Schroder Tellworth UK Dynamic Absolute Return

a sub-fund of Schroder Absolute Return Fund Company

Class P2 Accumulation GBP (GB00B3N53472)

This fund is managed by Schroder Unit Trusts Limited, which is a member of the Schroders Group.

Objectives and investment policy

Objectives

The fund aims to achieve an absolute return (after fees have been deducted) by investing in equity and equity related securities of UK companies. Absolute returns means the fund seeks a positive return over rolling 12-month periods in all market conditions, but this cannot be guaranteed and your capital is at risk.

Investment policy

The fund invests at least 80% of its assets directly, or indirectly through derivatives, in equities of companies that are constituents of the FTSE All-Share Index or the Alternative Investment Market and that are incorporated in the UK, or derive a significant proportion of their revenues or profits from the UK, or are primarily operating in this jurisdiction.

The fund invests at least 50% of its assets in small and medium sized companies. Small and medium sized companies are companies which, at the time of purchase, are considered to be in the bottom 80% by market capitalisation of the UK equities market.

The fund may also invest in bonds issued by UK companies or the UK government, money market instruments and may hold cash. Bonds will be rated investment grade (as measured by credit rating agencies, or if not rated, deemed by the ACD to have at least an equivalent rating).

The fund may use derivatives with the aim of achieving investment gains, reducing risk or managing the fund more efficiently. The fund may have long and short positions and may be net long or short when long and short positions are combined.

The fund may use contracts for differences, forward foreign exchange transactions, interest rate and government bond futures, and other exchange traded and off exchange traded derivative contracts. Such derivative contracts have the potential to significantly increase the fund's risk profile.

Benchmark

The fund's performance should be assessed against its objective of providing a positive return over rolling 12-month periods in all market conditions and compared against the FTSE All Share (Gross Total Return) Index.

Dealing frequency

You can buy and sell shares weekly on Thursday (or the next business day if the Thursday is not a business day). You are required to provide us with your dealing instructions before 12:00 on the business day prior to the day on which shares are bought or sold.

Distribution policy

This share class accumulates income received from the fund's investments, meaning it is kept in the fund and its value is reflected in the price of the share class.

Risk and reward profile

The risk and reward indicator

The risk category is based upon the fund's risk target and there is no guarantee that the fund will achieve it.

The fund's risk category is not guaranteed to remain fixed and may change over time.

A fund in the lowest category does not mean a risk-free investment.

The fund is in this category because it can take higher risks in search of higher rewards and its price may rise and fall accordingly.

Risk factors

Concentration risk: The fund may be concentrated in a limited number of geographical regions, industry sectors, markets and/or individual positions. This may result in large changes in the value of the fund, both up or down.

Currency risk: The fund may lose value as a result of movements in foreign exchange rates, otherwise known as currency rates.

Derivatives risk: Derivatives, which are financial instruments deriving their value from an underlying asset, may be used to manage the portfolio efficiently. The fund may also materially invest in derivatives including using short selling and leverage techniques with the aim of making a return. A derivative may not perform as expected, may create losses greater than the cost of the derivative and may result in losses to the fund.

Liquidity risk: In difficult market conditions, the fund may not be able to sell a security for full value or at all. This could affect performance and could cause the fund to defer or suspend redemptions of its shares, meaning investors may not be able to have immediate access to their holdings.

Operational risk: Operational processes, including those related to the safekeeping of assets, may fail. This may result in losses to the fund.

Performance risk: Investment objectives express an intended result but there is no guarantee that such a result will be achieved. Depending on market conditions and the macro economic environment, investment objectives may become more difficult to achieve.

Charges

One-off charges taken before or after you invest

Entry charge None

Exit charge None

This is the maximum that might be taken out of your money before it is invested or before the proceeds of your investment are paid out.

Charges taken from the fund over a year

Ongoing charges 0.91%

Charges taken from the fund under certain specific conditions

Performance fee

Subject to the "high watermark" principle, 20.00% of the share class positive performance. See the prospectus for more details. In the fund's last financial year the performance fee was 0.00% of the fund.

The charges you pay are used to pay the costs of running the fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

The entry and exit charges shown are maximum figures and in some cases you might pay less. You can find out the actual entry and exit charges from your financial advisor.

The ongoing charges figure is based on the last year's expenses for the year ending December 2023 and may vary from year to year. The ongoing charge figure excludes portfolio transaction costs. The charges are mostly, if not exclusively, the Schrodgers Annual Charge (as may be discounted for retail share classes depending on the size of the fund) but certain additional expenses may be charged as set out in the prospectus. The Schrodgers Annual Charge (without any discount) for this share class of the fund is 0.91%. The fund's annual report for each financial year will include details on the exact charges made including any discounts.

Please see the prospectus for more details about the charges.
