Lindsell Train Global Equity Fund

Class D - Distributing (ISIN: IE00BJSPMJ28)

A sub-fund of Lindsell Train Global Funds PLC

The sub-fund is managed by Waystone Management Company (IE) Limited.

Objectives and Investment Policy

Objective

The sub-fund's aim is to achieve growth through both share price appreciation and income from the shares.

Investment Policy

The sub-fund invests directly in the shares of global companies primarily quoted on recognised exchanges in developed countries.

Essential features of the sub-fund:

- The sub-fund is actively managed, the Investment Manager having discretion in selecting investments in line with the sub-fund's objective and investment policy.
- The MSCI World Index (the "Benchmark") has been selected as the sub-fund's Benchmark for performance comparison purposes only. Whilst the sub-fund may invest in companies that are components of the Benchmark, the sub-fund does not track the Benchmark or use the Benchmark as a performance target, and the sub-fund may hold investments that are not constituents of the Benchmark. The Benchmark does not play a role in the construction of the sub-fund's portfolio.
- The sub-fund is a concentrated Fund which means that it holds fewer shares than many other funds; typically between 20 and 35

individual holdings. In building the portfolio, the Investment Manager does not apply any limits in terms of stock and sector portfolio weightings, when compared to the Benchmark.

- This class does not use currency hedging.
- This class is a distributing class, meaning any income will be paid out to you twice a year. There is an option to reinvest the dividends back into the sub-fund.
- You can buy and sell shares in the sub-fund on any week day on which commercial banks are open in Dublin and London.
- This sub-fund may not be appropriate for investors who plan to withdraw their money within five years.
- Please refer to the Prospectus for further information.

Risk and reward profile

- This scale gives an indication of how much a sub-fund's performance has fluctuated in the past and therefore the potential risk of losing money.
- This indicator is based on five year historical data and may not be a reliable indication of the future risk profile of this share class.
- The risk number is not guaranteed and may shift over time.
- The lowest category does not mean risk free.
- This share class has been classed as 5 because its volatility has been measured as above average.
- The sub-fund does not offer any capital guarantee or protection.

Risks that are materially relevant to the sub-fund include :

- The sub-fund invests in shares of companies and the value of these shares and the income from them can go down as well as up due to changes in the company, its industry, changes in currency or the economy in which it operates.
- The sub-fund's concentration in a limited number of shares means it may be more affected if an individual company has significant losses. This may at times increase the volatility of the sub-fund relative to its Benchmark and the possibility of underperforming the Benchmark over some time periods.
- Changes in exchange rates between the currencies of investments held by the sub-fund and the sub-fund's base currency may negatively affect the value of an investment and any income received from it.
- All or part of the fees and expenses of the sub-fund may be taken from its capital (rather than income). This may reduce the amount of capital available for investment and adversely affect the sub-fund's overall growth. Shareholders may not get back the original amount invested.
- Please see the Prospectus (section entitled "Risk Factors") to read about other risks.
