

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

AXA ACT Green Short Duration Bond Fund

A Sub-Fund of AXA Fixed Interest Investment ICVC

Share class: AXA ACT Green Short Duration Bond Fund Z Accumulation GBP Quarterly (ISIN: GBO0BNNDLG95)

This Sub-Fund is managed by AXA Investment Managers UK Limited, part of the AXA IM Group

Objective and Investment Policy

Investment Objective

The aim of this Fund is: (i) to provide income and capital growth over the medium term (being three years); and (ii) to invest in bonds which finance projects which will generate an environmental benefit, known as "green bonds".

Investment Policy

The Fund seeks to achieve its objective by investing at least 75% of its Net Asset Value in "green bonds" issued by governments and companies anywhere in the world, with a bias towards corporate bonds. Investment will be made largely in more developed markets but may also be made in emerging markets. The Fund invests at least 75% of its Net Asset Value in investment grade bonds (meaning bonds with a rating of at least BBB- by Standard & Poor or equivalent rating by Moody's or Fitch), with a maximum of 10% in sub-investment grade bonds. At least 70% of the Fund's Net Asset Value will be invested in bonds of shorter (i) maturities (where the full repayment of the bond is expected to occur within five years of its purchase by the Fund) and (ii) duration, the price sensitivity of a bond (or a portfolio of bonds) to a change in interest rates (where the duration of the Fund is expected to be between 0 and 5 years), with the aim of reducing the effect of fluctuations in interest rates. The fund manager will aim to hedge any non-sterling denominated bonds back to sterling. The fund manager selects bonds by carrying out comprehensive analysis of the global economic markets in order to (i) decide the asset allocation across different types of bonds, issuers, sectors and geographical location; (ii) to manage the risk of changes in yields on the price of the bonds in the Fund and (iii) identify "green bonds" by applying its proprietary Green Bonds Framework. When applying its proprietary Green Bonds Framework, the fund manager evaluates the relevant bond and its issuer against the following four pillars:

(i) the quality of the issuer's Environmental, Social and Governance (ESG) practices; (ii) whether the projects undertaken and financed by the issuer will generate an environmental benefit; (iii) the controls that the issuer has in place to manage and allocate proceeds of the bonds to eligible projects; and (iv) the reporting that the issuer provides on the impact of eligible projects.

The fund manager will deem a bond as generating an environmental benefit where such bond finances a project which: (i) addresses an environmental theme, such as low carbon transport or smart energy, which either directly or indirectly contributes to one or more of the environmentally focussed UN Sustainable Development Goals (UN SDG), with a focus on UN SDG 11 (Sustainable cities and communities) and UN SDG 13 (Climate action); (ii) does not significantly harm any UN SDG and (iii) can demonstrate such contribution against the relevant environmental theme and UN SDG, by showing a positive impact of the project against relevant environmental key performance indicators.

In addition, the fund manager will consider the issuer's ESG score as one factor within its broader analysis of the issuer in order to identify bonds which are expected to generate: (i) both income and capital growth; and (ii) an environmental benefit. ESG scores are produced by our selected external provider(s), as detailed in the "Responsible Investment" section of the prospectus. The fund manager will not invest in bonds with the lowest ESG scores.

To avoid investing in bonds which present excessive degrees of ESG risk, the fund manager applies AXA IM Group's sector specific investment guidelines

relating to responsible investment to the Fund. Such guidelines exclude investment in (or exposure to) certain companies based on their involvement in specific sectors, such as soft commodity derivatives, palm oil (including deforestation and natural ecosystems conversion), controversial weapons and climate risks.

The fund manager also applies the AXA Investment Managers' ESG Standards policy. This policy excludes investment in companies based on: tobacco production; manufacture of white phosphorus weapons; human rights; anti-corruption and other environmental, social and governance (ESG) factors. The AXA Investment Managers' ESG Standards policy and AXA IM Group's sector specific investment guidelines are subject to change.

If the fund manager deems that an investment no longer meets the criteria set out in this investment policy or its expectations in terms of that investment's prospects for achieving income and capital growth and/or generating an environmental benefit, the fund manager will disinvest as soon as practicable having regard to the best interests of the Fund's investors and in accordance with its best execution policy.

In selecting the bonds for the Fund, the fund manager may reference the composition and risk profile of the ICE BofAML Green Bond 0-5Y. However the fund manager invests on a discretionary basis with a significant degree of freedom to take positions which are different from the index. The ICE BofAML Green Bond 0-5Y is designed to measure the performance of the green bond universe with a maturity of between 0-5 years. This index best represents the types of bonds in which the Fund predominantly invests. The Fund may also invest at the fund manager's discretion in other transferable securities (for example, fixed income investments), cash, deposits, units in collective investment schemes (including funds managed by the fund manager and its associates) and money market instruments. The Fund may use derivatives (such as credit default swaps, interest rate futures and foreign exchange swaps) for investment purposes as well as for Efficient Portfolio Management. Use may be made of borrowing, cash holdings, hedging and other investment techniques permitted in the applicable Financial Conduct Authority rules.

The ICE BofAML Green Bond 0-5Y may be used by investors to compare the Fund's performance.

Income

Income from investments in the Fund will be rolled up into the value of your shares if you hold accumulation shares.

Fund Currency

The reference currency of the Fund is Sterling.

Investment Horizon

This Fund may not be suitable for investors who plan to withdraw their contribution within three years.

Processing of subscription and redemption orders

Processing of subscription and redemption orders Your orders to buy, sell or transfer shares in the Fund, must be received by the Administrator by 12 noon on any working day to receive that day's Fund price. Please note that if your order is placed by an intermediary or Financial Adviser, they may require extra processing time. The Net Asset Value of this Fund is calculated on a daily basis.

Minimum initial investment: £100,000

Minimum subsequent investment: £100

Risk and Reward Profile

The risk category is calculated using historical performance data and may not be a reliable indicator of the Fund's future risk profile.

The risk category shown is not guaranteed and may shift over time.

The lowest category does not mean risk free.

Why is this Fund in this category?

The capital of the Sub-Fund is not guaranteed. The Sub-Fund is invested in financial markets and uses techniques and instruments which are subject to some levels of variation, which may result in gains or losses.

Additional Risks (risks materially relevant to the fund which are not adequately captured by the indicator)

Counterparty Risk: failure by any counterparty to a transaction (e.g.

derivatives and securities lending) with the Fund to meet its obligations may adversely affect the value of the Fund. The Fund may receive assets from the counterparty to protect against any such adverse effect but there is a risk that the value of such assets at the time of the failure would be insufficient to cover the loss to the Fund.

Emerging Market Risks: emerging markets or less developed countries may face more political, economic or structural challenges than developed countries. As a result, investments in such countries may cause greater fluctuations in the Fund's value than investments in more developed countries.

Liquidity Risk: some investments may trade infrequently and in small volumes. As a result, the fund manager may not be able to sell at a preferred time or volume or at a price close to the last quoted valuation. The fund manager may be forced to sell a number of such investments as a result of a large redemption of shares in the Fund. Depending on market conditions, this could lead to a significant drop in the Fund's value and in extreme circumstances lead the Fund to be unable to meet its redemptions.

Further explanation of the risks associated with an investment in this Fund can be found in the prospectus.

AXA ACT Green Short Duration Bond Fund

Charges

The charges you pay are used to pay the cost of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest

Entry charge	none
Exit charge	none
This is the maximum that might be taken out of your money before it is invested.	
Charges taken from the fund over a year	
Ongoing Charges	0.44%
Charges taken from the fund under certain specific conditions	
Performance fee	none

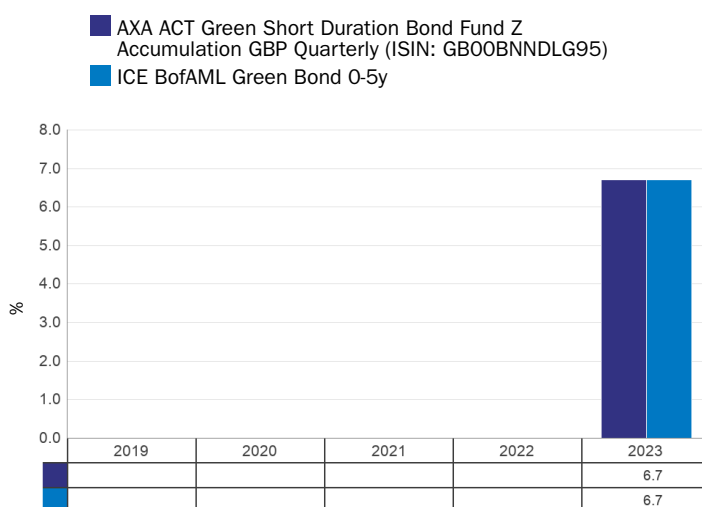

The entry and exit charges shown are maximum figures. In some cases, you might pay less - you can find this out from your Financial Adviser.

The ongoing charges figure is based on expenses for the previous twelve month period. This figure may vary from year to year. It excludes:

- Performance fees
- Portfolio transaction costs, except in the case of an entry/exit charge paid by the Fund when buying or selling units in another collective investment undertaking.

For more information about charges, please refer to AXA IM website: <https://www.axa-im.co.uk/important-information/fund-charges-and-costs> as well as the Fees and Expenses section of the prospectus which is available at <https://funds.axa-im.com>.

Past Performance

Past performance is not a reliable indicator of future results.

Past performance is shown after the deduction of ongoing charges. Any entry/exit fees are excluded from the calculation.

The Sub-Fund was launched on 05/01/2022 and the share class in 2022.

Past performance has been calculated in Sterling and is expressed as a percentage change of the Fund's Net Asset Value at each year end.

Practical Information

Depositary:

HSBC Bank Plc
Registered Office
8 Canada Square
London, E14 5HQ

Further information:

More detailed information on this Fund, such as the prospectus as well as the latest annual and semi-annual report, can be obtained free of charge from the Fund's Management Company, the Administrator, the Fund's distributors, online at <https://www.axa-im.co.uk>, or by calling 0345 777 5511. These documents are available in English.

More share classes are available for this Sub-Fund. For more details about other share classes, please refer to the prospectus, which is available at <https://funds.axa-im.com/>.

Details of the up to date remuneration policy of the Management Company are published online at www.axa-im.com/important-information/remuneration-policy. This includes the description of how remuneration and benefits are awarded for employees, and information on the remuneration committee. The Management Company provides a paper copy free of charge upon request. A glossary of some of the terms used in this document can be found online at <https://retail.axa-im.co.uk/glossary>

Each Sub-Fund corresponds to a distinct part of the assets and liabilities of the UCITS. As a consequence, the assets of each Sub-Fund are segregated from the assets of the other Sub-Funds and exclusively available to satisfy the rights of investors in relation to that Sub-Fund and the right of creditors

whose claims have arisen in connection with the creation, the operation or the liquidation of that Sub-Fund.

Net Asset Value Publication:

The Net Asset Value per share is available at <https://www.axa-im.co.uk> and at the registered office of the Fund's Management Company.

Tax Legislation:

The Fund is subject to the tax laws and regulations of the United Kingdom. Depending on your own country of residence this might have an impact on your investments. For further details, you should consult a tax adviser.

Liability Statement:

AXA Investment Managers UK Limited may be held liable solely on the basis of any statement contained in this document that is misleading, inaccurate or inconsistent with the relevant parts of the prospectus for the Fund.

Switching between Funds:

Shareholders may apply for their shares to be converted into shares of another Fund, provided that the conditions for accessing the target share class are fulfilled. Investment would be at the Net Asset Value of the target fund, calculated at the applicable Valuation Point following receipt of the conversion request.

The redemption and subscription costs connected with the conversion may be charged to the shareholder as indicated in the prospectus.

For more details about how to switch Fund, please refer to the section in the Fund's prospectus entitled "Can I switch or convert shares and what are the implications?", which is available at <https://funds.axa-im.com>
