may differ from Jennison's own guidelines, Jennison's ESG and Investment Stewardship team assesses the financial materiality of ESG issues underpinning these proposals and make appropriate voting recommendations to Jennison's investment professionals.
PGIM Fixed Income	(i) PGIM Fixed Income exercises voting rights in a manner that PGIM Fixed Income believes is in the best interests of the Company and each relevant sub-fund and has done so in accordance with PGIM Fixed Income's "Proxy Voting Policies and Procedures". (ii) A structure is in place to ensure that proxy voting is conducted in an appropriate manner, consistent with the relevant sub-fund's best interest, and within the framework of its policy. (iii) In the case of each sub-fund managed by PGIM Fixed Income, PGIM Fixed Income's policy is to vote proxies in the best economic interest of the sub-fund. PGIM Fixed Income's proxy voting policy contains detailed voting guidelines on a wide variety of issues commonly voted upon by shareholders. These guidelines reflect PGIM Fixed Income's judgment of how to further the best economic interest of the relevant sub-fund through the shareholder or debt-holder voting process. PGIM Fixed Income generally votes with management on routine matters such as the appointment of accountants or the election of directors, which is what generally occurred this year. (iv) Reviewing the proxy voting that took place over this year, there were no significant votes to comment on. (v) PGIM Fixed Income does not use an Advisor service to vote, PGIM Fixed Income votes for Proxies.
PGIM Quantitative Solutions LLC ("PGIM QS")	(i) PGIM QS exercises voting rights in a manner that PGIM QS believes is in the best interests of the Company and each relevant sub-fund and has done so in accordance with PGIM QS "Proxy Voting Policies and Procedures". (ii) A structure is in place to ensure that proxy voting is conducted in an appropriate manner, consistent with the relevant sub-fund's best interest, and within the framework of its policy. (iii) PGIM QS will vote proxies in the best long-term economic interests of clients whose accounts hold the securities. In the case of the sub-funds, PGIM QS will vote proxies in the best long-term economic interest of the relevant sub-fund. (iv) Proxy voting is coordinated by the PGIM QS Operations unit. PGIM QS currently utilizes a third-party vendor as its proxy voting facilitator and administrator (Voting Agent).

PGIM Funds Plc

Appendix III - Securities Financing Transactions as at 30 June 2023 (unaudited)

Article 13 of Regulation (EU) 2015/2365 on transparency of securities financing transactions (SFTs) and of reuse and amending Regulation (EU) No 648/2012, requires UCITS management companies to provide the following information on the use made of SFTs and total return swaps (TRSs) at the reporting date.

As at 30 June 2023, PGIM Broad Market U.S. High Yield Bond Fund, PGIM Global High Yield ESG Bond Fund, PGIM Absolute Return Fund, PGIM Emerging Market Total Return Bond Fund and PGIM Global High Yield Bond Fund held total return swaps. Below are the details in relation to the total return swaps held and the related collateral.

PGIM Broad Market U.S. High Yield Bond Fund

1. Below is the value of assets engaged in TRSs as at 30 June 2023

% of Net Assets	0.53%
Counterparty Name	BNP Paribas
Counterparty Country of Establishment	France
Value of Outstanding Transactions*	US\$ 6,500,000
Settlement/Clearing	Bi-Lateral

2. Maturity tenor of the TRS

1 to 3 months	100%
---------------	------

3. Collateral

Collateral Pledged

Total Value of Collateral pledged	US\$ 354,834
Collateral Type	Cash
Collateral Quality/Rating	Not rated
Currency of Collateral	US Dollars
Maturity tenor of the Collateral	Open
Counterparty	BNP Paribas

100% of the collateral pledged is held in a segregated account with the Counterparty.

There was no collateral received in relation to the TRS at 30 June 2023.

4. Returns and costs of the TRS

Income received	-
Gains/Losses	-
Costs incurred**	-
Net returns	-
% of Overall SFT/TRS Return	0.00%

*The value of the TRS represented the notional value in the local currency (USD), converted to base currency of the Fund as at 30 June 2023.

**Costs incurred in relation to the TRS are not separately identifiable for disclosure within the Financial Statements.

PGIM Global High Yield ESG Bond Fund

1. Below is the value of assets engaged in TRSs as at 30 June 2023

% of Net Assets	0.93%
Counterparty Name	BNP Paribas
Counterparty Country of Establishment	France
Value of Outstanding Transactions*	US\$ 1,112,500
Settlement/Clearing	Bi-Lateral

2. Maturity tenor of the TRS

1 to 3 months	100%
---------------	------

3. Collateral

There were no collateral received and collateral pledged in relation to the TRS at 30 June 2023.

4. Returns and costs of the TRS

Income received	-

Appendix IV – Sustainable Finance Disclosure Regulation (unaudited)

Sustainable Finance Disclosure Regulation and Taxonomy Disclosures (unaudited)

Article 8 Funds (collectively the “Article 8 Funds”)

The following Funds have been categorised as Article 8 financial products for the purposes of the European Union’s Sustainable Finance Disclosure Regulation (Regulation EU/2019/2088 (“SFDR”)).

PGIM Absolute Return Fund
PGIM Broad Market U.S. High Yield Bond Fund
PGIM Emerging Market Corporate ESG Bond Fund
PGIM Emerging Market Hard Currency ESG Debt Fund
PGIM Emerging Market Local Currency Debt Fund
PGIM Emerging Market Total Return Bond Fund
PGIM European Corporate ESG Bond Fund
PGIM European High Yield Bond Fund
PGIM European High Yield ESG Bond Fund
PGIM Global Corporate Bond Fund
PGIM Global Corporate ESG Bond Fund
PGIM Global High Yield Bond Fund
PGIM Global High Yield ESG Bond Fund
PGIM Global Select Real Estate Securities Fund
PGIM Global Total Return ESG Bond Fund
PGIM Intermediate Duration US Corporate Bond Fund
PGIM Jennison Emerging Markets Equity Fund
PGIM Jennison Global Equity Opportunities Fund
PGIM Jennison NextGeneration Opportunities Fund
PGIM Jennison U.S. Growth Fund
PGIM Multi Asset Credit Fund
PGIM Quant Solutions Global Core Equity ESG Fund
PGIM Strategic Income ESG Fund
PGIM US Corporate Bond Fund

SFDR requires the Company to provide transparency on the extent to which environmental or social characteristics are met by the Article 8 Funds. The EU’s Regulation on the Establishment of a Framework to Facilitate Sustainable Investment (Regulation EU/2020/852) (the “Taxonomy Regulation”) requires the Company to provide additional disclosure with respect to each of the Sub-Funds in order to enhance transparency and to provide for objective comparison of financial products regarding the proportion of such financial products’ investments that contribute to environmentally sustainable economic activities, noting that the scope of environmentally sustainable economic activities, as prescribed in the Taxonomy Regulation, is narrower than the scope of sustainable investments under SFDR.

Information relating to the environmental and/or social characteristics promoted by the Article 8 Funds, as well as their alignment with the Taxonomy Regulation, is set out below in the respective periodic disclosures.

Product name:
PGIM Absolute Return Fund

Legal entity identifier:
549300STP7X5PMY28740

Environmental and/or social characteristics

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Did this financial product have a sustainable investment objective?	
<input type="checkbox"/> Yes	<input checked="" type="checkbox"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective: ___% <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> It made sustainable investments with a social objective: ___%	<input type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with a social objective <input checked="" type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The Fund (defined in these periodic disclosures as the “Product”) promoted three primary environmental and social characteristics (each a “Sustainability Characteristic” and together the “Sustainability Characteristics”) during the period 12 June 2023 – 30 June 2023 (“Reference Period”) as set out below:

- 1) The Product promoted the avoidance of certain ESG related activities and/or controversies that were deemed harmful (“Sustainability Characteristic 1”).
- 2) The Product:
 - a. promoted the reduction of investment in issuers that the Investment Manager has determined either (i) have severe net negative impacts on the environment/society and/or (ii) have material negative impacts on the environment/society that are not, in the Investment Manager’s view, being credibly addressed (“Sustainability Characteristic 2a”) and
 - b. promoted increased investment in issuers within the investable universe that the Investment Manager determines have more positive impacts on the environment and/or society (“Sustainability Characteristic 2b”).
- 3) The Product promoted increased investment in issuers within the investable universe that have lower carbon intensity (measured by Scope 1 and Scope 2 metric tonnes of carbon dioxide equivalent emissions per million USD in sales) (“Sustainability Characteristic 3”)

The extent to which each Sustainability Characteristic was attained is discussed in more detail under the next question, “How did the sustainability indicators perform?”.

How did the sustainability indicators perform?

- **Sustainability Characteristic 1:**
In order to measure the Product’s promotion of Sustainability Characteristic 1, the Product excluded issuers:
 - that violate the UN Global Compact Principles
 - that are involved in the production, sale and/or distribution of nuclear or other controversial weapons (including landmines, cluster weapons, depleted uranium, white phosphorous, incendiary weapons and biological/chemical weapons)

- deriving at least 20% of revenues from thermal coal generation
- deriving at least 10% of revenues from thermal coal extraction
- that are conventional weapon manufacturers and/or service providers (companies that provide services for civilian firearms and/or military equipment, including maintenance, repair, testing, transport and similar activities) deriving at least 10% of revenues from such activities
- that are tobacco manufacturers deriving at least 5% of revenues from such activities.

A list containing the issuers to be excluded was maintained by the Investment Manager (“Exclusion List”) in reliance on an external screening agent or agents.

The Sustainability Indicator for Sustainability Characteristic 1 is whether or not the issuer is on the Exclusion List. Investments that are not on the Exclusion List will be considered to have attained Sustainability Characteristic 1.

For the Reference Period, the Exclusion List process was followed and there were no advertent breaches of this process to report. To the extent that an existing position may have been subsequently added to the Exclusion List, such security would have been disposed of in accordance with PGIM Fixed Income’s UCITS ESG Policy Statement (the “Investment Manager’s ESG Policy”).

The Investment Manager considers that 98% of the Product promoted Sustainability Characteristic 1. The remaining 2% of the Product was allocated to assets in the #2 Other category (primarily cash and hedging instruments – see the section on asset allocation below for more details). Therefore, Sustainability Characteristic 1 was considered attained for the Reference Period (on the basis that 65% was the expected minimum proportion of the Product’s assets that would promote Sustainability Characteristic 1).

• **Sustainability Characteristic 2a:**

The Product excluded issuers with a PGIM ESG Impact Rating (“ESG Impact Rating”) of under 20. However, only issuers with an ESG Impact Rating of 40 or above will be used to measure the Product’s promotion of Sustainability Characteristic 2a.

The Sustainability Indicator for Sustainability Characteristic 2a is an investment’s ESG Impact Rating.

For the Reference Period, the minimum ESG Impact Ratings requirement was monitored as part of the guideline monitoring process and there were no advertent breaches of this criteria. To the extent that an existing position did not meet the applicable criteria determined by the Investment Manager, the Investment Manager would have taken such action as described in the Investment Manager’s ESG Policy.

The Investment Manager considers that 91% of the Product promoted Sustainability Characteristic 2a. 7% of the Product’s assets were securities with an ESG Impact Rating between 20 and 35. The remaining 2% of the Product was allocated to assets in the #2 Other category, comprised of cash and hedging instruments. Therefore, Sustainability Characteristic 2a was considered attained for the Reference Period (on the basis that no expected minimum proportion of the Product’s assets that would promote Sustainability Characteristic 2a was set).

• **Sustainability Characteristic 2b:**

In order to measure the Product’s promotion of Sustainability Characteristic 2b, the Product achieved a weighted-average ESG Impact Rating of the portfolio that is higher than the weighted-average ESG Impact Rating of the Bloomberg US Universal ex Treasury ex MBS Index (the “Relevant Index”).

The Sustainability Indicator for Sustainability Characteristic 2b is the weighted-average ESG Impact Rating of the portfolio.

Sustainability Characteristic 2b will be considered attained if the weighted-average ESG Impact Rating of the portfolio is greater than the weighted-average ESG Impact Rating of the Relevant Index.

For the Reference Period, the weighted-average ESG Impact Rating of the portfolio and the Relevant Index were monitored as part of the guideline monitoring process and the portfolio’s weighted-average ESG Impact Rating did not fall below that of the Relevant Index during the Reference Period. Therefore, Sustainability Characteristic 2b was considered attained for the Reference Period.

• **Sustainability Characteristic 3:**

In order to measure the Product’s promotion of Sustainability Characteristic 3, the Product achieved a weighted-average Scope 1 and Scope 2 emissions intensity of the portfolio that is lower than the weighted-average Scope 1 and Scope 2 emissions intensity of the Relevant Index.

The Sustainability Indicator for Sustainability Characteristic 3 is the weighted-average Scope 1 and Scope 2 emissions intensity of the portfolio.

Sustainability Characteristic 3 will be considered attained if the weighted average Scope 1 and Scope 2 emissions

intensity is lower than the weighted-average Scope 1 and Scope 2 emissions intensity of the Relevant Index.

For the Reference Period, the weighted-average Scope 1 and Scope 2 emissions intensity of the portfolio and the Relevant Index were monitored as part of the guideline monitoring process. The portfolio's weighted-average Scope 1 and Scope 2 emissions intensity was below that of the Relevant Index during the Reference Period. Therefore, Sustainability Characteristic 3 was considered attained for the Reference Period.

...and compared to previous periods?

Not applicable, this is the first period in which the Product is required to make disclosures regarding the performance of the sustainability indicators.

What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

Not applicable.

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

Not applicable.

How were the indicators for adverse impacts on sustainability factors taken into account?

Not applicable.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Not applicable.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The Product's consideration of principal adverse impacts was generally achieved through the assignment of ESG Impact Ratings, which requires assessing investments against negative and positive ESG impacts relevant to the industry and/or issuer. This ESG impact assessment is distinct from the assessment of Sustainability Risk i.e. the risk that ESG events could affect the financial/economic value of its clients' investments. In addition, issuers involved in specific activities deemed to have particularly negative impacts were excluded from the Product's investible universe.

What were the top investments of this financial product?

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is: as at June 2023

Largest investments	Sector	% Assets	Country
United States Treasury Note	US Government	4.18%	United States
United States Treasury Note	US Government	3.36%	United States
United States Treasury Bond	US Government	2.81%	United States
DBJPM 2017-C6 Mortgage Trust	IG Corporates	2.50%	United States
CVC Cordatus Loan Fund XIV DAC	ABS	2.26%	Ireland
St Pauls CLO II DAC	ABS	2.04%	Ireland
United States Treasury Note	US Government	2.03%	United States
Bellemeade Re 2019-2 Ltd	High Yield	1.94%	Bermuda
International Finance Corp	IG Corporates	1.75%	United States

St Pauls CLO	ABS	1.20%	Ireland

Portfolio Exposure as of 30.06.23. It does not represent an average for the reporting period and is not representative of the Portfolio Exposure at any other day of the financial year.

What was the proportion of sustainability-related investments?

What was the asset allocation?

Asset allocation describes the share of investments in specific assets.

#1 Aligned with E/S characteristics – 98%

98% of the Product's assets were in investments which, in addition to seeking to attain the broader economic objectives and investment strategy of the Product, were aligned with one or more of the E/S characteristics of the Product (the "E/S Alignment Contribution"). This E/S Alignment Contribution was calculated as follows:

1) for each quarter end during the Reference Period, calculating the percentage of the market value of all assets of the Product (including derivatives and cash) which was comprised of assets promoting one or more of the Sustainability Characteristics; and then

2) calculating the average of the quarter-end percentages.

In the first step of this E/S Alignment Contribution calculation, the numerator was the market value of the underlying E/S aligned investments of the Product, and the denominator was the market value of all the underlying assets of the Product.

However, as the Product promoted a number of different Sustainability Characteristics during the Reference Period, it is not the case that all investments comprising the E/S Alignment Contribution promoted all of the different Sustainability Characteristics. A specific breakdown for each Sustainability Characteristic is outlined above under the heading “How did the sustainability indicators perform?”

#1A Sustainable: The Product did not make “sustainable investments”, as defined under SFDR.

#1B Other E/S characteristics: All of the category #1 investments were aligned with the environmental or social characteristics promoted by the Product.

#2 Other – 2%

2% of the Product’s assets were in investments which fell within the sub-category “#2 Other”. Within the sub-category “#2 Other”, the Product’s assets were made up of: derivatives (for efficient portfolio management and hedging) and cash held for ancillary liquidity or defensive market positioning, neither of which were used to attain the Sustainability Characteristics.

In which economic sectors were the investments made?

Sector	% Assets
US Government	16.74%
Non-US Government	0.27%
Agencies	1.78%
Mortgages	4.43%
Non-Agency MBS	5.65%
ABS	17.99%
CMBS	9.37%
IG Corporates	17.75%
Non-US Govt Related	4.15%
High Yield	10.45%
Bank Loan	1.57%
Emerging Markets	6.86%
Municipals	0.79%
Swaps	4.26%
Cash & Equivalents	-2.08%

Portfolio Exposure as of 30.06.23. It does not represent an average for the reporting period and is not representative of the Portfolio Exposure at any other day of the financial year.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The Product does not currently commit to invest in any Sustainable Investments within the meaning of the SFDR, accordingly the minimum share of EU Taxonomy-aligned investments is 0%.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

Yes:

In fossil gas

In nuclear energy

No:

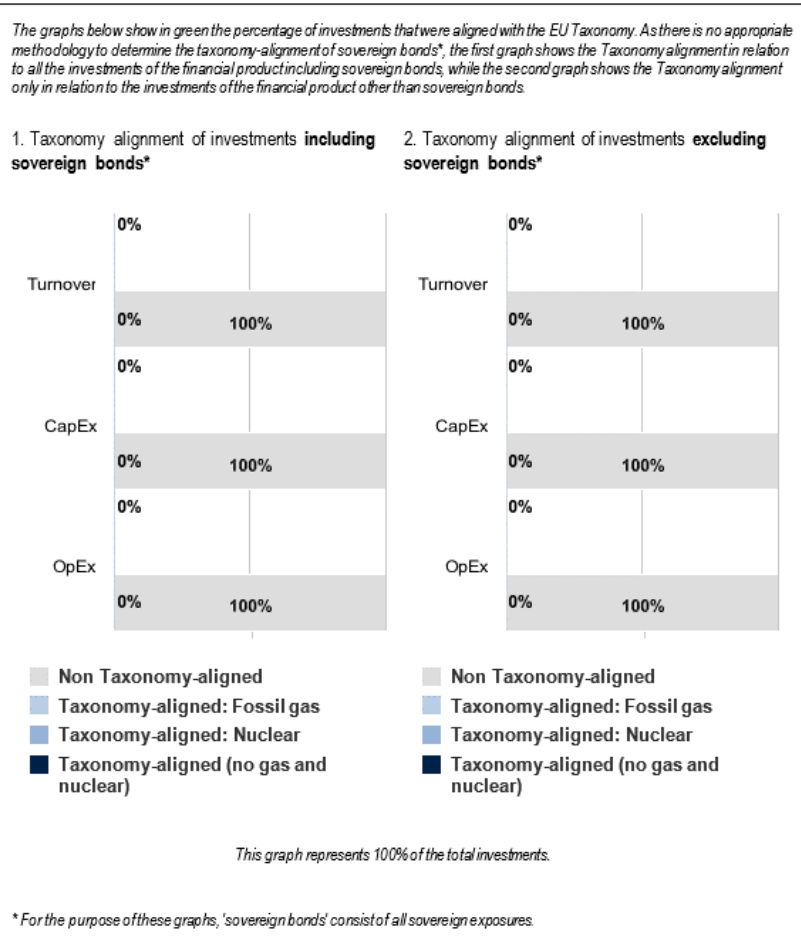

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Taxonomy-aligned activities are expressed as a share of:

- turnover reflecting the share of revenue from green activities of investee companies.
- capital expenditure (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- operational expenditure (OpEx) reflecting green operational activities of investee companies.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure (CapEx)** showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure (OpEx)** reflecting green operational activities of investee companies.

What was the share of investments made in transitional and enabling activities?

Not applicable.

How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

Not applicable.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

Not applicable.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of socially sustainable investments?

Not applicable.

What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

Within the sub-category "#2 Other", 2% of the Product's assets were made up of derivatives (for efficient portfolio management and hedging), cash held for ancillary liquidity or defensive market positioning.

No minimum environmental or social safeguards were applied to the 2% of assets made up of derivatives and cash.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Product utilised the application of the Exclusion List, the Investment Manager's ESG Impact Ratings, and issuers' Scope 1 and Scope 2 emissions intensity to meet the Sustainability Characteristics outlined above. While the Investment Manager does engage with issuers, the Product does not seek to use engagement as a primary strategy for attaining the Sustainability Characteristics it promotes.

How did this financial product perform compared to the reference benchmark?

Not applicable.

How does the reference benchmark differ from a broad market index?

Not applicable.

How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

Not applicable.

How did this financial product perform compared with the reference benchmark?

Not applicable.

How did this financial product perform compared with the broad market index?

Not applicable.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

Product name:
PGIM Broad Market U.S. High Yield Bond Fund

Legal entity identifier:
549300RZ4TE1T5F3DY45

Environmental and/or social characteristics

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Did this financial product have a sustainable investment objective?	
<input type="checkbox"/> Yes	<input checked="" type="checkbox"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective : ___% <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> It made sustainable investments with a social objective : ___%	<input type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with a social objective <input checked="" type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The Fund (defined in these periodic disclosures as the "Product") promoted three primary environmental and social characteristics (each a "Sustainability Characteristic" and together the "Sustainability Characteristics") during the period 12 June 2023 – 30 June 2023 ("Reference Period") as set out below:

- 1) The Product promoted the avoidance of certain ESG related activities and/or controversies that were deemed harmful ("Sustainability Characteristic 1").
- 2) The Product:
 - a. promoted the reduction of investment in issuers that the Investment Manager has determined either (i) have severe net negative impacts on the environment/society and/or (ii) have material negative impacts on the environment/society that are not, in the Investment Manager's view, being credibly addressed ("Sustainability Characteristic 2a") and
 - b. promoted increased investment in issuers within the investable universe that the Investment Manager determines have more positive impacts on the environment and/or society ("Sustainability Characteristic 2b").
- 3) The Product promoted increased investment in issuers within the investable universe that have lower carbon intensity (measured by Scope 1 and Scope 2 metric tons of carbon dioxide equivalent emissions per million USD in sales) ("Sustainability Characteristic 3")

The extent to which each Sustainability Characteristic was attained is discussed in more detail under the next question, "How did the sustainability indicators perform?".

How did the sustainability indicators perform?

- **Sustainability Characteristic 1:**
In order to measure the Product's promotion of Sustainability Characteristic 1, the Product excluded issuers:
 - that violate the UN Global Compact Principles
 - that are involved in the production, sale and/or distribution of nuclear or other controversial weapons (including landmines, cluster weapons, depleted uranium, white phosphorous, incendiary weapons and biological/chemical

weapons)

- deriving at least 20% of revenues from thermal coal generation
- deriving at least 10% of revenues from thermal coal extraction
- that are conventional weapon manufacturers and/or service providers (companies that provide services for civilian firearms and/or military equipment, including maintenance, repair, testing, transport and similar activities) deriving at least 10% of revenues from such activities
- that are tobacco manufacturers deriving at least 5% of revenues from such activities.

A list containing the issuers to be excluded was maintained by the Investment Manager ("Exclusion List") in reliance on an external screening agent or agents.

The Sustainability Indicator for Sustainability Characteristic 1 is whether or not the issuer is on the Exclusion List. Investments that are not on the Exclusion List will be considered to have attained Sustainability Characteristic 1.

For the Reference Period, the Exclusion List process was followed and there were no advertent breaches of this process to report. To the extent that an existing position may have been subsequently added to the Exclusion List, such security would have been disposed of in accordance with PGIM Fixed Income's UCITS ESG Policy Statement (the "Investment Manager's ESG Policy").

The Investment Manager considers that 98% of the Product promoted Sustainability Characteristic 1. The remaining 2% of the Product was allocated to assets in the #2 Other category (primarily cash and hedging instruments – see the section on asset allocation below for more details). Therefore, Sustainability Characteristic 1 was considered attained for the Reference Period (on the basis that 65% was the expected minimum proportion of the Product's assets that would promote Sustainability Characteristic 1).

• **Sustainability Characteristic 2a:**

The Product excluded issuers with a PGIM ESG Impact Rating ("ESG Impact Rating") of under 20. However, only issuers with an ESG Impact Rating of 40 or above will be used to measure the Product's promotion of Sustainability Characteristic 2a.

The Sustainability Indicator for Sustainability Characteristic 2a is an investment's ESG Impact Rating.

For the Reference Period, the minimum ESG Impact Ratings requirement was monitored as part of the guideline monitoring process and there were no advertent breaches of this criteria. To the extent that an existing position did not meet the applicable criteria determined by the Investment Manager, the Investment Manager would have taken such action as described in the Investment Manager's ESG Policy.

The Investment Manager considers that 83% of the Product promoted Sustainability Characteristic 2a. 15% of the Product's assets were securities with an ESG Impact Rating between 20 and 35. The remaining 2% of the Product was allocated to assets in the #2 Other category, comprised of cash and hedging instruments. Therefore, Sustainability Characteristic 2a was considered attained for the Reference Period (on the basis that no expected minimum proportion of the Product's assets that would promote Sustainability Characteristic 2a was set).

• **Sustainability Characteristic 2b:**

In order to measure the Product's promotion of Sustainability Characteristic 2b, the Product achieved a weighted-average ESG Impact Rating of the portfolio that is higher than the weighted-average ESG Impact Rating of the Benchmark.

The Sustainability Indicator for Sustainability Characteristic 2b is the weighted-average ESG Impact Rating of the portfolio.

Sustainability Characteristic 2b will be considered attained if the weighted-average ESG Impact Rating of the portfolio is greater than the weighted-average ESG Impact Rating of the Benchmark.

For the Reference Period, the weighted-average ESG Impact Rating of the portfolio and the Benchmark were monitored as part of the guideline monitoring process and the portfolio's weighted-average ESG Impact Rating did not fall below that of the Benchmark during the Reference Period. Therefore, Sustainability Characteristic 2b was considered attained for the Reference Period.

• **Sustainability Characteristic 3:**

In order to measure the Product's promotion of Sustainability Characteristic 3, the Product achieved a weighted-average Scope 1 and Scope 2 emissions intensity of the portfolio that is lower than the weighted-average Scope 1 and Scope 2 emissions intensity of the Benchmark.

The Sustainability Indicator for Sustainability Characteristic 3 is the weighted-average Scope 1 and Scope 2 emissions intensity of the portfolio.

Sustainability Characteristic 3 will be considered attained if the weighted average Scope 1 and Scope 2 emissions intensity is lower than the weighted-average Scope 1 and Scope 2 emissions intensity of the Benchmark.

For the Reference Period, the weighted-average Scope 1 and Scope 2 emissions intensity of the portfolio and the Benchmark were monitored as part of the guideline monitoring process. The portfolio's weighted-average Scope 1 and Scope 2 emissions intensity was below that of the Benchmark during the Reference Period. Therefore, Sustainability Characteristic 3 was considered attained for the Reference Period.

...and compared to previous periods?

Not applicable, this is the first period in which the Product is required to make disclosures regarding the performance of the sustainability indicators.

What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

Not applicable.

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

Not applicable.

How were the indicators for adverse impacts on sustainability factors taken into account?

Not applicable.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Not applicable.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The Product's consideration of principal adverse impacts was generally achieved through the assignment of ESG Impact Ratings, which requires assessing investments against negative and positive ESG impacts relevant to the industry and/or issuer. This ESG impact assessment is distinct from the assessment of Sustainability Risk i.e. the risk that ESG events could affect the financial/economic value of its clients' investments. In addition, issuers involved in specific activities deemed to have particularly negative impacts were excluded from the Product's investible universe.

What were the top investments of this financial product?

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is: as at June 2023

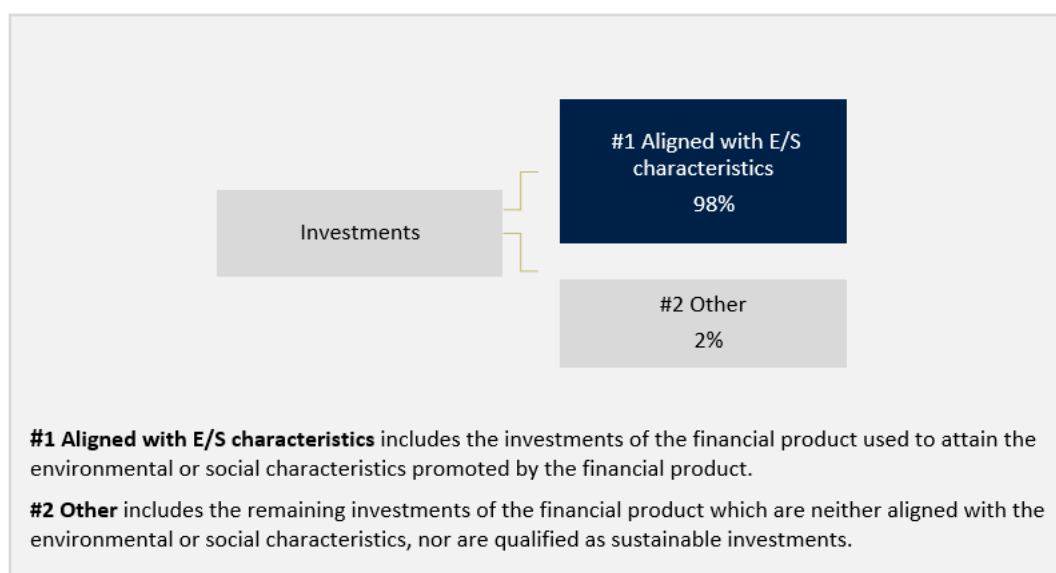

Portfolio Exposure as of 30.06.23. It does not represent an average for the reporting period and is not representative of the Portfolio Exposure at any other day of the financial year.

What was the proportion of sustainability-related investments?

What was the asset allocation?

Asset allocation describes the share of investments in specific assets.

#1 Aligned with E/S characteristics – 98%

98% of the Product's assets were in investments which, in addition to seeking to attain the broader economic objectives and investment strategy of the Product, were aligned with one or more of the E/S characteristics of the Product (the "E/S Alignment Contribution"). This E/S Alignment Contribution was calculated as follows:

1) for each quarter end during the Reference Period, calculating the percentage of the market value of all assets of the Product (including derivatives and cash) which was comprised of assets promoting one or more of the Sustainability Characteristics; and then

2) calculating the average of the quarter-end percentages.

In the first step of this E/S Alignment Contribution calculation, the numerator was the market value of the underlying E/S aligned investments of the Product, and the denominator was the market value of all the underlying assets of the Product.

However, as the Product promoted a number of different Sustainability Characteristics during the Reference Period, it is not the case that all investments comprising the E/S Alignment Contribution promoted all of the different Sustainability Characteristics. A specific breakdown for each Sustainability Characteristic is outlined above under the heading "How did the sustainability indicators perform?"

#1A Sustainable: The Product did not make "sustainable investments", as defined under SFDR.

#1B Other E/S characteristics: All of the category #1 investments were aligned with the environmental or social characteristics promoted by the Product.

#2 Other – 2%

2% of the Product's assets were in investments which fell within the sub-category "#2 Other". Within the sub-category "#2 Other", the Product's assets were made up of: derivatives (for efficient portfolio management and hedging) and cash held for ancillary liquidity or defensive market positioning, neither of which were used to attain the Sustainability Characteristics.

In which economic sectors were the investments made?

Sector	% Assets

Non-US Govt Related	0.11%
High Yield	78.42%
Bank Loan	2.55%
Emerging Markets	2.29%
Cash & Equivalents	2.30%

Portfolio Exposure as of 30.06.23. It does not represent an average for the reporting period and is not representative of the Portfolio Exposure at any other day of the financial year.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The Product does not currently commit to invest in any Sustainable Investments within the meaning of the SFDR, accordingly the minimum share of EU Taxonomy-aligned investments is 0%.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

Yes:

In fossil gas

In nuclear energy

No:

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Taxonomy-aligned activities are expressed as a share of:

- turnover reflecting the share of revenue from green activities of investee companies.
- capital expenditure (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- operational expenditure (OpEx) reflecting green operational activities of investee companies.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

What was the share of investments made in transitional and enabling activities?

Not applicable.

How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

Not applicable.

are sustainable investments with an environmental objective that do not take into account the criteria for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

Not applicable.

What was the share of socially sustainable investments?

Not applicable.

What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

Within the sub-category "#2 Other", 2% of the Product's assets were made up of derivatives (for efficient portfolio management and hedging) and cash held for ancillary liquidity or defensive market positioning.

No minimum environmental or social safeguards were applied to the 2% of assets made up of derivatives and cash.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Product utilised the application of the Exclusion List, the Investment Manager's ESG Impact Ratings, and issuers' Scope 1 and Scope 2 emissions intensity to meet the Sustainability Characteristics outlined above. While the Investment Manager does engage with issuers, the Product does not seek to use engagement as a primary strategy for

attaining the Sustainability Characteristics it promotes.

How did this financial product perform compared to the reference benchmark?

Not applicable.

How does the reference benchmark differ from a broad market index?

Not applicable.

How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

Not applicable.

How did this financial product perform compared with the reference benchmark?

Not applicable.

How did this financial product perform compared with the broad market index?

Not applicable.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

Product name:
PGIM Emerging Market Corporate ESG Bond Fund

Legal entity identifier:
549300K20HI6CZEBV197

Environmental and/or social characteristics

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Did this financial product have a sustainable investment objective?	
<input type="checkbox"/> Yes	<input checked="" type="checkbox"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective: ___% <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> It made sustainable investments with a social objective: ___%	<input type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with a social objective <input checked="" type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The Fund (defined in these periodic disclosures as the "Product") promoted three primary environmental and social characteristics (each a "Sustainability Characteristic" and together the "Sustainability Characteristics") during the period 01 July 2022 – 30 June 2023 ("Reference Period") as set out below:

- 1) The Product promoted the avoidance of certain ESG related activities and/or controversies that were deemed harmful ("Sustainability Characteristic 1").
- 2) The Product:
 - a. promoted the reduction of investment in issuers that the Investment Manager has determined either (i) have severe net negative impacts on the environment/society and/or (ii) have material negative impacts on the environment/society that are not, in the Investment Manager's view, being credibly addressed ("Sustainability Characteristic 2a") and
 - b. promoted increased investment in issuers within the investable universe that the Investment Manager determines have more positive impacts on the environment and/or society ("Sustainability Characteristic 2b").
- 3) The Product:
 - a. promoted the avoidance of issuers that the Investment Manager deems to be among the most Greenhouse Gas (GHG) emission intensive (incl. Scope 1 and Scope 2 emissions) ("Sustainability Characteristic 3a") and
 - b. promoted increased investment in issuers within the investable universe that have lower carbon intensity (measured by Scope 1 and Scope 2 metric tonnes of carbon dioxide equivalent emissions per million USD in sales) ("Sustainability Characteristic 3b")

The extent to which each Sustainability Characteristic was attained is discussed in more detail under the next question, "How did the sustainability indicators perform?".

How did the sustainability indicators perform?

- **Sustainability Characteristic 1:**
In order to measure the Product's promotion of Sustainability Characteristic 1, the Product excluded issuers:

- that violate the UN Global Compact Principles
- that are involved in the production, sale and/or distribution of nuclear or other controversial weapons (including landmines, cluster weapons, depleted uranium, white phosphorous, incendiary weapons and biological/chemical weapons)
- deriving at least 50% of revenues from gambling activities
- deriving at least 20% of revenues from thermal coal generation
- deriving at least 10% of revenues from thermal coal extraction
- that are conventional weapon manufacturers and/or service providers (companies that provide services for civilian firearms and/or military equipment, including maintenance, repair, testing, transport and similar activities) deriving at least 10% of revenues from such activities
- deriving at least 10% of revenues from arctic oil & gas extraction
- deriving at least 10% of revenues from oil sands extraction and processing (oil sands processing includes activities such as upgrading and refining)
- that are tobacco manufacturers deriving at least 5% of revenues from such activities.

A list containing the issuers to be excluded was maintained by the Investment Manager (“Exclusion List”) in reliance on an external screening agent or agents.

Green Bonds that the Investment Manager determined to have at least a medium impact (i.e. at least 15 points higher) versus the issuer’s conventional bonds and whose PGIM Fixed Income ESG Impact Rating (“ESG Impact Rating”) of that specific issuance is above 40, were exempt from the environmental binding restrictions (i.e. surpass the revenue thresholds for thermal coal generation, thermal coal extraction, arctic oil & gas extraction, oil sands extraction and processing, and Scope 1 and Scope 2 emissions intensity of more than 3,000 tCO₂e per million USD sales). However, if they violated any of the non-environmental restrictions, they were not exempt from this Exclusion List.

The Sustainability Indicator for Sustainability Characteristic 1 is whether or not the issuer is on the Exclusion List. Investments that are not on the Exclusion List will be considered to have attained Sustainability Characteristic 1.

For the Reference Period, the Exclusion List process was followed and there were no advertent breaches of this process to report. To the extent that an existing position may have been subsequently added to the Exclusion List, such security would have been disposed of in accordance with PGIM Fixed Income’s UCITS ESG Policy Statement (the “Investment Manager’s ESG Policy”).

The Investment Manager considers that 96% of the Product promoted Sustainability Characteristic 1. The remaining 4% of the Product was allocated to assets in the #2 Other category (primarily cash and hedging instruments – see the section on asset allocation below for more details). Therefore, Sustainability Characteristic 1 was considered attained for the Reference Period (on the basis that 65% was the expected minimum proportion of the Product’s assets that would promote Sustainability Characteristic 1).

• **Sustainability Characteristic 2a:**

In order to measure the Product’s promotion of Sustainability Characteristic 2a, the Product excluded issuers with an ESG Impact Rating of under 20.

The Sustainability Indicator for Sustainability Characteristic 2a is an investment’s ESG Impact Rating. Investments that have an ESG Impact Rating of 40 or above will be considered to have attained Sustainability Characteristic 2a.

For the Reference Period, the minimum ESG Impact Ratings requirement was monitored as part of the guideline monitoring process and there were no advertent breaches of this criteria. To the extent that an existing position did not meet the applicable criteria determined by the Investment Manager, the Investment Manager would have taken such action as described in the Investment Manager’s ESG Policy.

The Investment Manager considers that 77% of the Product promoted Sustainability Characteristic 2a. 19% of the Product’s assets were securities with an ESG Impact Rating between 20 and 35. The remaining 4% of the Product was allocated to assets in the #2 Other category, comprised of cash and hedging instruments. Therefore, Sustainability Characteristic 2a was considered attained for the Reference Period (on the basis that no expected minimum proportion of the Product’s assets that would promote Sustainability Characteristic 2a was set).

• **Sustainability Characteristic 2b:**

In order to measure the Product’s promotion of Sustainability Characteristic 2b, the Product achieved a weighted-average ESG Impact Rating of the portfolio that is higher than the weighted-average ESG Impact Rating of the Benchmark.

The Sustainability Indicator for Sustainability Characteristic 2b is the weighted-average ESG Impact Rating of the portfolio.

Sustainability Characteristic 2b will be considered attained if the weighted-average ESG Impact Rating of the portfolio is greater than the weighted-average ESG Impact Rating of the Benchmark.

For the Reference Period, the weighted-average ESG Impact Rating of the portfolio and the Benchmark were monitored as part of the guideline monitoring process and the portfolio's weighted-average ESG Impact Rating did not fall below that of the Benchmark during the Reference Period. Therefore, Sustainability Characteristic 2b was considered attained for the Reference Period.

• **Sustainability Characteristic 3a:**

In order to measure the Product's promotion of Sustainability Characteristic 3a, the Product excluded issuers who have a Scope 1 and Scope 2 emissions intensity of more than 3,000 tCO₂e per million USD sales.

The Sustainability Indicator for Sustainability Characteristic 3a is an investment's Scope 1 and Scope 2 emissions intensity of sales.

Investments that have a Scope 1 and Scope 2 emissions intensity of sales of no more than 3,000 tCO₂e per million USD sales will be considered to have attained Sustainability Characteristic 3a.

For the Reference Period, investments' Scope 1 and Scope 2 emissions intensity of sales was monitored as part of the guideline monitoring process, and there were no advertant breaches of this process to report. To the extent that an existing position may have had a Scope 1 and Scope 2 emissions intensity of more than 3,000 tCO₂e per million USD sales, the Investment Manager would have taken such action as described in the Investment Manager's ESG Policy.

The Investment Manager considers that 96% of the Product promoted Sustainability Characteristic 3a. The remaining 4% of the Product was allocated to assets in the #2 Other category (primarily cash and hedging instruments – see the section on asset allocation below for more details). Therefore, Sustainability Characteristic 3a was considered attained for the Reference Period (on the basis that 65% was the expected minimum proportion of the Product's assets that would promote Sustainability Characteristic 3a).

• **Sustainability Characteristic 3b:**

In order to measure the Product's promotion of Sustainability Characteristic 3b, the Product achieved a weighted-average Scope 1 and Scope 2 emissions intensity of the portfolio that is 33% lower than the weighted-average Scope 1 and Scope 2 emissions intensity of the Benchmark.

The Sustainability Indicator for Sustainability Characteristic 3b is the weighted-average Scope 1 and Scope 2 emissions intensity of the portfolio.

Sustainability Characteristic 3b will be considered attained if the weighted-average Scope 1 and Scope 2 emissions intensity is 33% lower than the weighted-average Scope 1 and Scope 2 emissions intensity of the Benchmark. For the Reference Period, the weighted-average Scope 1 and Scope 2 emissions intensity of the portfolio and the Benchmark were monitored as part of the guideline monitoring process. The portfolio's weighted-average Scope 1 and Scope 2 emissions intensity was at least 33% below that of the Benchmark during the Reference Period. Therefore, Sustainability Characteristic 3b was considered attained for the Reference Period.

...and compared to previous periods?

Not applicable, this is the first period in which the Product is required to make disclosures regarding the performance of the sustainability indicators.

What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

Not applicable.

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

Not applicable.

How were the indicators for adverse impacts on sustainability factors taken into account?

Not applicable.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Not applicable.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The Product's consideration of principal adverse impacts was generally achieved through the assignment of ESG Impact Ratings, which requires assessing investments against negative and positive ESG impacts relevant to the industry and/or issuer. This ESG impact assessment is distinct from the assessment of Sustainability Risk i.e. the risk that ESG events could affect the financial/economic value of its clients' investments. In addition, issuers involved in specific activities deemed to have particularly negative impacts were excluded from the Product's investible universe.

What were the top investments of this financial product?

Largest investments	Sector	% Assets	Country
Bank Hapoalim BM	Corporates	1.35%	Israel
Power Finance Corp Ltd	Corporates	1.19%	India
Woori Bank	Corporates	1.13%	Korea
Republic of South Africa Government International Bond	Sovereign	1.13%	South Africa
HDFC Bank Ltd	Corporates	1.13%	India
HPCL-Mittal Energy Ltd	Corporates	0.96%	India
Banco do Brasil SA	Corporates	0.93%	Brazil

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is: as at June 2023

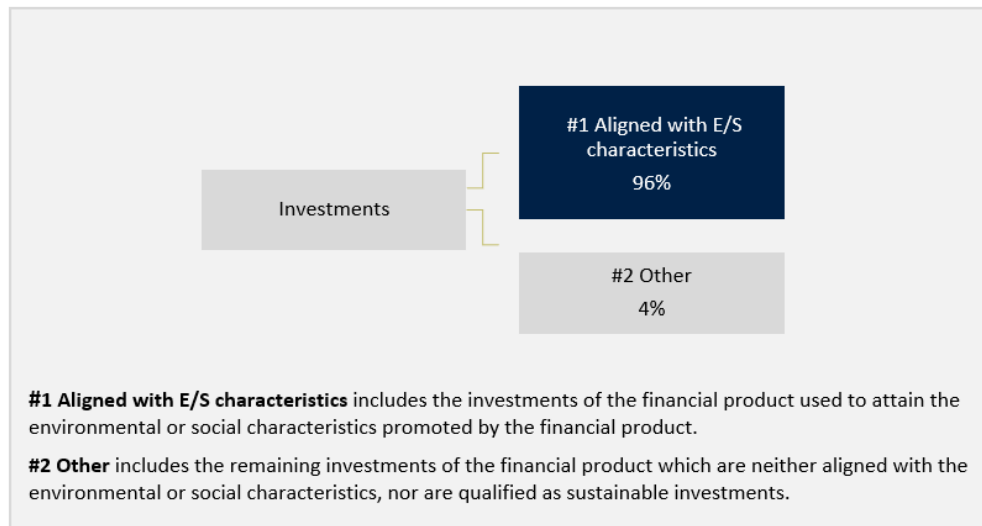

Portfolio Exposure as of 31.06.23. It does not represent an average for the reporting period and is not representative of the Portfolio Exposure at any other day of the financial year.

What was the proportion of sustainability-related investments?

What was the asset allocation?

Asset allocation describes the share of investments in specific assets.

#1 Aligned with E/S characteristics – 96%

96% of the Product's assets were in investments which, in addition to seeking to attain the broader economic objectives and investment strategy of the Product, were aligned with one or more of the E/S characteristics of the Product (the "E/S Alignment Contribution"). This E/S Alignment Contribution was calculated as follows:

1) for each quarter end during the Reference Period, calculating the percentage of the market value of all assets of the Product (including derivatives and cash) which was comprised of assets promoting one or more of the Sustainability Characteristics; and then

2) calculating the average of the quarter-end percentages.

In the first step of this E/S Alignment Contribution calculation, the numerator was the market value of the underlying E/S aligned investments of the Product, and the denominator was the market value of all the underlying assets of the Product.

However, as the Product promoted a number of different Sustainability Characteristics during the Reference Period, it is not the case that all investments comprising the E/S Alignment Contribution promoted all of the different Sustainability Characteristics. A specific breakdown for each Sustainability Characteristic is outlined above under the heading "How did the sustainability indicators perform?"

#1A Sustainable: The Product did not make "sustainable investments", as defined under SFDR.

#1B Other E/S characteristics: All of the category #1 investments were aligned with the environmental or social characteristics promoted by the Product.

#2 Other – 4%

4% of the Product's assets were in investments which fell within the sub-category "#2 Other". Within the sub-category "#2 Other", the Product's assets were made up of derivatives (for efficient portfolio management and hedging) and cash held for ancillary liquidity or defensive market positioning, neither of which were used to attain the Sustainability Characteristics.

In which economic sectors were the investments made?

Sector	% Assets
Sovereign	11.70%
Quasi-Sovereign	26.51%
Corporates	58.21%
Cash & Equivalents	3.58%

Portfolio Exposure as of 31.06.23. It does not represent an average for the reporting period and is not representative of the Portfolio Exposure at any other day of the financial year.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The Product does not currently commit to invest in any Sustainable Investments within the meaning of the SFDR, accordingly the minimum share of EU Taxonomy-aligned investments is 0%.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

Yes:

In fossil gas

In nuclear energy

No:

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- turnover reflecting the share of revenue from green activities of investee companies.
- capital expenditure (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- operational expenditure (OpEx) reflecting green operational activities of investee companies.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure (CapEx)** showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure (OpEx)** reflecting green operational activities of investee companies.

Taxonomy-aligned activities are expressed as a share of:

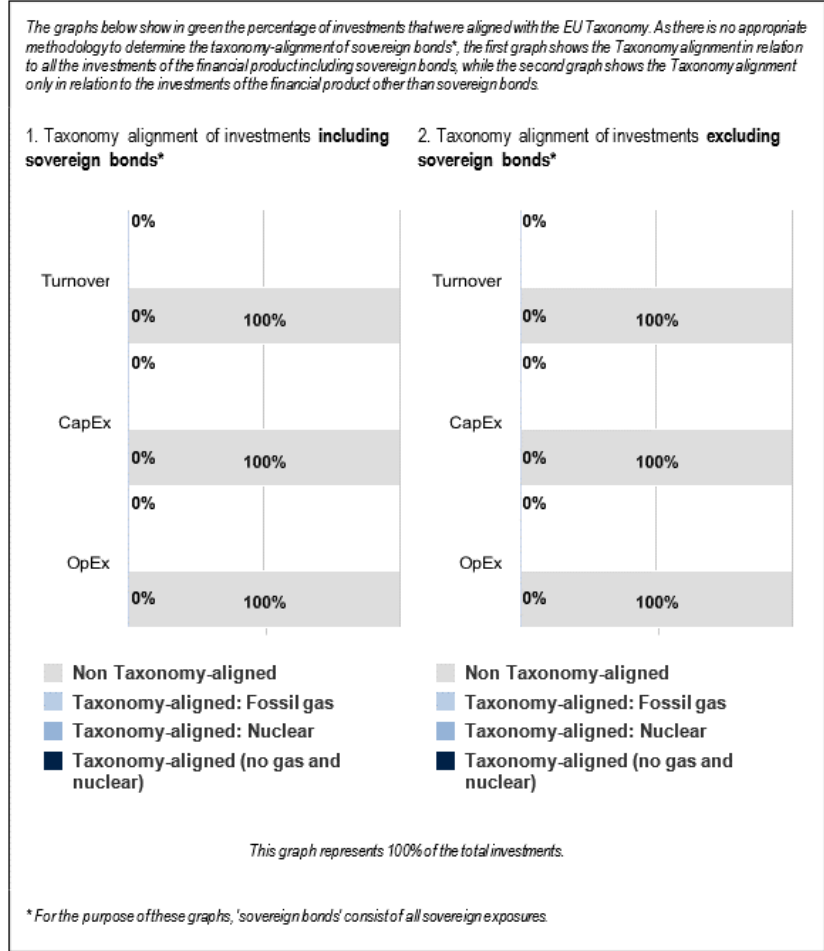

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure (CapEx)** showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure (OpEx)** reflecting green operational activities of investee companies.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure (CapEx)** showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure (OpEx)** reflecting green operational activities of investee companies.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure (CapEx)** showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure (OpEx)** reflecting green operational activities of investee companies.

What was the share of investments made in transitional and enabling activities?

Not applicable.

How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

Not applicable.

are sustainable investments with an environmental objective **that do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

Not applicable.

What was the share of socially sustainable investments?

Not applicable.

What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

Within the sub-category "#2 Other", 4% of the Product's assets were made up of derivatives (for efficient portfolio management and hedging), cash held for ancillary liquidity or defensive market positioning.

No minimum environmental or social safeguards were applied to the 4% of assets made up of derivatives and cash.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Product utilised the application of the Exclusion List, the Investment Manager's ESG Impact Ratings, and issuers' Scope 1 and Scope 2 emissions intensity to meet the Sustainability Characteristics outlined above. While the Investment Manager does engage with issuers, the Product does not seek to use engagement as a primary strategy for attaining the Sustainability Characteristics it promotes.

How did this financial product perform compared to the reference benchmark?

Not applicable.

How does the reference benchmark differ from a broad market index?

Not applicable.

How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

Not applicable.

How did this financial product perform compared with the reference benchmark?

Not applicable.

How did this financial product perform compared with the broad market index?

Not applicable.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

Product name:
PGIM Emerging Market Local Currency Debt Fund

Legal entity identifier:
5493004WQDZCF89KSC33

Environmental and/or social characteristics

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Did this financial product have a sustainable investment objective?

Yes

No

It made **sustainable investments with an environmental objective:** ___%

in economic activities that qualify as environmentally sustainable under the EU Taxonomy

in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

It made **sustainable investments with a social objective:** ___%

It promoted **Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments

with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy

with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

with a social objective

It promoted E/S characteristics, but **did not make any sustainable investments**

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The Fund (defined in these periodic disclosures as the "Product") promoted two primary environmental and social characteristics (each a "Sustainability Characteristic" and together the "Sustainability Characteristics") during the period 12 June 2023 – 30 June 2023 ("Reference Period") as set out below:

- 1) The Product promoted the avoidance of certain ESG related activities and/or controversies that were deemed harmful ("Sustainability Characteristic 1").
- 2) The Product promoted increased investment in issuers within the investable universe that the Investment Manager determines have more positive impacts on the environment and/or society ("Sustainability Characteristic 2").

The extent to which each Sustainability Characteristic was attained is discussed in more detail under the next question, "How did the sustainability indicators perform?".

How did the sustainability indicators perform?

• Sustainability Characteristic 1:

In order to measure the Product's promotion of Sustainability Characteristic 1, the Product excluded issuers:

- that violate the UN Global Compact Principles
- that are involved in the production, sale and/or distribution of nuclear or other controversial weapons (including landmines, cluster weapons, depleted uranium, white phosphorous, incendiary weapons and biological/chemical weapons)
- deriving at least 20% of revenues from thermal coal generation
- deriving at least 10% of revenues from thermal coal extraction
- that are conventional weapon manufacturers and/or service providers (companies that provide services for civilian firearms and/or military equipment, including maintenance, repair, testing, transport and similar activities) deriving at least 10% of revenues from such activities
- that are tobacco manufacturers deriving at least 5% of revenues from such activities.
- that have a PGIM Fixed Income ESG Impact Rating ("ESG Impact Rating") of less than 10

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

A list containing the issuers to be excluded was maintained by the Investment Manager ("Exclusion List") in reliance on an external screening agent or agents.

The Sustainability Indicator for Sustainability Characteristic 1 is whether or not the issuer is on the Exclusion List. Investments that are not on the Exclusion List will be considered to have attained Sustainability Characteristic 1.

For the Reference Period, the Exclusion List process was followed and there were no advertent breaches of this process to report. To the extent that an existing position may have been subsequently added to the Exclusion List, such security would have been disposed of in accordance with PGIM Fixed Income's UCITS ESG Policy Statement (the "Investment Manager's ESG Policy").

The Investment Manager considers that 86% of the Product promoted Sustainability Characteristic 1. The remaining 14% of the Product was allocated to assets in the #2 Other category (primarily cash and hedging instruments – see the section on asset allocation below for more details). Therefore, Sustainability Characteristic 1 was considered attained for the Reference Period (on the basis that 65% was the expected minimum proportion of the Product's assets that would promote Sustainability Characteristic 1).

• **Sustainability Characteristic 2:**

In order to measure the Product's promotion of Sustainability Characteristic 2, the Product achieved a weighted-average ESG Impact Rating of the portfolio that is higher than the weighted-average ESG Impact Rating of the Benchmark.

The Sustainability Indicator for Sustainability Characteristic 2 is the weighted-average ESG Impact Rating of the portfolio. Sustainability Characteristic 2 will be considered attained if the weighted-average ESG Impact Rating of the portfolio is greater than the weighted-average ESG Impact Rating of the Benchmark.

For the Reference Period, the weighted-average ESG Impact Rating of the portfolio and the Benchmark were monitored as part of the guideline monitoring process and the portfolio's weighted-average ESG Impact Rating did not fall below that of the Benchmark during the Reference Period. Therefore, Sustainability Characteristic 2 was considered attained for the Reference Period.

...and compared to previous periods?

Not applicable, this is the first period in which the Product is required to make disclosures regarding the performance of the sustainability indicators.

What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

Not applicable.

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

Not applicable.

How were the indicators for adverse impacts on sustainability factors taken into account?

Not applicable.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Not applicable.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The Product's consideration of principal adverse impacts was generally achieved through the assignment of ESG Impact Ratings, which requires assessing investments against negative and positive ESG impacts relevant to the industry and/or issuer. This ESG impact assessment is distinct from the assessment of Sustainability Risk i.e. the risk that ESG events could affect the financial/economic value of its clients' investments. In addition, issuers involved in specific activities deemed to have particularly negative impacts were excluded from the Product's investible universe.

What were the top investments of this financial product?

Largest investments	Sector	% Assets	Country

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is: as at June 2023

Portfolio Exposure as of 30.06.23. It does not represent an average for the reporting period and is not representative of the Portfolio Exposure at any other day of the financial year.

What was the proportion of sustainability-related investments?

What was the asset allocation?

Asset allocation describes the share of investments in specific assets.

#1 Aligned with E/S characteristics –86%

86% of the Product's assets were in investments which, in addition to seeking to attain the broader economic objectives and investment strategy of the Product, were aligned with one or more of the E/S characteristics of the Product (the "E/S Alignment Contribution"). This E/S Alignment Contribution was calculated as follows:

- 1) for each quarter end during the Reference Period, calculating the percentage of the market value of all assets of the Product (including derivatives and cash) which was comprised of assets promoting one or more of the Sustainability Characteristics; and then
- 2) calculating the average of the quarter-end percentages.

In the first step of this E/S Alignment Contribution calculation, the numerator was the market value of the underlying E/S aligned investments of the Product, and the denominator was the market value of all the underlying assets of the Product.

#1A Sustainable: The Product did not make "sustainable investments", as defined under SFDR.

#1B Other E/S characteristics: All of the category #1 investments were aligned with the environmental or social characteristics promoted by the Product.

#2 Other – 14%

14% of the Product's assets were in investments which fell within the sub-category "#2 Other". Within the sub-category "#2 Other", the Product's assets were made up of derivatives (for efficient portfolio management and hedging) and cash held for ancillary liquidity or defensive market positioning.

In which economic sectors were the investments made?

Sector	% Assets
Sovereign	82.50%
Quasi-Sovereign	0.26%
Cash & Equivalents	17.23%

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Portfolio Exposure as of 30.06.23. It does not represent an average for the reporting period and is not representative of the Portfolio Exposure at any other day of the financial year.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The Product does not currently commit to invest in any Sustainable Investments within the meaning of the SFDR, accordingly the minimum share of EU Taxonomy-aligned investments is 0%.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

Yes:

In fossil gas

In nuclear energy

No:

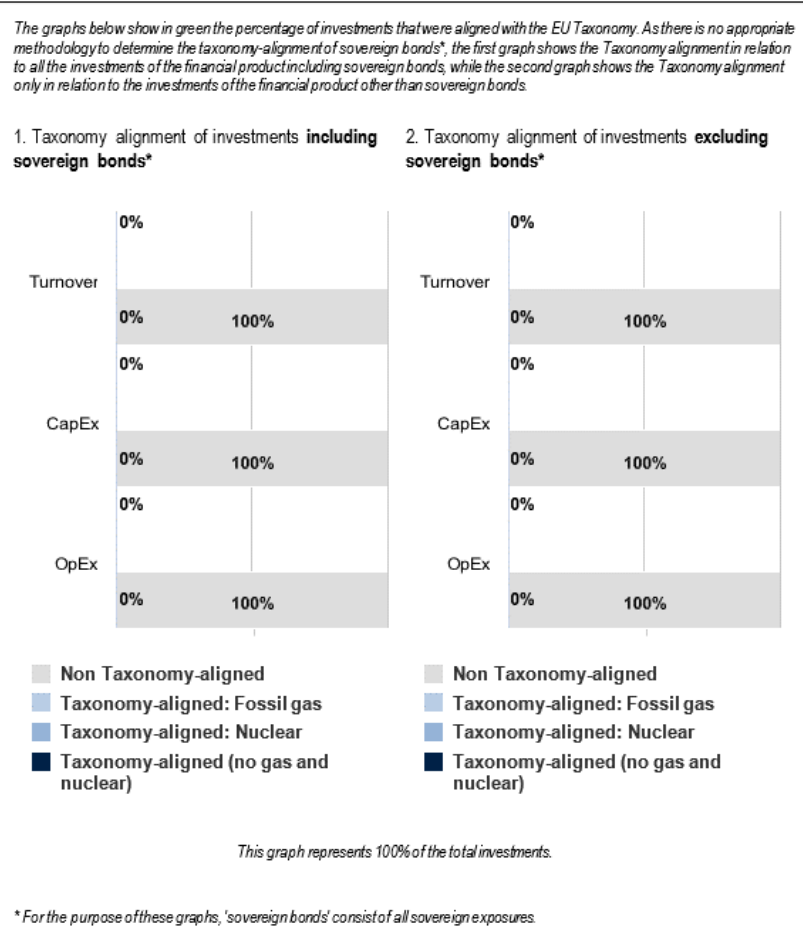

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Taxonomy-aligned activities are expressed as a share of:

- turnover reflecting the share of revenue from green activities of investee companies.
- capital expenditure (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- operational expenditure (OpEx) reflecting green operational activities of investee companies.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

What was the share of investments made in transitional and enabling activities?

Not applicable.

How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

Not applicable.

are sustainable investments with an environmental objective **that do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

Not applicable.

What was the share of socially sustainable investments?

Not applicable.

What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

Within the sub-category "#2 Other", 14% of the Product's assets were made up of derivatives (for efficient portfolio management and hedging) and cash held for ancillary liquidity.

No minimum environmental or social safeguards were applied to the 14% of assets made up of derivatives and cash.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Product utilised the application of the Exclusion List, the Investment Manager's ESG Impact Ratings, and issuers'

Scope 1 and Scope 2 emissions intensity to meet the Sustainability Characteristics outlined above. While the Investment Manager does engage with issuers, the Product does not seek to use engagement as a primary strategy for attaining the Sustainability Characteristics it promotes.

How did this financial product perform compared to the reference benchmark?

Not applicable.

How does the reference benchmark differ from a broad market index?

Not applicable.

How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

Not applicable.

How did this financial product perform compared with the reference benchmark?

Not applicable.

How did this financial product perform compared with the broad market index?

Not applicable.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

Product name:
PGIM Emerging Market Total Return Bond Fund

Legal entity identifier:
549300723DTR2MQVL670

Environmental and/or social characteristics

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Did this financial product have a sustainable investment objective?	
<input type="checkbox"/> Yes	<input checked="" type="checkbox"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective: ___% <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> It made sustainable investments with a social objective: ___%	<input type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with a social objective <input checked="" type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The Fund (defined in these periodic disclosures as the “Product”) promoted three primary environmental and social characteristics (each a “Sustainability Characteristic” and together the “Sustainability Characteristics”) during the period 12 June 2023 – 30 June 2023 (“Reference Period”) as set out below:

- 1) The Product promoted the avoidance of certain ESG related activities and/or controversies that were deemed harmful (“Sustainability Characteristic 1”).
- 2) The Product promoted increased investment in issuers within the investable universe that the Investment Manager determines have more positive impacts on the environment and/or society (“Sustainability Characteristic 2”).
- 3) The Product promoted increased investment in issuers within the investable universe that have lower carbon intensity (measured by Scope 1 and Scope 2 metric tonnes of carbon dioxide equivalent emissions per million USD in sales) (“Sustainability Characteristic 3”).

The extent to which each Sustainability Characteristic was attained is discussed in more detail under the next question, “How did the sustainability indicators perform?”.

How did the sustainability indicators perform?

- **Sustainability Characteristic 1:**
In order to measure the Product’s promotion of Sustainability Characteristic 1, the Product excluded issuers:
 - that violate the UN Global Compact Principles
 - that are involved in the production, sale and/or distribution of nuclear or other controversial weapons (including landmines, cluster weapons, depleted uranium, white phosphorous, incendiary weapons and biological/chemical weapons)
 - deriving at least 20% of revenues from thermal coal generation
 - deriving at least 10% of revenues from thermal coal extraction
 - that are conventional weapon manufacturers and/or service providers (companies that provide services for civilian firearms and/or military equipment, including maintenance, repair, testing, transport and similar activities) deriving at least 10% of revenues from such activities

- that are tobacco manufacturers deriving at least 5% of revenues from such activities.
- that have a PGIM Fixed Income ESG Impact Rating ("ESG Impact Rating") of less than 10

A list containing the issuers to be excluded was maintained by the Investment Manager ("Exclusion List") in reliance on an external screening agent or agents.

The Sustainability Indicator for Sustainability Characteristic 1 is whether or not the issuer is on the Exclusion List. Investments that are not on the Exclusion List will be considered to have attained Sustainability Characteristic 1.

For the Reference Period, the Exclusion List process was followed and there were no advertent breaches of this process to report. To the extent that an existing position may have been subsequently added to the Exclusion List, such security would have been disposed of in accordance with PGIM Fixed Income's UCITS ESG Policy Statement (the "Investment Manager's ESG Policy").

The Investment Manager considers that 95% of the Product promoted Sustainability Characteristic 1. The remaining 5% of the Product was allocated to assets in the #2 Other category (primarily cash and hedging instruments – see the section on asset allocation below for more details). Therefore, Sustainability Characteristic 1 was considered attained for the Reference Period (on the basis that 65% was the expected minimum proportion of the Product's assets that would promote Sustainability Characteristic 1).

• **Sustainability Characteristic 2:**

In order to measure the Product's promotion of Sustainability Characteristic 2, the Product achieved a weighted-average ESG Impact Rating of the portfolio that is higher than the weighted-average ESG Impact Rating of a blended index composed of: 33.34% J.P. Morgan CEMBI Broad Diversified Index; 33.33% J.P. Morgan GBI-EM Global Diversified Index; and 33.33% J.P. Morgan EMBI Global Diversified Index (the "Relevant Index").

The Sustainability Indicator for Sustainability Characteristic 2 is the weighted-average ESG Impact Rating of the portfolio. Sustainability Characteristic 2 will be considered attained if the weighted-average ESG Impact Rating of the portfolio is greater than the weighted-average ESG Impact Rating the Relevant Index.

For the Reference Period, the weighted-average ESG Impact Rating of the portfolio and the Relevant Index were monitored as part of the guideline monitoring process and the portfolio's weighted-average ESG Impact Rating did not fall below that of the Relevant Index during the Reference Period. Therefore, Sustainability Characteristic 2 was considered attained for the Reference Period.

• **Sustainability Characteristic 3:**

In order to measure the Product's promotion of Sustainability Characteristic 3, the Product achieved a weighted-average Scope 1 and Scope 2 emissions intensity of the portfolio that is lower than the weighted-average Scope 1 and Scope 2 emissions intensity of the Relevant Index.

The Sustainability Indicator for Sustainability Characteristic 3 is the weighted-average Scope 1 and Scope 2 emissions intensity of the portfolio.

Sustainability Characteristic 3 will be considered attained if the weighted average Scope 1 and Scope 2 emissions intensity of the portfolio is lower than the weighted-average Scope 1 and Scope 2 emissions intensity of the Relevant Index.

For the Reference Period, the weighted-average Scope 1 and Scope 2 emissions intensity of the portfolio and the Relevant Index were monitored as part of the guideline monitoring process. The portfolio's weighted-average Scope 1 and Scope 2 emissions intensity was below that of the Relevant Index during the Reference Period. Therefore, Sustainability Characteristic 3 was considered attained for the Reference Period.

...and compared to previous periods?

Not applicable, this is the first period in which the Product is required to make disclosures regarding the performance of the sustainability indicators.

What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

Not applicable.

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

Not applicable.

How were the indicators for adverse impacts on sustainability factors taken into account?

Not applicable.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Not applicable.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The Product's consideration of principal adverse impacts was generally achieved through the assignment of ESG Impact Ratings, which requires assessing investments against negative and positive ESG impacts relevant to the industry and/or issuer. This ESG impact assessment is distinct from the assessment of Sustainability Risk i.e. the risk that ESG events could affect the financial/economic value of its clients' investments. In addition, issuers involved in specific activities deemed to have particularly negative impacts were excluded from the Product's investible universe..

What were the top investments of this financial product?

Largest investments	Sector	% Assets	Country
United States Treasury Note	US Government	7.28%	United States
United States Treasury Bill	US Government	3.69%	United States
Serbia International Bond Reg S	Emerging Markets	2.41%	Serbia
Philippine Government International Bond	Emerging Markets	2.38%	Philippines
Indonesia Government International Bond Reg S	Emerging Markets	2.26%	Indonesia
Mexico City Airport Trust	Emerging Markets	2.07%	Mexico
United States Treasury Bond	US Government	1.76%	United States

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is: as at June 2023

Portfolio Exposure as of 30.06.23. It does not represent an average for the reporting period and is not representative of the Portfolio Exposure at any other day of the financial year.

What was the proportion of sustainability-related investments?

What was the asset allocation?

Asset allocation describes the share of investments in specific assets.

#1 Aligned with E/S characteristics – 95%

95% of the Product's assets were in investments which, in addition to seeking to attain the broader economic objectives and investment strategy of the Product, were aligned with one or more of the E/S characteristics of the Product (the "E/S Alignment Contribution"). This E/S Alignment Contribution was calculated as follows:

- 1) for each quarter end during the Reference Period, calculating the percentage of the market value of all assets of the Product (including derivatives and cash) which was comprised of assets promoting one or more of the Sustainability Characteristics; and then
- 2) calculating the average of the quarter-end percentages.

In the first step of this E/S Alignment Contribution calculation, the numerator was the market value of the underlying E/S aligned investments of the Product, and the denominator was the market value of all the underlying assets of the Product.

#1A Sustainable: The Product did not make "sustainable investments", as defined under SFDR.

#1B Other E/S characteristics: All of the category #1 investments were aligned with the environmental or social characteristics promoted by the Product.

#2 Other – 5%

5% of the Product's assets were in investments which fell within the sub-category "#2 Other". Within the sub-category "#2 Other", the Product's assets were made up of derivatives (for efficient portfolio management and hedging) and cash held for ancillary liquidity or defensive market positioning.

In which economic sectors were the investments made?

Sector	% Assets
US Government	9.09%
Non-US Government	0.21%
IG Corporates	0.59%
High Yield	0.01%
Emerging Markets	86.59%
Swaps	-1.26%
Cash & Equivalents	4.76%

Portfolio Exposure as of 30.06.23. It does not represent an average for the reporting period and is not representative of the Portfolio Exposure at any other day of the financial year.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The Product does not currently commit to invest in any Sustainable Investments within the meaning of the SFDR, accordingly the minimum share of EU Taxonomy-aligned investments is 0%.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

Yes:

In fossil gas

In nuclear energy

No:

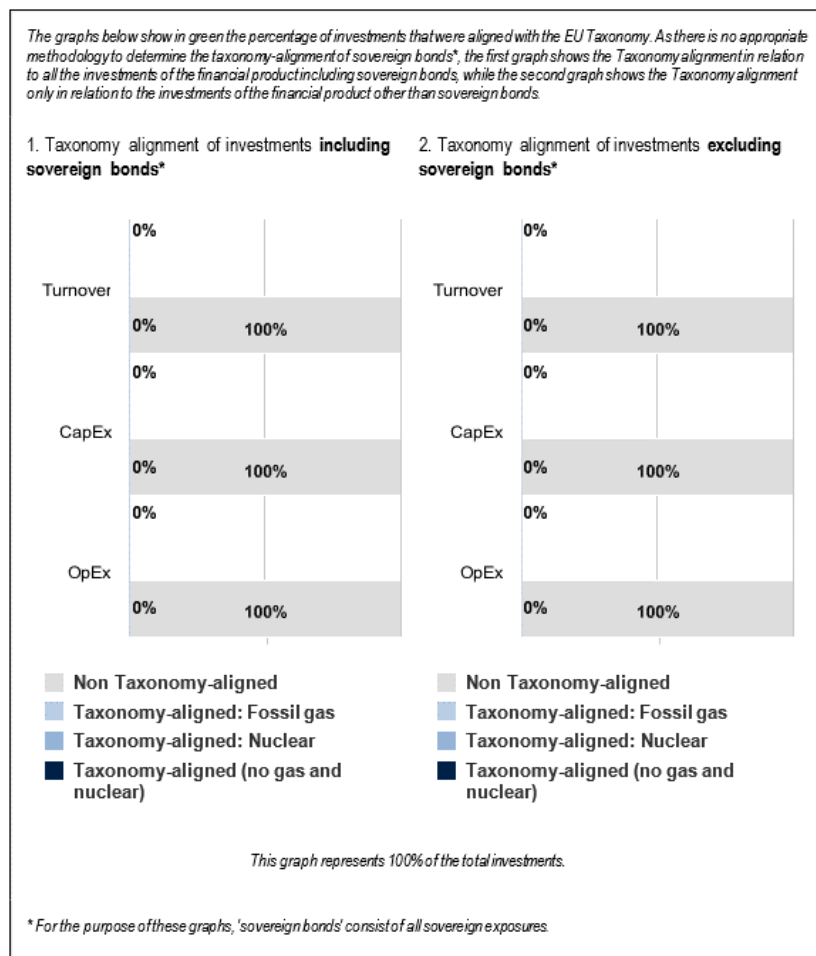

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Taxonomy-aligned activities are expressed as a share of:

- turnover reflecting the share of revenue from green activities of investee companies.
- capital expenditure (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- operational expenditure (OpEx) reflecting green operational activities of investee companies.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

What was the share of investments made in transitional and enabling activities?

Not applicable.

How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

Not applicable.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

Not applicable.

are sustainable investments with an environmental objective that do not take into account the criteria for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of socially sustainable investments?

Not applicable.

What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

Within the sub-category "#2 Other", 5% of the Product's assets were made up of derivatives (for efficient portfolio management and hedging) and cash held for ancillary liquidity.

No minimum environmental or social safeguards were applied to the 5% of assets made up of derivatives and cash.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Product utilised the application of the Exclusion List, the Investment Manager's ESG Impact Ratings, and issuers' Scope 1 and Scope 2 emissions intensity to meet the Sustainability Characteristics outlined above. While the Investment Manager does engage with issuers, the Product does not seek to use engagement as a primary strategy for attaining the Sustainability Characteristics it promotes.

How did this financial product perform compared to the reference benchmark?

Not applicable.

How does the reference benchmark differ from a broad market index?

Not applicable.

How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

Not applicable.

How did this financial product perform compared with the reference benchmark?

Not applicable.

How did this financial product perform compared with the broad market index?

Not applicable.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

Environmental and/or social characteristics

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Did this financial product have a sustainable investment objective?	
<input type="checkbox"/> Yes	<input checked="" type="checkbox"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective : ___% <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> It made sustainable investments with a social objective : ___%	<input type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with a social objective <input checked="" type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The Fund (defined in these periodic disclosures as the “Product”) promoted three primary environmental and social characteristics (each a “Sustainability Characteristic” and together the “Sustainability Characteristics”) during the period 01 July 2022 – 30 June 2023 (“Reference Period”) as set out below:

- 1) The Product promoted the avoidance of certain ESG related activities and/or controversies that were deemed harmful (“Sustainability Characteristic 1”).
- 2) The Product:
 - a. promoted the reduction of investment in issuers that the Investment Manager has determined either (i) have severe net negative impacts on the environment/society and/or (ii) have material negative impacts on the environment/society that are not, in the Investment Manager’s view, being credibly addressed (“Sustainability Characteristic 2a”) and
 - b. promoted increased investment in issuers within the investable universe that the Investment Manager determines have more positive impacts on the environment and/or society (“Sustainability Characteristic 2b”).
- 3) The Product:
 - a. promoted the avoidance of issuers that the Investment Manager deems to be among the most Greenhouse Gas (GHG) emission intensive (incl. Scope 1 and Scope 2 emissions) (“Sustainability Characteristic 3a”) and
 - b. promoted increased investment in issuers within the investable universe that have lower carbon intensity (measured by Scope 1 and Scope 2 metric tons of carbon dioxide equivalent emissions per million USD in sales) (“Sustainability Characteristic 3b”).

The extent to which each Sustainability Characteristic was attained is discussed in more detail under the next question, “How did the sustainability indicators perform?”.

How did the sustainability indicators perform?

- **Sustainability Characteristic 1:**
In order to measure the Product’s promotion of Sustainability Characteristic 1, the Product excluded issuers:

- that violate the UN Global Compact Principles
- that are involved in the production, sale and/or distribution of nuclear or other controversial weapons (including landmines, cluster weapons, depleted uranium, white phosphorous, incendiary weapons and biological/chemical weapons)
- deriving at least 50% of revenues from gambling activities
- deriving at least 20% of revenues from thermal coal generation
- deriving at least 10% of revenues from thermal coal extraction
- that are conventional weapon manufacturers and/or service providers (companies that provide services for civilian firearms and/or military equipment, including maintenance, repair, testing, transport and similar activities) deriving at least 10% of revenues from such activities
- deriving at least 10% of revenues from arctic oil & gas extraction
- deriving at least 10% of revenues from oil sands extraction and processing (oil sands processing includes activities such as upgrading and refining)
- that are tobacco manufacturers deriving at least 5% of revenues from such activities.

A list containing the issuers to be excluded was maintained by the Investment Manager (“Exclusion List”) in reliance on an external screening agent or agents.

Green Bonds that the Investment Manager determined to have at least a medium impact (i.e. at least 15 points higher) versus the issuer’s conventional bonds and whose PGIM Fixed Income ESG Impact Rating (“ESG Impact Rating”) of that specific issuance is above 40, were exempt from the environmental binding restrictions (i.e. surpass the revenue thresholds for thermal coal generation, thermal coal extraction, arctic oil & gas extraction, oil sands extraction and processing, and Scope 1 and Scope 2 emissions intensity of more than 3,000 tCO₂e per million USD sales). However, if they violated any of the non-environmental restrictions, they were not exempt from this Exclusion List.

The Sustainability Indicator for Sustainability Characteristic 1 is whether or not the issuer is on the Exclusion List. Investments that are not on the Exclusion List will be considered to have attained Sustainability Characteristic 1.

For the Reference Period, the Exclusion List process was followed and there were no advertent breaches of this process to report. To the extent that an existing position may have been subsequently added to the Exclusion List, such security would have been disposed of in accordance with PGIM Fixed Income’s UCITS ESG Policy Statement (the “Investment Manager’s ESG Policy”).

The Investment Manager considers that 97% of the Product promoted Sustainability Characteristic 1. The remaining 3% of the Product was allocated to assets in the #2 Other category (primarily cash and hedging instruments – see the section on asset allocation below for more details). Therefore, Sustainability Characteristic 1 was considered attained for the Reference Period (on the basis that 80% was the expected minimum proportion of the Product’s assets that would promote Sustainability Characteristic 1).

• **Sustainability Characteristic 2a:**

In order to measure the Product’s promotion of Sustainability Characteristic 2a, the Product excluded issuers with an ESG Impact Rating of under 20.

The Sustainability Indicator for Sustainability Characteristic 2a is an investment’s ESG Impact Rating. Investments that have an ESG Impact Rating of 40 or above will be considered to have attained Sustainability Characteristic 2a.

For the Reference Period, the minimum ESG Impact Ratings requirement was monitored as part of the guideline monitoring process and there were no advertent breaches of this criteria. To the extent that an existing position did not meet the applicable criteria determined by the Investment Manager, the Investment Manager would have taken such action as described in the Investment Manager’s ESG Policy.

The Investment Manager considers that 57% of the Product promoted Sustainability Characteristic 2a. 40% of the Product’s assets were securities with an ESG Impact Rating between 20 and 35. The remaining 3% of the Product was allocated to assets in the #2 Other category, comprised of cash and hedging instruments. Therefore, Sustainability Characteristic 2a was considered attained for the Reference Period (on the basis that no expected minimum proportion of the Product’s assets that would promote Sustainability Characteristic 2a was set).

• **Sustainability Characteristic 2b:**

In order to measure the Product’s promotion of Sustainability Characteristic 2b, the Product achieved a weighted-average ESG Impact Rating of the portfolio that is higher than the weighted-average ESG Impact Rating of the Benchmark.

The Sustainability Indicator for Sustainability Characteristic 2b is the weighted-average ESG Impact Rating of the portfolio.

Sustainability Characteristic 2b will be considered attained if the weighted-average ESG Impact Rating of the portfolio is greater than the weighted-average ESG Impact Rating of the Benchmark.

For the Reference Period, the weighted-average ESG Impact Rating of the portfolio and the Benchmark were monitored as part of the guideline monitoring process and the portfolio's weighted-average ESG Impact Rating did not fall below that of the Benchmark during the Reference Period. Therefore, Sustainability Characteristic 2b was considered attained for the Reference Period.

• **Sustainability Characteristic 3a:**

In order to measure the Product's promotion of Sustainability Characteristic 3a, the Product excluded issuers who have a Scope 1 and Scope 2 emissions intensity of more than 3,000 tCO₂e per million USD sales.

The Sustainability Indicator for Sustainability Characteristic 3a is an investment's Scope 1 and Scope 2 emissions intensity of sales.

Investments that have a Scope 1 and Scope 2 emissions intensity of sales of no more than 3,000 tCO₂e per million USD sales will be considered to have attained Sustainability Characteristic 3a.

For the Reference Period, investments' Scope 1 and Scope 2 emissions intensity of sales was monitored as part of the guideline monitoring process, and there were no advertant breaches of this process to report. To the extent that an existing position may have had a Scope 1 and Scope 2 emissions intensity of more than 3,000 tCO₂e per million USD sales, the Investment Manager would have taken such action as described in the Investment Manager's ESG Policy.

The Investment Manager considers that 97% of the Product promoted Sustainability Characteristic 3a. The remaining 3% of the Product was allocated to assets in the #2 Other category (primarily cash and hedging instruments – see the section on asset allocation below for more details). Therefore, Sustainability Characteristic 3a was considered attained for the Reference Period (on the basis that 80% was the expected minimum proportion of the Product's assets that would promote Sustainability Characteristic 3a).

• **Sustainability Characteristic 3b:**

In order to measure the Product's promotion of Sustainability Characteristic 3b, the Product achieved a weighted-average Scope 1 and Scope 2 emissions intensity of the portfolio that is 33% lower than the weighted-average Scope 1 and Scope 2 emissions intensity of the Benchmark.

The Sustainability Indicator for Sustainability Characteristic 3b is the weighted-average Scope 1 and Scope 2 emissions intensity of the portfolio.

Sustainability Characteristic 3b will be considered attained if the weighted-average Scope 1 and Scope 2 emissions intensity is 33% lower than the weighted-average Scope 1 and Scope 2 emissions intensity of the Benchmark.

For the Reference Period, the weighted-average Scope 1 and Scope 2 emissions intensity of the portfolio and the Benchmark were monitored as part of the guideline monitoring process. The portfolio's weighted-average Scope 1 and Scope 2 emissions intensity was at least 33% below that of the Benchmark during the Reference Period. Therefore, Sustainability Characteristic 3b was considered attained for the Reference Period.

...and compared to previous periods?

Not applicable, this is the first period in which the Product is required to make disclosures regarding the performance of the sustainability indicators.

What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

Not applicable.

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

Not applicable.

How were the indicators for adverse impacts on sustainability factors taken into account?

Not applicable.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Not applicable.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The Product's consideration of principal adverse impacts was generally achieved through the assignment of ESG Impact Ratings, which requires assessing investments against negative and positive ESG impacts relevant to the industry and/or issuer. This ESG impact assessment is distinct from the assessment of Sustainability Risk i.e. the risk that ESG events could affect the financial/economic value of its clients' investments. In addition, issuers involved in specific activities deemed to have particularly negative impacts were excluded from the Product's investible universe.

Portfolio Exposure as of 30.06.23. It does not represent an average for the reporting period and is not representative of the Portfolio Exposure at any other day of the financial year.

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is: as at June 2023

What was the proportion of sustainability-related investments?

What was the asset allocation?

Asset allocation describes the share of investments in specific assets.

#1 Aligned with E/S characteristics – 97%

97% of the Product's assets were in investments which, in addition to seeking to attain the broader economic objectives and investment strategy of the Product, were aligned with one or more of the E/S characteristics of the Product (the "E/S Alignment Contribution"). This E/S Alignment Contribution was calculated as follows:

- 1) for each quarter end during the Reference Period, calculating the percentage of the market value of all assets of the Product (including derivatives and cash) which was comprised of assets promoting one or more of the Sustainability Characteristics; and then
- 2) calculating the average of the quarter-end percentages.

In the first step of this E/S Alignment Contribution calculation, the numerator was the market value of the underlying E/S aligned investments of the Product, and the denominator was the market value of all the underlying assets of the Product.

However, as the Product promoted a number of different Sustainability Characteristics during the Reference Period, it is not the case that all investments comprising the E/S Alignment Contribution promoted all of the different Sustainability Characteristics. A specific breakdown for each Sustainability Characteristic is outlined above under the heading "How did the sustainability indicators perform?"

#1A Sustainable: The Product did not make "sustainable investments", as defined under SFDR.

#1B Other E/S characteristics: All of the category #1 investments were aligned with the environmental or social characteristics promoted by the Product.

#2 Other – 3%

3% of the Product's assets were in investments which fell within the sub-category "#2 Other". Within the sub-category "#2 Other", the Product's assets were made up of derivatives (for efficient portfolio management and hedging) and cash held for ancillary liquidity or defensive market positioning, neither of which were used to attain the Sustainability Characteristics.

In which economic sectors were the investments made?

Sector	% Assets
Sovereign	70.56%
Quasi-Sovereign	13.02%
Corporates	14.63%
Cash & Equivalents	1.79%

Portfolio Exposure as of 30.06.23. It does not represent an average for the reporting period and is not representative of the Portfolio Exposure at any other day of the financial year.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The Product does not currently commit to invest in any Sustainable Investments within the meaning of the SFDR, accordingly the minimum share of EU Taxonomy-aligned investments is 0%.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

Yes:

In fossil gas

In nuclear energy

No:

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Taxonomy-aligned activities are expressed as a share of:

- turnover reflecting the share of revenue from green activities of investee companies.

- capital expenditure (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.

- operational expenditure (OpEx) reflecting green operational activities of investee companies.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.

- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.

- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

1. Taxonomy alignment of investments **including** sovereign bonds*

2. Taxonomy alignment of investments **excluding** sovereign bonds*

Legend for both charts:
 ■ Non Taxonomy-aligned
 ■ Taxonomy-aligned: Fossil gas
 ■ Taxonomy-aligned: Nuclear
 ■ Taxonomy-aligned (no gas and nuclear)

This graph represents 100% of the total investments.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

What was the share of investments made in transitional and enabling activities?

Not applicable.

How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

Not applicable.

are sustainable investments with an environmental objective that do not take into account the criteria for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

Not applicable.

What was the share of socially sustainable investments?

Not applicable.

What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

Within the sub-category "#2 Other", 3% of the Product's assets were made up of derivatives (for efficient portfolio management and hedging) and cash held for ancillary liquidity or defensive market positioning.

No minimum environmental or social safeguards were applied to the 3% of assets made up of derivatives and cash.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Product utilised the application of the Exclusion List, the Investment Manager's ESG Impact Ratings, and issuers' Scope 1 and Scope 2 emissions intensity to meet the Sustainability Characteristics outlined above. While the Investment Manager does engage with issuers, the Product does not seek to use engagement as a primary strategy for attaining the Sustainability Characteristics it promotes.

How did this financial product perform compared to the reference benchmark?

Not applicable.

How does the reference benchmark differ from a broad market index?

Not applicable.

How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

Not applicable.

How did this financial product perform compared with the reference benchmark?

Not applicable.

How did this financial product perform compared with the broad market index?

Not applicable.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

Product name:
PGIM European Corporate ESG Bond Fund

Legal entity identifier:
549300JSXJJ552VU1D47

Environmental and/or social characteristics

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Did this financial product have a sustainable investment objective?	
<input type="checkbox"/> Yes	<input checked="" type="checkbox"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective : ___% <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> It made sustainable investments with a social objective : ___%	<input type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with a social objective <input checked="" type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The Fund (defined in these periodic disclosures as the “Product”) promoted three primary environmental and social characteristics (each a “Sustainability Characteristic” and together the “Sustainability Characteristics”) during the period 01 July 2022 – 30 June 2023 (“Reference Period”) as set out below:

- 1) The Product promoted the avoidance of certain ESG related activities and/or controversies that were deemed harmful (“Sustainability Characteristic 1”).
- 2) The Product:
 - a. promoted the reduction of investment in issuers that the Investment Manager has determined either (i) have severe net negative impacts on the environment/society and/or (ii) have material negative impacts on the environment/society that are not, in the Investment Manager’s view, being credibly addressed (“Sustainability Characteristic 2a”) and
 - b. promoted increased investment in issuers within the investable universe that the Investment Manager determines have more positive impacts on the environment and/or society (“Sustainability Characteristic 2b”).
- 3) The Product:
 - a. promoted the avoidance of issuers that the Investment Manager deems to be among the most Greenhouse Gas (GHG) emission intensive (incl. Scope 1 and Scope 2 emissions) (“Sustainability Characteristic 3a”) and
 - b. promoted increased investment in issuers within the investable universe that have lower carbon intensity (measured by Scope 1 and Scope 2 metric tons of carbon dioxide equivalent emissions per million USD in sales) (“Sustainability Characteristic 3b”).

The extent to which each Sustainability Characteristic was attained is discussed in more detail under the next question, “How did the sustainability indicators perform?”.

How did the sustainability indicators perform?

- **Sustainability Characteristic 1:**
In order to measure the Product’s promotion of Sustainability Characteristic 1, the Product excluded issuers:

- that violate the UN Global Compact Principles
- that are involved in the production, sale and/or distribution of nuclear or other controversial weapons (including landmines, cluster weapons, depleted uranium, white phosphorous, incendiary weapons and biological/chemical weapons)
- deriving at least 50% of revenues from gambling activities
- deriving at least 20% of revenues from thermal coal generation
- deriving at least 10% of revenues from thermal coal extraction
- that are conventional weapon manufacturers and/or service providers (companies that provide services for civilian firearms and/or military equipment, including maintenance, repair, testing, transport and similar activities) deriving at least 10% of revenues from such activities
- deriving at least 10% of revenues from arctic oil & gas extraction
- deriving at least 10% of revenues from oil sands extraction and processing (oil sands processing includes activities such as upgrading and refining)
- that are tobacco manufacturers deriving at least 5% of revenues from such activities.

A list containing the issuers to be excluded was maintained by the Investment Manager (“Exclusion List”) in reliance on an external screening agent or agents.

Green Bonds that the Investment Manager determined to have at least a medium impact (i.e. at least 15 points higher) versus the issuer’s conventional bonds and whose PGIM Fixed Income ESG Impact Rating (“ESG Impact Rating”) of that specific issuance is above 40, were exempt from the environmental binding restrictions (i.e. surpass the revenue thresholds for thermal coal generation, thermal coal extraction, arctic oil & gas extraction, oil sands extraction and processing, and Scope 1 and Scope 2 emissions intensity of more than 3,000 tCO₂e per million USD sales). However, if they violated any of the non-environmental restrictions, they were not exempt from this Exclusion List.

The Sustainability Indicator for Sustainability Characteristic 1 is whether or not the issuer is on the Exclusion List. Investments that are not on the Exclusion List will be considered to have attained Sustainability Characteristic 1. For the Reference Period, the Exclusion List process was followed and there were no advertent breaches of this process to report. To the extent that an existing position may have been subsequently added to the Exclusion List, such security would have been disposed of in accordance with PGIM Fixed Income’s UCITS ESG Policy Statement (the “Investment Manager’s ESG Policy”).

The Investment Manager considers that 98% of the Product promoted Sustainability Characteristic 1. The remaining 2% of the Product was allocated to assets in the #2 Other category (primarily cash and hedging instruments – see the section on asset allocation below for more details). Therefore, Sustainability Characteristic 1 was considered attained for the Reference Period (on the basis that 65% was the expected minimum proportion of the Product’s assets that would promote Sustainability Characteristic 1).

• **Sustainability Characteristic 2a:**

In order to measure the Product’s promotion of Sustainability Characteristic 2a, the Product excluded issuers with an ESG Impact Rating of under 40.

The Sustainability Indicator for Sustainability Characteristic 2a is an investment’s ESG Impact Rating.

Investments that have an ESG Impact Rating of 40 or above will be considered to have attained Sustainability Characteristic 2a.

For the Reference Period, the above ESG Impact Ratings requirement was monitored as part of the guideline monitoring process and there were no advertent breaches of this criteria. To the extent that an existing position did not meet the applicable criteria determined by the Investment Manager, the Investment Manager would have taken such action as described in the Investment Manager’s ESG Policy.

The Investment Manager considers that 98% of the Product promoted Sustainability Characteristic 2a. The remaining 2% of the Product was allocated to assets in the #2 Other category (primarily cash and hedging instruments – see the section on asset allocation below for more details). Therefore, Sustainability Characteristic 2a was considered attained for the Reference Period (on the basis that 60% was the expected minimum proportion of the Product’s assets that would promote Sustainability Characteristic 2a).

• **Sustainability Characteristic 2b:**

In order to measure the Product’s promotion of Sustainability Characteristic 2b, the Product achieved a weighted-average ESG Impact Rating of the portfolio that is higher than the weighted-average ESG Impact Rating of the Benchmark.

The Sustainability Indicator for Sustainability Characteristic 2b is the weighted-average ESG Impact Rating of the portfolio.

Sustainability Characteristic 2b will be considered attained if the weighted-average ESG Impact Rating of the portfolio is greater than the weighted-average ESG Impact Rating of the Benchmark.

For the Reference Period, the weighted-average ESG Impact Rating of the portfolio and the Benchmark were monitored as part of the guideline monitoring process and the portfolio's weighted-average ESG Impact Rating did not fall below that of the Benchmark during the Reference Period. Therefore, Sustainability Characteristic 2b was considered attained for the Reference Period.

• **Sustainability Characteristic 3a:**

In order to measure the Product's promotion of Sustainability Characteristic 3a, the Product excluded issuers who have a Scope 1 and Scope 2 emissions intensity of more than 3,000 tCO₂e per million USD sales.

The Sustainability Indicator for Sustainability Characteristic 3a is an investment's Scope 1 and Scope 2 emissions intensity of sales.

Investments that have a Scope 1 and Scope 2 emissions intensity of sales of no more than 3,000 tCO₂e per million USD sales will be considered to have attained Sustainability Characteristic 3a.

For the Reference Period, investments' Scope 1 and Scope 2 emissions intensity of sales was monitored as part of the guideline monitoring process, and there were no advertant breaches of this process to report. To the extent that an existing position may have had a Scope 1 and Scope 2 emissions intensity of more than 3,000 tCO₂e per million USD sales, the Investment Manager would have taken such action as described in the Investment Manager's ESG Policy.

The Investment Manager considers that 98% of the Product promoted Sustainability Characteristic 3a. The remaining 2% of the Product was allocated to assets in the #2 Other category (primarily cash and hedging instruments – see the section on asset allocation below for more details). Therefore, Sustainability Characteristic 3a was considered attained for the Reference Period (on the basis that 65% was the expected minimum proportion of the Product's assets that would promote Sustainability Characteristic 3a).

• **Sustainability Characteristic 3b:**

In order to measure the Product's promotion of Sustainability Characteristic 3b, the Product achieved a weighted-average Scope 1 and Scope 2 emissions intensity of the portfolio that is 33% lower than the weighted-average Scope 1 and Scope 2 emissions intensity of the Benchmark.

The Sustainability Indicator for Sustainability Characteristic 3b is the weighted-average Scope 1 and Scope 2 emissions intensity of the portfolio.

Sustainability Characteristic 3b will be considered attained if the weighted-average Scope 1 and Scope 2 emissions intensity is 33% lower than the weighted-average Scope 1 and Scope 2 emissions intensity of the Benchmark.

For the Reference Period, the weighted-average Scope 1 and Scope 2 emissions intensity of the portfolio and the Benchmark were monitored as part of the guideline monitoring process. The portfolio's weighted-average Scope 1 and Scope 2 emissions intensity was at least 33% below that of the Benchmark during the Reference Period. Therefore, Sustainability Characteristic 3b was considered attained for the Reference Period.

...and compared to previous periods?

Not applicable, this is the first period in which the Product is required to make disclosures regarding the performance of the sustainability indicators.

What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

Not applicable.

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

Not applicable.

How were the indicators for adverse impacts on sustainability factors taken into account?

Not applicable.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Not applicable.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not

significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The Product's consideration of principal adverse impacts was generally achieved through the assignment of ESG Impact Ratings, which requires assessing investments against negative and positive ESG impacts relevant to the industry and/or issuer. This ESG impact assessment is distinct from the assessment of Sustainability Risk i.e. the risk that ESG events could affect the financial/economic value of its clients' investments. In addition, issuers involved in specific activities deemed to have particularly negative impacts were excluded from the Product's investible universe.

What were the top investments of this financial product?

Largest investments	Sector	% Assets	Country
Mitsubishi UFJ Financial Group Inc	IG Corporates	1.23%	Japan
Credit Suisse AG	IG Corporates	1.00%	Switzerland
Liberty Mutual Group Inc	IG Corporates	0.97%	United States
Toyota Motor Finance Netherlands BV	IG Corporates	0.91%	Netherlands
ING Groep NV	IG Corporates	0.84%	Netherlands
UBS Group AG	IG Corporates	0.78%	Switzerland
Arval Service Lease SA	IG Corporates	0.75%	France
RELX Finance BV	IG Corporates	0.75%	Netherlands
E.ON SE	IG Corporates	0.74%	Germany
ING Groep NV	IG Corporates	0.74%	Netherlands
NatWest Group Plc	IG Corporates	0.74%	United Kingdom
Amprion GmbH	IG Corporates	0.73%	Germany
Vonovia SE	IG Corporates	0.73%	Germany
Allianz SE	IG Corporates	0.73%	Germany
Societe Generale SA	IG Corporates	0.73%	France

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is: as at June 2023

Portfolio Exposure as of 30.06.23. It does not represent an average for the reporting period and is not representative of the Portfolio Exposure at any other day of the financial year.

What was the proportion of sustainability-related investments?

What was the asset allocation?

Asset allocation describes the share of investments in specific assets.

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2 Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

#1 Aligned with E/S characteristics – 98%

98% of the Product's assets were in investments which, in addition to seeking to attain the broader economic objectives and investment strategy of the Product, were aligned with one or more of the E/S characteristics of the Product (the "E/S Alignment Contribution"). This E/S Alignment Contribution was calculated as follows:

1) for each quarter end during the Reference Period, calculating the percentage of the market value of all assets of the Product (including derivatives and cash) which was comprised of assets promoting one or more of the Sustainability Characteristics; and then

2) calculating the average of the quarter-end percentages.

In the first step of this E/S Alignment Contribution calculation, the numerator was the market value of the underlying E/S aligned investments of the Product, and the denominator was the market value of all the underlying assets of the Product.

#1A Sustainable: The Manager did not make "sustainable investments", as defined under SFDR.

#1B Other E/S characteristics: All of the category #1 investments were aligned with the environmental or social characteristics promoted by the Product.

#2 Other – 2%

2% of the Product's assets were in investments which fell within the sub-category "#2 Other". Within the sub-category "#2 Other", the Product's assets were made up of derivatives (for efficient portfolio management and hedging) and cash held for ancillary liquidity or defensive market positioning.

In which economic sectors were the investments made?

Sector	% Assets
IG Corporates	83.52%
Non-US Govt Related	10.60%
High Yield	2.84%
Emerging Markets	0.85%
Cash & Equivalents	2.20%

Portfolio Exposure as of 30.06.23. It does not represent an average for the reporting period and is not representative of the Portfolio Exposure at any other day of the financial year.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The Product does not currently commit to invest in any Sustainable Investments within the meaning of the SFDR, accordingly the minimum share of EU Taxonomy-aligned investments is 0%.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

Yes:

In fossil gas

In nuclear energy

No:

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

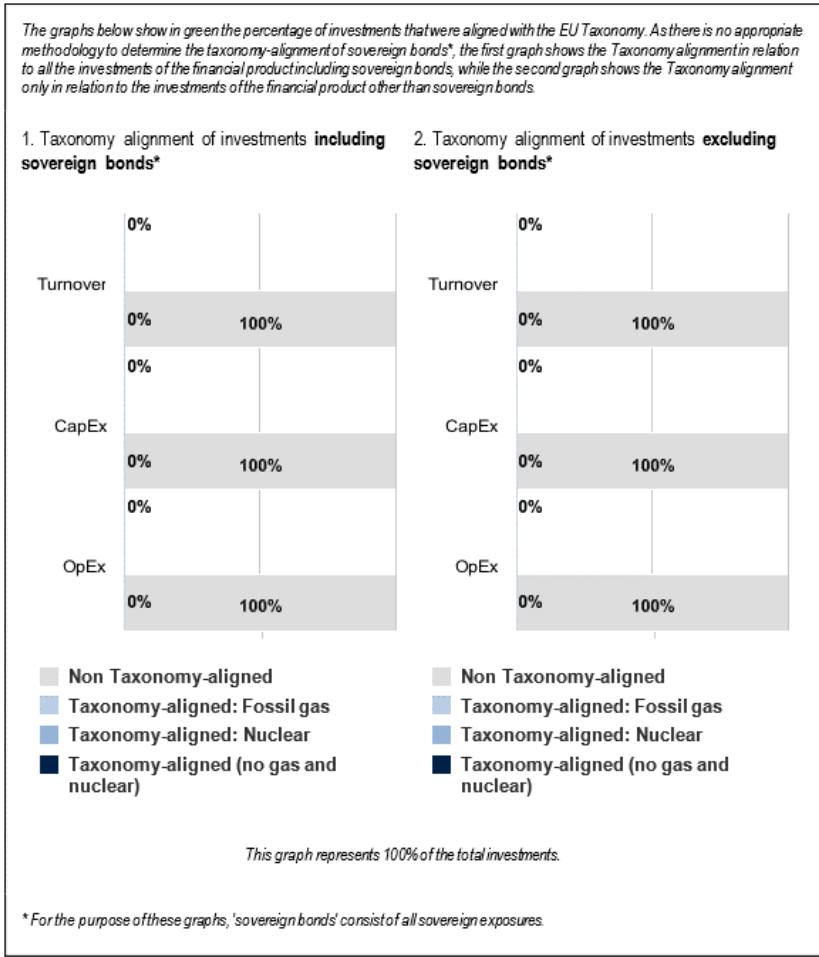

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- turnover reflecting the share of revenue from green activities of investee companies.
- capital expenditure (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- operational expenditure (OpEx) reflecting green operational activities of investee companies.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

What was the share of investments made in transitional and enabling activities?

Not applicable.

How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

Not applicable.

are sustainable investments with an environmental objective that do not take into account the criteria for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

Not applicable.

What was the share of socially sustainable investments?

Not applicable.

What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

Within the sub-category "#2 Other", 2% of the Product's assets were made up of derivatives (for efficient portfolio management and hedging) and cash held for ancillary liquidity or defensive market positioning.

No minimum environmental or social safeguards were applied to the 2% of assets made up of derivatives and cash.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Product utilised the application of the Exclusion List, the Investment Manager's ESG Impact Ratings, and issuers' Scope 1 and Scope 2 emissions intensity to meet the Sustainability Characteristics outlined above. While the Investment Manager does engage with issuers, the Product does not seek to use engagement as a primary strategy for attaining the Sustainability Characteristics it promotes.

How did this financial product perform compared to the reference benchmark?

Not applicable.

How does the reference benchmark differ from a broad market index?

Not applicable.

How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

Not applicable.

How did this financial product perform compared with the reference benchmark?

Not applicable.

How did this financial product perform compared with the broad market index?

Not applicable.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

Product name:
PGIM European High Yield Bond Fund

Legal entity identifier:
549300K6GO1LMMQ6SP33

Environmental and/or social characteristics

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Did this financial product have a sustainable investment objective?	
<input type="checkbox"/> Yes	<input checked="" type="checkbox"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective : ___% <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> It made sustainable investments with a social objective : ___%	<input type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with a social objective <input checked="" type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The Fund (defined in these periodic disclosures as the "Product") promoted three primary environmental and social characteristics (each a "Sustainability Characteristic" and together the "Sustainability Characteristics") during the period 12 June 2023 – 30 June 2023 ("Reference Period") as set out below:

- 1) The Product promoted the avoidance of certain ESG related activities and/or controversies that were deemed harmful ("Sustainability Characteristic 1").
- 2) The Product:
 - a. promoted the reduction of investment in issuers that the Investment Manager has determined either (i) have severe net negative impacts on the environment/society and/or (ii) have material negative impacts on the environment/society that are not, in the Investment Manager's view, being credibly addressed ("Sustainability Characteristic 2a") and
 - b. promoted increased investment in issuers within the investable universe that the Investment Manager determines have more positive impacts on the environment and/or society ("Sustainability Characteristic 2b").
- 3) The Product promoted increased investment in issuers within the investable universe that have lower carbon intensity (measured by Scope 1 and Scope 2 metric tons of carbon dioxide equivalent emissions per million USD in sales) ("Sustainability Characteristic 3")

The extent to which each Sustainability Characteristic was attained is discussed in more detail under the next question, "How did the sustainability indicators perform?".

How did the sustainability indicators perform?

- **Sustainability Characteristic 1:**
In order to measure the Product's promotion of Sustainability Characteristic 1, the Product excluded issuers:
 - that violate the UN Global Compact Principles
 - that are involved in the production, sale and/or distribution of nuclear or other controversial weapons (including landmines, cluster weapons, depleted uranium, white phosphorous, incendiary weapons and biological/chemical

weapons)

- deriving at least 20% of revenues from thermal coal generation
- deriving at least 10% of revenues from thermal coal extraction
- that are conventional weapon manufacturers and/or service providers (companies that provide services for civilian firearms and/or military equipment, including maintenance, repair, testing, transport and similar activities) deriving at least 10% of revenues from such activities
- that are tobacco manufacturers deriving at least 5% of revenues from such activities.

A list containing the issuers to be excluded was maintained by the Investment Manager (“Exclusion List”) in reliance on an external screening agent or agents.

The Sustainability Indicator for Sustainability Characteristic 1 is whether or not the issuer is on the Exclusion List. Investments that are not on the Exclusion List will be considered to have attained Sustainability Characteristic 1.

For the Reference Period, the Exclusion List process was followed and there were no advertent breaches of this process to report. To the extent that an existing position may have been subsequently added to the Exclusion List, such security would have been disposed of in accordance with PGIM Fixed Income’s UCITS ESG Policy Statement (the “Investment Manager’s ESG Policy”).

The Investment Manager considers that 97% of the Product promoted Sustainability Characteristic 1. The remaining 3% of the Product was allocated to assets in the #2 Other category (primarily cash and hedging instruments – see the section on asset allocation below for more details). Therefore, Sustainability Characteristic 1 was considered attained for the Reference Period (on the basis that 65% was the expected minimum proportion of the Product’s assets that would promote Sustainability Characteristic 1).

• **Sustainability Characteristic 2a:**

The Product excluded issuers with a PGIM ESG Impact Rating (“ESG Impact Rating”) of under 20. However, only issuers with an ESG Impact Rating of 40 or above will be used to measure the Product’s promotion of Sustainability Characteristic 2a.

The Sustainability Indicator for Sustainability Characteristic 2a is an investment’s ESG Impact Rating.

For the Reference Period, the minimum ESG Impact Ratings requirement was monitored as part of the guideline monitoring process and there were no advertent breaches of this criteria. To the extent that an existing position did not meet the applicable criteria determined by the Investment Manager, the Investment Manager would have taken such action as described in the Investment Manager’s ESG Policy.

The Investment Manager considers that 87% of the Product promoted Sustainability Characteristic 2a. 10% of the Product’s assets were securities with an ESG Impact Rating between 20 and 35. The remaining 3% of the Product was allocated to assets in the #2 Other category, comprised of cash and hedging instruments. Therefore, Sustainability Characteristic 2a was considered attained for the Reference Period (on the basis that no expected minimum proportion of the Product’s assets that would promote Sustainability Characteristic 2a was set).

• **Sustainability Characteristic 2b:**

In order to measure the Product’s promotion of Sustainability Characteristic 2b, the Product achieved a weighted-average ESG Impact Rating of the portfolio that is higher than the weighted-average ESG Impact Rating of the Benchmark.

The Sustainability Indicator for Sustainability Characteristic 2b is the weighted-average ESG Impact Rating of the portfolio.

Sustainability Characteristic 2b will be considered attained if the weighted-average ESG Impact Rating of the portfolio is greater than the weighted-average ESG Impact Rating of the Benchmark.

For the Reference Period, the weighted-average ESG Impact Rating of the portfolio and the Benchmark were monitored as part of the guideline monitoring process and the portfolio’s weighted-average ESG Impact Rating did not fall below that of the Benchmark during the Reference Period. Therefore, Sustainability Characteristic 2b was considered attained for the Reference Period.

• **Sustainability Characteristic 3:**

In order to measure the Product’s promotion of Sustainability Characteristic 3, the Product achieved a weighted-average Scope 1 and Scope 2 emissions intensity of the portfolio that is lower than the weighted-average Scope 1 and Scope 2 emissions intensity of the Benchmark.

The Sustainability Indicator for Sustainability Characteristic 3 is the weighted-average Scope 1 and Scope 2 emissions intensity of the portfolio.

Sustainability Characteristic 3 will be considered attained if the weighted average Scope 1 and Scope 2 emissions intensity is lower than the weighted-average Scope 1 and Scope 2 emissions intensity of the Benchmark.

For the Reference Period, the weighted-average Scope 1 and Scope 2 emissions intensity of the portfolio and the Benchmark were monitored as part of the guideline monitoring process. The portfolio's weighted-average Scope 1 and Scope 2 emissions intensity was below that of the Benchmark during the Reference Period. Therefore, Sustainability Characteristic 3 was considered attained for the Reference Period.

...and compared to previous periods?

Not applicable, this is the first period in which the Product is required to make disclosures regarding the performance of the sustainability indicators.

What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

Not applicable.

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

Not applicable.

How were the indicators for adverse impacts on sustainability factors taken into account?

Not applicable.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Not applicable.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The Product's consideration of principal adverse impacts was generally achieved through the assignment of ESG Impact Ratings, which requires assessing investments against negative and positive ESG impacts relevant to the industry and/or issuer. This ESG impact assessment is distinct from the assessment of Sustainability Risk i.e. the risk that ESG events could affect the financial/economic value of its clients' investments. In addition, issuers involved in specific activities deemed to have particularly negative impacts were excluded from the Product's investible universe.

What were the top investments of this financial product?

Largest investments	Sector	% Assets	Country
Ladbrokes Group Finance Plc	High Yield	2.02%	United Kingdom
EG Finco Ltd 2021 EUR 2nd Lien Term Loan	High Yield	1.96%	United Kingdom
TalkTalk Telecom Group Ltd	High Yield	1.74%	United Kingdom
RCI Banque SA	High Yield	1.71%	France
Sherwood Financing Plc	High Yield	1.60%	United Kingdom
Ziggo Bond Co BV	High Yield	1.58%	Netherlands
Bellis Finco Plc	High Yield	1.56%	United Kingdom
Telecom Italia SpA	High Yield	1.48%	Italy

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is: as at June 2023

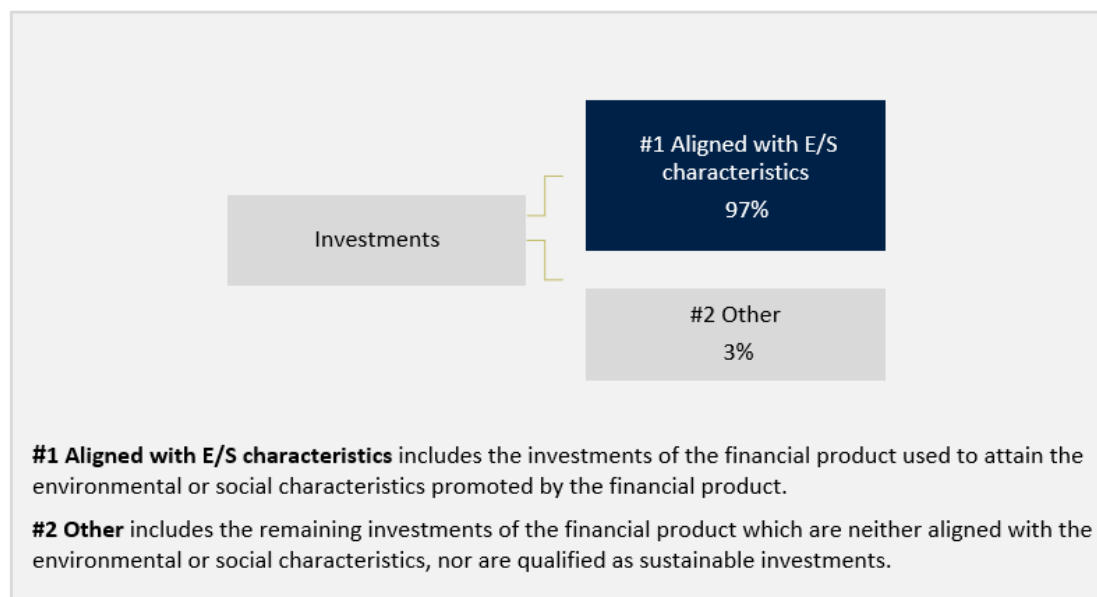

Portfolio Exposure as of 30.06.23. It does not represent an average for the reporting period and is not representative of the Portfolio Exposure at any other day of the financial year.

What was the proportion of sustainability-related investments?

What was the asset allocation?

Asset allocation describes the share of investments in specific assets.

#1 Aligned with E/S characteristics – 97%

97% of the Product's assets were in investments which, in addition to seeking to attain the broader economic objectives and investment strategy of the Product, were aligned with one or more of the E/S characteristics of the Product (the "E/S Alignment Contribution"). This E/S Alignment Contribution was calculated as follows:

- 1) for each quarter end during the Reference Period, calculating the percentage of the market value of all assets of the Product (including derivatives and cash) which was comprised of assets promoting one or more of the Sustainability Characteristics; and then
- 2) calculating the average of the quarter-end percentages.

In the first step of this E/S Alignment Contribution calculation, the numerator was the market value of the underlying

E/S aligned investments of the Product, and the denominator was the market value of all the underlying assets of the Product.

However, as the Product promoted a number of different Sustainability Characteristics during the Reference Period, it is not the case that all investments comprising the E/S Alignment Contribution promoted all of the different Sustainability Characteristics. A specific breakdown for each Sustainability Characteristic is outlined above under the heading "How did the sustainability indicators perform?"

#1A Sustainable: The Product did not make "sustainable investments", as defined under SFDR.

#1B Other E/S characteristics: All of the category #1 investments were aligned with the environmental or social characteristics promoted by the Product.

#2 Other – 3%

3% of the Product's assets were in investments which fell within the sub-category "#2 Other". Within the sub-category "#2 Other", the Product's assets were made up of: derivatives (for efficient portfolio management and hedging) and cash held for ancillary liquidity or defensive market positioning, neither of which were used to attain the Sustainability Characteristics.

In which economic sectors were the investments made?

Sector	% Assets
Non-US Government	1.70%
IG Corporates	2.91%
Non-US Govt Related	1.57%
High Yield	82.27%
Bank Loan	3.13%
Emerging Markets	4.86%
Cash & Equivalents	3.56%

Portfolio Exposure as of 30.06.23. It does not represent an average for the reporting period and is not representative of the Portfolio Exposure at any other day of the financial year.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The Product does not currently commit to invest in any Sustainable Investments within the meaning of the SFDR, accordingly the minimum share of EU Taxonomy-aligned investments is 0%.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

Yes:

In fossil gas

In nuclear energy

No:

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- turnover reflecting the share of revenue from green activities of investee companies.
- capital expenditure (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- operational expenditure (OpEx) reflecting green operational activities of investee companies.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure (CapEx)** showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure (OpEx)** reflecting green operational activities of investee companies.

What was the share of investments made in transitional and enabling activities?

Not applicable.

How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

Not applicable.

are sustainable investments with an environmental objective **that do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

Not applicable.

What was the share of socially sustainable investments?

Not applicable.

What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

Within the sub-category "#2 Other", 3% of the Product's assets were made up of derivatives (for efficient portfolio management and hedging), cash held for ancillary liquidity or defensive market positioning.

No minimum environmental or social safeguards were applied to the 3% of assets made up of derivatives and cash.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Product utilised the application of the Exclusion List, the Investment Manager's ESG Impact Ratings, and issuers' Scope 1 and Scope 2 emissions intensity to meet the Sustainability Characteristics outlined above. While the Investment Manager does engage with issuers, the Product does not seek to use engagement as a primary strategy for attaining the Sustainability Characteristics it promotes.

How did this financial product perform compared to the reference benchmark?

Not applicable.

How does the reference benchmark differ from a broad market index?

Not applicable.

How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

Not applicable.

How did this financial product perform compared with the reference benchmark?

Not applicable.

How did this financial product perform compared with the broad market index?

Not applicable.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

Product name:
PGIM European High Yield ESG Bond Fund

Legal entity identifier:
549300Z0FWAZRJY6G558

Environmental and/or social characteristics

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Did this financial product have a sustainable investment objective?	
<input type="checkbox"/> Yes	<input checked="" type="checkbox"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective : ___% <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> It made sustainable investments with a social objective : ___%	<input type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with a social objective <input checked="" type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The Fund (defined in these periodic disclosures as the "Product") promoted three primary environmental and social characteristics (each a "Sustainability Characteristic" and together the "Sustainability Characteristics") during the period 01 July 2022 – 30 June 2023 ("Reference Period") as set out below:

- 1) The Product promoted the avoidance of certain ESG related activities and/or controversies that were deemed harmful ("Sustainability Characteristic 1").
- 2) The Product:
 - a. promoted the reduction of investment in issuers that the Investment Manager has determined either (i) have severe net negative impacts on the environment/society and/or (ii) have material negative impacts on the environment/society that are not, in the Investment Manager's view, being credibly addressed ("Sustainability Characteristic 2a") and
 - b. promoted increased investment in issuers within the investable universe that the Investment Manager determines have more positive impacts on the environment and/or society ("Sustainability Characteristic 2b").
- 3) The Product:
 - a. promoted the avoidance of issuers that the Investment Manager deems to be among the most Greenhouse Gas (GHG) emission intensive (incl. Scope 1 and Scope 2 emissions) ("Sustainability Characteristic 3a") and
 - b. promoted increased investment in issuers within the investable universe that have lower carbon intensity (measured by Scope 1 and Scope 2 metric tons of carbon dioxide equivalent emissions per million USD in sales) ("Sustainability Characteristic 3b")

The extent to which each Sustainability Characteristic was attained is discussed in more detail under the next question, "How did the sustainability indicators perform?".

How did the sustainability indicators perform?

- **Sustainability Characteristic 1:**
In order to measure the Product's promotion of Sustainability Characteristic 1, the Product excluded issuers:

- that violate the UN Global Compact Principles
- that are involved in the production, sale and/or distribution of nuclear or other controversial weapons (including landmines, cluster weapons, depleted uranium, white phosphorous, incendiary weapons and biological/chemical weapons)
- deriving at least 50% of revenues from gambling activities
- deriving at least 20% of revenues from thermal coal generation
- deriving at least 10% of revenues from thermal coal extraction
- that are conventional weapon manufacturers and/or service providers (companies that provide services for civilian firearms and/or military equipment, including maintenance, repair, testing, transport and similar activities) deriving at least 10% of revenues from such activities
- deriving at least 10% of revenues from arctic oil & gas extraction
- deriving at least 10% of revenues from oil sands extraction and processing (oil sands processing includes activities such as upgrading and refining)
- that are tobacco manufacturers deriving at least 5% of revenues from such activities.

A list containing the issuers to be excluded was maintained by the Investment Manager (“Exclusion List”) in reliance on an external screening agent or agents.

Green Bonds that the Investment Manager determined to have at least a medium impact (i.e. at least 15 points higher) versus the issuer’s conventional bonds and whose PGIM Fixed Income ESG Impact Rating (“ESG Impact Rating”) of that specific issuance is above 40, were exempt from the environmental binding restrictions (i.e. surpass the revenue thresholds for thermal coal generation, thermal coal extraction, arctic oil & gas extraction, oil sands extraction and processing, and Scope 1 and Scope 2 emissions intensity of more than 3,000 tCO₂e per million USD sales). However, if they violated any of the non-environmental restrictions, they were not exempt from this Exclusion List.

The Sustainability Indicator for Sustainability Characteristic 1 is whether or not the issuer is on the Exclusion List. Investments that are not on the Exclusion List will be considered to have attained Sustainability Characteristic 1.

For the Reference Period, the Exclusion List process was followed and there were no advertent breaches of this process to report. To the extent that an existing position may have been subsequently added to the Exclusion List, such security would have been disposed of in accordance with PGIM Fixed Income’s UCITS ESG Policy Statement (the “Investment Manager’s ESG Policy”).

The Investment Manager considers that 94% of the Product promoted Sustainability Characteristic 1. The remaining 6% of the Product was allocated to assets in the #2 Other category (primarily cash and hedging instruments – see the section on asset allocation below for more details). Therefore, Sustainability Characteristic 1 was considered attained for the Reference Period (on the basis that 65% was the expected minimum proportion of the Product’s assets that would promote Sustainability Characteristic 1).

• **Sustainability Characteristic 2a:**

In order to measure the Product’s promotion of Sustainability Characteristic 2a, the Product excluded issuers with an ESG Impact Rating of under 40.

The Sustainability Indicator for Sustainability Characteristic 2a is an investment’s ESG Impact Rating.

Investments that have an ESG Impact Rating of 40 or above will be considered to have attained Sustainability Characteristic 2a.

For the Reference Period, the above ESG Impact Ratings requirement was monitored as part of the guideline monitoring process and there were no advertent breaches of this criteria. To the extent that an existing position did not meet the applicable criteria determined by the Investment Manager, the Investment Manager would have taken such action as described in the Investment Manager’s ESG Policy.

The Investment Manager considers that 94% of the Product promoted Sustainability Characteristic 2a. The remaining 6% of the Product was allocated to assets in the #2 Other category (primarily cash and hedging instruments – see the section on asset allocation below for more details). Therefore, Sustainability Characteristic 2a was considered attained for the Reference Period (on the basis that 60% was the expected minimum proportion of the Product’s assets that would promote Sustainability Characteristic 2a).

• **Sustainability Characteristic 2b:**

In order to measure the Product’s promotion of Sustainability Characteristic 2b, the Product achieved a weighted-average ESG Impact Rating of the portfolio that is higher than the weighted-average ESG Impact Rating of the Benchmark.

The Sustainability Indicator for Sustainability Characteristic 2b is the weighted-average ESG Impact Rating of the portfolio.

Sustainability Characteristic 2b will be considered attained if the weighted-average ESG Impact Rating of the portfolio is greater than the weighted-average ESG Impact Rating of the Benchmark.

For the Reference Period, the weighted-average ESG Impact Rating of the portfolio and the Benchmark were monitored as part of the guideline monitoring process and the portfolio's weighted-average ESG Impact Rating did not fall below that of the Benchmark during the Reference Period. Therefore, Sustainability Characteristic 2b was considered attained for the Reference Period.

• **Sustainability Characteristic 3a:**

In order to measure the Product's promotion of Sustainability Characteristic 3a, the Product excluded issuers who have a Scope 1 and Scope 2 emissions intensity of more than 3,000 tCO₂e per million USD sales.

The Sustainability Indicator for Sustainability Characteristic 3a is an investment's Scope 1 and Scope 2 emissions intensity of sales.

Investments that have a Scope 1 and Scope 2 emissions intensity of sales of no more than 3,000 tCO₂e per million USD sales will be considered to have attained Sustainability Characteristic 3a.

For the Reference Period, investments' Scope 1 and Scope 2 emissions intensity of sales was monitored as part of the guideline monitoring process, and there were no advertant breaches of this process to report. To the extent that an existing position may have had a Scope 1 and Scope 2 emissions intensity of more than 3,000 tCO₂e per million USD sales, the Investment Manager would have taken such action as described in the Investment Manager's ESG Policy.

The Investment Manager considers that 94% of the Product promoted Sustainability Characteristic 3a. The remaining 6% of the Product was allocated to assets in the #2 Other category (primarily cash and hedging instruments – see the section on asset allocation below for more details). Therefore, Sustainability Characteristic 3a was considered attained for the Reference Period (on the basis that 65% was the expected minimum proportion of the Product's assets that would promote Sustainability Characteristic 3a).

• **Sustainability Characteristic 3b:**

In order to measure the Product's promotion of Sustainability Characteristic 3b, the Product achieved a weighted-average Scope 1 and Scope 2 emissions intensity of the portfolio that is 33% lower than the weighted-average Scope 1 and Scope 2 emissions intensity of the Benchmark.

The Sustainability Indicator for Sustainability Characteristic 3b is the weighted-average Scope 1 and Scope 2 emissions intensity of the portfolio.

Sustainability Characteristic 3b will be considered attained if the weighted-average Scope 1 and Scope 2 emissions intensity is 33% lower than the weighted-average Scope 1 and Scope 2 emissions intensity of the Benchmark.

For the Reference Period, the weighted-average Scope 1 and Scope 2 emissions intensity of the portfolio and the Benchmark were monitored as part of the guideline monitoring process. The portfolio's weighted-average Scope 1 and Scope 2 emissions intensity was at least 33% below that of the Benchmark during the Reference Period. Therefore, Sustainability Characteristic 3b was considered attained for the Reference Period.

...and compared to previous periods?

Not applicable, this is the first period in which the Product is required to make disclosures regarding the performance of the sustainability indicators.

What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

Not applicable.

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

Not applicable.

How were the indicators for adverse impacts on sustainability factors taken into account?

Not applicable.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Not applicable.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The Product's consideration of principal adverse impacts was generally achieved through the assignment of ESG Impact Ratings, which requires assessing investments against negative and positive ESG impacts relevant to the industry and/or issuer. This ESG impact assessment is distinct from the assessment of Sustainability Risk i.e. the risk that ESG events could affect the financial/economic value of its clients' investments. In addition, issuers involved in specific activities deemed to have particularly negative impacts were excluded from the Product's investible universe.

What were the top investments of this financial product?

Largest investments	Sector	% Assets	Country
Bundesobligation	Non-US Government	3.79%	Germany
RCI Banque SA	High Yield	1.84%	France
TalkTalk Telecom Group Ltd	High Yield	1.84%	United Kingdom
Vmed O2 UK Financing I Plc	High Yield	1.84%	United Kingdom
EG Finco Ltd 2021 EUR 2nd Lien Term Loan	High Yield	1.83%	United Kingdom
UPCB Finance VII Ltd	High Yield	1.70%	Cayman Islands

Portfolio Exposure as of 30.06.23. It does not represent an average for the reporting period and is not representative of the Portfolio Exposure at any other day of the financial year.

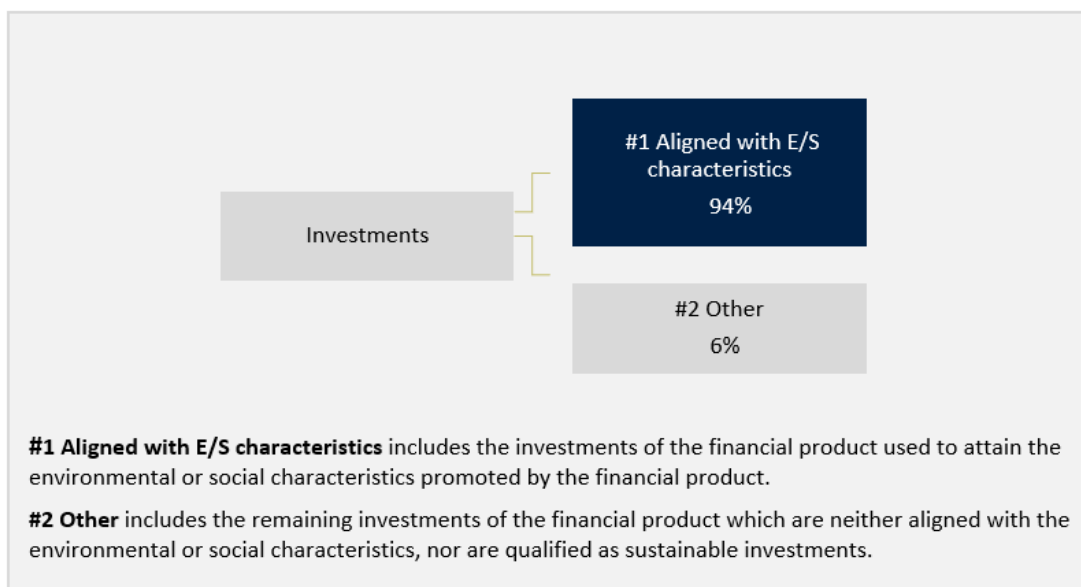

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is: as at June 2023

What was the proportion of sustainability-related investments?

What was the asset allocation?

Asset allocation describes the share of investments in specific assets.

#1 Aligned with E/S characteristics – 94%

94% of the Product's assets were in investments which, in addition to seeking to attain the broader economic objectives and investment strategy of the Product, were aligned with one or more of the E/S characteristics of the Product (the "E/S Alignment Contribution"). This E/S Alignment Contribution was calculated as follows:

1) for each quarter end during the Reference Period, calculating the percentage of the market value of all assets of the Product (including derivatives and cash) which was comprised of assets promoting one or more of the Sustainability Characteristics; and then

2) calculating the average of the quarter-end percentages.

In the first step of this E/S Alignment Contribution calculation, the numerator was the market value of the underlying E/S aligned investments of the Product, and the denominator was the market value of all the underlying assets of the Product.

#1A Sustainable: The Manager did not make "sustainable investments", as defined under SFDR.

#1B Other E/S characteristics: All of the category #1 investments were aligned with the environmental or social characteristics promoted by the Product.

#2 Other – 6%

6% of the Product's assets were in investments which fell within the sub-category "#2 Other". Within the sub-category "#2 Other", the Product's assets were made up of derivatives (for efficient portfolio management and hedging) and cash held for ancillary liquidity or defensive market positioning.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

In which economic sectors were the investments made?

Sector	% Assets
Non-US Government	3.81%
IG Corporates	1.73%
Non-US Govt Related	1.83%
High Yield	80.79%
Bank Loan	2.90%
Emerging Markets	3.28%
Cash & Equivalents	5.66%

Portfolio Exposure as of 30.06.23. It does not represent an average for the reporting period and is not representative of the Portfolio Exposure at any other day of the financial year.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The Product does not currently commit to invest in any Sustainable Investments within the meaning of the SFDR, accordingly the minimum share of EU Taxonomy-aligned investments is 0%.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

Yes:

In fossil gas

In nuclear energy

No:

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Taxonomy-aligned activities are expressed as a share of:

- turnover reflecting the share of revenue from green activities of investee companies.
- capital expenditure (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- operational expenditure (OpEx) reflecting green operational activities of investee companies.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure (CapEx)** showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure (OpEx)** reflecting green operational activities of investee companies.

What was the share of investments made in transitional and enabling activities?

Not applicable.

How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

Not applicable.

are sustainable investments with an environmental objective that do not take into account the criteria for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

Not applicable.

What was the share of socially sustainable investments?

Not applicable.

What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

Within the sub-category "#2 Other", 6% of the Product's assets were made up of derivatives (for efficient portfolio management and hedging) and cash held for ancillary liquidity or defensive market positioning.

No minimum environmental or social safeguards were applied to the 6% of assets made up of derivatives and cash.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Product utilised the application of the Exclusion List, the Investment Manager's ESG Impact Ratings, and issuers' Scope 1 and Scope 2 emissions intensity to meet the Sustainability Characteristics outlined above. While the Investment Manager does engage with issuers, the Product does not seek to use engagement as a primary strategy for attaining the Sustainability Characteristics it promotes.

How did this financial product perform compared to the reference benchmark?

Not applicable.

How does the reference benchmark differ from a broad market index?

Not applicable.

How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

Not applicable.

How did this financial product perform compared with the reference benchmark?

Not applicable.

How did this financial product perform compared with the broad market index?

Not applicable.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

Product name:
PGIM Global Corporate ESG Bond Fund

Legal entity identifier:
549300M0Q4YSJPOUZJ91

Environmental and/or social characteristics

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Did this financial product have a sustainable investment objective?

Yes

No

It made **sustainable investments with an environmental objective: ___%**

in economic activities that qualify as environmentally sustainable under the EU Taxonomy

in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

It made **sustainable investments with a social objective: ___%**

It promoted **Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments

with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy

with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

with a social objective

It promoted E/S characteristics, but **did not make any sustainable investments**

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The Fund (defined in these periodic disclosures as the "Product") promoted three primary environmental and social characteristics (each a "Sustainability Characteristic" and together the "Sustainability Characteristics") during the period 01 July 2022 – 30 June 2023 ("Reference Period") as set out below:

- 1) The Product promoted the avoidance of certain ESG related activities and/or controversies that were deemed harmful ("Sustainability Characteristic 1").
- 2) The Product:
 - a. promoted the reduction of investment in issuers that the Investment Manager has determined either (i) have severe net negative impacts on the environment/society and/or (ii) have material negative impacts on the environment/society that are not, in the Investment Manager's view, being credibly addressed ("Sustainability Characteristic 2a") and
 - b. promoted increased investment in issuers within the investable universe that the Investment Manager determines have more positive impacts on the environment and/or society ("Sustainability Characteristic 2b").
- 3) The Product:
 - a. promoted the avoidance of issuers that the Investment Manager deems to be among the most Greenhouse Gas (GHG) emission intensive (incl. Scope 1 and Scope 2 emissions) ("Sustainability Characteristic 3a") and
 - b. promoted increased investment in issuers within the investable universe that have lower carbon intensity (measured by Scope 1 and Scope 2 metric tons of carbon dioxide equivalent emissions per million USD in sales) ("Sustainability Characteristic 3b")

The extent to which each Sustainability Characteristic was attained is discussed in more detail under the next question, "How did the sustainability indicators perform?".

How did the sustainability indicators perform?

• Sustainability Characteristic 1:

In order to measure the Product's promotion of Sustainability Characteristic 1, the Product excluded issuers:

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

- that violate the UN Global Compact Principles
- that are involved in the production, sale and/or distribution of nuclear or other controversial weapons (including landmines, cluster weapons, depleted uranium, white phosphorous, incendiary weapons and biological/chemical weapons)
- deriving at least 50% of revenues from gambling activities
- deriving at least 20% of revenues from thermal coal generation
- deriving at least 10% of revenues from thermal coal extraction
- that are conventional weapon manufacturers and/or service providers (companies that provide services for civilian firearms and/or military equipment, including maintenance, repair, testing, transport and similar activities) deriving at least 10% of revenues from such activities
- deriving at least 10% of revenues from arctic oil & gas extraction
- deriving at least 10% of revenues from oil sands extraction and processing (oil sands processing includes activities such as upgrading and refining)
- that are tobacco manufacturers deriving at least 5% of revenues from such activities.

A list containing the issuers to be excluded was maintained by the Investment Manager (“Exclusion List”) in reliance on an external screening agent or agents.

Green Bonds that the Investment Manager determined to have at least a medium impact (i.e. at least 15 points higher) versus the issuer’s conventional bonds and whose PGIM Fixed Income ESG Impact Rating (“ESG Impact Rating”) of that specific issuance is above 40, were exempt from the environmental binding restrictions (i.e. surpass the revenue thresholds for thermal coal generation, thermal coal extraction, arctic oil & gas extraction, oil sands extraction and processing, and Scope 1 and Scope 2 emissions intensity of more than 3,000 tCO₂e per million USD sales). However, if they violated any of the non-environmental restrictions, they were not exempt from this Exclusion List.

The Sustainability Indicator for Sustainability Characteristic 1 is whether or not the issuer is on the Exclusion List. Investments that are not on the Exclusion List will be considered to have attained Sustainability Characteristic 1. For the Reference Period, the Exclusion List process was followed and there were no advertent breaches of this process to report. To the extent that an existing position may have been subsequently added to the Exclusion List, such security would have been disposed of in accordance with PGIM Fixed Income’s UCITS ESG Policy Statement (the “Investment Manager’s ESG Policy”).

The Investment Manager considers that 98% of the Product promoted Sustainability Characteristic 1. The remaining 2% of the Product was allocated to assets in the #2 Other category (primarily cash and hedging instruments – see the section on asset allocation below for more details). Therefore, Sustainability Characteristic 1 was considered attained for the Reference Period (on the basis that 65% was the expected minimum proportion of the Product’s assets that would promote Sustainability Characteristic 1).

• **Sustainability Characteristic 2a:**

In order to measure the Product’s promotion of Sustainability Characteristic 2a, the Product excluded issuers with an ESG Impact Rating of under 40.

The Sustainability Indicator for Sustainability Characteristic 2a is an investment’s ESG Impact Rating.

Investments that have an ESG Impact Rating of 40 or above will be considered to have attained Sustainability Characteristic 2a.

For the Reference Period, the above ESG Impact Ratings requirement was monitored as part of the guideline monitoring process and there were no advertent breaches of this criteria. To the extent that an existing position did not meet the applicable criteria determined by the Investment Manager, the Investment Manager would have taken such action as described in the Investment Manager’s ESG Policy.

The Investment Manager considers that 98% of the Product promoted Sustainability Characteristic 2a. The remaining 2% of the Product was allocated to assets in the #2 Other category (primarily cash and hedging instruments – see the section on asset allocation below for more details). Therefore, Sustainability Characteristic 2a was considered attained for the Reference Period (on the basis that 60% was the expected minimum proportion of the Product’s assets that would promote Sustainability Characteristic 2a).

• **Sustainability Characteristic 2b:**

In order to measure the Product’s promotion of Sustainability Characteristic 2b, the Product achieved a weighted-average ESG Impact Rating of the portfolio that is higher than the weighted-average ESG Impact Rating of the Benchmark.

The Sustainability Indicator for Sustainability Characteristic 2b is the weighted-average ESG Impact Rating of the portfolio.

Sustainability Characteristic 2b will be considered attained if the weighted-average ESG Impact Rating of the portfolio is greater than the weighted-average ESG Impact Rating of the Benchmark.

For the Reference Period, the weighted-average ESG Impact Rating of the portfolio and the Benchmark were monitored as part of the guideline monitoring process and the portfolio's weighted-average ESG Impact Rating did not fall below that of the Benchmark during the Reference Period. Therefore, Sustainability Characteristic 2b was considered attained for the Reference Period.

• **Sustainability Characteristic 3a:**

In order to measure the Product's promotion of Sustainability Characteristic 3a, the Product excluded issuers who have a Scope 1 and Scope 2 emissions intensity of more than 3,000 tCO₂e per million USD sales.

The Sustainability Indicator for Sustainability Characteristic 3a is an investment's Scope 1 and Scope 2 emissions intensity of sales.

Investments that have a Scope 1 and Scope 2 emissions intensity of sales of no more than 3,000 tCO₂e per million USD sales will be considered to have attained Sustainability Characteristic 3a.

For the Reference Period, investments' Scope 1 and Scope 2 emissions intensity of sales was monitored as part of the guideline monitoring process, and there were no advertant breaches of this process to report. To the extent that an existing position may have had a Scope 1 and Scope 2 emissions intensity of more than 3,000 tCO₂e per million USD sales, the Investment Manager would have taken such action as described in the Investment Manager's ESG Policy.

The Investment Manager considers that 98% of the Product promoted Sustainability Characteristic 3a. The remaining 2% of the Product was allocated to assets in the #2 Other category (primarily cash and hedging instruments – see the section on asset allocation below for more details). Therefore, Sustainability Characteristic 3a was considered attained for the Reference Period (on the basis that 65% was the expected minimum proportion of the Product's assets that would promote Sustainability Characteristic 3a).

• **Sustainability Characteristic 3b:**

In order to measure the Product's promotion of Sustainability Characteristic 3b, the Product achieved a weighted-average Scope 1 and Scope 2 emissions intensity of the portfolio that is 33% lower than the weighted-average Scope 1 and Scope 2 emissions intensity of the Benchmark.

The Sustainability Indicator for Sustainability Characteristic 3b is the weighted-average Scope 1 and Scope 2 emissions intensity of the portfolio.

Sustainability Characteristic 3b will be considered attained if the weighted-average Scope 1 and Scope 2 emissions intensity is 33% lower than the weighted-average Scope 1 and Scope 2 emissions intensity of the Benchmark. For the Reference Period, the weighted-average Scope 1 and Scope 2 emissions intensity of the portfolio and the Benchmark were monitored as part of the guideline monitoring process. The portfolio's weighted-average Scope 1 and Scope 2 emissions intensity was at least 33% below that of the Benchmark during the Reference Period. Therefore, Sustainability Characteristic 3b was considered attained for the Reference Period.

...and compared to previous periods?

Not applicable, this is the first period in which the Product is required to make disclosures regarding the performance of the sustainability indicators.

What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

Not applicable.

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

Not applicable.

How were the indicators for adverse impacts on sustainability factors taken into account?

Not applicable.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Not applicable.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The Product's consideration of principal adverse impacts was generally achieved through the assignment of ESG Impact Ratings, which requires assessing investments against negative and positive ESG impacts relevant to the industry and/or issuer. This ESG impact assessment is distinct from the assessment of Sustainability Risk i.e. the risk that ESG events could affect the financial/economic value of its clients' investments. In addition, issuers involved in specific activities deemed to have particularly negative impacts were excluded from the Product's investible universe.

What were the top investments of this financial product?

Largest investments	Sector	% Assets	Country

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is: as at June 2023

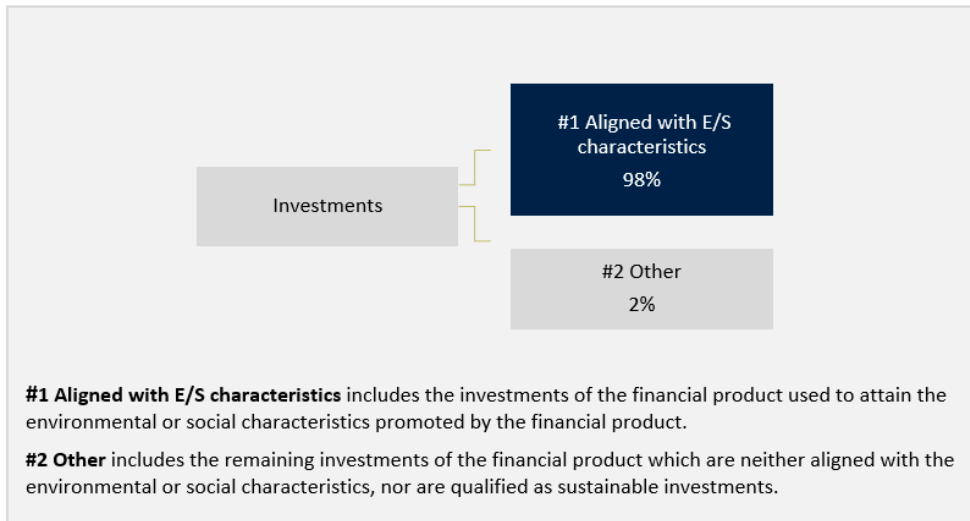

Portfolio Exposure as of 30.06.23. It does not represent an average for the reporting period and is not representative of the Portfolio Exposure at any other day of the financial year.

What was the proportion of sustainability-related investments?

What was the asset allocation?

Asset allocation describes the share of investments in specific assets.

#1 Aligned with E/S characteristics – 98%

98% of the Product's assets were in investments which, in addition to seeking to attain the broader economic objectives and investment strategy of the Product, were aligned with one or more of the E/S characteristics of the Product (the "E/S Alignment Contribution"). This E/S Alignment Contribution was calculated as follows:

1) for each quarter end during the Reference Period, calculating the percentage of the market value of all assets of the Product (including derivatives and cash) which was comprised of assets promoting one or more of the Sustainability Characteristics; and then

2) calculating the average of the quarter-end percentages.

In the first step of this E/S Alignment Contribution calculation, the numerator was the market value of the underlying E/S aligned investments of the Product, and the denominator was the market value of all the underlying assets of the Product.

#1A Sustainable: The Manager did not make "sustainable investments", as defined under SFDR.

#1B Other E/S characteristics: All of the category #1 investments were aligned with the environmental or social characteristics promoted by the Product.

#2 Other – 2%

2% of the Product's assets were in investments which fell within the sub-category "#2 Other". Within the sub-category "#2 Other", the Product's assets were made up of derivatives (for efficient portfolio management and hedging) and cash held for ancillary liquidity or defensive market positioning.

In which economic sectors were the investments made?

Sector	% Assets
US Government	0.06%
IG Corporates	88.66%
Non-US Govt Related	3.58%
High Yield	2.73%
Emerging Markets	0.76%
Municipals	2.52%
Swaps	-0.30%
Cash & Equivalents	2.00%

Portfolio Exposure as of 30.06.23. It does not represent an average for the reporting period and is not representative of the Portfolio Exposure at any other day of the financial year.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The Product does not currently commit to invest in any Sustainable Investments within the meaning of the SFDR, accordingly the minimum share of EU Taxonomy-aligned investments is 0%.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

Yes:

In fossil gas

In nuclear energy

No:

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- turnover reflecting the share of revenue from green activities of investee companies.

- capital expenditure (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.

- operational expenditure (OpEx) reflecting green operational activities of investee companies.

Taxonomy-aligned activities are expressed as a share of:

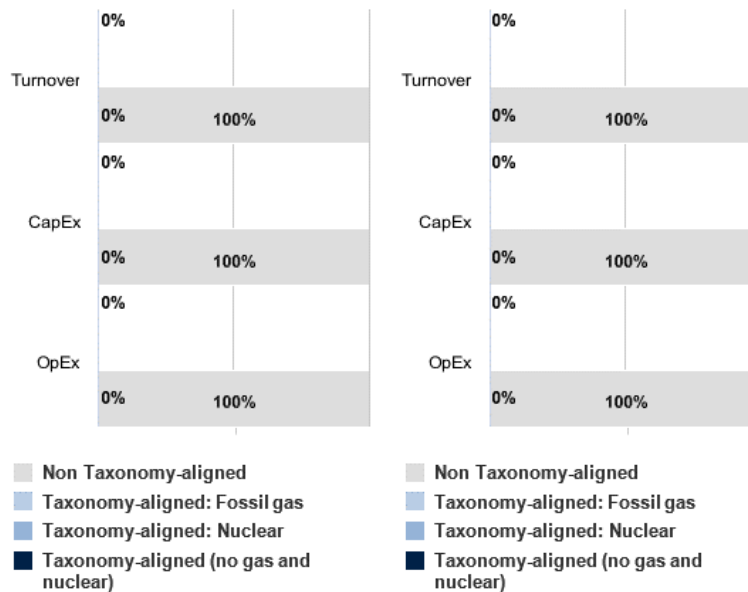

- **turnover** reflecting the share of revenue from green activities of investee companies.

- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.

- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

1. Taxonomy alignment of investments **including** sovereign bonds* 2. Taxonomy alignment of investments **excluding** sovereign bonds*

This graph represents 100% of the total investments.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

What was the share of investments made in transitional and enabling activities?

Not applicable.

How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

Not applicable.

are sustainable investments with an environmental objective that do not take into account the criteria for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

Not applicable.

What was the share of socially sustainable investments?

Not applicable.

What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

Within the sub-category "#2 Other", 2% of the Product's assets were made up of derivatives (for efficient portfolio management and hedging) and cash held for ancillary liquidity or defensive market positioning.

No minimum environmental or social safeguards were applied to the 2% of assets made up of derivatives and cash.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Product utilised the application of the Exclusion List, the Investment Manager's ESG Impact Ratings, and issuers' Scope 1 and Scope 2 emissions intensity to meet the Sustainability Characteristics outlined above. While the

Investment Manager does engage with issuers, the Product does not seek to use engagement as a primary strategy for attaining the Sustainability Characteristics it promotes.

How did this financial product perform compared to the reference benchmark?

Not applicable.

How does the reference benchmark differ from a broad market index?

Not applicable.

How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

Not applicable.

How did this financial product perform compared with the reference benchmark?

Not applicable.

How did this financial product perform compared with the broad market index?

Not applicable.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

Product name:
PGIM Global Corporate Bond Fund

Legal entity identifier:
549300LEZNJICG655D68

Environmental and/or social characteristics

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Did this financial product have a sustainable investment objective?

Yes

No

It made **sustainable investments with an environmental objective**: ___%

in economic activities that qualify as environmentally sustainable under the EU Taxonomy

in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

It made **sustainable investments with a social objective**: ___%

It promoted **Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments

with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy

with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

with a social objective

It promoted E/S characteristics, but **did not make any sustainable investments**

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The Fund (defined in these periodic disclosures as the "Product") promoted three primary environmental and social characteristics (each a "Sustainability Characteristic" and together the "Sustainability Characteristics") during the period 12 June 2023 – 30 June 2023 ("Reference Period") as set out below:

- 1) The Product promoted the avoidance of certain ESG related activities and/or controversies that were deemed harmful ("Sustainability Characteristic 1").
- 2) The Product:
 - a. promoted the reduction of investment in issuers that the Investment Manager has determined either (i) have severe net negative impacts on the environment/society and/or (ii) have material negative impacts on the environment/society that are not, in the Investment Manager's view, being credibly addressed ("Sustainability Characteristic 2a") and
 - b. promoted increased investment in issuers within the investable universe that the Investment Manager determines have more positive impacts on the environment and/or society ("Sustainability Characteristic 2b").
- 3) The Product promoted increased investment in issuers within the investable universe that have lower carbon intensity (measured by Scope 1 and Scope 2 metric tons of carbon dioxide equivalent emissions per million USD in sales) ("Sustainability Characteristic 3")

The extent to which each Sustainability Characteristic was attained is discussed in more detail under the next question, "How did the sustainability indicators perform?".

How did the sustainability indicators perform?

• Sustainability Characteristic 1:

In order to measure the Product's promotion of Sustainability Characteristic 1, the Product excluded issuers:

- that violate the UN Global Compact Principles
- that are involved in the production, sale and/or distribution of nuclear or other controversial weapons (including landmines, cluster weapons, depleted uranium, white phosphorous, incendiary weapons and biological/chemical

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

weapons)

- deriving at least 20% of revenues from thermal coal generation
- deriving at least 10% of revenues from thermal coal extraction
- that are conventional weapon manufacturers and/or service providers (companies that provide services for civilian firearms and/or military equipment, including maintenance, repair, testing, transport and similar activities) deriving at least 10% of revenues from such activities
- that are tobacco manufacturers deriving at least 5% of revenues from such activities.

A list containing the issuers to be excluded was maintained by the Investment Manager (“Exclusion List”) in reliance on an external screening agent or agents.

The Sustainability Indicator for Sustainability Characteristic 1 is whether or not the issuer is on the Exclusion List. Investments that are not on the Exclusion List will be considered to have attained Sustainability Characteristic 1.

For the Reference Period, the Exclusion List process was followed and there were no advertent breaches of this process to report. To the extent that an existing position may have been subsequently added to the Exclusion List, such security would have been disposed of in accordance with PGIM Fixed Income’s UCITS ESG Policy Statement (the “Investment Manager’s ESG Policy”).

The Investment Manager considers that 97% of the Product promoted Sustainability Characteristic 1. The remaining 3% of the Product was allocated to assets in the #2 Other category (primarily cash and hedging instruments – see the section on asset allocation below for more details). Therefore, Sustainability Characteristic 1 was considered attained for the Reference Period (on the basis that 65% was the expected minimum proportion of the Product’s assets that would promote Sustainability Characteristic 1).

• **Sustainability Characteristic 2a:**

The Product excluded issuers with a PGIM ESG Impact Rating (“ESG Impact Rating”) of under 20. However, only issuers with an ESG Impact Rating of 40 or above will be used to measure the Product’s promotion of Sustainability Characteristic 2a.

The Sustainability Indicator for Sustainability Characteristic 2a is an investment’s ESG Impact Rating.

For the Reference Period, the minimum ESG Impact Ratings requirement was monitored as part of the guideline monitoring process and there were no advertent breaches of this criteria. To the extent that an existing position did not meet the applicable criteria determined by the Investment Manager, the Investment Manager would have taken such action as described in the Investment Manager’s ESG Policy.

The Investment Manager considers that 88% of the Product promoted Sustainability Characteristic 2a. 9% of the Product’s assets were securities with an ESG Impact Rating between 20 and 35. The remaining 3% of the Product was allocated to assets in the #2 Other category, comprised of cash and hedging instruments. Therefore, Sustainability Characteristic 2a was considered attained for the Reference Period (on the basis that no expected minimum proportion of the Product’s assets that would promote Sustainability Characteristic 2a was set).

• **Sustainability Characteristic 2b:**

In order to measure the Product’s promotion of Sustainability Characteristic 2b, the Product achieved a weighted-average ESG Impact Rating of the portfolio that is higher than the weighted-average ESG Impact Rating of the Benchmark.

The Sustainability Indicator for Sustainability Characteristic 2b is the weighted-average ESG Impact Rating of the portfolio.

Sustainability Characteristic 2b will be considered attained if the weighted-average ESG Impact Rating of the portfolio is greater than the weighted-average ESG Impact Rating of the Benchmark.

For the Reference Period, the weighted-average ESG Impact Rating of the portfolio and the Benchmark were monitored as part of the guideline monitoring process and the portfolio’s weighted-average ESG Impact Rating did not fall below that of the Benchmark during the Reference Period. Therefore, Sustainability Characteristic 2b was considered attained for the Reference Period.

• **Sustainability Characteristic 3:**

In order to measure the Product’s promotion of Sustainability Characteristic 3, the Product achieved a weighted-average Scope 1 and Scope 2 emissions intensity of the portfolio that is lower than the weighted-average Scope 1 and Scope 2 emissions intensity of the Benchmark.

The Sustainability Indicator for Sustainability Characteristic 3 is the weighted-average Scope 1 and Scope 2 emissions intensity of the portfolio.

Sustainability Characteristic 3 will be considered attained if the weighted average Scope 1 and Scope 2 emissions intensity is lower than the weighted-average Scope 1 and Scope 2 emissions intensity of the Benchmark.

For the Reference Period, the weighted-average Scope 1 and Scope 2 emissions intensity of the portfolio and the Benchmark were monitored as part of the guideline monitoring process. The portfolio's weighted-average Scope 1 and Scope 2 emissions intensity was below that of the Benchmark during the Reference Period. Therefore, Sustainability Characteristic 3 was considered attained for the Reference Period.

...and compared to previous periods?

Not applicable, this is the first period in which the Product is required to make disclosures regarding the performance of the sustainability indicators.

What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

Not applicable.

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

Not applicable.

How were the indicators for adverse impacts on sustainability factors taken into account?

Not applicable.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Not applicable.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The Product's consideration of principal adverse impacts was generally achieved through the assignment of ESG Impact Ratings, which requires assessing investments against negative and positive ESG impacts relevant to the industry and/or issuer. This ESG impact assessment is distinct from the assessment of Sustainability Risk i.e. the risk that ESG events could affect the financial/economic value of its clients' investments. In addition, issuers involved in specific activities deemed to have particularly negative impacts were excluded from the Product's investible universe.

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is: as at June 2023

Portfolio Exposure as of 30.06.23. It does not represent an average for the reporting period and is not representative of the Portfolio Exposure at any other day of the financial year.

What was the proportion of sustainability-related investments?

What was the asset allocation?

Asset allocation describes the share of investments in specific assets.

#1 Aligned with E/S characteristics – 97%

97% of the Product's assets were in investments which, in addition to seeking to attain the broader economic objectives and investment strategy of the Product, were aligned with one or more of the E/S characteristics of the Product (the "E/S Alignment Contribution"). This E/S Alignment Contribution was calculated as follows:

- 1) for each quarter end during the Reference Period, calculating the percentage of the market value of all assets of the Product (including derivatives and cash) which was comprised of assets promoting one or more of the Sustainability Characteristics; and then
- 2) calculating the average of the quarter-end percentages.

In the first step of this E/S Alignment Contribution calculation, the numerator was the market value of the underlying E/S aligned investments of the Product, and the denominator was the market value of all the underlying assets of the Product.

However, as the Product promoted a number of different Sustainability Characteristics during the Reference Period, it is not the case that all investments comprising the E/S Alignment Contribution promoted all of the different Sustainability Characteristics. A specific breakdown for each Sustainability Characteristic is outlined above under the heading "How did the sustainability indicators perform?".

In which economic sectors were the investments made?

Sector	% Assets
US Government	1.83%
CMBS	0.32%
IG Corporates	85.97%
Non-US Govt Related	2.85%
High Yield	3.12%

Environmental and/or social characteristics

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Did this financial product have a sustainable investment objective?	
<input type="checkbox"/> Yes	<input checked="" type="checkbox"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective : ___% <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> It made sustainable investments with a social objective : ___%	<input type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with a social objective <input checked="" type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The Fund (defined in these periodic disclosures as the "Product") promoted three primary environmental and social characteristics (each a "Sustainability Characteristic" and together the "Sustainability Characteristics") during the period 12 June 2023 – 30 June 2023 ("Reference Period") as set out below:

- 1) The Product promoted the avoidance of certain ESG related activities and/or controversies that were deemed harmful ("Sustainability Characteristic 1").
- 2) The Product:
 - a. promoted the reduction of investment in issuers that the Investment Manager has determined either (i) have severe net negative impacts on the environment/society and/or (ii) have material negative impacts on the environment/society that are not, in the Investment Manager's view, being credibly addressed ("Sustainability Characteristic 2a") and
 - b. promoted increased investment in issuers within the investable universe that the Investment Manager determines have more positive impacts on the environment and/or society ("Sustainability Characteristic 2b").
- 3) The Product promoted increased investment in issuers within the investable universe that have lower carbon intensity (measured by Scope 1 and Scope 2 metric tons of carbon dioxide equivalent emissions per million USD in sales) ("Sustainability Characteristic 3")

The extent to which each Sustainability Characteristic was attained is discussed in more detail under the next question, "How did the sustainability indicators perform?".

How did the sustainability indicators perform?

- **Sustainability Characteristic 1:**
In order to measure the Product's promotion of Sustainability Characteristic 1, the Product excluded issuers:
 - that violate the UN Global Compact Principles
 - that are involved in the production, sale and/or distribution of nuclear or other controversial weapons (including landmines, cluster weapons, depleted uranium, white phosphorous, incendiary weapons and biological/chemical

weapons)

- deriving at least 20% of revenues from thermal coal generation
- deriving at least 10% of revenues from thermal coal extraction
- that are conventional weapon manufacturers and/or service providers (companies that provide services for civilian firearms and/or military equipment, including maintenance, repair, testing, transport and similar activities) deriving at least 10% of revenues from such activities
- that are tobacco manufacturers deriving at least 5% of revenues from such activities.

A list containing the issuers to be excluded was maintained by the Investment Manager (“Exclusion List”) in reliance on an external screening agent or agents.

The Sustainability Indicator for Sustainability Characteristic 1 is whether or not the issuer is on the Exclusion List. Investments that are not on the Exclusion List will be considered to have attained Sustainability Characteristic 1.

For the Reference Period, the Exclusion List process was followed and there were no advertent breaches of this process to report. To the extent that an existing position may have been subsequently added to the Exclusion List, such security would have been disposed of in accordance with PGIM Fixed Income’s UCITS ESG Policy Statement (the “Investment Manager’s ESG Policy”).

The Investment Manager considers that 92% of the Product promoted Sustainability Characteristic 1. The remaining 8% of the Product was allocated to assets in the #2 Other category (primarily cash and hedging instruments – see the section on asset allocation below for more details). Therefore, Sustainability Characteristic 1 was considered attained for the Reference Period (on the basis that 65% was the expected minimum proportion of the Product’s assets that would promote Sustainability Characteristic 1).

• **Sustainability Characteristic 2a:**

The Product excluded issuers with a PGIM ESG Impact Rating (“ESG Impact Rating”) of under 20. However, only issuers with an ESG Impact Rating of 40 or above will be used to measure the Product’s promotion of Sustainability Characteristic 2a.

The Sustainability Indicator for Sustainability Characteristic 2a is an investment’s ESG Impact Rating.

For the Reference Period, the minimum ESG Impact Ratings requirement was monitored as part of the guideline monitoring process and there were no advertent breaches of this criteria. To the extent that an existing position did not meet the applicable criteria determined by the Investment Manager, the Investment Manager would have taken such action as described in the Investment Manager’s ESG Policy.

The Investment Manager considers that 86% of the Product promoted Sustainability Characteristic 2a. 6% of the Product’s assets were securities with an ESG Impact Rating between 20 and 35. The remaining 8% of the Product was allocated to assets in the #2 Other category, comprised of cash and hedging instruments. Therefore, Sustainability Characteristic 2a was considered attained for the Reference Period (on the basis that no expected minimum proportion of the Product’s assets that would promote Sustainability Characteristic 2a was set).

• **Sustainability Characteristic 2b:**

In order to measure the Product’s promotion of Sustainability Characteristic 2b, the Product achieved a weighted-average ESG Impact Rating of the portfolio that is higher than the weighted-average ESG Impact Rating of the Benchmark.

The Sustainability Indicator for Sustainability Characteristic 2b is the weighted-average ESG Impact Rating of the portfolio.

Sustainability Characteristic 2b will be considered attained if the weighted-average ESG Impact Rating of the portfolio is greater than the weighted-average ESG Impact Rating of the Benchmark.

For the Reference Period, the weighted-average ESG Impact Rating of the portfolio and the Benchmark were monitored as part of the guideline monitoring process and the portfolio’s weighted-average ESG Impact Rating did not fall below that of the Benchmark during the Reference Period. Therefore, Sustainability Characteristic 2b was considered attained for the Reference Period.

• **Sustainability Characteristic 3:**

In order to measure the Product’s promotion of Sustainability Characteristic 3, the Product achieved a weighted-average Scope 1 and Scope 2 emissions intensity of the portfolio that is lower than the weighted-average Scope 1 and Scope 2 emissions intensity of the Benchmark.

The Sustainability Indicator for Sustainability Characteristic 3 is the weighted-average Scope 1 and Scope 2 emissions intensity of the portfolio.

Sustainability Characteristic 3 will be considered attained if the weighted average Scope 1 and Scope 2 emissions intensity is lower than the weighted-average Scope 1 and Scope 2 emissions intensity of the Benchmark.

For the Reference Period, the weighted-average Scope 1 and Scope 2 emissions intensity of the portfolio and the Benchmark were monitored as part of the guideline monitoring process. The portfolio's weighted-average Scope 1 and Scope 2 emissions intensity was below that of the Benchmark during the Reference Period. Therefore, Sustainability Characteristic 3 was considered attained for the Reference Period.

...and compared to previous periods?

Not applicable, this is the first period in which the Product is required to make disclosures regarding the performance of the sustainability indicators.

What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

Not applicable.

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

Not applicable.

How were the indicators for adverse impacts on sustainability factors taken into account?

Not applicable.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Not applicable.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The Product's consideration of principal adverse impacts was generally achieved through the assignment of ESG Impact Ratings, which requires assessing investments against negative and positive ESG impacts relevant to the industry and/or issuer. This ESG impact assessment is distinct from the assessment of Sustainability Risk i.e. the risk that ESG events could affect the financial/economic value of its clients' investments. In addition, issuers involved in specific activities deemed to have particularly negative impacts were excluded from the Product's investible universe.

What were the top investments of this financial product?

Largest investments	Sector	% Assets	Country
Ford Motor Co	High Yield	1.37%	United States
Ziggo Bond Co BV	High Yield	1.05%	Netherlands
United States Treasury Note	US Government	1.01%	United States
Vmed O2 UK Financing I Plc	High Yield	0.94%	United Kingdom
Taylor Morrison Communities Inc	High Yield	0.81%	United States
United Rentals North America Inc	High Yield	0.80%	United States
United States Treasury Note	US Government	0.78%	United States
SoftBank Group Corp	High Yield	0.77%	Japan
Tenet Healthcare Corp	High Yield	0.77%	United States
CCO Holdings LLC	High Yield	0.74%	United States
Black Knight InfoServ LLC	High Yield	0.72%	United States
Bellis Finco Plc	High Yield	0.68%	United Kingdom
United Group BV	High Yield	0.68%	Netherlands
Levi Strauss & Co	High Yield	0.67%	United States
Nexi SpA	High Yield	0.67%	Italy

The list includes the investments constituting **the greatest proportion of investments** of the financial product during the reference period which is: as at June 2023

Portfolio Exposure as of 30.06.23. It does not represent an average for the reporting period and is not representative of the Portfolio Exposure at any other day of the financial year.

What was the proportion of sustainability-related investments?

What was the asset allocation?

Asset allocation describes the share of investments in specific assets.

#1 Aligned with E/S characteristics – 92%

92% of the Product's assets were in investments which, in addition to seeking to attain the broader economic objectives and investment strategy of the Product, were aligned with one or more of the E/S characteristics of the Product (the "E/S Alignment Contribution"). This E/S Alignment Contribution was calculated as follows:

- 1) for each quarter end during the Reference Period, calculating the percentage of the market value of all assets of the Product (including derivatives and cash) which was comprised of assets promoting one or more of the Sustainability Characteristics; and then
- 2) calculating the average of the quarter-end percentages.

In the first step of this E/S Alignment Contribution calculation, the numerator was the market value of the underlying E/S aligned investments of the Product, and the denominator was the market value of all the underlying assets of the Product.

However, as the Product promoted a number of different Sustainability Characteristics during the Reference Period, it is not the case that all investments comprising the E/S Alignment Contribution promoted all of the different Sustainability Characteristics. A specific breakdown for each Sustainability Characteristic is outlined above under the heading "How did the sustainability indicators perform?"

#1A Sustainable: The Product did not make "sustainable investments", as defined under SFDR.

#1B Other E/S characteristics: All of the category #1 investments were aligned with the environmental or social characteristics promoted by the Product.

#2 Other – 8%

8% of the Product's assets were in investments which fell within the sub-category "#2 Other". Within the sub-category "#2 Other", the Product's assets were made up of: derivatives (for efficient portfolio management and hedging) and cash held for ancillary liquidity or defensive market positioning, neither of which were used to attain the Sustainability Characteristics.

In which economic sectors were the investments made?

Sector	% Assets
US Government	1.80%
IG Corporates	2.56%
High Yield	85.61%
Bank Loan	0.79%
Emerging Markets	1.80%
Cash & Equivalents	7.44%

Portfolio Exposure as of 30.06.23. It does not represent an average for the reporting period and is not representative of the Portfolio Exposure at any other day of the financial year.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The Product does not currently commit to invest in any Sustainable Investments within the meaning of the SFDR, accordingly the minimum share of EU Taxonomy-aligned investments is 0%.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

Yes:

In fossil gas

In nuclear energy

No:

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

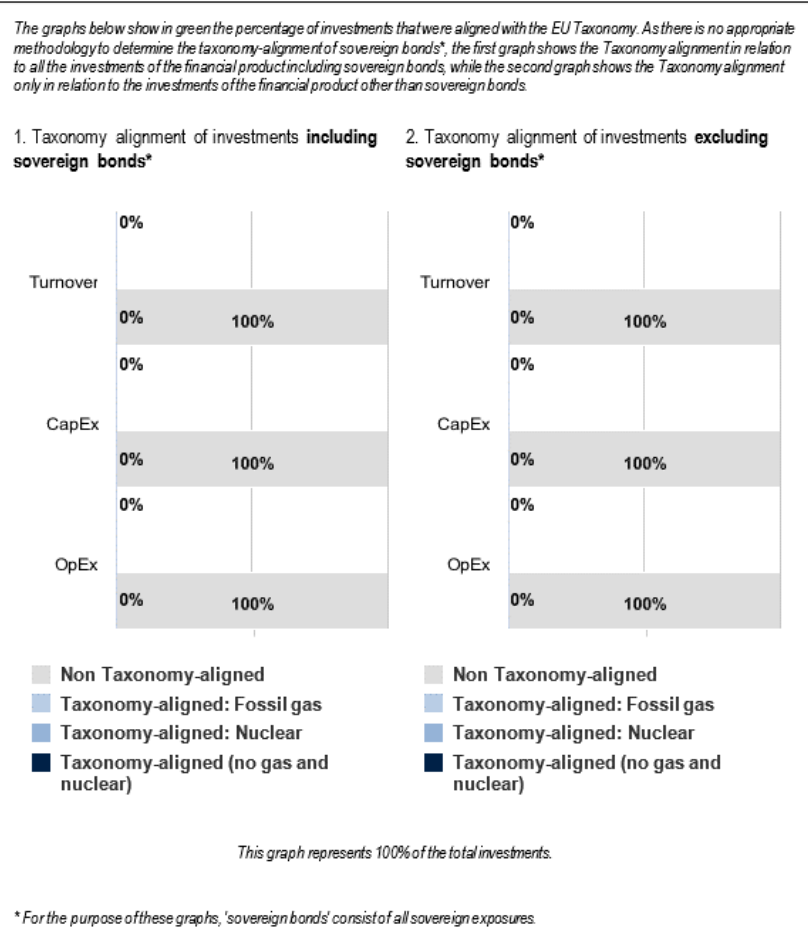

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- turnover reflecting the share of revenue from green activities of investee companies.
- capital expenditure (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- operational expenditure (OpEx) reflecting green operational activities of investee companies.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

What was the share of investments made in transitional and enabling activities?

Not applicable.

How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

Not applicable.

 are sustainable investments with an environmental objective that do not take into account the criteria for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

Not applicable.

What was the share of socially sustainable investments?

Not applicable.

What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

Within the sub-category "#2 Other", 8% of the Product's assets were made up of derivatives (for efficient portfolio management and hedging), cash held for ancillary liquidity or defensive market positioning.

No minimum environmental or social safeguards were applied to the 8% of assets made up of derivatives and cash.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Product utilised the application of the Exclusion List, the Investment Manager's ESG Impact Ratings, and issuers' Scope 1 and Scope 2 emissions intensity to meet the Sustainability Characteristics outlined above. While the Investment Manager does engage with issuers, the Product does not seek to use engagement as a primary strategy for

attaining the Sustainability Characteristics it promotes.

How did this financial product perform compared to the reference benchmark?

Not applicable.

How does the reference benchmark differ from a broad market index?

Not applicable.

How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

Not applicable.

How did this financial product perform compared with the reference benchmark?

Not applicable.

How did this financial product perform compared with the broad market index?

Not applicable.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

Environmental and/or social characteristics

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Did this financial product have a sustainable investment objective?	
<input type="checkbox"/> Yes	<input checked="" type="checkbox"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective : ___% <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> It made sustainable investments with a social objective : ___%	<input type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with a social objective <input checked="" type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The Fund (defined in these periodic disclosures as the "Product") promoted three primary environmental and social characteristics (each a "Sustainability Characteristic" and together the "Sustainability Characteristics") during the period 01 July 2022 – 30 June 2023 ("Reference Period") as set out below:

- 1) The Product promoted the avoidance of certain ESG related activities and/or controversies that were deemed harmful ("Sustainability Characteristic 1").
- 2) The Product:
 - a. promoted the reduction of investment in issuers that the Investment Manager has determined either (i) have severe net negative impacts on the environment/society and/or (ii) have material negative impacts on the environment/society that are not, in the Investment Manager's view, being credibly addressed ("Sustainability Characteristic 2a") and
 - b. promoted increased investment in issuers within the investable universe that the Investment Manager determines have more positive impacts on the environment and/or society ("Sustainability Characteristic 2b").
- 3) The Product:
 - a. promoted the avoidance of issuers that the Investment Manager deems to be among the most Greenhouse Gas (GHG) emission intensive (incl. Scope 1 and Scope 2 emissions) ("Sustainability Characteristic 3a") and
 - b. promoted increased investment in issuers within the investable universe that have lower carbon intensity (measured by Scope 1 and Scope 2 metric tons of carbon dioxide equivalent emissions per million USD in sales) ("Sustainability Characteristic 3b")

The extent to which each Sustainability Characteristic was attained is discussed in more detail under the next question, "How did the sustainability indicators perform?".

How did the sustainability indicators perform?

- **Sustainability Characteristic 1:**
In order to measure the Product's promotion of Sustainability Characteristic 1, the Product excluded issuers:

- that violate the UN Global Compact Principles
- that are involved in the production, sale and/or distribution of nuclear or other controversial weapons (including landmines, cluster weapons, depleted uranium, white phosphorous, incendiary weapons and biological/chemical weapons)
- deriving at least 50% of revenues from gambling activities
- deriving at least 20% of revenues from thermal coal generation
- deriving at least 10% of revenues from thermal coal extraction
- that are conventional weapon manufacturers and/or service providers (companies that provide services for civilian firearms and/or military equipment, including maintenance, repair, testing, transport and similar activities) deriving at least 10% of revenues from such activities
- deriving at least 10% of revenues from arctic oil & gas extraction
- deriving at least 10% of revenues from oil sands extraction and processing (oil sands processing includes activities such as upgrading and refining)
- that are tobacco manufacturers deriving at least 5% of revenues from such activities.

A list containing the issuers to be excluded was maintained by the Investment Manager (“Exclusion List”) in reliance on an external screening agent or agents.

Green Bonds that the Investment Manager determined to have at least a medium impact (i.e. at least 15 points higher) versus the issuer’s conventional bonds and whose PGIM Fixed Income ESG Impact Rating (“ESG Impact Rating”) of that specific issuance is above 40, were exempt from the environmental binding restrictions (i.e. surpass the revenue thresholds for thermal coal generation, thermal coal extraction, arctic oil & gas extraction, oil sands extraction and processing, and Scope 1 and Scope 2 emissions intensity of more than 3,000 tCO₂e per million USD sales). However, if they violated any of the non-environmental restrictions, they were not exempt from this Exclusion List.

The Sustainability Indicator for Sustainability Characteristic 1 is whether or not the issuer is on the Exclusion List. Investments that are not on the Exclusion List will be considered to have attained Sustainability Characteristic 1.

For the Reference Period, the Exclusion List process was followed and there were no advertent breaches of this process to report. To the extent that an existing position may have been subsequently added to the Exclusion List, such security would have been disposed of in accordance with PGIM Fixed Income’s UCITS ESG Policy Statement (the “Investment Manager’s ESG Policy”).

The Investment Manager considers that 96% of the Product promoted Sustainability Characteristic 1. The remaining 4% of the Product was allocated to assets in the #2 Other category (primarily cash and hedging instruments – see the section on asset allocation below for more details). Therefore, Sustainability Characteristic 1 was considered attained for the Reference Period (on the basis that 65% was the expected minimum proportion of the Product’s assets that would promote Sustainability Characteristic 1).

• **Sustainability Characteristic 2a:**

In order to measure the Product’s promotion of Sustainability Characteristic 2a, the Product excluded issuers with an ESG Impact Rating of under 40.

The Sustainability Indicator for Sustainability Characteristic 2a is an investment’s ESG Impact Rating.

Investments that have an ESG Impact Rating of 40 or above will be considered to have attained Sustainability Characteristic 2a.

For the Reference Period, the above ESG Impact Ratings requirement was monitored as part of the guideline monitoring process and there were no advertent breaches of this criteria. To the extent that an existing position did not meet the applicable criteria determined by the Investment Manager, the Investment Manager would have taken such action as described in the Investment Manager’s ESG Policy.

The Investment Manager considers that 96% of the Product promoted Sustainability Characteristic 2a. The remaining 4% of the Product was allocated to assets in the #2 Other category (primarily cash and hedging instruments – see the section on asset allocation below for more details). Therefore, Sustainability Characteristic 2a was considered attained for the Reference Period (on the basis that 60% was the expected minimum proportion of the Product’s assets that would promote Sustainability Characteristic 2a).

• **Sustainability Characteristic 2b:**

In order to measure the Product’s promotion of Sustainability Characteristic 2b, the Product achieved a weighted-average ESG Impact Rating of the portfolio that is higher than the weighted-average ESG Impact Rating of the Benchmark.

The Sustainability Indicator for Sustainability Characteristic 2b is the weighted-average ESG Impact Rating of the portfolio.

Sustainability Characteristic 2b will be considered attained if the weighted-average ESG Impact Rating of the portfolio is greater than the weighted-average ESG Impact Rating of the Benchmark.

For the Reference Period, the weighted-average ESG Impact Rating of the portfolio and the Benchmark were monitored as part of the guideline monitoring process and the portfolio's weighted-average ESG Impact Rating did not fall below that of the Benchmark during the Reference Period. Therefore, Sustainability Characteristic 2b was considered attained for the Reference Period.

• **Sustainability Characteristic 3a:**

In order to measure the Product's promotion of Sustainability Characteristic 3a, the Product excluded issuers who have a Scope 1 and Scope 2 emissions intensity of more than 3,000 tCO₂e per million USD sales.

The Sustainability Indicator for Sustainability Characteristic 3a is an investment's Scope 1 and Scope 2 emissions intensity of sales.

Investments that have a Scope 1 and Scope 2 emissions intensity of sales of no more than 3,000 tCO₂e per million USD sales will be considered to have attained Sustainability Characteristic 3a.

For the Reference Period, investments' Scope 1 and Scope 2 emissions intensity of sales was monitored as part of the guideline monitoring process, and there were no advertant breaches of this process to report. To the extent that an existing position may have had a Scope 1 and Scope 2 emissions intensity of more than 3,000 tCO₂e per million USD sales, the Investment Manager would have taken such action as described in the Investment Manager's ESG Policy.

The Investment Manager considers that 96% of the Product promoted Sustainability Characteristic 3a. The remaining 4% of the Product was allocated to assets in the #2 Other category (primarily cash and hedging instruments – see the section on asset allocation below for more details). Therefore, Sustainability Characteristic 3a was considered attained for the Reference Period (on the basis that 65% was the expected minimum proportion of the Product's assets that would promote Sustainability Characteristic 3a).

• **Sustainability Characteristic 3b:**

In order to measure the Product's promotion of Sustainability Characteristic 3b, the Product achieved a weighted-average Scope 1 and Scope 2 emissions intensity of the portfolio that is 33% lower than the weighted-average Scope 1 and Scope 2 emissions intensity of the Benchmark.

The Sustainability Indicator for Sustainability Characteristic 3b is the weighted-average Scope 1 and Scope 2 emissions intensity of the portfolio.

Sustainability Characteristic 3b will be considered attained if the weighted-average Scope 1 and Scope 2 emissions intensity is 33% lower than the weighted-average Scope 1 and Scope 2 emissions intensity of the Benchmark.

For the Reference Period, the weighted-average Scope 1 and Scope 2 emissions intensity of the portfolio and the Benchmark were monitored as part of the guideline monitoring process. The portfolio's weighted-average Scope 1 and Scope 2 emissions intensity was at least 33% below that of the Benchmark during the Reference Period. Therefore, Sustainability Characteristic 3b was considered attained for the Reference Period.

...and compared to previous periods?

Not applicable, this is the first period in which the Product is required to make disclosures regarding the performance of the sustainability indicators.

What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

Not applicable.

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

Not applicable.

How were the indicators for adverse impacts on sustainability factors taken into account?

Not applicable.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Not applicable.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The Product's consideration of principal adverse impacts was generally achieved through the assignment of ESG Impact Ratings, which requires assessing investments against negative and positive ESG impacts relevant to the industry and/or issuer. This ESG impact assessment is distinct from the assessment of Sustainability Risk i.e. the risk that ESG events could affect the financial/economic value of its clients' investments. In addition, issuers involved in specific activities deemed to have particularly negative impacts were excluded from the Product's investible universe.

What were the top investments of this financial product?

Largest investments	Sector	% Assets	Country
United States Treasury Note	US Government	3.25%	United States
United States Treasury Note	US Government	2.49%	United States
United States Treasury Note	US Government	2.25%	United States
United States Treasury Note	US Government	2.09%	United States
Bellis Finco Plc	High Yield	1.25%	United Kingdom
Ford Motor Co	High Yield	1.17%	United States
Altice France SA	High Yield	1.08%	France
Cellnex Telecom SA	High Yield	0.94%	Spain
Vmed O2 UK Financing I Plc	High Yield	0.91%	United Kingdom
Bombardier Inc	High Yield	0.79%	Canada
eG Global Finance Plc	High Yield	0.79%	United Kingdom

Portfolio Exposure as of 30.06.23. It does not represent an average for the reporting period and is not representative of the Portfolio Exposure at any other day of the financial year.

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is: as at June 2023

What was the proportion of sustainability-related investments?

What was the asset allocation?

Asset allocation describes the share of investments in specific assets.

#1 Aligned with E/S characteristics – 96%

96% of the Product's assets were in investments which, in addition to seeking to attain the broader economic objectives and investment strategy of the Product, were aligned with one or more of the E/S characteristics of the Product (the "E/S Alignment Contribution"). This E/S Alignment Contribution was calculated as follows:

1) for each quarter end during the Reference Period, calculating the percentage of the market value of all assets of the Product (including derivatives and cash) which was comprised of assets promoting one or more of the Sustainability Characteristics; and then

2) calculating the average of the quarter-end percentages.

In the first step of this E/S Alignment Contribution calculation, the numerator was the market value of the underlying E/S aligned investments of the Product, and the denominator was the market value of all the underlying assets of the Product.

#1A Sustainable: The Manager did not make "sustainable investments", as defined under SFDR.

#1B Other E/S characteristics: All of the category #1 investments were aligned with the environmental or social characteristics promoted by the Product.

#2 Other – 4%

4% of the Product's assets were in investments which fell within the sub-category "#2 Other". Within the sub-category "#2 Other", the Product's assets were made up of derivatives (for efficient portfolio management and hedging) and cash held for ancillary liquidity or defensive market positioning.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

In which economic sectors were the investments made?

Sector	% Assets
US Government	10.20%
IG Corporates	4.75%
High Yield	80.50%
Bank Loan	1.39%
Emerging Markets	2.00%
Cash & Equivalents	1.16%

Portfolio Exposure as of 30.06.23. It does not represent an average for the reporting period and is not representative of the Portfolio Exposure at any other day of the financial year.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The Product does not currently commit to invest in any Sustainable Investments within the meaning of the SFDR, accordingly the minimum share of EU Taxonomy-aligned investments is 0%.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

Yes:

In fossil gas

In nuclear energy

No:

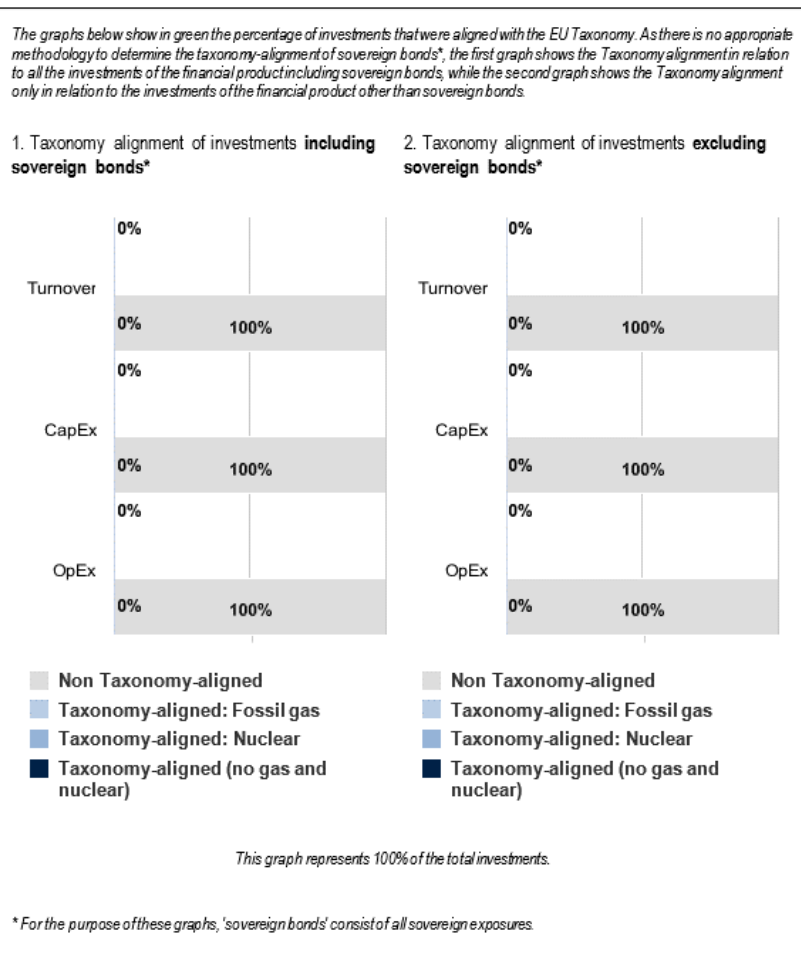

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Taxonomy-aligned activities are expressed as a share of:

- turnover reflecting the share of revenue from green activities of investee companies.
- capital expenditure (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- operational expenditure (OpEx) reflecting green operational activities of investee companies.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure (CapEx)** showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure (OpEx)** reflecting green operational activities of investee companies.

What was the share of investments made in transitional and enabling activities?

Not applicable.

How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

Not applicable.

are sustainable investments with an environmental objective that do not take into account the criteria for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

Not applicable.

What was the share of socially sustainable investments?

Not applicable.

What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

Within the sub-category "#2 Other", 4% of the Product's assets were made up of derivatives (for efficient portfolio management and hedging) and cash held for ancillary liquidity or defensive market positioning.

No minimum environmental or social safeguards were applied to the 4% of assets made up of derivatives and cash.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Product utilised the application of the Exclusion List, the Investment Manager's ESG Impact Ratings, and issuers' Scope 1 and Scope 2 emissions intensity to meet the Sustainability Characteristics outlined above. While the Investment Manager does engage with issuers, the Product does not seek to use engagement as a primary strategy for attaining the Sustainability Characteristics it promotes.

How did this financial product perform compared to the reference benchmark?

Not applicable.

How does the reference benchmark differ from a broad market index?

Not applicable.

How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

Not applicable.

How did this financial product perform compared with the reference benchmark?

Not applicable.

How did this financial product perform compared with the broad market index?

Not applicable.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

Product name:
PGIM Global Select Real Estate Securities Fund

Legal entity identifier:
549300IH5W8DZX86DH89

Environmental and/or social characteristics

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Did this financial product have a sustainable investment objective?	
<input type="checkbox"/> Yes	<input checked="" type="checkbox"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective: ___% <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> It made sustainable investments with a social objective: ___%	<input type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with a social objective <input checked="" type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The Fund (defined herein as the “Product”) reclassified from an Article 6 fund to an Article 8 fund under the SFDR effective June 12, 2023 (the “Transition Date”). For the period beginning from the Transition Date through June 30, 2023, the environmental and/or social characteristics promoted by the Product were met.

Accordingly, the Product promoted the environmental and social characteristics (each a “Sustainability Characteristic” and together the “Sustainability Characteristics”) as set out below.

- 1) The Product promoted the reduction in carbon dioxide (CO2) emissions through investment in issuers within the investable universe that have lower carbon intensity (measured by carbon dioxide emissions per EUR million in revenue) (“Sustainability Characteristic 1”).
- 2) The Product promoted the reduction of investment in issuers that the Investment Manager determined have material negative impacts on society that are, in the Investment Manager’s view, detrimental to society and/or inconsistent with PGIM Real Estate’s commitment to diversity, equity, and inclusion (“Sustainability Characteristic 2”).
- 3) The Product promoted various environmental and social characteristics by ensuring that the portfolio had an equally weighted average proprietary ESG ranking score that exceeded that of the benchmark of the Product, FTSE EPRA NAREIT Developed Index (the “Benchmark”) (“Sustainability Characteristic 3”).

How did the sustainability indicators perform?

The Product reclassified from an Article 6 fund to an Article 8 fund under the SFDR effective from the Transition Date.

Sustainability Characteristic 1

In order to measure the Product’s promotion of Sustainability Characteristic 1, the Product excluded issuers who had a Scope 1, Scope 2 and estimated Scope 3 emissions intensity of more than 1,000 tCO2e per million EUR revenue.

The Sustainability Indicator for Sustainability Characteristic 1 is an investment’s Scope 1, Scope 2 and estimated Scope 3 emissions intensity of revenue. Investments that have a Scope 1, Scope 2 and estimated Scope 3 emissions intensity of sales of no more than 1,000 tCO2e per million EUR revenue are considered to have attained Sustainability

Characteristic 1.

Sustainability Characteristic 2

In order to measure the Product's promotion of Sustainability Characteristic 2, the Product excluded issuers (the "Excluded Issuers"):

- that derived any revenues from privately operated prisons;
- that derived any revenues from cannabis storage;
- that derived 25% or more of revenues from casinos;
- that violated the UN Global Compact Principles;
- that violated the OECD Guidelines for Multinational Enterprises;
- that are on the Norges Bank and SVVK exclusion lists.

The Sustainability Indicator for Sustainability Characteristic 2 is whether or not the issuer is an Excluded Issuer. Investments that are not issued by Excluded Issuers are considered to have attained Sustainability Characteristic 2.

Sustainability Characteristic 3

In order to measure the Product's promotion of Sustainability Characteristic 3, the Product applied the equally weighted average proprietary ESG ranking process, which, together with other factors, makes up the Product's proprietary ESG ranking.

The Sustainability Indicator for Sustainability Characteristic 3 is that the Product's equally weighted average proprietary ESG ranking score exceeds that of the Benchmark. In this equally weighted average approach, each holding in the Product is weighted equally, regardless of its relative weight in the Product. Likewise, each constituent in the Benchmark is weighted equally, regardless of its relative weight in the Benchmark.

...and compared to previous periods?

Not applicable, this is the first period in which the Product is required to make disclosures regarding the performance of the sustainability indicators.

What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

Not applicable.

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

Not applicable.

How were the indicators for adverse impacts on sustainability factors taken into account?

Not applicable.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Not applicable.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The Product considered the principal adverse impacts on sustainability factors through the consideration of MSCI reports on environmental and social issues ("PAI Sustainability Indicators"). The negative impacts of such PAI Sustainability Indicators on the sustainability factors considered and prioritised by the Investment Manager varied depending on the industry and/or individual company but included the mandatory and additional PAI Sustainability Indicators as set out under the regulatory technical standards published by the European supervisory authorities in accordance with the SFDR. In addition, companies involved in specific activities deemed to have particularly negative impacts were excluded from the Product's investible universe such as conflicts with the UNGC Principles, gambling, privately operated prisons and cannabis as described in the list of Excluded Issuers above.

What were the top investments of this financial product?

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is: as at June 2023

Largest investments	Sector	% Assets	Country
Welltower Inc	Real Estate	7.84%	United States
Prologis Inc	Real Estate	7.50%	United States
Equinix Inc	Real Estate	4.90%	United States
Digital Realty Trust Inc	Real Estate	4.23%	United States
Sun Communities Inc	Real Estate	3.77%	United States
Ventas Inc	Real Estate	3.40%	United States
Equity Residential	Real Estate	3.35%	United States
Life Storage Inc	Real Estate	3.21%	United States
Americold Realty Trust Inc	Real Estate	2.78%	United States
Mitsui Fudosan Co Ltd	Real Estate	2.67%	Japan
Rexford Industrial Realty Inc	Real Estate	2.56%	United States
Essential Properties Realty Trust Inc	Real Estate	2.42%	United States
Apartment Income REIT Corp	Real Estate	2.34%	United States
Kilroy Realty Corp	Real Estate	2.26%	United States
Sun Hung Kai Properties Ltd	Real Estate	2.24%	Hong Kong

Portfolio Exposure as of 30.06.23. It does not represent an average for the reporting period and is not representative of the Portfolio Exposure at any other day of the financial year.

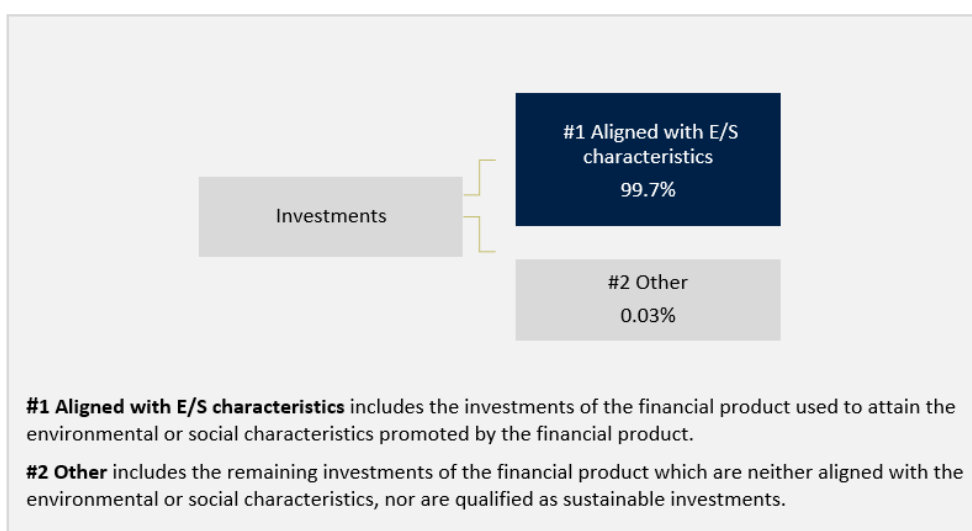

What was the proportion of sustainability-related investments?

As the Sustainability Characteristic is measured at the portfolio level, all equity investments in the portfolio were sustainability-related investments.

What was the asset allocation?

Asset allocation describes the share of investments in specific assets.

At the end of the reference period, June 30, 2023, the Product's asset allocation was as follows:

- i. Investments
 1. #1 Aligned with E/S Characteristics
99.7%
 2. #2 Other
0.3%

In which economic sectors were the investments made?

Sector	% Assets
Real Estate	99.7%
Cash & Equivalents	0.03%

Portfolio Exposure as of 30.06.23. It does not represent an average for the reporting period and is not representative of the Portfolio Exposure at any other day of the financial year.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The Product does not currently commit to invest in any Sustainable Investments within the meaning of the SFDR, accordingly the minimum share of EU Taxonomy-aligned investments is 0%.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

Yes:

In fossil gas

In nuclear energy

No:

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

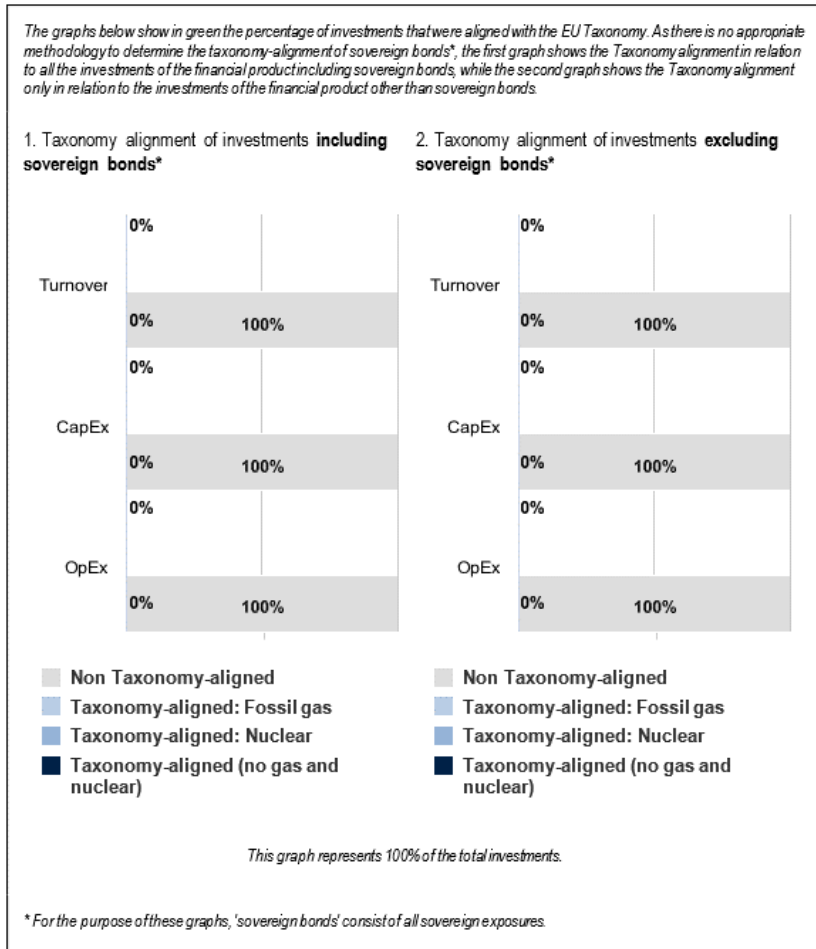

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:
 - turnover reflecting the share of revenue from green activities of investee companies.
 - capital expenditure (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
 - operational expenditure (OpEx) reflecting green operational activities of investee companies.

Taxonomy-aligned activities are expressed as a share of:
 - **turnover** reflecting the share of revenue from green activities of investee companies.
 - **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
 - **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

What was the share of investments made in transitional and enabling activities?

Not applicable.

How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

Not applicable.

are sustainable investments with an environmental objective **that do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

Not applicable.

What was the share of socially sustainable investments?

Not applicable.

What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

The Investments considered under "#2 Other" are primarily used for liquidity management, hedging purposes and defensive market positioning. Investments may also include some securities to which ESG sustainability indicators are intended to be applied but which are not used to attain the Sustainability Characteristics.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The following binding elements of the Product's investment strategy were applied during the reference period to select the investments to attain each of the environmental or social characteristics:

Sustainability Characteristic 1

As part of its investment strategy, the Product imposed the following binding elements in order to attain Sustainability Characteristic 1: The Product excluded issuers who have a Scope 1, Scope 2 and estimated Scope 3 emissions intensity of more than 1,000 tCO₂e per million EUR revenue.

Sustainability Characteristic 2

As part of its investment strategy, the Product imposed the following binding elements in order to attain Sustainability Characteristic 2: The Product excluded all Excluded Issuers:

Sustainability Characteristic 3

The Product applied portfolio level binding elements to achieve an equally weighted average proprietary ESG ranking score that exceeded that of the Benchmark.

How did this financial product perform compared to the reference benchmark?

Not applicable.

How does the reference benchmark differ from a broad market index?

Not applicable.

How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

Not applicable.

How did this financial product perform compared with the reference benchmark?

Not applicable.

How did this financial product perform compared with the broad market index?

Not applicable.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

Environmental and/or social characteristics

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Did this financial product have a sustainable investment objective?

Yes

No

- It made **sustainable investments with an environmental objective**: ___%
- in economic activities that qualify as environmentally sustainable under the EU Taxonomy
 - in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

It made **sustainable investments with a social objective**: ___%

- It promoted **Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments
- with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
 - with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
 - with a social objective
- It promoted E/S characteristics, but **did not make any sustainable investments**

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The Fund (defined in these periodic disclosures as the "Product") promoted three primary environmental and social characteristics (each a "Sustainability Characteristic" and together the "Sustainability Characteristics") during the period 01 July 2022 – 30 June 2023 ("Reference Period") as set out below:

- 1) The Product promoted the avoidance of certain ESG related activities and/or controversies that were deemed harmful ("Sustainability Characteristic 1").
- 2) The Product:
 - a. promoted the reduction of investment in issuers that the Investment Manager has determined either (i) have severe net negative impacts on the environment/society and/or (ii) have material negative impacts on the environment/society that are not, in the Investment Manager's view, being credibly addressed ("Sustainability Characteristic 2a") and
 - b. promoted increased investment in issuers within the investable universe that the Investment Manager determines have more positive impacts on the environment and/or society ("Sustainability Characteristic 2b").
- 3) The Product:
 - a. promoted the avoidance of issuers that the Investment Manager deems to be among the most Greenhouse Gas (GHG) emission intensive (incl. Scope 1 and Scope 2 emissions) ("Sustainability Characteristic 3a") and
 - b. promoted increased investment in issuers within the investable universe that have lower carbon intensity (measured by Scope 1 and Scope 2 metric tons of carbon dioxide equivalent emissions per million USD in sales) ("Sustainability Characteristic 3b")

The extent to which each Sustainability Characteristic was attained is discussed in more detail under the next question, "How did the sustainability indicators perform?".

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

How did the sustainability indicators perform?

• Sustainability Characteristic 1:

In order to measure the Product's promotion of Sustainability Characteristic 1, the Product excluded issuers:

- that violate the UN Global Compact Principles
- that are involved in the production, sale and/or distribution of nuclear or other controversial weapons (including landmines, cluster weapons, depleted uranium, white phosphorous, incendiary weapons and biological/chemical weapons)
- deriving at least 50% of revenues from gambling activities
- deriving at least 20% of revenues from thermal coal generation
- deriving at least 10% of revenues from thermal coal extraction
- that are conventional weapon manufacturers and/or service providers (companies that provide services for civilian firearms and/or military equipment, including maintenance, repair, testing, transport and similar activities) deriving at least 10% of revenues from such activities
- deriving at least 10% of revenues from arctic oil & gas extraction
- deriving at least 10% of revenues from oil sands extraction and processing (oil sands processing includes activities such as upgrading and refining)
- that are tobacco manufacturers deriving at least 5% of revenues from such activities.

A list containing the issuers to be excluded was maintained by the Investment Manager ("Exclusion List") in reliance on an external screening agent or agents.

Green Bonds that the Investment Manager determined to have at least a medium impact (i.e. at least 15 points higher) versus the issuer's conventional bonds and whose PGIM Fixed Income ESG Impact Rating ("ESG Impact Rating") of that specific issuance is above 40, were exempt from the environmental binding restrictions (i.e. surpass the revenue thresholds for thermal coal generation, thermal coal extraction, arctic oil & gas extraction, oil sands extraction and processing, and Scope 1 and Scope 2 emissions intensity of more than 3,000 tCO₂e per million USD sales). However, if they violated any of the non-environmental restrictions, they were not exempt from this Exclusion List.

The Sustainability Indicator for Sustainability Characteristic 1 is whether or not the issuer is on the Exclusion List. Investments that are not on the Exclusion List will be considered to have attained Sustainability Characteristic 1.

For the Reference Period, the Exclusion List process was followed and there were no advertent breaches of this process to report. To the extent that an existing position may have been subsequently added to the Exclusion List, such security would have been disposed of in accordance with PGIM Fixed Income's UCITS ESG Policy Statement (the "Investment Manager's ESG Policy").

The Investment Manager considers that 98% of the Product promoted Sustainability Characteristic 1. The remaining 2% of the Product was allocated to assets in the #2 Other category (primarily cash and hedging instruments – see the section on asset allocation below for more details). Therefore, Sustainability Characteristic 1 was considered attained for the Reference Period (on the basis that 65% was the expected minimum proportion of the Product's assets that would promote Sustainability Characteristic 1).

• Sustainability Characteristic 2a:

In order to measure the Product's promotion of Sustainability Characteristic 2a, the Product excluded issuers with an ESG Impact Rating of under 40.

The Sustainability Indicator for Sustainability Characteristic 2a is an investment's ESG Impact Rating.

Investments that have an ESG Impact Rating of 40 or above will be considered to have attained Sustainability Characteristic 2a.

For the Reference Period, the above ESG Impact Ratings requirement was monitored as part of the guideline monitoring process and there were no advertent breaches of this criteria. To the extent that an existing position did not meet the applicable criteria determined by the Investment Manager, the Investment Manager would have taken such action as described in the Investment Manager's ESG Policy.

The Investment Manager considers that 98% of the Product promoted Sustainability Characteristic 2a. The remaining 2% of the Product was allocated to assets in the #2 Other category (primarily cash and hedging instruments – see the section on asset allocation below for more details). Therefore, Sustainability Characteristic 2a was considered attained for the Reference Period (on the basis that 60% was the expected minimum proportion of the Product's assets that would promote Sustainability Characteristic 2a).

• Sustainability Characteristic 2b:

In order to measure the Product's promotion of Sustainability Characteristic 2b, the Product achieved a weighted-average ESG Impact Rating of the portfolio that is higher than the weighted-average ESG Impact Rating of the Bloomberg US Universal ex Treasury ex MBS Index (the "Relevant Index").

The Sustainability Indicator for Sustainability Characteristic 2b is the weighted-average ESG Impact Rating of the portfolio.

Sustainability Characteristic 2b will be considered attained if the weighted-average ESG Impact Rating of the portfolio is greater than the weighted-average ESG Impact Rating of the Relevant Index.

For the Reference Period, the weighted-average ESG Impact Rating of the portfolio and the Relevant Index were monitored as part of the guideline monitoring process and the portfolio's weighted-average ESG Impact Rating did not fall below that of the Relevant Index during the Reference Period. Therefore, Sustainability Characteristic 2b was considered attained for the Reference Period.

• **Sustainability Characteristic 3a:**

In order to measure the Product's promotion of Sustainability Characteristic 3a, the Product excluded issuers who have a Scope 1 and Scope 2 emissions intensity of more than 3,000 tCO₂e per million USD sales.

The Sustainability Indicator for Sustainability Characteristic 3a is an investment's Scope 1 and Scope 2 emissions intensity of sales.

Investments that have a Scope 1 and Scope 2 emissions intensity of sales of no more than 3,000 tCO₂e per million USD sales will be considered to have attained Sustainability Characteristic 3a.

For the Reference Period, investments' Scope 1 and Scope 2 emissions intensity of sales was monitored as part of the guideline monitoring process, and there were no advertant breaches of this process to report. To the extent that an existing position may have had a Scope 1 and Scope 2 emissions intensity of more than 3,000 tCO₂e per million USD sales, the Investment Manager would have taken such action as described in the Investment Manager's ESG Policy.

The Investment Manager considers that 98% of the Product promoted Sustainability Characteristic 3a. The remaining 2% of the Product was allocated to assets in the #2 Other category (primarily cash and hedging instruments – see the section on asset allocation below for more details). Therefore, Sustainability Characteristic 3a was considered attained for the Reference Period (on the basis that 65% was the expected minimum proportion of the Product's assets that would promote Sustainability Characteristic 3a).

• **Sustainability Characteristic 3b:**

In order to measure the Product's promotion of Sustainability Characteristic 3b, the Product achieved a weighted-average Scope 1 and Scope 2 emissions intensity of the portfolio that is 33% lower than the weighted-average Scope 1 and Scope 2 emissions intensity of the Relevant Index.

The Sustainability Indicator for Sustainability Characteristic 3b is the weighted-average Scope 1 and Scope 2 emissions intensity of the portfolio.

Sustainability Characteristic 3b will be considered attained if the weighted-average Scope 1 and Scope 2 emissions intensity is 33% lower than the weighted-average Scope 1 and Scope 2 emissions intensity of the Relevant Index.

For the Reference Period, the weighted-average Scope 1 and Scope 2 emissions intensity of the portfolio and the Relevant Index were monitored as part of the guideline monitoring process. The portfolio's weighted-average Scope 1 and Scope 2 emissions intensity was at least 33% below that of the Relevant Index during the Reference Period. Therefore, Sustainability Characteristic 3b was considered attained for the Reference Period.

...and compared to previous periods?

Not applicable, this is the first period in which the Product is required to make disclosures regarding the performance of the sustainability indicators.

What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

Not applicable.

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

Not applicable.

How were the indicators for adverse impacts on sustainability factors taken into account?

Not applicable.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Not applicable.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The Product's consideration of principal adverse impacts was generally achieved through the assignment of ESG Impact Ratings, which requires assessing investments against negative and positive ESG impacts relevant to the industry and/or issuer. This ESG impact assessment is distinct from the assessment of Sustainability Risk i.e. the risk that ESG events could affect the financial/economic value of its clients' investments. In addition, issuers involved in specific activities deemed to have particularly negative impacts were excluded from the Product's investible universe.

What were the top investments of this financial product?

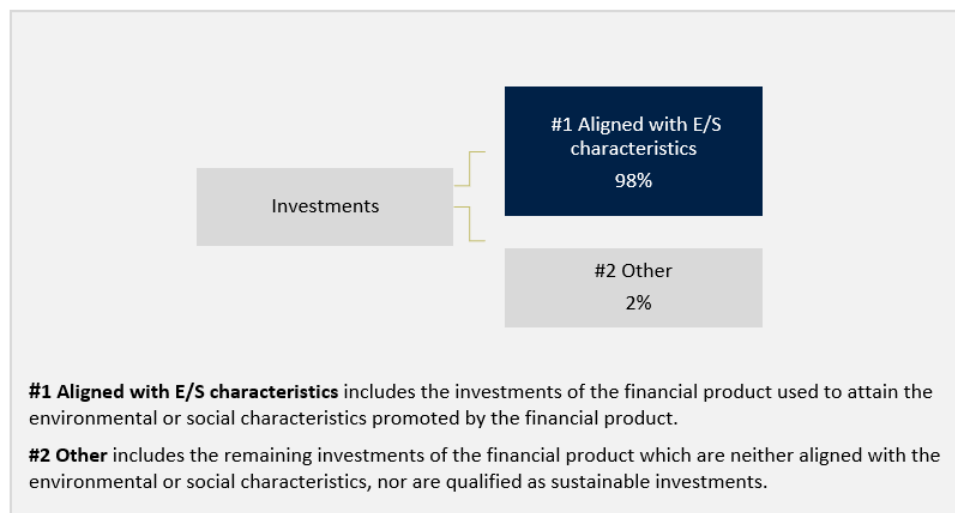

Largest investments	Sector	% Assets	Country
Agricultural Development Bank of China	IG Corporates	2.62%	China
United States Treasury Note	US Government	2.18%	United States
United States Treasury Bond	US Government	1.57%	United States

Portfolio Exposure as of 30.06.23. It does not represent an average for the reporting period and is not representative of the Portfolio Exposure at any other day of the financial year.

What was the proportion of sustainability-related investments?

What was the asset allocation?

Asset allocation describes the share of investments in specific assets.

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is: as at June 2023

#1 Aligned with E/S characteristics – 98%

98% of the Product's assets were in investments which, in addition to seeking to attain the broader economic objectives and investment strategy of the Product, were aligned with one or more of the E/S characteristics of the Product (the "E/S Alignment Contribution"). This E/S Alignment Contribution was calculated as follows:

- 1) for each quarter end during the Reference Period, calculating the percentage of the market value of all assets of the Product (including derivatives and cash) which was comprised of assets promoting one or more of the Sustainability Characteristics; and then
- 2) calculating the average of the quarter-end percentages.

In the first step of this E/S Alignment Contribution calculation, the numerator was the market value of the underlying E/S aligned investments of the Product, and the denominator was the market value of all the underlying assets of the Product.

#1A Sustainable: The Manager did not make "sustainable investments", as defined under SFDR.

#1B Other E/S characteristics: All of the category #1 investments were aligned with the environmental or social characteristics promoted by the Product.

#2 Other – 2%

2% of the Product's assets were in investments which fell within the sub-category "#2 Other". Within the sub-category "#2 Other", the Product's assets were made up of derivatives (for efficient portfolio management and hedging) and cash held for ancillary liquidity or defensive market positioning.

In which economic sectors were the investments made?

Sector	% Assets
US Government	10.49%
Non-US Government	9.93%
Agencies	0.26%
Non-Agency MBS	0.63%
ABS	2.81%
CMBS	2.07%
IG Corporates	39.71%
Non-US Govt Related	9.12%
High Yield	7.21%
Emerging Markets	15.64%
Municipals	0.33%
Swaps	-1.62%
Cash & Equivalents	3.42%

Portfolio Exposure as of 30.06.23. It does not represent an average for the reporting period and is not representative of the Portfolio Exposure at any other day of the financial year.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The Product does not currently commit to invest in any Sustainable Investments within the meaning of the SFDR, accordingly the minimum share of EU Taxonomy-aligned investments is 0%.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

Yes:

In fossil gas

In nuclear energy

No:

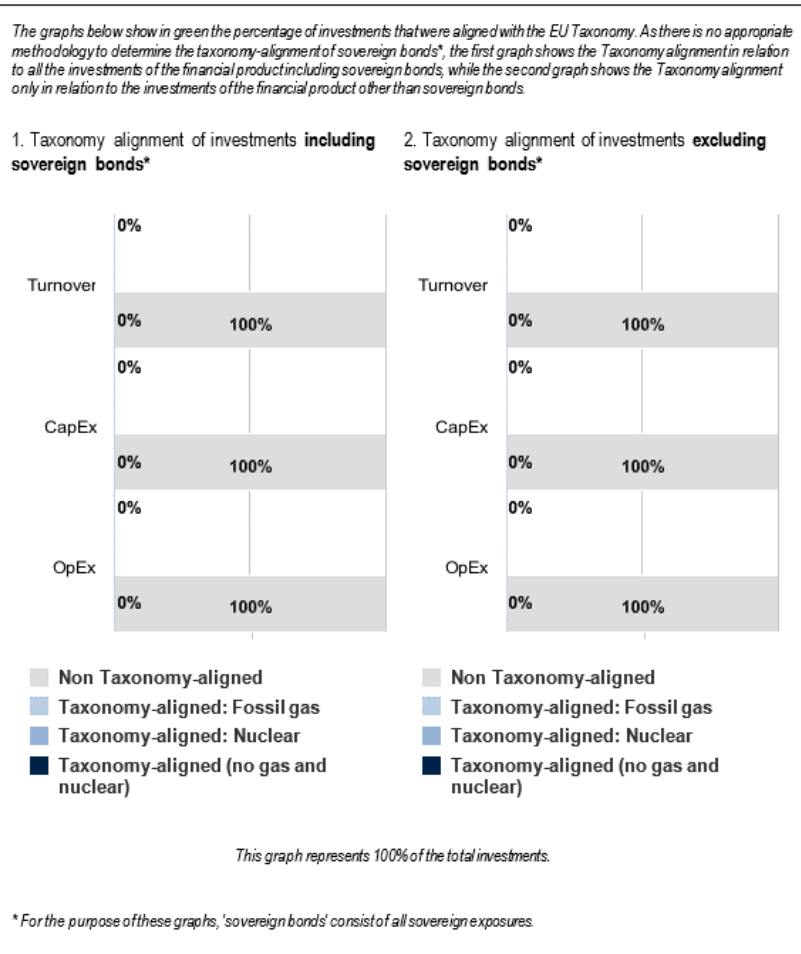

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Taxonomy-aligned activities are expressed as a share of:

- turnover reflecting the share of revenue from green activities of investee companies.
- capital expenditure (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- operational expenditure (OpEx) reflecting green operational activities of investee companies.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure (CapEx)** showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure (OpEx)** reflecting green operational activities of investee companies.

What was the share of investments made in transitional and enabling activities?

Not applicable.

How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

Not applicable.

are sustainable investments with an environmental objective **that do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

Not applicable.

What was the share of socially sustainable investments?

Not applicable.

What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

Within the sub-category "#2 Other", 2% of the Product's assets were made up of derivatives (for efficient portfolio management and hedging) and cash held for ancillary liquidity or defensive market positioning.

No minimum environmental or social safeguards were applied to the 2% of assets made up of derivatives and cash.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Product utilised the application of the Exclusion List, the Investment Manager's ESG Impact Ratings, and issuers' Scope 1 and Scope 2 emissions intensity to meet the Sustainability Characteristics outlined above. While the Investment Manager does engage with issuers, the Product does not seek to use engagement as a primary strategy for attaining the Sustainability Characteristics it promotes.

Environmental and/or social characteristics

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Did this financial product have a sustainable investment objective?	
<input type="checkbox"/> Yes	<input checked="" type="checkbox"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective : ___% <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> It made sustainable investments with a social objective : ___%	<input type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with a social objective <input checked="" type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The Fund (defined in these periodic disclosures as the "Product") promoted three primary environmental and social characteristics (each a "Sustainability Characteristic" and together the "Sustainability Characteristics") during the period 12 June 2023 – 30 June 2023 ("Reference Period") as set out below:

- 1) The Product promoted the avoidance of certain ESG related activities and/or controversies that were deemed harmful ("Sustainability Characteristic 1").
- 2) The Product:
 - a. promoted the reduction of investment in issuers that the Investment Manager has determined either (i) have severe net negative impacts on the environment/society and/or (ii) have material negative impacts on the environment/society that are not, in the Investment Manager's view, being credibly addressed ("Sustainability Characteristic 2a") and
 - b. promoted increased investment in issuers within the investable universe that the Investment Manager determines have more positive impacts on the environment and/or society ("Sustainability Characteristic 2b").
- 3) The Product promoted increased investment in issuers within the investable universe that have lower carbon intensity (measured by Scope 1 and Scope 2 metric tons of carbon dioxide equivalent emissions per million USD in sales) ("Sustainability Characteristic 3")

The extent to which each Sustainability Characteristic was attained is discussed in more detail under the next question, "How did the sustainability indicators perform?".

How did the sustainability indicators perform?

• **Sustainability Characteristic 1:**

In order to measure the Product's promotion of Sustainability Characteristic 1, the Product excluded issuers:

- that violate the UN Global Compact Principles
- that are involved in the production, sale and/or distribution of nuclear or other controversial weapons (including landmines, cluster weapons, depleted uranium, white phosphorous, incendiary weapons and biological/chemical

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

weapons)

- deriving at least 20% of revenues from thermal coal generation
- deriving at least 10% of revenues from thermal coal extraction
- that are conventional weapon manufacturers and/or service providers (companies that provide services for civilian firearms and/or military equipment, including maintenance, repair, testing, transport and similar activities) deriving at least 10% of revenues from such activities
- that are tobacco manufacturers deriving at least 5% of revenues from such activities.

A list containing the issuers to be excluded was maintained by the Investment Manager (“Exclusion List”) in reliance on an external screening agent or agents.

The Sustainability Indicator for Sustainability Characteristic 1 is whether or not the issuer is on the Exclusion List. Investments that are not on the Exclusion List will be considered to have attained Sustainability Characteristic 1.

For the Reference Period, the Exclusion List process was followed and there were no advertent breaches of this process to report. To the extent that an existing position may have been subsequently added to the Exclusion List, such security would have been disposed of in accordance with PGIM Fixed Income’s UCITS ESG Policy Statement (the “Investment Manager’s ESG Policy”).

The Investment Manager considers that 100% of the Product promoted Sustainability Characteristic 1. Therefore, Sustainability Characteristic 1 was considered attained for the Reference Period (on the basis that 65% was the expected minimum proportion of the Product’s assets that would promote Sustainability Characteristic 1).

• **Sustainability Characteristic 2a:**

The Product excluded issuers with a PGIM ESG Impact Rating (“ESG Impact Rating”) of under 20. However, only issuers with an ESG Impact Rating of 40 or above will be used to measure the Product’s promotion of Sustainability Characteristic 2a.

The Sustainability Indicator for Sustainability Characteristic 2a is an investment’s ESG Impact Rating.

For the Reference Period, the minimum ESG Impact Ratings requirement was monitored as part of the guideline monitoring process and there were no advertent breaches of this criteria. To the extent that an existing position did not meet the applicable criteria determined by the Investment Manager, the Investment Manager would have taken such action as described in the Investment Manager’s ESG Policy.

The Investment Manager considers that 92% of the Product promoted Sustainability Characteristic 2a. 8% of the Product’s assets were securities with an ESG Impact Rating between 20 and 35. Therefore, Sustainability Characteristic 2a was considered attained for the Reference Period (on the basis that no expected minimum proportion of the Product’s assets that would promote Sustainability Characteristic 2a was set).

• **Sustainability Characteristic 2b:**

In order to measure the Product’s promotion of Sustainability Characteristic 2b, the Product achieved a weighted-average ESG Impact Rating of the portfolio that is higher than the weighted-average ESG Impact Rating of the Benchmark.

The Sustainability Indicator for Sustainability Characteristic 2b is the weighted-average ESG Impact Rating of the portfolio.

Sustainability Characteristic 2b will be considered attained if the weighted-average ESG Impact Rating of the portfolio is greater than the weighted-average ESG Impact Rating of the Benchmark.

For the Reference Period, the weighted-average ESG Impact Rating of the portfolio and the Benchmark were monitored as part of the guideline monitoring process and the portfolio’s weighted-average ESG Impact Rating did not fall below that of the Benchmark during the Reference Period. Therefore, Sustainability Characteristic 2b was considered attained for the Reference Period.

• **Sustainability Characteristic 3:**

In order to measure the Product’s promotion of Sustainability Characteristic 3, the Product achieved a weighted-average Scope 1 and Scope 2 emissions intensity of the portfolio that is lower than the weighted-average Scope 1 and Scope 2 emissions intensity of the Benchmark.

The Sustainability Indicator for Sustainability Characteristic 3 is the weighted-average Scope 1 and Scope 2 emissions intensity of the portfolio.

Sustainability Characteristic 3 will be considered attained if the weighted average Scope 1 and Scope 2 emissions intensity is lower than the weighted-average Scope 1 and Scope 2 emissions intensity of the Benchmark. For the Reference Period, the weighted-average Scope 1 and Scope 2 emissions intensity of the portfolio and the Benchmark were monitored as part of the guideline monitoring process. The portfolio’s weighted-average Scope 1 and

Scope 2 emissions intensity was below that of the Benchmark during the Reference Period. Therefore, Sustainability Characteristic 3 was considered attained for the Reference Period.

...and compared to previous periods?

Not applicable, this is the first period in which the Product is required to make disclosures regarding the performance of the sustainability indicators.

What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

Not applicable.

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

Not applicable.

How were the indicators for adverse impacts on sustainability factors taken into account?

Not applicable.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Not applicable.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The Product's consideration of principal adverse impacts was generally achieved through the assignment of ESG Impact Ratings, which requires assessing investments against negative and positive ESG impacts relevant to the industry and/or issuer. This ESG impact assessment is distinct from the assessment of Sustainability Risk i.e. the risk that ESG events could affect the financial/economic value of its clients' investments. In addition, issuers involved in specific activities deemed to have particularly negative impacts were excluded from the Product's investible universe.

What were the top investments of this financial product?

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is: as at June 2023

Largest investments	Sector	% Assets	Country
Bank of America Corp	IG Corporates	2.00%	United States
Morgan Stanley	IG Corporates	1.70%	United States
Goldman Sachs Group Inc	IG Corporates	1.67%	United States
JPMorgan Chase & Co	IG Corporates	1.57%	United States

Portfolio Exposure as of 30.06.23. It does not represent an average for the reporting period and is not representative of the Portfolio Exposure at any other day of the financial year.

What was the proportion of sustainability-related investments?

What was the asset allocation?

Asset allocation describes the share of investments in specific assets.

#1 Aligned with E/S characteristics – 100%

100% of the Product's assets were in investments which, in addition to seeking to attain the broader economic objectives and investment strategy of the Product, were aligned with one or more of the E/S characteristics of the Product (the "E/S Alignment Contribution"). This E/S Alignment Contribution was calculated as follows:

- 1) for each quarter end during the Reference Period, calculating the percentage of the market value of all assets of the Product (including derivatives and cash) which was comprised of assets promoting one or more of the Sustainability Characteristics; and then
- 2) calculating the average of the quarter-end percentages.

In the first step of this E/S Alignment Contribution calculation, the numerator was the market value of the underlying

E/S aligned investments of the Product, and the denominator was the market value of all the underlying assets of the Product.

However, as the Product promoted a number of different Sustainability Characteristics during the Reference Period, it is not the case that all investments comprising the E/S Alignment Contribution promoted all of the different Sustainability Characteristics. A specific breakdown for each Sustainability Characteristic is outlined above under the heading "How did the sustainability indicators perform?".

In which economic sectors were the investments made?

Sector	% Assets
ABS	6.93%
CMBS	2.77%
IG Corporates	84.29%
Non-US Govt Related	0.70%
High Yield	2.44%
Emerging Markets	0.97%
Municipals	1.86%
Cash & Equivalents	0.05%

Portfolio Exposure as of 30.06.23. It does not represent an average for the reporting period and is not representative of the Portfolio Exposure at any other day of the financial year.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The Product does not currently commit to invest in any Sustainable Investments within the meaning of the SFDR, accordingly the minimum share of EU Taxonomy-aligned investments is 0%.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

Yes:

In fossil gas

In nuclear energy

No:

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- turnover reflecting the share of revenue from green activities of investee companies.
- capital expenditure (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- operational expenditure (OpEx) reflecting green operational activities of investee companies.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

1. Taxonomy alignment of investments **including** sovereign bonds* 2. Taxonomy alignment of investments **excluding** sovereign bonds*

This graph represents 100% of the total investments.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

What was the share of investments made in transitional and enabling activities?

Not applicable.

How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

Not applicable.

 are sustainable investments with an environmental objective that do not take into account the criteria for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

Not applicable.

What was the share of socially sustainable investments?

Not applicable.

What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

No investments were included under the sub-category "#2 Other".

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Product utilised the application of the Exclusion List, the Investment Manager's ESG Impact Ratings, and issuers' Scope 1 and Scope 2 emissions intensity to meet the Sustainability Characteristics outlined above. While the Investment Manager does engage with issuers, the Product does not seek to use engagement as a primary strategy for attaining the Sustainability Characteristics it promotes.

Environmental and/or social characteristics

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Did this financial product have a sustainable investment objective?	
<input type="checkbox"/> Yes	<input checked="" type="checkbox"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective : ___% <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> It made sustainable investments with a social objective : ___%	<input type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with a social objective <input checked="" type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The Fund (defined herein as the “Product”) changed its investment policy and reclassified from an Article 6 fund to an Article 8 fund under the SFDR with effect from 16 August 2022 (the “Transition Date”). From the Transition Date, the Product promoted one primary environmental characteristic (the “Sustainability Characteristic”) which is the reduction of Carbon Intensity relative to the MSCI Emerging Markets Index (the “Benchmark”). In order to measure the Product’s promotion of the Sustainability Characteristic the Sub-Investment Manager used its investment process to select investments so that the Product’s Weighted Average Carbon Intensity (WACI) was at least 50% lower than the WACI of the Benchmark. ‘Weighted Average Carbon Intensity’ is defined as a measurement of a portfolio’s total Carbon Intensity, calculated as the sum product of the constituent weights and intensities.

The Product’s WACI was at least 50% lower than the WACI of the Benchmark each month since the Transition Date, ranging from 88.7% to 90.9% below the Benchmark. The % difference is calculated as (Product WACI – Benchmark WACI) / Benchmark WACI.

...and compared to previous periods?

Not applicable, this is the first period in which the Product is required to make disclosures regarding the performance of the sustainability indicators.

What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

Not applicable.

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

Not applicable.

Not applicable.

What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

"Other" includes cash and cash equivalents. The Sub-Investment Manager uses this for ancillary liquidity or for hedging purposes. The Sub-Investment Manager also utilises an Exclusions List as detailed in the Product's supplement which applies to the entire portfolio of the Product.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Sub-Investment Manager used data provided by third party ESG research providers to assess a company's Carbon Intensity and using such data the Sub-Investment Manager, on a monthly basis, assessed the WACI for the Product. As stated above, the Product met the Sustainability Characteristic such that the Product's WACI was at least 50% lower than the WACI of the Benchmark during the reference period through the Sub-Investment Manager's investment process. No additional actions were necessary.

Environmental and/or social characteristics

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Did this financial product have a sustainable investment objective?

Yes

No

It made **sustainable investments with an environmental objective**: ___%

in economic activities that qualify as environmentally sustainable under the EU Taxonomy

in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

It made **sustainable investments with a social objective**: ___%

It promoted **Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments

with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy

with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

with a social objective

It promoted E/S characteristics, but **did not make any sustainable investments**

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The Fund (defined herein as the “Product”) changed its investment policy and reclassified from an Article 6 fund to an Article 8 fund under the SFDR with effect from 16 August 2022 (the “Transition Date”). From the Transition Date, the Product promoted one primary environmental characteristic (the “Sustainability Characteristic”) which is the reduction of Carbon Intensity relative to the MSCI ACWI (All Country World Index) (the “Benchmark”). In order to measure the Product’s promotion of the Sustainability Characteristic the Sub-Investment Manager used its investment process to select investments so that the Product’s Weighted Average Carbon Intensity (WACI) was at least 50% lower than the WACI of the Benchmark. ‘Weighted Average Carbon Intensity’ is defined as a measurement of a portfolio’s total Carbon Intensity, calculated as the sum product of the constituent weights and intensities.

The Product met the Sustainability Characteristic such that the Product’s WACI was at least 50% lower than the WACI of the Benchmark for each month-end beginning from the Transition Date.

How did the sustainability indicators perform?

The Product’s WACI was at least 50% lower than the WACI of the Benchmark each month since the Transition Date, ranging from 88.7% to 90.9% below the Benchmark. The % difference is calculated as (Product WACI – Benchmark WACI) / Benchmark WACI.

...and compared to previous periods?

Not applicable, this is the first period in which the Product is required to make disclosures regarding the performance of the sustainability indicators.

What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

Not applicable.

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

Not applicable.

How were the indicators for adverse impacts on sustainability factors taken into account?

Not applicable.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Not applicable.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The Product's consideration of principal adverse impacts was achieved through the consideration of environmental and social issues ("PAI Sustainability Indicators"). The negative impacts of such PAI Sustainability Indicators on the Sustainability Factors considered and prioritised by the Sub-Investment Manager may vary depending on the industry and/or individual company but included the mandatory and additional PAI Sustainability Indicators as set out under the regulatory technical standards published by the European supervisory authorities in accordance with the SFDR. In addition, companies involved in specific activities deemed to have particularly negative impacts are excluded from the Product's investible universe such as conflicts with the UNGC Principles, controversial weapons, nuclear weapons, civilian firearms, tobacco, adult entertainment, gambling and fossil fuels.

What were the top investments of this financial product?

Largest investments	Sector	% Assets	Country
NVIDIA Corp	Information Technology	8.52%	United States
Hermes International	Consumer Discretionary	6.42%	France
Microsoft Corp	Information Technology	6.18%	United States
Apple Inc	Information Technology	5.97%	United States
Ferrari NV	Consumer Discretionary	4.98%	Netherlands
LVMH Moet Hennessy Louis Vuitton SE	Consumer Discretionary	4.54%	France
L'Oreal SA	Consumer Staples	3.94%	France
Eli Lilly & Co	Health Care	3.75%	United States
Mastercard Inc	Financials	3.63%	United States
MercadoLibre Inc	Consumer Discretionary	3.62%	United States
Broadcom Inc	Information Technology	3.30%	United States
ASML Holding NV	Information Technology	3.13%	Netherlands
Novo Nordisk A/S	Health Care	3.05%	Denmark
Tesla Inc	Consumer Discretionary	2.95%	United States
Palo Alto Networks Inc	Information Technology	2.88%	United States

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is: as at June 2023.

Portfolio Exposure as of 30.06.23. It does not represent an average for the reporting period and is not representative of the Portfolio Exposure at any other day of the financial year.

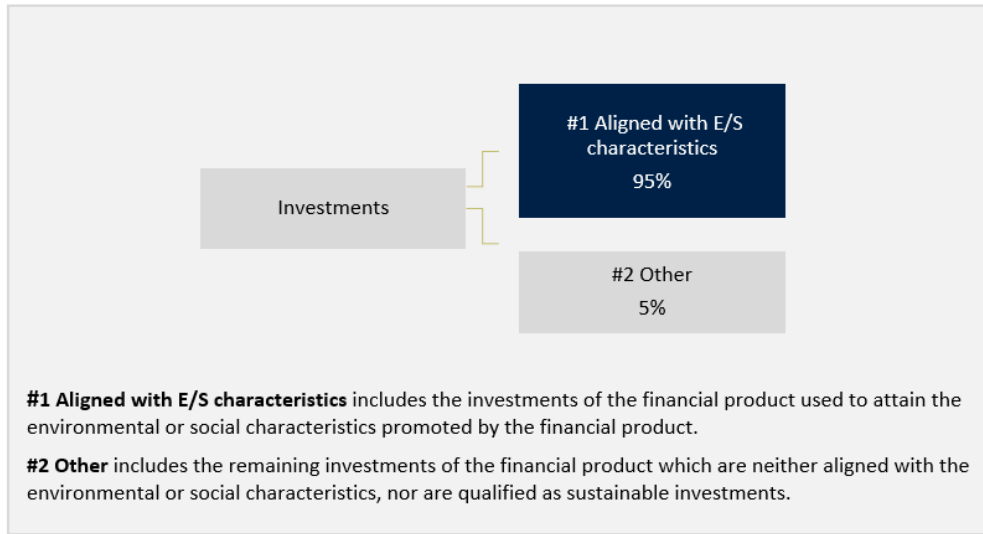

What was the proportion of sustainability-related investments?

As the Sustainability Characteristic is measured at the portfolio level, all equity investments in the portfolio were sustainability-related investments.

What was the asset allocation?

Asset allocation describes the share of investments in specific assets.

#1 Aligned with E/S Characteristics: Equity holdings aligned with E/S Characteristics ranged from 95% to 100% over the reference period.

#2 Other: Cash and Cash Equivalents, not aligned with E/S Characteristics, ranged from 0% to 5% over the reference period.

In which economic sectors were the investments made?

Sector	% Assets
Communication Services	1.99%
Consumer Discretionary	28.93%
Consumer Staples	7.01%
Financials	5.55%
Health Care	11.70%
Industrials	1.12%
Information Technology	43.24%
Cash & Equivalents	0.45%

Portfolio Exposure as of 30.06.23. It does not represent an average for the reporting period and is not representative of the Portfolio Exposure at any other day of the financial year.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The Product does not currently commit to invest in any Sustainable Investments within the meaning of the SFDR, accordingly the minimum share of EU Taxonomy-aligned investments is 0%.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

Yes:

In fossil gas

In nuclear energy

No:

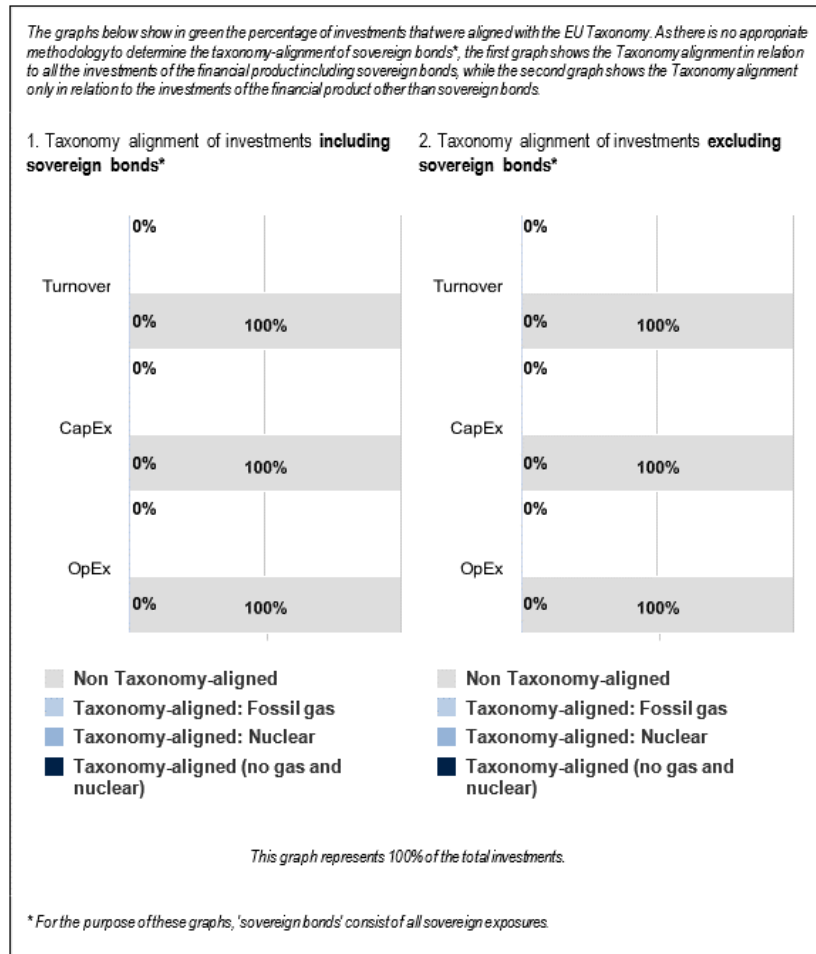

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Taxonomy-aligned activities are expressed as a share of:

- turnover reflecting the share of revenue from green activities of investee companies.
- capital expenditure (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- operational expenditure (OpEx) reflecting green operational activities of investee companies.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure (CapEx)** showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure (OpEx)** reflecting green operational activities of investee companies.

What was the share of investments made in transitional and enabling activities?

Not applicable.

How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

Not applicable.

 are sustainable investments with an environmental objective **that do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

 **What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

Not applicable.

 **What was the share of socially sustainable investments?**

Not applicable.

What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

"Other" includes cash and cash equivalents. The Sub-Investment Manager uses this for ancillary liquidity or for hedging purposes. The Sub-Investment Manager also utilises an Exclusions List as detailed in the Product's supplement which applies to the entire portfolio of the Product.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Sub-Investment Manager used data provided by third party ESG research providers to assess a company's Carbon Intensity and using such data the Sub-Investment Manager, on a monthly basis, assessed the WACI for the Product. As stated above, the Product met the Sustainability Characteristic such that the Product's WACI was at least 50% lower than the WACI of the Benchmark during the reference period through the Sub-Investment Manager's investment process. No additional actions were necessary.

How did this financial product perform compared to the reference benchmark?

Not applicable.

How does the reference benchmark differ from a broad market index?

Not applicable.

How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

Not applicable.

How did this financial product perform compared with the reference benchmark?

Not applicable.

How did this financial product perform compared with the broad market index?

Not applicable.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

Product name:
PGIM Jennison NextGeneration Opportunities Fund

Environmental and/or social characteristics

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Did this financial product have a sustainable investment objective?	
<input type="checkbox"/> Yes	<input checked="" type="checkbox"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective : ___% <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> It made sustainable investments with a social objective : ___%	<input type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with a social objective <input checked="" type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The Fund (defined herein as the “Product”) changed its investment policy and reclassified from an Article 6 fund to an Article 8 fund under the SFDR with effect from 16 August 2022 (the “Transition Date”). From the Transition Date, the Product promoted one primary environmental characteristic (the “Sustainability Characteristic”) which is the reduction of Carbon Intensity relative to the MSCI ACWI SMID Cap Index (the “Benchmark”). In order to measure the Product’s promotion of the Sustainability Characteristic, the Sub-Investment Manager used its investment process to select investments so that the Product’s Weighted Average Carbon Intensity (WACI) was at least 50% lower than the WACI of the Benchmark. ‘Weighted Average Carbon Intensity’ is defined as a measurement of a portfolio’s total Carbon Intensity, calculated as the sum product of the constituent weights and intensities.

The Product met the Sustainability Characteristic such that the Product’s WACI was at least 50% lower than the WACI of the Benchmark for each month-end beginning from the Transition Date.

How did the sustainability indicators perform?

The Product’s WACI was at least 50% lower than the WACI of the Benchmark each month since the Transition Date, ranging from 72.6% to 83.0% below the Benchmark. The % difference is calculated as (Product WACI – Benchmark WACI) / Benchmark WACI.

...and compared to previous periods?

Not applicable, this is the first period in which the Product is required to make disclosures regarding the performance of the sustainability indicators.

What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

Not applicable.

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

Not applicable.

How were the indicators for adverse impacts on sustainability factors taken into account?

Not applicable.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Not applicable.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

Did this financial product have a sustainable investment objective?	
<input type="checkbox"/> Yes	<input checked="" type="checkbox"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective: ___% <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> It made sustainable investments with a social objective: ___%	<input type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with a social objective <input checked="" type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The Fund (defined in these periodic disclosures as the “Product”) promoted three primary environmental and social characteristics (each a “Sustainability Characteristic” and together the “Sustainability Characteristics”) during the period 12 June 2023 – 30 June 2023 (“Reference Period”) as set out below:

- 1) The Product promoted the avoidance of certain ESG related activities and/or controversies that were deemed harmful (“Sustainability Characteristic 1”).
- 2) The Product:
 - a. promoted the reduction of investment in issuers that the Investment Manager has determined either (i) have severe net negative impacts on the environment/society and/or (ii) have material negative impacts on the environment/society that are not, in the Investment Manager’s view, being credibly addressed (“Sustainability Characteristic 2a”) and
 - b. promoted increased investment in issuers within the investable universe that the Investment Manager determines have more positive impacts on the environment and/or society (“Sustainability Characteristic 2b”).
- 3) The Product promoted increased investment in issuers within the investable universe that have lower carbon intensity (measured by Scope 1 and Scope 2 metric tons of carbon dioxide equivalent emissions per million USD in sales) (“Sustainability Characteristic 3”)

The extent to which each Sustainability Characteristic was attained is discussed in more detail under the next question, “How did the sustainability indicators perform?”.

How did the sustainability indicators perform?

• **Sustainability Characteristic 1:**

- In order to measure the Product’s promotion of Sustainability Characteristic 1, the Product excluded issuers:
- that violate the UN Global Compact Principles
 - that are involved in the production, sale and/or distribution of nuclear or other controversial weapons (including

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

landmines, cluster weapons, depleted uranium, white phosphorous, incendiary weapons and biological/chemical weapons)

- deriving at least 20% of revenues from thermal coal generation
- deriving at least 10% of revenues from thermal coal extraction
- that are conventional weapon manufacturers and/or service providers (companies that provide services for civilian firearms and/or military equipment, including maintenance, repair, testing, transport and similar activities) deriving at least 10% of revenues from such activities
- that are tobacco manufacturers deriving at least 5% of revenues from such activities.

A list containing the issuers to be excluded was maintained by the Investment Manager (“Exclusion List”) in reliance on an external screening agent or agents.

The Sustainability Indicator for Sustainability Characteristic 1 is whether or not the issuer is on the Exclusion List. Investments that are not on the Exclusion List will be considered to have attained Sustainability Characteristic 1.

For the Reference Period, the Exclusion List process was followed and there were no advertent breaches of this process to report. To the extent that an existing position may have been subsequently added to the Exclusion List, such security would have been disposed of in accordance with PGIM Fixed Income’s UCITS ESG Policy Statement (the “Investment Manager’s ESG Policy”).

The Investment Manager considers that 96% of the Product promoted Sustainability Characteristic 1. The remaining 4% of the Product was allocated to assets in the #2 Other category (primarily cash and hedging instruments – see the section on asset allocation below for more details). Therefore, Sustainability Characteristic 1 was considered attained for the Reference Period (on the basis that 65% was the expected minimum proportion of the Product’s assets that would promote Sustainability Characteristic 1).

• **Sustainability Characteristic 2a:**

The Product excluded issuers with a PGIM ESG Impact Rating (“ESG Impact Rating”) of under 20. However, only issuers with an ESG Impact Rating of 40 or above will be used to measure the Product’s promotion of Sustainability Characteristic 2a.

The Sustainability Indicator for Sustainability Characteristic 2a is an investment’s ESG Impact Rating.

For the Reference Period, the minimum ESG Impact Ratings requirement was monitored as part of the guideline monitoring process and there were no advertent breaches of this criteria. To the extent that an existing position did not meet the applicable criteria determined by the Investment Manager, the Investment Manager would have taken such action as described in the Investment Manager’s ESG Policy.

The Investment Manager considers that 87% of the Product promoted Sustainability Characteristic 2a. 9% of the Product’s assets were securities with an ESG Impact Rating between 20 and 35. The remaining 4% of the Product was allocated to assets in the #2 Other category, comprised of cash and hedging instruments. Therefore, Sustainability Characteristic 2a was considered attained for the Reference Period (on the basis that no expected minimum proportion of the Product’s assets that would promote Sustainability Characteristic 2a was set).

• **Sustainability Characteristic 2b:**

In order to measure the Product’s promotion of Sustainability Characteristic 2b, the Product achieved a weighted-average ESG Impact Rating of the portfolio that is higher than the weighted-average ESG Impact Rating of the Bloomberg US Universal ex Treasury ex MBS Index (the “Relevant Index”).

The Sustainability Indicator for Sustainability Characteristic 2b is the weighted-average ESG Impact Rating of the portfolio.

Sustainability Characteristic 2b will be considered attained if the weighted-average ESG Impact Rating of the portfolio is greater than the weighted-average ESG Impact Rating of the Relevant Index.

For the Reference Period, the weighted-average ESG Impact Rating of the portfolio and the Relevant Index were monitored as part of the guideline monitoring process and the portfolio’s weighted-average ESG Impact Rating did not fall below that of the Relevant Index during the Reference Period. Therefore, Sustainability Characteristic 2b was considered attained for the Reference Period.

• **Sustainability Characteristic 3:**

In order to measure the Product’s promotion of Sustainability Characteristic 3, the Product achieved a weighted-average Scope 1 and Scope 2 emissions intensity of the portfolio that is lower than the weighted-average Scope 1 and Scope 2 emissions intensity of the Relevant Index.

The Sustainability Indicator for Sustainability Characteristic 3 is the weighted-average Scope 1 and Scope 2 emissions

intensity of the portfolio.

Sustainability Characteristic 3 will be considered attained if the weighted average Scope 1 and Scope 2 emissions intensity is lower than the weighted-average Scope 1 and Scope 2 emissions intensity of the Relevant Index.

For the Reference Period, the weighted-average Scope 1 and Scope 2 emissions intensity of the portfolio and the Relevant Index were monitored as part of the guideline monitoring process. The portfolio's weighted-average Scope 1 and Scope 2 emissions intensity was below that of the Relevant Index during the Reference Period. Therefore, Sustainability Characteristic 3 was considered attained for the Reference Period.

...and compared to previous periods?

Not applicable, this is the first period in which the Product is required to make disclosures regarding the performance of the sustainability indicators.

What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

Not applicable.

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

Not applicable.

How were the indicators for adverse impacts on sustainability factors taken into account?

Not applicable.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Not applicable.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The Product's consideration of principal adverse impacts was generally achieved through the assignment of ESG Impact Ratings, which requires assessing investments against negative and positive ESG impacts relevant to the industry and/or issuer. This ESG impact assessment is distinct from the assessment of Sustainability Risk i.e. the risk that ESG events could affect the financial/economic value of its clients' investments. In addition, issuers involved in specific activities deemed to have particularly negative impacts were excluded from the Product's investible universe.

What were the top investments of this financial product?

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is: as at June 2023

Largest investments	Sector	% Assets	Country
United States Treasury Note	US Government	6.76%	United States
BX Commercial Mortgage Trust 2022-AHP	IG Corporates	2.04%	United States

Portfolio Exposure as of 30.06.23. It does not represent an average for the reporting period and is not representative of the Portfolio Exposure at any other day of the financial year.

What was the proportion of sustainability-related investments?

What was the asset allocation?

Asset allocation describes the share of investments in specific assets.

#1 Aligned with E/S characteristics – 96%

96% of the Product's assets were in investments which, in addition to seeking to attain the broader economic objectives and investment strategy of the Product, were aligned with one or more of the E/S characteristics of the Product (the "E/S Alignment Contribution"). This E/S Alignment Contribution was calculated as follows:

1) for each quarter end during the Reference Period, calculating the percentage of the market value of all assets of the Product (including derivatives and cash) which was comprised of assets promoting one or more of the Sustainability Characteristics; and then

2) calculating the average of the quarter-end percentages.

In the first step of this E/S Alignment Contribution calculation, the numerator was the market value of the underlying E/S aligned investments of the Product, and the denominator was the market value of all the underlying assets of the Product.

However, as the Product promoted a number of different Sustainability Characteristics during the Reference Period, it is not the case that all investments comprising the E/S Alignment Contribution promoted all of the different Sustainability Characteristics. A specific breakdown for each Sustainability Characteristic is outlined above under the heading “How did the sustainability indicators perform?”

#1A Sustainable: The Product did not make “sustainable investments”, as defined under SFDR.

#1B Other E/S characteristics: All of the category #1 investments were aligned with the environmental or social characteristics promoted by the Product.

#2 Other – 4%

4% of the Product’s assets were in investments which fell within the sub-category “#2 Other”. Within the sub-category “#2 Other”, the Product’s assets were made up of: derivatives (for efficient portfolio management and hedging) and cash held for ancillary liquidity or defensive market positioning, neither of which were used to attain the Sustainability Characteristics.

In which economic sectors were the investments made?

Sector	% Assets
US Government	6.84%
Non-US Government	0.80%
Agencies	1.91%
Non-Agency MBS	3.40%
ABS	11.18%
CMBS	7.07%
IG Corporates	23.38%
Non-US Govt Related	3.71%
High Yield	23.69%
Bank Loan	1.28%
Emerging Markets	11.17%
Municipals	0.46%
Swaps	4.03%
Cash & Equivalents	1.08%

Portfolio Exposure as of 30.06.23. It does not represent an average for the reporting period and is not representative of the Portfolio Exposure at any other day of the financial year.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The Product does not currently commit to invest in any Sustainable Investments within the meaning of the SFDR, accordingly the minimum share of EU Taxonomy-aligned investments is 0%.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

- Yes:**
- In fossil gas** **In nuclear energy**
- No:**

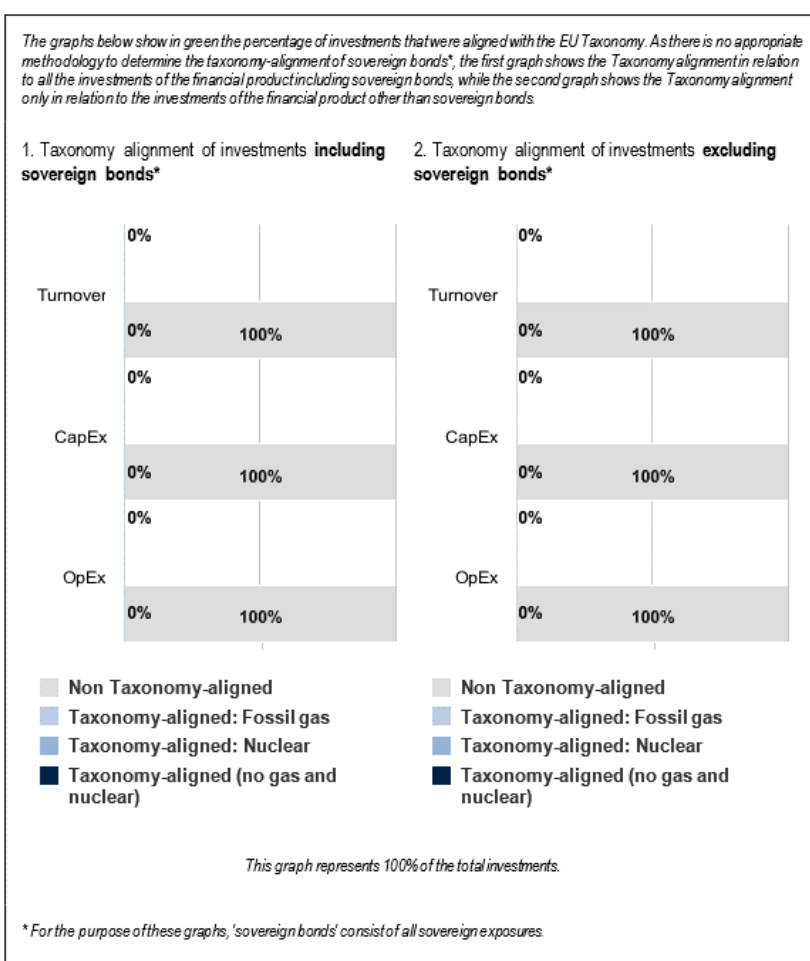

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Taxonomy-aligned activities are expressed as a share of:

- turnover reflecting the share of revenue from green activities of investee companies.
- capital expenditure (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- operational expenditure (OpEx) reflecting green operational activities of investee companies.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure (CapEx)** showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure (OpEx)** reflecting green operational activities of investee companies.

What was the share of investments made in transitional and enabling activities?

Not applicable.

How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

Not applicable.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

Not applicable.

are sustainable investments with an environmental objective that do not take into account the criteria for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of socially sustainable investments?

Not applicable.

What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

Within the sub-category "#2 Other", 4% of the Product's assets were made up of derivatives (for efficient portfolio management and hedging), cash held for ancillary liquidity or defensive market positioning.

No minimum environmental or social safeguards were applied to the 4% of assets made up of derivatives and cash.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Product utilised the application of the Exclusion List, the Investment Manager's ESG Impact Ratings, and issuers' Scope 1 and Scope 2 emissions intensity to meet the Sustainability Characteristics outlined above. While the Investment Manager does engage with issuers, the Product does not seek to use engagement as a primary strategy for attaining the Sustainability Characteristics it promotes.

How did this financial product perform compared to the reference benchmark?

Not applicable.

How does the reference benchmark differ from a broad market index?

Not applicable.

How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

Not applicable.

How did this financial product perform compared with the reference benchmark?

Not applicable.

How did this financial product perform compared with the broad market index?

Not applicable.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

PGIM Quant Solutions Global Core Equity ESG Fund

Legal entity identifier:
549300EYUXPSEB1XU647

Environmental and/or social characteristics

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Did this financial product have a sustainable investment objective?	
<input type="checkbox"/> Yes	<input checked="" type="checkbox"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective: ___% <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> It made sustainable investments with a social objective: ___%	<input type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with a social objective <input checked="" type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The Fund (defined herein as the "Product") promoted environmental characteristics including climate change mitigation relative to the MSCI WORLD INDEX (NET) (the "Benchmark") in the form of a lower Carbon Emission Intensity and the maintenance of a higher overall ESG Score (the "Sustainability Characteristic"). "Carbon Emission Intensity" means the total carbon emissions (Scope 1 + Scope 2 Emissions) of a company, as most recently reported or estimated, normalised by the total sales of that company. "ESG Score" means a company's score in relation to a number of ESG factors that are determined by the Sub-Investment Manager to be material for that company's industry.

The Product's carbon emission constraints and ESG scoring relative to the Benchmark are built into the portfolio management system, which allows for front-end systematic monitoring by the investment team. Furthermore, on a post trade basis the investment team reviews a series of daily reports regarding Carbon Emission Intensity and other ESG factors for both the Product and the Benchmark to ensure that the Product has a Carbon Emission Intensity that is at least 35% less than the Benchmark's Carbon Emission Intensity and an overall ESG Score above the Benchmark's overall ESG Score.

The Product met the Sustainability Characteristic promoted by the Product such that:

1. The Carbon Emission Intensity of the Product was over 35% lower than that of the Benchmark for the reportable period; and
2. The ESG Score of the Product was approximately 20% higher than that of the Benchmark for the reportable period.

How did the sustainability indicators perform?

The ESG scoring system is a proprietary system maintained by the Sub-Investment Manager. In order to measure the promotion of the Sustainability Characteristic, the Sub-Investment Manager analysed: (i) the Carbon Emission Intensity of the Product relative to the Benchmark; and (ii) the aggregate ESG Score of all Product investments relative to the aggregate ESG Score of all constituents of the Benchmark.

The Sub-Investment Manager monitored the Exclusions List to ensure that the Product did not invest in any excluded investments.

Specifically, the Product's Carbon Emission Intensity was over 35% lower than that of the Benchmark. The Product also maintained an overall ESG Score which was approximately 20% higher than the ESG Score of the Benchmark.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

...and compared to previous periods?

Not applicable, this is the first period in which the Product is required to make disclosures regarding the performance of the sustainability indicators.

What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

Not applicable.

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

Not applicable.

How were the indicators for adverse impacts on sustainability factors taken into account?

Not applicable.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Not applicable.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

Not applicable.

What were the top investments of this financial product?

Largest investments	Sector	% Assets	Country
Apple Inc	Information Technology	5.01%	United States
Microsoft Corp	Information Technology	3.61%	United States

Portfolio Exposure as of 30.06.23. It does not represent an average for the reporting period and is not representative of the Portfolio Exposure at any other day of the financial year.

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is: as at June 2023.

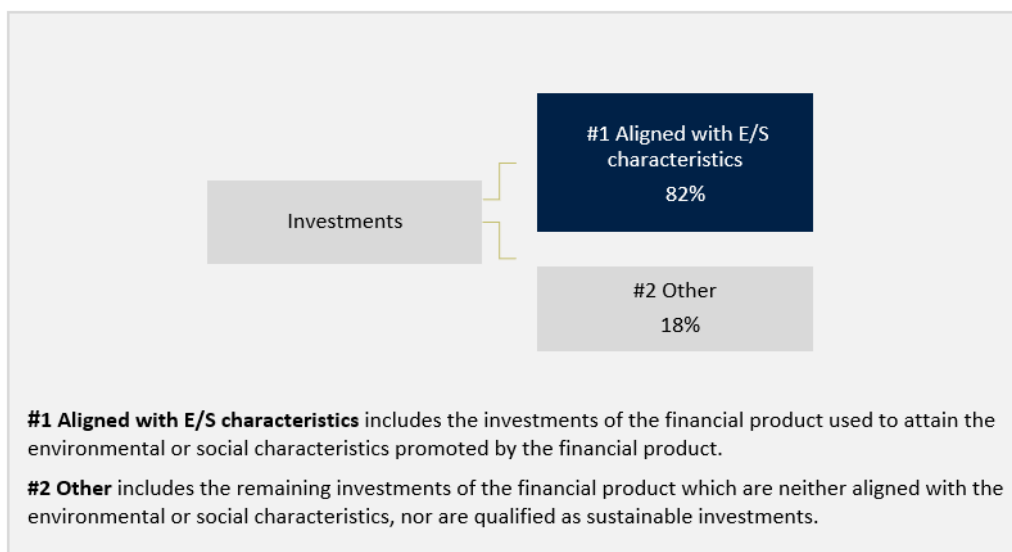

What was the proportion of sustainability-related investments?

Over 86% of portfolio holdings had lower Carbon Emission Intensity than that of the Benchmark. In particular more than 82% of portfolio holdings had at least 35% lower Carbon Emission Intensity than that of the Benchmark.

What was the asset allocation?

Asset allocation describes the share of investments in specific assets.

In order to meet the Sustainability Characteristic promoted by the Product, the Product invested at least 80% of its total assets directly in global equities that generate low Carbon Emission Intensity – i.e. at least 35% lower than the Benchmark’s weighted Carbon Emission Intensity. The Product focuses on overall sustainability attributes.

In which economic sectors were the investments made?

Sector	% Assets
Information Technology	23.00%
Financials	13.50%
Health Care	12.70%
Consumer Discretionary	12.00%

Environmental and/or social characteristics

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Did this financial product have a sustainable investment objective?

Yes

No

It made **sustainable investments with an environmental objective:** ___%

in economic activities that qualify as environmentally sustainable under the EU Taxonomy

in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

It made **sustainable investments with a social objective:** ___%

It promoted **Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments

with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy

with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

with a social objective

It promoted E/S characteristics, but **did not make any sustainable investments**

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The Fund (defined in these periodic disclosures as the "Product") promoted three primary environmental and social characteristics (each a "Sustainability Characteristic" and together the "Sustainability Characteristics") during the period 01 July 2022 – 30 June 2023 ("Reference Period") as set out below:

- 1) The Product promoted the avoidance of certain ESG related activities and/or controversies that were deemed harmful ("Sustainability Characteristic 1").
- 2) The Product:
 - a. promoted the reduction of investment in issuers that the Investment Manager has determined either (i) have severe net negative impacts on the environment/society and/or (ii) have material negative impacts on the environment/society that are not, in the Investment Manager's view, being credibly addressed ("Sustainability Characteristic 2a") and
 - b. promoted increased investment in issuers within the investable universe that the Investment Manager determines have more positive impacts on the environment and/or society ("Sustainability Characteristic 2b").
- 3) The Product:
 - a. promoted the avoidance of issuers that the Investment Manager deems to be among the most Greenhouse Gas (GHG) emission intensive (incl. Scope 1 and Scope 2 emissions) ("Sustainability Characteristic 3a") and
 - b. promoted increased investment in issuers within the investable universe that have lower carbon intensity (measured by Scope 1 and Scope 2 metric tons of carbon dioxide equivalent emissions per million USD in sales) ("Sustainability Characteristic 3b")

The extent to which each Sustainability Characteristic was attained is discussed in more detail under the next question, "How did the sustainability indicators perform?".

How did the sustainability indicators perform?

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

• **Sustainability Characteristic 1:**

In order to measure the Product's promotion of Sustainability Characteristic 1, the Product excluded issuers:

- that violate the UN Global Compact Principles
- that are involved in the production, sale and/or distribution of nuclear or other controversial weapons (including landmines, cluster weapons, depleted uranium, white phosphorous, incendiary weapons and biological/chemical weapons)
- deriving at least 50% of revenues from gambling activities
- deriving at least 20% of revenues from thermal coal generation
- deriving at least 10% of revenues from thermal coal extraction
- that are conventional weapon manufacturers and/or service providers (companies that provide services for civilian firearms and/or military equipment, including maintenance, repair, testing, transport and similar activities) deriving at least 10% of revenues from such activities
- deriving at least 10% of revenues from arctic oil & gas extraction
- deriving at least 10% of revenues from oil sands extraction and processing (oil sands processing includes activities such as upgrading and refining)
- that are tobacco manufacturers deriving at least 5% of revenues from such activities.

A list containing the issuers to be excluded was maintained by the Investment Manager ("Exclusion List") in reliance on an external screening agent or agents.

Green Bonds that the Investment Manager determined to have at least a medium impact (i.e. at least 15 points higher) versus the issuer's conventional bonds and whose PGIM Fixed Income ESG Impact Rating ("ESG Impact Rating") of that specific issuance is above 40, were exempt from the environmental binding restrictions (i.e. surpass the revenue thresholds for thermal coal generation, thermal coal extraction, arctic oil & gas extraction, oil sands extraction and processing, and Scope 1 and Scope 2 emissions intensity of more than 3,000 tCO₂e per million USD sales). However, if they violated any of the non-environmental restrictions, they were not exempt from this Exclusion List.

The Sustainability Indicator for Sustainability Characteristic 1 is whether or not the issuer is on the Exclusion List. Investments that are not on the Exclusion List will be considered to have attained Sustainability Characteristic 1. For the Reference Period, the Exclusion List process was followed and there were no advertent breaches of this process to report. To the extent that an existing position may have been subsequently added to the Exclusion List, such security would have been disposed of in accordance with PGIM Fixed Income's UCITS ESG Policy Statement (the "Investment Manager's ESG Policy").

The Investment Manager considers that 95% of the Product promoted Sustainability Characteristic 1. The remaining 5% of the Product was allocated to assets in the #2 Other category (primarily cash and hedging instruments – see the section on asset allocation below for more details). Therefore, Sustainability Characteristic 1 was considered attained for the Reference Period (on the basis that 65% was the expected minimum proportion of the Product's assets that would promote Sustainability Characteristic 1).

• **Sustainability Characteristic 2a:**

In order to measure the Product's promotion of Sustainability Characteristic 2a, the Product excluded issuers with an ESG Impact Rating of under 40.

The Sustainability Indicator for Sustainability Characteristic 2a is an investment's ESG Impact Rating.

Investments that have an ESG Impact Rating of 40 or above will be considered to have attained Sustainability Characteristic 2a.

For the Reference Period, the above ESG Impact Ratings requirement was monitored as part of the guideline monitoring process and there were no advertent breaches of this criteria. To the extent that an existing position did not meet the applicable criteria determined by the Investment Manager, the Investment Manager would have taken such action as described in the Investment Manager's ESG Policy.

The Investment Manager considers that 95% of the Product promoted Sustainability Characteristic 2a. The remaining 5% of the Product was allocated to assets in the #2 Other category (primarily cash and hedging instruments – see the section on asset allocation below for more details). Therefore, Sustainability Characteristic 2a was considered attained for the Reference Period (on the basis that 60% was the expected minimum proportion of the Product's assets that would promote Sustainability Characteristic 2a).

• **Sustainability Characteristic 2b:**

In order to measure the Product's promotion of Sustainability Characteristic 2b, the Product achieved a weighted-average ESG Impact Rating of the portfolio that is higher than the weighted-average ESG Impact Rating of the Bloomberg US Universal ex Treasury ex MBS Index (the "Relevant Index").

The Sustainability Indicator for Sustainability Characteristic 2b is the weighted-average ESG Impact Rating of the portfolio.

Sustainability Characteristic 2b will be considered attained if the weighted-average ESG Impact Rating of the portfolio is greater than the weighted-average ESG Impact Rating of the Relevant Index.

For the Reference Period, the weighted-average ESG Impact Rating of the portfolio and the Relevant Index were monitored as part of the guideline monitoring process and the portfolio's weighted-average ESG Impact Rating did not fall below that of the Relevant Index during the Reference Period. Therefore, Sustainability Characteristic 2b was considered attained for the Reference Period.

• **Sustainability Characteristic 3a:**

In order to measure the Product's promotion of Sustainability Characteristic 3a, the Product excluded issuers who have a Scope 1 and Scope 2 emissions intensity of more than 3,000 tCO₂e per million USD sales.

The Sustainability Indicator for Sustainability Characteristic 3a is an investment's Scope 1 and Scope 2 emissions intensity of sales.

Investments that have a Scope 1 and Scope 2 emissions intensity of sales of no more than 3,000 tCO₂e per million USD sales will be considered to have attained Sustainability Characteristic 3a.

For the Reference Period, investments' Scope 1 and Scope 2 emissions intensity of sales was monitored as part of the guideline monitoring process, and there were no advertant breaches of this process to report. To the extent that an existing position may have had a Scope 1 and Scope 2 emissions intensity of more than 3,000 tCO₂e per million USD sales, the Investment Manager would have taken such action as described in the Investment Manager's ESG Policy.

The Investment Manager considers that 95% of the Product promoted Sustainability Characteristic 3a. The remaining 5% of the Product was allocated to assets in the #2 Other category (primarily cash and hedging instruments – see the section on asset allocation below for more details). Therefore, Sustainability Characteristic 3a was considered attained for the Reference Period (on the basis that 65% was the expected minimum proportion of the Product's assets that would promote Sustainability Characteristic 3a).

• **Sustainability Characteristic 3b:**

In order to measure the Product's promotion of Sustainability Characteristic 3b, the Product achieved a weighted-average Scope 1 and Scope 2 emissions intensity of the portfolio that is 33% lower than the weighted-average Scope 1 and Scope 2 emissions intensity of the Relevant Index.

The Sustainability Indicator for Sustainability Characteristic 3b is the weighted-average Scope 1 and Scope 2 emissions intensity of the portfolio.

Sustainability Characteristic 3b will be considered attained if the weighted-average Scope 1 and Scope 2 emissions intensity is 33% lower than the weighted-average Scope 1 and Scope 2 emissions intensity of the Relevant Index.

For the Reference Period, the weighted-average Scope 1 and Scope 2 emissions intensity of the portfolio and the Relevant Index were monitored as part of the guideline monitoring process. The portfolio's weighted-average Scope 1 and Scope 2 emissions intensity was at least 33% below that of the Relevant Index during the Reference Period. Therefore, Sustainability Characteristic 3b was considered attained for the Reference Period.

...and compared to previous periods?

Not applicable, this is the first period in which the Product is required to make disclosures regarding the performance of the sustainability indicators.

What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

Not applicable.

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

Not applicable.

How were the indicators for adverse impacts on sustainability factors taken into account?

Not applicable.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Not applicable.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The Product's consideration of principal adverse impacts was generally achieved through the assignment of ESG Impact Ratings, which requires assessing investments against negative and positive ESG impacts relevant to the industry and/or issuer. This ESG impact assessment is distinct from the assessment of Sustainability Risk i.e. the risk that ESG events could affect the financial/economic value of its clients' investments. In addition, issuers involved in specific activities deemed to have particularly negative impacts were excluded from the Product's investible universe.

What were the top investments of this financial product?

Largest investments	Sector	% Assets	Country

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is: as at June 2023

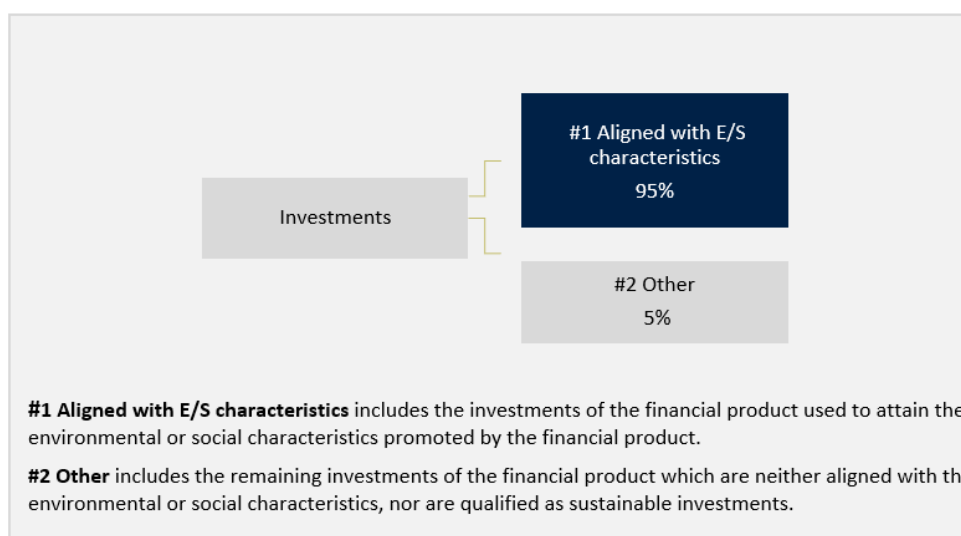

Portfolio Exposure as of 30.06.23. It does not represent an average for the reporting period and is not representative of the Portfolio Exposure at any other day of the financial year.

What was the proportion of sustainability-related investments?

What was the set allocation?

Asset allocation describes the share of investments in specific assets.

#1 Aligned with E/S characteristics – 95%

95% of the Product's assets were in investments which, in addition to seeking to attain the broader economic objectives and investment strategy of the Product, were aligned with one or more of the E/S characteristics of the Product (the "E/S Alignment Contribution"). This E/S Alignment Contribution was calculated as follows:

- 1) for each quarter end during the Reference Period, calculating the percentage of the market value of all assets of the Product (including derivatives and cash) which was comprised of assets promoting one or more of the Sustainability Characteristics; and then
- 2) calculating the average of the quarter-end percentages.

In the first step of this E/S Alignment Contribution calculation, the numerator was the market value of the underlying E/S aligned investments of the Product, and the denominator was the market value of all the underlying assets of the Product.

#1A Sustainable: The Manager did not make "sustainable investments", as defined under SFDR.

#1B Other E/S characteristics: All of the category #1 investments were aligned with the environmental or social characteristics promoted by the Product.

#2 Other – 5%

5% of the Product's assets were in investments which fell within the sub-category "#2 Other". Within the sub-category "#2 Other", the Product's assets were made up of derivatives (for efficient portfolio management and hedging) and cash held for ancillary liquidity or defensive market positioning.

In which economic sectors were the investments made?

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Sector	% Assets
US Government	14.24%
Mortgages	18.62%
ABS	9.75%
CMBS	1.45%
IG Corporates	19.99%
High Yield	26.57%
Emerging Markets	7.83%
Swaps	0.10%
Cash & Equivalents	1.46%

Portfolio Exposure as of 30.06.23. It does not represent an average for the reporting period and is not representative of the Portfolio Exposure at any other day of the financial year.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The Product does not currently commit to invest in any Sustainable Investments within the meaning of the SFDR, accordingly the minimum share of EU Taxonomy-aligned investments is 0%.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

Yes:

In fossil gas

In nuclear energy

No:

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Taxonomy-aligned activities are expressed as a share of:

- turnover reflecting the share of revenue from green activities of investee companies.
- capital expenditure (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- operational expenditure (OpEx) reflecting green operational activities of investee companies.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure (CapEx)** showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure (OpEx)** reflecting green operational activities of investee companies.

What was the share of investments made in transitional and enabling activities?

Not applicable.

How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

Not applicable.

are sustainable investments with an environmental objective **that do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

Not applicable.

What was the share of socially sustainable investments?

Not applicable.

What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

Within the sub-category "#2 Other", 5% of the Product's assets were made up of derivatives (for efficient portfolio management and hedging) and cash held for ancillary liquidity or defensive market positioning.

No minimum environmental or social safeguards were applied to the 5% of assets made up of derivatives and cash.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Product utilised the application of the Exclusion List, the Investment Manager's ESG Impact Ratings, and issuers' Scope 1 and Scope 2 emissions intensity to meet the Sustainability Characteristics outlined above. While the Investment Manager does engage with issuers, the Product does not seek to use engagement as a primary strategy for attaining the Sustainability Characteristics it promotes.

How did this financial product perform compared to the reference benchmark?

Not applicable.

How does the reference benchmark differ from a broad market index?

Not applicable.

How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

Not applicable.

How did this financial product perform compared with the reference benchmark?

Not applicable.

How did this financial product perform compared with the broad market index?

Not applicable.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

Product name:
PGIM US Corporate Bond Fund

Legal entity identifier:
549300M4D5CFHMMN5N65

Environmental and/or social characteristics

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Did this financial product have a sustainable investment objective?	
<input type="checkbox"/> Yes	<input checked="" type="checkbox"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective: ___% <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> It made sustainable investments with a social objective: ___%	<input type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with a social objective <input checked="" type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The Fund (defined in these periodic disclosures as the “Product”) promoted three primary environmental and social characteristics (each a “Sustainability Characteristic” and together the “Sustainability Characteristics”) during the period 12 June 2023 – 30 June 2023 (“Reference Period”) as set out below:

- 1) The Product promoted the avoidance of certain ESG related activities and/or controversies that were deemed harmful (“Sustainability Characteristic 1”).
- 2) The Product:
 - a. promoted the reduction of investment in issuers that the Investment Manager has determined either (i) have severe net negative impacts on the environment/society and/or (ii) have material negative impacts on the environment/society that are not, in the Investment Manager’s view, being credibly addressed (“Sustainability Characteristic 2a”) and
 - b. promoted increased investment in issuers within the investable universe that the Investment Manager determines have more positive impacts on the environment and/or society (“Sustainability Characteristic 2b”).
- 3) The Product promoted increased investment in issuers within the investable universe that have lower carbon intensity (measured by Scope 1 and Scope 2 metric tons of carbon dioxide equivalent emissions per million USD in sales) (“Sustainability Characteristic 3”).

The extent to which each Sustainability Characteristic was attained is discussed in more detail under the next question, “How did the sustainability indicators perform?”

How did the sustainability indicators perform?

- **Sustainability Characteristic 1:**
In order to measure the Product’s promotion of Sustainability Characteristic 1, the Product excluded issuers:
 - that violate the UN Global Compact Principles
 - that are involved in the production, sale and/or distribution of nuclear or other controversial weapons (including landmines, cluster weapons, depleted uranium, white phosphorous, incendiary weapons and biological/chemical

weapons)

- deriving at least 20% of revenues from thermal coal generation
- deriving at least 10% of revenues from thermal coal extraction
- that are conventional weapon manufacturers and/or service providers (companies that provide services for civilian firearms and/or military equipment, including maintenance, repair, testing, transport and similar activities) deriving at least 10% of revenues from such activities
- that are tobacco manufacturers deriving at least 5% of revenues from such activities.

A list containing the issuers to be excluded was maintained by the Investment Manager (“Exclusion List”) in reliance on an external screening agent or agents.

The Sustainability Indicator for Sustainability Characteristic 1 is whether or not the issuer is on the Exclusion List. Investments that are not on the Exclusion List will be considered to have attained Sustainability Characteristic 1.

For the Reference Period, the Exclusion List process was followed and there were no advertent breaches of this process to report. To the extent that an existing position may have been subsequently added to the Exclusion List, such security would have been disposed of in accordance with PGIM Fixed Income’s UCITS ESG Policy Statement (the “Investment Manager’s ESG Policy”).

The Investment Manager considers that 98% of the Product promoted Sustainability Characteristic 1. The remaining 2% of the Product was allocated to assets in the #2 Other category (primarily cash and hedging instruments – see the section on asset allocation below for more details). Therefore, Sustainability Characteristic 1 was considered attained for the Reference Period (on the basis that 65% was the expected minimum proportion of the Product’s assets that would promote Sustainability Characteristic 1).

• **Sustainability Characteristic 2a:**

The Product excluded issuers with a PGIM ESG Impact Rating (“ESG Impact Rating”) of under 20. However, only issuers with an ESG Impact Rating of 40 or above will be used to measure the Product’s promotion of Sustainability Characteristic 2a.

The Sustainability Indicator for Sustainability Characteristic 2a is an investment’s ESG Impact Rating.

For the Reference Period, the minimum ESG Impact Ratings requirement was monitored as part of the guideline monitoring process and there were no advertent breaches of this criteria. To the extent that an existing position did not meet the applicable criteria determined by the Investment Manager, the Investment Manager would have taken such action as described in the Investment Manager’s ESG Policy.

The Investment Manager considers that 88% of the Product promoted Sustainability Characteristic 2a. 10% of the Product’s assets were securities with an ESG Impact Rating between 20 and 35. The remaining 2% of the Product was allocated to assets in the #2 Other category, comprised of cash and hedging instruments. Therefore, Sustainability Characteristic 2a was considered attained for the Reference Period (on the basis that no expected minimum proportion of the Product’s assets that would promote Sustainability Characteristic 2a was set).

• **Sustainability Characteristic 2b:**

In order to measure the Product’s promotion of Sustainability Characteristic 2b, the Product achieved a weighted-average ESG Impact Rating of the portfolio that is higher than the weighted-average ESG Impact Rating of the Benchmark.

The Sustainability Indicator for Sustainability Characteristic 2b is the weighted-average ESG Impact Rating of the portfolio.

Sustainability Characteristic 2b will be considered attained if the weighted-average ESG Impact Rating of the portfolio is greater than the weighted-average ESG Impact Rating of the Benchmark.

For the Reference Period, the weighted-average ESG Impact Rating of the portfolio and the Benchmark were monitored as part of the guideline monitoring process and the portfolio’s weighted-average ESG Impact Rating did not fall below that of the Benchmark during the Reference Period. Therefore, Sustainability Characteristic 2b was considered attained for the Reference Period.

• **Sustainability Characteristic 3:**

In order to measure the Product’s promotion of Sustainability Characteristic 3, the Product achieved a weighted-average Scope 1 and Scope 2 emissions intensity of the portfolio that is lower than the weighted-average Scope 1 and Scope 2 emissions intensity of the Benchmark.

The Sustainability Indicator for Sustainability Characteristic 3 is the weighted-average Scope 1 and Scope 2 emissions intensity of the portfolio.

Sustainability Characteristic 3 will be considered attained if the weighted average Scope 1 and Scope 2 emissions intensity is lower than the weighted-average Scope 1 and Scope 2 emissions intensity of the Benchmark.

For the Reference Period, the weighted-average Scope 1 and Scope 2 emissions intensity of the portfolio and the Benchmark were monitored as part of the guideline monitoring process. The portfolio's weighted-average Scope 1 and Scope 2 emissions intensity was below that of the Benchmark during the Reference Period. Therefore, Sustainability Characteristic 3 was considered attained for the Reference Period.

...and compared to previous periods?

Not applicable, this is the first period in which the Product is required to make disclosures regarding the performance of the sustainability indicators.

What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

Not applicable.

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

Not applicable.

How were the indicators for adverse impacts on sustainability factors taken into account?

Not applicable.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Not applicable.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The Product's consideration of principal adverse impacts was generally achieved through the assignment of ESG Impact Ratings, which requires assessing investments against negative and positive ESG impacts relevant to the industry and/or issuer. This ESG impact assessment is distinct from the assessment of Sustainability Risk i.e. the risk that ESG events could affect the financial/economic value of its clients' investments. In addition, issuers involved in specific activities deemed to have particularly negative impacts were excluded from the Product's investible universe.

What were the top investments of this financial product?

Largest investments	Sector	% Assets	Country
JPMorgan Chase & Co	IG Corporates	1.52%	United States

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is: as at June 2023

Portfolio Exposure as of 30.06.23. It does not represent an average for the reporting period and is not representative of the Portfolio Exposure at any other day of the financial year.

What was the proportion of sustainability-related investments?

What was the asset allocation?

Asset allocation describes the share of investments in specific assets.

#1 Aligned with E/S characteristics – 98%

98% of the Product's assets were in investments which, in addition to seeking to attain the broader economic objectives and investment strategy of the Product, were aligned with one or more of the E/S characteristics of the Product (the "E/S Alignment Contribution"). This E/S Alignment Contribution was calculated as follows:

- 1) for each quarter end during the Reference Period, calculating the percentage of the market value of all assets of the Product (including derivatives and cash) which was comprised of assets promoting one or more of the Sustainability Characteristics; and then
- 2) calculating the average of the quarter-end percentages.

In the first step of this E/S Alignment Contribution calculation, the numerator was the market value of the underlying E/S aligned investments of the Product, and the denominator was the market value of all the underlying assets of the Product.

However, as the Product promoted a number of different Sustainability Characteristics during the Reference Period, it is not the case that all investments comprising the E/S Alignment Contribution promoted all of the different Sustainability Characteristics. A specific breakdown for each Sustainability Characteristic is outlined above under the heading "How did the sustainability indicators perform?"

#1A Sustainable: The Product did not make "sustainable investments", as defined under SFDR.

#1B Other E/S characteristics: All of the category #1 investments were aligned with the environmental or social characteristics promoted by the Product.

#2 Other – 2%

2% of the Product's assets were in investments which fell within the sub-category "#2 Other". Within the sub-category "#2 Other", the Product's assets were made up of: derivatives (for efficient portfolio management and hedging) and cash held for ancillary liquidity or defensive market positioning, neither of which were used to attain the Sustainability Characteristics.

In which economic sectors were the investments made?

Sector	% Assets
US Government	0.10%
CMBS	2.72%
IG Corporates	88.83%
Non-US Govt Related	0.35%
High Yield	2.50%
Emerging Markets	0.61%
Municipals	2.83%
Cash & Equivalents	2.07%

Portfolio Exposure as of 30.06.23. It does not represent an average for the reporting period and is not representative of the Portfolio Exposure at any other day of the financial year.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The Product does not currently commit to invest in any Sustainable Investments within the meaning of the SFDR, accordingly the minimum share of EU Taxonomy-aligned investments is 0%.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

Yes:

In fossil gas

In nuclear energy

No:

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- turnover reflecting the share of revenue from green activities of investee companies.
- capital expenditure (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- operational expenditure (OpEx) reflecting green operational activities of investee companies.

Taxonomy-aligned activities are expressed as a share of:

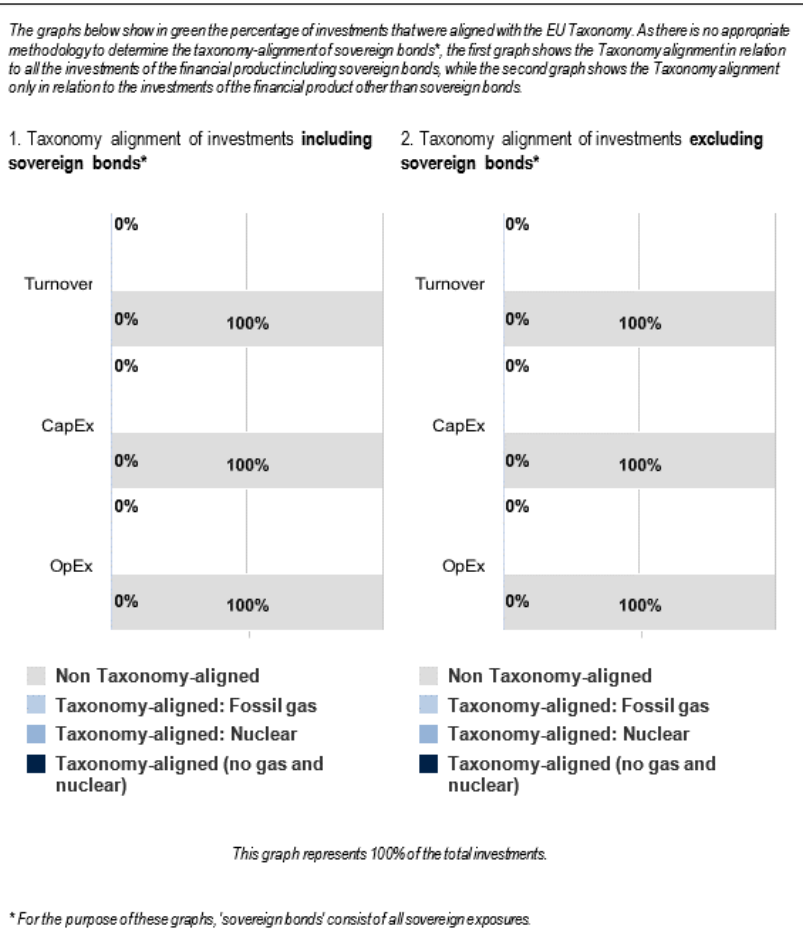

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

What was the share of investments made in transitional and enabling activities?

Not applicable.

How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

Not applicable.

are sustainable investments with an environmental objective that do not take into account the criteria for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

Not applicable.

What was the share of socially sustainable investments?

Not applicable.

What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

Within the sub-category "#2 Other", 2% of the Product's assets were made up of derivatives (for efficient portfolio management and hedging) and cash held for ancillary liquidity or defensive market positioning.

No minimum environmental or social safeguards were applied to the 2% of assets made up of derivatives and cash.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Product utilised the application of the Exclusion List, the Investment Manager's ESG Impact Ratings, and issuers' Scope 1 and Scope 2 emissions intensity to meet the Sustainability Characteristics outlined above. While the

Investment Manager does engage with issuers, the Product does not seek to use engagement as a primary strategy for attaining the Sustainability Characteristics it promotes.

How did this financial product perform compared to the reference benchmark?

Not applicable.

How does the reference benchmark differ from a broad market index?

Not applicable.

How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

Not applicable.

How did this financial product perform compared with the reference benchmark?

Not applicable.

How did this financial product perform compared with the broad market index?

Not applicable.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.
