OBJECTIVE AND PHILOSOPHY

The investment objective is to generate sustainable excess returns versus global equity markets through an actively managed portfolio of equities.

The Fund adopts a value-based investment approach founded on the following tenets: we believe wealth is created and preserved by following a patient and disciplined investment strategy, which is focused on the long term; we seek to identify matters of strategic importance rather than fixating on short-term news flow and forecasts; and we seek to minimise turnover and limit transaction costs. We believe this philosophy allows time for the intrinsic value of the Fund holdings to be realised.
