

Z Income GBP Hedged | Data as at 31.05.2024

Fund objectives and investment policy

The Fund aims to provide capital growth in excess of the FTSE World Series Europe ex UK (Gross Total Return) Index (after fees have been deducted) over a three to five year period by investing in equity and equity related securities of European companies, excluding the UK, which meet the Investment Manager's sustainability criteria.

Above is the Investment Objective of the fund. For details on the full fund's Investment Policy please see the KIID. The Fund maintains a higher overall sustainability score than the FTSE World Series Europe ex UK (Gross Total Return) index, based on the Investment Manager's rating system.

Relevant risks associated with an investment in this fund are shown below and should be carefully considered before making any investment. Past Performance is not a guide to future performance and may not be repeated. The value of investments and the income from them may go down as well as up and investors may not get back the amounts originally invested. Exchange rate changes may cause the value of investments to fall as well as rise. Performance data does not take into account any commissions and costs, if any, charged when units or shares of any fund, as applicable, are issued and redeemed.

Z Income GBP Hedged | Data as at 31.05.2024

10 year return of GBP 10,000

The chart is for illustrative purposes only and does not reflect an actual return on any investment.

Returns are calculated bid to bid (which means performance does not include the effect of any initial charges), net income reinvested, net of fees.

Risk considerations

Concentration risk: - The fund may be concentrated in a limited number of geographical regions, industry sectors, markets and/or individual positions. This may result in large changes in the value of the fund, both up or down.

Currency risk: - The fund may lose value as a result of movements in foreign exchange rates.

Operational risk: - Operational processes, including those related to the safekeeping of assets, may fail. This may result in losses to the fund.

Performance risk: - Investment objectives express an intended result but there is no guarantee that such a result will be achieved. Depending on market conditions and the macro economic environment, investment objectives may become more difficult to achieve.

Sustainable Investing Risk: - The fund applies sustainability criteria in its selection of investments. This investment focus may limit the fund's exposure to companies, industries or sectors and the fund may forego investment opportunities that do not align with its sustainability criteria chosen by the investment manager. As investors may differ in their views of what constitutes sustainability, the fund may invest in companies that do not reflect the values of any particular investor.

Derivatives risk: - Derivatives may be used to manage the portfolio efficiently. A derivative may not perform as expected, may create losses greater than the cost of the derivative and may result in losses to the fund.

IBOR risk: - The transition of the financial markets away from the use of interbank offered rates (IBORs) to alternative reference rates may impact the valuation of certain holdings and disrupt liquidity in certain instruments. This may impact the investment performance of the fund.

Liquidity risk: - In difficult market conditions, the fund may not be able to sell a security for full value or at all. This could affect performance and could cause the fund to defer or suspend redemptions of its shares.

Counterparty risk: - The fund may have contractual agreements with counterparties. If a counterparty is unable to fulfil their obligations, the sum that they owe to the fund may be lost in part or in whole.

Higher volatility risk: - The price of this fund may be volatile as it may take higher risks in search of higher rewards.

Market risk: - The value of investments can go up and down and an investor may not get back the amount initially invested.

Currency risk / hedged share class: The hedging of the share class may not be fully effective and residual currency exposure may remain.

Synthetic risk & reward indicator (SRI)

LOWER RISK Potentially lower reward **HIGHER RISK** Potentially higher reward

The risk category was calculated using historical performance data and may not be a reliable indicator of the fund's future risk profile. The fund's risk category is not guaranteed to remain fixed. Please see the Key Investor Information Document for more information.

Proprietary Sustainability Metrics %

Overall Impact

Data as at 31.05.2024

The sustainability scores of the fund and the benchmark are shown. The benchmark is the FTSE World Europe ex UK.

The Schroders Impact score is based on Schroders' proprietary tool, SustainEx™. SustainEx™ provides an estimate of the potential societal or environmental impact that may be created by the companies and other issuers in which the fund is invested. The result is expressed as a notional percentage (positive or negative) of sales of the relevant underlying companies and other issuers. For example, a SustainEx™ score of +2% would mean a company contributes \$2 of relative notional positive impact (i.e. benefits to society) per \$100 of sales.

We calculate SustainEx™ scores for companies and other issuers in the fund to arrive at the total fund score.

The "Overall Impact" shown is a measure of the fund's estimated impact compared to that of its benchmark, in each case calculated as a relative notional percentage as described above.

The "Impact on People" and "Impact on Planet" measure the fund's estimated underlying benefits and harms, as compared to its benchmark, in each case calculated as a relative notional percentage as described above.

Climate dashboard

Carbon Metrics

● Fund ● Benchmark

Fossil Fuel Exposures

● Fund ● Benchmark

Source: MSCI. Carbon Intensity is based on reported scope 1 & 2 emissions. Fossil Fuel Exposure charts for sub-funds apply a revenue-based exclusion on companies operating in the coal sector. Please refer to the fund prospectus for more details on exclusions. Benchmark used is the FTSE World Europe ex UK. Source: MSCI. The graphs above include the Weighted Average Carbon Intensity (WACI), carbon footprint and energy exposure of the fund and its benchmark, where applicable. WACI and carbon footprint are based on Scope 1, 2 and 3 emissions. WACI measures the carbon-intensity of the portfolio by assessing the ratio of emissions to revenue generated from underlying investee companies. Carbon footprint normalises the total carbon emissions of the portfolio to its market value. When calculating carbon metrics, Schroders will exclude neutral assets (such as cash) and other non-eligible assets. This means that Schroders aggregates company-level GHG emissions based on the portfolio's eligible assets only (which are listed equity and credit holdings, where applicable). The energy exposure metrics are calculated based on the revenue generated from these activities by the underlying investee companies and weighted by the fund's holdings. Fund exposure to 'Coal' represents Thermal Coal mining and reflects investments in companies whose coal-related revenues are below the accepted threshold. Please refer to the fund sustainability disclosures for more details on exclusions. All metrics use reported company data. Where data may not be available, then MSCI may use estimates. Benchmark used is the FTSE World Europe ex UK.

Adverse Impacts

The table below shows some adverse impacts of this fund and its benchmark, where applicable. The indicators referred to below aim to show the negative effects that investment decisions, made in respect of the fund's portfolio, have on certain sustainability factors, such as environmental, social and employee matters. We also identify the coverage, which refers to the percentage of indicator data available at month-end for the underlying holdings of the fund and the benchmark, where applicable.

Category	Measure	Description	Units	Fund	Benchmark
People	Board Gender Diversity	Average ratio of female to male board members in investee companies	Ratio (%)	71.6% Coverage*: 96.8%	70.3% Coverage*: 99.5%
	UNGC and OECD principle policies	Share of investment in companies without policies to monitor compliance with UNGC and OECD principles	Ratio (%)	0.0% Coverage*: 96.8%	0.2% Coverage*: 99.5%
Planet	Non-renewable energy exposure	Share of non-renewable energy consumption and production	Ratio (%)	58.4% Coverage*: 96.1%	57.3% Coverage*: 98.7%
	Exposure to companies without carbon emissions reduction initiatives	Investing in companies without carbon emission reduction initiatives aligned with the Paris Agreement	Ratio (%)	0.0% Coverage*: 0.0%	30.8% Coverage*: 99.5%

Total GHG emissions (in metric tonnes) have been under-reported at fund level by an average of approximately 15% for the reporting period November 2022 to April 2024, due to an incorrectly applied currency conversion used to calculate the reported figure. Information relating to changes in fund manager, investment objective, benchmark and corporate action information

Scott MacLennan & Nicholette Macdonald-Brown replaced Martin Skanberg as Fund Manager for this fund on 15.12.2021. On 15.12.2021 the fund, previously named Schroders European Alpha Income Fund, changed its name to Schroders European Sustainable Equity Fund.

Benchmarks: (If applicable)

Some performance differences between the fund and the benchmark may arise because the fund performance is calculated at a different valuation point from the benchmark. The target benchmark has been selected because it is representative of the type of investments in which the fund is likely to invest, and it is, therefore, an appropriate target in relation to the return that the fund aims to provide. The comparator benchmark has been selected because the investment manager believes that the benchmark is a suitable comparison for performance purposes given the fund's investment objective and policy. The investment manager invests on a discretionary basis and there are no restrictions on the extent to which the fund's portfolio and performance may deviate from the benchmark. The investment manager will invest in companies or sectors not included in the benchmark in order to take advantage of specific investment opportunities.

Important information

Costs:

Certain costs associated with your investment in the fund may be incurred in a different currency to that of your investment. These costs may increase or decrease as a result of currency and exchange rate fluctuations.

If a performance fee is applicable to this fund, details of the performance fee model and its computation methodology can be found in the fund's prospectus. This includes a description of the performance fee calculation methodology, the dates on which the performance fee is paid and details of how the performance fee is calculated in relation to the fund's performance fee benchmark, which may differ from the benchmark in the fund's investment objective or investment policy.

For further information regarding the costs and charges associated with your investment, please consult the funds' offering documents and annual report.

General:

This document does not constitute an offer to anyone, or a solicitation by anyone, to subscribe for shares of Schroder Investment Fund (the "Company"). Nothing in this document should be construed as advice and is therefore not a recommendation to buy or sell shares. The Company is a mutual investment umbrella fund qualified as an undertaking for collective investment (UCI) regulated by the 2007 Law and as an alternative investment fund with the meaning of article 1(39) of the 2013 Law. The distribution and promotion of the Company's shares is restricted for the purpose of Article 2 of the 2007 Law, to well-informed investors who are supposed to have sufficient experience to judge themselves the concept of risk-spreading and the information they need to form their opinion. This material should not be relied upon by persons of any other description. An investment in the company entails risks, which are fully described in the prospectus. Subscriptions for shares of the Company can only be made on the basis of its latest Key Information Document (where available) and prospectus together with the latest audited annual report (and subsequent unaudited semi-annual report, if published), copies of which can be obtained, free of charge, from Schroder Investment Management (Europe) S.A. For the UK, these documents may be obtained in English, free of charge, from the following link: www.eifs.lu/schroders. Schroders may decide to cease the distribution of any fund(s) in any EEA country at any time but we will publish our intention to do so on our website, in line with applicable regulatory requirements. Any reference to regions/ countries/ sectors/ stocks/ securities is for illustrative purposes only and not a recommendation to buy or sell any financial instruments or adopt a specific investment strategy. Past Performance is not a guide to future performance and may not be repeated. The value of investments and the income from them may go down as well as up and investors may not get back the amounts originally invested. Exchange rate changes may cause the value of investments to fall as well as rise. Performance data does not take into account any commissions and costs, if any, charged when units or shares of any fund, as applicable, are issued and redeemed. Schroders has expressed its own views and opinions in this document and these may change. Information herein is believed to be reliable but Schroders does not warrant its completeness or accuracy.
