## **1. ORGANISATION**

Allspring (Lux) Worldwide Fund (the "Fund") was incorporated for an unlimited period on 20 March 2008 as a société anonyme under the laws of the Grand Duchy of Luxembourg and qualifies as an open-ended Société d'Investissement à Capital Variable under part I of the Grand Duchy of Luxembourg law dated 17 December 2010 concerning undertakings for collective investment in transferable securities, as amended. The Fund is registered with the Registre de Commerce et des Sociétés of Luxembourg under Number B 137.479.

The Fund has adopted an umbrella structure, which allows its capital to be divided into different portfolios of securities and other assets permitted by law with specific investment objectives and various risks or other characteristics (each a "Sub-Fund", collectively the "Sub-Funds").

Climate Transition Global Buy and Maintain Fund and Climate Transition Global High Yield Fund commenced operations on 23 August 2023 and 6 June 2023, respectively.

During the six months ended 30 September 2023, China A Focus Fund, Climate Focused Emerging Markets Equity Fund, Climate Focused Global Equity Fund, Climate Focused U.S. Equity Fund and Global Factor Enhanced Equity Fund were fully redeemed and subsequently liquidated. Global Equity Fund liquidated during the fiscal year ended 31 March 2022, and Global Equity Absolute Return Fund, Global Low Volatility Fund and Global Multi-Asset Income Fund liquidated during the fiscal year ended 31 March 2021. As at 30 September 2023, the liquidated Sub-Funds retained the following amount in cash to pay post liquidation expense invoices:

Global Multi-Asset Income Fund	9,729	12/5/2020

## 2. SIGNIFICANT ACCOUNTING POLICIES

The accompanying financial statements have been prepared in accordance with Luxembourg legal and regulatory requirements relating to undertakings for collective investment in transferable securities and with generally accepted accounting principles. The financial statements are expressed in the base currency of the Fund, which is USD. The base currency of each Sub-Fund, except Climate Transition Global Buy and Maintain Fund, EUR Investment Grade Credit Fund and EUR Short Duration Credit Fund, is USD. The base currency for EUR Investment Grade Credit Fund and EUR Short Duration Credit Fund, is USD. The base currency for EUR Investment Grade Credit Fund and EUR Short Duration Credit Fund is EUR. The base currency for Climate Transition Global Buy and Maintain Fund is GBP. The net asset value ("NAV") per share as calculated on 30 September 2023 is based on the last available market prices of the investments in which the respective Sub-Funds are invested as at 30 September 2023.

The financial statements of each Sub-Fund are prepared on a going concern basis.

## Investment valuations

Investments generally are valued each business day as of the close of regular trading on the New York Stock Exchange ("NYSE") (generally 4:00 p.m. U.S. Eastern Time).

Equity securities and futures contracts that are listed on an exchange or market are valued at the official closing price or, if none, the last sales price.

Unlisted securities, for which over-the-counter market quotations are readily available (including listed securities for which the primary market is believed to be the over-the-counter market), are valued at a price equal to the last reported price as supplied by the recognised quotation services or broker-dealers.

Options that are listed on a foreign or domestic exchange or market are valued at the closing mid-price. Non-listed options and swap contracts are valued at the evaluated price provided by an independent pricing service or, if a reliable price is not available, the quoted bid price from an independent broker-dealer.

Forward foreign currency contracts are recorded at the forward rate provided by an independent foreign currency pricing source each business day.

Many securities markets and exchanges outside the U.S. close prior to the close of the NYSE and therefore may not fully reflect trading or events that occur after the close of the principal exchange in which the non-U.S. securities are traded, but before the close of the NYSE. If such trading or events are expected to materially affect the value of securities, then fair value pricing procedures approved by the Board of Directors are applied. These procedures take into account multiple factors, including movements in U.S. securities markets after non-U.S. exchanges close. Depending on market activity, such fair valuations may be frequent. Such fair value pricing may result in NAVs that are higher or lower than NAVs based on the last reported sales price or latest quoted bid price.

Debt securities are valued at the evaluated bid price provided by an independent pricing service (e.g. taking into account various factors, including yields, maturities or credit ratings) or, if a reliable price is not available, the quoted bid price from an independent broker-dealer.

Short-term securities, with remaining maturities of 60 days or less at the time of purchase, generally are valued at amortised cost which approximates fair value. The amortised cost method involves valuing a security at its cost, plus accretion of discount or minus amortisation of premium over the period until maturity.

The values of securities not denominated in the base currency of each Sub-Fund are converted to the applicable currency at rates provided by an independent currency pricing source.

Investments which are not valued using the methods discussed above are valued at their fair value, in accordance with the Fund's Pricing and Valuation Policies & Procedures established in good faith and approved by the Board of Directors.

Cash, bills and demand notes, accounts receivable, prepaid expenses, cash dividends, bank interest, dividends and bonds are valued at nominal value.

### Futures contracts

Certain Sub-Funds may invest in futures contracts and may be subject to interest rate risk, equity price risk or foreign currency risk in the normal course of pursuing their investment objectives. A Sub-Fund may buy and sell futures contracts in order to gain exposure to, or protect against, changes in interest rates, security values and foreign exchange rates. The primary risks associated with the use of futures contracts are the imperfect correlation between changes in market values of securities held by the Sub-Fund and the prices of futures contracts, and the possibility of an illiquid market. The aggregate principal amounts of the futures contracts are not recorded in the financial statements. Fluctuations in the value of the contracts are recorded in the Statement of assets and liabilities as an asset or liability as unrealised and in the Statement of operations and changes in net assets as a net change in unrealised appreciation/(depreciation) until the futures contracts are closed, at which point they are recorded as net realised profits or losses on futures contracts. Variation margin on futures contracts, there is minimal counterparty risk to the Sub-Fund since futures are exchange traded and the exchange's clearinghouse, as counterparty to all exchange traded futures, guarantees the futures against default.

## Forward foreign currency contracts

Certain Sub-Funds may invest in forward foreign currency contracts and may be subject to foreign currency risk in the normal course of pursuing their investment objectives. A forward foreign currency contract is an agreement between two parties to purchase or sell a specific currency for an agreedupon price at a future date. The Sub-Fund enters into forward foreign currency contracts to facilitate transactions in non-USD or non-EUR denominated securities and to attempt to minimise the risk to the Sub-Fund from adverse changes in the relationship between currencies. Forward foreign currency contracts are recorded at the forward rate and marked to market daily. When the contracts are closed, realised profits and losses arising from such transactions are recorded as net realised profit or loss on forward foreign currency contracts. The Sub-Fund could be exposed to risks if the counterparties to the contracts are unable to meet the terms of their contracts or if the value of the foreign currency contracts. This risk may be mitigated if there is a master netting arrangement between the Sub-Fund and the counterparty. The unrealised appreciation and unrealised depreciation of the forward foreign currency contracts are recorded in the Statement of assets and liabilities as an asset or liability, respectively, and in the Statement of operations and changes in net assets as net change in unrealised appreciation/(depreciation) until the forward foreign currency contracts are closed, at which point they are recorded as net realised profits or losses on forward foreign currency contracts.

## Contracts for difference

Certain Sub-Funds may purchase or sell contracts for difference and may be subject to equity risk in the normal course of pursuing its investment objectives to gain exposure to an underlying security. A contract for difference is an agreement where one party pays the other an amount determined by the difference between the opening and the closing price of the underlying security. The buyer of the contract for difference pays the seller the positive difference and the seller of the contract for difference pays the buyer the negative difference. The value of the contract for difference is marked to market daily based upon quotations from an independent pricing service or an independent broker-dealer, and any change in value is recorded as an unrealised appreciation or depreciation until the contract for difference is closed, at which point it is recorded as a net realised profit or loss. Any interest accrued or dividends recorded on any underlying security during the period of the contract for difference is recorded as income for a purchase contract and as expense for a sell contract. The Sub-Fund could be exposed to risks if the counterparty defaults on its obligation to perform, or if there are unfavourable changes in the fluctuation in the price of the underlying security.

## Options

Certain Sub-Funds may write covered call options or secured put options on individual securities and/or indexes and may be subject to equity price risk in the normal course of pursuing their investment objectives. When a Sub-Fund writes an option, an amount equal to the premium received is recorded as a liability and is subsequently adjusted to the current market value of the written option. Premiums received from written options that expire unexercised are recognised as net realised profit on the expiration date. For exercised options, the difference between the premium received and the amount paid on effecting a closing purchase transaction, including brokerage commissions, is treated as a net realised loss. If a call option is exercised, the premium is added to the proceeds from the sale of the underlying security in calculating the net realised profit or loss on the sale. If a put option is exercised, the premium reduces the cost of the security purchased. A Sub-Fund, as a writer of an option, bears the market risk of an unfavourable change in the price of the security and/or index underlying the written option.

A Sub-Fund may also purchase call or put options. Premiums paid are included in the Statement of assets and liabilities as investments, the values of which are subsequently adjusted based on the current market values of the options. Premiums paid for purchased options that expire are recognised as realised losses on the expiration date. Premiums paid for purchased options that are exercised or closed are added to the amount paid or offset against the proceeds received for the underlying security to determine the net realised profit or loss. The risk of loss associated with purchased options is limited to the premium paid.

Options traded on an exchange are regulated and terms of the options are standardised. Purchased options traded over-the- counter expose a Sub-Fund to counterparty risk in the event the counterparty does not perform. This risk can be mitigated by having a master netting arrangement between the Sub-Fund and the counterparty and by having the counterparty post collateral to cover the Sub-Fund's exposure to the counterparty.

### Swap contracts

Swap contracts are agreements between certain Sub-Funds and a counterparty to exchange a series of cash flows over a specified period. Swap agreements are privately negotiated contracts between the Sub-Funds that are entered into as bilateral contracts in the over-the-counter market ("OTC swaps") or centrally cleared with a central clearinghouse.

The Sub-Funds entered into OTC swaps. For OTC swaps, any upfront premiums paid and any upfront fees received are shown as swap premiums paid and swap premiums received, respectively, in the Statement of assets and liabilities and amortised over the term of the contract. The daily fluctuations in market value are recorded as unrealised gains or losses on OTC swaps in the Statement of assets and liabilities. Payments received or paid are recorded in the Statement of operations and changes in net assets as realised gains or losses, respectively. When an OTC swap is terminated, a realised gain or loss is recorded in the Statement of operations and changes in net assets equal to the difference between the proceeds from (or cost of) the closing transaction and the Sub-Fund's basis in the contract, if any. Generally, the basis of the contract is the premium received or paid.

#### Total return swaps

The Sub-Funds may enter into total return swap contracts for hedging or speculative purposes. Total return swaps are agreements between the Sub-Funds and a counterparty to exchange periodic payments based on the value of asset or non–asset references. One cash flow stream is typically based on a non-asset reference (such as an interest rate) and the other cash flow stream is based on the total return of a reference asset (such as a security or a basket of securities or securities index). To the extent the total return of the security or index underlying the transaction exceeds or falls short of the offsetting interest rate obligation, the Sub-Funds will receive a payment from, or make a payment to, the counterparty.

The Sub-Funds are exposed to risks if the counterparty defaults on its obligation to perform, or if there are unfavorable changes in the fluctuation of interest rates or in the price of the underlying security or index. In addition to counterparty credit risk, the Sub-Funds are subject to liquidity risk if there is no market for the contracts and is exposed to the market risk factor of the specific underlying financial instrument or index.

#### Interest rate swaps

The Sub-Funds may enter into interest rate swap contracts for hedging purposes to manage the Sub-Funds' exposure to interest rates. Interest rate swaps involve the exchange of periodic payments based on interest rates between a Sub-Fund and a counterparty. One cash flow stream will typically be a floating rate payment based on a specified floating interest rate and the other cash flow stream is typically a fixed interest rate.

The Sub-Funds may enter into interest rate swaps in which it pays the fixed or floating interest rate in order to increase or decrease exposure to interest rate risk. If interest rates rise, floating payments under the swap agreement will be greater than the fixed payments. The Sub-Funds are subject to interest rate risk and is also exposed to counterparty credit risk and liquidity risk.

#### Securities transactions and income recognition

Securities transactions are recorded on a trade date basis. Realised gains and losses are calculated using the first-in-first-out (FIFO) method.

Dividend income is recognised on the ex-dividend rate. Interest income is accrued daily and bond discounts and premiums are amortised daily. Income is recorded net of any withholding tax where recovery of such taxes is not assured.

## **Foreign currency**

Transactions expressed in currencies other than each Sub-Fund's base currency are translated into each Sub-Fund's base currency at the exchange rates at the date of the transactions. Assets and liabilities in currencies other than the base currency of each Sub-Fund are translated into each Sub-Fund's base currency at the exchange rates at the end of the period. The combined figures of the Fund are expressed in USD and include the total amounts of the financial statements of each Sub-Fund. A currency translation adjustment is included in the Statement of operations and changes in net assets in determining the results for the accounting period. For each Sub-Fund transactions are translated at exchange rates as of the NYSE close.

The reference currency of the Fund as reflected in the financial statements is USD. ## Formation expenses

Initial costs and expenses of the formation of the Fund were borne by the Fund and fully amortised. The formation costs of new Sub-Funds are borne by the relevant Sub-Fund and amortised over a period not exceeding five years.

## 3. MANAGEMENT FEES AND TRANSACTIONS WITH CONNECTED PERSONS

## Management company fees

Allspring Global Investments Luxembourg S.A. (the "Management Company" and "Principal Distributor"), a direct, wholly-owned subsidiary of Allspring Global Investments Holdings, LLC, a holding company indirectly owned by certain private funds of GTCR LLC and Reverence Capital Partners, L.P., has been appointed as the management company of the Fund. The Fund pays the Management Company a monthly fee which does not exceed 0.04% per annum of the net assets of the Fund. The fee is subject to a minimum monthly fee of EUR 1,700 per Sub-Fund.

The list of funds managed by the Management Company may be obtained, on simple request, at the registered office of the Management Company.

## Investment management fees

Class X Shares may be purchased by retail investors and Class Y Shares may be purchased by institutional investors, provided they or their financial intermediaries have an agreement with the Principal Distributor/Management Company or the investment manager expressly providing them access to Class X Shares or Class Y Shares, as applicable. Successive Class X Shares and Class Y Shares may be issued in one or different Sub-Funds, numbered 1, 2, 3 etc. and named X1, X2, X3, etc. and Y1, Y2, Y3, etc. for the first, second and third Class X Shares and Class Y Shares launched, respectively. The investment management fees for these classes are designed to accommodate an alternative charging structure and the fees are stipulated in separate negotiated agreement and may include performance fees.

Allspring Funds Management, LLC (the "Investment Manager") manages the investment and reinvestment of the assets of each Sub-Fund in accordance with the investment objectives and restrictions of each Sub-Fund, under the overall responsibility of the Board of Directors, and is remunerated for such services by the Management Company.

The Investment Manager has delegated certain of its functions to Allspring Global Investments, LLC and Allspring Global Investments (UK) Limited as submanagers of the Sub-Funds (each a "Sub-Manager", collectively the "Sub-Managers"). Each Sub-Manager serves to assist in the day-to-day asset management of the respective Sub-Funds. The fees of the Sub-Managers are borne by the Investment Manager.

## Performance fee

Class AP, Class IP and Class ZP Shares of Global Long/Short Equity Fund may each pay a performance fee to the Management Company. The Management Company may pay part or all of the performance fee to the Investment Manager and the Investment Manager may in turn pay part or all of any portion of the performance fee it receives from the Management Company to the Sub-Managers. The performance fee is calculated in the Sub-Fund's base currency, USD, for all share classes including those not denominated in USD. Under this method of performance fee calculation, unhedged non-base currency denominated classes may incur a performance fee at times when the NAV of this share class is lower than, and has depreciated over the time period of the performance fee, relative to the NAV of a comparable share class calculated in a Sub-Fund's base currency. Conversely, a performance fee may not be incurred on an unhedged non-base currency denominated share class when the NAV of this share class. The performance fee is equal to 20% of the appreciation of the performance fee relative to the NAV of a base currency denominated share class. The performance fee is equal to 20% of the appreciation of the NAV per share (prior to the deduction of the performance fee) calculated in USD at the end of each fiscal year when the NAV per share exceeds the high watermark after deduction of the hurdle rate. The high watermark is the highest end of fiscal year NAV per share for the relevant class. Since inception of the Sub-Fund when the performance fee is paid. The first high watermark will be the initial NAV per share for the relevant class. The hurdle rate applied to the Global Long/Short Equity Fund is 50% MSCI World Index/50% 3 Month LIBOR. Both indexes are expressed in USD. The amount of performance fee paid will never exceed 10% of the NAV per share at the end of the fiscal year when the performance fee is paid.

The performance fee is calculated and accrued daily and paid annually in arrears at the end of the fiscal year, except that, when a redemption is made on any valuation day other than the fiscal year end, a performance fee (if accrued as of the date of such redemption) shall be crystalised in respect of the shares being redeemed and paid to the Management Company on a quarterly basis. Global Long/Short Equity Fund did not pay performance fees during the six months ended 30 September 2023.

### Transactions with connected persons

The Management Company also acts as the principal distributor of the Fund. The Principal Distributor has entered into sub-distribution agreements or marketing support agreements with Allspring Funds Distributor, LLC and Allspring Global Investments (UK) Limited (each an "Affiliated Sub-Distributor", collectively the "Affiliated Sub-Distributors") pursuant to which each Affiliated Sub-Distributor has been appointed as a non-exclusive sub-distributor or marketing representative in respect of the promotion, marketing and sale of shares of one or more of the Sub-Funds.

Each Affiliated Sub-Distributor may receive compensation from the Principal Distributor for the services it provides, if any, in connection with the promotion, marketing and sale of shares.

The Directors who are also officers and/or directors of the Investment Manager and/or its affiliates do not receive separate remuneration from the Fund. Richard Goddard, Jürgen Meisch and Yves Wagner, who are Directors with no affiliation with the Investment Manager and/or its affiliates, each receive remuneration at a flat rate with no variable element. The accrued aggregate Directors' remuneration relating to the Fund amounted to USD 163,700 for the six months ended 30 September 2023.

No transactions of the Fund were effected through a broker who is an affiliate of the Fund, the Management Company/Principal Distributor, the Investment Manager, the Sub-Managers or the Directors of the Fund. All transactions with connected persons were entered into in the ordinary course of business and under normal commercial terms.

## 4. DEPOSITARY BANK AND ADMINISTRATION FEES

Brown Brothers Harriman (Luxembourg) S.C.A. has been appointed as the depositary bank and administrator for the Fund. Custodian fees are included in Depositary bank and administration fees. The depositary bank fee is calculated based on an agreed upon schedule. Under the depositary agreement, Brown Brothers Harriman (Luxembourg) S.C.A. receives annual safekeeping and servicing fees with rates varying according to the country of investment. Under the administrative agreement, Brown Brothers Harriman (Luxembourg) S.C.A. receives a fee for its services according to an agreed upon schedule and is reimbursed for out-of-pocket expenses. The depositary bank and administration fees are accrued on each valuation day based on the previous day's NAV along with the number of transactions processed each month and are paid at the end of each month.

## 5. REGISTRAR, TRANSFER AGENT AND PAYING AGENT FEES

Brown Brothers Harriman (Luxembourg) S.C.A. also serves as the registrar, transfer agent and paying agent of the Fund. For these services, Brown Brothers Harriman (Luxembourg) S.C.A. is responsible for the maintenance of the register of shareholders and for the distribution of documents (statements, reports and notices) to shareholders and is paid by the Fund. The registrar, transfer agent and paying agent fees are payable monthly in arrears in accordance with relevant agreements.

## 6. WAIVED FEES AND REIMBURSED EXPENSES

The waived fees and/or reimbursed expenses represent amounts exceeding the total expense ratio caps of each Sub-Fund during the financial period. These amounts are reimbursed by the Investment Manager to each relevant Sub-Fund when the actual total expense ratio of each class exceeds the following rates:

### 8. TAX STATUS

The Fund is not liable for any Luxembourg tax on income, profits or gains, but it is liable in Luxembourg for an annual subscription tax (*taxe d'abonnement*), which is calculated and paid quarterly.

Each Sub-Fund is liable in Luxembourg for a *taxe d'abonnement* at a rate of (i) 0.05% per annum of the net assets of each class which is available to all investors and (ii) 0.01% per annum of the net assets of each class which is restricted to institutional investors. Each Sub-Fund is liable for value added taxes applicable to certain services, which are applied and incorporated in the fees incurred by each Sub-Fund.

No stamp duty or other tax is payable in Luxembourg on the issue or redemption of shares for investments in undertakings for collective investment in Luxembourg.

No Luxembourg tax is payable on the realised capital gains or unrealised capital appreciation of the assets of the Fund. Certain countries may require the Sub-Funds to pay a capital gains tax on unrealised gains of investments domiciled in those countries. These amounts are included in Contingent tax liability and Contingent tax expenses in the Statement of assets and liabilities and the Statement of operations and changes in net assets, respectively.

Dividends and interest received by the Sub-Funds on their investments are in many cases subject to irrecoverable withholding taxes at their source.

### 9. DISTRIBUTION POLICY

Under normal circumstances, the Board of Directors does not intend to declare and make distributions with respect to the net investment income and realised capital gains, if any, attributable to the Accumulating Classes, which are represented with the suffix "acc.". Accordingly, the net investment income of the Accumulating Classes will neither be declared nor distributed. However, the NAV per share of these Accumulating Classes will reflect any net investment income or capital gains.

Under normal circumstances, the Board of Directors intends to make distributions at least annually as at the end of the financial year, or at other time(s) to be determined by the Board of Directors, with respect to the net income, if any, attributable to certain Distributing Classes and with respect to gross income, if any, attributable to certain other Distributing Classes. With respect to the Global Equity Enhanced Income Fund, distributions made by Distributing Classes will include net income and, if necessary, net realised gains in seeking to pay a targeted quarterly yield. Distributing Classes that distribute net income will be represented with the suffix "distr." and Distributing Classes that distribute gross income will be represented with the suffix "distr." A Sub-Fund will re-invest all distributions in additional shares of the same class of shares of the Sub-Fund giving rise to the distribution, and not distribute cash to shareholders in connection with any distributions, unless otherwise expressly requested by the relevant shareholder. The frequency of distributions for each Sub-Fund is available under **allspringglobal.com**.

Distributing Classes that distribute gross income may result in shareholders receiving a higher dividend than they would have otherwise received and therefore may be subject to a higher income tax liability as a result. Shareholders should seek their own professional tax advice in this regard.

Also, with respect to such gross income Distributing Classes, since fees and expenses are applied to capital rather than to income, the potential for future appreciation of NAV of such shares may be eroded, and, under normal circumstances, the NAV of a gross income Distributing Class will typically be smaller than the NAV of a net income Distributing Class. A smaller NAV can result in performance variance when comparing gross income versus net income Distributing Classes.

The Fund uses an accounting practice known as equalisation, where a portion of the proceeds from the subscription of shares, conversion of shares and the costs from redemption of shares, equivalent on a per share basis to the amount of undistributed net investment income and/or net realised gains on the date of the transaction, is credited or charged to undistributed net income and/or net realised gains. As a result, issues, conversions and redemptions of shares do not impact undistributed net investment income and/or net realised gains per share.

The Board of Directors may amend this policy at any time upon notice without prior shareholder approval.

No distribution may be made which would result in the net assets of the Sub-Fund falling below the minimum provided for by Luxembourg law.

Dividends not claimed within five years from their payment date will lapse and revert to the relevant Sub-Fund.

### 10. SOFT DOLLAR ARRANGEMENTS

To the extent not prohibited by applicable laws or regulations, each Sub-Manager may, in circumstances in which two or more broker-dealers are in a position to offer comparable results for a portfolio transaction, give preference to a broker-dealer that has provided statistical or other research services to the Sub-Manager. In selecting a broker-dealer under these circumstances, each Sub-Manager will consider, in addition to the factors listed above, the quality of the research provided by the broker-dealer. Each Sub-Manager may cause a Sub-Fund to pay higher commissions than those obtainable from other broker-dealers in exchange for such research services. The research services generally include: (1) furnishing advice as to the value of securities, the advisability of investing in, purchasing, or selling securities, and the advisability of securities or purchasers or sellers of securities; (2) furnishing analyses and reports concerning issuers, industries, securities, economic factors and trends, portfolio strategy, and the performance of accounts; and (3) effecting securities transactions and performing functions incidental thereto. By allocating transactions in this manner, each Sub-Manager is able to supplement its research and analysis with the views and information of securities firms. Information so received will be in addition to, and not in lieu of, the services required to be performed by the Sub-Managers under the sub-advisory contracts, and the expenses of each Sub-Manager will not necessarily be reduced as a result of the receipt of this supplemental research information.

Furthermore, research services furnished by broker-dealers through which each Sub-Manager places securities transactions for a Sub-Fund may be used by the Sub-Managers in servicing its other accounts, and although not all of these services may be used by the Sub-Managers in connection with advising the Sub-Fund, they will always be in the interest of the Sub-Fund.

### 11. TRANSACTION COSTS

Transaction costs incurred by the Sub-Funds relate to the purchase or sale of transferable securities, derivatives or other eligible assets. Transaction costs include commission costs, settlement fees and broker fees. Any depositary transaction costs of each Sub-Fund are included on the Statement of operations and changes in net assets under Depositary bank and administration fees. Not all transaction costs are separately identifiable. For fixed income investments, forward currency contracts and other derivative contracts, transaction costs are included in the purchase and sales price of the investment. These transactions costs are captured within the performance of each Sub-Fund.

The transaction costs incurred by the Sub-Funds during the six months ended 30 September 2023 are as follows:

### 12. PARTIAL SWING PRICING

If on any valuation day the aggregate transactions in shares of a Sub-Fund result in a net increase or decrease in net assets which exceeds a certain percentage of total net assets (the "threshold"), as established by the Board of Directors, the NAV of the relevant Sub-Fund will be adjusted by an amount not exceeding 1.50% (the "adjustment factor") of that NAV, which reflects the estimated dealing costs (including brokerage fees, taxes, and pricing/ market impacts) that may be incurred by the Sub-Fund and the estimated bid/offer spread of the assets in which the Sub-Fund invests. This adjustment acts as a counter to the dilution effect on the relevant Sub-Fund arising from large net cash inflows and outflows and aims to enhance the protection of the existing shareholders in the relevant Sub-Fund.

The adjustment up or down will be determined mechanically based on the predetermined threshold and adjustment factors. The adjustment will be an addition when the net movement results in a net increase in total net assets of the Sub-Fund and as a result, investors who subscribe for shares on that valuation day will effectively contribute an additional amount to offset the estimated dealing costs. The adjustment will be a deduction when the net movement results in a net decrease in total net assets of the Sub-Fund and as a result, shareholders who redeem their shares on that valuation day will effectively receive a lesser amount to offset the estimated dealing costs. The adjusted NAV will be applicable to all subscriptions, redemptions or switches in shares of the relevant Sub-Fund on that valuation day and will not take into account the specific circumstances of any individual investor transaction.

The threshold is set by the Board of Directors taking into account factors such as prevailing market conditions, estimated dilution costs and the size of the relevant Sub-Fund. The adjustment factor for each Sub-Fund is established by the Board of Directors based on the historical liquidity and costs of trading assets of the type held by the relevant Sub-Fund and may be different between Sub-Funds. The dealing costs actually incurred following an adjustment are compared to the estimated dealing costs on at least a quarterly basis and a recommendation to change the threshold or adjustment factor for a Sub-Fund must be approved by the Board of Directors. In addition, the Board of Directors or any duly authorised delegate of the Board of Directors may elect not to apply the adjustment factor to subscriptions of shares for inflows which are in line with the target size of a Sub-Fund and in other cases which are in the interest of existing shareholders. In such cases the Management Company or an affiliate may pay the amount of the otherwise applicable adjustment from its own assets in order to prevent dilution of shareholder value. In these circumstances, redemption requests will be dealt with based on the unadjusted NAV.

All Sub-Funds participate in partial swing pricing. During the six months ended 30 September 2023, 2 Degree Global Equity Fund, Alternative Risk Premia Fund, China A Focus Fund, Climate Focused Investment Grade Credit Fund, Global Factor Enhanced Equity Fund, Global Small Cap Equity Fund, Small Cap Innovation Fund, U.S. Short-Term High Yield Bond Fund and USD Investment Grade Credit Fund applied swing pricing adjustments.

As at 30 September 2023, the NAV of each share class of each Sub-Fund was not subject to a swing pricing adjustment.

### 13. GOVERNANCE STATEMENT

The Board of Directors adheres to the Association of the Luxembourg Fund Industry ("ALFI") Code of Conduct for Luxembourg investment funds and considers the Fund to be in compliance with these principles in all material respects. The code of conduct sets a framework of high-level principles and best practice recommendations for the governance of Luxembourg investment funds.

### 14. MARKET RISKS

Russia launched a large-scale invasion of Ukraine on 24 February 2022. As a result of this military action, the United States and many other countries have instituted various economic sanctions against Russian and Belarussian individuals and entities. The situation has led to increased financial market volatility and could have severe adverse effects on regional and global economic markets, including the markets for certain securities and commodities, such as oil and natural gas. The extent and duration of the military action, resulting sanctions imposed, other punitive action taken and the resulting market disruptions cannot be easily predicted. As at 30 September 2023, Emerging Markets Equity Fund and Emerging Markets Equity Income Fund held Russian securities each with an aggregate fair market valuation of USD 0, as noted on the applicable Sub-Fund's Portfolio of Investments. As at 30 September 2023, the NAVs of Emerging Markets Equity Fund and Emerging Markets Equity Income Fund reflected unrealised losses of USD 4,061,405 and USD 1,023,639, respectively, on Russian securities.

# Total expense ratios

Total expense ratio (TER) is calculated by dividing the expenses, excluding the bank interest, dividend expense and accrued transaction costs, by the average net assets of each class of shares and is then annualised. The total expense ratios of hedged shares classes include additional custodial fees associated with administering the hedge programs and as a result reflect higher Gross TER and Waiver amounts than the non-hedged share classes. The ratios are annualised and with respect to the average net assets calculation, week-ends are included. The TER excludes the transaction costs disclosed in Note 11 in the Notes to financial statements.

The annualised TER of each Sub-Fund for the six months ended 30 September 2023 and the capped expense ratios as at 30 September 2023 are included below for each active share class.

## Performance

Past performance is no guarantee of future performance. The value of investments and the income from them can fall as well as rise and is not guaranteed. Income may fluctuate in accordance with market conditions and taxation arrangements. Investors may not get back the amount originally invested. The performance figures do not consider charges and fees that may be levied at the time of subscription or redemption of shares. Levels and bases of taxation may change from time to time.

Subscriptions may be made only on the basis of the current prospectus, of which the most current unaudited interim report and accounts form an integral part, and key investor information documents of the Fund. Copies are available from the registered office of the Fund.

Calculation methodology is based on industry standards.

Returns for periods of less than one year are not annualised. All returns are as at 30 September 2023 unless otherwise noted.

# Securities financing transactions

Regulation (EU) 2015/2365 of the European Parliament and the Council of 25 November 2015 on transparency of securities financing transactions and of reuse ("SFTR") introduced reporting requirements for securities financing transactions ("SFTs"), total return swaps and any financial instruments received as collateral and that are intended to be reused.

SFTs as defined as per Article 3(11) of the SFTR include:

- · repurchase/reverse repurchase agreements,
- · securities or commodities lending and securities or commodities borrowing,
- · buy-sell back transactions or sell-buy back transactions and
- margin lending transactions

As at 30 September 2023, Alternative Risk Premia Fund and Global Long/Short Equity Fund held contracts for difference, Alternative Risk Premia Fund held a total return swap, which are under the scope of the SFTR.

## Global data

The amount of assets subject to SFTR disclosure requirements all SFTs as at 30 September 2023 is as follows:

Description		NET UNREALISED APPRECIATION/(DEPRECIATION) USD	% OF NET ASSETS
Alternative Risk Premia Fund	Contracts for difference	53,642	0.26
	Total return swap	(34,945)	(0.17)
Global Long/Short Equity Fund	Contracts for difference	(723,354)	(0.64)

## Concentration data

Securities that are pledged as collateral for contracts for difference are disclosed in the Portfolio of investments of the respective Sub-Funds. As at 30 September 2023, the aggregate value of these securities, notated with a "+" in its description on the Portfolio of investments of the respective Sub-Funds, amounted to USD 67,867,943.

The issuers for collateral securities received/pledged as at 30 September 2023, are as follows:
