

CT (Lux) Responsible Global Emerging Markets Equity

Share Class R Acc GBP

31-May-24 | For professional investors only

Fund manager
Gokce Bulut

Fund objective and policy

The Fund objective is to enable investors to participate in an actively managed portfolio of emerging market companies contributing to or benefiting from sustainable economic development. The Fund is actively managed. It is not constrained by its comparator benchmark, is the MSCI Emerging Markets NR Index, and has significant freedom to invest in a portfolio that is materially different to the benchmark's own composition. The Fund seeks to meet its investment objective by investing in companies demonstrating commitment to good governance and sustainability. Companies must meet standards, including board balance and independence, transparency and protecting shareholder rights. They must also demonstrate a clear commitment to sustainable environmental and social practices.

Risk warning

The value of investments and any income derived from them can go down as well as up as a result of market or currency movements and investors may not get back the original amount invested. Investing in emerging markets is generally considered to involve more risk than developed markets. Screening out sectors or companies may result in less diversification and hence more volatility in investment values. An investment concerns the acquisition of units or shares in a fund, and not underlying assets such as buildings or shares of a company, as these are only the underlying assets owned by the fund. The decision to invest in the promoted fund should also take into account all the characteristics or objectives of the promoted fund as described in the prospectus. Full list of relevant risks can be found in the KIID/KID and prospectus.

Glossary

Active Engagement Report

We define engagement as dialogue between investors and companies with a focus on encouraging companies to address strategic issues including environmental, social and governance factors. The objective of such dialogue with companies is to reduce risk and support long-term performance. The table sets out, for the fund, the number of companies we have engaged with; the number of countries covered and the individual engagement themes.
