# BNY Mellon Global Real Return Fund (GBP)

**STERLING W (ACC.) (ISIN: IE00B8YWCK14)**

a sub-fund of BNY Mellon Global Funds, plc. This Fund is managed by BNY Mellon Fund Management (Luxembourg) S.A.

## Objectives and Investment Policy

### OBJECTIVE

To achieve a total return in excess of a cash benchmark (as described below) over an investment horizon of 3-5 years.

### POLICY

#### The Fund will:

- invest anywhere in the world;
- follow a broad 'multi-asset' portfolio approach (e.g. company shares (i.e. equities) and similar investments, bonds and similar debt investments and cash);
- invest in bonds, issued by governments and companies, with high and low credit ratings (i.e. investment grade and/or sub-investment grade bonds as rated by Standard and Poor's or similar agencies);
- gain exposure to commodities (e.g. gold), property, renewable energy and infrastructure through stock exchange listed securities and/or collective investment schemes;
- invest on a long and short basis;
- invest in derivatives (financial instruments whose value is derived from other assets) to help achieve the Fund's investment objective. The Fund will also use derivatives with the aim of risk or cost reduction or to generate additional capital or income;
- limit investment in other collective investment schemes to 10%; and
- neither promote environmental and/or social characteristics pursuant to Article 8 of the Sustainable Finance Disclosure Regulation "SFDR" nor have sustainable investment as its objective pursuant to Article 9 of SFDR. Consequently, for the purposes of SFDR it is considered an Article 6 Fund.

#### The Fund may:

- invest in emerging markets;

- invest up to 10% of its Net Asset Value (NAV) in China A-shares via the Stock Connect;
- invest up to 10% of its Net Asset Value (NAV) in debt securities traded in the China interbank bond market via Bond Connect;
- invest up to 10% of its Net Asset Value (NAV) in contingent convertible securities (CoCo's);
- invest up to 10% of its Net Asset Value (NAV) in Structured Notes;
- allocate up to 8.5% of its assets to alternative risk premia strategies. Such strategies seek to gain exposure to risk premia (the return or reward an investor earns to bear risk) through instruments such as structured notes, derivative instruments and collective investment schemes; and
- invest in cash and cash-like investments.

**Benchmark:** The Fund will measure its performance against SONIA (30-day compounded) + 4% per annum (the "Cash Benchmark"). The Cash Benchmark is used as a target against which to measure the performance of the Fund over 5 years before fees.

SONIA (Sterling Overnight Index Average) is an interest rate benchmark. SONIA is based on actual transactions and reflects the average of the interest rates that banks pay to borrow sterling overnight from other financial institutions and other institutional investors.

The Fund is actively managed, which means the Investment Manager has discretion over the selection of investments, subject to the investment objective and policies disclosed in the Prospectus.

### OTHER INFORMATION

**Treatment of income:** net income generated will be retained within the Fund and reflected in the value of your shares.

**Dealing:** you can buy and sell your shares in the Fund between 9:00 and 17:00 (Irish time) on each business day in Ireland. Instructions received before 12:00 will receive the price quoted on that day. The minimum initial investment for this share class is GBP 15,000,000.

## Risk and Reward Profile

We have calculated the risk and reward indicator, as shown above. It is based on the rate at which the value of the Fund has moved up and down in the past (i.e. volatility). It is not a guide to the future risk and reward rating of the Fund. The rating shown is not a target or guarantee and may shift over time. Even the lowest rating of 1 does not mean a risk-free investment.

This Fund is rated 4 because its historical value has shown moderate volatility. With a Fund rating of 4, you have a moderate risk of losing money but your chance for gains is also moderate.

### THE FOLLOWING RISKS MAY NOT BE FULLY CAPTURED BY THE RISK AND REWARD INDICATOR:

**China Interbank Bond Market and Bond Connect risk:** The Fund may invest in China interbank bond market through connection between the related Mainland and Hong Kong financial infrastructure institutions. These may be subject to regulatory changes, settlement risk and quota limitations. An operational constraint such as a suspension in trading could negatively affect the Fund's ability to achieve its investment objective.

**Shanghai-Hong Kong Stock Connect and/or the Shenzhen-Hong Kong Stock Connect ("Stock Connect") risk:** The Fund may invest in China A shares through Stock Connect programmes. These may be subject to regulatory changes and quota limitations. An operational constraint such as a suspension in trading could negatively affect the Fund's ability to achieve its investment objective.

**Geographic Concentration Risk:** Where the Fund invests significantly in a single market, this may have a material impact on the value of the Fund.

**Objective/Performance Risk:** There is no guarantee that the Fund will achieve its objectives.

**Currency Risk:** This Fund invests in international markets which means it is exposed to changes in currency rates which could affect the value of the Fund.

**Derivatives Risk:** Derivatives are highly sensitive to changes in the value of the asset from which their value is derived. A small movement in the value of the underlying asset can cause a large movement in the value of the derivative. This can increase the sizes of losses and gains, causing the value of your investment to fluctuate. When using derivatives, the Fund can lose significantly more than the amount it has invested in derivatives.

**Changes in Interest Rates & Inflation Risk:** Investments in bonds/ money market securities are affected by interest rates and inflation trends which may negatively affect the value of the Fund.

**Credit Ratings and Unrated Securities Risk:** Bonds with a low credit rating or unrated bonds have a greater risk of default. These investments may negatively affect the value of the Fund.

**Credit Risk:** The issuer of a security held by the Fund may not pay income or repay capital to the Fund when due.

**Emerging Markets Risk:** Emerging Markets have additional risks due to less-developed market practices.

**CoCo's Risk:** Contingent Convertible Securities (CoCo's) convert from debt to equity when the issuer's capital drops below a pre-defined level. This may result in the security converting into equities at a discounted share price, the value of the security being written down, temporarily or permanently, and/or coupon payments ceasing or being deferred.

**Counterparty Risk:** The insolvency of any institutions providing services such as custody of assets or acting as a counterparty to derivatives or other contractual arrangements, may expose the Fund to financial loss.

A complete description of risk factors is set out in the Prospectus in the section entitled "Risk Factors".

## Charges

The charges cover the costs of running the Fund, including the costs of marketing and selling. These charges reduce the potential growth of your investment.

### ONE-OFF CHARGES TAKEN BEFORE OR AFTER YOU INVEST

Entry charge	<b>5.00%</b>
Exit charge	<b>None</b>

*This is the maximum that might be taken out of your money before it is invested and before the proceeds of your investment are paid out.*
