

NON-UCITS RETAIL SCHEME KEY INVESTOR INFORMATION

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

Aegon Property Income Feeder (Accumulation) Fund

a sub-fund of Aegon Asset Management UK Unit Trust

Sterling Class B - Accumulation shares (ISIN: GB00BK6MJG80)

This fund is managed by Aegon Asset Management UK plc.

Objectives and investment policy

Objective: The investment objective is to provide income with potential for capital growth by investing in the Aegon Property Income Fund, which invests mainly in commercial property.

Policy: To invest close to 100% in the Aegon Property Income Fund, a Property Authorised Investment Fund (PAIF) ("Master Fund").

The objective of the Master Fund is to provide a combination of income and capital growth over any 7 year period, to carry on Property Investment Business and to manage cash raised from investors for investment in the Property Investment Business. The Master Fund will invest at least 60% in a diversified portfolio of commercial property in the British Isles. It may invest in any commercial property sector and may invest in a mix of freehold and leasehold properties.

To the extent that the Master Fund is not fully invested in the main asset classes listed above, it may also invest in other property-related assets, including real estate investment trusts as well as collective investment schemes and transferable securities, money market instruments, deposits, cash and near cash.

The investment returns of the Fund should be very similar to the Aegon Property Income Fund but may differ because the funds are treated differently for tax purposes and because the Fund may not be fully invested in the Aegon Property Income Fund as a result of holding cash for operational reasons.

Other information

You can buy, sell or exchange the Fund's units on any business day (see 'Dealing Day' in the Prospectus Definitions for more information).

Income the Fund receives will be reinvested and automatically reflected in the value of your units.

As the Fund invests in commercial property, the transaction costs incurred in buying and selling properties will be comparatively higher than the costs incurred in buying or selling other asset classes, which may have a material impact on the Fund's return.

It is expected that the Fund will be held as part of a diversified portfolio which may include other assets such as bonds, equities, property and cash.

The Fund is not managed in reference to any index or benchmark.

Risk and reward profile

The value of investments, and the income from them, will fluctuate. This will cause the Fund price to fall, as well as rise, and you may not get back the original amount that you invested.

The following risks are also relevant to the Fund:

Liquidity management risk: The Fund may at times hold larger amounts of cash for liquidity purposes or if new investment opportunities are limited, which may restrict the performance of the Fund.

Fund charges: The Fund charges its fees against capital, which will increase the amount of income available for distribution to Shareholders, but may constrain capital growth.

Liquidity risk: In difficult market conditions, the investments within the Fund may become more difficult to sell at the last quoted price, or at a fair value. Such situations could result in unpredictable changes in the value of your holding. The Fund invests mainly in commercial property, which is a less liquid asset than other categories of asset, comparatively it may be more difficult to sell at times, which may lead to constraints when redeeming units. If significant numbers of investors withdraw their investments from the Fund at the same time, the manager may be forced to dispose of property investments. The realised value of these sales may be less favourable than the last quoted valuation of the investments. Suspension of redemptions could be required to balance the interests of continuing investors with those seeking to redeem.

Property credit risk: There is a risk that tenants within the properties could default on their rental payments, which could affect the income within the Fund.

Industry concentration risk: The Fund invests mainly in one type of asset, meaning it is more vulnerable to the market sentiment of that specific type of asset. This type of fund can therefore carry a higher risk and can experience larger than average price fluctuations when compared to a fund with a broader investment universe.

Property value risk: There is no guarantee that investments in property will increase in value or that rental growth will take place. Property valuations are provided by an independent valuer, rather than traded on an exchange, and are therefore subjective.

Large deals: For large deals the dealing price investors receive may differ from the published price. Investors may pay a higher price for subscriptions or receive a lower price for redemptions than those published. Further information can be found at www.aegonam.com.

Spread risk: When there is, or is expected to be, more money overall being invested in the Fund than being redeemed from it, the published price will usually be reflective of costs of buying assets. Where there is, or is expected to be, more money overall being redeemed from the Fund than being invested in it, the published price will usually be reflective of the costs of selling assets. The difference between the two prices is referred to as 'the spread'. The spread is currently c. 5-6% reflecting the high transaction costs of buying and selling commercial property. We reserve the right to change the pricing basis of the Fund and any change will mean an increase or decrease in the price at which you can deal at. Further information can be found at www.aegonam.com.

Full details and risks are disclosed in the section 'Risk Factors' in the Prospectuses.

Charges

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry charge	0.00%
Exit charge	0.00%
This is the maximum that might be taken out of your money before it is invested / before the proceeds of your investment are paid out.	
Charges taken from the fund over a year	
Ongoing charges	0.81%
Charges taken from the fund under certain specific conditions	
Performance fee	None

The entry and exit charges shown are the maximum figures, and in some cases you may pay less. You can find out specific charges which apply to your investment by contacting your financial adviser, distributor, or by contacting us using the details given in the Practical Information section.

The ongoing charge is based on expenses for the year to 31 December 2022. This figure may vary from year to year. It excludes any portfolio transaction costs (except in the case of an entry/exit charge paid by the Fund when buying and selling shares in another fund).

The fund has other costs in addition to the ongoing charges shown above. These costs are associated with the day to day operation of the direct property assets, an estimate of these is represented by the property expense ratio (PER). For details of how the PER is calculated please refer to the latest Report and Accounts on our website (www.Aegonam.com). The PER for this share class is 1.79% as at 31 December 2020 and is subject to fluctuations.

Past performance

Source: Lipper

Past performance is not a guide to future performance.

Fund launch date: 28 March 2014

Share class launch date: 28 March 2014

Performance is calculated in GBP.

The past performance calculation does not take into account the entry and exit charges but does take into account the ongoing charge, as shown in the 'Charges' section.

Note: On 7th September 2020 the name of the Fund changed from Kames Property Income Feeder to Aegon Property Income Feeder

Practical information

Aegon Asset Management UK Unit Trust is a non-UCITS retail scheme (NURS) structured as an umbrella unit trust with various sub-funds, with segregated liability between sub-funds. This document describes one sub-fund of the NURS; the Prospectus and the Report and Accounts are prepared for the entire NURS.

You can Exchange your holdings into another share class of the Fund, or another sub-fund of the NURS, at any time. More detailed information on exchanging can be found in the 'Buying, Redeeming, Converting and Switching of Units' section of the Prospectus.

The assets and liabilities of the Fund are segregated by law. Accordingly, the assets of this Fund belong exclusively to it and may not be used to meet the liabilities of, or claims against, any other fund within the Aegon Asset Management UK Unit Trust. Any liability incurred on behalf of, or attributable to, the Fund shall be discharged solely out of the assets of the Fund.

The Depositary is Citibank UK Ltd.

The prices of units will be published daily on our website (www.Aegonam.com).

Further information about the Fund and Feeder and copies of their Prospectuses and their latest Annual and Semi-Annual Report and Accounts, and the Key Investor Information Document can be obtained, free of charge, on our website (www.Aegon.com) or by calling 0800 358 3009. These documents are available in English.

You should be aware that tax legislation in the UK (where the Fund is authorised) may have an impact on your personal tax position.

Details of the up to date remuneration policy of Aegon Asset Management UK plc ("the Company"), including but not limited to a description of how remuneration and benefits are calculated and the identity of persons responsible for awarding the remuneration and benefits, are available at www.Aegonam.com. A paper copy will be available free of charge upon request at the registered office of the Company.
