

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

Sanlam Global High Quality Fund – Class I Accumulation (GBP) Shares

A sub-fund of Sanlam Universal Funds plc (the “Company”)

Managed by Sanlam Asset Management (Ireland) Limited

ISIN: IE00BYV7PR98

Objectives and Investment Policy

Investment Objective

The investment objective of the Sanlam Global High Quality Fund (the Fund) is to increase the value of your shares over the long term.

Investment Policy

The Fund is actively managed and will invest in shares and stocks of companies from all over the world. The Fund will invest in companies that typically have strong balance sheets enabling comfortable debt servicing, high cash returns on assets, and relatively low capital requirements. The Fund will invest in companies that have high market share in their chosen products or services, short customer repurchase cycles and long product cycles. The Fund may hold investments of up to 30% in companies in emerging markets. The Fund may also invest in depositary receipts. A depositary receipt is a negotiable financial instrument issued by a bank to represent a foreign company's public traded securities and which trades on a local stock exchange.

The Fund measures its performance relative to a benchmark

index (MSCI World Net Return GBP) for reference or investor communication purposes, including in the Company's annual and half-yearly reports. As the Investment Manager seeks to produce compound total returns in excess of the benchmark over the medium to long-term, the Fund is managed in reference to the benchmark.

The Fund may also invest in collective investment schemes (CIS) which invest in companies as described above.

Further information on sustainability factors that may be relevant to this Fund can be found in the prospectus or on our website at www.sanlam.ie

You can sell your shares any day (except Saturday or Sunday) that banks are open in Dublin and London.

The Company does not declare a dividend and therefore your shares do not pay you an income.

Recommendation: The Fund is suitable for investors with a time horizon of 5 years.

Risk and Reward Profile

Lower risk Higher risk

←—————→

Typically lower rewards Typically higher rewards

Why is this Fund in category 5?

The Fund is rated 5 due to its exposure to shares and stocks, and the nature of its investments which include the risks listed below. These factors may impact the value of the Fund's investments or expose the Fund to losses.

Investing in international companies means that currency exchange rate fluctuations will have an impact on the Fund.

The price of shares and the income from them may fall as well as rise and investors may not get back the amount they have invested.

The Fund may invest in companies based in emerging markets which may involve additional risks not typically associated with other more established markets such as increased risk of social, economic and political uncertainty.

It may be difficult for the Fund in extreme market conditions to redeem its shares from a CIS at short notice without suffering a loss.

Investing in a CIS may lead to payment by the Fund of additional fees and expenses in relation to those CIS.

What do these numbers mean?

They rate how a fund might behave and how much risk there is to your capital. Generally, the chance to make large gains means a risk of suffering large losses.

A **Category 1** fund is not a risk-free investment - the risk of losing your money is small, but the chance of making gains is also limited. With a **Category 7** fund, the risk of losing your money is high but there is also a chance of making higher gains. The seven-category scale is complex (for example, 2 is not twice as risky as 1).

More about this rating:

This rating system is based on the average fluctuations of the prices of funds over the past 5 years - that is, by how much the value of their assets taken together has moved up and down. Historical data, such as is used in calculating the synthetic risk indicator, may not be a reliable indication of the future risk profile of the Fund.

For a more detailed explanation of risks, please refer to the "Risk Factors" section of the prospectus.

Charges

These charges are used to pay the costs of running the Fund, including the costs of marketing and selling. Overall, they reduce the growth of your investment.

| One-off charges taken before or after you invest | |
|--|-------|
| Entry charge | None |
| Exit charge | None |
| Switching charge | 2.00% |
| This is the maximum that might be taken out of your money before it is invested and before the proceeds of your investment are paid out. | |
| Charges taken from the Fund over a year | |
| Ongoing charge | 0.83% |
| Charges taken from the Fund under certain specific conditions | |
| Performance fee | None |

The entry and exit charges shown are the maximum figures. In some cases you might pay less - you can find this out from your financial adviser.

The ongoing charge is based on the expenses for the previous 12 month period ending December 2023. This figure, which excludes portfolio transaction costs, may vary from year to year.

You can find out more details about the charges by looking at the "Charges and Expenses" section of the prospectus.

Past Performance

Past performance is not a reliable indicator of future performance.

The past performance takes account of all charges and costs, excluding entry and exit charges.

The performance of this class is calculated in British Pounds.

The Fund launched on 3 March 2014. This class started to issue shares on 24 June 2016.

Practical Information

Fund Depository: Northern Trust Fiduciary Services (Ireland) Limited.

About the Fund
