

Key Investor Information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest. Unless otherwise defined in this document, all words and expressions defined in the Fund's current Prospectus shall have the same meaning herein.

GAM Star Disruptive Growth

hereafter the "Fund", a sub-fund of GAM Star Fund p.l.c.

Inst Acc - GBP (the "Share Class") **ISIN: IE00B5VMHR51**

Manager: GAM Fund Management Limited part of GAM Group AG.

Objectives and investment policy

- The investment objective of the Fund is to achieve capital appreciation.
- The Fund seeks to achieve this objective through investing primarily in equity and equity related securities (such as warrants and rights issues) of companies listed on or dealt in Recognised Markets worldwide, and up to 10% of its net assets in unlisted equities, in each case which demonstrate long term growth opportunities within sectors whose business models are driven by new technologies.
- The Fund has no geographical bias and up to 30% of net assets may be invested in Emerging Markets.
- The fund manager aims to invest in sectors and businesses that have franchises with a sustainable competitive advantage – typically accruing as a result of brands, high switching costs for customers and significant scale based cost.
- The fund manager will exploit potential pricing anomalies through disciplined and systematic stock selection and risk management.
- The Fund promotes environmental and/or social characteristics in accordance with Article 8 of Regulation (EU) 2019/2088 ("SFDR") but does not have sustainable investment as its objective.
- The Fund is actively managed in reference to the MSCI World Growth Index / Average 1 month deposit rate (the "Benchmark") and the Average 1 month deposit rate (the "Index") by virtue of the fact that it uses the Benchmark and Index in the appropriate currency for performance comparison purposes and the performance fees payable to the Co-Investment Manager may be calculated based on the performance of the

Fund against the Benchmark. However the Benchmark or Index are not used to define the portfolio composition of the Fund or as a performance target and the Fund may be wholly invested in securities which are not constituents of the Benchmark or Index.

- Shares in the Fund can be bought and sold daily (every Business Day of the Fund).
- The Fund has several share classes. These may differ with regard to fees, minimum investment, currency, use of revenues and investor qualification.
- Any income arising from this Share Class will be accumulated. Other share classes of the Fund may distribute income.
- The fund manager has discretion in managing the investments of the Fund.
- The Fund may invest up to 30% of its net assets in China A shares listed on or dealt in the Shanghai Stock Exchange or the Shenzhen Stock Exchange. Investments will be made either via the Renminbi Qualified Foreign Institutional Investor ("RQFII") regime or via the Shanghai Stock Exchange using the Shanghai Hong Kong Stock Connect.
- The Fund may use a number of simple derivative instruments for investment purposes and/or efficient portfolio management purposes. Further information on the Fund's use of derivatives can be found under the Derivatives section within the Fund's Supplement. The use of these instruments may result in the Fund being leveraged whereby the total exposure of the Fund as a result of all positions held by it may exceed its Net Asset Value.
- Recommendation: this fund may not be appropriate for investors who plan to withdraw their money within five years.

Risk and reward profile

The risk indicator is based on the volatility of the Fund's performance over the last 5 years. Where 5 years' performance history is not available the data is supplemented by proxy fund, benchmark data or a simulated historical series as appropriate.

- The Fund is assigned to the above category based on its historical fluctuations in value.
- The indicator helps investors to have a better understanding of the potential gains and losses related with the Fund. In this context, even the lowest category does not represent a risk-free investment.
- This profile is determined using historical data, as such may not be a reliable indication for the future risk profile. It is not guaranteed and may shift over time.
- This allocation to a risk category may change over time because the future performance of the Fund may fluctuate differently from in the past.
- The Fund does not offer the investor a guaranteed return. Nor does it guarantee the fixed repayment of the money invested in the Fund by the investor.

Further risks that may have a significant effect on the net asset value of the

Fund include:

- **Counterparty / Derivatives Risk:** if a counterparty to a financial derivative contract were to default, the value of the contract, the cost to replace it and any cash or securities held by the counterparty to facilitate it, may be lost.
- **Concentration Risk:** concentration in a limited number of securities and industry sectors may result in more volatility than investing in broadly diversified funds.
- **Special Country Risk / China:** changes in China's political, social or economic policies may significantly affect the value of the Fund's investments. China's tax law is also applied under policies that may change without notice and with retrospective effect.
- **Currency Risk - Non Base Currency Share Class:** non-base currency share classes may or may not be hedged to the base currency of the Fund. Changes in exchange rates will have an impact on the value of shares in the Fund which are not denominated in the base currency. Where hedging strategies are employed, they may not be fully effective.
- **Capital at Risk:** all financial investments involve an element of risk. Therefore, the value of the investment and the income from it will vary and the initial investment amount cannot be guaranteed.
- **Equity:** investments in equities (directly or indirectly via derivatives) may be subject to significant fluctuations in value.

The "Risk Factor" section of the Prospectus and the "Risk Factor" section of the Fund Supplement for this Fund give you more details about all the risks for the Fund – see under "Practical Information" for how to obtain a copy.

Charges

The charges you pay are used to pay the costs of running the Share Class, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry charge	5.00%
Exit charge	0.00%
Switching charge	1.00%
This is the maximum that might be taken out of your money before it is invested / before the proceeds of your investment are paid out.	
Charges taken from the fund over a year	
Ongoing charges	0.88%
Charges taken from the fund under certain specific conditions	
Performance fee	<p>Calculation Methodology: 10.00% of any Share Class Return above the MSCI World Growth Index, or the High Water Mark, whichever is the lower.</p> <p>Calculation period is based on the same period as the ongoing charge.</p> <p>Performance fee charged in the last Calculation Period: 0.40%.</p>

The **entry, exit and switching charges** shown are maximum figures. In some cases you might pay less – you can find this out from your financial adviser.

The **ongoing charges** figure is based on expenses at the end of the financial year and includes the ongoing charges of the underlying funds. This figure may vary from year to year. It excludes bank interest, portfolio transaction costs and any performance fees if applicable.

You may be charged a **dilution levy** of up to 1% of the value of the Shares (representing the cost of buying or selling investments) on entry to or exit from the Fund.

For more information about charges, please see the “Fees and Expenses” section of the Prospectus and the “Fees” section of the Fund Supplement, which are available at www.gam.com

Past performance

- Please note that past performance is not necessarily a guide to the future performance of the Fund.
- The data is net of tax and charges and is exclusive of subscription and redemption fees, as any subscription and redemption fees are not received by the Fund.
- Launch year of the Fund: 2011
Activation year of the share class: 2012
- Past performance has been calculated in GBP and relates to the Share Class.
- As of 20.01.2020, the GAM Star Technology Fund was renamed the GAM Star Disruptive Growth Fund and the benchmark changed from MSCI World Information Technology to MSCI World Growth Index from launch. Therefore, the performance of the benchmark shown until this date is the performance of MSCI World Information Technology and the performance after that is the performance of MSCI World Growth Index.
