Risks

Guinness Global Money Managers Fund is an equity fund. Investors should be willing and able to assume the risks of equity investing. The Fund invests only in companies involved in asset management and other related industries; it is therefore susceptible to the performance of that one sector, and can be volatile. The value of an investment and the income from it can fall as well as rise as a result of market and currency movement; you may not get back the amount originally invested. Further details on the risk factors are included in the Fund's documentation, available on our website.

Source FE fundinfo to 31.05.24 Investors should note that fees and expenses are charged to the capital of the Fund. This reduces the return on your investment by an amount equivalent to the Ongoing Charges Figure (OCF). The current OCF for the share class used for the fund performance returns is 0.74%. Returns for share classes with a different OCF will vary accordingly. Transaction costs also apply and are incurred when a fund buys or sells holdings. The performance returns do not reflect any initial charge; any such charge will also reduce the return.

Fund Profile

Aim

Long-term capital growth

Investment Case

Provides global exposure to the growth potential of asset managers. Successful asset managers can grow very rapidly, particularly in rising markets. Their risk-return characteristics are especially attractive, since they tend to require relatively little capital to grow. Asset management is also a growing global sector: assets under management are rising faster than underlying equity markets.

Process

50% top-down, 50% bottom-up. Value bias in bottom-up stock selection.

Portfolio

Equities of companies in asset management, wealth management, stock exchanges and custodian and trustee services. Concentrated portfolio of 30 positions. Majority of Fund invested in stocks over \$500m in size.

Investment Objective

An equity fund that invests primarily in globally based companies principally engaged in the provision of asset management services.

The Fund is actively managed and uses the MSCI World Index as a comparator benchmark only.
