GENERAL INFORMATION

INFORMATION TO THE SHAREHOLDERS

Annual reports and semi-annual reports are at the disposal of the Shareholders with the administrative agent. The financial statements are available free of charge at the registered office of the SICAV.

The periodical reports contain financial information regarding the FULCRUM UCITS SICAV (the "SICAV") and each of its Sub-Funds (the "Sub-Funds"), the composition and evolution of its assets and its combined situation.

The list of movements that took place in the composition of the securities portfolio is available for free at the registered office of the SICAV.

The Shares of the Sub-Funds are not listed on the Luxembourg Stock Exchange or any other recognised stock exchanges.

NET ASSET VALUE PER SHARE

The Net Asset Value per Share of the Sub-Funds FULCRUM RISK PREMIA FUND*, FULCRUM DIVERSIFIED ABSOLUTE RETURN FUND, FULCRUM FIXED INCOME ABSOLUTE RETURN FUND*, FULCRUM MULTI ASSET TREND FUND, FULCRUM CLIMATE CHANGE FUND, FULCRUM THEMATIC EQUITY MARKET NEUTRAL FUND and FULCRUM INCOME FUND is determined on each Business Day (the "Valuation Day"). If any such Valuation Day falls on a day which is not a Business Day, the Net Asset Value per Share of the Sub-Fund will be determined on the following Business Day.

The Net Asset Value per Share of the Sub-Funds FULCRUM EQUITY DISPERSION FUND and FULCRUM ALTERNATIVE MANAGERS FUND is determined on each Thursday of every week based on Wednesday's closing prices or, if such Thursday is not a Business Day, the Net Asset Value per Share of the Sub-Fund will be determined on the following Business Day provided the day does not fall in the same week as a Monthly Redemption Date. The Net Asset Value per Share of the Sub-Fund is also determined on the last Business Day of each calendar month.

*Please refer to Activities during the year section of Note 1 for details of significant events during the year.

BOARD OF DIRECTORS' REPORT

as at 31 December 2023

The Board of Directors (the "Board") of Fulcrum UCITS SICAV (the "SICAV") is pleased to present the Annual Report including Audited Financial Statements (the "Annual Report") of the SICAV for the year ended 31 December 2023.

The SICAV is an open-ended investment company established in Luxembourg. It has an umbrella structure and its assets are held in a number of different Sub-Funds (the "Sub-Funds"). Each Sub-Fund has a separate portfolio of securities managed in accordance with specific investment objectives. As at 31 December 2023, there were seven Sub-Funds in issue. The assets under management of the SICAV have increased from USD 1,882,893,919 to USD 1,983,846,118, an increase of 5.36%, over the year.

CORPORATE GOVERNANCE

The Board has put in place a framework for corporate governance which is consistent with the principles of the Association of the Luxembourg Fund Industry ("ALFI") Code of Conduct for Luxembourg Investment Funds (the "Code"). The Code sets out principles of good governance and a code of best practice. It can be found on the ALFI's website www.alfi.lu.

THE BOARD

The Directors of the SICAV are responsible for supervising the SICAV in accordance with its Articles of Incorporation, Prospectus, and laws and regulations applicable to Luxembourg investment funds. The names, principal occupations and affiliations of the three Directors are listed in the section of this Annual Report entitled "Directors and Administration". The remuneration of the Directors is summarised in Note 15 of the Annual Report.

The Board holds formal Board meetings at least four times a year. At the Board meetings, the Directors review the management of the SICAV's assets and all other significant matters so as to ensure that the Directors maintain overall control and supervision of the SICAV's affairs. There were four Board meetings held during the year on 14 March, 13 June, 19 September and 28 November. The Directors attended each of the Board meetings.

The Board is responsible for the appointment and monitoring of all service providers to the SICAV, including the Management Company. The Directors are kept fully informed by the service providers of investment and financial controls and other matters relevant to the business of the SICAV. The Directors are responsible for ensuring the SICAV's financial reporting is prepared in accordance with Luxembourg generally accepted accounting principles and applicable legal and regulatory requirements. The Board considers the Annual Report is fair and balanced and provides sufficient information for the Shareholders to assess the SICAV's financial position as at 31 December 2023 and its performance during the year under review.

THE ANNUAL GENERAL MEETING ("AGM")

The annual general meeting is held in accordance with the Luxembourg law at the registered office of the Fund or at a place specified in the notice of the meeting each year. Last year's AGM of the SICAV was held on Thursday, 27 April 2023. All resolutions were approved by Shareholders. The next AGM of the SICAV will be held on or before Friday, 28 June 2024, for the purpose of considering this Annual Report, including the Audited Financial Statements for the year ended 31 December 2023.

Independent auditor's report

To the Shareholders of
FULCRUM UCITS SICAV

Opinion

We have audited the financial statements of FULCRUM UCITS SICAV (the "Fund") and of each of its sub-funds, which comprise the statement of net assets and the schedule of investments as at 31 December 2023, and the statement of operations and changes in net assets for the year then ended, and the notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements give a true and fair view of the financial position of the Fund and of each of its sub-funds as at 31 December 2023, and of the results of their operations and changes in their net assets for the year then ended in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements.

Basis for Opinion

We conducted our audit in accordance with the Law of 23 July 2016 on the audit profession (the "Law of 23 July 2016") and with International Standards on Auditing ("ISAs") as adopted for Luxembourg by the "Commission de Surveillance du Secteur Financier" ("CSSF"). Our responsibilities under the Law of 23 July 2016 and ISAs as adopted for Luxembourg by the CSSF are further described in the « responsibilities of the "réviseur d'entreprises agréé" for the audit of the financial statements » section of our report. We are also independent of the Fund in accordance with the International Code of Ethics for Professional Accountants, including International Independence Standards, issued by the International Ethics Standards Board for Accountants ("IESBA Code") as adopted for Luxembourg by the CSSF together with the ethical requirements that are relevant to our audit of the financial statements, and have fulfilled our other ethical responsibilities under those ethical requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Other information

The Board of Directors of the Fund is responsible for the other information. The other information comprises the information included in the annual report but does not include the financial statements and our report of the "réviseur d'entreprises agréé" thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report this fact. We have nothing to report in this regard.

Responsibilities of the Board of Directors of the Fund for the financial statements

The Board of Directors of the Fund is responsible for the preparation and fair presentation of these financial statements in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements, and for such internal control as the Board of Directors of the Fund determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Board of Directors of the Fund is responsible for assessing the Fund's and each of its sub-funds' ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors of the Fund either intends to liquidate the Fund or any of its sub-funds or to cease operations, or has no realistic alternative but to do so.

Responsibilities of the “réviseur d’entreprises agréé” for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue a report of the “réviseur d’entreprises agréé” that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund’s internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Board of Directors of the Fund.
- Conclude on the appropriateness of the Board of Directors of the Fund’s use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund’s or any of its sub-funds’ ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our report of the “réviseur d’entreprises agréé” to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our report of the “réviseur d’entreprises agréé”. However, future events or conditions may cause the Fund or any of its sub-funds (except for the sub-fund where a decision or an intention to close exists) to cease to continue as a going concern.
- In respect of the sub-fund where a decision or an intention to close exists, we conclude on the appropriateness of the Board of Directors of the Fund’s use of the non-going concern basis of accounting. We also evaluate the adequacy of the disclosures describing the non-going basis of accounting and reasons for its use. Our conclusions are based on the audit evidence obtained up to the date of our report of the “réviseur d’entreprises agréé”.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

NOTES TO THE FINANCIAL STATEMENTS

31 December 2023

1. GENERAL

FULCRUM UCITS SICAV (the "SICAV") is a Luxembourg incorporated open-ended investment company with variable capital (*Société d'Investissement à Capital Variable*) which was set up for an unlimited duration in Luxembourg on 12 October 2007. The SICAV is governed by Part I of the Luxembourg law of 17 December 2010 (as amended) relating to undertakings for collective investment.

The SICAV's Articles of Incorporation were published in the *Mémorial C, Recueil des Sociétés et Associations (the "Mémorial")* on 12 November 2007 and the last update was published on 7 September 2012. The SICAV is registered with the Registre de Commerce et des Sociétés in Luxembourg under number B 132741.

The SICAV's capital is at any time equal to the net assets of the SICAV and the total net assets of the Sub-Funds converted into USD.

The SICAV is an umbrella fund and as such provides investors with the choice of investment in a range of several separate Sub-Funds each of which relates to a separate portfolio of liquid assets and other securities and assets permitted by law with specific investment objectives.

For the year ended 31 December 2023 the SICAV offered the following Sub-Funds:

- FULCRUM RISK PREMIA FUND*

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

a) Basis of preparation

The SICAV prepares its combined financial statements and those of each Sub-Fund in conformity with legal and regulatory requirements in Luxembourg. The preparation of these financial statements in conformity with Luxembourg generally accepted accounting principles applicable to investment funds requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities during the reporting year. Actual results could differ from those estimates.

The financial statements of the SICAV have been prepared on a going concern basis with the exception of those relating to Fulcrum Fixed Income Absolute Return Fund which have been prepared on a non-going concern basis as this Sub-Fund was terminated on 29 December 2023. As such its assets have been recorded at net realizable values and liabilities at net settlement values.

b) Valuation of assets

The value of assets which are listed or dealt in on any stock exchange is based on the last available closing or settlement price on the stock exchange which is normally the principal market for such assets. The value of assets dealt in on any other Regulated Market is based on the last available closing or settlement price, or any other price deemed appropriate by the Board of Directors of the SICAV (the "Board of Directors").

In the event that any assets are not listed or dealt in on any stock exchange or on any other Regulated Market, or if, with respect to assets listed or dealt in on any stock exchange, or other Regulated Markets as aforesaid, the price is not representative of the fair market value of the relevant assets, the value of such assets will be based on the reasonably foreseeable sales price determined prudently and in good faith by the Board of Directors.

c) Valuation of Money Market Instruments

The value of Money Market Instruments not listed or dealt in on any stock exchange or any other Regulated Market and with remaining maturity of less than 12 months and of more than 90 days is deemed to be the nominal value thereof, increased by any interest accrued thereon. Money Market Instruments with a remaining maturity of 90 days or less will be valued using the amortised cost method.

d) Valuation of futures, options and forward currency exchange contracts

The liquidating value of options contracts not traded on exchanges or on other Regulated Markets means their net

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

liquidating value determined, pursuant to the policies established prudently and in good faith by the Board of Directors, on a basis consistently applied for each different variety of contracts. The liquidating value of futures, options or forward contracts traded on exchanges or on other Regulated Markets is based upon the last available settlement prices of these contracts on exchanges and Regulated Markets on which the particular futures, options or forward contracts are traded by the SICAV; provided that if a futures, options or forward contract could not be liquidated on the day with respect to which net assets are being determined, the basis for determining the liquidating value of such contract shall be such value as the Board of Directors may deem fair and reasonable.

e) Valuation of Swaps

Total Return Swaps are valued using the difference between the previous day's closing price and the weighted average/ reset price of the underlying securities, adjusted by the accrued interest of the fix leg of the contract and by the dividends and commission payments if applicable.

Credit Default Swaps are valued at their present value of future cash flows by reference to standard market conventions, where the cash flows are adjusted for default probability.

Interest Rate Swaps are valued on the basis of their market value established by reference to the applicable interest rate curve.

Contracts for difference are valued based on the closing market price of the underlying security converted into the currency of the unlisted asset as appropriate, less any financing charges attributable to each contract. Changes in the value of contracts are recognised as unrealised gains and losses at each valuation point in order to reflect the changes in the value of the underlying security.

Volatility Swaps are valued on the basis of their market value established by reference to the applicable price of index.

Inflation Rate Swaps are valued by reference to service data providers, market data and algorithms.

f) Net realised gain or loss on sales of investments

Profits or losses on securities sales are calculated on the basis of the weighted average cost of such securities sold.

g) Conversion of foreign currency

Assets and liabilities expressed in currencies other than the Sub-Fund's reporting currency are converted into the reporting currency at the exchange rates prevailing at the date of these financial statements. Income and expenses in currencies other

than the Sub-Fund's reporting currency are converted at the rate of exchange prevailing at transaction dates.

h) Acquisition costs of the securities held in the portfolio

Securities are initially recognised at cost being the fair value of the consideration given.

For securities expressed in a currency other than the reporting currency of the Sub-Funds, the acquisition cost is calculated on the basis of the exchange rate on the date of such acquisition.

i) Formation expenses

Formation expenses are amortised on a straight line basis over a period of 5 years.

Upfront costs of creating the new Sub-Funds are borne by the Sub-Funds and are being amortised over a period of five years with effect from the launch date of the Sub-Funds.

j) Income and expense recognition

Dividends are taken into account on the date upon which the relevant investments are first listed as ex-dividend. Interest income is accrued on a daily basis. Income is recorded net of withholding tax, if any.

Expenses are accounted for on an accrual basis.

3. FAIR VALUE MEASUREMENT

The valuation method of the financial assets and liabilities of the SICAV are described under Summary of significant accounting policies, from notes 2b) to 2e).

Although the SICAV prepares its combined financial statement in conformity with Luxembourg generally accepted accounting principles, the SICAV has elected to disclose classification of fair value measurements using a fair value hierarchy that reflects the significance of the inputs used in making the measurements under International Financial Reporting Standards (IFRS 13).

The fair value hierarchy has the following levels:

- Quoted prices (unadjusted) in active markets for identical assets or liabilities (level 1).
- Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices) (level 2).
- Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs) (level 3).

*Please refer to Activities during the year section of Note 1 for details of significant events during the year.

3. FAIR VALUE MEASUREMENT (continued)

The level in the fair value hierarchy within which the fair value measurement is categorised in its entirety is determined on the basis of the lowest level input that is significant to the fair value measurement in its entirety. For this purpose, the significance of an input is assessed against the fair value measurement in its entirety. If a fair value measurement uses observable inputs that require significant adjustment based on unobservable inputs, that measurement is a level 3 measurement. Assessing the significance of a particular input to

the fair value measurement in its entirety requires judgement, considering factors specific to the asset or liability.

The determination of what constitutes ‘observable’ requires significant judgement by the SICAV. The SICAV considers observable data to be that market data that is readily available, regularly distributed or updated, reliable and verifiable, not proprietary, and provided by independent sources that are actively involved in the relevant market.

The following table analyses within the fair value hierarchy the SICAV’s financial assets and liabilities measured at fair value through profit or loss as at 31 December 2023.

Investments whose values are based on quoted market prices in active markets and therefore classified within level 1 include certain government bonds, equities, exchange traded funds, futures contracts and exchanged traded options. The SICAV does not adjust the quoted price for these instruments.

Financial instruments that trade in markets that are not considered to be active but are valued based on quoted market prices, dealer quotations or alternative pricing sources supported by observable inputs are classified within level 2. These include target funds, corporate bonds, forward contracts, over-the-counter options, contracts for difference, warrants and swaps.

Investments classified within level 3 have significant unobservable inputs, as they trade infrequently. The SICAV did not hold any level 3 investments as at 31 December 2023.

For all other financial assets and liabilities, the carrying value is an approximation of fair value.

There were no movements between the levels during the year ended 31 December 2023.

4. SWING PRICING ADJUSTMENT

Each Sub-Fund may suffer dilution of the Net Asset Value per Share due to investors buying or selling Shares in a Sub-Fund at a price that does not reflect the dealing and other costs that arise when security trades are undertaken by the Investment Manager to accommodate cash inflows or outflows. In order to counter this impact, a swing pricing mechanism may be adopted to protect the interests of shareholders of each Sub-Fund. If as of any Valuation Day, the aggregate net transactions in Shares of a Sub-Fund exceed a pre-determined threshold, as determined

and reviewed for each Sub-Fund on a periodic basis by the Board of Directors, the Net Asset Value per Share may be adjusted upwards or downwards to reflect net inflows and net outflows respectively. The net inflows and net outflows are determined by the Board of Directors based on the latest available information at the time of calculation of the Net Asset Value per Share. The swing pricing mechanism may be applied across all Sub-Funds. The extent of the price adjustment, if any, is set by the Board of Directors to reflect dealing and other costs for each Sub-Fund. Such adjustment may vary from Sub-Fund to Sub-Fund and does not exceed 1.5% of the original Net Asset Value per Share.

No swing pricing was applied as at 31 December 2023.

The following Sub-Funds swung NAVs during the year:

- FULCRUM DIVERSIFIED ABSOLUTE RETURN FUND
- FULCRUM MULTI ASSET TREND FUND
- FULCRUM EQUITY DISPERSION FUND
- FULCRUM INCOME FUND

5. EXCHANGE RATES AS OF
31 December 2023

The following exchange rates were used to translate assets and liabilities into USD as at 31 December 2023:

Currency	Rate

AUD	1.4705
EUR	0.9028
GBP	0.7846

6. ANNUAL TAX

The SICAV is governed by Luxembourg law.

Under the currently applicable legislation and regulation, the SICAV is liable in Luxembourg to a tax of 0.05% per annum of its net assets, such tax being payable quarterly and calculated on the basis of the net assets at the end of the relevant calendar quarter. However such rate is decreased to 0.01% per annum of the Net Asset Value for specific Classes of Shares reserved for institutional investors in a Sub-Fund (ie. Class B, Class C, Class D, Class E, Class F, Class I, Class S and Class Z). No such tax is payable in respect of the portion of assets of each Sub-Fund invested in other Luxembourg undertakings for collective investment which are subject to this tax.

Under current law and practice, the SICAV is not liable to Luxembourg taxes on income or capital gains, nor are dividends paid by the SICAV liable to any Luxembourg withholding tax.

Interest, dividends and capital gains on securities may be subject to withholding or capital gains taxes in certain countries.

7. MANAGEMENT COMPANY

The Board of Directors has appointed ONE fund management S.A. (the "Management Company") as the SICAV's management company pursuant to a Fund management company agreement dated 8 August 2020.

The Management Company is responsible on a day-to-day basis, under the supervision of the Board of Directors, for the execution of the duties concerning the SICAV's investment management, central administration and distribution.

The list of the funds managed by the Management Company may be obtained, on simple request, at the registered office of the Management Company.

The Management Company, with the approval of the Board of Directors and in accordance with the applicable legal provisions, has delegated the execution of the following duties (as described hereunder) to the following third parties:

- the performance of the daily investment policy has been delegated to Fulcrum Asset Management LLP as Investment Manager;
- Fulcrum Asset Management LLP has been appointed as Principal Distributor;
- J.P. Morgan SE has been appointed as Central Administration Agent.

Without prejudice to the aforementioned delegation of duties to third parties the Management Company remains responsible for the supervision of the respective delegated duties.

The Management Company receives from the Sub-Fund, payable monthly out of the assets attributable to each Class of Shares a fee calculated on the last Net Asset Value of the month of the relevant Class of Shares.

The fee is on a reducing scale of charges and does not exceed 0.25% of the Net Asset Value of all Sub-Funds of the SICAV per annum.

The Management Company fees are part of the fixed operating charge and are included in the "Administration and other expenses" caption in the Statement of Operations and Changes in Net Assets of each Sub-Fund.

A fixed operating charge of up to 0.25% per annum of the Net Asset Value is charged in relation to all Classes of Shares of Sub-Funds FULCRUM RISK PREMIA FUND* (except for Class D Shares), FULCRUM FIXED INCOME ABSOLUTE RETURN FUND*, FULCRUM MULTI ASSET TREND FUND, FULCRUM EQUITY DISPERSION FUND and FULCRUM THEMATIC EQUITY MARKET NEUTRAL FUND.

A fixed operating charge of up to 0.20% per annum of the Net Asset Value is charged in relation to all Classes of Shares of FULCRUM DIVERSIFIED ABSOLUTE RETURN FUND (except for Class F Shares and Class Z Shares where the fixed operating charge is 0.10% per annum), FULCRUM CLIMATE CHANGE Fund (except for Class F Shares), FULCRUM INCOME FUND and FULCRUM ALTERNATIVE MANAGERS FUND.

This fixed operating charge covers the fees of the Management Company, Depositary, Paying and Domiciliary Agent and Central Administration Agent, fees and out-of-pocket expenses of the Directors, legal and auditing fees, publishing and printing expenses, Regulatory Authority fee, the cost of preparing the explanatory memoranda, financial reports and other documents for the shareholders, postage, telephone and facsimile, costs of preparing the explanatory memoranda, advertising expenses, as well as any additional registration fees. The Investment Manager bears the excess of any such fees above the rate specified for the aforementioned Classes of Shares. Conversely, the Investment Manager will be entitled to retain any amount by which the rate of these fees to be borne by the Share Classes, exceeds the actual expenses incurred by the relevant Class of the Sub-Fund.

The fixed operating charge is included in the "Administration and other expenses" caption in the Statement of Operations and Changes in Net Assets of each Sub-Fund. The related accruals of the fixed operating charge are included in the "Other liabilities" caption in the Statement of Net Assets of each Sub-Fund. Depositary fees are shown separately in the Statement of Operations and Changes in Net Assets.

7. MANAGEMENT COMPANY (continued)

The Class D Shares in the Sub-Fund FULCRUM RISK PREMIA FUND* have a Total Expense Ratio cap of 0.80% per annum.

The Class F Shares in the Sub-Fund FULCRUM CLIMATE CHANGE FUND have a Total Expense Ratio cap of 0.35% per annum.

8. INVESTMENT MANAGER

The Management Company has appointed Fulcrum Asset Management LLP as investment manager (the "Investment Manager") for the SICAV pursuant to an investment management agreement date 12 October 2007.

The Investment Manager provides the Board of Directors and the Management Company with advice, reports and recommendations in connection with the management of the SICAV.

The Investment Manager receives from each Sub-Fund, payable out of the assets attributable to the relevant Class of Shares, the following management fees calculated on each Valuation Day on the basis of the Net Asset Value of the relevant Class of Shares which is payable monthly on the first Business Day immediately following the relevant Valuation Day.

10. PERFORMANCE FEE

Furthermore, the Investment Manager is entitled to receive:

From the Sub-Fund **FULCRUM RISK PREMIA FUND***

The Investment Manager will receive a Performance Fee in relation to Class I, paid annually, based on the NAV, equivalent to 10% for Class I of the performance of the NAV per share exceeding the high water mark (as defined hereafter).

The Performance Fee is calculated on the basis of the NAV after deduction of all expenses, liabilities, and investment management fees, and is adjusted to take account of all subscriptions and redemptions.

The Performance Fee is calculated in respect of each annual period from 1 January to 31 December (the "Calculation Period").

The Performance Fee is equal to the out performance of the NAV per share multiplied by the number of shares in circulation during the Calculation Period. No Performance Fee will be due if the NAV per share before Performance Fee turns out to be below the high water mark for the Calculation Period in question.

The high water mark is defined as the greater of the following two figures:

- The last highest NAV per Share on which a Performance Fee has been paid; and
- The initial NAV per share.

Provision will be made for this Performance Fee as of each Valuation Day. If the NAV per share decreases during the Calculation Period, the provisions made in respect of the Performance Fee will be reduced accordingly. If these provisions fall to zero, no Performance Fee will be payable.

Performance Fees are payable within 15 business days following each end of the Performance Fee Calculation Period.

No Performance Fee will be payable in respect of Class A, Class D, Class E, Class Y and Class Z Shares out of the net assets of the Sub-Fund.

From the Sub-Fund **FULCRUM DIVERSIFIED ABSOLUTE RETURN FUND**

The Sub-Fund is not subject to any Performance Fee.

From the Sub-Fund **FULCRUM FIXED INCOME ABSOLUTE RETURN FUND***

The Investment Manager is entitled to receive from the Sub-Fund a Performance Fee in relation to Class I Shares of 10% of the appreciation in the Net Asset Value per Share and accordingly the Performance Fee will increase with regard to unrealised appreciation, as well as realised gains. Accordingly, a Performance Fee may be paid on unrealised gains which may subsequently never be realised. The Performance Fee may create an incentive for the Investment Manager to make investments for the Sub-Fund which are riskier than would be the case in the absence of a fee based on the performance of such Sub-Fund.

The Performance Fee is calculated in respect of each annual period from 1 January to 31 December (the "Calculation Period").

*Please refer to Activities during the year section of Note 1 for details of significant events during the year.

10. PERFORMANCE FEE (continued)

The Performance Fee will be calculated for each Calculation Period on the basis of the change in Net Asset Value (before the deduction for any accrued Performance Fees) of Class I of Shares in the Sub-Fund when compared to the High Water Mark (as defined hereafter) for the relevant Class of Shares. If the difference between the Net Asset Value (before the deduction for any accrued Performance Fees) and the Hurdle adjusted high water mark per Share during such Calculation Period is positive, it is multiplied by the Performance Fee Rate, and such amount shall constitute the Performance Fee for that Calculation Period.

The Performance Fee will be calculated with reference to the hurdle adjusted High Water Mark. The "Hurdle" for each Calculation Period for each relevant Class is the percentage rate achieved by taking the Benchmark for each Share Class plus 2%. For Class I (USD), the Benchmark is the Effective Federal Funds Rate (EFFR), calculated as a volume-weighted median of overnight federal funds transactions. For Class I (GBP), the Benchmark is the Sterling Overnight Index Average ("SONIA"). For Class I (EUR), the Benchmark is EONIA (Euro OverNight Index Average), computed as a weighted average of all overnight unsecured lending transactions in the inter-bank market in euros.

The High Water Mark of a Class is the greater of (i) the NAV at which a Share was first issued and (ii) the highest NAV per Share of the relevant Class in effect immediately after the end of a previous Calculation Period in respect of which a Performance Fee (other than a performance fee redemption) was charged, in each case as increased by an aggregate of the Hurdles applying to all prior Calculation Periods and, as appropriate, the current Calculation Period relating to that Class.

Performance Fees are payable within 15 business days following each end of the Performance Fee Calculation Period.

No Performance Fee is payable in respect of Class A, Class B, Class Y and Class Z Shares out of the net assets of the Sub-Fund.

From the Sub-Fund **FULCRUM MULTI ASSET TREND FUND**

The Investment Manager will receive an annual Performance Fee in relation to Class I, paid annually, based on the NAV, equivalent to 10% for Class I of the performance of the NAV per share exceeding the high water mark (as defined hereafter).

The Performance Fee is calculated in respect of each annual period from 1 January to 31 December (the "Calculation Period").

The Performance Fee is calculated on the basis of the NAV after deduction of all expenses, liabilities, and investment management fees, and is adjusted to take account of all subscriptions and redemptions.

The Performance Fee is equal to the out performance of the NAV per share multiplied by the number of shares in circulation during the Calculation Period. No Performance Fee will be due if the NAV per share before Performance Fee turns out to be below the high water mark for the Calculation Period in question.

The high water mark is defined as the greater of the following two figures:

- The last highest NAV per Share on which a Performance Fee has been paid; and
- The initial NAV per share.

Provision will be made for this Performance Fee as of each Valuation Day. If the NAV per share decreases during the Calculation Period, the provisions made in respect of the Performance Fee will be reduced accordingly. If these provisions fall to zero, no Performance Fee will be payable.

Performance Fees are payable within 15 business days following each end of the Performance Fee Calculation Period.

No Performance Fee is payable in respect of Class A, Class C, Class Y and Class Z Shares out of the net assets of the Sub-Fund.

From the Sub-Fund **FULCRUM EQUITY DISPERSION FUND**

The Investment Manager will receive a Performance Fee in relation to Class I, paid annually, based on the NAV, equivalent to 10% for Class I of the performance of the NAV per share exceeding the high water mark (as defined hereafter).

The Performance Fee is calculated in respect of each annual period from 1 January to 31 December (the "Calculation Period").

The Performance Fee is calculated on the basis of the NAV after deduction of all expenses, liabilities, and investment management fees, and is adjusted to take account of all subscriptions and redemptions.

The Performance Fee is equal to the out performance of the NAV per share multiplied by the number of shares in circulation during the Calculation Period. No Performance Fee will be due if the NAV per share before Performance Fee turns out to be below the high water mark for the Calculation Period in question.

*Please refer to Activities during the year section of Note 1 for details of significant events during the year.

10. PERFORMANCE FEE (continued)

The high water mark is defined as the greater of the following two figures:

- The last highest NAV per Share on which a Performance Fee has been paid; and
- The initial NAV per share.

Provision will be made for this Performance Fee as of each Valuation Day. If the NAV per share decreases during the Calculation Period, the provisions made in respect of the Performance Fee will be reduced accordingly. If these provisions fall to zero, no Performance Fee will be payable.

Performance Fees are payable within 15 business days following each end of the Performance Fee Calculation Period.

No Performance Fee will be payable in respect of Class A, Class F, Class Y and Class Z Shares out of the net assets of the Sub-Fund.

From the Sub-Fund **FULCRUM CLIMATE CHANGE FUND**

The Sub-Fund is not subject to any Performance Fee.

From the Sub-Fund **FULCRUM THEMATIC EQUITY MARKET NEUTRAL FUND**

The Investment Manager will receive a Performance Fee in relation to Class A, Class F, Class I and Class S, paid annually, based on the NAV, equivalent to 20% for Class A and Class I, 15% for Class F and 10% for Class S of the performance of the NAV per share exceeding the high water mark (as defined hereafter).

The Performance Fee is calculated in respect of each annual period from 1 January to 31 December (the "Calculation Period").

The Performance Fee is calculated on the basis of the NAV after deduction of all expenses, liabilities, and investment management fees, and is adjusted to take account of all subscriptions and redemptions.

The Performance Fee is equal to the out performance of the NAV per share multiplied by the number of shares in circulation during the Calculation Period. No Performance Fee will be due if the NAV per share before Performance Fee turns out to be below the high-water mark for the Calculation Period in question.

The high-water mark is defined as the greater of the following two figures:

- The last highest NAV per Share on which a Performance Fee has been paid; and

- The initial NAV per share.

The Performance Fee Calculation Periods are henceforth annual ending on 31 December of each year.

Performance Fees are payable within 15 business days following each end of the Performance Fee Calculation Period.

No Performance Fee will be payable in respect of Class Z Shares out of the net assets of the Sub-Fund.

From the Sub-Fund **FULCRUM INCOME FUND**

The Sub-Fund is not subject to any Performance Fee.

From the Sub-Fund **FULCRUM ALTERNATIVE MANAGERS FUND**

The Sub-Fund is not subject to any Performance Fee.

The table below shows the performance fee charged for the year ended 31 December 2023 and the performance fee as a percentage of the average net assets value for each share class:

13. TRANSACTION COSTS

The transaction fees are costs incurred by the SICAV in connection with transactions on securities and derivative instruments. They consist of commissions and taxes relating to these transactions. These are included in the Statement of Operations and Changes in Net Asset under "Net realised gain/(loss) on sale of Investments" and "Net change in unrealised appreciation/(depreciation) on Investments". For the year ended 31 December 2023, the Sub-Funds incurred transaction fees as follows:

**Please refer to Activities during the year section of Note 1 for details of significant events during the year.

14. FORWARD CURRENCY EXCHANGE CONTRACTS

Shares are denominated in Sterling (GBP), US Dollars (USD), Australian Dollar (AUD) and Euro (EUR) and may be issued and redeemed in these currencies. The assets of each Sub-Fund may, however, be invested in securities or other investments, which are denominated in currencies other than the currency in which a Class of Shares is denominated. Consequently, each Sub-Fund is exposed to risks that the exchange rate of its currency relative to other foreign currencies may change in a manner that has an adverse effect on the value of that portion of the Sub-Fund's assets or liabilities denominated in currencies other than the base currency. For example, an investor who acquires GBP Shares will be subject to foreign exchange risk in respect of those assets of the Sub-Fund which are denominated in any currency other than GBP. The assets of the non-base currency Classes are hedged against the base currency and foreign exchange transactions with respect to the non-base currency Shares may be undertaken with a view to protecting the value of those Classes against the base currency. The foreign currency exposure of the Classes is substantially hedged through the use of forward contracts. The profits and losses from these transactions are allocated solely among the Shares of the respective Classes to which they relate.

Open forward currency exchange contracts as at 31 December 2023 are disclosed in the Schedule of Investments.

15. DIRECTORS' FEES AND INTERESTS

The fees paid to the independent directors comprise fixed amounts at prevailing market rates, and do not include a variable rate component.

Mr. Joseph Davidson waived his remuneration as Director of the SICAV. He is the Managing Partner of Fulcrum Asset Management LLP and therefore has an indirect interest in the Investment Management Agreement. Mr. Joseph Davidson resigned from his mandate as a director of the Company by a resignation letter dated 9 February 2023 and with effect from 9 February 2023.

The Board coopted Mr. Sean Onyett as a director of the Company with effect from 9 February 2023 until he was appointed by the annual shareholder's meeting of the Company held on 25 May 2023. As an employee of Fulcrum Asset Management LLP, he has waived his remuneration as Director of the SICAV.

No Director holds any shares in the SICAV nor has interest in any portfolio transaction which has been effected by the SICAV during the year ended 31 December 2023.

16. DISTRIBUTION POLICY

All Sub-Funds except FULCRUM DIVERSIFIED ABSOLUTE RETURN FUND, FULCRUM INCOME FUND and FULCRUM CLIMATE CHANGE FUND do not intend to make any dividend distributions.

Distributions during the year ended 31 December 2023 consisted of:

FULCRUM INCOME FUND		Distribution Rate (in base currency)

APPENDIX I – RISK MANAGEMENT (unaudited)

Year ended 31 December 2023

In accordance with the law of 17 December 2010 (as amended) on undertakings for collective investment and the applicable regulations, in particular the CSSF Circular 11/512, the Sub-Funds use a risk-management process which enables them to assess their exposure to market, liquidity and counterparty risks, and to all other risks, including operational risks, which are material for these Sub-Funds.

As part of this risk-management process, the global exposure of the Sub-Funds is measured by the absolute Value at Risk (“VaR”) approach, by the relative VaR approach or by the commitment approach.

The following is a summary of the classification of the Sub-Funds of the SICAV:

Name of Sub-fund	Global Exposure calculation method	VaR methodology	Max limit	Max VaR	Min VaR	Average VaR	Reference Portfolio for relative VaR	Sum of notional-Average leverage	Commitment approach – Average leverage
FULCRUM DIVERSIFIED ABSOLUTE RETURN	Absolute VaR	Historical simulation	20%	5.86%	1.74%	2.96%	N/A	533.39%	344.13%
FULCRUM RISK PREMIA FUND*	Absolute VaR	Monte-Carlo simulation	20%	10.04%	2.35%	6.40%	N/A	775.62%	498.07%
FULCRUM FIXED INCOME ABSOLUTE RETURN FUND	Absolute VaR	Historical simulation	20%	4.49%	0.01%	2.45%	N/A	486.71%	257.48%
FULCRUM INCOME FUND	Absolute VaR	Monte-Carlo simulation	20%	5.97%	1.59%	3.27%	N/A	653.36%	353.74%
FULCRUM MULTI ASSET TREND FUND	Absolute VaR	Historical simulation	20%	14.20%	4.83%	8.46%	N/A	841.36%	613.41%
FULCRUM THEMATIC EQUITY MARKET NEUTRAL FUND	Absolute VaR	Monte-Carlo simulation	20%	5.15%	1.70%	2.93%	N/A	214.80%	261.20%
FULCRUM EQUITY DISPERSION FUND	Absolute VaR	Monte-Carlo simulation	20%	6.96%	0.95%	4.64%	N/A	287.99%	138.37%
FULCRUM CLIMATE CHANGE FUND	Commitment	N/A	N/A	N/A	N/A	N/A	N/A	N/A	5.89%
FULCRUM ALTERNATIVE MANAGERS FUND	Commitment	N/A	N/A	N/A	N/A	N/A	N/A	N/A	1.95%

*The figures for the Sub-Fund cover the year until 12 June 2023.

The Sub-Funds under VaR approach are calculated using the following methodology:

- 1) VaR method: as per the table above
- 2) Confidence interval: 99%
- 3) Analysis time horizon: one month (20 days)
- 4) Time series extension: 1 year

Generally all OTC derivatives (FX forwards, Commodity Swaps and Contracts for Differences), that need to be closed out for reduction of net exposure will require the Sub-Fund to enter in an opposite transaction. While the opposite transaction economically reduces the risk (as reflected in the leverage under the commitment approach) the gross exposure is increased and therefore the leverage under the Sum of Notionals approach is inflated as the approach does not allow any netting of exposures.

The “global exposure” columns in the schedule of investments are not calculated based on the VaR or commitment approach.

APPENDIX V – SUSTAINABLE FINANCE DISCLOSURE REGULATION (SFDR) (unaudited)

Year ended 31 December 2023

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852 establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Sustainability indicators measure how the sustainable objectives of this financial product are attained.

Template periodic disclosure for the financial products referred to in Article 9, paragraphs 1 to 4a, of Regulation (EU) 2019/2088 and Article 5, first paragraph, of Regulation (EU) 2020/852

The Fund investment manager has not specified a minimum threshold, apart from the two overall requirements mentioned above: that 100 per cent of single-stock holdings be in companies with an ITR lower than 2°C, and 0 per cent of holdings have significant involvement in tobacco, controversial weapons and predatory lending (as defined by data provider, MSCI).

As of 31st December 2023, Sustainability data suggests approximately 6.5% of the Fund investments’ revenues are in EU Taxonomy-aligned activities. Although this percentage is purely indicative, the Fund investment manager expects this number will improve over time, as more companies disclose

revenues in a more granular fashion. There are no constraints for the Fund investment manager to reach a minimum threshold of investments with an environmental objective aligned with EU taxonomy.

How did the sustainability indicators perform?

As of December 2023, the Fund has an average ‘implied temperature rise’ of 1.3°C (constructed as a weighted average of the implied temperature of underlying holdings), with no single stock having a temperature higher than 2°C.

...and compared to previous periods? [include for financial products where at least one previous periodic report was provided]

As of December 2022, the Fund had an average ‘implied temperature rise’ of 1.5°C (constructed as a weighted average of the implied temperature of underlying holdings), with no single stock having an temperature higher than 2°C.

How did the sustainable investments not cause significant harm to any sustainable investment objective?

The Fund investment manager’s responsible investment committee is responsible for ensuring adverse impacts on sustainability objectives are integrated in their investment process and that they are effectively considered.

How were the indicators for adverse impacts on sustainability factors taken into account?

By design, the Fund aims to select companies making efforts to align their businesses with global efforts to mitigate climate change. This is primarily measured in terms of the implied temperature alignment of issuers, which in turn is most closely linked to the GHG emissions impact indicators, as companies are not likely to be included in the Fund if their past and future emissions are misaligned with the global required pathways. The Fund only holds securities that are below 2°C.

The Fund investment manager recognises the challenge of potential adverse impacts in this area – for example, a rapid shift to renewable energy and electric vehicles, necessary to decarbonise electricity and transport, may require a temporary increase in the emissions of the steelmakers in their value chain. The choice of temperature alignment as a primary metric aims to address this challenge, by adopting differentiated emission pathways for certain sectors.

While the Fund investment manager does not directly select securities based on their performance on principal adverse impact indicators (PAIs), they are already monitoring the aggregate PAI score of the portfolio (as calculated by its internal climate research team) to ensure that it is lower than its benchmark, which as of 31st December 2023 is the MSCI All Country World Index.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

The Fund seeks to avoid companies involved in predatory lending and tobacco, in line with the spirit of international conventions and guidelines on responsible business practices, as well as companies involved in controversial weapons, whose disproportionate impact on civilians the Manager deems to be misaligned with such guidelines.

APPENDIX V – SUSTAINABLE FINANCE DISCLOSURE REGULATION (SFDR) (unaudited) (continued)

Recognising the importance of establishing minimum safeguards, the voting recommendations the Manager receives from proxy advisor Glass Lewis include a third-party 'GC Score' from ESG data provider Arabesque which is based off the four areas of the UN Global Compact Principle (Human Rights, Labour, Environment, and Anti-Corruption), and they inform the Manager's voting decisions. The updated policy from the proxy advisor, in force as of 2023, will recommend a "vote against the chair of the board in instances where companies who are not signatories or participants in the United Nations Global Compact ("UNGC") or that have not adopted a human rights policy that is aligned with the standards set forth by the International Labour Organization ("ILO") or the Universal Declaration on Human Rights ("UDHR")."

How did this financial product consider principal adverse impacts on sustainability factors?

The choice of temperature alignment as a primary metric aims to address this challenge, by adopting differentiated emission pathways for certain sectors.

The selection of individual stocks is derived from the choice of investment themes, which aim to capitalise on positive sustainability and/or market trends. There is significant overlap, on a qualitative level, between many of the themes driving fund construction (e.g. clean energy, waste & water management) and the objective of mitigating adverse impacts (e.g. by reducing the share of non-renewable energy consumption in the global economy, improving waste and water usage).

While the Fund investment manager does not directly select securities based on their performance on principal adverse impact indicators (PAIs), they are already monitoring the aggregate PAI score of the portfolio (as calculated by its internal climate research team) to ensure that it is lower than its benchmark, which as of 31st December 2023 is the MSCI All Country World Index.

Moreover, as part of regular risk reporting, metrics corresponding to scope 1, 2, 3 and total emissions of investee companies, in both absolute terms and relative to total investments, as well as the carbon intensity of companies relative to their revenues are monitored.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective

Transitional activities are economic activities for which low-carbon alternatives are not yet available and that have greenhouse gas emission levels corresponding to the best performance.

What was the proportion of sustainability-related investments?

The Fund investment manager considers a company whose emissions trajectory is aligned with the goals of the Paris Agreement to represent a sustainable investment – all single-stock names selected for the Fund are required to satisfy this objective, comprising c 98% of Fund investments.

What was the asset allocation?

[Include only relevant boxes, remove irrelevant ones for the financial product]

● **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?**

Yes: [specify below, and details in the graphs of the box]

In fossil gas In nuclear energy

No

APPENDIX V – SUSTAINABLE FINANCE DISCLOSURE REGULATION (SFDR) (unaudited) (continued)

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies
- **capital expenditure (CapEx)** showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure (OpEx)** reflecting green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

[Include information on Taxonomy aligned fossil gas and nuclear energy and the explanatory text in the left hand margin on the previous page only if the financial product invested in fossil gas and/or nuclear energy Taxonomy-aligned economic activities during the reference period]

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

[include note for the financial products referred to in Article 5, first paragraph, of Regulation (EU) 2020/852 that invest in environmental economic activities that are not environmentally sustainable economic activities]

What was the share of investments made in transitional and enabling activities? *[include a breakdown of the proportions of investments during the reference period]*

The Fund investment manager is not currently measuring or specifying a minimum share of investments in transitional and enabling activities.

● **How did the percentage of investments aligned with the EU Taxonomy compare with previous reference periods?** *[include where at least one previous periodic report was provided]*

As illustrated below, Sustainability data suggests approximately 3% of the Fund investments are in EU Taxonomy-aligned activities. Please see below charts for figures as of December 2022.

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

The Fund investment manager considers a company whose emissions trajectory is aligned with the goals of the Paris Agreement to represent a sustainable investment – all single-stock names selected for the Fund are required to satisfy this objective, comprising c 98% of Fund investments.

What was the share of socially sustainable investments? [include only where the financial product includes sustainable investments with a social objective]

N/A.

What investments were included under “not sustainable”, what was their purpose and were there any minimum environmental or social safeguards?

The Fund investment manager aims to hold c. 2% of the Fund in cash and futures for hedging and efficient portfolio management purposes. There are no specific constraints as regards these specific instruments, other than the Fund investment manager’s firm-wide restrictions mentioned above.

What actions have been taken to attain the sustainable investment objective during the reference period? [list the actions taken within the period covered by the periodic report to attain the sustainable investment objective of the financial product, including shareholder engagement as referred to in Article 3g of Directive 2007/36/EC and any other engagement relating to the sustainable investment objective]

The Fund investment manager has continued to ensure all single-stock names continue to meet the temperature objective of the Fund. The Manager has also monitored the performance of investee companies with regards to key sustainability metrics (such as the proportion of the portfolio setting Science Based Targets for their emissions), and has engaged with multiple investee companies to encourage further progress on sustainability.
