UnitedHealth Group Inc 1.15%
Mastercard Inc - A 1.04%

The IA North America Sector is used as a comparator. This is considered appropriate for investors to use when comparing performance as the strategy results in the Sub-Fund meeting the definition of this sector. The sector is not constructed as an Index, therefore as funds enter or leave the sector composition can change, but it is considered that the sector remains a useful and relevant comparator for investors to assess performance within a relevant peer group.

Objective

To provide capital growth over any 7 year period.

The Sub-fund will invest at least 70% of the portfolio in shares of North American companies (being companies which are incorporated, domiciled or have the predominant part of their business in North America) by delegating authority for all or part of the portfolio to sub-delegated managers.

The Sub-fund may also invest in collective investment schemes (restricted to 10%) (which may include schemes operated by the manager, associates or controllers of the manager) and other transferable securities (such as UK, non-EEA securities, bonds, money market instruments and derivatives).

The Sub-fund will be fully invested save for an amount to enable ready settlement of liabilities (including redemption of shares) and efficient management of the Sub-fund both generally and in relation to its investment objective. This amount will vary depending upon prevailing circumstances and although it would normally not exceed 10% of the total value of the Sub-fund, there may be times when the Manager considers stock markets around the world to be overpriced or that a period of instability exists which presents unusual risks. In such cases or during such periods, a higher level of liquidity may be maintained and, if considered prudent, the amount of cash or near cash instruments held would be increased. Unless market conditions were deemed unusually risky, the increased amount and period would not be expected to exceed 30% and six months respectively. Sub-delegation means that the Manager will appoint one or more specialist sub-delegates to manage the portfolio to achieve the objective and policy. The Manager will monitor and review the performance of the sub-delegates and change the management and allocation when it is felt to be in investors' interests, without prior notice.
